Use of this model plan is optional. However, the information requested is required in order to receive a Low Income Home Energy Assistance Program (LIHEAP) grant in years in which the grantee is not permitted to file an abbreviated plan. Public reporting burden for this collection of information is estimated to average 1 hour per response, including the time for reviewing instructions, gathering and maintaining the data needed, and reviewing the collection of information. Assurances

The Texas Department of Housing and Community Affairs agrees to:

(1) use the funds available under this title to--

(A) conduct outreach activities and provide assistance to low income households in meeting their home energy costs, particularly those with the lowest incomes that pay a high proportion of household income for home energy, consistent with paragraph (5);

(B) intervene in energy crisis situations;

(C) provide low-cost residential weatherization and other cost-effective energy-related home repair; and

(D) plan, develop, and administer the State's program under this title including leveraging programs, and the State agrees not to use such funds for any purposes other than those specified in this title;

(2) make payments under this title only with respect to--

(A) households in which one or more individuals are receiving--

(i) assistance under the State program funded under part A of title IV of the Social Security Act;

(ii) supplemental security income payments under title XVI of the Social Security Act;

(iii) food stamps under the Food Stamp Act of 1977; or

(iv) payments under section 415, 521, 541, or 542 of title 38, United States Code, or under section 306 of the Veterans' and Survivors' Pension Improvement Act of 1978; or

(B) households with incomes which do not exceed an amount equal to 150 percent of the poverty level for such State; or

(ii) an amount equal to 60 percent of the State median income;

except that a State may not exclude a household from eligibility in a Federal fiscal year solely on the basis of household income if such income is less than 110 percent of the poverty level for such State, but the State may give priority to those households with the highest home energy costs or needs in relation to household income.

(3) conduct outreach activities designed to assure that eligible households, especially households with elderly individuals or disabled individuals, or both, and households with high home energy burdens, are made aware of the assistance available under this title, and any similar energy-related assistance available under subtitle B of title VI (relating to community

services block grant program) or under any other provision of law which carries out programs which were administered under the Economic Opportunity Act of 1964 before the date of the enactment of this Act;

(4) coordinate its activities under this title with similar and related programs administered by the Federal Government and such State, particularly low-income energy-related programs under subtitle B of title VI (relating to community services block grant program), under the supplemental security income program, under part A of title IV of the Social Security Act, under title XX of the Social Security Act, under the low-income weatherization assistance program under title IV of the Energy Conservation and Production Act, or under any other provision of law which carries out programs which were administered under the Economic Opportunity Act of 1964 before the date of the enactment of this Act;

(5) provide, in a timely manner, that the highest level of assistance will be furnished to those households which have the lowest incomes and the highest energy costs or needs in relation to income, taking into account family size, except that the State may not differentiate in implementing this section between the households described in clauses 2(A) and 2(B) of this subsection;

(6) to the extent it is necessary to designate local administrative agencies in order to carry out the purposes of this title, to give special consideration, in the designation of such agencies, to any local public or private nonprofit agency which was receiving Federal funds under any low-income energy assistance program or weatherization program under the Economic Opportunity Act of 1964 or any other provision of law on the day before the date of the enactment of this Act, except that--

(A) the State shall, before giving such special consideration, determine that the agency involved meets program and fiscal requirements established by the State; and

(B) if there is no such agency because of any change in the assistance furnished to programs for economically disadvantaged persons, then the State shall give special consideration in the designation of local administrative agencies to any successor agency which is operated in substantially the same manner as the predecessor agency which did receive funds for the Federal fiscal year preceding the Federal fiscal year for which the determination is made;

(7) if the State chooses to pay home energy suppliers directly, establish procedures to--

(A) notify each participating household of the amount of assistance paid on its behalf;

(B) assure that the home energy supplier will charge the eligible household, in the normal billing process, the difference between the actual cost of the home energy and the amount of the payment made by the State under this title;

(C) assure that the home energy supplier will provide assurances that any agreement entered into with a home energy supplier under this paragraph will contain provisions to assure that no household receiving assistance under this title will be treated

adversely because of such assistance under applicable provisions of State law or public regulatory requirements; and

(D) ensure that the provision of vendor payments remains at the option of the State in consultation with local grantees and may be contingent on unregulated vendors taking appropriate measures to alleviate the energy burdens of eligible households, including providing for agreements between suppliers and individuals eligible for benefits under this Act that seek to reduce home energy costs, minimize the risks of home energy crisis, and encourage regular payments by individuals receiving financial assistance for home energy costs;

(8) provide assurances that--

(A) the State will not exclude households described in clause (2)(B) of this subsection from receiving home energy assistance benefits under clause (2), and

(B) the State will treat owners and renters equitably under the program assisted under this title;

(9) provide that--

(A) the State may use for planning and administering the use of funds under this title an amount not to exceed 10 percent of the funds payable to such State under this title for a Federal fiscal year; and

(B) the State will pay from non-Federal sources the remaining costs of planning and administering the program assisted under this title and will not use Federal funds for such remaining cost (except for the costs of the activities described in paragraph (16));

(10) provide that such fiscal control and fund accounting procedures will be established as may be necessary to assure the proper disbursement of and accounting for Federal funds paid to the State under this title, including procedures for monitoring the assistance provided under this title, and provide that the State will comply with the provisions of chapter 75 of title 31, United States Code (commonly known as the "Single Audit Act");

(11) permit and cooperate with Federal investigations undertaken in accordance with section 2608;

(12) provide for timely and meaningful public participation in the development of the plan described in subsection (c);

(13) provide an opportunity for a fair administrative hearing to individuals whose claims for assistance under the plan described in subsection (c) are denied or are not acted upon with reasonable promptness; and

(14) cooperate with the Secretary with respect to data collecting and reporting under section 2610.

(15) beginning in Federal fiscal year 1992, provide, in addition to such services as may be offered by State Departments of Public Welfare at the local level, outreach and intake functions for crisis situations and heating and cooling assistance that is administered by additional State and local governmental entities or community-based organizations (such as community action agencies, area agencies on aging and not-for-profit neighborhood-based organizations), and in States where such organizations do not administer functions as of September 30, 1991, preference in awarding grants or contracts for intake services shall be provided to those agencies that administer the low-income weatherization or energy crisis intervention programs.

(16) use up to 5 percent of such funds, at its option, to provide services that encourage and enable households to reduce their home energy needs and thereby the need for energy assistance, including needs assessments, counseling, and assistance with energy vendors, and report to the Secretary concerning the impact of such activities on the number of households served, the level of direct benefits provided to those households, and the number of households that remain unserved.

⁴ In the county of a major disaster or emergency designated by the Secretary of the Department of Health and Human Services or by the President under the Disaster Relief Act of 1974, the State will use the highest of 150% of the poverty guidelines or 60% of the State's median income ("SMI"). The State may also use this flexibility to set poverty guidelines in a local crisis as defined by the Department's Executive Director. The State will communicate this designation to affected Subrecipients through email and by website posting. Subrecipients must receive prior written approval before using 60% SMI. Place based assistance must be performed in the county, but person based assistance for those displaced by a disaster or emergency may be in other counties.

⁵ Currently, §6.307(e) of 10 Texas Administrative Code states: "A household unit cannot be served if the meter is utilized by another household that is not part of the application for assistance. In instances where separate structures share a meter and the applicant is otherwise eligible for assistance, Subrecipient may provide services if: (1) the members of the separate structures that share a meter meet the definition of a household per §6.2 of this Chapter; (2) the members of the separate structures that share a meter submit one application as one household; and (3) all persons and applicable income from each structure are counted when determining eligibility."

⁶ Per 10 TAC §6.309(g)(9), Subrecipient may make payments to landlords on behalf of eligible renters who pay their utility and/or fuel bills indirectly. Subrecipient shall notify each participating household of the amount of assistance paid on its behalf. Subrecipient shall document this notification. Subrecipient shall maintain proof of utility or fuel bill payment. Subrecipient shall ensure that amount of assistance paid on behalf of client is deducted from client's rent.

Determination of Benefits, 2605(b)(5) – Assurance 5, 2605(c)(1)(B)

2.4 Describe how you prioritize the provision of heating assistance to vulnerable households, e.g., benefit amounts, application period, etc.

Subrecipients use a rating system which determines priority based on persons in households who are particularly vulnerable such as the elderly, persons with disabilities, households with young children, households with high energy burden, and households with high energy consumption. Benefit amounts are determined on a sliding scale based on the household's income. The number of benefit payments is based on the presence of a vulnerable member such as the elderly, persons with disabilities, and households with young children. The maximum benefit amount is determined per program year based on household need, is split between heating and cooling assistance, and is not required to be applied equally to heating and cooling costs.

2.5 Check the variables you use to determine your benefit levels. (Check all that apply):

- Income
- Family (household) size
- Home energy cost or need:
 - Fuel type
 - Climate/region
 - Individual bill
 - Dwelling type
 - Energy burden (% of income spent on home energy)
 - Energy need
 - Other (Describe)

Benefit Levels, 2605(b)(5) – Assurance 5, 2605(c)(1)(B)

2.6 Describe estimated benefit levels for FY 2018:

\$0 Minimum benefit \$5,400 Maximum benefit

Note: Households are eligible for up to \$1,200 under utility assistance component and up to \$1,200 under household crisis component and they may be eligible for an additional \$3,000 for heating and cooling repair under the household crisis component

2.7 Do you provide in-kind (e.g., blankets, space heaters) and/or other forms of benefits?

Yes No -- If yes, describe.

Under energy crisis, a non-vulnerable household may receive service and repair of existing heating and cooling units not to exceed \$3,000 when Subrecipient has met local weather crisis criteria. Vulnerable households that include at least one member that is elderly, disabled, or a child age 5 or younger, may receive service and repair of existing heating and cooling units not to exceed \$3,000 or a portable air conditioning/evaporative coolers and heating units (portable electric heaters are allowable only as a last resort) regardless of local weather criteria.

Eligible households may receive temporary shelter not to exceed the annual household expenditure limit for the duration of the contract period in the limited instances that supply of power to the dwelling is disrupted--causing temporary evacuation. Eligible households may receive emergency deliveries of fuel up to 250 gallons per crisis per household, at the prevailing price. This benefit may include coverage for tank pressure testing. When natural disasters result in energy supply shortages or other energy-related emergencies, LIHEAP will allow home energy related expenditures as described in §6.310 (e) of 10 Texas Administrative Code.

Section 3: COOLING ASSISTANCE

Eligibility, 2605(c)(1)(A), 2605(b)(2) – Assurance 2

- Yes No -- If yes, describe.

Under energy crisis, a household may receive repair of existing heating and cooling units not to exceed \$3,000. Households that include at least one member that is elderly, disabled, or a child age 5 or younger, may receive either repair of existing heating and cooling units or crisis-related purchase of portable heating and cooling units not to exceed \$3,000.

Section 4: CRISIS ASSISTANCE,

Eligibility - 2604(c), 2605(c)(1)(A)

4.1 Designate the income eligibility threshold used for the crisis component:

2018 HHS poverty income level

OR

FY 2017 state median income 60%

4.2 Provide your LIHEAP program’s definition for determining a crisis.

A bona fide household crisis exists when extraordinary events or situations resulting from extreme weather conditions and/or fuel supply shortages have depleted or will deplete household financial resources and/or have created problems in meeting basic household expenses, particularly bills for energy so as to constitute a threat to the well-being of the household, particularly vulnerable population households (the elderly, persons with disabilities, or children age 5 and younger). A utility disconnection notice may constitute a household energy crisis.

4.3 What constitutes a life-threatening crisis?

State rules define a life threatening crisis as: “A life threatening crisis exists when at least one person in the applicant household would be adversely affected without the Subrecipient's utility assistance, because there is a shut-off notice or a delivered fuel source is below a ten (10) day supply (by customer report) to the degree that, in the opinion of a reasonable person, the effect could cause loss of life. Examples of life-sustaining equipment include but are not limited to kidney dialysis machines, oxygen concentrators, cardiac monitors, and in some cases heating and air conditioning when ambient temperature control is prescribed by a medical professional. Documentation must not be requested about the medical condition of the applicant/customer but must state that such a device is required in the Dwelling Unit to sustain life.”

Crisis Requirements, 2604(c)

4.4 Within how many hours do you provide an intervention that will resolve the energy crisis for eligible households? 48 Hours

4.5 Within how many hours do you provide an intervention that will resolve the energy crisis for eligible households in life-threatening situations? 18 Hours⁹

Crisis Eligibility, 2605(c)(1)(A)?

4.6 Do you have additional eligibility requirements for **CRISIS ASSISTANCE?**

Yes No

4.7 Check the appropriate boxes below and describe the policies for each.

⁹ Pursuant to §2604(c)(2) of the LIHEAP Statute, the Department provides “some form of assistance that will resolve the energy crisis” not later than 18 hours after a household applies for crisis benefits if such household is eligible to receive such benefits and is in a life-threatening situation.

Energy-related home repair: TDHCA will allow the use of LIHEAP weatherization funds for structural and ancillary repairs only if required to enable effective weatherization. If LIHEAP funds are included in a DOE unit, the SIR/audit must be used to justify all measures.

¹² In the county of a major disaster or emergency designated by the Secretary of the Department of Health and Human Services or by the President under the Disaster Relief Act of 1974, the State will use the highest of 150% of the poverty guidelines or 60% of the State's median income. The State may also use this flexibility to set poverty guidelines in a local crisis as defined by the Department's Executive Director. The State will communicate this designation to affected Subrecipients through email and by website posting. Subrecipients must receive prior written approval before using 60% SMI. Place based assistance must be performed in the county, but person based assistance for those displaced by a disaster or emergency may be in other counties.

8.6 What is your process for selecting local administering agencies?

The Department ensures that to the extent it is necessary to designate local administrative agencies in order to carry out the purposes of Title 42 U.S.C. §§8621, et seq. special consideration is given to any local public or private nonprofit agency which was receiving CSBG or LIHEAP funds.

(1) The Department before giving such special consideration, determines that the agency involved meets program and fiscal requirements established by law and by the Department; and

(2) if there is no such agency because of any change in the assistance furnished to programs for economically disadvantaged persons, then the Department gives special consideration in the designation of local administrative agencies to any successor agency which is operated in substantially the same manner as the predecessor agency which did receive funds for the fiscal year preceding the fiscal year for which the determination is made.

Currently, the Department administers all aspects of program delivery through the existing Subrecipients that have demonstrated that they are operating the program in accordance with the Economic Opportunity Act of 1964, the Low-Income Home Energy Assistance Act of 1981, as amended (42 U.S.C. §§8621, et seq.), and the Department rules. If Subrecipients are successfully administering the program, the Department may offer to renew the contract.

Under this model, the Department determines that an organization is not administering the program satisfactorily; corrective actions are taken to remedy the problem. Thereafter, if Subrecipient fails to administer the program correctly, the Department will proceed with the process of removing funds and reassign the service area or a portion to another existing Subrecipient or conduct solicitation or selection of a new Subrecipient in accordance with the Low-Income Home Energy Assistance Act of 1981. The affected Subrecipient may request a hearing in accordance with §2105.204 of the Texas Government Code.

However, the Department retains the right to go through a procurement process for some or all aspects of the LIHEAP program.

8.7 How many local administering agencies do you use?

37

8.8 Have you changed any local administering agencies from last year?

9.2 How do you notify the client of the amount of assistance paid?

The administering agency informs them once the determination is made.

9.3 How do you assure that the home energy supplier will charge the eligible household, in the normal billing process, the difference between the actual cost of the home energy and the amount of the payment?

Vendor agreements are used in all components. The Department provides Subrecipients with a Department approved vendor agreements to utilize. The document can be found at the Department’s website at <http://www.tdhca.state.tx.us/community-affairs/ceap/docs/17-CEAP-Vendor-Agreement.pdf>

Subrecipient monitors review necessary program documents and financial records through

desk reviews and on-site reviews to ascertain compliance with program requirements. Selection of contracts for monitoring is primarily based on risk assessment. LIHEAP Subrecipients are monitored at least once every three years. This is a component of the risk assessment score. If a Subrecipient also has Community Service Block Grant funds, the LIHEAP monitoring may be done at the same time. Subrecipients that leverage LIHEAP funds with DOE funds for weatherization are subject to an inspection review according to the DOE monitoring schedule (once a year). Contracts may also be selected for monitoring based on other factors, such as prior findings, complaints, or special requests.

10.7. Site Visits: Onsite monitoring visits are conducted at least once every three years. The Department will inspect a minimum of 5% of all LIHEAP weatherized units reported as complete.

SECTION 39. APPEALS PROCESS

In compliance with the LIHEAP Act, Subrecipient must provide an opportunity for a fair administrative hearing to individuals whose application for assistance is denied, terminated or not acted upon in a

timely manner. Subrecipient must establish a denial of service complaint procedure in accordance with Title 10, Part 1, Ch 6, Subch A, §6.8 of the State Rules. The rule states:

(a) Subrecipient shall establish a denial of service complaint procedure to address written complaints from program applicants/customers. At a minimum, the procedures described in paragraphs (a)(1) - (8) of this subsection shall be included:

(1) Subrecipients shall provide a written denial of assistance notice to applicant within ten (10) calendar days of the determination. Such a determination is defined as a denial of assistance, but does not include a level of assistance lower than the possible program limits or a reduction in assistance, as long as such process is in accordance with the Subrecipient's written policy. This notification shall include written notice of the right of a hearing and specific reasons for the denial by program. The applicant wishing to appeal a decision must provide written notice to Subrecipient within twenty (20) days of receipt of the denial notice.

(2) A Subrecipient must establish an appeals committee composed of at least three persons. Subrecipient shall maintain documentation of appeals in their customer files.

(3) Subrecipients shall hold a private appeal hearing (unless otherwise required by law) by phone or in person in an accessible location within ten (10) business days after the Subrecipient received the appeal request from the applicant and must provide the applicant notice in writing of the time/location of the hearing at least seven (7) calendar days before the appeal hearing.

(4) Subrecipient shall record the hearing.

(5) The hearing shall allow time for a statement by Subrecipient staff with knowledge of the case.

(6) The hearing shall allow the applicant at least equal time, if requested, to present relevant information contesting the decision.

(7) Subrecipient shall notify applicant of the decision in writing. The Subrecipient shall mail the notification by close of business on the third calendar day following the decision (three day turn-around).

(8) If the denial is solely based on income eligibility, the provisions described in paragraphs (2) - (7) of this subsection do not apply and the applicant may request a recertification of income eligibility based on initial documentation provided at the time of the original application. The recertification will be an analysis of the initial calculation based on the documentation received with the initial application for services and will be performed by an individual other than the person who performed the initial determination. If the recertification upholds the denial based on income eligibility documents provided at the initial application, the applicant is notified in writing.

(b) If the applicant is not satisfied, the applicant may further appeal the decision in writing to the Department within ten (10) days of notification of an adverse decision.

(c) Applicants/customers who allege that the Subrecipient has denied all or part of a service or benefit in a manner that is unjust, violates discrimination laws, or without reasonable basis in law or fact, may request a contested hearing under Tex. Gov't Code, Chapter 2001.

(d) The hearing under subsection (c) shall be conducted by the State Office of Administrative Hearings on behalf of the Department in the locality served by the Subrecipient.

(e) If the applicant/customer appeals to the Department, the funds should remain encumbered until the Department completes its decision.

12.5 When and how are applicants informed of these rights?

Within ten days of the determination the Subrecipient must provide written notification; can be made in person or by mail.

12.6 Describe your fair hearing procedures for **households whose applications are not acted on in a timely manner.**

Applicants are required to submit an application each program year. During the review of applications, applicants are assigned a priority rating based on indicators such as poverty level, energy burden and

use, and the presence of vulnerable household members. The applicant is informed of their rating and informed whether their application will be acted on immediately or if higher priority applicants will be served first. If due to a low priority rating an applicant does not receive services during a program year, the applicant must re-apply the following year. This is a program requirement and is not subject to applicant appeal.

If an applicant is concerned that their application has been mishandled, the applicant may file a complaint with the Department. TDHCA has an online complaint system, and staff phone numbers are posted online. In general, applicants who have a complaint are given contact information for TDHCA at the time the complaint is received by the Subrecipient. Applicants who call are encouraged to use the online system, but rarely do. Staff records the complaint and proceeds as if the complaint were a denial of services appeal, as described in Section 12.4 above.

12.7 When and how are applicants informed of these rights?

Applicants who have a complaint are given contact information for TDHCA at the time the complaint is received by the Subrecipient.
