Housing Need.

Based on information provided by the applicable Consolidated Plan, information provided by HUD, and other generally available data, make a reasonable effort to identify the housing needs of the low-income, very low-income, and extremely low-income families who reside in the jurisdiction served by the PHA, including elderly families, families with disabilities, and households of various races and ethnic groups, and other families who are on the public housing and Section 8 tenant-based assistance waiting lists. The identification of housing needs must address issues of affordability, supply, quality, accessibility, size of units, and location.

Housing Need Analysis- Section 8

June 2016

When analyzing local housing markets and developing strategies for meeting housing challenges, HUD suggests the consideration of several factors. These factors include how much a household spends on housing costs, the physical condition of housing and whether or not the household is overcrowded.

An excess cost burden is identified when a household pays more than 30 percent of its gross income for housing costs. When so much is spent on housing, other basic household needs may suffer.

The measure of physical inadequacy is the number of units lacking complete kitchen and/ or plumbing facilities. While this is not a complete measures of physical inadequacy, the lack of plumbing and/ or kitchen facilities can serve as a strong indication of one type of housing inadequacy.

Overcrowded housing conditions may occur when a residence accommodates more than one person per each room in the dwelling. Overcrowding may indicate a general lack of affordable housing in a community where households have been forced to share space, either because other housing units are not available or because the units are too expensive.

The following table estimates the number of low-income households with housing needs for the 37 TDHCA Section 8 service areas. The figures are adjusted to 2014 levels based on population growth estimates.

Housing Needs for Section 8	Number
Population	2,099,860
Number of Individuals in Poverty	377,323
Number of Cost Burdened Households	136,863
Number of Overcrowded Households	19,081
Number of Substandard Housing Units	6,498

2014 American Community Survey 5 year estimate

The TDHCA waiting list currently consists of 807 applications. The waiting list figure is a composite of several statewide jurisdictional waiting lists, as well as the Project Access waiting list. There is no waiting list for the Project-Based VASH program.
