

TEXAS DEPARTMENT OF HOUSING AND COMMUNITY AFFAIRS

BOARD OF DIRECTORS MEETING

John H. Reagan Building
Room JHR 140
105 W. 15th Street
Austin, Texas

November 12, 2015
10:00 a.m.

MEMBERS:

J. PAUL OXER, Chair
JUAN MUÑOZ, Vice-Chair
LESLIE BINGHAM ESCAREÑO, Member
T. TOLBERT CHISUM, Member
TOM H. GANN, Member
J.B. GOODWIN, Member

TIMOTHY K. IRVINE, Executive Director

<u>AGENDA ITEM</u>	<u>I N D E X</u>	<u>PAGE</u>
CALL TO ORDER		8
ROLL CALL		
CERTIFICATION OF QUORUM		
CONSENT AGENDA		
ITEM 1: APPROVAL OF THE FOLLOWING ITEMS PRESENTED IN THE BOARD MATERIALS:		10
EXECUTIVE		
a) Board Meeting Minutes Summary for September 3, 2015		
LEGAL		
b) Presentation, Discussion, and Possible Action regarding the adoption of an Agreed Final Order concerning Edgewood Manor Senior Apartments (HTC 99203 / CMTS 2275)		
c) Presentation, Discussion, and Possible Action regarding the adoption of an Agreed Final Order concerning March Street (HTC 70107 / CMTS 926)		
ASSET MANAGEMENT		
d) Presentation, Discussion and Possible Action regarding Material Amendment to Housing Tax Credit Applications 14145 Glenwood Trails II Deer Park		
e) Presentation, Discussion and Possible Action regarding Placed in Service Deadline Extensions 13071 Windy Ridge Austin 13109 Homestead Oaks Austin 13144 Mariposa at Pecan Park Pecan Park 13145 Mariposa at Elk Drive Burleson 13234 Wynnewood Family Housing Dallas 13252 Oak Creek Village Austin 13042 The Cottages at South Acres Houston 13044 Villas of Vanston Park Mesquite		
MULTIFAMILY FINANCE		
f) Presentation, Discussion, and Possible Action on Determination Notices for Housing Tax Credits with another Issuer 15419 Woodside Apartments Palestine		
g) Presentation, Discussion, and Possible		

Action Regarding the Issuance of Multifamily Housing Revenue Bonds with TDHCA as the Issuer, Resolution No. 16-004 and a Determination Notice of Housing Tax Credits for Williamsburg Apartments

- h) Presentation, Discussion, and Possible Action on Inducement Resolution No. 16-005 for Multifamily Housing Revenue Bonds Regarding Authorization for Filing Applications for Private Activity Bond Authority
 - 15608 Gateway at Hutchins Hutchins
 - 15610 Mercantile Apartments Fort Worth
 - 15611 Peoples El Shaddai Village Dallas
 - 15612 Brooks Manor Apartments W. Columbia
 - 15613 Independent Missionary Village Hitchcock
 - 15614 Garden City Apartments Houston
 - 15615 St. James Manor Apartments Dallas

- I) Presentation, Discussion, and Possible Action regarding a Waiver of 10 TAC §10.101(b)(4) related to Mandatory Development Amenities and Determination Notices for Housing Tax Credits with another Issuer
 - 15416 Woodland Christian Towers Houston

BOND FINANCE

- j) Presentation, Discussion, and Possible Action regarding the utilization of the Department's Mortgage Warehouse Facility in conjunction with the Department's Taxable Mortgage Program ("TMP-79") and possible corresponding modification of the Master Trade Confirmation and other program documents

- k) Presentation, Discussion, and Possible Action regarding Resolution No. 16-007 authorizing application to the Texas Bond Review Board for reservation of the 2015 single family private activity bond authority carry forward from the Unencumbered State Ceiling

HOME PROGRAM

- l) Presentation, Discussion, and Possible Action on an amendment to HOME Homeowner Rehabilitation Assistance Household

Commitment Contract issued under
Reservation Agreement 2011-0092 for the
reconstruction of a single family home
by Runnels County

- m) Presentation, Discussion, and Possible Action to authorize the issuance of an Amendment to the 2015 HOME Single Family Programs Reservation System Notice of Funding Availability ("NOFA") for Single Family Non-Development Programs, and publication of the amended NOFA in the *Texas Register*

SECTION 8 HOUSING

- n) Presentation, Discussion, and Possible Action on the 2016 Section 8 Payment Standards for Housing Choice Voucher Program ("HCVP")

COMMUNITY AFFAIRS

- o) Presentation, Discussion, and Possible Action directing Staff to take necessary actions to make temporary assignments to one or more network Providers, to Issue Requests for Applications, or to otherwise arrange for temporary program delivery of Community Services Block Grant ("CSBG"), Comprehensive Energy Assistance Program ("CEAP"), and/or Weatherization Assistance Program ("WAP") to ensure continuity of programs in areas otherwise at risk of a hiatus in Program Delivery

RULES

- p) Presentation, Discussion, and Possible Action on proposed amendments to 10 TAC Chapter 23, Single Family HOME Program, Subchapter A, General Guidance, §23.2 Definitions; Subchapter C, Homeowner Rehabilitation Assistance, §23.32 Homeowner Rehabilitation Assistance (HRA) Administrative Requirements; Subchapter D, Homebuyer Assistance Program, §23.41 Homebuyer Assistance (HBA) Program Requirements and §23.42 Homebuyer Assistance (HBA) Administrative Requirements; Subchapter E, Contract for Deed Conversion Program, §23.51 Contract for Deed Conversion (CFDC) Program Requirements and §23.52 Contract for Deed Conversion (CFDC) Administrative

Requirement; Subchapter F, Tenant-Based Rental Assistance Program, §23.62 Tenant Based Rental Assistance (TBRA) Administrative Requirements; and Subchapter G, Single Family Development Program §23.72 Single Family Development (SFD) Administrative Requirements, and directing that they be published for public comment in the *Texas Register*

- q) Presentation, Discussion, and Possible Action on orders repealing 10 TAC §§20.1 - 20.16, and the subsequent adoption of new 10 TAC Chapter 20 Single Family Programs Umbrella Rule, §20.1, Purpose; §20.2, Applicability; §20.3, Definitions; §20.4, Eligible Single Family Activities; §20.5, Funding Notices; §20.6, Applicant Eligibility; §20.7, Household Eligibility Requirements; §20.8, Single Family Housing Unit Eligibility Requirements; §20.9, General Administration and Program Requirements; §20.10, Inspection and Construction Requirements; §20.11, Survey Requirements; §20.12, Insurance Requirements for Acquisition Activities; §20.13, Loan, Lien and Mortgage Requirements for Activities With Acquisition; §20.14, Amendments to Agreements and Contracts and Modifications to Mortgage Loan Documents; §20.15, Compliance and Deobligation; and §20.16, Waivers and Appeals, and directing their publication in the *Texas Register*

CONSENT AGENDA REPORT ITEMS

ITEM 2: THE BOARD ACCEPTS THE FOLLOWING REPORTS:

- a) TDHCA Outreach Activities, October 2015
- b) Report on the Closing of the Department's 2015 Series A Single Family Mortgage Revenue Refunding Bonds and 2015 Series B Single Family Mortgage Revenue Bonds
- c) Status Report on the HOME Program
- d) Report regarding the 2016-2017 Housing Trust Fund Biennial Plan
- e) Report on Department's Fair Housing Activities

ACTION ITEMS

ITEM 3:	REPORTS	
	a) Report on the meeting of the Audit Committee	12
	b) Report on Asset Management Issue	10
ITEM 4:	INTERNAL AUDIT	11
	Presentation, Discussion and Possible Action on approval of the Fiscal Year 2016 Internal Audit Work Plan	
ITEM 5:	BOND FINANCE	19
	Presentation, Discussion, and Possible Action on Resolution 16-006 Authorizing the Issuance, Sale and Delivery of Texas Department of Housing and Community Affairs Single Family Mortgage Revenue Bonds, 2015 Series C (Tax-Exempt and Taxable) (the "2015C Bonds") and Single Family Mortgage Revenue Refunding Bonds, 2015 Series D (Taxable) (the "2015D Bonds"); Approving the Form and Substance of Related Documents; Authorizing the Execution of Documents and Instruments Necessary or Convenient to Carry Out the Purposes of this Resolution; and Containing Other Provisions Relating to the Subject	
ITEM 6:	MULTIFAMILY FINANCE	23
	Presentation, Discussion, and Possible Action regarding approval of the 2016 Multifamily Direct Loan Notice of Funding Availability	
ITEM 7:	RULES	
	a) Presentation, Discussion, and Possible Action on an order adopting the repeal of 10 TAC Chapter 11 concerning the Housing Tax Credit Program Qualified Allocation Plan, and an order adopting the new 10 TAC Chapter 11 concerning the Housing Tax Credit Program Qualified Allocation Plan, and directing its publication in the <i>Texas Register</i>	46
	b) Presentation, Discussion, and Possible Action on orders adopting the repeals of 10 TAC Chapter 10 Subchapter A, concerning General Information and	112

Definitions; Subchapter B, concerning Site and Development Requirements and Restrictions; Subchapter C, concerning Application Submission Requirements, Ineligibility Criteria, Board Decisions, and Waiver of Rules; and Subchapter G, concerning Fee Schedule, Appeals, and Other Provisions; and orders adopting the new Subchapter A, concerning General Information and Definitions; Subchapter B, concerning Site and Development Requirements and Restrictions; Subchapter C, concerning Application Submission Requirements, Ineligibility Criteria, Board Decisions, and Waiver of Rules for Applications; and Subchapter G, concerning Fee Schedule, Appeals, and Other Provisions; and directing their publication in the *Texas Register*

- c) Presentation, Discussion, and Possible 114
Action to adopt the 2016 Multifamily
Programs Procedures Manual
- d) Presentation, Discussion, and Possible 115
Action on order adopting the repeal
of 10 TAC Chapter 10 Subchapter D
concerning Underwriting and Loan Policy
and an order adopting new 10 TAC Chapter
10 Subchapter D concerning Underwriting
and Loan Policy and directing its
publication in the *Texas Register*
- e) Presentation, Discussion and Possible 120
Action on an order adopting the repeal
of 10 TAC Chapter 10 Subchapter E
concerning Post Award and Asset
Management Requirements and an order
adopting new 10 TAC Chapter 10 Subchapter
E concerning Post Award and Asset
Management Requirements and directing
its publication in the *Texas Register*

PUBLIC COMMENT ON MATTERS OTHER THAN ITEMS FOR WHICH THERE WERE POSTED AGENDA ITEMS.	124
EXECUTIVE SESSION	107
OPEN SESSION	107
ADJOURN	129

P R O C E E D I N G S

1
2 MR. OXER: Good morning, everyone. I'd like to
3 welcome you all to the November 12 meeting of the Texas
4 Department of Housing and Community Affairs Governing
5 Board.

6 We'll begin, as we do, with roll call. Ms.
7 Bingham?

8 MS. BINGHAM ESCAREÑO: Here.

9 MR. OXER: Mr. Chisum?

10 MR. CHISUM: Present.

11 MR. OXER: Mr. Gann?

12 MR. GANN: Here.

13 MR. OXER: Mr. Goodwin?

14 MR. GOODWIN: Here.

15 MR. OXER: Dr. Muñoz?

16 DR. MUÑOZ: Here.

17 MR. OXER: And I'm here. That gives us a full
18 house, so we obviously have a quorum, we're in business.

19 Tim, lead us in the pledge.

20 (The Pledge of Allegiance and the Texas Pledge
21 were recited.)

22 MR. OXER: I'd like to just take a moment at
23 the chairman's discretion to say how much we appreciate
24 yesterday recognizing Veterans Day and I'd like to
25 recognize the veterans on the Board here. I have two

1 strong Marines here to my left, Mr. Chisum and Dr. Muñoz.
2 Semper fi, brothers.

3 DR. MUÑOZ: Semper fi.

4 MR. OXER: Mr. Gann on the side over there who
5 spent time in the Army. Appreciate their service and for
6 all of those, and for everybody who doesn't know about it,
7 put a green light on the front light of your house to keep
8 the front door open to recognize our veterans.

9 All right. Let's get to work. Michael, do we
10 have anybody to recognize here today?

11 (No response.)

12 MR. OXER: All right. Let's get to work. I
13 think we're going to pull a report item, or is that the
14 action item, Leslie, from item 3, reports, we're going to
15 pull 3(a) down into the Internal Audit report?

16 MS. BINGHAM ESCAREÑO: Yes, Mr. Chair. We'll
17 just move the action item 3(a) report of meeting of Audit
18 Committee into item 4, Internal Audit presentation.

19 MR. OXER: We'll take up a different sequence
20 on the action items.

21 All right. With respect to the consent agenda,
22 any Board member care to pull an item? If not, I'll
23 entertain a motion to consider.

24 MS. BINGHAM ESCAREÑO: Mr. Chair, I'll move to
25 approve the consent agenda as presented.

1 MR. OXER: Motion by Ms. Bingham to approve the
2 consent agenda. Is there a second?

3 MR. GOODWIN: Second.

4 MR. OXER: Second by Mr. Goodwin. No public
5 comment requested. Motion by Ms. Bingham, second by Mr.
6 Goodwin to approve the consent agenda as presented. Those
7 in favor?

8 (A chorus of ayes.)

9 MR. OXER: And opposed?

10 (No response.)

11 MR. OXER: There are none. It's unanimous.

12 Okay. Item 3(b) then becomes the first one.

13 Tom.

14 MR. GOURIS: Good morning. Tom Gouris, deputy
15 executive director.

16 This item was intended to be an update on a
17 particular workout transaction with [indiscernible]. We
18 are continuing to make progress but we're going to come
19 back in December and give you a full report of where we
20 are because we've got a couple of things we still need to
21 iron out. So just wanted to let you know that that's what
22 it was. At any rate, this is something that's going to
23 come back, nothing to report today.

24 MR. OXER: Okay. Any questions from the Board?

25 (No response.)

1 MR. OXER: Okay. Let's go to the next item
2 then, the report of Internal Audit. Mark. And you'll
3 make a presentation, Mark, and then we'll ask Ms. Bingham
4 for comments.

5 MR. SCOTT: Yes, sir. I'm Mark Scott. I'm the
6 director of Internal Audit.

7 The Internal Audit Act says that an annual
8 internal audit plan must be approved by an agency's
9 governing board. Based on the standardly used risk
10 assessment model, we developed the audit plan that is in
11 your books. The Audit Committee voted earlier this
12 morning to recommend approval to the full Board, and so at
13 this point for approval of the audit plan.

14 MR. OXER: Questions from the other members of
15 the Board? Any comments from Ms. Bingham?

16 MS. BINGHAM ESCAREÑO: Mr. Gann and Mr. Chisum
17 and I convened the Audit Committee this morning. Mark and
18 his team reviewed the proposed audit plan for next year to
19 us. There were no material questions or changes made to
20 the proposal, and so we do recommend its approval by the
21 Board.

22 MR. OXER: And I assume it was a unanimous
23 vote.

24 MS. BINGHAM ESCAREÑO: Yes, sir, it was
25 unanimous.

1 MR. OXER: Any questions by the Board?

2 (No response.)

3 MR. OXER: Then we'll assume that you, as chair
4 of the Audit Committee, move to accept the audit report.

5 MS. BINGHAM ESCAREÑO: Yes, sir. I'll so move
6 for the approval of the 2016 audit plan.

7 MR. OXER: Okay. Motion by Ms. Bingham to
8 approve the audit plan.

9 MR. GANN: Second.

10 MR. OXER: Second by Mr. Gann. No request for
11 public comment. Motion by Ms. Bingham, second by Mr. Gann
12 to approve the audit plan. Those in favor?

13 (A chorus of ayes.)

14 MR. OXER: And those opposed?

15 (No response.)

16 MR. OXER: There are none.

17 MR. SCOTT: I also went over some other items
18 as far as Internal Audit. I went over the ongoing
19 internal audits that we're doing, the various consulting
20 projects that Internal Audit is doing in conjunction with
21 management, the fraud, waste and abuse statistics, and the
22 external audits.

23 I wanted to point out that there's two rather
24 large external audits going on. One is done by the State
25 Auditor's Office. I guess the Housing Trust Fund is the

1 technical term for it, but they do a financial statement
2 audit, the same one they do every year. They also audit
3 compliance with the Public Investment Act. And then as
4 part of the statewide single audit, that is the audit
5 that's done of the whole state and based on risk they pick
6 programs they're going to audit in detail, and one of them
7 is the HOME Program that we administer. And I wanted to
8 point out that there's an issue going on with that audit
9 as to whether or not KPMG is going to use the new grant
10 guidance or the old OMB circulars, and I discussed that at
11 the meeting this morning, and I'll answer any questions on
12 that if there are any.

13 MS. BINGHAM ESCAREÑO: Mr. Chair.

14 MR. OXER: Yes.

15 MS. BINGHAM ESCAREÑO: So the committee just
16 had some questions for clarification this morning
17 regarding that HOME audit by KPMG. Mark and also
18 management, Mr. Irvine, answered our questions
19 satisfactorily. We had no further questions and accepted
20 the report, but did want to make sure that if the Board
21 had any questions in general that the committee,
22 management and Mark are available to answer any questions
23 that the Board might have.

24 MR. OXER: What were the substantive
25 differences between the two protocols?

1 MR. SCOTT: The two protocols, there's this new
2 grant guidance called the OMNI-Circular, and basically
3 what they did is they took all the old OMB circulars and
4 combined them into one massive circular. The substantive
5 difference would be KPMG wants to go as of a certain date
6 where they say there was a memo or something and they want
7 to audit based on that. They're going to use compliance
8 requirements that are new, and when we entered our
9 agreements with the subrecipients we obviously used the
10 old OMB circulars. So the substantive issue would be that
11 they would have probably six months of transactions
12 they're looking at that wouldn't be in compliance with the
13 new guidance because they were done under the old
14 circulars. That may not be too clear.

15 MR. OXER: No. I think I get it. But how
16 would they possibly expect the agency to be in compliance
17 with guidance that hadn't been issued?

18 MR. SCOTT: That's kind of what we're
19 wondering.

20 MR. OXER: It does create a really resonating
21 question, I think.

22 MR. SCOTT: Yes. And so we've been going back
23 and forth. Actually, HUD, the funding agency for that
24 program, seems to agree with this agency's perspective on
25 that issue, but auditors dig in their heels sometimes, so

1 that's what's going on here. So they want to use the new
2 guidance which would result in a lot of findings in an
3 audit report that gets sent to the legislature, the
4 Governor's Office and everybody else, so that's why we're
5 concerned about it.

6 MR. OXER: Did you have a comment, Tim?

7 MR. IRVINE: Yes. Essentially we've got our
8 2014 contracts and they have standard contractual language
9 that says they're subject to the laws and rules as now or
10 hereafter in effect.

11 MR. OXER: The emphasis on now or hereafter.

12 MR. IRVINE: Right. And those contracts which
13 were put together back under 2014 conditions contemplated
14 that they would be administered in accordance with the
15 existing OMB guidance, and that's the way that our HUD
16 program staff looks at it, that's the way we look at it,
17 and they have not yet promulgated official guidance
18 adopted through the appropriate federal rulemaking
19 procedures to tell us to do anything different. KPMG has
20 talked with someone -- we're not exactly sure who -- at
21 HUD who is of the view that that kind of language somehow
22 or another opens the door to pull in 2 CFR 200 which was
23 later enacted rules, and so we're going back and forth
24 between KPMG and with our HUD staff trying to obtain good
25 clear guidance as to which way it's supposed to be.

1 MR. SCOTT: I'll give an example of something
2 that would be different. The new grant guidance requires
3 that every contract have on there the indirect cost rate
4 and the indirect cost amount for all the contracts, so to
5 the extent that that's not on the contracts that were done
6 under the old system, those would all be findings.

7 MR. OXER: And the issue is you start having
8 findings they start stacking up, and people who see that
9 there were findings and they don't go into the detail and
10 recognize they were more or less trivial, from what I can
11 tell.

12 MR. SCOTT: Right. Well, here's the thing,
13 they would have a lot of noncompliance and with each of
14 those findings of noncompliance there would be an
15 associated questioned cost. That's a questioned cost, the
16 auditor is flagging it, and more than likely when we went
17 into resolution they would say that the agency doesn't
18 have to pay it back, but in the meantime there would be
19 this very bad audit report.

20 MR. OXER: Counselor, I'll ask you on this, but
21 being expected to be in compliance with regulations that
22 haven't been issued yet, doesn't that violate ex post
23 facto?

24 MR. IRVINE: There are a lot of legal arguments
25 that can be produced to support our position, but

1 hopefully the folks at HUD will just work this through to
2 the appropriate level where someone can say definitively
3 what the outcome should be.

4 MR. OXER: Okay. Anything else, Mark?

5 MR. SCOTT: No, sir.

6 MR. OXER: I'm going to reserve my comments.

7 MR. SCOTT: Yes, sir. We understand exactly
8 why it's so puzzling and we've been arguing with them
9 about it.

10 MR. OXER: Well, if they dig in their heels,
11 you dig in too.

12 MR. SCOTT: Okay.

13 MR. OXER: Anything else?

14 MR. SCOTT: Nothing.

15 MS. BINGHAM ESCAREÑO: Mr. Chair, hopefully
16 this will be the last you hear from Audit Committee this
17 year. Mark has been a great addition and has built on an
18 already existing awesome team, so his team is here. We'd
19 like to recognize the audit team.

20 MR. OXER: Why don't you introduce them, Mark,
21 and have them stand up.

22 MR. SCOTT: Ms. Betsy Schwing, I think people
23 know her. And then Barbara, do you want to get up and
24 introduce yourself?

25 MR. OXER: I think you're supposed to introduce

1 her, Mark.

2 MR. SCOTT: I found her after looking through
3 numerous resumes and interviewing numerous people, but
4 Barbara comes from criminal justice but before that she
5 was --

6 MR. OXER: I'd hate to say that would be
7 appropriate here.

8 (General laughter.)

9 MR. SCOTT: Well, before that she worked in
10 Mississippi at the state auditor's office there, and she
11 audited the housing programs in Mississippi, so I was very
12 pleased to find her.

13 MR. OXER: Good. Welcome. Grab a stick and
14 get in the fight. Okay?

15 MS. BINGHAM ESCAREÑO: The committee recognized
16 this morning that the plan for next year is aggressive but
17 that he's got the right team to make it happen.

18 MR. OXER: You've got enough horsepower to pull
19 this?

20 MR. SCOTT: I think so.

21 MR. OXER: I'm going to spare Tom my tractor
22 analogy on this.

23 MR. SCOTT: Usually you do Navy analogies but I
24 can't think of anything to follow up on that.

25 MR. OXER: Enough firepower on your battleship.

1 MR. SCOTT: I guess aircraft carriers, and we
2 have the appropriate firepower and other things.

3 DR. MUÑOZ: I don't know. Somehow that doesn't
4 resonate as the tractor analogy.

5 (General laughter.)

6 MR. SCOTT: Okay. I'll go back to being an
7 accountant. We have the correct expertise and I'm
8 familiar with financial discounted cash flow models and
9 other things that will be beneficial in doing the audit
10 plan that has been presented.

11 MR. OXER: We revel in your confidence and
12 competence, and we appreciate you being here.

13 And thank you, Ms. Bingham, for chairing the
14 Audit Committee, I appreciate that you do that, and the
15 members that are part of your committee.

16 MS. BINGHAM ESCAREÑO: Thank you.

17 MR. OXER: Okay. That's all on that item, so
18 Monica, it looks like you're in the box.

19 Don't worry, Tom, I'll get to the tractor part
20 later.

21 MS. GALUSKI: Good morning. Monica Galuski,
22 director of Bond Finance.

23 This item is presentation, discussion, and
24 possible action on Resolution 16-006, authorizing the
25 issuance, sale and delivery of the Department's Single

1 Family Mortgage Revenue Bonds, 2015 Series C, and Single
2 Family Mortgage Revenue Refunding Bonds, 2015 Series D.
3 With this item staff is seeking final approval for the
4 issuance of these bonds.

5 The 2015 C bond will be fixed rate, the
6 proceeds of which will be used to purchase Ginnie Mae
7 mortgage-backed securities backed by newly originated
8 mortgage loans and to pay related costs of issuance. Tax-
9 exempt bond-eligible will be pooled into mortgage-backed
10 securities that will back tax-exempt bonds. If market
11 conditions permit, non tax-exempt eligible loans,
12 typically those that have received an MCC through the
13 Department, will be pooled into mortgage-backed securities
14 to back a taxable bond component for that series. The
15 prior amount of 2015 C bonds will not exceed \$50 million
16 and is expected to be closer to \$35 million.

17 The 2015 D bonds are fixed rate taxable
18 refunding bonds to take out the Department's 2006 Series A
19 through E bond issues. The rates on the bonds to be
20 refunded currently range from 4.50 to 5-1/8, with the vast
21 majority above 5 percent. The mortgage loans that
22 underlie the 2006 mortgage-backed securities have rates
23 that range from 4.99 to 6.95. The mortgage-backed
24 securities which are Ginnie Mae, Fannie Mae and Freddie
25 Mac for those series, will be transferred to support the

1 2015 D bonds. The prior amount of 2015 D bonds will not
2 exceed \$65 million. The maximum contribution by the
3 Department is a not to exceed \$7 million and includes
4 approximately \$3 million of down payment assistance and
5 lender compensation, \$1-1/2 million of accrued interest on
6 the 2006 bonds which is debt service we would have already
7 paid, cost of interest and capitalized interest. The
8 present value of savings from this refunding is expected
9 to be at least \$5 million.

10 Staff recommends J.P. Morgan as the senior
11 manager, and co-managers Morgan Stanley, RBC Capital
12 Markets, and Ramirez & Co. Depending on market
13 conditions, this issue could price as early as December,
14 but obviously there's a lot going on in the market and a
15 lot of talk right now, so it may be December, it may be
16 January. And staff recommends approval.

17 Are there any questions that I can answer?

18 MR. OXER: So we're to the point now you've
19 been prepping this, getting people on the team, organizing
20 the concept, getting ready for these bonds to issue.
21 You're saying now that the final, this is what they're
22 going to look like so you want to be ready to sell those.

23 MS. GALUSKI: That's correct. Normally we
24 would have given you a little bit more notice, but we were
25 in the middle of pricing and closing the 2015 AMD bonds

1 and sort of saw a window of opportunity here that we think
2 would be beneficial for the Department to take advantage
3 of.

4 MR. OXER: We have a lot of confidence in the
5 financial management expertise of the staff and recognize
6 that there are times to be expedient and fast to take
7 advantage of those market opportunities out there, so
8 every time you can do that, think through that and do it.

9 If you make the right decision, being smart, even if it's
10 something that's troubling, we'll figure it out but be
11 smart about managing this.

12 Long term this rolls down our variable rate
13 debt, I assume. We continue to peel that down?

14 MS. GALUSKI: The variable debt is continuing
15 to come down with prepayments right now. This issuance
16 we're taking out fixed rate bonds.

17 MR. OXER: So we're essentially replacing it
18 with our fixed rates.

19 MS. GALUSKI: So in that indenture, though, we
20 are increasing the ratio of fixed rate to variable rate,
21 so that does help the indenture.

22 MR. OXER: Right. Because long term I think
23 that improves basically our agency balance sheet when we
24 get to the point of having that one that it reduces our
25 risk and the liquidity needed basically on all of this.

1 MS. GALUSKI: That's correct.

2 MR. OXER: Questions of the Board? There seem
3 to be none. With that, we'll accept a motion to consider.

4 MR. CHISUM: I'll move.

5 MS. BINGHAM ESCAREÑO: I'll second.

6 MR. OXER: Motion by Mr. Chisum to approve
7 staff recommendation on item 5, second by Ms. Bingham.
8 There appears to be no request for public comment. Those
9 in favor?

10 (A chorus of ayes.)

11 MR. OXER: And those opposed?

12 (No response.)

13 MR. OXER: There are none. Good job, Monica.

14 MS. GALUSKI: Thank you.

15 MR. OXER: Okay, Marni.

16 MS. HOLLOWAY: Good morning, Chairman Oxer,
17 members of the Board. I'm Marni Holloway. I'm the
18 director of the Multifamily Finance Division.

19 This next item is presentation, discussion, and
20 possible action regarding approval for publication in the
21 *Texas Register* of the 2016-1 Multifamily direct loan
22 notice of funding availability.

23 You'll remember at last month's Board meeting
24 we brought a report item and asked for input on the report
25 item describing our plans for this NOFA. We actually

1 called it the 2015-2 NOFA at that time but then since then
2 have figured out that 2016-1 is probably a better titled,
3 but it is the same NOFA. We received a lot of comments
4 during the Board meeting and during the Permanent
5 Supportive Housing Committee meeting prior to the Board
6 meeting, and those comments have helped us shape and
7 refine the NOFA that we're bringing forward today.

8 We will be making available \$23,109,095 in
9 combined HOME and TCAP funds. Those funds will all be
10 available within set-asides, and we talked about these
11 set-asides at the last meeting. We've made a couple of
12 changes to them that I wanted to make sure that you're
13 aware of. We are continuing with the CHDO set-aside.
14 That is \$3,236,344. The one that's changing is the
15 deferred forgivable loan set-aside -- is what we're
16 calling it now -- that's \$3 million, and I'll describe
17 that to you in just a moment. We're setting aside \$4
18 million to layer with 4 percent tax credit deals, and then
19 the balance of the funds at \$12 million, almost \$13
20 million, will be in a general pot.

21 The deferred forgivable loan set-aside is what
22 we called the supportive housing set-aside at the last
23 meeting. This change was made in order to accommodate
24 requests that were made during the meeting and discussion
25 of the need for units for households at 30 percent of AMI

1 or less who don't have a voucher, that there isn't any
2 subsidy for their rent. In order to accommodate that need
3 and the permanent supportive housing -- or the supportive
4 housing need -- I'm sorry, we're not using that permanent
5 word anymore -- we have made this set-aside available for
6 either type of funding.

7 The regional allocation formula will be applied
8 to these funds and how that breaks down is in the Board
9 book. We are continuing with our priority levels. Our
10 Priority 1 applications are generally intended to help us
11 meet our requirements around HOME commitments. Priority 2
12 are applications that will be layered with the 9 percent
13 round. We also will have a third priority for any
14 remaining funds that are left after that.

15 We are applying some scoring criteria for this
16 NOFA. Included in that scoring criteria are the
17 opportunity index from the QAP, project 811 also from the
18 QAP, a per-unit subsidy amount. We're also providing a
19 scoring item for developments that are able to provide
20 match, HOME match over the required amounts, and we're
21 also looking at some rehabilitation features, so points
22 that are available for specific features of rehab
23 programs.

24 We have set some maximum funding levels, and it
25 would be a million dollars for rehabilitation projects or

1 a million dollars under the deferred forgivable set-aside,
2 regardless of if it's rehabilitation or new construction,
3 and also a \$2 million maximum for new construction loans.

4 Other than the deferred forgivable set-aside,
5 we are making these funds available as loans with a 3
6 percent interest rate and a 30-year amortization.

7 I know that there are some folks that would
8 like to speak with you regarding this item. Do you have
9 any questions for me?

10 MR. OXER: Any questions of the Board?

11 (No response.)

12 MR. OXER: Okay. Motion to consider.

13 MS. BINGHAM ESCAREÑO: I'll move staff's
14 recommendation.

15 MR. OXER: Motion by Ms. Bingham to approve
16 staff recommendation on item 6.

17 MR. GANN: Second.

18 MR. OXER: Second by Mr. Gann.

19 It looks like we have some interest and public
20 comment. Walter, do you want to talk on this one?

21 MR. MOREAU: Walter Moreau, the director of
22 Foundation Communities.

23 MR. OXER: And a housekeeping item here. For
24 everybody -- Walter is the first one, I get to stay it
25 when he comes up here -- make sure you sign in so we can

1 identify you on the transcript.

2 MR. MOREAU: I really wanted to advocate today
3 for supportive housing. There are some things that came
4 out for this Board book in this loan program and the QAP
5 that really undermine supportive housing and caught us by
6 surprise. I really am asking for the Board to give
7 direction to the staff to make supportive housing a
8 priority.

9 Supportive housing is that type of housing that
10 really serves with the greatest need, folks that are
11 extremely low income or homeless. You've invested in
12 many great examples of this: housing for kids that have
13 aged out of foster care, housing for homeless teens and
14 parents and kids, housing for veterans, the project in
15 Kerrville and Capital Studios next door, we have 47
16 homeless veterans. Supportive housing brings available
17 appropriate services on site to really help people be
18 successful and get back on their feet.

19 We've looked at the last fifteen years of tax
20 credits in particular and what's been invested in
21 supportive housing, what percentage of tax credits have
22 gone to supportive housing, 2 percent. The reason it's
23 such a little amount is because these projects are really
24 hard to do, they're a miracle to pull off. You can't have
25 debt, you have to raise charitable funds, local support.

1 We currently have two projects in construction.
2 We're not going to tackle another supportive housing
3 project and pursue anything in 2016, probably not in 2017,
4 until we get these projects on their feet.

5 The two things that happened that we think, the
6 staff changes that happened, the first is in this loan
7 program. We had committee meetings. The intent was to
8 try to figure out how these funds could be used for
9 supportive housing, but what came out of it was a deferred
10 forgivable loan program that any project that puts aside
11 some 30 percent units can apply for. We would prefer that
12 those funds be prioritized first for supportive housing.
13 If there are no projects next year, maybe they would go
14 into any project that's adding 30 percent units.

15 And we'll talk more on the QAP but this draft
16 QAP takes away three points that supportive housing could
17 get to be able to be competitive with elderly and general
18 projects. So the staff intent was let's just make all
19 these projects score the same, keep everybody happy,
20 elderly, general, supportive housing can all at best get
21 the same amount of points. I'd argue that it's so
22 extremely challenging to do supportive housing and yet it
23 serves folks of the highest need that you should keep the
24 QAP the way it's been the last four years.

25 Supportive housing is only getting 2 percent of

1 the credits, we're getting the crumbs, we're serving the
2 folks that have no income or very low income. I believe
3 you have a core value from the Board that you should
4 prioritize supportive housing. I think the staff need the
5 direction from the Board just to make that happen.

6 Thanks.

7 MR. OXER: Thanks for your comments.

8 Any comments or questions from the Board?

9 (No response.)

10 MR. OXER: Any other comments on this item?

11 Joy.

12 MS. HORAK BROWN: Joy Horak Brown, president
13 and CEO of New Hope Housing in Houston, Texas.

14 That 2 percent is an arresting figure. Isn't
15 it how frightening that supportive housing has 2 percent
16 of the credits over a very long period of time. These
17 deals are so difficult to do that we are doing 4 percent
18 bond transactions now because even with the alleged
19 advantage, we haven't been able to score.

20 I know what my core values are and I know that
21 zero percent, \$700-\$800 a month in income, those are not
22 the folks that the rest of the tax credit developers
23 serve, they simply aren't. I would be delighted if they
24 did but they don't, and I understand why not.

25 We are struggling to do what we can for that

1 segment of the population in Texas, and I would be so very
2 grateful to you to keep the policy. This is really a
3 policy shift, it isn't just about changing a few points
4 here and a few points there, it's a dramatic policy shift.
5 I even question that a policy shift is appropriate at the
6 last minute. I'm not an expert on those rules as to what
7 the flexibility is from the first draft to the final one,
8 but I have some questions about that.

9 I thank you so very much, and I ask that you
10 put me as a big underscore to everything that Walter had
11 to say and that you also consider my comments. Thank you
12 very much.

13 MR. OXER: Thanks for your comments, Joy.

14 Any questions?

15 (No response.)

16 MR. TAYLOR: Craig Taylor with Communities for
17 Veterans, Kerrville project. I've been before you many
18 times. Thank you again.

19 I came here basically to say two thank yous to
20 you. One of the appeals I made was at least to get a
21 ticket to the dance, and from my reading, our project will
22 be allowed to make an application, subject to whether we
23 fall within the purview of HUD and Texas rules. So I
24 wanted to thank you for making that distinction and
25 allowing us to at least possibly apply.

1 Second thing, Brooke may not even know, but I
2 just found out this morning that our project was awarded
3 in this latest round, HUD VASH vouchers for twenty units
4 in this latest competitive round, and that is just
5 ecstatic news. And that was sponsored by TDHCA, and I
6 know it was a difficult thing for them to get their arms
7 around and so forth, but it's going to be huge for us and
8 the vets we serve. So thank you, thank you very much for
9 that.

10 And then the one concern I have is it's an
11 ironic thing because in general, not just in principle and
12 practice, I very much support the idea of pushing the
13 rents down and the people being served at 30 percent.
14 However, we are the supportive housing project in rural
15 Texas and trying to make a project work with 30 percent
16 rents that we can't allocate PBRA to means that those
17 projects are being operated at a substantial loss. It
18 costs more to operate the property than we can achieve in
19 rents for those units, and we can't offset that by getting
20 the rent support to underlie our operating expenses. So
21 it means that our other units then are subsidizing those
22 units and it puts a tremendous burden just on the
23 operational feasibility of the project.

24 So in a particular case, and I don't think
25 rural permanent supportive housing will be eligible, but

1 in a particular case here of rural housing where we're
2 doing supportive housing for veterans, I would ask that
3 there be some consideration given to the prohibition of
4 utilizing PBRA with 30 percent units. In terms of public
5 policy, I recognize it and support it, in terms of
6 operational feasibility for a particular project, it's
7 going to produce a substantial burden on what we're trying
8 to do in Kerrville.

9 Thank you very much.

10 MR. OXER: Thanks, Craig.

11 Good morning.

12 MS. MCGUIRE: Good morning. Ginger McGuire.

13 I'm speaking on behalf of the Rural Rental Housing
14 Association of Texas.

15 And I'd just like to support the comments that
16 have just been made. We too were caught by surprise with
17 what we felt was a policy shift on rural preservation at
18 the last minute. We made what we thought was a reasonable
19 response and accepted the change that staff presented.

20 I'll make more comments about that during the QAP session,
21 but I would like to just support earlier comments saying
22 that a last-minute policy shift of that nature is very
23 hard to respond to and we hope we can work with staff to
24 resolve some of those issues next year.

25 MR. OXER: Great. Thanks, Ginger.

1 Marni. I assume these are not new comments,
2 you get a general sense of this. Even though these are
3 the regulars that have been here, have been participating
4 in the meetings antecedent to this issue and what we were
5 looking at, so do you have a generic comment for all of
6 them?

7 And add your comment, too, if you need to, Tim.

8 MS. HOLLOWAY: A couple of things that I wanted
9 to make sure that everyone is very clear. On the deferred
10 forgivable set-aside, it's an either/or, supportive
11 housing or the 30 percent units. It's not a requirement
12 that supportive housing provide these 30 percent units
13 without additional assistance. What we've heard, as I
14 mentioned during the Permanent Supportive Housing
15 Committee meeting, during the Board meeting, also in other
16 settings outside of the Board, was that there is a need in
17 some places to uncouple services from housing, and if that
18 is the case, there is a need to support this housing that
19 really winds up being for the lowest income population.
20 And that was the intent there was to respond to that
21 request from the public.

22 I think that we're going to have a lot more
23 comment and a lot more discussion during the QAP about the
24 changes that have happened around supportive housing, and
25 I would -- the changes are intended, frankly, to even

1 scoring across all types of developments. If the Board
2 has another direction that they would like us to take,
3 then we absolutely will do that.

4 MR. OXER: Do you have a thought or comment?

5 MR. IRVINE: It's not a desire to make a policy
6 shift so much as to expand the scope of deals that are
7 serving very low income households.

8 MS. HOLLOWAY: Absolutely.

9 MR. OXER: So that when you get the 30 percent
10 AMI, they're accessible to a larger percentage of the ones
11 even that we're adding to the portfolio. Is that correct?

12 MS. HOLLOWAY: Yes.

13 MR. OXER: Ms. Bingham.

14 MS. BINGHAM ESCAREÑO: So I'm going to ask for
15 a crystal ball here. Would our intention be that if we
16 move forward with what's going to be posted in the *Texas*
17 *Register* that this time next year or in the future we
18 would see more supportive housing than the 2 percent that
19 appear to be historically reported of tax credits?

20 MS. HOLLOWAY: And that's -- I don't know, I
21 can't answer that question, I don't have that predictor.
22 I can tell you that this NOFA does provide that set-aside
23 for supportive housing. If the supportive housing deal
24 was coming in for 9 percent credits, they could, yes,
25 layer these funds in with them. Whether that will

1 generate more units remains to be seen. We've just heard
2 Mr. Moreau say that he's not planning on a new deal this
3 next year.

4 MR. IRVINE: So I think what you hopefully
5 would see as a result of the incentives in the NOFA would
6 be more units serving 30 percent households.

7 MS. HOLLOWAY: It's a new option. It's an
8 option that we haven't had available and it's an option
9 that because we uncoupled the deferred forgivable from a
10 requirement to use tax credits -- and that was a request
11 that we received at the Board meeting, that we uncouple
12 those things -- it could very well be that we'll be seeing
13 applications from organizations that we might not have
14 been able to work within the past who are serving this
15 very specific population that has this tremendous need.

16 MR. OXER: So this is opening up new options in
17 the future rather than making other options available for
18 prior. So we're potentially adding to the portfolio but
19 distributing -- more of a distribution of those amongst
20 more deals as opposed to specifically for that sector of
21 the population.

22 MS. HOLLOWAY: Yes.

23 MR. IRVINE: And as additional funds are made
24 available in future periods and we develop additional
25 NOFAS, we'll absolutely want to be engaged on these

1 issues, and if this particular idea doesn't prove as
2 effective as we hoped, then we'll try something else.

3 MR. OXER: We'll try something else.

4 MS. HOLLOWAY: Absolutely.

5 MR. OXER: And the good thing is we're
6 exploring a bit to see if we can make this work because I
7 think just from a policy standpoint it makes a lot of
8 sense for disaggregating of that population so it's more
9 of a mixed economic population on any single deal.

10 MS. HOLLOWAY: And we're also participating in
11 supporting another model around the housing needs of folks
12 with disabilities and folks with very low incomes.

13 MR. OXER: All right. Any other questions?
14 Joy, do you have anything else over there? I will remind
15 everybody that the front row is for those who wish to
16 speak on the item. Well, look who's here.

17 MS. ANDERSON: I was back there.

18 MR. OXER: You couldn't keep your mouth shut.
19 It's okay.

20 (General laughter.)

21 MS. ANDERSON: Sarah Anderson, S. Anderson
22 Consulting. I just couldn't keep my mouth shut on this
23 issue, just because I want to be on the record again for
24 the same thing that I said last time about the
25 continuation of the way that these are being underwritten

1 and the 3 percent, 30-year amortization.

2 And I still don't feel like necessarily this
3 is -- this seems to be a huge policy change for the
4 Department, and I've yet to hear a discussion of the
5 implications of underwriting at those terms versus what we
6 sort of have done in the past where they've at least been
7 able to go down if the deals need them.

8 I understand the reason behind it. We keep
9 hearing that we're trying to mitigate risk but I would
10 question what that means because I don't know exactly what
11 it means. This is money that we've gotten from HUD that
12 doesn't have recapture requirements, that's not the risk.

13 There is some risk of not being paid back, but you're
14 talking about money that is being leveraged with, for the
15 most part, tax credits that have a one-half of 1 percent
16 foreclosure problem. We're not talking about high risk.
17 What we're talking about is losing money that is needed
18 for the hardest to finance deals, and 3 percent, 30-year
19 am is market rate right now, and if you put that in the
20 NOFA, you have no ability to help what are really
21 ultimately the rural deals that need this money.

22 Also, keep in mind that even when we're talking
23 about what is essentially market rate now, you've got
24 Davis-Bacon wages, you've got Section 3 requirements, this
25 money is more expensive to use, so even at market rate

1 it's not really attractive. And what we're hearing is --
2 and I have a deal that's closing in two weeks, and some
3 terms changed on the tax credit side and we're getting
4 calls from the Department saying we're worried about the
5 risk to our money and so we're going to change the terms
6 that in agreement make the deal worse but are better for
7 you guys.

8 And I just feel like this is a huge policy
9 change. I've never thought of the Department as being a
10 bank and that's what we're being faced with now: Is the
11 Department a bank or are you the lender that is to help
12 the hardest to fund deals to help the hardest to serve
13 people. And I just don't feel like that policy
14 discussion -- I haven't heard that that's what you guys
15 want, and maybe that is, maybe just by going along with
16 this, that's what you want, but I've never before seen
17 underwriting dictate policy before as this particular item
18 does.

19 And so I still would like to hear a little bit
20 more of the conversation from you guys that this is what
21 you want to do, that TDHCA is now serving as a bank. And
22 if that's what you want to do, that's fine. I just
23 haven't seen enough discussion that leads me to believe
24 that that is what you guys are looking to do. Maybe I'm
25 wrong, maybe I've missed something. Anyway, I just wanted

1 to be on the record saying that. Thank you.

2 MR. OXER: Okay. Thanks for your comments,
3 Sarah.

4 Any other thoughts, Tom?

5 MR. GOURIS: If you have questions on that
6 comment, I'll be glad to respond.

7 MR. OXER: Are there any questions from this?
8 (No response.)

9 MR. OXER: Apparently not.

10 MR. GOODWIN: Obviously, Tom, you have
11 something to say about it.

12 MR. GOURIS: No. I wanted to be able to
13 respond to the concept of the Department being a bank.

14 MR. GOODWIN: Respond to her comments about
15 being a bank.

16 MR. GOURIS: Well, I think we have heard from
17 this Board that risk is important, that return is
18 important. We've been talking about these concepts for
19 years and intensified those comments, and over the last
20 couple of months as we've talked about this funding
21 source, it's not just TCAP, it's TCAP and HOME, so there
22 is this liability with the HOME piece of it. We're trying
23 to make them similar enough so that we can use them to our
24 advantage to maximize our usefulness with the TCAP funds.

25 Certainly we've talked about the idea that the

1 original inception of TCAP funding we've faced a lot of
2 pressure to make those deferred forgivable loans or make
3 those zero percent loans or make those non-recourse, which
4 would mean we wouldn't have this discussion right now at
5 all, we wouldn't have the resource that we have. We
6 instead realized that there was an opportunity here that
7 deals needed funds but they didn't need to be free funds.

8 It's a misnomer to say that a 3 percent mezz that is what
9 the market is because if you can go find mezz debt at 3
10 percent, you should go find mezz debt at 3 percent and get
11 as much of it as you can.

12 That's what we are, we're secondly in debt, and
13 we're taking on that risk of a second lien lender. We're
14 not a perfect bank but we need to use banking principles
15 and be responsible for those funds, and that's what we've
16 been trying to do. And it's not just for our conventional
17 developers, it's also for our supportive housing
18 developers and other developers. We're trying to do more
19 with the resources that we have.

20 If there are any other questions, I'll be glad
21 to answer.

22 MR. OXER: Good comment.

23 MR. GOODWIN: Are there a segment of these
24 developments that will be done using this money?

25 MR. GOURIS: Absolutely. So we tested this

1 philosophy with the last NOFA. We didn't do it very
2 artfully, frankly. There was a lot of miscommunication
3 about how we were going to do that. And nothing in the
4 NOFA prohibits the Board ultimately from providing a lower
5 interest rate on a transaction, and that was sort of the
6 message we were trying to get across last time, that
7 message continues to be. We're just saying we're
8 underwriting it this way, we're evaluating it this way, it
9 should be structured this way. And if you have a great
10 case to be made for a zero percent or a 1 percent loan or
11 something else, we will not recommend it, but we'll still
12 bring it to the Board, and you all can listen to the case
13 that's made and say, Hey, that's really worthy of this
14 better financing strategy.

15 And you'll see what other applicants we get.
16 If we don't get applicants for this money, then we'll have
17 made a mistake and we'll need to adjust our thinking. I
18 think we will get applicants for this money because this
19 is second lien debt, this is mezz debt that's at a very
20 affordable price.

21 MR. OXER: So essentially we're saying here's
22 our basic underwriting policy for any of these that would
23 fall under this particular -- or applicants for this
24 particular availability of capital. They come in, you
25 underwrite it at 3 percent, 30-year amortization. If

1 they're turned down or if it doesn't work or whatever, but
2 we assume that if it will work at 3 percent, it will work
3 at anything less than that, so if it comes in and they're
4 turned down, they continue to have the option to appeal to
5 the Board for changing that, and the Board then acts as a
6 loan committee.

7 MR. GOURIS: And we'll see. I mean, if there
8 are no other takers for the funds, it might be the best
9 thing we could do with the money. If there are ten folks
10 deep on the waiting list that all can satisfy our
11 underwriting criteria, you may have a different opinion.
12 And that's a decision, that's a policy decision.

13 MR. OXER: That's a policy.

14 Are there any other questions? Ms. Bingham.

15 MS. BINGHAM ESCAREÑO: I have just comments to
16 make relative to the prior public commenters. Just one,
17 recognizing Marni and Tom and the team relative to the
18 fire hose of feedback that you got and the timeline that
19 you guys are working within to try to come up with some
20 combination of something that's going to achieve what
21 we're looking for.

22 And then relative to Joy and Walter's comments,
23 so I do believe the Board knows our values and I think you
24 as a staff know that we're very interested in supportive
25 housing, and so it sounds like we've come up with the best

1 option that we can right now to try to foster that
2 development. But for what it's worth, just wanted to make
3 sure that we were on the record of how very, very
4 important it is to us that we try to foster that growth.

5 But I'm still a little taken aback by the 2
6 percent deal and I know that we're doing everything we can
7 but that's very concerning to me, really, really
8 concerning to me, and I would assume to a lot of the Board
9 members also. So to the extent that it gets published in
10 the *Texas Register* based on whatever the vote ends up
11 being and to the extent that we have the ability to
12 continue to do the best we can to modify and adjust to
13 foster that growth, knowing that when we start talking
14 about the QAP in a little while that there's some areas
15 statutorily or legislatively that we might be a little
16 challenged.

17 But I am very grateful for everything that you
18 and your staff are doing, but I'm also very grateful for
19 our community members very respectfully reminding us of
20 what our charge is here. That's it.

21 MR. OXER: And I appreciate those comments too.
22 From a policy standpoint, yes, we're trying to create
23 policy. If it seems like it's a sudden lurch to one
24 direction, I assure you it's not, we don't lurch very
25 well -- irrespective of the fact they call me Lurch

1 occasionally.

2 (General laughter.)

3 MR. OXER: A major policy implementation and a
4 change, the recognition of the 2 percent, if you look back
5 at the history of the Tax Credit program, while we've got
6 thirty years worth of data and there's 2 percent on it,
7 but we're increasing that now. I can't tell you what they
8 did in the first twenty-five, but in the last four that
9 I've been here, we've made at least a concerted effort to
10 get ourselves lined up to make sure that that population
11 is considered. And I think those of you who know the tag
12 line on my TDHCA signature I hope would recognize that
13 that's something that I have a great interest in also.

14 That said, we're going to try something in
15 increments. If it works, good; if it doesn't, we'll keep
16 trying. And I think all of you here will be able to see
17 from the changes that are made in the QAP and that have
18 been made and will continue to be made, it is not etched
19 in stone, we didn't carve anything into it, it is a
20 continuously evolving document to be able to respond to
21 the needs of the present which are continuously varying
22 with the policies that we're given, the adventures or
23 misadventures, depending on your perspective, of those
24 folks in that pointy-top building down the street here.
25 We don't make this up, we're given things to do, we're not

1 freelancing, we're told what to do and we're basically
2 told there's a job that needs to get done and we're doing
3 the best we can to figure out how to do that.

4 I concur with what Ms. Bingham said, and she
5 said so much more eloquently that I might have, but those
6 of you who are concerned that this seems to be the last
7 thing, trust me, it's not. It will continue to evolve and
8 if it doesn't work, we'll try something different, but
9 we'll eventually get that up and working.

10 So with that, are there any other public
11 comments on this item, item number 6?

12 (No response.)

13 MR. OXER: Who did we have here, was it Ms.
14 Bingham and Mr. Gann with the motion and second?

15 MS. BINGHAM ESCAREÑO: Yes.

16 MR. OXER: Okay. With respect to item 6,
17 thanks for your time, Marni. The motion by Ms. Bingham,
18 second by Mr. Gann to approve staff recommendation on item
19 6. Those in favor?

20 (A chorus of ayes.)

21 MR. OXER: Those opposed?

22 (No response.)

23 MR. OXER: There are none. It's unanimous.

24 Good job walking the line, Marni. Like I've
25 said, if this was easy, anybody could do it. That's why

1 we've got you.

2 MS. HOLLOWAY: I appreciate the confidence.

3 MR. OXER: For the smallest item on the list
4 here, it's got two lines on the agenda, you seem to
5 attract a lot of attention.

6 MS. HOLLOWAY: I know.

7 MR. OXER: All right. Go for it, number 7.

8 MS. HOLLOWAY: Item 7(a) is presentation,
9 discussion, and possible action on an order adopting the
10 repeal of 10 TAC Chapter 11 concerning the Housing Tax
11 Credit Program Qualified Allocation Plan, and an order
12 adopting the new 10 TAC Chapter 11 concerning the Housing
13 Tax Credit Program Qualified Allocation Plan, and
14 directing their publication in the *Texas Register*.
15 There's going to be some comment.

16 MR. OXER: Some? Gee, you think?

17 All right. We're going to do a little
18 housekeeping here. Jeff, Mark, you guys move over here to
19 this second row where Raquel and Theresa are. We're going
20 to take public comment. These first two rows here, since
21 we're anticipating a real circus here, the first two rows
22 are going to be for those who want to make a public
23 comment. We'll take them from this corner right here,
24 you'll get to be first, and work that way on the front row
25 and then back that way on the second row. The single seat

1 there is where you get to sit until this is all done,
2 whoever the staff member is on this thing.

3 So given that, the floor is yours, Marni.

4 MS. HOLLOWAY: Great.

5 MR. OXER: And sorry to interrupt. I'll point
6 out obviously we're going to have a packed agenda, there's
7 going to be a lot going on. In public comment, I'll
8 remind everybody to sign in so we can identify you, so
9 that Nancy can tell us who you are on the transcript.
10 There will be a three-minute hard cut -- reminder, hard
11 cut on the time because we've got a lot of folks that want
12 to speak on several of these items. If those of you who
13 have something to say who have said it before, you can say
14 we've made comments on this and refer to that, you don't
15 need t spend that three minutes saying what you've already
16 said. If you have something new, we're particularly
17 interested in something new coming up that will give us an
18 opportunity to evolve our rules within the QAP.

19 So with that, Marni, you want to jump in?

20 MS. HOLLOWAY: Let me start by talking about
21 the next QAP. We are going to be starting next month on
22 the Wednesday before the Board meeting, that afternoon,
23 having our first meeting starting to talk about our plan
24 and what's going to go into the 2017 QAP. We want to hold
25 those meetings, those roundtables, whatever we're going to

1 call them, on a monthly basis at least, probably more than
2 monthly, throughout the process so that when we get to the
3 next QAP we have something that's been thoroughly
4 discussed and hopefully what we're bringing to you is
5 something very clean and something very workable.

6 I will say that for this QAP there were more
7 than ninety commenters. Some of those commenters
8 submitted more than ten pages; there was a huge volume of
9 comment, it was almost twice as much as was on the QAP
10 last year.

11 I know that you all have heard this before but
12 I need to say it again, without Theresa's work to
13 synthesize all of those comments and start to create that
14 reasoned response document, there's no way we could have
15 done this, and I'm so appreciative of all that effort.

16 MR. OXER: And that just goes under a subset of
17 the heading that I made sure was on the record several
18 times: it's real easy for us to look good up here because
19 you guys do all the work, we just get to take credit for
20 it. So we much appreciate what you've done. It goes from
21 here down that we appreciate all that's being done.

22 MS. HOLLOWAY: So the QAP was published in the
23 *Texas Register*, the final was published on September 15.
24 It was open for public comment until October 15. As I
25 said we received comments from more than ninety

1 individual commenters. As we synthesized that and worked
2 through our reasoned responses, we published the final in
3 the Board book a week ago. Since then we've had a lot
4 more conversations and a lot of questions that have come
5 in to us, and as a result of that, have taken a look at
6 some of the items that were in that published QAP and
7 realized that we needed to make some changes.

8 The first supplement to the QAP was posted on
9 November 9. It corrected a couple of items that have been
10 in the reasoned response but had been left out of the QAP
11 itself, so clerical errors, and it also sought to correct
12 some issues that we had around House Bill 3311 which we're
13 going to talk about as we go through the items that were
14 changed.

15 After we published that supplement we had even
16 more conversations and even more questions. The second
17 supplement, which was available out here on the table and
18 is available to everyone here at the meeting, corrects a
19 couple of other clerical errors and speaks to tenant
20 services points, and we'll also talk about that as we go
21 through. The changes in the second supplement will be
22 incorporated into the QAP that goes to the Governor's
23 Office and that ultimately is published in the *Texas*
24 *Register* and becomes our final rule.

25 So highlights of the changes that we've made as

1 a result of those comments and also our review of the
2 statutory requirements, there are about a dozen and a half
3 changes. We're just going to walk through them so that if
4 you have any questions about it we can address that, and
5 then all of these folks are going to get to talk and I'm
6 going to just sit and listen.

7 First change, really simple one, we adjusted
8 the 10 percent test due date for consistency with other
9 Multifamily rules. That was really simple.

10 The second change in 11.4(b), the maximum
11 request limit, this item was added as a result of public
12 comment, addressing the maximums created by House Bill
13 3311, and it was further clarified in the second
14 supplement just to make the language more understandable.

15 House Bill 3311 in this instance creates a cap on the
16 amount of funds that can be invested in developments for
17 the elderly in certain regions of the state. It seeks to
18 balance the funding that's going to those elderly
19 developments with general population developments.

20 You look like you have a question.

21 MR. OXER: Go ahead.

22 MS. HOLLOWAY: So that was the second item was
23 inserting that language into the maximum request limit.

24 MR. OXER: So that's a maximum on the seniors
25 projects as opposed to a limit on the other projects.

1 MS. HOLLOWAY: Yes.

2 The third change was to the award
3 recommendation methodology. Also 3311, as we had
4 originally drafted, we had included elderly developments
5 that were coming out of the at-risk set-aside in that
6 calculation. As a result of conversations with Chairwoman
7 Alvarado's office and some internal conversations, we
8 clarified those calculations in the supplement and we also
9 made that same change to the statewide collapse. So
10 basically what that was is as we were designing what that
11 calculation was going to look like in those subregions, we
12 were including any developments that would come in under
13 the at-risk set-aside in that elderly cap. As a result of
14 conversations later, we realized that it needed to come
15 out, so we're just applying that cap to the subregion and
16 not including the at-risk set-aside developments.

17 The next change was to tiebreaker factors. We
18 removed a limitation on the third tiebreaker that it was
19 applicable only to general population developments, so
20 whatever type of development is getting to that third
21 tiebreaker, if it's general or elderly, it's going to
22 apply to all of them.

23 The fifth change -- and this is one that
24 probably some people are going to be happy about --
25 criteria promoting development of high quality housing.

1 We had previously had a scoring item that was tied to
2 previous participation history. There was a great deal of
3 comment on this item. As a result of that comment, we
4 have removed it from scoring. We are continuing to
5 consider previous participation history as part of our
6 EARAC process, the process that we go through internally
7 before an award recommendation is made to you all, so it's
8 not like the previous participation goes away, it's just
9 not a scoring item any longer.

10 Next one, levels of rents and tenant services.

11 We changed the description of the points required and the
12 opportunity index so where rent levels and tenant services
13 tie to opportunity index, to reflect the addition of a new
14 scoring item in that section, this is a change that we
15 made in several places. There are several scoring items
16 that reflect back to opportunity index and they had said
17 five or seven points, we added a six point option, so now
18 it says a minimum of five points. Easy change.

19 In the second supplement -- and we'll talk
20 about this item -- we made a change to the opportunity
21 index, and this is the next change moving through the QAP.

22 We removed the provision that would have allowed an urban
23 or rural elderly development to receive seven points if
24 it's within two miles of services for seniors. As we
25 described in the opening paragraph on the second

1 supplement, there is a concern --

2 MS. BINGHAM ESCAREÑO: Pardon me, Marni. I'm
3 making notes and just trying to keep up. So that would be
4 which section, is this 11.9(c)(5), or is this in our
5 supplement 11.9(c)(3)?

6 MS. HOLLOWAY: In the second supplement it's
7 11.9(c)(4).

8 MS. BINGHAM ESCAREÑO: (c)(4), I see it.

9 MS. HOLLOWAY: And there's the (a) and the (b),
10 (a) is urban and (b) is rural.

11 MS. BINGHAM ESCAREÑO: Gotcha. Okay.

12 MS. HOLLOWAY: So what we've done is we've
13 removed the line that discusses elderly developments. So
14 we are required statutorily to consider certain scoring
15 items in descending order, so as we're working down that
16 descending order, one item that's further down the list
17 can't have the same or a higher score than another one.

18 MS. BINGHAM ESCAREÑO: Marni. Excuse me, Mr.
19 Chair. And that is statutory or that's 3311 related?

20 MS. HOLLOWAY: That's statutory. 3311 is about
21 the elderly cap and then some scoring items that we'll
22 discuss later. This is tied to concerns regarding tenant
23 services.

24 MS. BINGHAM ESCAREÑO: Okay.

25 MS. HOLLOWAY: So by taking this out the next

1 highest scoring item, if we had left these seven points in
2 when combined with tenant services could potentially score
3 higher than or equal to the next one up in line, so that's
4 why that elderly proximity to services was removed.

5 MR. OXER: It sounds like on a lot of these
6 we're walking a razorblade to start with just to get down
7 a pretty thin path.

8 MS. HOLLOWAY: Yes.

9 MR. OXER: You pull something over here and
10 something else gets loose over here.

11 MS. HOLLOWAY: It happens over here. The words
12 "unintended consequences" have come up a number of times
13 in the last week.

14 And I'm sorry, I do have that. The concern was
15 that we would exceed the twelve points that are the
16 maximum cap on cost of development per square foot which
17 is the next item up statutorily.

18 Under educational excellence, supportive
19 housing has been limited to two points total under
20 educational excellence in order to balance the additional
21 points those developments are able to access under tenant
22 services and rent levels of tenants. So supportive
23 housing developments are able to access three points under
24 these two other categories, so we've sought to balance it
25 by reducing the points they're able to access under

1 educational excellence. We've heard repeatedly in comment
2 that supportive housing developments that the educational
3 opportunities are not as a focus for those developments,
4 so that's why we put that there. And Walter and Joy have
5 already mentioned it, and I'm sure you'll hear some more.

6 The second supplement corrected the description
7 of the paragraphs under which supportive housing can
8 receive those points. Clerical thing, was my fault.

9 So still under educational excellence, the
10 three point scoring item was modified to require that the
11 development be within the attendance zone of at least two
12 of the elementary, middle or high school that have a met
13 standard rating, so meaning they're not underperforming
14 schools, and they have an Index 1 score of 77. That 77 is
15 the statewide median. We also added an allowance for
16 schools in Region 11 to have an Index 1 score of 70, and
17 that aligns with other parts of the rules.

18 DR. MUÑOZ: Marni, I've got a question. I was
19 reading this section that has quite a few corrections to
20 it, and I don't understand. It seems like you have
21 removed one of these distinctions that can be awarded to
22 an institution, there's no sort of benefit for that, or is
23 there? And why bifurcate, why separate or why aggregate
24 elementary, middle and high school in terms of met rating?
25 The TEA reports them individually.

1 MS. HOLLOWAY: Right. Yes, they do.

2 DR. MUÑOZ: Okay. So I mean, you may have a
3 high performing elementary and middle school and maybe a
4 low performing high school, or vice versa. These are a
5 lot of points based on the assumption that the quality of
6 the school is an incentive or not.

7 MS. HOLLOWAY: Right. So students living in
8 our general developments may be going to elementary
9 school, may be going to middle school, may be going to
10 high school, they may be progressing through all of those
11 schools in those attendance zones. In order to assure
12 that students living in the developments that we are
13 participating in have access to the best educational
14 opportunities, that's why that tiered scoring is there.

15 DR. MUÑOZ: That met standard is the same for
16 each one, 77 is the same for each one of those levels of
17 education?

18 MS. HOLLOWAY: That is the statewide median,
19 yes, it is. That's why we've applied it there. I
20 understand that there was some comment that we received
21 regarding elementary schools at a 76 in the latest TEA
22 ratings -- and I'm sure some folks here will speak to
23 that -- but over time it has been the statewide median
24 that we've clung to, that we've stuck to, and that's at
25 77.

1 DR. MUÑOZ: Okay.

2 MS. HOLLOWAY: We added a one point scoring
3 item to educational excellence. That's for developments
4 in the attendance zone of an elementary, middle or high
5 school in which either all have a met standard rating or
6 any one of the three has a met standard and an index score
7 of 77. So that speaks to that not all the schools meet
8 that standard, but it only allows one point rather than
9 three. That also includes an allowance for schools in
10 Region 11 to receive one point if the middle and high
11 schools have an index score of at least 70, and that
12 aligns with other parts of the rule.

13 Next one, underserved area. This item was
14 modified so our changes modified the requirement that a
15 place that has never had a tax credit development, in
16 order to receive two points under this item, that tax
17 credit development must not have been serving the same
18 population. So the development that's already there is an
19 elderly, you're coming in with a general, you still get
20 those points because they're not serving the same target
21 population.

22 MR. OXER: How big is a place?

23 MS. HOLLOWAY: It's a census term.

24 MR. OXER: Census tract?

25 MS. HOLLOWAY: It's larger than a census tract,

1 and I believe the item in rule reads something like a
2 place, or if it's not a place, the county.

3 Also under underserved area, we clarified item
4 (e) which was a one point item, to better describe the
5 requirements for a census tract. So that one we cleaned
6 up.

7 We also removed items (f) and (g) from
8 underserved area. These items were added to the QAP as a
9 result of comment way back in September, and so we put it
10 out there so everybody had an opportunity to take a look
11 at it and see what they thought. Received quite a bit of
12 comment and quite a bit of questions about how we were
13 going to score those items. We, staff, just were never
14 able to find a data source that was reliable and
15 consistent and that we felt comfortable would be the best
16 way to score these two items that are tied to job growth
17 and population growth. These are items that it could make
18 a lot of sense for us to consider for the 2017 QAP but
19 it's going to need to cook a little bit longer, we need to
20 dive deeper into those.

21 Number 11, tenant populations with special
22 housing needs. This is the 811 Program item. You have
23 heard previously quite a bit of comment regarding the 811
24 Program and the option to put units in existing
25 developments and get three points, and there has been a

1 lot of concern that that creates an advantage for certain
2 developers. In order to address that concern and even the
3 playing field, we've taken that to a two point item. So
4 developers can put units in an existing development, they
5 can put them into the development that they're currently
6 applying with, or there's a third option to set aside
7 units for populations with special needs. If you're not
8 in an 811 area, you can take that option and also get
9 those two points. And in the first supplement we
10 corrected the maximum points in the first paragraph; we
11 had changed it below, we hadn't changed it up above.

12 MR. OXER: You pulled a thread at the bottom
13 and something came unraveled at the top. Right?

14 MS. HOLLOWAY: Exactly.

15 MS. BINGHAM ESCAREÑO: You said that's two
16 points?

17 MS. HOLLOWAY: It's two points all the way
18 across now.

19 Aging in place. Aging in place was first
20 modified from requiring all units to be fully accessible
21 to a standard that would allow tenants who are not in
22 wheelchairs to live comfortably and safely. So as
23 originally presented, aging in place would have required
24 all units to be 100 percent accessible. This new option
25 calls for walk-in showers and handrails and blocking so

1 that it's safe but it's not a fully accessible unit. We
2 also refined the description of the tenant service
3 coordinator which was part of the original aging in place
4 conversation, and we raised the maximum score from three
5 to five points to create parity with educational
6 excellence. So this is all these strings that are being
7 pulled all over the place.

8 Language was added in this item to limit
9 supportive housing developments to two points to match the
10 limitation in educational excellence to balance the three
11 points that they're able to get in other sections, which
12 we've discussed previously.

13 With the first supplement the limitation for
14 this scoring item to elderly developments was removed in
15 order to comport with House Bill 3311. So we talked about
16 the elderly cap earlier in some regions. The other part
17 of 3311 requires all general population developments and
18 all elderly population developments be able to receive
19 equal points for the same scoring criterion. With that
20 requirement, we are not able to reserve this part of
21 scoring just for elderly developments. So that's why we
22 took that out with the first supplement.

23 With the second supplement we removed the
24 tenant services coordinator subsection so that the maximum
25 for tenant services were not able to exceed those for cost

1 of development per square foot. That goes back to the
2 statutory question about equal or higher scoring on those
3 statutory items.

4 Next one, proximity to important services. We
5 received some comment requesting that those radiuses be a
6 little bit larger, so we've gone to one and a half miles
7 in urban regions and three miles in rural regions. That's
8 access to grocery stores, pharmacies, that kind of thing.

9 We have added a provision to the local
10 political subdivision section stating that once a letter
11 has been submitted to us, it may not be withdrawn or
12 changed.

13 Under quantifiable community participation, we
14 have removed the ability for a neighborhood organization
15 to register with us, as was pointed out by comment, that
16 appears to be redundant with the statutory requirement
17 that they be registered with the state or county. We also
18 corrected a citation on that one.

19 We expanded the description of problems to be
20 identified or that might be identified in an urban
21 concerted revitalization plan to include infrastructure
22 neglect such as inadequate drainage.

23 And then the last one, we limited the number of
24 points a development may receive under historic
25 preservation if the site is only eligible for one or three

1 points under educational excellence. So you don't get as
2 many historic preservation points if you're in a location
3 that the schools aren't as good, basically.

4 Those are all of the changes. I'm sure you'll
5 have lots of comment. Are there any questions for me?

6 MR. OXER: I have a comment. My head hurts
7 listening to you.

8 (General laughter.)

9 MR. IRVINE: May I offer a comment?

10 MR. OXER: Go ahead.

11 MR. IRVINE: What I've heard and read indicates
12 basically a dozen or more policy initiative which are
13 clearly distinguishable and they're all in the mix here,
14 and what I really sense as a desire going forward is to
15 begin this next year's process with articulating and
16 prioritizing our policies. If everything is your policy,
17 it could be argued you don't have a policy. So I really
18 hope that we can focus on a handful of true policy
19 initiatives, put them in their assigned rated prioritized
20 status, and then develop a QAP that achieves those
21 policies, that says this is our highest and most important
22 policy objective, therefore, the QAP supports you
23 developing a winning score. And right now what we've got
24 is a QAP that tries to give everybody the possibility of
25 competing and winning regardless of what their particular

1 policy focus might be. And that's my comment.

2 MR. OXER: And just to add to that, the purpose
3 of all of this, I heard several comments that, well, we
4 can't get those points. Yes, but there are other points
5 that you can get that another applicant wouldn't be able
6 to get. And the whole idea is to balance those differing
7 concepts of the developments, whether it's general
8 population or supportive housing or elderly or whatever,
9 so that everybody has access to something that essentially
10 is a balanced opportunity for the entire community. So
11 I'll start it off by saying that everybody is not going to
12 have access to every point, period. It's just not going
13 to happen.

14 But I tell you what we're going to do. We've
15 got a lot of comment coming up on this, we've been in the
16 saddle here for an hour plus, we're going to take a break.
17 Right now it's 11:20. We'll be back in our chair here at
18 11:30 and we'll hear comments, we'll get a motion to
19 consider and we'll hear comments, but let's be back in our
20 chairs at 11:30.

21 (Whereupon, at 11:20 a.m., a brief recess was
22 taken.)

23 MR. OXER: All right. Let's get back to work.

24 Procedurally, I know it took you half an hour
25 to list all of these and what was behind them, so I guess

1 from a procedural standpoint I would, I think, advise the
2 Board that we're taking all of these at once, we're going
3 to hear public comments, we'll get a motion to consider,
4 whichever direction that goes, we'll have all of these at
5 once, they'll all be considered together unless we have a
6 modifying comment at the end of the public comment.

7 MR. IRVINE: So what staff is recommending is
8 as reflected in the second supplement.

9 MS. HOLLOWAY: Yes.

10 MR. OXER: As reflected in the second
11 supplement, as discussed, all of the details.

12 MS. HOLLOWAY: All those items that we talked
13 through.

14 MR. OXER: So we're going to consider them all
15 at once, unless there's a compelling item or compelling
16 issue to address through an amendment to the original
17 motion as considered. All right. The Board understands,
18 we're all clear?

19 Do you have anything else you'd like to add?

20 MS. HOLLOWAY: I don't at this time.

21 MR. OXER: Okay. With that, we will attend to
22 a motion to consider.

23 MR. GOODWIN: So moved.

24 MR. OXER: Motion by Mr. Goodwin to approve
25 staff recommendation as presented by Ms. Holloway.

1 MR. CHISUM: Second.

2 MR. OXER: Second by Mr. Chisum.

3 We have public comment. Michael, do you have a
4 couple of letters?

5 MR. LYTTLE: Yes, sir. I have two letters from
6 members of the Texas Legislature.

7 The first one is dated November 10, it is to
8 the Board from Senator Carlos Uresti, and reads as
9 follows:

10 "Dear Chairman Oxer and Members of the Board:
11 I am writing in support of the policy change the San
12 Antonio Housing Authority has proposed to the Housing Tax
13 Credit Program Qualified Allocation Plan on the agenda for
14 your November 12 meeting.

15 "This amendment would reflect a sensible policy
16 and would support investments into an area of my district
17 known as EastPoint which has long been neglected. I
18 believe our efforts at the state level could further
19 advance an area that has recently gained national
20 attention from its federal designation as a Promise Zone.

21 As a Promise Zone substantial community resources are
22 being invested to improve the academic standing of schools
23 in the area.

24 "While change will not occur overnight, the
25 Promise Zone's goals, job creation and workforce

1 development, increased economic development, improving
2 educational opportunities and family stability, reduce
3 poverty and increase supply of affordable housing, improve
4 public safety and leverage private capital investment, are
5 not only mutually beneficial to each other but rely on
6 their collective attainment to truly transform this once
7 distressed community.

8 "As the mission of the Texas Department of
9 Housing and Community Affairs includes the goal of invest
10 its resources strategically and develop high quality
11 affordable housing which allows Texas communities to
12 thrive, I hope you will fully consider, including criteria
13 in the QAP, that allows Texas to leverage our housing
14 dollars strategically in areas undergoing rapid and
15 positive changes due to investments of the federal
16 government and the local community.

17 "Thank you again for your service to our state
18 and to our communities, and I would like to thank
19 Department staff for their hard work in serving our most
20 vulnerable Texans.

21 "Sincerely, Carlos Uresti, State Senator,
22 District 19."

23 The second letter also addressed to the Board
24 comes from State Representative Rafael Anchia, Texas House
25 District 103. It reads as follows:

1 "I'd like to comment on a proposed change to
2 the 2016 Qualified Allocation plan which, if authorized,
3 would create a strong disadvantage to developers within my
4 district."

5 He references Section 11.9(c)(7)(A) Tenant
6 Populations with Special Housing Needs, Applications may
7 qualify for three points if determination by the
8 Department of approval is submitted in the application
9 indicating participation of an existing development in the
10 Department's Section 811 Project Rental Assistance
11 Demonstration Program.

12 He basically goes on to reference Section
13 11.9(c)(7)(A) -- I don't think you want me to reread the
14 rule again -- but what he says basically is: "I urge you
15 to either delete Section 11.9(c)(7)(A) in its entirety to
16 prevent an unfair statewide advantage for those developers
17 whose portfolios include Section 811 PRA program eligible
18 inventory, or Section 11.9(c)(7)(A) should be limited to
19 no more than two points rather than three points in order
20 to provide statewide fairness to all developers.

21 "Sincerely, Rafael Anchia."

22 MR. OXER: Okay. We have a multitude of
23 comments that folks want to make, which we anticipate in
24 this meeting every year. I would remind everybody that if
25 you have made comments and we have those on record, it

1 would behoove us, it would benefit the process we're going
2 to take on today to simply say you'd like to reinforce
3 that.

4 Tim, do you want to make a comment right quick?

5 MR. IRVINE: Yes. While Representative
6 Anchia's letter is fresh in everyone's mind, I think it
7 would be good for Marni to come up and explain
8 specifically how we've treated that item.

9 MS. HOLLOWAY: So you'll recall when we were
10 talking through the changes that have been made in the
11 QAP, as we went to the final before you, one of the items
12 that we've received a lot of comment about is the same one
13 the representative is addressing through his letter, and
14 that's that three point scoring item for units in existing
15 developments under 811. In order to just even the playing
16 field on that item, that has been reduced to two points
17 which is exactly what has been requested.

18 MR. OXER: So we're essentially doing what he
19 was asking for.

20 MS. HOLLOWAY: Yes.

21 MR. OXER: Okay. Good point on that one.
22 Thank you for that.

23 MR. IRVINE: And I have a virtual certainty
24 that some of our early commenters will be addressing this
25 same issue raised by Senator Uresti.

1 MR. OXER: And if that's the case, if that's
2 the only comment, just say that you support Senator
3 Uresti's and Representative Anchia's comment. We welcome
4 your comment but recognize we're on a short clock today
5 and we're struggling with maintaining a quorum till we can
6 get through all of this.

7 Okay. We're going to have a hard clock, three
8 minutes. If you've made these comments before, please
9 refer to them because they're in the transcript and in the
10 mix for a reasoned response. If you have something new to
11 add, this will help us identify the comments that are new
12 to the particular issue you're speaking on. You have
13 three minutes on a hard clock. I'll remind you to sign in
14 when you get there. So let's get started. Ginger, you're
15 up.

16 MS. McGUIRE: Thank you. Ginger McGuire,
17 representing the Rural Rental Housing Association of
18 Texas.

19 Attaching to my earlier comments about policy,
20 I would like to say that we do recognize as an association
21 that staff has hard choices and they have limited funds.
22 Every one of us serves a population that's deserving but I
23 would like to talk about our deserving population a little
24 bit.

25 We have 24,212 units in Texas that we

1 represent. That's approximately 35,000 residents at any
2 given time. The average income of these residents is less
3 than \$10,000. Fifty-six percent of these residents in
4 rural areas are elderly; of that 56 percent, 39 percent
5 are disabled. The USDA funded these properties originally
6 under cost containment, so the materials and the design,
7 everything about it is in need of repair. We did a recent
8 survey and found that there is an immediate need of more
9 than \$635 million in these 24,000 units.

10 I would like to talk about one issue in
11 particular and it's where we were caught off guard. We
12 read about it for the first time in the draft, and that
13 was adding USDA farm worker housing new construction --
14 which can come from an urban area as well as a rural
15 area -- to the USDA set-aside. And my reading of statute
16 says that it's a 5 percent set-aside and that the USDA
17 rehabilitation properties can only come from the USDA set-
18 aside.

19 We made what we thought was a reasonable
20 response to this first time information in the draft,
21 saying that we realize that these are deserving
22 populations, we are too, we believe, and we asked that you
23 limit to \$750,000 in credits any one transaction. We
24 asked that you limit new construction coming out of the
25 USDA set-aside to only one new construction per year. We

1 felt that was reasonable, we still think that's
2 reasonable. That reduces us to about a little under 3-1/2
3 percent for the existing 24,000 units needing that \$635
4 million.

5 We hope we can work with staff in the coming
6 year to do something that serves all of us in the 2017,
7 and I hope that you would consider the \$750- today and the
8 one new construction.

9 MR. OXER: Okay. Let's see \$635 million for
10 24,000, that's about \$26,500 per unit that you're saying
11 each of those units needs.

12 MS. McGUIRE: It's about \$35,000 per unit on 75
13 percent of the units. Some of the units don't need rehab.
14 But yes, if you want to do it that way, yes. I'm
15 trusting your math.

16 MR. OXER: I can do math on my feet. The \$1
17 million maximum, just out of curiosity to make sure we
18 have a point of that, because we limit the deals to \$1
19 million, that's defined by our policy or is it
20 legislative?

21 MR. IRVINE: Legislatively it establishes
22 maximums. We have latitude within that statute, I
23 believe.

24 MR. OXER: We can go up to that but we're not
25 limited to that.

1 MR. IRVINE: Correct.

2 MR. OXER: Just a point of clarification.

3 MS. McGUIRE: We would ask for the \$750,000
4 limit. Like I said, it reduces the rehab that we have in
5 those properties, available to us in those properties.

6 MR. OXER: Okay. Thanks, Ginger.

7 Any questions from the Board?

8 (No response.)

9 MR. OXER: Okay. Next.

10 MR. NISIVOCIA: Good morning, Mr. Chair and
11 members of the Board. My name is David Nisivoccia. I'm
12 the interim president and CEO of the San Antonio Housing
13 Authority, and I definitely support Senator Uresti's
14 letter that he put in the record for your consideration
15 today.

16 I'm here to talk about the educational aspect
17 of the QAP, and there's some speakers behind me that will
18 get directly to the point that Dr. Muñoz raised regarding
19 the met and the differences between the elementary,
20 secondary and high school and the impact that has on our
21 community, but I also want to talk about a global
22 perspective.

23 I think the first thing we want to do is
24 recognize staff's hard work on this item. We understand
25 it's a large undertaking and they can't please everybody

1 who comes before you regarding the items they wish to
2 discuss, however, it's our belief that there's been a
3 slight over correction regarding the educational
4 excellence, and it's an impact regarding the adverse
5 impact lawsuit. And what the nature of this does is it
6 moves the opportunity for neighborhoods like Wheatley
7 Courts, where it's seen \$200 million of investment on a
8 federal, local and state level which is raising that
9 opportunity, that neighborhood that's in progress, in a
10 position of correction, to compete unfairly against
11 neighborhoods of opportunity who already have those
12 linkages and school systems in place. As I said, you'll
13 hear other discussions later by our SAISD superintendent
14 which will stipulate to the progress that we're making in
15 this community and it's all very positive news.

16 And the last part that I would like to
17 stipulate and talk to you about is this Board has been
18 rather generous to the City of San Antonio regarding the
19 housing authority and awarding us two previous rounds of
20 tax credits, and what we're looking for is a third tax
21 credit round to compete which would close out our project.
22 The people you see behind me are members of our community,
23 are residents of our community who have come forth in
24 numbers today in unison to speak on how important, how
25 committed we are as a community to ensure that this

1 development, this neighborhood has a lasting impact.

2 We believe in educational excellence. We
3 believe you're going to hear really good news. In fact,
4 when you looked at the stability of the neighborhood and
5 the impact that our clients had moving in and moving out,
6 the scores have never been so good as when our clients are
7 in this neighborhood.

8 So I come before you asking today that the
9 friendly amendment on the language that the San Antonio
10 Housing Authority put forth be considered, and I
11 appreciate very much your time. Thank you.

12 MR. OXER: Thanks, David.

13 Any questions?

14 (No response.)

15 DR. STRIPLING: Thank you and good morning. My
16 name is Dr. Morris Stripling. I'm the chairman of the
17 board for the San Antonio Housing Authority, and I
18 understand the time constraints and I want to make this as
19 succinct as possible.

20 We don't disagree with the QAP regarding points
21 for educational excellence. Our issue is we are in the
22 middle of a vital revitalization for Wheatley, which is
23 now EastPoint. As you guys may know, we have three large
24 federal grants: we have a Byrne Grant which is to
25 mitigate crime in the area, we have Choice which is the

1 housing, and also the Promise Grant which is in the middle
2 of making sure that educational excellence is met.

3 When I read about the changes that might occur,
4 it brought to my mind my own kids. I have three kids.
5 They are in what you might consider neighborhoods of
6 educational excellence. I have one son who is autistic,
7 and because of the public education system, I have two
8 kids in college and he is a functioning adult. And so we
9 want to see the same thing happen in this neighborhood.
10 We don't want for our progress, which we're right in the
11 middle of, to be disrupted because of this change. We
12 just think you should take into consideration that these
13 three federal programs are in progress and we're making
14 strides from an educational standpoint and we think that
15 ought to be taken into consideration when the QAP is put
16 together finally. Thank you.

17 MR. OXER: Thank you, Dr. Stripling.

18 DR. MUÑOZ: Just a minute. I've got a
19 question.

20 DR. STRIPLING: Yes.

21 DR. MUÑOZ: You said you have a Promise Grant
22 in that neighborhood?

23 DR. STRIPLING: Yes.

24 DR. MUÑOZ: What's the amount, is it \$25
25 million?

1 DR. STRIPLING: Yes, it's \$25 million.

2 DR. MUÑOZ: And what year are you in?

3 DR. STRIPLING: For us this is our second year
4 for Choice and Promise is four.

5 DR. MUÑOZ: You're in your fourth year of the
6 Promise? It sunsets in the fifth year? We have one in
7 Lubbock. Those are very difficult to acquire. It takes a
8 huge amount of partnership, unprecedented, very few were
9 awarded.

10 MR. OXER: Thank you, Dr. Stripling.

11 DR. STRIPLING: Thank you.

12 MR. MARTINEZ: Good morning. My name is Pedro
13 Martinez. I'm the superintendent for San Antonio ISD,
14 first year in the district.

15 And really what I am here to ask of you is to
16 not punish our community for what we feel is a blip right
17 now that happened in one of our schools. Last year one of
18 our schools, Wheatley Middle School, did not meet standard
19 which would then take San Antonio Authority's application
20 and they would be penalized by those three points. And we
21 see that as a very temporary blip, and let me tell you
22 why.

23 First of all, when I look at the progress that
24 has been made in this community since we joined forces
25 with this Promise Zone grant, our three elementary schools

1 have all made double digit gains across all the core
2 subjects in the last three years, all three schools have
3 met standard all three years, two of them have gotten the
4 state distinctions, the majority of distinctions across
5 the state, and again, this is one of our highest poverty
6 neighborhoods in our district.

7 DR. MUÑOZ: They met or comfortably exceeded?

8 MR. MARTINEZ: They have all met and the two
9 with distinctions have exceeded it because they've gotten
10 three distinctions, which means that they rank in the top
11 quartile of any schools that have similar demographics.

12 And our high school actually last year had the
13 highest graduation rate it's every had, over 80 percent,
14 with the highest percent of children attending college.
15 And so Wheatley had met standard the year before in the
16 school year end '14, they didn't meet it last year, and we
17 see that as a blip. And keep in mind, to give you
18 context, our state has made the assessments much more
19 rigorous, which we believe is a good thing, our standards
20 have changed, and again, we think those are all positive
21 things. So that's created a lot of noise in our state and
22 with accountability systems, but again, we don't want to
23 make excuses.

24 As superintendent, I've been in Wheatley, I've
25 been in the classrooms. I can tell you the area we

1 struggle with, we actually would have done well with math
2 and reading but we struggle with science and social
3 studies. So we are implementing more stem programming
4 than ever before at Wheatley Middle School, we're
5 introducing more technology, we have a brand new principal
6 there who has a very strong track record, both at middle
7 school and high school. So for us, again, we see this as
8 a temporary blip.

9 And what I would ask of you is let's not
10 penalize the progress that's been made in this community.

11 The housing that's being created is right across the
12 street from the middle school, and I've got to tell you,
13 the energy level that exists, not only in our school but
14 in the community, it is so positive because this community
15 has been ignored for so many years. And I'm brand new to
16 Texas, I'm brand new to the community, and I can see it
17 because I grew up in a community just like that. And to
18 see that energy becoming so positive and uniting around
19 the school, again, we just want to make sure that progress
20 continues.

21 And I would, again, be happy to take any
22 questions. Thank you, gentlemen.

23 MR. OXER: Thank you, Mr. Martinez?

24 Any questions?

25 (No response.)

1 MS. ALBRIGHT: Hello. I'm Shari Albright. I
2 am the chair of the department of education at Trinity
3 University in San Antonio. I'm also a professor and I am
4 a proud partner of the community that is working with the
5 Eastside Promise neighborhood. Thank you so much for
6 letting us be here today.

7 So I wanted to talk a little bit about I'm at a
8 university that's a Tier One university that gets pulled
9 on a lot to join partnerships, and we pick very
10 specifically what we join up with. We look for
11 partnerships with impact, we look for partnerships with a
12 growth trajectory that we can join and add value to, and
13 that's why we joined in with the Eastside promise
14 neighborhood, frankly, in its formation and its grant
15 writing prior to receiving our Promise Neighborhood Grant.

16 We are a proud partner in that work, and I
17 personally get to be a part of that work every week
18 through our school leadership program. I'm in the schools
19 as a leadership coach working with our leadership
20 candidates and the leadership teams at these schools on a
21 weekly basis, and I can personally attest to the change we
22 have seen over time with our promise neighborhood and the
23 promise that it holds for us to continue to push towards
24 educational excellence.

25 You know, as well as all of us do, the world is

1 changing around us, expectations are ratcheting up
2 constantly, we're trying to stay ahead of that in schools.

3 It is a marked challenge, and it's a marked challenge if
4 you don't have the entire system aligned moving in that
5 direction. That was what was so compelling to us about
6 the Eastside Promise Neighborhood. All the pieces are
7 being put into place from housing, to social service
8 wraparound services, to workforce development, to
9 educational improvement, and so we do believe the
10 trajectory is strong.

11 I'm an educational wonk so I'm going to quote
12 to you just briefly from a recent study from the Harvard
13 Graduate School of Education and it's about school change,
14 and I just want you to think about this in light of what
15 Superintendent Martinez has been telling you. It says:
16 There are no breakthroughs or dramatic turnarounds in the
17 improvement of schools. There are, however, predictable
18 periods of significant improvement followed by periods of
19 relative stasis or even decline, followed again by periods
20 of improvement. This pattern of punctuated equilibrium is
21 common across all types of human development, individual,
22 organization, economic and socio-political -- and I would
23 say educational.

24 That's what you're seeing here. You're
25 watching a blip on our radar screen of a trajectory of

1 improvement of all of the schools in this community and in
2 particular Wheatley Middle School, and I just wanted to be
3 here as a community partner to say that we think we're on
4 the right course, we think the trajectory is right.
5 You've said it's hard work, and we would like you to make
6 a consideration for a community that has invested greatly
7 to try to lift up and entire area of San Antonio. And
8 please don't let us just get two-thirds of the way through
9 without your support and your help in this initiative
10 through your policymaking.

11 I thank you so much for letting us be here
12 today.

13 MR. OXER: Great. Thanks, Shari.

14 MS. BURCHETT: Good morning, Chairman and
15 Board. My name is Sallie Burchett and I'm with Structure
16 Development. As a certified planner, I'm ethically
17 obligated to serve the public, and that will be the intent
18 of what I say today.

19 For several years I've been mapping the
20 community assets for Sarah Andre and when I would have to
21 include a fast food restaurant to meet the six assets, it
22 would make me frown and sad and then I would get excited
23 when I found a grocery store really close by, and so the
24 grocery store and pharmacy item is really important to me.

25 At the roundtable back in June we talked about

1 better policies for community development and we tossed
2 around proximity to healthy food, and grocery stores and
3 pharmacies and originally it was a threshold item and then
4 it turned into being within one mile and two miles which
5 is consistent with the other community assets. And as
6 Marni stated, recently it's been moved to one and a half
7 and three miles per the development community.

8 The concept is great. Access to healthy food
9 is the most important tenet for healthy physical and
10 mental health, and conversely, sprawling land use policies
11 are doing the opposite and creating unhealthy community
12 members. I have comprehensively assessed the radii
13 overlaid with city limits and infrastructure and I feel
14 like the one and a half and three mile radii cover the
15 vast majority of areas that are served with water and
16 wastewater. If it's an incentive item to have policies to
17 have better places to live, I feel like the one and a half
18 mile and thee mile is watered down and it's not serving
19 its purpose as an incentive or to differentiate different
20 sites.

21 This is an opportunity to make a real
22 difference in the lives of the future residents to give
23 them high opportunities to live, work, learn and play. I
24 feel like staff had it right at one mile and two miles,
25 and I respectfully request that the radii be consistent

1 with community assets and be at one and two miles for
2 urban and rural, respectively. Thank you.

3 MR. OXER: Great. Thanks, Sallie.

4 Who's next?

5 MS. GORMAN: Good morning. My name is Jackie
6 Gorman and I'm the executive director of San Antonio for
7 Growth on the Eastside. I am also a member of San
8 Antonio's Housing Commission for Preserving Diverse and
9 Dynamic Neighborhoods.

10 SAGE, San Antonio for Growth on the Eastside,
11 is one of the five lead partners for the San Antonio
12 Eastside Promise Zone. Our area of focus is economic
13 development. What we've learned over the years of this
14 work in our community is that community revitalization is
15 like a three-legged stool. If you think of the community
16 as the seat, the three legs are economic development,
17 housing and education. We know that none of those things
18 can exist in isolation, that we depend on each other and
19 the other legs to make sure that we raise our community up
20 to stability.

21 Our work in this community is finally starting
22 to bear fruit. Just last week we announced that nineteen
23 new businesses have started in this community since
24 January of 2015. We're talking about businesses that
25 range from restaurants to law firms to government

1 contractors to a movie studio. The work that is being
2 done around Wheatley is serving as a catalyst for private
3 investment. Home sales and property values in this
4 community are rising and we're headed toward being a truly
5 mixed income community.

6 As this community becomes revitalized, however,
7 there is a real fear of gentrification. At the housing
8 commission we're working to try to find local solutions to
9 these very complex problems to try to avoid gentrification
10 of our inner city communities and displacement of our
11 lower income residents. We understand that these issues
12 are complex and we understand that the issues that you
13 face are complex, but there is one absolute: we must
14 ensure that our low income residents have a place in these
15 newly revitalized communities.

16 Therefore, we're supporting the recommended
17 changes to the QAP that our partner, the San Antonio
18 Housing Authority, submitted that would allow applications
19 under the at-risk set-aside that have a nationally
20 recognized educational initiative in place and/or receive
21 funding from Choice Neighborhoods to receive three points,
22 regardless of the school rankings. Our community is
23 working hard to move forward and completion of this
24 project and making sure that our lowest income residents
25 remain in this community has to be paramount.

1 Thank you so much for your time.

2 MR. OXER: Thank you, Ms. Gorman.

3 Any questions?

4 (No response.)

5 MR. OXER: We're glad to hear that it's moving
6 along because we had some questions several years ago when
7 this first came up, so we're glad to see it's moving
8 along.

9 Who's next?

10 MR. ARELLANO: I'd just like to say I'm a
11 former resident of the Wheatley Courts.

12 MR. OXER: And you have to tell us who you are.

13 MR. ARELLANO: Daniel H. Arellano, Jr., and I'm
14 also a volunteer from the Wheatley Courts and the vice
15 president of Wheatley Courts, and I'm here today to speak
16 on behalf of the community of the Wheatley Courts.

17 First of all, all the help that you've been
18 giving us, it really does help. I've seen it in the
19 people in the community. All the programs that you've
20 brought to it, it does help, and all the funds that you've
21 given, it does help. So if they could have the 3 percent,
22 then they can move forward and finish with the project
23 because there's 247 apartments that they knocked down so
24 there's 247 people of families that were out. So they all
25 want to come back home but if we don't get that, then we

1 cannot come back home, there's only going to be some of us
2 coming back home. So if you could help us and finish what
3 was started, that would be great.

4 Thank you.

5 MR. OXER: Okay. Thank you, Mr. Arellano.

6 Just for the record, who's got on a yellow T-
7 shirt? He's obviously brought his posse today. Everybody
8 that's got a yellow T-shirt that's representing San
9 Antonio, raise your hand.

10 MR. ARELLANO: Eastside.

11 (Cheering and applause.)

12 MR. OXER: Well, we're glad to see that the
13 projects we're supporting are recognized and appreciated
14 where we try to put them in there.

15 You're next.

16 MR. ETIENNE: Good afternoon, Mr. Chairman,
17 members of the Board. My name is Mike Etienne. I'm with
18 the City of San Antonio. I'm here on behalf of the mayor,
19 Mayor Ivy Taylor, and our city manager, Sheryl Sculley, to
20 essentially support our partner, the Housing Authority's
21 request to amend the QAP, Section 11.9.

22 The Wheatley Courts project is extremely --

23 MR. OXER: Don't make us dizzy again with all
24 those numbers.

25 (General laughter.)

1 MR. ETIENNE: The Wheatley Courts project is
2 very important to the City of San Antonio because we see
3 that project being the catalyst that will help revitalize
4 the entire Eastside of San Antonio. We believe that if we
5 want to be a world class city, all of our neighborhoods
6 must thrive, including the ones that have struggling
7 schools.

8 We have invested almost \$200 million in that
9 community, specifically to improve the streets, the
10 drainage, sidewalks, curbs and gutters. We've added more
11 police officers to the neighborhood to the point where
12 crime has been reduced by 7 percent. We've seen
13 improvements in our school district where our graduation
14 rate went from 45 percent to 84 percent at the local high
15 school. But most importantly, we are improving the lives
16 or transforming the lives of the people who live there.

17 The city is currently working with the partners
18 to transform a current vacant school into a one-stop job
19 training center to provide free job training opportunities
20 to residents in the community in the areas of welding,
21 CNA, certified nursing assistants, manufacturing, IT,
22 because we feel that if we can connect those residents to
23 good paying jobs, ultimately that will improve the overall
24 quality of life of the families, and of course, the
25 children will improve.

1 So again, I'm here today to ask for your
2 support in amending the QAP Section 11.9 to make sure that
3 this project continues. Again, the city is very grateful
4 for your funding or allocating the first two phases for
5 tax credits. Phase I, you approved that, Phase II, you
6 approved it, so we are now close to asking for support for
7 Phase III. That's the final phase. So we are grateful
8 for the support you've given us so far and we would like
9 for you to continue that by funding Phase III because,
10 again, this project we see it as the catalyst that will
11 revitalize the entire Eastside of San Antonio.

12 So again, on behalf of the mayor and the city
13 manager, thank you again for all your support, and thank
14 you.

15 MR. OXER: We appreciate your comments, Mike.
16 And your police chief -- I'm sorry, tell me his name
17 again.

18 MR. ETIENNE: Chief McManus.

19 MR. OXER: Chief McManus. He came and spoke to
20 us it's been what, two years ago now? At least two years
21 back. Tell him we're glad to hear things are going in the
22 right direction, and the most important thing you can
23 offer to your residents of Wheatley is hope.

24 MR. ETIENNE: Thank you.

25 MR. CHISUM: Mr. Chairman, I have a question.

1 MR. OXER: Yes, sir.

2 MR. CHISUM: You mentioned the job training
3 center. Who's funding that, please?

4 MR. ETIENNE: That is funded through Alamo
5 Colleges, and Alamo Colleges receives grants and also
6 support from the Texas Workforce Board.

7 MR. CHISUM: Thank you.

8 MR. OXER: It's an interesting concept that
9 we'll have to talk about again later too.

10 Thanks, Mike.

11 Who's next on this one? Hey. I knew we were
12 going to see you today.

13 MS. SISAK: Trying to get done early and get
14 back to my paying job. I'm Janine Sisak. I'm here today
15 representing TAAHP as the chair of the QAP committee.
16 I'll keep this brief because I know a lot of people have a
17 lot to say.

18 I do want to thank staff for all their efforts
19 in synthesizing all the comments. I know this year has
20 been a challenge with the new legislation. It's been a
21 challenge for everyone to kind of grapple with the
22 language and how it needs to be interpreted, and then, of
23 course, synthesizing that into the QAP rules.

24 MR. OXER: And if it was easy, anybody could do
25 it. That's why they've got us and that's why Texas ranks

1 number one in this program nationwide.

2 MS. SISAK: There you go.

3 MR. OXER: And for the record, it's because of
4 the efforts of everybody out in this room, and we're just
5 trying to make all this work.

6 MS. SISAK: I agree, and that's kind of in line
7 with some of my comments today.

8 We as TAAHP wished in retrospect that we would
9 have engaged with staff much earlier in the process. We
10 know that this year has been kind of a bumpy road.

11 MR. OXER: You'll get a chance to do that next
12 month, by the way.

13 MS. SISAK: I know. You're stealing all my
14 thunder. We are committed to working with staff early on
15 in the 2017 QAP and getting some of this stuff worked out.

16 So that being said, it's been an interesting
17 year. I think we started with last year's QAP, there was
18 an early draft that created a lot of consternation with
19 the stakeholders. The development community submitted a
20 lot of comment which Marni commented on, and I think a lot
21 of that has kind of been rolled back, but I think there
22 was a lot of damage control which is great that we could
23 work together to get to this place. But when I kind of
24 step back and look where we are today on the QAP, it
25 really is not all that different from last year's QAP with

1 the exception of the senior parity and the change with LPS
2 which are, I think, steps in the right direction, and
3 TAAHP leadership was very instrumental in making some of
4 those legislative changes happen.

5 So I could comment on a lot of things
6 substantively; I'm not going to. Staff was really
7 generous in seriously considering and adopting a lot of
8 the TAAHP comments that we made during the public comment
9 period.

10 I will make one comment on the second
11 supplement that was issued today with regard to the aging
12 in place category. You know, I don't think TAAHP is
13 opposed to making that point category available to all
14 applications, general population, supportive housing, and
15 elderly. For a lot of people in the room who haven't
16 really honed in on this, I think the real problem is that
17 educational excellence and aging in place are no longer
18 either/or categories. So I think under the reading of the
19 senior parity bill, HB 3311, how it reads now is all
20 populations, all applicants can get both, regardless of
21 whether you're taking points on one or the other.

22 I think the concern with that is there's a
23 concern that certain applicants will chase the aging in
24 place accessibility features, will commit to do
25 accessibility features in general population applications

1 just to get the points, and I don't think that's a good
2 policy. It's just not a good use of resources. It
3 doesn't make sense for general population applicants to
4 take points for doing higher toilets, a handrail in the
5 hall, blocking in the showers. I just don't think that
6 makes any sense.

7 So I think TAAHP's position on this is either
8 go back to making them either/or scenarios or just take
9 out aging in place altogether, we'll work on it with the
10 2017 QAP and really trying to achieve senior parity in
11 different ways.

12 So those are my comments. I think that's all
13 you're going to hear from me today. Thank you all.

14 MR. OXER: Thanks, Janine. Appreciate you
15 sticking to the clock.

16 Okay. Bobby, you're up, because we're going
17 that way and coming back around.

18 MR. BOWLING: Good afternoon, Chairman and
19 members of the Board. I didn't mean to cut the line; I
20 thought I was at the end.

21 (General laughter.)

22 MR. BOWLING: I want to also speak on that item
23 that Janine just spoke on but I want to hit not the exact
24 same points, in respect of your time. I again think that
25 the way that it's worded now that they're two separate

1 items, that it's a point chasing item and I think everyone
2 will chase these points, and I think it is a very
3 expensive point chasing item. I'm estimating, just this
4 morning as a lifelong contractor primarily before I got
5 into this program, that these ADA requirements are going
6 to increase the cost of each unit by about \$10 a square
7 foot. And I don't think, like Janine said, a good use of
8 your resources. I think everyone will chase this point, I
9 think you're going to increase the cost of your housing
10 across the board by \$10 a square foot, and that squeezes
11 out the number of units at the end. You're going to have
12 less units and less money to dole out for less units, and
13 instead making this accommodation.

14 From my perspective in my region -- and I know
15 I'm a little bit unique -- we have a very young
16 population, we have very few elderly people living in our
17 general population deals. The things that are here on
18 this list, one of them is a walking bar along a corridor,
19 that's just going to be a gymnastics bar for my five and
20 six and seven year old kids that are there. It's just not
21 going to serve the intended purpose. I can get it if
22 you're going to want to do these in elderly only.

23 I do disagree with one thing Janine said, I
24 don't want you to make this an either/or unless you've
25 just made it elderly can just get this, but if everyone

1 can get this either/or -- and maybe that's what she was
2 saying, maybe I don't disagree with her at all -- if you
3 let a general deal do either the educational excellence or
4 these ADA accommodations, I think you're gutting your ICP
5 remedial plan where educational excellence was something
6 you submitted to the court to try to address the low
7 income stuff.

8 MR. OXER: You know, for the record, you could
9 have talked all day and not brought up those three
10 initials.

11 MR. BOWLING: Well, I'm sorry about that, Mr.
12 Chairman.

13 MR. OXER: We're trying to get that thorn out
14 of our side.

15 MR. BOWLING: We're trying to make our buying
16 decisions for next year's round and this is a huge policy
17 shift. If you make that an either/or, then it just kind
18 of guts what I've been doing for the last six months was
19 just trying to find sites that you have identified as high
20 scoring sites with the educational excellence and the high
21 point criterion you have in that.

22 So I understand what you're saying about 3311,
23 that you can't limit these point criteria to either
24 elderly or general. I think maybe if that's the case that
25 some more thought needs to go into item number 8 and maybe

1 bring that back next year with something more reasonable.
2 But I think this is a very expensive list of changes with
3 this ADA -- anything to do with 2010 ADA sections and
4 Section 504, those are expensive accommodations, and if
5 they're not necessary in a general population unit, and
6 you can't specify that they can only be used for elderly
7 because of 3311, then I would advocate that just strike
8 the point item and bring it up next year and let's have
9 some more discussion.

10 MR. OXER: Good. Thanks for your comments,
11 Bobby.

12 Any comments, questions?

13 MS. McIVER: Diana McIver, DMA Development
14 Company.

15 And as much as it pains me to say this, I'm
16 actually in agreement with Janine and Bobby on striking.

17 MR. OXER: Wait a minute, let me get a calendar
18 and a gold star here.

19 (General laughter.)

20 MS. McIVER: I know. I was one of the people
21 that was very excited when I saw aging in place as an
22 alternative to educational excellence because I thought
23 that was a way to have a senior point category that was a
24 little more comparable and meaningful to seniors than the
25 educational excellence was. But at this point, aging in

1 place has been watered down so severely, and the name
2 alone, it's bad public policy to say that we have housing
3 with 25-year-olds aging in place. No, that is not what we
4 want. Our 25-year-olds, our 30-year-olds in family
5 housing, we want to help them with jobs, we want to help
6 them with education, we want to help them buy homes, we
7 don't want them aging in place, we don't want them living
8 with us when they're 76 years old.

9 So I just say at this point in time I think
10 that we're going to have an Urban Affairs interim charge
11 that deals with this program, let's scrap aging in
12 place -- it pains me -- let's scrap aging in place and
13 let's work on it over the summer and see if we can't come
14 up with something meaningful.

15 MR. OXER: Great. Thanks, Diana.

16 Donna, now you're up. If you want to say
17 ditto, that's fine.

18 MS. RICKENBACKER: Good morning. Donna
19 Rickenbacker with Marquee.

20 Tim, I want to thank you and staff. You all
21 did a great job with the reasoned responses. I know that
22 was a lot of work.

23 I'm not here to talk about aging in place, I'm
24 here to talk about another scoring category, opportunity
25 index. This scoring category allows an applicant to score

1 a maximum of seven points if their site is located in a
2 census tract that's in the first or second quartile and
3 depending on the performance achievement of the elementary
4 school that the site that the apartment's occupants are
5 zoned to attend. Staff uses 77 or greater to determine
6 the performance level of the elementary school because
7 it's the statewide median for both elementary and all
8 other schools combined. Last year 77 was the statewide
9 median for all schools combined; it also was the statewide
10 median for each of the school types: elementary, middle,
11 and high school. This year the median for the elementary
12 school is 76.

13 Since the elementary school is the basis for
14 which you get the opportunity index points, we requested
15 that that category, the elementary school, be dropped from
16 77 to 76. This recommendation, by the way, was not only
17 made by Marquee, it was made by TAAHP, it was made by
18 TXCAD, these are percentage-wise some of the largest
19 stakeholders in this industry.

20 This recommendation is consistent with the
21 methodology that staff has been using all along to
22 determine the performance of schools. Staff has
23 acknowledged this year in their reasoned responses that
24 the statewide median for elementary schools has dropped to
25 76.

1 And last, but most importantly not least,
2 Chairman, you mentioned that everybody is not going to
3 receive all points this year, and I fully understand that.

4 I do want you to understand, though, that everybody is
5 chasing the same sites out there. It's driving prices on
6 sites and also there's some games being played out there.

7 With all that said, if we are able to reduce the
8 opportunity index, elementary performance in the
9 opportunity index to 76, this is going to open up some
10 high opportunity sites that have good performing schools
11 and will allow an applicant to achieve these very critical
12 points to have a competitive application. So I ask for
13 your consideration in that regard.

14 There's one more point I wanted to bring up. I
15 wasn't planning on doing it, but you asked what is the
16 size of a place, and I kind of want to go into what a
17 place is. A place is a defined term in our rules and it's
18 inclusive of --

19 MR. OXER: Fifteen seconds.

20 MS. RICKENBACKER: It's inclusive of a city,
21 it's inclusive of a county, it's also inclusive of CDPs,
22 census designated places, a very small area that can be
23 part of multiple census tracts, by the way, all of which
24 could have a LIHTC development in it. And so technically
25 you can achieve the highest score in that point category

1 for being in an area that could potentially be across the
2 street from a LIHTC development. I hope you all keep that
3 in mind in the definitions. Thank you so much.

4 MR. OXER: Thanks.

5 DR. MUÑOZ: I've got a question.

6 MR. OXER: Okay. Question by Dr. Muñoz.

7 DR. MUÑOZ: You said this year TEA has
8 established that threshold of 76 for elementary?

9 MS. RICKENBACKER: It's the statewide median
10 for elementary schools. Yes, sir.

11 DR. MUÑOZ: When was that determined?

12 MS. RICKENBACKER: That came out this year, the
13 2015 TEA established the ratings of all the schools.

14 MR. OXER: When does that report come out?

15 DR. MUÑOZ: Was it last week, was it four
16 months ago?

17 MS. HOLLOWAY: August.

18 DR. MUÑOZ: August. Marni, why would we use 77
19 for elementary, middle and high school if in August it was
20 76?

21 MS. RICKENBACKER: It's 76 for elementary only.

22 DR. MUÑOZ: I get that. Why not have 76 for
23 elementary and 77 for middle and high school? I mean, if
24 that's the metric that we're using, why not use what's in
25 place?

1 MS. HOLLOWAY: The metric that we've been using
2 all the way through has been the statewide median, it
3 hasn't been the metric for each individual elementary
4 school and middle school or high school, it's has been
5 that statewide median.

6 DR. MUÑOZ: Well, here's what I understand,
7 maybe I'm understanding incorrectly -- that the statewide
8 median for elementary is 76.

9 MR. OXER: But the statewide median for all
10 schools combined is 77. That's what's been used
11 historically. Is that not correct, Marni?

12 MS. HOLLOWAY: Yes.

13 MR. OXER: That's the difference, that's the
14 issue in question.

15 DR. MUÑOZ: The 77 is an aggregate of the three
16 types of schools?

17 MS. HOLLOWAY: Yes, it is.

18 MS. RICKENBACKER: And last year the statewide
19 median was 77 but it was also for each of the individual
20 school types, so last year it made sense to use 77 in the
21 opportunity index because it also was the statewide median
22 for the elementary school which is tied to the opportunity
23 points.

24 DR. MUÑOZ: And so now it's 76 for elementary.

25 MS. HOLLOWAY: For just the elementary schools,

1 yes.

2 DR. MUÑOZ: So I mean, this would also impact
3 the San Antonio situation?

4 MS. HOLLOWAY: Actually, I don't believe it
5 would. I believe that the San Antonio situation is a
6 little bit different.

7 MR. OXER: It's going to be unique.

8 MS. HOLLOWAY: Yes.

9 MR. OXER: Okay. Thanks, Marni. Thanks,
10 Donna.

11 MS. FINE: Good morning. I am Tracy Fine with
12 National Church Residences, and I want to thank the staff
13 for all their time and dedication and listening to all of
14 us as a development community and trying to make as many
15 accommodations as possible.

16 I'm up here today to echo Joy and Walter's
17 comments on supportive housing, and I'm asking you not to
18 approve the changes that would decrease the amount of
19 points available to supportive housing projects. We are
20 considering a supportive housing project serving
21 chronically homeless adult individuals without children,
22 and additional disabled. We can barely compete as a
23 supportive housing project even when the three points are
24 included.

25 Our residents must have access to public

1 transit. Ninety percent of our residents do not own cars.

2 They are most successful in urban core areas that have a
3 variety of services accessed with public transit. I
4 cannot serve this population at sites that score under
5 high opportunity. They are only in city fringes and
6 suburban areas or in locations that we cannot afford or
7 that would have such NIMBYism that we would never be able
8 to put a chronically homeless project in a community like
9 that.

10 The three points barely give us an advantage.
11 It's because it's only three points. High opportunity is
12 seven points, educational excellence is five. We are only
13 at the table if we are in a community revitalization area.

14 Serving chronically homeless individuals
15 maximizes public resources. That's because these
16 individuals are chronic users of public resources like
17 emergency rooms, jails and hospitals. It's averaged that
18 for every single person housed we save \$16,000 a year; for
19 a 100-unit project that's a savings of \$1.6 million, and
20 \$24 million over a 15-year compliance that the tax credit
21 project covers. This does not include individuals that
22 are able to rejoin the workforce due to supportive housing
23 services that allow them to be stabilized and get training
24 to be productive members of society.

25 I'm asking you to allow these projects to

1 remain competitive or at least be at the table and not
2 take away these three points. Thank you.

3 MR. OXER: Great. Thanks, Tracy.

4 Any questions from the Board?

5 (No response.)

6 MR. OXER: Jean, welcome back.

7 MS. LATSHA: Thank you. Good morning. Jean
8 Latsha. I, for the record, am not here representing an
9 application or an applicant, but these are simply my own
10 thoughts.

11 One thing I do want to say, I appreciate
12 staff's efforts to comply with House Bill 3311 and what
13 Tim said earlier about I do think that the QAP is
14 basically a list of objectives that the Department wants
15 to meet, and with the combination of that plus 3311,
16 basically it compels the Department to create that list
17 and then assign value to it.

18 One thing I do want to point out with respect
19 to that is historic preservation scoring item right now,
20 as I understand it, actually rewards more points for an
21 application that does not meet another objective of the
22 QAP and that just kind of doesn't really make sense to me.

23 You get five points if you're not in attendance zones of
24 goods schools but you get two points if you are in
25 attendance zones of good schools, and it's just kind of

1 backward thinking, in my view.

2 One thing also that has not been mentioned with
3 respect to 3311, it was mentioned earlier, I understand
4 that there were some conversations about include at-risk
5 developments in the elderly cap. The plain language of
6 the rule, I'm not sure that that really does comply with
7 the bill. It says: Except as necessary to comply with
8 the nonprofit set-aside that the Board may not allocate to
9 developments reserved for elderly persons and located in
10 an urban subregion. The fact is at-risk developments are
11 located in urban subregions. You won't find the word
12 subregion anywhere else in 2306, they refer to state
13 service regions. The only reason the term is used here is
14 to distinguish between urban and rural areas and that this
15 should only apply to urban areas, but at-risk developments
16 are absolutely located in an urban subregion, and
17 therefore, they should apply to that cap.

18 I also mentioned to staff I think it will be
19 easier for them if they simply publish a number and not a
20 percentage. Point one percent of \$11 million in one of
21 those regions is \$10,000 in credit, and quite frankly,
22 that can affect whether or not someone has to wait for a
23 collapse or it can affect which subregion is more
24 underserved than another. I just think it would make
25 their lives easier.

1 One last thing I would like to say. Marni
2 alluded to this when talking about the previous
3 participation scoring item. She talked about the fact
4 that this is going to be considered in EARAC still because
5 it's clearly an objective of the Department to have
6 compliant developers and owners. I would argue that it is
7 much more efficient to make this a scoring item than to
8 deal with this in EARAC. EARAC is senior level department
9 heads. You've got \$900,000-plus worth of salaries sitting
10 around a table for four hours talking about compliance
11 records of people, and instead you could have a scoring
12 item or a tiebreaker that says we would reward you for
13 being in, I would say, a Category 1 or 2 with respect to
14 previous participation.

15 There was a lot of comment on that item, but
16 there was a lot of comment on a lot of items, and this is
17 the only one that got completely deleted because of the
18 comment. Some of that comment also was that it should
19 just be modified to include Categories 1 and 2. I still
20 think it should be a priority of the Department.

21 I can answer the questions on the schools, if
22 you'd like, with respect to the 77 and the 76. I think
23 76, all you're doing is manipulating data. You can
24 manipulate it to say 75, 76, 77, and it also gives the
25 high schools a median of 78 or 79, so you'd want to look

1 at those averages too. I think 77 is most consistent to
2 use across the board.

3 MR. OXER: Great. Thanks for your comments.

4 MS. LATSHA: Thank you.

5 MR. OXER: All right. We've got more comment
6 coming and there's going to be a whole bunch more. I can
7 hear the stomachs rumbling up here. We're going to take a
8 break for lunch, we're going into executive session. I
9 want everybody to sit still and listen here for a second
10 so that this is clear on the record.

11 The Governing Board of the Texas Department of
12 Housing and Community Affairs will go into closed or
13 executive session at this time. The Board may go into
14 executive session pursuant to Texas Government Code
15 551.074 for the purposes of discussing personnel matters,
16 pursuant to Texas Government Code 551.071 to seek and
17 receive the legal advice of its attorney, pursuant to
18 Texas Government Code 551.072 to deliberate the possible
19 purchase, sale, exchange or lease of real estate, and/or
20 pursuant to Texas Government Code 2306.039(c) to discuss
21 issues related to fraud, waste or abuse with the
22 Department's internal auditor, fraud prevention
23 coordinator or ethics advisor.

24 The closed session will be held in the anteroom
25 of this room which is John H. Reagan Building Room 140.

1 The date is November 12, 2015, and the time is 12:31.

2 We'll be back here at ten after one o'clock.

3 (Whereupon, at 12:31 p.m., the meeting was
4 recessed, to reconvene this same day, Thursday, November
5 12, 2015, following conclusion of the executive session.)

6 MR. OXER: Welcome back. The Board is now
7 reconvened in open session at 1:24. During the executive
8 session the Board did not adopt any policy, position,
9 resolution or regulation, or take any formal action or
10 vote on any item. So we're back in the game.

11 All right. We've had a motion by Mr. Goodwin,
12 second by Mr. Chisum, as I recall, on item 7(a). Item
13 7(a) we've heard staff recommendation and public comment.

14 Is there any other public comment? There appears to be
15 none.

16 Peggy, you've got a couple to read in?

17 MS. HENDERSON: Several. Peggy Henderson,
18 TDHCA.

19 Registering public comment for item number
20 7(a), all of the following names are against staff
21 recommendation for item number 7(a): Sylvia Molina, San
22 Antonio Housing Authority; Beverly Watts Davis, San
23 Antonio Community; Arrie Porter, San Antonio Housing
24 Authority; Elyse Harris, San Antonio Housing Authority;
25 Lorraine Robles, San Antonio Housing Authority.

1 Also against are: Tresia Jones, former
2 Wheatley resident; Sabrina Malana, Wheatley Courts
3 resident; Kevin Rodriguez, former resident; Gloria
4 Gonzales, former resident; Jose DeHoyos, former resident;
5 Linda Ann Najera, former resident; Michael A. Perez,
6 Public Allies, SAHA Choice; Lakisha Hazel, CASA office of
7 EastPoint; Stephanie Moreno, Americorps Public Allies;
8 Georgia Baines, CASA; Nehemiah O'Neal, San Antonio for
9 Growth on the Eastside; LaShawn Roberson, against; Sarah
10 Jones, Urban Strategies; Stephanie Rivera; Olga Kayttman;
11 Lakiesha Bean, Public Allies; Tim Alcott, San Antonio
12 Housing Authority; Mike Etienne, City of San Antonio; and
13 Dr. Emilio Castro, San Antonio ISD. All against item
14 number 7(a).

15 MR. OXER: That was a total of? It's like
16 fifteen, eighteen, twenty?

17 MS. HENDERSON: Yes.

18 MR. OXER: Are there any other questions from
19 the Board? Did you have a point, Tim?

20 MR. IRVINE: Comment, yes. Staff would like to
21 revise its recommendation to include removal of the aging
22 in place scoring item.

23 MR. OXER: I assume, Mr. Goodwin and Mr.
24 Chisum, you'd be willing to modify your motion to that
25 effect?

1 MR. GOODWIN: So willing.

2 MR. CHISUM: Yes.

3 MR. OXER: Both have agreed to do so. It seems
4 like it was a big piece of the work here. Anything else
5 from any of the Board?

6 (No response.)

7 MR. OXER: Okay. Motion by Mr. Goodwin, second
8 by Mr. Chisum, as modified by Tim's recent comment to take
9 aging in place out as a criteria, or out as a point, or
10 out as a component. Those in favor, aye.

11 (A chorus of ayes.)

12 MR. OXER: And those opposed?

13 (No response.)

14 MR. OXER: There are none. It is unanimous.
15 Okay. That's the QAP. So Marni, you've got part (b) here
16 to get going on.

17 SPEAKER FROM AUDIENCE: I think there were
18 several people who were unaware that public comment was
19 going to end before lunch. We thought 7(a)'s public
20 comments were going to be taken up after lunch as well.

21 MR. OXER: That's why I asked if there was any
22 more comment on it. Do you have any additional comments?
23 Walter, did you have something you wanted to say on 7(a)?

24 MR. MOREAU: Yes.

25 MR. OXER: We'll put it into the record, but

1 just do it in sixty seconds, okay, because we're fighting
2 a quorum issue here.

3 MR. MOREAU: We are against the change to
4 supportive housing. It's going to be very hard for any
5 supportive housing project to compete. This was thrown in
6 at the last minute and wipes out three points.

7 MR. OXER: Point noted, position noted. And
8 you are, just for the record.

9 MR. MOREAU: Walter Moreau, Foundation
10 Communities.

11 MR. OXER: Great. Thanks.

12 Joy.

13 MS. HORAK BROWN: Joy Horak Brown, president
14 and CEO of New Hope Housing in Houston, Texas.

15 I'm sorry, I misunderstood your direction,
16 Chairman.

17 I would just like to request some
18 clarifications. If the aging in place is removed, how
19 does that further impact supportive housing and the
20 educational excellence? It's a momentary change and I
21 believe it has some impact and I am unclear.

22 It is also true that in educational excellence
23 supportive housing can receive up to two points but only
24 subparagraphs (a) and (b) are included, (c) which is met
25 standard schools and one point is not even an opportunity.

1 So I would just like to ask that a deep breath is taking
2 and there's some clarification, if that's possible. Thank
3 you.

4 MR. OXER: Is there a clarification on that
5 item? Can you clarify that, Tom or Marni?

6 MS. HOLLOWAY: Marni Holloway, director of
7 Multifamily Finance.

8 Regarding the question about supportive housing
9 and aging in place, we had already pulled out the
10 supportive housing linkage to the aging in place item
11 before it was removed today.

12 Regarding the educational excellence item,
13 there are three scoring options there, five, three, and
14 one points. We are limiting supportive housing to two
15 points under (a) or (b) which would be five or three, they
16 can still get the one point if they're in a district
17 that's in that one point level.

18 MR. OXER: Okay. Good. Thanks.

19 If you need some more clarification, Joy, we
20 can set you up a meeting with staff, you know that.

21 Sir, did you have something you wanted to add?

22 We'll put it on the record, but I think it's evident
23 where this is going. Okay?

24 SPEAKER FROM AUDIENCE: Sure. I'll just pass
25 then. Thank you.

1 MR. OXER: Okay. Theresa.

2 MS. MORALES: Theresa Morales, manager of
3 Multifamily Finance.

4 Item 7(b) involves a number of rules that
5 govern the Multifamily funding applications, specifically
6 subchapters A, B, C and G within Chapter 10. I will
7 highlight some of the things that were changed within each
8 of these subchapters in response to public comment.

9 Beginning with Subchapter A which contains all
10 of the definitions, we added a definition for qualified
11 entity which then led to a clarification made for the
12 definition for right of first refusal. Both of these
13 changes were to more closely align with the recent
14 statutory changes to the right of first refusal process.

15 Changes to Subchapter B which includes the site
16 development requirements and restrictions primarily
17 involve the mandatory community assets where we provided
18 clarification to some existing assets and added some back
19 that were initially removed in the draft.

20 With Subchapter C which outlines for the most
21 part the threshold requirements, in response to public
22 comment staff is recommending that the documentation
23 supporting a property tax exemption be submitted at the
24 time of commitment or determination notice, as
25 appropriate, instead of at the time of application.

1 Another change that staff is recommending is
2 that the site design and feasibility report be moved out
3 from under the third party report section and under the
4 more general threshold items such that if components of
5 this report are missing, it could be cured through the
6 administrative deficiency process instead of possible
7 termination that the market study and some of those other
8 reports are subject to.

9 One of the other noteworthy changes to
10 Subchapter C includes a clarification under the waiver
11 section regarding the various requirements within these
12 subchapters where waivers could be granted by the
13 executive director, but the section still retains his
14 authority to defer to the Board for consideration and
15 action.

16 Staff recommends adoption of the repeal and the
17 new of 10 TAC Chapter 10, Subchapters A, B, C and G.

18 MR. OXER: Any questions from the Board?

19 (No response.)

20 MR. OXER: Then we'll need a motion to
21 consider.

22 DR. MUÑOZ: Move staff's recommendation.

23 MR. OXER: Motion by Dr. Muñoz to approve staff
24 recommendation on item 7(b). Do I hear a second?

25 MR. GANN: Second.

1 MR. OXER: Second by Mr. Gann.

2 Joy, did you have anything you wanted to speak
3 to on 7(b)? Any other questions from the Board?

4 (No response.)

5 MR. OXER: All right. Motion by Dr. Muñoz,
6 second by Mr. Gann to approve staff recommendation on item
7 7(b). Those in favor?

8 (A chorus of ayes.)

9 MR. OXER: And opposed?

10 (No response.)

11 MR. OXER: There are none. It's unanimous.

12 It looks like you're back up; it's your time of
13 the year.

14 MS. HOLLOWAY: I am. Marni Holloway, director
15 of Multifamily Finance.

16 Item 7(c) is presentation, discussion, and
17 possible action to adopt the 2016 Multifamily Programs
18 Procedures Manual. Included in your Board book is a basic
19 outline of the manual that includes some general
20 information. After the rules have been fully adopted,
21 that will be updated and available to applicants providing
22 guidance regarding rules and processes in order for them
23 to access funding. Your approval today would include
24 flexibility to update that manual as a result of that rule
25 adoption.

1 MR. OXER: Any questions from the Board?

2 (No response.)

3 MR. OXER: Motion to consider.

4 MS. BINGHAM ESCAREÑO: So moved.

5 MR. CHISUM: Second.

6 MR. OXER: Motion by Ms. Bingham to approve
7 staff recommendation on item 7(c), second by Mr. Chisum.

8 No request for public comment. All those in favor?

9 (A chorus of ayes.)

10 MR. OXER: Those opposed?

11 (No response.)

12 MR. OXER: There are none. Good job, Marni.

13 Brent, looks like you're up.

14 MR. STEWART: Good afternoon, Chairman Oxer,
15 Board. My name is Brent Stewart, director of Real Estate
16 Analysis.

17 This is item 7(d) which is a request to repeal
18 the 2015 underwriting rules and approve the new 2016
19 underwriting rules. These rules are Chapter 10 in the
20 Multifamily Rules, Subchapter D. A draft of the 2016
21 proposed rules was published on September 26. We received
22 twelve comments. The Board writeup includes a summary of
23 those comments and changes to the rules that result from
24 those.

25 The first section is relating to market rents.

1 Staff had proposed a rule that would limit the maximum
2 market rent assumption to the 60 percent rents if a
3 property had 15 percent or fewer market rate units. We
4 received public comment on that issue. One was use the 60
5 percent gross rents instead of the net rents. Staff
6 agrees and we've made that change. The other was to
7 provide an alternate option in situations where they're in
8 high market rent areas that would allow the applicant to
9 provide an investor commissioned market study along with
10 the application and that would allow rents to go up to 30
11 percent over the gross rents. Staff agrees with that and
12 has made that change, adding that the investor has to
13 indicate that they have reviewed that market study.

14 The next section related to the section that's
15 basically the operative part of the REA rules related to
16 how tax credits and how loans are sized. The staff
17 proposed changes were strictly clarifying in nature and it
18 outlined that the rules that we use in that process, there
19 are terms and conditions that would be superseded by NOFAS
20 or other program rules which we've discussed earlier about
21 the HOME/TCAP NOFA earlier today.

22 There was a request to add some provisions
23 indicating that adjustments to that sizing and those loan
24 terms would be acceptable to the first lien lender or
25 syndicator, that adjustments to achieve a DCR would not

1 result in a deferred developer fee exceeding 50 percent
2 which would have an impact on scoring. There was a
3 comment about reducing the floor on Department loans, the
4 DCR floor from a 115 to a 110.

5 Again, this section is really the sizing
6 section of the REA rules, primarily for tax credits, as
7 well as sizing Department debt as it relates to DCR. We
8 don't size lenders debt or third party lender debt or
9 mandate terms or any of those things, we just make
10 assumptions and use them as a sizing exercise. The 50
11 percent deferred developer fee issue, from an REA
12 standpoint, that's really an item that should be addressed
13 in the scoring process because actually that particular
14 one relates to points under leveraging state, federal and
15 local resources. So staff does not recommend any changes
16 in that section.

17 Third big area of changes related to developer
18 fee, staff had proposed a 20 percent increase in developer
19 fee for public housing authorities that are converting
20 public housing through the RAD program using tax-exempt
21 bonds. We received a comment in support of that and we
22 received a comment that suggested adding transactions that
23 had higher levels of debt that normal to also get a higher
24 developer fee due to the increased risk associated with
25 the development having higher debt.

1 Staff's recommendation for the higher fee is
2 related to -- anything related to a higher fee would be
3 related to additional scope of work. It's not related to
4 the additional risk in a transaction, it's what else does
5 the developer have to do. We struggled with this one but
6 came back to these are complex transactions that housing
7 authorities put together and so we are making the
8 recommendation that that part of the fee be allowed to go
9 up to 20 percent, and that's based on increased scope, not
10 risk.

11 There was another comment asking again for
12 increased fee related to an identify of interest
13 transaction allowing for a developer fee on the
14 acquisition cost of the property itself. And staff
15 disagrees that a developer fee should be paid on selling
16 yourself your own property. We don't believe that that
17 activity has the same level of scope of work than going
18 and finding a different property to purchase and negotiate
19 a contract and deal with those types of things. So we
20 disagree with that comment.

21 Third, and probably most notably, is staff had
22 recommended a provision that would have limited the amount
23 developer fee used in basis to be fixed at the time of
24 initial underwriting. You can imagine that we got quite a
25 bit of comment on that one, and you know, there's

1 implications on some of these things on other applicants
2 that sit behind these deals. This particular one, in
3 essence, would have an impact, could have an impact on
4 applicants down the road in the sense that these would be
5 consuming more credits than what had originally signed up
6 for to take. I said that really wrong. They could have
7 an impact on other applicants because they're using
8 credits that otherwise, except for the normal cost
9 increases that should occur, not from a lack of due
10 diligence, those credits are foregone to people who are
11 further down the list.

12 The last item related to documentation for
13 proving up property tax exemptions, staff had requested
14 that along with the application the applicant should
15 provide certain documentation supporting that. That has
16 been changed such that -- and actually changed to other
17 parts of Chapter 10 -- where you only have to provide that
18 documentation if you actually receive an allocation on
19 July 30 and you have to prove it up by commitment.

20 So those are the issues or those are the
21 changes to the draft rules. We recommend approval.

22 MR. OXER: Good. Looks like you didn't attract
23 too much attention with this one.

24 Any questions from the Board?

25 MR. GOODWIN: Move approval.

1 MR. OXER: Motion by Mr. Goodwin to approve
2 staff recommendation on item 7(d). Do I hear a second?

3 DR. MUÑOZ: Second.

4 MR. OXER: And second by Dr. Muñoz. There's no
5 request for public comment. So motion by Mr. Goodwin to
6 approve staff recommendation on 7(d), second by Dr. Muñoz.
7 Those in favor?

8 (A chorus of ayes.)

9 MR. OXER: And those opposed?

10 (No response.)

11 MR. OXER: There are none.

12 Raquel, wake up.

13 MS. MORALES: I'm awake.

14 MR. OXER: Just been waiting the whole time to
15 get up here, anxiously.

16 MS. MORALES: I'm always last. Item 7(e) is
17 presentation, discussion, and possible action on the
18 repeal of 10 TAC Chapter 10, Subchapter E which is our
19 Asset Management rules, and the adoption of the new
20 Subchapter E 2016 Asset Management rules.

21 The final rule clarifies, corrects and adds
22 information in some sections to ensure that we are
23 accurately processing all of our post-award activities and
24 hopefully having more effective communication with our
25 development owners.

1 We published the rules in the *Texas Register*
2 and accepted public comment through October 15, and we
3 received a whopping seven comments on our Asset Management
4 rules.

5 MR. OXER: Does that mean you're doing good or
6 bad?

7 MS. MORALES: I think it means we're doing
8 good -- well.

9 MR. OXER: I guess it depends on who you ask.
10 Right?

11 (General laughter.)

12 MS. MORALES: Most of the comment that we
13 received agreed, I think, with staff recommendations on
14 some of the proposed language that we made to the rule to
15 clarify certain processes or activities, and staff agreed
16 with the majority of those. And we received a lot -- or
17 not a lot but we did receive some proposed amended
18 language and staff looked at that and agreed with the
19 comment received but proposed amended language that would
20 hopefully clarify cleanup language wherever it was needed.

21 We did receive some comment with respect to our
22 cost certification section. I think that's one of the
23 items where we did receive some opposition in Section
24 10.402(j) and the comment received was with respect to in
25 that section of the rule we list out the items required

1 for cost certification. Staff proposed changing requiring
2 the pro forma to go out fifteen years to thirty years, and
3 we did get comment proposing that change, asking that we
4 revert back to the 2015 language to be consistent with
5 what we do at initial application.

6 So staff disagrees with that comment. We still
7 propose and recommend including the 30-year pro forma for
8 a couple of reasons, primarily that the 15-year pro forma
9 is something that's used at application along with other
10 tools that help us to ensure the long-term feasibility of
11 a development as required under our statute under 2306.185
12 and under Section 42(m). And so given that, we no longer
13 have those same tools or cannot use those same tools at
14 cost certification. For example, the expense to income
15 ratio, we felt that incorporating a 30-year pro forma
16 again would allow us to do what we're required to do.

17 We did also reorganize Section 10.405 which is
18 related to our amendments in hopes that we would be able
19 to provide some more clarity on that section. I'll say
20 that there is still work to be done on that section and
21 maybe some of our other rules. Staff is open to having
22 those conversations now to get ready for next year's rule
23 where we can make it clearer than it is now on what type
24 of amendments come to you as a Board for decisions and
25 what we can handle administratively. So we tried to

1 reorganize the rules to kind of make that a little bit
2 clearer and hopefully easier for the outside community to
3 work with us.

4 MR. OXER: Offer them some guidance on what
5 they should come ask us if they're unhappy with what they
6 get from you.

7 MS. MORALES: Right. And that's pretty much
8 it. Staff recommends approval of these Asset Management
9 rules.

10 MR. OXER: Good. Okay.

11 MR. GOODWIN: So moved.

12 MR. OXER: Motion by Mr. Goodwin to approve
13 staff recommendation on item 7(e). Do I hear a second?

14 MR. CHISUM: Second.

15 MR. OXER: And second by Mr. Chisum.

16 Tamea.

17 MS. DULA: (Speaking from audience.) Actually
18 I think I'm more appropriate in public comment.

19 MR. OXER: Okay. Appreciate hearing that.

20 There's a motion by Mr. Goodwin and second by
21 Mr. Chisum to approve staff recommendation on item 7(e).
22 There's no request for public comment. Those in favor?

23 (A chorus of ayes.)

24 MR. OXER: And opposed?

25 (No response.)

1 MR. OXER: There are none.

2 Okay. We've reached the point in the agenda
3 where we accept public comment on matters other than those
4 items which are posted on the agenda for the purpose of
5 creating future agendas.

6 MS. DULA: Tamea Dula with Coats Rose.

7 At the end of the day when you get a tax credit
8 award, you've got to get your project placed into service,
9 and it was recently realized by a number of people in the
10 tax credit community that although the QAP and the rules
11 refer to Section 42 with regard to placement in service,
12 the carryover allocation agreement for some years has
13 included provision that says that instead of one unit per
14 building being placed in service to meet the criteria, in
15 Texas 100 percent must be placed in service for you to
16 meet that deadline.

17 And the request was made through TAAHP to
18 include a definition of placement in service that would
19 follow the federal rule. It appears that the federal rule
20 has always been the rule here, it's just that the
21 carryover allocation agreement at some point in time was
22 amended to include a much more rigorous requirement. And
23 this is a document that you don't really get to negotiate
24 with the TDHCA, it's sign it and be done with it.

25 So I'm here to ask that the Board consider what

1 reasons there might be for requiring this much more
2 rigorous hurdle to be placed in service and avoid losing
3 your tax credits, and if there is no particular policy
4 with regard to that, then I am here to request that you
5 talk with the staff about amending the carryover
6 allocation agreement to follow the federal requirements.

7 MR. OXER: Very good point. Appreciate your
8 comments on that. I'm sure we'll take that under
9 consideration.

10 MS. DULA: Thank you.

11 MR. OXER: Obviously, recognize we can't do
12 anything about it today but I think when we're looking at
13 what's our policy on policies here for the future QAPs and
14 others, we'll gin that into the mix.

15 MS. DULA: I don't think it's anywhere in the
16 rules or the regulations, it's only in that one document
17 so far as I can find out. Thank you.

18 MR. OXER: Fair enough. Thanks for your
19 comments.

20 Okay. Are there any other comments from
21 anybody in the audience that wishes to speak? Anybody
22 wish to say anything? Anybody from the staff?

23 (No response.)

24 MR. OXER: Anybody from the Board or members at
25 the dais up here?

1 MS. BINGHAM ESCAREÑO: Yes, sir.

2 MR. OXER: Ms. Bingham.

3 MS. BINGHAM ESCAREÑO: Just wanted to thank
4 staff for their hard work in knowing that they can't be
5 everything to everyone and working as hard as you could to
6 build a QAP that works for now, as best as possible.

7 And just an observation that we have friends in
8 the audience today, a lot of folks from Wheatley who have
9 left, and also our friends from supportive housing, and
10 would just thank staff in advance for possibly getting
11 back with them and making sure that somebody helps
12 explain, if any explanation is needed, about how
13 thoughtful you guys have been in trying to put together
14 the best options and how thoughtful we were as a Board at
15 considering your recommendations and maybe there's some
16 future opportunities. I know the educational excellence
17 was obviously a big deal today, and maybe it looks kind of
18 anticlimactic that we just kind of take a vote and then
19 everybody goes away. But if I were them and if I didn't
20 know as much as we know or as much as you know, I would
21 feel like I lost and I'm not sure why after I gave a
22 really compelling argument.

23 So I just would ask that we do, like I know you
24 guys always do, which is to follow up with those and
25 anybody else that you sense today may have been very

1 compassionate or compelling about their positions and
2 didn't quite see the change that they wanted.

3 And just wanted to thank you also because it
4 sounds like you're going to get started on the 2017 one
5 already, and it sounds like you have great goals for that
6 which, you know, would help, I think, everybody a lot. I
7 think every year we kind of build on things that we built
8 on the year before and it looks like we all have really
9 good intentions and at some point we may have lost the
10 spirit of some of it, even though I think we all represent
11 it. So thank you for that also.

12 MR. OXER: Anything else by any other members
13 of the Board?

14 DR. MUÑOZ: Just a quick embellishment to
15 Leslie's comments. You know, you try to develop a policy
16 that's as fair as possible and that can be applied as
17 consistently as possible, and there are instances of
18 uniqueness and idiosyncrasies and I think that we provide
19 a mechanism to try to address those in the form of a
20 waiver. I think her point of trying to maintain that
21 spirit is well intact and sometimes these policies don't
22 get down to a granular level that apply to your situation,
23 and those are things that I think the Board would be
24 receptive to consider, not to say that it would move in a
25 direction that you would approve but it would certainly

1 consider.

2 MR. OXER: Very good point. I concur on that.

3 Ultimately the QAP and the Tax Credit Program, in and of
4 itself, is a very important tool that we use to address
5 the housing issue in this state but it's not the only tool
6 and it's not something that can be applied to everything.

7 If you get a tool that applies to everything, it's not
8 going to be very good at anything. So we try to make this
9 as strong as we can, but in the end, that's the use of a
10 tool, we give the staff a tool and it comes back, and as
11 Juan says, if there are options to take a good hard look
12 at something that's worthy of one of those quirks that
13 we've tried to work out.

14 So many times for so long now we've been
15 ironing out quirks and wrinkles and chasing these little
16 gremlins out of this QAP, recognizing that it's a work I
17 progress that's going to constantly be evolving and we're
18 going to have a constantly evolving state of affairs that
19 we have to deal with. So that's why we don't put one in
20 place and you have to deal with it forever, we're going to
21 be constantly working with it. And for that, I am
22 enormously grateful for everybody that's here up on the
23 dais here.

24 I'd like to thank Ms. Bingham and the Audit
25 Committee group, Mr. Gann and Mr. Chisum, for taking the

1 extra time to be a part of that.

2 The QAP is strong. I'm absolutely confident
3 that my comment about Texas being number one in the
4 country with this is based on the fact that we sit here in
5 this and hammer out these details in the fashion that we
6 do. There's conflict, the conflict is hard but that's
7 what makes it strong and sharp when we get finished with
8 it.

9 So with that, if there's no other comment from
10 the Board, it's a good thing we do here. I appreciate the
11 effort that everybody makes. We're good because we are
12 Texas and we do this. So with no other questions, I'll
13 take a motion to adjourn.

14 MS. BINGHAM ESCAREÑO: So moved.

15 MR. OXER: Motion by Ms. Bingham to adjourn.

16 MR. CHISUM: Second.

17 MR. OXER: And a second by Mr. Chisum. No
18 public comment required. Those in favor?

19 (A chorus of ayes.)

20 MR. OXER: See you in December. Have a good
21 Thanksgiving.

22 (Whereupon, at 1:55 p.m., the meeting was
23 adjourned.)
