Recommendation

Staff recommends approval of minutes with any requested corrections.

TEXAS DEPARTMENT OF HOUSING AND COMMUNITY AFFAIRS
BOARD MEETING
1100 Congress Avenue
Capitol Extension, E2.036
Austin, Texas 78701

Wednesday, July 12, 2006; 9:30 AM

SUMMARY OF MINUTES

CALL TO ORDER, ROLL CALL CERTIFICATION OF QUORUM

The Board Meeting of the Texas Department of Housing and Community Affairs of July 12, 2006 was called to order by the Chair, Ms. Elizabeth Anderson at 9:45 a.m. It was held at 1100 Congress Ave, Capitol Extension, E2.036, Austin, Texas 78701. Roll call certified a quorum was present.

Members Present:

Elizabeth Anderson – Chair
C. Kent Conine – Vice-Chair
Shadrick Bogany – Member
Sonny Flores – Member
The Honorable Norberto Salinas – Member
Vidal Gonzalez – Member (Arrived during the Public Comment Period)

PUBLIC COMMENT

Ms. Anderson called for public comment and the following either gave comments at this time or preferred to wait until the agenda item was presented:

Diana McIver, DMA Development Co., provided testimony concerning construction costs related to Hurricane Rita.

Michael Rawlings, City of Dallas, provided testimony in favor of City Walk at Akard #060086.

Larry James, Central Dallas Community Development Corp., provided testimony in favor of City Walk at Akard #060086.

John P. Greenan, Central Dallas Community Development Corp. provided testimony in favor of City Walk at Akard #060086.

George Ozuna, Jr., Consulting Engineer, provided testimony in favor of Las Palmas Gardens #060122.

Jacqueline Martinez, provided testimony in favor of Las Palmas Gardens #060122.

Cynthia Bast, Locke, Liddell & Sapp, provided testimony in support of appeal for Mesquite Terrace, and requested reconsideration of the vote on June 9 to deny an appeal for quantifiable community participation points for a resident council for the Mesquite Terrace transaction #060117.

Motion made by Mr. Flores to reconsider the vote to deny the appeal for Mesquite Terrace; no seconds; motion fails.

Bob Sherman, Winfield Estates Sr. Development Texarkana, provided testimony against Renaissance Plaza #060050.

Tom McClurg, Jasper Economic Development Group, provided testimony in favor of Prospect Point #060102.

Honorable Representative Joaquin Castro, provided testimony in favor of Las Palmas Gardens #060122.

Roy Navarro, Pharr Housing Authority, provided testimony in support of appeal for Mesquite Terrace #060117.
Perla Cavazos, representing Honorable Senator Eddie Lucio, provided testimony in support of appeal for Mesquite Terrace #060117.
Ms. Anderson welcomed Christine Gibson with the House Urban Affairs Committee.

The Board of the Texas Department of Housing and Community Affairs will meet to consider and possibly act on the following:

CONSENT AGENDA

Items on the Consent Agenda may be removed at the request of any Board member and considered at another appropriate time on this agenda. Placement on the Consent Agenda does not limit the possibility of any presentation, discussion or approval at this meeting. Under no circumstances does the consent agenda alter any requirements provided under Texas Government Code Chapter 551, the Texas Open Meetings Act.

AGENDA ITEM 1:

Approval of the following items presented in the Board materials:

General Administration Items:

Motion made by Mr. Conine to allocate using the Board discretion provided for in the QAP for 2007 forward tax credit allocations to these projects: 060086-City Walk at Akard; 060201-Moore Grocery Lofts, 060122-Las Palmas Gardens, 060117-Mesquite Terrace, 060105-Cypress Wood Crossing, 060102-Prospect Point, and 060073-Thomas Ninke Seniors Project; seconded by Mr. Bogany; passed unanimously.

Forwards for 2007
060021 Villas at Henderson Place
060073 Thomas Ninke Senior Village
060086 City Walk at Akard
060102 Prospect Point
060105 Cypresswood Crossing
060117 Mesquite Terrace
060122 Las Palmas Gardens Apts

AGENDA ITEM 8:

Presentation, Discussion and Possible Approval of Multifamily Division Items – Specifically Multifamily Private Activity Bond Program Items:

a) **Presentation, Discussion and Possible Issuance of Multi-Family Mortgage Revenue Bonds, Series 2006 and Housing Tax Credits with TDHCA as the issuer For:**

04608 *Grove Village*, Dallas, Texas for a bond Amount Not to Exceed $6,180,000 and the Issuance of a Determination Notice Recommended Credit Amount of $402,329.
Dan Steffey, VP, Guardian Management Company, provided testimony.
Motion made by Mr. Bogany to approve; seconded by Mr. Conine; passed unanimously.
04609 *Pleasant Village*, Dallas, Texas for a bond Amount Not to Exceed $6,000,000 and the Issuance of a Determination Notice Recommended Credit Amount of $370,152.
Postponed due to clerical error on posting.
060616 *Center Ridge Apartments*, Duncanville, Texas for a bond Amount Not to Exceed $8,500,000 and the Issuance of a Determination Notice Recommended Credit Amount of $324,532.
Postponed due to clerical error on posting.

b) **Presentation, Discussion and Possible Approval of an Inducement Resolution for Multifamily Housing Mortgage Revenue Bonds and for Filing Applications for Private Activity Bond Authority – 2006 Waiting List:**
060628 Lancaster Apartments Katy
Motion made by Mr. Conine to approve; seconded by Mr. Bogany; passed unanimously.

RELATED NON-AGENDA ITEM:

Request by Mr. Conine to Board to consider rescinding vote on Parkwest Apts.; with no objection, Ms. Anderson instructed staff to add Parkwest Apts. to agenda for August 30 and to notify all the parties that participated previously.

AGENDA ITEM 9:

Presentation, Discussion and Possible Approval of Multifamily Housing Programmatic Items:

a) **Presentation, Discussion and Possible Approval of Awards for the 2006 HOME Preservation and Rental Development program:**

060106	Wild Horse Commons	Kingsville
060163	Villas at Karnes City	Karnes City
060102	Prospect Point	Jasper
060112	Evergreen at Tyler	Tyler
060022	Crestmoor Park West	Burleson
060206	Gardens of Mabank	Mabank
060208	Gardens of Gatesville	Gatesville
060243	HVM Zapata II	Zapata
060084	El Paraiso	Edcouch
060218	Cross Plains Senior Village	Cross Plains
060121	LULAC Amistad	Sinton

David Danenfelzer, Multifamily Program Administrator provided report and noted changes due to previous board vote.
Motion made by Mr. Bogany to approve awards and accept staff recommendation to increase the amount of HOME funds that are drawn to include up to $623,989 for additional funding as needed from general set-aside; seconded by Mayor Salinas; passed unanimously.

b) **Presentation, Discussion and Possible Approval of Awards for the 2006 HOME Community Housing Development Organization (CHDO) Rental Development program:**

060110	Evergreen at Farmers Branch	Farmers Branch
060612	Ennis Senior Estates	Ennis

EXECUTIVE OFFICE

BOARD ACTION REQUEST
August 30, 2006

Action Item

Approval of a Resolution Authorizing Positions Authorized to Sign Documents Related to Bond Transactions, Real Estate Transactions and Execution of Documents, Resolution #06-036.

Required Action

Approval of Resolution #06-036 Designating Positions Authorized to Sign Documents Related to Bond Transactions, Real Estate Transactions and Execution of Documents. With the changes in titles for new senior positions in the Department, Resolution #06-018 was approved in June. At that time there was an omission of language authorizing signing authority on real estate transactions. This resolution corrects that omission.

Background

The provisions of Chapter 2306, Texas Government Code, as amended, authorize the Department: (a) to make and acquire and finance, and to enter into advance commitments to make and acquire and finance, mortgage loans and participating interests therein, secured by mortgages on residential housing in the State of Texas (the "State"); (b) to issue its bonds, for the purpose of, among other things, obtaining funds to acquire or finance such mortgage loans, to establish necessary reserve funds and to pay administrative and other costs incurred in connection with the issuance of such bonds; and (c) to pledge all or any part of the revenues, receipts or resources of the Department, including the revenues and receipts to be received by the Department from such single family mortgage loans of participating interests, and to mortgage, pledge or grant security interests in such mortgages of participating interests, mortgage loans or other property of the Department, to secure the payment of the principal or redemption price of and interest on such bonds.

Resolution 06-036 amends Section 3. Section 3 -- Designation of Signatory Authority For Real Estate Transactions to include signature authority for real estate transactional documents and all other documents executed in connection with real estate transactions, which was omitted in Resolution #06-018. The new language is underlined in the attached resolution. This change returns the Resolution back to previously granted authority and reflects the position name changes that recently occurred.

Recommendation

Approve the Resolution as presented.

RESOLUTION NUMBER 06-036
RESOLUTION OF THE BOARD OF DIRECTORS RESCINDING RESOLUTION NO. 06-018 DESIGNATING SIGNATURE AUTHORITY

WHEREAS, the Texas Department of Housing and Community Affairs, a public and official governmental agency of the State of Texas, (the "Department") was created and organized pursuant to and in accordance with the provisions of Chapter 2306, Texas Government Code, as amended; and

WHEREAS, the Act authorizes the Department: (a) to make and acquire and finance, and to enter into advance commitments to make and acquire and finance, mortgage loans and participating interests therein, secured by mortgages on residential housing in the State of Texas (the "State"); (b) to issue its bonds, for the purpose of, among other things, obtaining funds to acquire or finance such mortgage loans, to establish necessary reserve funds and to pay administrative and other costs incurred in connection with the issuance of such bonds; and (c) to pledge all or any part of the revenues, receipts or resources of the Department, including the revenues and receipts to be received by the Department from such single family mortgage loans of participating interests, and to mortgage, pledge or grant security interests in such mortgages of participating interests, mortgage loans or other property of the Department, to secure the payment of the principal or redemption price of and interest on such bonds; and

WHEREAS, on June 9, 2006, the Governing Board adopted Resolution 06-018, designating signature authority for bond and real estate transactions; and

WHEREAS, the Governing Board has now determined that Resolution 06-018, designating signature authority, should be rescinded because of the reorganization of the Department and new signature authorities designated.

NOW, THEREFORE, BE IT RESOLVED BY THE GOVERNING BOARD OF THE TEXAS DEPARTMENT OF HOUSING AND COMMUNITY AFFAIRS THAT:

<u>Section 1 – Rescission of Prior Signature Authority.</u> The Governing Board hereby rescinds Resolution 06-018.

<u>Section 2 -- Designation of Signature Authority For Bond Transactions</u>. The Governing Board hereby authorizes and designates the Chairman or Vice Chairman of the Board, the Board Secretary, the Executive Director or the Acting Executive Director, the Deputy Executive Director of Programs, the Deputy Executive Director of Agency Administration, the Director of Financial Administration, the Director of Bond Finance, the Director of Single Family Finance Production, and the Director of Multifamily Finance Production as signatories for single family and multifamily bond transactions including, but not limited to letters of instruction, officer's certificates, bond transactional documents and all other documents and certificates executed in connection with such bond transactions.

<u>Section 3 -- Designation of Signatory Authority For Real Estate Transactions</u>. The Governing Board hereby authorizes and designates the Executive Director or the Acting Executive Director, the Board Secretary, the Deputy Executive Director of Programs, the Deputy Executive Director of Agency

Administration, the Director of Financial Administration, the Director of Multifamily Finance Production, and the Director of Single Family Finance Production as signatories for earnest money contracts, deeds or conveyances of title, leases of real property, settlement statements on purchase or sale of real property, deposits and disbursements on agency bank accounts, real estate transactional documents and all other documents executed in connection with real estate transactions.

Section 4 -- Execution of Documents. The Governing Board hereby authorizes the Executive Director or the Acting Executive Director to execute, on behalf of the Department, any and all documents necessary to effect this Resolution.

Section 5 -- Effective Date. This Resolution shall be in full force and effect from and upon its adoption.

Section 6 -- Notice of Meeting. That written notice of the date, hour and place of the meeting of the Board at which this Resolution was considered and of the subject of this Resolution was furnished to the Secretary of State and posted on the Internet for at least seven (7) days preceding the convening of such meeting, that during regular office hours a computer terminal located in a place convenient to the public in the office of the Secretary of State was provided such that the general public could view such posting; that such meeting was open to the public as required by law at all times during which this Resolution and the subject matter hereof was discussed, considered and formally acted upon, all as required by the Open Meetings Act, Chapter 551, Texas Government Code, as amended; and that written notice of the date, hour and place of the meeting of the Board and of the subject of this Resolution was published in the *Texas Register* at least seven (7) days preceding the convening of such meeting, as required by the Administrative Procedure and Texas Register and Administrative Code Acts, Chapters 2001 and 2002, Texas Government Code, as amended. Additionally, all of the materials in the possession of the Department relevant to the subject of this Resolution were sent to interested persons and organizations, posted on the Department's website, made available in hard-copy at the Department, and filed with the Secretary of State for publication by reference in the *Texas Register* not later than seven (7) days before the meeting of the Board, as required by Section 2306.032, Texas Government Code, as amended.

PASSED AND APPROVED this 30th day of August, 2006.

REAL ESTATE ANALYSIS DIVISION
BOARD ACTION REQUEST
August 30, 2006

Action Item

Presentation, discussion and possible approval of the Texas Department of Housing and Community Affairs publication, selection and contracting of the services of a property management firm or firms through a Request For Proposals From Property Management Companies To Provide Property Management Services.

Required Action

Approve, amend or deny staff's recommendation for publication, selection and contracting of services through a Request for Proposal for property management services.

Background

The Texas Department of Housing and Community Affairs (the "Department") established the Asset Management Program during its reorganization in 2003. Since establishing the Asset Management Program the Department is now aggressively monitoring and pursuing collection of delinquent, non-performing and defaulted loans, grants and allocations. Most Department assets perform satisfactorily; however, there are a few cases where a property owner does not perform satisfactorily or as agreed.

In the course of performing the Asset Management functions staff has determined that there is a need for the services of a property management services firm in the event that there is a foreclosure of one or more of our portfolio properties. Currently we have two properties approved for foreclosure and two pending approval. One property is currently scheduled for foreclosure in October 2006. It should be noted however that we are in the process of developing an overall Agency Enforcement Policy for problem assets and properties, and to the extent there are areas of the final approved policy that conflict with the RFP, then we will update and re-issue the RFP based upon the approved policy. It is anticipated that the selection of a property management company or companies will be brought before the Board at the scheduled October meeting for additional discussion and final approval.

The property management services firm or firms will manage the day to day operations of the properties from the time of foreclosure until the resale of the properties to new owners. The selected property management company or companies will provide complete property management services that are normally or routinely expected for multifamily rental properties, such as management, marketing, leasing, administrative and maintenance or other services for the property that are necessary or that may become necessary for the property from time to time. Accordingly, we recommend that the Department issue a Request for Proposal from Property Management Companies for Property Management Services in order that we may contract with a company or companies to manage properties in the event that it becomes necessary due to foreclosure of any portfolio properties.

The Request for Proposal (RFP) method of procurement of these property management services is being used because neither an Invitation for Bid nor a Request for Qualifications are practical for expediting the provision of these services. The RFP method allows for some discussion or negotiation of services and best and final offers can be solicited. This RFP was reviewed by the TDHCA purchasing division and by the Texas Building and Procurement Commission (TBPC), and comments from both groups were incorporated, though such review by TBPC was informal and not required.

The Request for Proposals will be published in the Texas Register, on the Department's website and will be mailed to firms that have indicated an interest in providing these type services for TDHCA in the recent past.

We will contract with the highest scoring respondent or respondents for work for an initial period of one (1) year with an option for up to 2 additional years. However, we will reserve the right to terminate and re-issue the RFP if the Board approves a more comprehensive enforcement policy that conflicts with this RFP.

The preferred method of payment for property management fees is through a percentage of effective gross income for each property managed by a property manager; however, in some cases effective gross income will not be sufficient to pay acceptable fees. In those cases, TDHCA may be required to pay a fixed dollar fee per unit to the management company. The funds to pay those fixed dollar fees will have to be provided from the Asset Management fund. This fund is currently approved for use by the Department for payments of items such as the cost of foreclosure, payment of taxes, payment of insurance premiums and necessary property rehabilitations related to workouts. On October 13, 2005 the TDHCA Board approved the use of $233,000 in BMIR funds for such workout expenses. To date, $103,522 of those funds has been utilized (primarily for property tax payments), leaving a balance as of July 31, 2006 of $129,478 plus interest earned of $4,097 for a total of $133,575. The BMIR funds used to pay these workout expenses are to be the first funds repaid to the maximum extent possible when there is a recovery on a problem asset.

The proposals received will be scored and evaluated based on the following minimum criteria:

A. Proposed Fee Structure
B. Qualifications and Experience of Company and Key Personnel
    1. Minimum Qualifications **(Threshold Requirement):**
        a. There will be a minimum of three years direct experience performing the services for affordable rental properties.
        b. Current membership in professional property management organizations such as the Institute of Real Estate Management

(IREM), Building Owners and Managers Association (BOMA), National Association of Realtors, etc.; and

c. Professional certification, registration, and/or licensure from accredited organizations, or governmental regulatory agencies. This includes any subcontractor as well if a license or permit is required to carry out any aspect of the RFP by applicable law.

d. Description of any experience in fee management of workout properties.

2. Corporate Experience:
   Corporate resume, detailed organizational and operational descriptions of the firm and an indication whether the firm has offices in Texas.

3. Experience of Key Staff Members:
   Resumes of individual key staff members responsible for performing the duties.

4. Financial Strength:
   Most recent fiscal year end audited financial statements.

5. Current List of Accounts:
   Complete list of accounts for which Property Management services are currently provided, with summary information for each account, including the name of the client, the number of properties, the dates they managed the properties and units in each portfolio, what affordability programs, if any, are associated with the properties, a description of the services provided, and the period of time over which services have been performed.

6. References:
   Names, addresses, and telephone numbers of three references the Department may contact concerning the firm's performance as a property manager or property management company for affordable multifamily rental properties.

C. Proposed Management Plan and Agreement:
   Proposed Management Agreement including a Management Plan or proposal identifying the services that the firm will provide, giving detailed explanations of how such services will be provided.

D. Operational Documentation and Data
   1. Sample client reports
   2. Service Audits:
      Copies of internal or external service audits that may have been performed in the last two years.

E. Identity of Interest **(Threshold Requirement):**
   Disclosure of the nature of any interests the firm or any related entities may have in any properties financed through the Department. Such interests may include, but would not necessarily be limited to, owning, holding a debt or equity interest against a property, or providing loan servicing, monitoring, or other services for a related party owner, or mortgagee;
   NOTE: Interest in one property or group of properties will not necessarily exclude management of other unrelated properties.

The scoring criteria for the evaluation will be weighted as follows:

A.	Proposed Fee Structure	30 Points
B.	Qualifications and Experience of Company and Key Personnel	35 Points
	1. Minimum Requirements **(Threshold Requirement)**	

	2. Corporate Experience	
	3. Experience of Key Staff Members	
	4. Financial Strength	
	5. Current List of Accounts	
	6. References	
C.	Proposed Management Plan and Agreement	20 Points
D.	Operational Documentation and Data	15 Points
	1. Sample Client Reports	
	2. Service Audits	
E.	Identity of Interest **(Threshold Requirement)**	0 Points
Total Possible:		**100 Points**

Recommendation

Approval of publication, selection and contracting of property management firm or firms through publication of Request for Proposal from Property Managers to Provide Property Management Services. Approval of final provider or providers will be presented to the Board for full discussion prior to execution of a contract(s) by the Executive Director.

TEXAS DEPARTMENT OF HOUSING AND COMMUNITY AFFAIRS
REQUEST FOR PROPOSALS
FROM PROPERTY MANAGEMENT COMPANIES
TO PROVIDE PROPERTY MANAGEMENT SERVICES
DATE: SEPTEMBER 15, 2006

I. PURPOSE OF THE REQUEST

The Texas Department of Housing and Community Affairs (the "Department" or "TDHCA") hereby requests proposals from qualified property management companies to provide property management services on a temporary basis for income and rent restricted multifamily rental properties located throughout Texas that are under a receivership or foreclosure action by the Department. The selected property management company (PMC), or companies, shall act as the Department's Agent and shall advise and assist the Department in all aspects of property management contemplated for such properties.

II. NATURE OF REQUIRED SERVICES

The selected Property Management Company (PMC) shall provide complete property management services that are normally or routinely expected for multifamily rental properties such as management, marketing, leasing, administrative and maintenance or other services for the property that are necessary or that may become necessary for the property from time to time. These services may be required for periods ranging from one (1) month to three (3) years and may include, but are not limited to the following:

A. MARKETING AND LEASING
   1. Marketing and advertising the availability of restricted and unrestricted units;
   2. Making units ready and showing units for lease
      a. Qualifying prospective tenants under appropriate affordability program guidelines;
      b. Coordinating leasing documents through local Section 8 administrative offices or the local housing authority as appropriate; and,
      c. Maintaining complete and accurate leasing records, lease files, maintenance requests and correspondence for all applicants and tenants in a manner acceptable to the Department;

B. BUDGET PREPARATION AND PLANNING
   1. Study local market comparables and advise the Department with regard to appropriate rent levels and lease terms;
   2. Prepare annual or periodic preventative maintenance schedules, marketing plans and operating budgets based on anticipated property cash flows for approval to the Department, monitor their performance on a quarterly basis and recommend revisions as appropriate;
   3. Prepare, or assist in preparing, a long-term property condition assessment including the estimated time frame and dollar amount to correct

immediate life/safety issues and make necessary repairs to the property; and,

4. Submit a plan to include recommendations and a strategy for bringing the property into compliance with HOME program requirements, the Land Use Restrictions (LURA) and any other applicable federal, state, county or municipal requirements based on anticipated property cash flows.

C. COLLECTION, DISBURSEMENT AND REPORTING

1. Deposit all rents, revenues, security deposits and approved reserves for capital improvements and operating reserves into separate, federally insured operating accounts at institutions chosen or approved by the Department (reserve accounts shall be deposited into interest bearing accounts);
2. From the appropriate accounts, promptly disburse security deposit refunds and payments of all authorized operating expenses including the management fee and reimbursements due and payable to the PMC;
3. Provide a property information reporting package to the Department by the 10^{th} of each month for the property that shall include the following:
    a. A statement of Income and Expenses for the current month with year to date totals and the corresponding monthly and year to date budgets for comparison;
    b. A Balance Sheet reflecting the assets, liabilities and net worth of the property;
    c. A detailed General Ledger statement;
    d. A listing of all accounts payable/receivable from the property as of an approved cut-off date for the close of the report;
    e. Copies of all reconciled bank statements;
    f. Copies of all paid invoices and statements;
    g. Checks for excess funds on hand at the end of the previous month;
    h. Rent rolls, unit status reports, traffic reports, leasing and marketing updates and eviction status reports; and,
    i. Compliance reports as required by the Department.

4. EMPLOYEE SUPERVISION AND REIMBURSEMENT

The PMC shall employ sufficient personnel and resources at the property to meet the requirements of the Department. All on-site personnel shall be employees of the PMC and will be hired, supervised and terminated by the PMC. The Department shall have no responsibility or liability for employees or employee issues.

a. The direct cost of employing leasing and maintenance personnel will be reimbursed from the operating account as a normal operating expense and approval regarding these expenses will be approved in the management agreement and in the operating budget for the property. Such costs shall not include training, but shall include all salary and benefit expenses related to the employee including FICA, unemployment taxes and Workers Compensation costs.

5. PROPERTY MAINTENANCE AND ADMINISTRATION
The PMC will be responsible for conducting routine property inspections and managing and administering all routine maintenance, preventative maintenance and emergency maintenance concerns and issues within approved budget limitations for the efficient operation of the property as the Department may approve or require.
   a. The PMC will be required to bid or negotiate all maintenance contracts and agreements within approved budget limitations or as the Department may require; and,
   b. Bids shall be taken for all non-routine maintenance expenses and receive approval by the Department.

Further duties or requirements may include assisting the Department with obtaining appropriate insurance for the property or properties, making arrangements for the continuation of utilities and trash and telephone services, taking legal action to evict tenants or collect past due rents, implementing an accounting system or reporting method acceptable to the Department, helping to achieve and/or maintain a property tax exemption or assisting with the disposition of the property or properties after foreclosure.

III. PROPOSAL CONTENT

Proposals will be scored and evaluated based on the following minimum criteria:

A. Proposed Fee Structure
The preferred format for a fee structure is a percentage of effective gross income for each property managed and/or a monthly fixed dollar fee per unit under management. Please address fee structure for situations where there is little or no effective gross income available for payment of management fees.

B. Qualifications and Experience of Company and Key Personnel
   1. Minimum Qualifications **(Threshold Requirement):**
      a. A minimum of three years direct experience performing the services referenced in this RFP for affordable rental properties;
      b. Current membership in professional property management organizations such as Institute of Real Estate Management (IREM), Building Owners and Managers Association (BOMA), National Association of Realtors, etc.; and
      c. Professional certification, registration, and/or licensure from accredited organizations, or governmental regulatory agencies required to provide the services generally referred to or encompassed by this RFP, this includes any subcontractor as well if a license or permit is required to carry out any aspect of this RFP by applicable law;
      d. Description of any experience in fee management on workout properties.
   2. Corporate Experience:
   Corporate resume, detailed organizational and operational descriptions of the firm and an indication whether the firm has regional offices in Texas.
   3. Experience of Key Staff Members:
   Resumes of individual key staff members responsible for performing the duties described herein.

4. Financial Strength:
   Most recent fiscal year end audited financial statements.
5. Current List of Accounts:
   Complete list of accounts for which Property Management services are currently provided, with summary information for each account. Include the name of the client, the number of properties, the dates they managed the properties and units in each portfolio, what affordability programs, if any, are associated with the properties, a description of the services provided, and the period of time over which services have been performed.
6. References:
   Names, addresses, and telephone numbers of three references the Department may contact concerning your firm's performance as a property manager or property management company for affordable multifamily rental properties.

C. Proposed Management Plan and Agreement:
Your Proposed Management Agreement including a Management Plan or proposal identifying the services that the firm would provide, giving detailed explanations of how such services would be provided.

D. Operational Documentation and Data
1. Sample client reports
2. Service Audits:
   Copies of internal or external service audits that may have been performed in the last two years.

E. Identity of Interest **(Threshold Requirement):**
Disclose the nature of any interests your firm, its senior management or any related entities may have in any properties financed through the Department. Such interests may include, but would not necessarily be limited to, owning or managing a property, holding a debt or equity interest against a property, or providing loan servicing, monitoring, or other services for an owner, mortgagee or other party;

IV. AREAS SERVED

Specify areas or regions of the state that services will be provided by your firm.

V. RESPONSE TIME FRAME AND OTHER INFORMATION

Response Due: October 16, 2006 at 3:00 PM CST

It is the expressed policy of the Department that property management companies refrain from initiating any direct contact or communication with members of the TDHCA Board of Directors with regard to selection of firms relative to this RFP while the selection process is occurring. Any violation of this policy will result in disqualification of the proposal.

Form of Proposal: Each proposal shall include an original plus three additional copies printed on one side of standard 8 ½ by 11 inch paper. Each original and each copy shall contain a cover letter signed by an individual who is authorized to sign proposals and contract for the proposed services requested in this RFP. Below the authorized signature, the title or position that the person holds in the company must be indicated. The bid shall be organized and submitted alphabetically according to items "A" through "E" of Section III above titled "Proposal Content." Proposals should be delivered as follows:

David Burrell
Asset Management
Texas Department of Housing and Community Affairs
221 E. 11th Street
Austin, TX 78701
(For hand and overnight deliveries)

Or: P.O. Box 13941
Austin, TX 78711-3941
(If delivered by U.S. Postal Service)

VI. SELECTION CRITERIA

In accordance with state law, the Department will make its selection based upon the demonstrated competence, financial capability, experience, knowledge and qualifications of the PMC respondents, and on the reasonableness of the proposed fee for the services. The Department may select one or more Property Management firms based upon information received from respondents for this RFP with consideration given to such items as market areas served by respondents. The selection of a PMC in a given market area will be based upon the highest scoring firm in that market area. In the event there is a conflict of interest on a given property for the highest scoring firm in a given market area, then the next highest scoring firm without a conflict of interest will be selected. By this RFP, the Department has not committed itself to employ a PMC for any of the above-described services, nor does the suggested scope of services require that a property management company be employed for any of those purposes. The Department reserves the right to make those decisions after receipt of responses to this RFP, and the Department's decision on these matters is final.

In releasing this Request for Proposals, TDHCA shall not be obligated to proceed with any action pertaining to any proposals which are received, and may decide it is in the Department's best interest to refrain from continuing with the selection process. TDHCA reserves the right to negotiate individual elements of any proposal.

The scoring criteria and corresponding weights for the evaluation of submitted property management proposals based on the Proposal Content described in Section III above as follows:

A.	Proposed Fee Structure	30 Points
B.	Qualifications and Experience of Company and Key Personnel	35 Points

	1.	Minimum Requirements **(Threshold Requirement)**	
	2.	Corporate Experience	
	3.	Experience of Key Staff Members	
	4.	Financial Strength	
	5.	Current List of Accounts	
	6.	References	
C.		Proposed Management Plan and Agreement	20 Points
D.		Operational Documentation and Data	15 Points
	1.	Sample Client Reports	
	2.	Service Audits	
E.		Identity of Interest **(Threshold Requirement)**	0 Points
		Total Possible:	**100 Points**

The selection of a PMC by TDHCA pursuant to this RFP is only for the purpose of determining which firm may serve in the capacity of a PMC at such future time as the services of a PMC may become necessary. Selection of a PMC under this RFP does not guarantee or imply that any firm will receive an assignment to serve as a PMC in this regard. A firm may be offered an assignment to serve as a PMC for a specific property at the sole discretion of TDHCA.

VII. DEPARTMENTAL INFORMATION

The standard TDHCA Terms and Conditions of a bid are attached and all bid need to conform to these terms and conditions as well as those within this RFP. Additional Information regarding TDHCA may be obtained from David Burrell at TDHCA. All requests must be in writing and faxed to (512) 475-3746. All questions and responses will be made available to all applicants and will be subject to disclosure under the Public Information Law.

VIII. PUBLIC INFORMATION

All proposals shall be deemed, once submitted, to be the property of the TDHCA and subject to the Public Information Law, Chapter 552, Texas Government Code. Proprietary information: if a firm does not desire proprietary information in the proposal to be disclosed under the Public Information Law or otherwise, it is required to identify clearly (and segregate, if possible) all proprietary information in the proposal, which identification shall be submitted concurrently with the proposal. If such information is requested under the Public Information Law, the firm will be notified and given an opportunity to present its position to the Texas Attorney General, who shall make the final determination. If the firm fails to identify clearly proprietary information, it agrees, by the submission of the proposal, that those sections shall be deemed non-proprietary and made available upon public request after the contract is awarded.

IX. COST INCURRED IN RESPONDING

All costs directly or indirectly related to the preparation of a response to this RFP shall be the sole responsibility of and shall be borne by your firm.

TERMS AND CONDITIONS: ITEMS BELOW APPLY TO AND BECOME A PART OF BID. ANY EXCEPTIONS THERETO MUST BE IN WRITING.

1. BIDDING REQUIREMENTS:

1.1 Bidders must comply with all rules, regulations and statutes relating to purchasing in the State of Texas in addition to the requirements of this form.

1.2 Bidders must price per unit shown. Unit prices shall govern in the event of extension errors.

1.3 Bids should be submitted on this form. Bids must be stamped at the Texas Department of Housing and Community Affairs (TDHCA) on or before the hour and date specified for the bid opening.

1.4 Late and/or unsigned bids will not be considered under any circumstances. Person signing bid must have the authority to bind the firm in a contract.

1.5 Quote F.O.B. destination, freight prepaid and allowed unless otherwise stated within the specifications.

1.6 Bid prices are requested to be firm for TDHCA acceptance for 30 days from bid opening date. "Discount from list" bids are not acceptable unless requested. Cash discounts are not considered in determining an award. Cash discounts offered will be taken if earned.

1.7 Bids should enter Texas Identification Number System (TINS) number, full firm name and address of bidder on the face of this form. Enter in the space provided, if not shown. Additionally, firm name should appear on each continuation page of a bid, in the upper right corner.

1.8 Bid cannot be altered or amended after opening time. Alterations made before opening time should be initialed by bidder or his authorized agent. No bid can be withdrawn after opening time without approval by TDHCA based on an acceptable written reason.

1.9 Purchases made for State use are exempt from the State Sales tax and Federal Excise tax. Do not include tax in bid. Excise tax Exemption Certificates are available upon request.

1.10 The State reserves the right to accept or reject all or any part of any kind, waive minor technicalities and award the bid to best serve the interests of the State.

1.11 Consistent and continued tie bidding could cause rejection of bids by TDHCA and/or investigation for antitrust violations.

1.12 The telephone number for FAX submission of bids is 1-512-475-2672. This is the only number that will be used for the receipt of bids. The state shall not be responsible for failure of electronic equipment or operator error. Late, illegible, incomplete, or otherwise non-responsive bids will not be considered.

1.13 Inquiries pertaining to IFBs must include the requisition, class/item codes, and opening date.

TERMS AND CONDITIONS: ITEMS BELOW APPLY TO AND BECOME A PART OF BID. ANY EXCEPTIONS THERETO MUST BE IN WRITING.

2. SPECIFICATIONS:

2.1 Catalogs, brand names or manufacturer's references are descriptive only, and indicate type and quality desired. Bids on brands of like nature and quality will be considered unless advertised under Texas Government Code, Title 10, Subtitle D, Section 2155.067. If bidding on other than references, bid should show manufacturer, brand or trade name and other description of product offered. If other than brand(s) specified offered, illustrations and complete description of product offered are requested to be made part of the bid. Failure to take exception to specifications or reference data will require bidder to furnish specified brand names, numbers, etc.

2.2 Unless otherwise specified, items shall be new and unused and of current production.

2.3 All electrical items must meet all applicable OSHA standards and regulations, and bear the appropriate listing from UL, FMRC, or NEMA.

2.4 Samples, when requested, must be furnished free of expense to the State. If not destroyed in examination, they will be returned to the bidder, on request, at bidder's expense. Each sample should be marked with bidder's name and address, and requisition number. Do not enclose in or attach bid to sample.

2.5 The State will not be bound by any oral statement or representation contrary to the written specifications of this Invitation for Bids (IFB).

2.6 Manufacturer's standard warranty shall apply unless otherwise stated in the IFB.

3. TIE BIDS: Awards will be made in accordance with Rule 1 TAC Section 113.6 (b) (3) and 113.8 (preferences).

4. DELIVERY:

4.1 Show number of days required to place material in receiving agency's designated location under normal conditions. Delivery days means calendar days, unless otherwise specified. Failure to state delivery time obligates bidder to deliver in 14 calendar days. Unrealistic delivery promises may cause bid to be disregarded.

4.2 If delay is foreseen, vendor shall give written notice to TDHCA. Vendor must keep the TDHCA advised at all times of status of order. Default promised delivery (without accepted reasons) or failure to meet specifications authorizes the TDHCA to purchase supplies elsewhere and charge full increase; if any, in cost and handling to defaulting vendor.

4.3 No substitutions permitted without written approval of the TDHCA.

4.4 Delivery shall be made during normal working hours only, unless prior approval has been obtained from the TDHCA.

TERMS AND CONDITIONS: ITEMS BELOW APPLY TO AND BECOME A PART OF BID. ANY EXCEPTIONS THERETO MUST BE IN WRITING.

5. INSPECTION AND TESTS: All goods will be subject to inspection and test by the State. Authorized TDHCA personnel shall have access to supplier's place of business for the purpose of inspecting merchandise. Tests shall be performed on samples submitted with the bid or on samples taken from regular shipment. All costs shall be borne by the vendor in the event products tested fail to meet or exceed all conditions and requirements of the specification. Goods delivered and rejected in whole or in part may, at the State's option, be returned to the vendor or held for disposition at vendor's expense. Latent defects may result in revocation of acceptance.

6. AWARD OF CONTRACT: A response to this IFB is an offer to contract based upon the terms, conditions and specifications contained herein. Bids do not become contracts until they are accepted through an open market purchase order. The contract shall be governed, construed, and interpreted under the laws of the State of Texas. The factors listed in Texas Government Code, Title 10, Subtitle D, Section 2155.074, 2155.144, 2156.007, 2157.003 shall also be considered in making an award when specified. Any legal actions must be filed in Travis County, Texas.

7. PAYMENT: Vendor shall submit an itemized invoice showing State order number and agency requisition number on all copies. The State will incur no penalty for late payment if payment is made in 30 or fewer days from receipt of goods or services and an uncontested invoice.

8. PATENTS OR COPYRIGHTS: The vendor agrees to protect the State from claims involving infringement of patents or copyrights.

9. VENDOR ASSIGNMENTS: Vendor hereby assigns to the TDHCA any and all claims for overcharges associated with this contract arising under the antitrust laws of the United States 15 U.S.C.A. Section 1, et seq. (1973) and the antitrust laws of the state of Texas, TEX. Bus. & Comm. Code Ann. Sec. 15.01, et seq. (1967).

10. BIDDER AFFIRMATION: Signing this bid with a false statement is a material breach of contract and shall void the submitted bid or any resulting contracts, and the bidder shall be removed from all bid lists. By signature hereon affixed, the bidder hereby certifies that:

10.1 The bidder has not given, offered to give, nor intends to give any time hereafter any economic opportunity, future employment, gift, loan, gratuity, special discount, trip, favor, or service to a public servant in connection with the submitted bid.

10.2 Neither the bidder nor the firm, corporation, partnership, or institution represented by the bidder, or anyone acting for such firm, corporation or institution has violated the antitrust laws of this State or the Federal Antitrust Laws (see section 9, above) nor communicated directly or indirectly the bid made to any competitor or any other person engaged in such line of business.

10.3 Pursuant to Section 2155.004 Government Code, the bidder has not received compensation for participation in the preparation of the specifications for this IFB.

10.4 Pursuant to Section 231.006 (d), Family Code, re: child support, the bidder certifies that the individual or business entity named in this bid is not ineligible to receive the specified payment and acknowledges that this contract may be terminated and payment may be withheld if this certification is inaccurate.

10.5 Pursuant to Section 2155.004 Government Code, the bidder certifies that the individual or business entity named in this bid is not ineligible to receive the specified contract and acknowledges that this contract may be terminated and/or payment withheld if this certification is inaccurate.

TERMS AND CONDITIONS: ITEMS BELOW APPLY TO AND BECOME A PART OF BID.
ANY EXCEPTIONS THERETO MUST BE IN WRITING.

10.6 The Contractor shall defend, indemnify, and hold harmless the State of Texas, all of its officers, agency and employees from and against all claims, actions, suits, demands, proceedings, costs, damages, and liabilities, arising out of, connected with, or resulting from any acts or omissions of contractor or any agent, employee, subcontractor, or supplier of contractor in the execution or performance of this contract.

10.7 Bidder agrees that any payments due under this contract will be applied towards any debt, including but not limited to delinquent taxes and child support that is owed to the State of Texas.

10.8 Bidder certifies that they are in compliance with section 669.003 of the Government Code, relating to contracting with executive head of a State agency. If section 669.003 applies, bidder will complete the following information in order for the bid to be evaluated:

Name of Former executive:____________________
Name of State Agency:____________________
Date of separation of State agency:____________________
Position with bidder:____________________
Date of Employment with bidder:____________________

10.9 Bidder agrees to comply with Government code 2155.4441 pertaining to service contract use of products produced in the State of Texas.

10.10 Contractor understands that acceptance of funds under this contract acts as acceptance of the authority of the state Auditor's Office, or any successor agency to conduct an audit or investigation in connection with those funds. Contractor further agrees to cooperate fully with the State Auditor's Office or its successor in the conduct of the audit or investigation, including providing all records requested. Contractor will ensure that this clause concerning the authority to audit funds received indirectly by subcontractors through Contractor and the requirement to cooperate, is included in any subcontract it awards.

11. Pursuant to Section 231.006 (c), Family Code, bid must include name and Social Security Number of each person with at least 25% ownership of the business entity submitting the bid. Attach name & social security number for each person. This information must be provided prior to contract award.

12. NOTE TO BIDDER: Any terms and conditions attached to a bid will not be considered unless specifically referred to on this bid form and may result in disqualification of the bid.

13. The dispute resolution process provided for in Chapter 2260 of the Texas Government Code must be used by the Texas Department of Housing and Community Affairs and the contractor to attempt to resolve all disputes arising under this contract.

14. Information, documentation, and other material in connection with this solicitation or any resulting contract may be subject to public disclosure pursuant to Chapter 552 of the Texas Government Code (the "Public Information Act").

TERMS AND CONDITIONS: ITEMS BELOW APPLY TO AND BECOME A PART OF BID. ANY EXCEPTIONS THERETO MUST BE IN WRITING.

CHECK BELOW IF PREFERENCE CLAIMED UNDER RULE 1 TAC 113.8

(__) Supplies, materials, equipment, or services produced in TX/offered by TX bidders
(__) Agricultural products produced or grown in TX
(__) Agricultural products and services offered by TX bidders
(__) USA produced supplies, materials or equipment
(__) Products of persons with mental or physical disabilities
(__) Recycled motor oil and lubricants
(__) Energy efficient products
(__) Rubberized asphalt paving material
(__) Products made of recycled, remanufactured, or environmentally sensitive materials including recycled steel
(__) Products produced at facilities located on formerly contaminated property
(__) Products and services from economically depressed or blighted areas

By signing this bid, bidder certifies that if a Texas address is shown as the address of the bidder, bidder qualifies as a Texas Resident Bidder as defined in Rule 1 TAC 111.2

The Texas ID Number is the taxpayer number assigned and used by the Comptroller of Public Accounts of Texas. If this number is not known, complete the following:

Enter Federal Employer's Identification Number

BOND FINANCE DIVISION

BOARD ACTION REQUEST
August 30, 2006

Action Items

Presentation, Discussion and Possible Preliminary Approval of Single Family Mortgage Revenue Bonds, 2006 Series F and 2006 Series G and Junior Lien Single Family Mortgage Revenue Bonds, 2006 Series A for Program 68.

Required Action

Preliminary Approval of Single Family Mortgage Revenue Bonds, 2006 Series F and 2006 Series G and Junior Lien Single Family Mortgage Revenue Bonds, 2006 Series A for Program 68.

Background

TDHCA's annual volume cap allocation in 2006 for single family bonds equaled $170,687,761. Of this amount, TDHCA used $60 million in authority for its 2006 Mortgage Credit Certificate Program, leaving $110.7 million in unused authority. That remaining $110.7 million in authority was used for the 2006 Single Family Mortgage Revenue Bonds, Series C (Rita Gulf Opportunity Zone). In addition to the Series C Bonds, TDHCA dedicated $130.3 million from its Commercial Paper program to the issuance of its 2006 Series A and 2006 Series B Bonds. In total, the 2006 Series A, B & C Bonds generated $241 million in lendable proceeds. The Bond Finance Division has evaluated available proceeds from this recent bond issue. As of August 23, 2006, 81% or $195.7 million of the lendable proceeds have been purchased, or are in the pipeline to be purchased. If TDHCA's single family lending continues at this fast pace, Staff anticipates expending all statewide funds and the majority of Hurricane Rita Gulf Opportunity (GO) Zone funds, by October 2006.

TDHCA in its July 28, 2006 Board meeting approved a resolution authorizing staff to file an application with the Texas Bond Review Board for reservation of additional volume cap. On, August 15, 2006, TDHCA received $120 million of additional authority from the Texas Bond Review Board. Staff recommends using this additional authority in combination with available Commercial Paper funds to issue single family bonds for the purpose of making additional funds available for statewide assisted and unassisted mortgages and Rita Gulf Opportunity Zone assisted mortgages.

The recent high volume of TDHCA's single family loan demand can be attributed to the competitive rates created under the Department's 2006 Series A-E Bonds. Recall that these Series included i) $105.4 million Series C Rita GO Zone bonds which were purchased by Freddie Mac at rates that were at least 30 basis points below comparable bond rates, ii) $130 million of Series A and B bonds that were also purchased by Freddie Mac at very aggressive interest rate levels, and, iii) $47 million Series D and E refunding bonds which effectively provided a large subsidy to $241 million of new money mortgages. In combination, these factors permitted TDHCA to use a bond program that was 100% fixed rate.

As the Texas Housing Market continues to grow stronger and TDHCA continues to see record volume in purchases of its products, TDHCA would like to create a mortgage product for first-time homebuyers that will enable TDHCA to continue to generate mortgages at recent demand levels. The Department, however, does not have additional refundings to combine with its next bond program nor does it have zero percent funds available as it did with the last structure. In addition, given the large amount of Gulf Opportunity Zone Bonds that Freddie Mac has purchased in 2006 to date, from issuers in Texas, Florida, Mississippi, Alabama and Louisiana, Freddie Mac's participation in future bond issues is no longer certain. Therefore, staff believes that it is necessary to consider a bond structure for this new authority that will be comprised of *variable rate demand bonds swapped to a fixed rate* (currently expected to be 30% to 40%), and junior lien bonds (*variable rate demand bonds swapped to a fixed rate*) which will be issued to support the Department's down payment assistance program. The structure will also take out approximately $15.5 million in Commercial Paper Series A Notes. Outstanding Commercial Paper is limited to $200 million and the current balance outstanding is approximately $15.5 million. Staff believes that mortgage interest rates created under this structure will be competitive enough with the conventional market for the Department to continue to generate demand for its lending products. Staff will present to the TDHCA Board at its October 12, 2006 meeting a final structure for approval. Prior to that Board meeting, staff will communicate our need for funds to members of the Texas Bond Review Board and Texas Treasury Safekeeping and Trust Company so that funds can be made available on November 8, 2006. As we approach this date, Bond Finance will i) continue to monitor the market for potential participation of Freddie Mac in the TDHCA's anticipated Rita Zone Bonds, ii) monitor the capital markets for any changes to make adjustments that we feel are appropriate, and, iii) explain any proposed deviations from the current structure to the Board at the time.

Staff successfully incorporated TDHCA's first variable rate demand bonds (VRDB) and an interest rate swap for 30% of the transaction total in March of 2004 with UBS as the Underwriter. Subsequently, TDHCA has issued VRDBs with swaps for 40% of the transaction total in October 2004 with Piper Jaffray as Underwriter and 100% of the transaction total in April 2005 with Bear Stearns as Underwriter.

The table below reflects several structuring options available under current market conditions.

Scenario *	**1**	**2**	**Point of Reference**
Bond Structure	**100% Fixed Rate Bonds**	**70% Fixed Rate Bonds, 30% Variable Bonds**	**Program 66 $241 million**
Unassisted Mortgage Rate	6.10%	5.70%	5.625%
Assisted Mortgage Rate	6.60%	6.20%	6.125%
Assisted Rita GO Zone Mortgage Rate	6.35%	5.95%	5.875%

* Preliminary, subject to change.

The current market mortgage rate for a Texas FHA mortgage loan with two points equals 6.40%. Program 68's mortgages will be securitized and will be marketed to very low, low and moderate income residents of Texas. If authorized, the bonds are expected to be sold in October and the bond closing will occur approximately three to four weeks subsequent to the bond pricing.

Continuing with the senior manager rotation plan, Bond Finance recommends UBS Securities LLC as senior manager for this issuance of TDHCA's additional 2006 state private activity bond authority. In keeping with TDHCA's policy of rotating firms in the co-senior and co-manager pool, Bond Finance recommends the following firms and roles for this transaction:

Firm	Role
Lehman Brothers	Co-Senior
Bank of America Securities LLC	Co-Manager
Loop Capital Markets, LLC	Co-Manager
Merrill Lynch & Co.	Co-Manager
Morgan Keegan & Company, Inc.	Co-Manager

In the bond market, a syndicate of bankers is needed to market the structure. The number of bonds sold dictates the number of co-managers needed at the time of pricing. With TDHCA's structures over $100 million, a pool of bankers including the senior underwriter, co-senior and four co-managers are necessary to successfully market the bonds.

Recommendation

Preliminary Approval of Single Family Mortgage Revenue Bonds, 2006 Series F and 2006 Series G and Junior Lien Single Family Mortgage Revenue Bonds, 2006 Series A for Program 68.

Transaction Overview

Program Designation	Program 68
Bond Indenture	Single Family Mortgage Revenue Bond Indenture
2006 Additional Private Activity Bond Authority	$120,000,000
Commercial Paper Series A Notes (Prepayment Recycling)	$ 15,500,000
Junior Lien Bonds	$ 4,500,000
Total Program 68 Issuance	$140,000,000
2006 Single Family Series F (Statewide)	$ 68,785,000
2006 Single Family Series G (GO Zone)	$ 71,215,000
Statewide Assisted Funds	$ 21,360,000 (Very Low Income Reservation 60% AMFI for One Year)
Statewide Unassisted Funds	$ 47,425,000
Hurricane Rita GO Zone Assisted Funds	$ 21,364,500 (Very Low Income Reservation 60% AMFI for One Year)
Hurricane Rita GO Zone Assisted Funds	$ 49,850,500
Total Approximate Lendable Proceeds	$140,000,000
Very Low Income Reservation (1 year - 30% of 2006 Series F and Series G Lendable Proceeds)	$ 42,724,500
Down Payment Assistance (%)	5% (For Very Low Income Reservation and GO Zone)
Possible Single Family Refunding Candidates	None
Approximate Refunding Amount	None
Total Tax-exempt Issuance Amount	$140,000,000

Transaction Timetable *

Activity	Key Dates
TDHCA Preliminary Approval	August 30, 2006
TDHCA Approval Date	October 12, 2006
Submit Request to Bond Review Board for Hearing Waiver	October 13, 2006
Pricing Window	October 16-17, 2006
Pre-Closing/Closing Dates	November 7-8, 2006

* Timetable preliminary and subject to change

SINGLE FAMILY FINANCE PRODUCTION DIVISION

BOARD ACTION REQUEST
AUGUST 30, 2006

Action Items

Request approval of a one-year contract extension for Countrywide Home Loans, Inc., to serve as Master Servicer for the Single Family Mortgage Revenue Bond Program.

Required Action

Approve a one-year extension for Countrywide Home Loans, Inc., as Master Servicer for the Single Family Mortgage Revenue Bond Program.

Background and Recommendations

Summary
In August 2004, the Single Family Finance Production staff developed a Request For Proposal ("RFP") to solicit responses from loan servicing companies to act as Master Servicer for a period of two years under the Department's Single Family Mortgage Revenue Bond ("MRB) Program with the discretion to renew and extend the Agreement at the end of the two-year term under three annual options for an additional one-year term. On October 14, 2004, staff recommended and the Board approved the selection of Countrywide Home Loans, Inc., as Master Servicer for the Single Family Mortgage Revenue Bond Programs. If approval of the extension is granted, this will be the first annual option exercised under this contract.

Under their current contract, Countrywide has been the servicer on Programs 62 & 62A and the recently released Program 66. In addition to meeting all of the requirements of the original request for proposal, Countrywide has a superior internet registration/allocation monitoring system and offers access to homebuyer counseling services at no charge through their "House America Counseling Centers". In addition, they offer superior lender training, superb customer service and encourage and train mortgage brokers to participate in our programs. Countrywide operates 100 retail branch offices statewide, many of which participate in our program. They also maintain a database of over 85 subordinate lien mortgage programs in the State of Texas, which can be used in conjunction with our MRB program.

Recommendation
Staff requests approval of a one-year extension for Countrywide Home Loans, Inc. as Master Servicer for the Single Family Mortgage Revenue Bond Program.

MULTIFAMILY FINANCE PRODUCTION DIVISION

BOARD ACTION REQUEST
August 30, 2006

Action Item

Requests for amendments involving material changes to Housing Tax Credit (HTC) applications are summarized below.

Requested Action

The Board is requested to approve or deny the requests for amendments below.

Background and Recommendations

§2306.6712, Texas Government Code, classifies some changes as "material alterations" that must be approved by the Board. The requests presented below include material alterations. The code indicates that the Board should determine the disposition of a requested amendment if the amendment is a material alteration, would materially alter the development in a negative manner or would have adversely affected the selection of the application in the application round.

The requests and pertinent facts about the affected developments are summarized below. The recommendation of staff is included at the end of each write-up.

Limitations on the Approval of Amendment Requests

The approval of a request to amend an application does not exempt a development from the requirements of Section 504 of the Rehabilitation Act of 1973, fair housing laws, local and state building codes or other statutory requirements that are not within the Board's purview. Notwithstanding information that the Department may provide as assistance, the development owner retains the ultimate responsibility for determining and implementing the courses of action that will satisfy applicable regulations.

HTC No. 05179, The Villages at Huntsville

Summary of Request: The owner requests approval to reduce the number of buildings from twenty to thirteen and change the utility service from gas and electricity to electricity only. The townhouse style of the development, garages, net rentable area and common area will not change. The parking will increase by a total of sixteen uncovered spaces. The changes are proposed to meet constraints on the construction budget.

Governing Law:	§2306.6712, Texas Government Code. The code states that a significant modification of the site plan is a material alteration.
Owner:	Essex Villages, L.P.
General Partner:	Tejas Housing II, Inc., Managing GP; Eagle River Builders, Inc., Co-GP
Developers:	Tejas Housing & Development, Inc.
Principals/Interested Parties:	R.J. Collins (Tejas) and Juan Menchaca (Eagle River)
Syndicator:	Raymond James
Construction Lender:	Stearns Bank
Permanent Lender:	Monarch Financial
Other Funding:	City of Huntsville ($73,073, waiver of tap fees)
City/County:	Huntsville/Walker
Set-Aside:	General Population
Type of Area:	Rural
Type of Development:	New Construction
Population Served:	General Population

Units:	73 HTC units and 3 market rate units
2005 Allocation:	$589,000
Allocation per HTC Unit:	$8,068
Prior Board Actions:	7/05 – Approved award of tax credits
Real Estate Analysis:	The amendment request would not change the underwritten amount
Staff Recommendation:	**Staff recommends approving the request. The change would not materially alter the development in a negative manner and would not have adversely affected the selection of the application in the application round.**

HTC No. 04255, Freeport Oaks

Summary of Request: The owner requests approval to change the number of residential buildings from ten to eight. The plan of the clubhouse would also change, decreasing the size from 3,169 to 2,575 square feet. The changes would not alter the sizes of the units and the same bedroom to bathroom ratios would exist for each unit type. The bedroom mix of the units would change slightly, increasing the three bedroom units by one and decreasing the two bedroom units by one. The total net rentable area would therefore increase from 99,800 to 100,040 square feet.

The owner stated that the changes resulted from the departure of key experienced personnel in the organization of the original architect and higher than budgeted costs for the architectural plans. Therefore, the original architect was replaced. The new plans are said to be superior to the original plans because of the increases in green space, decreases in the paved area and improvements in traffic flow. The applicant requested a waiver of the $2,500 amendment request fee.

Governing Law:	§2306.6712, Texas Government Code. The code states that a significant modification of the site plan, or a modification of the number of units or bedroom mix of units are material alterations.
Owner:	Freeport Oaks, LP
General Partner:	Freeport Oaks Partners, LLC
Developers:	Kilday Partners, LLC
Principals/Interested Parties:	Les Kilday, R.R. Kilday, Dianne Kilday
Syndicator:	MMA Financial, LLC
Construction Lender:	Bank of America
Permanent Lender:	MMA Financial
Other Funding:	Bozrah International Ministries Grant ($37,000)
City/County:	Freeport/Brazoria
Set-Aside:	General Population
Type of Area:	Exurban
Type of Development:	New Construction
Population Served:	General Population
Units:	80 HTC units and 20 market rate units
2004 Allocation:	$639,213
Allocation per HTC Unit:	$7,990
Prior Board Actions:	7/05 – Approved award of tax credits
Underwriting Reevaluation:	To be determined
Staff Recommendation:	**Staff recommends approving the amendment request and denying the request to waive the amendment fee. The change would not materially alter the development in a negative manner and would not have adversely affected the selection of the application in the application round.**

HTC No. 05195, San Gabriel Senior Village

Summary of Request: The owner requests approval to: (1) change the number of buildings from seventeen to five (the five buildings are contiguous and effectively form one building) with corresponding changes in the unit sizes; (2) substitute a swimming pool for the perimeter fence and controlled access gates that were proposed; (3) change the utility structure to "all bills paid by owner"; and (4) change the ownership structure to include a community housing development organization (CHDO) as the general partner, instead of the Historically Underutilized Business (HUB) as originally proposed. The owner stated that the changes are desirable for the following reasons:

1. Numerous oak trees on the development site are protected by the City of Georgetown's development code and a commitment from the developer to the Heart of Georgetown neighborhood organizations that trees would be preserved to the greatest extent possible.
2. Location of the site above the Edward's Aquifer required a larger and deeper than typical storm water detention pond.
3. Construction cost increases have made the development financially infeasible as originally proposed. The cost increases have been caused by:
    a. subsurface rock conditions that impacted the cost of excavation and installation of utilities;
    b. special features that were required for the detention pond because the site is located above the Edwards Aquifer;
    c. 700% increase in the price of copper since the time of application, affecting the costs of plumbing, electrical and HVAC;
    d. 100% increase in the price of drywall over the last 12-18 months;
    e. substantial increases in the prices of concrete and lumber;
4. Changing the ownership would decrease the property taxes and support the development's financial feasibility.

Regarding cost increases, the owner expects an 84% increase in site costs, and 17% in other construction costs. The owner's current estimate of total development costs is $11,064,694. The development was underwritten by the Department at $9,016,114, approximately 23% less than the owner's estimated development cost under the new one-building proposal. The net rentable area of the development would not change significantly, decreasing by 418 square feet or approximately half of one percent. The sizes of some units would change but neither the bedroom and bathroom mix nor the income targeting would change.

With the exception of the ownership change, the changes proposed would not have affected the scoring of the application. However, the representation in the application that a HUB would be the majority general partner scored two points. Although the two HUB points would not have been awarded under the ownership structure now proposed, the loss of these two points would have decreased the application's score to 179. The subject application would have received an award of tax credits even without the two points that were scored for the HUB participation.

Governing Law:	§2306.6712, Texas Government Code. The code states that a significant modification of the site plan, and a modification of the number of units or bedroom mix of units are material alterations.
Owner:	DDC San Gabriel Senior Village, Ltd.
General Partner:	DDC Operations, LLC
Developers:	DDC Residential, Ltd.
Principals/Interested Parties:	Leslie Holleman (51% of GP); Colby Denison (49% of GP)
Syndicator:	MMA Financial, LLC

Construction Lender:	JPMorganChase Bank
Permanent Lender:	JPMorganChase Bank
Other Funding:	City of Georgetown pre-development loan ($360,000)
City/County:	Georgetown/Williamson
Set-Aside:	Elderly Population
Type of Area:	Exurban
Type of Development:	New Construction
Population Served:	Elderly Population
Units:	100 HTC units
2005 Allocation:	$712,154
Allocation per HTC Unit:	$7,122
Prior Board Actions:	7/05 – Approved award of tax credits
Compliance Review:	The proposed new member of the owner is acceptable.
Underwriting Reevaluation:	To be determined
Staff Recommendation:	**Staff recommends approving the requests. The changes requested would not materially alter the development in a negative manner and would not have adversely affected the selection of the application in the application round.**

<u>HTC No. 00056, The Woodlands</u>

<u>Summary of Request</u>: The owner requested the Department's approval or acceptance of differences and inconsistencies between the development as proposed and as built. The issues were cited in conjunction with the Department's inspection of the finished development as items needing additional explanation or corrective action. Having read the owner's explanations, staff reviewed the application and cost certification packages.

The reasons for the current request are reflected by the history of the property's management and a major shift in the Department's evaluation of the product delivered. The original managing general partner True Avenue, LLC, was removed by the syndicator, Columbia Housing, and the co-general partner, RPD Housing, LLC, withdrew. West Cardinal Development, LLC (Sally Gaskin) was installed as the sole general partner, to correct the development's deficiencies with respect to both the application and operations. In the fall of 2001, problems increased as statute increased the stringency of evaluating the final development versus the development originally proposed. In 2000 and for most of 2001, changes in a development's features were evaluated primarily or even exclusively, in terms of scoring and Threshold requirements. Features that were represented in the application in excess of the minimum features needed to satisfy Threshold and scoring requirements were commonly not considered to be necessary for final approval of the completed development. The final cost of a development in comparison to the cost originally estimated frequently overrode considerations about the features. The Department's findings about the items currently at issue are discussed below.

<u>12 SEER AC</u> was substituted with 10 SEER AC however ceiling fans were installed to make up the loss of points.

<u>Public telephone</u> was removed due to an increase in criminal activity.

<u>Monitored security</u> the owner proposes to delete the monitored security system due to an administrative error when completing the application. The checkbox for the monitored security was checked in error.

<u>Controlled access gate</u> a full perimeter fence was installed however the access gate was not installed do to high maintenance. The only access to the property is in view of the on-site police substation located in the clubhouse. The owner hires additional security when needed.

<u>Commercial kitchen</u> was substituted with a full residential kitchen which appears to be the intention in the application.

<u>Picnic areas</u> the owner requests the picnic tables located in the common pool area meet the picnic area requirement because this area is fully lighted and more safe then the other areas of the development. This decreases the potential for illegal activity.

Governing Law:	§2306.6712, Texas Government Code. The code states that a material alteration is any modification considered significant by the board.
Owner:	West Cardinal 140, L.P.
General Partner:	West Cardinal Development, L.L.C.
Developer:	Columbia Housing SLP Corporation

Re: Application Amendment for TDHCA 05179, The Villages at Huntsville

Dear Mr. Gerber,

According to 50.17(d) Amendment of Application Subsequent to Allocation by Board of the 2006 QAP, Essex Villages LP, owner of TDHCA 05179, The Villages at Huntsville, is submitting an Application Amendment for approval. The amendments are designed to help the development meet budget construction costs.

The Villages at Huntsville will continue to be 76 townhomes with garages and a clubhouse. Amendments include electric utilities instead of gas, 13 buildings instead of 20 buildings, and changes in the site although the acreage remains the same. A new survey and site plan are enclosed. The amenities remain the same, except for the addition of 16 uncovered parking spaces. This addition changed the number of uncovered parking spaces from 78 to 94.

Enclosed is the Application Amendment with the following documents from the 2006 Application Forms:

Volume 1, Tab 1, Parts A, B and C
Volume 1, Tab 2, Parts A through G
Volume 1, Tab 3, Parts A, B and C
Volume 1, Tab 4, Parts A and B, including Financing Participant letters and construction promissory note
Volume 2, Tab 1, Current Address
Volume 2, Tab 2, Legal Description
Volume 2, Tab 3, Map
Volume 2, Tab 4, Site Plan
Volume 3, Tab 1, Parts A1 and A2, Site Plan, Elevations and Floor Plans, Survey
Volume 3, Tab 1, Part B, Specifications and Amenities
Volume 3, Tab 1, Part C, Common Amenities

Please let us know if we can provide anything further. Thank you for this opportunity.

Sincerely,

R. J. Collins
President of General Partner

Re: Request for Amendment to Freeport Oaks Apartments, HTC Application #04255

Dear Mr. Sheppard:

Please accept this letter as the formal request for amendment to Freeport Oaks Apartments, HTC Application #04255.

In our original application, the architectural site plan showed 10 residential buildings. The current architectural site plan, as built, shows 8 residential buildings.

Our original architect for this development was EDI Architects. Due to two unforeseen issues, we decided to change architects to Jim Gwin Architects. First, from the time that the original Application was submitted to the time the tax credit allocations were made, EDI went through a number of personnel changes. Most of the personnel we had dealt with were no longer employed by EDI. This caused a lack of multifamily expertise at EDI (the majority of EDI's architectural work is commercial in nature…mid-rise and high-rise structures). Second, EDI's pricing for the full architectural plans was significantly higher than we had budgeted.

Due to these issues, we decided that changing architects was the best course of action to take. Jim Gwin presented us with a site plan that was much more attractive than the original site plan. His plan called for only 8 residential buildings. This change afforded us a better space-planned site with more green area, less concrete and better traffic flow (see attached site plans).

From our past experience, we did not believe that decreasing the number of residential buildings (as we did) would require an amendment. We believe that the change made was actually beneficial to the development moving forward and in no way affects the development in a negative manner. While the change certainly altered the Development, we do not believe that the alteration was 'material' enough to warrant the $2,500 fee. We have enclosed the check per your guidance, but respectfully request that the $2,500 fee be waived in light of our specific circumstances.

If you have any questions regarding our request, or need us to furnish any other information, please contact me at 713-914-9400.

Thank you for considering our request.

Sincerely,

Les Kilday

Re: REVISED - Request for Amendment to LIHTC #05195, San Gabriel Senior Village Apartments of Georgetown

Dear Ben:

On behalf of the Project Partnership, DDC San Gabriel Senior Village, Ltd., we are writing to request the Department's consideration of the following application amendments:

1.) Change the number of Buildings from 17 Buildings to 5 Buildings. (Please note the 5 buidings combine to make up one large contiguous structure)

APPLICATION BUILDING TYPE	QUANITY	AMENDMENT BUILDING TYPE	QUANTITY
Type 1	9	Type 3-A	2
Type 2	7	Type 3-B	2
Club	1	Club	1

We are requesting to amend the number of buildings on our site because:

(1) The existence of a large quantity of protected Oak trees under the City of Georgetown's development code prevents us from developing the original site plan submitted with our Application;
(2) Our commitment to the Heart of Georgetown Neighborhood that we would endeavor to protect all trees, and
(3) Construction cost inflation makes it financially infeasible to build the original plan. The site sits on the Edwards Aquifer requiring a larger and deeper than normal detention and water quality pond.

The primary reasons for the higher than expected construction costs are (1) rock subsurface conditions that resulted in a high cost of excavation and installation of site utilities, (2) "wet" type water quality pond design (Edwards Aquifer), (3) 700% increase in the price of copper which affects all mechanical system budgets (Plumbing, Electrical and HVAC, (4) 100% increase in the cost of drywall material over the last 12-18 months, and (5) large increases in the cost of lumber and concrete.

HTC No. 05195

REVISED

Denison DEVELOPMENT & CONSTRUCTION

We've included the new building plans (site plan, building plans, unit plans and data sheet) for your review. Despite the more cost effective nature of building one large building when compared with the cost of seventeen smaller buildings, the material and labor cost increases across the State have offset these efficiencies.

Below, please find a comparison of our construction cost from the application to this amendment.

	Application	Amendment	$ Change	% Change
Site Cost	$ 745,631	$1,370,500	$624,869	84%
Direct Construction Cost	4,269,802	4,287,97	$17,595	0%
Other Construction Costs	952,932	1,114,603	$161,671	17%
TOTAL	$5,968,365	$6,772,500	$804,135	13%

2.) Change the General Partner of DDC San Gabriel Senior Village, Ltd. to a 501c3 non-profit entity.

Because of rising interest rates and higher development costs, we are requesting to change to a non-profit (CHDO) structure in order to achieve a 50% reduction in ad valorem property taxes. Crossroads Housing Development Corporation will serve as the sole member of DDC SGSV GP, LLC, and DDC SGSV GP, LLC will in turn serve as the General Partner for DDC San Gabriel Senior Village, Ltd. We have included a revised organizational chart for your review.

Operating Proforma:

Rent Schedule: The rent schedule reflects the proposed unit mix adjusted for recently released rent and income levels effective for 2006. Cable Income (and cable expense) reflects a Bulk Service Agreement executed with Suddenlink Communications providing for the purchase of cable on all 100 units at a flat rate of $18 per unit per month. We expect the cable will be re-sold through the Development for $35 per month. We assume an 85% participation rate for income underwriting purposes.

Utility Allowances: Based on Utility Allowance Sheet with rates received in 2006, tenants pay items including electricity, heating and cooling,

Operating Expenses:

Management Fees: per executed Management Agreement with UAH Property Management
Payroll: Manager, Maintenance and Assistant will be hired at budget stated herein.
Cable Expense: per executed Bulk Service Agreement with Suddenlink Communications
Insurance: per Management Company's portfolio rate with Frost Insurance Agency
Property Taxes: Assessed value estimated by evaluating other tax credit properties in Georgetown and adjusting for square footage. Assumes a 50% reduction for a CHDO.
Other Operating Expenses: per the 2007 budget prepared by UAH Property Management
Debt Service: per executed loan commitment from JP Morgan Chase.

3.) Change the Full Perimeter Fencing with Controlled Access Gate Amenity to a Pool.

We are asking to substitute a pool for the perimeter fence with gate requested in our Application. The City of Georgetown's Unified Development Code does not allow for a gate. These two items scored the same number of

HTC No. 05195

REVISED

Denison
DEVELOPMENT & CONSTRUCTION

points in the amenities section of the application and therefore would not have affected the competitiveness of the application.

> ***City of Georgetown Unified Development Code Sec. 8.04.065. Gated Areas and Communities.***
>
> *Chapter 6 of the Fire Prevention Code adopted in this chapter is amended by adding thereto Section 602.6.5.1 as follows:*
>
> *Excepting individual single-family residences, Gates or other barriers that restrict access to areas of residential usage are prohibited, including, but not limited to, subdivisions, apartments, rooming houses, dormitories, hotels motels, or any structure used as a domicile or for sleeping purposes.*
>
> *Gates or restricted access to areas of commercial or industrial use shall be permitted if it is determined by the authority having jurisdiction that, it poses no threat to the occupants of the area to be gated, or to the responders in the event of an emergency.*

4.) Change tenant paid water and wastewater to project paid water and wastewater.

Finally, we are asking to change the utility structure of our project to have the project owner pay all water and wastewater for the project instead of the tenants paying for their own water and wastewater. We are requesting this change in order to achieve further cost savings on individual meters and subsequent impact fees payable to the City of Georgetown.

CONCLUSION

We have enclosed our draft 10% Test documentation reflecting our expenditures to date of $1,633,482 or $1,387,434 not including the Developer Fee demonstrating that we have expended substantial moneys thus far. What these expenditures and our due diligence have taught us is that these amendments to our application will serve to help offset the negative affects of cost increases.

We believe the enclosed documentation shows the programmatic consistency as well as the economic feasibility of the amendment request, and respectfully request TDHCA approval. If you have questions or need additional information please contact me at (512) 732-1226.

Sincerely,

DDC San Gabriel Senior Village, Ltd.

RE: The Woodlands Apartments, TDHCA File #00056
Amendment to Application

Dear Mr. Sheppard:

West Cardinal 140, L.P., would like to amend its tax credit application. The number of units, unit mix, income targeting will not change. The amendments are necessary to correct the differences between the original application and the development as constructed. Please note that the current general partner, West Cardinal Development, L.L.C., was substituted on January 1, 2005 which was approximately 2 years after construction completion. The reasons for and/or circumstances leading to the differences between the original application and the development as constructed are not known to the current general partner. The requested amendments are as follows:

1. **Unit Amenities-Energy Saving Devices, Exhibit 204**:
   Per Application: Energy efficient air-conditioning system with 12 SEER or above rating.
   Per Amendment: Ceiling fans in living room and each bedroom
   Explanation: Air conditioning systems actually installed are 10 SEER. Exhibit 204 of the 2000 LIHTC application includes ceiling fans in the living room and each bedroom as one of the eight (8) available energy saving device options. All options had equal value. The ceiling fan option was not selected in the original application. Ceiling fans have been installed in each living room and all bedrooms. (See picture of ceiling fans which are installed in all living rooms and bedrooms enclosed.)

2. **Common Amenities-Monitored Security:**
   Per Application: Monitored Security was marked as one of 22 possible On-Site Amenities in Section 16 of the Application. (No points were associated with Section 16.)
   Per Amendment: Delete Monitored Security, no replacement.

Explanation: The current general partner has no explanation for why the Monitored Security box was checked as one of the On-Site Amenities other than to assume it was done in error. The Woodlands was not designed to accommodate monitored security, and, even if it had been designed and installed, the development would not have the financial ability to afford to operate it. It is for these reasons we request that this amenity be approved for deletion.

3. **Common Amenities-Picnic Areas**:
   Per Application: Picnic Area was marked as one of 22 possible On-Site Amenities in Section 16 of the Application. (No points associated were with Section 16.)
   Per Amendment: Delete Picnic Area, no replacement.
   Explanation: The Woodlands offers tables for outside eating and recreation within the fenced and lighted pool area. These tables are available to the residents 24 hours per day. The Woodlands is a family development with all 2 and 3 bedroom units. The property is working diligently to discourage adolescent, teen and young adult loitering and vandalism in the late evening/early morning hours, particularly during the summer months. The property has a furnished police substation on site and periodically hires additional security to contain mischief. The owner and property management feel strongly that picnic areas on the grounds outside of the lighted and fenced pool area would become a late night gathering spot that would not have a positive influence on the resident community as a whole. It is for this reason we request that this amenity be approved for deletion. (See picture of tables in lighted and fenced pool area).

4. **Common Amenities-Commercial Kitchen**:
   Per Application: Commercial Kitchen was marked as one of 22 possible On-Site Amenities in Section 16 of the Application in error. Residential Kitchen should have been marked. (No points were associated with Section 16.)
   Per Amendment: Delete Commercial Kitchen and replace with Residential Kitchen.
   Explanation: The community center is equipped with a residential-type kitchen and appliances for social and holiday parties for the residents. While the current general partner has no first hand knowledge of the original intent, it is apparent that the kitchen facility was not designed for regular meal preparation. In addition, regular meal preparation is not common on family properties. Therefore, it is the current general partner's assumption that the box for Commercial Kitchen was marked in error, and the Residential Kitchen should have been marked instead. (See picture(s) enclosed.)

5. **Common Amenities-Controlled/Limited Access Gate**:
   Per Application: It appears that Limited Access Gate was marked as one of 22 possible On-Site Amenities in Section 16 of the Application in error. (No points were associated with Section 16.)
   Per Amendment: Delete Limited Access Gate; no replacement.
   Explanation: While the current general partner has no knowledge or explanation for why the Limited Access Security Gate box was checked as one of the On-Site Amenities, it believes that an error was made based on the fact that

Exhibit 101 contained a similar amenity described as "full perimeter fencing with controlled gate access" which was not one of the selections made for that exhibit. Exhibit 101 was an exhibit for which the applicant received points and, as such, is believed to be generally a better indication of intent, which supports the assumption that the box for Limited Access Security Gate was marked in error.

6. **Common Amenities-Public Telephones, Exhibit 101**:
Per Application: Public Telephone available to residents 24 hours a day was selected as one of four required Common Amenities for points. It was also marked as on of the On-Site Amenities included in Section 16 of the Application.
Per Amendment: Delete Public Telephone; no replacement.
Explanation: Exhibit 101 requires that 4 amenities be selected for maximum points. The original application made 5 selections. Public telephones have been found to facilitate numerous undesirable activities including loitering, vandalism and even drug dealing within apartment communities. As such, public telephones are not recommended by the Texas Apartment Association. Instead, the Woodlands installed an emergency-only telephone outside the development office, near the pool, allowing free emergency calls to 911 twenty-four hours a day. As mentioned in Response #3 above, The Woodlands has experienced problems with adolescent, teen, young adult loitering and vandalism, particularly during the summers. The owner and property management feel strongly that a public telephone would create unnecessary problems within the development and negatively impact the quality of life for the resident community overall. (See picture(s) enclosed)

Thank you for your consideration and approval of the requested changes. Should you have any questions, please contact me at 713-882-3233 or at sally@sgiventures.net .

Sincerely,
West Cardinal 140, L.P.

2006 Variable Rate Demand Multifamily Housing Revenue Refunding Bonds

Red Hills Villas
1401 A W Grimes
Round Rock, Texas

South Creek Housing, Ltd.
168 Units
$5,015,000 – Series 2006

TABLE OF EXHIBITS

MULTIFAMILY FINANCE PRODUCTION DIVISION

BOARD ACTION REQUEST

August 30, 2006

Action Item

Presentation, Discussion and Possible Approval of the Variable Rate Demand Multifamily Housing Mortgage Revenue Refunding Bonds Series 2006 for the Red Hills Villas.

Requested Action

Approve, Amend or Deny with Amendments the refunding of Red Hills Villas.

Background and Financial Summary

The bonds for the Red Hills Villas were originally issued through TDHCA in December of 2000. The original tax-exempt bond amount was $9,900,000 and taxable bond amount was $400,000. The bonds were privately placed with CharterMac Municipal Mortgage for a term of forty years with a fixed interest rate of 7.4% on the tax-exempt bonds and 9.5% on the taxable bonds. Round Rock and the surrounding Austin apartment market area suffered from an oversupply of Class A apartment developments shortly after this property placed in service. There were job losses in the high tech industry following September 11th and a flight of apartment tenants to single family home ownership due to low interest rates. Occupancy and rental rates, especially market rate properties, plummeted to competing level with affordable properties. The Development has not been able to generate sufficient cash flow on a consistent basis to pay existing debt service which has been paid by the Development owner to keep the property from going into default. The current market is gaining economic strength and market rates are beginning to rise to meet demand.

Because of these circumstances the applicant is requesting the Department's approval to refund (in essence, refinance) the existing fixed rate, private placement structure with a variable rate demand, publicly offered structure in an amount not to exceed $5,015,000 with an estimated amortization rate of 5.25% with a 6.00% rate cap. The lower interest rate and lower debt will allow the development to meet the debt service obligation. The general partner will contribute $4,748,341 as a subordinated cash loan that will be repaid with cash flow after the deferred developer fees are paid and will be combined with the refunded amount of $5,015,000 to payoff the existing bond amounts of $10,142,900. The appraised value of the property is $6,364,934. The bonds will be credit enhanced by Fannie Mae with a AAA rating. CharterMac Mortgage Capital (Fannie Mae DUS Lender) will underwrite the transaction using a debt coverage ratio of 1.20 amortized over 30 years.

Recommendation

Staff recommends the Board approve the Variable Rate Demand Multifamily Housing Mortgage Revenue Refunding Bonds Series 2006 the Red Hills Villas because of the reduction in the serviceable debt due to the redemption of outstanding bonds, cash equity provided by the partnership, reduction is interest rate, equity position in the debt structure, financial feasibility and Fannie Mae credit enhancement.

MULTIFAMILY FINANCE PRODUCTION DIVISION
BOARD MEMORANDUM
August 30, 2006

DEVELOPMENT: Red Hills Villas, Round Rock, Williamson County, Texas

PROGRAM: Texas Department of Housing & Community Affairs
Variable Rate Demand Multifamily Housing Revenue Refunding Bonds Series 2006

BACKGROUND: In May 2000, the Department issued Multifamily Housing Revenue Bonds Series 2000 (Red Hills Villas), in the aggregate principal amount of $10,300,000 in order to finance the costs of acquiring, constructing, and equipping a multifamily rental housing development located in Round Rock, Texas. The Series 2000 Bonds were privately placed with CharterMac Municipal Mortgage with a fixed interest rate of 7.4% with an amortization of forty years. The Development has not been able to generate sufficient cash flow for the existing debt service. The Applicant proposes to refund the 2000 Series Bonds with an issuance of new bonds with a variable rate of interest, credit enhanced with Fannie Mae with an anticipated AAA rating on the Bonds.

BOND AMOUNT: $5,015,000 Series 2006 Tax Exempt bonds (*)
$5,015,000 Total bonds

The aggregate principal amount of the Bonds will be determined by the Department based on its rules, underwriting, the cost of construction of the Development and the amount for which Bond Counsel can deliver its Bond Opinion.

ANTICIPATED CLOSING DATE: The anticipated closing date is September 12, 2006.

BORROWER: South Creek Housing, Ltd., a Texas Limited Partnership, the general partner of which is TWC Housing, L.L.C., wholly owned by Hunt ELP, Ltd. which is jointly owned by HB GP, LLC (W.L. Hunt owning 95.7265% and M.L. Hunt owning 4.2735%) and Hunt Company, LLC (wholly owned by Hunt Building Corporation. Related Capital or an affiliate thereof will be providing the equity for the transaction by purchasing a 99.99% limited partnership interest in the Borrower.

COMPLIANCE HISTORY: The Compliance Status Summary completed on August 21, 2006 reveals that the principals of the general partner have a total of eighteen developments to be monitored with no material non-compliance.

** Preliminary - Represents Maximum Amount*

ISSUANCE TEAM:

CharterMac Mortgage Capital (FNMA DUS Lender/Servicer)
Fannie Mae (Credit Facility Provider)
Related Capital (Equity Provider)
Stern Brothers & Co. (Underwriter)
Wells Fargo Bank, N. A. (Trustee)
Vinson & Elkins L.L.P. (Bond Counsel)
RBC Capital Markets (Financial Advisor)
McCall, Parkhurst & Horton, L.L.P. (Issuer Disclosure Counsel)

BOND PURCHASER:

The Bonds will be publicly offered for sale on or about September 8, 2006 at which time the final pricing and Bond Purchaser(s) will be determined.

DEVELOPMENT DESCRIPTION:

The Development consists of 168 units constructed on approximately 8.5 acres located at 1401 A W Grimes Boulevard, Round Rock, Texas.

Units	Unit Type	Sq Ft	Proposed	AMFI
36	1-Bed/1-Baths	771	$663.00	60%
62	2-Bed/1-Bath	956	$793.00	60%
24	2-Bed/2-Baths	1,034	$793.00	60%
46	3-Bed/2-Baths	1,240	$908.00	60%
168	Total Units			

SET-ASIDE UNITS:

For Bond covenant purposes, forty percent (40%) of the units in the Development will be restricted to occupancy by persons or families earning not more than sixty percent (60%) of the area median income. Five percent (5%) of the units in the Development will be set aside on a priority basis for persons with special needs. *(The Borrower has elected to set-aside 100% of the units for tax credit purposes)*

RENT CAPS:

For Bond covenant purposes, the rental rates on 100% of the units will be restricted to a maximum rent that will not exceed thirty percent (30%) of the income, adjusted for family size, for a family whose income equals sixty percent (60%) of the area median income.

TENANT SERVICES:

Tenant Services will be provided by CARES, as outlined in the Department's application.

DEPARTMENT FEES:

$10,000 Application Fee (Paid)
$25,625 Issuance Fee (.50% of the bond amount paid at closing)

DEPARTMENT ANNUAL FEES:

$5,125 Bond Administration (0.10% of first year bond amount)
$6,240 Compliance ($40/unit/year adjusted annually for CPI)

(Department's annual fees may be adjusted, including deferral, to accommodate underwriting criteria and Development cash flow. These fees will be subordinated to the Mortgage Loan and paid outside of the cash flows contemplated by the Indenture)

ASSET OVERSIGHT FEE: $3,900 to TDHCA or assigns ($25/unit/year adjusted annually for CPI)

BOND STRUCTURE & SECURITY FOR THE BONDS: The Bonds are proposed to be issued under a Trust Indenture (the "Trust Indenture") that will describe the fundamental structure of the Bonds, permitted uses of Bond proceeds and procedures for the administration, investment and disbursement of Bond proceeds and program revenues. The Mortgage Loan will be secured by, among other things, a Deed of Trust and other security instruments on the Development.

CREDIT ENHANCEMENT: The credit enhancement by Fannie Mae allows for an anticipated rating by the Rating Agency of Aa3/VMIG1 and an anticipated variable interest rate of 5.25% per annum. Without the credit enhancement, the Bonds would not be investment grade and therefore command a higher interest rate from investors on similar maturity bonds.

FORM OF BONDS: The Bonds will be issued in book-entry form and will be in authorized denominations of, (i) during any Weekly Variable Rate Period, $100,000 or any integral multiple of $5,000 in excess of $100,000 and (ii) during any Reset Period or the Fixed Rate Period, $5,000 or any integral multiple of $5,000.

TERMS OF THE MORTGAGE LOAN: The Mortgage Loan is a non-recourse obligation of the Owner, which means, subject to certain exceptions, that the Owner is not liable for the payment thereof beyond the amount realized from the pledged security. The Mortgage Loan provides for level monthly payments of principal and interest.

MATURITY/SOURCES & METHODS OF REPAYMENT: The Bonds will bear interest at a variable rate until maturity, which is September 1, 2036.

The Bonds will be payable from: (1) revenues earned from the Mortgage Loan; (2) earnings derived from amounts held in Funds and Accounts on deposit in an investment agreement; (3) or payments made by the applicable Credit Provider under the credit facility then in effect.

The Credit Provider (initially the Bank) is obligated under its credit enhancement agreement to fund the payment of the Bonds, regardless of whether the Borrower makes the scheduled principal and interest payments on the Mortgage Loan. The Borrower is obligated to reimburse the Credit Provider for any moneys advanced by the Credit Provider for such payments

REDEMPTION OF BONDS PRIOR TO MATURITY:

The Bonds are subject to redemption under any of the following circumstances:

Optional Redemption:

The Bonds are subject to optional redemption in whole or in part upon optional prepayment of the Loan by the Borrower:

(1) On any Interest Payment Date within a Weekly Variable Rate Period and on any Adjustment Date at a redemption price equal to 100 percent of the principle amount redeemed plus accrued interest to the Redemption Date.

(2) On any date within a Reset Period at the respective redemption prices set forth in the Indenture as expressed as a percentage of the principal amount of the Bonds.

(3) On any date within the Fixed Rate Period, at the respective redemption prices set forth in the Indenture as expressed as percentages of the principal amounts of the Bonds.

Mandatory Redemption:

(1) The Bonds shall be redeemed in whole or in part in the event and to the extent that proceeds of insurance from any casualty to, or proceeds of any award from any condemnation of, or any award as part of a settlement in lieu of condemnation of, the Mortgaged Property are applied in accordance with the Security Instrument to the prepayment of the Mortgage Loan.

(2) The Bonds shall be redeemed in whole or in part in an amount specified by and at the direction of the Credit Provider requiring that the Bonds be redeemed pursuant to the Indenture following any Event of Default under the Reimbursement Agreement.

(3) The Bonds shall be redeemed in whole or in part as follows:

a) On each Adjustment Date in an amount equal to the amount which has been transferred from the Principal Reserve Fund on such Adjustment Date to the Redemption Account.

b) On any Interest Payment Date in an amount equal to the amount which has been transferred from the Principal Reserve Fund on such Interest Payment Date to the Redemption Account.

(4) On and after the Transition Date, if any, the Bonds shall be redeemed at the times and in the amounts set forth in the Sinking Fund Schedule attached as Exhibit E to the Indenture.

(5) The Bond shall be redeemed during the Fixed Rate Period at the times and in the amounts set forth in the Sinking Fund Schedule established pursuant to the Indenture.

(6) The Bonds shall be redeemed in part in the event that the Borrower makes a Pre-Conversion Loan Equalization Payment.

(7) The Bonds shall be redeemed in whole or in part in the event and to the extent that amounts on deposit in the Loan Fund are transferred to the Redemption Account.

FUNDS AND ACCOUNTS/FUNDS ADMINISTRATION:

Under the Trust Indenture, Wells Fargo Bank, N.A., (the "Trustee") will serve as registrar and authenticating agent for the Bonds, trustee of certain of the funds created under the Trust Indenture (described below), and will have responsibility for a number of loan administration and monitoring functions.

The Depository Trust Company ("DTC"), New York, New York, will act as securities depository for the Bonds. The Bonds will initially be issued as fully registered securities and when issued will be registered in the name of Cede & Co., as nominee for DTC. One fully registered global bond in the aggregate principal amount of each stated maturity of the Bonds will be deposited with DTC.

Moneys on deposit in Trust Indenture funds are required to be invested in eligible investments prescribed in the Trust Indenture until needed for the purposes for which they are held.

The Trust Indenture will create up to six (6) funds with the following general purposes:

1. Bond Proceed Fund – shall be dispersed for the redemption of the prior bonds.

2. Revenue Fund - General receipts and disbursement account for revenues to pay principal and interest on the Bonds. Accounts created within the Revenue Fund for redemption provisions, credit facility purposes, the payment of interest and certain ongoing fees.

3. Costs of Issuance Fund – A temporary fund into which amounts for the payment of the costs of issuance are deposited and disbursed by the Trustee.

4. Rebate Fund - Fund into which certain investment earnings are transferred that are required to be rebated periodically to the federal government to preserve the tax-exempt status of the Bonds. Amounts in this fund are held apart from the trust estate and are not available to pay debt service on the Bonds.

5. Bond Purchase Fund - Moneys held uninvested and exclusively for the payment of the purchase price of Tendered Bonds.

6. Principal Reserve Fund – Fund to collect payments received from the Borrower pursuant to the reimbursement agreement and used to pay certain costs approved by the Credit Provider, including unreimbursed advances, improvements or repairs to the Development, and principal on the Bonds.

Essentially, all of the bond proceeds will be deposited into the Loan Fund and disbursed during the Construction Phase (over 18 to 24 months) to finance the construction of the Development. Although costs of issuance of up to two percent (2%) of the principal amount of the Bonds may be paid from Bond proceeds, it is currently expected that all costs of issuance will be paid by an equity contribution of the Borrower.

DEPARTMENT ADVISORS:

The following advisors have been selected by the Department to perform the indicated tasks in connection with the issuance of the Bonds.

1. Bond Counsel - Vinson & Elkins L.L.P. ("V&E") was most recently selected to serve as the Department's bond counsel through a request for proposals ("RFP") issued by the Department in September 2005.

2. Bond Trustee – Wells Fargo, National Association was selected as bond trustee by the Department pursuant to a request for proposal process in June 2006.

3. Financial Advisor – RBC Capital Markets, formerly RBC Dain Rauscher, was selected by the Department as the Department's financial advisor through a request for proposals process in August 2003.

4. Underwriter – Stern Brothers & Co. was selected by the Borrower from the Department's list of approved senior managers for multifamily bond issues. The underwriter list was compiled and approved by the Department June 2006.

ATTORNEY GENERAL REVIEW OF BONDS:

No preliminary written review of the Bonds by the Attorney General of Texas has yet been made. Department bonds, however, are subject to the approval of the Attorney General, and transcripts of proceedings with respect to the Bonds will be submitted for review and approval prior to the issuance of the Bonds.

RESOLUTION NO. 06-033

RESOLUTION AUTHORIZING AND APPROVING THE ISSUANCE, SALE AND DELIVERY OF VARIABLE RATE DEMAND MULTIFAMILY HOUSING MORTGAGE REVENUE REFUNDING BONDS (RED HILLS VILLAS) SERIES 2006; APPROVING THE FORM AND SUBSTANCE AND AUTHORIZING THE EXECUTION AND DELIVERY OF DOCUMENTS AND INSTRUMENTS PERTAINING THERETO; AUTHORIZING AND RATIFYING OTHER ACTIONS AND DOCUMENTS; AND CONTAINING OTHER PROVISIONS RELATING TO THE SUBJECT

WHEREAS, the Texas Department of Housing and Community Affairs (the "Department") has been duly created and organized pursuant to and in accordance with the provisions of Chapter 2306, Texas Government Code, as amended (the "Act"), for the purpose, among others, of providing a means of financing the costs of residential ownership, development and construction that will provide decent, safe, and affordable living environments for individuals and families of low, very low and extremely low income (as defined in the Act) and families of moderate income (as defined in the Act and determined by the Governing Board of the Department (the "Board") from time to time); and

WHEREAS, the Act authorizes the Department: (a) to make mortgage loans to housing sponsors to provide financing for multifamily residential rental housing in the State of Texas (the "State") intended to be occupied by individuals and families of low, very low and extremely low income and families of moderate income, as determined by the Department; (b) to issue its revenue refunding bonds, for the purpose, among others, of obtaining funds to make such loans and provide financing, to establish necessary reserve funds and to pay administrative and other costs incurred in connection with the issuance of such bonds; and (c) to pledge all or any part of the revenues, receipts or resources of the Department, including the revenues and receipts to be received by the Department from such multifamily residential rental development loans, and to mortgage, pledge or grant security interests in such loans or other property of the Department in order to secure the payment of the principal or redemption price of and interest on such bonds; and

WHEREAS, the Department heretofore has issued its Multifamily Housing Mortgage Revenue Bonds (Red Hills Villas) Series 2000A in the original aggregate principal amount of $9,900,000 (the "Prior Tax-Exempt Bonds") and its Taxable Multifamily Housing Mortgage Revenue Bonds (Red Hills Villas) Series 2000B in the original aggregate principal amount of $400,000 (the "Prior Taxable Bonds" and together with the Prior Tax-Exempt Bonds, the "Prior Bonds") under the Trust Indenture dated as of December 1, 2000 (the "Original Indenture"), by and between the Department and Wells Fargo Bank Texas, as trustee (the "Prior Trustee") as amended by the First Supplemental Trust Indenture dated as of August 1, 2004 (the "Supplemental Indenture," and together with the Original Indenture, the "Prior Indenture"), by and among the Department, South Creek Housing, Ltd., a Texas limited partnership (the "Borrower"), Wells Fargo Bank, National Association, as successor by merger to the Prior Trustee, and U.S. Bank Trust National Association, as majority owner, the proceeds of which were loaned (the "Prior Loan") to the Borrower, to provide financing for a multifamily residential rental housing development located in Williamson County, Texas and described on Exhibit A attached hereto (the "Development"), all in accordance with the Constitution and laws of the State; and

WHEREAS, the Board has determined to authorize the issuance, sale and delivery of the Department's Variable Rate Demand Multifamily Housing Mortgage Revenue Refunding Bonds (Red Hills Villas) Series 2006 (the "Bonds"), pursuant to and in accordance with the terms of a Trust Indenture (the "Indenture") by and between the Department and Wells Fargo Bank, National Association, a national banking association, as trustee (the "Trustee"), for the purpose of obtaining funds to refund a portion of the Prior Tax-Exempt Bonds to provide funds to refinance the cost of acquisition, construction and equipping the Development, all under and in accordance with the Constitution and laws of the State, including particularly Section 2306.354 of the Act and Chapter 1207, Texas Government Code, as amended; and

WHEREAS, the Department desires to use the proceeds of the Bonds to fund a mortgage loan to the Borrower to prepay a portion of the outstanding balance of the mortgage loan for the Prior Tax-Exempt Bonds and thereby refund a portion of the Prior Tax-Exempt Bonds, in accordance with the Constitution and laws of the State; and

WHEREAS, the Borrower will provide funds other than the proceeds of the Bonds to repay the remaining portion of the Prior Tax-Exempt Bonds and the aggregate principal amount of the Prior Taxable Bonds simultaneously with the issuance of the Bonds; and

WHEREAS, Section 4.03 of the Prior Indenture provides that (i) the Prior Tax-Exempt Bonds shall be subject to redemption prior to maturity in whole but not in part on any interest payment date on or after December 1, 2017 from the proceeds of an optional prepayment of the Prior Loan by the Borrower, at a redemption price equal to the principal amount thereof, plus accrued interest thereon to the date fixed for redemption; and (ii) the Prior Taxable Bonds shall be subject to redemption prior to maturity in whole or in part on any interest payment date after the completion date from the proceeds of an optional prepayment of the Prior Loan by the Borrower, at a redemption price equal to the principal amount thereof, plus accrued interest thereon to the date fixed for redemption; and

WHEREAS, the Department, the Prior Trustee and the holders of 100% of the outstanding Prior Bonds (the "Prior Bondholders"), have agreed to the redemption of the Prior Bonds on any date upon prepayment of the Prior Loan by the Borrower; and

WHEREAS, it is anticipated that the Department, the Borrower and the Trustee will execute and deliver a Financing Agreement (the "Financing Agreement") pursuant to which (i) the Department will agree to make a mortgage loan funded with the proceeds of the Bonds (the "Loan") to the Borrower to enable the Borrower to refinance a portion of the cost of the Development and pay related costs, and (ii) the Borrower will execute and deliver to the Department a multifamily note (the "Note") in an original principal amount equal to the original aggregate principal amount of the Bonds, and providing for payment of interest on such principal amount equal to the interest on the Bonds and to pay other costs described in the Financing Agreement; and

WHEREAS, it is anticipated that credit enhancement for the Loan and liquidity support for the Bonds will be provided for initially by a Direct Pay Irrevocable Transferable Credit Enhancement Instrument issued by Fannie Mae ("Fannie Mae", also the "Credit Provider"); and

WHEREAS, it is anticipated that the Note will be secured by a Multifamily Deed of Trust, Assignment of Rents, Security Agreement and Fixture Filing (the "Security Instrument") from the Borrower for the benefit of the Department and Fannie Mae; and

WHEREAS, the Department's interest in the Loan (except for certain reserved rights), including the Note and the Security Instrument, will be assigned to the Trustee, as its interests may appear, and to Fannie Mae, as its interests may appear, pursuant to an Assignment and Intercreditor Agreement (the "Assignment") among the Department, the Trustee and Fannie Mae and acknowledged, accepted and agreed to by the Borrower; and

WHEREAS, the Board has determined that the Department, the Trustee and the Borrower will execute an Amended and Restated Regulatory and Land Use Restriction Agreement (the "Regulatory Agreement"), with respect to the Development which will be filed of record in the real property records of Williamson County, Texas; and

WHEREAS, the Board has been presented with a draft of, has considered and desires to ratify, approve, confirm and authorize the use and distribution in the public offering of the Bonds of a Preliminary Official Statement (the "Preliminary Official Statement") and an Official Statement (the "Official Statement", and together with the Preliminary Official Statement, the "Official Statement") and to authorize the authorized representatives of the Department to deem the Official Statement "final" for purposes of Rule 15c2-12 of the Securities and Exchange Commission (the "Rule") and to approve the making of such changes in the Official Statement as may be required to provide a final Official Statement for use in the public offering and sale of the Bonds; and

WHEREAS, the Board has further determined that the Department will enter into a Purchase Contract (the "Purchase Contract") with the Borrower and Stern Brothers & Co. (the "Underwriter"), and any other parties to such Purchase Contract as authorized by the execution thereof by the Department, setting forth certain terms and conditions upon which the Underwriter or another party will purchase all or their respective portion of the Bonds from the Department and the Department will sell the Bonds to the Underwriter or any other parties to such Purchase Contract; and

WHEREAS, the Board has determined that the Department and the Borrower will execute an Asset Oversight Agreement (the "Asset Oversight Agreement") with respect to the Development for the purpose of monitoring the operation and maintenance of the Development; and

WHEREAS, the Board has examined proposed forms of (a) the Indenture, the Financing Agreement, the Assignment, the Regulatory Agreement, the Asset Oversight Agreement, the Official Statement and the Purchase Contract (collectively, the "Issuer Documents), all of which are attached to and comprise a part of this Resolution, and (b) the Security Instrument and the Note; has found the form and substance of such documents to be satisfactory and proper and the recitals contained therein to be true, correct and complete; and has determined, subject to the conditions set forth in Article I, to authorize the issuance of the Bonds, the execution and delivery of the Issuer Documents, the acceptance of the Security Instrument and the Note and the taking of such other actions as may be necessary or convenient in connection therewith;

NOW, THEREFORE,

BE IT RESOLVED BY THE BOARD OF THE DEPARTMENT:

ARTICLE I

ISSUANCE OF BONDS; APPROVAL OF DOCUMENTS

<u>Section 1.1--Issuance, Execution and Delivery of the Bonds</u>. That the issuance of the Bonds is hereby authorized, under and in accordance with the conditions set forth herein and in the Indenture, and that, upon execution and delivery of the Indenture, the authorized representatives of the Department named in this Resolution each are authorized hereby to execute, attest and affix the Department's seal to the Bonds and to deliver the Bonds to the Attorney General of the State for approval, the Comptroller of Public Accounts of the State for registration and the Trustee for authentication (to the extent required in the Indenture), and thereafter to deliver the Bonds to the order of the initial purchasers thereof.

Section 1.2--Interest Rate, Principal Amount, Maturity and Price. That the Chair or Vice Chairman of the Board or the Executive Director or Acting Executive Director of the Department are hereby authorized and empowered, in accordance with Chapter 1371, Texas Government Code, to fix and determine the interest rate, principal amount and maturity of, the redemption provisions related to, and the price at which the Department will sell to the Underwriter or another party to the Purchase Contract, the Bonds, all of which determinations shall be conclusively evidenced by the execution and delivery by the Chair or Vice Chairman of the Board or the Executive Director or Acting Executive Director of the Department of the Indenture and the Purchase Contract; provided, however, that (i) the Bonds shall bear interest at the rates determined from time to time by the Remarketing Agent (as such term is defined in the Indenture) in accordance with the provisions of the Indenture; provided that in no event shall the interest rate on the Bonds (including any default interest rate) exceed the maximum interest rate permitted by applicable law; and provided further that the initial interest rate on the Bonds shall not exceed 6.00%; (ii) the aggregate principal amount of the Bonds shall not exceed $5,015,000; (iii) the final maturity of the Bonds shall occur not later than September 15, 2036; and (iv) the price at which the Bonds are sold to the initial purchasers thereof under the Purchase Contract shall not exceed 103% of the principal amount thereof.

Section 1.3--Approval, Execution and Delivery of the Indenture. That the form and substance of the Indenture are hereby approved, and that the authorized representatives of the Department named in this Resolution each are authorized hereby to execute the Indenture and to deliver the Indenture to the Trustee.

Section 1.4--Approval, Execution and Delivery of the Financing Agreement. That the form and substance of the Financing Agreement are hereby approved, and that the authorized representatives of the Department named in this Resolution each are authorized hereby to execute the Financing Agreement and deliver the Financing Agreement to the Borrower and the Trustee.

Section 1.5--Approval, Execution and Delivery of the Regulatory Agreement. That the form and substance of the Regulatory Agreement are hereby approved, and that the authorized representatives of the Department named in this Resolution each are authorized hereby to execute, attest and affix the Department's seal to the Regulatory Agreement and deliver the Regulatory Agreement to the Borrower and the Trustee and to cause the Regulatory Agreement to be filed of record in the real property records of Williamson County, Texas.

Section 1.6--Approval, Execution and Delivery of the Purchase Contract. That the sale of the Bonds to the Underwriter and any other party to the Purchase Contract is hereby approved, that the form and substance of the Purchase Contract are hereby approved, and that the authorized representatives of the Department named in this Resolution each are hereby authorized to execute the Purchase Contract and to deliver the Purchase Contract to the Borrower, the Underwriter and any other party to the Purchase Contract, as appropriate.

Section 1.7--Acceptance of the Note and Security Instrument. That the form and substance of the Note and the Security Instrument are hereby accepted by the Department and that the authorized representatives of the Department named in this Resolution each are hereby authorized to endorse and deliver the Note to the order of the Trustee and Fannie Mae, as their interests may appear, without recourse.

Section 1.8--Approval, Execution and Delivery of the Assignment. That the form and substance of the Assignment are hereby approved; and that the authorized representatives of the Department named in this Resolution are each hereby authorized to execute, attest and affix the Department's seal to the Assignment and to deliver the Assignment to the Borrower, the Trustee and Fannie Mae.

Section 1.9--Approval, Execution, Use and Distribution of the Official Statement. That the form and substance of the Official Statement and its use and distribution by the Underwriter in accordance with the terms, conditions and limitations contained therein are hereby approved, ratified, confirmed and authorized; that the Chair and Vice Chairman of the Board and the Executive Director or the Acting Executive Director of the Department are hereby severally authorized to deem the Official Statement "final" for purposes of the Rule; that the authorized representatives of the Department named in this Resolution each are authorized hereby to make or approve such changes in the Official Statement as may be required to provide a final Official Statement for the Bonds; that the authorized representatives of the Department named in this Resolution each are authorized hereby to accept the Official Statement, as required; and that the distribution and circulation of the Official Statement by the Underwriter hereby is authorized and approved, subject to the terms, conditions and limitations contained therein, and further subject to such amendments or additions thereto as may be required by the Purchase Contract and as may be approved by the Executive Director or the Acting Executive Director of the Department and the Department's counsel.

Section 1.10--Approval, Execution and Delivery of the Asset Oversight Agreement. That the form and substance of the Asset Oversight Agreement are hereby approved, and that the authorized representatives of the Department named in this Resolution each are authorized hereby to execute and deliver the Asset Oversight Agreement to the Borrower.

Section 1.11--Taking of Any Action; Execution and Delivery of Other Documents. That the authorized representatives of the Department named in this Resolution each are authorized hereby to take any actions and to execute, attest and affix the Department's seal to, and to deliver to the appropriate parties, all such other agreements, commitments, assignments, bonds, certificates, contracts, documents, instruments, releases, financing statements, letters of instruction, notices of acceptance, written requests and other papers, whether or not mentioned herein, as they or any of them consider to be necessary or convenient to carry out or assist in carrying out the purposes of this Resolution.

Section 1.12--Exhibits Incorporated Herein. That all of the terms and provisions of each of the documents listed below as an exhibit shall be and are hereby incorporated into and made a part of this Resolution for all purposes:

Exhibit B - Indenture
Exhibit C - Financing Agreement
Exhibit D - Regulatory Agreement
Exhibit E - Purchase Contract
Exhibit F - Security Instrument
Exhibit G - Note
Exhibit H - Assignment
Exhibit I - Preliminary Official Statement
Exhibit J - Asset Oversight Agreement

Section 1.13--Power to Revise Form of Documents. That notwithstanding any other provision of this Resolution, the authorized representatives of the Department named in this Resolution each are authorized hereby to make or approve such revisions in the form of the documents attached hereto as exhibits as, in the judgment of such authorized representative or authorized representatives, and in the opinion of Vinson & Elkins L.L.P., Bond Counsel to the Department, may be necessary or convenient to carry out or assist in carrying out the purposes of this Resolution, such approval to be evidenced by the execution of such documents by the authorized representatives of the Department named in this Resolution.

Section 1.14--Authorized Representatives. That the following persons are each hereby named as authorized representatives of the Department for purposes of executing, attesting, affixing the Department's seal to, and delivering the documents and instruments and taking the other actions referred to in this Article I: Chair and Vice Chairman of the Board, Executive Director or Acting Executive Director of the Department, Deputy Executive Director of Housing Operations of the Department, Deputy Executive Director of Programs of the Department, Chief of Agency Administration of the Department, Director of Financial Administration of the Department, Director of Bond Finance of the Department, Director of Multifamily Finance Production of the Department and the Secretary to the Board.

Section 1.15--Conditions Precedent. That the issuance of the Bonds shall be further subject to, among other things: (a) the Development's meeting all underwriting criteria of the Department, to the satisfaction of the Executive Director or Acting Executive Director of the Department; and (b) the execution by the Borrower and the Department of contractual arrangements satisfactory to the Department staff requiring that community service programs will be provided at the Development.

ARTICLE II

APPROVAL AND RATIFICATION OF CERTAIN ACTIONS

Section 2.1--Agreement to Redeem Prior Bonds. That notwithstanding the terms and provisions of Section 4.03 of the Prior Indenture and the optional redemption provisions of the Prior Bonds, and by mutual agreement of the Board, the Prior Bondholders, and the Prior Trustee, the Board consents to redemption prior to maturity of the Prior Bonds in whole on any date upon an optional prepayment of the Prior Loan by the Borrower, at redemption prices equal to the principal amounts thereof, plus accrued interest thereon to the date fixed for redemption.

Section 2.2--Waiver of Notices Related to Prior Bonds. That the Board waives all notices under any document, agreement or instrument executed in connection with the issuance of the Prior Bonds, or otherwise required or permitted to redeem the Prior Bonds and to discharge the Prior Indenture.

Section 2.3--Acknowledgment of Actions Related to Prior Bonds. That the Board acknowledges receipt on or before the date of redemption of the Prior Bonds of a Consent and Waiver of Bondholder from each of the Prior Bondholders, (i) consenting to the optional redemption of the Prior Bonds on any date upon prepayment of the Prior Loan by the Borrower; (ii) waiving the provisions of the Prior Indenture and the Prior Bonds which prohibit optional redemption of the Prior Tax-Exempt Bonds prior to December 1, 2017 and prohibit optional redemption of the Prior Bonds on any date other than on interest payment date; (iii) waiving the notice requirements of the Prior Indenture and the provisions of the Loan Agreement dated as of December 1, 2000 (the "Prior Loan Agreement") by and among the Department, the Borrower and the Prior Trustee regarding notice of redemption, delivery of certain other notices and certifications and other conditions to the optional prepayment of the Prior Loan; and (iv) consenting to, authorizing and directing the taking of any actions on the part of the Department or the Prior Trustee in connection with the optional redemption of the Prior Bonds which are not inconsistent with this section.

Section 2.4--Approval and Ratification of Application to Texas Bond Review Board. That the Board hereby ratifies and approves the submission of the application for approval of state bonds to the Texas Bond Review Board on behalf of the Department in connection with the issuance of the Bonds in accordance with Chapter 1231, Texas Government Code.

Section 2.5--Approval of Submission to the Attorney General of the State. That the Board hereby authorizes, and approves the submission by the Department's Bond Counsel to the Attorney General of the State, for his approval, of a transcript of legal proceedings relating to the issuance, sale and delivery of the Bonds.

Section 2.6--Engagement of Other Professionals. That the Executive Director or Acting Executive Director of the Department or any successor is authorized to engage auditors, analysts and consultants to perform such functions, audits, yield calculations and subsequent investigations as necessary or appropriate to comply with the requirements of Bond Counsel to the Department, provided such engagement is done in accordance with the applicable laws of the State.

Section 2.7--Certification of the Minutes and Records. That the Secretary to the Board hereby is authorized to certify and authenticate minutes and other records on behalf of the Department for the Bonds and all other Department activities.

Section 2.8--Approval of Requests for Rating from Rating Agency. That the action of the Executive Director or Acting Executive Director of the Department or any successor and the Department's consultants in seeking a rating from Moody's Investors Service, Inc. and/or Standard & Poor's Ratings Services, a Division of The McGraw-Hill Companies, Inc., is approved, ratified and confirmed hereby.

Section 2.9--Authority to Invest Proceeds. That the Department is authorized to invest and reinvest the proceeds of the Bonds and the fees and revenues to be received in connection with the refinancing of the Development in accordance with the Indenture and to enter into any agreements relating thereto only to the extent permitted by the Indenture.

Section 2.10--Underwriter. That the underwriter with respect to the issuance of the Bonds shall be Stern Brothers & Co.

Section 2.11--Approving Initial Rents. That the initial maximum rent charged by the Borrower for the units of the Development shall not exceed the amounts attached as an exhibit to the Regulatory Agreement and shall be annually redetermined by the Borrower and reviewed by the Department as set forth in the Financing Agreement.

Section 2.12--Ratifying Other Actions. That all other actions taken by the Executive Director or the Acting Executive Director of the Department and the Department staff in connection with the issuance of the Bonds and the refinancing of the Development are hereby ratified and confirmed.

ARTICLE III

CERTAIN FINDINGS AND DETERMINATIONS

Section 3.1--Findings of the Board. That in accordance with Section 2306.223 of the Act and after the Department's consideration of the information with respect to the Development and the information with respect to the proposed refinancing of the Development by the Department, including but not limited to the information submitted by the Borrower, independent studies commissioned by the Department, recommendations of the Department staff and such other information as it deems relevant, the Board hereby finds:

(a) Need for Housing Development.

(i) that the Development is necessary to provide needed decent, safe, and sanitary housing at rentals or prices that individuals or families of low and very low income or families of moderate income can afford,

(ii) that the refinancing of the Development is a public purpose and will provide a public benefit, and

(iii) that the Development will be undertaken within the authority granted by the Act to the housing finance division and the Borrower.

(b) Findings with Respect to the Borrower.

(i) that the Borrower, by operating the Development in accordance with the requirements of the Financing Agreement and the Regulatory Agreement, will comply with applicable local building requirements and will supply well-planned and well-designed housing for individuals or families of low and very low income or families of moderate income,

(ii) that the Borrower is financially responsible and has entered into a binding commitment to repay the Loan in accordance with its terms, and

(iii) that the Borrower is not, and will not enter into a contract for the Development with, a housing developer that: (A) is on the Department's debarred list, including any parts of that list that are derived from the debarred list of the United States Department of Housing and Urban Development; (B) breached a contract with a public agency; or (C) misrepresented to a subcontractor the extent to which the developer has benefited from contracts or financial assistance that has been awarded by a public agency, including the scope of the developer's participation in contracts with the agency and the amount of financial assistance awarded to the developer by the Department.

(c) Public Purpose and Benefits.

(i) that the Borrower has agreed to operate the Development in accordance with the Financing Agreement and the Regulatory Agreement, which require, among other things, that the Development be occupied by individuals and families of low and very low income and families of moderate income, and

(ii) that the issuance of the Bonds to refinance the Development is undertaken within the authority conferred by the Act and will accomplish a valid public purpose and will provide a public benefit by assisting individuals and families of low and very low income and families of moderate income in the State to obtain decent, safe, and sanitary housing by refinancing the costs of the Development, thereby helping to maintain a fully adequate supply of sanitary and safe dwelling accommodations at rents that such individuals and families can afford.

Section 3.2--Determination of Eligible Tenants. That the Board has determined, to the extent permitted by law and after consideration of such evidence and factors as it deems relevant, the findings of the staff of the Department, the laws applicable to the Department and the provisions of the Act, that eligible tenants for the Development shall be (1) individuals and families of low and very low income, (2) persons with special needs, and (3) families of moderate income, with the income limits as set forth in the Financing Agreement and the Regulatory Agreement.

Section 3.3--Sufficiency of Loan Interest Rate. That the Board hereby finds and determines that the interest rate on the Loan established pursuant to the Financing Agreement will produce the amounts required, together with other available funds, to pay for the Department's costs of operation with respect to the Bonds and the Development and enable the Department to meet its covenants with and responsibilities to the holders of the Bonds.

Section 3.4--No Gain Allowed. That, in accordance with Section 2306.498 of the Act, no member of the Board or employee of the Department may purchase any Bond in the secondary open market for municipal securities.

Section 3.5--Waiver of Rules. That the Board hereby waives the rules contained in Chapters 33 and 35, Title 10 of the Texas Administrative Code to the extent such rules are inconsistent with the terms of this Resolution and the bond documents authorized hereunder.

ARTICLE IV

GENERAL PROVISIONS

Section 4.1--Limited Obligations. That the Bonds and the interest thereon shall be limited obligations of the Department payable solely from the trust estate created under the Indenture, including the revenues and funds of the Department pledged under the Indenture to secure payment of the Bonds, and under no circumstances shall the Bonds be payable from any other revenues, funds, assets or income of the Department.

Section 4.2--Non-Governmental Obligations. That the Bonds shall not be and do not create or constitute in any way an obligation, a debt or a liability of the State or create or constitute a pledge, giving or lending of the faith or credit or taxing power of the State. Each Bond shall contain on its face a statement to the effect that the State is not obligated to pay the principal thereof or interest thereon and that neither the faith or credit nor the taxing power of the State is pledged, given or loaned to such payment.

Section 4.3--Effective Date. That this Resolution shall be in full force and effect from and upon its adoption.

Section 4.4--Notice of Meeting. Written notice of the date, hour and place of the meeting of the Board at which this Resolution was considered and of the subject of this Resolution was furnished to the Secretary of State and posted on the Internet for at least seven (7) days preceding the convening of such meeting; that during regular office hours a computer terminal located in a place convenient to the public in the office of the Secretary of State was provided such that the general public could view such posting; that such meeting was open to the public as required by law at all times during which this Resolution and the subject matter hereof was discussed, considered and formally acted upon, all as required by the Open Meetings Act, Chapter 551, Texas Government Code, as amended; and that written notice of the date, hour and place of the meeting of the Board and of the subject of this Resolution was published in the Texas Register at least seven (7) days preceding the convening of such meeting, as required by the Administrative Procedure and Texas Register Act, Chapters 2001 and 2002, Texas Government Code, as amended. Additionally, all of the materials in the possession of the Department relevant to the subject of this Resolution were sent to interested persons and organizations, posted on the Department's website, made available in hard-copy at the Department, and filed with the Secretary of State for publication by reference in the Texas Register not later than seven (7) days before the meeting of the Board as required by Section 2306.032, Texas Government Code, as amended.

EXHIBIT A

DESCRIPTION OF DEVELOPMENT

Borrower: South Creek Housing, Ltd., a Texas limited partnership

Development: The Development is a 168-unit multifamily facility known as Red Hills Villas and located at 1401 South A. W. Grimes Boulevard, Round Rock, Williamson County, Texas. It consists of 6 three-story residential apartment buildings with 148,233 net rentable square feet. The unit mix consists of:

36	one-bedroom/one-bath units
62	two-bedroom/one-bath units
24	two-bedroom/two-bath units
46	three-bedroom/two-bath units
168	Total Units

Unit sizes range from approximately 771 square feet to approximately 1,240 square feet.

Common areas include a picnic area, community room with kitchen facilities, laundry facilities, recreation room, utility room, children's play area, and pool with decking. All ground units are wheelchair accessible and all individual units have washer/dryer connections.

Estimated Sources & Uses of Funds

Sources of Funds	
Series 2006 Tax-Exempt Bond Proceeds	$ 5,105,000
Reserves/Escrows Held in Trust	1,176,969
Other sources-GP Equity	4,658,994
Total Sources	$ 10,940,962

Uses of Funds	
Original Bond Issuance - Series 2000	$ 10,151,285
Direct Bond Related	230,731
Bond Purchaser Costs	166,600
Other Transaction Costs	184,147
Real Estate Closing Costs	208,199
Total Uses	$ 10,940,962

Estimated Costs of Issuance of the Bonds

Direct Bond Related	
TDHCA Issuance Fee (0.50% of Issuance)	$ 25,525
TDHCA Application Fee	12,500
TDHCA Bond Administration Fee (2 years)	10,210
TDHCA Bond Compliance Fee ($40 per unit)	6,720
TDHCA Bond Counsel and Direct Expenses (Note 1)	65,000
TDHCA Financial Advisor and Direct Expenses	25,000
Disclosure Counsel ($5k Pub. Offered, $2.5k Priv. Placed. See Note 1)	5,000

RECOMMENDATION

☒ RECOMMEND APPROVAL OF ISSUANCE OF $5,015,000 IN TAX-EXEMPT MORTGAGE REVENUE BONDS WITH A VARIABLE INTEREST RATE UNDERWRITTEN AT 5.26% AND REPAYMENT TERM OF 30 YEARS WITH A 30-YEAR AMORTIZATION PERIOD, SUBJECT TO CONDITIONS.

---

[1] The Applicant has received a new application number for the subject proposed bond transaction. However, application number 00044T will still be the applicable application number for the 2000 4% tax credit allocation.

CONDITIONS

1. Review, receipt, and acceptance of documentation of the terms of the General Partner's contribution to-date and confirmation that the terms will have no affect on the development's debt service or DCR.
2. Receipt, review and acceptance of a new commitment indicating an initial strike cap rate of 4.13% and 1.13% fee stack with a statement regarding a maximum cap rate after year 17.
3. Review, receipt, and acceptance of a commitment documenting the terms for the anticipated loan from the General Partner.

BOND REFUNDING ANALYSIS

The Applicant originally received $9,900,000 in tax exempt bonds and $400,000 in taxable bonds issued by the TDHCA and a tax credit allocation in 2000 under application number 00044T. The bonds were privately placed with CharterMac Municipal Mortgage for a term of forty years at a fixed interest rate of 7.4% on the tax exempt bonds and 9.5% on the taxable bonds.

The development has been unable to generate sufficient cashflow for the existing debt service and is requesting approval from the Department to refund the existing fixed rate, private placement structure with a variable rate, publicly offered structure in the amount of $5,015,000. The following analysis is the 3rd addendum to the underwriting report for Red Hills Villas (#00044T). However, the analysis will not include a recommendation or amendment to the tax credit allocation of $435,964. Because the subject development has already undergone all construction associated with the original recommendation and has been cost certified by the Department, the construction and development costs of the subject development are not reevaluated. The purpose of this analysis is to determine whether the refunding of bonds and additional proposed financing, per the Applicant's request, will result in a substantial improvement to cashflow and result in a more financially feasible position. In addition, the Underwriter will determine if the proposed financing structure is sufficient to cover the proposed uses of funds.

Of note, the organization structure has changed since the 2nd Addendum and no longer includes Ike Monty, John Paul or entities related to these individuals.

OPERATING PROFORMA ANALYSIS

Income: The Applicant's potential rents were calculated by subtracting tenant paid utility allowances from the 2006 program gross rent limits. No estimate of secondary income was included. The Applicant's vacancy and collection loss was estimated at 24.50% of potential gross income. This estimate includes an economic loss in addition to the typically accounted for vacancy and collection loss. The Underwriter assumes that this is due to the development's historical inability to achieve the maximum 60% net program rents. Lastly, the Applicant estimated rental concessions at $35,256.

The Underwriter's projected rents collected per unit were determined by calculating the estimated average net rent collected per unit based on the Portfolio Management and Compliance Division's Unit Status Report dated August 8, 2006 for the subject development. Therefore, the estimated economic loss due to the anticipated inability to achieve the maximum allowable rents is built into the estimate. The Underwriter estimates secondary income at the Department's standard maximum of $15 per unit per month. The 2005 Applicant submitted income statement for the subject development indicated secondary income significantly above the Department's standard maximum. The Underwriter estimated vacancy and collection loss equal to the Department's standard of 7.50% of potential gross income. Due to the Underwriter's inclusion of the anticipated economic loss into the potential gross rent estimate, the Applicant's estimate of vacancy and collection loss is significantly different from the Underwriter's. Additionally, the Underwriter estimated rental concessions based on the 2005 financial statement submitted by the Applicant. The inclusion of substantial rental concessions in an underwriting report is not typical; however, the Underwriter's estimate is justified by the development's 2004 and 2005 financial statements submitted with the application.

As a result of the differences noted above, the Applicant's estimate of effective gross income is 2% or 26K higher than the Underwriter's estimate, but is still within the Department's standard tolerance of 5%.

Expenses: The Applicant's total annual operating expense projection at $4,320 per unit is within 5% of the

Underwriter's estimate of $4,236, derived from actual operating history of the development as indicated in the 2004 and 2005 financial statements and the 2005 owner's financial certification for the subject development. However, the Applicant's estimate of payroll and payroll tax is 10% or $20K higher than the Underwriter's estimate and water, sewer, and trash is 36% or 5K lower. The Applicant significantly understated TDHCA compliance fees by indicating no expense for this item.

Conclusion: The Applicant's estimates of effective gross income, operating expenses and net operating income are each within 5% of the Underwriter's; therefore, the Applicant's Year One proforma will be used to determine the development's debt capacity and debt coverage ratio (DCR). The Underwriter's proforma results in a Year One DCR above the Department's current minimum guideline of 1.10. While the DCR exceeds the Department's typical maximum, due to the nature of the transaction and the absence of a request for an additional tax credit allocation, the maximum DCR does not apply.

Long-Term Feasibility: The underwriting 30-year proforma utilizes a 3% annual growth factor for income and a 4% annual growth factor for expenses in accordance with current TDHCA guidelines. As noted above, the Underwriter's base year effective gross income, expense and net operating income were utilized resulting in a debt coverage ratio that remains above 1.10 and continued positive cashflow. Therefore, the development can be characterized as feasible for the long-term.

USES OF FUNDS

Due to the unique characteristics of the subject request, the Underwriter has included an analysis of the proposed use of funds. This section essentially replaces the construction cost schedule that is typically analyzed for tax credit/bond transactions. The uses of funds constitutes all debt and equity that is currently held by the partnership plus the anticipated debt and equity that will result from the proposed bond refunding transaction. Of note, the debt and equity currently held by the partnership will past through as a source of funds.

Outstanding Bonds: The Applicant has indicated that the purpose of the bond refunding is to repay the outstanding balance of the original Series 2000a and 2000b bonds that were issued through the TDHCA in December 2000. The Applicant's uses of funds indicates the full original bond amounts of $9,900,000 and $251,285 respectively. However, a portion of the original amount has been repaid. Per a signed letter from CharterMac, the remaining balance of the Series 2000a bonds is $9,900,000 and the balance of the Series 2000b bonds is $238,657. Therefore, the Underwriter's uses of funds reflects the amounts indicated in the lender's letter. In addition, the subordinate loan from the GP in the recommended financing structure has been adjusted downward by the difference between the Underwriter's estimated remaining balance and the Applicant's.

Other Uses of Funds: Due to the anticipated financing structure, the Underwriter has assumed that the additional costs associated with the bond transaction and real estate closing claimed by the Applicant are reasonable.

Limited Partner Equity: The Applicant has indicated that the equity contribution to date from the Limited Partner is $2,158,000.

General Partner Funded Deficits: Due to the inability to generate sufficient development cashflow, the GP contributed funds in order to cover any gap between the actual income and expenses and debt service. According to the Applicant, this amounts to $3,102,613 to date. It is unclear, based on the information provided by the Applicant, whether this contribution is in the form of a loan to be repaid over the course of operation or if this amount is forgiven. This is discussed more below, in the financing structure analysis.

Unpaid Developer Fees: The Applicant has indicated unpaid developer fees amounting to $1,556,870. This amounts to 100% of the developer fees included in the Applicant's construction cost schedule used in the 2nd Addendum to the original underwriting report.

Conclusions: Due to the unique characteristics of the proposed transaction, the Applicant's use of funds schedule, adjusted for the difference in the outstanding bond balance, will be used to determine whether the Applicant's sources of funds is sufficient.

FINANCING STRUCTURE ANALYSIS

Permanent Bond Refunding: The Applicant anticipates receiving $5,015,000 in tax exempt mortgage revenue bonds through TDHCA which will be privately placed with CharterMac Mortgage Capital. There are a number of unresolved inconsistencies and unclear terms in the lender's commitment. First, the initial cap rate is stated as 4.23% in one place and 4.33% in another. The Applicant stated that they bought a more favorable cap rate of 4.13 after the submitted commitment, but that 4.23% is the maximum and 4.33% was a typo. Second, the lender's commitment indicates an underwriting rate of 5.67%. This is higher than the 4.23% plus 1.13% fee stack, that is identified in the commitment to contain all additional debt serviceable items. It is unclear to the Underwriter why the financing would be underwritten at a rate higher than the actual interest rate on the debt. Third, it is unclear, based on the terms, what cap rate, if any, will be in place after year 17. Due to these inconsistencies, receipt, review and acceptance of a new commitment or documentation clarifying the initial strike cap rate and all in underwriting rate with a statement regarding a maximum cap rate after year 17 is a condition of this report. Due to the lack of clarity in the commitment, the Underwriter's recommended financing structure has utilized an interest rate of 5.26% (4.13%+1.13%) to determine the annual debt service on the requested bonds. Also of note, CharterMac's commitment reflects a minimum DCR of 1.20, which the proposed structure appears to meet.

Permanent Financing: During correspondence with the Underwriter, the Applicant indicated that the partnership anticipates a subordinate loan from the General Partner. In order to fund a large portion of gap in funds. The Applicant expects that this funding will be repayable from available cashflow, amortized over 365 months, and accruing interest at AFR with a balloon of any unpaid principal and interest at maturity. However, the Applicant did not supply staff with a commitment indicating the anticipated terms. Therefore, review, receipt, and acceptance of a commitment documenting the terms for the anticipated loan from the General Partner is a condition of this report. The capacity of the development to satisfy this debt is questionable as the outstanding balance at maturity could exceed the property value at that time. Nonetheless, the introduction of the proposed structure places the property in a more favorable position than the current structure, which is no longer tenable. Additionally, any savings accrued due to a variable interest rate lower than the cap rate may also be used to repay deferred developer fee or anticipated subordinate debt.

Limited Partner Equity: The Applicant has indicated $2,158,000 in Limited Partner equity to-date. This consists of the proceeds from the syndication of the original tax credits that were allocated during the 2000 4% HTC round.

Other Sources: The Applicant has indicated $1,176,969 in Reserves/Escrows Held in Trust the remaining portion of the gap in funds less any unpaid developer fees. In addition, the Applicant has indicated that the General Partner has contributed $2,277,209 in order to fund deficits due to the inability of the development to generate sufficient cashflow to cover expenses and debt service. It is unclear whether this contribution is in the form of a loan to the partnership that must be repaid or if the contribution is forgiven. The Underwriter has assumed that the terms of this contribution will not affect the development's debt service or DCR. However, review, receipt, and acceptance of documentation of the terms of the General Partner's contribution to-date and confirmation that the terms will have no affect on the development's debt service or DCR is a condition of this report.

Deferred Developer Fees: Due to the General Partner's significant anticipated subordinate loan, 100% of the $1,556,870 in unpaid developer fees will pass through as deferred developer fee. According to the Applicant's 30-year proforma, deferred developer fees in this amount should be repayable within 5 years of stabilized operation.

Financing Conclusions: Based on the information provided in the application and through subsequent correspondence, the Underwriter has determined that the Applicant's request for bonds in the amount of $5,015,000 plus the additional anticipated sources of funds will decrease the subject development's debt service sufficient to result in a DCR above 1.10 for 30 years and will provide sufficient funds to repay the remaining balance on the existing Series 2000a and Series 2000b bonds allocated to the Applicant in December 2000 and other anticipated costs. However, due it the absence of terms for the anticipated subordinate debt and based on the Applicant's proforma, the likely term of repayment for any subordinate debt anticipated is very unclear. Despite the uncertainty described above, based on this analysis, the proposed refunding of bonds will yield a significant improvement over the current operational and financial state of the subject development. Therefore, the Department recommends the Applicant's request for bonds of $5,015,000, subject to the conditions stated above.

SUMMARY OF SALIENT RISKS AND ISSUES

- Significant inconsistencies in the application could affect the financial feasibility of the development.
- The development could potentially achieve an excessive profit level (i.e., a DCR above 1.30) if the maximum tax credit rents can be achieved in this market.
- The recommended amount of deferred developer fee cannot be repaid within ten years, and any amount unpaid past ten years would be removed from eligible basis.
- An increase in the variable interest rate on the permanent debt could adversely affect the development's DCR and cash flow.

Underwriter:	Cameron Dorsey	**Date:**	August 23, 2006
Director of Real Estate Analysis:	Tom Gouris	**Date:**	August 23, 2006

❷ Tax-exempt mortgage revenue bonds
❸ Taxable mortgage revenue bonds

Proposed Use of Funds: New construction

ADDENDUM

The Applicant originally requested a 4% LIHTC allocation of $477,410; the original underwriting report recommended a credit allocation of only $372,957 but was amended prior to the Board meeting to a recommended allocation of $433,051, conditioned upon the following:

1. Receipt, review, and acceptance of a previous participation certificate for Hemma, Ltd.;
2. Receipt, review, and acceptance of substantiation that the City of Round Rock will construct the "Arterial B" access road at no cost to the Applicant;
3. Receipt, review, and acceptance of a third party detailed sitework cost estimate certified by an architect or engineer familiar with the sitework costs of this proposed project;
4. An LIHTC allocation not to exceed $433,051 annually for ten years.
5. The project's first year of total debt service should remain in the range of $739,156 to $839,951 unless the final permanent bond size is reduced through mandatory redemption. It is likely that all or a portion of the TDHCA fees may need to be deferred or waived in the first two years.

The original award of $433,051 was restricted due to the gap of funds method and a significant difference in the direct construction costs estimate. At cost certification, the Applicant has now requested an increase of the LIHTC allocation by $2,913 annually for a total of $435,964. The development's final costs, certified by Novogradac & Company, LLC, were provided as part of the Applicant's cost certification package, and indicate an eligible basis of $12,315,373. TDHCA's estimate of eligible basis at allocation was $11,824,160, a difference of $491,213. Although the additional credits would provide approximately $24,178 in additional equity (per Section 3.4.B.(i) of the limited partnership agreement), the total equity provided of $3,618,178 would be less than TDHCA's original estimate of $3,625,870 made at the time of allocation, based on the estimated eligible basis of the development. Although the final credit price of $0.83 is higher than the underwritten price of $0.82, changes in the applicable percentage from 3.74% estimated at the time of allocation to 3.54% at cost certification is the reason behind this decrease in equity.

The total final project costs of $14,994,877 are higher than TDHCA's projected costs of $13,850,665 by $1,144,212, and are relatively consistent with the Applicant's total cost estimate at the time of application ($14,725,514). As the transaction currently stands, the resulting gap between sources of funds and project costs will be covered by the developer deferring payment of $1,100,877 (or 71%) of the $1,556,870 in developer fees. Considering the increase in project costs and the decrease in the sources of funds, the "gap of funds" method for determining the tax credit amount is no longer applicable, and the Applicant's request for additional tax credits based on the final determination of eligible basis would seem warranted.

In justifying the increase in eligible basis, the Applicant contends that additional sitework required for preparing the paving and drainage associated with the entrance was unforeseen, and cites other increased costs due to additional retaining walls, carports, upgrades to the swimming pool and the iron fencing, the use of concrete instead of asphalt paving, and other drainage work. Although receipt of a detailed sitework cost estimate was a condition to the original underwriting report, it appears that such was never received. A review of the survey and a visit to the site by staff, however, do not indicate any obvious cause to doubt the information provided by the developer regarding increased sitework costs.

Although the Applicant's final sitework costs of $9,259 per unit are a significant increase from TDHCA's estimate of $6,500 per unit at allocation, direct construction costs decreased from $39,545 per unit to $36,690 per unit, resulting in a slight decrease of $15,518 in total sitework and direct construction costs together ($92 per unit). Although the unit mix proposed at application remains the same, the floor area of the units and the total number of buildings has changed. The Underwriter, therefore, performed a revised direct construction cost analysis. Partially due to a reduction in the local cost multiplier, the Underwriter's direct cost estimate also decreased, and the final conclusion confirmed the appropriateness of the Applicant's final direct construction costs. Corresponding to the overall decrease in sitework and direct costs together, the eligible portions of the contractor's general requirements, overhead, and profit were all reduced. The excess portion of the allowance for construction contingencies which was not necessary during construction, appears to have been added to the contractor's profit, but as an ineligible cost.

While the Applicant also cites an increase in costs related to the unexpected acquisition of a small piece of land negotiated with the city to develop access to the site, the ineligible cost to acquire the land would not have had any bearing on the adjustment of tax credits. Final indirect construction costs of $842,410 were only slightly lower compared to the estimate of $866,108 at the time of the award.

The main factor, then, contributing to the increase in eligible basis is the interim construction loan costs, which increased overall by $466,555 over the Department's original estimates. This is largely attributable to an increase in construction loan fees from $97,815 to $206,000, and to new line items of "236A Interest" in the amount of $317,781, inspection fees in the amount of $10,325, and performance bond fees in the amount of $63,254. Although construction loan interest costs increased from $741,761 to $1,242,413, the eligible portion decreased from $741,761 to $546,015.

The recommendations of this addendum are based upon the assumption that the first four conditions listed above have either been met or are no longer relevant. Both the Underwriter's and the Applicant's proformas indicate a bonds-only debt coverage ratio above the Department's minimum guideline of 1.10. However, it is likely that all or a portion of the TDHCA fees may need to be deferred or waived. Therefore, only the first part of condition #5 has been satisfied.

SUMMARY OF SALIENT RISKS AND ISSUES

- Items identified in previous reports or analyses have not been satisfactorily addressed.
- The Applicant's estimated operating expenses and operating proforma are more than 5% outside of the Underwriter's verifiable ranges.

RECOMMENDATION

☒ RECOMMEND APPROVAL OF AN LIHTC ALLOCATION NOT TO EXCEED A TOTAL OF $435,964 ANNUALLY FOR TEN YEARS, SUBJECT TO CONDITIONS.

- It is likely that all or a portion of the TDHCA fees may need to be deferred or waived.

Proposed Use of Funds: New construction

ADDENDUM

Subsequent to the completion of the original underwriting report, Mr. Robert Kelly of the Hunt Building

Corporation provided a letter with a number of revised construction costs and specifications on November 7, 2000 and a revised cost breakdown on November 8. These additional costs are primarily a result of negotiations the developer has had with the neighborhood groups to enhance the quality of the project. The Underwriter has used these documents to reevaluate the project's construction budget.

Sitework Cost: The Applicant has indicated in his November 7 letter that 7,000 cubic yards of fill will need to be imported to the site, but the cut/fill siteplan provided as substantiation indicates that 10,054 yards will be required. According to conversations with Mr. Kelly these costs are in addition to the previously estimated sitework cost. However, the November 8 revised cost breakdown does not include any additional site work costs. A third-party detailed sitework cost estimate certified by an architect or engineer familiar with the sitework costs of this proposed project is still required to substantiate the $7,000/unit cost.

Direct Construction Cost:

- The Applicant pointed out that the project's units will have nine-foot ceiling heights instead of the standard eight feet and this was verified in the most recent architectural drawings submitted. The Underwriter therefore increased the base cost by 4% to $39.45 in accordance with Marshall & Swift *Residential Cost Handbook* standards.
- The Applicant indicated that all buildings will have fire sprinkler systems installed, and estimated the cost in the letter at $223,000. The Underwriter used a Marshall & Swift cost factor of $1.55/SF to arrive at an estimated cost of $240,907. It should be noted that the Applicant's original cost estimate for fire protection was $149,679, which was later revised to $144,368 and most recently to $241,000 in the November 8 cost breakdown.
- The Applicant estimates that the 3,194 SF community building will cost $288,000 ($90.17/SF) to construct. This cost is 71% above the base Marshall & Swift cost of $52.76/SF. The Underwriter revised the TDHCA cost estimate to $64.32/SF to take into account the building's unusual two-story "tower" feature, but no other architectural features are apparent which would merit a further increase.
- The Applicant also provided new estimates for plumbing ($3,300/unit), HVAC ($2,100/unit), and electrical ($2,000/unit) costs, which are significantly less than the previous cost information. The net effect of these changes is to reduce the Applicant's hard costs by $501,984; however, in a November 7 telephone conversation Mr. Kelly indicated that this would not be the case and that these costs were incremental costs that he thought our analysis did not include. There were no changes to these line items in the November 8 cost breakdown. The Underwriter used the Applicant's most recent cost breakdown amounts in the attached comparative analysis.

Conclusion and Revised Allocation Recommendation: While the Underwriter's direct costs have risen by $415K and total costs have risen by $493K from the original report, the Applicant's latest direct construction and total development cost estimates have also risen by $252K and $296K respectively. Thus the Applicant's revised costs exceed the Underwriter's revised estimates by more than 5%. In addition, there remain large discrepancies and uncertainties involved with the Applicant's cost estimates. The Underwriter's more verifiable revised costs should, therefore, be used to calculate eligible basis and determine the LIHTC allocation. The recommended allocation of tax credits are based on gap analysis again, but is revised to $433,051 rather than the $442,224 potential eligible basis-driven credit amount.

Previous Experience of Mr. John Paul and Hemma, Ltd.: Although the previous participation certificate completed by Mr. Paul is incomplete, it indicates his participation as general partner or owner in four previous affordable housing projects totaling 572 units since 1995. No previous participation certificate has yet been received for the developer, HEMMA, Ltd., and this remains a condition of this report.

RECOMMENDATION

☒ RECOMMEND APPROVAL SUBJECT TO THE FOLLOWING CONDITIONS:

1. Receipt, review, and acceptance of a previous participation certificate for Hemma, Ltd.;
2. Receipt, review, and acceptance of substantiation that the City of Round Rock will construct the "Arterial B" access road at no cost to the Applicant;

3. Receipt, review, and acceptance of a third party detailed sitework cost estimate certified by an architect or engineer familiar with the sitework costs of this proposed project;
4. LIHTC allocation not to exceed $433,051 annually for ten years.
5. The project's first year of total debt service should remain in the range of $739,156 to $839,951 unless the final permanent bond size is reduced through mandatory redemption. It is likely that all or a portion of the TDHCA fees may need to be deferred or waived in the first two years.

REVIEW of PREVIOUS UNDERWRITING REPORTS

No previous reports.

PROPOSAL and DEVELOPMENT PLAN DESCRIPTION

[NOTE: The specifics of the subject project have been changed numerous times during the course of this analysis, especially in regard to project costs and financing structure. In addition, the project layout and unit mix have changed since the original application was received. The following analysis is based on the Applicant's latest information dated November 2, 2000.]

Description: Redhill Villas is a proposed new construction project of 168 units of affordable housing located in east Round Rock. The project consists of 36 1-BR/1-BA units, 60 2-BR/1-BA units, 24 2-BR/2-BA units, and 48 3-BR/2-BA units, in six three-story, walk-up-style buildings. The site plan shows three different building configurations consisting of the following: Building Type I has (12) each 1- and 2-BR units; Building Type II has (12) each 2- and 3-BR units; and Building Type III has (12) each 1-BR and 3-BR units and (24) 2-BR units. Based on the site plan the apartment buildings are distributed evenly throughout the site, with the community building and swimming pool located near the main entrance to the site. The community building is planned to have the management office, a large community room, recreation and media rooms, a coffee bar, restrooms, and laundry and central mail facilities.

Supportive Services: The Applicant intends to use Royal Community Services, Inc. to provide the following supportive services to tenants: after school programs, job training, parenting classes, and financial counseling. These services will be provided at no cost to tenants. No information was provided regarding requirements of or cost to the Applicant.

Schedule: The Applicant anticipates construction to begin in December of 2000, to be completed and placed in service in November of 2001, and to be substantially leased-up in February of 2002.

POPULATIONS TARGETED

Income Set-Aside: The Applicant has elected the 40% at 60% or less of area median gross income (AMGI) set-aside, although 100% of the units will be reserved for households earning 60% or less of AMGI.

Special Needs Set-Asides: Four units (2.4% of the total) will be handicapped-accessible.

Compliance Period Extension: The Applicant has not elected to extend the compliance period.

MARKET HIGHLIGHTS

A market feasibility study dated June 9, 2000 was prepared by Prior & Associates and highlighted the following findings:

Definition of Market/Submarket: "The project market area is the City of Round Rock." (p. iii)

Total Regional Market Demand for Rental Units: "Round Rock is the largest city in Williamson County and the second largest city in the Austin-San Marcos MSA...Employment in the Austin-San Marcos MSA has been rising 4.8% per year since 1990...Williamson County has absorbed 28% of the MSA's job growth since 1990...the market area population is increasing 8.5% per year. The market area is projected to gain 1,364 households per year through 2004." (p. iii-iv)

Total Local/Submarket Demand for Rental Units: "There is a great deal of growth occurring in the subject's market area, including residential and commercial development as well as household growth. The vacancy rate of the surveyed market area projects is less than 1%, and most projects have waiting lists. Therefore, the subject should be easily absorbed into the market." (p. 43)

Capture Rate: "The subject will need to capture 5.8% of the renter housing demand within its proposed price range." (p. vi)

Local Housing Authority Waiting List Information: "The subject is within the service area of the Round Rock Housing Authority, which has 61 Section 8 vouchers. The housing authority has allocated all of these vouchers. There are between 35 and 510 applicants on its waiting list...Section 8 recipients have difficulty finding rental units that meet HUD's Fair Market Rents (FMRs) and Housing Quality Standards. The sponsor's rents for the one- and two-bedroom units are over HUD's FMRs. Therefore, households with

Section 8 vouchers are not likely to live in the proposed units. However, Section 8 recipients are likely to live in the subject's three-bedroom units, which have rents below the FMRs." (p. 32)

Market Rent Comparables: The market analyst surveyed nine comparable apartment projects totaling 1,760 units in the market area. "The average monthly rent of surveyed projects was $654 for one-bedroom units, $664 for two-bedroom/one-bath units, and $936 for three-bedroom/two-bath units. These rates are higher than the subject for one- and three-bedroom units and higher than the average rents for two-bedroom units...The subject's location is superior to its major competitors. Its unit sizes and amenities are inferior, while its common amenities are comparable. When these differences are considered, the subject's proposed rents provide a good value to potential tenants." (p. 31)

RENT ANALYSIS (net tenant-paid rents)				
Unit	Program Max	Appraiser Market	Proposed Subject	Differential
1-BR	$608	$654	$608	-$46
2-BR/1-BA	$734	$664	$734	+$70
2-BR/2-BA	$734	$825	$734	-$91
3-BR	$853	$936	$853	-$83

Submarket Vacancy Rates: "Local property managers stated that vacancy levels in their projects have decreased in the past year. Most projects reported they are always at or near 100% occupancy. The vacancy rate in the surveyed market rate and LIHTC apartment projects is 0.5%. There were no vacancies in the LIHTC projects surveyed in the market area, while the market rate properties had a vacancy rate of 1.1%." (p. v)

Absorption Projections: "We expect that the project will fill 40 to 80 units per month and be fully occupied within two to four months, as has been the experience of other new apartment projects in the market area." (p. 43)

Known Planned Development: "There are four projects under construction in the market area [consisting of a 232-unit market rate project located 0.1 miles south, 256-unit and 1,400-unit market rate projects 2.5 miles southeast, and a 411-unit market rate project located two miles west]. In addition, there are two planned projects,...a 604-unit complex located...in the northern part of the market area [and a development of unstated size] located in the southern part of the market area...Both of the planned apartment communities are non-income-restricted developments that are not likely to compete with the subject for tenants." (p. 25)

Effect on Existing Housing Stock: "The subject is not likely to have a negative effect on the occupancy levels of area properties. Of the completed projects surveyed, all but one had a waiting list for units...The vacancy rate in the market area is 0.5% in the surveyed projects, and the two LIHTC projects built in 1999 that are completed have no vacancies. A third LIHTC project is nearly full." (p. 30)

Other Relevant Information: The market analyst stated the project's strength's include location in a growth corridor and one-half mile from the Dell Computer facility, and the lower-than-market average rents for the 1-BR and 3-BR units. The weaknesses listed were that the project's 2-BR and 3-BR units are smaller than the area average.

SITE and NEIGHBORHOOD CHARACTERISTICS

Location: Round Rock is located in central Texas, approximately ten miles north of Austin in Williamson County. The site is a trapezoidally-shaped parcel located in the southeastern area of the city, approximately one and one-half miles from the central business district. The site is situated on the west side of South Creek Drive.

Population: The estimated 1999 population of Round Rock was 65,561 and is expected to increase by 26% to approximately 82,300 by 2004.

Adjacent Land Uses: Land uses in the overall area in which the site is located are mixed with vacant land, single- and multifamily residential, and a city park. Adjacent land uses include:

- **North:** A city park and recreation center, with single-family residential beyond.
- **South:** New multifamily residential, with the Dell Computers Technological Center beyond.
- **East:** Single- and multifamily residential across South Creek Drive.
- **West:** Vacant land, with single- and multifamily residential and commercial properties.

Site Access: The project is to have two main entries from the north or south, the main one from a road to be built by the City of Round Rock along the western boundary of the project ("Arterial B") and a secondary one from South Creek Drive. Access to Interstate Highway 35 is 1.5 miles west, which provides connections to all other major roads serving the Round Rock and Austin areas.

Public Transportation: Public transportation is not available in Round Rock.

Shopping & Services: The site is within three miles of two major shopping centers and all other community amenities of Round Rock.

Site Inspection Findings: A TDHCA staff member performed a site inspection on September 21, 2000 and found the location to be acceptable for the proposed development but noted the following conditions: poor access, poor visibility from the main traffic artery in the area, and possible flooding from the adjacent drainage ditches. The inspector concluded that marginal conditions of access and visibility will be mitigated with the completion of the proposed street at the western boundary of the project. According to the ESA inspector, the property is not in a designated flood hazard area and has no major or minor surface water features other than a manmade drainage ditch on the western and northern sides of the property.

HIGHLIGHTS of SOILS & HAZARDOUS MATERIALS REPORT(S)

A Phase I Environmental Site Assessment report dated May 24, 2000 was prepared by Wareing & Associates, Inc. (WAI) and contained the following findings and recommendations:

Findings: "This assessment has revealed no evidence of recognized environmental conditions in connection with the property." (p. 4)

Recommendations: "...WAI does not recommend any further environmental investigations at the subject property at this time." (p. 4)

OPERATING PROFORMA ANALYSIS

Income: The Applicant's projected rents are the maximum rents allowable under LIHTC guidelines, but the Applicant's use of Austin's instead of Round Rock's utility allowances caused the 1-BR net rent to be \$4 in excess of program limits, as well as causing a total net understatement of potential gross rent of \$7.2K. The Applicant used a vacancy and collection loss factor of 5% instead of the TDHCA guideline of 7.5%, which the Underwriter concurs for the short term with based on the extraordinarily low current vacancy rates documented in the market study. The Applicant used a very high secondary income estimate of \$39/unit/month instead of the TDHCA guideline of \$10; as substantiation the Applicant provided a projected income statement from a revenue sharing agreement with a cable TV and Internet access provider which showed a distribution of income to the project of \$6.38/unit/month during the first year of stabilized operations. The Underwriter therefore used a secondary income estimate of \$16.38/unit.

Expenses: The Applicant's total expense estimate of \$3,350 per unit is within 2% of a TDHCA database-derived estimate of \$3,389 per unit for comparably-sized projects. The Applicant's budget shows several line item estimates that deviate significantly when compared to the database averages, however, particularly general and administrative (\$17K/38% lower), repairs and maintenance (\$45K/61% lower), utilities (\$17K/58% higher), water, sewer, and trash (\$9K/17% lower), and taxes (\$47K/42% higher). In addition, the Applicant understated compliance fees by \$3.3K, and overstated replacement reserves by \$8.4K by using a \$250/unit replacement reserve instead of the TDHCA guideline of \$200/unit. The Applicant did not include estimates for the supportive services contract or for asset oversight or trustee fees, and understated debt service by \$17K by using lower bond amounts.

Conclusion: Due primarily to the differences in secondary income and debt service, the Underwriter's estimated aggregate debt coverage ratio (DCR) of 1.05 and bonds-only DCR of 1.09 are slightly less than the program minimum standard of 1.10. This suggests that the Department may have to defer or waive fees for one or more years to allow the project to maintain an acceptable operating margin. These fees could be recaptured by the end of the third year. As the project's conventional financing has been finalized and the Underwriter's proforma indicates an aggregate DCR of 1.10 by the third year of operation (with steady improvement throughout the remainder of the 30-year period), the Applicant's income and expense estimates are acceptable. The project's total debt service should be within the range of $739,156 to $839,951. The bonds are subject to a mandatory redemption that should accomplish this requirement.

CONSTRUCTION COST ESTIMATE EVALUATION

Land Value: The site cost of $865,910 for the 8.496-acre main tract ($101,920/acre or $2.34/SF) is 187% of the 1999 tax assessed value of $462,825. No appraisal was provided. Subsequent to the original application the Applicant has negotiated an option to purchase, for $99,970, a small (0.9-acre) parcel at the southwest corner of the main tract which includes the land between the main tract and the to-be-built "Arterial B" public street. The main access road will be built on this parcel.

Off-Site Construction Costs: The Applicant claimed no off-site costs and states that the Arterial B road will be constructed by the City. Receipt of documentation of this arrangement from the City is a condition of this report.

Sitework Cost: The Applicant claimed sitework costs of $7K per unit without providing any specific justification regarding why these costs exceed the TDHCA acceptable range of sitework costs of $4.5K to $6.5K per unit. In the absence of any such substantiation, the Underwriter lowered the sitework costs to $6.5K per unit for the purpose of estimating the project's total construction budget. A third party detailed cost estimate certified by an architect or engineer familiar with the sitework costs of this proposed project is required as a condition of his report. Should such an estimate verify the need for such high sitework costs, a modification to the allocation of tax credits should be made.

Direct Construction Cost: The Applicant's direct construction cost estimate is $770K or 12% higher than the Underwriter's Marshall & Swift *Residential Cost Handbook*-derived estimate. Although the project has some higher than "average quality" construction features such as concrete tile roofing and a high proportion of masonry veneer, the Underwriter's estimate took these feature into account. The Applicant's high costs, in addition to the high site acquisition and sitework costs, result in total development costs of $92.90/SF, significantly in excess of the TDHCA maximum guideline of $71/SF. The Applicant's explanation of this variance is taken into account in the Underwriter's $85.95/SF estimate, therefore the Underwriter's direct construction cost estimate is used to establish eligible basis.

Ineligible Costs: The Applicant incorrectly included $12,000 in Texas Department of Aging fees as an eligible cost; the Underwriter moved this fee to ineligible costs, resulting in an equivalent reduction in the Applicant's eligible basis. In addition, the Applicant's eligible interim interest cost was reduced by the $285K of estimated interest income to be received during construction.

Fees: The Applicant's contractor's and developer's fees for general requirements, general and administrative expenses, and profit are set at the maximums allowed by TDHCA guidelines, but with the reduction in eligible basis now exceed the maximum by $121K.

Conclusion: Due to the overstatement of direct construction costs and developer's and contractor's fees, the Applicant's eligible basis is overstated by $1.2M compared to the Underwriter's estimate.

FINANCING STRUCTURE ANALYSIS

The Applicant intends to finance the development with five types of financing from three sources: an interim to permanent loan based on tax-exempt bond proceeds, syndicated LIHTC equity, deferred developer's fees, interest income from the construction escrow, and operating income during development.

Bonds: The bonds are tax-exempt and taxable private activity mortgage revenue bonds to be issued by TDHCA and placed privately with Related Capital Company. As of the date of the underwriting analysis, there will be $9,900,000 in tax-exempt bonds and $400,000 in taxable bonds, co-amortized to provide a level monthly debt service. The tax-exempt bonds will be amortized over 40 years at a fixed interest rate of 8.4% during the two-year construction period and 7.4% thereafter (interest-only payments on the bonds will be required during the construction period). The taxable bonds will be amortized based upon an accelerated schedule whereby principal payments will be applied to redeem the taxable bonds first after approximately 7.6 years. The Underwriter used a blended interest rate of 7.48% to determine the anticipated annual debt service amount.

LIHTC Syndication: Related Capital Company has offered terms for syndication of the tax credits. The commitment letter shows net proceeds are anticipated to be $3,914,370 based on a syndication factor of 82%. The funds would be disbursed in a four-phased pay-in schedule:

1. 30% upon admission to the partnership;
2. 30% upon completion of 50% of construction;
3. 20% upon completion of construction;
4. 20% upon the latest to occur of: final closing of the permanent loan, receipt of IRS Forms 8609, achievement of both 93% occupancy and a debt service ratio of 1.10, and attainment of breakeven operating status.

Deferred Developer's Fees: The Applicant's proposed deferred developer's fees of $248,129 amount to 19% of the total fees.

Conclusion & Award Recommendation: Since the Applicant's total development costs were approximately 8% more than the Underwriter's estimate, the Underwriter's development costs were used to determine eligible basis. The applicable percentage rate was adjusted in order to reflect the current TDHCA rate of 3.64% plus 10 basis points. This adjustment results in a recommended tax credit allocation of $424,311 per year. However, based on the gap analysis the recommended allocation of credits needed is only $372,957 per year. The Applicant most recently anticipated the need to defer $248,129 in developer fee, but based on the Underwriter's analysis it is anticipated there will not be a need to defer a portion of the developer fee. In the event that the Applicant's $1,081,681 higher costs come to fruition or mandatory redemption of a small portion of the bonds due to debt coverage shortages, there should be a sufficient amount of developer fee to defer.

REVIEW of ARCHITECTURAL DESIGN

Exterior Elevations: The exterior elevations are attractive, with pitched rooflines, mixed stucco and stone veneer wall finishes, and architectural elements such as shutters and arched breezeway entrances. All units are of average size for market rate and LIHTC units, and have covered patios or balconies with outdoor storage closets and utility closets with hookups for full-size appliances. The units are in three-story walk-up structures, and each unit has a semi-private exterior entry that off an interior breezeway that is shared with three other units.

Unit Floorplans:

1. Entry to the 1-BR/1-BA unit is directly into the living area, and the dining area is adjacent. The galley kitchen and utility area are off the dining area. The bathroom and bedroom are off a short hall beyond the living area, and the bedroom has a walk-in closet.
2. The 2-BR/1-BA unit is arranged very similarly to the 1-BR unit, with the second bedroom and utility room added off the interior hallway. The master bedroom has a walk-in closet and the second bathroom has a conventional closet.
3. Entry into the 2-BR/2-BA unit is through an entryway between the kitchen and utility areas, then into the combined dining and living area. A hallway off the dining area leads to the bedrooms and one bathroom. Both bedrooms feature walk-in closets, the master bedroom also has a second, conventional closet, and both bathrooms have linen closets or storage areas.
4. Entry into the 3-BR/2-BA unit is also past the kitchen into the combined living and dining areas. The bedrooms, one bathroom, and the utility closet are accessed via an L-shaped hallway off the dining space.The master bedroom has a walk-in closet and the other two bedrooms conventional closets.

IDENTITIES of INTEREST

The Managing General Partner, the Hunt Building Corporation, is also the General Contractor. Mr. John Paul owns both the Developer, Hemma, Ltd., and the 40% owner of the Applicant, JNP Properties, Inc. These appear to be acceptable relationships.

APPLICANT'S/PRINCIPALS' FINANCIAL HIGHLIGHTS, BACKGROUND, and EXPERIENCE

Financial Highlights:

- The Hunt Building Corporation, the 41% General Partner, submitted an audited financial statement as of December 31, 1999 reporting total assets of $327M and consisting of $20M in cash, $33M in investment securities, $30M in receivables, and $8M in other current assets. Liabilities totaled $162M, resulting in total stockholders' equity of $148M.
- The 40% General Partner, JNP Properties, Inc., submitted an unaudited financial statement as of July 2000 reporting total assets of $22.7M and consisting of $403K in cash and securities, $2.8M in notes receivable, $19.4M in real property, and $150K in personal property. Liabilities totaled $15.2M, resulting in a net worth of $7.5M.
- The 19% General Partner, Investment Builders, Inc., submitted an unaudited financial statement as of March 31, 2000 reporting total assets of $6.04M and consisting of $2.24M in cash and other current assets, $72K in net property and equipment, $3.4M in development fees receivable, and $313K in other assets. Liabilities totaled $5.4M, resulting in net equity of $621K.

Background & Experience:

- The Applicant is a new entity formed for the purpose of developing the project.
- Hunt Building Corporation, the Managing General Partner and General Contractor, has completed three previous LIHTC housing projects totaling 568 units since 1997, and also listed 112 projects totaling 11,134 units previously completed, under construction, or purchased since 1970. No disclosures or defaults were listed.
- Ike Monty, the owner of Investment Builders, the 19% General Partner, has completed or has under construction 23 affordable housing projects totaling 630 units since 1990. No disclosures or defaults were listed.
- No statement of experience was provided for the Developer, Hemma, Ltd., the 40% General Partner, JNP Properties, Inc., or their owner, John Paul. Receipt, review, and acceptance of same is a condition of this report. Mr. John Paul is known to have participated in several previous tax credit projects.

RECOMMENDATION

☒ RECOMMEND APPROVAL SUBJECT TO THE FOLLOWING CONDITIONS:

1. Receipt, review, and acceptance of previous participation certificates for Hemma, Ltd., JNP Properties, Inc., and John Paul;
2. Receipt, review, and acceptance of substantiation that the City of Round Rock will construct the "Arterial B" access road at no cost to the Applicant;
3. Receipt, review, and acceptance of a third party detailed sitework cost estimate certified by an architect or engineer familiar with the sitework costs of this proposed project;
4. LIHTC allocation not to exceed $372,957 annually for ten years.
5. The project's first year of total debt service should remain in the range of $739,156 to $839,951 unless the final permanent bond size is reduced through mandatory redemption. It is likely that all or a portion of the TDHCA fees may need to be deferred or waived in the first two years.

TEXAS DEPARTMENT OF HOUSING AND COMMUNITY AFFAIRS

MULTIFAMILY HOUSING REVENUE REFUNDING BONDS
(RED HILLS VILLAS) SERIES 2006

PUBLIC HEARING

Cafetorium
Gattis Elementary School
2920 Round Rock Ranch Blvd.
Round Rock, Texas

June 1, 2006
6:18 p.m.

BEFORE:

Shannon Roth

I N D E X

P R O C E E D I N G S

MS. ROTH: Okay. Let's go ahead and get started; I have about 6:18 on my watch. I'm Shannon Roth, and I'm with the Texas Department of Housing, and I wanted to give you the form of this evening's hearing.

First I'll do a presentation of the program the developer has applied for. Then we'll have Anna Ochoa, who's the representative for the developer, Hunt Building Corporation, come up or sit there and give a little presentation with some specifics on the development. Then I'm going to give the IRS speech. At the conclusion of the speech, we'll open the floor for public comment.

According to the IRS Code, the Department is only required to take public comment on the bond issuance. However, TDHCA has extended this to take comment on the development itself. We're not required to do that, but we want community input.

TDHCA also schedules a public hearing where the development is to be located at a time and location that is convenient for the community.

The program that the developer has applied for is a private activity bond program. The program was created by the federal government to encourage private industry to build quality housing that is affordable to individuals and families with lower-than-average incomes.

The Private Activity Bond Program refers to the issuance of tax-exempt bonds. The tax exemption is not an exemption of property tax, but rather an exemption to the purchase of the bond -- purchaser of the bond. The bond purchaser does not have to pay taxes on the investment and the income they make on that investment.

The bond purchaser accepts a lower rate of return; therefore, the lender involved will charge a lower interest rate for the mortgage that would be placed on the property to the developer.

In conclusion, the benefit goes to the investors that help finance the development. This is what gives the developer the opportunity to bring something of high quality to your area. And all of these properties are privately owned and privately managed.

Just a few other facts: The ongoing responsibilities between the affordable housing developments and the TDHCA include: state compliance monitoring. The compliance period with the state is the greater of 30 years or as long as the bonds are outstanding.

The oversight responsibilities includes the units are occupied by eligible households, physical appearance, rents are capped at the appropriate level, and repair reserve accounts are established and funded.

The private activity bond developments are monitored every two years by TDHCA and desk reviews are done quarterly. After lease-up, a survey is usually done to determine the tenant profile and the type of tenant services that would be of interest to the tenants.

These services can include tutoring, honor roll programs, computer access or educational classes, after-school activities, summer camp, healthcare screening, immunizations for school children, ESL classes or GED certification programs, financial planning, credit counseling and down-payment assistance.

Ms. Ochoa, if you would like to give a brief --

MS. OCHOA: Yes. Red Hills Villas, which is the name of the development, is located at 14018 A.W. Grimes Boulevard. The purpose of this refinance is to acquire new debt on the property which is much lower than the original debt.

The original debt is 9.9 million on the A bonds, with $400,000 on the subordinate bonds. The new debt will approximately be $4.92 million, which is what we currently have requested from the TDHCA, and we hope that the new bond issuance with the lower interest rate will be able to provide more favorable financing for the developer and actually be supported by the actual rents that we're receiving on the property.

We don't plan on -- the property will stay at the status quo at this point and continue to function the way it's normally functioned.

MS. ROTH: Okay.

MS. OCHOA: Can there be questions?

MS. ROTH: If you'd like. I'm going to read the speech the IRS requires us to read, and then I'm going to open the floor for public comment and then you're more than welcome to give your questions.

Good evening. My name is Shannon Roth. I would like to proceed with the public hearing. Let the record show that it is 6:20 Thursday, June 1, 2006.

We're at the Gattis Elementary School located 2920 Round Rock Boulevard, Round Rock, Texas. I am here to conduct a public hearing on the behalf of the Texas Department of Housing and Community Affairs with respect to an issuance of tax-exempt multifamily rental housing mortgage revenue bonds, the Series 2006 bonds.

This hearing is required by the Internal Revenue Code. The sole purpose of this hearing is to provide a reasonable opportunity for interested individuals to express their views regarding the development and the proposed bond issue.

No decisions regrading the development will be made at this hearing. The Department's board is scheduled to meet to consider this transaction on July 28, 2006.

In addition to providing your comments at the hearing, the public is also invited to provide comment directly to the board at any of their meetings. The Department staff will also accept written comments from the public up to 5:00 p.m. on July 14, 2006.

The bonds will be issued as tax-exempt multifamily mortgage revenue bonds in the aggregate principal amount not to exceed 4,900,000 and taxable bonds, if necessary, in an amount to be determined.

The bonds will be issued in one or more series by the Texas Department of Housing and Community Affairs, the issuer. The proceeds of the bonds will be loaned to South Creek Housing, Ltd., or a related person or affiliate entity thereof, for the following purposes: paying a portion of the costs of issuing Series 2000A bond; refunding a portion of the multifamily mortgage revenue bonds (Red Hills Villas) Series 2000, the proceeds of which were loaned to South Creek Housing, Ltd.

The multifamily rental housing community will be initially owned and operated by South Creek Housing, Ltd., or a related person or affiliate thereof.

I would now like to open the floor for public comment. And I believe we have one person who'd like to speak, Ms. Linda Durning.

MS. DURNING: Hi. Thank you so much for bringing this forward. First of all, how many meetings are going to be taken place before this is finalized?

MS. ROTH: How many board meetings?

MS. DURNING: Yes.

MS. ROTH: We have one on June 9. Then we have one on June 26, and then we have one on July 13.

MS. DURNING: Okay. And where are those going to be held?

MS. ROTH: They're generally held downtown at the Capital. All that information is posted on our website, and we do have some business cards over there that have our web address on there. And it's usually at the Capital; the meetings are held there.

MS. DURNING: Okay. Like in the bond review room?

MS. ROTH: No. I don't know exactly what particular meeting room. That is available on our website at least seven days prior to each meeting. You can look and see the agenda, what items are going to be considered, as well as the time and the exact room of the meeting.

MS. DURNING: Okay. Regarding this, what is it going to take to pass the bond? I mean, what kind of majority vote -- or if anybody asks for it, do they automatically get it? I mean, what criteria is going to be based on getting this money to this developer?

MS. ROTH: Well, since this is a refunding, I'm not -- I'll be honest with you; I'm not all that familiar with it. I know the board -- it is a majority vote for the board.

MS. DURNING: A majority vote for what board?

MS. ROTH: For our TDHCA board.

MS. DURNING: Okay.

MS. ROTH: Right. They will vote on it. Because this is a refunding, I don't know if it will be underwritten. I don't know that. Generally, if this was a brand-new development that had never received bonds, it would be based on the financial feasibility.

But because it's already built and has already received bonds before, I guess underwriting would still review it and take a look at it. That's a question I'm sorry I'm not really -- I can get back to you on that, but I'm not able to answer that.

MS. DURNING: Okay. Yes. Because I'm not sure if this is just an automatic thing, if nobody has any input. There's reasons probably why people haven't come, because it was pretty well, for lack of a better word, railroad last time. We have very ill feelings in our community because of this.

If this does go in, what kind of -- you said the regulations that we're going to put in place was state compliance; it would be monitored every two years. Is that correct?

MS. ROTH: Those regulations are already place.

MS. DURNING: In effect?

MS. ROTH: And they have been since it went online.

MS. DURNING: Okay.

MS. ROTH: It has been monitored by our compliance division.

MS. DURNING: And also it's also audited quarterly? Is that correct?

MS. ROTH: It's my understanding that they do a desk review. Now, unfortunately, I don't work in the compliance division. I don't know what their desk review consists of. My guess is they'll review the same that they review when they come out to the property.

They review to make sure that the tenants that are in the unit fall under the appropriate income levels for the rent-restricted units.

MS. DURNING: Okay.

MS. ROTH: And all the paperwork involving that is at -- Ms. Ochoa, have you been involved in any of the compliance reviews, or someone from the property management maybe can speak to that better than me?

MR. BOYETT: Yes. We have been audited by TDHCA.

MS. ROTH: Could you please state your name?

MS. BOYETT: Toni Boyett with Capstone Real Estate Services. Yes. We had a audit go on of the files and the property and everything by TDHCA.

MS. DURNING: Okay. And you're the property manager right now. Is that correct?

MR. BOYETT: Actually I'm the supervisor.

MS. DURNING: Okay. So right now we're looking at 4.9 million to refinance, for a better word. Right?

MS. OCHOA: Yes, ma'am. That is correct.

MS. DURNING: Initially, the debt was 9.9. I thought it was 10.8 before -- million -- initially.

MS. OCHOA: It's 9.9 with a sub bond of 400,000, which would bring it to 10.3.

MS. DURNING: Okay.

MS. OCHOA: And the difference between those two would be paid down by the developer.

MS. DURNING: So the 10.3 is what he received initially?

MS. OCHOA: Yes.

MS. DURNING: So the 9.9 exists now. Is that correct?

MS. OCHOA: Well the bond is in two parts. It's in 9.9 and $400,000.

MS. DURNING: Okay. So what part of that has been paid down? Anything?

MS. OCHOA: Well, no. That's the full principal that's outstanding. What will happen with this refinance is when the bonds are issued, the developers at that point in time will pay down the original bond issuance with the new proceeds and cash.

MS. DURNING: Okay. So I guess my question is so right now he really hasn't decreased what he originally borrowed -- is that correct? -- of 9.9 plus 400 is 10.3. So is he asking for an additional 4.9 million to make it 14?

MS. OCHOA: No. The only debt that will be on the property after this -- if the refinance takes place, will be the amount of the refinance. So basically it will have new debt and the developer will pay down the difference between the original debt and the new debt that is put into place.

MS. DURNING: So between 10.3 and 4.9 million -- is that what you're saying he has to pay 6.4 million out of his own pocket?

MS. OCHOA: Approximately. Yes.

MS. DURNING: Or -- now, if he doesn't get this money, what happens?

MS. OCHOA: Well, that's a whole other question but basically right now all the debt service has been paid by the developer, will be continued to be paid by the developer.

This would just add some relief to the property and lower the debt on the property. I mean, the other scenario would be just to pay down additional principal. Right now the payments are being made according to the amortization schedule that is currently on the two bond issuances, and I believe at this point in time they're still in the interest-only period.

MS. DURNING: So, in other words, a balloon is going to happen. Is that why he's asking for --

MS. OCHOA: No. There's not a balloon that's scheduled on the existing debt.

MS. DURNING: Okay. So why would he want to do this if he can pay this much? Why would he want --

MS. OCHOA: Because the new debt has a lower interest rate.

MS. DURNING: And how much is the interest rate?

MS. OCHOA: What's been requested is 5.75 percent.

MS. DURNING: Okay. And what was it before?

MS. OCHOA: Im not 100 percent sure. I think it's somewhere between 7 and 8 percent.

MS. DURNING: Okay. What I'm going to do is I'll bring this back to my neighborhood, you know, so I'm going to try to get as much information as I can. And this 4.9 million, how much time is necessary to pay that back? What's the loan time?

MS. OCHOA: It will just go out as the existing debt is right now.

MS. DURNING: Which is?

MS. OCHOA: Well, the existing debt, I believe, was on a 30-year term, and so it will be the difference of when that first one was issued and the 30-year term, which I think right now is approximately about 25 years.

MS. DURNING: Okay. And this is still going to be Section 8 housing. Is that correct?

MS. OCHOA: It's not Section 8. It's low income tax credit.

MS. DOUGLAS: Is there anything I need to do?

MS. ROTH: Do you wish to make public comment?

MS. DOUGLAS: Yes.

MS. ROTH: Okay. Then you'll need to fill out one of the witness affirmation forms, and you can sign in.

MS. DURNING: And, one more time, regarding if this money doesn't get transferred to the developer, what will happen to the units?

MS. OCHOA: They stay in place as is.

MS. DURNING: Okay.

MS. OCHOA: The current payments are not in default. They're being paid on a timely basis by the developer.

MS. DURNING: Are there issues right now with renting the properties out?

MS. OCHOA: No. I believe we're at 98 percent occupancy.

MS. DOUGLAS: Excuse me. But for the development or opposed to the development -- does that mean that I'm against what they're doing or I'm for what --

MS. ROTH: Do you either support the refinance of the development or you oppose the refinance of the development. Yes. You're either for it or against it.

MS. DOUGLAS: Okay. I might not know why we're here.

MS. ROTH: Are you a resident of the property?

MS. DOUGLAS: yes.

MS. ROTH: Okay.

MS. DOUGLAS: I just heard that there was a meeting, and I got a lot of issues of stuff that has been going on over there.

MS. ROTH: Okay.

MS. DOUGLAS: And that's why I came, so I'm not sure --

MS. ROTH: Okay.

MS. DOUGLAS: I'm just really wanting to say my piece about what's going on over there.

MS. ROTH: If you'd like, you don't have to check one of those boxes. That's okay. And like I said, if you do want to speak, if you would fill out one of those forms and just give it back to me.

MS. DOUGLAS: Okay.

MS. ROTH: Sorry, ma'am.

MS. DURNING: Okay. And, Toni, how many people do you have working with you currently as far as management is concerned?

MS. BOYETT: At Red Hills?

MS. DURNING: Yes.

MR. BOYETT: I have two in the office and two outside, so a total of four.

MS. DURNING: Okay. And you're with Capstone. Right?

MR. BOYETT: Capstone Real Estate Services.

MS. DURNING: And did you all take it over from the initial group that was there?

MR. BOYETT: We took over management January 2004.

MS. DURNING: Okay. I basically had a lot of questions, so I do apologize. Do you all have any questions for me?

MR. BOYETT: Who are you representing?

MS. DURNING: South Creek Neighborhood Association.

MS. DOUGLAS: So does this need to stay in this building or can I sign this while I'm --

MS. ROTH: As soon as Ms. Durning is finished talking, it will be your turn. So it's probably going to be within the next minutes. So you will need to fill out and give it back to me now, and then you'll be speaking within the next five minutes, and then --

MS. DURNING: Actually, I'm through.

MS. ROTH: So if you want to fill it out and we can take your comment at this time?

(Pause.)

MS. ROTH: Ms. Durning, if you have further questions, please be sure to pick up one of our cards and contact either myself or Teresa Morales.

MS. DURNING: Okay.

MS. ROTH: She would know more about the refinance process than I would, and she might be able to answer your questions, and she can definitely be reached by e-mail or telephone, however is convenient for you.

MS. DURNING: Yes. I will.

(Pause.)

MS. DURNING: Do you know perchance what the other apartment, as far as occupancy is, the one next to you -- is it South Creek Villas? -- right now?

MS. TESSEYMAN: They're running about 93 occupied, 95 percent leased.

MS. ROTH: I'm sorry. When you speak, please say your name and who you are with.

MS. TESSEYMAN: Sonya Tesseyman with Red Hills Villas.

MS. DURNING: You're with the Red Hills?

MS. TESSEYMAN: Yes.

MS. DURNING: Okay.

(Pause.)

MS. ROTH: Ma'am, if you want to go ahead and maybe make your comments or ask your questions, you can give that to me afterwards.

MS. DOUGLAS: Oh, okay.

MS. ROTH: And please state your name for the record, also.

MS. DOUGLAS: My name is Tamara Douglas. There's a lot of stuff going on just here lately. I mean, I don't -- I think we do have new management or something; I'm not sure. I just left a note in the office about two weeks ago, and I went there in person, and I saw somebody I had never seen before. I know it was a guy that used to be there. I didn't know his name, but that was the last person that was nice to me there.

Anyway, about the last -- okay. First of all, I mean, I'm not sure how they -- I know they can't control how people -- tenants end up being once they move in. You know, people can just put on like they -- you know, this type of way or whatever, and once they get in there, you don't know what they going to do.

But the tenants that have been coming in lately are just -- I mean, they have me scared; I'll put it that way. I'm constantly checking my doors, constantly peeking out the windows, checking the car and stuff because you see people wandering around 2:00 or 3:00 in the morning, you know, just hanging out.

And it just don't look right; it looks like something is going on like illegal; I'll put it that way. It's just like -- it'd be so late at night [inaudible].

Anyways -- so that was the first thing and that wasn't that big a problem, because I know that, like I said, management or whoever is managing, they don't know how people are going to be whenever they go through whatever they have to go through, and if they pass, they pass and you never know what's going to actually happen.

But on top of that, two or three weeks ago, I had some visitors over in my house, and first of all let me say I was wrong with this. They wanted to go to the pool area -- right? -- to swim and my sister had said that her oldest son was old enough; come to found out he's not. I don't really know how old they are. I got so many nieces and nephews and kids in my family I lose track of their names sometimes.

But anyway, I wasn't sure how old he was, but he's a big boy and she said that he was old enough, so all the kids -- was about three of them that went with him -- four in all. Anyway, so they went to the pool area. He came back home -- back to my house or whatever.

But anyway he came home, and when he got there, his mom said, Where's the other kids? And he said, They're still at the pool. And she said, Well, you need to go get them.

Well, before he could even go get them, the police had brought them to the house. Somebody had called them and said, These kids are down there by themselves. So they called and brought them in or whatever, and we was like, Sorry; we were just, you know, sending down to get them. But they brought them on; that was fine.

But when they came in, the little girl that was with me, my niece, she started crying and we was like, Why are you crying? And she had said someone had said a racial slur to her.

So anyways, though, they -- so when they -- she said that the lady had like shouted out a racial slur to them and embarrassed them in front of everybody, so she was -- and then after doing that, calling them a racial slur, she called the police on them.

So the whole thing just didn't look right to her and she was embarrassed by it and she started crying. So anyway we said, What did she say? She said, She called us them colored kids, them colored kids.

She was pointing to them like that: them colored kids over there. They're out here; nobody was with them. And everybody already knows what colored means, what it used to mean back then, and all that, and we just don't need to go there no more. You know, we're done past that. Leave that where it's at.

So anyway though we got upset; me and her mom got upset. We went down there and let the lady know, you know, that you was out of line. That's a sign of ignorance. Don't do that, blah, blah, blah and that was basically it.

Well, these people that's there, they got upset. It wasn't so much the lady; it was the people that were there. They got upset, because they were saying we shouldn't be saying nothing to her or whatever.

They called the laws again while we were there. Okay? So the laws came, because I told them before when they was calling, I said, The laws is not going to do nothing for me coming out here to speak to you about what you do. I said, I'm not calling you names like you called my family names. I'm not doing none of that.

I said, I'm simply letting you know that that's ignorant. Don't do that. The next time you get ready to speak to somebody, think about what you're going to say before you say it, because that's out of line.

So sure enough, when the police came, the police was like, Ma'am -- they were more so against what the lady was doing rather than us, and I said what I had to say while the cops were there to the lady, and told her.

And he said, Okay -- he started talking to the lady, and I said, Well, I'm finished. I'm just going to go on and go home. I just go on; he didn't say nothing to me.

The people that was trying to defend her said she didn't do nothing. He said, Well, they have to have done something, because when we dropped the kids off, they were fine with it. So somebody had to have done something for them to be upset, and that's when the older lady come up and said, Yes, I did. I called them that, you know, whatever.

So he starts talking to them, and he let us go on and go home. So that was that.

The next week -- that happened like on a weekend. Well, that next week, when I come home from work, I got a note on my door saying that I have an animal in my home that's unauthorized. Lie. I don't even like dogs, cats, none of that. You know, I'm scared of them -- scared of dogs and don't like cats.

Anyway, then they said that my family was at the pool throwing beer bottles in the pool. I'm a woman of God. I'm in church. I don't even drink. Where would we get beer bottles from to throw them into the pool?

Okay. And then she said that somebody had -- I'm saying she, because the lady I talked to that complained -- I don't know who wrote this out. Then they said that we had made someone feel uncomfortable in their surroundings.

How do you think I feel when you calling us them colored folks? I know how people felt back then when we were called that, so I know how we were treated and way we felt.

So how do you think I feel when somebody confirms to me that -- well, how do you think I feel? Do you think I feel comfortable knowing what people did to make sure that you know the extent of how much they feel you are not one of us? You are not important to us.

MS. ROTH: Did you have any other comments or did you -- or was that?

MS. DOUGLAS: No. My thing was I know you guys, why you -- okay. This is my whole thing. So anyway, though, we get the note on my door -- right? -- so I went to let the lady know that this stuff is false, and the only thing is true is the part about the kids being down there, because they also wrote on there about the kids being down there when nobody was old enough. Just so happened that my sister and her kids come.

MS. ROTH: We do have some people here from the management company. You might just maybe get their card.

MS. DOUGLAS: That's it. I don't know who's even with management. The office is always closed, ma'am. Most of the time -- you know, when I say always I don't mean always, but like the majority of the time you go by there it's closed. I remember used to only would close an hour or two during the day time and it would be open from like 8:00 in the morning to six o'clock in the evening.

Now it's like maybe open four hours a day. I mean, it's like closed all the time. I paid my water bill about two months ago. The bill has still not been paid. I was going to go up there and talk to them in the office about that, because I still got the stub, thank God; you know, I didn't throw it away where I paid it, and my bill was still -- it hasn't dropped yet. So I don't know what they did with the money, but somebody took my money order and didn't pay my water bill.

MS. ROTH:

MS. DOUGLAS: Then the stuff that they put on that paper about what so-called happened, they were telling me that it can't be erased. So I asked them, I said, Okay -- because they said that they have proof that this stuff happened. So this is what I told them: I said, when a police officer -- first of all, when they go to a site to do whatever they're doing, before they leave that scene, they're going to have to write down everything that happened.

SO I told them, I said, I'm telling you what I'm telling you is the truth. I'm saying, you know, people have to weigh both sides. They don't know who's telling the truth. But that law does.

So I told them, I said, Get that police. I said, If you can get that police up here with us, he will let you know, ma'am, because all he has to do and pull it up. Okay. This is what happened that day. And I said, I guarantee you he will let you know there wasn't no beer bottles thrown in no pool and all this other hoopla or whatever.

And as far as the animal goes in my house, I said, You can simply just go around the neighborhood, everybody will let you know, Oh, she don't even like dogs. Whenever we come outside with our dogs, she holding her baby.

And when we go to the car before they all come out, if I see them opening their door and I hear a woof -- Can you hold it real quick so I can get into my car? Because I just don't like dogs.

So for this stuff to be on my -- my reasons for coming here was, I was told that there was nothing that I can do about it and that if anything does happen with me again in that apartment -- I've got a three-year-old baby. Only God knows what can happen. You know what I'm saying?

So this what she told me: There is nothing I can do about that being on my file but it's not going to hurt anything as long as I don't get evicted or if I don't do anything else, because if I do anything else, what will happen is that will be added to what's already on there, and then it'll be part of my eviction.

MS. ROTH: Okay.

MS. DOUGLAS: The reason for my eviction. I'm not going to settle for that, because how you going to hold something false against me? So I want to talk to that law. I feel like my legal rights should be -- that I should be able to get the number or whatever I need to get -- the code or whoever -- the name of those laws to get over there and verify my information to get that off of my history. I don't see how I should be held against that's not true.

MS. ROTH: These are issues that I can't handle for you. You'll have to probably talk -- you'll need to talk with the management of the property. We do have a representative here this evening.

MS. DOUGLAS: Okay.

MS. ROTH: Thank you for your comment. And I'm going to go ahead and conclude the hearing now. I appreciate everyone's attendance and patience. All the comments have been recorded. It is now 6:50.

(Whereupon, at 6:50 p.m., the hearing was concluded.)

San Marcos, Texas

San Marcos AH-104, Ltd.
156 Units
$5,125,000 – Series 2006

TABLE OF EXHIBITS

MULTIFAMILY FINANCE PRODUCTION DIVISION
BOARD ACTION REQUEST
August 30, 2006

Action Item

Presentation, Discussion and Possible Approval of the Variable Rate Demand Multifamily Housing Mortgage Revenue Refunding Bonds Series 2006 for the Champions Crossing Apartments.

Requested Action

Approve, Deny or Approve with Amendments the refunding of Champions Crossing Apartments.

Background and Financial Summary

The bonds for the Champions Crossing Apartments were originally issued through Capital Area Housing Finance Corporation in May of 2000. The original bond amount was $7,231,000 which was privately placed with CharterMac Municipal Mortgage for a term of forty years with a fixed interest rate of 7.375%. The San Marcos apartment market area suffered from an oversupply of Class A apartment developments shortly after this property placed in service. Occupancy and rental rates, especially market rate properties, plummeted to competing level with affordable properties and homeownership was more desirable due to low mortgage interest rates. The apartment market is beginning to recover to meet demand, however the required restricted rents on the property have kept the development from being able to generate sufficient cash flow on a consistent basis to pay existing debt service which has been paid by the development owner to keep the property from going into default.

Because of these circumstances the applicant is requesting the Department's approval to refund (in essence, refinance) the existing fixed rate, private placement structure with a variable rate demand, publicly offered structure in an amount not to exceed $5,125,000 with an estimated amortization rate of 5.25% with a 6.00% rate cap. The lower interest rate and lower debt will allow the development to meet the debt service obligation. The general partner will contribute $2,133,510 as a subordinated cash loan that will be repaid with cash flow after the deferred developer fees are paid and will be combined with the refunded amount of $5,125,000 to payoff the existing bond amount of $7,083,104. The appraised value of the property is $6,073,651. The bonds will be credit enhanced by Fannie Mae with a AAA rating. CharterMac Mortgage Capital (Fannie Mae DUS Lender) will underwrite the transaction using a debt coverage ratio of 1.20 amortized over 30 years.

Recommendation

Staff recommends the Board approve the Variable Rate Demand Multifamily Housing Mortgage Revenue Refunding Bonds Series 2006 the Champions Crossing Apartments development because of the reduction in the serviceable debt due to the redemption of outstanding bonds, cash equity provided by the partnership, reduction is interest rate, equity position in the debt structure, financial feasibility and Fannie Mae credit enhancement.

MULTIFAMILY FINANCE PRODUCTION DIVISION
BOARD MEMORANDUM
August 30, 2006

DEVELOPMENT: Champions Crossing Apartments, San Marcos, Hays County, Texas

PROGRAM: Texas Department of Housing & Community Affairs
Variable Rate Demand Multifamily Housing Revenue Refunding Bonds Series 2006

BACKGROUND: In May 2000, Capital Area Housing Finance Corporation issued Multifamily Housing Revenue Bonds Series 2000 (Champions Crossing Apartments), in the aggregate principal amount of $7,231,000 in order to finance the costs of acquiring, constructing, and equipping a multifamily rental housing development located in San Marcos, Texas. The Series 2000 Bonds were privately placed with CharterMac Municipal Mortgage with a fixed interest rate of 7.375% with an amortization of forty years. The Development has not been able to generate sufficient cash flow for the existing debt service. The Applicant proposes to refund the 2000 Series Bonds with an issuance of new bonds with a variable rate of interest, credit enhanced with Fannie Mae with an anticipated AAA rating on the Bonds.

BOND AMOUNT: $5,125,000 Series 2006 Tax Exempt bonds (*)
$5,125,000 Total bonds

The aggregate principal amount of the Bonds will be determined by the Department based on its rules, underwriting, the cost of construction of the Development and the amount for which Bond Counsel can deliver its Bond Opinion.

ANTICIPATED CLOSING DATE: The anticipated closing date is September 12, 2006.

BORROWER: San Marcos AH-104, Ltd., a Texas Limited Partnership, the general partner of which is TWC Housing, L.L.C., wholly owned by Hunt ELP, Ltd. which is jointly owned by HB GP, LLC (W.L. Hunt owning 95.7265% and M.L. Hunt owning 4.2735%) and Hunt Company, LLC (wholly owned by Hunt Building Corporation. Related Capital or an affiliate thereof will be providing the equity for the transaction by purchasing a 99.99% limited partnership interest in the Borrower.

COMPLIANCE HISTORY: The Compliance Status Summary completed on August 21, 2006 reveals that the principals of the general partner have a total of eighteen developments to be monitored with no material non-compliance.

** Preliminary - Represents Maximum Amount*

ISSUANCE TEAM: CharterMac Mortgage Capital (FNMA DUS Lender/Servicer)
Fannie Mae (Credit Facility Provider)
Related Capital (Equity Provider)
Stern Brothers & Co. (Underwriter)
Wells Fargo Bank, N. A. (Trustee)
Vinson & Elkins L.L.P. (Bond Counsel)
RBC Capital Markets (Financial Advisor)
McCall, Parkhurst & Horton, L.L.P. (Issuer Disclosure Counsel)

BOND PURCHASER: The Bonds will be publicly offered for sale on or about September 8, 2006 at which time the final pricing and Bond Purchaser(s) will be determined.

DEVELOPMENT DESCRIPTION: The Development consists of 156 units constructed on approximately 13.52 acres located at 345 Champions Boulevard, San Marcos, Texas.

Units	Unit Type	Sq Ft	Proposed	AMFI
60	2-Bed/2-Baths	900	$679.00	50%
72	3-Bed/2-Baths	1,082	$769.00	50%
24	4-Bed/2-Baths	1,238	$853.00	50%
156	Total Units			

SET-ASIDE UNITS: For Bond covenant purposes, forty percent (40%) of the units in the Development will be restricted to occupancy by persons or families earning not more than sixty percent (60%) of the area median income. Five percent (5%) of the units in the Development will be set aside on a priority basis for persons with special needs. *(The Borrower has elected to set-aside 100% of the units for tax credit purposes)*

RENT CAPS: For Bond covenant purposes, the rental rates on 100% of the units will be restricted to a maximum rent that will not exceed thirty percent (30%) of the income, adjusted for family size, for a family whose income equals fifty percent (50%) of the area median income.

TENANT SERVICES: Tenant Services will be provided by CARES, as outlined in the Department's application.

DEPARTMENT FEES: $10,000 Application Fee (Paid)
$25,625 Issuance Fee (.50% of the bond amount paid at closing)

DEPARTMENT ANNUAL FEES: $5,125 Bond Administration (0.10% of first year bond amount)
$6,240 Compliance ($40/unit/year adjusted annually for CPI)

(Department's annual fees may be adjusted, including deferral, to accommodate underwriting criteria and Development cash flow. These fees will be subordinated to the Mortgage Loan and paid outside of the cash flows contemplated by the Indenture)

ASSET OVERSIGHT FEE: $3,900 to TDHCA or assigns ($25/unit/year adjusted annually for CPI))

BOND STRUCTURE & SECURITY FOR THE BONDS: The Bonds are proposed to be issued under a Trust Indenture (the "Trust Indenture") that will describe the fundamental structure of the Bonds, permitted uses of Bond proceeds and procedures for the administration, investment and disbursement of Bond proceeds and program revenues. The Mortgage Loan will be secured by, among other things, a Deed of Trust and other security instruments on the Development.

CREDIT ENHANCEMENT: The credit enhancement by Fannie Mae allows for an anticipated rating by the Rating Agency of Aa3/VMIG1 and an anticipated variable interest rate of 5.25% per annum. Without the credit enhancement, the Bonds would not be investment grade and therefore command a higher interest rate from investors on similar maturity bonds.

FORM OF BONDS: The Bonds will be issued in book-entry form and will be in authorized denominations of, (i) during any Weekly Variable Rate Period, $100,000 or any integral multiple of $5,000 in excess of $100,000 and (ii) during any Reset Period or the Fixed Rate Period, $5,000 or any integral multiple of $5,000.

TERMS OF THE MORTGAGE LOAN: The Mortgage Loan is a non-recourse obligation of the Owner, which means, subject to certain exceptions, that the Owner is not liable for the payment thereof beyond the amount realized from the pledged security. The Mortgage Loan provides for level monthly payments of principal and interest.

MATURITY/SOURCES & METHODS OF REPAYMENT: The Bonds will bear interest at a variable rate until maturity, which is September 1, 2036.

The Bonds will be payable from: (1) revenues earned from the Mortgage Loan; (2) earnings derived from amounts held in Funds and Accounts on deposit in an investment agreement; (3) or payments made by the applicable Credit Provider under the credit facility then in effect.

The Credit Provider (initially the Bank) is obligated under its credit enhancement agreement to fund the payment of the Bonds, regardless of whether the Borrower makes the scheduled principal and interest payments on the Mortgage Loan. The Borrower is obligated to reimburse the Credit Provider for any moneys advanced by the Credit Provider for such payments

REDEMPTION OF BONDS PRIOR TO MATURITY:

The Bonds are subject to redemption under any of the following circumstances:

Optional Redemption:

The Bonds are subject to optional redemption in whole or in part upon optional prepayment of the Loan by the Borrower:

(1) On any Interest Payment Date within a Weekly Variable Rate Period and on any Adjustment Date at a redemption price equal to 100 percent of the principle amount redeemed plus accrued interest to the Redemption Date.

(2) On any date within a Reset Period at the respective redemption prices set forth in the Indenture as expressed as a percentage of the principal amount of the Bonds.

(3) On any date within the Fixed Rate Period, at the respective redemption prices set forth in the Indenture as expressed as percentages of the principal amounts of the Bonds.

Mandatory Redemption:

(1) The Bonds shall be redeemed in whole or in part in the event and to the extent that proceeds of insurance from any casualty to, or proceeds of any award from any condemnation of, or any award as part of a settlement in lieu of condemnation of, the Mortgaged Property are applied in accordance with the Security Instrument to the prepayment of the Mortgage Loan.

(2) The Bonds shall be redeemed in whole or in part in an amount specified by and at the direction of the Credit Provider requiring that the Bonds be redeemed pursuant to the Indenture following any Event of Default under the Reimbursement Agreement.

(3) The Bonds shall be redeemed in whole or in part as follows:

  a) On each Adjustment Date in an amount equal to the amount which has been transferred from the Principal Reserve Fund on such Adjustment Date to the Redemption Account.

  b) On any Interest Payment Date in an amount equal to the amount which has been transferred from the Principal Reserve Fund on such Interest Payment Date to the Redemption Account.

(4) On and after the Transition Date, if any, the Bonds shall be redeemed at the times and in the amounts set forth in the Sinking Fund Schedule attached as Exhibit E to the Indenture.

(5) The Bond shall be redeemed during the Fixed Rate Period at the times and in the amounts set forth in the Sinking Fund Schedule established pursuant to the Indenture.

(6) The Bonds shall be redeemed in part in the event that the Borrower makes a Pre-Conversion Loan Equalization Payment.

(7) The Bonds shall be redeemed in whole or in part in the event and to the extent that amounts on deposit in the Loan Fund are transferred to the Redemption Account.

FUNDS AND ACCOUNTS/FUNDS ADMINISTRATION:

Under the Trust Indenture, Wells Fargo Bank, N.A., (the "Trustee") will serve as registrar and authenticating agent for the Bonds, trustee of certain of the funds created under the Trust Indenture (described below), and will have responsibility for a number of loan administration and monitoring functions.

The Depository Trust Company ("DTC"), New York, New York, will act as securities depository for the Bonds. The Bonds will initially be issued as fully registered securities and when issued will be registered in the name of Cede & Co., as nominee for DTC. One fully registered global bond in the aggregate principal amount of each stated maturity of the Bonds will be deposited with DTC.

Moneys on deposit in Trust Indenture funds are required to be invested in eligible investments prescribed in the Trust Indenture until needed for the purposes for which they are held.

The Trust Indenture will create up to six (6) funds with the following general purposes:

1. Bond Proceed Fund – shall be dispersed for the redemption of the prior bonds.

2. Revenue Fund - General receipts and disbursement account for revenues to pay principal and interest on the Bonds. Accounts created within the Revenue Fund for redemption provisions, credit facility purposes, the payment of interest and certain ongoing fees.

3. Costs of Issuance Fund – A temporary fund into which amounts for the payment of the costs of issuance are deposited and disbursed by the Trustee.

4. Rebate Fund - Fund into which certain investment earnings are transferred that are required to be rebated periodically to the federal government to preserve the tax-exempt status of the Bonds. Amounts in this fund are held apart from the trust estate and are not available to pay debt service on the Bonds.

5. Bond Purchase Fund - Moneys held uninvested and exclusively for the payment of the purchase price of Tendered Bonds.

6. Principal Reserve Fund – Fund to collect payments received from the Borrower pursuant to the reimbursement agreement and used to pay certain costs approved by the Credit Provider, including unreimbursed advances, improvements or repairs to the Development, and principal on the Bonds.

Essentially, all of the bond proceeds will be deposited into the Loan Fund and disbursed during the Construction Phase (over 18 to 24 months) to finance the construction of the Development. Although costs of issuance of up to two percent (2%) of the principal amount of the Bonds may be paid from Bond proceeds, it is currently expected that all costs of issuance will be paid by an equity contribution of the Borrower.

DEPARTMENT ADVISORS:

The following advisors have been selected by the Department to perform the indicated tasks in connection with the issuance of the Bonds.

1. Bond Counsel - Vinson & Elkins L.L.P. ("V&E") was most recently selected to serve as the Department's bond counsel through a request for proposals ("RFP") issued by the Department in September 2005.

2. Bond Trustee – Wells Fargo, National Association was selected as bond trustee by the Department pursuant to a request for proposal process in June 2006.

3. Financial Advisor – RBC Capital Markets, formerly RBC Dain Rauscher, was selected by the Department as the Department's financial advisor through a request for proposals process in August 2003.

4. Underwriter – Stern Brothers & Co. was selected by the Borrower from the Department's list of approved senior managers for multifamily bond issues. The underwriter list was compiled and approved by the Department June 2006.

ATTORNEY GENERAL REVIEW OF BONDS:

No preliminary written review of the Bonds by the Attorney General of Texas has yet been made. Department bonds, however, are subject to the approval of the Attorney General, and transcripts of proceedings with respect to the Bonds will be submitted for review and approval prior to the issuance of the Bonds.

RESOLUTION NO. 06-034

RESOLUTION AUTHORIZING AND APPROVING THE ISSUANCE, SALE AND DELIVERY OF VARIABLE RATE DEMAND MULTIFAMILY HOUSING MORTGAGE REVENUE REFUNDING BONDS (CHAMPION’S CROSSING APARTMENTS) SERIES 2006; APPROVING THE FORM AND SUBSTANCE AND AUTHORIZING THE EXECUTION AND DELIVERY OF DOCUMENTS AND INSTRUMENTS PERTAINING THERETO; AUTHORIZING AND RATIFYING OTHER ACTIONS AND DOCUMENTS; AND CONTAINING OTHER PROVISIONS RELATING TO THE SUBJECT

WHEREAS, the Texas Department of Housing and Community Affairs (the “Department”) has been duly created and organized pursuant to and in accordance with the provisions of Chapter 2306, Texas Government Code, as amended (the “Act”), for the purpose, among others, of providing a means of financing the costs of residential ownership, development and construction that will provide decent, safe, and affordable living environments for individuals and families of low, very low and extremely low income (as defined in the Act) and families of moderate income (as defined in the Act and determined by the Governing Board of the Department (the “Board”) from time to time); and

WHEREAS, the Act authorizes the Department: (a) to make mortgage loans to housing sponsors to provide financing for multifamily residential rental housing in the State of Texas (the “State”) intended to be occupied by individuals and families of low, very low and extremely low income and families of moderate income, as determined by the Department; (b) to issue its revenue refunding bonds, for the purpose, among others, of obtaining funds to make such loans and provide financing, to establish necessary reserve funds and to pay administrative and other costs incurred in connection with the issuance of such bonds; and (c) to pledge all or any part of the revenues, receipts or resources of the Department, including the revenues and receipts to be received by the Department from such multifamily residential rental development loans, and to mortgage, pledge or grant security interests in such loans or other property of the Department in order to secure the payment of the principal or redemption price of and interest on such bonds; and

WHEREAS, the Capital Area Housing Finance Corporation heretofore has issued its Multifamily Housing Mortgage Revenue Bonds (San Marcos Apartments Project) Series 2000 in the original aggregate principal amount of $7,231,000, (the "Prior Bonds") the proceeds of which were loaned to San Marcos AH-104, Ltd., a Texas limited partnership (the "Borrower"), to provide financing for a multifamily residential rental housing development located in Hays County, Texas and described on Exhibit A attached hereto (the "Development"), all in accordance with the Constitution and laws of the State; and

WHEREAS, the Board has determined to authorize the issuance, sale and delivery of the Department’s Variable Rate Demand Multifamily Housing Mortgage Revenue Refunding Bonds (Champion’s Crossing Apartments) Series 2006 (the “Bonds”), pursuant to and in accordance with the terms of a Trust Indenture (the “Indenture”) by and between the Department and Wells Fargo Bank, National Association, a national banking association, as trustee (the “Trustee”), for the purpose of obtaining funds to refund a portion of the Prior Bonds to provide funds to refinance the cost of acquisition, construction and equipping the Development, all under and in accordance with the Constitution and laws of the State, including particularly Section 2306.354 of the Act and Chapter 1207, Texas Government Code, as amended; and

WHEREAS, the Department desires to use the proceeds of the Bonds to fund a mortgage loan to the Borrower to prepay a portion of the outstanding balance of the mortgage loan for the Prior Bonds and thereby refund a portion of the Prior Bonds, in accordance with the Constitution and laws of the State; and

WHEREAS, the Borrower will provide funds other than the proceeds of the Bonds to repay the remaining portion of the Prior Bonds simultaneously with the issuance of the Bonds; and

WHEREAS, it is anticipated that the Department, the Borrower and the Trustee will execute and deliver a Financing Agreement (the "Financing Agreement") pursuant to which (i) the Department will agree to make a mortgage loan funded with the proceeds of the Bonds (the "Loan") to the Borrower to enable the Borrower to refinance a portion of the cost of the Development and pay related costs, and (ii) the Borrower will execute and deliver to the Department a multifamily note (the "Note") in an original principal amount equal to the original aggregate principal amount of the Bonds, and providing for payment of interest on such principal amount equal to the interest on the Bonds and to pay other costs described in the Financing Agreement; and

WHEREAS, it is anticipated that credit enhancement for the Loan and liquidity support for the Bonds will be provided for initially by a Credit Enhancement Instrument (Direct-Pay) issued by Fannie Mae ("Fannie Mae"), also the "Credit Provider"; and

WHEREAS, it is anticipated that the Note will be secured by a Multifamily Deed of Trust, Assignment of Rents, Security Agreement and Fixture Filing (the "Security Instrument") from the Borrower for the benefit of the Department and Fannie Mae; and

WHEREAS, the Department's interest in the Loan (except for certain reserved rights), including the Note and the Security Instrument, will be assigned to the Trustee, as its interests may appear, and to Fannie Mae, as its interests may appear, pursuant to an Assignment and Intercreditor Agreement (the "Assignment") among the Department, the Trustee and Fannie Mae and acknowledged, accepted and agreed to by the Borrower; and

WHEREAS, the Board has determined that the Department, the Trustee and the Borrower will execute an Amended and Restated Regulatory and Land Use Restriction Agreement (the "Regulatory Agreement"), with respect to the Development which will be filed of record in the real property records of Hays County, Texas; and

WHEREAS, the Board has been presented with a draft of, has considered and desires to ratify, approve, confirm and authorize the use and distribution in the public offering of the Bonds of a Preliminary Official Statement (the "Preliminary Official Statement") and an Official Statement (the "Official Statement", and together with the Preliminary Official Statement, the "Official Statement") and to authorize the authorized representatives of the Department to deem the Official Statement "final" for purposes of Rule 15c2-12 of the Securities and Exchange Commission (the "Rule") and to approve the making of such changes in the Official Statement as may be required to provide a final Official Statement for use in the public offering and sale of the Bonds; and

WHEREAS, the Board has further determined that the Department will enter into a Purchase Contract (the "Purchase Contract") with the Borrower and Stern Brothers & Co. (the "Underwriter"), and any other parties to such Purchase Contract as authorized by the execution thereof by the Department, setting forth certain terms and conditions upon which the Underwriter or another party will purchase all or their respective portion of the Bonds from the Department and the Department will sell the Bonds to the Underwriter or any other parties to such Purchase Contract; and

WHEREAS, the Board has determined that the Department and the Borrower will execute an Asset Oversight Agreement (the "Asset Oversight Agreement") with respect to the Development for the purpose of monitoring the operation and maintenance of the Development; and

WHEREAS, the Board has examined proposed forms of (a) the Indenture, the Financing Agreement, the Assignment, the Regulatory Agreement, the Asset Oversight Agreement, the Official Statement and the Purchase Contract (collectively, the "Issuer Documents"), all of which are attached to and comprise a part of this Resolution and (b) the Security Instrument and the Note; has found the form and substance of such documents to be satisfactory and proper and the recitals contained therein to be true, correct and complete; and has determined, subject to the conditions set forth in Article I, to authorize the issuance of the Bonds, the execution and delivery of the Issuer Documents, the acceptance of the Security Instrument and the Note and the taking of such other actions as may be necessary or convenient in connection therewith;

NOW, THEREFORE,

BE IT RESOLVED BY THE BOARD OF THE DEPARTMENT:

ARTICLE I

ISSUANCE OF BONDS; APPROVAL OF DOCUMENTS

Section 1.1--Issuance, Execution and Delivery of the Bonds. That the issuance of the Bonds is hereby authorized, under and in accordance with the conditions set forth herein and in the Indenture, and that, upon execution and delivery of the Indenture, the authorized representatives of the Department named in this Resolution each are authorized hereby to execute, attest and affix the Department's seal to the Bonds and to deliver the Bonds to the Attorney General of the State for approval, the Comptroller of Public Accounts of the State for registration and the Trustee for authentication (to the extent required in the Indenture), and thereafter to deliver the Bonds to the order of the initial purchasers thereof.

Section 1.2--Interest Rate, Principal Amount, Maturity and Price. That the Chair or Vice Chairman of the Board or the Executive Director or Acting Executive Director of the Department are hereby authorized and empowered, in accordance with Chapter 1371, Texas Government Code, to fix and determine the interest rate, principal amount and maturity of, the redemption provisions related to, and the price at which the Department will sell to the Underwriter or another party to the Purchase Contract, the Bonds, all of which determinations shall be conclusively evidenced by the execution and delivery by the Chair or Vice Chairman of the Board or the Executive Director or Acting Executive Director of the Department of the Indenture and the Purchase Contract; provided, however, that (i) the Bonds shall bear interest at the rates determined from time to time by the Remarketing Agent (as such term is defined in the Indenture) in accordance with the provisions of the Indenture; provided that in no event shall the interest rate on the Bonds (including any default interest rate) exceed the maximum interest rate permitted by applicable law; and provided further that the initial interest rate on the Bonds shall not exceed 6.00%; (ii) the aggregate principal amount of the Bonds shall not exceed $5,125,000; (iii) the final maturity of the Bonds shall occur not later than September 15, 2036; and (iv) the price at which the Bonds are sold to the initial purchasers thereof under the Purchase Contract shall not exceed 103% of the principal amount thereof.

Section 1.3--Approval, Execution and Delivery of the Indenture. That the form and substance of the Indenture are hereby approved, and that the authorized representatives of the Department named in this Resolution each are authorized hereby to execute the Indenture and to deliver the Indenture to the Trustee.

Section 1.4--Approval, Execution and Delivery of the Financing Agreement. That the form and substance of the Financing Agreement are hereby approved, and that the authorized representatives of the Department named in this Resolution each are authorized hereby to execute the Financing Agreement and deliver the Financing Agreement to the Borrower and the Trustee.

Section 1.5--Approval, Execution and Delivery of the Regulatory Agreement. That the form and substance of the Regulatory Agreement are hereby approved, and that the authorized representatives of the Department named in this Resolution each are authorized hereby to execute, attest and affix the Department's seal to the Regulatory Agreement and deliver the Regulatory Agreement to the Borrower and the Trustee and to cause the Regulatory Agreement to be filed of record in the real property records of Hays County, Texas.

Section 1.6--Approval, Execution and Delivery of the Purchase Contract. That the sale of the Bonds to the Underwriter and any other party to the Purchase Contract is hereby approved, that the form and substance of the Purchase Contract are hereby approved, and that the authorized representatives of the Department named in this Resolution each are hereby authorized to execute the Purchase Contract and to deliver the Purchase Contract to the Borrower, the Underwriter and any other party to the Purchase Contract, as appropriate.

Section 1.7--Acceptance of the Note and Security Instrument. That the form and substance of the Note and the Security Instrument are hereby accepted by the Department and that the authorized representatives of the Department named in this Resolution each are hereby authorized to endorse and deliver the Note to the order of the Trustee and Fannie Mae, as their interests may appear, without recourse.

Section 1.8--Approval, Execution and Delivery of the Assignment. That the form and substance of the Assignment are hereby approved; and that the authorized representatives of the Department named in this Resolution are each hereby authorized to execute, attest and affix the Department's seal to the Assignment and to deliver the Assignment to the Borrower, the Trustee and Fannie Mae.

Section 1.9--Approval, Execution, Use and Distribution of the Official Statement. That the form and substance of the Official Statement and its use and distribution by the Underwriter in accordance with the terms, conditions and limitations contained therein are hereby approved, ratified, confirmed and authorized; that the Chair and Vice Chairman of the Board and the Executive Director or the Acting Executive Director of the Department are hereby severally authorized to deem the Official Statement "final" for purposes of the Rule; that the authorized representatives of the Department named in this Resolution each are authorized hereby to make or approve such changes in the Official Statement as may be required to provide a final Official Statement for the Bonds; that the authorized representatives of the Department named in this Resolution each are authorized hereby to accept the Official Statement, as required; and that the distribution and circulation of the Official Statement by the Underwriter hereby is authorized and approved, subject to the terms, conditions and limitations contained therein, and further subject to such amendments or additions thereto as may be required by the Purchase Contract and as may be approved by the Executive Director or the Acting Executive Director of the Department and the Department's counsel.

Section 1.10--Approval, Execution and Delivery of the Asset Oversight Agreement. That the form and substance of the Asset Oversight Agreement are hereby approved, and that the authorized representatives of the Department named in this Resolution each are authorized hereby to execute and deliver the Asset Oversight Agreement to the Borrower.

Section 1.11--Taking of Any Action; Execution and Delivery of Other Documents. That the authorized representatives of the Department named in this Resolution each are authorized hereby to take any actions and to execute, attest and affix the Department's seal to, and to deliver to the appropriate parties, all such other agreements, commitments, assignments, bonds, certificates, contracts, documents, instruments, releases, financing statements, letters of instruction, notices of acceptance, written requests and other papers, whether or not mentioned herein, as they or any of them consider to be necessary or convenient to carry out or assist in carrying out the purposes of this Resolution.

Section 1.12--Exhibits Incorporated Herein. That all of the terms and provisions of each of the documents listed below as an exhibit shall be and are hereby incorporated into and made a part of this Resolution for all purposes:

Exhibit B	-	Indenture
Exhibit C	-	Financing Agreement
Exhibit D	-	Regulatory Agreement
Exhibit E	-	Purchase Contract
Exhibit F	-	Security Instrument
Exhibit G	-	Note
Exhibit H	-	Assignment
Exhibit I	-	Preliminary Official Statement
Exhibit J	-	Asset Oversight Agreement

Section 1.13--Power to Revise Form of Documents. That notwithstanding any other provision of this Resolution, the authorized representatives of the Department named in this Resolution each are authorized hereby to make or approve such revisions in the form of the documents attached hereto as exhibits as, in the judgment of such authorized representative or authorized representatives, and in the opinion of Vinson & Elkins L.L.P., Bond Counsel to the Department, may be necessary or convenient to carry out or assist in carrying out the purposes of this Resolution, such approval to be evidenced by the execution of such documents by the authorized representatives of the Department named in this Resolution.

Section 1.14--Authorized Representatives. That the following persons are each hereby named as authorized representatives of the Department for purposes of executing, attesting, affixing the Department's seal to, and delivering the documents and instruments and taking the other actions referred to in this Article I: Chair and Vice Chairman of the Board, Executive Director or Acting Executive Director of the Department, Deputy [Executive] Director of Housing Operations of the Department, Deputy Executive Director of Programs of the Department, Chief of Agency Administration of the Department, Director of Financial Administration of the Department, Director of Bond Finance of the Department, Director of Multifamily Finance Production of the Department and the Secretary to the Board.

Section 1.15--Conditions Precedent. That the issuance of the Bonds shall be further subject to, among other things: (a) the Development's meeting all underwriting criteria of the Department, to the satisfaction of the Executive Director or Acting Executive Director of the Department; and (b) the execution by the Borrower and the Department of contractual arrangements satisfactory to the Department staff requiring that community service programs will be provided at the Development.

ARTICLE II

APPROVAL AND RATIFICATION OF CERTAIN ACTIONS

Section 2.1--Approval and Ratification of Application to Texas Bond Review Board. That the Board hereby ratifies and approves the submission of the application for approval of state bonds to the Texas Bond Review Board on behalf of the Department in connection with the issuance of the Bonds in accordance with Chapter 1231, Texas Government Code.

Section 2.2--Approval of Submission to the Attorney General of the State. That the Board hereby authorizes, and approves the submission by the Department's Bond Counsel to the Attorney General of the State, for his approval, of a transcript of legal proceedings relating to the issuance, sale and delivery of the Bonds.

Section 2.3--Engagement of Other Professionals. That the Executive Director or Acting Executive Director of the Department or any successor is authorized to engage auditors, analysts and consultants to perform such functions, audits, yield calculations and subsequent investigations as necessary or appropriate to comply with the requirements of Bond Counsel to the Department, provided such engagement is done in accordance with the applicable laws of the State.

Section 2.4--Certification of the Minutes and Records. That the Secretary to the Board hereby is authorized to certify and authenticate minutes and other records on behalf of the Department for the Bonds and all other Department activities.

Section 2.5--Approval of Requests for Rating from Rating Agency. That the action of the Executive Director or Acting Executive Director of the Department or any successor and the Department's consultants in seeking a rating from Moody's Investors Service, Inc. and/or Standard & Poor's Ratings Services, a Division of The McGraw-Hill Companies, Inc., is approved, ratified and confirmed hereby.

Section 2.6--Authority to Invest Proceeds. That the Department is authorized to invest and reinvest the proceeds of the Bonds and the fees and revenues to be received in connection with the refinancing of the Development in accordance with the Indenture and to enter into any agreements relating thereto only to the extent permitted by the Indenture.

Section 2.7--Underwriter. That the underwriter with respect to the issuance of the Bonds shall be Stern Brothers & Co.

Section 2.8--Approving Initial Rents. That the initial maximum rent charged by the Borrower for the units of the Development shall not exceed the amounts attached as an exhibit to the Regulatory Agreement and shall be annually redetermined by the Borrower and reviewed by the Department as set forth in the Financing Agreement.

Section 2.9--Ratifying Other Actions. That all other actions taken by the Executive Director or the Acting Executive Director of the Department and the Department staff in connection with the issuance of the Bonds and the refinancing of the Development are hereby ratified and confirmed.

ARTICLE III

CERTAIN FINDINGS AND DETERMINATIONS

Section 3.1--Findings of the Board. That in accordance with Section 2306.223 of the Act and after the Department's consideration of the information with respect to the Development and the information with respect to the proposed refinancing of the Development by the Department, including but not limited to the information submitted by the Borrower, independent studies commissioned by the Department, recommendations of the Department staff and such other information as it deems relevant, the Board hereby finds:

(a) Need for Housing Development.

(i) that the Development is necessary to provide needed decent, safe, and sanitary housing at rentals or prices that individuals or families of low and very low income or families of moderate income can afford,

(ii) that the refinancing of the Development is a public purpose and will provide a public benefit, and

(iii) that the Development will be undertaken within the authority granted by the Act to the housing finance division and the Borrower.

(b) Findings with Respect to the Borrower.

(i) that the Borrower, by operating the Development in accordance with the requirements of the Financing Agreement and the Regulatory Agreement, will comply with applicable local building requirements and will supply well-planned and well-designed housing for individuals or families of low and very low income or families of moderate income,

(ii) that the Borrower is financially responsible and has entered into a binding commitment to repay the Loan in accordance with its terms, and

(iii) that the Borrower is not, and will not enter into a contract for the Development with, a housing developer that: (A) is on the Department's debarred list, including any parts of that list that are derived from the debarred list of the United States Department of Housing and Urban Development; (B) breached a contract with a public agency; or (C) misrepresented to a subcontractor the extent to which the developer has benefited from contracts or financial assistance that has been awarded by a public agency, including the scope of the developer's participation in contracts with the agency and the amount of financial assistance awarded to the developer by the Department.

(c) Public Purpose and Benefits.

(i) that the Borrower has agreed to operate the Development in accordance with the Financing Agreement and the Regulatory Agreement, which require, among other things, that the Development be occupied by individuals and families of low and very low income and families of moderate income, and

(ii) that the issuance of the Bonds to refinance the Development is undertaken within the authority conferred by the Act and will accomplish a valid public purpose and will provide a public benefit by assisting individuals and families of low and very low income and families of moderate income in the State to obtain decent, safe, and sanitary housing by refinancing the costs of the Development, thereby helping to maintain a fully adequate supply of sanitary and safe dwelling accommodations at rents that such individuals and families can afford.

Section 3.2--Determination of Eligible Tenants. That the Board has determined, to the extent permitted by law and after consideration of such evidence and factors as it deems relevant, the findings of the staff of the Department, the laws applicable to the Department and the provisions of the Act, that eligible tenants for the Development shall be (1) individuals and families of low and very low income, (2) persons with special needs, and (3) families of moderate income, with the income limits as set forth in the Financing Agreement and the Regulatory Agreement.

Section 3.3--Sufficiency of Loan Interest Rate. That the Board hereby finds and determines that the interest rate on the Loan established pursuant to the Financing Agreement will produce the amounts required, together with other available funds, to pay for the Department's costs of operation with respect to the Bonds and the Development and enable the Department to meet its covenants with and responsibilities to the holders of the Bonds.

Section 3.4--No Gain Allowed. That, in accordance with Section 2306.498 of the Act, no member of the Board or employee of the Department may purchase any Bond in the secondary open market for municipal securities.

Section 3.5--Waiver of Rules. That the Board hereby waives the rules contained in Chapters 33 and 35, Title 10 of the Texas Administrative Code to the extent such rules are inconsistent with the terms of this Resolution and the bond documents authorized hereunder.

ARTICLE IV

GENERAL PROVISIONS

Section 4.1--Limited Obligations. That the Bonds and the interest thereon shall be limited obligations of the Department payable solely from the trust estate created under the Indenture, including the revenues and funds of the Department pledged under the Indenture to secure payment of the Bonds, and under no circumstances shall the Bonds be payable from any other revenues, funds, assets or income of the Department.

Section 4.2--Non-Governmental Obligations. That the Bonds shall not be and do not create or constitute in any way an obligation, a debt or a liability of the State or create or constitute a pledge, giving or lending of the faith or credit or taxing power of the State. Each Bond shall contain on its face a statement to the effect that the State is not obligated to pay the principal thereof or interest thereon and that neither the faith or credit nor the taxing power of the State is pledged, given or loaned to such payment.

Section 4.3--Effective Date. That this Resolution shall be in full force and effect from and upon its adoption.

Section 4.4--Notice of Meeting. Written notice of the date, hour and place of the meeting of the Board at which this Resolution was considered and of the subject of this Resolution was furnished to the Secretary of State and posted on the Internet for at least seven (7) days preceding the convening of such meeting; that during regular office hours a computer terminal located in a place convenient to the public in the office of the Secretary of State was provided such that the general public could view such posting;

that such meeting was open to the public as required by law at all times during which this Resolution and the subject matter hereof was discussed, considered and formally acted upon, all as required by the Open Meetings Act, Chapter 551, Texas Government Code, as amended; and that written notice of the date, hour and place of the meeting of the Board and of the subject of this Resolution was published in the Texas Register at least seven (7) days preceding the convening of such meeting, as required by the Administrative Procedure and Texas Register Act, Chapters 2001 and 2002, Texas Government Code, as amended. Additionally, all of the materials in the possession of the Department relevant to the subject of this Resolution were sent to interested persons and organizations, posted on the Department's website, made available in hard-copy at the Department, and filed with the Secretary of State for publication by reference in the Texas Register not later than seven (7) days before the meeting of the Board as required by Section 2306.032, Texas Government Code, as amended.

PASSED AND APPROVED this 30th day of August, 2006.

EXHIBIT A

DESCRIPTION OF DEVELOPMENT

Borrower: San Marcos AH-104, Ltd., a Texas limited partnership

Development: The Development is a 156-unit multifamily facility known as Champion's Crossing Apartments (formerly known as the San Marcos Apartments) and located at 345 Champions Boulevard, San Marcos, Hays County, Texas. It consists of 13 two-story residential apartment buildings with 150,516 net rentable square feet. The unit mix will consist of:

60	two-bedroom/two-bath units
72	three-bedroom/two-bath units
24	four-bedroom/two-bath units
156	Total Units

Unit sizes range from approximately 900 square feet to approximately 1,238 square feet.

Common areas include a picnic area, community room with kitchen facilities, laundry facilities, recreation room, utility room, children's play area, and pool with decking. All ground units are wheelchair accessible and all individual units have washer/dryer connections.

Estimated Sources & Uses of Funds

Sources of Funds	
Series 2006 Tax-Exempt Bond Proceeds	$ 5,125,000
Reserves/Escrows Held in Trust	558,463
Other sources-GP Equity	2,133,510

RECOMMENDATION

☒ RECOMMEND APPROVAL OF ISSUANCE OF $5,125,000 IN TAX-EXEMPT MORTGAGE REVENUE BONDS WITH A VARIABLE INTEREST RATE UNDERWRITTEN AT 5.26% AND REPAYMENT TERM OF 30 YEARS WITH A 30-YEAR AMORTIZATION PERIOD, SUBJECT TO CONDITIONS.

---

[1] The Applicant has received a new application number for the subject proposed bond transaction. However, application number 00006T will still be the applicable application number for the 2000 4% tax credit allocation.

CONDITIONS

1. Review, receipt, and acceptance of documentation of the terms of the General Partner's contribution to-date and confirmation that the terms will have no affect on the development's debt service or DCR.
2. Receipt, review and acceptance of a new lender commitment indicating an initial strike cap rate of 4.13% and 1.13% fee stack with a statement regarding a maximum cap rate after year 17.
3. Review, receipt, and acceptance of a commitment documenting the terms for the anticipated loan from the General Partner.

BOND REFUNDING ANALYSIS

The Applicant originally received $7,231,000 in bonds issued by the Capital Area Housing Finance Corporation and a tax credit allocation in 2000 under application number 00006T. The bonds were privately placed with CharterMac Municipal Mortgage for a term of forty years at a fixed interest rate of 7.4%.

The development has been unable to generate sufficient cashflow for the existing debt service and is requesting approval from the Department to refund the existing fixed rate, private placement structure with a variable rate, publicly offered structure in the amount of $5,125,000 at an estimated cap rate of 4.13% and fee stack of 1.13%. The following analysis is an addendum to the original underwriting report, dated January 1, 2000, for Champion's Crossing (aka: San Marcos Apartments #00006T). However, the analysis will not include a recommendation or amendment to the original tax credit amount. Because the subject development has already undergone all construction associated with the original recommendation and has been cost certified by the Department, the construction and development costs of the subject development are not reevaluated. The purpose of this analysis is to determine whether the refunding of bonds and additional proposed financing, per the Applicant's request, will result in a substantial improvement to cashflow and result in a more financially feasible position. In addition, the Underwriter will determine if the proposed financing structure is sufficient to cover the proposed uses of funds.

Of note, the organization structure has been changed since the original underwriting report.

OPERATING PROFORMA ANALYSIS

Income: The Applicant's potential rents were calculated by subtracting tenant paid utility allowances from the 2006 program gross rent limits. No estimate of secondary income was included. The Applicant's vacancy and collection loss was estimated at 20.00% of potential gross income. This estimate includes an economic loss in addition to the typically accounted for vacancy and collection loss. The Underwriter assumes that this is due to the development's historical inability to achieve the maximum 60% net program rents. Lastly, the Applicant estimated rental concessions at $10,608.

The Underwriter's projected rents collected per unit were determined by calculating the estimated average net rent collected per unit based on the Portfolio Management and Compliance Division's Unit Status Report dated August 16, 2006 for the subject development. Therefore, the estimated economic loss due to the anticipated inability to achieve the maximum allowable rents is built into the estimate. The Underwriter estimates secondary income at the Department's standard maximum of $15 per unit per month. The 2005 Applicant submitted income statement for the subject development indicated secondary income significantly above the Department's standard maximum. The Underwriter estimated vacancy and collection loss equal to the Department's standard of 7.50% of potential gross income. Due to the Underwriter's inclusion of the anticipated economic loss into the potential gross rent estimate, the Applicant's estimate of vacancy and collection loss is significantly different from the Underwriter's. Additionally, the Underwriter estimated rental concessions based on the 2005 financial statement submitted by the Applicant. The inclusion of substantial rental concessions in an underwriting report is not typical; however, the Underwriter's estimate is justified by the development's 2004 and 2005 financial statements submitted with the application.

As a result of the differences noted above, the Applicant's estimate of effective gross income is not within 5% of the Underwriter's estimate.

Expenses: The Applicant's total annual operating expense projection at $4,381 per unit is within 5% of the Underwriter's estimate of $4,288, derived from actual operating history of the development as indicated in the 2004 and 2005 financial statements and the 2005 owner's financial certification for the subject development. However, the Applicant's estimate of payroll and payroll tax is 13% or $20K higher than the Underwriter's estimate. Lastly, the Applicant significantly understated TDHCA compliance fees by indicating no expense for this item.

Conclusion: While the Applicant's estimate of operating expenses is within 5% of the Underwriter's estimate, the Applicant's estimates of operating expenses and net operating income are not within 5% of the Underwriter's; therefore, the Underwriter's Year One proforma will be used to determine the development's debt capacity and debt coverage ratio (DCR). The Underwriter's proforma results in a Year One DCR within the Department's current guideline of 1.10 to 1.30. Of note, the Applicant's debt service estimate is significantly different from the Underwriter's. The Underwriter's debt service is based on the lender's underwriting rate of 5.76%, while the Applicant's is based on a rate of 5.25%. This difference is discussed further in the financing structure analysis and is adjusted in the Underwriter's recommended financing structure.

Long-Term Feasibility: The underwriting 30-year proforma utilizes a 3% annual growth factor for income and a 4% annual growth factor for expenses in accordance with current TDHCA guidelines. As noted above, the Underwriter's base year effective gross income, expense and net operating income were utilized resulting in a debt coverage ratio that remains above 1.10 and continued positive cashflow. Therefore, the development can be characterized as feasible for the long-term.

USES OF FUNDS

Due to the unique characteristics of the subject request, the Underwriter has included an analysis of the proposed use of funds. This section essentially replaces the construction cost schedule that is typically analyzed for tax credit/bond transactions. The uses of funds constitutes all debt and equity that is currently held by the partnership plus the anticipated debt and equity that will result from the proposed bond refunding transaction. Of note, the debt and equity currently held by the partnership will past through as a source of funds.

Outstanding Bonds: The Applicant has indicated that the purpose of the bond refunding is to repay the outstanding balance of the original Series 2000 bonds that were issued through the Capital Area Housing Finance Corporation in 2000. The Applicant's uses of funds indicates the full original bond amount of $7,086,471. However, a portion of the original amount has been repaid. Per a signed letter from CharterMac, the remaining balance of the Series 2000 bonds is $7,079,718. Therefore, the Underwriter's uses of funds reflects the amount indicated in the lender's letter. In addition, the subordinate loan from the GP in the recommended financing structure has been adjusted downward by the difference between the Underwriter's and Applicant's estimated remaining bond balance.

Other Uses of Funds: Due to the anticipated financing structure, the Underwriter has assumed that the additional costs associated with the bond transaction and real estate closing claimed by the Applicant are reasonable.

Limited Partner Equity: The Applicant has indicated that the equity contribution to date from the Limited Partner is $3,407,293.

General Partner Funded Deficits: Due to the inability to generate sufficient development cashflow, the GP contributed funds in order to cover any gap between the actual income and expenses and debt service. According to the Applicant, this amounts to $2,277,209 to date. It is unclear, based on the information provided by the Applicant, whether this contribution is in the form of a loan to be repaid over the course of operation or if this amount is forgiven. This is discussed more below, in the financing structure analysis.

Unpaid Developer Fees: The Applicant has indicated unpaid developer fees amounting to $1,484,000. This amounts to 100% of the developer fees included in the Applicant's construction cost schedule used in the original underwriting report.

Conclusions: Due to the unique characteristics of the proposed transaction, the Applicant's use of funds schedule, adjusted for the difference in the outstanding bond balance, will be used to determine whether the Applicant's sources of funds is sufficient.

FINANCING STRUCTURE ANALYSIS

Permanent Bond Refunding: The Applicant anticipates receiving $5,125,000 in tax exempt mortgage revenue bonds from the TDHCA which will be privately placed with CharterMac. There are a number of unresolved inconsistencies and unclear terms in the lender's commitment. First, the lender's commitment indicates an underwriting rate of 5.67%. This is higher than the 4.23% plus 1.13% fee stack. It is unclear to the Underwriter why the financing would be underwritten at a rate higher than the actual interest rate on the debt. Second, it is unclear, based on the terms, what cap rate, if any, will be in place after year 17. Due to these inconsistencies, receipt, review and acceptance of a new commitment or documentation clarifying the initial strike cap rate and all in underwriting rate with a statement regarding a maximum cap rate after year 17 is a condition of this report. Due to the lack of clarity in the commitment, the Underwriter's recommended financing structure has utilized an interest rate of 5.26% (4.13%+1.13%) to determine the annual debt service on the requested bonds. Also of note, CharterMac's commitment reflects a minimum DCR of 1.20. The Underwriter's NOI does not meet this requirement, though the Applicant and presumably the lenders projections do meet this DCR requirement. The Underwriter's DCR meets the Department's requirement based on the actual anticipated maximum interest rate.

Permanent Financing: During correspondence with the Underwriter, the Applicant indicated that the partnership anticipates a subordinate loan from the General Partner. In order to fund a large portion of gap in funds. The Applicant expects that this funding will be repayable from available cashflow, amortized over 365 months, and accruing interest at AFR with a balloon of any unpaid principal and interest at maturity. However, the Applicant did not supply staff with a commitment indicating the anticipated terms. Therefore, review, receipt, and acceptance of a commitment documenting the terms for the anticipated loan from the General Partner is a condition of this report. The capacity of the development to satisfy this debt is questionable as the outstanding balance at maturity could exceed the property value at that time. Nonetheless, the introduction of the proposed structure places the property in a more favorable position than the current structure, which is no longer tenable. Additionally, any savings accrued due to a variable interest rate lower than the cap rate may also be used to repay deferred developer fee or anticipated subordinate debt.

Limited Partner Equity: The Applicant has indicated $3,407,293 in Limited Partner equity to-date. This consists of the proceeds from the syndication of the original tax credits that were allocated during the 2000 4% HTC round.

Other Sources: The Applicant has indicated $558,463 in Reserves/Escrows Held in Trust as a source of funds. In addition, the Applicant has indicated that the General Partner has contributed $2,277,209 in order to fund deficits due to the inability of the development to generate sufficient cashflow to cover expenses and debt service. It is unclear whether this contribution is in the form of a loan to the partnership that must be repaid or if the contribution is forgiven. The Underwriter has assumed that the terms of this contribution will not affect the development's debt service. However, review, receipt, and acceptance of documentation of the terms of the General Partner's contribution to-date and confirmation that the terms will have no affect on the development's debt service or DCR is a condition of this report.

Deferred Developer Fees: Due to the General Partner's significant anticipated subordinate loan, 100% of the $1,484,000 in unpaid developer fees will pass through as deferred developer fee. According to the Underwriter's 30-year proforma, deferred developer fees in this amount should be repayable within 20 years of stabilized operation. While this is above the typical maximum repayment term of 15 years, the development is already in operation; therefore, the exposure to this financing concern is already evident. Additionally, the proposed variable rate structure improves the likelihood that the deferred developer fee can be repaid.

Financing Conclusions: Based on the information provided in the application and through subsequent correspondence, the Underwriter has determined that the Applicant's request for bonds in the amount of $5,125,000 plus the additional anticipated sources of funds will decrease the subject development's debt service sufficient to result in a DCR above 1.10 for 30 years and will provide sufficient funds to repay the remaining balance on the existing Series 2000 bonds allocated to the Applicant in December 2000 and other anticipated costs. However, based on the Underwriter's proforma, it appears that repayment of the deferred developer fees and subordinate debt will extend well beyond the Underwriter's 30-year projection. Despite the uncertainty described above, based on this analysis, the proposed refunding of bonds will yield a significant improvement over the current operational and financial state of the subject development. Therefore, the Department recommends the Applicant's request for bonds in the amount of $5,015,000.

SUMMARY OF SALIENT RISKS AND ISSUES

- The Applicant's estimated income and operating proforma are more than 5% outside of the Underwriter's verifiable ranges.
- Significant inconsistencies in the application could affect the financial feasibility of the development.
- The development could potentially achieve an excessive profit level (i.e., a DCR above 1.30) if the maximum tax credit rents can be achieved in this market.
- The recommended amount of deferred developer fee cannot be repaid within ten years, and any amount unpaid past ten years would be removed from eligible basis.
- An increase in the variable interest rate on the permanent debt could adversely affect the development's DCR and cash flow.

REVIEW of PREVIOUS UNDERWRITING REPORTS

No previous reports.

PROPOSAL and DEVELOPMENT PLAN DESCRIPTION

Description: San Marcos Apartments is a proposed new construction project of 156 units of affordable housing located five miles north of San Marcos. The site plan shows two different building configurations consisting of the following: Building Type I has (16) two-bedroom units, and Building Type II has (10) three-bedroom units and (2) four-bedroom units. Based on the site plan the apartment buildings are distributed evenly throughout the site, with the community building, and swimming pool located near the entrance to the site. A separate laundry building is to be located on the northwest edge of the site. The center of the site is to be occupied by a shallow manmade water feature, which will be supplied by a small natural spring-fed creek, which traverses the site from northeast to southwest.
Supportive Services: No supportive services are planned to be provided to tenants.
Schedule: The Applicant anticipates construction to begin in May of 2000, to be completed and placed in service in April of 2001, and to have substantial lease-up completed in September of 2001.

POPULATIONS TARGETED

Set-Aside: The Applicant has elected the 20% at 50% or less of area median gross income (AMGI) set-aside, but, as all of the units will be tax credit units, the Applicant intends to reserve 100% of the units for households earning 50% or less of AMGI.
Disabled Set-Aside: None of the units are specifically designated to be handicapped-accessible or equipped for tenants with hearing or visual impairments.
Compliance Period Extension: The Applicant has not elected to extend the compliance period.

MARKET HIGHLIGHTS

A market feasibility study dated March 23, 1999 and prepared by The Danter Company was submitted. It had been completed when the project was structured as a 104-unit mixed-income proposal, but was updated with a letter, dated December 15, 1999, addressing the changes proposed by the Applicant. The following are highlights of their findings:
Definition of Market/Submarket: "The Site Effective Market Area [EMA] consists of Kyle, San Marcos, and surrounding areas. The EMA is bounded by the Blanco River to the north, County Highway 150 to the east, and the Hays County line to the south and west." (p.III-2)
Total Regional Market Demand for Rental Units: "...in Hays County...there was a net deficit of 730 units in 1999 inventory. This was preceded by a deficit of 507 units in 1998. In a three-year deficit/surplus analysis, there was a net deficit of 1,725 units." (p. VII-3)
Total Local/Submarket Demand for Rental Units/Effect on Existing Housing Stock: "The 156 proposed units represent a new rental housing alternative for 3.2% of the 4,743 income-appropriate households [in the San Marcos EMA]. This is an excellent ratio. When the existing tax credit units in the market are considered as well, there remains an acceptable ratio of tax credit units to income-qualified households." (Update letter, p. 1) "Most of the support for the project will be generated from tenants in the existing apartment base, particularly those paying rents within an appropriate step of the proposed rents." (p.III-6)
Local Housing Authority Waiting List Information: "As of March 1999, the San Marcos Housing Authority had a total of 78 HUD Section 8 Certificates and 98 Vouchers issued...There is a list of 250 applicants waiting to join the housing authority's HUD Section 8 Certificate/Voucher program." (p. IV-10)
Market Rent Comparables: "Of the three [San Marcos-area] tax credit properties available to families, only [one] offers units operating at 50% (as well as 60%) of area median income levels...The two- and three-bedroom rents for the proposed tax credit units...are significantly lower than the two- and three-bedroom rents at the three existing tax credit family projects...The proposed four-bedroom rent is less than the three-bedroom tax credit rents in the market." (Update letter, p. 2)
Submarket Vacancy Rates: "At 2.8%, the overall vacancy rate is extremely low in the market area, and the market appears limited by supply rather than demand." (p. III-3) In addition, a chart, dated March 1999, shows a vacancy rate of 0% for subsidized apartment units in San Marcos. (p. VI-2)
Absorption Projections: "...absorption of the 156 proposed units is expected to average 11 to 12 units per month, resulting in a 12- to 14-month absorption period. (Absorption could be as high as 17 to 19 units per month in the first few months after opening.)" (Update letter, p. 3)
Other Relevant Information: "...the location of the site (with respect to its proximity to shopping) does have a limiting effect on the marketability of the property. While shopping is not adjacent or nearby, all major shopping is with a 10-minute drive via I-35. We anticipate convenience shopping will develop in the area following the proposed project's completion. Our absorption rate reflects the site's location." (Update letter, p. 2)
Conclusion: The market study provided comprehensive data on 40 apartment complexes, which was used for the analysis of the proposed rents and absorption rate. It is important to note that all 40 of the comparables are located within the city of San Marcos, while the proposed site is five miles from the Central Business District and five miles from the nearest link to public transportation. According to the analyst, this fact was included in the projected absorption rate for the project. However, the analyst failed to provide information about the affordable housing market in the City of Kyle, located around two and a half miles from the site.

The analyst's demand calculations for the proposed units seem to be based almost exclusively on turnover from the existing rental stock. The analyst did estimate the deficit in housing units for Hays county based on annual household growth, but these figures (703 in 1999) include single family developments and fail to factor in income eligibility. Therefore it is difficult to discern how they impact the demand for low-income apartments. In addition, a thorough analysis for the four-bedroom units was not performed. According to the analyst, "There are no existing four-bedroom units...[in the market]." (p. IV-17) Despite these flaws, the market study reasonably concludes that the project is feasible.

SITE and NEIGHBORHOOD CHARACTERISTICS

Location: San Marcos is located in central Texas, approximately 28 miles southwest of Austin in Hays County. The site is a trapezoidal-shaped parcel located in the developing Champion Business Park on the west side of I-35 between San Marcos and Kyle, approximately five miles north of the San Marcos central business district. The site is situated on the southeast corner of Yarrington Road and Post Road. While the Applicant, Market Analyst and this report consistently refer to San Marcos as location of the site, it is actually located in an unincorporated part of Hays County and has a closer (two-mile) proximity to the much smaller city of Kyle.

Population: The estimated 1998 population of San Marcos was 37,269 and is expected to increase by 11% to approximately 41,333 by 2003. The market analyst indicated that the estimated 1998 population of the effective market area was 76,737 and is expected to increase by 11% to 85,418 by 2003.

Adjacent Land Uses: Adjacent land uses are all undeveloped or farm property. Undeveloped Champions Business Park lots are to the north, east, and south, and undeveloped farm land is to the west. A small creek and Yarrington Road bound the site to the north, Post Road (Old State Route 2) and Union Pacific railroad tracks to the west, Premier Parkway to the east, and Champions Parkway to the south.

Site Access: Access to the property is from the east along Yarrington Road or Champions Boulevard or the south from Post Road or Perimeter Parkway. Interstate Highway 35 runs 0.4 miles east, which provides access to San Marcos and Kyle as well as Austin and San Antonio.

Public Transportation: Not available. The closest link to public transportation, provided by the San Marcos Transit System, is five miles south of the site.

Shopping & Services: Due to the site's location in a developing business park several miles north of San Marcos, no shopping or services are within walking distance. All of San Marcos' facilities, including shopping centers, major employers, the Central Texas Medical Center, and Southwest Texas State University are located within ten miles. The Applicant has indicated that a related entity has recently closed on a transaction with Albertson's for a grocery anchored neighborhood shopping center approximately 2 miles north of the site.

Special Adverse Site Characteristics:

1. A large electrical power substation is adjacent to the northwest corner of the site, and an underground petroleum pipeline bisects the site from northeast to southwest. Active railroad tracks run along the western boundary of the site.
2. The title commitment lists a Vendor's Lien of $276,000 and a Deed of Trust, securing a promissory note of $1,250,000, that must be cleared by the closing.

Site Inspection Findings: Two TDHCA staff members performed a site inspection on December 7, 1999 and found the location to be *marginally acceptable* for the proposed development due to the following conditions:

- The distance to major retail areas (ten miles), grocery/pharmacy (six-seven miles), educational, and other services,
- The site's location in a developing business park five miles north of San Marcos,
- The lack of links to public transportation (five miles away in San Marcos),
- The large electrical power substation located at the northwest corner of the site,
- The underground petroleum pipeline traversing the site, and
- The railroad tracks running along the western site boundary.

None of these significant negative site attributes can be easily mitigated. According to the inspectors, this project would be a pioneering development since it would, for the time being, stand alone as the only new development activity of any kind visible in the immediate area.

HIGHLIGHTS of SOILS & HAZARDOUS MATERIALS REPORT(S)

A Phase I Environmental Site Assessment report dated March 16, 1999 was prepared by HBC Engineering, Inc. and contained the following findings and recommendations:

Findings:

- "Easements identified for the site consisted of one pipeline easement...the pipeline is 12 inches in diameter, of a carbon and steel construction, and is currently idle and purged with nitrogen. The pipeline was installed in 1928 and transported crude oil until approximately 1991...No evidence of a release was noted at the time of the site visit." (p. 1)
- "Numerous piles of landscaping debris and a few piles of solid waste debris, including furniture, empty five-gallon containers, carpet, and bottles, were noted in the northeast and eastern portions of the site. No obvious indications of hazardous substances, wastes, or chemicals were noted among the debris. One water well and cistern were observed in the eastern portion of the site." (p. 14)

Recommendations: "It is recommended that solid waste identified onsite during the site visit be removed and disposed of at an authorized facility; and if no further use is intended for the water well, it should be plugged and abandoned according to applicable regulations.

"Based on the results of this assessment, no further environmental investigation is recommended. "(p. 15)

OPERATING PROFORMA ANALYSIS

Income: The Applicant's rent projections were the maximum 1999 rents allowed under LIHTC guidelines. Potential gross rent based on these 1999 limits was understated by $713 due to small rounding errors on utility allowances. On March 9, 2000 HUD released the 2000 income limits from which the 2000 rents are derived. Based on the market study's confirmation that the earlier projected rents were well below the market and the Applicant's request to raise the rents to the maximum 2000 level, an additional $76k in effective gross income can be achieved.

Expenses: The Applicant's total expense estimate of $3.07 per square foot is 5% lower than the TDHCA database-derived estimate of $3.23 per square foot for comparably sized projects. However, several line items differ considerably. The Applicant's general and administrative expense is understated by $31K, and payroll is understated by $10K. The Applicant's repairs and maintenance are also understated by $41K, while water, sewer and trash are overstated by $27K. Finally, property taxes are 35% higher than the TDHCA database derived number.

Conclusion: The Underwriter's estimated debt coverage ratio (DCR) utilizing the 2000 rents is 1.18 but the Applicant's DCR estimate utilizing the 1999 rents is 1.09 and less than the program minimum standard of 1.10. But for the increase in the 2000 rents, the Underwriter's analysis would reflect that a reduction in their 1st lien bond debt would be warranted.

CONSTRUCTION COST ESTIMATE EVALUATION

Land Value: Although the buyer and seller are related entities, the sale price was substantiated by a third party appraisal, which will be discussed in detail in the Identities of Interest section of this report.

Off-Sites: The Applicant understated city-required wastewater infrastructure costs by $29K, according to a 4/19/99 letter from the City of San Marcos. Also, the appraisal makes reference to water and wastewater services that are already provided by the City of Kyle. Because the Applicant has chosen to have service provided by the City of San Marcos, a letter from the City of Kyle stating their intention to relinquish their right to service the site is necessary for clarification.

Sitework Cost: Sitework costs at $7,000 per unit appear to be overstated compared to the typical range of $4,000 to $6,000 per unit; no independent engineer's estimate of such costs was provided to justify the Applicant's estimate. The Applicant attributes the elevated costs to the need for soil stabilization and drainage improvements and states that the city is requiring the installation of on-site fire hydrants at the Applicant's expense, but the Applicant did not provide evidence of these requirements. Therefore the TDHCA side will reflect a cost of $6,000 per unit. A third party verification of costs in excess of this amount has been requested and could increase the amount of eligible basis, and therefore credits, recommended.

Direct Construction Cost: The Applicant's direct construction cost estimate is 4.2% higher than the TDHCA estimate based on the Marshall & Swift *Residential Cost Handbook*.

The Applicant's general requirements, contractor's general and administrative fees, and contractor's profit exceed the 6%, 2%, and 6% maximums allowed by LIHTC guidelines by $125K based on the

Applicant's overstated eligible basis. The Applicant's original application also included an additional $250,000 of contractor fees that were properly itemized in the cost breakdown but rolled into eligible construction costs on the project cost schedule. Moreover, when compared to the Underwriter's lower sitework and construction costs, the Applicant's contractor fees are overstated by $182K.
Conclusion: The Applicant's original cost breakdown and project cost schedule were not properly calculated and were inconsistent between themselves. The Underwriter has solicited additional information clearing most of these inconstancies but receipt of correct revised schedules is a condition of this report. Because of the significant discrepancies, the Underwriter's eligible basis estimate will be used to recommend a tax credit amount.

FINANCING STRUCTURE ANALYSIS

The Applicant intends to finance the development with three sources of financing: mortgage revenue bond proceeds, syndicated LIHTC equity, and deferred developer's fees.
Bonds: The bonds are tax-exempt private activity mortgage revenue bonds to be issued by the Capital Area Housing Finance Corporation, and placed privately with the Charter Municipal Mortgage Acceptance Company (Charter/MAC). The aggregate face amount is estimated to be $7,118,216, to be amortized over 40 years at a 7.375% interest rate. The bond proceeds will be used for both construction and permanent financing, with Charter/MAC providing a letter of credit during the construction period to secure the bonds. There is some concern based on earlier conversations with the consultant that Charter/MAC would reduce the bond amount based on their underwriting, which, as of the writing this report, has not yet been completed. A subsequent change in the amount of the approved bond financing may affect the recommendations of this report.
LIHTC Syndication: Related Capital Company has offered terms for syndication of the tax credits. The commitment letter shows net proceeds are anticipated to be $4,480,000 based on a syndication factor of 83%. The funds would be disbursed in a four-phased pay-in schedule:

1. 65% upon admission to the partnership;
2. 15% upon completion of construction ;
3. 10% upon final closing of the permanent mortgage loan and the project's achievement of breakeven operating status;
4. 10% upon receipt of IRS Forms 8609.

The Underwriter's analysis reflects a significantly lower eligible basis of $10,333,697 (a reduction of 10%) compared to the originally overstated amount in the application. This will result in a credit recommendation of 507,798 or a 6% reduction. The reduction was tempered by the higher applicable percentage utilized for underwriting this month, of the current rate (3.68%) plus 10 basis points.
Deferred Developer's Fees: The Applicant anticipates a deferred developer's fee of $943,006. This amount can be repaid from future available cashflows. The Underwriter's lower total development cost estimate reflects a significantly reduced deferred developer fee of $195,710.

REVIEW of ARCHITECTURAL DESIGN

Exterior Elevations & Amenities: The exterior elevations are quite simple, with 100% Hardiplank exteriors and minimal architectural ornamentation on the apartment buildings. The community building elevations are more attractive, with covered front and back porches with railings and 30% stone veneer accents. All units are of average size for market rate and LIHTC units, and have either covered patios or balconies with small outdoor storage closets. All units have utility closets with hookups for full-size appliances. The siteplan reflects that the rear of one building will look over the adjacent power substation.
Unit Floorplans:

1. Entry to the two-bedroom unit is directly into the living area, with the designated dining area and the U-shaped kitchen adjoining. The utility closet and a storage closet are off the dining area. A hallway from the living area leads to the bedrooms and bathrooms. One bathroom is accessible from the living area and has a linen closet. The master bedroom has a walk-in closet and the secondary bedroom has a conventional closet. The balcony and outdoor storage closet are accessed from the living room by a sliding glass door.
2. The three- and four-bedroom units are arranged similarly to the two-bedroom unit, with the additional bedrooms placed off the central hallway. In the three-bedroom unit, all bedrooms have conventional

closets, and in the four-bedroom unit the master bedroom unit again has a walk-in closet.

IDENTITIES of INTEREST

The principals of the Applicant also own the seller of the land, Plum Creek Partners II, Ltd. Butler-Burgher, Inc. provided an appraisal, dated December 2, 1999.

- "Title to the subject is currently vested in Plum Creek Partners II, Ltd., which acquired ownership on June 3, 1997 from G.W. Broesche. This transaction is recorded in Volume 1319, Page 730 of the Hays County Deed Records. Conversations with Mr. Matt Q. Hainline of the partnership revealed that this transaction involved a total of 53.226 acres, 13.524 acres of which constitute the subject, and that the total consideration was $450,000." (p. 5)
- "...the site has been granted 'bond reservation' by the Texas Bond Review Board to accommodate multi-family development, which is difficult, time-consuming and expensive to obtain. Moreover, it is site specific and non-transferable. Therefore, this approval has a significant impact on the highest and best use of the vacant tract." (p. 38)
- "The focus of this research was sites that were purchased for multi-family development in and proximate to the City of San Marcos." (p. 41)
- "In the valuation process, attempts were made to abstract from the market specific percentages to support each of the dissimilarities among the comparable sales that could be applied in the analysis and adjustment process...the required adjustments are based on paired analysis as well as the appraisers' historic observances." (p. 42)
- "The closed transactions analyzed herein transpired between October 1996 and July 1998...Market conditions during the time period elapsed between the sales date and today suggest an upward trend in land prices...Sales 1 through 3 were adjusted upward 1% per month from their respective dates of sale through November 1999." (p. 43)
  - 37% adjustment for Sale 1,
  - 31% adjustment for Sale 2, and
  - 16% adjustment for Sale 3
- "Pending Contract 4 was rated superior to the subject and the remaining data as the purchaser of this tract has made closing contingent upon obtaining zoning to accommodate multi-family development. When compared to Sales 1 through 3, it appears that the purchaser is paying a premium to have entitlements in place prior to closing. As such, Sale 4 was adjusted downward 25%..." (p. 44)
- "Sale 1...is within walking distance of the [Southwest Texas State University] campus and, therefore, was rated most superior to the subject with regard to general location...As such, it was adjusted downward 40%.

  "Sales 2 and 4 are located east of campus, but along or proximate to Aquarena Springs Road...the student shuttle bus runs along this arterial...Sales 2 and 4 were rated superior to the subject overall with regards to general location...Sales 2 and 4, therefore, were adjusted downward only 35%.

  "Sales 3 is located west of campus...it was adjusted downward only 25%." (p. 45)
- "The data utilized indicate...an average adjusted price of $3,961 per developable unit. Sale 3, however was given most weight in reconciling the data into a value indication for the subject as it required the least net adjustment and represents the most recent closed transaction...we have reconciled to a land value of $4,000 per developable unit...On this basis, the Market Value of the fee simple interest in the subject, "as is", as of November 24, 1999, is...[$375,000]." (p. 46)

Conclusion: Since the value of the land is the primary concern of the appraisal, the use of value per developable unit was a poor choice. Calculations on a per acre or per square foot basis would have been more desirable. In addition, the comparables used in the valuation were all located within the City of San Marcos whereas the proposed site is located five miles from the Central Business District and the nearest link to public transportation. Based on the adjustments necessary in the comparison of the land sales, most over 25%, more similar comparable sales would have been preferred. However, the appraiser attempted to compensate for this by placing the most weight on Sale 3 because it required the least amount of adjustment. A strict prorata of the original land purchase would result in a land value of $114,339 or $260,661 less than what is currently being proposed. While this is a significant percentage increase in value in the strictest interpretation, the absolute amount of this difference is not significant. In addition the strict interpretation does not account for the three-year holding time and additional marketing and development since acquisition. Most importantly, the amount of this potential additional profit will be forced to be deferred based on the Underwriter's analysis of deferred developer fee and therefore does not significantly affect the determination of the tax credit recommendation.

APPLICANT'S/PRINCIPALS' FINANCIAL HIGHLIGHTS, BACKGROUND, and EXPERIENCE

Financial Highlights: The Applicant is a new entity formed for the purpose of developing the project, and as such no financial information was provided.
Background & Experience: Mr. Hainline and Mr. Albini, the Principals of the Applicant, both state that they have no previous experience providing affordable housing. A general contractor has not been selected.

RECOMMENDATION

☑ RECOMMEND APPROVAL SUBJECT TO THE FOLLOWING CONDITIONS:

- Receipt, review, and acceptance of revised project cost schedule and project cost breakdown consistent with this report,
- Receipt, review, and acceptance of confirmation from the City of Kyle as to their understanding and agreement that the City of San Marcos will provide water and sewer service to the site,
- Recommendation that tax credits are reduced to not more than $507,798 subject to revision if a third party engineer verifies site work costs in excess of $6,000 per unit. Such an increase should not exceed $7,666 in additional credits.

TEXAS DEPARTMENT OF HOUSING AND COMMUNITY AFFAIRS

MULTIFAMILY HOUSING REVENUE REFUNDING BONDS
CHAMPION'S CROSSING APARTMENTS
SERIES 2006

PUBLIC HEARING

Kyle Elementary School
500 West Blanco
Kyle, Texas

Tuesday
May 23, 2006
6:00 p.m.

BEFORE:

TERESA MORALES, Multifamily Bond Administrator

P R O C E E D I N G S

MS. MORALES: Good evening. My name is Teresa Morales, and I would like to proceed with the public hearing. Let the record show that it is 6:11 p.m. on Tuesday, May 23, 2006, and we are at the Kyle Elementary School, located at 500 West Blanco, Kyle, Texas.

I'm here to conduct the public hearing on behalf of the Texas Department of Housing and Community Affairs with respect to an issue of tax-exempt multifamily rental housing mortgage revenue bonds. This hearing is required by the Internal Revenue Code.

The sole purpose of this hearing is to provide a reasonable opportunity for interested individuals to express their views regarding the development and the proposed bond issue. No decisions regarding the development will be made at this hearing.

The Department's board is scheduled to meet to consider the transaction on July 28, 2006. In addition to providing your comments at this hearing, the public is also invited to provide comment directly to the board at any of their meetings. The Department staff will also accept written comments from the public up to 5:00 p.m. on July 14, 2006.

The bonds will be issued as tax-exempt

multifamily mortgage revenue bonds in the aggregate principal amount not to exceed 4,550,000 and taxable bonds, if necessary, in an amount to be determined. The bonds will be issued in one or more series by the Texas Department of Housing and Community Affairs, the Issuer.

The proceeds of the bonds will be loaned to South Creek Housing, Ltd., or a related person or affiliate entity thereof, for the following purposes: Paying a portion of the costs of issuing the 2000 bonds, and refunding a portion of the Multifamily Mortgage Revenue Bonds, Champion's Crossing Apartments, Series 2006, the proceeds of which were loaned to South Creek Housing, Ltd.

The multifamily rental housing community will be initially owned and operated by South Creek Housing, Ltd., or a related person or affiliate entity thereof.

I would like to now open the floor for public comment. Are there any individuals present who wish to make a comment on the record?

(Pause.)

MS. MORALES: Okay. With that being said -- and there are no attendees this evening -- the meeting is now adjourned. And the time is 6:14 p.m.

(Whereupon, at 6:14 p.m., this public hearing was concluded.)

MULTIFAMILY FINANCE PRODUCTION DIVISION

BOARD ACTION REQUEST

August 30, 2006

Action Items

Presentation, Discussion and Possible Approval of the Housing Trust Fund Predevelopment Loan Program Policy and Notice of Funding Availability (NOFA).

Required Action

Approve, Deny or Approve with Amendments the Housing Trust Fund Predevelopment Loan Program Policy and NOFA.

Background

The Predevelopment Loan Program was developed in 1998 as a response to public input to provide a source of public investment to qualified nonprofit developers. The program provides nonprofit developers the means to fund predevelopment activities, often paid for by investors for for-profit developers. Examples of these activities include market studies, architectural and engineering studies, feasibility analysis, legal fees and consulting fees. These activities are necessary for submitting applications for Housing Tax Credits, Multifamily Mortgage Revenue Bonds and other multifamily and single family development programs. The program also assists in the Department's fulfillment of statutory requirement (§2306.202 Texas Government Code) to fund developments owned and developed by nonprofit entities. The program, through its funding of predevelopment activities, has helped to facilitate the creation of more than $34 million in affordable housing development for an investment of less than $3 million over the past 8 years.

The 2006 HTF Predevelopment Loan Program highlights include:

- Award maximum of $50,000 per development
- Applicants limited to no more than $100,000 in total outstanding predevelopment debt
- Mandatory repayment condition for any future Department funding for the applicant and/or ownership entities
- For the first thirty days of the Application acceptance period the Department will accept and consider Applications on a competitive basis, utilizing the Regional Allocation Formula. After the thirtieth day of the Application acceptance period, Applications will be reviewed on a first-come first-served basis, in accordance with §7 of the NOFA.
- If approved, the NOFA will be published in the September 18, 2006 edition of the *Texas Register.*
- The deadline for accepting applications under the competitive cycle will be October 17, 2006.
- The deadline for accepting applications under the open cycle will be November 30, 2006.

Recommendation

Staff recommends that the Housing Trust Fund Predevelopment Loan Program Policy and NOFA be approved as presented.

HTF Predevelopment Loan Program

2006 Program Policy and Notice of Funding Availability

1) **Policy Summary**

   a) The Texas Department of Housing and Community Affairs (the Department), through its Housing Trust Fund (HTF), is pleased to announce the availability of **Four Hundred Thousand Dollars ($400,000)** to provide preliminary capital to qualified nonprofits and Community Housing Development Organizations (CHDOs) involved in the development of affordable housing. The program provides funds in the form of zero percent (0%) interest loans for predevelopment expenses including market studies, site plans, architectural and engineering studies, and other pre-construction expenses allowed by the Department's rules and this program Policy and Notice of Funding Availability (NOFA). Predevelopment loans are required to be repaid out of construction and permanent financing resources, cash reserves, financial guarantees, or through the capture of collateral. Amendments, restructuring or forgiveness of predevelopment loans can only be granted by the Department's Board of Directors and may result in borrowers being ineligible or debarred from the Department's other programs.

   b) Approved borrowers will execute a promissory note with the Department agreeing to comply with all statutory, regulatory, and other legal requirements applicable to the Housing Trust Fund, and to execute their proposed development as depicted in their Application for funding.

2) **Allocation of Funds**

   a) This program will be regionally allocated. For the first thirty days of the Application acceptance period the Department will accept and consider Applications from all urban/exurban areas and rural areas of each uniform state service region. If more than one Application is submitted from any urban/exurban or rural area of one state service region during the first 30 days, the Application with the highest score will be awarded funds. If insufficient funds are available to fund both an urban/exurban and rural area Application, the rural area Application will be given priority. In the case of a scoring tie, the Applicant with the highest cash assets to liabilities ratio, calculated in during the loan grading process, will be used to determine the award. After the thirtieth day of the Application acceptance period, Applications will be reviewed on a first-come first-served basis, in accordance with §7 of this NOFA.

   b) All funding allocated but not awarded through this program will be deobligated and made available for use by other HTF programs on or before March 31, 2007.

3) Eligible Applicants

a) Applicants must be entities that meet the definition of a Nonprofit Organization as defined in 10 TAC §51.2(17). Applicants must have been established in the State of Texas and be actively registered with the Texas Secretary of State. Applicants will be required to submit an active determination letter from the Internal Revenue Service.

b) Applicants must have, and will be required to submit, at least two full years of audited financial statements or two years of filings with the Internal Revenue Service, and will be required to submit them in the Application process. An operating budget approved by the governing body of the nonprofit for 2005 or 2006 will also be required. Organizations with less than two full years of financial statements will not be eligible for funding.

c) The Department will require that a release of credit information be provided for all Persons affiliated with the Applicant and Guarantor of the Application, including all Board members of the Applicant. Applicants will be ineligible for funding if they have defaulted or required extensions to HTF predevelopment loans during the past year. Applicants who have any finding of material non-compliance or delinquent contracts with TDHCA, or meet any of the criteria under 10 TAC §51.5(d) will not be considered for funding.

d) Applicants will be evaluated on experience, pursuant to 10 TAC §50.9(g), in the evaluation process. Applicants are encouraged to form partnerships between qualified nonprofit organizations to meet experience requirements. Partnerships must be formed and registered with the Texas Secretary of State. The managing general partner must also have effective control (i.e. 51% ownership or greater) over the partnership, as determined by the Department.

4) Eligible Activities

a) Pursuant to §2306.202 of the Texas Government Code, the Housing Trust Fund's Predevelopment Loan program supports the development of affordable housing by providing zero percent (0%) interest loans. The maximum term for all loans will be 24 months. An interest rate of 18% or the maximum allowed under state law will be charged on all unpaid principal or interest, if any, after 24 months. Applicants must be proposing to develop housing for low-income Texans earning 80% or less than the Area Medium Family Income (AMFI) for their target community. Additionally, at least 50% of all planned units must be affordable to persons earning at least 60% or less of the AMFI, pursuant to 10 TAC §51.3(e).

b) Applicants may propose affordable rental or homeownership developments. All housing developed as a result of predevelopment funds must also meet all state and local building codes as detailed in the Application materials.

c) At a minimum, Applicants will be required to complete the following activities using predevelopment funding:

   i) Market Study. A market analysis must be complete by a third party provider approved by the Department, pursuant to 10 TAC §1.33.

   ii) Environmental Assessment. A Phase I Environmental Site Assessment must be completed by a third party provider, pursuant to 10 TAC §1.35.

iii) Property Condition Assessments. For development proposals involving the rehabilitation of existing residential structures, a Property Conditions Assessment completed by a third party provider pursuant to 10 TAC §1.36.

d) Additional eligible activities and expenses that the Department determines to be eligible and necessary may include, but are not limited to:

   i) consulting and legal fees (not more than 15% of the predevelopment loan amount);

   ii) architectural and engineering fees;

   iii) site control, option extensions and title clearance; and

   iv) zoning approvals.

e) Predevelopment costs do not include general operational or administrative costs, staff salaries, or any other cost deemed ineligible by the Department, pursuant to 10 TAC §51.2(21)(c). Predevelopment loans may not be used for previously funded expenses, unless approved by the Department and included in the promissory note and final budget.

5) Threshold Criteria

a) To ensure that each Application meets the Department's regulations, the Applicant must be prepared to complete their proposed Development and have the financial resources to repay the Department's loan. Applicants will be required to complete and submit the following threshold criteria:

   i) Evidence of Property Control. Applicants must submit documentation that they have legal control over the proposed development site. Evidence must be in the name of the Applicant. The site control must be valid for a period not less than 6 months from the date of the Application submission and have an option to extension clause guaranteeing the rights of the Applicant for at least one full year from the date of Application submission. Evidence of Site control must be provided in the following manner:

      (1) a recorded warranty deed; or

      (2) a contract for lease (the minimum term of the lease must be at least 45 years) which is valid for at least one year from the date of Application submission; or

      (3) a contract for sale, an exclusive option to purchase or earnest money contract (which must show that the earnest money has been deposited) that is valid for six months with option to extension for at least one year from the date of Application submission.

   ii) Ownership Agreements. Applicants applying in partnership with qualified nonprofit entities, must submit their signed and notarized partnership agreements, and a Certificate of Good Standing from the Texas Comptrollers Office. Partnerships involving qualified CHDO applicants must state that the CHDO partner is the Managing General Partner and control at least 51% of the voting rights of the partnership.

   iii) Credit Worthiness and Financial Statements. Applicants will be required to submit an Authorization to Release Financial Information and Financial Statement certification forms for all Persons with a controlling interest in the Applicant and Partnership, pursuant to 10 TAC §50.9(h)(13). Pursuant to 10 TAC §50.3(58), Person shall include any natural person or group of Persons acting in concert toward a common goal. Therefore each member of the Applicant's Board of Directors, its Executive Members and Executive Director will be required to submit an Authorization to Release Financial Information and Financial Statement Certification form.

iv) Previous Participation. Applicants will be required to submit executed Previous Participation and Background Certification and National Previous Participation and Background Certification forms, pursuant to 10 TAC §50.9(h)(9)(C & D).

v) Projected Proformas and Budgets. Applicants will submit a brief operating proforma and development cost schedule. This information will be used to complete a basic financial feasibility review of the development. Additionally, a development timeline will be submitted and used to determine the anticipated date of completion of the development and repayment timeline for the Predevelopment loan.

vi) Relocation. Pursuant to §2306.203(4) of the Texas Government Code, funds may not be made available to a Development that permanently and involuntarily displaces individuals and families of low income. Applicants will be required to certify that no low-income families will be displaced as a result of the predevelopment Application and ultimately the final development.

vii) Length of Affordability. Pursuant to §2306.203(6) of the Texas Government Code, Applicants proposing to develop multifamily housing will be required to guarantee that the Development will remain affordable to income qualified families or individuals for a period of 20 years. Applicants will be required to certify to this criteria and record a Land Use Restriction Agreement (LURA) at the time the Development site is purchased. If the Applicant already owns the Development Site, a 20 Year LURA will be recorded at the time of closing of the Predevelopment Loan. LURAs will contain exemption clauses to allow for the dispossession of properties in the case that the proposed Development is not initiated or completed.

viii) Development Standards. Applicants will submit general information regarding the size, type and amount of housing proposed for development. All Development proposals must meet the Department's Development Standards, located at 10 TAC §50.5(c), and cannot be considered Ineligible Building Types, pursuant to 10 TAC §50.3(49). Ineligible Building Types include, but are not limited to:

(1) Hospitals, nursing homes, trailer parks, dormitories (or other buildings that will be predominantly occupied by students) or other facilities which are usually classified as transient housing other than certain specific types of transitional housing for the homeless and single room occupancy units;

(2) Any Qualified Elderly Development or age restricted buildings in Intergenerational Housing Developments of two stories or more that does not include elevator service for any Units or living space above the first floor;

(3) Any Qualified Elderly Development or age restricted buildings in Intergenerational Housing Developments with any Units having more than two bedrooms;

(4) Any Development with building(s) with four or more stories that does not include an elevator; and

(5) Any Development proposing New Construction, other than a Development (New Construction or Rehabilitation) composed entirely of single-family dwellings, having more than 5% of the Units in the Development with four or more bedrooms.

ix) Integrated Housing. Applicants may not propose Development's that violate 10 TAC §1.15. In summary, proposed Developments may not restrict occupancy solely to people with disabilities or people with disabilities in combination with other special needs populations in the following manner:

(1) Large Developments (50 or more units) that reserve more than 18% of its units for persons with disabilities;

(2) Small Developments (less than 50) that reserve more than 36% of its units for persons with disabilities;

(3) Applicants may not market entirely, nor limit occupancy to, persons with disabilities;

(4) Applicant's should note that certain exceptions apply to this rule, and should reference 10 TAC §1.15 for further details.

x) Accessibility. Applicants will be required to certify that all housing built as a result of the predevelopment loan meet the following accessibility standards:

(1) Single Family housing will meet all accessibility requirements outlined at §2306.514 of the Texas Government Code;

(2) Multifamily housing will meet all accessibility requirements of §504 of the 1973 Federal Rehabilitation Act;

(3) All housing will meet all accessibility requirements of the Federal Fair Housing Act; and

(4) All common areas, leasing offices and community spaces will meet the accessibility requirements of the American's with Disabilities Act.

xi) Resolution Requirements. The Department requires that all Applications submitted must include a resolution from the applicant's direct governing body (Board of Directors or Members of the General Partnership) authorizing the submission of the Application and detailing the correct signatory authority and title block for all contracts and commitments.

xii) Audit Requirements. An applicant is not eligible to apply for funds or any other assistance from the Department unless audits are current or the Audit Certification Form has been submitted to the Department in a satisfactory format on or before the Application submission date per 10 TAC §1.3(b). This is a threshold requirement outlined in the Application, therefore, Applications that have past due audits will be disqualified. Staff will not recommend Applications for funding to the Department's Governing Board unless all unresolved audit findings, questioned or disallowed costs are resolved per 10 TAC §1.3(c).

xiii) Employment Opportunities. Pursuant to 10 TAC §51.8(a), in connection with the planning and carrying out of any project assisted under the Housing Trust Fund, to the greatest extent feasible, opportunities for training and employment shall be given to low, very low, and extremely low-income persons residing within the area in which the project is located. Applicants will certify to this in the Application.

xiv) Conflict of Interest. Applicants will certify that no conflicts of interest are present or shall occur after the time of award, pursuant to 10 TAC §51.8(b).

xv) Public Notifications. Pursuant to 10 TAC §52.6(j), Applicants for Rental Development activities will be required to provide written notification to each of the following persons or entities 14 days prior to the submission of any Application package. Failure to provide written notifications 14 days prior to the submission of an Application package will cause any Application to be terminated. Applicants must provide notifications to:

(1) The executive officer and elected members of the governing board of the community where the development will be located. This includes municipal governing boards, city councils, and county governing boards;

(2) All neighborhood organizations whose defined boundaries include the location of the Development;

(3) Executive officer and board president of the school district that covers the location of the Development;

(4) Residents of occupied housing units that may be rehabilitated, reconstructed or demolished; and

(5) The State Representative and State Senator whose district covers the location of the Development.

(6) The notification letter must include, but not be limited to, the address of the development site, the number of units to be built or rehabilitated, the proposed rent and income levels to be served, and all other details required of the NOFA and Application Manual.

6) Review Process

a) Pursuant to 10 TAC §51.6(c), Applications received by the Department in response this NOFA for housing development activities will be handled in the following manner:

i) The Department will accept Applications on a competitive basis from September 18, 2006 through October 17, 2006. All Applications must be received during business hours and no later than 5:00 p.m. on any business day. Applications received at this time will be reviewed and processed pursuant to 10 TAC §51.6(e).

ii) Each Application received after October 17, 2006 will be handled on a first-come, first-served basis as further described in 10 TAC §51.6(c). Each Application will be assigned a “received date” based on the date and time it is physically received by the Department. Each Application will be reviewed for Eligibility and Threshold Criteria. Applications will continue to be prioritized for funding based on their “received date” unless they do not proceed into the next phase(s) of review. Applications proceeding in a timely fashion through a phase will take priority over Applications that may have an earlier “received date” but that did not timely complete a phase of review.

iii) All Applications that successfully pass through the Eligibility and Threshold criteria reviews will be scored and given a loan rating. All Applications (competitive or open cycle) will be required to obtain a minimum score as detailed in §7 of this NOFA and Program Policy to be recommended for funding to the Department's Board.

iv) Applications that complete the review and evaluation process, and obtain the minimum score and loan grade necessary to be recommended to the Board during the competitive review process could be awarded at the Department's December 14, 2006 meeting. Applications that complete the review and evaluation process, and obtain the minimum score and loan grade necessary to be recommended to the Board during the open cycle review process may be awarded at the first meeting following 21 days from the completion of the review process.

v) The deadline to submit an application under this NOFA is November 30, 2006.

b) Because Applications will be prioritized by "received date," after October 17, 2006 it is possible that the Department will expend all available funds before an Application has been completely reviewed. If all funds are committed before an Application has completed all phases of the review process, the Department will notify the applicant that their Application is no longer under consideration and in the event of future funding, they would be required to reapply. If on the date an Application is received by the Department, no funds are available under this NOFA, the applicant will be notified that no funds remain under the NOFA and that the Application will not be processed.

c) The Department may decline to consider any Application if the proposed activities do not, in the Department's sole determination, represent a prudent use of the Department's funds. The Department is not obligated to proceed with any action pertaining to any Applications which are received, and may decide it is in the Department's best interest to refrain from funding any Application. The Department reserves the right to negotiate individual elements of any Application.

d) If an Application contains deficiencies which, in the determination of the Department staff, require clarification or correction of information submitted at the time of the Application, the Department staff may request clarification or correction of such Administrative Deficiencies including both threshold and/or scoring documentation. Applicants will have 7 business days to correct deficiencies, pursuant to 10 TAC §51.6(c), before losing their "received by" date.

7) Selection Process

a) For the first thirty days of the Application acceptance period the Department will accept and consider Applications from each state service region. If more than one Application is submitted from any one state service region, the Application with the highest score will be awarded funds. If more than one Application is submitted from any urban/exurban or rural area of one state service region during the first 30 days, the Application with the highest score will be awarded funds. If insufficient funds are available to fund both an urban/exurban and rural area Application, the rural area Application will be given priority. In the case of a scoring tie, the Applicant with the highest cash assets to liabilities ratio, calculated in during the loan grading process, will be used to determine the award. After the thirtieth day of the Application acceptance period, Applications will be reviewed and recommended to the Board in accordance with the Open Cycle Application rules as outlined at 10 TAC §51.6(c). Additionally, all Applications will be scored and given a loan grade. Applications will be required to obtain a minimum score of 35 points to be recommended for funding to the Department's Board. Pursuant to §2306.203 of the Texas Government Code, the criteria used for scoring will include:

i) Leveraging of Federal Resources. Applicants will receive 10 points for providing evidence that their Development has received a commitment of Federal Financial assistance through a branch of local, state or national government for the proposed Development in the Application.

ii) Cost-Effectiveness of a Proposed Development. Applicants will receive 10 points for Developments that do not exceed $70 per square foot for new construction and $38 per square foot for rehabilitation. These numbers are the target average Development costs the Department currently uses for its Legislative Budget Performance Measures.

iii) Very Low Income Targeting. Applicants will receive 10 points for proposed developments that provide at least 50% of units to families or individuals earning 50% or less of the area medium income (AMI).

iv) Developments in Rural Areas. Pursuant to §2306.203(5)(A) of the Texas Government Code, special emphasis will be placed on allocating funds to Developments located in rural areas. Under this NOFA, Developments located in rural areas, as defined by the Departments Housing Needs Characteristics list, will receive 8 points.

v) Developments located in High Needs Areas. Pursuant to §2306.203(5)(B), of the Texas Government Code, consideration of the number and percentage of income-qualified families in different geographical areas will be taken in the allocation of funds. Under this NOFA, Applicants will receive up to 7 points based on the Affordable Housing Needs Score (AHNS) for the place or location of the Development site. The AHNS list will be provided in the Application materials.

vi) Applicants will receive 5 points for proposed Developments that will build at least 20% of their units to be accessible per the applicable accessibility standard.

b) Loan ratings for Applications will be based on a scale from A to D, A being the highest obtainable score. The loan grade will be based on the accumulation of points from the following categories:

i) Ability to Pay. This section represents the organization's ability to generate revenues that exceed expenses, sufficient cash flows to service debts, and meet all internal needs for cash while continuing routine operations. The information needed to support this scoring item is contained in the applicant's audited financial statements, credit reports and other financial documentation.

(1) Applicant receives a score of 3 if:

(a) The Applicant's current assets-to-liabilities ratio (current assets divided by current liabilities) is greater than 2:1;

(b) The Applicant's long-term debt ratio (total long-term debt divided by total assets) is less than 75%;

(c) The Applicant's short-term debt ratio (the sum of accounts payable plus short-term debt, divided by cash assets) is less than 50%;

(d) The Applicant has executed commitments for permanent financing; and

(e) The Applicant has no record of defaults or compliance findings with the Department within the past two years

(2) Applicant receives a score of 2 if:

(a) The Applicant's current assets-to-liabilities ratio (current assets divided by current liabilities) is greater than 2:1;

(b) The Applicant's long-term debt ratio (total long-term debt divided by total assets) is less than 75%;

(c) The Applicant's short-term debt ratio (the sum of accounts payable plus short-term debt, divided by cash assets) is less than 50%;

(d) The applicant has conditional commitments or letters of interest for construction or permanent financing; and

(e) The Applicant has cleared all defaults or compliance findings with the Department.

(3) Applicant receives a score of 1 if:

(a) The Applicant's current assets-to-liabilities ratio (current assets divided by current liabilities) is greater than 1.5:1;

(b) The Applicant's long-term debt ratio (total long-term debt divided by total assets) is less than 75%;

(c) The Applicant's short-term debt ratio (the sum of accounts payable plus short-term debt, divided by cash assets) is greater than 50%;

(d) The applicant has conditional commitments or letters of interest for construction or permanent financing; and

(e) The applicant has experienced delinquencies or has been through TDHCA's Asset Management workouts within the past year;

(4) Applicant receives a score of 0 if:

(a) The Applicant's current assets-to-liabilities ratio (current assets divided by current liabilities) is less than 1.5:1;

(b) The Applicant's long-term debt ratio (total long-term debt divided by total assets) is less than 75%;

(c) The Applicant's short-term debt ratio (the sum of accounts payable plus short-term debt, divided by cash assets) is greater than 50%;

(d) The applicant has conditional commitments or letters of interest for construction or permanent financing; and

(e) The applicant has no plan for permanent financing; and

(f) The applicant has experienced delinquencies or has been through TDHCA's Asset Management workouts within the past year;

ii) Capacity and Experience. This scoring item is determined through a review of the applicant and development partners' previous experience. Staff will use evidence of previous development experience and review of previous awards and contract management from the Department to score this item.

(1) Applicant receives a score of 3 if:

(a) The applicant has developed more than 2x the number of units proposed in the Application;

(b) The applicant's development partners have developed more than 2x the number of units proposed in the Application;

(c) The applicant has no evidence of material non-compliance on Department contracts for the past five years; and

(d) The applicant has no evidence of audit findings on Department contracts for the past five years.

(2) Applicant receives a score of 2 if:

(a) The applicant has developed at least as many units as proposed in the Application;

(b) The applicant's development partners have developed more than 2x the number of units proposed in the Application;

(c) The applicant has no evidence of non-compliance on Department contracts for the past two years; and

(d) The applicant has no evidence of audit findings on Department contracts for the past two years.

(3) Applicant receives a score of 1 if:

(a) The applicant has developed at least half as many units as proposed in the Application;

(b) The applicants development partners have developed at least as many units as proposed in the Application;

(c) The applicant has no current contracts with pending compliance findings; and

(d) The applicant has no current unresolved audit findings.

(4) Applicant receives a score of 0 if:

(a) The applicant has little or no development experience;

(b) The applicant's development partners have developed at least as many units as proposed in the Application;

(c) The applicant has current contracts with the Department that have compliance findings that are less than 90 days old; and

(d) The applicant has un-resolved audit findings on Department contracts for the past two years.

iii) Financial Condition. This grading item is a measure of the financial strength of the organization as shown on the Applicant's financial statements. The indicators used include, but are not limited, to the Applicant's debt to equity ratio, net worth, and balance of cash reserves.

(1) Applicant receives a score of 3 if:

(a) The financial statements for the past two years represent a debt to equity ratio that is decreasing or improved over the period or the current ratio is greater than 1;

(b) The Applicant's cash on hand is at least 10% of net assets;

(c) The Applicant's cash on hand is increasing over the past two years; and

(d) The Applicant has no delinquencies, defaults, judgments, collections or bankruptcies listed on their credit reports.

(2) Applicant receives a score of 2 if:

(a) The current debt to equity ratio is greater than 1;

(b) The Applicant's cash on hand is at least 10% of net assets; and

(c) The applicant's cash on hand is stable over the past two years.

(d) The Applicant has no defaults, judgments, collections or bankruptcies listed on their credit reports.

(3) Applicant receives a score of 1 if:

(a) The current debt to equity ratio is between 1 and .80;

(b) The Applicant's cash on hand is stable and at least 7% of net assets;

(c) The Applicant's cash on hand has decreased over the past two years; and

(d) The Applicant has no defaults, or bankruptcies listed on their credit reports.

(4) Applicant receives a score of 0 if:

(a) The current debt to equity ratio is less than .80;

(b) The Applicant's cash on hand is less than 7% of net assets;

(c) The Applicant's cash on hand has decreased over the past two years; and

(d) The Applicant has a default, judgment, or bankruptcy listed on their credit reports.

c) Applicants must receive a grade of A or B to be recommended for funding. Applicant's grades are based on the following ranges:

   i) A = score of 8 or 9;

   ii) B = score of 6 or 7;

   iii) C = score of 3 to 5;

   iv) D = score of 0 to 2

8) Awards and Closing Process

a) Once awards have been made by the Board, the Department will issue loan commitments detailing the rates, terms, and all due diligence materials required to complete loan closings. Applicants will be required to submit all due diligence materials prior to the preparation of closing documents:

   i) Texas Application for Payee ID#, Direct Deposit Form, and TDHCA Contract System Access Request Form;

   ii) Final Budget with Sources and Uses;

   iii) Supporting documentation proving fulfillment of all underwriting requirements noted in the Commitment Letter prior to TDHCA loan closing;

   iv) A recorded Land Use Restriction Agreement; and

   v) Any other document the Department deems necessary to complete the closing process.

b) Applicants should note that all awardees must abide by the Housing Trust Fund Rules relating to records to be maintained and compliance review procedures detailed at 10 TAC §51.10 and 10 TAC §60.

c) All loan agreements and contracts under the HTF Predevelopment Loan program shall require repayment of awards at the time of closing of bonds or housing funds provided to the development by the Department, or prior to the commitment of housing tax credits from the Department.

d) Failure to repay HTF Predevelopment Loans may result in the exclusion or debarment of the Applicant, and affiliates of the Applicant, for a period of up to five years from all Department programs.

9) Application Acceptance

a) Application materials must be organized and submitted in the manner detailed in the Application manual. Applicants must submit one complete printed copy of all Application materials and one complete scanned copy of the Application materials. All scanned copies must be scanned in accordance with the guidance provided in the Application manual.

Applications must be sent to:

For overnight delivery to:

Multifamily Finance Production Division

Texas Department of Housing and Community Affairs

221 East 11th Street

Austin, TX 78701-2410

Or via the U.S. Postal Service to:

Multifamily Finance Production Division

Texas Department of Housing and Community Affairs

Post Office Box 13941

Austin, TX 78711-3941

NOTE: This NOFA does not include the text of the various applicable regulatory provisions that may be important to the Housing Trust Fund. For proper completion of the Application, the Department strongly encourages potential applicants to review 10 TAC §§50 & 51, and §2306 of the Texas Government Code. These regulatory provisions may be found on the TDHCA website at http://tdhca.state.tx.us/, under "TDHCA Governing Statute (PDF)" and "TDHCA Rules (TAC)."

MULTIFAMILY FINANCE PRODUCTION DIVISION

BOARD ACTION REQUEST
August 30, 2006

Action Items

Presentation, Discussion and Possible Approval for waiver of the deadline to submit extensions pursuant to §50.20(l) of the 2006 Qualified Allocation Plan (QAP), and possible approval of a request for an extension of the deadline to submit specific items of the 2006 Commitment Notice package and commitment fee are summarized below.

Required Action

Approve or deny these requests for an extension and waivers related to 2006 Competitive Housing Tax Credit (HTC) commitments.

Background

On August 11, 2006 the Department issued 48 commitment notices to developments awarded HTCs from the 2006 tax credit ceiling. Each of those notices was required to be signed and submitted with a commitment fee to the Department no later than August 21, 2006. In addition to the signed commitment notices, many developments were required to submit certain conditional items, also due August 21, 2006, such as evidence of final commitments of funding from local, private, state or federal sources.

The 2006 QAP allows applicants to requests extensions to deadlines relating to commitment notices. Pursuant to §50.20(l) of the QAP, "All extension requests relating to the Commitment Notice...shall be submitted to the Department in writing and be accompanied by a non-refundable extension fee in the form of a check in the amount of $2,500. Such requests must be submitted to the Department no later than the date for which an extension is being requested. For extensions which require Board approval, the extension request must be received by the Department at least 15 business days prior to the Board meeting where the extension will be considered. The extension request shall specify a requested extension date and the reason why such an extension is required...".

Due to the cancellation of the September 2006 TDHCA Board meeting, the Department is requesting a waiver from the Board of the requirement that all extensions be submitted 15 business days prior to the Board meeting, pursuant to §50.20(l) so that all extension request determinations relating to deadlines outlined in the August 11, 2006 commitment notice may be made at the August 30, 2006 Board meeting. Should the Board deny the waiver, these determinations will be made at the October 12, 2006 Board meeting.

One extension was received by August 21, 2006. Pertinent facts about the request for the extension are given below. The request was accompanied by a mandatory $2,500 extension request fee.

HTC No. 060132, Vista Pines

Summary of Request: Applicant requests an extension of the deadline to submit a funding commitment for points awarded pursuant to §50.9(i)(5), The Commitment of Development Funding by Local Political Subdivisions. The request results from the need for the local political subdivision to obtain its Board's approval of an unconditional commitment. The local political subdivision, Deep East Texas Council of Governments (DETCOG), was greatly affected by Hurricane Katrina, and DETCOG is facing some delays in obtaining this final approval. The applicant has already submitted their executed commitment notice, commitment fee, and all other required documents.

Applicant:	Nacogdoches Vista Pines Apartment Homes, LP
General Partner:	Nacogdoches Vista Pines Apartment Homes I, LLC
Developer:	Lankford Interests, LLC
Principals/Interested Parties:	Michael Lankford, sole owner of GP and developer
Syndicator:	PNC Multifamily Capital
Permanent Lender:	PNC Multifamily Capital
Other Funding:	DETCOG
City/County:	Nacogdoches/Nacogdoches
Set-Aside:	General
Type of Area:	Rural
Type of Development:	New Construction
Population Served:	Elderly Population
Units:	76 HTC units
2006 Allocation:	$793,915
Allocation per HTC Unit:	$10,446
Extension Request Fee Paid:	$2,500
Note on Time of Request:	Request was submitted on-time.
Current Deadline:	August 21, 2006
New Deadline Requested:	October 10, 2006
New Deadline Recommended:	**October 10, 2006**
Staff Recommendation:	**Approve extension as requested.**

Austin, Texas 78701

Re: TDHCA # 060132 Vista Pines Apartment Homes

Dear Jen;

Per Section 50.20 (i) of the 2006 QAP I would respectfully request an extension of the expiration date of the attached commitment notice from August 21, 2006 to October 10, 2006. The requested extension is for the satisfaction of the conditions and payment of the commitment fee.

The reason for the requested extension is to allow the Local Public Subdivision to present an unconditional funding commitment request to its Board of Directors. As you probably know Deep East Texas Council of Governments (DETCOG) is located in Jasper, Texas and represents a 12 county area in East Texas that was devastated by Hurricane Katrina. As you can imagine it has experienced a tremendous drain on it financial resources as a result of demands from Katrina. DETCOG is one of the Council of Governments (COG) requesting assistance under the State of Texas Action Plan for Community Development Block Grant (CDBG) Disaster Recovery Grantees under the Department of Defense Appropriations Act 2006, which is currently before TDHCA for approval of the distribution of funds.

Walter Diggles, the Executive Director of DETCOG has testified before the TDHCA in the last several months as to the critical need for additional funding to meet their housing goals and commitments. The funding of the $270,000 for Vista Pines Apartment Homes is one of those commitments. In my discussions with Mr. Diggles, he understands the huge increased need for affordable housing in this area of the state and is dedicated to doing everything possible to provide this housing. However because the previously mentioned depletion of general funds has created a potential liquidity problem he is hesitant to make the commitment without first presenting the commitment request to the Board of Directors of DETCOG. He has suggested he would like to find out the results of the August 30th TDHCA Board meeting before making the presentation to his Board. He has indicated from discussions with the President of the Board and members of the Board he does not anticipate any problem with the commitment. Because the DETCOG Board meets the 4th Thursday of the month the next Board meeting after the August 30th TDHCA Board meeting is September 28th. Therefore the October 10th extension request.

Please find attached the extension fee of $2,500.

TEXAS DEPARTMENT OF HOUSING AND COMMUNITY AFFAIRS

OFFICE OF RURAL COMMUNITY AFFAIRS

BOARD ACTION REQUEST
August 30, 2006

Action Item

The following approval is recommended related to the use of non-housing Texas Community Development Block Grant Disaster Recovery Funds in areas impacted by Hurricane Rita:

1. Presentation, Discussion and Approval of Disaster Relief Conditional Awards for Non-housing Projects in Accordance with the State of Texas Action Plan for CDBG Disaster Recovery Grantees.

Required Action

Action 1: Approval of funding awards for non-housing projects as previously allocated on July 28, 2006 for each eligible city or county government and federally recognized Indian Tribes in Deep East Texas Council of Governments (DETCOG), East Texas Council of Governments (ETCOG, Houston-Galveston Area Council (H-GAC), and Southeast Texas Regional Planning Commission (SETRPC) as listed in **ATTACHMENT A**.

Action 2: Approval of non-housing project delivery costs funds for the DETCOG eligible cities and counties and federally recognized Indian Tribes.

Action 3: Approval of revised method of distribution for DETCOG.

Action 4: Authorize the Executive Director of the Office of Rural Community Affairs (ORCA) to execute contracts for non-housing projects as approved by the TDHCA Governing Board.

Background

The U.S. Department of Housing and Urban Development (HUD) approved the State of Texas Action Plan (Action Plan) related to the *CDBG Disaster Recovery Funds to Areas Most Impacted and Distressed by Hurricane Rita* on June 16, 2006. According to the Action Plan, all contract awards require TDHCA Governing Board approval. On July 28, 2006, the Governing Board approved the method of distribution, housing and non-housing allocations, housing project award recommendations in three COGs, and the planning/project delivery costs. Non-housing projects were not recommended for approval at the July 28th Board Meeting.

On July 28, 2006, the TDHCA Governing Board approved $30,537,574 for non-housing activities by COG as follows:

	APPROVED
Total Direct Services	$29,772,796
Total General Administration	$ 214,816
Total Planning/Project Delivery	$ 549,962
Grand Total	**$30,537,574**

Project delivery costs for eligible applicants in the DETCOG region were not included with the administrative costs requested by the COGs prior to the July 28, 2006 board meeting. The result will be an increase in the amount of funding for project delivery costs.

Discussion of Eligibility of Projects and Compliance with National Objectives

Following the approval of the allocations and method of distributions by the TDHCA Governing Board, each COG was requested to submit project specific information to ORCA. The information was received by the established deadline of August 17, 2006. ORCA reviewed each project to determine project eligibility, compliance with the CDBG national objectives, and compliance with the State of Texas Action Plan.

ORCA determined that projects that address shelters and other projects that meet the impact requirement through a failure to function are eligible. ORCA has also determined that shelters that address compliance through the urgent need national objective are justified since the communities have documented that the lack of shelters or inadequate shelters posed an imminent threat to health and safety for evacuees during Hurricane Rita. ORCA has determined that the primary purpose of these public facilities will be to house evacuees. Without this primary use, ORCA would not otherwise recommend these projects for disaster recovery funding. Attachment A contains the information regarding impact and a failure to function justification for each project recommended. ORCA will continue to work with HUD to obtain written confirmation on the discussions held with TDHCA and ORCA staff regarding these matters. ORCA proceeded in good faith to provide direction to communities after receiving guidance from HUD regarding circumstances acceptable to fund shelters and other such projects.

Below is the funding amounts recommended by each COG based on eligible projects:

	Approved
DETCOG	$12,178,209
ETCOG	$ 2,099,997
H-GAC	$ 3,690,712
SETRPC	$12,468,656
GRAND TOTAL	**$30,537,574**

Deep East Texas Council of Governments (DETCOG) REVISED

On July 28, 2006, the TDHCA Governing Board allocated funding for general administrative services and planning/project delivery costs. Estimates provided for the DETCOG did not include project delivery costs necessary to implement the projects at the community level. The revised funding distribution is provided below:

	Approved
Total Direct Services	$12,178,209
Total General Administration	$ 11,741
Total Planning/Project Delivery	$ 88,259
Grand Total	**$12,278,209**

East Texas Council of Governments (ETCOG)

Direct Services	$ 1,889,997
General Administration	$ 24,313
Planning / Project Delivery	$ 185,687
TOTAL	**$2,099,997**

ETCOG CDBG Disaster Recovery Non-Housing Project Costs and Proposed Beneficiaries

Recommendation:

Action 1: Staff recommends approval of funding awards totaling $30,537,574 for non-housing activities for the four affected COG regions.

Action 2: Staff recommends approval of revised non-housing funds for project delivery costs for DETCOG eligible cities and counties.

Action 3: Staff recommends approval of the revised method of distribution for DETCOG.

Action 4: Staff recommends that the ORCA Executive Director be authorized to execute contracts for non-housing projects as approved by the TDHCA Board.

DETCOG								
Alabama Coushatta Indian Reservation	$9,512	Shelter Planning/Proj Delivery	8,852 660	480	246	N	Neighborhood Facilities/Community Center Contractor shall purchase commercial cooler, freezer, and ice machine to be used in the existing community center.	The public shelter used during Hurricane Rita failed to function properly due to limited permanently affixed refrigeration and freezer units for people with special medical needs.
Angelina County	$379,816	Water Facilities Street Improvements Engineering Planning/Proj Delivery	294,900 15,387 38,500 31,029	80,130	32,517	Y	Contractor shall use funds as FEMA match. Water Facilities The contractor shall address water supply needs by installing four emergency generators: one each at the Central, Woodlawn, Prairie Grove and Beulah Water Supply Corporations. Street Improvements The contractor shall remove debris and repair streets damage caused by Hurricane Rita.	During Hurricane Rita, Angelina County experienced power outages for several days. Water plants failed to function, water suppliers could not provide service. Streets were damaged due to high winds causing debris impact damage.
Broaddus	$21,403	Sewer Facilities Planning/Proj Delivery	19,458 1,946	210	168	Y	Sewer Facilities Contractor shall utilize contract funds towards the 25% match for FEMA funds. Contractor shall rehabilitate the wastewater treatment plant by replacing one generator, blown fuses, three pumps, two blower fans, dispose of sludge, repair chain link fencing, and replace sand in drying beds, breathing apparatus and door.	The city wastewater treatment plant failed to function due to power outages caused by Hurricane Rita storm damage.
Browndell	$47,900	Water Facilities Engineering Planning/Proj Delivery	36,000 8,300 3,600	402	356	N	Water Facilities Contractor shall install one 80 kW generator at the main water treatment plant to eliminate the risk of equipment failure due to power loss.	Hurricane Rita caused citywide power outages and as a result water and sewer services failed to function and could not be provided for an extended period of time.
Center	$1,000,646	Sewer Facilities Street Improvements Shelter Engineering	346 300 908,750 91,250	5,678	2,691	Y	Contractor shall use funds as FEMA match. Neighborhood Facilities/Community Centers Contractor shall construct a 24,789 s.f. concrete dome shelter located along a hurricane evacuation route. Sewer Facilities Contractor shall repair fencing damaged by storm winds at the two sewer lift stations Street Improvements Contractor shall make spot street repairs on Crawford Street.	Hurricane Rita caused mass evacuation of thousands of persons residing in the Gulf Coast who could not find shelter. Existing public facilities lacked capacity and failed to function due to inadequate emergency power, poor ventilation, and weak structural design.

Applicant	TxCDBG Request Amount	Budget Line Item	TxCDBG Budget	Total Persons	Total Low/Mod Persons	FEMA	Project Description	Hurricane Rita Impact
Chester	$29,078	Water Facilities Engineering Planning/Proj Delivery	24,578 3,000 1,500	274	88	N	Water Facilities Contractor shall purchase and install one 180 kw diesel generator at the city water plant.	The city was without electrical power for ten days and was unable to maintain TCEQ required water pressure or provide fire protection during and following Hurricane Rita.
Coldspring	$15,457	Sewer Facilities Planning/Proj Delivery	14,457 1,000	700	357	N	Sewer Facilities Contractor shall purchase and install one 80 kW generator at the sewer plant including a manual transfer switch, electrical conduit, wiring and hookup.	During and after Hurricane Rita the city could not treat wastewater at the treatment plant due to electrical outages. The city was unable to ensure meeting TCEQ requirements for the disposal and treatment of wastewater.
Colmesneil	$70,006	Water Facilities Street Improvements Engineering Planning/Proj Delivery	55,800 1,611 7,695 4,900	638	360	Y	Water Facilities Contractor shall install one 180 kW diesel generator at the city's water plant. Street Improvements Contractor shall use funds as FEMA match to repair the street system and parking lot damaged by disaster supply relief supply trucks.	The city was without electrical power for ten days due to Hurricane Rita. City crews had to rotate one single generator continuously from well to well in order to keep the water system in operation. Excessive rain washed out Mathis Street and Smith-Jones Rd. A public parking lot was severely damaged by the large disaster relief supply trucks utilizing the parking lot to unload food, water and ice.
Corrigan	$40,924	Sewer Facilities Engineering Planning/Proj Delivery	35,060 3,000 2,864	1,714	1,011	N	Sewer Facilities Contractor shall purchase and install one 40 kW generator for the city sewer plant.	During Hurricane Rita the city could not operate the sewer system at the sewer plant due to electrical power outages and thus unable to ensure the health and safety of its citizens or meet TCEQ requirements.
Crockett	$189,946	Water Facilities Sewer Facilities Shelter Fire Protection Specially Authorized Public Facilities	83,307 37,451 18,073 16,407 34,708	7,141	3,665	N	Water Facilities Contractor shall purchase and install one 350 kW generator for use at the city water pumping station. Sewer Facilities Contractor shall purchase and install one 25 kW generator and one 62 kW generator for use at two separate wastewater lift stations and one 60 kW generator for the SCADA control used to control the water distribution system as well as 2 lift stations. Neighborhood Facilities / Community Centers Contractor shall purchase one refrigerator/freezer unit and one commercial range for use in the Civic Center shelter. Fire Protection and Equipment Contractor shall purchase and install one 40 kW generator for use at the fire department. Specially Authorized Public Facilities and Improvements Contractor shall purchase and install one 40 kW generator for use at the police department.	Due to Hurricane Rita, the city of Crockett suffered area wide power outages. As a result, water and sewer systems failed to function; storm shelters were unable to provide meals and food storage; police, fire, and city administration were unable to perform basic functions. Storm debris blocked streets and rights of way.

Cushing	$9,919	Water Facilities	9,919	568	238	N	Water Facilities Contractor shall purchase and install one 100 kW generator, manual transfer switch, new disconnect, and electrical installation at the main water plant.	During and after Hurricane Rita, the city could not maintain water productivity and water pressure as required by TCEQ due to electrical power outages. The city was unable to ensure they were meeting TCEQ requirements for potable water.
Diboll	$69,300	Water Facilities Planning/Proj Delivery	63,000 6,300	4,429	2,335	N	Water Facilities Contractor shall purchase and install one 200 kW generator at the city's main water plant.	Hurricane Rita caused citywide electrical power outages that resulted in a failure to function of city water systems.
Garrison	$13,142	Sewer Facilities Engineering Planning/Proj Delivery	11,242 1,000 900	791	472	N	Water Facilities Contractor shall purchase and install one 130 kW generator, manual transfer switch, concrete pad and electrical installation at main water plant.	During and after Hurricane Rita, the city could not maintain the TCEQ requirements for water production and water pressure due to electrical power outages and thus unable to ensure compliance with TCEQ requirements for potable water.
Goodrich	$32,500	Water Facilities Engineering Planning/Proj Delivery	25,000 5,000 2,500	260	135	N	Water Facilities Contractor shall purchase and install one 150 KW generator at the city's main water plant.	As a result of Hurricane Rita, the city suffered a citywide power outage and was unable to perform the essential service of providing water service to its citizens for an extended period. With no power, all equipment at the water plant failed to function.
Grapeland	$19,800	Sewer Facilities Planning/Proj Delivery	18,000 1,800	1,380	682	N	Sewer Facilities Contractor shall purchase one 15 kW generator for use at the lift station.	During Hurricane Rita the City suffered a citywide power outage resulting in a failure to function of all equipment at city sewer lift stations.
Groveton	$28,314	Water Facilities Sewer Facilities Planning/Proj Delivery	24,871 869 2,574	677	535	Y	Water Facilities Contractor shall use funds as FEMA match to repair three ruptured water lines damaged by Hurricane Rita. Sewer Facilities Contractor shall use funds as FEMA match to repair a lift station damaged by Hurricane Rita at end of Old Railroad Road.	As a result of Hurricane Rita, city water lines and sewer systems and equipment were damaged and failed to function.

Applicant	TxCDBG Request Amount	Budget Line Item	TxCDBG Budget	Total Persons	Total Low/Mod Persons	FEMA	Project Description	Hurricane Rita Impact
Hemphill	$63,017	Water Facilities Sewer Facilities Other Public Utilities Street Improvements Engineering Planning/Proj Delivery	31,000 1,731 23,246 1,259 2,500 3,281	1,206	880	Y	Water Facilities Contractor shall purchase and install one 60 kW diesel generator at the water treatment plant. Sewer Facilities Contractor shall utilize funds as FEMA match to purchase and install pumps at two lift stations, a one-half horsepower pump at the Neal station, and repair a damaged electrical panel at the Tanglewood station. Other Public Utilities Contractor shall utilize funds as FEMA match to restore fifty miles of power distribution systems. Street Improvements Contractor shall utilize funds as FEMA match to reshape and grade road ditches and replace surface aggregate and road signs.	As a result of 120-140 mph winds and flying debris, the water, sewer, electrical, street, and emergency communication systems were damaged. The water and sewer systems failed to operate when the electrical system was destroyed.
Houston County	$218,500	Water Facilities Engineering Planning/Proj Delivery	185,000 15,000 18,500	23,185	10,085	N	Water Facilities Contractor shall purchase and install one 150 kW emergency generator at Consolidated Water Supply Corporation water plant.	Houston County suffered a countywide power outage as a result of Hurricane Rita. Water suppliers were unable to provide water services to residents for an extended period of time.
Hudson	$72,044	Sewer Facilities Debris Removal Engineering Planning/Proj Delivery	53,189 5,044 7,500 6,311	3,792	1,599	Y	Sewer Facilities Contractor shall purchase one generator for a sewer lift station and use funds as a portion of FEMA reimbursement for two damaged lift stations. Flood and Drainage-Debris Removal Contractor shall remove debris associated with roadways, buildings, and power lines. (FEMA reimbursement).	Due to areawide power outage caused by Hurricane Rita, the city's sewer plant and lift stations were unable to provide sewer service to citizens. After Hurricane Rita debris associated with roadways, buildings and power lines posed hazards.
Huntington	$21,583	Water Facilities	21,583	2,085	1,053	N	Water Facilities Contractor shall purchase and install one diesel generator at the city Fuller Springs water well/water plant.	The city was unable to provide water service due to power outage caused by Hurricane Rita.
Huxley	$4,340	Water Facilities	4,340	982	596	N	Water Facilities The contractor will install a relay control at the water booster plant and a surge protector at the water plant.	High winds from Hurricane Rita damaged the surge protector at the water treatment plant and the relay controls at the water booster plant and the entire water system failed to function.

Applicant	TxCDBG Request Amount	Budget Line Item	TxCDBG Budget	Total Persons	Total Low/Mod Persons	FEMA	Project Description	Hurricane Rita Impact
Jasper	$747,133	Water Facilities Sewer Facilities Other Public Utilities Engineering Planning/Proj Delivery	292,000 189,000 183,650 37,483 45,000	8,247	3,945	Y	Contractor shall use funds as FEMA match. Water Facilities Contractor shall purchase and install four 180 kW generators for use at the four water well plant sites. Sewer Facilities The contractor shall install one 350 kW generator for use at the wastewater treatment plant, two 125 kW generators for use at two sewer booster pump stations, and one 60 kW generator a lift station. Other Public Utilities Contractor shall install approximately two hundred thirty-one new electrical poles, three hundred forty cross arms, one hundred thirty transformers, and forty-one miles of electrical power lines.	During Hurricane Rita 120-140 mph winds destroyed the electrical distribution system and the city was without electrical power for more than twenty days and the water and sewer systems were not able to function to meet TCEQ and health code requirements.
Jasper County	$2,270,118	Solid Waste Disposal Street Improvements Flood/Drainage Planning/Proj Delivery	1,832,935 38,183 285,500 113,500	35,604	14,281	Y	Street Improvements Contractor shall use funds as FEMA match to regrade roads, ditches, and install new road material and culverts. Flood and Drainage Facilities Contractor shall use funds as USDA match to provide debris removal and clearance of drainage systems throughout the county and Contractor shall use funds as Texas DPS-Emergency Management match to provide debris removal from county roads, right-of-ways, ditches.	Jasper County incurred massive amounts of damage due to high winds, rain, and tornados. Trees were knocked down into the roads, on top of buildings, and in the county-owned utility right- of-ways. Utility poles and electrical power lines were also knocked down. The County also experienced damages to county roads, ditches, and culverts.
Joaquin	$35,200	Sewer Facilities Planning/Proj Delivery	32,000 3,200	839	621	N	Sewer Facilities Contractor shall purchase and install a generator for use at sewer lift station.	As a result of Hurricane Rita, the city of Joaquin suffered an area wide power outage. As a result of this loss of power all equipment at the city sewer plant failed to function and the City was unable to perform the essential service of providing sewer service to citizens.
Kennard	$38,400	Water Facilities Engineering Planning/Proj Delivery	29,000 6,500 2,900	317	166	N	Water Facilities The contractor shall purchase and install one 60 kW generator for use at the main city water plant.	The city of Kennard suffered a citywide power outage as the result of Hurricane Rita. The City was unable to perform the essential service of providing water to the citizens for an extended period. With no power, all equipment at the city water plant failed to function.

Kirbyville	$188,890	Water Facilities Sewer Facilities Other Public Utilities Debris Removal Planning/Proj Delivery	8,802 5,564 31,833 129,491 13,200	2,085	932	Y	Water Facilities Contractor shall use funds as FEMA match to provide replacement of communication cable between Elizabeth Street Well/Water plant to Post Office Water plant, chlorine regulation, chlorination system repair, three chlorinators and repair of water lines damaged by uprooted trees. Sewer Facilities Contractor shall use funds as FEMA match for bio-augmentation; repairs to manholes, lift stations, electrical controls, and damaged sewer lines. Flood and Drainage Facilities - Debris Removal Contractor shall remove vegetative debris and electrical system debris (down power lines, power poles, and transformers). Other Public Utilities Contractor shall use funds as FEMA match to install new electrical poles, cross arms, transformers and electrical power lines.	High winds (120-140 mph) from Hurricane Rita and flying debris destroyed the City's electrical system and severely damaged the water and sewer systems serving the entire community.
Livingston	$129,194	Water Facilities Other Public Utilities Engineering Planning/Proj Delivery	96,889 17,305 6,000 9,000	5,433	2,152	Y	Water Facilities Contractor shall install two natural gas general generators. One at the Poleyard Water station and one at the Ogletree Water Well No. 1 Other Public Utilities Contractor shall use funds as FEMA match to restore electrical systems by the removal of downed treated poles, transformers and wires; replace thirty transformers, fifteen utility poles, cross arms, fused cut-outs, and approximately five miles of power lines.	Hurricane force winds damaged or destroyed approximate five miles of power lines. The City was without power for eight days and water system facilities were inoperable during this time.
Lovelady	$27,500	Sewer Facilities Planning/Proj Delivery	25,000 2,500	598	225	N	Sewer Facilities Contractor shall purchase one 25 kW generator with plug to supply power to lift stations.	Hurricane Rita caused a citywide power outage for an extended period. As a result, lift stations failed to function and the city was unable to provide sewer services to residents.
Lufkin	$485,000	Water Facilities Debris Removal Shelter Engineering Planning/Proj Delivery	258,100 19,957 138,650 31,500 36,793	32,709	13,410	Y	Contractor shall use funds as FEMA match. Water Facilities Contractor shall purchase 2 600 kW generators for Water Well #12 and Water Well #15. Flood & Drainage Facilities-Debris Contractor shall remove debris citywide resulting from damage caused by Hurricane Rita. Neighborhood Facilities / Community Centers Contractor shall purchase one 600 kW generator for use in the Lufkin Civic Center.	Hurricane Rita caused sustained winds and as a result the City of Lufkin was without electrical power for an extensive period of time while crews worked to restore downed power lines caused by storm-generated debris. Due to the lack of electrical power, the water system failed to function and the civic center that was serving as a shelter was not fully functional.

Applicant	TxCDBG Request Amount	Budget Line Item	TxCDBG Budget	Total Persons	Total Low/Mod Persons	FEMA	Project Description	Hurricane Rita Impact
Nacogdoches	$158,371	Infrastructure	158,371	29,914	15,316	Y	Contractor shall use funds as FEMA match. Neighborhood Facilities/Community Centers Contractor shall install a 25 ton air conditioner at the public library and make repairs to the Simon Recreation Center by replacing the water heater and fire alarm panel.	During Hurricane Rita, the Simon Recreation Center/Libary housed 350 evacuees and also was used as the American Red Cross mass shelter facility and processed 5000 evacuees per day for 18 days. The air conditioner failed due to the excess use and the water heater and fire alarm panel suffered water damage. Sacred Heart Catholic Church served as a shelter during Hurricane Rita and the air conditioner was damaged due to excess use and water damage. Hurricane Rita damaged the windscreen and fencing at the city's athletic fields.
Nacogdoches County	$436,065	Water Facilities Shelter Specially Authorized Public Facilities Public Services Engineering Planning/Proj Delivery	157,500 67,500 127,000 37,236 20,347 26,482	59,203	26,446	Y	Water Facilities Contractor shall purchase and install five generators for use at water plants throughout the county. Neighborhood Facilities/Community Centers Contractor shall purchase and install five generators fo use at various public shelters throughout the county. Specially Authorized Public Facilities and Improvements Contractor shall purchase and install two generators for use at the Columbia Regional Center to provide emergency weather mapping and tracking to ensure full operation during a disaster event. Public Services Contractor shall use funds to reimburse the county for disaster recovery costs not funded under FEMA Public Works. These costs are associated with shelter operation, clothing, Sheriff Department overtime for disaster recovery activity, fuel use, and supplies.	Nacogdoches County suffered wide spread and extended power outages due to Hurricane Rita. As a result water facilities and public shelters failed to function.

Newton	$172,729	Water Facilities Sewer Facilities Other Public Utilities Street Improvements Flood/Drainage Planning/Proj Delivery	4,140 2,015 109,707 11,256 33,321 12,290	2,459	902	Y	Water Facilities Contractor shall use funds as FEMA match to repair two water wells and water lines. Sewer Facilities Contractor shall use funds as FEMA match to install a new lift station pump and repair fencing. Other Public Utilities Contractor shall use funds as FEMA match to remove and replace damaged electical poles, transformers, and power lines. Street Improvements Contractor shall use funds as FEMA match to complete construction of various roads throughout the city. Flood and Drainage Facilities Contractor shall use CDBG, FEMA, and USDA funds to repair a drainage channel and improve a drainage structure.	Hurricane Rita destroyed the City's electrical system and severely damaged water, sewer, drainage and streets.
Newton County	$877,654	Water Facilities Flood/Drainage Debris Removal Shelter Acquisition Engineering Planning/Proj Delivery	282,272 254,500 63,482 136,000 50,000 30,000 61,400	15,072	6,737	Y	Water Facilities Contractor shall purchase two 25 kW generators, three 50 kW generators, one 80 kW generator, and three 10 kW generators for use at water supply sites throughout the county. Flood & Drainage Facilities - Debris Contractor shall use funds as FEMA match for debris removal throughout the county. Flood and Drainage Facilities Contractor shall use funds as USDA Natural Resource Conservation Service Drainage Improvements Project for debris clearance from drainage ways. Neighborhood Facilities/Community Centers Contractor shall reimburse shelter provider for expenses related to sheltering people from Hurricane Rita. Public Service Contractor shall use funds as FEMA match towards the FEMA funded Disaster Recovery activity fuel used by emergency workers. Acquisition Contractor shall use funds as FEMA Hazard Mitigation Project local share to buy forty-one homes in the River Road area.	During Hurricane Rita, Newton County experienced areawide power outages and water services and emergency shelter services could not be provided due to this failure to function.
Onalaska	$28,050	Fire Protection Planning/Proj Delivery	25,500 2,550	1,176	511	N	Fire Protection Facilities and Equipment Contractor shall purchase and install one 45 kW generator and base communication equipment for use in the Fire Station.	During Hurricane Rita, the City suffered an area wide power outage. The fire station equipment failed to function and the city was unable to provide emergency assistance.

*Contractor refers to the City, County or Indian Tribe

Applicant	TxCDBG Request Amount	Budget Line Item	TxCDBG Budget	Total Persons	Total Low/Mod Persons	FEMA	Project Description	Hurricane Rita Impact
Pineland	$56,100	Water Facilities Sewer Facilities Fire Protection Planning/Proj Delivery	20,000 15,000 16,000 5,100	939	429	N	Water Facilities Contractor shall purchase and install one 50 kW generator for use at the main city water plant. Sewer Facilities Contractor shall purchase and install one 15 kW generator for use at the lift station. Fire Protection Facilities and Equipment Contractor shall purchase and install one 25 kW generator for use at the fire department.	During Hurricane Rita, the City suffered a citywide power outage. The water and sewer systems failed to function and the fire department's ability to provide emergency response was impacted.
Point Blank	$12,504	Shelter Planning/Proj Delivery	12,000 504	591	232	N	Neighborhood Facilities/Community Centers Contractor shall purchase and install one generator for the local special needs public shelter.	The City of Point Blank Disaster Relief Program is designed to ensure that the Public Shelter for special needs people shall have emergency generator for backup power to keep medicine refrigerated and lights for safety. The Shelter was used during Hurricane Rita and had failed to function properly when the area lost electricity from the winds and fallen trees.
Polk County	$886,854	Water Facilities Sewer Facilities Street Improvements Fire Protection Public Services Engineering Planning/Proj Delivery	283,905 137,076 120,000 194,000 50,000 39,873 62,000	46,397	18,560	N	Water Facilities Contractor shall purchase and install three 150 kW generators, one 70 kW generator, one 60 kW generator, one 50 kW generator, one 40 kW generator, three 30 kW generators, and two 15 kW generators to ensure that water systems within the cities of Corrigan, Goodrich, Livingston and Onalaska remain in operation during power outages. Sewer Facilities Contractor shall purchase and install one 180 kW generator and two 300 kW generators, and three generators (5 kW to 60 kW) to ensure sewer systems within the cities of Corrigan and Livingston, and the Polk County Fresh Water Supply District #2 remain in operation during power outages. Street Improvements Contractor shall purchase and install one 25 kW generators at each of the four county road and bridge precinct barns. Fire Protection Facillities and Equipment Contractor shall purchase and install one 25 kW generator for each of the eleven rural volunteer volunteer fire departments. The generators will ensure the ability to function is not reduced due to power outages. Public Services Contractor will purchase and install a one 25 kW generator at two radio stations that serve as the best local sources of news during emergency situations.	Hurricane Rita caused the cities, fire departments and County Road & Bridge departments to be unable to function due to loss of electrical power for up to fifteen days. The health and safety of the citizens were at risk due to lack of water, sewer and fire protection.

*Contractor refers to the City, County or Indian Tribe

Applicant	TxCDBG Request Amount	Budget Line Item	TxCDBG Budget	Total Persons	Total Low/Mod Persons	FEMA	Project Description	Hurricane Rita Impact
Sabine County	$473,140	Water Facilities Fire Protection Engineering Planning/Proj Delivery	299,000 116,140 25,000 33,000	10,469	4,596	N	Water Facilities Contractor shall purchase and install three 15 kW generators; one 30 kW generator; three 60 kW generators; three 80 kW generators; and one 100 kW generator to ensure eight water plants throughout the county remain operational during during power outages. Fire Protection Facilities and Equipment Contractor shall purchase and install nine 45 kW generators for use at each of the nine volunteer fire departments throughout the county.	Hurricane Rita caused countywide power outages that resulted in the failure to function of area water systems and the inability of area fire departments to function at full capacity.
San Augustine	$111,100	Water Facilities Planning/Proj Delivery	101,100 10,000	2,678	2,080	N	Water Facilities The contractor shall purchase and install one 450 kW generator at the main city water plant and one 100 kW generator at the city water distribution system.	The city suffered a citywide power outage as a result of damage from Hurricane Rita and was unable to provide water service to its citizens for an extended period. Without electrical power, the equipment at the water plant and distribution system failed to function.
San Augustine County	$236,765	Street Improvements Engineering Planning/Proj Delivery	213,965 6,300 16,500	4,715	1,915	Y	Street Facilities Contractor shall repair the county road surface and culverts that were not covered by FEMA Public Works Projects.	During Hurricane Rita, the south end of the county received from twelve to fifteen inches of rain and sustaining winds of 100 mph. The heavy winds caused the larger trees and power lines to fall into the roadways and ditches resulting in flooded drainage ways due to debris. Water overflowing onto the county roads caused the surface material and base material to wash away. The heavy equipment used to remove the debris caused additional damage to the county drainage and road systems.

San Jacinto County	$478,669	Water Facilities Sewer Facilities Street Improvements Shelter Fire Protection Acquisition Engineering Planning/Proj Delivery	129,752 20,583 60,734 22,550 76,550 90,000 45,000 33,500	22,246	8,813	N	Water Facilities Contractor shall purchase four 80 kW generators for use at four separate water supply corporation locations. Sewer Facilities Contractor shall purchase one 80 kW generator for use at the city waste water treatment plant. Street Improvements Contractor shall repair county road surfaces and culverts. Neighborhood Facilities/Community Centers Contractor shall purchase and install one 40 kW generator for use at a public shelter designated for special needs persons. Fire Protection Facilities and Equipment Contractor shall purchase, repair and retrofit an existing building to be used as a rural fire station and a Regional Response Facility. Acquisition The contractor shall purchase from the U.S. Forest Service a facility that will be converted to a County Fire Station and Regional Response Facility.	Hurricane Rita caused an area wide power failure that resulted in water and sewer systems failing to function. Additionally, debris in culverts and roads resulting in the failure of evacuees to reach public shelters. The regional response facility failed to function adequately during the storm response.
Shelby County	$221,699	Water Facilities Street Improvements Engineering Planning/Proj Delivery	162,393 20,970 20,000 18,336	24,844	10,777	Y	Water Facilities Contractor shall purchase and install three generators at McClelland Water Supply Corp., Choice Water Supply Corp. and Paxton Water Supply Corp. Street Improvements Contractor shall use funds as FEMA match to provide gravel road repairs to roads throughout the county.	Shelby County suffered a county wide power outage that lasted many days as the result of Hurricane Rita. The County was unable to perform the essential emergency services and many water suppliers within the county could not provide water services. Many of the emergency services and all equipment at many water plants failed to function.
Shepherd	$48,300	Sewer Facilities Engineering Planning/Proj Delivery	38,000 6,500 3,800	2,029	968	N	Sewer Facilities Contractor shall purchase and install one 40 kW generator for citywide lift station use.	The City of Shepherd suffered an area wide power outage as the result of Hurricane Rita. The City was unable to perform the essential service of providing sewer service to many citizens. The equipment at lift stations failed to function.
Timpson	$14,173	Sewer Facilities Planning/Proj Delivery	13,183 990	1,094	723	N	Sewer Facilities Contractor shall purchase and install a 68 kW generator, including pad and electrical work, for use at its sewer treatment plant.	As a result of Hurricane Rita the city suffered widespread power outages that resulted in the failure to function of the sewer treatment plant.

*Contractor refers to the City, County or Indian Tribe

Applicant	TxCDBG Request Amount	Budget Line Item	TxCDBG Budget	Total Persons	Total Low/Mod Persons	FEMA	Project Description	Hurricane Rita Impact
Trinity County	$267,300	Water Facilities Planning/Proj Delivery	243,000 24,300	13,779	6,173	Y	Contractor shall use funds as FEMA match. Water Facilities Contractor shall purchase and install nine generators for use at nine separate County water supply facilities: Trinity Rural Water, Pennington WSC, Apple Springs WSC, Nogales-Centerville WSC, Centerville WSC, Nigton-Wakefield WSC, Woodlake Josserand WSC, Glendale WSC, and Westwood Shores MUD.	As a result of Hurricane Rita, the County suffered a countywide power outage and was unable to perform the essential service of providing water to its citizens.
Tyler County	$1,918,920	Water Facilities Street Improvements Debris Removal Shelter Specially Authorized Public Facilities Engineering Planning/Proj Delivery	1,075,000 216,719 74,651 110,000 295,650 51,000 95,900	20,871	8,778	Y	Contractor shall use funds as FEMA match. Water Facilities Contractor shall purchase and install generators at eight Tyler County WSC (eight generators and eight water plants), Cypress Creek WSC, Seneca WSC at two well locations; Warren WSC at two well locations, and Ivanhoe WSC at two well locations. Contractor shall install a transfer switch disconnect at Doucette WSC and five transfer switch disconnects at Lakeside WSC. Street Facilities Contractor shall repair twelve miles of county roads and ditches damaged by fallen trees and heavy operating equipment. Flood & Drainage Facilities - Debris Contractor shall use FEMA funds for match to remove debris as a result of Hurricane Rita. Neighborhood Facilities/Community Centers Contractor shall purchase a generator to be used at an emergency shelter location. Specially Authorized Public Facilities and Improvements Contractor shall purchase and install a 900 kW generator to maintain the operating function of the Tyler County Hospital and purchase a trailer-mounted generator to allow Tyler County Emergency Management to assist neighborhoods and remote communities.	Hurricane Rita caused 14 water supply corporations to fail to function due to loss of electrical power. Public shelters for evacuees failed to function due to loss of power. Tyler County Hospital could not fully function due to loss of power. County roads in Precincts 1, 2, 3 and 4 were damaged by falling debris and heavy equipment. Tyler County EMS lacked power and failed to provide service to remote communities.

Applicant	TxCDBG Request Amount	Budget Line Item	TxCDBG Budget	Total Persons	Total Low/Mod Persons	FEMA	Project Description	Hurricane Rita Impact
Woodville	$264,993	Water Facilities Sewer Facilities Specially Authorized Public Facilities Engineering Planning/Proj Delivery	109,000 111,300 3,522 22,631 18,540	2,415	1,185	Y	Water Facilities Contractor shall purchase and install a 1300 kW generator and a 100 kW generator, including manual transfer switch, new disconnect, concrete pads and electrical installation at the Carlow Hill water plant and the Sims Street water well. Contractor shall provide FEMA match to repair water lines and electrical controls at the water plant. Sewer Facilities Contractor shall purchase a 300 kW generator including manual transfer switch, new disconnect and electrical installation for the wastewater treatment plant. Specially Authorized Public Facilities and Improvements Contractor shall use funds as FEMA match for Public Facilities for repair to lift stations, electrical controls at the water and sewer plants, manholes, streets and debris removal.	As a result of 120 mph winds and flying debris from Hurricane Rita, trees were uprooted and water lines, sewer collection lines and manholes were damaged. The City lost electrical power and resulted in damage to electrical panel boxes and loss of production at water wells and water plants.
Zavalla	$52,600	Water Facilities Debris Removal Fire Protection Engineering Planning/Proj Delivery	40,000 450 550 7,500 4,100	653	390	Y	Water Facilities Contractor shall purchase and install a 100 kW generator at the main city water plant. Flood and Drainage Facilities - Debris Contractor shall use funds as FEMA match for clearance of debris from roadways, buildings and power lines. Fire Protection Facilities and Equipment Contractor shall use funds as FEMA match for repairs to the fire station.	Due to Hurricane Rita, the city suffered an area wide power outage and was unable to perform essential service of providing water to residents. The hurricane damaged the fire station and created debris on roadways that needed to be removed.

Applicant	TxCDBG Request Amount	Budget Line Item	TxCDBG Budget	Total Persons	Total Low/Mod Persons	FEMA	Project Description	Hurricane Rita Impact
ETCOG								
Alto	$270,000	Shelter	270,000	1,190	708	N	Neighborhood Facilities/Community Centers Contractor shall renovate a donated building to provide needed shelter for evacuees. Construction shall include steel roofing, kitchen and bathroom facilities, HVAC, plumbing, furniture and non-perishable food storage area.	The city of Alto, which is a major hurricane evacuation route along U.S. Highway 69, did not have a single facility to provide shelter to the Hurricane Rita evacuees thereby representing a failure to function to meet a clear and urgent need.
Carthage	$290,000	Shelter Planning/Proj Delivery	268,250 21,750	3,067	1,695	Y	Neighborhood Facilities/Community Centers Contractor shall use funds as FEMA match to convert an existing facility located on the Gulf Coast evacuation route into a public Community Shelter. The proposed improvements, include kitchen, restrooms and showers and allow the public shelter to accommodate up to one thousand evacuees during times of disaster and if necessary the shelter may be used as a "point-to-point" evacuation resource for special needs evacuees.	The city had no functioning public shelter and utilized makeshift shelters for evacuees during the Hurricane Rita evacuation. The city estimates more than two thousand six hundred Rita evacuees were sheltered in the immediate Carthage area and the city failed to provide adequate facilities to meet the evacuees' needs.
Gallatin	$50,000	Shelter	50,000	397	194	N	Neighborhood Facilities/Community Center Contractor shall repair and renovate the Civic Center including roofing, siding and bathrooms.	The Gallatin Civic Center could not open and failed to function during the Hurricane Rita evacuation because it was not able to provide adequate decent safe shelter for evacuees.
Henderson	$290,000	Shelter Planning/Proj Delivery	268,250 21,750	5,932	3,006	Y	Neighborhood Facilities/Community Center Contractor shall use funds as FEMA match to construct a public Community Shelter. The proposed improvements include kitchen, restrooms and showers and allow the public shelter to accommodate up to 500 evacuees during times of disaster and if necessary the shelter may be used as a "point-to-point" evacuation resource for special needs evacuees.	The city had no functioning public shelter and utilized makeshift shelters for evacuees during the Hurricane Rita evacuation. The city estimates more than 2,600 Rita evacuees were sheltered in the immediate Henderson area and the city failed to provide adequate facilities to meet the evacuees' needs.
Jefferson	$270,000	Shelter Engineering Planning/Proj Delivery	221,000 28,750 20,250	2,024	1,135	N	Neighborhood Facilities/Community Centers Contractor shall construct additional showers, restrooms, dining area, kitchen, communications infrastructure and accessibility improvements to the Jefferson Visitors Center to make it suitable for hurricane shelter and evacuee use.	Jefferson failed to provide a functional shelter for Hurricane Rita evacuees. The improvements to the visitor center will allow adequate shelter for 100 evacuees.

*Contractor refers to the City, County or Indian Tribe

Applicant	TxCDBG Request Amount	Budget Line Item	TxCDBG Budget	Total Persons	Total Low/Mod Persons	FEMA	Project Description	Hurricane Rita Impact
Kilgore	$290,000	Shelter Planning/Proj Delivery	268,250 21,750	2,120	1,286	Y	Neighborhood Facilities/Community Centers Contractor shall use funds as FEMA match to construct a public Community Shelter. The proposed improvements, including kitchen, sitework, restrooms and showers, shall allow the public shelter to accommodate up to 500 evacuees during times of disaster and if necessary the shelter may be used as a "point-to-point" evacuation resource for special needs evacuees.	The city was not equipped to handle the overwhelming evacuee demand. Due to inadequate sheltering capacity. The makeshift shelters failed to provide adequate, safe and sanitary shelter during the Hurricane Rita evacuation.
Longview	$334,997	Water Facilities Shelter Specially Authorized Public Facilities	67,273 233,871 33,853	98,500	39,735	N	Water Facilities Contractor shall purchase a generator to provide power during a natural disaster to the water treatment plant. Specially Authorized Public Facilities and Improvements Contractor shall purchase a generator to provide emergency power to the Supervisory Control and Data Acquisition (SCADA) system servers in the city's data cener. The SCADA servers are ulitized for the city's water treatment plant and wastewater treatment plant. Neighborhood Facilities/Comunity Centers Contractor shall make improvements to the Longview Primary Evacuation Shelter to house evacuees in the event of a natural disaster and install shower facilities, laundry area and make improvements to kitchen facilities.	The first Hurricane Rita evacuees arrived at the Longview Primary Shelter facility on September 22. Because of the large number of evacuees the facility failed to function due to inadequate shower facilities (some evacuees showered using a Haz-Mat Decontamination Unit or bathed in sinks) and the kitchen and laundry facilities were not adequate to handle the large human need. Due to the power outages caused by Hurricane Rita the water treatment facility and the communication center failed to function. The purchase of a generator will allow the plant to distribute eight million gallons of potable water daily and the communication center to operate.
Mount Enterprise	$5,000	Sewer Facilities	5,000	268	126	N	Sewer Facilities The contractor shall purchase a generator that will be used to provide power for the system in the event of a power outage resulting from a natural disaster. After Hurricane Rita some areas in Mount Enterprise were without power for up to two weeks.	Sewer lift stations failed to function due to lack of electricity during and after the Hurricane disaster. Some areas were out power for up to two weeks.
Rusk	$250,000	Water Facilities Shelter	100,000 150,000	5,085	2,226	N	Water Facilities Contractor shall purchase and install emergency generators at two of the existing water wells to ensure adequate and safe water in the event of a natural disaster. Neighborhood Facilities/Community Centers Contractor shall repair the bathroom and bathing facilities in the existing Rusk Civic Center and repair damage incurred during Hurricane Rita.	The high winds of Hurricane Rita caused a citywide power outage. The city's five water wells were unable to function due to the loss of power for several days. The city was also unable to shelter Hurricane Rita evacuees due to inadequate shelter facilities.

HGAC								
Ames	$83,000	Water Facilities Planning/Proj Delivery	75,000 8,000	1,184	838	N	Water Facilities Contractor shall purchase and install a 175 kW generator for use by the Ames-Minglewood WSC.	During Hurricane Rita, the power to the city was out for ten days. This caused the city's water system to fail.
Chambers County	$250,000	Shelter Planning/Proj Delivery	225,000 25,000	26,301	10,412	Y	Neighborhood Facilities / Community Center Contactor shall utilize FEMA funds to construct a community shelter and command center that will house 30 families. The shelter will be constructed to withstand category 5 hurricane winds and will be built at an elevation that would safely protect personnel and equipment. The total project is being funded on a pro rata basis for the shelter portion of the facility.	During Hurricane Rita Chambers County was unable to provide shelter for its citizens. For those individuals that were either rescued or stranded the County has no place to provide a safe place to weather the storm. Chambers County's vulnerable location on Trinity Bay and East Bay makes sheltering an essential need.
Cleveland	$350,000	Flood/Drainage Acquisition Engineering Planning/Proj Delivery	275,000 7,500 32,500 35,000	6,857	4,661	Y	Flood and Drainage Facilities Contractor shall use funds as FEMA match to install 1,715 l.f. of concrete box culvert, 2,575 l.f. of concrete pipe, forty-five inlets, eight manholes, and 200 l.f. of tunneling excavation. Acquisition Contractor shall acquire right-of-way.	The city drainage system flooded and failed to function during Hurricane Rita when excessive storm water runoff going to drainage outfalls did not allow storm water in the central business district to dissipate.
Dayton	$195,326	Flood/Drainage Engineering Planning/Proj Delivery	160,670 15,124 19,532	5,698	2,533	Y	Flood and Drainage Facilities Contractor shall use funds as FEMA match to make drainage/storm water improvements at the intersection that collect storm water and subsequently discharge it into a high capacity drainage outfall.	During Hurricane Rita the city had a serious flooding problem at the intersection of U.S. Highway 90 and Waco Street where there is also a railroad crossing. The drainage failure caused flooded houses and businesses on Sawmill Road.
Galveston County	$350,000	Flood/Drainage	350,000	2,390	1,225	Y	Flood and Drainage Facilities Contractor shall use funds as FEMA match to repair a dune system and replace 130 l.f. of geotextile tube core dunes, 81,116 c.y. of sand cover along 27,000 l.f. of repaired geotextile tube core dune, and repair forty-one holes in geotextile fabric and refill with sand.	During Hurricane Rita, a storm surge along the Gilchrist area of Bolivar Peninsula damaged the protective dune system.
Galveston County 2	$62,500	Flood/Drainage Engineering	48,750 13,750	250	75	Y	Flood and Drainage The Contractor shall complete a dune restoration project with dune vegetation, sand fencing and ADA compliant walkovers.	The natural dune system was damaged and in some places destroyed by Hurrican Rita. This destruction left no protection for residential structures and infrastructure that exist landward of the dunes.

*Contractor refers to the City, County or Indian Tribe

Applicant	TxCDBG Request Amount	Budget Line Item	TxCDBG Budget	Total Persons	Total Low/Mod Persons	FEMA	Project Description	Hurricane Rita Impact
Huntsville	$350,000	Water Facilities Sewer Facilities	55,000 295,000	23,576	11,831	N	Water Facilities Contractor shall purchase and install one 200 kW generator at the water plant. Sewer Facilities Contractor shall purchase four 35 kW and two 20 kW generators for wastewater lift stations.	Hurricane Rita caused the water distribution and wastewater collection system to experience electrical outages, resulting in a failure to function.
Liberty County	$350,000	Clearance/Demolition Acquisition Planning/Proj Delivery	46,000 269,000 35,000	386		Y	Acquisition Contractor shall use funds as FEMA match to acquire and demolish one hundred thirty-eight structures in flood prone areas and return to natural state.	Areas flooded by Hurricane Rita will be cleared.
Montgomery County	$318,706	Shelter Planning/Proj Delivery	294,206 24,500	293,768	116,626	N	Neighborhood Facilities/Community Center Contractor shall purchase and install four generators located at the Food Bank, West Montgomery County Community Center, East Montgomery County Community Development Center and the North Montgomery County Community Development Center.	During the Hurricane the Food Bank and the West and East Montgomery County Community Development Center failed to fully function because they lost power during storm.
New Waverly	$100,000	Water Facilities	100,000	950	487	N	Water Facilities Contractor shall purchase and install a 175 kW generator at the city's water plant #2.	Power was out in the city for ten days after Hurricane Rita. The city was unable to place its largest water plant into service because it lacked a generator.
Panorama Village	$75,500	Flood/Drainage Engineering Planning/Proj Delivery	56,625 11,375 7,500	1,965	477	Y	Flood and Drainage Facilities Contractor shall use funds as FEMA match to regrade and re-sod 26,780 l.f. of open ditches, replace twenty-six culverts, replace one RCP pipe with HDPE pipe, and install one E inlet and 300 l.f. of earthen berm to direct drainage and reduce flooding.	Heavy rains and storms caused by Hurricane Rita overwhelmed the open ditch drainage system and left silted, clogged, and undersized culverts.
Splendora	$350,000	Flood/Drainage Acquisition Engineering Planning/Proj Delivery	244,250 41,125 29,625 35,000	1,275	641	Y	Flood and Drainage Facilities Contractor shall use funds as FEMA match to mitigate flooding problems in several sections of the city by constructing 300 l.f. of culvert, 470 l.f. of box culvert, a detention pond and outfall, culvert headfalls, concrete rip rap, pavement repair, and utility lowering and seeding.	During Hurricane Rita the drainage system failed to function causing homes and roads to flood.

Applicant	TxCDBG Request Amount	Budget Line Item	TxCDBG Budget	Total Persons	Total Low/Mod Persons	FEMA	Project Description	Hurricane Rita Impact
Surfside Beach	$130,000	Acquisition	130,000	763	388	N	Acquisition Contractor shall acquire and demolish fourteen structures that are located on the public beach designated as "pedestrian only" and convert property to open space in perpetuity. Structures to be acquired and demolished are located at an area 1,604 l.f. from Texas Street to 247 l.f. eastward of Crab Street on Beach Drive.	Structures suffered extensive damage during Hurricane Rita and debris piled up and created extreme hazard to landward properties and impeding public access to beach.
Walker County	$396,930	Water Facilities Shelter	46,930 350,000	3,641	1,302	Y	Water Facilities Contractor shall purchase and install one generator at strategic well, plant site, and water district office to provide one source of service under limited power situations. Neighborhood Facilities/Community Centers Contractor shall use funds as FEMA match to construct a 14,400 s.f. shelter to house approximately one thousand two hundred people.	An estimated ten thousand people per hour traveled north through Walker County in search of a safe destination during Hurricane Rita. The county was prepared to house 2,000 people, but provided shelter to 15,000 in 23 different buildings ranging from schools to churches to private homes. According to the Red Cross most of these facilities were not considered to be substantially sound for occupancy. The Walker County Special Utility District lost power to facilities and was unable to function during Hurricane Rita.
Willis	$254,194	Flood/Drainage Acquisition Engineering Planning/Proj Delivery	199,525 8,750 20,500 25,419	3,985	2,839	Y	Flood and Drainage Contractor shall use funds as FEMA match to construct a detention pond with outfall structure, regrade 4,000 l.f. of drainage ditch, remove and reset fifteen ditch culverts, remove and replace 120 l.f. of 36-inch culvert, remove and enlarge culverts at three separate locations, and regrade and enlarge Crystal Creek.	During Hurricane Rita, the drainage systems in 2 different section of town failed. Flooding occurs due to excessive storm water runoff and low-capacity and improperly designed drainage outfalls. The floodwaters covered roads and endangered property.

SETRPC								
Beaumont	$1,950,000	Flood/Drainage Planning/Proj Delivery	1,825,000 125,000	26,247	14,817	Y	Flood and Drainage Facilities Contractor shall reduce flooding in the area and remove more than nine hundred structures from the National Flood Insurance Program repetitive loss listing. Contractor shall utilize FEMA funds as match.	During Hurricane Rita, the central portion of Beaumont (populated by 26,247 persons) flooded homes and businesses because the drainage system failed to function.
Bevil Oaks	$200,000	Water Facilities Sewer Facilities Street Improvements Fire Protection Engineering Planning/Proj Delivery	42,000 64,000 53,300 15,000 15,700 10,000	1,346	245	N	Water Facilities Contractor shall purchase and install a 60 kW generator at the Bevil Oaks MUD Water Plant. Sewer Facilities Contractor shall purchase and install a 150 kW generator at the Bevil Oaks MUD Sewer Treatment Plant. Street Improvements Contractor shall repair streets and shoulders damaged by fallen trees and debris removal. Fire Protection Facilities & Equipment Contractor shall replace the repeater on the radio tower.	The 140-150 mph winds from Hurricane Rita destroyed the electrical system, causing the Bevil Oaks MUD water and sewer systems to fail to function and meet TCEQ standards. The high winds caused numerous trees and structures to be destroyed and debris had to be removed from the city, damaging the street system. The hurricane also destroyed the volunteer fire department's repeater on the radio tower resulting in loss of communication between the City, VFD and Bevil Oaks M.U.D.
Bridge City	$300,000	Street Improvements Debris Removal Clearance/Demolition	22,092 169,993 107,915	8,651	2,744	Y	Flood & Drainage Facilities-Debris Removal The contractor will continue to provide dumpsters to the residents who have not been able to begin or complete their clean up, repair and restoration of land and homes. Contractor shall utilize FEMA funds as match. Clearance Demolition Activities The contractor will demolish sixteen homes homes with costs including asbestos surveys, dumpsters and contractor fees. Street Improvements The contractor will repair various streets throughout the city that were destroyed during Hurricane Rita.	The debris and demolished homes caused by Hurricane Rita created an unhealthy environment involving mosquitoes, snakes, rats and other dangerous creatures affecting the health and safety of residents. Many streets were also destroyed during the storm causing danger to motorists and affecting emergency service personnel.
China	$200,000	Water Facilities Sewer Facilities Engineering Planning/Proj Delivery	60,000 120,500 9,500 10,000	1,112	495	N	Water Facilities Contractor shall purchase and install a 150 kW generator at the water well/water plant. Sewer Facilities Contractor shall purchase one 100 kW generator and one 40 kW generator for the pump sewer lift station.	The 140-150 mph winds from Hurricane Rita destroyed the electrical system which caused the water and sewer systems to fail to function and meet TCEQ standards.

Applicant	TxCDBG Request Amount	Budget Line Item	TxCDBG Budget	Total Persons	Total Low/Mod Persons	FEMA	Project Description	Hurricane Rita Impact
Groves	$500,000	Water Facilities Sewer Facilities Street Improvements Debris Removal Fire Protection Engineering Planning/Proj Delivery	140,674 42,000 14,379 219,286 48,661 10,000 25,000	15,733	4,511	Y	Water Facilities Contractor shall repair and restore the city water plant and damaged 500,000 gallon elevated water storage facility. Contractor shall utilize FEMA funds for match. Sewer Facilities Contractor shall purchase two 45 kW generators for sewer plant lift station and pumps. Flood and Drainage Facilities-Debris Contractor shall remove and dispose of debris citywide. Street Improvements Contractor shall replace damaged street signs. Fire Protection Facilities & Equipment Contractor shall repair fire station and fire equipment damaged by hurricane.	The 140-150 mph winds from Hurricane Rita destroyed the electrical system and caused the fire/police operations and sewer and water systems to fail to function properly. The water facilities were damaged and the winds caused numerous trees, street signs, and structures to be destroyed. Debris had to be removed from city. Fire stations were damaged.
Hardin County	$1,050,000	Street Improvements Debris Removal Shelter	55,000 745,000 250,000	47,642	18,596	Y	Flood and Drainage Facilities - Debris Contractor shall remove and dispose of debris throughout the county. Street Improvements Contractor shall repair various roads countywide. Contractor shall use FEMA funds as match. Neighborhood Facilities/Community Centers Contractor shall purchase two 350 kW generators for use in facilities used to shelter Hurricane Rita victims.	The 140-150 mph winds from Hurricane Rita destroyed the electrical system which caused the public shelter and EOC systems to fail to function properly. The winds caused numerous trees and structures to be destroyed and created considerable amounts of debris in the county roads and ditches.
Jefferson County	$1,500,000	Street Improvements Debris Removal Specially Authorized Public Facilities Engineering	1,082,363 122,330 278,591 16,716	252,051	73,321	Y	Flood & Drainage Facilities - Debris Contractor shall use funds as FEMA match for countywide debris removal. Street Improvements Contractor shall use funds as FEMA match on countywide road and bridge repairs. Specially Authorized Public Facilities & Improvements Contractor shall use funds as FEMA match on repair of the law enforcement building, county jail, and several health clinics.	As a result of Hurricane Rita, the County experienced damages done to county infrastructure that is not covered by private insurance or FEMA grant funds. Severe winds caused trees, limbs and other debris to be scattered on the roads, damages to roads and bridges caused by flooding, and damages to the law enforcement building, county jail, and several health clinics from severe storm winds and rain.
Kountze	$210,000	Water Facilities Sewer Facilities Shelter Planning/Proj Delivery	34,000 46,000 120,000 10,000	1,738	1,083	N	Water Facilities Contractor shall purchase and install a 100 kW generator for use at the city water plant. Sewer Facilities Contractor shall purchase and install a 100 kW generator and a 60 kW generator for use at the city sewer plant. Neighborhood Facilities/Community Centers Contractor shall purchase and install a 100 kW generator in the community shelter and make necessary improvements to the same facility to ensure adequacy for shelter use.	During Hurricane Rita the City suffered an area wide power outage that caused the city to be unable to provide essential services for water or sewer. The city shelter system also failed to function properly due to the power outage and the inadequate facilities available. Many victims were turned away and those that were accommodated only had a roof over their heads.

Applicant	TxCDBG Request Amount	Budget Line Item	TxCDBG Budget	Total Persons	Total Low/Mod Persons	FEMA	Project Description	Hurricane Rita Impact
Lumberton	$315,000	Water Facilities Debris Removal Clearance/Demolition Planning/Proj Delivery	126,000 90,000 84,000 15,000	8,833	2,894	N	Water Facilities Contractor shall purchase a generator for use in its water system. Flood and Drainage Facilities - Debris Contractor shall remove and dispose of debris throughout the city. Clearance Demolition Activities Contractor shall remove destroyed homes and mobile homes that are a health and safety concern.	Winds from Hurricane Rita blew down trees and damaged homes throughout the city, creating large amounts of debris. The city was without water due to an electrical outage caused by the storm.
Nederland	$500,000	Fire Protection Engineering	412,200 87,800	17,422	4,673	N	Fire Protection Facilities & Equipment Contractor shall purchase and install three 125 kW generators for use in the fire station.	The 140-150 mph winds from Hurricane Rita severely damaged the fire station requiring architectural and engineering plans for restoration and code enforcement for safety issues. City and fire personnel were unable to respond properly due to electrical outages.
Nome	$100,000	Water Facilities Sewer Facilities Fire Protection Planning/Proj Delivery	32,500 45,500 17,000 5,000	515	242	N	Water Facilities Contractor shall purchase and install a 100 kW generator including manual transfer switch, new disconnect, concrete pad and electrical installation at the Water Treatment Plant. Sewer Facilities Contractor shall purchase and permanently affix a 30 kW diesel generator and install manual transfer switch, disconnect, conductors and electrical installation at six lift stations. Fire Protection Facilities & Equipment Contractor shall replace the bay doors and repair the roof of the Fire Station.	The 140-150 mph winds from Hurricane Rita destroyed the electrical system which caused the water system and sewer system to fail to function and meet TCEQ standards. Hurricane Rita winds damaged the bay door, roof and metal siding on the Volunteer Fire Department Fire Station.

Orange	$750,000	Water Facilities Street Improvements Debris Removal Shelter Clearance/Demolition Engineering	20,000 12,483 167,517 370,000 150,000 30,000	4,707	3,100	N	Water Facilities Contractor shall repair a building used for the water system. Street Improvements Contractor shall repair streets and curbs damaged during the storm and cleanup. Flood and Drainage-Debris Removal Contractor shall use funds as the NRCS match for debris removal. Neighborhood Facilities/Community Centers Contractor shall use funds for a portion of the community center / city office (pro rata). Contractor shall use funds for the demolition of a destroyed community center. Engineering / Architectural Services Contractor shall use funds for a portion of the engineering services for the new community center.	Hurricane Rita completely destroyed the Community Center. Much of the roof was torn away and a tree fell through the building causing water damage. The hurricane left debris throughout the city. Many buildings were destroyed including the existing community center.
Orange County	$1,200,000	Street Improvements Debris Removal Shelter Specially Authorized Public Facilities Clearance/Demolition Acquisition Engineering Planning/Proj Delivery	372,728 348,538 41,213 328,521 30,000 18,000 25,000 36,000	84,966	31,531	Y	Street Improvements Contractor shall repair two county roads that were flooded and damaged. The County shall raise the elevation of Connolly Road over the Neches River. The work shall include fill, sub-base material and asphalt surface. Four Oak Ranch Road will be relocated. Flood & Drainage Facilities - Debris Contractor shall increase staff hours and dumpsters at the landfill to accommodate the additional debris and remove debris from the county roads and ditch right-of-ways. Contractor shall use funds as FEMA match for a NRCS project along the drainage systems. The county shall utilize force account labor and equipment. Neighborhood Facilities/Community Center Contractor shall replace the gym floor of the Mauriceville Middle School, which was used as a shelter. Specially Authorized Public Facilities Contractor shall make repairs to building housing Meals on Wheels after insurance and FEMA payments; shall use funds as FEMA match for recovery projects including repairs to parking lot, radio tower building and radio tower, and Sheriff's Office Vidor Annex. Acquisition Contractor shall utilize funds for FEMA match on Hazard Mitigation to acquire one property.	The 140-150 mph winds from Hurricane Rita severely damaged county service buildings and transportation center. Flood waters damaged county road systems which will need to be improved by raising the elevation and relocating a portion of another road.

Flood and Drainage - Debris Contractor shall remove debris along Tiger Creek and the sewer utility right-of-way to ensure adequate drainage along the creek. Neighborhood Facilities/Community Centers Contractor shall install a 30 kW generator for emergency power at the city's Community Center / office building, on a pro rata basis, that was used as a public shelter.	The 140-150 mph winds from Hurricane Rita destroyed the electrical system which caused power outages at the City's Community Center/ Office which was used as a public shelter. High winds created tree debris, which collected in Tiger Creek and sewer utility right-of-ways. Portions of Lake View Cut-Off Road were damaged due to heavy equipment being used to remove fallen trees and construction material debris.
Pinehurst	$200,000	Water Facilities Sewer Facilities Street Improvements Debris Removal Fire Protection Engineering Planning/Proj Delivery	94,330 33,000 24,250 24,000 8,000 6,420 10,000	2,274	1,004	N	Water Facilities Contractor shall purchase and install two 150 kW generators including transfer switches and concrete pads for water wells. Sewer Facilities Contractor shall purchase and permanently affix a 45 kW trailer-mounted generator and install eight manual transfer switches at the eight lift station sites. Flood and Drainage Facilities - Debris Contractor shall remove and dispose of 1,200 c.y. of debris along right-of-ways. Street Improvements Contractor shall repair shoulders and street ditches, including reshaping and replacing damaged culverts. Fire Protection Facilities and Equipment Contractor shall replace aluminum and vinyl hose covers on two fire trucks.	The winds from Hurricane Rita destroyed the electrical system which caused the City's water system and sewer system to fail to function. The winds caused numerous trees and structures to be destroyed and the debris had to be removed from the City which damaged the street shoulders and ditches. The wind also blew off the vinyl and aluminum hose covers from two of the city fire trucks. Additional debris along the City street right-of-way will need to be removed to protect the health and safety of the residents.

Port Arthur	$1,500,000	Water Facilities Street Improvements Debris Removal Fire Protection Specially Authorized Public Facilities Infrastructure	102,846 113,550 1,035,507 33,155 114,942 100,000	57,023	31,689	N	Water Facilities The Contractor shall use contract funds to match FEMA projects completing repair on 9 water towers, 15 water lift stations, water service center, pump station, system treatment costs. Street Improvements The Contractor shall repair a bridge washed away by Hurricane Rita as a portion of a TxDOT project. Flood & Drainage - Debris The Contractor shall remove debris associated with roadways and buildings and dispose of it in the City owned landfill. Specially Authorized Public Facility The Contractor shall repair fire staions damaged by Hurricane Rita. Interim Assitance The Contractor shall pay for costs associated with the cleanup and sheltering in the Sabine Pass area of the City.	During Hurrican Rita the entire City of Port Arthur was under a mandatory evacuation including police and fire. The hurricane made land fall at 2 a.m. September 24th as a Category 3 storm with sustained winds in excess of 120 mph. The Sabine Pass area of Port Arthur was hit by an 8-10 foot storm surge that severly damaged or destroyed most structures. It is estimated 88% of the structures in the City received damage from this storm. After the storm a City wide curfew was enacted due to the damage sustained. Roadblocks were placed at all entrances to the City to prevent residents from re-entering the City. Due to the lack of utilities and the debris on roads through out the City residents were not allowed to return until 18 days later. Full electrical service was not available until late October.

Housing Tax Credit Program
Board Action Request
August 30, 2006

Action Item

Request, review, and board determination of four (4) four percent (4%) tax credit applications with TDHCA as the Issuer.

Recommendation

Staff is recommending that the board review and approve the issuance of four (4) four percent (4%) Tax Credit Determination Notices with **TDHCA** as the Issuer for tax exempt bond transactions known as:

Development No.	Name	Location	Issuer	Total Units	LI Units	Total Development	Applicant Proposed Tax Exempt Bond Amount	Requested Credit Allocation	Recommended Credit Allocation

BOARD ACTION REQUEST
August 30, 2006

Action Item

Presentation, Discussion and Possible Approval for the issuance of Multifamily Housing Mortgage Revenue Bonds, Series 2006 and Housing Tax Credits for the Pleasant Village Apartments development.

Summary of the Pleasant Village Apartments Transaction

The pre-application was received on October 3, 2004. The application was scored and ranked by staff. The application was induced at the November 2004 Board meeting and an Application for Traditional Carryforward was submitted to the Texas Bond Review Board on December 14, 2004. The application received a Reservation of Allocation on December 15, 2004. This application is pooled with another transaction, Grove Village Apartments. Under the Traditional Carryforward designation the applicant must close on the bonds within 3 years of the reservation date. This application was submitted under the Priority 1C category. A public hearing was held on January 29, 2006. There were approximately 10 people in attendance with four people speaking for the record. The main concerns included the relocation plan of the tenants during the rehabilitation work, what was the scope of work that would be done, and what additional security measures the developer would be enforcing. A copy of the transcript is included in this presentation. The proposed site is located in the Dallas Independent School District.

The proposed acquisition/rehabilitation development is located at 378 N. Jim Miller Road, Dallas, Dallas County. Demographics for the census tract (93.04) include AMFI of $23,745; the total population is 5,555; the percent of the population that is minority is 96.96%; the number of owner occupied units is 560; the number renter occupied units is 1,191 and the number of vacant units is 309. (Census Information from FFIEC Geocoding for 2006)

Summary of the Financial Structure

The applicant is requesting the Department's approval and issuance of fixed rate tax exempt bonds in the amount of $6,000,000. The bonds will be unrated and privately placed by U S Bank. U S Bank will underwrite the transaction using a debt coverage ratio of 1.15. The construction and lease up period will be for twelve months with payment terms of interest only, followed by a 22 year term and 30 year amortization. The interest rate on the Bonds will be 6.00% per annum.

Recommendation

Staff recommends the Board approve the issuance of Multifamily Housing Mortgage Revenue Bonds, Series 2006 and Housing Tax Credits for the Pleasant Village Apartments development because of the demonstrated quality of the rehabilitation of the proposed development, the feasibility of the development (as demonstrated by the financial commitments from U S Bank and WNC & Associates, Inc. and the underwriting report by the Department's Real Estate Analysis Division), the tenant and social services provided by the development and the demand for affordable units as demonstrated by the market area.

MULTIFAMILY FINANCE PRODUCTION DIVISION
BOARD MEMORANDUM
August 30, 2006

DEVELOPMENT: Pleasant Village Apartments, Dallas, Dallas County

PROGRAM: Texas Department of Housing and Community Affairs
2006 Multifamily Housing Mortgage Revenue Bonds
(Reservation received 12/15/04)

ACTION REQUESTED: Approve the issuance of multifamily housing mortgage revenue bonds (the "Bonds") by the Texas Department of Housing and Community Affairs (the "Department"). The Bonds will be issued under Chapter 1371, Texas Government Code, as amended, and under Chapter 2306, Texas Government Code, the Department's Enabling Statute (the "Statute"), which authorizes the Department to issue its revenue bonds for its public purposes as defined therein. (*The Statute provides that the Department's revenue bonds are solely obligations of the Department, and do not create an obligation, debt, or liability of the State of Texas or a pledge or loan of the faith, credit or taxing power of the State of Texas.)*

PURPOSE: The proceeds of the Bonds will be used to fund a mortgage loan (the "Mortgage Loan") to Pleasant Village L.P. an Oregon limited partnership (the "Borrower"), to finance the acquisition, rehabilitation, equipping and long-term financing of a 200-unit multifamily residential rental Development located at 378 N. Jim Miller Road, Dallas, Dallas County (the "Development"). The Bonds will be tax-exempt by virtue of the Development's qualifying as a residential rental Development.

BOND AMOUNT: $6,000,000 Series 2006 Tax Exempt bonds (*)
$6,000,000 Total bonds

(*) The aggregate principal amount of the Bonds will be determined by the Department based on its rules, underwriting, the cost of construction of the Development and the amount for which Bond Counsel can deliver its Bond Opinion.

ANTICIPATED CLOSING DATE: The Department filed an application for Carryforward on December 14, 2004 for the Bonds pursuant to the Texas Bond Review Board's 2004 Private Activity Bond Allocation Program. While the Department is required to deliver the Bonds within 3 years of the reservation date, the anticipated closing date is August 31, 2006.

BORROWER: Pleasant Village Limited Partnership, an Oregon limited partnership, the general partner of which is Walker Guardian, L.L.C., an Oregon corporation, of which its managing member is Walker Bridge, LLC and its sole member is Rob Walker.

** Preliminary - Represents Maximum Amount*

COMPLIANCE HISTORY: The Compliance Status Summary completed on July 14, 2006 reveals that the principals of the general partner above have one property that will be monitored by the Department.

ISSUANCE TEAM & ADVISORS:

U S Bank National Association ("Bond Purchaser")
U S Bank National Association ("Trustee")
WNC & Associates ("Equity Provider")
Vinson & Elkins L.L.P. ("Bond Counsel")
RBC Capital Markets ("Financial Advisor")
McCall, Parkhurst & Horton, L.L.P. (Disclosure Counsel)

BOND PURCHASER: The Bonds will be privately placed on or about August 16, 2006. The initial purchaser and any subsequent purchaser will be required to sign the Department's standard traveling investor letter. The Bonds must be held by a sole bondholder at all times.

DEVELOPMENT DESCRIPTION:

Site: The proposed affordable housing community is a 200-unit multifamily residential rental development to be acquired and rehabilitated on approximately 20 acres of land located at 378 N. Jim Miller Road, Dallas, Dallas County (the "Development"). The density is 10 dwelling units per acre.

Buildings: The development will include a total of (25) three-story apartment buildings containing approximately 161,640 net rentable square feet and having an average unit size of 808 square feet. Rehabilitation will consist of wood-famed buildings with approximately 80% brick veneer exterior. Common area amenities will include barbecue grills and picnic tables, laundry facility, controlled-access gates, and outdoor activity areas. Unit amenities will include vinyl flooring and carpeting, washer/dryer connections, a microwave oven, and covered entries. There will also be on-site security.

Units	Unit Type	Square Feet	Proposed Rent	AMFI
40	1-Bedroom/1-Bath	584	$515.00	60%
120	2-Bedrooms/1.5-Baths	811	$625.00	60%
20	3-Bedrooms/1.5-Baths	1,024	$725.00	60%
20	3-Bedrooms/1.5-Baths	1,024	$404.00	30%
200	Total Units			

SET-ASIDE UNITS: For Bond covenant purposes, at least forty (40%) of the residential units in the development are set aside for persons or families earning not more than sixty percent (60%) of the area median income. Five percent (5%) of the units in each Development will be set aside on a priority basis for persons with special needs.

TENANT SERVICES: Tenant Services will be provided by the developer according to the requirements as outlined in the Departments Land Use Restriction Agreement.

DEPARTMENT FEES: $1,000 Pre-Application Fee (Paid).
$10,000 Application Fee (Paid).
$30,000 Issuance Fee (.50% of the bond amount paid at closing).

DEPARTMENT ANNUAL FEES: $6,000 Bond Administration (0.10% of first year bond amount)
$8,000 Compliance ($40/unit/year adjusted annually for CPI)

(Department's annual fees may be adjusted, including deferral, to accommodate underwriting criteria and Development cash flow. These fees will be subordinated to the Mortgage Loan and paid outside of the cash flows contemplated by the Indenture)

ASSET OVERSIGHT FEE: $5,000 to TDHCA or assigns ($25/unit/year adjusted annually for CPI)

TAX CREDITS: The Borrower has applied to the Department to receive a Determination Notice for the 4% tax credit that accompanies the private-activity bond allocation. The tax credit equates to approximately $370,152 per annum and represents equity for the transaction. To capitalize on the tax credit, the Borrower will sell a substantial portion of its limited partnership interests, typically 99%, to raise equity funds for the Development. Although a tax credit sale has not been finalized, the Borrower anticipates raising approximately $2,850,168 of equity for the transaction.

BOND STRUCTURE: The Bonds are proposed to be issued under a Trust Indenture (the "Trust Indenture") that will describe the fundamental structure of the Bonds, permitted uses of Bond proceeds and procedures for the administration, investment and disbursement of Bond proceeds and program revenues.

The Bonds will mature over a term of approximately 22 years. The Bonds will pay interest only for approximately twelve (12) months following the closing date. The loan will be secured by a first lien on the Development.

BOND INTEREST RATES: The interest rate on the Bonds will be 6.00%. The Department's Real Estate Analysis division underwrote the transaction using a 6.00% rate.

CREDIT ENHANCEMENT: The bonds will be unrated with no credit enhancement.

FORM OF BONDS: The Bonds will be issued in physical form and are not eligible to be held in a book-entry only system unless the Bonds receive a rating of "A" or better from a nationally recognized rating agency. The Bonds will be issued initially in denominations of $100,000 plus any integral multiple of $5,000 in excess thereof.

MATURITY/SOURCES & METHODS OF REPAYMENT: The Bonds will bear interest at a fixed rate until maturity and will be payable monthly. During approximately the first twelve (12) months following the closing date, the Bonds will be payable as to interest only, from an initial deposit at closing to the Capitalized Interest Account of the Construction Fund, earnings derived from amounts held on deposit in an investment agreement, if any, and other funds deposited to the Bond Fund specifically for capitalized interest during a portion of the construction phase. After completion of the Development, the Bonds will be paid from revenues earned from the Mortgage Loan.

TERMS OF THE MORTGAGE LOAN: The Mortgage Loan is a non-recourse obligation of the Borrower (which means, subject to certain exceptions, the Borrower is not liable for the payment thereof beyond the amount realized from the pledged security) providing for monthly payments of interest during the construction phase and level monthly payments of principal and interest upon following the completion date of the Development. A Deed of Trust and related documents convey the Borrower's interest in the Development to secure the payment of the Mortgage Loan.

REDEMPTION OF BONDS PRIOR TO MATURITY: The Bonds may be subject to redemption under any of the following circumstances:

Sinking Fund Redemption:

The Bonds are subject to a mandatory redemption in part by operation of a sinking fund, according to the schedule set forth in the Indenture.

Optional Redemption:

The Bonds are subject to optional redemption, in whole or in part at the direction of the Borrower on any Bond Payment Date, from the proceeds of an optional prepayment of the Loan by the Borrower at the redemption price calculated in accordance with Exhibit H of the Indenture plus accrued and unpaid interest to the redemption date.

Mandatory Redemption:

(a) (i) in whole or in part, in the event and to the extent that amounts on deposit in (i) the Bond Proceeds Subaccount of the

Capitalized Interest Account of the Project Fund, or (ii) the Bond Proceeds Subaccount of the Mortgage Loan Account of the Project Fund are transferred to the Redemption Fund on the first Business day following such transfer for which thirty (30) days notice of redemption can be given.

(b) If so called for redemption, the Bonds shall be redeemed at the redemption price calculated in accordance with Exhibit H to the Indenture plus accrued and unpaid interest to the date fixed for redemption.

Extraordinary or Special Mandatory Redemption

(a) in whole or in part, if there is damage to or destruction or condemnation of the Development, to the extent that Insurance Proceeds or a Condemnation Award in connection with the Development are deposited in the Revenue Fund and are not to be used to repair or restore the Development;

(b) in whole or in part, in the event of prepayment of the Loan at the direction of a trustee in Bankruptcy for the Borrower;

(c) in whole, when any amounts in the Bond Fund not being held therein to redeem Bonds is sufficient to pay any unpaid amount required to be paid by the Indenture and to redeem all Outstanding Bonds; and

(d) in whole, upon direction to the Trustee from the sole Bondholder to redeem all Outstanding Bonds on August 31, 2022, provided, that such direction from the sole Bondholder shall be given to the Trustee on or before the date that is 30 days after the Termination Date. If called for redemption pursuant to (a) through (c) above, the Bonds shall be redeemed at a redemption price calculated in accordance with Exhibit H to the Indenture plus accrued but unpaid interest to the redemption date. If called to redemption pursuant to (d) above, the Bonds shall be redeemed at a redemption price of par plus accrued but unpaid interest to the redemption date.

FUNDS AND ACCOUNTS ADMINISTRATION:

Under the Trust Indenture, the Trustee will serve as registrar and authenticating agent for the Bonds and as trustee of certain of the accounts created under the Trust Indenture (described below). The Trustee will also have responsibility for a number of loan administration and monitoring functions.

Moneys on deposit in Trust Indenture accounts are required to be invested in eligible investments prescribed in the Trust Indenture until needed for the purposes for which they are held.

The Trust Indenture will create the following Funds and Accounts:

1. Bond Fund – Fund into which payments made by the Borrower are deposited and containing an Interest Account, Principal Account and Administrative Expense Account:

   (a) Administrative Expenses Account– Amounts used for all fees, indemnification amounts and other amounts payable to and for the account of the Trustee for extraordinary services of the Issuer, Bond Counsel, Trustee etc .

   (b) Interest Account – Amounts used to pay the interest on the Bonds coming due on such Bond Payment Date;

   (c) Principal Account – Amounts used to pay the principal of any Bonds coming due on such payment date;

2. Reserve for Replacements Fund – Amounts which are held in reserve to cover replacement costs and ongoing maintenance to the Development.

3. Redemption Fund – Amounts which are used to effect mandatory or optional redemptions.

4. Rebate Fund – Fund into which certain investment earnings are transferred that are required to be rebated periodically to the federal government to preserve the tax-exempt status of the Bonds. Amounts in this fund are held apart from the trust estate and are not available to pay debt service on the Bonds.

5. Debt Service Reserve Fund – Amounts equal to the Reserve Fund requirement used to pay principal and interest on the Bonds in the event amount sin the Interest account and Principal account of the Bond Fund are insufficient.

6. Cost of Issuance Fund – A temporary fund into which amounts for the payment of the costs of issuance are deposited and disbursed by the Trustee;

7. Operating Deficit Fund – A temporary fund into which deposits are made by the Borrower to transfer to the accounts of the Bond Fund to cover any Shortfall Amount (as such term is defined in the Indenture), and to be released to the Borrower once certain conditions are met under the Indenture.

8. Project Fund (containing a Capitalized Interest Account (with Bond Proceeds Subaccount and Borrower Equity Subaccount therein) and a Mortgage Loan Account (with a Bond Proceeds Account and the Borrower Contribution Account therein)) –

Amounts used for the purpose of paying the costs of the development and paying interest on the Bonds during the construction period on the Development.

The majority of the bond proceeds will be deposited into the Project Fund and disbursed therefrom during the Construction Phase to finance the construction of the Development. Costs of issuance of up to two percent (2%) of the principal amount of the Bonds may be paid from Bond proceeds.

DEPARTMENT ADVISORS:

The following advisors have been selected by the Department to perform the indicated tasks in connection with the issuance of the Bonds.

1. Bond Counsel - Vinson & Elkins L.L.P. ("V&E") was most recently selected to serve as the Department's bond counsel through a request for proposals ("RFP") issued by the Department in September 2005.

2. Bond Trustee – U S Bank National Association was selected as bond trustee by the Department pursuant to a request for proposals process in August 2005.

3. Financial Advisor – RBC Capital Markets, formerly RBC Dain Rauscher, was selected by the Department as the Department's financial advisor through a request for proposals process in August 2003.

4. Disclosure Counsel –McCall, Parkhurst & Horton, L.L.P. was selected by the Department as Disclosure Counsel through a request for proposals process in September 2005.

ATTORNEY GENERAL REVIEW OF BONDS:

No preliminary written review of the Bonds by the Attorney General of Texas has yet been made. Department bonds, however, are subject to the approval of the Attorney General, and transcripts of proceedings with respect to the Bonds will be submitted for review and approval prior to the issuance of the Bonds.

RESOLUTION NO. 06-028

RESOLUTION AUTHORIZING AND APPROVING THE ISSUANCE, SALE AND DELIVERY OF MULTIFAMILY HOUSING REVENUE BONDS (PLEASANT VILLAGE APARTMENTS) SERIES 2006; APPROVING THE FORM AND SUBSTANCE AND AUTHORIZING THE EXECUTION AND DELIVERY OF DOCUMENTS AND INSTRUMENTS PERTAINING THERETO; AUTHORIZING AND RATIFYING OTHER ACTIONS AND DOCUMENTS; AND CONTAINING OTHER PROVISIONS RELATING TO THE SUBJECT

WHEREAS, the Texas Department of Housing and Community Affairs (the "Department") has been duly created and organized pursuant to and in accordance with the provisions of Chapter 2306, Texas Government Code, as amended (the "Act"), for the purpose, among others, of providing a means of financing the costs of residential ownership, development and rehabilitation that will provide decent, safe, and affordable living environments for individuals and families of low, very low and extremely low income and families of moderate income (all as defined in the Act); and

WHEREAS, the Act authorizes the Department: (a) to make mortgage loans to housing sponsors to provide financing for multifamily residential rental housing in the State of Texas (the "State") intended to be occupied by individuals and families of low, very low and extremely low income and families of moderate income, as determined by the Department; (b) to issue its revenue bonds, for the purpose, among others, of obtaining funds to make such loans and provide financing, to establish necessary reserve funds and to pay administrative and other costs incurred in connection with the issuance of such bonds; and (c) to pledge all or any part of the revenues, receipts or resources of the Department, including the revenues and receipts to be received by the Department from such multifamily residential rental development loans, and to mortgage, pledge or grant security interests in such loans or other property of the Department in order to secure the payment of the principal or redemption price of and interest on such bonds; and

WHEREAS, the governing board of the Department (the "Board") has determined to authorize the issuance of the Texas Department of Housing and Community Affairs Multifamily Housing Revenue Bonds (Pleasant Village Apartments) Series 2006 (the "Bonds"), pursuant to and in accordance with the terms of a Trust Indenture (the "Indenture") by and between the Department and U.S. Bank National Association, a national banking association, as trustee (the "Trustee"), for the purpose of obtaining funds to finance the Development (defined below), all under and in accordance with the Constitution and laws of the State; and

WHEREAS, the Department desires to use the proceeds of the Bonds to fund a mortgage loan to Pleasant Village Limited Partnership, an Oregon limited partnership (the "Borrower"), in order to finance the cost of acquisition, rehabilitation and equipping of a qualified residential rental development described on Exhibit A attached hereto (the "Development") located within the State and required by the Act to be occupied by individuals and families of low and very low income and families of moderate income, as determined by the Department; and

WHEREAS, the Board, by resolution adopted on November 12, 2004, declared its intent to issue its revenue bonds to provide financing for the Development; and

WHEREAS, it is anticipated that the Department and the Borrower will execute and deliver a Loan Agreement (the "Loan Agreement") pursuant to which (i) the Department will agree to make a mortgage loan funded with the proceeds of the Bonds (the "Loan") to the Borrower to enable the Borrower to finance a portion of the cost of acquisition, rehabilitation and equipping of the Development and related costs, and (ii) the Borrower will execute and deliver to the Department a promissory note (the "Note") in an original aggregate principal amount equal to the original aggregate principal amount of the Bonds, and providing for payment of interest on such principal amount equal to the interest on the Bonds and to pay other costs described in the Loan Agreement; and

WHEREAS, it is anticipated that the Note will be secured by a Construction Deed of Trust, Security Agreement, Assignment of Leases and Rents, and Fixture Filing (the "Mortgage") by the Borrower for the benefit of the Department; and

WHEREAS, the Department's interest in the Loan (except for certain reserved rights), including the Note and the Mortgage, will be assigned to the Trustee pursuant to an Assignment of Deed of Trust Documents and an Assignment of Note (collectively, the "Assignments") from the Department to the Trustee; and

WHEREAS, the Board has determined that the Department, the Trustee and the Borrower will execute a Regulatory and Land Use Restriction Agreement (the "Regulatory Agreement"), with respect to the Development which will be filed of record in the real property records of Dallas County, Texas; and

WHEREAS, the Board has determined that the Department and the Borrower will execute an Asset Oversight Agreement (the "Asset Oversight Agreement"), with respect to the Development for the purpose of monitoring the operation and maintenance of the Development; and

WHEREAS, the Board has examined proposed forms of (a) the Indenture, the Loan Agreement, the Assignments, the Regulatory Agreement and the Asset Oversight Agreement (collectively, the "Issuer Documents"), all of which are attached to and comprise a part of this Resolution, and (b) the Mortgage and the Note; has found the form and substance of such documents to be satisfactory and proper and the recitals contained therein to be true, correct and complete; and has determined, subject to the conditions set forth in Article I, to authorize the issuance of the Bonds, the execution and delivery of the Issuer Documents, the acceptance of the Mortgage and the Note, and the taking of such other actions as may be necessary or convenient in connection therewith; NOW, THEREFORE,

BE IT RESOLVED BY THE BOARD OF THE TEXAS DEPARTMENT OF HOUSING AND COMMUNITY AFFAIRS:

ARTICLE I

ISSUANCE OF BONDS; APPROVAL OF DOCUMENTS

Section 1.1--Issuance, Execution and Delivery of the Bonds. That the issuance of the Bonds is hereby authorized, under and in accordance with the conditions set forth herein and in the Indenture, and that, upon execution and delivery of the Indenture, the authorized representatives of the Department named in this Resolution each are authorized hereby to execute, attest and affix the Department's seal to the Bonds and to deliver the Bonds to the Attorney General of the State of Texas for approval, the Comptroller of Public Accounts of the State of Texas for registration and the Trustee for authentication (to the extent required in the Indenture), and thereafter to deliver the Bonds to or on the order of the initial purchaser thereof.

Section 1.2--Interest Rate, Principal Amount, Maturity and Price. That (i) the Bond shall bear interest at a rate of 6.0% per annum (subject to adjustment to a default rate as provided the Indenture); provided that, in no event shall the interest rate (including any default rate) on the Bonds exceed the maximum interest rate permitted by applicable law; (ii) the aggregate principal amount of the Bonds shall be $6,000,000; (iii) the final maturity of the Bonds shall occur on February 28, 2023; and (iv) the price at which the Bonds are sold to the Purchaser shall be the principal amount thereof.

Section 1.3--Approval, Execution and Delivery of the Indenture. That the form and substance of the Indenture are hereby approved, and that the authorized representatives of the Department named in this Resolution each are authorized hereby to execute the Indenture and to deliver the Indenture to the Trustee.

Section 1.4--Approval, Execution and Delivery of the Loan Agreement. That the form and substance of the Loan Agreement are hereby approved, and that the authorized representatives of the Department named in this Resolution each are authorized hereby to execute the Loan Agreement and deliver the Loan Agreement to the Borrower and the Trustee.

Section 1.5--Approval, Execution and Delivery of the Regulatory Agreement. That the form and substance of the Regulatory Agreement are hereby approved, and that the authorized representatives of the Department named in this Resolution each are authorized hereby to execute, attest and affix the Department's seal to the Regulatory Agreement and deliver the Regulatory Agreement to the Borrower and the Trustee and to cause the Regulatory Agreement to be filed of record in the real property records of Dallas County, Texas.

Section 1.6--Acceptance of the Mortgage and Note. That the form and substance of the Mortgage and the Note are hereby accepted by the Department and that the authorized representatives of the Department named in this Resolution each are hereby authorized to endorse and deliver the Note to the order of the Trustee, as its interests may appear, without recourse.

Section 1.7--Approval, Execution and Delivery of the Assignments. That the form and substance of the Assignments are hereby approved; and that the authorized representatives of the

Department named in this Resolution are each hereby authorized to execute, attest and affix the Department's seal to the Assignments and to deliver the Assignments to the Trustee.

Section 1.8--Approval, Execution and Delivery of the Asset Oversight Agreement. That the form and substance of the Asset Oversight Agreement are hereby approved, and that the authorized representatives of the Department named in this Resolution each are authorized hereby to execute and deliver the Asset Oversight Agreement to the Borrower.

Section 1.9--Taking of Any Action; Execution and Delivery of Other Documents. That the authorized representatives of the Department named in this Resolution each are authorized hereby to take any actions and to execute, attest and affix the Department's seal to, and to deliver to the appropriate parties, all such other agreements, commitments, assignments, bonds, certificates, contracts, documents, instruments, releases, financing statements, letters of instruction, notices of acceptance, written requests and other papers, whether or not mentioned herein, as they or any of them consider to be necessary or convenient to carry out or assist in carrying out the purposes of this Resolution.

Section 1.10--Exhibits Incorporated Herein. That all of the terms and provisions of each of the documents listed below as an exhibit shall be and are hereby incorporated into and made a part of this Resolution for all purposes:

Exhibit B - Indenture
Exhibit C - Loan Agreement
Exhibit D - Regulatory Agreement
Exhibit E Mortgage
Exhibit F - Note
Exhibit G - Assignments
Exhibit H - Asset Oversight Agreement

Section 1.11--Power to Revise Form of Documents. That notwithstanding any other provision of this Resolution, the authorized representatives of the Department named in this Resolution each are authorized hereby to make or approve such revisions in the form of the documents attached hereto as exhibits as, in the judgment of such authorized representative or authorized representatives, and in the opinion of Vinson & Elkins L.L.P., Bond Counsel to the Department, may be necessary or convenient to carry out or assist in carrying out the purposes of this Resolution, such approval to be evidenced by the execution of such documents by the authorized representatives of the Department named in this Resolution.

Section 1.12--Authorized Representatives. That the following persons are each hereby named as authorized representatives of the Department for purposes of executing, attesting, affixing the Department's seal to, and delivering the documents and instruments and taking the other actions referred to in this Article I: Chair and Vice Chairman of the Board, Executive Director of the Department, Deputy Executive Director of Housing Operations of the Department, Deputy Executive Director of Programs of the Department, Chief of Agency Administration of the Department, Director of Financial Administration of the Department, Director of Bond Finance of the Department, Director of Multifamily Finance Production of the Department and the Secretary to the Board.

Section 1.13--Conditions Precedent. That the issuance of the Bonds shall be further subject to, among other things: (a) the Development's meeting all underwriting criteria of the Department, to the satisfaction of the Executive Director of the Department; and (b) the execution by the Borrower and the Department of contractual arrangements satisfactory to the Department staff requiring that community service programs will be provided at the Development.

ARTICLE II

APPROVAL AND RATIFICATION OF CERTAIN ACTIONS

Section 2.1--Approval and Ratification of Application to Texas Bond Review Board. That the Board hereby ratifies and approves the submission of the application for approval of State bonds to the Texas Bond Review Board on behalf of the Department in connection with the issuance of the Bonds in accordance with Chapter 1231, Texas Government Code.

Section 2.2--Approval of Submission to the Attorney General of the State of Texas. That the Board hereby authorizes, and approves the submission by the Department's Bond Counsel to the Attorney General of the State of Texas, for his approval, of a transcript of legal proceedings relating to the issuance, sale and delivery of the Bonds.

Section 2.3--Certification of the Minutes and Records. That the Secretary to the Board hereby is authorized to certify and authenticate minutes and other records on behalf of the Department for the Bonds and all other Department activities.

Section 2.4--Authority to Invest Proceeds. That the Department is authorized to invest and reinvest the proceeds of the Bonds and the fees and revenues to be received in connection with the financing of the Development in accordance with the Indenture and to enter into any agreements relating thereto only to the extent permitted by the Indenture.

Section 2.5----Approving Initial Rents. That the initial maximum rent charged by the Borrower for the units of the Development shall not exceed the amounts attached as an exhibit to the Regulatory Agreement and shall be annually redetermined by the Borrower and reviewed by the Department as set forth in the Loan Agreement.

Section 2.6----Purchaser. That the purchaser with respect to the issuance of the Bonds shall be U.S. Bank National Association (the "Purchaser").

Section 2.7--Ratifying Other Actions. That all other actions taken by the Executive Director of the Department and the Department staff in connection with the issuance of the Bonds and the financing of the Development are hereby ratified and confirmed.

Section 2.8--— Engagement of Other Professionals. That the Executive Director of the Department or any successor is authorized to engage auditors, analysts and consultants to perform such functions, audits, yield calculations and subsequent investigations as necessary or appropriate to comply with the requirements of Bond Counsel to the Department, provided such engagement is done in accordance with applicable law of the State.

ARTICLE III

CERTAIN FINDINGS AND DETERMINATIONS

Section 3.1--Findings of the Board. That in accordance with Section 2306.223 of the Act, and after the Department's consideration of the information with respect to the Development and the information with respect to the proposed financing of the Development by the Department, including but not limited to the information submitted by the Borrower, independent studies commissioned by the Department, recommendations of the Department staff and such other information as it deems relevant, the Board hereby finds:

(a) Need for Housing Development.

(i) that the Development is necessary to provide needed decent, safe, and sanitary housing at rentals or prices that individuals or families of low and very low income or families of moderate income can afford,

(ii) that the financing of the Development is a public purpose and will provide a public benefit, and

(iii) that the Development will be undertaken within the authority granted by the Act to the housing finance division and the Borrower.

(b) Findings with Respect to the Borrower.

(i) that the Borrower, by operating the Development in accordance with the requirements of the Loan Agreement and the Regulatory Agreement, will comply with applicable local building requirements and will supply well-planned and well-designed housing for individuals or families of low and very low income or families of moderate income,

(ii) that the Borrower is financially responsible and has entered into a binding commitment to repay the Loan in accordance with its terms, and

(iii) that the Borrower is not, and will not enter into a contract for the Development with, a housing developer that: (A) is on the Department's debarred list, including any parts of that list that are derived from the debarred list of the United States Department of Housing and Urban Development; (B) breached a contract with a public agency; or (C) misrepresented to a subcontractor the extent to which the developer has benefited from contracts or financial assistance that has been awarded by a public agency, including the scope of the developer's participation in contracts with the agency and the amount of financial assistance awarded to the developer by the Department.

(c) Public Purpose and Benefits.

(i) that the Borrower has agreed to operate the Development in accordance with the Loan Agreement and the Regulatory Agreement, which require, among other things, that the Development be occupied by individuals and families of low and very low income and families of moderate income, and

(ii) that the issuance of the Bonds to finance the Development is undertaken within the authority conferred by the Act and will accomplish a valid public purpose and will provide a public benefit by assisting individuals and families of low and very low income and families of moderate income in the State to obtain decent, safe, and sanitary housing by financing the costs of the Development, thereby helping to maintain a fully adequate supply of sanitary and safe dwelling accommodations at rents that such individuals and families can afford.

Section 3.2--Determination of Eligible Tenants. That the Board has determined, to the extent permitted by law and after consideration of such evidence and factors as it deems relevant, the findings of the staff of the Department, the laws applicable to the Department and the provisions of the Act, that eligible tenants for the Development shall be (1) individuals and families of low and very low income, (2) persons with special needs, and (3) families of moderate income, with the income limits as set forth in the Loan Agreement and the Regulatory Agreement.

Section 3.3--Sufficiency of Loan Interest Rate. That the Board hereby finds and determines that the interest rate on the Loan established pursuant to the Loan Agreement will produce the amounts required, together with other available funds, to pay for the Department's costs of administration, monitoring and oversight with respect to the Bonds and the Development and enable the Department to meet its covenants with and responsibilities to the holders of the Bonds.

Section 3.4--No Gain Allowed. That, in accordance with Section 2306.498 of the Act, no member of the Board or employee of the Department may purchase any Bond in the secondary open market for municipal securities.

Section 3.5--Waiver of Rules. That the Board hereby waives the rules contained in Chapters 33 and 35, Title 10 of the Texas Administrative Code to the extent such rules are inconsistent with the terms of this Resolution and the bond documents authorized hereunder.

ARTICLE IV

GENERAL PROVISIONS

Section 4.1--Limited Obligations. That the Bonds and the interest thereon shall be limited obligations of the Department payable solely from the trust estate created under the Indenture, including the revenues and funds of the Department pledged under the Indenture to secure payment of the Bonds and under no circumstances shall the Bonds be payable from any other revenues, funds, assets or income of the Department.

Section 4.2--Non-Governmental Obligations. That the Bonds shall not be and do not create or constitute in any way an obligation, a debt or a liability of the State or create or constitute a pledge, giving or lending of the faith or credit or taxing power of the State. Each Bond shall contain on its face a statement to the effect that the State is not obligated to pay the principal thereof or interest thereon and that neither the faith or credit nor the taxing power of the State is pledged, given or loaned to such payment.

Section 4.3--Effective Date. That this Resolution shall be in full force and effect from and upon its adoption.

Section 4.4--Notice of Meeting. Written notice of the date, hour and place of the meeting of the Board at which this Resolution was considered and of the subject of this Resolution was furnished to the Secretary of State and posted on the Internet for at least seven (7) days preceding the convening of such meeting; that during regular office hours a computer terminal located in a place convenient to the public in the office of the Secretary of State was provided such that the general public could view such posting; that such meeting was open to the public as required by law at all times during which this Resolution and the subject matter hereof was discussed, considered and formally acted upon, all as required by the Open Meetings Act, Chapter 551, Texas Government Code, as amended; and that written notice of the date, hour and place of the meeting of the Board and of the subject of this Resolution was published in the Texas Register at least seven (7) days preceding the convening of such meeting, as required by the Administrative Procedure and Texas Register Act, Chapters 2001 and 2002, Texas Government Code, as amended. Additionally, all of the materials in the possession of the Department relevant to the subject of this Resolution were sent to interested persons and organizations, posted on the Department's website, made available in hard-copy at the Department, and filed with the Secretary of State for publication by reference in the Texas Register not later than seven (7) days before the meeting of the Board as required by Section 2306.032, Texas Government Code, as amended.

CONDITIONS OF COMMITMENT

1. Per §50.12(c) of the Qualified Allocation Plan and Rules, all Tax Exempt Bond Development Applications "must provide an executed agreement with a qualified service provider for the provision of special supportive services that would otherwise not be available for the tenants. The provision of such services will be included in the Declaration of Land Use Restrictive Covenants ("LURA")."

1. Receipt, review, and acceptance of a building by building breakdown of units in each building and building plans and elevations prior to closing.

2. Receipt, review, and acceptance of satisfactory removal of the Mechanic's Lien by Affidavit executed by The Home Depot Supply, Inc. against Pleasant Village, Ltd. Partners in the amount of $4,038.14 filed December 27, 2005.

3. Receipt, review, and acceptance by cost certification of evidence that all Phase I Environmental Site Assessment and subsequent environmental investigation report recommendations including removal of mold in unit 1069 and operation and management plans for asbestos and lead based paint existing at this property have been carried out.

4. Receipt, review, and acceptance of a commitment from the general contractor to defer fees as necessary to fill a potential gap in permanent financing.

5. Receipt, review, and acceptance of a revised project-based rent subsidy indicating HUD's concurrence with anticipating the future increase in HAP rents on all HAP related units prior to cost certification.

6. Receipt, review, and acceptance of a revised syndication commitment or agreement that fully discloses the key terms and is consistent with the anticipated sources and uses of funds.

2. Should the terms and rates of the proposed debt or syndication change, the transaction should be re evaluated and an adjustment to the allocation amount may be warranted.

RECOMMENDATION

☒ RECOMMEND APPROVAL OF ISSUANCE OF $6,000,000 IN TAX-EXEMPT MORTGAGE REVENUE BONDS WITH A FIXED INTEREST RATE UNDERWRITTEN AT 6.00% AND REPAYMENT TERM OF 15 YEARS WITH A 30-YEAR AMORTIZATION PERIOD, SUBJECT TO CONDITIONS.

☒ RECOMMEND APPROVAL OF A HOUSING TAX CREDIT ALLOCATION NOT TO EXCEED $370,152 ANNUALLY FOR TEN YEARS, SUBJECT TO CONDITIONS.

CONDITIONS

1. Receipt, review, and acceptance of a building by building breakdown of units in each building and building plans and elevations prior to closing.
2. Receipt, review, and acceptance of satisfactory removal of the Mechanic's Lien by Affidavit executed by The Home Depot Supply, Inc. against Pleasant Village Ltd. Partners in the amount of $4,038.14 filed December 27, 2005.
3. Receipt, review, and acceptance by cost certification of evidence that all Phase I Environmental Site Assessment and subsequent environmental investigation report recommendations including removal of mold in unit 1069 and operation and management plans for asbestos and lead based paint existing at this property have been carried out.
4. Receipt, review, and acceptance of a commitment from the general contractor to defer fees as necessary to fill a potential gap in permanent financing;
5. Receipt, review, and acceptance of a revised project-based rent subsidy indicating HUD's concurrence with anticipating the future increase in HAP rents on all HAP related units prior to cost certification;
6. Receipt, review, and acceptance of a revised syndication commitment or agreement that fully discloses the key terms and is consistent with the anticipated sources and uses of funds.
7. Should the terms and rates of the proposed debt or syndication change, the transaction should be re-evaluated and an adjustment to the credit and or allocation amount may be warranted.

DEVELOPMENT SPECIFICATIONS

IMPROVEMENTS

Total Units: 200 **# Res Bldgs** 12 **# Non-Res Bldgs** 2 **Age:** 38 yrs **Vacant:** 9% at 5/15/2006

Net Rentable SF: 181,560 **Av Un SF:** 908 **Common Area SF:** 6,700 **Gross Bldg SF:** 188,260

STRUCTURAL MATERIALS

The structure is wood frame on a concrete slab on grade. According to the plans provided in the application the exterior is comprised as follows: 80% brick veneer 15% Plywood/Composite siding, and 5% wood trim. The interior wall surfaces are drywall and the pitched roof is finished with asphalt composite shingles.

UNIT FEATURES

The interior flooring will be a combination of carpeting & vinyl flooring. Each unit will include: range & oven, hood & fan, garbage disposal, refrigerator, microwave oven, fiberglass tub/shower, laminated counter tops, central boiler water heating system, and central HVAC boiler chiller and fan coil units.

ONSITE AMENITIES

The property does not have a community room but does have a management leasing office and maintenance, & laundry facilities An equipped children's play area is located on the property along with perimeter fencing with limited access gate(s) are planned for the site.

Uncovered Parking: 354 spaces **Carports:** 0 spaces **Garages:** 0 spaces

PROPOSAL and DEVELOPMENT PLAN DESCRIPTION

Description: Grove Village Apartments is a 11.9-unit per acre acquisition and rehabilitation development of 200 units of affordable housing located in southeast Dallas. The development was built in 1968 and is comprised of 12 buildings. In addition to the apartment buildings, there is a separate leasing office and a mechanical/laundry building on site. There are 40 one-bedroom, 120 two-bedroom, and 40 three-bedroom units of varying configurations. The development includes a 4,200-square foot community building and a separate 2,500-square foot laundry building/ maintenance building.

Existing Subsidies: The property currently operates under two (2) HUD Section 8 project-based Housing Assistance Payment (HAP) contracts. The first contract (TX16-L000047) provides project-based rental assistance for 100 one, two, and three bedroom units. The contract was renewed on September 30, 2005 and is expected to be renewed again on September 30, 2006 for an additional year, and the Applicant intends to continue the contract for all 100 units. The second contract (TX16-M000310) provides project-based rental assistance for 30 one, two, and three bedroom units. The contract was renewed on May 1, 2006, and the applicant intends to continue the contract for all 30 units. It is expected that upon completion of the rehabilitation both HAP contracts will be combined into one. In addition, it is expected that the rents will be changed due to the intent of the Applicant to change the property from "all bills paid" to one where the tenants pay for electricity, except for Hot Water (hot water is provided by a central boiler system). The changes will include a utility allowance and possible reduction in rental assistance, however this reduction in rental assistance will be offset by the reduction of the cost of the utilities that the Applicant has been paying, and therefore, reducing the developments total operating expenses. The Applicant has indicated that they will be requesting an increase of 5% based on current market rental rates. For those units covered by a HAP contract, the rents used are those derived from current gross HAP rent less current utility allowances and increased by 5% as requested by the Applicant. For those units not covered by a HAP contract but are still restricted to 60% rents, the Underwriter has used the current market rent plus the utility allowances to determine a current gross HTC rent. The new gross HTC and HAP rents are substantially below the 50% and 60% 2006 HTC rent limits.

Development Plan: The buildings are currently 91% occupied and generally in poor condition. The property condition assessment prepared by Marx/Okubo is dated June 14, 2006 and indicates a total rehab cost of $4,398,153, which includes all contractor fees. When contractor fees are removed to determine the actual Hard Cost of Construction the total equals that of the Applicant at $2,967,212. The Applicant has indicated that the property will be completely rehabbed and meters will be installed for individual metering of the electricity. In addition the HVAC boiler, chiller and fan coil units will be replaced, along with all floor covering, window coverings, kitchen and bathroom cabinets, plumbing fixtures, and kitchen appliances are scheduled with the unit restoration and repair. The rehabilitation will be phased to minimize displacement of current residents. The current occupancy of the subject is approximately 91%. The 18 vacant units will be renovated first and existing tenants will be moved into these units to minimize displacement of current residents.

Architectural Review: The building and unit plans are of good design, sufficient size and are comparable to other apartment developments of the same age. They appear to provide acceptable access and storage. The elevations reflect modest buildings with simple fenestration. Receipt, review, and acceptance of a building by building breakdown of units in each building and building plans and elevations prior to closing.

SITE ISSUES

SITE DESCRIPTION

Total Size:	16.86 acres	**Scattered sites?**	☐ Yes ☒ No
Flood Zone:	Zone X	**Within 100-year floodplain?**	☐ Yes ☒ No
Current Zoning:	PD-No. 32	**Needs to be re-zoned?**	☐ Yes ☒ No ☐ N/A

SITE and NEIGHBORHOOD CHARACTERISTICS

Location: The site is generally a rectangular-shaped parcel located in the southeast area of Dallas, approximately 10 miles from the central business district. The site is situated on the east side of Jim Miller Road.

Adjacent Land Uses:

- **North:** Multifamily developments immediately adjacent;
- **South:** Douglass Elementary School immediately adjacent and vacant land beyond;
- **East:** Elam Creek immediately adjacent and vacant land beyond; and

- **West:** Jim Miller Road immediately adjacent and single family residences beyond.

Site Access: Access to the property is from the north or south along Jim Miller Road. The development has two main entries, both from the north or south from Jim Miller Road. Access to U. S. Highway 175 is less than one mile east, which provides connections to all other major roads serving the Dallas area.

Public Transportation: Public transportation to the area is provided by DART (Dallas Area Rapid Transit). The location of the nearest stop is at the intersection of Loop 12 and Jim Miller Road which is approximately 200 yards west of the subject.

Shopping & Services: The site is within five miles of major grocery/pharmacies, shopping centers, a multi-screen theater, library, and a variety of other retail establishments and restaurants. Schools, churches, and hospitals and health care facilities are located within a short driving distance from the site.

Adverse Site Characteristics:

- **Title:** Mechanic's Lien Affidavit executed by The Home Depot Supply, Inc. against Pleasant Village Ltd., in the amount of Four Thousand Thirty Eight and 14/100 ($4,038.14), filed December 27, 2005 recorded in/under County Clerk's No. 200600006899 of the Real Property Records of DALLAS County, Texas. Receipt, review, and acceptance prior to closing of evidence that this Mechanic's Lien has been satisfied and removed from the title report is a condition of this report.

HIGHLIGHTS of SOILS & HAZARDOUS MATERIALS REPORT(S)

A Phase I Environmental Site Assessment report dated June 13, 2006, was prepared by LandAmerica Assessment Corp. and contained the following findings and recommendations:

Findings:

- **Noise:** LAC did not identify industrial zones, major highways, active rail lines, civil and military airfields, or other potential sources of excessive noise in close proximity to the Property. A noise study is not recommended for the Property. (p. 22)
- **Floodplain:** According to the Federal Emergency Management Agency's Flood Insurance Rate Map (FIRM), Community Panel Number 48113C0505 J, effective August 23, 2001, the subject property is located in Zone X. Zone X has been determined to be outside the 500- year floodplain. (p.13)
- **Asbestos-Containing Materials (ACM):** Asbestos-containing wallboard surfacing, floor tile and floor tile mastic were identified within the apartment units, as well as, asbestos-containing chiller pipe elbow insulation in the boiler room. Due to the good condition of the materials, Aaron & Wright recommended that the asbestos-containing materials be managed-in-place through an Operations and Maintenance (O&M) Program. (p. 16)
- **Lead-Based Paint (LBP):** Lead based paint (LBP) was found in the second layer of an exterior wall. The second layer of paint was in good condition; however, the first layer, which did not contain LBP, was damaged. Aaron & Wright recommended that the paint be managed-in-place in a LBP O&M program. (p. 16)
- **Lead in Drinking Water:** The Property is connected to the city water supply provided by the City of Dallas. According to the City of Dallas 2004 Drinking Water Quality Report, the drinking water supplied to the site is within state and federal standards, including lead and copper. (p. 19)
- **Mold:** Approximately 100 square feet of mold was visually identified in the dining room and two closets adjacent to the bathroom in Unit 1069. Mr. Robert Shelton, Maintenance Supervisor, informed Aaron & Wright that the mold resulted from a plumbing leak from the above unit. Aaron & Wright recommended that the mold be removed.
- **Radon:** The U.S. Environmental Protection Agency (EPA) currently recommends remedial action levels above 4 pico-Curies per liter (pCi/L). According to available information from the EPA/Texas Residential Radon Survey, radon does not generally occur in the area of the subject property in at

concentrations that are considered to be a significant concern. Radon concentrations from 85 properties in Dallas County, Texas indicated an average of 1.20 picoCuries per liter (pCi/L) placing the subject property in Zone 3. Zone 3 has a predicted average indoor screening level less than 2 pCi/L, which falls below the EPA defined threshold of concern, which is 4.0 pCi/L. Therefore, radon is not considered a significant environmental concern. (p. 21)

- **Polychlorinated Biphenyls (PCBs):** Older transformers and other electrical equipment could contain polychlorinated biphenyls (PCBs) at a level that subjects them to regulation by the U.S. EPA. PCBs in electrical equipment are controlled by United States Environmental Protection Agency regulations 40 CFR, Part 761. Under the regulations, there are three categories into which electrical equipment can be classified:
  - Less than 50 parts per million (PPM) of PCBs – "Non-PCB" transformer
  - 50 ppm-500 ppm – "PCB-Contaminated" electrical equipment
  - Greater than 500 ppm – "PCB" transformer

  LAC observed 14 pad-mounted electrical transformers on the Property. The units are situated outside each apartment building. The units were not labeled as to their PCB status; however, they are owned and operated by TXU Energy, who maintains operational responsibility of the transformers. No indication of staining, leaks or fire damage was observed on or around the bases of these units. (p. 19)

Recommendations: Based on the findings of this ESA, LAC recommends the following:

- An O&M program should be developed to manage-in-place the ACM found at the Property. The intent of the O&M program is to minimize the potential exposure of building occupants to airborne asbestos fibers. In addition, prior to any demolition or renovation activities a comprehensive ACM survey is recommended.
- An O&M program should be developed to manage-in-place the LBP found at the Property. The intent of the O&M program is to minimize the potential exposure of building occupants to LBP. In addition, prior to any demolition or renovation activities comprehensive a LBP survey is recommended.
- The Mold, as identified in the Aaron and Wright report, located in Unit 1069, be removed.

Receipt, review, and acceptance prior to the start of construction of evidence that all Phase I Environmental Site Assessment and subsequent environmental investigation report recommendations have been carried out is a condition of this report.

INCOME SET-ASIDE

The Applicant has elected the 40% at 60% or less of area median gross income (AMGI) set-aside. To qualify as a Priority 1 Private Activity Bond allocation for a Qualified Residential Rental Project, the Applicant has elected to set-aside 50% of the units with rent and income restrictions at 50% of area median family income and the remaining 50% of the units with rent and income restrictions at 60% of area median family income (§ 1372.0321, Texas Government Code).

MAXIMUM ELIGIBLE INCOMES						
	1 Person	2 Persons	3 Persons	4 Persons	5 Persons	6 Persons
60% of AMI	$27,960	$31,920	$35,940	$39,900	$43,080	$46,260

MARKET HIGHLIGHTS

A market feasibility study dated May 31, 2006, was prepared by Apartment Market Data Research Services, LLC ("Market Analyst") and highlighted the following findings:

Definition of Primary Market Area (PMA) : "Determination of the primary or defined market of the "PMA" (Primary Market Area or sub-market), and definition of the boundaries of the trade area are based primarily upon local knowledge; in addition to interviews with city officials/planners and local real estate sources such as appraisers, developers, brokers, and agents. " "For this analysis we utilized a **primary trade area** comprising a custom Trade Area." (pg. 39) This trade area encompasses approximately 39.62

square miles and is equivalent to a circle with a radius of 3.55 miles.

Population: The estimated 2005 population of the primary market area is 83,646 and is expected to increase by 1.1% to approximately 84,750 by 2010. Within the primary market area there were estimated to be 22,088 households in 2005.

Total Primary Market Demand for Rental Units: The Market Analyst calculated a total demand of 4,716 qualified households in the PMA, based on the current estimate of 21,731 households, the projected annual growth rate of -1.6%, renter households estimated at 5.6% of the population, income-qualified households estimated at 21.7%, and an annual renter turnover rate of 64.5 %. (p. 7, 58-59). The Market Analyst used an income band of $18,000 to $43,080.

MARKET DEMAND SUMMARY				
	Market Analyst		Underwriter	
Type of Demand	Units of Demand	% of Total Demand	Units of Demand	% of Total Demand
Household Growth	-60	-2.1%	-32	1.1%
Resident Turnover	2,940	102.1%	3,042	101.1%
Other Sources:	N/A	N/A	N/A	N/A
TOTAL DEMAND	**2,880**	**100%**	**3,009**	**100%**

p. 61

The subject development contains 200 units and is currently 91% occupied, with 130 units under a HAP contract. It is likely that the existing tenants will choose to remain at the property. Therefore, an inclusive capture rate calculation is not a meaningful tool for determining the feasibility of the subject development.

Market Rent Comparables: The Market Analyst surveyed 6 conventional market comparable apartment projects totaling 1,420 units in the market area. "The Apartment MarketData Report reflects an average rental rate of $.748/sf for one bedroom units, $.683/sf for two bedrooms, $.887/sf for three bedroom units, and $.718/sf overall. " (p. 109).

RENT ANALYSIS (net tenant-paid rents)					
Unit Type (% AMI)	Proposed	Program Max	Differential	Est. Market	Differential
1-Bedroom (HAP) 50%	$526	$571	-$45	$545	-$19
1-Bedroom (HAP) 60%	$470	$696	-$226	$545	-$75
1-Bedroom (60%)	$545	$696	-$151	$545	$0
2-Bedroom (HAP) 50%	$601	$673	-$72	$640	-$39
2-Bedroom (HAP) 60%	$578	$823	-$245	$640	-$62
2-Bedroom (60%)	$640	$846	-$206	$640	$0
3-Bedroom (HAP) 50%	$727	$771	-$44	$790	-$63
3-Bedroom (HAP) 60%	$664	$944	-$280	$790	-$126
3-Bedroom (60%)	$790	$962	-$322	$790	$0

(NOTE: Differentials are amount of difference between proposed rents and program limits and average market rents, e.g., proposed rent =$500, program max =$600, differential = -$100)

Primary Market Occupancy Rates: "With the exception of 30 units that were added to The Falls in 2005, these projects were built in the 1980's. The occupancy rate for the market rate one bedrooms is 82.4%, for the market rate two bedrooms it is 83.3%, the occupancy for the market rate three bedroom units is 88.7%, and the overall average occupancy for the market rate units is 83.0%" (p. 109).

Absorption Projections: "The developer anticipates maintaining 75% physical occupancy during the rehabilitation, which would begin in 2006, and achieving stabilized occupancy by the beginning of 2008. This could be accomplished by rehabilitating units as they are vacated as normal turnover and /or relocating existing residents into renovated units. This would require absorbing approximately 108 units (net) toward the latter part, or upon completion of, the renovations, which seems reasonable to the analyst.... A conservative 10% monthly lease-up rate would be as follows: Lease up of 11 units per month for nine months and 9 units in the 10th month for a total of 108 units" (p. 97). These assumptions include both Grove Village, 232 units, and Pleasant Village, 200 units.

Effect on Existing Housing Stock: "The proposed project is not likely to have a dramatically detrimental effect on the balance of supply and demand in quality affordable housing in this market since so many of the units in this market are much older, and newer affordable projects have much higher rental rates than the proposed renovated Grove-Pleasant Village Apartments. The subject will not have a serious effect on the Masters Apartments, Murdeaux Villas or Rosemont at Pemberton Hill since they offer newer quality and amenities that the renovated subject will not offer, such as washer/dryer connections." (p. 97).

Market Study Analysis/Conclusions: The Market study complies with TDHCA market study guidelines, and the Underwriter found the market study to be acceptable.

OPERATING PROFORMA ANALYSIS

Income There are two (2) HUD HAP contracts containing a total of 130 units of the 200 total units. These contracts specify the rents to be charged but do not specify utility allowances. This is due to the fact that the project currently pays all utilities. During Rehabilitation the units will be converted to individual electrical meters and the tenants will be paying the electric charge with the exception of the charge for Hot Water. (During the rehabilitation the current hot water boiler will be replaced with a new unit.) According to Ms. Gass at Southwest Housing Compliance Corp (Contract Administrator for HUD) the rents will basically stay the same and the utility allowances will reduce the amount of rent collected. The owners will make up for the lost revenue by the reduction in operating expenses due to no longer having to pay the monthly utility charges. The Applicant has indicated that after the rehabilitation is complete they will be requesting an increase of 5% based on current market rental rates. For those units covered by a HAP contract, the rents used are those derived from current gross HAP rent, less current utility allowances, and the 5% increase that will be requested by the Applicant. For those units not covered by a HAP contract but are still restricted to 60% rents, the Underwriter has used the current market rent. The current market rent, was added to the utility allowances, to determine a gross HTC rent. The new gross HTC and HAP rents are substantially below the 50% and 60% 2006 HTC rent limits.

The secondary income is made up of vending income, fees, and other miscellaneous charges. The Applicant is projecting $6.00 per unit per month. This amount is below the Departments max level of $15.00 per unit per month. The Applicant used a vacancy and collection loss equal to 9%, which is above the normal 7.5% vacancy factor used by the Department. The Effective Gross Income estimates are within 5% of the Underwriters estimate.

Expenses: The Applicant's total annual operating expense projection at $4,138 per unit is within 5% of the Underwriter's estimate of $4,247, derived from actual operating history of the development, the TDHCA database, and third-party data sources. General and Administrative expenses are 19K lower than the TDHCA data base estimates, and Payroll and Payroll Tax expense estimate is 25K higher than the TDHCA data base estimates, Repairs and Maintenance expense estimate is 23K higher than the TDHCA data base estimates, Property Insurance expense estimate is 22K lower than the TDHCA data base estimates, Property Tax expense estimate is 59K lower than the TDHCA data base estimates. This property is going through a change in who pays the utility charges. After the rehabilitation is complete the tenant will be responsible for paying the utility charges. (Electric and gas with the exception of the fuel for the central boiler system.) Therefore, the expense estimate on the part of the Applicant could be somewhat over stated.

Conclusion: The Income, Expense and Net Operating Income line items are all within 5% of the Underwriter's estimates; therefore, the Applicant's NOI will be used to determine the DCR and 30 year proforma.

Long-Term Feasibility: The underwriting 30-year proforma utilizes a 3% annual growth factor for income and a 4% annual growth factor for expenses in accordance with current TDHCA guidelines. As noted above, the Applicant's base year effective gross income, expense and net operating income were utilized resulting in a debt coverage ratio that remains above 1.10 and continued positive cashflow. Therefore, the development can be characterized as feasible for the long-term.

ACQUISITION VALUATION INFORMATION

APPRAISED VALUE - September 16, 2004

Land Only: (16.86) acres	$735,000	**Date of Valuation:**	09/16/2004
Existing Building(s): "as is"	$1,975,000	**Date of Valuation:**	09/16/2004
Total Development: "as is"	$2,710,000	**Date of Valuation:**	09/16/2004
Appraiser:	Tony Lenamon Stephen DuPlantis	**Firm:** CB Richard Ellis	**City:** Dallas

APPRAISAL ANALYSIS/CONCLUSIONS

There is no indication that the acquisition is an identity of interest transaction; therefore, an appraisal is not required for use in the underwriting analysis. However, an appraisal was provided by the purchaser, and was performed by C B Richard Ellis dated September 16, 2004. This dated appraisal was utilized because of the Date of Purchase to determine a current land value. The property was acquired in October 2004, and therefore, a current appraisal today would not provide a reliable land value to accurately support the land cost as of the date of acquisition. The current "as-is" value is most important in the valuation and underwriting of this property because it should support the purchase price of the subject. For the "as-is" valuation, the primary approach used was the income capitalization approach. Three land sales dating from January 2003 to September 2003 for 10.04 to 19.77 acres was used to determine the underlying value of the land. As a result, the value attributed to the existing buildings is $1,975,000 or 72.9% of the total appraised value of the property. The value conclusion of $2,710,000 supports the contract price of $2,908,664.

ASSESSED VALUE - 2006

Land: (16.86) acres	$625,900	**Assessment for the Year of:**	2006
Building:	$1,955,550	**Valuation by:**	Dallas County Appraisal District
Total Assessed Value:	$2,581,450	**Tax Rate:**	$2.9849

ASSESSED VALUE - 2004

Land: (16.86) acres	$625,900	**Assessment for the Year of:**	2004
Building:	$227,100	**Valuation by:**	Dallas County Appraisal District
Total Assessed Value:	$853,000	**Tax Rate:**	

EVIDENCE of SITE or PROPERTY CONTROL

Type of Site Control:	Special Warranty Deed(17.46 acres) Property currently owned by Applicant – Closed Oct 2004		
Contract Expiration:	10/27/2004	**Valid through Board Date?**	☒ Yes ☐ No
Acquisition Cost:	$2,908,664*	**Other:**	
Seller:	Pleasant Village Apartments, Ltd.	**Related to Development Team?**	☐ Yes ☒ No

* The Acquisition cost of $2,908,664 is derived from the $2,600,000 contract price plus closing costs less an amount that the Applicant's CPA deducted as ineligible. ($2,600,000 plus $983,400, less $674,736 which equals $2,908,664.)

CONSTRUCTION COST ESTIMATE EVALUATION

Acquisition Value: The site cost of $172,519 per acre or $14,543 per unit is assumed to be reasonable since the acquisition is an arm's-length transaction. The Applicant's acquisition cost estimate is slightly overstated based upon the lesser of the sales price minus assessed value or the prorata portion based on the appraised value.

Sitework Cost: Since this is a proposed rehabilitation the associated sitework costs are minimal. The PCA has estimated sitework costs of $2,898 per unit.

Direct Construction Cost: The Applicant's direct construction cost estimate is $2,967,212 or 32.5% lower than the $4,398,153 estimate provided in the Property Condition Assessment (PCA). However, the cost estimate provided by the PCA includes all contractor fees. When these fees are removed and the actual Hard Cost of Construction is determined the Applicant's and PCA costs estimates are both $2,908,664.

Fees: The Applicant's contractor and developer's fees for general requirements, general and administrative expenses, and profit are all within the maximums allowed by TDHCA guidelines.

Conclusion: The Applicant's total development cost estimate is within 5% of the Underwriter's verifiable estimate and is therefore generally acceptable. Since this is an Acquisition/Rehab, the Underwriter's total cost breakdown is used to calculate eligible basis and determine the HTC allocation. As a result, an eligible basis of $8,560,649 is used to determine a credit allocation of $370,152 from this method. The resulting syndication proceeds will be used to compare to the Applicant's request and to the gap of need using the Underwriter's costs to determine the recommended credit amount.

The Applicant used a higher applicable percentage of 3.62% instead of the current underwriting percentage of 3.56%. This resulted in an increase of credits in the amount of $10,964. This amount has been adjusted to reflect the lower percentage which equates to $370,152 in total credits. It should be noted that the Applicant has provided several revisions to the sources and uses over the last few months and days. The most recent of which identify total cost of $9,968,933 but a revised total of these costs was not provided and in any event is less than the underwriter's costs based upon the PCA report.

FINANCING STRUCTURE ANALYSIS

Interim to Permanent Bond Financing: U. S. Bank NA is providing both the Construction and Permanent financing for the Subject property. US Bank is to purchase a private placement of non-bank qualified tax-exempt multifamily revenue bonds totaling up to $6,000,000. The Construction loan period will be 12 months from loan closing plus applicable extensions (option of one, 6-month extension) at an underwriting interest rate of 6.00% with monthly interest only payments. Upon the conversion to the permanent, payments will be monthly principal and interest payments with the principal payments based on a thirty (30) year amortization period with a 15 year term.

The development qualifies as a Priority 1 Private Activity Bond transaction because it is at least 51 percent financed by tax-exempt private activity bonds (§ 1372.0321, Texas Government Code).

HTC Syndication: The tax credit syndication commitment is consistent with the terms reflected in the sources and uses of funds listed in the application. Mr. Patrick Day, Project Manager for WNC & Assoc., explained why the Net Syndication Rate is so low at $.77. He indicated this is due to the nature of the deal; it is an acquisition/rehabilitation loan of a property that is approximately 35-40 years old. The decision was made to make this a Public Offering instead of the normal Corporate Offering. It was generally felt that the deal would be scrutinized less as a Public Offering. Mr. Day indicated that because this is a Public Offering they are limited to a Syndication Rate of $.77. Inconsistencies in the amount of Syndication proceeds have occurred throughout the underwriting process and the proceeds terms and credit amount have never matched with the sources and uses of funds statements provided. Receipt, review, and acceptance of a revised syndication commitment or agreement that fully discloses the key terms and is consistent with the anticipated sources and uses of funds.

Deferred Developer's Fees: The Applicant's proposed deferred developer's fees of $486,416 amount to 43.6% of the total fees.

Financing Conclusions: The permanent lender requires a 1.15 DCR prior to closing into the permanent loan. The Underwriter's total development cost estimate less the permanent loan of $6,000,000 indicates the need for $4,027,395 in gap funds. Based on the submitted syndication terms, a tax credit allocation of $523,038 annually would be required to fill this gap in financing. Of the three possible tax credit allocations, Applicant's request ($381,116), the gap-driven amount ($523,038), and eligible basis-derived estimate ($370,152), the TDHCA eligible basis-derived estimate of $370,152 is recommended resulting in proceeds of $2,850,168 based on a syndication rate of .77%.

The Underwriter's recommended financing structure indicates the need for $1,177,227 in additional permanent funds or $60,621 above the total Deferred developer's fees available. However, this total amount appears to be repayable from development cashflow within 10 years of stabilized operation. Receipt, review, and acceptance of a commitment from the general contractor to defer fees as necessary to fill a potential gap in permanent financing is a condition of this report.

DEVELOPMENT TEAM

IDENTITIES of INTEREST

- The Applicant, Developer, and property manager are related entities. These are common relationships for HTC-funded developments.

APPLICANT'S/PRINCIPALS' FINANCIAL HIGHLIGHTS, BACKGROUND, and EXPERIENCE

Financial Highlights:

- The Applicant and General Partner are single-purpose entities created for the purpose of receiving assistance from TDHCA and therefore have no material financial statements.
- Guardian Management LLC, 50% owner of the Managing General Partner submitted an unaudited financial statement as of December 2005 reporting total assets of $9.9M and consisting of $161K in cash, $8.7M in receivables, and $(-570K) in business interests. Liabilities totaled $6.6M, resulting in a net worth of $3.3M.
- One of the principals of the General Partner (50%), Mr. Rob Walker, submitted an unaudited financial statement as of April 1, 2006 and is anticipated to be guarantor of the development.
- One of the principals of the General Partner (50%), Mr. Thomas B. Brenneke, submitted an audited financial statement as of December 31, 2005 and is anticipated to be guarantor of the development.

Background & Experience: Multifamily Production Finance Staff have verified that the Department's experience requirements have been met and Portfolio Management and Compliance staff will ensure that the proposed owners have an acceptable record of previous participation.

SUMMARY OF SALIENT RISKS AND ISSUES

- Significant inconsistencies in the application information and commitments provided may affect the financial feasibility of the development
- The property's project-based rent subsidy is subject to Federal funding and may not be renewed as anticipated.
- Receipt, review, and acceptance of a commitment from the related party general contractor to defer fees as necessary to fill a potential gap in permanent financing;
- Receipt, review, and acceptance of a revised project-based rent subsidy indicating HUD's concurrence

with anticipating the future increase in HAP rents on all HAP related units prior to closing.

TEXAS DEPARTMENT OF HOUSING AND COMMUNITY AFFAIRS

GROVE VILLAGE and PLEASANT VILLAGE APARTMENTS

PUBLIC HEARING

Wednesday, March 29, 2006
Frederick Douglass Elementary School
226 North Jim Miller Road
Dallas, Texas

PRESIDING: SHANNON ROTH, Housing Specialist

I N D E X

P R O C E E D I N G S

MS. ROTH: Okay. I think we will go ahead and get started. My name is Shannon Roth. I am with the Texas Department of Housing. And I would like to let you know how I plan on getting tonight's hearing going.

I am going to give a little overview of the programs that the developer has applied for with the Department. And then I am going to let the developer representative Mr. Spicer give a little presentation about the developments and what they are going to be doing to them. Then I am going to read a speech that we are required to read into the record for the IRS.

And then I am going to open the floor up to any public comment that you guys wish to give. And then if you have any questions for Mr. Spicer, you can ask them at that time also.

I would like to point out that the Department does make it a priority to hold our public hearings in the evening. That way, people who work during the day can come and attend.

And also we like to hold them here within the neighborhood, so you have easy access to the hearing. We don't hold them in downtown Austin at 12:00 in the middle of the day. Okay.

Well, like I said, I am Shannon Roth. I am with the Texas Department of Housing and Community Affairs. We are here to discuss the properties of Grove Village and Pleasant Village Apartments. I am going to explain a couple of the programs that the developer has applied for.

First is the private activity bond program, and the other is the housing tax credit program. Both were created by the federal government to encourage private industry and private developers to build, acquire and rehabilitate affordable housing as well as own and manage it.

The first program is the private activity bond program, or also called tax-exempt bond. Sometimes that is a little confusing to people. The tax-exemption that they are referring to is to the bond purchaser. It is not to the development.

It is no way a property tax exemption. What it does is, it allows the bond purchaser to accept a lower rate of return on the bonds because they are not paying income tax on this investment. Which in turn allow the lender to charge a lower interest rate to the development. And then the developer can build a higher end product for a lower cost.

Also, there is the housing tax credit program, which is kind of like an instant shot of equity into the property. Which allows the developer to charge lower rents, which is good for the affordable tenants.

There is a 30 year compliance period, that the Department monitors through our Portfolio Management Division. They monitor for the income restrictions that are on the property. They monitor for the tenant occupancy, the physical appearance of the property, and they also do financial audits as well.

So I am going to go ahead and let the developer, Mr. Spicer go ahead and tell you a little bit about the two developments and what their plans are. And then we will go from there.

MR. SPICER: I am Jeff Spicer. I am with State Street Housing Advisors. I am a consultant to the developer here. I am local here in Dallas.

I know Eugene, have done a number of things with Eugene. And the two properties, really, we are looking to refinance the two properties using tax-exempt bonds and tax credits. And what we want to do is put approximately somewhere around $15,000 a unit in upgrades, inside and out, including upgrading management, security, interiors, landscaping and make it kind of -- give it a better eye to the community.

And in doing so, we want to attract or kind of keep away the tenants that we don't find desirable in the area that I am sure that some of the neighbors don't find desirable. And it is really -- that is pretty much all we are looking to do with this.

It is not to change -- we are not changing rents from where they are today. I saw the rents they have in here are not -- they are the program maximum rents. They are not the rents being charged at the property today. And I apologize, I don't have a handout of current rents.

Both properties have approximately 60 percent Section 8, project based Section 8 vouchers. And we anticipate continuing those Section 8 voucher contracts. But we were looking to do in upgrading the property is really to change the tenant profile, in upgrading the units and the tenants, and the property, upgrade to a little higher tenant profile, and manage the properties to be really a higher standard is what we would call, in who we have as our tenant base.

I think that is kind of what the neighborhood is looking for, is a higher standard in the tenant base that we have here. And I don't want to talk too much here, but if you have questions, I would be glad to answer questions. Go right ahead.

MS. ROTH: Please state your name for the record.

MR. THOMAS: Eugene Thomas. Pleasant Wood, Pleasant Grove CEDC Economic Development Corporation and also Chairman of Southeast Dallas Land Use Study. You and I, we know each over the years as we have done developments before.

No disrespect meant here, with what I am going to say. I think the developers of record should be here to talk to this community about what is being proposed. Number two, there should be some renderings and drawings as to what is really, they are proposing to do at this location.

We have a serious concern, as you know, about the developments here in this area. We support, I support affordable housing everywhere we go. So this is not to slam what is being done. She just want to have more information so we can intelligently have a conversation and dialogue about what is being proposed.

We have Spinks over here, which is new. We have Rosemont down here which is new. And we have also the old product, which is Grove Village, Oak Village, Antoinette, Cherokee -- these are all problem distressed properties for this community. We have had several deaths and several murders in these apartment complexes. We have drugs that are beyond comprehension over here.

So what we are trying to do. I know what you are trying to do is to upgrade the community. But we are going to have to have some type of comprehensive dialogue with this community, and work to has those things out as a partnership with you to make sure this works, because we had the same relationship with Space at Mordeaux [phonetic], and we had the same relationship with Rosemont. But they did not honor their agreements.

But the point I am trying to make is, they have problems already with drugs, and with prostitution. And these are tax credit properties. So we were supposedly involved, to keep those kind of things and elements out of our community and not on those properties, because they were class A properties.

And we know we they are going to do here is going to be a class thing. But if we don't have some type of plan, some buy in from this community to participate in this, this is not going to work. And we are going to have to have some way in this community to help this developer pull this off to be what it needs to be.

Now, I am not saying I am opposed to the project, but I think we need to have more dialogue, more conversation. Who are the owners of this property? You know those owners need to be here with renderings and drawings to show this community what is going to go there.

MR. SPICER: And I apologize for that, Eugene. Unfortunately, we had on TEFRA before this, where we only had a year ago where we had two people show up, and there wasn't any interest at the time. So we thought there was a similar -- unfortunately, we thought that there was a similar situation here.

And we had gotten the word out in the community. And we had spoken. And we would be glad to sit down with the community. And we can set up a community meeting just to discuss exactly what you are talking about, to where the developers can be here, and provide you renderings.

And we didn't think that this would be the right forum for that. But we certainly can do that. We would be glad to provide that.

MR. THOMAS: And I appreciate the response. But you know, I have been doing this for six or seven years now. Every committee meeting, or meeting we went to, we have always had the developer, and the residents to let these people know exactly what is going to happen. We don't know what exactly is going to happen here.

And I submit to you, that when I leave here tonight, I will be talking to the Chairman of CEDC, Reverend Johnson, and he is going to have the community and everybody to have a meeting before the next meeting, because I know you have got to be down there on the 30th of June. And also in July.

And I can tell you, if this is not favorably looked at, it is not going to be a happy day down in Austin, and I don't want that to happen, because I know what product is being offered here. But we must have some serious comprehensive dialogue as to what is really going to happen with this community, because we have a problem over here, and we want that problem correct. And building new apartments alone is not going to do that. It is just not going to do that.

And I know clearly this is going to take good management. And management is the key to any property development on any multifamily development, in order to succeed. And I know it is painful, because we have got to rent those units up to get the tax credits. But you have got to weed all those people out. And there is a lot of them.

You know, it is not an easy task. And I understand that. But I am not here to be slamming what you are doing. I want to make sure that is clear for the record. I am not here in a selfish way.

I am here really in a proactive way to find out what we can do to help assist this developer to make this what the people in this community want it to be. We can no longer allow developers to come in and not give an account and be accountable to this community. And that is our whole emphasis. That is why we organized to do what we do.

And that is why we got involved in it as something. I said it. You have my card. You have my e-mail. Now I report to the Chairman of the CEDC, Reverend Johnson. I told him that we had this conversation and that we need to have a meeting, you know. That we have it over here at the CEDC. Or we could have here, we could have it anywhere.

But we need to have this meeting. But we have problems. And we want them solved, but we want it done correctly. We want the information this community has, and the input it needs to have to make this a successful project.

We just don’t want it in here, just because it is new, because it can run down in five years, if we don't do it right.

MR. SPICER: Exactly.

MS. ROTH: Thank you very much for your comment. I am going to go ahead and read the speech now, for the record. And then when we are done, if any of you other folks would like to speak or make comment, please do.

Good evening. My name is Shannon Roth. I would like to proceed with the public hearing. Let the record show that it is 6:25 p.m., Wednesday, March 29, 2006. And we are at the Frederick Douglass Elementary School located at 226 North Jim Miller Road, Dallas, Texas.

I am here to conduct the public hearing on behalf of the Texas Department of Housing and Community Affairs with respect to an issue of tax-exempt multifamily revenue bonds for a residential rental community. This hearing is required by the Internal Revenue Code.

The sole purpose of this hearing is to provide a reasonable opportunity for interested individuals to express their views regarding the development and the proposed bond issue. No decisions regarding the development will be made at this hearing. The

Department’s board is scheduled to meet to consider this transaction on July 13, 2006.

In addition to providing your comments at this hearing, the public is also invited to provide comment directly to the Board at any of their meetings. The Department staff will also accept written comments from the public up to 5:00 p.m. on June 30, 2006.

The bonds will be issued as tax-exempt multifamily revenue bonds in an aggregate principal amount not to exceed 13 million and taxable bonds, if necessary, in an amount to be determined and issued in one or more series by the Texas Department of Housing and Community Affairs, the issuer.

The proceeds of the bonds will be loaned to Grove Village, L.P. and Pleasant Village, L.P., or a related person or affiliate thereof, and to finance a portion of the acquisition and rehabilitation of two multifamily rental housing communities described as follows. Grove Village Apartments will be a 232-unit multifamily residential rental development to be located on approximately 17.45 acres of land, located at approximately 7209 South Loop 12, Dallas County, Texas. And Pleasant Village Apartments will be a 200-unit multifamily residential rental development located at 378

North Jim Miller Road, Dallas County, Texas.

The proposed multifamily rental housing community will be initially owned and operated by the borrower or a related persons or affiliates thereof. I would now like to open the floor for public comment. If any of you would like to speak?

(No response.)

MS. ROTH: No? I have one witness affirmation forms from Mr. Gene Thomas. He spoke already. Would you like to speak again?

MR. THOMAS: Yes. Let me just speak on one thing, just for the record.

MS. ROTH: Sure. Absolutely. Okay.

MR. THOMAS: I am not -- I want to make sure the record is clear that I am not here representing myself personally. I am here representing the Southeast Dallas Land Use Study, which is a comprehensive study that I chaired here. Ms. Davis knows which one that is.

We did that back in '96. And we came up with an assessment as to what was needed out here, and what we wanted to do and what we wanted to see. We wanted single-family housing and code enforcement. And we wanted to have better security in our community. We didn't -- we really were reluctant to get the apartments down on the end, but we signed off on them, because we needed new housing.

And we supported new housing, even though it was marked up, we needed new housing out here, because we hadn't had any. We need single-family housing now, is what we are shooting for.

So we are careful not to support any more multifamily developments, not unless we are for sure, and make sure that the community is protected from any further building that is being done in the community with drugs, gangs, et cetera. And I know these developments will address those issues, which is good, but we want to make sure that the community hears what those issues are, participate in that process, and so they can have a say, because we don't want anybody saying that we came out here -- and I didn't know. We want everybody to know as much as possible, so we can address those issues. So I just want to be on record saying that we are not saying we oppose it, but we are not comfortable with it, until we have further conversations as to what this developer is going to bring to this community and how is he going to manage this community with that new product, because if he upgrades and you have Oak Hollow and Cherokee that is still not upgraded -- so we just have to make sure how we address those issues. Thank you very much.

MS. ROTH: Sure. I am sorry, what CEDC?

MR. THOMAS: This is Pleasant Wood Pleasant Grove Community Economic Development Corporation. It is right across the street here.

MS. ROTH: Okay. I just wasn't catching the full name.

MR. THOMAS: That is all right. If you need to, just call me back or e-mail me.

MS. ROTH: Okay. Thank you. Okay. Thank you so much, sir.

MR. THOMAS: And I apologize. I have to go run another errand. But I want to make sure that I am on the record as saying that.

MS. ROTH: Okay. Absolutely. Have a good evening.

MR. THOMAS: Thank you.

MS. ROTH: Hi. Did you want to speak?

MS. CURLEY: Hi. I am Betty Curley, and I am with the ACORN organization. And also a member of the Shady Hills Community Crime Watch.

And my main concern is, I check support, but I am not going to support like Mr. Johnson said, if you are not going to come in and have some type of security and clean it out, because it is completely infested area. And there is some good in there, and there is some bad in there.

We need to make sure it is going to be mandated, and kept up and everything. And just bring them in, move them, or building them and remodeling them and everything, and then it will be in five years, just like it is now.

So my concern is that it doesn't increase high crime again, more drugs, more killings and everything. We need the type of security around here to protect and have children to where they can be outside to play and everything. So I support it if you are going to do that.

If you are going to have another meeting, bring the community in and give us enough warning that we can get people out door knocking and everything, because there is a lot of people that need to be here, to hear about this, so that they can speak their mind, and you can hear from more than just a few of us. I am glad to be here.

And I came because I wanted to know. And the letter didn't explain everything. And a lot of people probably got the letter, and paid it more attention. As I was coming in, there was people standing out there asking what is that meeting about? And we live in this area.

So there is a lot of people that got the letter, but it didn't explain anything. So they just probably threw the letter away. And I came out of curiosity because I wanted to know what was going on here in this neighborhood and everything.

So I think that we need to be more informed. We need to know exactly what the developer is going to do and everything. So we need another meeting.

And I know you are pressed for time. But you need to have a meeting and have diagrams and showing people what it is, because people need to hear it, and they need to see. And just coming to a meeting, that is why they are not here tonight.

MS. ROTH: Okay. Thank you. Could I ask you to fill out one of our forms before you leave tonight, so we have you on record.

MS. CURLEY: Oh, I am in the process of filling it out.

MS. ROTH: Oh, okay. Sure.

MS. CURLEY: Because I wanted to ask question and before I need to turn it in. I have it here in my hand.

MS. ROTH: Okay. Well, thank you. Okay great.

Thank you so much.

MS. SIMON: I didn't know about the meeting, because I have been going around today asking my neighbors, and they say what are you talking about. They didn't know about this meeting here tonight.

MS. ROTH: Okay. Would you also like to make any additional comment?

MS. SIMON: Uh-huh.

MS. ROTH: Did you want to make any additional comments for the record also, other than that comment? Well, I didn't know if I need -- if you could state your name for the record, and then you can go ahead, if you have any other --

MS. SIMON: Hello. My name is Johnnie Simon. And yes, I agree with --

MS. ROTH: Oh, you do have one already.

MS. SIMON: I will agree with him that before we have anything built, we need to do something about these drug infestation place, because the only thing they are going to do is just move from one apartment to the next and make it, and just become worse, just like it is now.

Just like a couple of weeks ago, they moved in. They put some people out down there at the Rosemont, because they had moved in and started trying to sell drugs there. So something else that needs to be addressed, and we need to do something before this.

MS. ROTH: Okay.

MS. SIMON: And everybody, I think, needs to come together and know what is going on.

MS. ROTH: Okay. Ma'am, did you want to speak also?

MS. DAVIDSON: I just really had one thing.

MS. ROTH: Would you please just state your name for the record?

MS. DAVIDSON: my name is Shirley Davidson, and I am the Chairperson of the Crime Watch of Pleasant Grove.

MS. ROTH: Okay.

MS. DAVIDSON: And I am also in the homeowners association. But my main concern, one of my concerns is, I didn't hear anybody address this, what will happen to the people that is living there now. Would those people be vacated, and then you build the units and get them back in there?

MS. ROTH: No, I do not believe so. Mr. Spicer, could you maybe address that issue?

MR. SPICER: No, we are not building new apartments. This is just -- we are just renovating ones that are existing. There will be no new apartments. It is just a renovation of what is currently existing there. It is an upgrade.

MS. DAVIDSON: But you will be renovating the complete complex.

MR. SPICER: Correct.

MS. DAVIDSON: Okay. My question was, what will happen to the people that live there now? Would you be doing like the front, and moving them up to the front? Or getting rid of --

MR. SPICER: Yes. We will be, as units are renovated, we will move people into the new renovated units.

MS. DAVIDSON: And you would still have the Section 8 program?

MR. SPICER: That is correct.

MS. ROTH: So if I am understanding correctly, no tenants will be relocated off of the property during the rehabilitation?

MR. SPICER: Correct.

MS. ROTH: They will all just be moved to -- okay. Does that answer your question, ma'am?

MS. DAVIDSON: Yes. That answered my question.

MS. ROTH: Okay. Sir, you came in a little bit late. Did you want to make some public comment this evening?

MR. STUBBLEFIELD: Yes. I was wanting to know what will you all do to guarantee to keep the drug out?

MS. ROTH: Can you also state your name for the record? I am sorry.

MR. STUBBLEFIELD: My name is Robert Stubblefield.

MS. ROTH: Okay.

MR. STUBBLEFIELD: My thing is, we went through this before. There has to be some type of guarantee. I mean, when the people move in, do they have jobs? Are do they go up and pay in cash and move in? We don’t want no cash people moved in there, because they might come and pay you cash for two months, three or four. It is drug money. So we need to make sure they have jobs, or some type of income, monthly income or weekly income, because the drugs moved in, and they have enough money to pay for six months.

Will you be accepting for that? Just because somebody comes to you and say, I want to pay for six months, will you take that at face value, and say okay. These are good renters, because they have got enough money.

MS. ROTH: With my understanding, and I have never worked on the property management side, but the tenants would still need to income qualify to reside in the units. And they would go through --

MR. SPICER: They do. Management a criminal background check on everyone.

MR. STUBBLEFIELD: Would you all put some type of vehicle in place to say okay, you moved in here with the right credentials, but here, you let your boyfriend move in, your brother, your cousins, and they don't have jobs. Can we have some type of vehicle to --

MR. SPICER: Yes. We have that. At that point in time, we evict.

MR. STUBBLEFIELD: Well, we need to do that up front.

MR. SPICER: Well, I understand.

MR. STUBBLEFIELD: Because that is what is happening to all the apartments out here. You have got to get a young lady with some babies, and you let them move in because they qualify for this low income stuff.

Then next week, she move her boyfriend in. And then the next thing, he moves a brother in, and they are selling drugs. And all of a sudden, those apartments are going to be drug infested, just like the one you have got down there now.

MR. SPICER: And at that point in time, we have to start the eviction process.

MR. STUBBLEFIELD: Well, why can't you have some type of application for the front. Say if this takes place, you are out.

MR. SPICER: They do have that.

MR. STUBBLEFIELD: Now this is what we are talking about. This is what you need to do.

MR. SPICER: We do have that in the lease. But we have to follow the State of Texas regulations and laws as well.

MR. STUBBLEFIELD: Well, the declaration of law don't cut it out here. That is what I am trying to tell you. What you are talking about is what is in place now. And the people that move in, and they sell. Everything is drug infested. But what you are talking about is not going to cut it.

MR. SPICER: I understand, sir. But I can't do something that is illegal, either. I have to --

MR. STUBBLEFIELD: Well, it is not going to be illegal. If you tell me when I move in, that if I move my drug selling brother in, I have got to move. That is not illegal.

MR. SPICER: That is on the lease. And if they do that, we evict people. That is correct.

MR. STUBBLEFIELD: Only this is what we are talking about. Otherwise, I can't go along with you, unless you put some type of vehicle in place to curb these drugs and the shootings and all this kind of stuff. We have already got that out here. We don't need no more.

MR. SPICER: I understand.

MS. ROTH: Mr. Spicer, could you maybe give the folks here an overview of what kind of security measures you are going to be putting in place on the properties. Are you going to have onsite --

MR. SPICER: We will have on both properties, there will be onsite security, security staff that will do through our maintenance staff we do periodic checks of every apartment that is in there, to make sure that just exactly what you are saying, that if you are not on the lease, you can't be living in that apartment.

And we will be enforcing that. But to some degree, we can only do what the law allows us to do. We can't --

MR. STUBBLEFIELD: And you are going to tell me the law won't allow you to say, you are selling drugs, get out. You can't -- that is not against the law.

MR. SPICER: The law will not allow you to do that immediately. I can't go in there and move somebody out. I have to follow the state's regulations and processes.

MR. STUBBLEFIELD: Well, the way you are talking, I just can't go along with it, because what you are saying, they are just going to bring some more drug dealers in here. And we have got plenty of those.

MR. SPICER: I understand, sir. We do not want to rent to those people. We don't want those people in the apartments.

MR. STUBBLEFIELD: Well, the way you are going, you are not going to know whether they are selling drugs or not, because you say well, periodically we will do a check. But you should do that with your contract. Say hey, if we catch the drugs in here, you are out.

MR. SPICER: That is in our contract. It is. That is in our lease. Any criminal violations, you are out. But I can't immediately throw you out. I still have to follow the state's process.

MR. STUBBLEFIELD: Well, how long are you talking about, if you catch me selling drugs, how long a time before you can throw me out.

MR. SPICER: I would have to -- I am not on the management end. I would have to ask our managers.

MR. STUBBLEFIELD: Are we talking about ten days? 40 days? 30 days?

MR. SPICER: It is less than 30 days.

MR. STUBBLEFIELD: I just don't see where that is against the law. Where you put somebody out that is selling drugs.

MR. SPICER: All I am saying is, we have to follow the state's laws.

MR. STUBBLEFIELD: I understand what you are saying, but I don't agree with it, because I don't think you are right. I think if you catch me, if you rent a house, and it is the same procedure. And if they catch me selling drugs in my house I own, they can take it from me, so you are going to tell me you can't kick somebody out of a rental property?

MR. SPICER: Well, they can take it from you eventually. But I am saying, we can do it, but we have to follow the process.

MR. STUBBLEFIELD: And where it takes six months, a year.

MR. SPICER: No, it is not going to take six months to a year. But I know that it is more than a day or two.

MS. ROTH: So I just want to maybe see if I understand. Basically, the tenant will sign a lease, and within the language of the lease, it will say you know, if you are caught doing obviously illegal criminal activities, then we will follow these steps, and you will be evicted.

But you do have to follow ABC. And of course, if they are doing something illegal and you know, the police are called, then they can obviously be arrested. Right. Something. Okay. Did anyone else --

MR. STUBBLEFIELD: One other thing. I am not finished with this. You all need to clear this up, because I know that if you are on welfare -- are you drawing welfare checks?

MS. ROTH: Me?

MR. STUBBLEFIELD: Well, everybody. If you come in there and find someone living there, they can evict you. So don't tell me you can't do that now.

MR. SPICER: We can evict people. And I am saying, we will evict people.

MS. ROTH: I think what he is saying is he is not a member --since he hasn't been doing the management onsite, that he may not be able to tell you exactly what the process would be. But I am sure if you would like, he could get you a copy of the lease.

MR. SPICER: Correct.

MS. ROTH: Or he could have someone from the management staff contact you, and they could outline exactly what the procedure would be.

MR. STUBBLEFIELD: Well, I would sure like to have that.

MS. ROTH: Absolutely. We can definitely. And from the sounds of what the folks have been saying tonight, you would all enjoy another more detailed meeting with the developer who unfortunately is not here tonight. And you would like to see some drawings, and maybe get a little bit more specifics. And it sounds like Mr. Spicer is very willing to do that. If you would like to set that up with them. Maybe get one person here --

MR. STUBBLEFIELD: And let the young lady understand, let us know when you have this thing, so we can get people out here.

MS. ROTH: Absolutely.

MR. STUBBLEFIELD: Because everybody, I don't know how many people get these letters. But people just don't get these letters. You know.

MS. ROTH: Right.

MR. STUBBLEFIELD: I get a letter from Russ

West. I get one from the Jones. But how many more people get them? And this doesn't -- if you want input from the community, this is not enough community.

MS. ROTH: Absolutely. Our Board welcomes input from the community. And like I said, if you would like, we have some cards up here. You folks are more than welcome to call us, fax us, e-mail us, whatever you like, and we will certainly be happy to respond to you.

It sounds like Mr. Spicer is very willing to have another public meeting with you, which is an excellent idea, to get some more information out to you. And you guys can maybe get some more of your neighbors here, and get involved in this.

MR. STUBBLEFIELD: Because this meeting is not exactly what I expected. I got a letter from Russ West and one from Jones. I expected those people to be here.

MS. ROTH: Right.

MR. STUBBLEFIELD: But they don't even have representatives here.

MS. ROTH: Unfortunately, that is beyond my control.

MR. STUBBLEFIELD: I mean, they don't even have representatives here. So I would like to call Russ' office. I would like to call Johnny's office and get this thing done right, but this is not right.

MS. ROTH: Absolutely. Would anybody else would like to make a comment tonight before we close the meeting? If you could just state your name again, please ma'am.

MS. CURLEY: Betty Curley again. I am just saying, I think you got what we are talking about, because the meeting wasn't very informative. You gave us an idea. But we need more information.

MS. ROTH: Sure.

MS. CURLEY: And we need enough time so that we can get people out. And also, Royce West and Jones should have representatives here, since they are sending the letters out and everything. So I think we need more representation next time.

MR. SPICER: We try to inform all the public officials and let them know, so that they can inform their constituents of the meetings. And we have certainly done that.

MS. CURLEY: I understand. But you know, see, in his letter, the Jones letter, like I said, it didn't tell you nothing much. And you don't have any idea of what this meeting really is about.

MR. SPICER: I don't know what he sent out. I only know what he said and did.

MS. CURLEY: He just told me about partly what she read. It didn't tell a whole lot.

MR. STUBBLEFIELD: If you all really want input from the community, you are going to have another meeting so we can -- so we can have a meeting. So we can fill up this place.

MR. SPICER: Yes. We did a similar meeting a year ago here.

MR. STUBBLEFIELD: Uh-huh.

MR. SPICER: We did a similar meeting a year ago here, and we only had three people show up.

MR. STUBBLEFIELD: Well that is what I am saying. You probably did just like you did this night.

MR. SPICER: Yes.

MR. STUBBLEFIELD: They sent out letters. People don't get letters.

MR. SPICER: I don't know why. I just -- we sent them to the public officials.

MR. STUBBLEFIELD: Well, are you not for having another meeting.

MR. SPICER: I am definitely for having another meeting.

MR. STUBBLEFIELD: Good. Now that settled that.

MS. ROTH: And we at the Department do also. We send out notifications to the elected officials for the area, letting them know we are having this meeting as our way of letting them know we will be here to take comment. I am sorry no one is here tonight.

MR. STUBBLEFIELD: Well, will you send them another letter and tell them we were not happy with the meeting.

MS. ROTH: I will let my boss know that. And she can definitely contact them. If anybody who spoke, if you did not fill out one of these forms, I would really appreciate it if you would.

And like I said, the Department welcomes your comment and so does our Board. They will get a copy of this transcript, so every comment that was made here tonight, they will read. And believe me, our chairperson reads it.

Also my card, and my boss's card is up here. Please feel free to call us, e-mail us, write us, fax us, whatever is easiest for you. We would be more than happy to respond to you, send you whatever information we have available. And it sounds like Mr. Spicer and the developer are more than willing to have another meeting with you.

So if that is everyone’s comments, we are going to go ahead. It is 6:45. And we are going to go ahead and adjourn the meeting. Thank you very much for attending and you all have a good evening.

(Whereupon, the public hearing was concluded.)

BOARD ACTION REQUEST

August 30, 2006

Action Item

Presentation, Discussion and Possible Approval of a resolution for the issuance of Multifamily Housing Mortgage Revenue Bonds, Series 2006 and Housing Tax Credits for the acquisition and rehabilitation of the Center Ridge Apartments.

Requested Action

Approve, Deny or Approve with Amendments the staff recommendation for the Center Ridge Apartments.

Summary of the Center Ridge Apartments Transaction

The pre-application was received on April 3, 2006. The application was scored and ranked by staff. The application was induced at the May 4, 2006 Board meeting and submitted to the Texas Bond Review Board for addition to the 2006 Waiting List. The application received a Reservation of Allocation on May 25, 2006. This application was submitted under the Priority 3 category. At least 75% of the units will serve families at 80% or below the Area Median Family Income. There was one person in attendance at the public hearing and no one spoke for the record. The person in attendance was the Assistant Superintendent of Duncanville ISD who wanted to know whether this was going to be a Section 8 property and if there were any Section 8 properties in the area. A copy of the transcript is located in this presentation. The proposed site is located in the Duncanville Independent School District.

This application was prepared for presentation to the Board at the July 28, 2006 meeting however due to an administrative error in posting the board materials to the Department's website staff could not present the application to the Board. Due to the Department's error in the web posting, the bonds could not be closed by August 31, 2006. Subsequently, the applicant was required to pay an additional $17,500 to hold the property in trust until the closing of the bonds. Staff is requesting the Board's approval to waive $17,500 of the Department's bond origination fee of $42,500 to reimburse the applicant for the Department's error in posting the board materials.

The Center Ridge Apartments proposed acquisition and rehabilitation will be located at 700 West Center Street, Duncanville, Dallas County. Demographics for the census tract (165.18) AMFI of $57,648; the total population is 4,746; the percent of the population that is minority is 38.16%; the number of owner occupied units is 1,105; number of renter occupied units is 622; and the number of vacant units is 46. (Census Information from FFIEC Geocoding for 2006)

Summary of the Financial Structure

The applicant is requesting the Department's approval and issuance of fixed rate tax exempt bonds in the amount of $8,500,000. Credit enhancement will be provided by Fannie Mae through a standby irrevocable transferable credit enhancement instrument. Throughout the construction phase, Fannie Mae will be protected by a Letter of Credit issued by Greystone Servicing Corporation. The Bonds will carry a AAA/Aaa rating. Greystone Servicing Corporation, Inc. (Fannie Mae DUS Lender) will underwrite the transaction using a debt coverage ratio of 1.20 amortized over 30 years. The construction and lease up period will be for twenty-four months plus one 6 month optional extension with payment terms of interest only, followed by a 30 year term and amortization.

Recommendation

1) Staff recommends the Board approve the issuance of Multifamily Housing Mortgage Revenue Bonds, Series 2006 and Housing Tax Credits for the Center Ridge Apartments development because of the demonstrated quality of rehabilitation for the proposed development, the financial feasibility of the development (as demonstrated by the financial commitments from Greystone Servicing Corporation, Fannie Mae, Boston Capital and the underwriting report by the Department's Real Estate Analysis division), the tenant and supportive services provided by the development and the demand for affordable units as demonstrated by the market area.

2) Staff recommends waiving $17,500 of the Department's bond origination fees due to the Department's error in posting the board materials to the Department's website.

MULTIFAMILY FINANCE PRODUCTION DIVISION
BOARD MEMORANDUM
August 30, 2006

DEVELOPMENT:	Center Ridge Apartments, Duncanville, Dallas County
PROGRAM:	Texas Department of Housing & Community Affairs 2006 Private-Activity Multifamily Revenue Bonds (Reservation received 5/25/2006)
ACTION REQUESTED:	Approve the issuance of multifamily housing revenue bonds (the "Bonds") by the Texas Department of Housing and Community Affairs (the "Department"). The Bonds will be issued under Chapter 1371 of the Texas Government Code and under Chapter 2306 of the Texas Government Code, the Department's enabling legislation which authorizes the Department to issue its revenue bonds for its public purposes as defined therein. (*The Department's revenue bonds are solely obligations of the Department, and do not create an obligation, debt, or liability of the State of Texas or a pledge or loan of the faith, credit or taxing power of the State of Texas.)*
PURPOSE:	The proceeds of the Bonds will be used to fund a mortgage loan (the "Mortgage Loan") to Summit Center Ridge Apartments, Ltd., an Alabama limited partnership (the "Borrower"), to finance the acquisition, rehabilitation, equipping and long-term financing of a 224-unit multifamily residential rental development to be located at 700 West Center Street**,** Dallas County (the "Development"). The Bonds will be tax-exempt by virtue of the Development qualifying as a residential rental development.
BOND AMOUNT:	$8,500,000 Series 2006 Tax Exempt bonds (*) $8,500,000 Total bonds (*) The aggregate principal amount of the Bonds will be determined by the Department based on its rules, underwriting, the cost of construction of the Development and the amount for which Bond Counsel can deliver its Bond Opinion.
ANTICIPATED CLOSING DATE:	The Department received a volume cap allocation for the Bonds on May 25, 2006, pursuant to the Texas Bond Review Board's 2006 Private Activity Bond Allocation Program. While the Department is required to deliver the Bonds on or before October 22, 2006, the anticipated closing date is September 19, 2006.
BORROWER:	Summit Center Ridge Apartments, Ltd. an Alabama limited partnership, the general partner of which is Summit America Properties XXVIII, Inc., the managing member is W. Daniel Hughes, Jr, with 100% ownership. Boston Capital or an affiliate thereof will be providing the equity for the transaction by purchasing

** Preliminary - Represents Maximum Amount*

a 99.99% limited partnership interest in the Borrower.

COMPLIANCE HISTORY: The Compliance Status Summary completed on June 26, 2006 reveals that the principals of the general partner above have two properties that will be monitored by the Department.

ISSUANCE TEAM: Greystone Servicing Corporation, Inc. (FNMA DUS Lender/Servicer)
Boston Capital (Equity Provider)
Fannie Mae (Credit Facility Provider)
Merchant Capital, LLC (Underwriter)
JPMorgan Chase Bank, National Association (Trustee)
Vinson & Elkins L.L.P. (Bond Counsel)
RBC Capital Markets (Financial Advisor)
McCall, Parkhurst & Horton, L.L.P. (Issuer Disclosure Counsel)

BOND PURCHASER: The Bonds will be publicly offered for sale on or about September 19, 2006 at which time the final pricing and Bond Purchaser(s) will be determined.

DEVELOPMENT DESCRIPTION: The Development is a 224 unit apartment community to be acquired and rehabilitated located at 700 West Center Street, Duncanville, Dallas County. The rehabilitation will consist of rebuilding and surfacing the parking lot, replacing the siding, and installing new windows. There will be a new community and general amenities to the inside of the property. In addition, new surveillance cameras will be installed.

Units	Unit Type	Sq Ft	Proposed	AMFI
31	1-Bed/1-Bath	669	$535.00	60%
1	1-Bed/1-Bath	669	$535.00	Mkt.
106	2-Bed/2-Bath	912	$670.00	60%
6	2-Bed/2-Bath	912	$670.00	Mkt.
76	3-Bed/2-Baths	1,104	$750.00	60%
4	3-Bed/2-Baths	1,104	$750.00	Mkt.
224	Total Rental Units			

SET-ASIDE UNITS: For Bond covenant purposes, forty percent (40%) of the units in the Development will be restricted to occupancy by persons or families earning not more than sixty percent (60%) of the area median income. Five percent (5%) of the units in the Development will be set aside on a priority basis for persons with special needs.

TENANT SERVICES: Tenant Services will be provided by the developer according to the requirements as outlined in the Departments Land Use Restriction Agreement.

DEPARTMENT ORIGINATION FEES:

$1,000 Pre-Application Fee (Paid)
$10,000 Application Fee (Paid)
$42,500 Issuance Fee (.50% of the bond amount paid at closing)

DEPARTMENT ANNUAL FEES:

$8,500 Bond Administration (0.10% of first year bond amount)
$8,960 Compliance ($40/unit/year adjusted annually for CPI)

(Department's annual fees may be adjusted, including deferral, to accommodate underwriting criteria and Development cash flow. These fees will be subordinated to the Mortgage Loan and paid outside of the cash flows contemplated by the Indenture)

ASSET OVERSIGHT FEE:

$5,600 to TDHCA or assigns ($25/unit/year adjusted annually for CPI)*)*

TAX CREDITS:

The Borrower has applied to the Department to receive a Determination Notice for the 4% tax credit that accompanies the private-activity bond allocation. The tax credit equates to $324,532 per annum and represents equity for the transaction. To capitalize on the tax credit, the Borrower will sell a substantial portion of the limited partnership, typically 99.99%, to raise equity funds for the Development. Although a tax credit sale has not been finalized, the Borrower anticipates raising approximately $3,196,323 of equity for the transaction.

BOND STRUCTURE & SECURITY FOR THE BONDS:

The Bonds are proposed to be issued under a Trust Indenture (the "Trust Indenture") that will describe the fundamental structure of the Bonds, permitted uses of Bond proceeds and procedures for the administration, investment and disbursement of Bond proceeds and program revenues.

As stated above, the Bonds are being issued to fund a Mortgage Loan to finance the acquisition, rehabilitation, equipping and long-term financing of the Development. The Mortgage Loan will be secured by, among other things, a Deed of Trust and other security instruments on the Development. The Mortgage Loan and security instruments will be assigned to the Trustee and Fannie Mae and will become part of the Trust Estate securing the Bonds.

During both the construction period (the "Construction Phase") and, if conversion ("Conversion") from the Construction Phase to the permanent mortgage period (the "Permanent Phase") occurs, and the permanent phase, credit enhancement for the Loan and, if Conversion occurs, liquidity support for the Bonds outstanding will be provided by Fannie Mae pursuant to a Stand-by Irrevocable Transferable Credit Enhancement Instrument (the "Fannie Mae Credit Facility"). Throughout the Construction Phase, Fannie Mae will be protected against risk of loss by a letter of credit issued by

Greystone Servicing Corporation. If Conversion does not occur and Greystone has not exercised its option to purchase the Bonds, the Bonds will be subject to mandatory redemption.

In addition to the credit enhanced Mortgage Loan, other security for the Bonds during the Construction Phase consists of the net bond proceeds, the revenues and any other moneys received by the Trustee for payment of principal and interest on the Bonds, and amounts otherwise on deposit in the Funds and Accounts (excluding the Rebate Fund, the Fees Account of the Revenue Fund and the Costs of Issuance Deposit Account of the Cost of Issuance Fund) and any investment earnings thereon (see Funds and Accounts section, below).

CREDIT ENHANCEMENT: The credit enhancement by Fannie Mae allows for an anticipated rating by the Rating Agency of AAA/Aaa and an anticipated initial fixed rate not to exceed 6.05%. Without the credit enhancement, the Bonds would not be investment grade and therefore command a higher interest rate from investors on similar maturity bonds.

FORM OF BONDS: The Bonds will be issued in book entry form and will be in authorized denominations of $5,000 or any integral multiple of $5,000.

TERMS OF THE MORTGAGE LOAN: The Mortgage Loan is a non-recourse obligation of the Owner, which means, subject to certain exceptions, that the Owner is not liable for the payment thereof beyond the amount realized from the pledged security. The Mortgage Loan provides for monthly payments of interest during the Construction Phase and level monthly payments of principal and interest following Conversion to the Permanent Phase.

During the Construction Phase, the Borrower will be required to make payments on the Mortgage Loan directly to the Trustee (to the extent that capitalized interest funds deposited at closing into the Mortgage Loan Fund are insufficient to make the semi-annual interest payments on the Bonds) along with all other bond and credit enhancement fees. Upon Conversion, the Borrower will be required to pay mortgage payments on the Mortgage Loan to the Servicer, who will remit the principal and interest components of the mortgage payments to the Trustee. The Borrower will continue to pay certain other fees, including the Department's fees, directly to the Trustee.

Effective on the Conversion Date, which is anticipated to occur thirty months from the closing date of the Bonds with one six-month extension option, the Mortgage Loan will convert from the Construction Phase to the Permanent Phase upon satisfaction the conversion requirements set forth in the Construction Phase Financing Agreement. Among other things, these requirements include completion of the Development according to plans and specifications and achievement of certain occupancy thresholds.

MATURITY/SOURCES & METHODS OF REPAYMENT:

The Bonds will bear interest (a) from the date of issuance to the Initial Remarketing Date at a fixed rate and (b) from the Initial Remarketing Date to maturity, which is April 1, 2039, or earlier redemption or acceleration at the rates determined from time to time by the Remarketing Agent pursuant to the Indenture.

The Bonds will be payable from: (1) revenues earned from the Mortgage Loan (which during the Construction Phase will be payable as to interest only); (2) earnings derived from amounts held in Funds & Accounts (discussed below) on deposit in an investment agreement; (3) funds deposited to the Mortgage Loan Fund specifically for capitalized interest during a portion of the Construction Phase; (4) or payments made by Fannie Mae under the Fannie Mae Credit Facility.

Fannie Mae is obligated under the Fannie Mae Credit Facility to fund the payment of the Borrower's loan payments in the event the Borrower fails to make any payment of interest or interest and principal. The Borrower is obligated to reimburse Fannie Mae for any moneys advanced by Fannie Mae for such payments.

REDEMPTION OF BONDS PRIOR TO MATURITY:

The Bonds are subject to redemption under any of the following circumstances:

Optional Redemption:

The Bonds are not subject to optional redemption prior to the lockout date set forth in the Indenture. On or after such date and prior to the Initial Remarketing Date, the Bonds are subject to optional redemption in whole or in part upon optional prepayment of the Mortgage Loan in accordance with the Mortgage Loan Documents.

On or after the Initial Remarketing Date, the Bonds are subject to optional redemption in whole or in part during the periods and at the respective redemption prices set forth in the Indenture as expressed percentages of the principal amount of the Bonds called for redemption.

Mandatory Redemption:

(1) The Bonds shall be redeemed in whole or in part in the event and to the extent that proceeds of insurance from any casualty to, or proceeds of any award from any condemnation of, or any award

as part of a settlement in lieu of condemnation of, the Development are applied in accordance with the Financing Agreement and the Mortgage Loan Documents to restoring or repairing the Mortgaged Property or, with the consent of the Credit Provider, otherwise used for improvements to the Mortgaged Property or applied to the reimbursement of amounts owed to the Credit Provider.

(2) The Bonds shall be redeemed in whole or in part in an amount specified by and at the direction, or with the prior written consent, of the Credit Provider requiring that the Bonds be redeemed pursuant to the Indenture following any Event of Default under the Security Instrument, the Credit Facility Agreement or the Financing Agreement or the occurrence of a Borrower Default under the Construction Phase Financing Agreement.

(3) The Bond shall be subject to mandatory sinking fund installments, at the times and in the amounts set forth in the amortization schedule established pursuant to the Indenture.

(4) The Bonds shall be redeemed in part in the event that the Borrower makes a Pre-Conversion Loan Equalization Payment.

(5) The Bonds shall be redeemed in whole if the Loan Servicer does not issue the Conversion Notice on or before the Termination Date, unless the Credit Provider otherwise directs the Trustee and Loan Servicer in writing.

(6) The Bonds shall be redeemed in whole or in part in the event and to the extent that amounts on deposit in the Mortgage Loan Fund or the General Account of the Revenue Fund are transferred to the Redemption Account.

FUNDS AND ACCOUNTS/FUNDS ADMINISTRATION:

Under the Trust Indenture, JPMorgan Chase Bank, National Association, (the "Trustee") will serve as registrar and authenticating agent for the Bonds, trustee of certain of the funds created under the Trust Indenture (described below), and will have responsibility for a number of loan administration and monitoring functions.

The Depository Trust Company ("DTC"), New York, New York, will act as securities depository for the Bonds. The Bonds will initially be issued as fully registered securities and when issued will be registered in the name of Cede & Co., as nominee for DTC. One fully registered global bond in the aggregate principal amount of each stated maturity of the Bonds will be deposited with DTC.

Moneys on deposit in Trust Indenture funds are required to be invested in eligible investments prescribed in the Trust Indenture until needed for the purposes for which they are held.

The Trust Indenture will create up to six (6) funds with the following general purposes:

1. Mortgage Loan Fund – Consists of a Project Account and Capitalized Interest Account. Monies in the Mortgage Loan Fund will be withdrawn to pay the costs of rehabilitation and other approved costs of the Development, and interest on the Bonds.

2. Revenue Fund – Consists of a General Account, Redemption Account, Credit Facility Account and the Fees Account. Monies in the Revenue Fund shall be disbursed for interest on the Bonds, sinking fund redemption payments, principal amounts due, third party fees and to the redemption of Bonds.

3. Costs of Issuance Fund – Consists of a Cost of Issuance Deposit Account and a Cost of Issuance Bond Proceeds Account. A temporary fund into which amounts for the payment of the costs of issuance are deposited and disbursed by the Trustee.

4. Rebate Fund - Fund into which certain investment earnings are transferred that are required to be rebated periodically to the federal government to preserve the tax-exempt status of the Bonds. Amounts in this fund are held apart from the trust estate and are not available to pay debt service on the Bonds.

5. Bond Purchase Fund – Consists of a Remarketing Proceeds Account and a Remarketing Expenses Account. Monies are used to pay the purchase price of the Bonds on a Remarketing Date in the event the Bonds are not remarketed and Remarketing Expenses.

6. Equity Fund – Fund into which amounts designated by the Borrower as equity funds are deposited and disbursed by the Trustee pursuant to a requisition.

Essentially, all of the bond proceeds will be deposited into the Loan Fund and disbursed during the Construction Phase to finance the construction of the Development. Although costs of issuance of up to two percent (2%) of the principal amount of the Bonds may be paid from Bond proceeds, it is currently expected that all costs of issuance will be paid by an equity contribution of the Borrower.

DEPARTMENT ADVISORS:

The following advisors have been selected by the Department to perform the indicated tasks in connection with the issuance of the Bonds.

1. Bond Counsel - Vinson & Elkins L.L.P. ("V&E") was most recently selected to serve as the Department's bond counsel through a request for proposals ("RFP") issued by the Department in September 2005.

2. Bond Trustee – JPMorgan Chase Bank, National Association was selected by the Borrower from the Department's list of approved trustees for multifamily bond issues. This trustee was approved by the Department in June 2006.

3. Financial Advisor - RBC Capital Markets, formerly RBC Dain Rauscher, was selected by the Department as the Department's financial advisor through a request for proposals process in August 2003.

4. Underwriter – Merchant Capital was selected by the Borrower from the Department's list of approved senior managers for multifamily bond issues. The underwriter list was approved by the Department in June 2006.

5. Disclosure Counsel – McCall, Parkhurst & Horton, L.P.P. was selected to serve as the Department's disclosure counsel in September 2005.

ATTORNEY GENERAL REVIEW OF BONDS:

No preliminary written review of the Bonds by the Attorney General of Texas has yet been made. Department bonds, however, are subject to the approval of the Attorney General, and transcripts of proceedings with respect to the Bonds will be submitted for review and approval prior to the issuance of the Bonds.

RESOLUTION NO. 06-029

RESOLUTION AUTHORIZING AND APPROVING THE ISSUANCE, SALE AND DELIVERY OF MULTIFAMILY HOUSING REVENUE BONDS (CENTER RIDGE APARTMENTS) SERIES 2006; APPROVING THE FORM AND SUBSTANCE AND AUTHORIZING THE EXECUTION AND DELIVERY OF DOCUMENTS AND INSTRUMENTS PERTAINING THERETO; AUTHORIZING AND RATIFYING OTHER ACTIONS AND DOCUMENTS; AND CONTAINING OTHER PROVISIONS RELATING TO THE SUBJECT

WHEREAS, the Texas Department of Housing and Community Affairs (the "Department") has been duly created and organized pursuant to and in accordance with the provisions of Chapter 2306, Texas Government Code, as amended (the "Act"), for the purpose, among others, of providing a means of financing the costs of residential ownership, development and rehabilitation that will provide decent, safe, and affordable living environments for individuals and families of low, very low and extremely low income and families of moderate income (all as defined in the Act); and

WHEREAS, the Act authorizes the Department: (a) to make mortgage loans to housing sponsors to provide financing for multifamily residential rental housing in the State of Texas (the "State") intended to be occupied by individuals and families of low, very low and extremely low income and families of moderate income, as determined by the Department; (b) to issue its revenue bonds, for the purpose, among others, of obtaining funds to make such loans and provide financing, to establish necessary reserve funds and to pay administrative and other costs incurred in connection with the issuance of such bonds; and (c) to pledge all or any part of the revenues, receipts or resources of the Department, including the revenues and receipts to be received by the Department from such multifamily residential rental development loans, and to mortgage, pledge or grant security interests in such loans or other property of the Department in order to secure the payment of the principal or redemption price of and interest on such bonds; and

WHEREAS, the Board has determined to authorize the issuance of the Texas Department of Housing and Community Affairs Multifamily Housing Revenue Bonds (Center Ridge Apartments) Series 2006 (the "Bonds"), pursuant to and in accordance with the terms of a Trust Indenture (the "Indenture") by and between the Department and JPMorgan Chase Bank, National Association, a national banking association, as trustee (the "Trustee"), for the purpose of obtaining funds to finance the Development (defined below), all under and in accordance with the Constitution and laws of the State; and

WHEREAS, the Department desires to use the proceeds of the Bonds to fund a mortgage loan to Summit Center Ridge Apartments, Ltd., an Alabama limited partnership (the "Borrower"), in order to finance the cost of acquisition, rehabilitation and equipping of a qualified residential rental development described on Exhibit A attached hereto (the "Development") located within the State and required by the Act to be occupied by individuals and families of low and very low income and families of moderate income, as determined by the Department; and

WHEREAS, the Board, by resolution adopted on May 4, 2006, declared its intent to issue its revenue bonds to provide financing for the Development; and

WHEREAS, it is anticipated that the Department, the Borrower and the Trustee will execute and deliver a Financing Agreement (the "Financing Agreement") pursuant to which (i) the Department will agree to make a mortgage loan funded with the proceeds of the Bonds (the "Mortgage Loan") to the Borrower to enable the Borrower to finance the cost of acquisition, rehabilitation and equipping of the Development and related costs, and (ii) the Borrower will execute and deliver to the Department a multifamily note (the "Mortgage Note") in an original principal amount equal to the original aggregate principal amount of the Bonds, and providing for payment of interest on such principal amount equal to the interest on the Bonds and to pay other costs described in the Financing Agreement; and

WHEREAS, it is anticipated that credit enhancement for the Mortgage Loan will be provided for by a Credit Enhancement Instrument (Standby) issued by Fannie Mae ("Fannie Mae"); and

WHEREAS, it is anticipated that the Mortgage Note will be secured by a Multifamily Deed of Trust, Assignment of Rents, Security Agreement and Fixture Filing (Texas) (the "Security Instrument") by the Borrower for the benefit of the Department and Fannie Mae; and

WHEREAS, the Department's interest in the Mortgage Loan (except for certain reserved rights), including the Mortgage Note and the Security Instrument, will be assigned to the Trustee, as its interests may appear, and to Fannie Mae, as its interests may appear, pursuant to an Assignment and Intercreditor Agreement (the "Assignment") among the Department, the Trustee and Fannie Mae and acknowledged, accepted and agreed to by the Borrower; and

WHEREAS, the Board has determined that the Department, the Trustee and the Borrower will execute a Regulatory and Land Use Restriction Agreement (the "Regulatory Agreement"), with respect to the Development which will be filed of record in the real property records of Harris County, Texas; and

WHEREAS, the Board has been presented with a draft of, has considered and desires to ratify, approve, confirm and authorize the use and distribution in the public offering of the Bonds of a Preliminary Official Statement (the "Preliminary Official Statement") and an Official Statement (the "Official Statement", and together with the Preliminary Official Statement, the "Official Statements") and to authorize the authorized representatives of the Department to deem the Official Statements "final" for purposes of Rule 15c2-12 of the Securities and Exchange Commission and to approve the making of such changes in the Official Statements as may be required to provide final Official Statements for use in the public offering and sale of the Bonds; and

WHEREAS, the Board has further determined that the Department will enter into a Bond Purchase Agreement (the "Bond Purchase Agreement") with the Borrower and Merchant Capital, L.L.C. (the "Underwriter"), and any other parties to such Bond Purchase Agreement as authorized by the execution thereof by the Department, setting forth certain terms and conditions upon which the Underwriter or another party will purchase all or their respective portion of the Bonds from the Department and the Department will sell the Bonds to the Underwriter or another party to such Bond Purchase Agreement; and

WHEREAS, the Board has determined that the Department and the Borrower will execute an Asset Oversight Agreement (the "Asset Oversight Agreement"), with respect to the Development for the purpose of monitoring the operation and maintenance of the Development; and

WHEREAS, the Board has examined proposed forms of (a) the Indenture, the Financing Agreement, the Assignment, the Regulatory Agreement, the Official Statements, the Bond Purchase Agreement and the Asset Oversight Agreement (collectively, the "Issuer Documents"), all of which are attached to and comprise a part of this Resolution and (b) the Security Instrument and the Note; has found the form and substance of such documents to be satisfactory and proper and the recitals contained therein to be true, correct and complete; and has determined, subject to the conditions set forth in Article I, to authorize the issuance of the Bonds, the execution and delivery of the Issuer Documents, the acceptance of the Security Instrument and the Note and the taking of such other actions as may be necessary or convenient in connection therewith;

NOW, THEREFORE,

BE IT RESOLVED BY THE BOARD OF THE DEPARTMENT:

ARTICLE I

ISSUANCE OF BONDS; APPROVAL OF DOCUMENTS

Section 1.1--Issuance, Execution and Delivery of the Bonds. That the issuance of the Bonds is hereby authorized, under and in accordance with the conditions set forth herein and in the Indenture, and that, upon execution and delivery of the Indenture, the authorized representatives of the Department named in this Resolution each are authorized hereby to execute, attest and affix the Department's seal to the Bonds and to deliver the Bonds to the Attorney General of the State for approval, the Comptroller of Public Accounts of the State for registration and the Trustee for authentication (to the extent required in the Indenture), and thereafter to deliver the Bonds to the order of the initial purchaser thereof.

Section 1.2--Interest Rate, Principal Amount, Maturity and Price. That the Chair or Vice Chairman of the Board or the Executive Director or Acting Executive Director of the Department are hereby authorized and empowered, in accordance with Chapter 1371, Texas Government Code, to fix and determine the interest rate, principal amount and maturity of, the redemption provisions related to, and the price at which the Department will sell to the Underwriter or another party to the Bond Purchase Agreement, the Bonds, all of which determinations shall be conclusively evidenced by the execution and delivery by the Chair or Vice Chairman of the Board or the Executive Director or Acting Executive Director of the Department of the Indenture and the Bond Purchase Agreement; provided, however, that (i) the Bonds shall bear interest (a) from the date of issuance to the Initial Remarketing Date at a fixed rate not to exceed 6.0% and (b) from the Initial Remarketing Date until maturity or earlier redemption or acceleration thereof at the rates determined from time to time by the Remarketing Agent (as such term is defined in the Indenture) in accordance with the provisions of the Indenture; provided that in no event shall the interest rate on the Bonds (including any default interest rate) exceed the maximum interest rate permitted by applicable law; (ii) the aggregate principal amount of the Bonds shall not exceed $8,500,000; (iii) the final maturity of the Bonds shall occur not later than May 1, 2039; and (iv) the price at which the Bonds are sold to the initial purchaser thereof under the Bond Purchase Agreement shall not exceed 103% of the principal amount thereof.

Section 1.3--Approval, Execution and Delivery of the Indenture. That the form and substance of the Indenture are hereby approved, and that the authorized representatives of the Department named in this Resolution each are authorized hereby to execute the Indenture and to deliver the Indenture to the Trustee.

Section 1.4--Approval, Execution and Delivery of the Financing Agreement. That the form and substance of the Financing Agreement are hereby approved, and that the authorized representatives of the Department named in this Resolution each are authorized hereby to execute the Financing Agreement and deliver the Financing Agreement to the Borrower and the Trustee.

Section 1.5--Approval, Execution and Delivery of the Regulatory Agreement. That the form and substance of the Regulatory Agreement are hereby approved, and that the authorized representatives of the Department named in this Resolution each are authorized hereby to execute, attest and affix the Department's seal to the Regulatory Agreement and deliver the Regulatory Agreement to the Borrower and the Trustee and to cause the Regulatory Agreement to be filed of record in the real property records of Harris County, Texas.

Section 1.6--Approval, Execution and Delivery of the Bond Purchase Agreement. That the sale of the Bonds to the Underwriter and any other party to the Bond Purchase Agreement is hereby approved, that the form and substance of the Bond Purchase Agreement are hereby approved, and that the authorized representatives of the Department named in this Resolution each are hereby authorized to execute the Bond Purchase Agreement and to deliver the Bond Purchase Agreement to the Borrower, the Underwriter and any other party to the Bond Purchase Agreement, as appropriate.

Section 1.7--Acceptance of the Mortgage Note and Security Instrument. That the form and substance of the Mortgage Note and Security Instrument are hereby accepted by the Department and that the authorized representatives of the Department named in this Resolution each are hereby authorized to endorse and deliver the Mortgage Note to the order of the Trustee and Fannie Mae, as their interests may appear, without recourse.

Section 1.8--Approval, Execution and Delivery of the Assignment. That the form and substance of the Assignment are hereby approved; and that the authorized representatives of the Department named in this Resolution are each hereby authorized to execute, attest and affix the Department's seal to the Assignment and to deliver the Assignment to the Trustee and Fannie Mae.

Section 1.9--Approval, Execution, Use and Distribution of the Official Statements. That the form and substance of the Official Statements and their use and distribution by the Underwriter in accordance with the terms, conditions and limitations contained therein are hereby approved, ratified, confirmed and authorized; that the Chair and Vice Chairman of the Board and the Executive Director or Acting Executive Director of the Department are hereby severally authorized to deem the Official Statement "final" for purposes of Rule 15c2-12 under the Securities Exchange Act of 1934; that the authorized representatives of the Department named in this Resolution each are authorized hereby to make or approve such changes in the Official Statements as may be required to provide a final Official Statement for the Bonds; that the authorized representatives of the Department named in this Resolution each are authorized hereby to accept the Official Statements, as required; and that the distribution and circulation of the Official Statements by the Underwriter hereby is authorized and approved, subject to the terms, conditions and limitations contained therein, and further subject to such amendments or additions thereto as may be required by the Bond Purchase Agreement and as may be approved by the Executive Director or Acting Executive Director of the Department and the Department's counsel.

Section 1.10--Approval, Execution and Delivery of the Asset Oversight Agreement. That the form and substance of the Asset Oversight Agreement are hereby approved, and that the authorized representatives of the Department named in this Resolution each are authorized hereby to execute and deliver the Asset Oversight Agreement to the Borrower.

Section 1.11--Taking of Any Action; Execution and Delivery of Other Documents. That the authorized representatives of the Department named in this Resolution each are authorized hereby to take any actions and to execute, attest and affix the Department's seal to, and to deliver to the appropriate parties, all such other agreements, commitments, assignments, bonds, certificates, contracts, documents, instruments, releases, financing statements, letters of instruction, notices of acceptance, written requests and other papers, whether or not mentioned herein, as they or any of them consider to be necessary or convenient to carry out or assist in carrying out the purposes of this Resolution.

Section 1.12--Exhibits Incorporated Herein. That all of the terms and provisions of each of the documents listed below as an exhibit shall be and are hereby incorporated into and made a part of this Resolution for all purposes:

Exhibit B - Indenture

Exhibit C	-	Financing Agreement
Exhibit D	-	Regulatory Agreement
Exhibit E	-	Bond Purchase Agreement
Exhibit F	-	Security Instrument
Exhibit G	-	Mortgage Note
Exhibit H	-	Assignment
Exhibit I	-	Preliminary Official Statement
Exhibit J	-	Asset Oversight Agreement

Section 1.13--Power to Revise Form of Documents. That notwithstanding any other provision of this Resolution, the authorized representatives of the Department named in this Resolution each are authorized hereby to make or approve such revisions in the form of the documents attached hereto as exhibits as, in the judgment of such authorized representative or authorized representatives, and in the opinion of Vinson & Elkins L.L.P., Bond Counsel to the Department, may be necessary or convenient to carry out or assist in carrying out the purposes of this Resolution, such approval to be evidenced by the execution of such documents by the authorized representatives of the Department named in this Resolution.

Section 1.14--Authorized Representatives. That the following persons are each hereby named as authorized representatives of the Department for purposes of executing, attesting, affixing the Department's seal to, and delivering the documents and instruments and taking the other actions referred to in this Article I: Chair and Vice Chairman of the Board, Executive Director or Acting Executive Director of the Department, Deputy Executive Director of Housing Operations of the Department, Deputy Executive Director of Programs of the Department, Chief of Agency Administration of the Department, Director of Financial Administration of the Department, Director of Bond Finance of the Department, Director of Multifamily Finance Production of the Department and the Secretary to the Board.

Section 1.15--Conditions Precedent. That the issuance of the Bonds shall be further subject to, among other things: (a) the Development's meeting all underwriting criteria of the Department, to the satisfaction of the Executive Director or Acting Executive Director of the Department; and (b) the execution by the Borrower and the Department of contractual arrangements satisfactory to the Department staff requiring that community service programs will be provided at the Development.

ARTICLE II

APPROVAL AND RATIFICATION OF CERTAIN ACTIONS

Section 2.1--Approval and Ratification of Application to Texas Bond Review Board. That the Board hereby ratifies and approves the submission of the application for approval of state bonds to the Texas Bond Review Board on behalf of the Department in connection with the issuance of the Bonds in accordance with Chapter 1231, Texas Government Code.

Section 2.2--Approval of Submission to the Attorney General. That the Board hereby authorizes, and approves the submission by the Department's Bond Counsel to the Attorney General of the State, for his approval, of a transcript of legal proceedings relating to the issuance, sale and delivery of the Bonds.

Section 2.3--Engagement of Other Professionals. That the Executive Director or Acting Executive Director of the Department or any successor is authorized to engage auditors to perform such functions, audits, yield calculations and subsequent investigations as necessary or appropriate to comply with the Bond Purchase Agreement and the requirements of Bond Counsel to the Department, provided such engagement is done in accordance with applicable law of the State.

Section 2.4--Certification of the Minutes and Records. That the Secretary to the Board hereby is authorized to certify and authenticate minutes and other records on behalf of the Department for the Bonds and all other Department activities.

Section 2.5--Approval of Requests for Rating from Rating Agency. That the action of the Executive Director or Acting Executive Director of the Department or any successor and the Department's consultants in seeking a rating from Moody's Investors Service, Inc. and/or Standard & Poor's Ratings Services, a Division of The McGraw-Hill Companies, Inc., is approved, ratified and confirmed hereby.

Section 2.6--Authority to Invest Proceeds. That the Department is authorized to invest and reinvest the proceeds of the Bonds and the fees and revenues to be received in connection with the financing of the Development in accordance with the Indenture and to enter into any agreements relating thereto only to the extent permitted by the Indenture.

Section 2.7--Underwriter. That the underwriter with respect to the issuance of the Bonds shall be Merchant Capital, L.L.C.

Section 2.8—Engagement of Other Professionals. That the Executive Director or Acting Executive Director of the Department or any successor is authorized to engage auditors, analysts and consultants to perform such functions, audits, yield calculations and subsequent investigations as necessary or appropriate to comply with the requirements of Bond Counsel to the Department, provided such engagement is done in accordance with applicable law of the State.

Section 2.9--Ratifying Other Actions. That all other actions taken by the Executive Director or Acting Executive Director of the Department and the Department staff in connection with the issuance of the Bonds and the financing of the Development are hereby ratified and confirmed.

ARTICLE III

CERTAIN FINDINGS AND DETERMINATIONS

Section 3.1--Findings of the Board. That in accordance with Section 2306.223 of the Act and after the Department's consideration of the information with respect to the Development and the information with respect to the proposed financing of the Development by the Department, including but not limited to the information submitted by the Borrower, independent studies commissioned by the Department, recommendations of the Department staff and such other information as it deems relevant, the Board hereby finds:

(a) Need for Housing Development.

(i) that the Development is necessary to provide needed decent, safe, and sanitary housing at rentals or prices that individuals or families of low and very low income or families of moderate income can afford,

(ii) that the financing of the Development is a public purpose and will provide a public benefit, and

(iii) that the Development will be undertaken within the authority granted by the Act to the housing finance division and the Borrower.

(b) Findings with Respect to the Borrower.

(i) that the Borrower, by operating the Development in accordance with the requirements of the Financing Agreement and Regulatory Agreement, will comply with applicable local building requirements and will supply well-planned and well-designed housing for individuals or families of low and very low income or families of moderate income,

(ii) that the Borrower is financially responsible and has entered into a binding commitment to repay the Mortgage Loan in accordance with its terms, and

(iii) that the Borrower is not, and will not enter into a contract for the Development with, a housing developer that: (A) is on the Department's debarred list, including any parts of that list that are derived from the debarred list of the United States Department of Housing and Urban Development; (B) breached a contract with a public agency; or (C) misrepresented to a subcontractor the extent to which the developer has benefited from contracts or financial assistance that has been awarded by a public agency, including the scope of the developer's participation in contracts with the agency and the amount of financial assistance awarded to the developer by the Department.

(c) Public Purpose and Benefits.

(i) that the Borrower has agreed to operate the Development in accordance with the Financing Agreement and the Regulatory Agreement, which require, among other things, that the Development be occupied by individuals and families of low and very low income and families of moderate income, and

(ii) that the issuance of the Bonds to finance the Development is undertaken within the authority conferred by the Act and will accomplish a valid public purpose and will provide a public benefit by assisting individuals and families of low and very low income and families of moderate income in the State to obtain decent, safe, and sanitary housing by financing the costs of the Development, thereby helping to maintain a fully adequate supply of sanitary and safe dwelling accommodations at rents that such individuals and families can afford.

Section 3.2--Determination of Eligible Tenants. That the Board has determined, to the extent permitted by law and after consideration of such evidence and factors as it deems relevant, the findings of the staff of the Department, the laws applicable to the Department and the provisions of the Act, that eligible tenants for the Development shall be (1) individuals and families of low and very low income, (2) persons with special needs, and (3) families of moderate income, with the income limits as set forth in the Financing Agreement and the Regulatory Agreement.

Section 3.3--Sufficiency of Mortgage Loan Interest Rate. That the Board hereby finds and determines that the interest rate on the Mortgage Loan established pursuant to the Financing Agreement will produce the amounts required, together with other available funds, to pay for the Department's costs of operation with respect to the Bonds and the Development and enable the Department to meet its covenants with and responsibilities to the holders of the Bonds.

Section 3.4--No Gain Allowed. That, in accordance with Section 2306.498 of the Act, no member of the Board or employee of the Department may purchase any Bond in the secondary open market for municipal securities.

Section 3.5--Waiver of Rules. That the Board hereby waives the rules contained in Chapters 33 and 35, Title 10 of the Texas Administrative Code to the extent such rules are inconsistent with the terms of this Resolution and the bond documents authorized hereunder.

ARTICLE IV

GENERAL PROVISIONS

Section 4.1--Limited Obligations. That the Bonds and the interest thereon shall be limited obligations of the Department payable solely from the trust estate created under the Indenture, including the revenues and funds of the Department pledged under the Indenture to secure payment of the Bonds, and under no circumstances shall the Bonds be payable from any other revenues, funds, assets or income of the Department.

Section 4.2--Non-Governmental Obligations. That the Bonds shall not be and do not create or constitute in any way an obligation, a debt or a liability of the State or create or constitute a pledge, giving or lending of the faith or credit or taxing power of the State. Each Bond shall contain on its face a statement to the effect that the State is not obligated to pay the principal thereof or interest thereon and that neither the faith or credit nor the taxing power of the State is pledged, given or loaned to such payment.

Section 4.3--Effective Date. That this Resolution shall be in full force and effect from and upon its adoption.

Section 4.4--Notice of Meeting. Written notice of the date, hour and place of the meeting of the Board at which this Resolution was considered and of the subject of this Resolution was furnished to the Secretary of State and posted on the Internet for at least seven (7) days preceding the convening of such meeting; that during regular office hours a computer terminal located in a place convenient to the public in the office of the Secretary of State was provided such that the general public could view such posting; that such meeting was open to the public as required by law at all times during which this Resolution and the subject matter hereof was discussed, considered and formally acted upon, all as required by the Open Meetings Act, Chapter 551, Texas Government Code, as amended; and that written notice of the date, hour and place of the meeting of the Board and of the subject of this Resolution was published in the Texas Register at least seven (7) days preceding the convening of such meeting, as required by the Administrative Procedure and Texas Register Act, Chapters 2001 and 2002, Texas Government Code, as amended. Additionally, all of the materials in the possession of the Department relevant to the subject of this Resolution were sent to interested persons and organizations, posted on the Department's website, made available in hard-copy at the Department, and filed with the Secretary of State for publication by reference in the Texas Register not later than seven (7) days before the meeting of the Board as required by Section 2306.032, Texas Government Code, as amended.

EXHIBIT A

DESCRIPTION OF DEVELOPMENT

Owner: Summit Center Ridge Apartments, Ltd., an Alabama limited partnership

Development: The Development is a 224-unit multifamily facility to be known as Center Ridge Apartments and located at 700 West Center Street, Duncanville, Dallas County, Texas. It will consist of 28 two-story residential apartment buildings with approximately 211,536 net rentable square feet and an average unit size of approximately 944 square feet. The unit mix will consist of:

32	one-bedroom/one-bath units
112	two-bedroom/two-bath units
80	three-bedroom/two-bath units
224	Total Units

Unit sizes will range from approximately 669 square feet to approximately 1,104 square feet.

Common areas are expected to include two laundry facilities, a swimming pool and a sports court. All units are expected to have central heating and air conditioning, carpeting and vinyl tile, miniblinds, a dishwasher, a range and oven. The three-bedroom/two-bath units are expected to have washer/dryer connections.

CONDITIONS OF COMMITMENT

1. Per §50.12(c) of the Qualified Allocation Plan and Rules, all Tax Exempt Bond Development Applications "must provide an executed agreement with a qualified service provider for the provision of special supportive services that would otherwise not be available for the tenants. The provision of such services will be included in the Declaration of Land Use Restrictive Covenants ("LURA")."

1. Receipt, review, and acceptance of organizational chart indicating all members and percentage of ownership of each member for WDH Holdings, LLC and Company Partners II, LLC, prior to closing.

2. Receipt, review, and acceptance of evidence that all Phase I Environmental Site Assessment and subsequent environmental investigation report recommendations, particularly including those pertaining to asbestos and groundwater impact of the neighboring dry cleaners, have been carried out prior to cost certification.

3. Receipt, review, and acceptance of a relocation plan and budget prior to closing.

4. Receipt, review, and acceptance of a letter addendum by the ESA provider addressing the need or lack thereof of a noise study for the property.

5. Receipt, review, and acceptance of revised market study information from the Market Analyst regarding the market rent conclusions for similarly restricted property and confirmation of supply and inclusive capture rate calculations within the Department's guidelines prior to Board approval.

6. Receipt, review, and acceptance of clarification of the utility pass through structure and affect on tenant paid utility and collectible rent prior to Board approval.

2. Should the terms and rates of the proposed debt or syndication change, the transaction should be re evaluated and an adjustment to the allocation amount may be warranted.

ARCHITECTURAL REVIEW

The building and unit plans are comparable to other modern apartment developments. They appear to provide acceptable access and storage. The elevations reflect modest buildings.

STRUCTURAL MATERIALS

The structures are constructed on a concrete slab sub floor. According to the plans provided in the application the exterior will be 15% siding/shingle and 85% masonry veneer. The interior wall surfaces will be drywall and the roofs will be finished with composite shingles.

UNIT FEATURES

The interior flooring will be carpet and resilient covering. Threshold criteria for the 2006 QAP requires all development units to include: mini blinds or window coverings for all windows, a dishwasher, a disposal, a refrigerator, an oven/range, an exhaust/vent fax in bathrooms, and a ceiling fan in each living area and bedroom. New construction units must also include three networks: one for phone service, one for data service, and one for TV service. In addition, each unit will include: a self-cleaning oven and laundry connections.

ONSITE AMENITIES

In order to meet threshold criteria for total units of 200 or more, the Applicant has elected to provide a community laundry room, full perimeter fencing, a furnished community room, a swimming pool, and a basketball court.

Uncovered Parking: 440 spaces **Carports:** 0 spaces **Garages:** 0 spaces

PROPOSAL and DEVELOPMENT PLAN DESCRIPTION

Description: Center Ridge Apartments is an 18.2 unit per acre acquisition and rehabilitation development located Southwest of central Dallas. The development was built in 1978 and is comprised of 28 evenly distributed residential buildings as follows:

No. of Buildings	No. of Floors	1BR	2BR	3BR
4	2	8	0	0
14	2	0	8	0
10	2	0	0	8

The development includes a 3,670-square foot community building including a laundry room.

Development Plan: The buildings are currently 57% occupied. The property condition assessment prepared by Real Estate Advisory, LLC and dated May 12, 2006 indicates:

- Repair overlay over existing parking ($175,000)
- Repair damaged brick pilasters at entrance drive gates
- Repair landscaping items, trim trees, repair retaining walls, repair sprinkler systems ($80,000)
- Repair damaged concrete sidewalks ($5,000)
- Install surveillance system ($50,000)
- Replace site light poles around leasing office (2,500).
- Replace entrance sign and flag poles. Provide new building signs and apartment numbers ($15,000)
- Provide security gates at entrance drives ($60,000)
- Repair basketball court fencing, remove existing poles/stanchions, provide new basketball goals ($10,000)
- Provide playground ($25,000)
- Replace existing picnic table near office ($500)
- Refurbish mailbox kiosk ($8,500)
- Provide new metal drainage inlet grates as-needed ($1,050)
- Replace asphalt shingle roofing at all buildings and repair isolated damaged wood decking and framing as-needed ($261,550)
- Repair exterior components (Vinyl siding to be installed over most existing siding - $262,600)
- Repair any damaged brick ($5,000)
- Renovate community room ($10,000 allowance)
- Rework wooden support posts for upper balconies ($8,000)
- Replace wood 4x4 support columns at stair balconies ($11,200) • Provide new gutters and downspouts with new splash blocks. ($60,000)
- Repair wood trim and paint exterior components ($75,000)
- Replace windows at all units ($268,000)
- Repair stair treads, landings and handrails at existing stairs (70,000)
- Replace exterior building lights ($22,400)
- Provide access improvements from parking lot to buildings for handicapped units ($10,000)
- Required asbestos testing ($10,000)
- Foundation repair needed at building #4 ($15,000)
- Treat termites at building perimeters (31,900)
- Replace kitchen cabinets and counter tops at 107 units ($214,000)
- Replace vanity cabinets and counter tops at 121 units ($72,600)
- Replace carpet and vinyl flooring in 91 units ($109,200)
- Provide 18 new ranges ($6,840)
- Provide 16 new range hoods ($1,760)
- Provide new range queens at all units ($11,200)
- Provide 18 new refrigerators ($8,100)
- Provide 16 new dishwashers ($6,800)
- Replace 84 split HVAC systems ($168,000)
- Install new GFI outlets in all kitchens and bathrooms ($44,800)
- Retrofit 5% of units for accessibility compliance 2% of total to be seeing/hearing impaired ($96,000)
- Repair washer/dryer connection and replace water damaged sheet rock at unit #115 ($1,000)

A relocation plan for existing tenants was not provided and the submitted development cost schedule does not include a line item cost for relocation. Receipt of such a plan is a condition of this report.

SITE ISSUES

SITE DESCRIPTION

Total Size:	12.3 acres	**Scattered sites?**	☐ Yes ☒ No
Flood Zone:	Zone X	**Within 100-year floodplain?**	☐ Yes ☒ No
Current Zoning:	"A" Apartment	**Needs to be re-zoned?**	☐ Yes ☒ No ☐ N/A

SITE and NEIGHBORHOOD CHARACTERISTICS

Location: The site is a irregular plot of land located approximately ten miles Southwest of down town Dallas with access to Cedar Ridge Drive.

Adjacent Land Uses:

- **North:** West Center Street followed by Parkwood Plaza Apartments and Westwood Townhouses

- **South:** The Village retail shopping center
- **East:** Single-family residences and William Lee Hastings Elementary School
- **West:** Miscellaneous office buildings including a dentist office, dermatologist office, daycare center, and hair salons

Site Access: Access to the neighborhood is available from Cedar Ridge Drive. Cedar Ridge Drive is a four lane commercial corridor, which traverses north/south along the western boundary of the neighborhood and provides access to Interstate 20. Interstate 20 is located approximately 1.3 miles north of the Subject. Interstate 20 traverses east/west and provides access to Fort Worth, Texas approximately 25 miles to the west.

Public Transportation: Public Transportation is not currently available in Duncanville.

Shopping & Services: The Subject is located in close proximity to services including area retail, medical facilities, and education. Examples of such services are Wal-Mart, Target, CVS Pharmacy, and The Cedar's Hospital.

TDHCA SITE INSPECTION

Inspector: Manufactured Housing Staff **Date:** 06/21/2006

Overall Assessment: ☐ Excellent ☒ Acceptable ☐ Questionable ☐ Poor ☐ Unacceptable

Comments:

HIGHLIGHTS of SOILS & HAZARDOUS MATERIALS REPORT(S)

A Phase I Environmental Site Assessment (ESA) report dated May 12, 2006 was prepared by REA and contained the following findings and recommendations:

Findings:

- **Noise:** A recommendation on the need for a noise study was not addressed in the submitted ESA.
- **Floodplain:** According to the Federal Emergency Management Agency (FEMA) flood insurance rate map, (Community Number 48113C, Panel 0470J, dated August 23, 2001), the Property lies in Zone X unshaded, an area outside the 100-year flood plain. Property management reported no knowledge of prior flooding occurrences at the site.
- **Asbestos-Containing Materials (ACM):** Floor tile samples tested positive for asbestos-containing building materials (ACBM) at the Property. These materials were in good condition and are not considered friable. REA recommends an Asbestos Operations and Maintenance Program for maintaining these materials in-place. In the event of significant demolition or renovation, REA recommends that materials not previously sampled, such as roofing materials, be sampled in accordance with EPA regulations. An EPA survey, which is more detailed than the screening performed by this assessment, is designed to identify all asbestos-containing materials within a structure. This is performed in order to determine if such materials, if present, require removal prior to demolition or renovation.
- **Lead-Based Paint (LBP):** Sampling conducted by REA did not identify LBP at the Property. Therefore, REA considers the potential for significant applications of LBP at the Property to be unlikely.
- **Lead in Drinking Water:** Domestic water at the Property is provided via underground piping by the City of Duncanville. No use of ground water is made at the Property. No evidence of ground water recovery was found on or proximate to the Property. No on-site wells were reported or noted.
- **Radon:** Detected levels of radon gas were below the USEPA action level of 4.0 pCi/L. Therefore, radon is not considered an environmental concern at the Property.
- **Other:** The proximate dry cleaner (Blue Ribbon Cleaners) located upgradient and northwest of the Property has the potential for impact to groundwater.

Recommendations: With the tasks included in a Phase I Environmental Assessment, REA did not locate recognized environmental conditions that would impose a liability, restrict the use, limit the development, or impact the value or marketability of the Property except for the following: The proximate dry cleaner (Blue Ribbon Cleaners) located upgradient and northwest of the Property has the potential for impact to groundwater. (Page V)

Receipt, review, and acceptance of evidence that all Phase I Environmental Site Assessment and subsequent environmental investigation report recommendations have been carried out is a condition of this report.

INCOME SET-ASIDE

The Applicant has elected the 40% at 60% or less of area median gross income (AMGI) set-aside. Any Qualified Residential Rental Project qualifies as a Priority 3 Private Activity Bond allocation (§ 1372.0321). Two-hundred and thirteen of the units (95% of the total) will be reserved for low-income tenants earning 60% or less of AMI, and the remaining 11 units will be offered at market rents.

MAXIMUM ELIGIBLE INCOMES						
	1 Person	**2 Persons**	**3 Persons**	**4 Persons**	**5 Persons**	**6 Persons**
60% of AMI	$27,960	$31,920	$35,940	$39,900	$43,080	$46,260

MARKET HIGHLIGHTS

A market feasibility study dated February 7, 2006, was prepared by Novagradac and Company and included the following findings:

Secondary Market Information: "The Subject's Secondary Market Area (SMA) is defined as the Dallas-Fort Worth-Arlington MSA" (p. 11).

Definition of Primary Market Area (PMA): "Demographic data has been obtained from ESRI Business Information Solutions, a national proprietary data provider. The Subject's PMA boundaries are defined as: North: Interstate 20, South: Highway 1382, West: Highway 1382, East: Interstate 35E" (p. 11). This area encompasses approximately 40 square miles and is equivalent to a circle with a radius of 3.5 miles.

Population: The estimated 2006 population was 95,570 and is expected to increase by 10% to approximately 105,360 by 2011. Within the primary market area there were estimated to be 33,684 households in 2006.

Total Market Demand: The Market Analyst utilized a target household adjustment rate of 100% and a household size-appropriate adjustment rate of 98.3% (p. 73). The Analyst's income band of $21,223 to $43,080 (p. 71) results in an income eligible adjustment rate of 22.5% (p. 73). The tenure appropriate adjustment rate of 30.6% is specific to the general population (p. 27). The Market Analyst indicates a turnover rate of 25% applies based on market research (p. 36).

MARKET DEMAND SUMMARY				
	Market Analyst		**Underwriter**	
Type of Demand	**Units of Demand**	**% of Total Demand**	**Units of Demand**	**% of Total Demand**
Household Growth	43	6.8%	72	7%
Resident Turnover	590	93.2%	929	93%
TOTAL DEMAND	**633**	**100%**	**1,001**	**100%**

p. 75

Inclusive Capture Rate: The Market Analyst calculated an inclusive capture rate of 33.7% based upon 633 units of demand and 213 unstabilized affordable housing in the PMA (including the subject) (p. 75). The Underwriter calculated an inclusive capture rate of 21% based upon a revised demand estimate for 1,052 affordable units. However, if the 204 units at West Virginia Apartments (TDHCA #03401) are considered unstabilized, the capture rate increases to 42%. Developments targeting families and not characterized as rural must have an inclusive capture rate below 25%.

The subject development is only 60% occupied, and a relocation plan for existing tenants was not provided. Therefore, an inclusive capture rate calculation is a meaningful tool for determining the feasibility of the subject development. Receipt, review and acceptance of confirmation by the Market Analyst of the stabilization status of West Virginia Apartments and of the capture rate meeting the Department's guidelines is a condition of this report.

Unit Mix Conclusion: "The PMA in particular has a large household size relative to the national average, which bodes well for the Subject's unit mix, which includes three-bedroom units" (p. 81).

Market Rent Comparables: The Market Analyst surveyed 12 comparable apartment projects totaling 924 units in the market area.

RENT ANALYSIS (net tenant-paid rents)					
Unit Type (% AMI)	**Proposed**	**Program Max**	**Differential**	**Est. Market***	**Differential**
1-Bedroom (60%)	$535	$646	-$111	$615	-$80
1-Bedroom (MR)	$535	N/A		$615	-$80
2-Bedroom (60%)	$670	$757	-$87	$740	-$70
2-Bedroom (MR)	$670	N/A		$740	-$70
3-Bedroom (60%)	$750	$863	-$113	$875	-$125
3-Bedroom (MR)	$750	N/A		$888	-$138

(NOTE: Differentials are amount of difference between proposed rents and program limits and average market rents, e.g., proposed rent =$500, program max =$600, differential = -$100)

*The Market Analyst did not conclude a market rent for similarly restricted units but provided a chart that suggested a bifurcated market for tax credit units which are on average achieving less rent than the concluded market rents. Receipt, review and acceptance of a HUD comparability matrix for each tax credit unit type confirming this conclusion from the Market Analyst is a condition of this report.

Primary Market Occupancy Rates: "Occupancy rates reported in the market ranged from 87.6 to 100.0 percent, with an average occupancy rate of 97.6 percent. Cedar Glen reported the lowest occupancy rate of 87.6 percent. According to management a typical occupancy rate is 90 to 92 percent; however, management could not specify why occupancy is currently lower than normal. Occupancy rates among the LIHTC comparables ranged from 96.1 percent to 100.0 percent. The overall occupancy rate of 97.6 percent is considered stabilized. Furthermore, Cedar Glen is the only comparable property with an occupancy rate below 95 percent occupancy; therefore, we believe the occupancy at Cedar Glen may be management related rather than market related" (p. 82).

Absorption Projections: "We estimate the Subject will reach a stabilized occupancy within ten to twelve months of the development's completion. This equates to an absorption pace of 18 to 22 units per month. According to the developer, existing tenants that are income qualified will be retained" (p. 82).

Unstabilized, Under Construction, and Planned Development: "Hickory Manor is the most recently constructed LIHTC property located in the Subject's PMA. This property consists of 190 one and two-bedroom units restricted to senior households earning 30 and 60 percent of the AMI or less. The property began leasing their units in December 2004 and as of the date of this report the property was 85.3 percent occupied. We also contacted the City Planner for the city of Duncanville to obtain information about other multifamily projects either proposed or under construction within the Subject's PMA. According to Steve Miller, Assistant Director of Public Works, there is one proposed mixed use development that will be located at the intersection of Highway 67 and Main Street. The proposed project consists of multifamily and retail offices. According to Mr. Miller this project is in the preliminary stages of planning and plans include approximately 246 one and two-bedroom luxury units; construction is scheduled to begin in approximately three months. However, no final plans have been approved; therefore, the construction start date and number of units may change. This property will not be directly competitive with the Subject as a market rate luxury development" (p. 29).
West Virginia Apartments (TDHCA #03401) received a tax credit and multifamily bond allocation in 2003. The development offers 204 units targeting families with income at or below 60% of AMGI but restricted rents not to exceed 50%. The Market Analyst did not confirm if the development can be characterized as stabilized as defined by the Department.
"There are no proposed LIHTC properties under construction in the market area" (p. 83).

Market Impact: "The Subject's development will not hinder the existing multifamily properties' ability to maintain stabilized occupancy" (p. 83).

Market Study Analysis/Conclusions: With the exception of the concluded capture rate and restricted market rent, the Underwriter found the market study provided sufficient information on which to base a funding recommendation.

OPERATING PROFORMA ANALYSIS

Income: The Applicant's projected rents collected per unit were calculated by subtracting tenant-paid utility allowances as of 06/01/2005 maintained by U.S. Department of Housing and Urban Development from the 2006 program gross rent limits. The units will not be equipped with individual meters for water/sewer and natural gas use. However, the Applicant plans to require a 50% reimbursement from the tenants for certain utility costs. As a result, the potential gross rent reflects the Program gross rent limit less utility allowances for electric, natural gas water heating and water/sewer. It is not clear how the monthly charge for natural gas and water/sewer will be calculated. Receipt, review and acceptance of clarification of the pass through rent structures is a condition of this report.

The Applicant has included $7 per unit per month in utility reimbursement income. However, the projected cost of natural gas for water heating and water/sewer indicates $24 per unit per month will be charged to tenants. Overall the Underwriter has used the Applicant's proposed rents based on information in the market study suggesting that the effective restricted rent for 60% units is less than either the market rent or the maximum tax credit rent. This appears to be due to the existence of at least one new development that serves up to 60% tenants but is restricted to 50% rents. Should the additional information provided by the Market Analyst not confirm this conclusion, a significant increase in the achievable rent may be evident and reduce the need for tax credits.

The Application included 7% vacancy which is less than typical and may not be indicative of the market given the current vacancy at the property.

The Underwriter's estimated effective gross rent is within 5% of the Underwriter's estimate.

Expenses: The Applicant's total annual operating expense projection at $4,461 per unit is not within 5% of the Underwriter's estimate of $4,866, derived from actual operating history of the development, the TDHCA database, and third-party data sources. In particular, the Applicant's estimates for general and administrative are $35K lower; repairs and maintenance are $44K lower and the Applicant did not include a full $40 per unit compliance fee.

Conclusion: The Applicant's gross income is within 5% of the Underwriter's estimate however, expenses and net income are more than 5% different from the Underwriter's estimate. Therefore the Underwriter's NOI is used to determine debt service. The proforma and estimated debt service result in a debt coverage ratio (DCR) within the current underwriting minimum guideline of 1.10 to 1.30.

Long-Term Feasibility: The underwriting 30-year proforma utilizes a 3% annual growth factor for income and a 4% annual growth factor for expenses in accordance with current TDHCA guidelines. As noted above, the Underwriter's base year effective gross income, expense and net operating income were utilized resulting in a debt coverage ratio that remains above 1.10 and continued positive cashflow. Therefore, the development can be characterized as feasible for the long-term.

ACQUISITION VALUATION INFORMATION

APPRAISED VALUE

Land Only: 12.29 acres	$1,200,000	**Date of Valuation:**	02/07/2006
Existing Building(s): "as is"	$5,300,000	**Date of Valuation:**	02/07/2006
Total Development: "as is"	$6,500,000	**Date of Valuation:**	02/07/2006

Appraiser: John Cole **Firm:** Novogradac & Company **City:** Kansas

APPRAISAL ANALYSIS/CONCLUSIONS

An appraisal, provided by the purchaser, was performed by Novogradac & Company LLP. and dated 2/07/2006. The current "as-is" value is most important in the valuation and underwriting of this property because it should support the purchase price of the subject. For the "as-is" valuation, the primary approach used was the income approach. Four land sales dating from 2002 to 2003 for 20.77 to 25.85 were used to determine the underlying value of the land. As a result, the value attributed to the existing buildings is 5,300,000 or 82% of the total appraised value of the property. The appraised current "as-is" value matches the sales price represented in the Purchase Option.

ASSESSED VALUE

Land: 12.2952 acres	$669,470	**Assessment for the Year of:**	2006
Building:	$4,751,330	**Valuation by:**	Dallas Central Appraisal District
Total Assessed Value:	$5,420,800	**Tax Rate:**	3.1388

EVIDENCE of SITE or PROPERTY CONTROL

Type of Site Control:	Agreement		
Contract Expiration:	6/30/2006 and two 30-day extensions	**Valid through Board Date?**	☒ Yes ☐ No
Acquisition Cost:	$6,500,000	**Other:**	
Seller:	Center Ridge Apartments, Ltd	**Related to Development Team?**	☐ Yes ☒ No

Other Information: Center Ridge was once owned by Grand Court Lifestyles, Inc (GCLI), a corporation that declared bankruptcy in March 2000. GCL Holdings, LLC was formed to execute the sale of the multifamily assets of GCLI. Center Ridge has been subject to prior purchase contracts that were not completed. One of these contracts was executed by Volunteers of America, Texas (VOATX) in 2005. VOATX assumed management of the property anticipating the purchase of the property. Within weeks of VOATX taking over management, the financial status and operating level of the property deteriorated. GCL determined that it was not able to advance further funds, and the mortgage loan went into default. Summit Asset Management has entered into a purchase and sale contract, which is part of a Forbearance Agreement with the mortgage lender.

CONSTRUCTION COST ESTIMATE EVALUATION

Acquisition Value: The site cost of $6,500,000 is assumed to be reasonable since the acquisition is an arm's-length transaction. The Applicant included $5,400,000 in acquisition cost for the buildings; this is higher than the Underwriter's estimate of $5,300,000 based on the appraisal.

Sitework Cost: Since this is a proposed rehabilitation the associated sitework costs are minimal. The Applicant has estimated sitework costs of $2,240 per unit, which is $69K higher than the estimate in the Physical Condition Assessment (PCA).

Direct Construction Cost: The Applicant's direct construction cost estimate is $22K or 1% lower than the estimate provided in the Property Condition Assessment (PCA). The underwriting analysis will reflect the PCA value.

Fees: The Applicant's contractor's and developer's fees for general requirements, general and administrative expenses, and profit are all within the maximums allowed by TDHCA guidelines.

Conclusion: The Underwriter's cost schedule was derived from information presented in the Application materials submitted by the Applicant. Any deviations from the Applicant's estimates are due to program and underwriting guidelines. Therefore, Underwriter's development cost schedule will be used to determine the development's need for permanent funds and to calculate eligible basis. An eligible basis of $9,550,868 supports annual tax credits of $325,532. This figure will be compared to the Applicant's request and the tax credits calculated based on the gap in need for permanent funds to determine the recommended allocation.

FINANCING STRUCTURE

LETTER of CREDIT

Comments:

OTHER

Amount: $440,723 **Source:** Deferred Developer Fee

Amount: $5,765 **Source:** Cash Equity

FINANCING STRUCTURE ANALYSIS

Bond Financing: The Department will issue the bonds which will be credit enhanced by FNMA, and FNMA will require a construction phase Letter of Credit. The Developer is requesting that Columbus Bank and Trust issue a Letter of Credit for a 30-month period in the amount of $8,380,000. The tax-exempt bonds will carry a "AAA" rating from Standard and Poors.

HTC Syndication: The tax credit syndication commitment is consistent with the terms reflected in the sources and uses of funds listed in the application.

Deferred Developer's Fees: The Applicant's proposed deferred developer's fees of $440,723 amount to 37% of the total fees.

Financing Conclusions: The Underwriter's total development cost estimate less the bonds of $8,380,000 indicates the need for $3,627,946 in gap funds. Based on the submitted syndication terms, a tax credit allocation of $368,356 annually would be required to fill this gap in financing. Of the three possible tax credit allocations, Applicant's request ($324,532), the gap-driven amount ($368,356), and eligible basis-derived estimate ($325,792), the Applicant's request of $324,532 is recommended resulting in proceeds of $3,196,323 based on a syndication rate of 98.5%.

The Underwriter's recommended financing structure indicates the need for $431,623 in additional permanent funds. Deferred developer fees in this amount represent 36% of the total eligible fee and appear to be repayable from development cashflow within six years of stabilized operation.

DEVELOPMENT TEAM

IDENTITIES of INTEREST

The Applicant, Developer, and property manager are related entities. These are common relationships for HTC-funded developments.

APPLICANT'S/PRINCIPALS' FINANCIAL HIGHLIGHTS, BACKGROUND, and EXPERIENCE

Financial Highlights: The Applicant and General Partner are single-purpose entities created for the purpose of receiving assistance from TDHCA and therefore have no material financial statements.

- Summit America Properties, Inc. submitted an unaudited financial statement as of December 31, 2005 reporting total assets of $760K and consisting of $760K in receivables. Liabilities totaled $814K, resulting in a net worth of $(-54) K.
- Realty Partners, LLC submitted an audited financial statement as of December 31, 2005 reporting total assets of $80M and consisting of $550K in cash, $965K in receivables, $68M in real property, and $10.6M in other business interests and assets. Liabilities totaled $81.3M, resulting in a net worth of $(-1.1M)K.

- The principal(s) of the General Partner, W. Daniel Hughes, Jr., submitted an unaudited financial statement(s) as of April 30, 2006 and is anticipated to be guarantor(s) of the development.

Background & Experience: Multifamily Production Finance Staff have verified that the Department's experience requirements have been met and Portfolio Management and Compliance staff will ensure that the proposed owners have an acceptable record of previous participation.

SUMMARY OF SALIENT RISKS AND ISSUES

- The Applicant's operating expenses and operating proforma are more than 5% outside of the Underwriter's verifiable ranges.
- Significant inconsistencies in the application could affect the financial feasibility of the development with regard to achievable rent.
- Significant environmental risk may exist regarding asbestos and groundwater.
- The development could potentially achieve an excessive profit level (i.e., a DCR above 1.30) if the maximum tax credit rents can be achieved in this market.

CENTER RIDGE APARTMENTS

PUBLIC HEARING

Cafeteria
Hastings Elementary School
602 West Center Street
Duncanville, Texas

Wednesday, June 21, 2006
6:00 p.m.

BEFORE:

TERESA MORALES, Housing Specialist

ALSO PRESENT:

SHARON GAMBLE, TDHCA
DANIEL H. McKENZIE, Summit Asset Management, L.L.C.

I N D E X

P R O C E E D I N G S

MS. MORALES: I'm Teresa Morales, and I'm with the Texas Department of Housing and Community Affairs. And I'm here this evening to conduct a public hearing with respect to the Center Ridge Apartments, which is located just next door.

To give you some ideas to the format of tonight's hearing, first I'm going to do a brief presentation on the programs that the applicant has applied for with the Texas Department of Housing.

Members of the development team are here this evening. And they will give a brief presentation on the specifics of the actual development. And from there there is a speech that I have to read for IRS purposes. And it will be at the conclusion of that speech when, if you wish to make public comment, you can do so at that time.

I would just request that you fill out the witness affirmation form. A couple of things that I wanted to mention on the public hearings that TDHCA does: according to IRS code the Department is only required to take public comment on the bond issuance.

However TDHCA has extended this to take comment on the development itself. I wanted to stress that we are not required to do that. But we want community input, and we seek it. And that's why we hold these public hearings and take comment on such items as those.

TDHCA schedules the public hearing where the development is to be located and at a time and location that is convenient for the community. Even though TDHCA is headquartered in Austin what we do is, wherever a development whether it's a new construction development or an acquisition rehab development, we actually travel to that particular site and conduct the hearing in that area.

There are two programs specifically that the applicant has applied for with TDHCA. One is the Private Activity Bond Program, and the other is the Housing Tax Credit Program. Both of these programs were created by the federal government to encourage private industry to build quality housing that is affordable to individuals and families with lower than average incomes.

The first program, the Private Activity Bond Program, refers to the issuance of tax-exempt bonds. The tax exemption is not an exemption of property tax, but rather an exemption to the purchaser of those bonds. The way it works is a bond purchaser does not have to pay taxes on their investment and the income that they make on that investment.

The bond purchaser will accept a lower rate of return. And therefore the lender that is involved will charge a lower interest rate for the mortgage that will be placed on the property to the developer. The other program is the Housing Tax Credit Program, which was created as a result of the Tax Reform Act of 1986.

The housing tax credit again is an investment to the investor that purchases those tax credits. It is an IRS credit to the development. Again it is unrelated to property taxes. The housing tax credit provides equity to the development, which allows the developer again to charge lower rents to affordable tenants.

With both the Housing Tax Credit Program and the Private Activity Bond Program, what you have is a tax benefit. But that benefit is going to the investors who are helping to finance that particular development. This is what gives the developer the opportunity to provide high-quality housing in this particular area, specifically acquiring the development and doing some rehabilitation to it.

Another thing I wanted to mention is that the tax credit properties that TDHCA has, they are privately owned and privately managed. There are ongoing responsibilities between all of the affordable housing developments through TDHCA.

These responsibilities include compliance monitoring. The compliance period with a bond transaction is for the greater of 30 years or as long as those bonds remain outstanding. If those bonds remain outstanding for 40 years, then that particular development will be on hook, so to speak, with the state for that 40-year period.

Some of the specific things that TDHCA staff is looking for when we go out and do these monitoring visits include making sure that the units are occupied by eligible households. By that we just make sure that everyone who is living there is supposed to be living there and qualifies to live there.

We also monitor the physical appearance, make sure that that is up kept, and then also make sure that the rents are capped at appropriate levels and also ensure that repair reserve accounts are established and funded.

With any bond transaction it is a requirement -- not only by the state, but also lenders that are involved -- to make sure that there are repair reserve accounts and make sure that those stay funded in the event that there are repairs and maintenance that needs to be done to the properties.

In terms of monitoring all of the bond developments that we have through TDHCA, they are monitored every two years. And those are done again by TDHCA staff. And there are desk reviews that are done quarterly, which include financial audits and stuff like that.

Again with all of our tax credit properties there are tenant services that are also involved. And I wanted to briefly mention that. The way it typically works is that after lease-up the applicant will then forward a survey on to all of the tenants to find out specifically what types of services they would be interested in.

These services can include, but are not limited to, tutoring or honor roll programs, computer classes, after-school activities or summer camps, health care screening or immunizations for school children. What I would like to do now is turn it over to members that represent the development team.

They have a brief presentation to kind of highlight some specifics of what's going to be happening with this particular property.

MR. McKENZIE: Summit Asset Management is an owner/operator throughout the Sunbelt region. And we currently have approximately 70 apartment communities scattered throughout the Sunbelt. The majority of those apartment communities are affordable housing communities.

About half of the 70 are tax-exempt bond transactions as Teresa just mentioned. Specifics to this project, Center Ridge: it's an existing 224-unit apartment complex located right next door. The proposed rehab is $12,000 per unit.

As you can see here on the scope of work we've got exterior and interior, both site notes, building notes and unit-specific items that we plan on doing. Of that $12,000 run down from the top, we plan on overlaying the parking lot, dressing up the landscaping throughout the area, doing a lot of general fixtures -- light poles here and there -- also putting controlled access gates throughout the property, and accompanying that with digital surveillance equipment.

General exterior building notes include painting, replacement of vinyl siding, the new gutters and downspouts throughout the building, replacement of asphalt shingles and roofs. The general feel that we want to have throughout these communities: provide better access and better amenities to the tenant base.

And that's our whole objective of coming into these projects. And that's our goal of the rehab for Center Ridge. If there's any questions you may have -- I know there's only person.

MS. MORALES: We'll hold that until we read the speech.

MS. GAMBLE: Good evening. My name is Sharon Gamble. I would like to proceed with the public hearing. Let the record show it is 6:17 p.m. on Wednesday, June 21, 2006, and we're at the Hastings Elementary School, located at 602 West Center Street, Duncanville, Texas.

I am here to conduct the public hearing on behalf of the Texas Department of Housing and Community Affairs with respect to an issue of tax-exempt multifamily revenue bonds for a residential rental community. This hearing is required by the Internal Revenue Code.

The sole purpose of this hearing is to provide a reasonable opportunity for interested individuals to express their views regarding the development on the proposed bond issue.

No decisions regarding the development will be made at this hearing. The Department's board is scheduled to meet to consider the transaction on July 28, 2006. In addition to providing your comments at this hearing, the public is also invited to provide comment directly to the board at any of their meetings.

The Department staff will also accept written comments from the public up to 5:00 p.m. on July 14, 2006. The Bonds will be issued as tax-exempt multifamily revenue bonds in aggregate principal amount not to exceed $8,500,000 and taxable bonds, if necessary, in an amount to be determined and issued in one or more series by the Texas Department of Housing and Community Affairs.

The proceeds of the Bonds will be loaned to Summit Center Ridge Apartments, Ltd. -- or a related or affiliate entity thereof -- to finance the acquisition and rehabilitation of a multifamily housing development described as follows: a 224-unit multifamily residential rental development to be constructed on approximately 12.3 acres of land, located at 700 West Center Street, Dallas County, Duncanville, Texas.

The proposed multifamily rental housing community will be initially owned and operated by the borrower or related person or affiliate thereof. I'd now like to open the floor for public comment.

If, sir, you have signed up to make comment at this time.

(No response.)

MS. GAMBLE: We have no one to make public comment. So at this time we want to thank you all for attending this hearing. The meeting is now adjourned, and the time is now 6:20 p.m.

(Whereupon, at 6:20 p.m., the public hearing was concluded.)

BOARD ACTION REQUEST
August 30, 2006

Action Item

Presentation, Discussion and Possible Issuance of Multifamily Mortgage Revenue Bonds, Series 2006 and Housing Tax Credits with TDHCA as the Issuer for the Meadowlands Apartments development.

Requested Action

Approve, Amend or Deny the staff recommendation for the Meadowlands Apartments.

Summary of the Meadowlands Apartments Transaction

The pre-application for the 2006 Waiting List was received on January 2, 2006. The application was scored and ranked by staff. The application was induced at the February 15, 2006 Board meeting and submitted to the Texas Bond Review Board. The application received a Reservation of Allocation on May 4, 2006. This application was submitted under the Priority 3 category. The Department conducted three public hearings for this proposed development. The first, held on June 27, 2006 did not have anyone present due to a notification error of the Department and the fact that the hearing information was not indicated on the sign on the property. The second hearing, held on August 9, 2006 had 206 people in attendance and fifteen people spoke for the record. The August 21, 2006 meeting was to allow those not able to make comment on August 9, 2006 due to inadequate space to make public comment at this meeting. There were 180 people in attendance and 36 people spoke for the record.

A summary of the public comment from all three meetings is as follows: there is already a saturation of affordable housing developments and apartments in general in the area; high vacancy rates of other developments in the area; there is no public transportation; there will be a decline in property values which will result in a decline of the area; the local school district cannot support the additional students that this development will create; the concentration of economically disadvantaged children in the area schools; additional stress on the local volunteer fire department and other local emergency services; increased traffic congestion; and will contribute to an increase in crime. Additionally, the Department has received letters of opposition from State Representative Gary Elkins and Commissioner Jerry Eversole and 45 letters of opposition from the community. A petition was also submitted that contained 1,142 signatures. Copies of the transcripts are included in this presentation.

The proposed site is located at approximately the northwest corner of Steeplepark Drive and Steepleway Blvd., Houston, Harris County. Demographics for the census tract (5519.00) include AMFI of $60,278; the total population is 4,278; the percent of the population that is minority is 38.73%; the percent of the population that is below the poverty line is 11.38%; the number of owner occupied units is 21; the number renter occupied units is 2,353 and the number of vacant units is 355. (FFIEC Geocoding for 2006)

Summary of the Financial Structure

The applicant is requesting the Department's approval and issuance of fixed rate tax exempt bonds in an amount not to exceed $13,500,000. The bonds will be unrated and privately placed with MuniMae TEI Holdings, LLC. The term of the bonds will be for 40 years. The construction and lease up period will be for 18 months during which payment terms will be interest only, followed by a 40 year amortization. The interest rate on the bonds will be 6.00% per annum subject to adjustment by the Remarketing Agent on each Remarketing Date.

Recommendation

Staff recommends the Board approve the issuance of Multifamily Housing Mortgage Revenue Bonds, Series 2006 and Housing Tax Credits for the Meadowlands Apartments development because of the quality of construction of the development as demonstrated by the plans and specifications, the feasibility of the development (as demonstrated by the financial commitments from MMA Financial, LLC and the underwriting report from the department's real estate analysis division), the tenant and social services provided by the development and the demand for affordable units as demonstrated by the market area.

Staff notes for the Board's attention, the substantial public comments concerning the safety of the citizens in the community due to a recent increase in crime, the appearance of a high concentration of affordable housing in the immediate area, the lack of public facilities and the potential impact on the area schools.

MULTIFAMILY FINANCE PRODUCTION DIVISON
BOARD MEMORANDUM
August 30, 2006

DEVELOPMENT:	Meadowlands Apartments, Houston, Harris County
PROGRAM:	Texas Department of Housing & Community Affairs 2006 Private Activity Multifamily Revenue Bonds (Reservation received May 4, 2006)
ACTION REQUESTED:	Approve the issuance of multifamily housing mortgage revenue bonds (the “Bonds”) by the Texas Department of Housing and Community Affairs (the “Department”). The Bonds will be issued under Chapter 1371, Texas Government Code, as amended, and under Chapter 2306, Texas Government Code, the Department's Enabling Statute (the "Statute"), which authorizes the Department to issue its revenue bonds for its public purposes as defined therein. (*The Statute provides that the Department’s revenue bonds are solely obligations of the Department, and do not create an obligation, debt, or liability of the State of Texas or a pledge or loan of the faith, credit or taxing power of the State of Texas.)*
PURPOSE:	The proceeds of the Bonds will be used to fund a mortgage loan (the "Mortgage Loan") to H.T. Seattle Slew, Ltd., a Texas limited partnership (the “Owner” or “Borrower”), to finance the acquisition, construction, equipping and long-term financing of a proposed 236-unit multifamily residential rental development located at approximately the northwest corner of Steeplepark Drive and Steepleway Blvd., Houston, Harris County (the “Development”). The Bonds will be tax-exempt by virtue of the Development qualifying as a residential rental development.
BOND AMOUNT:	$ 13,500,000 (*) Series 2006 Tax Exempt Bonds $ 13,500,000 Total Bonds (*) The aggregate principal amount of the Bonds will be determined by the Department based on its rules, underwriting, the cost of construction of the Development and the amount for which Bond Counsel can deliver its Bond Opinion.
ANTICIPATED CLOSING DATE:	The Department received a volume cap allocation for the Bonds on May 4, 2006 pursuant to the Texas Bond Review Board's 2006 Private Activity Bond Allocation Program. While the Department is required to deliver the Bonds on or before October 1, 2006, the anticipated closing date is September 19, 2006.
BORROWER:	H.T. Seattle Slew, Ltd., a Texas limited partnership, the general partner of which is CIS Seattle Slew GP, LLC with Greg Thorse

** Preliminary - Represents Maximum Amount*

owning 100% interest. MMA Financial, LLC, is an Investor Limited Partner of Borrower, and it or an affiliate thereof, will be providing the equity for the transaction by purchasing approximately a 99% limited partnership interest in the Borrower, MMA Special Limited Partner, Inc. is a Special Limited Partner of Borrower.

COMPLIANCE HISTORY: The Compliance Status Summary completed on July 28, 2006 reveals that the principals of the general partner above have a total of five (5) properties that will be monitored by the Department.

ISSUANCE TEAM/ ADVISORS:

MuniMae TEI Holdings, LLC or an affiliate thereof ("Bond Purchaser")
MMA Financial, LLC ("Equity Provider")
The Bank of New York Trust Company, N.A. ("Trustee")
Vinson & Elkins L.L.P. ("Bond Counsel")
RBC Capital Markets ("Financial Advisor")
McCall, Parkhurst & Horton, L.L.P. ("Disclosure Counsel")

BOND PURCHASER: The Bonds will be purchased by MuniMae TEI Holdings, LLC or an affiliate thereof. The purchaser and any subsequent purchaser will be required to sign the Department's standard traveling investor letter.

DEVELOPMENT DESCRIPTION:

Site: The proposed affordable housing community is a 236-unit residential rental development to be constructed on an approximately 11.20 acres to be located at approximately the northwest corner of Steeplepark Drive and Steepleway Blvd., Houston, Harris County Houston, Harris County.

Buildings: The Development will consist of twelve (12) three-story residential, wood-framed apartment buildings consisting of 20% masonry veneer, 60% hardiplank and 20% stucco exteriors with a total of approximately 230,092 net rentable square feet and an average unit size of 989 square feet. The development will include a clubhouse with a computer center, a games room/TV lounge, fitness center, laundry facilities, swimming pool, playground, full perimeter fencing with gated access, a car wash area and barbeque and picnic area. The unit amenities include microwave ovens, washer/dryer connections, storage room, and ceiling fans.

Units	Unit Type	Sq Ft	Proposed Net	Rent
60	1-Bed/1-Baths	727	$625.00	60%
104	2-Bed/2-Baths	920	$751.00	60%
72	3-Bed/2-Baths	1,261	$862.00	60%
236	Total Units			

SET-ASIDE UNITS: For Bond covenant purposes, at least forty (40%) of the residential units in the development are set aside for persons or families earning

	not more than sixty percent (60%) of the area median income. Five percent (5%) of the units in each development will be set aside on a priority basis for persons with special needs. *(The Borrower has elected to set aside 100% of the units for tax credit purposes.)*
TENANT SERVICES:	Tenant Services will be provided by the developer according to the requirements as outlined in the Departments Land Use Restriction Agreement.
DEPARTMENT ORIGINATION FEES:	$1,000 Pre-Application Fee (Paid) $10,000 Application Fee (Paid) $67,500 Issuance Fee (.50% of the bond amount paid at closing)
DEPARTMENT ANNUAL FEES:	$13,500 Bond Administration (0.10% of first year bond amount) $9,440 Compliance ($40/unit/year adjusted annually for CPI).
ASSET OVERSIGHT FEE:	$5,900 to TDHCA or assigns ($25/unit/year adjusted annually for CPI) *(Department's annual fees may be adjusted, including deferral, to accommodate underwriting criteria and Development cash flow.)*
TAX CREDITS:	The Borrower has applied to the Department to receive a Determination Notice for the 4% tax credit that accompanies the private-activity bond allocation. The tax credit equates to approximately $951,354 and represents equity for the transaction. To capitalize on the tax credit, the Borrower will sell a substantial portion of its limited partnership interests, typically 99%, to raise equity funds for the Development. Although a tax credit sale has not been finalized, the Borrower anticipates raising approximately $8,992,000 of equity for the transaction.
BOND STRUCTURE:	The Bonds are proposed to be issued under a Trust Indenture (the "Trust Indenture") that will describe the fundamental structure of the Bonds, permitted uses of Bond proceeds and procedures for the administration, investment and disbursement of Bond proceeds and program revenues. The Bonds will be privately placed with the Bond Purchaser. The Bond Purchaser contemplates transferring the Bonds to a custodial or trust arrangement whereby beneficial interests in the Bonds will be sold in the form of trust certificates to Qualified Institutional Buyers or Accredited Investors. The Bond Purchaser will be required to sign the Department's standard investor letter. Should the Bonds be transferred to a custodial trust, a slightly modified investor letter will be provided by

the trust. During the construction and lease-up period, the Bonds will pay as to interest only.

BOND INTEREST RATES: The interest rate on the bonds will be 6.00% per annum. The Department's Real Estate Analysis division underwrote the transaction using a 6.00% rate.

CREDIT ENHANCEMENT: The bonds will be unrated with no credit enhancement.

FORM OF BONDS: The Bonds will be issued in physical form and in denominations of $100,000 or any amount in excess of $100,000.

MATURITY/SOURCES & METHODS OF REPAYMENT: The Bonds will bear interest at a fixed rate until maturity and will be payable monthly. During the construction phase, the Bonds will be payable as to interest only, from an initial deposit at closing to the Capitalized Interest Fund, earnings derived from amounts held on deposit in an investment agreement, and other funds deposited to the Revenue Fund specifically for capitalized interest during a portion of the construction phase. After conversion to the permanent phase, the Bonds will be paid from revenues earned from the Mortgage Loan.

TERMS OF THE MORTGAGE LOAN: The Mortgage Loan is a nonrecourse obligation of the Borrower (which means, subject to certain exceptions, the Owner is not liable for the payment thereof beyond the amount realized from the pledged security) providing for monthly payments of interest during the construction phase and level monthly payments of principal and interest upon conversion to the permanent phase. Deeds of Trust and related documents convey the Owner's interest in the Development to secure the payment of the Mortgage Loan.

REDEMPTION OF BONDS PRIOR TO MATURITY: The Bonds are subject to redemption under any of the following circumstances:

Mandatory Redemption:

The Bonds are subject to mandatory redemption, (i) in whole or in part at the written direction of the Servicing Agent from any and all Receipts Requiring Mandatory Redemption; (ii) in whole or in part to the extent funds are required to be applied to the redemption of the Bonds pursuant to Article IV of the Indenture; (iii) in part from the proceeds of any Loan Equalization Payment made by the Borrower; and (iv) in whole on each Remarketing Date unless certain requirements detailed in the indenture have been met, each at a redemption price equal to 100% of the principal amount of Bonds being redeemed plus interest accrued to the redemption date.

Optional Redemption

From and after September 1, 2023 only, the Bonds shall be subject to redemption at the option of the Issuer, in whole or in part, and only at the written direction of the Borrower, at a redemption price equal to 100% of the principal amount of the Bonds being redeemed, plus interest accrued to the redemption date.

Optional Redemption at Direction of Servicing Agent and Holders:

(a) The Bonds are subject to redemption, in whole, at the option of the Issuer acting at the direction of the Servicing Agent, from and to the extent of amounts on deposit in the Construction Fund and from amounts paid under the Note if construction of the Development has not lawfully commenced within sixty (60) days of the Closing Date. At a redemption price equal to 100% of the principal amount of Bonds to be redeemed, plus accrued interest.

(b) The Bonds are subject to redemption, in whole, at the option of the Issuer acting at the direction of the Holders of a majority of the outstanding principal amount of the Bonds, upon the occurrence of an Event of Taxability, but only if so directed by the Holders in writing within ninety (90) days of the occurrence of the Event of Taxability, at a redemption price equal to 106% of the principal amount of the Bonds being redeemed, plus interest accrued to the redemption date; provided, however, that the foregoing redemption premium of six percent (6%) shall not be payable if the Event of Taxability is solely the result of a change in federal tax laws as determined by Bond Counsel at the sole cost and expense of the Borrower.

(c) The Bonds are subject to redemption, in whole, at the option of the Issuer acting at the direction of the Holders of 100% of the outstanding principal amount of the Bonds, at any time after the September 1, 2023, without premium, at a redemption price equal to 100% of the principal amount of the Bonds being redeemed, plus interest accrued to the redemption date, but only if the Holders provide the Issuer, the Trustee and the Borrower with written notice of their election to require redemption of the Bonds at least one hundred and eighty (180) days prior to the date set for redemption.

(d) The Bonds are subject to redemption, in whole, at the option of the Holders of 100% of the principal amount of the Bonds outstanding in the event that the Bonds do not convert to permanent phase by the outside conversion date, at a redemption price equal to 100% of the principal amount of the Bonds to be redeemed, plus interest accrued to the redemption date.

FUNDS AND ACCOUNTS/FUNDS ADMINISTRATION:

Under the Trust Indenture, The Bank of New York Trust Company, N.A. (the "Trustee") will serve as registrar, and authenticating agent for the Bonds, trustee of certain of the funds created under the Trust Indenture (described below), and will have responsibility for a number of loan administration and monitoring functions.

Moneys on deposit in Trust Indenture funds are required to be invested in eligible investments prescribed in the Trust Indenture until needed for the purposes for which they are held.

The Trust Indenture will initially create up to eleven (11) funds with the following general purposes:

1. Bond Proceeds Fund – On the closing date, the proceeds of the Bonds shall be deposited in the Bond Proceeds Fund and immediately applied by the Trustee to other funds and accounts as required by the Indenture.

2. Revenue Fund – Revenues from the Development are deposited to the Revenue Fund and disbursed to its accounts for payment according to the amount required and time designated by the Trust Indenture – first to the Fee and Expense Account, second to the Tax and Insurance Account, third to the Interest Account, and fourth to the Principal Account.
3. Borrower Equity Fund – Funds from sources other than Bond proceeds to pay for Costs of Issuance, capitalized interest and certain other costs relating to the acquisition and development of the Development.

4. Costs of Issuance Fund – Fund into which amounts for the payment of certain costs incurred in connection with the issuance of the bonds are deposited and disbursed.

5. Construction Fund – Fund into which amounts needed to complete construction of the improvements are deposited and disbursed.

6. Capitalized Interest Fund – Fund into which a portion of the proceeds of the bonds and/or borrower equity are deposited and used to fund the payment of interest during the construction period.

7. Lease-Up Fund – Funded from syndication proceeds or other funds provided by the Borrower other than proceeds of the Bonds. Such amount, plus other funds transferred therein pursuant to the Indenture, will be applied to pay the Operating Expenses of the Development to the extent that the Development's net cash flow is insufficient to pay such amounts. On or after the date which is the earlier of the Conversion Date and the Loan Equalization Payment Date, amounts remaining in the Lease-Up Fund will be used (i) first, to redeem Bonds if required pursuant to the terms of the Indenture and the Borrower does not pay or cause to be paid by the Guarantors under the Guaranty all amounts required to redeem Bonds; (ii) second, to pay any deferred and unpaid developer's fee; and (iii) third, the balance, if any, will be paid to the Borrower.

8. Rebate Fund - Fund into which certain investment earnings are transferred that are required to be rebated periodically to the federal government to preserve the tax-exempt status of the Bonds. Amounts in this fund are held apart from the trust estate and are not available to pay debt service on the Bonds.

9. Replacement Fund – Fund into which amounts are held in reserve to cover replacement costs and ongoing maintenance to the Development.

10. Bond Proceeds Clearance Fund – Fund into which monies are transferred from the Bond Proceeds Account of the Construction Fund and the Bond Proceeds Account of the Capitalized Interest Fund, as and when provided in the Indenture, and are applied, after completion of the Development, either directly or after being transferred to the Principal Account of the Reserve Fund, to pay any unpaid or deferred developer's fee and/or to redeem Bonds.

11. Temporary Funds and Accounts – the trustee may establish and maintain for so long as is necessary one or more temporary funds and accounts under the Indenture.

Essentially, all of the Bond proceeds will be deposited into the Bond Proceeds Fund, the Construction Fund and the Capitalized Interest Fund and disbursed from there during the Construction Phase (over 18 to 24 months) to finance the construction of the Development and to pay interest on the Bonds. Although costs of issuance of up to two percent (2%) of the principal amount of the Bonds may be paid from Bond proceeds, it is currently expected that all costs of issuance will be paid by an equity contribution of the Borrower.

DEPARTMENT ADVISORS:

The following advisors have been selected by the Department to perform the indicated tasks in connection with the issuance of the Bonds.

1. Bond Counsel - Vinson & Elkins L.L.P. ("V&E") was most recently selected to serve as the Department's bond counsel through a request for proposals ("RFP") issued by the Department in September 2005.

2. Bond Trustee – The Bank of New York Trust Company, National Association was selected as bond trustee by the Department pursuant to a request for proposal process in June 2006.

3. Financial Advisor – RBC Capital Markets, formerly RBC Dain Rauscher, was selected by the Department as the Department's financial advisor through a request for proposals process in August 2003.

4. Disclosure Counsel –McCall, Parkhurst & Horton, L.L.P. was selected by the Department as Disclosure Counsel through a request for proposals process in September 2005.

ATTORNEY GENERAL REVIEW OF BONDS:

No preliminary written review of the Bonds by the Attorney General of Texas has yet been made. Department bonds, however, are subject to the approval of the Attorney General, and transcripts of proceedings with respect to the Bonds will be submitted for review and approval prior to the issuance of the Bonds.

RESOLUTION NO. 06-030

RESOLUTION AUTHORIZING AND APPROVING THE ISSUANCE, SALE AND DELIVERY OF MULTIFAMILY HOUSING REVENUE BONDS (MEADOWLANDS APARTMENTS) SERIES 2006; APPROVING THE FORM AND SUBSTANCE AND AUTHORIZING THE EXECUTION AND DELIVERY OF DOCUMENTS AND INSTRUMENTS PERTAINING THERETO; AUTHORIZING AND RATIFYING OTHER ACTIONS AND DOCUMENTS; AND CONTAINING OTHER PROVISIONS RELATING TO THE SUBJECT

WHEREAS, the Texas Department of Housing and Community Affairs (the "Department") has been duly created and organized pursuant to and in accordance with the provisions of Chapter 2306, Texas Government Code, as amended (the "Act"), for the purpose, among others, of providing a means of financing the costs of residential ownership, development and construction that will provide decent, safe, and affordable living environments for individuals and families of low, very low and extremely low income and families of moderate income (all as defined in the Act); and

WHEREAS, the Act authorizes the Department: (a) to make mortgage loans to housing sponsors to provide financing for multifamily residential rental housing in the State of Texas (the "State") intended to be occupied by individuals and families of low, very low and extremely low income and families of moderate income, as determined by the Department; (b) to issue its revenue bonds, for the purpose, among others, of obtaining funds to make such loans and provide financing, to establish necessary reserve funds and to pay administrative and other costs incurred in connection with the issuance of such bonds; and (c) to pledge all or any part of the revenues, receipts or resources of the Department, including the revenues and receipts to be received by the Department from such multifamily residential rental development loans, and to mortgage, pledge or grant security interests in such loans or other property of the Department in order to secure the payment of the principal or redemption price of and interest on such bonds; and

WHEREAS, the Board has determined to authorize the issuance of the Texas Department of Housing and Community Affairs Multifamily Housing Revenue Bonds (Meadowlands Apartments) Series 2006 (the "Bonds"), pursuant to and in accordance with the terms of a Trust Indenture (the "Indenture") by and between the Department and The Bank of New York Trust Company, N.A., a national banking association, as trustee (the "Trustee"), for the purpose of obtaining funds to finance the Development (defined below), all under and in accordance with the Constitution and laws of the State; and

WHEREAS, the Department desires to use the proceeds of the Bonds to fund a mortgage loan to H.T. Seattle Slew, Ltd., a Texas limited partnership (the "Borrower"), in order to finance the cost of acquisition, construction and equipping of a qualified residential rental development described on Exhibit A attached hereto (the "Development") located within the State and required by the Act to be occupied by individuals and families of low and very low income and families of moderate income, as determined by the Department; and

WHEREAS, the Governing Board of the Department (the "Board"), by resolution adopted on February 15, 2006, declared its intent to issue its revenue bonds to provide financing for the Development; and

WHEREAS, it is anticipated that the Department and the Borrower will execute and deliver a Loan and Financing Agreement (the "Financing Agreement") pursuant to which (i) the Department will agree to make a mortgage loan funded with the proceeds of the Bonds (the "Loan") to the Borrower to enable the Borrower to finance the cost of acquisition, construction and equipping of the Development and related costs, and (ii) the Borrower will execute and deliver to the Department a promissory note (the "Note") in an original aggregate principal amount equal to the original aggregate principal amount of the Bonds, and providing for payment of interest on such principal amount equal to the interest on the Bonds and to pay other costs described in the Financing Agreement; and

WHEREAS, it is anticipated that the Borrower's obligations under the Note will be secured by a Deed of Trust, Security Agreement and Assignment of Rents and Leases and Financing Statement (the "Deed of Trust") from the Borrower for the benefit of the Department; and

WHEREAS, the Department's interest in the Loan (except for certain reserved rights), including the Note and the Deed of Trust, will be assigned to the Trustee pursuant to an Assignment of Deed of Trust Documents and an Assignment of Note (collectively, the "Assignments") from the Department to the Trustee; and

WHEREAS, the Board has determined that the Department, the Trustee and the Borrower will execute a Regulatory and Land Use Restriction Agreement (the "Regulatory Agreement"), with respect to the Development which will be filed of record in the real property records of Harris County, Texas; and

WHEREAS, the Board has determined that the Department and the Borrower will execute an Asset Oversight Agreement (the "Asset Oversight Agreement"), with respect to the Development for the purpose of monitoring the operation and maintenance of the Development; and

WHEREAS, the Board has examined proposed forms of (a) the Indenture, the Financing Agreement, the Assignments, the Regulatory Agreement and the Asset Oversight Agreement (collectively, the "Issuer Documents"), all of which are attached to and comprise a part of this Resolution, and (b) the Deed of Trust and the Note; has found the form and substance of such documents to be satisfactory and proper and the recitals contained therein to be true, correct and complete; and has determined, subject to the conditions set forth in Article I, to authorize the issuance of the Bonds, the execution and delivery of the Issuer Documents, the acceptance of the Deed of Trust and the Note, and the taking of such other actions as may be necessary or convenient in connection therewith; NOW, THEREFORE,

BE IT RESOLVED BY THE BOARD:

ARTICLE I

ISSUANCE OF BONDS; APPROVAL OF DOCUMENTS

Section 1.1--Issuance, Execution and Delivery of the Bonds. That the issuance of the Bonds is hereby authorized, under and in accordance with the conditions set forth herein and in the Indenture, and that, upon execution and delivery of the Indenture, the authorized representatives of the Department named in this Resolution each are authorized hereby to execute, attest and affix the Department's seal to the Bonds and to deliver the Bonds to the Attorney General of the State of Texas for approval, the Comptroller of Public Accounts of the State of Texas for registration and the Trustee for authentication (to the extent required in the Indenture), and thereafter to deliver the Bonds to the order of the initial purchaser thereof.

Section 1.2--Interest Rate, Principal Amount, Maturity and Price. That: (i) the interest rate on the Bonds shall be 6.0% per annum; provided, however, that the interest rate is subject to adjustment following the Initial Remarketing Date by the Remarketing Agent as set forth in the Indenture; provided further, that in no event shall the interest rate on the Bonds (including any default interest rate) exceed the maximum interest rate permitted by applicable law; (ii) the aggregate principal amount of the Bonds shall be $13,500,000; and (iii) the final maturity of the Bonds shall occur on September 1, 2046.

Section 1.3--Approval, Execution and Delivery of the Indenture. That the form and substance of the Indenture are hereby approved, and that the authorized representatives of the Department named in this Resolution each are authorized hereby to execute the Indenture and to deliver the Indenture to the Trustee.

Section 1.4--Approval, Execution and Delivery of the Financing Agreement. That the form and substance of the Financing Agreement is hereby approved, and that the authorized representatives of the Department named in this Resolution each are authorized hereby to execute the Financing Agreement and deliver the Financing Agreement to the Borrower and the Trustee.

Section 1.5--Approval, Execution and Delivery of the Regulatory Agreement. That the form and substance of the Regulatory Agreement is hereby approved, and that the authorized representatives of the Department named in this Resolution each are authorized hereby to execute, attest and affix the Department's seal to the Regulatory Agreement and deliver the Regulatory Agreement to the Borrower and the Trustee.

Section 1.6--Acceptance of the Deed of Trust and Note. That the Deed of Trust and the Note are hereby accepted by the Department.

Section 1.7--Approval, Execution and Delivery of the Assignments. That the form and substance of the Assignments are hereby approved and that the authorized representatives of the Department named in this Resolution each are authorized hereby to execute, attest and affix the Department's seal to the Assignment of Deed of Trust Documents and that the authorized representatives of the Department named in this Resolution each are authorized hereby to execute and deliver the Assignment of Note and to deliver the Assignments to the Trustee.

Section 1.8--Approval, Execution and Delivery of the Asset Oversight Agreement. That the form and substance of the Asset Oversight Agreement are hereby approved, and that the authorized representatives of the Department named in this Resolution each are authorized hereby to execute and deliver the Asset Oversight Agreement to the Borrower.

Section 1.9--Taking of Any Action; Execution and Delivery of Other Documents. That the authorized representatives of the Department named in this Resolution each are authorized hereby to take any actions and to execute, attest and affix the Department's seal to, and to deliver to the appropriate parties, all such other agreements, commitments, assignments, bonds, certificates, contracts, documents, instruments, releases, financing statements, letters of instruction, notices of acceptance, written requests and other papers, whether or not mentioned herein, as they or any of them consider to be necessary or convenient to carry out or assist in carrying out the purposes of this Resolution.

Section 1.10--Exhibits Incorporated Herein. That all of the terms and provisions of each of the documents listed below as an exhibit shall be and are hereby incorporated into and made a part of this Resolution for all purposes:

Exhibit B - Indenture
Exhibit C - Financing Agreement
Exhibit D - Regulatory Agreement
Exhibit E - Deed of Trust
Exhibit F - Note
Exhibit G - Assignments
Exhibit H - Asset Oversight Agreement

Section 1.11--Power to Revise Form of Documents. That notwithstanding any other provision of this Resolution, the authorized representatives of the Department named in this Resolution each are authorized hereby to make or approve such revisions in the form of the documents attached hereto as exhibits as, in the judgment of such authorized representative or authorized representatives, and in the opinion of Vinson & Elkins L.L.P., Bond Counsel to the Department, may be necessary or convenient to carry out or assist in carrying out the purposes of this Resolution, such approval to be evidenced by the execution of such documents by the authorized representatives of the Department named in this Resolution.

Section 1.12--Authorized Representatives. That the following persons are each hereby named as authorized representatives of the Department for purposes of executing, attesting, affixing the Department's seal to, and delivering the documents and instruments and taking the other actions referred to in this Article I: Chair and Vice Chairman of the Board, Executive Director of the Department, Deputy Executive Director of Housing Operations of the Department, Deputy Executive Director of Programs of the Department, Chief of Agency Administration of the Department, Director of Financial Administration of the Department, Director of Bond Finance of the Department, Director of Multifamily Finance Production of the Department and the Secretary to the Board.

Section 1.13--Conditions Precedent. That the issuance of the Bonds shall be further subject to, among other things: (a) the Development's meeting all underwriting criteria of the Department, to the satisfaction of the Executive Director of the Department; and (b) the execution by the Borrower and the Department of contractual arrangements satisfactory to the Department staff requiring that service programs will be provided to tenants of the Development.

ARTICLE II

APPROVAL AND RATIFICATION OF CERTAIN ACTIONS

Section 2.1--Approval and Ratification of Application to Texas Bond Review Board. That the Board hereby ratifies and approves the submission of the application for approval of State bonds to the Texas Bond Review Board on behalf of the Department in connection with the issuance of the Bonds in accordance with Chapter 1231, Texas Government Code.

Section 2.2--Approval of Submission to the Attorney General of Texas. That the Board hereby authorizes, and approves the submission by the Department's Bond Counsel to the Attorney General of the State of Texas, for his approval, of a transcript of legal proceedings relating to the issuance, sale and delivery of the Bonds.

Section 2.3--Certification of the Minutes and Records. That the Secretary to the Board hereby is authorized to certify and authenticate minutes and other records on behalf of the Department for the Bonds and all other Department activities.

Section 2.4--Authority to Invest Proceeds. That the Department is authorized to invest and reinvest the proceeds of the Bonds and the fees and revenues to be received in connection with the financing of the Development in accordance with the Indenture and to enter into any agreements relating thereto only to the extent permitted by the Indenture.

Section 2.5--Ratifying Other Actions. That all other actions taken by the Executive Director or Acting Executive Director of the Department and the Department staff in connection with the issuance of the Bonds and the financing of the Development are hereby ratified and confirmed.

Section 2.6--—Engagement of Other Professionals. That the Executive Director of the Department or any successor is authorized to engage auditors, analysts and consultants to perform such functions, audits, yield calculations and subsequent investigations as necessary or appropriate to comply with the requirements of Bond Counsel to the Department, provided such engagement is done in accordance with applicable law of the State.

ARTICLE III

CERTAIN FINDINGS AND DETERMINATIONS

Section 3.1--Findings of the Board. That in accordance with Section 2306.223 of the Act, and after the Department's consideration of the information with respect to the Development and the information with respect to the proposed financing of the Development by the Department, including but not limited to the information submitted by the Borrower, independent studies commissioned by the Department, recommendations of the Department staff and such other information as it deems relevant, the Board hereby finds:

(a) Need for Housing Development.

(i) that the Development is necessary to provide needed decent, safe, and sanitary housing at rentals or prices that individuals or families of low and very low income or families of moderate income can afford,

(ii) that the Borrower will supply well-planned and well-designed housing for individuals or families of low and very low income or families of moderate income,

(iii) that the financing of the Development is a public purpose and will provide a public benefit, and

(iv) that the Development will be undertaken within the authority granted by the Act to the housing finance division and the Borrower.

(b) Findings with Respect to the Borrower.

(i) that the Borrower, by operating the Development in accordance with the requirements of the Regulatory Agreement, will comply with applicable local building requirements and will supply well-planned and well-designed housing for individuals or families of low and very low income or families of moderate income,

(ii) that the Borrower is financially responsible and has entered into a binding commitment to repay the Loan made with the proceeds of the Bonds in accordance with its terms, and

(iii) that the Borrower is not, and will not enter into a contract for the Development with, a housing developer that: (A) is on the Department's debarred list, including any parts of that list that are derived from the debarred list of the United States Department of Housing and Urban Development; (B) breached a contract with a public agency; or (C) misrepresented to a subcontractor the extent to which the developer has benefited from contracts or financial assistance that has been awarded by a public agency, including the scope of the developer's participation in contracts with the agency and the amount of financial assistance awarded to the developer by the Department.

(c) Public Purpose and Benefits.

(i) that the Borrower has agreed to operate the Development in accordance with the Financing Agreement and the Regulatory Agreement, which require, among other things, that the Development be occupied by individuals and families of low and very low income and families of moderate income, and

(ii) that the issuance of the Bonds to finance the Development is undertaken within the authority conferred by the Act and will accomplish a valid public purpose and will provide a public benefit by assisting individuals and families of low and very low income and families of moderate income in the State to obtain decent, safe, and sanitary housing by financing the costs of the Development, thereby helping to maintain a fully adequate supply of sanitary and safe dwelling accommodations at rents that such individuals and families can afford.

Section 3.2--Determination of Eligible Tenants. That the Board has determined, to the extent permitted by law and after consideration of such evidence and factors as it deems relevant, the findings of the staff of the Department, the laws applicable to the Department and the provisions of the Act, that eligible tenants for the Development shall be (1) individuals and families of low and very low income, (2) persons with special needs, and (3) families of moderate income, with the income limits as set forth in the Financing Agreement and the Regulatory Agreement.

Section 3.3--Sufficiency of Mortgage Loan Interest Rate. That the Board hereby finds and determines that the interest rate on the Loan established pursuant to the Financing Agreement will produce the amounts required, together with other available funds, to pay for the Department's costs of administration, monitoring and oversight with respect to the Bonds and the Development and enable the Department to meet its covenants with and responsibilities to the holders of the Bonds.

Section 3.4--No Gain Allowed. That, in accordance with Section 2306.498 of the Act, no member of the Board or employee of the Department may purchase any Bond in the secondary open market for municipal securities.

Section 3.5--Waiver of Rules. That the Board hereby waives the rules contained in Chapters 33 and 35, Title 10 of the Texas Administrative Code to the extent such rules are inconsistent with the terms of this Resolution, the Issuer Documents, the Deed of Trust, the Note and any other bond document authorized hereunder.

ARTICLE IV

GENERAL PROVISIONS

Section 4.1--Limited Obligations. That the Bonds and the interest thereon shall be limited obligations of the Department payable solely from the trust estate created under the Indenture, including the revenues and funds of the Department pledged under the Indenture to secure payment of the Bonds and under no circumstances shall the Bonds be payable from any other revenues, funds, assets or income of the Department.

Section 4.2--Non-Governmental Obligations. That the Bonds shall not be and do not create or constitute in any way an obligation, a debt or a liability of the State or create or constitute a pledge, giving or lending of the faith or credit or taxing power of the State. Each Bond shall contain on its face a statement to the effect that the State is not obligated to pay the principal thereof or interest thereon and that neither the faith or credit nor the taxing power of the State is pledged, given or loaned to such payment.

Section 4.3--Effective Date. That this Resolution shall be in full force and effect from and upon its adoption.

Section 4.4--Notice of Meeting. Written notice of the date, hour and place of the meeting of the Board at which this Resolution was considered and of the subject of this Resolution was furnished to the Secretary of State and posted on the Internet for at least seven (7) days preceding the convening of such meeting; that during regular office hours a computer terminal located in a place convenient to the public in the office of the Secretary of State was provided such that the general public could view such posting; that such meeting was open to the public as required by law at all times during which this Resolution and the subject matter hereof was discussed, considered and formally acted upon, all as required by the Open Meetings Act, Chapter 551, Texas Government Code, as amended; and that written notice of the date, hour and place of the meeting of the Board and of the subject of this Resolution was published in the Texas Register at least seven (7) days preceding the convening of such meeting, as required by the Administrative Procedure and Texas Register Act, Chapters 2001 and 2002, Texas Government Code, as amended. Additionally, all of the materials in the possession of the Department relevant to the subject of this Resolution were sent to interested persons and organizations, posted on the Department's website, made available in hard-copy at the Department, and filed with the Secretary of State for publication by reference in the Texas Register not later than seven (7) days before the meeting of the Board as required by Section 2306.032, Texas Government Code, as amended.

DESCRIPTION OF DEVELOPMENT

Owner: H.T. Seattle Slew, Ltd., a Texas limited partnership

Development: The Development is a 236-unit multifamily facility known as Meadowlands Apartments and is located at approximately the northwest corner of Steeplepark Drive Steepleway Boulevard, Harris County, Texas. The Development will include the reimbursement for the acquisition of and the costs of the construction of a total of 12 residential apartment buildings with a total of approximately 230,092 net rentable square feet and an average unit size of approximately 975 square feet. The unit mix consists of:

60	one-bedroom/one-bath units
104	two-bedroom/two-bath units
72	three-bedroom/two-bath units
236	Total Units

Unit sizes range from approximately 727 square feet to approximately 1261 square feet.

Common areas include a clubhouse with business/conference center, activity room with computers, exercise room, laundry facilities, swimming pool, playground, and barbeque and picnic area.

CONDITIONS OF COMMITMENT

Per §50.12(c) of the Qualified Allocation Plan and Rules, all Tax Exempt Bond Development Applications "must provide an executed agreement with a qualified service provider for the provision of special supportive services that would otherwise not be available for the tenants. The provision of such services will be included in the Declaration of Land Use Restrictive Covenants ("LURA")."

Receipt, review, and acceptance of an addendum for the ESA provider addressing the issues of noise and lead in the drinking water prior to Determination Notice.

Should the terms and rates of the proposed debt or syndication change, the transaction should be re-evaluated and an adjustment to the credit and or allocation amount amount may be warranted.

ARCHITECTURAL REVIEW

The building and unit plans are comparable to other modern apartment developments. They appear to provide acceptable access and storage. The elevations reflect attractive buildings.

STRUCTURAL MATERIALS

The structures will be constructed on a concrete slab subfloor. According to the plans provided in the application the exterior will be 60% siding/shingle, 20% masonry veneer, and 20% stucco. The interior wall surfaces will be drywall and the roofs will be finished with composite shingles.

UNIT FEATURES

The interior flooring will be carpet and resilient covering. Threshold criteria for the 2006 QAP requires all development units to include: mini blinds or window coverings for all windows, a dishwasher, a disposal, a refrigerator, an oven/range, an exhaust/vent fax in bathrooms, and a ceiling fan in each living area and bedroom. New construction units must also include three networks: one for phone service, one for data service, and one for TV service. In addition, each unit will include: microwave, a ceiling fixture in each room, individual heating and air conditioning unit, individual water heater, and nine-foot ceilings.

ONSITE AMENITIES

In order to meet threshold criteria for total units of 200 or more, the Applicant has elected to provide a barbecue or picnic table for every 50 units, community laundry room, controlled access gates, an enclosed sun porch or covered community porch, an equipped business center or computer learning center, full perimeter fencing, a furnished community room, a furnished fitness center, a service coordinators office in addition to the leasing offices, a swimming pool, two children's playgrounds equipped for 5 to 12 year olds/two tot lots/one of each.

Uncovered Parking: 513 spaces **Carports:** 0 spaces **Garages:** 0 spaces

PROPOSAL and DEVELOPMENT PLAN DESCRIPTION

Description: Meadowland is a 21-unit per acre new construction development located in northwest Harris County. The development is comprised of twelve evenly distributed garden style residential buildings as follows:

No. of Buildings	No. of Floors	1BR	2BR	3BR
8	3	0	20	0
3	3	12	0	8
1	2	8	0	8

The development includes a 4,880-square foot community building.

SITE and NEIGHBORHOOD CHARACTERISTICS

Location: The subject site is an undeveloped tract of land located northwest of the intersection of Steeple Way Boulevard and Steeple Park Drive in northwest Harris county.

Adjacent Land Uses:

- **North:** vacant land immediately adjacent and multi-family development beyond;
- **South:** Steeplepark Drive immediately adjacent and multi-family development beyond;
- **East:** Steepleway Blvd. immediately adjacent and multi-family development beyond; and
- **West:** multi-family development immediately adjacent and Seattle Slew Street beyond.

Site Access: "Access to the property is very good. The subject site has excellent access via West Road. From West Road, one can easily connect to Highway 290 and Beltway 8, both of which are major thoroughfares into and around Houston proper." (p 22)

Public Transportation: Public transportation to the area is provided by Metropolitan Transit Authority of Harris County (METRO) and the nearest linkage is less than a quarter of a mile from the subject site.

Shopping & Services: Commercial developments are found primarily along the major thoroughfares. Prevalent forms of commercial uses include neighborhood shopping centers, free-standing retail facilities, and office service development. Numerous single-tenant and small neighborhood retail centers are scattered throughout the neighborhood.

TDHCA SITE INSPECTION

Overall Assessment: ☒ Excellent ☐ Acceptable ☐ Questionable ☐ Poor ☐ Unacceptable

Comments:

HIGHLIGHTS of SOILS & HAZARDOUS MATERIALS REPORT(S)

A Phase I Environmental Site Assessment report dated February 22, 2006 was prepared by Frost GeoSciences and contained the following findings and recommendations:

Findings:

- **Noise:** This issue was not addressed in the Environmental Assessment Report.
- **Floodplain**: "The Federal Emergency Management Agency (FEMA) Flood Insurance Rate Map for Harris County, Texas, Community Panel Number 48201C0440 K, (4/20/2000) was reviewed to determine if the project site is located in areas prone to flooding. A review of the above mentioned panel number indicates that no portion of the project site is located within the 100 year floodplain. The project site is located within "Zone X". (p. 12)
- **Asbestos-Containing Materials (ACM): "**The project site was visually inspected for areas that might contain asbestos-containing materials. No obvious visual indications of asbestos-containing materials were noted on the project site at the time of the on site inspection. No materials were tested for asbestos containing materials." (p. 20)
- **Lead-Based Paint (LBP):** "The project site was visually inspected for areas that might contain lead-based paint. No obvious visual indications of lead-based paint were noted on the project site at the time of the on site inspection. No materials were tested for lead-based paint." (p. 21)
- **Lead in Drinking Water:** This issue was not addressed in the Environmental Assessment Report.
- **Radon**: "According to the Final Report of the Texas Indoor Radon Survey by the Texas Department of

Health and Human Services, Radiation Control, Harris County has an average radon level of >0.5 pico curies per liter. This value is below the Environmental Protection Agency (EPA) action level of 4 pico curies per liter." (p. 21)

Recommendations: This assessment has revealed no evidence of recognized environmental conditions in connection with the property and there is no evidence or reason to suggest that the project site or adjoining properties are of sufficient environmental concern to warrant additional investigations at this time. As the ESA did not address several items specifically requested under the Department's guidelines, receipt, review and acceptance of a letter amendment to the ESA to address the issues of noise, floodplain and lead in the drinking water prior to commitment is a condition of this report.

INCOME SET-ASIDE

The Applicant has elected the 40% at 60% or less of area median gross income (AMGI) set-aside. Two hundred and thirty-six of the units (100% of the total) will be reserved for low-income tenants. All two hundred and thirty-six of the units (100%) will be reserved for households earning 60% or less of AMI

MAXIMUM ELIGIBLE INCOMES						
	1 Person	2 Persons	3 Persons	4 Persons	5 Persons	6 Persons
60% of AMI	$25,620	$29,280	$32,940	$36,600	$39,540	$42,480

MARKET HIGHLIGHTS

A market feasibility study dated June 8, 2006 was prepared by Apartment MarketData, LLC ("Market Analyst") and included the following findings:

Secondary Market Information: A secondary market was not identified in the Market Study.

Definition of Primary Market Area (PMA): "The boundaries of the Primary Market Area are as follows: North-Windfern Road, East-Fairbanks N. Houston Road, South-W. Little York Road, West-State Highway 6." (p. 30) This area encompasses approximately 28 square miles and is equivalent to a circle with a radius of three miles.

Population: The estimated 2005 population of the PMA was 83,753 and is expected to increase by 12% to approximately 93,744 by 2010. Within the primary market area there were estimated to be 28,887 households in 2005.

Total Market Demand: The Market Analyst utilized a household size-appropriate adjustment rate of 96.84% (p. 50). The Analyst's income band of $23,520 to $39,540 (p. 44) results in a income-tenure appropriate adjustment rate of 7.18% which is specific to the general population (p. 48) The Market Analyst indicates a turnover rate of 63.3% applies based on the IREM Income and Expense publication. (p. 49)

TOTAL DEMAND	**1,321**	**100%**	**1,349**	**100%**

p. 51

Inclusive Capture Rate: The Market Analyst calculated an inclusive capture rate of 17.87% based upon 1,321 units of demand and 236 unstabilized affordable housing in the PMA (including the subject) (p. 51). The Underwriter calculated an inclusive capture rate of 17.87% based upon a revised demand estimate for 1,349 affordable units. (It should be noted that two currently proposed developments 060613 Stonehaven and 060619 Rolling Creek are located just outside of the Market Analysts primary market area for the subject and therefore were not considered in the inclusive capture rate).

Unit Mix Conclusion: "It is our opinion, given current occupancies and the forecasted household growth, that the subject unit mix, for all purposes, will meet the needs of lower and median income families within the sub-market." (p. 91)

Market Rent Comparables: The Market Analyst surveyed six comparable apartment projects totaling 2,133 units in the market area. (p. 96)

RENT ANALYSIS (net tenant-paid rents)					
Unit Type (% AMI)	**Proposed**	**Program Max**	**Differential**	**Est. Market**	**Differential**
1-Bedroom (60%)	$625	$625	$0	$670	-$45
2-Bedroom (60%)	$751	$751	$0	$830	-$79
3-Bedroom (60%)	$862	$862	$0	$1,150	-$288

(NOTE: Differentials are amount of difference between proposed rents and program limits and average market rents, e.g., proposed rent =$500, program max =$600, differential = -$100)

Primary Market Occupancy Rates: "The current occupancy of the market area is 93.1% as a result of stable demand. Demand for newer rental apartment units is considered to be growing" (p. 86)

Absorption Projections: "Absorption over the previous sixteen years for all unit types is estimated to be 267 units per year. We expect this to continue as the number of new household continues to grow, and as additional rental units become available." (p. 86)

Other Information: The Department commissioned a market study for the Houston-Baytown-Sugar Land Metropolitan Statistical Area (MSA). The proposed development is located in the West submarket #15 within the Houston MSA. According to the Department market study; there are a negative 36 units of demand for one-bedroom units at the 60% income level; a negative 32 units of demand for two-bedroom units at the 60% income level; and a negative 14 units of demand for three-bedroom units at the 60% income level (p. III-587).

The Department's market study for the entire MSA does not incorporate demand from turnover as normally allowed in development specific market studies because in an overall study the demand from turnover returns to all of the units in the market area. A development specific market study identifies the demand from turnover as potential demand that can be attracted away from existing units and to the proposed development (and any other new developments that have not yet become fully occupied). The Underwriter requested additional information from the market analyst. The market analyst submitted additional information as follows to support the original demand conclusions.

> ***Multi-Family Housing Needs Assessment – Vogt, Williams & Bowen, LLC***
> *"Vogt, Williams & Bowen, LLC prepared a report for the Texas Department of Housing and Community Affairs assessing the multi-family housing needs for the Houston MSA. The Meadowlands Apartments lies within sub-market #15 – "West" of this report.*
> *The first issue the reader of this market study must understand is that the Vogt, Williams & Bowen report does not conform to the TDHCA's - 2006 Real Estate Analysis Rules and Guidelines for a market study in either size of the Primary Trade Area or Demand Methodology.*
> *The "West" submarket of the Vogt report contains a reported 362,787 people. This is 3.6 times the maximum population allowable for a market study (100,000 max. population); and encompasses an area of 119 square miles. Those familiar with the apartment rental market of this area could identify at least three very distinguishable rental markets. This would include the State Highway 290, SH 249 and Interstate 45 corridors. This makes the conclusions of the Vogt report too general for a specific site within the study area. Additionally, the demand methodology of the Vogt report only uses two components of demand. Per the report, it only assesses "new income-appropriate household growth and replacement or renovation of existing product" (page III-582). The demand justification for an "affordable" project relies largely upon income qualified households already living within the Primary Trade Area. When underwriting, TDHCA uses as much as 98% of the demand from income qualified households already living within the study area. Applying the demographic information provided in the Vogt report to the TDHCA's capture rate analysis, we come to a very different conclusion." (p. 110)*

Market Study Analysis/Conclusions: The Underwriter found the market study provided sufficient information on which to base a funding recommendation.

OPERATING PROFORMA ANALYSIS

Income: The Applicant's projected rents collected per unit were calculated by subtracting tenant-paid utility allowances as of April 1, 2006, maintained by Harris County Housing Authority, from the 2006 program gross rent limits. Tenants will be required to pay electricity only.

Expenses: The Applicant's total annual operating expense projection at $3,996 per unit is within 5% of the Underwriter's estimate of $4,152, derived from the TDHCA database. In addition, each of the Applicant's specific expense line items compare well to the Underwriter's estimates.

Conclusion: The Applicant's estimated income is consistent with the Underwriter's expectations, total operating expenses are within 5% of the database-derived estimate, and the Applicant's net operating income (NOI) estimate is within 5% of the Underwriter's estimate. Therefore, the Applicant's NOI should be used to evaluate debt service capacity.

Long-Term Feasibility: The underwriting 30-year proforma utilizes a 3% annual growth factor for income and a 4% annual growth factor for expenses in accordance with current TDHCA guidelines. As noted above, the Applicant's base year effective gross income, expense and net operating income were utilized resulting in a debt coverage ratio that remains above 1.10 and continued positive cash flow. Therefore, the development can be characterized as feasible for the long-term.

CONSTRUCTION COST ESTIMATE EVALUATION

Acquisition Value: The site cost of $114,793 per acre or $5,448 per unit is assumed to be reasonable since the acquisition is an arm's-length transaction.

Sitework Cost: The Applicant's claimed sitework costs of $7,297 per unit are within current Department guidelines. Therefore, further third party substantiation is not required.

Direct Construction Cost: The Applicant's direct construction cost estimate is $135.8K or 1% higher than the Underwriter's Marshall & Swift *Residential Cost Handbook*-derived estimate.

Fees: The Applicant's contractor's fees for general requirements, general and administrative expenses, and profit are all within the maximums allowed by TDHCA guidelines. However the Applicant's estimate of contingencies exceed the Department's 5% guideline by $303K and therefore this amount has been effectively moved to ineligible costs. The Applicant's developer fee also exceeds 15% of the Applicant's adjusted eligible basis by $45,473 and therefore the eligible portion of the Applicant's developer fee must be reduced by the same amount.

Conclusion: The Applicant's total development cost is within 5% of the Underwriter's estimate; therefore, the Applicant's cost schedule will be used to determine the development's need for permanent funds and to calculate eligible basis. An eligible basis of $20,215,765 supports annual tax credits of $951,354. This figure will be compared to the Applicant's request and the tax credits calculated based on the gap in need for permanent funds to determine the recommended allocation.

OTHER

Amount: $401,313 **Source:** Deferred Developer Fee

FINANCING STRUCTURE ANALYSIS

Interim to Permanent Bond Financing: The tax-exempt bonds are to be issued by TDHCA and privately placed by MMA Financial, Inc. The permanent financing commitment is consistent with the terms reflected in the original sources and uses of funds listed in the application.

HTC Syndication: The tax credit syndication commitment is consistent with the terms reflected in the sources and uses of funds listed in the application.

Deferred Developer's Fees: The Applicant's proposed deferred developer's fees of $401,313 amount to 15% of the total fees.

Financing Conclusions: The Applicant's total development cost estimate less the permanent loan of $13,500,000 indicates the need for $9,393,313 in gap funds. Based on the submitted syndication terms, a tax credit allocation of $958,597 annually would be required to fill this gap in financing. Of the three possible tax credit allocations, Applicant's request ($967,760), the gap-driven amount ($958,597), and eligible basis-derived estimate ($951,354), the Applicant's eligible basis-derived estimate of $951,354 is recommended resulting in proceeds of $9,322,336 based on a syndication rate of 98%. The Underwriter's recommended financing structure indicates the need for $70,977 in additional permanent funds. Deferred developer fees in this amount appear to be repayable from development cash flow within one year of stabilized operation.

DEVELOPMENT TEAM

IDENTITIES of INTEREST

- The Applicant, Developer, and General Contractor are related entities. These are common relationships for HTC-funded developments.

APPLICANT'S/PRINCIPALS' FINANCIAL HIGHLIGHTS, BACKGROUND, and EXPERIENCE

Financial Highlights:

- The Applicant and General Partner are single-purpose entities created for the purpose of receiving assistance from TDHCA and therefore have no material financial statements.
- The Limited Partner of the Developer, GMAT Development, Ltd., submitted an unaudited financial statement as of June 30, 2006 reporting total assets of $2.6M and consisting of $1.0M in cash, and $1.6M in other current assets. Liabilities totaled $651K, resulting in a net worth of $1.9M.
- The member of the General Partner of the Developer, Commercial Investment Services, Inc., submitted an unaudited financial statement as of July 11, 2006 reporting total assets of $68.4K and consisting of $58.4K in cash, and 10K in other assets. Liabilities totaled $24K, resulting in a net worth of $44.4K.
- The principals of the General Partner, Manish Verma and Greg Thorse, submitted unaudited financial statements as of June 30, 2006 and are anticipated to be guarantors of the development.

Background & Experience: Multifamily Production Finance Staff have verified that the Department's experience requirements have been met and Portfolio Management and Compliance staff will ensure that the proposed owners have an acceptable record of previous participation.

SUMMARY OF SALIENT RISKS AND ISSUES

- The significant financing structure changes being proposed have not been reviewed or accepted by the Applicant, lenders, and syndicators, and acceptable alternative structures may exist.

Underwriter:	*Carl Hoover*	**Date:**	August 22, 2006

Summary of Public Comment

1. saturation of affordable housing in the area
2. high vacancy rates of other developments in the area
3. no public transportation
4. decline in property values which will create a decline of the area
5. local school district cannot support the additional students
6. concentration of economically disadvantaged children in the area
7. additonal stress on the local volunteer fire department and other local emergency services
8. increased traffic congestion
9. increase in crime

PUBLIC HEARING

Meeting Room
Harris County Public Library
Northwest Branch
11355 Regency Green Drive
Cypress, Texas 777469

August 9, 2006
6:10 p.m.

BEFORE:

SHARON GAMBLE, TDHCA Housing Specialist

ALSO PRESENT:

SHANNON ROTH, TDHCA Housing Specialist
DAVID DANENFELZER, TDHCA Multifamily Program Administrator
MANISH VERMA, Developer, Commercial Investment Services, Inc.

GREG THORSE, Developer, Commercial Investment Services, Inc.

I N D E X

P R O C E E D I N G S

MS. GAMBLE: Okay, ladies and gentlemen, we're going to go ahead and get started. My name is Sharon Gamble; I'm with the Texas Department of Housing and Community Affairs.

And I'm just going to give you an overview of kind of how this hearing is going to go tonight so that we kind of all know what to expect. We're going to have a presentation of the programs that the developer has applied for and we're going to do that, and then the developer is going to come forward and he's going to do a brief presentation on the specifics of the development. Afterwards, I will read a speech that is required by the IRS that I read -- that's at the conclusion of the developer's presentation. Then at that time we're going to open the floor for public comment.

We have a number of people who wish to speak tonight, and in order to try to get everybody on record, we're going to limit speakers to two minutes. Okay? So please keep that in mind. We have a timer; when you hear the beep, please know that it's time for us to move on from that comment.

According to IRS Code, the department is only required to take public comment on bond issuance, however, TDHCA has extended this to take comment on the development itself. We're not required to do this but we want community input. TDHCA schedules the public hearing where the development is to be located and at a time and location that is convenient for the community.

The two programs the developer has applied for include the Private Activity Bond Program and the Housing Tax Credit Program. Both programs were created by the Federal Government to encourage private industry to build quality housing that is affordable to individuals and families with lower than average incomes.

The Private Activity Bond Program refers to the issuance of tax-exempt bonds. The tax exemption is not an exemption of property tax but rather an exemption to the purchaser of the bonds. The bond purchaser does not have to pay taxes on their investment and the income they make on that investment. The bond purchaser accepts a lower rate of return, therefore, the lender that is involved will charge a lower interest rate for the mortgage that will be placed on the property to the developer.

The Housing Tax Credit was created as a result of the Tax Reform Act of 1986. The Housing Tax Credit is an investment to the investor that purchases the tax credits. It is an IRS credit to the development unrelated to property taxes. The Housing Tax Credit provides equity to the development which allows the developer to provide lower rents to affordable tenants.

In conclusion, with both of these programs, the tax benefit goes to the investors that help finance the development. This is what gives the development the opportunity to bring something of high quality to your area. All of these properties are privately owned and privately managed.

The ongoing responsibilities between the affordable housing development and TDHCA includes state compliance monitoring. The compliance period with the state is the greater of 30 years or as long as bonds are outstanding. The oversight responsibilities include that units are occupied by eligible households, the physical appearance, rents are capped at appropriate levels, and repair reserve accounts are established and funded. Private activity bond developments are monitored every two years by TDHCA and desk reviews are done quarterly.

After lease-up, a survey is usually done to determine the tenant profile and the types of services that would be of interest to tenants. These services can include tutoring and honor roll programs, after school activity, health care, ESL classes, financial planning, down payment assistance. And that's the conclusion of our presentation.

At this time the developer is going to come forward and do a brief presentation about the development.

MR. VERMA: Thank you all for attending here this evening. My name is Manish Verma, and behind me is Greg Thorse. We are the developers of the proposed Meadowlands Apartments, and I want to give you just a brief overview of the project and then we'll start addressing some of the concerns you've had over the past few months.

This project is located on Steeplepark Drive and Steepleway Boulevard; it's over 11.2 acres; it's 236 units; we have 60 one-bedroom units, 104 two-bedroom units, and 72 three-bedroom units.

It is an affordable housing project at 60 percent of area median income. That means households ranging anywhere from $25,000 to $38,000 would be eligible to live in this community.

Some of our amenities include: disposals and dishwashers; nine-foot ceilings; 30-year shingles; ceiling fans with light kits in all bedrooms; there will be a playground, Tot Lot; Cat 5 wiring in all the units; mini blinds; barbecue grills and picnic tables; controlled gate access with a full perimeter fence; and equipped business center and fitness center, and swimming pool. As you can see, it's going to be a fantastic project with all the latest amenities.

Over the past six months we've been in contact with many of you here, starting in January as we sent out notification letters about our project to all the public officials. On January 23 we received a letter from Betty Hattman from Steeplechase CIA, and she expressed her interest in the project, and at that time wanted to begin conversation about the project. Back in January we were still in our early stages and I expressed to her that once we were close, we would contact her.

Back on April 19 we met with Betty Hattman, Nace Peard, and Jim Andrews of the Steeplechase Association; on April 19 we met with H.D. Chambers of the Cypress-Fairbanks Independent School District; and then after hearing those comments and concerns, we went ahead and met with some other groups. On June 20 we were in contact with Jenna Schwartz with the Roller Point HOA; on June 22 met with Myra Chandler with PCMI who is the management company for this area; we also on June 22 met with Fred Edler who is with the Willow Bridge Homeowners Association; and on June 22 we met with the Windermere

Lakes Homeowners Association.

After those conversations there were concerns that were brought up and we were asked to speak with Sergeant McGehee, and we have talked to Sergeant McGehee to address some of the concerns of crime and so forth in the area. We talked with him on June 26, and also talked with Holly Cabat, who is the president of the Winchester Trails Homeowners Association.

On July 18 we had a public hearing with Steeplechase and other groups, and it was a group as large as this, at which point you were able to give some of your input, your concerns about the project.

What we hope to do today is address those concerns that you have addressed, and as mentioned then, as we've mentioned over the past six months, what we're trying to do here is partner with the community, work with each one of you, and we're trying to be a good neighbor with each and every one of you.

At this point Greg Thorse will start on his presentation, trying to address some of the many concerns that you have. Thank you.

MR. THORSE: Thank you, Manish.

So is everybody comfortable? As Manish said, neighborhood input: We invite neighborhood input; that's why we’re here tonight. As Manish said, we’ve been through several meetings before, and we’re trying to get your input, we’re trying to get neighborhood input. We’ve let people know our properties that we’re involved in the community and we try to work with them as best we can.

The feedback from the neighborhood that we’ve heard: it will increase traffic; it will increase the number of already-vacant units, and we do not need more apartments; it will lower our property values; it will overburden our schools; it will increase our crime rate, and we will have more sex offenders -- we actually heard that comment.

So traffic: When a community experiences growth, traffic increases. Alternative uses for this site would be retail or office, however, the number of cars or trip counts, as we call them, would be greater than in a multifamily property. As a single-family residential property, the site is not big enough, and it’s far to expensive. This property is and always will be best suited as a multifamily property.

According to Apartment Market Data, who surveyed the area encompassing the surrounding 29.08 miles, there were 7,560 units of which the overall occupancy was 93.1 percent. There were 536 affordable rate unit which had an overall occupancy of 96.8 percent. The percentage of affordable rate units to market rate represented only 7 percent of all units. According to O'Connor & Associates, in a three-mile radius the overall occupancy was 95.4 percent. Of the 53 Houston sub-sector markets that O'Connor surveys, this market had the highest absorption in the second quarter of April 2006. The project complies and meets with the Harris County concentration policies.

VOICE: Can you explain exactly what that means -- that Steeplechase absorbs the highest --

MS. GAMBLE: We will have a question-and-answer period.

We have a concern on the part of the library with the number of people in the room, which, of course, we knew was going to happen. Here's what we would like to do. We would like to -- obviously everybody cannot be in here at the same time. We will have transcripts available of everything that will be said here.

VOICE: No, we didn't come down here for that.

VOICE: You knew this was going to happen.

VOICE: Too bad, so sad. You should have figured more room.

VOICE: It's called a public hearing --

VOICE: That's right.

VOICE: -- which means the public is invited. If you knew this was going to happen, you should have had a different site.

(Many voices simultaneously.)

MS. ROTH: Could I have your attention, please? We contacted Cypress-Fairbanks ISD to hold this hearing at one of their facilities. Apparently this is the week they're either starting school or preparing for school start, and they would not give us a go-ahead to use any of their facilities. That is definitely our preference too, and we understand that we are cramped in here and it's a little uncomfortable, and we apologize for that.

We would definitely like to continue this hearing; we want to get everyone's comments. In order to do so and not affect the fire code, obviously, maybe if some of you could step out into the hallway, let us keep going, maybe you can rotate some people in and out. Like we were trying to say we --

VOICE: This meeting needs to be rescheduled in a proper place, because we --

MS. GAMBLE: We --

VOICE: We're going to formally protest this.

You knew -- this young lady made a statement that she knew this was going to happen, so if you know it's going to happen, why let it happen.

MS. GAMBLE: Okay, sir. We --

VOICE: Because they don't want you here.

VOICE: Yes, exactly.

MS. GAMBLE: We do want to hear your comments, and one of the ways we are trying to resolve this, if this were to come up, was that we'd like to continue and let the folks who signed up speak, and a copy from the transcript from our court reporter can be mailed to your home and we can take your comments in writing.

(Many voices simultaneously.)

VOICE: It's called a public hearing.

VOICE: No way.

VOICE: Not public hearsay, public hearing.

VOICE: Can this meeting be rescheduled?

MS. ROTH: We can address that issue, but at this time she and I do not have the authority to make that decision. That is something we can take --

VOICE: You work for us, the taxpayers. Right? We're your bosses; you've got the authority from me.

MS. ROTH: Well, that is an issue we will address with our supervisor tomorrow when we get back to the office. That's definitely a valid --

VOICE: Can we go outside?

MS. ROTH: I don’t think we have the capability for our court reporter to go outside.

(Many voices simultaneously.)

VOICE: Our representative is here, Representative Elkins.

VOICE: Let’s go outside in the parking lot or in the grassy area.

VOICE: Can you possibly schedule a series of meetings?

MS. ROTH: We can attempt to do that, but what I’m telling you is at this point Sharon and I have no -- we can’t make that decision right now.

VOICE: Cancel the meeting now and do it. Get the permission. This whole thing needs to be postponed and rescheduled.

(Many voices simultaneously.)

(Pause.)

MR. PEARD: Can I have your attention, please? My name is Nace Peard. I’m on the Steeplechase HOA and the MUD Board 168.

Obviously you see the crisis here. She tried to call her boss; she got a cell phone, of course, but they're going to make every effort to reschedule this meeting. The legal process to be documented on record has to be followed.

This was wrong, we know it. We're limited to two minutes instead of three minutes as the public meeting Monday, but we have to at least try and get this underway. So they're going to try and address having another meeting, and we could possibly even start from the get-go, but we should really try to accomplish this meeting tonight.

I know my wife is here. I know that some of you have spouses here. If they could possibly go read a book or, you know, step out from a safety standpoint where we could proceed and get underway; otherwise, we're going to be doing nothing but upsetting everybody, and I don't like it either but we've got to go forward as best we can.

MS. HATTMAN: On behalf of the Steeplechase board, we'll work with these folks to get another hearing, and if necessary, because there's timing requirements, and I know that the board meeting is August 30. We will request that that be moved up, and, you know, quite honestly, from my view -- and I'm not an attorney -- but it seems that if the accommodations are not adequate for the public hearing, that we would certainly ask our attorneys to move against that and file a formal request.

But all of you have come out. We've all prepared comments, or many of us have, and I would ask that we move forward and do so in a civil manner and follow their protocol here.

And we’re not taking questions at this time. I think they -- you know, we’re not trying to take over the meeting, some kind of mob rule. I think we should proceed with the meeting. It's been noted and it will be noted in the record that we are formally requesting additional meeting because the facility here is simply to small to accommodate everybody.

VOICE: Betty, do we have a count of how many people we actually have here tonight?

MS. ROTH: We will because you’ve all signed in. We will have a count of how many people were here; it will definitely be noted how many people showed up. They’re out there for people to sign as they come in, and as we leave we’ll pick them up, so they’re out there for the duration of the meeting.

VOICE: Would somebody by the door make sure that everybody out there has signed in?

(Many voices simultaneously.)

VOICE: We are going to have to absolutely reduce the number of people in the room for safety.

(Many voices simultaneously.)

VOICE: We're going to ask that we have no more than 20 people standing in the --

(Many voices simultaneously.)

MR. DANENFELZER: For those people who have provided public comment, once you’ve spoken, please rotate out so we can get other speakers in. If you’ve filled out an affirmation form and want to speak, please line up outside the door, but if you’re not here to actually speak and provide comment, we’ll ask that you wait outside. And remember, we are going to be able to provide you with transcripts of the meeting.

(Many voices simultaneously.)

MR. DANENFELZER: We're not here to debate the issue. I have to make sure that this room is safe for fire reasons.

(Many voices simultaneously.)

MS. ROTH: We’d like to go ahead -- if we could go ahead and proceed with the hearing.

(Many voices simultaneously.)

MR. DANENFELZER: You don't have to leave. You can wait outside, and we'll call your names as you come up for public --

(Many voices simultaneously.)

VOICE: Why can't this be canceled and rescheduled in a large enough area.

VOICE: It's poor planning on your part and not ours.

MR. DANENFELZER: The thing is, this is based on state statutes. As staff persons we do not have the right to violate state statutes.

(Many voices simultaneously.)

MR. DANENFELZER: I've contacted Robbye Meyer, who is the chief of this division, but I got her cell phone a while ago. I can tell you you’re all right: If this meeting goes forward, this is the official record. There will not be another one.

(Many voices simultaneously.)

VOICE: Let him speak.

MR. ELKINS: This public hearing is scheduled for August 30 in Austin, and this board is going to make a recommendation to either approve or deny based upon the public comment tonight. I am not happy having my petitions being thrown out of the meeting. What we can do is that everybody who wants to speak can speak, just have to line up and come forward and speak and then go outside and wait.

(Many voices simultaneously.)

MR. ELKINS: There will be -- I will put a letter in to Robbye Meyer tomorrow morning when we can get together and organize and figure out what our options are, but right now I'm just going to tell you if this meeting goes forward -- and it's going forward whether we cooperate or not.

VOICE: What if we all walk out?

VOICE: If we all walk out [inaudible].

VOICE: Why is it all right that even though in July there was a meeting that was heavily attended that they booked a space that is significantly too small and yet they can force the meeting to go through based on the fact that the fire codes are being violated based on the space that they chose, which is insufficient for what they should have anticipated the public's reaction would be. I don't understand.

MR. DANENFELZER: I'm not happy that we're in a room that won't even hold 50 people.

VOICE: Why can't we go outside?

VOICE: If we had booked this space --

(Many voices simultaneously.)

VOICE: There's a phone call being placed right now to the producer for Channel 11 News.

(Applause.)

(Many voices simultaneously.)

MS. ROTH: We're going to try to move on.

MR. ELKINS: This meeting is going to go on. You have made yourself present, and we appreciate everybody that has shown up, but there have been people who signed affidavits and will speak and get the opportunity to speak, but we cannot violate the fire code.

And for everybody's safety -- and I'm glad you're all here and you want to hear every bit of it, but we need to let this go on so that we go on record in opposition of what the developer wants to do.

VOICE: Can you set up speakers outside so we can hear what's going on?

(Many voices simultaneously.)

VOICE: Representative Elkins makes a very good point. As much as I would like to all walk out, too, if we do, then there will be no documented opposition to this project. We have to speak and the people that have signed the affidavits say their piece, because that does go on record, then all of us take this frustration and make public comments on their website to the way this is rammed at us and the way it was poorly handled.

VOICE: But if we don't hear everything, how do we know what we want to say?

MS. GAMBLE: Well, you filled out a form. Everybody that needs -- that wants to speak and have filled out a witness form needs --

MR. PEARD: Let's see if we can -- my wife is going to leave, I'm going to tell her what happened. Let's try and get into the safety mode where we can proceed and at least form some opposition against these guys.

VOICE: I filled out a form and haven't even made it into the room.

MS. ROTH: I will speak with Robbye tomorrow morning. We are not -- we are in the business of doing whatever we can to help the public. We will attempt to hold another hearing. Like I said, I have no authority to tell you today that's the case, but I will speak with her in the morning, and we will do our very best to get one set up.

(Many voices simultaneously.)

MR. PEARD: The representative made a very good suggestion which would still allow people who wanted -- and it may not solve everything, but it might get us a little closer to a solution: those people that wanted to speak to line up and line up out the room so that you have one person that's going to speak next is in the room.

I know it's not perfect, and those people that want to hear have the chance to hear. As has been mentioned, there will be a chance to check the public record; there will be a chance to make comments on the website.

The frustration is legitimate, but just as legitimate is the fact that we've got too many people in the room and it's a violation of the safety code. Let's appreciate that. Nobody is happy with the situation. If we can compromise, we can probably get through this.

VOICE: For all your argument where you said those people who want to listen can listen, we're all here because we want to listen. One possible solution has been suggested that we move it outside, find an extension cord or a plug for her so she can go ahead and take notes. I have no idea why this room -- again, they should have been able to anticipate it would be inadequate.

(Many voices simultaneously.)

VOICE: Excuse me, excuse me. You're talking about you ethically have to hold this meeting. Where were you ethics when you decided on such a small room?

MS. ROTH: Ma'am, like I said, we tried to get with the school.

VOICE: Why does ethics work your way, but it doesn’t work our way? That’s all I want to know. Answer that.

MS. ROTH: We'd like to -- the problem with moving it at this very moment to a new location is that by law we had to run an ad in the paper and post the hearing, and on there it said the address was for here. That is my concern.

(Many voices simultaneously.)

VOICE: Why don't you have the meeting closer to home instead of 20 miles away? There's nothing down there closer to Steeplechase?

(Many voices simultaneously.)

VOICE: Her question is that you realized that this space probably would be inadequate when you scheduled it, and yet you scheduled it; you advertised it in the paper as you’re required legally to do; however, this room is obviously and should have been expectedly inadequate for what you were going to need. Where were your ethics then?

MS. ROTH: By law we run the ad in the paper 30 days prior. At thirty days prior we had no knowledge of your meeting that took place in late July.

VOICE: You were hoping no one would read it.

VOICE: This is on a completely different subject, so I'm sure you'll be relieved. Is there a reason that we cannot get a printed or some type of format copy of their presentation? -- because without it we really can't form rebuttal.

MS. ROTH: I'm sure they would be happy to give you --

VOICE: I mean like right now, because if we can't be in the room to watch the presentation, at least we need to be informed enough to make a decision.

(Many voices simultaneously.)

VOICE: Why can't we just go outside? You haven't answered that.

MS. ROTH: I don't know, ma'am, if our court reporter can accommodate us outside; that's the problem.

(Many voices simultaneously.)

MR. ELKINS: I want to give a little speech just for a few minutes. I want this to be on the record: These meetings right here are very frustrating as public officials, not because of your meetings but because of the way the rules are written for the TDHCA. Tonight if you listened to her presentation that she first read, she only has to listen to testimony about the IRS bonds.

I know that none of you came tonight to talk about why the bonds should be denied. Everything else that you say tonight doesn't matter: Traffic doesn't matter, crowded schools doesn't matter, crime doesn't matter, everything that you think about tonight doesn't matter, because the rules say they're only to take testimony about why the bonds should be denied.

So we in the Harris County delegation have been fighting very hard to get these rules changed, but we only have 25 members in Harris County. We need 76 votes to change this process.

But right now I'm not personally against affordable housing. We all want people to have a great place to live, but San Antonio is begging for these developers to come over there and build affordable housing projects; Corpus Christi is begging. Right now I've got four projects going on in District 135. I was at a meeting Monday night fighting against a project; I'm here tonight fighting against another one.

We currently have five affordable housing projects right in our neighborhood, and their statistics that they're showing is for citywide. We want to know what's localized and locally there's about a 15 percent vacancy rate, and more apartments is not going to solve the problem.

So it’s very frustrating as a public official trying to get up here and argue you guys’ case when everything that we think is important to us they’ve already ruled out it just doesn’t matter, because everybody is going to complain about traffic; everybody is going to complain about overcrowding of schools, and everybody is going to complain about all the things that you’re concerned about, and they’ve written the rules in such a way that your opinion and what you think doesn’t matter.

VOICE: We’re one of four high-risk schools and this would only make that worse -- doesn’t matter?

MR. ELKINS: Doesn’t matter.

VOICE: Well, could you educate us how we could make a difference?

MR. ELKINS: You’ve got to go get the IRS bonds -- and that’s all this meeting is about tonight is why their IRS bonds should or should not be granted or denied.

VOICE: How should we argue that it should not? What is the basis to say no?

MR. ELKINS: I don’t know; I honestly don’t know.

VOICE: If that’s what it turns on, how can we not know that?

MR. ELKINS: I don't even know if the people from the TDHCA know what the rules are on the bonds.

VOICE: So basically the whole meeting is pointless to begin with.

MR. ELKINS: If you listened to their speech at the beginning, they said they do this as a courtesy to hear you, and all they're doing is hearing.

VOICE: Who decides that, though? Someone has to have input on that?

VOICE: What about the --

VOICE: Does the reputation of the builder and developer come into play?

MR. ELKINS: No.

VOICE: Representative, are these people not from San Antonio?

MR. ELKINS: I don't know where they're from.

VOICE: So if there's such a demand in San Antonio, why would they bother coming all this way?

MR. ELKINS: I don't have any idea.

VOICE: How many of these are being built in their backyard?

MR. ELKINS: None.

(Many voices simultaneously.)

VOICE: A couple of weeks ago when we met at Steeplechase, they said if they do not get approved for the bonds, they’re building anyway.

VOICE: No, they won't.

VOICE: It will be alternative housing. What's the difference between --

VOICE: If they don’t get federal government bonds, IRS bonds, then they go get private money, there is no public hearing, and we have no say on what they do with that land.

VOICE: Let's all go get our own bonds and build right next to them and rent cheaper than them.

(Many voices simultaneously.)

VOICE: If the water's available, they have to provide it.

VOICE: We own the water. 168 owns that water.

MS. ROTH: I do have Robbye on the phone and she would like to speak with you.

(Long pause.)

MS. ROTH: Can I have your attention, please? I’m Shannon Roth with the Texas Department of Housing, and I did finally get hold of my supervisor -- she’s at the airport in Midland and I finally was able to reach her. We’ve spoken with the developer, Manish and Greg, and we are going to do our best, and we are going to make an effort and get a meeting next week in a larger place. However, those of you who don't feel as though you can make it to another meeting next week, we do invite you to stay and make your comment tonight.

Those of you who want to make your comment next week, we are going to do our best to make a meeting at that time. However, flat out, the library is not going to let us keep this meeting with this many people.

So if you want to make a comment and you don't feel as though you can come next week -- and we are going to try to book for next Thursday, assuming we can put everything together -- we invite you to stay now and make that comment.

VOICE: It's the very same meeting you're having right now.

MS. ROTH: We have to be able to locate a place, for one thing, and I can't tell you at this point.

VOICE: What if the fire marshal shuts this whole meeting down when he gets here?

(Many voices simultaneously.)

MS. ROTH: Her words were we are going to do everything we can to get a meeting. I cannot tell you anything other than that.

(Many voices simultaneously.)

MS. ROTH: We're going to, I guess, proceed until the fire marshal comes and asks us to leave. I mean, we are doing our best is all I can tell you.

We would like to have your comments on the Meadowlands Apartments. You can do it here at our hearing or next week at the hearing we're going to try to set up for you. You're more than welcome to submit it in writing, e-mail, fax, however you'd like to do it.

When we present the development to the board, they will see there was a petition submitted with 900 signatures; they will see there were 100 people at the hearing; they will see that there was comment made in opposition. Our board will make that decision; I can't tell you what their decision will be. The TDHCA board will make the decision on whether to approve or deny the development.

VOICE: Has the board ever denied one of these?

MS. ROTH: Yes, they have.

So we're going to go ahead and if there's anybody here tonight --

VOICE: Ma'am, I have a question. Representative Elkins said it doesn't matter what we say tonight. Is that correct?

MS. ROTH: All I can tell you, sir, is I am here to take your comments. It will be presented to our board when they make the decision on whether to approve.

VOICE: Can you tell me if that's a correct statement?

MS. ROTH: I can tell you that our board will get a copy of the transcript, and they will be made aware that there were X number of people at this hearing, that there was a petition submitted. You're more than welcome -- you're invited to attend our meeting in Austin. I mean, that's the best I can tell you.

VOICE: Will you pay for our gas?

(Pause.)

MS. GAMBLE: Good evening. My name is Sharon Gamble, and I'd like to proceed with the public hearing. Let the record show that it is 7:03 p.m. on Wednesday, August 9, 2006, and we are at the Harris County Public Library Northwest Branch located at 11355 Regency Green Drive, Cypress, Harris County, Texas.

I'm here to conduct the public hearing on behalf of the Texas Department of Housing and Community Affairs with respect to an issue of tax-exempt multifamily revenue bonds for a residential rental community. This hearing is required by the Internal Revenue Code. The sole purpose of this hearing is to provide a reasonable opportunity for interested individuals to express their views regarding the development and the proposed bond issue.

No decisions regarding the development will be made at this hearing. The department's board is scheduled to meet to consider the transaction on August 30, 2006. In addition to providing your comments at this hearing, the public is also invited to provide comment directly to the board at any of their meetings. The department staff will also accept written comments from the public up to 5:00 p.m. on August 18, 2006.

The bonds will be issued as tax-exempt multifamily revenue bonds in the aggregate principal amount not to exceed $13,500,000 and taxable bonds, if necessary, in an amount to be determined and issued in one or more series by the Texas Department of Housing and Community Affairs.

The proceeds of the bonds will be loaned to H.T. Seattle Slew, Ltd., or related person or affiliate entity thereof, to finance a portion of the costs of acquiring, constructing and equipping a multifamily rental housing community described as follows: a 236-unit multifamily residential rental development to be constructed on approximately 11.2 acres of land located at approximately the northwest corner of Steeplepark Drive and Steepleway Boulevard, Harris County, Texas. The proposed multifamily rental housing community will be initially owned and operated by the borrower.

I would now like to open the floor for public comment. If you have signed up to speak, I will call out three names in the order in which you will speak. At that time, if those three people can make their way to the podium so that we can get as many people as possible, and use the microphone, state your name for the record, and you then have two minutes to make your comments.

If you have not already signed in and wish to speak, please grab a witness affirmation form, which is on the table in the back of the room and sign in now before we begin.

Thank you.

VOICE: Why are we being limited to two minutes?

MS. GAMBLE: Well, for one thing now, this library is going to close at 8:00. We want to get as much public comment on the record as we possibly can, so for that reason we're going to limit the comment to two minutes at this time. Thank you.

Diann Thurston? Bill Kuschmeider? Forgive me if I butcher your name. Regina Abruzzese? Who is making their way to the podium?

MS. ROTH: It doesn't matter whomever, just state your name for the record.

MS. ABRUZZESE: My name is Regina Abruzzese. I'm a resident of Steeplechase; I'm also on the board of directors for Churchill and Steeplechase.

And I guess part of what I wanted to say has changed now, I kind of want to get it on record that I know this room as a story-time room that I brought my children to; this is not a room for a public hearing.

I've been a resident of Steeplechase for 16 years. When I first moved into Steeplechase, we had two or three apartment complexes around us; we now have nine to ten within a one-mile area of my home.

I consider our area our little town. Our teachers are stressed, our schools are stressed, not enough police officers, there's no public transportation in our area, none. There are two hospitals within a very short distance; both of them, their emergency rooms and ICU beds are constantly full. This I know because my husband spent two days in the emergency room waiting for an ICU bed.

Our volunteer fire department volunteer. I did some checking on them. From 2004 to 2005, they had almost a 30 percent increase in the number of runs that they made that year.

I'm sorry; I'm a little nervous. I just wanted it to be known I think you're doing a disservice to these people that are going to live in this community. There are no amenities for them, there are no taxicabs, there are no buses. How are they going to get to the grocery store? Our schools are overcrowded. Cy-Ridge was just named one of the most persistently dangerous schools. This is the school these children are going to go to. We're doing them a disservice.

There is affordable housing in the area. Thank you.

MS. GAMBLE: Thank you.

(Applause.)

MR. KUSCHMEIDER: My name is Bill Kuschmeider. I've been a resident of Steeplechase since 1983 when it was first built. I've been there ever since, and I'm proud to live there.

I have to agree with her. I just lost two neighbors because their kids were going to go to Cy-Ridge school, and now they're nervous so they're moving further out.

Every time we have these meetings -- we had a meeting with the county when they were going through the county and we shot that one down. Every time we get these apartments in here, all we hear about is everybody is going to be screened as to who is moving in the apartments. My biggest fact is I don't have a problem with a single mom with two kids, I don't have a problem with that at all, I have a problem with the disgruntled boyfriend, the disgruntled ex-husband that we don't screen.

And if you watch the news, it is not the person that's living in the apartment, it's the ex-boyfriend, a relative, something else. How are they going to screen those people? Are we going to have security screening those people coming in there?

You know, it's the boyfriend comes over with two or three of his buddies, that's what we're looking at. You can screen the people that live in that apartment all day long, but that's not the problem, it's the people that they invite over to their apartment.

That's all I've got to say.

(Applause.)

MS. GAMBLE: Diann Thurston? The next three people: Nace Peard, Lisa M. Barko-Meaux, Ray Wachel.

MR. WACHEL: My name is Ray Wachel. I'm a resident of Steeplechase for the last 18 years, and I'm upset; I'm disgusted with this idea of low housing. I don't hear no low housing for little crippled old men and old ladies; it's all the mothers and their little children by 15 different husbands or boyfriends of whatever. I don't want to bring this trash in here that we've seen come in from Louisiana. I'm sorry, but you know what I'm talking about.

All I can say, you turn my hood that I've lived in for 18 years into another ghetto, another Greenspoint Mall area, well, I'm going to tell you something, any harm comes to my family, the hell is on. And I tell you what, I wonder how many of you people live around these people, these low-income people. How many have you got in your neighborhood? None. How many apartments do you have? Bull crap, you don't care nothing about the people. All you want is that money.

Anyway, I'm disgusted with this project, and I hope it does not go through. We've got enough apartments and enough crap in our area and we ain't got law enforcement. They all tell you we can't handle it all. Well, you know what, you should provide the police department for those ghetto places. Don't take it out on us. We pay for our sheriff to take care of our community, but as soon as something goes wrong, they go over there where they're not paying.

And I know you don't pay school taxes like we homeowners do. You pay for the footprint and not the high rise, so you've got a bunch of kids coming to our schools, taxing the hell out of me to pay for these kids, and you know what, they're all trash, most of them. They're going come in and tear the schools up.

Goodbye, good luck.

MS. BARKO-MEAUX: Good evening. My name is Lisa Barko-Meaux, and I'm a resident at Willow Bridge and I've been there for about three years. I love my neighborhood, love my neighbors, and I'm very, very opposed to this project.

I've been told this evening that the things that I hold very important to me -- crime, schools, safety -- are not valued because the only thing that matters is if the IRS bonds can be proven to be denied.

Well, I think the rules should be rewritten because a lot of these low income, moderate income projects are built in residential areas with people like all of you in this room, and these things are very important to each and every one of us, and to find that they're not valued is very disheartening, and those rules need to be rewritten and re-examined.

I also wanted to point out that the statistics that were used in the presentation, the very small part that we did see, were citywide and we need to be looking at local statistics, those are what's important.

Thank you.

(Applause.)

MR. PEARD: My name is Nace Peard. I've lived in the Steeplechase subdivision since 1989. I'm a member of the Steeplechase HOA as well as the MUD 168.

We respectfully request that the board deny the tax credits that are applied for here for the Meadowlands. We don't want the apartments, we don't need the apartments.

It is understood that TDHCA's job is just to look at the application and approve or not approve the tax credits. It is not to oversee where and what is the best location for low-income affordable housing; that is the developer's job. And no offense, but their job is to make money. They are not looking at what is in the best interest of the community and the surrounding community, they are looking at it as a development project to make money.

As Representative Elkins has said and as Lisa just mentioned, the problem is the process. Everyone in the room, everyone outside needs to be fully aware of what we can do. I do not agree with Representative Elkins that this doesn't matter.

I think our frustration and any public comments we make will matter. Whether they choose to make it matter, he's exactly right, they can throw it out and not give a flip and say we're going to give the tax credits anyway. But you've got to believe that our vote and us as constituents has a say-so and we want the board to listen to us that we don't want this.

We want this to go to the people that need it which will be in San Antonio or Corpus Christi or southeast Houston -- which was on the Houston Chronicle two weeks ago, they are begging for these apartment projects in that area. When you have this kind of turnout, it shows that we don't want it.

A fact of the matter is that the Point at Steeplechase apartment complex across the street of this proposed project filed for bankruptcy under Chapter 11 on March 22, '06, Case Number 0640355.

In conclusion -- because at the Monday meeting they did allow three minutes per speaker and we're being shortchanged here -- in conclusion, it would be a disservice by the board of our tax money to give tax credits to an apartment complex that is not wanted or needed in this area, and it would also be a disservice to the constituents that live here that would be affected by the complex, and it would be a disservice to the people that this complex is being built for. There's plenty of affordable housing not only in houses but apartment complexes in the area, irrelevant of the citywide percentages that were shown.

So it is in our opinion, my opinion and the Steeplechase HOA and the MUD 168 that we respectfully request the board deny the tax credits for this development.

(Applause.)

MS. GAMBLE: James Andrews, William Olive, Elizabeth Hattman.

MR. ANDREWS: Good evening. My name is Jim Andrews. I'm a representative of Steeplechase neighborhood, have been a resident for almost eleven years, been a resident in the area for 15 to 16 years. I am on the HOA board of the Steeplechase Association.

I have concerns about the proposed development of this community. There is not Metro available to individuals that might be living in this complex. There are no sidewalks, which puts some of the kids on the streets if they're moving back and forth, puts them in danger, their safety and their concern for their safety.

There are multiple apartment complexes in the area that have gone downhill ever since they've been built. I know that the majority of the people in my neighborhood that I speak with and I represent are opposed to this development and hope and wish that the board or the agency listens to us and hears us loud and clear that we do not want this development put in our neighborhood.

Thank you.

(Applause.)

MS. GAMBLE: William Olive?

MR. OLIVE: I'm Bill Olive. I've been a resident for eleven years, and I have some experience as far as HUD projects go. I'm a retired police officer, 31 years; about 12 of those years I worked HUD projects.

You're not bringing in momma and her baby. You're bringing in momma and her baby and her ex-husband, his brother that just got out of the joint and a crack dealer. You can't screen any of them. If they provide security for you, that one auto theft car that comes into the project doesn't get marked down, and that's happened to me. They run from you, you take crack off of them. Another one, you ask him why he's not working, he just got out of jail and living in that apartment.

My children's names when they were going up were Chuck, Beth and Lindsay. If you go into a HUD project, their names are Hey, MF, get over here -- more than one occasion. You're bringing in people with a different mindset, somebody that says give me and they're going to take, and they're coming through our neighborhood and they're going to take our neighborhood.

Auto theft, crack dealers, and these HUD project people, they travel from project to project, those are their friends, they don't have any outside friends, so when they're not at this project, they're going to be seeing their friends at another project, and that project is going to be right down the street from us.

You don't want this because -- I'm not saying I don't want this because if this thing gets approved, I'm gone because you will be in trouble, big time trouble.

(Applause.)

MS. GAMBLE: Elizabeth Hattman.

MS. HATTMAN: My name is Elizabeth Hattman, and I am on the Steeplechase Community Improvement Association board, and I've been chairing that board for the last five years.

I would actually like to speak to the application itself. In Volume 1 on page 30 regarding the ineligibility exception, I understand there's a one-mile, three-year rule, and basically I'll refer to .4 ineligibility exception. It says: As described in da-da-da, the proposed development located in -- and it lists counties, Harris being one of them, and located within one mile of an existing tax credit development -- that's the question -- the box is checked "No." However, in fact there are three tax credit properties less than a mile away.

One that just opened January 15 of 2006 is the Manor of Jersey Village; it's located in Jersey Village. It's at 12400 Castlebridge, so it has certainly been within less than three years. There are two other tax credit properties: Sugar Creek Apartments, which received housing tax credits and bonds in 2001-2002; it's basically on the same parcel of land, has 240 units.

And then also Sprucewood Apartments, which has 152 apartments. Your website incorrectly lists the zip code as 77068, but it is in fact at 12101 Steeplewood Boulevard, and the zip code is 77065.

So there are three tax credit properties all within a mile, one which just opened this past January.

So I believe that is an ineligibility and also I believe that the application incorrectly noted that there is no other tax credit apartment within a mile.

I would also like to urge all the residents of Steeplechase and everywhere else, we thank you all for coming out. This meeting certainly wasn't how we planned it. I urge you all not only to try to attend the meeting next week, assuming they can schedule it -- I know I can't because I have a commitment and I'll be out of town, but we'll be going to Austin on August 30 or whenever they hold the board meeting hearing, and I urge others to come with us. If need be, we'll get a bus. So please stay tuned, you'll get your e-mail bulletins, and we'll fight this all the way.

Thank you.

(Applause.)

MS. GAMBLE: Fred Edler, Sarah Morales, Gordon Cooper.

MS. MORALES: My name is Sarah Morales. I just moved to Steeplechase in October. We moved to this subdivision to get away from this type of projects -- is what I call them.

I was at the July 18 meeting and I just have a question for you. You said that 246 units were going up, and you said only 75 children, you predicted, would live in that community. Is that correct?

MR. VERMA: Yes, school-age children.

MS. MORALES: If that be the case, why in this thing that I'm reading here does it say 100 percent of the units will serve families? If you have 246 units or 236 and this is serving families, how do you come with your number of 75 children? That's what I want to know.

I've contacted some of your developments that you have in other cities, I've contacted Sprucewood, I've contacted Sugar Creek, and every one of them is in agreement that there's not just 75 children, there's beyond that.

I also contacted the Cy-Fair School District. Post Elementary -- which is where this development would be zoned to -- they're at 49.1 percent of economically disadvantaged students right now. There's only 920 students allowed there, they're projected to have 970 this year. Campbell's capacity is 1,350, they're scheduled to have 1,473 with a 28.7 percent economically disadvantaged. Cy-Ridge which has just been deemed as a dangerous school -- may I add there's only 40 dangerous schools in the United States -- 3,000 is their capacity and they're supposed to have 3,500 with a 32.3 percent economically disadvantaged.

Let me ask you this question: Would you want to send your kid to a dangerous school? So if you say yes to that, then you're telling me that you want these kids to go to a dangerous school. If you say no to that -- because if you're in your right mind, you wouldn't want your kids to go to a dangerous school -- then you wouldn't want to do a disservice to these children by sending them to a dangerous school.

So what I challenge you to do is not to build this project here and build it where it's needed, and it's not needed in our neighborhood.

(Applause and cheers.)

MR. EDLER: Hi. My name is Fred Edler. I'm president of the Willow Bridge Homeowners Association, chairman of the West Road Security Alliance, and I manage the MUD 11 area security contract with the Harris County Sheriff's Department with three deputies.

I'd like to go on record too saying that state officials insisted this meeting go forward, even though it's being held in violation of fire marshal capacity laws and it's put this audience at risk, and I think that's out of line.

I was asked to speak about the crime situation tonight, and I've got to cut it short, but basically our sheriff's department patrol deputies are stretched so thin that there really is no proactive policing in our general area.

If you want proactive policing and visible policing, you need to hire contract deputies at the rate of $50,000 apiece, and it goes up about 5 percent a year. This general area has about a dozen contract deputies, which means $600,000 a year is being paid above and beyond your tax money to make your community safe and have visible policing.

When the district deputies need backup, it goes to our contract deputies; they're pulled out of the contracts and we are left exposed and unprotected. And apartments in general and specifically low-income apartments draw our deputies a great degree out of our contracts and leave you unprotected.

It was mentioned that the developers are saying they're going to do background checks. Felons and undesirables have their girlfriends and their wives do that. In my interviewing social workers and parole officers, they confirmed this over and over again that

that's the situation. So what this development does is draw predators into our communities, it makes our children victims and makes us victims. Do you want to be a victim, would you like to be a victim in your neighborhood? Because that's what's happening to us. Do you want to be a victim?

VOICES: No!

MR. EDLER: I don't think so. But the predators are here and they come into our Normal Rockwell type communities. We have great communities, clean and safe, and they see it as the happy hunting ground and they make us victims.

Let me cut this short. I did some statistics, and I compared our 1,500-home community against roughly the three low-income, government subsidized housing units in the area, so that's about 1,500 homes as compared to about 800 units, about half the number.

I'd like to draw some quick numbers here, and I'm going to factor in, I'm going to double the low-income numbers so they equal like 1,500-1,500.

The assaults in the low income, actual is nine, but after you factor it, it's 18 compared to homes that's four assaults and only two are by residents, so it's 18 to two.

On terrorist threats, the actual number was nine, if you factor in the factor it's 18, the homes were seven, only one was by a resident, so it's 18 to one. Discharge of weapons, there were nine actual in the low income, there were 18 if you factor in the equality factor, compared to zero in homes, so 18 to zero in weapons discharge.

Sexual assault, there was one actual in the low income, if you factor it it's two, there was zero in the residential area. Indecent exposure child, one, you factor it into two, and zero in the residential area. Indecent exposure in the low income was three, you equalize it, it's six, zero in the homes. And vehicles stolen, in the low income it was 22 and if you equalize it it was 44, and none stolen in the residential area I'm talking about.

So state officials, keep the predators out of our community, don't make us victims, and don't change our way of life where we have to protect ourselves from predators and from undesirables. Don't do this to us, please. Thank you.

(Applause.)

MR. COOPER: I just have a couple of points. Gordon Cooper. I've been in the neighborhood for, I guess, nine years, something like that. My points are divided into two segments.

First are the logical points that have to do with actual bond issues. Because I am a taxpayer, both federal and state -- well, maybe not income tax but property tax -- I feel that I should have say-so in how our bonds are granted. For instance, it is a moral responsibility of the government to issue bonds that only make improvements to the community in which the people who pay the taxes that fund the bonds live.

I understand the need for housing; I understand that demographics should be better carried out so they can put these places where they should be as opposed to in my backyard where they shouldn't be. My tax base has increased while my property value has decreased. You can ask anyone who lives in Windermere Lakes the effects of apartments on property values.

Second of all, I'd like to make some emotional points and those are: I do not intend to leave my community, I'm rooted, I have children that I've already pulled out of the school system because of the same problems we have, I home school because we have schools the way they are. I'm not leaving. I will protect our property, and I will protect my neighborhood. So whether these people come or whether they go, I'll still be there, but I am going to hold the state and the federal bond issuers responsible for anything that goes down in our neighborhood.

(Applause.)

MS. GAMBLE: Thomas Roth and Jeremy Thomas Wood.

MR. WOOD: For the record, my name is Jeremy Wood. I come representing the Point at Steeplechase Apartments, managed by Dalcor Management, Inc.

It is true, as one of the people said earlier, that we did go into bankruptcy this year. There are too many apartments as it is, and we're having a hard enough time filling the occupancy as it is. As they also said earlier, we can only screen the applicants we know about. I'm not going to lie to you. We don't know everything, there's no way for us physically to police it because we're only human too.

And the more apartments that we build, these apartments are going to fall right into our income demographic of where our property is. Our properties start about $450, go up to about $700, so when we build in more, we're going to have to lower our standards of rental. I mean, we've already started taking broken leases because we have to to keep the doors open, and our owners aren't going to sit here and not make any money. Unfortunately, that's just not how the property management business works, because if we build in more properties, we're going to have lower and lower income, not just from this property, but from every one of them, ours, The Camden, because the owners are going to come back and say you have to fill the occupancy.

I'm the leasing manager for the property; this is what I do for a living. I sit there and I make sure we try to find quality, we try to qualify our residents, and granted, there's many cases that I know that we can't screen them all, that we don't screen them all. I find out they're there and I've had to evict quite a few people.

I've worked on one of these tax credit properties at another company prior to coming to this. You know, there's good and there's bad in all, and I can't justify it just by saying it's the tax credit, but I do oppose it just on the basis of the numbers.

We are doing excellent to keep 88 percent occupied; by business standards we should be at 95 or 96 percent, and that's what our owners want. I don't want it to come down to a point where our owners say screw it, move anybody you want in, because that’s what is going to happen.

And I definitely don’t want to see that, not only because I live on that property and I live in this neighborhood and we’re just such good people here; I don’t want to be responsible for bringing something bad into this neighborhood because I wouldn’t be able to live with myself personally and I know it would not be corporately responsible.

Thank you for your time. God bless you all.

(Applause.)

MS. GAMBLE: Thomas Roth? Diann Thurston? Did Diann Thurston show up?

VOICE: Can the comments of the people who have been asked to leave be read into the record?

MS. GAMBLE: Those are the only affirmation forms that I have, ma’am.

VOICE: I understand that. Are there comments there so they can be read into the record given that people were asked to make space?

MS. GAMBLE: I have no more comments.

VOICE: I’m talking about Diann Thurston and --

MS. GAMBLE: Oh, read their comments. I’m sorry.

VOICE: Yes, I think they should be read into the record.

MS. GAMBLE: This is the comment of Diann Thurston. On her occupation/profession/business is housewife, she's representing herself.

"I wish to make the following written statements. In light of the increased crime rate being experienced on the southwest area of Houston with the highly dense apartment population, how do you intend to help prevent against an increase in crime in our area as a result of this development?" Comments of Diann Thurston.

And Thomas Roth, a geologist representing himself.

"I've lived in this area for 13 years. I have seen the area go from being a friendly, healthy place to live to one that is increasingly hostile and dangerous. Property values have stagnated and taxes have continued to increase. We have attempted to stem the problems by purchasing additional police protection but that has not stopped the increase in crime.

"Part of the problem is the increase in multifamily housing developments in the area. We do not need more housing projects, particularly those that cater to lower income families. What we really need is park space for the people who already live here. This development would be better used as a public place where our children can play.

"How many apartments is too many? Look around our area. There are way too many apartments in our area. It taxes the school system terribly with children whose parents don't pay the property taxes that a single-family homeowner pays.

"How is this in the interest of the people who live and work here now? Answer: it is not in our interest." Thomas Roth.

(Applause.)

MS. GAMBLE: Than you all for attending this hearing. Your comments have been recorded. The meeting is now adjourned and the time is now 7:37.

(Whereupon, at 7:37 p.m., the public hearing was concluded.)

QUESTION-AND-ANSWER SESSION

MS. ROTH: We can do a brief question-and-answer if you'd like to. If you could speak one at a time and try to keep this on a civil basis, we'd appreciate it.

MS. GAMBLE: And let me say that she is still recording, so the comments will still be on the record, and the library has asked us to start vacating this room at 7:45, so please keep that in mind.

VOICE: Is there anything on this record that you are going to attempt to have another meeting, or was that stated before you started recording?

MS. GAMBLE: No. That was on the record as well.

THE REPORTER: We've been on the record since ten after 6:00.

MS. GAMBLE: Yes, all of that was on the record.

VOICE: How do we get a copy of that transcript, and is it free?

MS. ROTH: We have some cards outside if you want to pick one up. There is an e-mail address you can e-mail us and request one; there's also a fax number, phone number.

VOICE: The reason I ask if it's free, because the court system they charge like $5 a sheet, you know.

MS. ROTH: As far as I know, a copy of the transcript will be provided.

VOICE: What is the standard for granting or denying tax credits?

MS. ROTH: Actually let me direct you to our website. There are numerous items that the board takes into consideration, and you can find that either in our bond rules, multifamily bond rules, or the Housing Tax Credit Qualified Allocation Plan.

And if you get on our website and you can't locate it, give us a call and I'll be able to direct you to it.

MS. GAMBLE: And I'd like to remind you that we will be accepting written comment until I believe it's August 18.

VOICE: They said they're going to have 72 three-bedroom apartments and they said that there were going to be approximately 75 children coming into our schools. In those 72 three-bedroom apartments, who's going to live in those 72 apartments, all adults?

And also there's going to be 104 two-bedroom apartments, so that means there's going to be probably one or two kids in that apartment. So my figures don't add up to 75; they add up to a lot more than that.

MS. GAMBLE: I'm going to sum up the question for the record so that we can make sure that it's recorded, and correct me if I'm wrong, but your question is that according to what you're looking at as far as the types of units that they're planning to build and then the number of children that they're saying they're expecting to live in these apartments, it doesn't add up to you and you would like for them to address that.

VOICE: Yes.

MR. VERMA: It's a fair question. Yes, you are correct, there are 72 three-bedroom units, and typically what's happening here in the school district, from what we've found out, 10 percent of all the students that are in this district come from apartment communities and two- to three-bedroom apartment units yield similar results to those of single-family homes. It's been our assessment, based on what we've gathered from this district, that there will be 72 students -- students, not children that go to the schools.

So in three-bedroom units you're going to have families, you're going to have kids maybe two years, three years, four years old not attending school yet. The question is what's the impact it's going to have on the schools. It’s going to be, based on the information we were provided, 72 students.

And to go on further, we have a project that’s in San Antonio that we just completed, we got our study back from the Northside Independent School District to see how many students we have impacting their district. In that property there are 248 units, there are 32 three-bedrooms, 96 two-bedrooms and the remainder one. In that district there are 53 students and of that the school district cannot tell me how many of those are new students.

So as far as impact on the school district, yes, of course, as the market is growing you’re going to have families come into the community, you’re going to have new students in your school district, but our property is going to bring 72 students to your school district and it won’t be new students, there will be some existing out of that 72.

VOICE: If your numbers prove to be incorrect, what is the corrective action that the developers are ready to do to reimburse the school district?

MR. VERMA: We met with the school district a few months ago and we’ve offered to provide any assistance. If it becomes overburdened and we need to provide classes on our property, we'll be happy to do that. If we need to contribute in some other way --

(Many voices simultaneously.)

MR. VERMA: Well, I mean, at that point the school district needs to come to us and we're happy to work with them. We've done it before, we do it on every project, and every project, I guarantee if you talk to the school districts of those projects, you'll be very happy how we've participated with those school districts. We've done it before and we'll do it again.

VOICE: Could you make those school districts' information available for our independent verification?

MR. VERMA: Sure. Whoever you want me to forward the information to on our property, I'll be happy to do it.

VOICE: Can you provide us with the number of domestic disturbance phone calls to the police department or the sheriff's department that have been made to this different developments that you have? Do you have those statistics, or do you not care about those, you're just worried about how many kids we've got in these developments? Domestic disputes, 911 calls to these developments?

MR. VERMA: For which ones, our existing

properties?

VOICE: Any of your developments.

MR. VERMA: Sure, we'll be happy to provide that.

VOICE: Do you have any with you?

MR. VERMA: No, I do not, but if you'd like that information, I'll be happy to sent it to -- just name a person and I'll send.

MS. GAMBLE: I really want to try to keep some order here. Yes, ma'am, over here?

VOICE: Going back to the schools, if you said that you're willing to do whatever it takes, then let me ask you this -- because I did research, for two weeks I've been researching this, and in my research in 2005 and 2006 more than 7,000 students enrolled which is equivalent to eight elementary schools or 2-1/2 high schools. Are you willing to build them?

MR. VERMA: No.

VOICE: That's what I want to know, because you're saying 75 kids; that doesn't add up. There's no way that on 75 kids in -- who did you talk with about this?

MR. VERMA: I talked to the school district.

VOICE: Well, I got this off the school

district's website. So I want to know who did you speak with, because I spoke with someone also and got this off their website, so it's contradicting. So if you can give me a name of who you spoke with.

MR. VERMA: As a matter of fact, the information we got was in reference to our project, not in reference to anyone else's, in reference to ours.

VOICE: Who did you speak with? That's what I want to know. I'm not asking you what your reference was; I'm asking who you spoke with.

MR. VERMA: If you'll call me tomorrow, I'll be happy to give you that name.

VOICE: I've tried to call you, and you never answer your phone.

MR. VERMA: No, you have not. Have you left a message? Have you left me a voice mail?

MS. GAMBLE: Okay. We're going to go to the next question, sir.

VOICE: Regardless of whether it's 75 kids or 150 kids, according to the information you provided, you provide no playground for these kids. They're going to play somewhere, they're going to spend their time somewhere. Are they going to be out in the street or out causing trouble or are they going to stay in their rooms

24/7? How do you provide for your own residents that you already have?

MR. VERMA: I apologize that you weren't aware. There is a playground on site, it will be a Tot Lot -- there are two playgrounds on site so that will be provided.

MS. GAMBLE: Yes, ma'am?

VOICE: Two-, three-, and four-year-olds do grow up. That's comment number one. Number two, the middle school where these children will go -- I just registered my daughter for sixth grade; they were given two books -- the school district doesn't have enough books for the children that are already there to take the books home.

I'm sorry; I'm speaking to you, and I feel as though you're ignoring me.

MR. VERMA: No.

VOICE: If you could make some eye contact with me, that would be great.

MR. VERMA: Okay.

VOICE: I am concerned; I fear for my children. I am a low-income person; my husband is disabled. I will say this in front of this room: We live on Social Security disability income and my part-time salary. We are low income; we are good people. I get it that there are good people, but what you’re not getting is that the people that can’t leave -- I wouldn’t leave anyway -- my neighbors are fleeing out of our subdivision as fast as they can sell their houses; I’m not going to do it. I’m going to stay and make my community better.

But what are you doing to make my community better? You said you’re going to help the schools. Are you going to buy those children books, are you going to provide transportation to the doctor, to the supermarket, or are we going to find supermarket carts up and down West Road?

I get it, you’re all about the money. I get it, that’s the world, I get it. But we are people and this is where we live.

(Applause.)

MS. GAMBLE: I only have time for two more. We’ll have this woman here and this gentleman here. Thank you.

VOICE: I’m an educator. I teach at Rice University and run a leadership program, and one of the things we concentrate on is the difference between good and bad leadership, good and bad entrepreneurs. And we really focus in a lot on corporate responsibility, and outside of your financial gain on this, I'm interested in what you feel your corporate responsibility is for our community.

MR. VERMA: What we're trying to do is bring affordable housing to the market. What we've seen is that there is a demand for affordable housing in this area. Twenty-six percent of the households in this market, this renters are overburdened; that means they pay over 30 percent of their income towards rent. That's a problem, that's what we're trying to achieve. We're trying to build quality housing for the community, for these residents.

VOICE: Do you ever think that they may want to live in a more upscale neighborhood instead of what they're paying?

(Many voices simultaneously.)

VOICE: You're saying there's a 26 percent shortage of affordable housing for the residents of this community?

MR. VERMA: I'm saying that 26 percent of the renters in this market are overburdened.

VOICE: And do you define this market as the local area or the entire Houston area?

MR. VERMA: It's a local area. Our area is about a three- to five-mile radius. It’s not a defined radius because it’s a submarket; the market is 29 square miles. The furthest point from the property is 4.25 miles, so it’s a localized region.

VOICE: I would encourage you to go back and amongst yourselves really evaluate what you feel your corporate responsibility is, because it seems like you really haven’t hammered that out very well.

MS. GAMBLE: We’ll have one last question.

VOICE: I just have two questions. Correct me if I’m wrong, but with the tax-exempt bonds or tax credit bonds, you’re not paying any taxes, property taxes or anything like that. Correct?

MR. VERMA: No. We are paying property taxes.

VOICE: Okay. Well, then my mistake on that. Well, that answers it.

MS. GAMBLE: We really have to vacate this room. Very quick.

VOICE: You talked about you’ll give us this, you’ll give us that. When will we actually see the presentation that wasn’t presented today on the website? Will we have access to this O’Connor’s report that’s referenced in your presentation? Will we have access to their statistics?

MR. VERMA: As soon as we give our presentation, we'll be happy to disseminate that information to everybody. Unfortunately we weren't able to present that here today --

VOICE: That is not our fault.

MR. VERMA: It is not my fault either; I understand that. Once we give our presentation next week, we'd be happy to provide all that information to you.

VOICE: Where are you going to do that?

MS. ROTH: We're trying for Thursday. Like I already said many times, I do not have the authority nor the information to give you right now.

VOICE: How are you going to disseminate that information once you get it?

MS. ROTH: On the back of all of our handouts is our contact information, as well as we have the cards. We will post that. We post all public meetings on our website.

VOICE: How many days' notice do you have to post the meeting?

MS. ROTH: This one had to be in the paper 30 days prior, so I don't know; I can't comment on this one. I don't know if that requirement can be waived for an additional meeting, I am not an attorney, I cannot answer that.

VOICE: But Robbye did answer that to you that you will try to have that meeting.

MS. ROTH: She said we will do our best to try to have another meeting because the accommodations were so lacking.

VOICE: Is that going to be before the 18th? -- because the 18th is Thursday, the last day for comments.

MS. ROTH: The 18th is next Friday. We are going to make our best attempts to do that.

VOICE: What I want to be sure is if your best attempt doesn't work that we still have access to their reports.

MS. ROTH: You can contact our office and get any kind of reports you want.

MS. GAMBLE: That's their report.

MR. VERMA: Like I said, out of everyone's public comments today you provided statistics as well, so I think you should provide your data to us; we'll be happy to provide our studies to you, and then we'll go from there. But I know our application is public record. It's already been pulled, our studies can be pulled, everything can be accessed from TDHCA. So if you'd like the market study that we used, you can contact Shannon or Sharon and they'll be happy to provide that to you.

VOICE: Steeplechase has a very nice retirement in the back of the subdivision. Can you just imagine your parents living in that? And there's assisted living off of Fallbrook too. I mean, these people are going to be scared to death. Would you put your parents in those retirement homes now with this project right next door?

MR. VERMA: I don't understand -- there should be no concern.

(Many voices simultaneously.)

MR. VERMA: A working-class individual household is bad for the community? Those making $30,000 a year are bad for the community?

VOICE: You heard what the officer said about the kind of people that come in: the drug users, trash. It's not the people that rent; it's the people that come and visit, it's the trash they bring in that you don't screen.

MR. VERMA: And that also happens in single-family. Who monitors that? Who controls that?

MS. GAMBLE: I just want to let everybody know that we are now off the record. As I said, we have to vacate this room, and the court reporter has to put her things away.

(Whereupon, at 7:45 p.m., the meeting was concluded.)

C E R T I F I C A T E

IN RE: Meadowlands Apartments

LOCATION: Houston, Texas

DATE: August 9, 2006

I do hereby certify that the foregoing pages, numbers 1 through 71, inclusive, are the true, accurate, and complete transcript prepared from the verbal recording made by electronic recording by Linda Mello before the Texas Department of Housing and Community Affairs.

BEFORE:

ROBBYE MEYER, Manager of Multifamily Finance

ALSO PRESENT:

SHANNON ROTH, TDHCA
MANISH VERMA, Developer, Commercial Investment Services, Inc.
GREG THORSE, Developer, Commercial Investment Services, Inc.

P R O C E E D I N G S

MS. MEYER: My name is Robbye Meyer, and I'm the acting director for the Multifamily Finance Division for the Texas Department of Housing and Community Affairs.

We've called this additional meeting to take your comment from the last time that we had a lack of accommodation to have all of your public comment heard at the last meeting. And we do apologize for that; we didn't have any anticipation that we would have this many people to speak.

But we are happy to be here and we are glad that you are here to participate in the public process. We are having it transcribed so it will be on public record and the board of directors for the Texas Department of Housing and Community Affairs will have a copy of this transcript, along with the previous transcript to hear your comments, and the board does take public comment extremely seriously. If it didn't, I wouldn't be standing here again tonight. So I hope that you will all make comment if you want to. You have the opportunity to do so and I hope you will take that time.

I am going to ask the first speakers come up when we actually start the public comment -- the developer is actually going to make a brief presentation, but when I first start public comment, I'm going to actually ask the people that did not speak at the last hearing first just in case we run out of time for some reason. Hopefully that won't happen and we'll get everybody's comments. And if you want to speak a second time, if you spoke last time and you've turned in a witness affirmation form, you are welcome to speak and we want you to speak.

Are there any more witness affirmation forms out there before I let the developer make the presentation? Okay, I will turn it over to Manish.

MR. VERMA: Hello. I want to thank everyone for attending here this evening. I am Manish Verma and over here in front of me is Greg Thorse, and we are the developers for the proposed Meadowlands Apartments. We wanted to start out today by just giving a brief presentation to give an overview of what the project is al about.

The Meadowlands Apartments is going to be 236 units; it's a planned multifamily development which will provide high quality, service-enriched housing to promote the dignity and well-being of its residents.

Here are some pictures of what we anticipate the Meadowlands to look like, some exterior shots, the clubhouse, an interior of the unit.

I don’t know if everyone here knows exactly where this property is located. This property is located on the northwest corner of Steeplepark Drive and Steepleway Boulevard. It is south of West Road and west of Jones, and so the site is situated in an ideal area for affordable housing due to retail and employment generators in the area.

The site consists of eleven acres, twelve buildings, both two- and three-story buildings; one-, two- and three-bedroom units; 230,000 square feet of net rentable space; the average unit size is 975 feet.

Some of the amenities include stucco and masonry exterior finish, 30-year shingles, nine-foot ceilings, central air and heat, all Energy Star appliances and equipment, water heaters, et cetera. We will have swimming pools, barbecue and picnic areas, and perimeter fencing with security gates.

So who will live at Meadowlands? Meadowlands will market to working people at 6 to 25 percent below market rent. Qualified residents are 60 percent of median income, and here are the income limits for one-, two-, three- and four-person households. As you can see, it’s those between $25,000 and $37,000.

Our development team has over 25 years of multifamily experience, building over 30,000 units here in Texas, and our management company has over 20 years of property management experience.

A question that was brought up last time as far as are we going to be having a property tax exemption. No, we are not. Our project is financed using tax-exempt bonds; that does not mean property tax exemptions. These bonds are not the obligation of Harris County or the state, they're the obligation of ourselves.

That's all we have for you this evening, and we're obviously here to answer any questions, comments and concerns you may have. Thank you.

MALE SPEAKER: Who are you with? You said you're the developer?

MR. VERMA: We're the developer.

MALE SPEAKER: What is the developer's name?

MR. VERMA: GMAT Development, G-M-A-T Development-Seattle Slew, Ltd.

FEMALE SPEAKER: Do you have an address?

MR. VERMA: The address is 45 Northeast Loop 410, Suite 290, San Antonio, Texas 78216.

MALE SPEAKER: Could you repeat that, please?

MR. VERMA: It's GMAT Development, G-M-A-T Development, there's a hyphen, Seattle Slew, Ltd., or you can also look under Commercial Investment Services, Inc., address is the same for both: 45 Northeast Loop 410, Suite 290, San Antonio, Texas 78216. Thank you.

FEMALE SPEAKER: I have a question. How many of these have you developed in Houston?

MR. VERMA: This is our second property in the Houston area.

MALE SPEAKER: Where is the other one?

MR. VERMA: The first property is under construction currently; it's in Baytown, Texas.

MALE SPEAKER: What part of Baytown?

MR. VERMA: Address is 6900 North Main Street off of I-10, just south of I-10.

MALE SPEAKER: The are over there is different than over here.

MALE SPEAKER: Who will be running this property on a day-to-day basis?

MR. VERMA: Our management company, it's a third party management company, United Apartment Group, and they will be at the site on a day-to-day basis.

MALE SPEAKER: United Apartment Group?

MR. VERMA: Yes.

MALE SPEAKER: Do they run any other apartments in this area?

MR. VERMA: There's a representative here from the property management company and she could answer your questions.

MS. BELCHER: My name is Angela Belcher and I am the regional supervisor for United Apartment Group, and we're based out of Dallas, and currently right now we have about a thousand units in the Houston area. I have one in Baytown, two in Westheimer, one in Pasadena.

FEMALE SPEAKER: What about out here?

MS. BELCHER: Out this way I don't have any properties in this immediate area at this present time.

FEMALE SPEAKER: Are you saying we'd be the first then?

MS. BELCHER: In this area, yes.

MALE SPEAKER: What part of Westheimer?

MS. BELCHER: The 9000 block of Westheimer.

MALE SPEAKER: What cross street?

MS. BELCHER: Fondren and Westheimer.

MALE SPEAKER: What is the name of the complex?

MS. BELCHER: Westheimer Terrace.

MALE SPEAKER: This question will go to the Texas Department of Housing. How many units has the Texas Department of Housing sponsored in our general area, forget who the developers are or were? How much of this stuff do we have now? What is the saturation right now?

MS. MEYER: I can't answer that off the top of my head.

MALE SPEAKER: One or 500 or three or six or 5 billion?

MS. MEYER: As far as complexes themselves?

MALE SPEAKER: Yes.

MS. MEYER: In the general area there's like five or six, I think. I mean, not right in this little area but within --

MALE SPEAKER: Well, you've got three planned already on 1960 and Bobcat Road; you've got one here by the post office out here in Jersey Village; you've got the one you want to destroy Steeplechase with; and you've got one going in on 290 and Fairbanks-North Houston, I understand.

So my question is how much of this stuff do we already have in our back yard?

MS. MEYER: And I can't answer that off the top of my head, sir. If you'd like to send me an E-mail, I will be glad to answer that.

MALE SPEAKER: I'd like for all these people here to know.

MS. MEYER: I can't answer that, sir, off the top of my head.

MALE SPEAKER: Is there somebody you can call? I would think you'd have numbers like that in the back of your head. I sure would.

MS. MEYER: Well, I don't have that.

(General talking from audience.)

FEMALE SPEAKER: I talked to Michael Lidell, we had a conversation, I talked to him in Austin and I asked him the very question this gentleman is asking, and he told me that he would have that information for me by tomorrow, and unfortunately I couldn't get it today because it wasn't available. He said his staff would get it for me, because, like I said, there are at least four and I'm sure half of the people in here didn't even know that there were that many. I've been driving around for a week looking and I saw two more signs.

MALE SPEAKER: Put the stuff where they need them: northeast, southeast.

MS. MEYER: I am here to take your comments so I can get them back to the board, and I want to make sure that those comments are done. If we have time at the end of the session, I'll be glad to try to answer as many questions as I can, but I want to make sure for the time we have this building rented that I get your public comments so that my board hears that. I hope you will respect that.

MALE SPEAKER: There's two, Sugar Creek and Sprucewood. Now, how you're describing immediate area, the immediate area there's two others similar to this what's going in.

MS. MEYER: Do you want to go ahead and make your comment now?

MR. OWENS: My name is Phil Owens; I'm with State Rep Gary Elkins' office. Hello. Good to see all of you again.

Sprucewood is on Steepleway, I'm sorry, I don't know the address off the top of my head, but if you're headed from Jones on West if you're headed toward 290, it's there on Steepleway, turn to the right and it's the apartments that sit right there before you go into the subdivision. And then Sugar Creek are the apartments that sit closest to the Sam's on West.

MALE SPEAKER: The ones that have filed for bankruptcy?

MR. ELKINS: I'm answering the question to where the others are located. I have that information, just so we can kind of move the meeting along, I'll answer that question just real quick. And thank you, Robbye, for the chance.

On behalf of the representative, I just wanted to let the folks know -- because I know a lot of you are concerned about what's being done with your elected officials, what's happening -- we've written the letter of opposition to the development and we will present at the hearing on the 30th. That's what we can do; those are the parameters of the oversight we have. Your board members, the folks that are working on this, you can contact them. We've been in contact with them from the beginning of this, doing everything we can to try to work with the community and work with the developer.

So we're here, I thank everyone for being here. The developer, the folks with the commission of the board, the residents and all that to kind of help this process along.

And that's all I have. Thank you, Robbye, I appreciate it.

MALE SPEAKER: What's your name again?

MR. OWENS: Phil Owens.

MALE SPEAKER: Is Representative Elkins actually going to appear, or is it going to be you?

MR. OWENS: He's planning to be there. He's out of town; he was at the previous meeting; I was at the one before that. Please appreciate that the representative has his private business and can't always be at everything, but as the folks that have been leading the fight can attest to, we've been at every public meeting that they've been aware of, we've been working with them from the absolute very beginning, and I really honestly am unaware of anything else that our office could have done or that the representative could be doing to help further your cause.

FEMALE SPEAKER: Where are our state senators?

MS. OWENS: Again, I'm with Representative Gary Elkins' office and I can't address that.

(General talking from audience.)

MS. MEYER: The first person that we have to speak is Mable Butler. There is a three-minute time limit so we can get through all of the public comment.

MS. BUTLER: Hi. My name is Mable Butler, and I've been in Steeplechase for about a year. I have been an employee of the State of Texas for the last 21 years and I currently work as a hospital-based Medicaid worker for the Health and Human Services Commission.

I was stationed at Cy-Fair Medical Center from January of '04 to December of '04. This hospital is one two hospitals currently in that area. I would determine eligibility for Medicaid for low income households who come into the hospital that do not have any health insurance, and our tax dollars would cover their medical expenses at the hospital.

According to my personal information, I would certify about 960 to 1,000 applications a year. Currently I am processing applications for Methodist Willowbrook which is also another hospital in this area. There is a new hospital scheduled to open in December of this year and it's located on Highway 290 just north of 1960. I know for a fact that they are in the process of trying to get a Medicaid worker there as well in anticipation that they know they're also going to be having some low income households coming through their doors.

So I urge the commission to deny this application and encourage the developer in the development of affordable housing and to take the development somewhere else where they're needed, not in our area.

(Applause.)

MS. MEYER: The next person I have is Dean Green.

MR. DEAN GREEN: My name is Dean Green, I live in Steeplechase, and first, I'd like to thank you for scheduling a second meeting.

When TDHCA was created, I believe in the mid '80s, the economy in Texas, and especially Houston, took a big hit because of the oil bust. People were losing their homes in record numbers and apartment complexes had such high vacancy rates that they were shutting down and abandoning their properties. The state did what it needed to do by creating your agency to entice developers and investors to build affordable housing by offering low interest loans and offering tax credits, and it worked. People were able to provide housing for their families and the economy eventually turned around.

Today is a totally different story. The economy in Texas, and again, especially in Houston, is better than it's been in over 20 years. The unemployment rate is extremely low. A short drive through the Houston area will prove this simply by the number of help wanted signs hanging in front of businesses.

In my opinion, the only purpose the developer has for applying for this permit is to finance a project as cheaply as possible. The system is a good one when used properly; however, in this case I feel it's being abused. I don't mind helping others who need it, I do have a problem when my tax dollar is used to help someone else make money. The developer's claim of $40,000 annual median income in our area, and this is misleading; the research shows the figure to be closer to $60,000.

Again, I believe the system is being abused and it needs to stop, and it looks like this is an excellent time to stop it.

There's an abundance of available apartments in close proximity to the proposed Meadowlands Apartments. All have vacancies and are offering specials such as one free month, and most of them moderately priced. To illustrate three such properties, the Point at Steeplechase, across the street from where the proposed development would be, is offering one-bedroom apartments at $450 per month, two bedrooms are $699. Camden Properties is also across the street and has one-bedroom apartments at $522 and two bedrooms at $710. Steepleway Downs, a short distance away on Steepleway Boulevard, is renting one-bedroom apartments for $525 and two bedrooms at $760.

Compared to the developer's proposed rental rates, as stated in the application, a one-bedroom would be $625, a two-bedroom would be $751, I'm kind of wondering how many low income people are going to be able to move into an apartment complex that's charging over $100 a month more, and in some cases more than $100, in order to meet their needs. In my opinion, there is no need for this apartment complex. Thank you.

(Applause.)

MALE SPEAKER: Not to mention how many banners are up that have a month and a half free rent.

MS. MEYER: Sir, please do not interrupt the meeting.

MALE SPEAKER: Well, I wanted to put that in.

MS. MEYER: Ed Good is the next speaker.

MR. GOOD: Hi. My name is Ed Good. I've been a resident of Steeplechase almost eleven years now with my family, and I don't have prepared facts and figures such as the predecessor speakers, however, it's pretty obvious from just observation that the development is going to add a lot of residents so we're going to add a lot of kids to our school, it's already overcrowded, we have a lot of temporary classrooms. It's going to add crime in our neighborhood, it's going to add traffic, and it's going to degrade our property values.

And with all of that, I'm adamantly opposed to this development.

(Applause.)

MS. MEYER: Jeff Stepanik.

MR. STEPANIK: My name is Jeff Stepanik, and

I'm going to start, I was doing a little bit of web searching, and I'm going to start with an article -- I'd be happy to submit it if you'd like -- coming from the Houston Architects Information Forum.

The paragraph starts off: "Due to a recent loophole created in order to increase the availability of affordable, low income housing in Harris County..." I need to go no further with the statement. What we're dealing with is we're talking about a loophole -- it's your money, it's my money.

Looking into this a little bit further, I pulled the documentation for the 2006 Multifamily Housing Revenue Bond rolls. I'm talking about page 12 of 12 when they talk about Section I, Public Hearings and Board Decisions. In summary, this is what the board is supposed to look at when making a decision in regards to approving their bond.

In my review, 9 out of 17 of the considerations are in question. I'll briefly go through them; hopefully the board will take the time to review these a little bit further.

Number two, the location and supporting board geographical dispersion. It's my understanding that when this developer came in and looked at the region, it was a three-county region. Am I correct with that? Did you look for the neighborhood, the specific area, the ten-mile radius? Any input on that?

MR. VERMA: It was a three- to four-mile radius.

MR. STEPANIK: A three- to four-mile radius with the statistics that you provided last time? Okay.

The business logic, number four, that goes behind this does not make sense. Number four was rated as the financial feasibility.

With the apartment complexes in a community, they're running at a low occupancy rate. To me, that reverts to the law of supply and demand. The supply is there, we have apartment complexes in our community. There's nothing with affordable housing for people, I don't think that anybody here objects. I think what makes sense in regards to my tax dollar and my barn money and where I appreciate it to be spent by the state in funding projects like this are in areas that it's needed.

If there's a supply out there, not yet a demand in apartment complexes -- one in particular is filing bankruptcy -- what would an apartment complex like this do neighboring this? It's going to put the nails in the coffins of the existing business, we're going to create more building in an area that's not really needed.

Moving forward, number seven, the development's proximity to other low income housing developments. According to what I was able to find out, there's two other places within a one-mile proximity of affordable housing. Again, what is the saturation rate of these apartment complexes? The gentleman at the last hearing stated it was 88 percent; because he was not able to keep an industry standard of 92 percent, they have filed for bankruptcy.

The availability of adequate public facilities, when I think of low affordable housing, I'm thinking of people that can't afford to go out and see the Astros play on a weekly basis, go down to a Texans game because of the cost. Unfortunately, here I believe that things like public parks are a necessity. There are no public parks in this area. Where would these people go? I know that you guys graciously stated that you're going to put up two playgrounds in the units. Thank you, but that does not keep the kids from 18 to 6 or whatever age would be out on the playground. There's not enough facilities for that.

The impact on the local schools then on the local schools. Let's talk about this, this is horrible. We're already at maximum capacity. We want to bring in another low income housing community, it's going to increase the population in the schools.

I was in the school the other day, a teacher came in -- cut off. Okay.

(Applause.)

MS. MEYER: All the items that he listed are on our website, and you're welcome if you have any questions. My information is in the information packet. Theresa Morales is the administrator of the program. You can E-mail her or you can E-mail me, and I'll be glad to point you right in the direction of where that exact information is if you want to see exactly.

If you look at the back where it says TheresaMorales@TDHCA, if you will replace my name with Theresa's, and it's R-O-B-B-Y-E.M-E-Y-E-R, and you can E-mail Theresa and she can forward it to me. My name is somewhere on this information, I promise you.

The next one I have is Fannie Masse.

MS. MASSE: I think the people have already covered my points.

MS. MEYER: James Fields.

MR. FIELDS: First, I want to thank everybody here, friends, neighbors and the TDHCA for allowing me to contribute to this meeting.

I live in Jersey Village, and I just want to tell you my experiences so far from high density living. Last year we had a car that was car-jacked at the CVS Pharmacy -- I don't know what that street is. Unlucky for these guys, lucky for us, that was an off-duty officer, rehabilitated one on the spot, sent the other one to the hospital.

(Applause.)

MR. FIELDS: Secondly, what's happening to our neighborhood here is also we had a home invasion, broad daylight, and they bust into these people's house, held them hostage, and again, these guys aren't too smart, the police station was 100 feet away, they got them.

But my point is that the more apartments we get, the more crime we're going to get, and I know that for a fact because I've lived here the last 16 years. Since we've put these apartments in, the last six years it's gone up dramatically.

Also with this will go traffic. I guarantee you our quality of life will go down as well. It's already a beast just to drive down the road just to get to Kroger's now. You add that on to it, it's just going to get worse.

I didn't have time to prepare and I fault Gary

Elkins. I think he should have notified all his constituents what's going on. The cows are out of the barn and now he's coming back going, Well, there's nothing we can do. Well, that's poppycock. That's poor representation.

So anyway, that's my two cents, and I'm with you guys and I'm against it as well. Thank you again.

(Applause.)

MS. MEYER: Paul Bonneaux.

MR. BONNEAUX: Hi. I'm Paul Bonneaux, a resident of Steeplechase for 19-plus years. We went through this exercise two years ago, different developer, same property.

To me, this represents a very poor business plan. I work for a hundred million dollar a year construction company. If I laid a plan out like this to my board of directors, they'd laugh me off. You're trying to put in an apartment complex where there are already many around, obviously not filled. You're stating it's low income; you have nothing to support the low income families that move in here, there's no public transportation, there's not even sidewalks in the area and no plans to build these. There is no large employment base, it's all service/retail jobs that are available in short walking or driving distance.

And I just feel this is wrong, wrong, wrong. I'm highly opposed to this and I think something needs to be done with this particular piece of property, put it to bed as a public park or something else other than a low income property.

As the previous people have spoken, the crime rate has gone up, and I, for one, am tired of dodging shopping buggies on the side of the road and stuff and looking at graffiti. Enough is enough, guys.

And I really question your representation. You seem to be very leery of divulging who you are, where you're from, all the more reason to be more nervous about this. Thank you.

(Applause.)

MS. MEYER: Laura Neidhardt.

MS. NEIDHARDT: Hello. My name is Laura Neidhardt, and I live in Willow Bridge, I've lived there for twelve years now, and I'm very concerned about this. I agree I don't want my tax dollars going towards this, I don't think this was the original intention for that money.

I have a few different points. I think the first one is it doesn't make sense to me to put this in this area. It seems like there's a lot more areas that are in greater need for low income housing. But if the goal of putting it out here is because you're wanting to actually spread them out and not have them concentrated in one area, then again, why are we trying to put a third one in such a close, small area.

And I have not heard an answer. It sounds like there is some question about the application not on this one actually being within one-mile radius. Can you speak to that? I've heard several people say that the part of the application checked off that there was not another one of these within a one-mile radius.

MS. MEYER: I couldn't answer that; I'll be glad to answer it if you E-mail me.

MS. NEIDHARDT: Okay. Second of all, again, just there's no bus service. Yes, there's a park-and-ride a ways down but there's no city bus system, so I just think there's more appropriate places for this.

The second point I have, two points, is regarding the schools and crime. First of all, crime. Are there any deputies in here? If you ask the sheriffs about if there's any increased crime in the Sugar Creek Apartments, they will absolutely tell you yes, a lot.

The second one is schools. We were quoted this ridiculous 74 kids added to the schools from this project. If you ask anyone else, teachers, people that are in the know, that is just absurd. And who's going to be responsible after this? You say there's not going to be increased crime, you say you're going to do crime checks and that there's only going to be 74 kids out of this project. Are you going to be responsible for this later paying more for all of our homeowners associations to have to pay for more increased sheriffs' coverage as well as putting more money into our schools to cover the overcrowding?

And I'm sorry to say it, but low income houses, parents are not involved in the schools, it is a much bigger drain on our schools. I'm not saying they're bad people, maybe they're having to work all day, everyone in the family, but it's even a bigger drain on the schools than just the number of kids.

I'm just definitely against this. Thank you.

(Applause.)

MS. MEYER: Janet Donath.

MS. DONATH: I'm Janet Donath. I've lived in Steeplechase for over 13 years now. I am a registered nurse, and I'm going to speak to this issue from a totally different perspective.

I worked for charity organizations and non-profit organizations for over 20 years, I am still opposed to this housing being brought into our community with the reasons of we don't teach people how to live in apartments and how to live in a better quality housing area, and no matter what they show us now, in three years it will not look like this unless they do some education.

I have had to take people from substandard housing and put them into apartments and teach them how to use a thermostat, how to use telephone systems, about what flushing toilets are for, and these are personal experiences. I did home health for many, many years, and I'm not opposed to poor people, and I have helped them move up in their lives, but you can't just put them in a place with no education, no means of transportation to a good work source -- which this does not have.

They've never said how many parking spaces they have. Most low income families depend on public transportation which is truly not available in our area. And also, to move them into this without getting them to sign affidavits that if gang activity results from their area, drugs, anything that is detrimental to our area, they will immediately lose their housing.

(Applause.)

MS. MEYER: John Lance.

MR. LANCE: Hello. I'm John Lance, and I want to thank you for your time to come out and listen to us talk.

I have a roof consulting business and I've been involved with a project on the southeast side of town, the Wood Forest Apartments, it's also an affordable housing project. In my year and a half of being involved with them, I found that it was very poorly designed, it was very poorly built, it was very poorly supervised, and over the last year there has been nothing done to correct those people's problems. And so I don't have a lot of faith in where we're going here with this project compared to what I've seen down there.

It takes you about ten minutes to sit in that management office to listen to what's going on in there to find out that there are a lot of problem tenants out there, and one of the things that I hear the most is they might be a problem but you can't get rid of them. And so I think that once we get this property in, we're going to end up with the same thing. We're going to get people in that don't fit into this community, don't fit in with our lifestyle, and we're going to be stuck with a problem.

I just think it's a poor idea. That's it.

(Applause.)

MS. MEYER: Lori Brown.

MS. BROWN: Hi. I'm Lori Brown. I've lived in the Willow Bridge subdivision for about ten years now. And personally -- I haven't done a lot of research, I don't have a lot of numbers to give people -- but just having lived in that area, one of the reasons why I moved out to the suburbs was to get away from the crime area. I lived in the Westheimer area for a long time and it was very convenient for work; I didn't feel safe walking from my car to my door every night, so I moved out to the suburbs, felt very safe.

But over the last ten years, as they've opened up West Road under that beltway, as we've built apartment complex after apartment complex, even expensive ones, $1,100 rent, doesn't matter. It's an apartment complex, it's people that don't generally respect the property that they live in or the things around them, and I can't even count how many apartment complexes have been built since I moved to the area.

And literally when I first moved to the area, I could leave my door unlocked, I could leave my car outside in the driveway and not have to worry about it, but constantly we are being barraged with security updates from our homeowners associations and things on the news about the increased crime in the area, and I just know that that is going to get worse with all of this going on.

I personally don't want any more apartment complexes, I don't care if they're million dollar apartment complexes, I don't want any more. And I don't know that we can fix that problem but maybe we can start with this one.

And the other thing that really concerns me is the school overcrowding. My son is in second grade now. Two years ago when he started in kindergarten they allocated eight kindergarten classes for all the kids; they dreadfully underestimated the number of kindergartners that were going to be registered. Based on all of their previous experience, on pre-registration, number of houses in the area, all the information that the teachers and the administration of the school have, they thought they needed eight and they thought they had well estimated the number of teacher-to-student ratios that they would have to accommodate, and within a matter of three days they had to get two more -- and these are classes of 20 kids -- they had to get two more teachers and we ended up with ten kindergarten classes, and it was just a mess, it was an absolute mess.

And that is because we have so many apartment complexes with so many kids and these estimates of 74 kids per apartment complex which we know is not accurate but we have to deal with it.

I'm a parent, I have to deal with PTO, I am barraged with these stupid popcorn fundraiser things that we all have to do because our taxpayer dollars aren't funding what they need to fund for the schools because the parents are having to pick up the brunt of that, and I personally am opposed to that. And I wish that the Texas Department of whatever it is -- the TDHCA would oppose this project. Thank you.

(Applause.)

MS. MEYER: Mary Path.

MS. PATH: Hi. I'm Mary Path. I'm at Steeplechase, I've been there seven years. Like some of the others, basically I'd say ditto to what everyone else has said. I'm tired of picking up shopping carts and moving them, picking up trash. We already have the two apartment complexes that people have talked about that aren't fully rented or in full utilization. Basically, Texas Department of Housing and Community Affairs, if you'd rethink this.

Part of my reason for moving out to

Steeplechase was the community. Adding another complex that's affordable, low income basically devalues everything that I've worked for and my family has worked for.

So with that said, the market analysis that was part of your business plan, I would ask for a refund because it's completely inaccurate.

(Applause.)

MS. MEYER: Tom Harkay.

MR. HARKAY: I didn't really have any prepared notes because I missed the last meeting because I was out of town. And what I do, I work for Ditech.com which we're owned by GMAC, and the bulk of my job is first-time homebuyership, educational seminars. We're working primarily in the Hispanic market and with the African-American community.

And it's funny that -- most of my questions, by the way, have been answered, but in hearing what has been said, the bulk of my business is getting people out of these into first time homebuyers, because as one lady had said before, it's already been proven in most states that people do not respect what they do not own. So Ditech is taking it upon themselves to really push the first time homebuyership. Developers that were previously building these are now building affordable housing to purchase because when you own it, you take care of it, there's a pride of ownership you just don't have in an apartment complex.

I'm originally from California. They dumped this idea about 15 years ago. If you've never been to North Hollywood or Van Nuys, I suggest you go, because today you can see what's left of the Valley since they put all of this in, and even though property values have skyrocketed out there, to me the damage has been done because the apartments are there, and once a building is there, you can't get rid of it.

What I see here, I've only been in Willow Bridge for four years, I've only been here four years, I think Houston is on track to become another L.A. if they don't keep the building in check, and I don't mean just this area, it's everywhere I go. This is L.A. 1985, filling every little green space you can. When I saw that on Jones Road I thought this is where the park should be. We lost the park space that was over where the Watermark Apartments went on West Road. In four years I've seen six apartment complexes go up. How many apartments can you possibly need?

And with this here, I would say get with a developer that does building, you build for ownership, whether it's townhomes, it's single family homes. Houston is definitely not short on space, not just southeast parts. It's kind of weird how it's just scattered all over this town. So much property here could be demo'd, it's literally abandoned, vacant lots that nobody is taking care of, give people something to own. There's just way too many apartments going on over here.

(Applause.)

MS. MEYER: Daniel Della Sala. If I'm butchering your name, I apologize.

MR. DELLA SALA: My name is Dan Della Sala. I'm a retired detective out of Houston and I was a federal agent for twelve years; I'm also the security director for Winchester Country.

But let me tell you what I used to do. I used to go to these communities and deal with the problems for these smaller cities and their crime rates, and I put 70 to 80 percent of the people I put in the penitentiary -- I worked my ass of, I'm sorry -- they all are from low income housing; 80 percent of the people I put in the penitentiary, state and federal, were from low income housing.

Harris County is a little bit different than a lot of these smaller cities and the city of Houston where we basically pay taxes plus we pay for police protection again in our subdivisions which is ludicrous but we have to do it because they don't have enough police officers to go around unless we pay for them.

It's a 70-30 split. We pay 70 percent of the subdivisions fees which in Winchester Country we're paying right around $75,000 a year. They have one district unit in that area. They're going to be pulling Harris County officers into these low income housing. I'm telling you, I've been there, I worked it for 25 years. When I did raids, drug busts, they were all in low income housing. They weren't in neighborhoods that you and I have got up every single morning and went to work to earn, they were very few.

The reason they're coming out here right now is because the City of Houston Third Ward, they're renovating it, they're renovating everything down in the city of Houston making it unaffordable for the housing for these slugs here to build.

But I'm telling you, I did it in all cities in this country and I went into these cities to help these small communities because they couldn't handle the crime, they couldn't understand it, they didn't have enough officers, so we went in as federal agents. And by the way, the housing authority, when you go in on raids and try to find information out, the man will serve his sentence before you get the information from them.

MALE SPEAKER: Yes, they don't know anything already, we asked them a few questions.

MR. DELLA SALA: You don't know who is in those apartments when you do a raid, you don't know where they are, there's a whole lot of people in there. The management on every one of them that I've ever been to -- and it can be on record because you can check all my arrests in the state of Texas and in this country -- they've all been in low income areas. Our prisons are 72 percent filled with low income people.

Now, I know that's a problem this country has, but we all moved out to this area out of the city of Houston to get away from it, and they're bringing it to us. And the Texas Housing Authority is bringing it to us too.

MALE SPEAKER: Thank you, Texas Housing Authority. How wonderful of you. Why don't you live in there? Why don't you get an apartment there?

MS. MEYER: There's two on this next one, Deborah Armel and Jeff Mueller.

MS. ARMEL: I'm Debbie Armel. I'm from Winchester Country. Dan Della Sala and Jeff Mueller are also here.

We are the largest subdivision along West Road between Jones and the beltway. We were never ever contacted through our management company or any of the directors that this project was even going. We found out at the last minute.

I also work with a lot of data and the subdivisions in this area, we're nowhere near what they're saying the median household income, those zip codes and everything, so they're going to try to bring in people that make basically poverty level.

Winchester County alone had several redistricting on behalf of Cy-Fair. Every time we turn around, they're trying to redistrict us, the elementary school, the middle school, the high school.

So we are totally against this project and I'm going to turn it over to Director Mueller.

(Applause.)

MR. MUELLER: One of the thing I'm just going to reiterate. This previous year I was the president of the Winchester Country Maintenance Association, I'm currently the vice president. We were told -- matter of fact, we had one of our directors at the last meeting, and we were told that the developer contacted us and stated the fact that I was for this. I have not had any communication with them, I have not talked to them whatsoever.

And in talking with our management company, SCS Management which is one of the larger management companies in the area, they have not been contacted to find out from any of the properties they manage whether or not we wanted to participate in any kind of dialogue.

I will say that I think it was last week we were contacted by the developer that they would like to meet with us, and we're trying to work out some type of time frame, but it's kind of like after the fact. So I just wanted to say for the record that Winchester Country was not contacted whatsoever during my term as president.

(Applause.)

MS. MEYER: Angela Belcher.

MS. BELCHER: Again, my name is Angela. I just wanted to speak to everyone just about our management company, United Apartment Group, and then give you maybe some information in case you'd like to look up some other properties that we manage in Houston, San Antonio, Dallas, Austin. I can provide you with that website address if you'd like to get some additional information about our company and any communities that we offer.

We currently have nine affordable communities, 25 conventional communities, 34 total in our portfolio, and we do manage about 20,000 units in the Texas region. We do have a commitment to excellence, we manage our asset like it's our own and we do manage our properties with a zero tolerance.

So I just wanted to express that to anyone and then provide you, again, with the website address in case you'd like to look up any additional information about the company.

FEMALE SPEAKER: Can you tell us what it is?

MS. BELCHER: Sure. It's unitedapartmentgroup.com, all together, one word.

MALE SPEAKER: Do you provide security to those places?

MS. BELCHER: Yes, I do. As a matter of fact, one of the officers is right there.

MALE SPEAKER: What part of San Antonio do you have these places?

MS. BELCHER: They're all over San Antonio, throughout the whole city. On the website address, you can actually see photographs of the properties, all the information, how many units they have, what's in the general area, all that information is on the website, along with information about me personally and my experience. I've been doing this for about 15 years.

FEMALE SPEAKER: But we don't need any more apartments, that's the bottom line.

MALE SPEAKER: We're apartment-out over here, take them somewhere else.

MALE SPEAKER: Look at what the apartments have done to the southwest side of Houston, you can't live there anymore. I lived there in 1981 off of Braeswood.

MS. BELCHER: I do live here.

MALE SPEAKER: I'm saying you can't live on the southwest side of town anymore, and what they're trying to do is bring that out to the northwest side now so we can't live here anymore. Look at the crime rate, contact some of your precincts on the southwest side of Houston, they're horrible down there.

MS. BELCHER: What I would invite you to do is if you'd like to know -- and I don't know if anyone has done this already -- any statistics for that particular block, if you contact your precinct, they can tell you what goes on in that block, but mind you, when they give you those numbers they'll give you from maybe the 9000 block to the 12000 block, whatever their beat is.

MALE SPEAKER: Do you live near any of these projects?

MS. BELCHER: Yes, I do.

MALE SPEAKER: Which ones?

MS. BELCHER: I live on the southwest side of Houston.

MALE SPEAKER: But you just said 9000 block of Westheimer was at Fondren, but that's not, that's at Westerlin.

MS. BELCHER: That's considered southwest to me.

MALE SPEAKER: But I'm saying you said the 9000 block of Westheimer at Fondren. Check a map.

MS. BELCHER: If you look at the address 9407 Westheimer, if you go two streets up, that's Fondren, if you go one street back, that's Westerlin. So that is the Fondren area.

FEMALE SPEAKER: Can you give us the names of a couple more complexes that you run here in the Houston area that we can go and look at?

MS. BELCHER: Sure. There's Quay Point, Q-U-A-Y; there's Oaks of Baytown; Westheimer Terrace and Westheimer Park. Those are the four that we currently have.

FEMALE SPEAKER: Do you actually pay or do you have an [indiscernible]?

MS. BELCHER: Two of our properties are bond communities which is similar to tax credit, the other two are conventional.

FEMALE SPEAKER: Do you personally have to pay for where you live, or is that part of your job that you get a place?

MS. BELCHER: I pay for where I live.

FEMALE SPEAKER: And with no discount?

MS. BELCHER: No.

MALE SPEAKER: This young lady made a statement I'd like to clarify, if I may. May I?

MS. MEYER: We're trying to do public comment, and as I said, if we have time at the end of the period, I will be glad to let you make your statement. And actually, you can make public comment as soon as the next person comes up.

MALE SPEAKER: I have a problem with the statements made and it's misleading.

MS. MEYER: You can clarify it if you want to make public comment, that's fine.

Steven Zeffert.

MR. ZEFFERT: I'm Steven Zeffert. I live in Willow Bridge, and I've been listening to this meeting for about an hour and I keep noticing certain trends. Towards the beginning people were asking how many apartment complexes were in the area which were affordable housing or low income housing. Obviously people can't tell which ones they are simply by driving by.

The location that we're talking about is surrounded by apartments already, it will end up being apartments. Nobody is going to build single family homes when it's already going to be surrounded by apartments, so sooner or later --

MALE SPEAKER: Put a park in there, that's what we could use.

MALE SPEAKER: There's a car wash on the corner.

MS. MEYER: Could you please not interrupt the speaker. If you would like to make public comment, I'll be glad to let you be heard.

MR. ZEFFERT: If you know someone wealthy who wants to contribute the money to turn it into a park, that might work, but otherwise, it will eventually be some kind of apartments. There will either be affordable housing which means there will be a stack of regulations to make sure they stay straight, or it just will just be market rate housing and then you don't know.

MALE SPEAKER: You're smoking some bad weed, buddy.

MR. ZEFFERT: You know, this room is so full of negative energy. All of you came here looking for a fight, you're not even trying to learn the facts.

MALE SPEAKER: We want them out of here.

MR. ZEFFERT: Excuse me?

MALE SPEAKER: We want them out of here, that's what we're here for.

FEMALE SPEAKER: Will you hush, please.

MALE SPEAKER: Go ahead, sir. I'm sorry.

MR. ZEFFERT: Now, some of the issues that were raised have to do with schools and transportation and parking and sidewalks. Those are valid issues, and these guys are going to have to deal with it if they want their property to cash flow. For their property to work, they're going to have to find people to rent up and pay the rent and stay there and not move out, they'll have to maintain them. It's just like any other business.

They're going to have a challenge to get people to come in when there's not public transportation, when there's not sidewalks, and there may not be enough jobs in the area. But in general, most projects like this do work and most of them don't look bad because you don't notice them because they don't look bad.

MALE SPEAKER: I'll take the FBI's information over yours any day.

MS. MEYER: Jill Lindauer.

MS. LINDAUER: My name is Jill Lindauer, and I've lived in Steeplechase for almost twelve years.

I guess I have two points. The first one was, as he said, we kind of need to be stating facts, and obviously most of us have the same opinion which is we don't want this built, but I would like to ask you all to do the same. And I feel a lot frustrated when you stand here, and I know at the past two previous meetings -- and I've already forgotten your name and I'm sorry.

MR. THORSE: Greg.

MS. LINDAUER: Greg, you stood up and you said this is the best thing for this community, and it frustrates me because I'm thinking you don't live in this community, you don't raise your children here and your kids aren't here, and you didn't invest your home here. So I would appreciate from you all to not tell us what is the best for our community. It's the best thing for your business, perhaps, but it's not the best thing necessarily to us.

(Applause.)

MS. LINDAUER: Now, the subject of the schools was one that I did follow up on, and I spoke with Blanca Cooper today. She's in Research and Planning at Cy-Fair. And she pulled up the paperwork that had been submitted by the company, and perhaps there was a mistake on that, at the time they thought the information said that it was 232, not 236 units, well, maybe that's changed since that was submitted.

And the ratio that these folks were given -- and I'm sure there's room for error on both sides -- but the ratio they were given was that you take the number of apartments and you figure 2-1/2 apartments per student, so if you take 232 which was their information and divide that by 2-1/2, you're going to have -- if my math is right -- 94 students, not 74. But she did not know, according to the paperwork that had been submitted at that time, that it was low income, and she said that that is a different formula, that it does go up.

Now, all of us that have worked in schools, especially if we've worked in low income areas, if we've worked in places where these kids are safer at school than they are at home, we know that for sure there's going to be way more than any 94 kids, we all know that. So that's just to clarify that.

But then that bears the question, if that information that we got from you was wrong, what else is wrong? That concerns me. And again, if they weren't told that they needed to submit that this was low income property, then the information they got back from the district is wrong, they may not be at fault. But it does make me think: Oh, dear, what else is inaccurate, what else is being misrepresented to us?

And finally, the philanthropic, altruistic idea behind it is great, and I feel a little conflicted myself, being a former teacher of kids coming from really low income, that ultimately no matter what their underlying mission is, it's a business venture for them, it's a moneymaker, just as my home purchase was for me. I invested so I can make money when I eventually sell it.

And so even though I'm conflicted and I think I don't want to be pushing those kind of folks out and saying not in my back yard, I kind of have to say not in my back yard. Just as they want to make money, so do I, and that's why we are on two different sides.

(Applause.)

MS. MEYER: William Kuschmeider.

MR. KUSCHMEIDER: I spoke at the last meeting and I mentioned about the security checks that they're going to do, the background checks they're going to do on the people that move in, and I asked them at that time are they going to do boyfriend, ex-husband background checks, and of course, we have to keep that in mind.

But what I want to do today is I want to tell you a little story. What's refreshing is that everybody that comes up here says I've lived in this neighborhood six years, seven years, ten years, nine years. Let me tell you a story.

1980, my wife Rosemary and I moved to Houston and we lived on Antoine and Tidwell, and if you know that area, in 1980 that was a pretty nice area in Houston. One afternoon on a Saturday, Rose and I were looking to buy a house and we drove out 290 which was a two-lane highway, blacktop, we turned right on Jones Road which was a two-lane both way, one way, we drove past a subdivision called Steeplechase, we drove through it. We looked at each other and we said, You know what, Hon, we can't afford to live in here.

These guys made mention of a one family apartment with an income maxed out at $25,000. When we drove by this subdivision in 1980, both of us made $25,000 each.

We bought a house out on Greens Road. We backed out of that deal and we decided we were going to take it, we were going to get strapped, and we were going to build a house. We built a house in Steeplechase in the back part of the subdivision and we paid $74,000 for that house, we lived in that house for seven years. When we sold that house, we looked in Copperfield, we looked in The Woodlands, we looked everywhere, we decided to build another house in Steeplechase. We paid $115,000 for that house which is at the very front of the subdivision. Okay. When we sold our house, we barely made a thousand dollars on that house after seven years later. Okay?

Today our property values are finally going up. We're living in what I consider a mid scale or upper scale subdivision, and with you guys building these apartments, you know what, I think you guys are doing an injustice for these low income families. You ought to be building in The Woodlands, in Memorial, in River Oaks. You're doing them an injustice. If you want these people to have better living, build there, because we're just middle class. You people need to go to The Woodlands and River Oaks.

(Applause.)

MS. MEYER: Fred Edler.

MR. EDLER: Thank you. My name is Fred Edler. I didn't intend to speak tonight but I wanted to refute something this young lady said from the management company.

I'm president of the Willow Bridge Homeowners Association, chairman of the West Road Security Alliance, and I also am the coordinator for the MUD 11 contract with the deputies. We contract with three deputies.

I questioned them about the job of security at the apartment complexes. That deputy is called a courtesy officer -- the deputies I interviewed said that's a very common term, that's what it's called -- and that they really don't work for the residents, their job is to protect the complex, the management company, the owners. Their job is to walk around the complex to make sure people aren't destroying it; their job is to check in at the pool, if something is going wrong at the pool, they will stop it. However, I was told that when it comes to family disputes and crimes committed on premises that actually an outside working on-duty patrol officer needs to be called.

So when they say they have security, it's for the security of the owners and the security of the management of the complex. It does not really truly protect the residents, it definitely does not protect the homeowners outside of that complex. Thank you.

(Applause.)

MS. MEYER: Joseph Houghton.

MR. HOUGHTON: Thank you for holding this second meeting, thank you for hearing us. My name is Joseph Houghton. I've lived in Steeplechase for about five years. I've enjoyed it but I am very concerned about the trends I've seen lately, and new apartments coming in. You've heard over and over again how many apartment complexes, low income apartment complexes we have. How many do you have to stack one right next to another, next to another, next to another? Why can't you spread them out?

I want to bring up three points I think why this is a bad idea, why they should be turned down.

One, it's a bad business decision. You've heard testimony already, several different people, businessmen talking about bad of an idea this is. These gentlemen bring up their studies and everything but they bring up skewed statistics, trying to lump other areas with Steeplechase. Skewed statistics won't work. But if you keep on building one bad complex after another, right next to each other, we've heard testimony here about the trends in the neighborhood already.

If you want to know what's going to go on in a neighborhood, what is happening in a neighborhood, don't ask some survey company, ask these people. We live there, we know. Our kids go to the school, we live there, and we know. What we say will be in those surveys later.

The second point I want to make is this really isn't helping the residents that they're bringing in. In theory it sounds good, real nice thing, let's take these people to a nice area. But if the area is already going down, if you already have schools that are consistently dangerous, if you already crime going up, you don't have the police protection to take care of the crime, and I have not heard anybody talking about contributing one single dollar toward the police protection that we're paying for in addition to our tax dollars.

My third point is there's just been too many discrepancies what they're saying. I've heard something about an application, discrepancies about whether or not there's new low income housing projects. They tell you that they contacted local people when clearly they have not. How many discrepancies are there, how many mistakes are there? At some point you have to doubt the sincerity of these people and doubt whether or not they've really done their homework.

And I ask for all these reasons, plus a lot more that everybody has said before, please turn this down.

(Applause.)

MS. MEYER: Lisa Barko-Meaux.

MS. BARKO-MEAUX: Hello, good evening. A lot of my points have already been said this evening, but I do want to get these on the record. My name is Lisa Barko, I'm a resident of Willow Bridge.

And in the research that I've conducted, I also found the regulations that are Texas Administrative Code, Title 10, Part 1, Chapter 1, Subchapter A, Rule 110(e)(1) through (11) that the TDHCA is supposed to consider. And mine that I'd like to point out have already been said, but I would like to have my piece said as well, are: number (2), the location of the proposed development; number (6), the development's proximity to other low income developments; and also the availability of adequate public facilities and services to support the residents of this proposed project.

I have to be honest, when I first heard about this project I was upset because it was low income and I was more concerned about myself, but when you look at the regs and what these types of facilities are supposed to do, they are supposed to empower and enable these people that are low income and that's why these facilities are designated for them.

With that being said, you have to look at the location and say why do you think this is wrong. We've already said there's two other facilities within less than a quarter mile, Sugar Creek and also the Spruce Manor facilities.

It's my understanding this project will be located in a volunteer fire department, Cy-Fair, which we're all grateful for, however, there have been some incidents -- on my street, as a matter of fact -- earlier this year where it wasn't the normal shift from 6:00 a.m. to 6:00 p.m. where they have staffed trucks, this was the volunteer shift on the weekend where we witnessed our neighbor's house burn. It took, according to the homeowner, about 18 minutes for the volunteers to show up and about 33 minutes for the actual trucks that could actually put water on the fire.

So I think this is a very good example of the public facilities not being adequate to support additional residents in the area.

Also, we talked about the medical center which is approximately two miles away. These people will likely have little if no access to their own transportation, there's no public transportation to get to the park-and-rides to get them to jobs, to get them to hospitals, to get them to grocery stores, to get them to pharmacies, to banks. They're going to have to walk on streets that have no sidewalks, and that poses danger for them, danger for the people in the area, as well as the grocery carts strewn along the streets.

I do want to go back and say we are very grateful for the Cy-Fair Volunteer Fire Department. They are the largest group in North America and they do a wonderful job out here.

And I've already talked about access to public transportation, and that according to the presentation, a family of three cannot earn more than $32,940 based on the AMFI that's been determined for the area. And how many people with that income will have transportation to get them around, to provide social services? There are no social services that I'm aware of in the Jersey Village Cy-Fair area, specifically along Jones Road that they may need to access. They're going to be downtown and in other facilities in other locations of the city.

I'm sorry?

MS. MEYER: You need to wrap up.

MS. BARKO-MEAUX: Okay. There is one facility called the Kindred Hospital of Houston, located very close, but that provides acute, long term service which is not what these residents would likely need. There is a pharmacy located right on Jones Road, very close but it only provides medication for children.

And I think all these points clearly show that there are inadequate services to service this proposed development, and I would request the TDHCA carefully consider if this really and truly is the best location of this facility and look at the regulations that were cited, Sections (2), (6) and (7). Thank you.

(Applause.)

MS. MEYER: Nace Peard.

MR. PEARD: I spoke before. If there is someone who hasn't spoken and has signed up.

MS. MEYER: You've still got time unless you just want to go last.

MR. PEARD: Thank you. My name is Nace Peard. I'm vice president of Steeplechase CIA and on the MUD 168 board; I've lived in the Steeplechase subdivision since 1989. And I'd like to first thank the board for getting this second meeting together so quickly. I know it's typically 30 days. Thank the developer for allowing it to happen because, as you can tell, we did need to be heard.

I really want to ask everyone on the board that their job is to approve or not approve this tax credit, it's not whether this apartment complex is in a good place or good for the community. As Mr. Green pointed out, until we know who we can vote for to change the rules, we have to ask you to help us to say no to these tax credits and these bonds that help these complexes come in. Yes, this may be a complex some day, and yes, maybe we can float a bond to make it a park and buy it ourselves, but until then, we need all the help we can get from the board to refuse what the community doesn't want.

There are places in southeast Houston and San Antonio and Corpus that have been spoken about before that want these apartments, these complexes, and for whatever reason they're coming to Harris County where the zoning is just right for this. This helped us in the '80s, it has not helped us now. We are going to try and change it but we need your help until then.

I wanted to briefly mention about statistics as far as the deputies. In our area, Sugar Creek, a deputy has told me that over 90 percent of his calls go to Sugar

Creek. He is there to protect us and we pay him, and he responds to all calls, as any officer would, but when over 90 percent of your calls go to one particular complex and it happens to be low income, it does send a signal.

And we do not want that in the community, we do not want it to pull down our crime rates, we do not what it to be a happy hunting ground for all the boyfriends, friends, neighbors' friends of the residents that are in these complexes. We know they need some assistance and help, as we've heard, but it's all their boyfriends and associates that seem to cause trouble and crime in the area.

So we do ask the board that they say no to these tax credits. Thank you.

(Applause.)

MS. MEYER: Elizabeth Hattman.

MS. HATTMAN: I'm Elizabeth Hattman, and I'm the president of the Steeplechase Community Association, and I would also like to thank the staff members from the TDHCA for arranging this second hearing, and also the developer for agreeing to come back here.

I'd like to take exception to one remark the gentleman made about Representative Elkins. He's been working with us on this for the last couple of months, we've met multiple times with his staff. It was really his protest of the last meeting that enabled and persuaded these officials to have this second hearing.

I'd also like to thank Jersey Village Mayor Heathcott who wrote a letter of opposition, as did our Commissioner Eversole. As you may know, our state senator has retired so we really don't have an active state senator at this time.

I'd also like to thank Emily Klein who is here from U.S. Congressman Culberson's office this evening.

So we have been working with our elected officials, they are supporting our opposition, and that's what I would just like to really close with.

I've been a board member since 1998 in Steeplechase. We have 1,644 homes. Let's face it, rarely do we all agree on one thing. However, in all my years of serving on the board, chairing the board, I've never seen an issue where virtually there was just unanimous agreement to oppose these projects. And so I ask that the board really take that into account.

I'd like to just quote briefly from County Commissioner Eversole's letter to the TDHCA when he said, "The residential community is adamantly opposed to the proposed location of this project." And I ask that you take that into account. Thank you.

(Applause.)

MS. MEYER: Ray Wachel.

MR. WACHEL: I'm Ray Wachel, a 19-year resident of Steeplechase. I was at the previous meeting, and I know a lot of you are sick of hearing my screaming and yelling, but I'm pretty involved there. Until somebody starts paying my way through life, I'm going to live the way I believe I need to live and say what I believe I need to say, and to who, I think, I need to say it to.

I'm opposed to this project. You know, I know what you are up to here. You're trying to make residence available for all this Katrina trash that came here from New Orleans, that's what you're trying to do.

You know, they had a job fair here in Houston at the Dome here last week -- it was on the news. Fifty-five thousand Katrina leftovers over here somewhere where they were scattered around, and they had 5,000 jobs available for those people, and you know, not one of those 5,000 jobs was taken. What does that tell you? These people want to suckle on the breast of society, they don't want to work, they want handouts, and that's what you want to put in my front yard, back yard and side yard, that's what you want to sponsor: love for your fellow man.

No, I don't love my fellow man like that. He don't love me, he's a worthless piece of trash. Okay, and you want to put him in my yard. Put him in your own yard, you do-gooder -- like hell, like hell. You guys ought to be ashamed of yourselves for building crap like this and lying about it.

Statistics, you can do anything with statistics. You can massage them to read anything you want. Why do you think we had the Enron that we had and all these affairs? Why do you think we have accountants that we have? Accounting should be simple: $2 in, $2 out, you got nothing left. It's the creative side that screws everything up, just like your skewed figures.

Okay. Can't believe any of this stuff unless you do the research yourself, you've got to do the research because you can be lied to, and you will be lied to. You'll be lied to by your state, county, federal government. You don't think they lie to you? You better stop smoking dope then.

Anyway, I'm opposed to this project, and you know what -- I shouldn't say this --

(General talking from audience.)

MR. WACHEL: Anyway, take it somewhere else. Thank you.

(Applause.)

MS. MEYER: Donna McNabb.

MS. McNABB: Hi. My name is Donna McNabb and I'm a Steeplechase resident, I have been for twelve years. My husband and I own our second home in Steeplechase, for the reason that many of you mentioned that you are in Steeplechase as well.

I want to bring up a separate point that hasn't been brought up yet. My son is seven years old, he is my only son, he is the reason I live. He goes to Brentwood Children's Academy which is across the street from this property. I'm adamantly opposed to people that will bring any harm to my son. And all the things that I've heard and the reasons I feel that he would be unsafe I think are justified.

There's also another daycare right around the corner from where Brentwood is at, and the question I would like to propose as well is why would we not allow for a liquor store to be near the children, we wouldn't allow a strip joint to be near the children, but we will put people that will bring a lot more crime to the area.

I just want to make that point now. Thank you.

(Applause.)

MS. MEYER: Ronald Green.

MR. RONALD GREEN: My name is Ronald Green. I've lived in Steeplechase for 23 years, since 1983, and we have seen the property go up and down. About the last two or three years we've seen a lot of trash on Steepleway Boulevard, bottles and beer cans and stuff like, that since these apartment complexes have been here.

I'm just going to be real short. I'm opposed to this, and my question is that if you're going to build another low income housing here and you already have several here now, to me it's inconceivable how you think you can do that. Why would it be profitable? Because it's not going to be profitable. All it's going to be profitable is to you because of tax credits. When you're getting 13-point whatever it is for that tax credit, yes, you're going to enjoy that, but for th residents in this area, they're not going to enjoy that because you've got your money and gone.

I think the state government has to be realistic and look at these things realistically and look at the residents that they're supposed to be upholding. If this meeting here is not meaningful to them to make a decision, then what are you there for? The state government should be for the people, not for the lobbyists or these people that have millions of dollars to pay for favors. This is not what the constitution is all about here in America.

I understand that everybody has a right to make money, and I'm not opposed to that, but I am opposed on a situation whereas we have no zoning laws in this state or this city, whereas it should be something of that nature where you have six apartment complexes already, a few have a tax credit, and now you want to build another one, and a lot of those apartments are not occupied, maybe some of them are going bankrupt. I mean, it doesn't make sense, it's not economically feasible, it doesn't make sense at all.

So why the heck are we here? We shouldn't be here, we should not be here. The situation is our state government needs to get a grip and they need to look at things a little more differently as opposed to yes, whatever. This is not the way to go. And if we have to change our voting style and get those people out of there and get some people who are looking at our rights, then we need to do so. That's what we really need to look at: our state government. Thank you.

(Applause.)

MS. MEYER: Jennifer Murray.

MS. MURRAY: Good evening. My name is Jennifer

Murray. I'd like to introduce myself as one of the newest residents of Steeplechase; I've lived here less than a year.

MALE SPEAKER: Welcome to the neighborhood.

MS. MURRAY: Thank you.

I think I have a little bit of a different perspective on what I'm going to share, and I guess to recap a little bit from what we had said last time, I'd introduced myself as teaching at Rice University and talking a little bit about what I teach, and that's leadership and I teach a course on entrepreneurial leadership.

And I say one of the ways that this just going through this exercise and what we're doing here is benefitting me is that when I'm in the classroom this next fall, one of the ways I will be challenging my students is say what do you do as an entrepreneurial leader when you've invested so much into a project that you feel really passionate about but then you find out it's not for the good of the community? What do you do at that point? Can you walk away, can you make that choice?

And really, I think those are the things that in theory a student in a classroom would be able to say yes, I can, but as we can see right here, it's not that easy, it's not that easy. These people have invested a lot in this project so at this point for them to be able to turn around, it takes a lot more guts and it takes a lot higher level of leadership.

So I challenge you in how you're viewing your investment and how you're handling this situation and for you to consider what really is good for this community and what your reputation is as a leader and as one of our fellow citizens in this state. So thank you.

(Applause.)

MS. MEYER: Is there anybody else that would like to speak?

MR. SWASEK: For the record, my name is Kevin Swasek and I'm one of the directors with Windermere Lakes Homeowners Association. We've seen a lot of Steeplechase residents here, we've seen a lot of Winchester area residents. I just want to say also there is one additional neighborhood that has not had representation up here that is opposed to the project, and that is Windermere Lakes. Thank you.

(Applause.)

MS. MEYER: Anyone else? Is there anybody else that would like to speak? Just state your name for the record.

MR. WILBER: My name is John Wilber. I live in the Stone Bridge, I've been there for four years, another community, like the gentleman said, is not represented here. I lived in Rolling Fork for seven years before that, so I've been in this area for eleven years now.

We saw the crime get very bad over there in Rolling Fork. We actually had the lady across the street from us, her door was kicked in and her and her boyfriend were shot dead, and my two boys -- it happened late at night -- they weren't up, but it's just too close to home for us, so we moved over to where we're at now.

Earlier a gentleman up here that I won't point out, but you all know who he was, said something about you cannot drive by these places and tell if they're affordable housing, low income housing or what. I'd invite everybody in here tonight when you leave, or tomorrow, to drive by the Sugar Creek -- I forget the road between Sugar Creek and Rock Place, but you can see on the back porch normally a family would have chairs and a grill or something, these people actually have two car seats pulled out of car are the benches they use on their porch.

You can also drive by Bristol Place. I don't now if Bristol Place is affordable housing, I'm pretty sure it's not low income housing, but please drive by the back side of Bristol Place, it's two lanes each way, the two lanes that run, I believe, north-south, the northbound lanes, the back side of Bristol Place, there's never less than 25 cars parked along that fence that closes off Bristol Place because there is not adequate parking.

They brought up to you people earlier how many parking spaces does Meadowlands offer. Do we have an idea of how many per unit?

MR. VERMA: It's 500 total.

MR. WILBER: Five hundred parking spaces total. That should be adequate, but go and look at these other two places and see what inadequacy in parking alone does.

That's all I have. Thank you. I'm from Stone Bridge, and we vehemently oppose this project too. Thank you.

(Applause.)

MS. MEYER: Anybody else?

MS. CHILDRESS: I'm from Willow Lake --

MS. MEYER: Please state your name, ma'am.

MS. CHILDRESS: Susan Childress. And we haven't been represented up here but we are also opposed to it. Unfortunately, most people work for a living, have children -- I left mine at home with a friend because I wanted to come to this and represent my whole street, my whole neighborhood.

My daughter goes to Cooke Middle School, and already they have -- I don't remember what it's called -- overloaded buses. They are riding three kids to a seat on the bus already because they're overloaded. I think that's dangerous, I hope they're going to do something about it or I'm going to be up at the school talking to them about it. That's all we need.

We won the Wal-Mart battle and got Wal-Mart out of there. However, instead of Wal-Mart, now we have what, two apartment complexes. They're very nice but we have two apartment complexes and I'm sure that's adding to the overloaded schools. That is not what we need is another apartment complex in our area.

Thank you.

(Applause.)

MS. MEYER: Please state your name.

MS. MORGAN: Hi. I'm Viva Morgan. I live in Tower Oaks and we just found out about this this afternoon, came to the meeting. Tower Oaks is north of 1960 off of Jones. We're opposed to this too, Tower Oaks is definitely opposed to this. We don't need this in our area.

I know what it's like at Antoine and Tidwell, I used to live at Antoine and Pinemont. You drive down Antoine now and look over there at those apartment units and see what kind of crime is over there now. That's why we moved out here. That's all I have to say.

(Applause.)

MS. MEYER: Anybody else? Just state your name for the record.

MR. FISHER: My name is Chip Fisher and I'm probably the newest one up here at Steeplechase, I've only been here about six months.

But as a trade person that is in the trade field, are you going to keep the upkeep on these properties up to par? What about the plumbing? When you have a problem, the sewage and everything is going to run out on the street, we all get affected from it. Are you going to teach them what not to put down the drains, the grease and all the other stuff? Because if you don't, then all of our water bills are going to go up because we're going to have to clean the drains out.

Low income housing apartment complexes, no one knows what to do. The drains and the sewers are always backed up. That's my problem.

(Applause.)

MS. MEYER: Anyone else?

MR. LITTON: My name is Bruce Litton. I've lived in Steeplechase for about eight years.

I've been real dismayed the last five or six years, as I know most of you have been, over the apartment that have gone up. Seems like every vacant lot, you're starting to see all those pipes sticking out and you go, Oh, my god, here comes more apartments. As a matter of fact, and we really don't necessarily want to, but we are considering moving because of that. I've worked in real estate in the past and I know that even these real nice apartments -- Stone Creek, I think, is the name of one of them -- over time they all go downhill, it's inevitable. So if you're starting out on the bottom end to begin with, so to speak, where does it go?

I used to do research for a real estate developer, researching apartment complexes, occupancy rates, things like that, for many of these, and so I know that, like I said, over time they will go downhill. And for that reason, we're considering moving. Thank you.

(Applause.)

MS. MEYER: Anybody else?

MR. FIKANE: My name is Les Fikane. My wife is Sylvia back in the back. We've lived in Jersey Village ever since 1982, and in 20-something years, you know what, this is the second event of something like this. There was a previous event similar to this in 1982 inside Jersey Village. A hundred percent of the local residents were all what, against it. But you know what? The backdoor politics got into the mix and there was the answer. And I promise you, America has got to wake up because your politicians are not listening to you. Is that true? That is very true, isn't it?

(Applause.)

MR. FIKANE: I promise you it's true, and so we've got to do whatever we've got to do with the results of what this comes out to be to be sure that all of us get up off of our fat duffs and do something about it. Thank you.

(Applause.)

MS. MEYER: Anybody else?

MR. MORROW: I don't have anything to say, I just want to represent another community. I wanted to talk into the mike. I want to represent Crossroads Park, we're totally opposed to this also. Ted Morrow.

MS. MEYER: Hang on just a second. Does anybody else want to make a comment? I'm going to answer questions here in just a second.

MS. McCORMICK: My name is Trisha McCormick, and I just hope that the people will realize that anyone can go to school and buy a home, you don't have to do an apartment, all you have to do is work hard, and if everybody does this, what's the point, why do we even go to school, why do we work, what are we trying to do? To come to a place like this where there is crime? It doesn't work. Thank you.

(Applause.)

MS. MEYER: Anybody else? Is there anybody else that wanted to speak? This is it.

MS. KIRK: My name is Diane Kirk. I sat on a jury about a year ago where they were trying to basically kick a family out of one of these types of low income housing places, and the property manager looked a lot like you, I don't know if it was you or not, I don't know if you've ever done that type of thing. But it was very difficult. The property manager said item after item of what this particular family had done wrong and how difficult it was to get them kicked out.

And when I was on the jury, we were trying to de3termine whether this child had had a gun and had shot it in a parking lot, and there were witnesses, two little girls, that said no, he didn't, but then there were adults that had to come up there with young children and said that they had been threatened if they came to testify. And I just hate to see that happening in our community. It looked like it happened a lot; based on what the property manager had to say it was a common type thing; and I just hate to see that over here.

Thank you. I'm opposed.

(Applause.)

MS. MEYER: Is there anybody else that wants to speak?

(No response.)

MS. MEYER: Okay. I'll answer questions as much as I possibly can. Yes, ma'am?

FEMALE SPEAKER: My question is this, when some issue like this comes up, why is the public not informed that there will be five or six or eight to these units going in all around the area? Like I said before, these people didn't even know these units are all around us already. And I think it's the state's responsibility to have the information. We can't get it.

MS. MEYER: The question is we don't inform you of everything that's in the neighborhood. It's kind of your responsibility to know what's in your neighborhood. I'm not trying to put that off. Our complete inventory of our multifamily properties is on our website. I'm not being mean, but everything we have.

FEMALE SPEAKER: Why don't you publish it?

MS. MEYER: Well, it is published, it's on our website. I can't get into that. It is published, we publish it. We update it Every time we have a board meeting.

FEMALE SPEAKER: Somebody in Austin is going to hear about it tomorrow.

MS. MEYER: Yes, sir?

MALE SPEAKER: What's the perceived property tax, the Cy-Fair school portion anticipated for this wonderful project? In other words, how much money is this project going to put into the Cy-Fair School District's budget?

MR. VERMA: We don't know.

MALE SPEAKER: Well, I'll give you an example. Sugar Creek, how many units have they got, 250-some? They pay $98,000 to the school tax fund. Now, think about that. All you homeowners, how much do you pay to the Cy-Fair School District for one little house, maybe you've got kids there, maybe you don't. And here's Sugar Creek over here paying 98 grand a year, and how many kids do you think they're pumping into the school system? Same thing over there, there's 74 children over there; that's until the 200-some women are going to get pregnant again and have more kids.

MS. MEYER: Yes, sir?

MALE SPEAKER: How many units are the building?

MS. MEYER: Two hundred thirty-six.

MALE SPEAKER: For the record, they're building 236 units, and the average family in America has 2-1/2 cars and you said 500 parking spots, they're already over max.

FEMALE SPEAKER: Are we allowed to ask questions to the developer?

MS. MEYER: Uh-huh.

FEMALE SPEAKER: I have two questions. First of all, where did you come up with your number of kids in your complex if it's 100 percent multifamily?

Secondly, if yo go look around these other apartment complexes that are the same as what you're putting in, more than half the time the security gates are broken which means that there is total access in and out, in and out. Are you going to constantly fix the gates when they're broken? Because even nice apartment complexes, the gates are broken, so what makes you any different?

And where did you come up with your number?

Because that’s been asked several times and never answered directly.

MR. VERMA: The first question about the number of students at our property that we anticipate.

FEMALE SPEAKER: No, number of kids.

MR. VERMA: Number of kids, I don’t know, but the number of students that we anticipate to attend the school district were 72 students.

FEMALE SPEAKER: How did you come up with that?

MR. VERMA: We got that information from the school district.

And to answer your other question about the security gates, well, I don’t manage those other properties. Have you been to our properties? I’ve asked you several times to come and visit our properties. We’ve invited Betty to bring everyone down to our properties we’ll be happy to show you our properties. But yes, we do maintain it. If the gate does not operate, yes, we will fix it.

FEMALE SPEAKER: But can I say this? You invited us to come one time but coming one time doesn’t really show anything. I mean, you have to go over and over again. So you didn’t answer my question again.

MALE SPEAKER: Do you live on property?

MR. VERMA: On our property?

MALE SPEAKER: Yes.

MR. VERMA: No.

(General talking from audience.)

MALE SPEAKER: What's your average length of ownership in years of the properties you own? Say hypothetically you get this property okayed, you build it, you get the tax credits, you might make a lot of cash. How quick do you plan on getting out and making it somebody else's property?

MR. VERMA: Because this is an affordable housing development, because we are under the tax credit program, TDHCA is monitoring it, our investors are monitoring it, we are here for a long time, we'll be here for 15 to 30 years, as we are on all of our tax credit developments.

FEMALE SPEAKER: Back to the number of children in this complex, there's going to be 72 three-bedroom units. Why would anybody want to have three bedrooms if they didn't have at least two children? And 72 three-bedrooms would be 104 children in those three-bedroom apartments. Then they have 104 two-bedroom apartments; that would be at least one child in that apartment and that would be 104 children. The total is 208 children in the project to fill those multiple bedroom apartments. Are they going to keep this kids locked up all the time?

MR. VERMA: There are kids, yes; those three-bedrooms will have kids. Are they going to be students? Not all of them will be students. The people that will live in our property are not renters for life. They're given that opportunity to have good, quality, safe housing and hopefully at one point they'll be able to buy a home. Isn't that the idea?

FEMALE SPEAKER: You cannot tell me that there's not going to be more children in the schools out of 208 children?

MR. VERMA: All I can tell you is we have a property, like I mentioned last time, that was completed last year that the students attend North Side Independent School District, it's a 252-unit property. We've contacted the school district, how many students are coming from our property; there are 52 students, 54 students, in that ballpark. And how many of those are new students? They can't answer that question.

(General talking from audience.)

MR. VERMA: Is our property full? yes, our property is full.

MALE SPEAKER: You say that these people aren't long term renters and hopefully they'll be able to buy a home someday, but the rents that you have quoted in here are quite a bit higher than the rents that were given by other people that have called around to other apartment complexes in the area? How do you propose somebody that's making below the poverty level is going to be able to save when they're paying $2- or $300 more a month for your apartment than they could across the street at apartments that are not subsidized by the taxpayer?

MR. VERMA: Well, first of all, the property is not subsidized.

MALE SPEAKER: The property is not but the bonds are, the tax credits.

MR. VERMA: It's not a subsidized program. But everyone is income-qualified, and if they don't earn enough, they're not able to live on the property, and vice versa, if they earn too much, they aren't able to live on the property.

MALE SPEAKER: [Inaudible.]

MS. MEYER: The board is scheduled to meet on August 30 in Austin.

MALE SPEAKER: Is it a public meeting?

MS. MEYER: It is a public meeting, the public is welcome, you are encouraged to attend. I will tell you this, it is going to be an extremely long meeting, however, we do have the bond transactions towards the front of the agenda so hopefully we will be through with the bond transactions by noon.

It starts at eight o'clock in the morning. If you do plan to come to that board meeting, I would suggest you be there when it starts. The board chair does have the right to rearrange the agenda, so you never know if something is going to move up. So if you are going to come, I encourage you to come. It is at the State Capitol in the auditorium. The agenda will be posted along with all of the board materials for this particular development on this Wednesday. It will be late in the evening, most likely, because there's so much material.

MALE SPEAKER: One more question. How many of these projects have been turned down in Houston in the last year? Has anything been turned down?

MS. MEYER: Yes, sir.

MALE SPEAKER: More than one?

MS. MEYER: More than one. Actually there have been several. I can answer that as a Open Records; you can send me an E-mail and I'll be glad to answer that question for you. Those figures, off the top of my head I can't give you.

FEMALE SPEAKER: There was one in Katy that was turned down.

MS. MEYER: That was Park West and it is on appeal.

MALE SPEAKER: It says on their presentation that a family of three can earn just under $33,000 to qualify to live in here. I've got eight kids. How much can I earn to live in your subdivision? I don't really. If I have eight kids, am I going to be allowed to move in?

MS. MEYER: Not in a three-bedroom apartment, because they have to go under our guidelines and it's two persons per bedroom.

(General talking from audience.)

FEMALE SPEAKER: I taught in Aldine for ten years, loved it, don't get me wrong, but all the apartments and all those children I taught, believe you me, there were multi families living in one apartment, and I know it was not monitored, you cannot tell me it was monitored. How do we know that it's going to be monitored?

MS. MEYER: It will be monitored by the state. I mean, it is done by our --

(General talking from audience.)

FEMALE SPEAKER: Once a year, once every six months? What is the schedule? And if so, if they catch them, I mean multi families, ten kids, God bless their hearts.

MS. MEYER: They're in violation of regulations.

FEMALE SPEAKER: Are they kicked out immediately?

MS. MEYER: No. But any time they're in material non-compliance, then they have to correct that or they put the whole deal in jeopardy.

Yes, sir?

MALE SPEAKER: [Indiscernible] how much they're going to charge, and everybody else is talking about the other apartment complexes are less expensive. Is this written in stone, or is this something just like anybody else that says, Well, we'll just drop the price down $100 or $200 cheaper?

MS. MEYER: They can adjust the rents down, they just can't go over that. And they're adjusted annually, obviously, for inflation.

Yes, sir?

MALE SPEAKER: Bringing up the point of state monitoring of these apartments, and the state already does such a great job of monitoring sex offenders, what's going to be done about sex offenders moving into those apartments? You know, this brochure says that they may do security checks or background checks, criminal checks, it doesn't say they will. There's no guarantee in here that they will do criminal background checks.

MR. THORSE: We didn't want to bring this up, but we did a three-mile search of sex offenders, 27 showed up on the map.

MALE SPEAKER: Oh, yes, they're definitely around, but we don't need more.

MR. THORSE: Twenty-six were in single family, one was in one multifamily property which was conventional, and zero were in affordable housing.

MALE SPEAKER: But we don't need any more in the neighborhood, we've already got 27, we don't need five or ten more.

MR. THORSE: They're not allowed to live in our properties.

FEMALE SPEAKER: You won't know.

MALE SPEAKER: Yes, since the state does such a good job of keeping track of them already.

MS. MEYER: Yes, sir?

MALE SPEAKER: Did you say the TDHCA board has final approval of this Meadowlands project?

MS. MEYER: For this transaction to be able to move forward, TDHCA's board has to approve it.

MALE SPEAKER: Is that final once they approve it, is it a done deal?

MS. MEYER: The Bond Review Board will actually finish out the bond transaction itself, but they deal initially with the bond transaction.

MALE SPEAKER: How many board members are here at this meeting?

MS. MEYER: Our board members don't attend the hearings.

MALE SPEAKER: Do they live in Austin?

MS. MEYER: No. Actually we have two that live here in Houston. We don't have any of our board members that live in Austin, actually.

Yes, sir?

MALE SPEAKER: Are you a member of the board, by chance?

MS. MEYER: No. I am staff.

MALE SPEAKER: Being new to the process, the last time we did battle with this, we wen through Harris County, this is now the state. How is the board appointed? Are they voted or are they appointed by the governor?

MS. MEYER: The board members are appointed by the governor; they have six-year terms; they rotate off every two years; they are confirmed by the Senate. They are governor-appointed.

MALE SPEAKER: I'd like to remind you folks this is an election year. Vote them out.

MS. MEYER: Yes, sir?

MALE SPEAKER: You said they can adjust the rent down. How far down can they adjust it?

MS. MEYER: Well, I mean, economically -- I guess they could down the economics for the deal, but there are just maximum rents that are actually imposed on the property.

MALE SPEAKER: Four hundred dollars?

MS. MEYER: I guess if it worked that way, I can't see that it would, but yes, they can adjust it down that far, but it doesn't make economic sense for the development to be able to pay its debt service on the bonds. It's right at $14 million that they're going to have debt service on.

MALE SPEAKER: You can make $32,000-something a year to live there, you could make $5- or $10,000 a year.

MS. MEYER: They have restrictions on who can move in and they usually --

MALE SPEAKER: You can make damn near nothing and live there.

MS. MEYER: They've got to be able to pay their rent.

Yes, sir?

MALE SPEAKER: Is the board going to be listening to these tapes in their entirety, or are they jut going to skim over some of the comments and some of the sheets that are turned in? Are they required to watch and listen to every single comment and question?

MS. MEYER: No. They have a complete copy of the transcript from the last meeting and this one, and I mean, they read it.

MALE SPEAKER: A copy of the transcript meaning they're going to watch the video or are you going to transcribe it?

MS. MEYER: If they wanted to see the video, they could.

MALE SPEAKER: So they may not even read the transcript then is what you're saying, so we may be commenting for nothing. They may just look at it.

MS. MEYER: I wouldn't say that about my board, no. I think if you show up to the meeting on the 30th, you will see that my board has read the information that was presented.

Any other questions?

(No response.)

MS. MEYER: Thank you very much. We appreciate you coming and attending.

(Whereupon, at 8:27 p.m., the comments were concluded.)

RE: Meadowlands Apartments
Houston, Texas

Greetings:

On August 9, 2006, I attended the TEFRA hearing for the Meadowlands Apartments to be located in Houston, Texas. I was asked by the developer to attend the meeting to comment on issues related to the market and the demand for "affordable" housing within the area surrounding the subject site. I am writing this letter so that you may know what transpired at this hearing that may not have been transcribed into the public record.

The developer of the project was only allowed to present 5 to 6 slides of his presentation, far short of fully describing the proposed project or the residents the project would serve. It really did not matter because those attending the meeting had already formed their opinion.

The following public comments can be characterized as bigoted, misleading and incorrect. I had a unique opportunity to mingle and observe as I stayed in the back of the room, where people could voice their racist remarks without it being recorded for the public record. And to my astonishment, more than a handful of protesters did not even know where the project was to be located.

Once the mob mentality took over, I heard numerous comments such as the following:

> **"We don't what this trash in our area"**
>
> **"Let them build this project in SE Houston, Greenspoint or Sharpstown"**
>
> **"We have enough trash here already"**
>
> **"Your going to lease to husbands that just got out of the joint and is a crack dealer"**

45 NE Loop 410, Suite 200 San Antonio, Texas 78216
(210) 530-0040 Fax (210) 340-5830

One particularly vocal person was Ray Watchel. He appeared to represent most of the people at the hearing as he gained a great amount of applause. Some of the comments voiced by Mr. Watchel are as follows:

> **"I'm disgusted with the idea of low income housing"**
>
> **"Enough crap in our area already"**
>
> **"You (developer) should provide police for those (other) ghetto projects"**
>
> **"The kids (at this project) are all trash and are going to tear up the schools"**
>
> **"They are going to stash their drugs in the third bedroom"**

I also found it particularly disturbing when the comments turned to a personal nature and were directed to the developer, Mr. Manish Verma. Mr. Watchel said – and I quote:

> **"Kick this back to India or where ever else he is from – Son of a "**

Equally disturbing was a comment made by State Representative Elkins where he stated,

> **"San Antonio is begging for this money – Let them go build this project in San Antonio"**

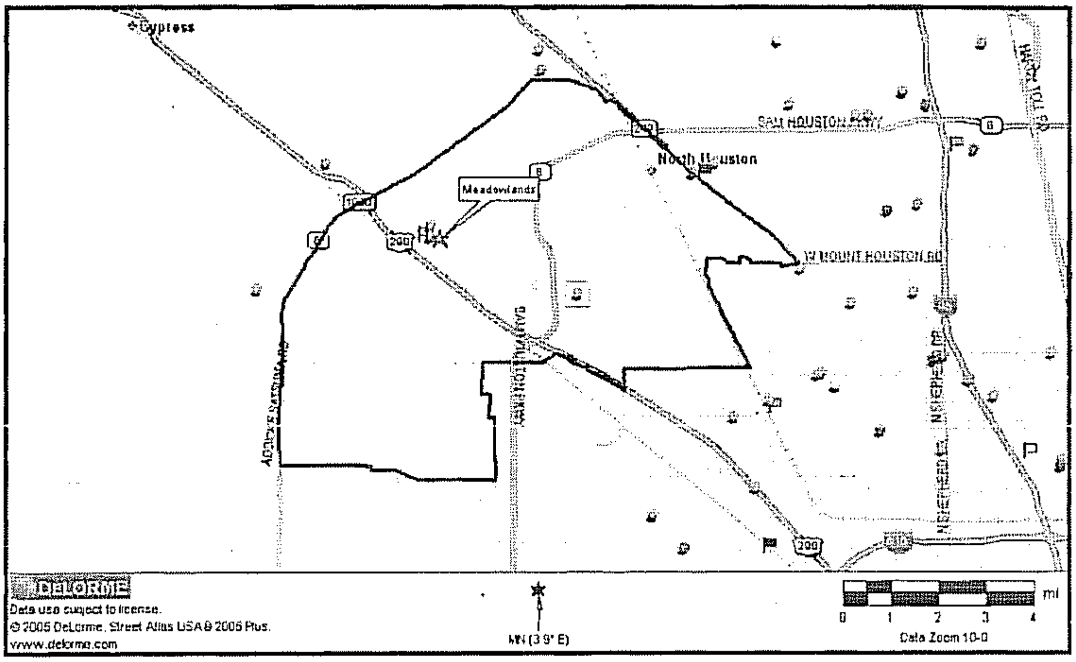
From the map below, you will see that there are currently three family and one senior "affordable" project within the Representative's District 135. The last family project allocated by TDHCA was Sugar Creek Apartments (2001). The overall occupancy for the three family projects is 98.67% (519/526 units).

Below are some of the demographics (2000) taken from the Representative's House web site.

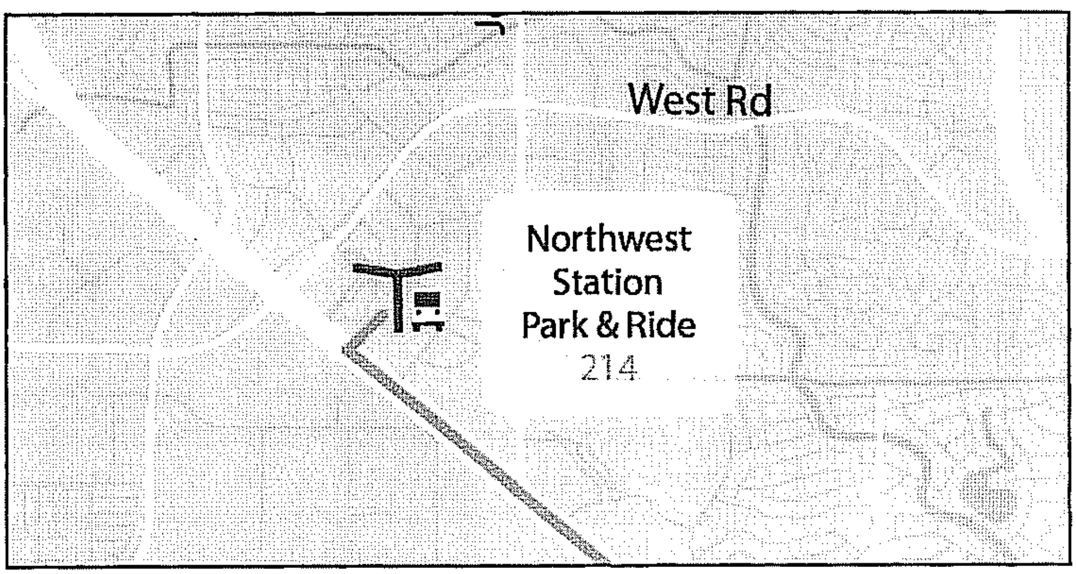
Median Income (per capita)	$24,251
HH Income <$25,000	15.2%
HH Income $25K - $50K	26.9%
HH Income $50K+	57.8%

HH Receiving SSI or Public Assistance	10.4%

Home Values	
<$50K	3.6%
$50K - $100K	50.9%
$100K+	45.5%



Beside these racially motivated statements, there were numerous misleading and incorrect statements made by the public. One of the statements was that there was not any public transportation in the area and that it would be a disservice to the residents without such service. To the contrary, the Northwest Station Park & Ride is located less than ¼ mile from the proposed site.



The Meadowlands Apartments has been designed to serve residents earning an annual income of $23,520 to $39,540. This in no way reflects the poorest of the poor. Many of these households will be service type workers that make living more convenient and comfortable for the rest of us. I am sure that those voicing opposition to this project are the first to complain when they can't find anyone to help them at Home Depot.

In conclusion, the market study for the Meadowlands Apartments supports the conclusion that more "affordable" rental housing is needed within the Primary Trade Area. Additionally, the rents to be charged are reasonable and affordable to potential residents earning 60% AMI. Thus, it is our conclusion that the project meets the underwriting guidelines as they pertain to the market analysis.

Additionally, the public comment given at the TEFRA hearing gave no valid reason for the Meadowlands Apartments not to receive an allocation. The vast majority of public comments made resemble what you would expect to hear at a Ku Klux Klan rally; not what is expected at a hearing to allocate federally sponsored funding that gives no consideration to race, color or creed.

Sincerely,

Darrell G. Jack

Teresa Morales
TDHCA
221 EAST 11th St.
Austin, TX 78710

Dear Ms. Morales:

Enclosed is a package of public comments regarding the application for tax-exempt revenue bonds and housing tax credits for the Meadowlands Apartments. Please find the following enclosed:

> Discrepancy in Application with Attachment from Application
> Report on Signage
> Public Facilities and Services Statement with Attachments
> Cy-Fair ISD Enrollment Impact
> Report on Area Apartments
> Petitions Against the Meadowlands containing 1,232 signatures

The public comments were prepared by residents from Steeplechase, Willowbridge and Crossroads subdivisions; the signatures on petitions against the Meadowlands represent a cross-section of neighborhoods, subdivisions and apartments in our area.

Please express our thanks to Ms. Meyer, Ms. Roth and Ms. Gamble for their efforts in arranging a second public hearing next week. We do wish to clarify a point however: CFISD school officials have confirmed that they have no record of any notification of a TDHCA public hearing scheduled at Emmott Elementary School on June 27th. According to the CFISD school officials, the public hearing was never held at Emmott Elementary School on that date.

We thank you for providing all of this information to the TDHCA Board and we respectfully request the Board's consideration of the many concerns presented. Several of us do plan to attend the Board's meeting on August 30th in Austin and we would appreciate the opportunity to provide comment at that meeting.

Sincerely,

Betty Hattman

4. Ineligibility Exception

The proposed Development is located in Harris County and there are three existing tax credit developments within one mile.

The box "no" is checked.

The omission of material information should be considered in disqualifying this application.

1. SET-ASIDE ELECTION

Pursuant to Section 42(g)(1)(A) & (B), the term "qualified low income housing development" means any project or residential rental property, if the development meets one of the requirements below, whichever is elected by the taxpayer." **Once an election is made, it is irrevocable.** Select only one:

☐ At least 20% or more of the residential units in such development are both rent restricted and occupied by individuals whose income is 50% or less of the area median gross income, adjusted for family size.

☒ At least 40% or more of the residential units in such development are both rent restricted and occupied by individuals whose income is 60% or less of the area median gross income, adjusted for family size.

2. SUPPORTIVE SERVICES

Will supportive services be provided to tenants? ☒ Yes ☐ No   Services will be: ☐ Mandatory ☒ Optional
Cost of the services is included in rent? ☒ Yes ☐ No   If "No", the estimated monthly tenant expense is: $ _____

Description of services: Services will be assessed based on the needs of tenants

Name of Service Provider: TBD

Contact Name:

Address:

City: State: Zip: Phone: (   )

3. SELECTION CRITERIA POINT REDUCTIONS (HTC COMPETITIVE APPLICATIONS ONLY)

Have you requested an extension on a 2005 Carryover? ☐ Yes ☒ No
If yes, list all development numbers for which an extension was filed: ______

Has the Developer or Principal of the Applicant been removed by a lender, equity provider or limited partner in the last five years? ☐ Yes ☒ No   If yes, provide a detailed description of every removal including the development # of the development for which the removal took place behind this form. If court proceedings for a removal are pending at the time of Application, disclose this information as well.

4. INELIGIBILITY EXCEPTION

As described in §50.5(a)(7) of the QAP, is the proposed development located in a municipality/county that has more than twice the state average of tax credit units per capita? ☐ Yes ☒ No
As described in §50.5(a)(8) of the QAP, is the proposed Development located in Bexar, Harris, Dallas or Tarrant County and located within one mile of an existing tax credit development? ☐ Yes ☒ No
If yes to either of these, provide documentation of an acceptable exception, under §50.5(a)(7) or (8) behind this form.

If your Development is located in Bexar, Harris, Dallas or Tarrant County, to your knowledge, is the Development within one linear mile of another tax credit application/award in the 2006 calendar year (Tax Exempt Bond or Competitive HTC Award)? ☐ Yes ☒ No

Report on the Sign posted on the site of the "Proposed Multifamily Residential Rental Community"

Size and Placement
The sign itself is four feet tall and eight feet wide and appears to be made of ½ inch plywood. It is set 11 feet 2 inches off of Steepleway Drive. It faces Steepleway Drive. It is held on to two 4X4 posts with screws, three in each side.

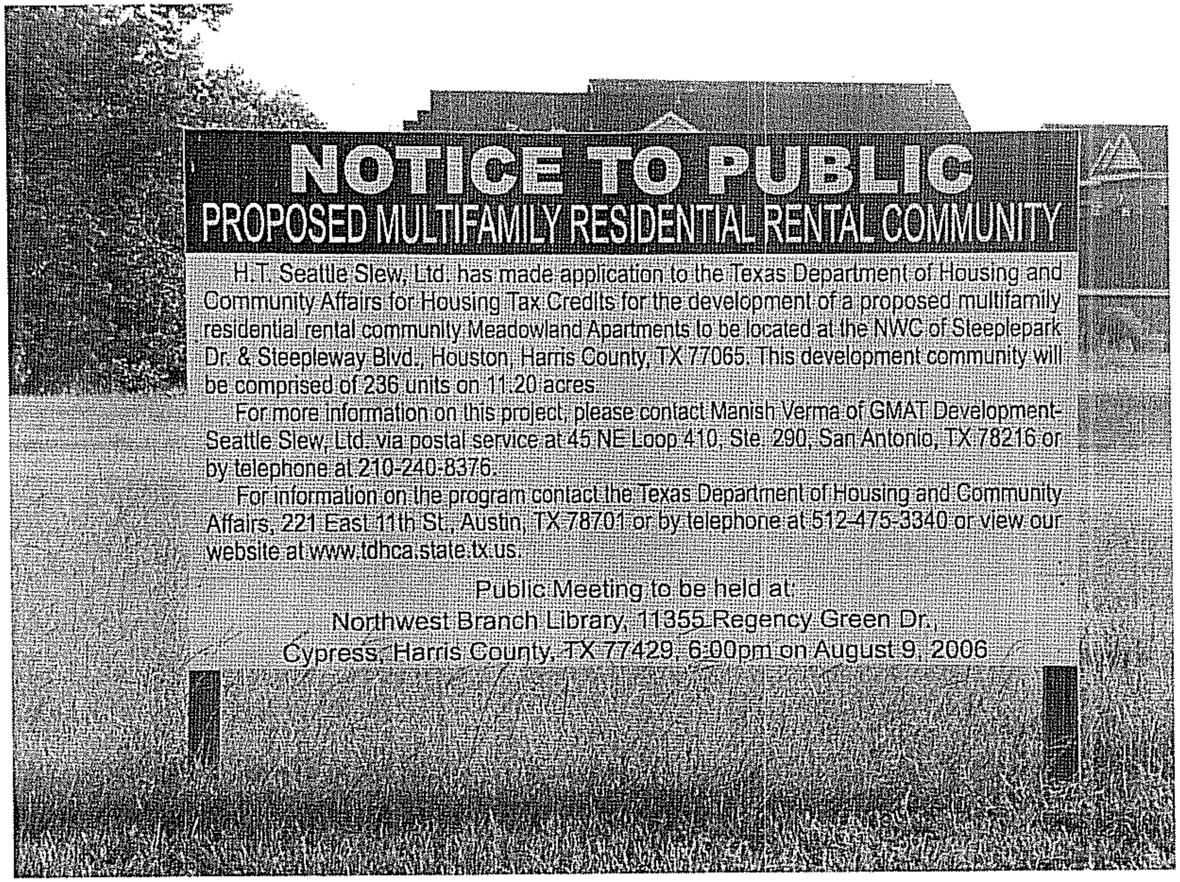
The Addendum sign below stating that a Public Meeting will be held at the Northwest Branch Library is 10 inches tall and 8 feet long. It is also held on the same two 4X4 posts with screws, two in each side.

Letter Size
The letters in the words "NOTICE TO PUBLIC" are all uppercase and in five-inch (5") tall letters.
The letters in the words "PROPOSED MULTIFAMILY RESIDENTAL RENTAL COMMUNITY" are all uppercase and in four-inch (4") tall letters.

The letters in the body of the text are in upper case and lower case letters. The upper case letters are two (2) inches tall and the lower case letters are one and one-half (1-½) inches tall.

According to requirements: letters in the body of the text are to be two (2) inches tall.

Accuracy of the Sign
When you dial 1-210-240-8376 the phone rings, then another phone rings and you get a message "Please your message for 210-240-8376"
The contact information for Manish Verma is listed on the state website as 210-530-0090



NOTICE TO PUBLIC
PROPOSED MULTIFAMILY RESIDENTIAL RENTAL COMMUNITY
H.T. Seattle Slew, Ltd. has made application to the Texas Department of Housing and Community Affairs for Housing Tax Credits for the development of a proposed multifamily residential rental community Meadowland Apartments to be located at the NWC of Steeplepark Dr. & Steepleway Blvd., Houston, Harris County, TX 77065. This development community will be comprised of 236 units on 11.20 acres.
For more information on this project, please contact Manish Verma of GMAT Development-Seattle Slew, Ltd. via postal service at 45 NE Loop 410, Ste. 290, San Antonio, TX 78216 or by telephone at 210-240-8376.
For information on the program contact the Texas Department of Housing and Community Affairs, 221 East 11th St., Austin, TX 78701 or by telephone at 512-475-3340 or view our website at www.tdhca.state.tx.us.
Public Meeting to be held at:
Northwest Branch Library, 11355 Regency Green Dr.,
Cypress, Harris County, TX 77429 6:00pm on August 9, 2006

Public Facilities and Services Statement

According to Texas Administrative Code, the Department (TDHCA) shall consider those topics outlined in TAC, Title 10, Part 1, Chapter 1, Subchapter A, Rule §1.10 (e) (1) through (11). We respectfully request that the TDHCA Board factor in and consider (2) the location of the proposed development, (6) the development's proximity to other low income housing developments and (7) the availability of adequate public facilities and services available to support the proposed Meadowlands Apartments.

The proposed location of the Meadowlands Apartments is not the most appropriate place for this type of facility. The proposed location is within .25 mile of the Spruce Manor tax credit low-income apartments and on the same land parcel as Sugar Creek Apartments, another tax credit low-income multi-family housing project.

In addition, the proposed location is within the territory of a volunteer fire department (CyFair), there is no access to public transportation (METRO), presently there are no sidewalks on Steeplepark Drive or along Jones Road to accommodate increased pedestrian traffic, the closest full service medical center is approximately two miles away, and there are few if no social service offices located in the CyFair / Jersey Village area, specifically along Jones Road.

The proposed facility serves a purpose, but should be located in an area that empowers and enables the proposed low income tenants to have access to the most basic necessities of everyday life such as easy access to public transportation, safety in the event of an emergency, medical services, and sidewalks leading to grocery stores, banks, laundromats and eating establishments.

Impacts to the Volunteer Fire Department:
Discussions with the Fire Chief of Jersey Village, Kathleen Hutchens, indicate that the proposed Meadowlands Apartment project would be located within the CyFair Volunteer Fire Department territory (Please see Attachment A–). Amy Ramone, in the business office of the CyFair Volunteer Fire Department informed me during a telephone conversation on August 14, 2006, that the CyFair Volunteer Fire Department maintains paid utility trucks, Monday through Friday, from 6:00 AM through 6:00 PM. The Department relies on volunteers to staff the remaining schedule, Monday through Friday, 6:00 PM through 6:00 AM, Saturdays and Sundays. In addition, the CyFair Volunteer Fire Department has an "Automatic Aid Agreement" in place with the Jersey Village Fire Department.

Despite the unique size of the CyFair Volunteer Fire Department, the largest volunteer force in North America, and its' alliance with the City of Jersey Village, my neighbors and I watched early one Sunday morning in April as my neighbor's house, 4 doors down on Therrell Drive, in Willowbridge burned as we waited for the Fire Department to arrive. While the CyFair volunteers did show up within 18 minutes, they were in sports utility vehicles without the ability to do anything except stand around and watch as we did. Thirty-three minutes later the pump trucks appeared. This is an unacceptable response time in me and my neighbor's opinions. We are tremendously grateful for the CyFair Volunteer Fire Fighters but this is one example where we believe public facilities and services are inadequate.

Access to Public Transportation:
According to the TDHCA presentation on August 9, 2006, 100% of the units at the Meadowlands Apartments will serve families at 60% of the Area Median Family Income (AMFI). A family of three that can earn no more combined income than $32,940 AMFI may not, and will likely not have access to dependable transportation. As a result, it makes logical sense to locate these types

of facilities/projects in areas where residents can easily utilize public transportation systems such as the Metropolitan Transit Authority of Harris County (METRO) transportation services.

There are no METRO bus routes on Jones Road or West Road, the two main access ways to US 290 W (18502 Hempstead), the location of the METRO 214 Northwest Station Park & Ride (Please see Attachment B-). This is the closest METRO facility which offers transportation services. There are no other METRO routes in the immediate area other than those routes leaving the METRO Park & Ride facilities.

Therefore, there are no public transportation system routes in place to access theses facilities if you do not have your own vehicle. In order to identify any other METRO routes in the area, we entered in both of the origin addresses, 11200 and 11298 Steeplepark Drive, and the endpoint address, the METRO Park & Ride facility located at 18502 Hempstead. The following METRO Trip Planning message appeared, "We could not find any connections between the origin of your trip and the destination (ending point) of your trip at the requested time. This may be due to one of the following:

- Your request is for times during the day when service is not provided in that area.
- Your requested origin and/or destination are not within 0.5 miles of the closest transit stop.
- Your request will require an unreasonable number of transfers or duration of longer than three hours."

We have included information from METRO and maps from MapQuest supporting the above information (Please see Attachment B-). We have provided an overview map of METRO Park & Ride Locations, the most recent 214 Northwest Station schedule and destination information (08/14/06), route information from the proposed project site on Steeplepark Drive to the METRO 214 Northwest Station Park & Ride Facility, and proof that no other METRO bus routes exist to provide transportation for the potential residents of the Meadowlands Apartments the two miles to reach the METRO 214 Northwest Station Park & Ride Facility. In addition to no bus routes servicing the Meadowlands Apartments, there is also no local cab service.

Availability of Pedestrian Sidewalks to Businesses:
We have included pictures to document that there are no sidewalks in the vicinity of the proposed Meadowlands Apartment projects site, or on the west side of Jones Road leading to local businesses. Sidewalks enable safe mobility for those on foot traveling to and from their place of work and local business establishments such as grocery stores, banks, restaurants, etc. As the following photographs illustrate, there are no sidewalks located along Jones Road or in the vicinity of the proposed Meadowlands Apartments on Steeplepark Drive (Please see Attachment C-). Photograph 1 is facing north towards West Road from the Discount Tire parking lot (9550 Jones Road). Photograph 2 is facing south towards FM 1960, also from the Discount Tire parking lot. Photograph 3 is facing north towards West Road from the Slick Willies Family Pool Hall parking lot (9638 Jones Road). Photograph 4 is facing south towards FM 1960 also from the Slick Willies Family Pool Hall parking lot. Photograph 5 is facing south towards FM 1960 at the intersection of Steeplepark Drive and Jones Road. Photograph 6 is facing north towards West Road from the parking lot just across the Steeplepark Drive and Jones Road intersection. Photograph 7 is facing south towards FM 1960 from the same parking lot just across the Steeplepark Drive and Jones Road intersection. Photograph 8 is facing west towards the proposed extension of Steeplepark Drive and the location of the proposed Meadowlands Apartments. Photograph 9 is facing east on Steeplepark Drive towards Jones Road.

The closest grocery stores are Randalls, over half a mile away (Please see Attachment D–), Krogers and Food Town -located on opposite corners of the intersection of Jones Road and West Road. The physical distance to the grocery stores will result in grocery carts strewn along the area between the Meadowlands Apartments and the grocery stores. The closest bank is the Washington Mutual Branch at the intersection of Jones Road and West Road. Increased foot traffic along roadsides without sidewalks has the potential to result in pedestrian/vehicular accidents.

Access to Medical/Hospital Services:
The closest full service hospital is the Cypress Fairbanks Medical Center, which is located 1.86 miles away from the proposed Meadowlands Apartments project. We have provided a map from MapQuest showing the location of the proposed Meadowlands Apartments, the route to the Cypress Fairbanks Medical Center, and a list of the hospitals listed in the 77065 zip code within close vicinity of the project site (Please see Attachment E–). At first glance, there appears to be several hospitals located very close to the project site. Phone calls made on August 14, 2006, and closer examination reveals that the two closest facilities, the Kindred Hospital Houston and the Vencor Hospital Houston, are the same facility. The Kindred Hospital Houston was formerly known as the Vencor Hospital Houston. More important, the Kindred Hospital Houston only offers "Long Term Acute Care." No access to public transportation, no local cab service, and no pedestrian sidewalks in the area to access the Cypress Fairbanks Medical Center~~hospital~~ clearly illustrates that the public facilities and services available are inadequate to serve this proposed development.

The closest clinic is the Clinica Hispana Clinic at 9720 Jones Road. I entered the clinic on August 14, 2006, Monday evening at approximately 6:30 PM to inquire about the services provided. No pamphlets were available for inclusion in this statement. About 20 to 30 people, lots of children, were in the waiting room. The RC2 Pharmacy is located in the same shopping center in a different suite; however, the RC2 Pharmacy only carries medication for children.

Access to Social Service Agencies:
It is our understanding that the proposed tenants may have special needs and require specific social services. There are few social service offices in the Jersey Village / CyFair Area. With no public transportation, no local cab service, and no pedestrian sidewalks in the area to easily access hospitals or other necessary services, such as medical emergencies and checkups, grocery stores, banks, pharmacies and social service agencies we would like the TDHCA Board to carefully consider if this is the best location for the Meadowlands Apartments project and potential tenants.

Conexión Autobús/Tren

Esta ruta conecta a la Línea Roja del METRORail.

Boletos de Transbordo

Los boletos de transbordo son gratis (por un servicio de igual o menor valor), y son válidos por tres horas. Inserte el boleto de transbordo en la Unidad de Procesamiento de Boletos (TPU, por sus siglas en inglés) de la caja de pago cada vez que aborde el autobús. Debe obtener los boletos de transbordo necesarios en el momento de pagar por su viaje. Si va a transbordar a un servicio de mayor valor, pague el costo completo al abordar su primer autobús.

Las Tiendas RideStores

Compre cualquier producto para usar el servicio de METRO que necesite, así como Tarjetas de Identificación de METRO ($2.00), en todas las tiendas RideStores. Estas tiendas son accesibles a personas con incapacidades.

En El Centro de la Ciudad

1900 Main: de lunes a viernes 7:30 a.m. a 5:30 p.m.

1001 Travis: de lunes a viernes 7:30 a.m. a 5:30 p.m.

Los establecimientos METROStops

Compre productos para usar el servicio de METRO en los puestos de Servicio al Consumidor de los supermercados, como algunas tiendas H-E-B, Gerlands, Fiesta Marts, Foodarama, Rice Epicurean Markets, Randalls Food Markets, Kroger Food Stores y Sellers Bros. Inc. Se venden también estos productos en los centros comerciales y en los negocios en donde se cambian cheques. Llame al 713-635-4000 para localizar el lugar más cercano a usted.

Cy-Fair ISD Enrollment

Here are some stats from the past 7 years:

1999-2000 Cy-Fair enrollment exceeds 60,000 students

It is projected that more than 95,000 students will be enrolled by 2009

29,000 students have been added in the past 10 years

4,000 per year for the last 3 years

In 2004-2005 more than 4,600 students enrolled

In 2005-2006 more than 7,000 enrolled which is equivalent to 8 elementary schools or 2 ½ high schools

In 1989 there were only 30 portable buildings now there are around 200
Since 1990, 27 new schools have been built, 19 of these being elementary

Since 2001 we have had a 103.13% increase in economically disadvantaged students and a 75.49% increase in students with Limited English Proficiency (LEP)

From 2003-2005 ED students increased by 3,508 and LEP by 1,148

The growth has meant changes and challenges and has been a major stress factor on the school district

Now that you see a little bit about the district's numbers here are the findings if the Meadowland Apartment complex is built:

Since the complex is not built yet the address is not in the SD's system but I was told it will most likely be Post but Bang is also in that zoning area.

Capacity for 2006-2007:

High school – 3,000
Middle school – 1,350
Elementary school – 920

Enrollment projections for 2006-2007

Cy-Ridge – 3,442 with 32.3% being ED

Campbell – 1,473 with 61 rooms and 28.7% being ED

Post – 970 with 50 rooms and 49.1% being ED

Bang - 978 with 56 rooms and 16.5% being ED

Of the eight elementary schools that are not expected to be above capacity, 5 would be 20 students or less from reaching capacity. I asked the secretary of Janet Hoover what happens if the schools are over capacity. She said they have to purchase portable buildings in order to accommodate all of the kids. Now we can see one reason why building this complex in this spot would not be feasible. All of the zoned schools are over capacity and this is just an estimate. If history repeats it self then these schools will have more than the projected enrollment.

<u>REPORT</u> on area apartments and suitability of Meadowlands Apartments Project:

The Pointe at Steeplechase Apartment Complex located directly across Steepleway Blvd. of the proposed location of the Meadowlands Apartment Project filed for **BANKRUPTCY** on March 22nd, 2006.

Case No. 06-40355 (Jointly Administered Chapter 11) was filed in the U.S. Bankruptcy Court for the Eastern District of Texas, Sherman Division.

The Pointe at Steeplechase complex is divided into two parts with addresses of 8901 Jones Road and 8907 Jones Road and is boarded on the other side by Steepleway Blvd. This complex is fighting to maintain its financial solvency as well as tenants.

This is indicative of the availability of affordable rental rates of the many various apartments ALREADY established in the area of the Meadowlands Apartment Project.

Total # 1142

RECEIVED AUG 1 6 REC'D Multifamily Finance Division

Petition Against Meadowlands Apartments

We, the undersigned, oppose the application by H.T. Seattle Slew, LTD for Housing Tax Credits with the Texas Department of Housing and Community Affairs to build the Meadowlands Apartments on Steepleway Boulevard and Steeplepark Drive.

Our community is located in an unincorporated area of Harris County with no municipal police, fire or public transportation. Since the construction of other tax credit low-income apartments nearby, our community has experienced increased crime and vandalism. We strongly oppose construction of more rent controlled housing that will adversely affect neighborhood security, lower our property values and add to the overcrowding of our schools.

MULTIFAMILY FINANCE PRODUCTION DIVISION

2006 Private Activity Multifamily Housing Revenue Bonds

Stonehaven Apartment Homes
15301 block of Northwest Freeway
Houston, Texas

15301 Stonehaven Apartments, L.P.
192 Units
Priority 3
$12,000,000 Tax Exempt – Series 2006

TABLE OF EXHIBITS

MULTIFAMILY FINANCE PRODUCTION DIVISION
BOARD ACTION REQUEST
August 30, 2006

Action Item

Presentation, Discussion and Possible Issuance of Multifamily Mortgage Revenue Bonds, Series 2006 and Housing Tax Credits for the Stonehaven Apartment Homes development.

Requested Action

Approve, Amend, Deny the staff recommendation for the Stonehaven Apartment Homes.

Summary of the Stonehaven Apartment Homes Transaction

The pre-application for the 2006 Waiting List was received on April 6, 2006. The application was scored and ranked by staff. The application was induced at the May 4, 2006 Board meeting and submitted to the Texas Bond Review Board. The application received a Reservation of Allocation on June 2, 2006. This application was submitted under the Priority 2 category which means that 100% of the units will be restricted to families earning less than 60% of AMFI. A public hearing was held on May 25, 2006. There was no one present at the hearing. A copy of the transcript is included in this presentation.

The proposed site is located at approximately 15301 Northwest Freeway, Houston, Harris County. Demographics for the census tract (5217.00) include AMFI of $31,978; the total population is 5,863; the percent of the population that is minority is 73.31%; the percent of population that is below the poverty line is 17.80%; the number of owner occupied units is 233; the number renter occupied units is 2,424 and the number of vacant units is 225. (Census Information from FFIEC Geocoding for 2006)

Summary of the Financial Structure

The applicant is requesting the Department's approval and issuance of fixed rate tax exempt bonds in an amount not to exceed $11,300,000. The bonds will be unrated and privately placed with Washington Mutual Bank. The term of the bonds will be for 20 years followed by a 40 year amortization. The construction and lease up period will be for 30 months with the option of two (2) extensions for a period of six (6) months each. The interest rate on the bonds will be 5.80% per annum.

Recommendation

Staff recommends the Board approve the issuance of Multifamily Housing Mortgage Revenue Bonds, Series 2006 and Housing Tax Credits for the Stonehaven Apartment Homes development because of the quality of construction of the development as demonstrated by the plans and specifications, the feasibility of the development (as demonstrated by the financial commitments from Washington Mutual Bank and PNC Multifamily Capital and the underwriting report from the department's real estate analysis division), the tenant and social services provided by the development and the demand for affordable units as demonstrated by the market area.

MULTIFAMILY FINANCE PRODUCTION DIVISON
BOARD MEMORANDUM
August 30, 2006

DEVELOPMENT: Stonehaven Apartment Homes, Houston, Harris County

PROGRAM: Texas Department of Housing & Community Affairs
2006 Private Activity Multifamily Revenue Bonds
(Reservation received June 2, 2006)

ACTION REQUESTED: Approve the issuance of multifamily housing mortgage revenue bonds (the "Bonds") by the Texas Department of Housing and Community Affairs (the "Department"). The Bonds will be issued under Chapter 1371, Texas Government Code, as amended, and under Chapter 2306, Texas Government Code, the Department's Enabling Statute (the "Statute"), which authorizes the Department to issue its revenue bonds for its public purposes as defined therein. (*The Statute provides that the Department's revenue bonds are solely obligations of the Department, and do not create an obligation, debt, or liability of the State of Texas or a pledge or loan of the faith, credit or taxing power of the State of Texas.)*

PURPOSE: The proceeds of the Bonds will be used to fund a mortgage loan (the "Mortgage Loan") to 15301 Stonehaven Apartments, L.P. a Texas limited partnership (the "Owner" or "Borrower"), to finance the acquisition, construction, equipping and long-term financing of a proposed 192-unit multifamily residential rental development located at approximately 15301 Northwest Freeway, Houston, Harris County (the "Development"). The Bonds will be tax-exempt by virtue of the Development qualifying as a residential rental development.

BOND AMOUNT: $ 11,300,000 (*) Series 2006 Tax Exempt Bonds
$ 11,300,000 Total Bonds

(*) The aggregate principal amount of the Bonds will be determined by the Department based on its rules, underwriting, the cost of construction of the Development and the amount for which Bond Counsel can deliver its Bond Opinion.

ANTICIPATED CLOSING DATE: The Department received a volume cap allocation for the Bonds on June 2, 2006 pursuant to the Texas Bond Review Board's 2006 Private Activity Bond Allocation Program. While the Department is required to deliver the Bonds on or before October 30, 2006, the anticipated closing date is September 15, 2006.

BORROWER: 15301 Stonehaven Apartments, L.P., a Texas limited partnership, the general partner of which is 15301 Stonehaven Apartments I, LLC

** Preliminary - Represents Maximum Amount*

with Kenneth G. Cash owning 99% interest. PNC Multifamily Capital, is an Investor Limited Partner of Borrower, and it or an affiliate thereof, will be providing the equity for the transaction by purchasing approximately a 99% limited partnership interest in the Borrower.

COMPLIANCE HISTORY: The Compliance Status Summary completed on July 28, 2006 reveals that the principals of the general partner above have a total of two (2) properties that will be monitored by the Department.

ISSUANCE TEAM/ ADVISORS:

Washington Mutual Bank or an affiliate thereof ("Bond Purchaser")
PNC Multifamily Capital ("Equity Provider")
Wells Fargo Bank, National Association ("Trustee")
Vinson & Elkins L.L.P. ("Bond Counsel")
RBC Capital Markets ("Financial Advisor")
McCall, Parkhurst & Horton, L.L.P. ("Disclosure Counsel")

BOND PURCHASER: The Bonds will be purchased by Washington Mutual Bank or an affiliate thereof. The purchaser and any subsequent purchaser will be required to sign the Department's standard traveling investor letter.

DEVELOPMENT DESCRIPTION:

Site: The proposed affordable housing community is a 192-unit residential rental development to be constructed on an approximately 9.05 acres to be located at approximately 15301 Northwest Freeway, Houston, Harris County.

Buildings: The Development will consist of eight (8) three-story residential, wood-framed apartment buildings consisting of 10% masonry veneer and 90% cement fiber exteriors with a total of approximately 179,248 net rentable square feet and an average unit size of 930 square feet. The development will include a clubhouse with business/computer center, children's activity center, games room/TV lounge, exercise room, laundry facilities, swimming pool, playground, full perimeter fencing with gated access, and barbeque and picnic area. The unit amenities include microwave ovens, washer/dryer connections, storage room, and ceiling fans.

Units	Unit Type	Sq Ft	Proposed Net	Rent
36	1-Bed/1-Baths	680	$626.00	60%
8	1-Bed/1-Baths	684	$626.00	60%
12	1-Bed/1-Baths	704	$626.00	60%
72	2-Bed/2-Baths	950	$751.00	60%
64	3-Bed/2-Baths	1,132	$862.00	60%
192	Total Units			

SET-ASIDE UNITS: For Bond covenant purposes, at least forty (40%) of the residential units in the development are set aside for persons or families earning not more than sixty percent (60%) of the area median income. Five percent (5%) of the units in each development will be set aside on a priority basis for persons with special needs. *(The Borrower has elected to set aside 100% of the units for tax credit purposes.)*

TENANT SERVICES: Tenant Services will be provided by the developer according to the requirements as outlined in the Departments Land Use Restriction Agreement.

DEPARTMENT ORIGINATION FEES:
$1,000 Pre-Application Fee (Paid)
$10,000 Application Fee (Paid)
$56,500 Issuance Fee (.50% of the bond amount paid at closing)

DEPARTMENT ANNUAL FEES:
$11,300 Bond Administration (0.10% of first year bond amount)
$7,680 Compliance ($40/unit/year adjusted annually for CPI).

ASSET OVERSIGHT FEE: $4,800 to TDHCA or assigns ($25/unit/year adjusted annually for CPI)
(Department's annual fees may be adjusted, including deferral, to accommodate underwriting criteria and Development cash flow.)

TAX CREDITS: The Borrower has applied to the Department to receive a Determination Notice for the 4% tax credit that accompanies the private-activity bond allocation. The tax credit equates to approximately $686,616 and represents equity for the transaction. To capitalize on the tax credit, the Borrower will sell a substantial portion of its limited partnership interests, typically 99%, to raise equity funds for the Development. Although a tax credit sale has not been finalized, the Borrower anticipates raising approximately $6,841,677 of equity for the transaction.

BOND STRUCTURE: The Bonds are proposed to be issued under a Trust Indenture (the "Trust Indenture") that will describe the fundamental structure of the Bonds, permitted uses of Bond proceeds and procedures for the administration, investment and disbursement of Bond proceeds and program revenues.

The Bonds will be privately placed with the Bond Purchaser. The Bond Purchaser contemplates transferring the Bonds to a custodial or trust arrangement whereby beneficial interests in the Bonds will be sold in the form of trust certificates to Qualified Institutional Buyers or Accredited Investors.

The Bond Purchaser will be required to sign the Department's standard investor letter. Should the Bonds be transferred to a custodial trust, a slightly modified investor letter will be provided by the trust. During the construction and lease-up period, the Bonds will pay as to interest only.

BOND INTEREST RATES: The interest rate on the bonds will be 5.80% per annum The Department's Real Estate Analysis division underwrote the transaction using a 6.09% rate.

CREDIT ENHANCEMENT: The bonds will be unrated with no credit enhancement.

FORM OF BONDS: The Bonds will be issued in physical form and in denominations of $100,000 and any integral multiple of $5,000 in excess thereof.

MATURITY/SOURCES & METHODS OF REPAYMENT: The Bonds will bear interest at a fixed rate until maturity and will be payable monthly. During the construction phase, the Bonds will be payable as to interest only, from an initial deposit at closing to the Bond Fund, earnings derived from amounts held on deposit in an investment agreement, and other funds deposited to the Revenue Fund specifically for capitalized interest during a portion of the construction phase. After conversion to the permanent phase, the Bonds will be paid from revenues earned from the Mortgage Loan.

TERMS OF THE MORTGAGE LOAN: The Mortgage Loan is a nonrecourse obligation of the Borrower (which means, subject to certain exceptions, the Owner is not liable for the payment thereof beyond the amount realized from the pledged security) providing for monthly payments of interest during the construction phase and level monthly payments of principal and interest upon conversion to the permanent phase. Deeds of Trust and related documents convey the Owner's interest in the Development to secure the payment of the Mortgage Loan.

REDEMPTION OF BONDS PRIOR TO MATURITY: The Bonds are subject to redemption under any of the following circumstances:

Extraordinary Redemption:

The Bonds are subject to mandatory redemption, (i) in whole or in part at a redemption price equal to the principal amount thereof plus accrued interest and plus any premium remitted therewith as a mandatory prepayment required by the Note; (ii) at the option of the Bondholder Representative, in whole upon a Determination of Taxability and Borrower's failure to elect to pay at the Taxable Rate in accordance with the Indenture at a redemption price equal to the principal amount thereof, plus accrued interest thereon and any premium remitted therewith as required by the Note.

Optional Redemption:

The Bonds shall be subject to redemption at the option of the Issuer, in whole or in part, and only at the direction of the Borrower, upon Borrower's optional prepayment of the Loan at a redemption price equal to the principal amount thereof, plus accrued interest to the redemption date and plus any premium remitted therewith as required by the Note.

Mandatory Redemption:

The Bonds are subject to (i) mandatory sinking fund redemption at a redemption price equal to the principal amount of the Bonds redeemed plus accrued but unpaid interest to the redemption date; (ii) mandatory redemption on permanent term commencement date at a redemption price equal to the principal amount of the bonds redeemed plus accrued but unpaid interest to the redemption date; (iii) mandatory redemption upon election of bondowner representative to accelerate loan upon failure to convert to permanent loan at a redemption price equal to the principal amount of the Bonds then Outstanding plus accrued but unpaid interest to the redemption date; (iv) mandatory redemption upon loan agreement or other loan document default at a redemption price equal to the principal amount of the Bonds then Outstanding, plus accrued interest thereon to the date of the redemption.

FUNDS AND ACCOUNTS/FUNDS ADMINISTRATION:

Under the Trust Indenture, Wells Fargo Bank, National Association (the "Trustee") will serve as registrar, and authenticating agent for the Bonds, trustee of certain of the funds created under the Trust Indenture (described below), and will have responsibility for a number of loan administration and monitoring functions.

Moneys on deposit in Trust Indenture funds are required to be invested in eligible investments prescribed in the Trust Indenture until needed for the purposes for which they are held.

The Trust Indenture will initially create up to five (5) funds with the following general purposes:

1. Bond Fund – Consists of an Interest Account Principal Account and Redemption Account. Funds on deposit in the Bond Fund shall be used to pay interest and principal and any redemption costs for the Bonds.

2. Project Fund – Fund into which all Qualified Project Costs are paid.

3. Revenue Fund – Revenues from the Development are deposited to the Revenue Fund and distributed at least monthly by the Trustee as follows – first to the Bond Fund for deposit first into the Interest Account and then into the Principal Account, second to the Bondowner Representative, as servicer of the Loan, third to the Rebate Fund, and fourth to the Trustee.

4. Costs of Issuance Fund – Fund into which amounts for the payment of certain costs incurred in connection with the issuance of the bonds are deposited and disbursed.

5. Rebate Fund - Fund into which certain investment earnings are transferred that are required to be rebated periodically to the federal government to preserve the tax-exempt status of the Bonds. Amounts in this fund are held apart from the trust estate and are not available to pay debt service on the Bonds.

Essentially, all of the Bond proceeds will be deposited into the Project Fund and the Bond Fund and disbursed from there during the Construction Phase (over 18 to 24 months) to finance the construction of the Development and to pay interest on the Bonds. Although costs of issuance of up to two percent (2%) of the principal amount of the Bonds may be paid from Bond proceeds, it is currently expected that all costs of issuance will be paid by an equity contribution of the Borrower.

DEPARTMENT ADVISORS:

The following advisors have been selected by the Department to perform the indicated tasks in connection with the issuance of the Bonds.

1. Bond Counsel - Vinson & Elkins L.L.P. ("V&E") was most recently selected to serve as the Department's bond counsel through a request for proposals ("RFP") issued by the Department in September 2005.

2. Bond Trustee – Wells Fargo Bank, National Association was selected as bond trustee by the Department pursuant to a request for proposal process in June 2006.

3. Financial Advisor – RBC Capital Markets, formerly RBC Dain Rauscher, was selected by the Department as the Department's financial advisor through a request for proposals process in August 2003.

4. Disclosure Counsel –McCall, Parkhurst & Horton, L.L.P. was selected by the Department as Disclosure Counsel through a request for proposals process in September 2005.

ATTORNEY GENERAL REVIEW OF BONDS: No preliminary written review of the Bonds by the Attorney General of Texas has yet been made. Department bonds, however, are subject to the approval of the Attorney General, and transcripts of proceedings with respect to the Bonds will be submitted for review and approval prior to the issuance of the Bonds.

RESOLUTION NO. 06-031

RESOLUTION AUTHORIZING AND APPROVING THE ISSUANCE, SALE AND DELIVERY OF MULTIFAMILY HOUSING REVENUE BONDS (STONEHAVEN APARTMENT HOMES) SERIES 2006; APPROVING THE FORM AND SUBSTANCE AND AUTHORIZING THE EXECUTION AND DELIVERY OF DOCUMENTS AND INSTRUMENTS PERTAINING THERETO; AUTHORIZING AND RATIFYING OTHER ACTIONS AND DOCUMENTS; AND CONTAINING OTHER PROVISIONS RELATING TO THE SUBJECT

WHEREAS, the Texas Department of Housing and Community Affairs (the "Department") has been duly created and organized pursuant to and in accordance with the provisions of Chapter 2306, Texas Government Code, as amended (the "Act"), for the purpose, among others, of providing a means of financing the costs of residential ownership, development and rehabilitation that will provide decent, safe, and affordable living environments for individuals and families of low, very low and extremely low income and families of moderate income (all as defined in the Act); and

WHEREAS, the Act authorizes the Department: (a) to make mortgage loans to housing sponsors to provide financing for multifamily residential rental housing in the State of Texas (the "State") intended to be occupied by individuals and families of low, very low and extremely low income and families of moderate income, as determined by the Department; (b) to issue its revenue bonds, for the purpose, among others, of obtaining funds to make such loans and provide financing, to establish necessary reserve funds and to pay administrative and other costs incurred in connection with the issuance of such bonds; and (c) to pledge all or any part of the revenues, receipts or resources of the Department, including the revenues and receipts to be received by the Department from such multifamily residential rental development loans, and to mortgage, pledge or grant security interests in such loans or other property of the Department in order to secure the payment of the principal or redemption price of and interest on such bonds; and

WHEREAS, the Board has determined to authorize the issuance of the Texas Department of Housing and Community Affairs Multifamily Housing Revenue Bonds (Stonehaven Apartment Homes) Series 2006 (the "Bonds"), pursuant to and in accordance with the terms of a Indenture of Trust (the "Indenture") by and between the Department and Wells Fargo Bank, National Association, a national banking association, as trustee (the "Trustee"), for the purpose of obtaining funds to finance the cost of acquisition, construction and equipping of the Development (defined below), all under and in accordance with the Constitution and laws of the State; and

WHEREAS, the Department desires to use the proceeds of the Bonds to fund a mortgage loan to 15301 Stonehaven Apartments, LP, a Texas limited partnership (the "Borrower"), in order to finance the cost of acquisition, construction and equipping of a qualified residential rental development described on Exhibit A attached hereto (the "Development") located within the State and required by the Act to be occupied by individuals and families of low and very low income and families of moderate income, as determined by the Department; and

WHEREAS, the Board, by resolution adopted on May 4, 2006, declared its intent to issue its revenue bonds to provide financing for the Development; and

WHEREAS, it is anticipated that the Department, the Borrower and the Washington Mutual Bank, a federal association (the "Bank") will execute and deliver a Loan Agreement (the "Loan

Agreement") pursuant to which (i) the Department will agree to make a mortgage loan funded with the proceeds of the Bonds (the "Loan") to the Borrower to enable the Borrower to finance a portion of the cost of the acquisition, construction and equipping of the Development and related costs, and (ii) the Borrower will execute and deliver to the Department a multifamily note (the "Note") in an original principal amount equal to the original aggregate principal amount of the Bonds, and providing for payment of interest on such principal amount equal to the interest on the Bonds and to pay other costs described in the Loan Agreement; and

WHEREAS, it is anticipated that the Bank or an affiliate thereof will purchase the Bonds from the Issuer; and

WHEREAS, it is anticipated that the Note will be secured by a Construction Deed of Trust, Security Agreement, Assignment of Leases and Rents and Fixture Filing (the "Mortgage") by the Borrower for the benefit of the Department; and

WHEREAS, the Department's interest in the Loan (except for certain reserved rights), including the Note and the Mortgage, will be assigned to the Trustee pursuant to an Assignment of Security Documents and an Assignment of Note (the "Assignments") from the Department to the Trustee; and

WHEREAS, the Board has determined that the Department, the Trustee and the Borrower will execute a Regulatory and Land Use Restriction Agreement (the "Regulatory Agreement"), with respect to the Development which will be filed of record in the real property records of Harris County, Texas; and

WHEREAS, the Board has determined that the Department and the Borrower will execute an Asset Oversight Agreement (the "Asset Oversight Agreement"), with respect to the Development for the purpose of monitoring the operation and maintenance of the Development; and

WHEREAS, the Board has examined proposed forms of (a) the Indenture, the Loan Agreement, the Assignments, the Regulatory Agreement and the Asset Oversight Agreement (collectively, the "Issuer Documents"), all of which are attached to and comprise a part of this Resolution and (b) the Mortgage and the Note; has found the form and substance of such documents to be satisfactory and proper and the recitals contained therein to be true, correct and complete; and has determined, subject to the conditions set forth in Article I, to authorize the issuance of the Bonds, the execution and delivery of the Issuer Documents, the acceptance of the Mortgage and the Note and the taking of such other actions as may be necessary or convenient in connection therewith;

NOW, THEREFORE,

BE IT RESOLVED BY THE BOARD OF THE DEPARTMENT:

ARTICLE I

ISSUANCE OF BONDS; APPROVAL OF DOCUMENTS

<u>Section 1.1--Issuance, Execution and Delivery of the Bonds</u>. That the issuance of the Bonds is hereby authorized, under and in accordance with the conditions set forth herein and in the Indenture, and that, upon execution and delivery of the Indenture, the authorized representatives of the Department named in this Resolution each are authorized hereby to execute, attest and affix the Department's seal to the Bonds and to deliver the Bonds to the Attorney General of the State for approval, the Comptroller of Public Accounts of the State for registration and the Trustee for authentication (to the extent required in the Indenture), and thereafter to deliver the Bonds to the order of the initial purchaser thereof.

Section 1.2--Interest Rate, Principal Amount, Maturity and Price. That (i) the Bonds shall bear interest at the rate of 5.80% per annum (subject to adjustment as provided in the Indenture); provided that, in no event shall the interest rate (including any default rate) on the Bonds exceed the maximum interest rate permitted by applicable law; (ii) the aggregate principal amount of the Bonds shall be $11,300,000; (iii) the final maturity of the Bonds shall occur not later than October 1, 2026; and (d) the price at which the Bonds are sold to the Bank shall be the principal amount thereof.

Section 1.3--Approval, Execution and Delivery of the Indenture. That the form and substance of the Indenture are hereby approved, and that the authorized representatives of the Department named in this Resolution each are authorized hereby to execute the Indenture and to deliver the Indenture to the Trustee.

Section 1.4--Approval, Execution and Delivery of the Loan Agreement. That the form and substance of the Loan Agreement are hereby approved, and that the authorized representatives of the Department named in this Resolution each are authorized hereby to execute the Loan Agreement and deliver the Loan Agreement to the Borrower and the Bank.

Section 1.5--Approval, Execution and Delivery of the Regulatory Agreement. That the form and substance of the Regulatory Agreement are hereby approved, and that the authorized representatives of the Department named in this Resolution each are authorized hereby to execute, attest and affix the Department's seal to the Regulatory Agreement and deliver the Regulatory Agreement to the Borrower and the Trustee and to cause the Regulatory Agreement to be filed of record in the real property records of Harris County, Texas.

Section 1.6--Acceptance of the Note and Mortgage. That the form and substance of the Note and Mortgage are hereby accepted by the Department and that the authorized representatives of the Department named in this Resolution each are hereby authorized to endorse and deliver the Note to the order of the Trustee, as its interests may appear, without recourse.

Section 1.7--Approval, Execution and Delivery of the Assignments. That the form and substance of the Assignments are hereby approved; and that the authorized representatives of the Department named in this Resolution are each hereby authorized to execute, attest and affix the Department's seal to the Assignments and to deliver the Assignments to the Trustee.

Section 1.8--Approval, Execution and Delivery of the Asset Oversight Agreement. That the form and substance of the Asset Oversight Agreement are hereby approved, and that the authorized representatives of the Department named in this Resolution each are authorized hereby to execute and deliver the Asset Oversight Agreement to the Borrower.

Section 1.9--Taking of Any Action; Execution and Delivery of Other Documents. That the authorized representatives of the Department named in this Resolution each are authorized hereby to take any actions and to execute, attest and affix the Department's seal to, and to deliver to the appropriate parties, all such other agreements, commitments, assignments, bonds, certificates, contracts, documents, instruments, releases, financing statements, letters of instruction, notices of acceptance, written requests and other papers, whether or not mentioned herein, as they or any of them consider to be necessary or convenient to carry out or assist in carrying out the purposes of this Resolution.

Section 1.10--Exhibits Incorporated Herein. That all of the terms and provisions of each of the documents listed below as an exhibit shall be and are hereby incorporated into and made a part of this Resolution for all purposes:

Exhibit B	-	Indenture
Exhibit C	-	Loan Agreement
Exhibit D	-	Regulatory Agreement
Exhibit E	-	Mortgage
Exhibit F	-	Note
Exhibit G	-	Assignments
Exhibit H	-	Asset Oversight Agreement

Section 1.11--Power to Revise Form of Documents. That notwithstanding any other provision of this Resolution, the authorized representatives of the Department named in this Resolution each are authorized hereby to make or approve such revisions in the form of the documents attached hereto as exhibits as, in the judgment of such authorized representative or authorized representatives, and in the opinion of Vinson & Elkins L.L.P., Bond Counsel to the Department, may be necessary or convenient to carry out or assist in carrying out the purposes of this Resolution, such approval to be evidenced by the execution of such documents by the authorized representatives of the Department named in this Resolution.

Section 1.12--Authorized Representatives. That the following persons are each hereby named as authorized representatives of the Department for purposes of executing, attesting, affixing the Department's seal to, and delivering the documents and instruments and taking the other actions referred to in this Article I: Chair and Vice Chairman of the Board, Executive Director of the Department, Deputy Executive Director of Housing Operations of the Department, Deputy Executive Director of Programs of the Department, Chief of Agency Administration of the Department, Director of Financial Administration of the Department, Director of Bond Finance of the Department, Director of Multifamily Finance Production of the Department and the Secretary to the Board.

Section 1.13--Conditions Precedent. That the issuance of the Bonds shall be further subject to, among other things: (a) the Development's meeting all underwriting criteria of the Department, to the satisfaction of the Executive Director of the Department; and (b) the execution by the Borrower and the Department of contractual arrangements satisfactory to the Department staff requiring that community service programs will be provided at the Development.

ARTICLE II

APPROVAL AND RATIFICATION OF CERTAIN ACTIONS

Section 2.1--Approval and Ratification of Application to Texas Bond Review Board. That the Board hereby ratifies and approves the submission of the application for approval of state bonds to the Texas Bond Review Board on behalf of the Department in connection with the issuance of the Bonds in accordance with Chapter 1231, Texas Government Code.

Section 2.2--Approval of Submission to the Attorney General. That the Board hereby authorizes, and approves the submission by the Department's Bond Counsel to the Attorney General of the State, for his approval, of a transcript of legal proceedings relating to the issuance, sale and delivery of the Bonds.

Section 2.3--Engagement of Other Professionals. That the Executive Director of the Department or any successor is authorized to engage auditors to perform such functions, audits, yield calculations and subsequent investigations as necessary or appropriate to comply with the requirements of Bond Counsel to the Department, provided such engagement is done in accordance with applicable law of the State.

Section 2.4--Certification of the Minutes and Records. That the Secretary to the Board hereby is authorized to certify and authenticate minutes and other records on behalf of the Department for the Bonds and all other Department activities.

Section 2.5--Approving Initial Rents. That the initial maximum rent charged by the Borrower for the units of the Development shall not exceed the amounts attached as an exhibit to the Regulatory Agreement and shall be annually redetermined by the Borrower and reviewed by the Department as set forth in the Loan Agreement.

Section 2.6--Authority to Invest Proceeds. That the Department is authorized to invest and reinvest the proceeds of the Bonds and the fees and revenues to be received in connection with the financing of the Development in accordance with the Indenture and to enter into any agreements relating thereto only to the extent permitted by the Indenture.

Section 2.7--Ratifying Other Actions. That all other actions taken by the Executive Director of the Department and the Department staff in connection with the issuance of the Bonds and the financing of the Development are hereby ratified and confirmed.

ARTICLE III

CERTAIN FINDINGS AND DETERMINATIONS

Section 3.1--Findings of the Board. That in accordance with Section 2306.223 of the Act and after the Department's consideration of the information with respect to the Development and the information with respect to the proposed financing of the Development by the Department, including but not limited to the information submitted by the Borrower, independent studies commissioned by the Department, recommendations of the Department staff and such other information as it deems relevant, the Board hereby finds:

(a) Need for Housing Development.

(i) that the Development is necessary to provide needed decent, safe, and sanitary housing at rentals or prices that individuals or families of low and very low income or families of moderate income can afford,

(ii) that the financing of the Development is a public purpose and will provide a public benefit, and

(iii) that the Development will be undertaken within the authority granted by the Act to the housing finance division and the Borrower.

(b) Findings with Respect to the Borrower.

(i) that the Borrower, by operating the Development in accordance with the requirements of the Loan Agreement and Regulatory Agreement, will comply with applicable local building requirements and will supply well-planned and well-designed housing for individuals or families of low and very low income or families of moderate income,

(ii) that the Borrower is financially responsible and has entered into a binding commitment to repay the Loan in accordance with its terms, and

(iii) that the Borrower is not, and will not enter into a contract for the Development with, a housing developer that: (A) is on the Department's debarred list, including any parts of that list that are derived from the debarred list of the United States Department of Housing and Urban Development; (B) breached a contract with a public agency; or (C) misrepresented to a subcontractor the extent to which the developer has benefited from contracts or financial assistance that has been awarded by a public agency, including the scope of the developer's participation in contracts with the agency and the amount of financial assistance awarded to the developer by the Department.

(c) Public Purpose and Benefits.

(i) that the Borrower has agreed to operate the Development in accordance with the Loan Agreement and the Regulatory Agreement, which require, among other things, that the Development be occupied by individuals and families of low and very low income and families of moderate income, and

(ii) that the issuance of the Bonds to finance the Development is undertaken within the authority conferred by the Act and will accomplish a valid public purpose and will provide a public benefit by assisting individuals and families of low and very low income and families of moderate income in the State to obtain decent, safe, and sanitary housing by financing the costs of the Development, thereby helping to maintain a fully adequate supply of sanitary and safe dwelling accommodations at rents that such individuals and families can afford.

Section 3.2--Determination of Eligible Tenants. That the Board has determined, to the extent permitted by law and after consideration of such evidence and factors as it deems relevant, the findings of the staff of the Department, the laws applicable to the Department and the provisions of the Act, that eligible tenants for the Development shall be (1) individuals and families of low and very low income, (2) persons with special needs, and (3) families of moderate income, with the income limits as set forth in the Loan Agreement and the Regulatory Agreement.

Section 3.3--Sufficiency of Loan Interest Rate. That the Board hereby finds and determines that the interest rate on the Loan established pursuant to the Loan Agreement will produce the amounts required, together with other available funds, to pay for the Department's costs of operation with respect to the Bonds and the Development and enable the Department to meet its covenants with and responsibilities to the holders of the Bonds.

Section 3.4--No Gain Allowed. That, in accordance with Section 2306.498 of the Act, no member of the Board or employee of the Department may purchase any Bond in the secondary open market for municipal securities.

Section 3.5--Waiver of Rules. That the Board hereby waives the rules contained in Chapters 33 and 35, Title 10 of the Texas Administrative Code to the extent such rules are inconsistent with the terms of this Resolution and the bond documents authorized hereunder.

ARTICLE IV

GENERAL PROVISIONS

Section 4.1--Limited Obligations. That the Bonds and the interest thereon shall be limited obligations of the Department payable solely from the trust estate created under the Indenture, including the revenues and funds of the Department pledged under the Indenture to secure payment of the Bonds, and under no circumstances shall the Bonds be payable from any other revenues, funds, assets or income of the Department.

Section 4.2--Non-Governmental Obligations. That the Bonds shall not be and do not create or constitute in any way an obligation, a debt or a liability of the State or create or constitute a pledge, giving or lending of the faith or credit or taxing power of the State. Each Bond shall contain on its face a statement to the effect that the State is not obligated to pay the principal thereof or interest thereon and that neither the faith or credit nor the taxing power of the State is pledged, given or loaned to such payment.

Section 4.3--Effective Date. That this Resolution shall be in full force and effect from and upon its adoption.

Section 4.4--Notice of Meeting. Written notice of the date, hour and place of the meeting of the Board at which this Resolution was considered and of the subject of this Resolution was furnished to the Secretary of State and posted on the Internet for at least seven (7) days preceding the convening of such meeting; that during regular office hours a computer terminal located in a place convenient to the public in the office of the Secretary of State was provided such that the general public could view such posting; that such meeting was open to the public as required by law at all times during which this Resolution and the subject matter hereof was discussed, considered and formally acted upon, all as required by the Open Meetings Act, Chapter 551, Texas Government Code, as amended; and that written notice of the date, hour and place of the meeting of the Board and of the subject of this Resolution was published in the Texas Register at least seven (7) days preceding the convening of such meeting, as required by the Administrative Procedure and Texas Register Act, Chapters 2001 and 2002, Texas Government Code, as amended. Additionally, all of the materials in the possession of the Department relevant to the subject of this Resolution were sent to interested persons and organizations, posted on the Department's website, made available in hard-copy at the Department, and filed with the Secretary of State for publication by reference in the Texas Register not later than seven (7) days before the meeting of the Board as required by Section 2306.032, Texas Government Code, as amended.

[EXECUTION PAGE FOLLOWS]

PASSED AND APPROVED this 30th day of August, 2006.

EXHIBIT A

DESCRIPTION OF DEVELOPMENT

Owner: 15301 Stonehaven Apartments, LP, a Texas limited partnership

Development: The Development is a 192-unit multifamily facility to be known as Stonehaven Apartment Homes and to be located at approximately the 15301 block of Northwest Freeway, Harris County, Texas. It will consist of 56 one-story, 72 two-story and 64 three-story residential apartment buildings with approximately 178,928 net rentable square feet and an average unit size of approximately 932 square feet. The unit mix will consist of:

56 one-bedroom/one-bath units

72 two-bedroom/two-bath units

64 three-bedroom/two-bath units

192 Total Units

Unit sizes will range from approximately 680 square feet to approximately 1132 square feet.

Common areas are expected to include a swimming pool, a gazebo, picnic areas with BBQ grills, a play area with playground equipment, and a community center with a central kitchen, an exercise room, computer facilities, learning center and laundry facilities. The Development will also have a perimeter fence with limited access gates and rental carports, garages and storage units.

CONDITIONS OF COMMITMENT

Per §50.12(c) of the Qualified Allocation Plan and Rules, all Tax Exempt Bond Development Applications "must provide an executed agreement with a qualified service provider for the provision of special supportive services that would otherwise not be available for the tenants. The provision of such services will be included in the Declaration of Land Use Restrictive Covenants ("LURA")."

Should the terms and rates of the proposed debt or syndication change, the transaction should be re-evaluated and an adjustment to the credit amount may be warranted.

Stonehaven Apartment Homes, TDHCA Number 060613

RECOMMENDATION BY THE EXECUTIVE AWARD AND REVIEW ADVISORY COMMITTEE IS BASED ON:

4% Housing Tax Credits: Credit Amount: $686,616

Recommendation: **Recommend approval of a Housing Tax Credit allocation not to exceed $686,616 annually for ten years, subject to conditions.**

TDHCA Bond Issuance: Bond Amount: $11,300,000

Recommendation: **Recommend Approval of issuance of $11,300,000 in Tax Exempt Mortgage Revenue Bonds with a fixed interest rate underwritten at 6.09% and repayment term of 40 years with a 40 year amortization period, subject to conditions.**

HOME Activity Funds: Loan Amount: $0

HOME CHDO Operating Expense Grant: Grant Amount: $0

Recommendation:

Stonehaven Apartment Homes

ARCHITECTURAL REVIEW

The building and unit plans are comparable to other modern apartment developments. They appear to provide acceptable access and storage. The elevations reflect modest buildings.

STRUCTURAL MATERIALS

The structures will be constructed on concrete slabs. According to the plans provided in the application the exterior will be 10% masonry veneer and 90% cement fiber. The interior wall surfaces will be drywall and the roofs will be finished with composite shingles.

UNIT FEATURES

The interior flooring will be carpet and resilient covering. Threshold criteria for the 2006 QAP requires all development units to include: mini blinds or window coverings for all windows, a dishwasher, a disposal, a refrigerator, an oven/range, an exhaust/vent fan in bathrooms, and a ceiling fan in each living area and bedroom. New construction units must also include three networks: one for phone service, one for data service, and one for TV service. In addition, each unit will include: microwave, an ice maker in the refrigerator, a self-cleaning oven, a forced air unit, individual water heater, and nine-foot ceilings.

ONSITE AMENITIES

In order to meet threshold criteria for total units of 150 or more, the Applicant has elected to provide a barbecue or picnic table for every 50 units, community laundry room, controlled access gates, an equipped business center or computer learning center, full perimeter fencing, a furnished community room, a furnished fitness center, a gazebo with sitting area, public telephone(s) available to tenants 24 hours a day, a swimming pool, and two children's playgrounds equipped for 5 to 12 year olds/two tot lots/one of each.

Uncovered Parking: 204 spaces **Carports:** 96 spaces **Garages:** 42 spaces

PROPOSAL and DEVELOPMENT PLAN DESCRIPTION

Description: Stonehaven Apartment Homes is a 21.2-unit per acre new construction development located in northwest Houston. The development will be comprised of eight evenly distributed residential buildings as follows:

No. of Buildings	No. of Floors	1BR	2BR	3BR
1	3	12	12	
5	3		12	12
1	3	24		
1	3	20		4

The development will include a 3,200-square foot community building with an exercise room, full kitchen, business center, learning center, and club room. In addition, the development will include a separate 2,000-square foot laundry/maintenance building.

SITE ISSUES

SITE DESCRIPTION

Total Size:	9.0580 acres	**Scattered sites?**	☐ Yes ☒ No
Flood Zone:	Zone X	**Within 100-year floodplain?**	☐ Yes ☒ No
Current Zoning:	N/A	**Needs to be re-zoned?**	☐ Yes ☒ No ☐ N/A

SITE and NEIGHBORHOOD CHARACTERISTICS

Location: The site is an irregular-shaped tract located northwest of downtown Houston along the Northwest Freeway/ U.S. 290. The site is outside of the Houston city limits, approximately 13 miles from Houston's downtown area.

Adjacent Land Uses:

- **North:** Northwest Freeway immediately adjacent and commercial beyond;
- **South:** West Little York Park & Ride immediately adjacent and Hempstead Road beyond;
- **East:** vacant land immediately adjacent and commercial property beyond; and
- **West:** several small office/warehouse buildings immediately adjacent.

Site Access: Primary access to the site will be from east bound along the Highway 290 feeder road. The siteplan indicates one alternate access drive from West Little York Road and one other from the Highway 290 feeder road. The property is located adjacent to Highway 290 which provides access to other parts of the city, region, and state.

Public Transportation: Park and Ride services are provided by Houston's Metropolitan Transit Authority (METRO). The site is adjacent to the West Little York Park & Ride facility.

Shopping & Services: A major supermarket, other retail facilities and restaurants, medical facilities and banks are all located within two miles of the site.

TDHCA SITE INSPECTION

Inspector: Manufactured Housing Staff **Date:** 05/25/2006

Overall Assessment: ☐ Excellent ☒ Acceptable ☐ Questionable ☐ Poor ☐ Unacceptable

Comments:

HIGHLIGHTS of SOILS & HAZARDOUS MATERIALS REPORT(S)

A Phase I Environmental Site Assessment report dated June 2006 was prepared by DCH Environmental Consultants LP and contained the following findings and recommendations:

Findings:

- **Noise:** "Based on our review of the proposed site plans, the subject site will be built back about 100' from the nearest lane of US 290. Detention and parking will be built between the property edge and US 290 to assist in muting noise from US 290. The design of the buildings will include R13 - R15 insulation in the walls and R30 insulation in the ceilings to assist in noise control. Based on our review of other apartment projects in the near area, the Stonehaven Apartments will be built back as far as or further than the other apartment developments. No further action is recommended at this time."
- **Floodplain:** "According to the Federal Emergency Management Act (FEMA) Flood Insurance Rate Map (FIRM) Panel No. FM48201C0635K, the subject property does not lie within a 100 or a 500-year flood zone. A copy of the flood zone map is presented in the Photographs and Illustrations section of this report."
- **Asbestos-Containing Materials (ACM):** "There are no structures or material on the site that would have suspect ACM."
- **Lead-Based Paint (LBP):** "There are no structures or material on the site that would have suspect Lead Based Paint."
- **Lead in Drinking Water:** "DCH Contacted Ms. Arissa Bertrand with the Environmental Compliance Department of Severn Trent Services. Severn Trent handles all water quality issues for West Harris County MUD #1 (which services the area of the proposed development). Ms. Bertrand stated that they are in compliance with all EPA drinking water quality issues which includes lead."
- **Radon:** "The Houston area does not have the source material needed for radon to be produced. Contact with TCEQ, and review of EPA files indicate that radon is not considered a major problem in the Houston area."
- **Recognized Environmental Concerns (RECs):** "Based upon DCH's site investigation of the subject property, surrounding properties, regulatory agency records review and inquiries, interviews, and historical research, no other direct evidence was found indicating recognized environmental conditions

exist at the subject property."

Recommendations: "No further action is recommended at this time."

INCOME SET-ASIDE

The Applicant has elected the 40% at 60% or less of area median gross income (AMGI) set-aside. One-hundred percent of the 192 units will be reserved for low-income tenant households earning 60% or less of AMI. Of note, any Qualified Residential Rental Project qualifies as a Priority 3 Private Activity Bond allocation (§ 1372.0321).

MAXIMUM ELIGIBLE INCOMES (Harris County)						
	1 Person	2 Persons	3 Persons	4 Persons	5 Persons	6 Persons
60% of AMI	$25,620	$29,280	$32,940	$36,600	$39,540	$42,480

MARKET HIGHLIGHTS

A market feasibility study dated April 25, 2006 was prepared by O'Connor and Associates and included the following findings:

Secondary Market Information: The Market Analyst does not indicate a secondary market area.

Definition of Primary Market Area (PMA): "The primary market is defined as the aggregated area of the following ZIP Codes: 77040 (where the subject is located), 77041, 77064, 77065, 77080, 77086, and 77092. The major boundaries of the area include Bingle Rd. to North Houston Rosslyn Rd. to the Burlington Northern railroad to the east, Clay Rd. to West 34th St. to the south, North Eldridge Pkwy. to West Rd. to Jones Rd. to the west, and Old Fairbanks North Houston Rd. to Fallbrook Rd. to the north." (p. 13). This area encompasses approximately 40.54 square miles and is equivalent to a circle with a radius of 3.59 miles.

Population: The estimated 2006 general population was 96,614 and is expected to increase by 11.03% to approximately 107,275 by 2011. Within the primary market area there were estimated to be 34,201 households in 2006.

Total Market Demand: The Market Analyst utilized a household size-appropriate adjustment rate of 93.89% (p. 75). The Analyst's income band of $23,520 to $39,540 and income specific tenure rates result in an income eligible tenure appropriate adjustment rate of 7.63% (p. 73). The Market Analyst indicates a turnover rate of 64.4% applies based on IREM data (p. 75).

In addition, the Market Analyst included demand from Section 8 voucher holders. "Section 8 vouchers will also be accepted at the subject property. The demand created by Section 8 voucher holders will be additional demand for rent-restricted units. The number of Section 8 vouchers available was determined by contacting the local housing authority with jurisdiction over the subject's location, which in this case was the City of Houston Housing Authority. The housing authority reported a total of 14,895 Section 8 vouchers issued. Total theoretical demand generated by Section 8 vouchers in the PMA is calculated by multiplying the total number of vouchers for the entire city by the ratio of income-qualified households in the PMA to number of income-qualified households in the proposed subject's city" (p. 74). The Underwriter has also included this source of demand but recalculated the total and concluded a lower demand from this source.

MARKET DEMAND SUMMARY				
	Market Analyst		Underwriter	
Type of Demand	Units of Demand	% of Total Demand	Units of Demand	% of Total Demand
Household Growth	51	3%	53	3%
Resident Turnover	1,578	89%	1,626	92%
Other Sources: Section 8	151	8%	58	5%
TOTAL DEMAND	**1,780**	**100%**	**1,738**	**100%**

p. 75

Inclusive Capture Rate: The Market Analyst calculated an inclusive capture rate of 10.79% based upon 1,780 units of demand and 192 unstabilized affordable housing in the PMA (including the subject) (p. 76). The Underwriter calculated an inclusive capture rate of 24.63% based upon a supply of 428 unstabilized comparable affordable units divided by a revised demand estimate for 1,738 affordable units. The Market Analyst did not include 236 units from #060610 Meadowlands which is currently proposed in the subject's primary market area; the Underwriter did include these units as they have a priority bond reservation and are likely to close.

Unit Mix Conclusion: "The average household size in the primary market area is 2.82 persons, with nearly 94% of the area households having five persons or less. Based on discussions with leasing agents and our own analysis of the rental rates at the selected comparables in the primary market area, the proposed unit mix is appropriate and will complement the local affordable housing market." (p. 14).

Market Rent Comparables: The Market Analyst surveyed five comparable apartment projects totaling 1,528 units in the market area.

RENT ANALYSIS (net tenant-paid rents)					
Unit Type (% AMI)	**Proposed**	**Program Max**	**Differential**	**Est. Market**	**Differential**
1-Bedroom (60%)	$626	$625	$1	$705	-$79
2-Bedroom (60%)	$751	$751	$0	$900	-$149
3-Bedroom (60%)	$862	$862	$0	$1,060	-$198

(NOTE: Differentials are amount of difference between proposed rents and program limits and average market rents, e.g., proposed rent =$500, program max =$600, differential = -$100)

Primary Market Occupancy Rates: "The selected comparable apartments surveyed in the primary market area exhibited strong occupancy rates, with a median occupancy level of 93% and a median rental rate of ±$1.01 per square foot per month. According to our research (including contacting the Houston HUD Office), there are 6 projects in the subject's primary market area in which the rents are based on income or otherwise restricted. Park at Woodwind Lakes, a family project built in 2003, is the closest HTC project to the subject. This property contains 144 units and is currently 97% occupied." (p. 13). The Department's current maximum inclusive capture rate for urban/exurban developments targeting families is 25%.

Absorption Projections: "Based on our research, most new projects in the primary market area typically lease up within 12 months. The subject property is expected to lease to stabilized occupancy within 10 to 12 months." (p. 15).

Unstabilized, Under Construction, and Planned Development: "Based on our research, there is one approved rent-restricted property, Rolling Creek Apartments, in the primary market area. However, per a conversation with Teresa Morales of the TDHCA on May 8, 2006, this property's application has expired and is not active, and therefore, it should not be included in capture rate calculations. There is one unstabilized rent-restricted property, The Manor at Jersey Village, in the primary market area; however, this property is considered non-comparable since it is restricted to seniors. We are not aware of any other proposed, under-construction, or unstabilized new comparable projects in the primary market area" (p. 50). The Underwriter has identified two additional proposed developments within the PMA. Meadowlands (#060610) is a proposed 4% tax credit/bond development with 236 units targeting families, and a revived Rolling Creek Apartments (4% tax credit/bond development with 248 units targeting families). Meadowlands currently has priority over the subject development. However, the subject development has priority over Rolling Creek Apartments should be included while Rolling Creek Apartments should not be included. It should be noted that the Market Analyst's inclusive capture rate would not exceed 25% if Meadowlands had been included in the capture rate. Also of note, both the Underwriter's and Market Analyst's inclusive capture rates would exceed 25% if the 248 proposed units from Rolling Creek Apartments were included in the capture rate calculation.

Market Impact: "Based on the high occupancy levels of the existing properties in the market, we project that it will have minimal sustained negative impact upon the existing apartment market. Any negative impact from the subject property should be of reasonable scope and limited duration." (p.15).

Other Information: The Department commissioned a market study for the Houston-Baytown-Sugar Land Metropolitan Statistical Area (MSA). The proposed development is located in the Brookhollow/Spring Branch submarket (#13) within the Houston MSA. According to the Department market study; there are -60 units of demand for one bedroom units at the 60% income level; -77 units of demand for two bedroom units at the 60% income level; and -40 units of demand for three bedroom units at the 60% income level (p. III-593).

The Department's market study for the entire MSA does not incorporate demand from turnover as normally allowed in development specific market studies because in an overall study the demand from turnover returns to all of the units in the market area. A development specific market study identifies the demand from turnover as potential demand that can be attract away from existing units and to the proposed development (and any other new developments that have not yet become fully occupied.).

The Underwriter requested additional information from the Market Analyst to explore these and other differences. In a follow-up analysis dated August 10, 2006 the Market Analyst indicated the following concerns with the study commissioned by the Department:

- "Vogt, Williams, and Bowen's methodology does not conform to 2006 QAP guidelines, and thus, does not accurately reflect demand in the market. Most notably, the Brookhollow/Spring Branch submarket in the study contains 221,040 residents, well in excess of the population limit of 100,000.
- Vogt, Williams, and Bowen's defined primary market area encompasses only a small portion of the Beltway 8/Northwest Freeway area in which the subject is located, and also includes the Spring Branch area and a portion of inner city Houston located south and east of Interstate 610. These two areas, Spring Branch and inside Interstate 610, are distinctly different in terms of demographics, competition, and development trends, from the area in which the proposed subject is located.
- Utilizing the Vogt Williams methodology contradicts the...goals/missions of the TDHCA and perpetuates and exacerbates the problem of substandard housing within the market.
- The vast majority of the existing units in the primary market area are in older complexes, with over 82% of the complexes being built in the 1970s or earlier. Vogt Williams' methodology assumes 2.5% of the existing product as 'functionally obsolete,' defined by Vogt Williams as being 35 years or older. Based on this methodology, the units constructed in 1971 or before would be considered 'functionally obsolete,' meaning the primary market area currently has 12,030 such units. Applying Vogt Williams' standard 2.5% annual replacement would result in only 3,008 units (12,030 x 2.5% x 10) replaced over the next 10 years. At the end of the 10-year period, those units constructed between 1972 and 1981 would become 'functionally obsolete.' Therefore, there would be 28,888 'functionally obsolete' units (12,030 pre-1971 units + 19,866 pre-1981 units – 3,008 units replaced over 10 years) in the market in 10 years versus 12,030 today, amounting to an increase of over 140%.
- [The analysis provided with this response] utilizes the methodology outlined in the QAP and the primary market area outlined by Vogt, Williams, and Bowen to illustrate that the capture rate is within TDHCA guidelines." The Market Analyst calculated an inclusive capture rate of 4.83% based on the methodology defined in the QAP and underwriting guidelines and the Vogt, Williams, and Bowen market area and demographics.

Market Study Analysis/Conclusions: The Underwriter found the market study provided sufficient information on which to base a funding recommendation.

OPERATING PROFORMA ANALYSIS

Income: The Applicant's projected rents collected per unit were calculated by subtracting tenant-paid utility allowances as of April 1, 2005, maintained by the Harris County Housing Authority (HCHA), from the 2006 program gross rent limits. The Underwriter used current utility allowances from the HCHA dated April 1, 2006, which results in a slight difference in the utility allowances for one bedroom units. Tenants will be required to pay electric costs. The Applicant's vacancy and collection loss is within the Department's guideline. The Applicant included secondary income from 96 carports and 42 garages that will be available for lease by the tenants. However, the Applicant did not provide evidence that income from this source is attainable; therefore, the Underwriter chose not to include this source of income. Despite this difference, the Applicant's estimated effective gross income is within 5% of the Underwriter's estimate.

Expenses: The Applicant's total annual operating expense projection at $3,955 per unit is within 5% of the Underwriter's estimate of $3,939, derived from the TDHCA database and third-party data sources. However, a number of the Applicant's estimates of specific line items differ significantly from the Underwriter's, including: general and administrative ($29K or 40% lower); utilities ($18K or 42% lower); property insurance ($23K or 40% higher); and property tax ($17K or 13% higher). Additionally, the Applicant has understated TDHCA compliance fees.

Conclusion: The Applicant's estimates of income, expenses, and net operating income are each within 5% of the Underwriter's estimates; therefore the Applicant's proforma will be used to determine the development's debt service ratio (DCR) and debt capacity. The proforma and estimated debt service result in a DCR within the current underwriting guideline of 1.10 to 1.30.

Long-Term Feasibility: The underwriting 30-year proforma utilizes a 3% annual growth factor for income and a 4% annual growth factor for expenses in accordance with current TDHCA guidelines. As noted above, the Applicant's base year effective gross income, expense and net operating income were utilized resulting in a debt coverage ratio that remains above 1.10 and continued positive cashflow. Therefore, the development can be characterized as feasible for the long-term.

ACQUISITION VALUATION INFORMATION

ASSESSED VALUE

Land: 9.05 acres	$437,906	**Assessment for the Year of:**	2006
Building:	N/A	**Valuation by:**	Harris County Appraisal District
Total Assessed Value:	$437,906	**Tax Rate:**	3.20697

EVIDENCE of SITE or PROPERTY CONTROL

Type of Site Control:	Contract of Purchase and Sale (9.0580 acres)		
Contract Expiration:	8/11/2006 and two 60 day extensions	**Valid through Board Date?**	☒ Yes ☐ No
Acquisition Cost:	$1,676,908	**Other:**	
Seller:	Northwest Freeway/Sam Houston Tollway 9.1.,JV	**Related to Development Team?**	☐ Yes ☒ No

CONSTRUCTION COST ESTIMATE EVALUATION

Acquisition Value: The site cost of $185,130 per acre or $8,734 per unit is assumed to be reasonable since the acquisition is an arm's-length transaction. The contract for the sale of the property is between StoneArch Development, Inc (Purchaser) and Northwest Freeway/Sam Houston Tollway 9.1.,JV (Seller). The Applicant also provided an Assignment of Earnest Money Contract assigning the property to the partnership.

Sitework Cost: The Applicant's claimed sitework costs of $6,648 per unit are within current Department guidelines. Therefore, further third party substantiation is not required.

Direct Construction Cost: The Applicant's direct construction cost estimate is $599K or 7% lower than the Underwriter's Marshall & Swift *Residential Cost Handbook*-derived estimate.

Interim Financing Fees: The Underwriter reduced the Applicant's eligible interim financing fees by $250,220 to bring the eligible interest expense down to one year of fully drawn interest expense. This results in an equivalent reduction to the Applicant's eligible basis estimate.

Fees: The Applicant's contingencies and fees for the contractor and developer were set above the maximums allowed by TDHCA guidelines, and with the reduction in eligible basis due to the misapplication of eligible basis discussed above the eligible basis portion of these fees now exceed the maximum by $532,651 and have been reduced by the same amount in order to recalculate the appropriate requested credit amount.

Conclusion: The Applicant's total development cost is within 5% of the Underwriter's estimate; therefore, the Applicant's cost schedule will be used to determine the development's need for permanent funds and to calculate eligible basis. An eligible basis of $14,712,158 supports annual tax credits of $686,616. This figure will be compared to the Applicant's request and the tax credits calculated based on the gap in need for permanent funds to determine the recommended allocation.

FINANCING STRUCTURE

Amount: $54,118 **Source:** Deferred Developer Fee

FINANCING STRUCTURE ANALYSIS

Interim to Permanent Bond Financing: The mortgage revenue bonds will be issued by the Texas Department of Housing and Community Affairs. The interim to permanent financing commitment is consistent with the terms reflected in the sources and uses of funds listed in the application.

HTC Syndication: The tax credit syndication commitment from PNC MultiFamily Capital is consistent with the terms reflected in the sources and uses of funds listed in the application.

Cash Equity: The Applicant included cash equity amounting to $100 as a source of funds.

Deferred Developer's Fees: The Applicant's proposed deferred developer's fees of $54,118 amount to 3% of the total fees.

Financing Conclusions: The Applicant's total development cost estimate less the permanent loan of $11,300,000 indicates the need for $6,895,795 in gap funds. Based on the submitted syndication terms, a tax credit allocation of $715,616 annually would be required to fill this gap in financing. Of the three possible tax credit allocations, Applicant's request ($710,000), the gap-driven amount ($715,616), and eligible basis-derived estimate ($686,616), the eligible basis-derived estimate of $686,616 is recommended resulting in proceeds of $6,616,349 based on a syndication rate of 96%. The Underwriter's recommended financing structure indicates the need for $279,446 in additional permanent funds. Deferred developer fees in this amount appear to be repayable within three years of stabilized operation.

The syndication rate proposed in the commitment is on the mid to high end of current credit prices. However, if the final syndication rate were to increase by four cents per dollar of tax credit, an excess of funds would exist, all else held constant, and a reduction in recommended tax credits would be required based on the gap method of determining credits.

DEVELOPMENT TEAM

IDENTITIES of INTEREST

- The Applicant and Developer are related entities. These are common relationships for HTC-funded developments.

APPLICANT'S/PRINCIPALS' FINANCIAL HIGHLIGHTS, BACKGROUND, and EXPERIENCE

Financial Highlights:

- The Applicant, General Partner, and Developer are single-purpose entities created for the purpose of receiving assistance from TDHCA and therefore have no material financial statements.
- The 99% owner of the General Partner and 100% owner of the Developer, Kenneth G Cash, submitted an unaudited financial statement as of April 26, 2006 and is anticipated to be guarantor of the development.

Background & Experience: Multifamily Production Finance Staff have verified that the Department's experience requirements have been met and Portfolio Management and Compliance staff will ensure that the proposed owners have an acceptable record of previous participation.

SUMMARY OF SALIENT RISKS AND ISSUES

- The Applicant's direct construction costs differ from the Underwriter's *Marshall and Swift*-based estimate by more than 5%.

Underwriter:	*Cameron Dorsey*	**Date:**	August 23, 2006
Director of Real Estate Analysis:	*Tom Gouris*	**Date:**	August 23, 2006

TEXAS DEPARTMENT OF HOUSING AND COMMUNITY AFFAIRS

STONEHAVEN APARTMENT HOMES

PUBLIC HEARING

Cafeteria
Post Elementary School
7600 Equador
Houston, Texas

Thursday
May 25, 2006
6:00 p.m.

BEFORE:

SHANNON ROTH, Housing Specialist

P R O C E E D I N G S

MS. ROTH: Good evening. My name is Shannon Roth. I would like to proceed with the public hearing. Let the record show that it is 6:15 p.m. Thursday, May 25, and we are at the Post Elementary School, located at 7600 Equador, Houston, Texas.

I'm here to conduct the public hearing on behalf of the Texas Department of Housing and Community Affairs with respect to an issuance of tax-exempt multifamily revenue bonds for a residential rental community. This hearing is required by the Internal Revenue Code.

The sole purpose of this hearing is to provide a reasonable opportunity for interested individuals to express their views regarding the development and the proposed bond issue. No decisions regarding the development will be made at this hearing.

The Department's board is scheduled to meet to consider the transaction on August 30, 2006. In addition to providing your comments at this hearing, the public is also invited to provide comment directly to the board at any of their meetings. The Department staff will also accept written comment from the public up to 5:00 p.m. on July 18, 2006.

The bonds will be issued as tax-exempt multifamily revenue bonds in the aggregate principal amount not to exceed 12 million and taxable bonds, if necessary, in an amount to be determined and issued in one or more series by the Texas Department of Housing and Community Affairs, the issuer.

The proceeds of the bonds will be loaned to 15301 Stonehaven Apartments, LP, or a related person or affiliate entity thereof to finance a portion of the cost of acquiring, constructing, and equipping a multifamily rental housing community described as follows: a 192-unit multifamily residential rental development to be constructed on approximately 9.05 acres of land located at approximately 15301 block of Northwest Freeway, Harris County, Texas.

The proposed multifamily rental housing community will be initially owned and operated by the borrower or a related person or affiliate thereof.

I would like to now open the floor up to public comment. Let the record show that the only attendee is the developer; therefore, the meeting is now adjourned, and the time is 6:17 p.m.

(Whereupon, at 6:17 p.m., the hearing was concluded.)

BOARD ACTION REQUEST

August 30, 2006

Action Item

Board requested action on whether to rescind the action taken at the July 12, 2006 TDHCA Board Meeting to Deny staff recommendation of approval regarding Agenda Item 7. a) Presentation, Discussion and Possible Issuance of Multi Family Revenue Bonds and Housing Tax Credits with TDHCA as the Issuer For: 060611 Parkwest Apartments, Houston, Texas for a Bond amount not to Exceed $15,000,000 and the Issuance of a Determination Notice Recommended Credit Amount of $875,000. Resolution No. 06-023.

Requested Action

The Board requested by general consent at its July 28, 2006 meeting for the staff to schedule a vote on this agenda to determine by a majority vote of all members present, whether to rescind the vote taken on July 12, 2006 regarding Parkwest Apartments in Houston, Texas. The action in this agenda item is only to determine if the Board will agree to hear Agenda item b) of this agenda item. This action does not set aside the initial vote taken. To be valid, a motion to rescind must be made, seconded, and receive a majority vote.

Background

On July 12, 2006, the Board voted by a 3-2 majority to deny the issuance of Multi Family Revenue Bonds for Parkwest Apartments. At that meeting, on a motion made by Mr. Bogany, and seconded by Mr. Flores, the Chair voted with Mr. Bogany and Mr. Flores to create a majority in voting to deny the issuance of the bonds. Mr. Conine and Mr. Gonzales voted against. Mayor Salinas did not vote or participate in the discussion as he had left the meeting at this time.

Roberts Rules of Order state that a motion to rescind can be taken on any main motion that has been adopted, provided the action has not advanced to where it could not be undone (i.e., awarding a contract that has been partially performed under and then reversing vote; seating a person as a committee member then attempting to change the vote to confirm, etc.). Board policies provide that where appropriate, the Board will be governed by Roberts Rules of Order.

The Board is subject to Texas Government Code §551, and therefore the request made at the July 28, 2006 meeting could not be acted upon as an action taken by the Board must be properly noticed to the public. As the intent to address the motion to rescind has been included on this agenda, and therefore proper notice has been given under §551 and Texas Government Code §2306.032, the Board may consider rescinding its previous vote by a simple majority of those casting votes today regardless of how they voted on the original motion, or even if they did not vote. In the event of a three-to-three vote, a motion to rescind would fail, and the subsequent agenda item in b) of this section would not be heard.

The staff is currently unaware of any material changes to the request. The applicant indicated at the July 28, 2006 meeting that some of the material presented in public testimony was contradictory to materials they had previously received, but because of the nature of the hearing, that material was not presented.

Staff has made an attempt to notify all parties that spoke at the July 12, 2006 hearing of this agenda item, prior to the Board Book being posted seven days in advance of this meeting.

Staff Recommendation: None. Rescinding a Board decision is in the sole discretion of the Board.

Presentation, Discussion and Possible Issuance of Multifamily Mortgage Revenue Bonds, Series 2006 and Housing Tax Credits for the Parkwest Apartment Homes development.

Requested Action

Approve, Amend or Deny the staff recommendation for the Parkwest Apartment Homes development.

Summary of the Parkwest Apartment Homes Transaction

The pre-application for the 2006 Waiting List was received on February 6, 2006. The application was scored and ranked by staff. The application was induced at the March 20, 2006 Board meeting and submitted to the Texas Bond Review Board. The application received a Reservation of Allocation on March 28, 2006. This application was submitted under the Priority 3 category. A public hearing was held on May 31, 2006. There were 67 people in attendance including State Representative Hubert Vo, Superintendent Louis Stoerner, and a representative from Commissioner Steve Radack's office. Nineteen (19) people spoke for the record. Sixty (60) people signed in as opposed, two (2) were in support, and five (5) were neutral. The Department has received thirteen letters of opposition and one letter of support. The opposition letters were received from the following: State Representative Hubert Vo, former State Representative Talmadge Heflin, the Superintendent of Alief ISD, President of the School Board of Trustees, Commissioner Steve Radack, and the Harris County MUD District. The other opposition letters came from individuals within the community. The main concerns that were addressed included the overcrowding in emergency rooms and hospitals, excessive concentration of affordable housing complexes in the Alief area, occupancy rates of currently multifamily developments in the area, and the additional stress that will be placed on the volunteer Fire Department, EMS, and Sheriff's Department. A copy of the transcript is included in this presentation.

This application was presented to the Board at the July 12, 2006 meeting and was denied with a three to two vote of the Board. At the July 28, 2006 Board meeting, the Applicant requested to be placed on the August 30, 2006 Board meeting for reconsideration of the Application.

The proposed site is located at approximately the 14601 block of Parkwest Central Drive and west of the 2600 block of State Highway 6, Houston, Harris County, Texas. Demographics for the census tract (4543.00) include AMFI of $61,040; the total population is 10,834; the percent of the population that is minority is 60.31%; the percent of the population below the poverty line is 8.84%; the number of owner occupied units is 2,231; the number renter occupied units is 1,769 and the number of vacant units is 589. (Census Information from FFIEC Geocoding for 2006)

Summary of the Financial Structure

The applicant is requesting the Department's approval and issuance of fixed rate tax exempt bonds in an amount not to exceed $15,000,000. The bonds will be unrated and privately placed with Capmark Securities, Inc. The term of the bonds will be for 33 years followed by a 37 year amortization. The construction and lease up period will be for thirty-six (36) months with the option of a six (6) month extension. The floor interest rate on the bonds from the date of issuance through the first 24 months of the term of the loan will be 5.00% per annum followed by a permanent floor interest rate of 6.00% per annum thereafter until maturity.

Recommendation

Staff recommended the Board approve the issuance of Multifamily Housing Mortgage Revenue Bonds, Series 2006 and Housing Tax Credits for the Parkwest Apartment Homes at the July 12 Board meeting.

MULTIFAMILY FINANCE PRODUCTION DIVISON
BOARD MEMORANDUM
August 30, 2006

DEVELOPMENT: Parkwest Apartment Homes, Houston, Harris County.

PROGRAM: Texas Department of Housing & Community Affairs
2006 Private Activity Multifamily Revenue Bonds

ACTION REQUESTED: Approve the issuance of multifamily housing mortgage revenue bonds (the "Bonds") by the Texas Department of Housing and Community Affairs (the "Department"). The Bonds will be issued under Chapter 1371, Texas Government Code, as amended, and under Chapter 2306, Texas Government Code, the Department's Enabling Statute (the "Statute"), which authorizes the Department to issue its revenue bonds for its public purposes as defined therein. (*The Statute provides that the Department's revenue bonds are solely obligations of the Department, and do not create an obligation, debt, or liability of the State of Texas or a pledge or loan of the faith, credit or taxing power of the State of Texas.)*

PURPOSE: The proceeds of the Bonds will be used to fund a mortgage loan (the "Mortgage Loan") to Houston 3601 Parkwest Apartments, L.P., a Texas limited partnership (the "Owner" or "Borrower"), to finance the acquisition, construction, equipping and long-term financing of a proposed 252-unit multifamily residential rental development located at approximately the 14601 block of Parkwest Central Drive and west of the 3600 block of State Highway 6, Houston, Harris County (the "Development"). The Bonds will be tax-exempt by virtue of the Development qualifying as a residential rental development.

BOND AMOUNT: $ 15,000,000 Series 2006 Tax Exempt Bonds (*)
$ 15,000,000 Total Bonds

(*) The aggregate principal amount of the Bonds will be determined by the Department based on its rules, underwriting, the cost of construction of the Development and the amount for which Bond Counsel can deliver its Bond Opinion.

ANTICIPATED CLOSING DATE: The Department is expected to receive a volume cap allocation for the Bonds on August 30, 2006 pursuant to the Texas Bond Review Board's 2006 Private Activity Bond Allocation Program. The anticipated closing date is September 27, 2006.

BORROWER: Houston 3601 Parkwest Apartments, L.P., a Texas limited partnership, the general partner of which is Houston 3601 Parkwest Apartments I, LLC. of which Kenneth G. Cash is a member of the General Partner owning 99% interest. PNC Multifamily Capital, is

** Preliminary - Represents Maximum Amount*

an Investor Limited Partner of Borrower, and it or an affiliate thereof, will be providing the equity for the transaction by purchasing approximately a 99% limited partnership interest in the Borrower.

COMPLIANCE HISTORY:

The Compliance Status Summary completed on June 29, 2006 reveals that the principals of the general partner above do not have any properties that are being monitored by the Department at this time.

ISSUANCE TEAM/ ADVISORS:

Capmark Securities, Inc. or an affiliate thereof ("Bond Purchaser")
PNC Multifamily Capital ("Equity Provider")
Wells Fargo Bank, National Association ("Trustee")
Vinson & Elkins L.L.P. ("Bond Counsel")
RBC Capital Markets ("Financial Advisor")
McCall, Parkhurst & Horton, L.L.P. ("Disclosure Counsel")

BOND PURCHASER:

The Bonds will be purchased by Capmark Securities, Inc. or an affiliate thereof. The purchaser and any subsequent purchaser will be required to sign the Department's standard traveling investor letter.

DEVELOPMENT DESCRIPTION:

The Development is a 252-unit apartment community to be constructed on an approximately 14.18 acres to be located at approximately the 14601 block of Parkwest Central Drive and west of the 3600 block of State Highway 6, Houston, Harris County, Texas. The Development will consist of eleven (11) three-story residential, wood-framed apartment buildings consisting of brick and handiplank veneer exteriors with a total of approximately 232,560 net rentable square feet and an average unit size of 923 square feet. The development will include a clubhouse with business/conference center, activity room with computers, games room/TV lounge, exercise room, laundry facilities, swimming pool, playground, full perimeter fencing with gated access, and barbeque and picnic area. The unit amenities include microwave ovens, washer/dryer connections, storage room, and ceiling fans.

Units	Unit Type	Sq Ft	Proposed Net	Rent
72	1-Bed/1-Baths	680	$626.00	60%
96	2-Bed/2-Baths	950	$751.00	60%
84	3-Bed/2-Baths	1,132	$862.00	60%
252	Total Units			

SET-ASIDE UNITS:

For Bond covenant purposes, at least forty (40%) of the residential units in the development are set aside for persons or families earning not more than sixty percent (60%) of the area median income. Five percent (5%) of the units in each development will be set aside on a priority basis for persons with special needs. *(The Borrower has* *elected to set aside 100% of the units for tax credit purposes.)*

TENANT SERVICES: Tenant Services will be provided by the developer according to the requirements as outlined in the Regulatory and Land Use Restriction Agreement (LURA).

DEPARTMENT ORIGINATION FEES:
$1,000 Pre-Application Fee (Paid)
$10,000 Application Fee (Paid)
$75,000 Issuance Fee (.50% of the bond amount paid at closing)

DEPARTMENT ANNUAL FEES:
$15,000 Bond Administration (0.10% of first year bond amount)
$10,080 Compliance ($40/unit/year adjusted annually for CPI).

ASSET OVERSIGHT FEE:
$6,300 to TDHCA or assigns ($25/unit/year adjusted annually for CPI)
(Department's annual fees may be adjusted, including deferral, to accommodate underwriting criteria and Development cash flow.)

TAX CREDITS: The Borrower has applied to the Department to receive a Determination Notice for the 4% tax credit that accompanies the private-activity bond allocation. The tax credit equates to approximately $875,000 and represents equity for the transaction. To capitalize on the tax credit, the Borrower will sell a substantial portion of its limited partnership interests, typically 99%, to raise equity funds for the Development. Although a tax credit sale has not been finalized, the Borrower anticipates raising approximately $8,437,850 of equity for the transaction.

BOND STRUCTURE: The Bonds are proposed to be issued under a Trust Indenture (the "Trust Indenture") that will describe the fundamental structure of the Bonds, permitted uses of Bond proceeds and procedures for the administration, investment and disbursement of Bond proceeds and program revenues.

The Bonds will be privately placed with the Bond Purchaser. The Bond Purchaser contemplates transferring the Bonds to a custodial or trust arrangement whereby beneficial interests in the Bonds will be sold in the form of trust certificates to Qualified Institutional Buyers or Accredited Investors.

The Bond Purchaser will be required to sign the Department's standard investor letter. Should the Bonds be transferred to a custodial trust, a slightly modified investor letter will be provided by the trust. During the construction and lease-up period, the Bonds will pay as to interest only.

BOND INTEREST RATES: The floor interest rate on the bonds from the date of issuance to July 1, 2008 will be 5.00% per annum followed a permanent floor interest rate on the Bonds of 6.00% per annum until October 1, 2039 at which point the Bonds will bear interest at the applicable Bond Coupon Rate.

CREDIT ENHANCEMENT: The bonds will be unrated with no credit enhancement.

FORM OF BONDS: The Bonds will be issued in physical form and in denominations of $100,000 or any amount in excess of $100,000.

MATURITY/SOURCES & METHODS OF REPAYMENT: The Bonds will bear interest at the applicable Bond Coupon Rate beginning August 1, 2008 until maturity and will be payable monthly. During the construction phase, the Bonds will be payable as to interest only, from an initial deposit at closing to the Bond Fund, earnings derived from amounts held on deposit in an investment agreement, and other funds deposited to the Revenue Fund specifically for capitalized interest during a portion of the construction phase. After conversion to the permanent phase, the Bonds will be paid from revenues earned from the Mortgage Loan.

TERMS OF THE MORTGAGE LOAN: The Mortgage Loan is a nonrecourse obligation of the Borrower (which means, subject to certain exceptions, the Owner is not liable for the payment thereof beyond the amount realized from the pledged security) providing for monthly payments of interest during the construction phase and level monthly payments of principal and interest upon conversion to the permanent phase. Deeds of Trust and related documents convey the Owner's interest in the Development to secure the payment of the Mortgage Loan.

REDEMPTION OF BONDS PRIOR TO MATURITY: The Bonds are subject to redemption under any of the following circumstances:

Mandatory Redemption:

1. Amounts Transferred from Project Fund - The Bonds shall be redeemed in whole or in part, at a redemption price equal to the principal amount of the Bonds to be redeemed plus accrued interest to the date of redemption, but without premium, in the event and to the extent amounts remaining in the Project Fund are transferred to the Bond Fund on the first Bond Payment Date for which notice of redemption can be given at the Redemption Price.

2. Upon Mandatory Prepayment of Note - The Bonds shall be redeemed in whole or in part, with the Written Consent of the Construction Phase Credit Facility Provider prior to Lien Free

Completion and the Bondholder Representative after Lien Free Completion, upon prepayment of the Note by the Borrower as required by the Loan Agreement on the earliest Business Day for which notice can be given at the Redemption Price.

3. Bond Document Default - The Bonds shall be redeemed in whole or in part upon the acceleration of the Note pursuant to the Loan Agreement and upon Written Direction of the Bondholder Representative or, prior to the Lien Free Completion, the Construction Phase Credit Facility Provider to the Trustee, in the event of the occurrence of a Loan Agreement Default and the expiration of the applicable grace period or notice and cure period, if any, specified therein, on the earliest Business Day for which notice can be given as required by Section 6.10 hereof, at the Redemption Price.

4. Certain Pre-Conversion Events - The Bonds are subject to mandatory redemption, at the Redemption Price, on the earliest Business Day for which notice can be given from payments from funds derived from a draw on the Construction Phase Credit Facility or transferred from the Project Fund to the Bond Fund:

   (a) in whole, upon receipt by the Trustee of Written Direction from the Bondholder Representative, in accordance with the Construction Phase Financing Agreement, to redeem the Bonds as a result of the occurrence of a Borrower Default as defined in and under the Construction Phase Financing Agreement or from the Construction Phase Credit Facility Provider to redeem Bonds as a result of the occurrence of a Borrower Default under the Construction Phase Credit Facility Provider Documents; or

   (b) in whole, upon receipt by the Trustee of Written Direction from the Bondholder Representative, on or after the Outside Conversion Date, if the Conversion Notice is not issued by the Bondholder Representative prior to the Outside Conversion Date; or in part, in the event that the Borrower or the Construction Phase Credit Facility Provider elects to make a Pre-Conversion Loan Equalization Payment and the Trustee has received Written Notice thereof and Written Direction from the Bondholder Representative to redeem Bonds, in an amount equal to the amount of the Note prepaid by the Borrower.

5. Sinking Fund Redemption - The Bonds shall be subject to redemption, at a redemption price equal to the principal amount of the Bonds to be redeemed plus accrued interest to the date of redemption and shall be redeemed in part on each Bond Payment

Date, commencing the first business day of the month immediately after commencement of amortization of the Loan, in accordance with a Mandatory Sinking Fund Schedule provided to the Trustee by the Borrower on such date of commencement and calculated so as to provide for level debt service payment on the Bonds. Such redemption shall be made from amounts paid by the Borrower as principal under the Note, as confirmed to the Trustee by the Servicer in writing, without regard to Authorized Denomination; provided, however, Senior Bonds shall be redeemed first, then once no Senior Bonds remain Outstanding, Subordinate Bonds shall be redeemed.

6. Excess Revenues - Upon the delivery to the Trustee of a Notice of Accelerated Redemption in the form attached hereto as Exhibit I, first the Senior Bonds, if any, then the Subordinate Bonds, if any, shall be subject to redemption on each Bond Payment Date, in whole or in part, at the Redemption Price, from amounts then on deposit in the Surplus Fund in excess of $10,000. Prior to the delivery of such Notice of Accelerated Redemption, no Bond shall be redeemed.

7. Purchase in Lieu of Redemption - The Borrower shall have the option to cause the Bonds to be purchased in lieu of redemption and the Bondholder Representative shall have the option to cause the Bonds to be purchased in lieu of redemption.

8. Special Purchase in Lieu of Redemption - Special Purchase Option. If all Bonds Outstanding are called for redemption in whole at any time that the Construction Phase Credit Facility is in effect, the Bonds may, in lieu of such redemption, be purchased ("Special Purchase Bonds") by the Trustee, at the Written Direction of the Construction Phase Credit Facility Provider to the Trustee, for the account of the Construction Phase Credit Facility Provider.

9. Notice of Redemption - Not less than fifteen (15) days, nor more than thirty (30) days before the redemption date of any Bonds to be redeemed, the Trustee shall cause a notice of any such redemption to be mailed by first class mail (but by certified mail to the Bondholder Representative), postage prepaid, to the Registered Owners of the Bonds (with a copy to the Borrower, the Issuer, and the Construction Phase Credit Facility Provider), provided that no prior notice of redemption shall be required in the case of a redemption.

Optional Redemption:

The Bonds may be redeemed in whole, but not in part, on any Business Day, upon prepayment of the Note by the Borrower pursuant to the Loan Agreement. The Bonds may be redeemed on any date on which the Note may be prepaid pursuant to its terms, at the Redemption Price and upon notice to the Bondholders, given by the Trustee in accordance with Section 6.10 of the Indenture. No such optional redemption of Bonds shall be permitted unless the Trustee shall have received Eligible Funds in an amount that will be sufficient to pay the Redemption Price of the Bonds not less than one day prior to the date that the Bonds are to be redeemed

FUNDS AND ACCOUNTS/FUNDS ADMINISTRATION:

Under the Trust Indenture, Wells Fargo, National Association (the "Trustee") will serve as registrar, and authenticating agent for the Bonds, trustee of certain of the funds created under the Trust Indenture (described below), and will have responsibility for a number of loan administration and monitoring functions.

Moneys on deposit in Trust Indenture funds are required to be invested in eligible investments prescribed in the Trust Indenture until needed for the purposes for which they are held.

The Trust Indenture will initially create up to nine (9) funds with the following general purposes:

1. Bond Fund – On the closing date, the proceeds of the Bonds shall be deposited in the Bond Fund and immediately applied by the Trustee to other funds and accounts as required by the Indenture.

2. Project Fund – Consists of the Bond Proceeds Account, the Capitalized Interest Account and the Earnout Account. Monies in the Project Fund will be used for the acquisition, construction or equipping of the Development, to pay other Qualified Project Costs and to pay other costs related to the Development.

3. Rebate Fund - Fund into which certain investment earnings are transferred that are required to be rebated periodically to the federal government to preserve the tax-exempt status of the Bonds. Amounts in this fund are held apart from the trust estate and are not available to pay debt service on the Bonds.

4. Expense Fund – Monies in the Expense Fund shall be used to pay the Third Party Fees.

5. Costs of Issuance Fund – Fund into which amounts for the

payment of certain costs incurred in connection with the issuance of the bonds are deposited and disbursed.

6. Surplus Fund –Monies on deposit in this account shall be disbursed as further required under the Bond Fund of the Indenture.

7. Senior Bonds Debt Service Reserve Fund – Monies deposited in this account shall be used to pay the principal and interest on the Senior Bonds, as well as any Third Party Fees to the extent that funds in the Bond Fund, Surplus Fund and Expense Fund are unavailable to do so.

8. Subordinate Bonds Debt Service Reserve Fund – Monies on deposit in this account shall be used to pay the principal and interest on the Subordinate Bonds, as well as any Third Party Fees to the extent that funds in the Bond Fund, Surplus Fund and Expense Fund are unavailable to do so.

9. Remarketing Proceeds Fund – Monies on deposit in this account should be used solely to purchase remarketed or deemed remarketed Bonds pursuant to the Indenture.

Essentially, all of the Bond proceeds will be deposited into the Bond Fund and the Project Fund and disbursed from there during the Construction Phase (approximately 36 months) to finance the construction of the Development and to pay interest on the Bonds. Although costs of issuance of up to two percent (2%) of the principal amount of the Bonds may be paid from Bond proceeds, it is currently expected that all costs of issuance will be paid by an equity contribution of the Borrower.

DEPARTMENT ADVISORS:

The following advisors have been selected by the Department to perform the indicated tasks in connection with the issuance of the Bonds.

1. Bond Counsel - Vinson & Elkins L.L.P. ("V&E") was most recently selected to serve as the Department's bond counsel through a request for proposals ("RFP") issued by the Department in September 2005.

2. Bond Trustee – Wells Fargo, National Association was selected as bond trustee by the Department pursuant to a request for proposal process in June 2006.
3. Financial Advisor – RBC Capital Markets, formerly RBC Dain Rauscher, was selected by the Department as the Department's financial advisor through a request for proposals process in August 2003.

4. Disclosure Counsel – McCall, Parkhurst & Horton, L.L.P. was selected by the Department as Disclosure Counsel through a request for proposals process in September 2005.

ATTORNEY GENERAL REVIEW OF BONDS:

No preliminary written review of the Bonds by the Attorney General of Texas has yet been made. Department bonds, however, are subject to the approval of the Attorney General, and transcripts of proceedings with respect to the Bonds will be submitted for review and approval prior to the issuance of the Bonds.

RESOLUTION NO. 06-035

RESOLUTION AUTHORIZING AND APPROVING THE ISSUANCE, SALE AND DELIVERY OF MULTIFAMILY HOUSING REVENUE BONDS (PARKWEST APARTMENT HOMES) SERIES 2006; APPROVING THE FORM AND SUBSTANCE AND AUTHORIZING THE EXECUTION AND DELIVERY OF DOCUMENTS AND INSTRUMENTS PERTAINING THERETO; AUTHORIZING AND RATIFYING OTHER ACTIONS AND DOCUMENTS; AND CONTAINING OTHER PROVISIONS RELATING TO THE SUBJECT

WHEREAS, the Texas Department of Housing and Community Affairs (the "Department") has been duly created and organized pursuant to and in accordance with the provisions of Chapter 2306, Texas Government Code, as amended (the "Act"), for the purpose, among others, of providing a means of financing the costs of residential ownership, development and rehabilitation that will provide decent, safe, and affordable living environments for individuals and families of low and very low income (as defined in the Act) and families of moderate income (as described in the Act and determined by the Governing Board of the Department (the "Board") from time to time); and

WHEREAS, the Act authorizes the Department: (a) to make mortgage loans to housing sponsors to provide financing for multifamily residential rental housing in the State of Texas (the "State") intended to be occupied by individuals and families of low and very low income and families of moderate income, as determined by the Department; (b) to issue its revenue bonds, for the purpose, among others, of obtaining funds to make such loans and provide financing, to establish necessary reserve funds and to pay administrative and other costs incurred in connection with the issuance of such bonds; (c) to pledge all or any part of the revenues, receipts or resources of the Department, including the revenues and receipts to be received by the Department from such multi-family residential rental project loans, and to mortgage, pledge or grant security interests in such loans or other property of the Department in order to secure the payment of the principal or redemption price of and interest on such bonds; and (d) to issue its bonds for the purpose of refunding any bonds theretofore issued by the Department under the Act; and

WHEREAS, the Board has determined to authorize the issuance of the Texas Department of Housing and Community Affairs Multifamily Housing Revenue Bonds (Parkwest Apartment Homes) Series 2006 (the "Bonds"), pursuant to and in accordance with the terms of an Indenture of Trust (the "Indenture") by and between the Department and Wells Fargo Bank, National Association (the "Trustee"), for the purpose of obtaining funds to finance the Development (defined below), all under and in accordance with the Constitution and laws of the State of Texas; and

WHEREAS, the Department desires to use the proceeds of the Bonds to fund a mortgage loan to Houston 3601 Parkwest Apartments LP, a Texas limited partnership (the "Borrower"), in order to finance a portion of the cost of acquisition, construction and equipping of a qualified residential rental Development described on Exhibit A attached hereto (the "Development") located within the State of Texas required by the Act to be occupied by individuals and families of low and very low income and families of moderate income, as determined by the Department; and

WHEREAS, the Board, by resolution adopted on March 20, 2006, declared its intent to issue its revenue bonds to provide financing for the Development; and

WHEREAS, it is anticipated that the Department, the Borrower and the Trustee will execute and deliver a Loan Agreement (the "Loan Agreement") pursuant to which (i) the Department will agree to make a mortgage loan funded with the proceeds of the Bonds (the "Mortgage Loan") to the Borrower to enable the Borrower to finance the cost of acquisition, construction and equipping of the portion of the

Development to be occupied by individuals and families of low and very low income and families of moderate income and related costs, and (ii) the Borrower will execute and deliver to the Department a promissory note (the "Note") in an original principal amount equal to the original aggregate principal amount of the Bonds, and providing for payment of interest on such principal amount equal to the interest on the Bonds and to pay other costs described in the Loan Agreement; and

WHEREAS, it is anticipated that credit enhancement for the Mortgage Loan will be provided for initially by a Letter of Credit issued by PNC Bank, National Association, a national banking association (the "Bank"); and

WHEREAS, it is anticipated that the Note will be secured by a first lien Deed of Trust, Assignment of Rents, Security Agreement and Fixture Filing (Texas) (the "Mortgage") from the Borrower for the benefit of the Department and the Trustee; and

WHEREAS, the Department's interest in the Mortgage Loan (except for certain reserved rights), including the Note and the Mortgage, will be assigned to the Trustee, as its interests may appear pursuant to a Assignment of Deed of Trust and Loan Documents (the "Assignment") from the Department to the Trustee; and

WHEREAS, the Board has determined that the Department, the Trustee and the Borrower will execute a Regulatory and Land Use Restriction Agreement (the "Regulatory Agreement"), with respect to the Development which will be filed of record in the real property records Harris County, Texas; and

WHEREAS, the Board has further determined that the Department will enter into a Bond Placement Agreement (the "Purchase Contract") with the Borrower, Capmark Securities, Inc., as placement agent, (the "Placement Agent"), Capmark Municipal Mortgage, Inc. (the "Purchaser") and any other parties to such Purchase Contract as authorized by the execution thereof by the Department, setting forth certain terms and conditions upon which the Purchaser or another party will purchase all or their respective portion of the Bonds from the Department and the Department will sell the Bonds to the Purchaser or another party to such Purchase Contract; and

WHEREAS, the Board has determined that the Department and the Borrower will execute an Asset Oversight Agreement (the "Asset Oversight Agreement"), with respect to the Development for the purpose of monitoring the operation and maintenance of the Development; and

WHEREAS, the Board has examined proposed forms of the Indenture, the Loan Agreement, the Assignment, the Regulatory Agreement, the Asset Oversight Agreement, and the Purchase Contract (collectively, the "Issuer Documents"), all of which are attached to and comprise a part of this Resolution; has found the form and substance of such documents to be satisfactory and proper and the recitals contained therein to be true, correct and complete; and has determined, subject to the conditions set forth in Section 1.14, to authorize the issuance of the Bonds, the execution and delivery of the Issuer Documents, the acceptance of the Mortgage and the Note and the taking of such other actions as may be necessary or convenient in connection therewith;

NOW, THEREFORE,

BE IT RESOLVED BY THE GOVERNING BOARD OF THE TEXAS DEPARTMENT OF HOUSING AND COMMUNITY AFFAIRS:

ARTICLE I

ISSUANCE OF BONDS; APPROVAL OF DOCUMENTS

Section 1.1--Issuance, Execution and Delivery of the Bonds. That the issuance of the Bonds is hereby authorized, under and in accordance with the conditions set forth herein and in the Indenture, and that, upon execution and delivery of the Indenture, the authorized representatives of the Department named in this Resolution each are authorized hereby to execute, attest and affix the Department's seal to the Bonds and to deliver the Bonds to the Attorney General of the State of Texas for approval, the Comptroller of Public Accounts of the State of Texas for registration and the Trustee for authentication (to the extent required in the Indenture), and thereafter to deliver the Bonds to the order of the initial purchasers thereof.

Section 1.2--Interest Rate, Principal Amount, Maturity and Price. (i) The Bonds shall bear interest (a) from the Closing Date through, but not including, the Lien Free Completion Date, at a rate of (1) 5.0% from the Closing Date to and including September 30, 2008 and (2) 6.0% from and after October 1, 2008 and (b) on and after the Lien Free Completion Date, at the rates determined from time to time by the Indexing Agent (as defined in the Indenture) in accordance with the provisions of the Indenture; provided that, in no event shall the interest rate on the Bonds (including any default interest rate) exceed the maximum interest rate permitted by applicable law; (ii) the aggregate principal amount of the Bonds shall not exceed $15,000,000; (iii) the final maturity of the Bonds shall occur on December 1, 2039; and (iv) the price at which the Bonds are sold to the Purchaser or another party to the Purchase Contract shall be the principal amount thereof.

Section 1.3--Approval, Execution and Delivery of the Indenture. That the form and substance of the Indenture are hereby approved, and that the authorized representatives of the Department named in this Resolution each are authorized hereby to execute the Indenture and to deliver the Indenture to the Trustee.

Section 1.4--Approval, Execution and Delivery of the Loan Agreement. That the form and substance of the Loan Agreement are hereby approved, and that the authorized representatives of the Department named in this Resolution each are authorized hereby to execute the Loan Agreement and deliver the Loan Agreement to the Borrower and the Trustee.

Section 1.5--Approval, Execution and Delivery of the Regulatory Agreement. That the form and substance of the Regulatory Agreement are hereby approved, and that the authorized representatives of the Department named in this Resolution each are authorized hereby to execute, attest and affix the Department's seal to the Regulatory Agreement and deliver the Regulatory Agreement to the Borrower and the Trustee.

Section 1.6--Approval, Execution and Delivery of the Purchase Contract. That the sale of the Bonds to the Purchaser and any other party to the Purchase Contract is hereby approved, that the form and substance of the Purchase Contract are hereby approved, and that the authorized representatives of the Department named in this Resolution each are authorized hereby to execute the Purchase Contract and to deliver the Purchase Contract to the Borrower, the Placement Agent, the Purchaser and any other party to the Purchase Contract as appropriate.

Section 1.7--Acceptance of the Mortgage and Note. That the Mortgage and the Note are hereby accepted by the Department and that the authorized representatives of the Department named in this Resolution each are authorized to endorse and deliver the Note to the order of the Trustee without recourse.

Section 1.8--Approval, Execution and Delivery of the Assignments. That the form and substance of the Assignments are hereby approved; and that the authorized representatives of the Department named in this Resolution are each hereby authorized to execute, attest and affix the Department's seal to the Assignments and to deliver the Assignments to the Trustee.

Section 1.9--Approval, Execution and Delivery of the Asset Oversight Agreement. That the form and substance of the Asset Oversight Agreement are hereby approved, and that the authorized representatives of the Department named in this Resolution each are authorized hereby to execute and deliver the Asset Oversight Agreement to the Borrower.

Section 1.10--Taking of Any Action; Execution and Delivery of Other Documents. That the authorized representatives of the Department named in this Resolution each are authorized hereby to take any actions and to execute, attest and affix the Department's seal to, and to deliver to the appropriate parties, all such other agreements, commitments, assignments, bonds, certificates, contracts, documents, instruments, releases, financing statements, letters of instruction, notices of acceptance, written requests and other papers, whether or not mentioned herein, as they or any of them consider to be necessary or convenient to carry out or assist in carrying out the purposes of this Resolution.

Section 1.11--Exhibits Incorporated Herein. That all of the terms and provisions of each of the documents listed below as an exhibit shall be and are hereby incorporated into and made a part of this Resolution for all purposes:

Exhibit B	-	Indenture
Exhibit C	-	Loan Agreement
Exhibit D	-	Regulatory Agreement
Exhibit E	-	Purchase Contract
Exhibit F	-	Mortgage
Exhibit G	-	Note
Exhibit H	-	Assignment
Exhibit I	-	Asset Oversight Agreement

Section 1.12--Power to Revise Form of Documents. That notwithstanding any other provision of this Resolution, the authorized representatives of the Department named in this Resolution each are authorized hereby to make or approve such revisions in the form of the documents attached hereto as exhibits as, in the judgment of such authorized representative or authorized representatives, and in the opinion of Vinson & Elkins L.L.P., Bond Counsel to the Department, may be necessary or convenient to carry out or assist in carrying out the purposes of this Resolution, such approval to be evidenced by the execution of such documents by the authorized representatives of the Department named in this Resolution.

Section 1.13--Authorized Representatives. That the following persons are each hereby named as authorized representatives of the Department for purposes of executing, attesting, affixing the Department's seal to, and delivering the documents and instruments and taking the other actions referred to in this Article I: Chair and Vice Chairman of the Board, Executive Director of the Department, Deputy Executive Director of Housing Operations of the Department, Deputy Executive Director of Programs of the Department, Chief of Agency Administration of the Department, Director of Financial Administration of the Department, Director of Bond Finance of the Department, Director of Multifamily Finance Production of the Department and the Secretary to the Board.

Section 1.14--Conditions Precedent. That the issuance of the Bonds shall be further subject to, among other things: (a) the Development's meeting all underwriting criteria of the Department, to the satisfaction of the Executive Director of the Department; and (b) the execution by the Borrower and the Department of contractual arrangements satisfactory to the Department staff requiring that community service programs will be provided at the Development.

ARTICLE II

APPROVAL AND RATIFICATION OF CERTAIN ACTIONS

Section 2.1--Approval and Ratification of Application to Texas Bond Review Board. That the Board hereby ratifies and approves the submission of the application for approval of state bonds to the Texas Bond Review Board on behalf of the Department in connection with the issuance of the Bonds in accordance with Chapter 1231, Texas Government Code.

Section 2.2--Approval of Submission to the Attorney General of Texas. That the Board hereby authorizes, and approves the submission by the Department's Bond Counsel to the Attorney General of the State of Texas, for his approval, of a transcript of legal proceedings relating to the issuance, sale and delivery of the Bonds.

Section 2.3--Engagement of Other Professionals. That the Executive Director of the Department or any successor is authorized to engage auditors to perform such functions, audits, yield calculations and subsequent investigations as necessary or appropriate to comply with the Purchase Contract and the requirements of Bond Counsel to the Department, provided such engagement is done in accordance with applicable law of the State of Texas.

Section 2.4--Certification of the Minutes and Records. That the Secretary to the Board hereby is authorized to certify and authenticate minutes and other records on behalf of the Department for the Bonds and all other Department activities.

Section 2.5--Approval of Requests for Rating from Rating Agency. That the action of the Executive Director of the Department or any successor and the Department's consultants in seeking a rating from Moody's Investors Service, Inc. and/or Standard & Poor's Ratings Services, a Division of The McGraw-Hill Companies, Inc., is approved, ratified and confirmed hereby.

Section 2.6--Authority to Invest Proceeds. That the Department is authorized to invest and reinvest the proceeds of the Bonds and the fees and revenues to be received in connection with the financing of the Development in accordance with the Indenture and to enter into any agreements relating thereto only to the extent permitted by the Indenture.

Section 2.7--Placement Agent. That the placement agent with respect to the issuance of the Bonds shall be Capmark Securities Inc.

Section 2.8—Engagement of Other Professionals. That the Executive Director of the Department or any successor is authorized to engage auditors to perform such functions, audits, yield calculations and subsequent investigations as necessary or appropriate to comply with the requirements of Bond Counsel to the Department, provided such engagement is done in accordance with applicable law of the State of Texas.

Section 2.9--Ratifying Other Actions. That all other actions taken by the Executive Director of the Department and the Department staff in connection with the issuance of the Bonds and the financing of the Development are hereby ratified and confirmed.

ARTICLE III

CERTAIN FINDINGS AND DETERMINATIONS

Section 3.1--Findings of the Board. That in accordance with Section 2306.223 of the Act and Section 1207.008, Texas Government Code, and after the Department's consideration of the information with respect to the Development and the information with respect to the proposed financing of the Development by the Department, including but not limited to the information submitted by the Borrower, independent studies commissioned by the Department, recommendations of the Department staff and such other information as it deems relevant, the Board hereby finds:

(a) Need for Housing Development.

(i) that the Development is necessary to provide needed decent, safe, and sanitary housing at rentals or prices that individuals or families of low and very low income or families of moderate income can afford,

(ii) that the financing of the Development is a public purpose and will provide a public benefit, and

(iii) that the Development will be undertaken within the authority granted by the Act to the housing finance division and the Borrower.

(b) Findings with Respect to the Borrower.

(i) that the Borrower, by operating the Development in accordance with the requirements of the Regulatory Agreement, will comply with applicable local building requirements and will supply well-planned and well-designed housing for individuals or families of low and very low income or families of moderate income,

(ii) that the Borrower is financially responsible and has entered into a binding commitment to repay the Mortgage Loan in accordance with its terms, and

(iii) that the Borrower is not, and will not enter into a contract for the Development with, a housing developer that: (A) is on the Department's debarred list, including any parts of that list that are derived from the debarred list of the United States Department of Housing and Urban Development; (B) breached a contract with a public agency; or (C) misrepresented to a subcontractor the extent to which the developer has benefited from contracts or financial assistance that has been awarded by a public agency, including the scope of the developer's participation in contracts with the agency and the amount of financial assistance awarded to the developer by the Department.

(c) Public Purpose and Benefits.

(i) that the Borrower has agreed to operate the Development in accordance with the Loan Agreement and the Regulatory Agreement, which require, among other things, that the Development be occupied by individuals and families of low and very low income and families of moderate income, and

(ii) that the issuance of the Bonds to finance the Development is undertaken within the authority conferred by the Act and Chapter 1207, Texas Government Code, and will accomplish a valid public purpose and will provide a public benefit by assisting individuals and families of low and very low income and families of moderate income in the State of Texas to obtain decent, safe, and sanitary housing by financing the costs of the Development, thereby helping to maintain a fully adequate supply of sanitary and safe dwelling accommodations at rents that such individuals and families can afford.

Section 3.2--Determination of Eligible Tenants. That the Board has determined, to the extent permitted by law and after consideration of such evidence and factors as it deems relevant, the findings of the staff of the Department, the laws applicable to the Department and the provisions of the Act, that eligible tenants for the Development shall be (1) individuals and families of extremely low, low and very low income, (2) persons with special needs, and (3) families of moderate income, with the income limits as set forth in the Loan Agreement and the Regulatory Agreement.

Section 3.3--Sufficiency of Mortgage Loan Interest Rate. That the Board hereby finds and determines that the interest rate on the Mortgage Loan established pursuant to the Loan Agreement will produce the amounts required, together with other available funds, to pay for the Department's costs of operation with respect to the Bonds and the Development and enable the Department to meet its covenants with and responsibilities to the holders of the Bonds.

Section 3.4--No Gain Allowed. That, in accordance with Section 2306.498 of the Act, no member of the Board or employee of the Department may purchase any Bond in the secondary open market for municipal securities.

Section 3.5--Waiver of Rules. That the Board hereby waives the rules contained in Chapter 33, Title 10 of the Texas Administrative Code to the extent such rules are inconsistent with the terms of this Resolution and the bond documents authorized hereunder.

ARTICLE IV

GENERAL PROVISIONS

Section 4.1--Limited Obligations. That the Bonds and the interest thereon shall be limited obligations of the Department payable solely from the trust estate created under the Indenture, respectively, including the revenues and funds of the Department pledged under the Indenture to secure payment of the Bonds, respectively, and under no circumstances shall the Bonds be payable from any other revenues, funds, assets or income of the Department.

Section 4.2--Non-Governmental Obligations. That the Bonds shall not be and do not create or constitute in any way an obligation, a debt or a liability of the State of Texas or create or constitute a pledge, giving or lending of the faith or credit or taxing power of the State of Texas. Each Bond shall contain on its face a statement to the effect that the State of Texas is not obligated to pay the principal thereof or interest thereon and that neither the faith or credit nor the taxing power of the State of Texas is pledged, given or loaned to such payment.

Section 4.3--Effective Date. That this Resolution shall be in full force and effect from and upon its adoption.

Section 4.4--Notice of Meeting. Written notice of the date, hour and place of the meeting of the Board at which this Resolution was considered and of the subject of this Resolution was furnished to the Secretary of State and posted on the Internet for at least seven (7) days preceding the convening of such meeting; that during regular office hours a computer terminal located in a place convenient to the public in the office of the Secretary of State was provided such that the general public could view such posting; that such meeting was open to the public as required by law at all times during which this Resolution and the subject matter hereof was discussed, considered and formally acted upon, all as required by the Open Meetings Act, Chapter 551, Texas Government Code, as amended; and that written notice of the date, hour and place of the meeting of the Board and of the subject of this Resolution was published in the Texas Register at least seven (7) days preceding the convening of such meeting, as required by the Administrative Procedure and Texas Register Act, Chapters 2001 and 2002, Texas Government Code, as amended. Additionally, all of the materials in the possession of the Department relevant to the subject of this Resolution were sent to interested persons and organizations, posted on the Department's website, made available in hard-copy at the Department, and filed with the Secretary of State for publication by reference in the Texas Register not later than seven (7) days before the meeting of the Board as required by Section 2306.032, Texas Government Code, as amended.

[EXECUTION PAGE FOLLOWS]

PASSED AND APPROVED this 30th day of August, 2006.

[SEAL]

CONDITIONS OF COMMITMENT

1. Per §50.12(c) of the Qualified Allocation Plan and Rules, all Tax Exempt Bond Development Applications "must provide an executed agreement with a qualified service provider for the provision of special supportive services that would otherwise not be available for the tenants. The provision of such services will be included in the Declaration of Land Use Restrictive Covenants ("LURA")."

1. Receipt, review, and acceptance prior to closing of certification from a Professional Surveyor that the site is outside the 100 and 500 year flood plain or provide a flood hazard mitigation plan to include, at a minimum, consideration and documentation of flood plain reclamation sitework costs, building flood insurance and tenant flood insurance costs. The mitigation plan may include a detailed plan to achieve a Letter or Conditional Letter of Map Amendment or Revision (LOMA, LOMR, LOMR-F, CLOMA, or CLOMR-F), or evidence from a third party engineer that the site will be developed so that all ground level finished floors are at least one foot above the base flood elevation and parking and drive areas are no lower than six inches below the base flood elevation, subject to more stringent local requirements.

2. Should the terms and rates of the proposed debt or syndication change, the transaction should be re-evaluated and an adjustment to the credit amount may be warranted.

Proposed Use of Funds:	New construction	**Type:**	Multifamily
Target Population:	Family	**Other:**	Urban/Exurban, General

RECOMMENDATION

☒ RECOMMEND APPROVAL OF ISSUANCE OF $15,000,000 IN TAX-EXEMPT MORTGAGE REVENUE BONDS WITH A FIXED INTEREST RATE OF 6% AND REPAYMENT TERM OF 30 YEARS WITH A 40-YEAR AMORTIZATION PERIOD, SUBJECT TO CONDITIONS.

☒ RECOMMEND APPROVAL OF A HOUSING TAX CREDIT ALLOCATION NOT TO EXCEED $875,000 ANNUALLY FOR TEN YEARS, SUBJECT TO CONDITIONS.

CONDITIONS

1. Receipt, review, and acceptance prior to closing of certification from a Professional Surveyor that the site is outside the 100 and 500-year flood plain or provide a flood hazard mitigation plan to include, at a minimum, consideration and documentation of flood plain reclamation sitework costs, building flood insurance and tenant flood insurance costs. The mitigation plan may include a detailed plan to achieve a Letter or Conditional Letter of Map Amendment or Revision (LOMA, LOMR, LOMR-F, CLOMA or CLOMR-F), or evidence from a third party engineer that the site will be developed so that all ground level finished floors are at least one foot above the base flood elevation and parking

and drive areas are no lower than six inches below the base flood elevation, subject to more stringent local requirements.

2. Should the terms and rates of the proposed debt or syndication change, the transaction should be re-evaluated and an adjustment to the credit or allocation amount may be warranted.

REVIEW of PREVIOUS UNDERWRITING REPORTS

No previous reports.

ARCHITECTURAL REVIEW

The building and unit plans are comparable to other modern apartment developments. They appear to provide acceptable access and storage. The elevations reflect attractive buildings.

STRUCTURAL MATERIALS

The structures will be constructed on concrete slabs. According to the plans provided in the application the exterior will be 10% masonry veneer and 90% cement fiber. The interior wall surfaces will be drywall and the roofs will be finished with composite shingles.

UNIT FEATURES

The interior flooring will be carpet and resilient covering. Each unit will include mini blinds or window coverings for all windows, a dishwasher, a disposal, a refrigerator, an oven/range, an exhaust/vent fax in bathrooms, and a ceiling fan in each living area and bedroom. Each unit will also include three networks: one for phone service, one for data service, and one for TV service. Additionally, each unit will include a microwave, an ice maker in the refrigerator, a self-cleaning oven, laundry connections, and individual water heaters.

ONSITE AMENITIES

The Applicant has also elected to provide a barbecue grill or picnic tables, a community laundry room, controlled access gates, a covered pavilion, an equipped business center or computer learning center, full perimeter fencing, a furnished community room, a furnished fitness center, public telephones available to tenants 24 hours a day, a swimming pool, and two children's playgrounds equipped for 5 to 12 year olds, two tot lots or one of each, and a furnished and staffed children's activity center.

Uncovered Parking: 234 spaces **Carports:** 160 spaces **Garages:** 66 spaces

PROPOSAL and DEVELOPMENT PLAN DESCRIPTION

Description: Parkwest Apartment Homes is a 17.8 unit per acre new construction development located in west Houston. The development is to be comprised of 17 evenly distributed garden style residential buildings as follows:

No. of Buildings	No. of Floors	1BR	2BR	3BR
3	2.5	8	12	
4	2		8	8
6	2	8		8
1	2		4	4
3	2		8	

SITE ISSUES

SITE DESCRIPTION

Total Size: 14.1 acres **Scattered sites?** ☐ Yes ☒ No

Flood Zone: Zone X **Within 100-year floodplain?** ☒ Yes ☐ No

Current Zoning: N/A **Needs to be re-zoned?** ☐ Yes ☐ No ☒ N/A

SITE and NEIGHBORHOOD CHARACTERISTICS

Location: The site is located in the western portion of Houston on Parkwest Central Drive in Harris County, Texas. Houston is located approximately 240 miles south of Dallas and 198 miles east of San Antonio.

Adjacent Land Uses:

- **North:** Self storage facility and church immediately adjacent and undeveloped land and small commercial businesses beyond;
- **South:** Small retail businesses, shops and restaurants immediately adjacent and beyond;
- **East:** State Route 6, medical and dental offices, and commercial and undeveloped land beyond; and
- **West:** Undeveloped partially wooded land immediately adjacent and beyond.

Site Access: Access to the site is from State Highway 6 on the east and Parkwest Central Drive on the north side of the property.

Public Transportation: Public transportation to the area is provided by the Metropolitan Transit Authority of Harris County and the nearest linkage is .2 miles from the subject site.

Shopping & Services: The subject site is located in an area that has numerous shopping opportunities, employers, recreational and educational facilities. Schools, churches, hospitals and parks are all within a short driving distance from the site.

Adverse Site Characteristics:

Floodplain: The Phase I Environmental Site Assessment Consultant indicated the following: "According to the Federal Emergency Management Act (FEMA) Flood Insurance Rate Map (FIRM) Panel NO 48201C0810K, the eastern part of the subject property may lie within a 100 or a 500-year flood zone. It appears this area has been raised in the past, and may not be in a floodplain. This can be confirmed by a Professional Surveyor." Accordingly, this report is conditioned upon receipt, review, and acceptance of certification from a Professional Surveyor prior to closing that the site is outside the 100 and 500-year flood plain or provide a flood hazard mitigation plan to include, at a minimum, consideration and documentation of flood plain reclamation sitework costs, building flood insurance and tenant flood insurance costs. The mitigation plan may include a detailed plan to achieve a Letter or Conditional Letter of Map Amendment or Revision (LOMA, LOMR, LOMR-F, CLOMA or CLOMR-F), or evidence from a third party engineer that the site will be developed so that all ground level finished floors are at least one foot above the base flood elevation and parking and drive areas are no lower than six inches below the base flood elevation, subject to more stringent local requirements.

TDHCA SITE INSPECTION

Inspector: TDHCA Staff **Date:** 5/31/2006

Overall Assessment: ☐ Excellent ☒ Acceptable ☐ Questionable ☐ Poor ☐ Unacceptable

Comments:

HIGHLIGHTS of SOILS & HAZARDOUS MATERIALS REPORT(S)

A Phase I Environmental Site Assessment report dated May 2006 was prepared by DCH Environmental that contained the following findings and recommendations:

Findings: According to DCH Environmental:

- The subject site is and has been undeveloped land.
- One (1) Resource Conservation and Recovery Act Information Center (RCRIS) site was identified within a ¼ mile radius of the subject property.
- Two (2) Underground Storage Tank (UST) sites were identified within a ¼ mile radius of the subject property.
- These regulated sites would not affect the subject site.

Conclusion: Based upon DCH's site investigation of the subject property, surrounding properties, regulatory agency records review and inquiries, interviews and historical research, no other direct evidence was found indicating recognized environmental conditions exist at the subject property.

INCOME SET-ASIDE

The Applicant has elected the 40% at 60% or less of area median gross income (AMGI) set-aside. The bonds are being issued under priority 3 which allows market rate units; however, the Applicant has chosen to restrict 100% of the units as 60% tax credit units restricted to households earning 60% or less of the area median income.

MAXIMUM ELIGIBLE INCOMES						
	1 Person	**2 Persons**	**3 Persons**	**4 Persons**	**5 Persons**	**6 Persons**
60% of AMI	$25,620	$29,280	$32,940	$36,600	$39,540	$42,480

MARKET HIGHLIGHTS

A market feasibility study dated May 15, 2006 was prepared by Brian Gault of Vogt, Williams & Bowen, LLC ("Market Analyst") and included the following findings:

Definition of Primary Market Area (PMA): "The Houston Site PMA includes the furthest western section of the city of Houston. Specifically, the boundaries of the Site include Westheimer Road to the north and west, South Dairy Ashford Road to the east, the Harris County-Fort Bend County line to the south" (p. II-1). This area encompasses approximately 14.5 square miles and is equivalent to a circle with a radius of 2.15 miles. The Market Analyst did not specifically define a secondary market.

Population: The estimated 2006 population of the PMA is 85,593 and is expected to increase by 12% to approximately 95,633 by 2011. Within the primary market area there is estimated to be 29,018 households in 2006.

Total Market Demand: The Market Analyst calculated a total demand of 1,879 based on the current estimate of 29,018 households in the PMA, projected growth of 12%, 92.3% appropriate household size, renter households of 13,900 which represent 47.9% of total households, and target size appropriate income eligible renter households estimated to be 2,863. He also indicates a turnover rate of 63.3% based on IREM (p.VII-2).

MARKET DEMAND SUMMARY				
	Market Analyst		**Underwriter**	
Type of Demand	**Units of Demand**	**% of Total Demand**	**Units of Demand**	**% of Total Demand**
Household Growth	67	4%	64	4%
Resident Turnover	1,812	96%	1,702	96%
Other Sources:	0	0%	0	0%
TOTAL DEMAND	**1,879**	**100%**	**1,766**	**100%**

p. VII-3

Inclusive Capture Rate: The Market Analyst calculated an inclusive capture rate of 13.4% based upon 1,879 units of demand and 252 unstabilized affordable housing units in the PMA (including the subject) (p. VIII-3. The Underwriter calculated an inclusive capture rate of 14.3% based upon a supply of 252 unstabilized comparable affordable units divided by a revised demand estimate for 1,766 affordable units.

Unit Mix Conclusion: "The proposed project will offer a unit and project amenities package similar to those of the PMA's newer comparable LIHTC projects" (p. V-6).

Market Rent Comparables: The Market Analyst selected and surveyed 5 comparable apartment projects totaling 1,302 units in the market area. "The five selected market-rate projects have a combined total of 1,302 units with an overall occupancy rate of 97.2%. None of the selected market-rate comparable properties have an occupancy rate below 93.3%" (p. VI-2).

RENT ANALYSIS					
Unit Type (% AMI)	**Proposed**	**Program Max**	**Differential**	**Est. Market**	**Differential**
1-Bedroom (60%)	$626	$625	+$1	$695	-$69
2-Bedroom (60%)	$751	$751	$0	$900	-$149
3-Bedroom (60%)	$862	$862	$0	$1,020	-$158

(NOTE: Differentials are amount of difference between proposed rents and program limits and average market rents, e.g., proposed rent =$500, program max =$600, differential = -$100)

Primary Market Occupancy Rates: "The overall occupancy rate of the 6,894 non-government-subsidized units is 96.6%, indicating a very healthy rental market with a relatively low vacancy rate of 3.4%. Overall, the 1,022 existing LIHTC units have a 97.7% occupancy rate" (p. II-2).

Absorption Projections: "It is our opinion that the 252 family Tax Credit units at the subject site will reach a stabilized occupancy of 95% within 14 to 16 months of opening. This absorption rate is based on an average monthly absorption rate of 15 to 17 units per month" (p. II-3).

Unstabilized, Under Construction, and Planned Development: "Based on our interviews with local building and planning representatives, it was determined that no new multifamily projects are planned or have been allocated in the Site PMA" (p. V-9). The Underwriter's map reflects that four tax credit developments consisting of 600 family units and 110 units targeting seniors were approved in the 2001 to 2002 time period within the subject primary market area. All of the developments are considered to have stabilized and are reported in the market study as over 95% occupied. The two closest of these are within one mile, City Parc at West Oaks I & II (fka West Oaks Apartments and Green Crest Apartments, representing 360 units). These properties appear not to have submitted updated renter occupancy information into the Department's database and therefore our system shows them to be less than 90% occupied. The Underwriter however, confirmed with the On-site Manager that the properties have been at 90% or better occupancy for a year or more but recently suffered a reduction in occupancy as a result of the loss of FEMA vouchered tenants. If these units were included as unstabilized comparables the inclusive capture rate would rise to an unacceptable 34.7%.

Market Impact: "The proposed 252 units at the subject site will represent a capture rate of 13.4% of the 1,879 net income-eligible renter households within the Site PMA. This is considered a good capture rate and an indication that the proposed project is supportable, especially given that there are no vacancies among four of the five existing Tax Credit properties in the Site PMA" (p. VII-4).

Other Information: The Department commissioned a market study for the Houston-Baytown-Sugar Land Metropolitan Statistical Area (MSA). The firm that conducted the Department commissioned study is the same firm that conducted the market study for the subject development. The proposed development is located in the Southwest submarket within the Department commissioned Houston MSA study. According to the Department commissioned market study; there are a negative thirty-seven (-37) units of demand for 1-bedroom units at the 51-60% income level; negative forty-four (-44)units of demand for 2-bedroom units at the 51-60% income level; and negative twenty-one (-21) units of demand for 3-bedroom units at the 51-60% income level (p. III-1059). This information appears on the surface to be inconsistent with the demand conclusions of the market study submitted with this application. The Department's market study for the entire MSA did not, however, incorporate demand from turnover as normally allowed in development specific market studies because in the global study demand from turnover generally returns to other units in the market area. In lieu of turnover the Department commissioned study considered two and a half percent of the units developed prior to 1970 to be replaced or removed from the supply of units every year due to physical and functional obsolescence. While the historic rate at which older units have come off line is much lower, many comments have been received to suggest that this rate is lower than what should be targeted especially since the largest development surge of apartments in Houston occurred in the 1980's and a significant percentage of those units have not been maintained or were originally constructed to endure beyond 20 to 30 years without substantial renovation. A development specific market study identifies the demand from turnover as potential demand that can be attracted away from existing inferior units and to the proposed development (and any other new developments that have not yet become fully occupied).

The Underwriter requested and received additional information from the Market Analyst to reconcile the two different conclusions of the two market studies. The Market Analyst indicated that he had limited personal involvement in the Department commissioned study but reiterated the differences between the subject study and the larger MSA study. The Market Analyst indicated that the Department commissioned study determined demand from a different perspective than a property specific study in that the property specific study is allowed to consider as a part of demand for the property the natural turnover from other properties where the Department commissioned study did not include turnover as a source of demand. In a property specific study as in the real world this source of demand is typically the largest source of tenants for a new development. The Market Analyst also indicated that the primary market area in the project specific study is somewhat smaller to meet the Department's development specific market study guidelines and has significantly different boundaries than the Department commissioned study.

Market Study Analysis/Conclusions: The Underwriter found the market study provided sufficient information on which to base a funding recommendation.

OPERATING PROFORMA ANALYSIS

Income: The Applicant's projected rents collected per unit were calculated by subtracting tenant-paid utility allowances as of April 1, 2005, maintained by the Harris County Housing Authority from the 2006 program gross rent limits. Tenants will be required to pay electricity.

Expenses: The Applicant's total annual operating expense projection at $4,060 per unit is within 5% of the Underwriter's estimate of $4,237, derived from the TDHCA database and third-party data sources. However, the Applicant's budget indicates some line items that deviate significantly when compared to the Underwriter's estimates. These items are general and administrative expenses that are $54K lower than the Underwriter's, utilities that are $26K lower than the Underwriter's, property insurance that is $40K higher, and property taxes that are $24K lower. The Applicant also underestimated compliance fees by $6,300 or $25 per unit per year.

Conclusion: The Applicant's income and expenses are each within 5% of the Underwriter's estimates; however, net operating income is just over 5% greater than the Underwriter's estimate and therefore exceeds the underwriting threshold. Accordingly, the Underwriter's net operating income (NOI) is used to determine the properties debt service capacity. Both the Applicant's and Underwriter's NOI appears to be sufficient to service the anticipated debt at between a 1.10 and 1.30 debt coverage ratio (DCR).

Long Term Feasibility: The Underwriter's 30 year proforma utilizes a 3% annual growth factor for income and a 4% annual growth factor for expenses in accordance with current TDHCA guidelines. The Underwriter's base year effective gross income, expense and net operating income were utilized in this proforma, resulting in a debt coverage ratio that remains above 1.10 and a continued positive cashflow. Therefore, the development can be characterized as feasible for the long-term.

ACQUISITION VALUATION INFORMATION

ASSESSED VALUE

Land: 14.1 acres	$1,093,011	**Assessment for the Year of:**	2006
Building:	$0	**Valuation by:**	Harris County Appraisal District
Total Assessed Value:	$1,093,011	**Tax Rate:**	3.156

EVIDENCE of SITE or PROPERTY CONTROL

Type of Site Control:	Earnest Money Contract		
Contract Expiration:	06/25/06 and one 4 month extension	**Valid through Board Date**	☒ Yes ☐ No
Acquisition Cost:	$2,700,000	**Other:**	
Seller:	S&T Nguyen Partnership	**Related to Development Team?**	☐ Yes ☒ No

CONSTRUCTION COST ESTIMATE EVALUATION

Acquisition Value: The site cost of $190,409 per acre or $10,714 per unit is higher than typically seen for an affordable development but does not hinder the development's feasibility and is assumed to be reasonable since the acquisition is an arm's-length transaction.

Sitework Cost: The Applicant's claimed sitework costs of $6,365 per unit are within current Department guidelines. Therefore, further third party substantiation is not required.

Direct Construction Cost: The Applicant's direct construction cost estimate is less than 1% higher than the Underwriter's Marshall & Swift *Residential Cost Handbook*-derived estimate.

Interim Financing Fees: The Underwriter reduced the Applicant's eligible interim financing fees by $239,000 to bring the eligible interest expense down to one year of fully drawn interest expense. This results in an equivalent reduction to the Applicant's eligible basis estimate.

Fees: The Applicant's contractor's fees for general requirements, general and administrative expenses, and profit are all within the maximums allowed by TDHCA guidelines; however, the Applicant's eligible contingency exceeds the 5% allowed by $85,662 and was reduced in the eligible basis calculation accordingly. As a result of the ineligible interim interest and excessive eligible contingency the Applicant's anticipated eligible developer fee is also overstated by $114, 218. As a result, the Underwriter's recalculation of the Applicant's eligible basis was reduced in this amount.

Reserves: The Applicant included no reserves in the budget included in the application while the Underwriter has estimated a minimum development reserve of $316K. The equity commitment reflects an operating reserve requirement of $550,000, and if this amount is included it can be funded from deferral of developer fees.

Conclusion: The Applicant's total development cost is within 5% of the Underwriter's estimate; therefore, the Applicant's cost schedule will be used to determine the development's need for permanent funds and to recalculate eligible basis. The Applicant used an applicable fraction of 3.49% in calculating total qualified basis; however, the Underwriter used the current percentage of 3.59% for applications submitted in May of 2006. An adjusted eligible basis of $19,108,437 was recalculated by the Underwriter and supports annual tax credits of $891,791. This figure will be compared to the Applicant's request and the tax credits calculated based on the gap in need for permanent funds to determine the recommended allocation.

FINANCING STRUCTURE

INTERIM FINANCING

Source: Capmark Securities **Contact:** Jerry Wright

Principal: $15,000,000 **Interest Rate:** 5.00%, fixed lender's estimate (net of issuer and trustee fees i.e. +0.14% **Term:** 24 months

Documentation: ☐ Signed ☐ Term Sheet ☐ LOI ☐ Firm Commitment ☒ Conditional Commitment ☐ Application

Comments: The bonds are being underwritten and financing arranged by Newman & Associates who is listed in the application and here as the contact. Initial commitment reflected 5.75% interim interest.

PERMANENT FINANCING

Source: Newman & Associates / Capmark Securities **Contact:** Jerry Wright

Principal: $15,000,000 **Interest Rate:** 6%, fixed lender's estimate net of trustee and issuers fees **Amort:** 480 months

Documentation: ☐ Signed ☒ Term Sheet ☐ LOI ☐ Firm Commitment ☐ Conditional Commitment ☐ Application

Comments: The preliminary term sheet considered a $300,000 taxable tail which is not included in the more updated interim financing and equity commitments or the current sources and uses. The most recent sources and uses from Capmark also reflect an anticipated perm loan rate of 6.14% which include issuer and trustee fees.

TAX CREDIT SYNDICATION

Source: PNC Bank **Contact:** Nichoel Flores

Proceeds: $8,437,850 **Net Syndication Rate:** .965 **Anticipated HTC:** $875,000/year

Documentation: ☐ Signed ☐ Term Sheet ☐ LOI ☐ Firm Commitment ☒ Conditional Commitment ☐ Application

Comments: Based on the acquisition of 99.98% of the credits

OTHER

Amount: $247 **Source:** Deferred Developer Fee

FINANCING STRUCTURE ANALYSIS

Interim to Permanent Bond Financing: The Applicant plans to use tax-exempt bond financing issued through TDHCA, underwritten by Newman & Associates and privately placed with Capmark Securities. During the first 24 months the construction financing will have a fixed rate of 5.14% (5% on the bonds plus 0.14% for fees); however, upon conversion to permanent financing after the 24th month the bonds will have a fixed rate of 6% (6.14% all-in) with an amortization of 40 years and a term of 30 years.

HTC Syndication: The tax credit syndication commitment is consistent with the terms reflected in the sources and uses of funds listed in the application.

Deferred Developer's Fees: The Applicant's proposed deferred developer's fees of $247 amount to less than 1% of the total fees.

Financing Conclusions: The Applicant's total development cost estimate less the permanent loan of $15,000,000 indicate the need for $8,438,097 in gap funds. Based on the submitted syndication terms, a tax credit allocation of $875,026 annually would be required to fill this gap in financing. Of the three possible tax credit allocations, Applicant's request ($875,000), the gap-driven amount ($875,027), and eligible basis-derived estimate ($891,791), the requested amount of $875,000 is recommended resulting in proceeds of $8,437,850 based on a syndication rate of 96.43 cents per credit. The Underwriter's recommended financing structure indicates the need for $247 in additional permanent funds. Deferred developer fees in this amount are repayable from development cashflow within 1 year of stabilized operation.

DEVELOPMENT TEAM

IDENTITIES of INTEREST

- The Applicant and Developer are related entities. These are common relationships for HTC-funded developments.

APPLICANT'S/PRINCIPALS' FINANCIAL HIGHLIGHTS, BACKGROUND, and EXPERIENCE

Financial Highlights: The Applicant and General Partner are single-purpose entities created for the purpose of receiving assistance from TDHCA and therefore have no material financial statements.

- StoneArch Development, Inc. is the developer and is anticipated to guarantee the development. However, StoneArch Development, Inc. is a newly formed entity owned by Kenneth Cash and it has no material financial statements at this time.
- The principal of the General Partner, Kenneth Cash, submitted an acceptable unaudited financial statement as of April 26, 2006 and is anticipated to be a guarantor of the development.

Background & Experience: Multifamily Production Finance Staff have verified that the Department's experience requirements have been met and Portfolio Management and Compliance staff will ensure that the proposed owners have an acceptable record of previous participation.

SUMMARY OF SALIENT RISKS AND ISSUES

- The Applicant's operating proforma is more than 5% outside of the Underwriter's verifiable range.
- Significant environmental/locational risk exists regarding a small portion of the subject site that may lie

in the 100 or 500-year floodplain. It appears this area has been raised in the past and may not now be in a flood plain; however, this must be confirmed by a professional surveyor.

Underwriter:	*David Burrell*	**Date:**	July 1, 2006

Summary of Public Comment

Overcrowding of area emergency rooms and hospitals
Excessive concentration of affordable housing developments in the area
Depreciating property values
Additional stress on community fire, police, and EMS departments
Traffic congestion along Highway 6 and the area surrounding the proposed site
Additional burden the proposed development will place on the Alief ISD

TEXAS DEPARTMENT OF HOUSING AND COMMUNITY AFFAIRS

PARKWEST APARTMENT HOMES

PUBLIC HEARING

Elsik High School
12601 High Star
Houston, Texas

May 31, 2006
6:10 p.m.

BEFORE:

TERESA MORALES, Multifamily Bond Administrator

I N D E X

P R O C E E D I N G S

MS. MORALES: And we'll get started this evening. Can everyone hear me okay? Yes? Okay.

To begin, my name is Teresa Morales and I'm with the Texas Department of Housing and Community Affairs. And I am here this evening to conduct a public hearing for the proposed Parkwest Apartment Homes, located here in Houston.

To give you some idea as to how we're going to proceed tonight, first I will give a presentation of the programs that the developer has applied for with TDHCA, then from there, the developer is here and he will give a brief presentation on the specifics of the proposed project, and then after that there is a speech that I have to read for IRS purposes.

It will be at the conclusion of that speech when those of you who have filled out a witness affirmation form, if you would like to speak, then I will call you up at that point, and you can make any comments that you have. I will just call you up and you can make your comments from the podium down here.

So to begin, there are a couple things that I wanted to first mention about the public hearings that TDHCA does.

First of all, according to IRS Code, the Department is only required to take public comment on the bond issuance, however TDHCA has extended this to take comment not only on the bond issuance but on the development itself.

I want you to know that we are not required to do this, but we want community input and we seek it. And that is one of the reasons why whenever we have a proposed project going up, we go where that development is located, and gather input from the individuals in the surrounding area.

One of the other things I wanted to mention is that TDHCA schedules the public hearings where the development is to be located and at a time and location that is convenient for the individuals in the surrounding community to come. Specifically, we hold them in the evening to where individuals can attend after they get off from work.

A couple of housekeeping issues: if I could remind everyone to please sign in at the back table. That is really the only way that we have of knowing and getting a firm number as to exactly how many individuals were present tonight.

I also wanted to mention that on the sign-in sheet there is a column to indicate whether you support or oppose this particular project. Again, please indicate whether you support or oppose. If neither box is checked, then we will just consider your attitude as being neutral.

What I wanted to do is just briefly explain the two programs that the applicant has applied for with TDHCA.

One is the Private Activity Bond Program, and the other is the Housing Tax Credit Program. Both of these programs were created by the federal government to encourage private industry to build quality housing that is affordable to individuals and families with lower than average incomes.

The first program, the Private Activity Bond Program, this program refers to the issuance of tax-exempt bonds. The tax-exemption is not an exemption of property tax, but rather an exemption to the purchaser of those bonds. The bond purchaser does not have to pay taxes on their investment and the income that they make on that investment. So that's where we get the connotation, "tax-exempt bond."

Again, it is unrelated to property taxes, and I can tell you that the proposed Parkwest Apartment Homes will be paying full property taxes.

The bond purchaser accepts a lower rate of return, and therefore the lender that is involved will charge a lower interest rate for the mortgage that will be placed on the property to the developer.

The other program that the developer has applied for with TDHCA is the Housing Tax Credit. This program was created as a result of the Tax Reform Act of 1986. The way the tax credit works is, again, it is an investment to the investor that purchases those tax credits. It is an IRS credit to the development. Again, it is unrelated to property taxes.

The Housing Tax Credit provides equity to the development, which allows the developer to provide lower rents to affordable tenants.

With both of these programs what you have is a tax benefit, and please keep in mind that the tax benefit is not going to the developer, it's going to the investors that help finance that particular project. This is what gives the developer the opportunity to bring something of high quality to your area.

And another thing worth mentioning is that all of the properties, affordable housing developments that TDHCA does, they are all privately owned and privately managed.

One of the other things that I wanted to mention about the affordable housing developments through TDHCA is that there are ongoing responsibilities between these developments and TDHCA, specifically as it relates to compliance monitoring.

There is a compliance period for -- that's attached to these developments that is for the greater of 30 years or as long as those bonds remain outstanding. So if those bonds remain outstanding for 40 years, then that particular property is on hook, if you will, with the State for that entire 40-year period. But it is a minimum of 30 years.

Some of the oversight responsibilities of TDHCA as it relates to these developments include, one of the things that we're looking for is to make sure that the units are occupied by eligible households, and what that means is we make sure that everyone who is living there is supposed to be living there.

We also monitor the physical appearance of the property, and make sure that that is being maintained.

One of the other things that we monitor for is to make sure that the rents are capped at the appropriate levels.

And finally we make sure that the repair reserve accounts are established and that they stay funded.

What happens with all of the affordable housing developments funded with bonds, or through the Private Activity Bond Program, is that the State requires that there are reserve accounts that are established and funded throughout the life of the property, and what that means is any future repairs or maintenance that has to be done to that particular property, that there will be funds to cover that.

That is a requirement not only for the State, but also the lenders that are involved. On each transaction they also require those reserve accounts as well.

Another thing that I wanted to mention has to do with tenant services. With all of the affordable housing developments that we have, specifically what happens is after lease up there is a survey that the developer will forward to all of the tenants to try to get a tenant profile, and try to determine what types of services those tenants would be interested in.

Some of those services can include tutoring or honor roll programs, computer access or educational classes, healthcare screening or immunizations for school children.

One of the other things that some developers offer is down-payment assistance classes. With the affordable housing developments that we have, we consider them, along with all multifamily housing, the first step to home ownership. And so what developers will sometimes offer is down-payment assistance classes to educate the tenants on what they would need to do to purchase their first home.

In terms of -- to back up a minute -- in terms of the compliance monitoring, I did want to mention that our properties, with the Private Activity Bond Program, they are monitored every two years by TDHCA staff. We do actually go out to all of these properties and inspect them at all of the requirements that I mentioned earlier.

That is an overview of the two programs that are at work here, the Housing Tax Credit Program and the Private Activity Bond Program.

With that, I am going to turn it over to Mr. Ken Cash, who is a manager of the general partners. He is here this evening to give you some specifics as it relates to the Parkwest Apartment Homes.

(Pause.)

MR. CASH: Parkwest Apartment Homes will be a

Class A-type project, with stone, stucco, and siding exterior on over 14 acres with extensive landscaping, landscape lighting, playgrounds. This will be a gated community with a community center, pool, exercise room, business center.

There will be available private garages, carports, balconies, washers and dryers in each unit available. Crown molding, granite countertops, and cultured marble vanities. Upgraded cabinets, carpet, and ceramic tile bath and shower enclosures.

The one-bedroom units will be $626 per month. A two-bedroom, two-bath, will be $760 a month. A three-bedroom, two-bath, will be $862 per month, and options available such as private garage, washers and dryers are available for $40 per month.

So a resident with a three-bedroom, two-bath apartment and a washer and dryer and single-car garage will be paying in the rage of $940 per month.

Thirty percent of the units in the project are one-bedroom, one-bath, and so the remaining 168 units will either be two- or three-bedroom. The majority will be two-bedroom, two-bath, apartments.

The reason why we originally selected this location was the proximity to the Westheimer Corridor, Highway 6, and Westpark Toll Road, the West Oaks Mall, and the services and amenities available in this area.

Directly to our east there's going -- in the process of being built, is a 340-acre park with a lake. It's part of the project Brays Eldridge Detention Basin.

Directly to our west, there's currently under construction another park, which will be consisting of playground facilities, soccer fields, baseball fields.

(Pause.)

MR. CASH: So our site is directly to the west of this new park that's going to be built, that has amphitheaters, walking trails, biking trails, there's some type of pavilions and playgrounds, restroom facilities.

Another reason why we selected this location was the proposed expansion of the Metro light rail that is proposed to come down the Westpark Toll Road, and will be coming right to the corner of our site.

So our location will be between two new parks, and directly across the street from a very nice community center, church, and children's academy called Mission Bend.

The market studies that we've had conducted for this area show the current occupancy in the area to be high, and other projects in the area, some of which are at

100 percent occupied, there are some vacancies in some existing apartments, and I think that if you would look throughout Harris County, that you would find that there's some vacant apartments throughout the entire county, and probably the state of Texas.

A recent market study that was performed for the Texas Department of Housing concluded that of all of the surrounding counties, including Harris County, Austin County, Chambers County, Montgomery County, the highest demand for new units was in the southwest region where this project is located.

Other parts, around Montgomery County and Intercontinental Airport, around Lake Houston, actually had a negative projected demand over the next four years.

This location here had a projected demand over the next four years of 4,300 units, and the conclusion also predicted that was because of, you know, people are moving into this area, the west, the southwest regions of Harris County.

And all the residents will be pre-qualified and pre-screened through the employment verification, rental history, criminal background, and income verification, and the reason why we selected this area is because it is a great location. It has a lot of amenities, it has a lot of positives. It's got visibility from the Westpark Toll Road and Highway 6.

The project will be built, maintained, and managed as it appears, like a Class-A project. And we are projected to pay property taxes in excess of $210,000 per year, and over a 30-year period of time this project is projected to pay over $12 million in property taxes.

The school district will be able to use the money from the income to the tax base to build additional schools. A new elementary school is currently being built directly around the corner from our site, which will help with the current demand for school facilities.

And the projected income in the tax base will allow the school district to plan to build additional facilities in the future.

At this time, I would like to turn over the presentation to the property manager. His name is Mike Clark, and he's with Alpha-Barnes.

MR. CLARK: I don't think I've ever been to one of these things where the PowerPoint presentation worked right.

My name is Mike Clark, I'm with Alpha-Barnes Real Estate Services out of Dallas. We are a property manager specializing in operation of affordable housing properties. We manage about 70 of these properties, totaling around 10,000 units across the state. Multiple properties in the Houston area, including in Sugar Land, Rosenberg, up north in several locations, so we're very used to this environment.

I'm not going to get into great detail about how we operate the properties. I'd much rather respond to questions from you as we get through this.

But I think what I'll tell you is that we realized it is very important that the clientele who live at this property while they meet the income requirements and the income restrictions, also meet the characteristics of the surrounding community.

We'll be screening very succinctly for criminal activity. Anybody with any history of crimes against persons, drugs, sex crimes, will be rejected for occupancy.

We screen for employment, we screen for ability to pay, we screen for prior landlord history. If you haven't paid your rent before, the odds are good you aren't going to pay it again.

We manage with a strong local presence. We use supportive services staff on the property, I believe in this case to be provided by Texas Interfaith Housing, one of the best providers in the state, to work with the kids after school, homework programs.

We actually have had instances on our properties where the school district has come to us and said they've been able to see an improved performance from the kids in the properties because of the after school programs.

We also believe, though, that you have to manage a piece of property like this: from a very strong perspective. You have to treat people with respect, but you have to make them abide by the lease and the requirements that they committed to.

And so with that we work very closely with everybody from the local police department to the justice of the peace, who we hope not to see very often, but sometimes we have to, and deal with those issues very directly and very succinctly.

I think that's a pretty good general overview. I think the income restrictions are an interesting question I might just touch on quickly. I will tell you that the -- as you know, the people targeted to live in this property are targeted to be at or below 60 percent of median income, which means -- and actually, I put these on my BlackBerry so I wouldn't give you incorrect numbers --

it actually means that a family of two could have an income of just below 30,000, and still be eligible, and a family of five or six, living in a three-bedroom unit, could have an income of around $40,000 a year and still be eligible.

We also use minimum incomes, which are not mandatory from an IRS perspective, but are mandatory from a good management perspective. I mean, if a person can't -- doesn't -- it doesn't do us any good to lease somebody a unit for $625 a month if they only make $900 a month. And so we typically take two-and-a-half to three times the rent as the minimum income, so the typical resident here will make between $20- and $22,000 and $40,000 a year because of our minimums and because of the caps on the rent.

The last point I'd make to you in terms of a presentation would be that the typical resident here, 40 percent of our residents, are going to have relatives within four miles of our property.

Most of them are going to work in the area surrounding us.

You're going to know some of them. We're not talking about introducing you to strangers. In fact, we're not even talking about any more, speaking on behalf of the apartment association groups, of leasing to anybody who's an evacuee.

The reality is, we're talking about people who work and live in your neighborhood. They're probably working at the hardware store, at Lowe's, they're probably working at McDonald's, they're probably working at places like that.

Some of them may even -- I hope they're not working at the school district. I hope the pay district -- the pay is so high that nobody qualifies. But odds are good some of them are working at the school district.

Little bit about the management operations. If there are questions that come up during the presentation, I will jump up and respond to them directly and give you straight answers on it.

So, I think that's it for me.

MS. MORALES: Thank you.

MR. CASH: I just wanted to briefly add one more comment regarding the income requirements of the residents.

After the first year, a family making over $42,000 a year will be able to make in excess of $56,000 a year and still be qualified to live here.

So we're not talking about people who just walk up, are looking for a free place to stay. In order for somebody to pay the type of rents that we're asking for, they're going to have to have a substantial income, and they're going to have to meet all of the income restrictions.

We're not -- this is the highest level of affordable housing, as far as rent restrictions go, that's available in this particular program.

And we'll turn it over, back to Teresa.

MS. MORALES: Thank you. The way that we are going to proceed from now is there is a brief speech that I have to read for IRS purposes.

For those of you who have submitted a witness affirmation form, it will be at the conclusion of that speech, I'll call you up, you can make whatever comments or questions that you have, and you can do so at the podium down below.

For those of you who have specific questions, what I would ask is, to ensure that everyone has the opportunity to speak, I'm going to be keeping a record of any questions that you have specific to TDHCA and the programs that we offer, and I have asked the applicant to do the same as it relates to the specific development and the property management.

So after everyone has made their comments up here, then I will go through all the questions and hopefully answer all of those that were raised.

So that being said, good evening, my name is Teresa Morales, and I would like to proceed with the public hearing.

Let the record show that it is 6:35 p.m., on Wednesday, May 31, 2006, and we are at the Elsik High School, located at 12601 High Star, in Houston, Texas.

I'm here to conduct the public hearing on behalf of the Texas Department of Housing and Community Affairs, with respect to an issue of tax-exempt multifamily revenue bonds for a residential rental community.

This hearing is required by the Internal Revenue Code. The sole purpose of this hearing is to provide a reasonable opportunity for interested individuals to express their views regarding the development and the proposed bond issue.

No decisions regarding the development will be made at this hearing. The Department's board is scheduled to meet to consider this transaction on July 13, 2006.

In addition to providing your comments at this hearing, the public is also invited to provide comment directly to our board at any of their meetings.

The Department's staff will also accept written comments from the public at up to 5:00 p.m. on June 30, 2006.

The bonds will be issued as tax-exempt multifamily revenue bonds in the aggregate principal amount of not to exceed $15 million, and taxable bonds, if necessary in an amount to be determined and issued in one or more series by the Texas Department of Housing and Community Affairs.

The proceeds of the bonds will be loaned to Houston, 3601 Parkwest Apartments, LP, or a related person or affiliate entity thereof, to finance a portion of the costs of acquiring, constructing, and equipping a multifamily rental housing community described as follows: a 252-unit multifamily residential rental development to be constructed on approximately 14.18 acres of land located at approximately 14601 block of Parkwest Central Drive, and west of the 3600 block of State Highway 6, Harris County, Texas.

The proposed multifamily rental housing community will be initially owned and operated by the borrower or a related person or affiliate thereof.

I would now like to open the floor up for public comment.

First we have State Representative Hubert Vo.

MR. VO: Thank you, Ms. Morales. I just want to say that I'm not opposed to affordable housing, but I'm here today to speak in opposition to issuing tax-exempt bonds for this proposed project known as the Parkwest Apartments.

The schools that would be affected by Parkwest are beyond capacity at this time.

I understand that the Alief area has over 1,900 units of affordable housing now, and almost 700 of those are within a mile of the proposed project.

Because of that, I can't see how putting more students in these already overcrowded schools that can provide a proper education for our children.

This is the school district that is still trying to deal with all the challenges from taking in over 3,000 new students who fled from Katrina.

Secondly, I have met with the management at West Houston Hospital, and have learned of their problems of keeping up with the ever-increasing overcrowding in the emergency room.

Add to that, in this area we have no clinics to provide medical service.

Alief school district needs time to grow using the limited resources available to them.

The area needs new clinics and more hospital space.

As of now, there's insufficient public safety services in the area.

For the above reasons I ask you to deny the issuance of tax-exempt multifamily revenue bonds to this project.

Thank you very much.

MS. MORALES: Thank you. I just wanted to do a special thanks for you taking time out of your busy schedule to come and voice your concerns.

Next, we have Charles Woods.

MR. WOODS: Good evening. My name is Charles Woods, Assistant Superintendent of Technology and Support Services for Alief Independent School District.

I'm here tonight to speak in opposition to the proposed project.

I have a few tidbits of information that we manage. I, personally, work on the demographics for the school district and future boundaries for new campuses.

This is just an image of -- a GIS image of

Alief Independent School District and all the apartment complexes in existence already, and showing there in the yellow, on the west side, the proposed new project. There's over 90 apartment complexes in Alief.

Looking at the TDHCA web site Question & Answer about the criteria on why we approve or disapprove these types of projects, I point to that bulleted list. There's two particular points that apply to Alief.

One is, the geographic location. Two is the impact on the concentration of existing tax credit developments and other affordable housing developments in the specific markets and sub-markets, Alief being a sub-market that's different than the area around it, that surrounds it -- or anywhere else in the state.

But if you look at this diagram, you know, picture, this shows the Parkwest Apartment Homes there on Highway 6, and then you see up in the upper left the City Parc II and City Parc II complexes. They are within one mile, as well as Park Village, down in the lower right, that is within one mile. That, too, is a tax credit, TDHCA project that was approved in 1993.

You see that City Parc I has 168 units. City Parc II has 192 units. Park Village has 312 units, and we're proposing to add right in the middle another 352 units.

So these are the projects. City Parc I was granted by TDHCA in 2002, City Parc II in October of 2002, another 192 units, and of course Park Village in 1993.

In Park Village we have two-, three-, four-, and five-bedroom apartments.

The schools and enrollments in the capacities that was mentioned earlier, projected, this is to be in the current Rees zone.

We have Hearne Elementary in this area. Projection for next year is 1,105 students, with a capacity of 990.

Hicks Elementary just south of there has a projection of 1,340 students, with a capacity of 1,200.

Outley Elementary, 1,091, with a capacity of 850.

Petrosky Elementary, 871, with a capacity of just over that at 1,000.

Rees Elementary at 1,049, with a capacity of 968.

We're a total of just over 400 students above the capacity that we have in existence today. This is one of the reasons that we're building Elementary 24. The other reason is that this district wants a feeder system that feeds into middle schools and intermediates and has the best education for the students we have.

That's why we went to planning this in our bond referendum in 2003. We've had a bond referendum about every 5 years, and so I want to speak also to the timing in which this project hit.

Albright Middle School, 1,328 projected next year, capacity of 1,272.

Compare leasing rates, the development that's proposed has a $757 month leasing rate for a two-bedroom apartment. In calling around to some of the nearby complexes, we see that we have 425 units available right now between $590 and $1,129 a month. Well over 200 units between $590 and $640 a month, well below his price.

So we -- there are available units in Alief in a 1-1/2-mile radius of that project already, to saturate well over what he's building -- planning on building in that other complex.

We subscribe to a data service by O'Connor and Associates, and it's an apartment data service that I'm showing here the whole Houston market, and it's showing over the last two years that class A, B, C, and D apartments with an overall percentage occupancy rate, and as you can see, over the course of the last year, they're around 86-1/2 percent occupied across all of Houston.

If you compare that to the Alief area, the Alief sub-market, then we also have, in the last year we were in the 84 percent range. Typically Alief runs a couple points behind the Houston area metro.

So one of the things to point out is, on both these slides, the Houston area, as well as the Alief area, since the peak of Katrina and Rita occupancy, we've been on a decline.

We talked about population growth and job growth in southwest region. Southwest region may be other regions other than just the 36-1/2 square miles of Alief.

Looking at the apartments in Alief, the statistical summary, we have over 90 complexes. I want to show the bottom rank. The average market rent, a two-bedroom apartment, in Alief, is $678. His proposed price is $757.

So without all the restrictions, there are a plethora of apartments already available in the Alief area at less than what he's planning on charging. Some of them were built in recent years, and were TDHCA projects.

To look at the time line, like I said, we started working on a bond referendum in 2002, the 2003 bond referendum, Mr. Cash brought the first notice to us on February 2 of this year. Three months ago.

We issued a letter back to TDHCA, met with Mr. Cash and explained our issues about the project and its location, the fact that we're not against tax-credit apartments or low income apartments, and then here we are at a hearing tonight.

So we've had about a three-month window to work on this project, whereas we've been planning for years ahead.

We have 252 new vacancies in this proposed project. Twenty -- I called these complexes, 20 vacant at City Parc I, 49 vacant at City Parc II, 41 vacant at Park Village. Sierra Pines, which is not a tax-credit complex, is just up the street from Park Village, has 160 vacant. Thirty to 40 vacant just in that same block at City Parc I and II. Thirty vacant in West Field Apartments. Thirty vacant just north of this complex.

Other TDHCA projects in Alief, and I point these out to show you that they're -- every apartment complex on that list, these are the ones that have been approved to date, Alief did not oppose, as a school district.

We didn't oppose City Parc I, we didn't oppose City Parc II, we didn't oppose Matthew Ridge, Soverham [phonetic], Collingham [phonetic], Park Village.

In fact, we try to build them into our building schedules.

So here's a complex that we're talking about in three months. We haven't had a chance to work with the developer on a long-term plan to help make their tax money work the best for the district.

To compare your data with census data, we looked at the square mileage of Harris County, Alief ISD, Fort Bend County, and the City of Houston. The total number of TDHCA low-income tax-credit units in those areas, and calculated the units per square mile.

And it's showing that Alief ISD has 56 units per square mile. Compare that to the City of Houston only has 38. Compare that to Harris County overall: 14-1/2 units per square mile. Compare that to Fort Bend County, which is where a lot of growth and jobs are happening, 1.1 per square mile.

So I think we're being targeted for an area that for other reasons other than economic development and jobs.

So in summary, planning and district involvement should begin earlier. Funding considerations for facilities is not just an IRS cost; we all pay income tax and we have a vested interest in how those tax dollars are spent, but it's also a local cost of building schools, and like Mr. Vo said, for local facilities for the folks.

Market is saturated with affordable housing. We've proven that the occupancy is on the decline, not an incline, in Alief. We are a sub-market, and I hope you take it into consideration in 2306, the government code, the TDHCA was developed to help local governments facilitate this change, to help low-income housing.

I hope you can see that we have opposed some complexes in the past. But it's always been about location, timing, and planning. We're not against low-income housing. Thank you.

MS. MORALES: Next I have the Superintendent of AISD. And if I could, sir, please, have you state your name for the record? It wasn't written on the form.

For those of us not in the area.

MR. STOERNER: My name is Louis Stoerner. I am the Superintendent of the Alief school district, and that's a very hard act to follow as far as Mr. Woods.

And just to reiterate a few of his points, we are not against affordable housing. Seventy percent of our students are classified as economically disadvantaged. We're not against apartments. Fifty percent of our students reside in apartment complexes.

So the idea that we're opposed to low-income housing or high-density housing is not the case.

We would love to see, where we saw requests last month, for some folks to come in and begin renovating some of these complexes that were constructed 30 and 40 years ago.

I would also ask, as far as in the monitoring, Park Village Apartments that you mentioned, please drive by that complex on your way back to Austin. Boarded up windows. It is hard to believe that we're having biannual inspections of some of these properties.

But as I said, we're not opposed. All the points that Mr. Woods brought out. But the district is -- we would like to voice opposition to this specific project.

MS. MORALES: Thank you.

Next I have Mr. Robert Kendrick.

MR. KENDRICK: My name is Robert Kendrick, and I am Harris County Commissioner Steve Radack's Superintendent. Commissioner Radack is the County official for Precinct 3, and this project and Alief ISD are located in Precinct 3.

The Commissioner wanted me to be here tonight to express his opposition to this project, for many of the reasons that Representative Vo and members of the school district have expressed already, and I won't repeat those.

I would like to share with you some thoughts and concerns that we have as a matter of public policy related to the issuance of bonds and the use of that government incentive to encourage projects like this.

As a general public policy, Harris County Commissioner's Court is on record and in fact supports acquisition and the building of affordable housing projects. We have the Harris County Housing Finance Corporation and the Harris County Housing Authority that are quasi-government entities that are specifically charged with seeking out and encouraging those opportunities, much like TDHCA does.

But the question really is, we want to provide those government incentives where it's appropriate. And this project has got a number of problems that raised enough concerns that the Commissioner has decided to oppose the project, and urge TDHCA to not issue the bond.

Part of the problem is, Harris County government has a concentration policy in place. If we were looking at this from our own perspective, strictly from our own perspective, we would want to encourage affordable housing, but the policy that Harris County adopted wants to discourage a disproportionate number of those projects being concentrated in the same area.

And that's similar to the same standards that TDHCA itself has when it reviews bonds.

When you analyze this specific area, not a region, but this specific area, frankly, Alief has done its fair share.

And Alief has -- and frankly the school district leadership has been very responsible -- and we've worked with them in the past -- in understanding their obligation to educate whatever children come into their area.

The question becomes, though, do we as a matter of public policy, through TDHCA, encourage and provide an incentive for a project in the area that is already saturated with projects, and will have an adverse impact because of its geographic location and the existence of other projects.

And frankly, we don't think that the business case has been made that there would be an overwhelming need for this kind of project, in light of the concentration of similar kinds of taxpayer-incentivized projects in the area.

We would like to go ahead and potentially supplement my remarks with written remarks that the Commissioner may decide to send to you, but we want to encourage affordable housing. We appreciate responsible developers. We've supported responsible developers in the past. We appreciate that this developer stepped forward.

But this is the wrong project in the wrong location, and we urge that you oppose it.

MS. MORALES: Thank you. Next I have John Steiger.

MR. STEIGER: Good evening. I'm John Steiger. I'm President of the Mission Bend Civic Association. I represent over 1,500 homeowners in the Mission Bend area.

We are not opposed to new development per se, but I have concerns about a new apartment complex project going into the area.

We have many apartments now. We wouldn't have as many vacancies now if it wasn't for a hurricane last year. We'd have tons of vacancies now.

But we -- our crime, if anybody's familiar with the Mission Bend area, you know, we've had plenty of robberies this past year. We -- our association pays well over $200,000 a year for extra security: four deputies to patrol our area.

They talked about it being a gated community. You'd be hard pressed to find an apartment complex in our area that -- what is a gated community? Gates are open, no security. It just goes by the wayside.

I don't know what their track record is for other properties that they have. I love to see what their track record is.

But in general, we love new development in our area, I would just hate to see new -- if they're low-income, it's usually associated with people who don't have money. And associated with crime. Now, whether that's true or not, I don't know.

But I would like to have some more assurances of what's going to happen with this complex, before they come in, and see what kind of track record they have.

But at this moment I don't feel we need more affordable housing in the Alief area. We have housing now. We have homes that are on the market that need to be sold. Rental homes. Apartments that need to be renovated. There's plenty of housing in Alief, it just needs to be taken advantage of. Thank you.

MS. MORALES: Next I have Lewis Drake Sharp.

MR. SHARP: My name is Drake Sharp, and I'm the Principal of Howard Hicks Elementary, which is a pre-K through fourth grade campus located in Alief ISD. Our campus is located of Beechnut near Hall Sugar Land Road and Highway 6, and I oppose the Parkwest Apartment Home Complex.

In the seven years I have been principal of Hicks Elementary, it's had the largest student enrollment of any elementary campus, and in fact during the past four school years, only the three comprehensive high schools and one middle school in Alief have had larger enrollments.

Last year we were projected to have 1,050 students. We opened our doors with 1,152 students, and ended the school year with 1,265.

Next year we're projected to have 1,376. It was on there at 1,340 but Charles left off our special education students that are self-contained, so it's really 1,376.

For the past four school years, Alief has rezoned our campus three different times, but the tremendous amount of building in the Hicks attendance zone in our school -- because of that, our student numbers continue to rise.

In addition to the rezoning, the District has added an eight classroom wing two years ago to help with that, but we still continue to have a large enrollment.

And even though we are the largest elementary of all the other -- but all the other elementary schools in our zone -- around our zone are also filled to capacity, and indeed all the elementary campuses in Alief ISD located west of Senate [phonetic] are facing large growth patterns.

And Alief ISD's goal is to reduce the number of students at an elementary campus to 1,000 or less. And Hicks Elementary was to see a reduction in student numbers as new schools built using funds from the 2003 bond election were used and opened, but unfortunately the bond proposal did not take into account a complex the size of Parkwest Apartment Homes.

The Parkwest Apartment Homes development is not currently in our attendance zone, however its construction and the addition of up to 200 additional students or more will affect Alief ISD's ability to provide relief to already overcrowded campuses like our own.

If this project opens as scheduled, all Alief ISD elementary schools in the west side will continue to be stretched to their capacity with enrollments far exceeding the buildings' capacities.

In order to accommodate 1,376 students for the next school year, our campus will have five portables, which translates into ten classrooms outside the building. If our school enrollment continues to rise, it would mean the addition of even more portables.

And although we add classroom space with the addition of portables, our cafeteria, library, and gymnasium do not get any bigger. We do not add more bathrooms. We still have one computer lab, one nurse, one counselor, one registrar, et cetera.

You know -- sorry, I got mixed up here. As we look at it, the staff of Howard Hicks Elementary works hard to provide a sound and strong academic program for each student. We care about our students and we want the best for each and every one.

And my concern is that as our enrollment continues to increase, our school and staff will be stretched to the point where we will not be able to provide support -- to support our students in the way they need to be supported. Thanks.

MS. MORALES: Next I have Donald Ellis.

MR. ELLIS: Thank you and my name is Don Ellis.

First of all, I'd like to just state that I'm opposed to the development, and more or less what I have is a series of questions for you all and the developers.

You mentioned that you would have criminal background checks on those who rent the apartments. Does this include the juveniles that would also be living in? You know, the teenagers and such. And will you be doing periodic checks on these people to make sure that they don't develop or have a criminal record thereafter?

The second question I have is, you talked about this not being Section 8 housing. Is there any possibility that sometime down the road these could be converted to Section 8?

Also, you all talked about your management, and what's the possibilities of someday changing management? Many times apartment complexes change managements, and, I mean, what you tell us is nice, but a few years down the road, let's say you switched management. What happens then?

Also, for this complex, I noticed that people really haven't addressed the traffic patterns. Right now the traffic at Highway 6 and West Park is horrendous. To add this much more, you know, down there, is there going to be any kind of improvement in the roads, traffic signals and such?

And is there going to be any kind of increased security? Is the Sheriff's Department going to have more patrols? You know, is the State going to chip in any money to, you know, provide this or are we going to have basically a status quo?

Also, I've noticed in talking, you all, it sounds like this is a done deal, so my main question is, Is this a done deal? Is there any way this is going to be changed? Generally speaking people go, "This is" or "this will be," like we're just kind of wasting our time here. So I'm, you know, curious: Is this a done deal? Will there -- is there a possibility that this will -- our opposition will be heard and it won't happen?

And then finally, my last question is the impact on homeowners as far as school taxes. Obviously those who live in apartment complexes do not pay ISD taxes. We do, so adding so many students is going to increase our school taxes.

That's my questions. I appreciate it.

MS. MORALES: Next we have Gary Gassmann.

MR. GASSMANN: Hello, I'm Gary Gassmann. For those who don't know me, I am the President of Harris County 120. I'm also here, also representing Dave Fugi [phonetic], who is President of Harris County 147.

The big question we had, you say that it is now taxable property, or will have property taxes on these locations, but what will happen two or three years down the road? Will they switch from being taxable property to non-taxable?

I think they're allowed to do that, and I don't think there's anything to stop them from that.

If that does happen, the individuals around, their taxes will go up. Plus with the increase of people and the low-income, will there be more maintenance that we will have to maintain due to vandalism? I know we've got a new park going in, and just the other day they had somebody come in and spray paint all the signs, and it's, you know, this is a thing we worry about.

That's all I've got. Thank you.

MS. MORALES: Next I have Janine Hoke.

MS. HOKE: My name is Janine Hoke and I'm the Principal at Miller Intermediate School in Alief ISD for grades five and six, on the west side of Highway 6 at the intersection of Green Crest [phonetic] and West Park.

I want you to please understand that I definitely concur with the District's opinion that we invite and have accommodated affordable housing forever. I've been in this district for 21 years, and I've never known of any opposition, ever.

Alief has been very gracious to support it. It has been very taxing on every school. I was Principal at Hearne Elementary, where Park Village Apartments is, and I walked that walk for seven years, and I listened to those guys tell me that there were going to be computers, help with homework, points for participating in parent conferences, none of which came to fruition. None.

Obviously, I'm speaking in opposition of Parkwest.

Currently Miller Intermediate services three tax-credit apartment complexes: Matthew Ridge, City Parc I and City Parc II. We do very well academically, but it takes everything that we have to get these kids where they need to be.

Park Village is a massive tax-credit apartment complex currently not in the Miller zone; it has been in the Miller zone before. Every year boundary studies occur. Park Village could come back to Miller Intermediate at the drop of a hat.

If Parkwest is built in our area, Parkwest would make four, if Park Village comes back, that means Miller Intermediate serves five tax-credit apartment complexes, and I don't think that's reasonable. For the kids.

Accepting another tax credit apartment complex is going to lead to overcrowding at Miller Intermediate. It is true that they are building a new elementary catty-corner to Miller Intermediate. That's fine. That will assist with the elementary.

But then you have to realize, those schools go to pre-K to four. We are five and six. We take in all of the elementary 5th and 6th graders. There are no plans for accommodation for Miller Intermediate, and we have already had an eight classroom addition put on the campus last year. That would put us way over the edge.

Safety issues would be of the utmost concern. We would be over capacity in our cafeteria. At breakfast and lunch, we already start breakfast at 10:15, we do not end until 1:30. I don't think -- I think I can speak on behalf of the parents that a lot of them don't appreciate their kids going at the very early part of the day or the very end part of the day. It's not good for academic achievement.

Also, putting that many kids in a hallway does not meet the rigorous fire codes for the City, for the District, and for Harris County.

You also have to remember that's going to put student/teacher ratios up to 27 and 28, in many cases, to one teacher, for students with excessive academic needs.

Alief and Miller Intermediate will never compromise on giving the best education for every kid that comes across our doorstep. That is our job, to ensure that every student is a success, from the time that they come till the time that they leave, good instruction always.

We are required to do numerous academic interventions at grade 5 and grade 6. Our job at Miller Intermediate in grade 5 is to prevent retentions, because of the No Child Left Behind and the Student Success Initiative. Every child at grade 5 must pass Reading and Math TAKS, then must pass all of their core subjects, or they are retained. Very rigorous standards.

We get another apartment complex with that many students, it is going to impact our retention rate and then we're going to be massively overcrowded in the fifth grade, which means more pressure for those kids to come out of a retention situation, with strained personnel to help meet the kids' needs for the interventions.

You have to realize that when kids are retained in 5th grade, that is going to domino. It is my job at Miller to see the district in a global fashion. If a child is retained at an intermediate or elementary level, the chances of them dropping out of high school increase by over 50 percent.

It is my job to ensure that those kids are ready academically to go on to 7th grade, because if they're not, the chance of them dropping out will be up. It's a serious problem in high school.

Mr. Sharp already addressed how it affects the facilities, the restrooms and cafeterias.

We're committed to keeping up the rigorous standards for the Alief Independent School District and for Miller Intermediate.

As Mr. Sharp said, it is our goal to keep every intermediate and every elementary at 1,000 or lower. If we put in this complex, that's not going to happen.

You have to remember, we didn't ask for No Child Left Behind, but it's here, and it's what's right for kids. What is not right for kids is overcrowding. We will be stretched to the Nth degree with these interventions and we will not -- we're going to have to look at a quality versus a quantity issue.

And like I said, our job is to have 100 percent commitment to helping students pass every single year so they can go on to the next grade level, so they can be productive members of society.

Just once again I'd like to reiterate, I'm opposed. It's going to cause a huge strain academically in the Alief Independent School District, particularly at Miller and the surrounding schools.

Thank you.

MS. MORALES: Next I have Sarah Winkler.

MS. WINKLER: My name is Sarah Winkler and I'm President of AISD Board of Trustees, and I'm here to speak in opposition to the Parkwest apartment complex.

I do also want to say the District is not opposed to affordable housing. There have been many complexes built in Alief we have not opposed.

I mentor students. I know there is a need in our community for affordable housing. I feel that we have the housing available.

It's our job at the Board of Trustees to make sure that all of our campuses have the resources they need to be successful. This is not a complex we'd planned for. It will interfere with the ability of the District to supply the resources these campuses need, so the students can be successful, as these principals have said.

And as I said, that's our job, at the Board of Trustees, and I don't feel that we can provide the resources that all these students need if we have another complex built at this time.

And so I don't want to go on and repeat what other people have said, so I'm going to leave it at that.

Thanks.

MS. MORALES: Thank you very much for your time.

Next I have Daniel Hrna.

MR. HRNA: Thank you. My name is Daniel Hrna, and I am Chairman of the Alief Super Neighborhood Council 25. The Alief Super Neighborhood Council represents about 118,000 citizens in this area, in what we call the Alief area.

It is not opposed to affordable housing. However, because of the population density and our thrust to rebuild infrastructure, which began about eight years ago with Save Alief, we have finally made some inroads.

And what's happening is -- and I'd like to dispel some of the myths that one of the speakers gave out.

Healthcare. There are two emergency rooms, and they're outside of the Alief area. One of them is working at full capacity. The second one has had to shut down half of its ER beds because they can no longer afford to keep them operating.

We have one voluntary health clinic, and we have one part-time clinic out here. There are no health facilities at this present time to take care of these 1,000 to 1,500 people that will probably be residents of this unit.

Save Alief has a health fair of which some 2,000 people take advantage for their annual medical care, once a year. We also have our food pantries are running to the top maximum. Notre Dame Catholic Church, a small Catholic church on Boone Road, serves 8- to 10,000 people a year, by their food pantry. That's how much food is necessary to keep the people in Alief fed, that are in substandard housing at this time.

We are talking about population density because according to the City of Houston there are 164 defined apartment complexes in the Alief Super Neighborhood area.

And last two years, five more were under construction or built, so a total of 169, which makes it the highest population density in Harris County and Houston, Texas; in fact, anywhere in Texas at this time.

Our fire and police are operating to the hilt. The personnel at West Side Station have had to be increased by 23 percent to take care of the problems in Districts 17, 18, and 19.

There was talking about a great location based on demand. There may be demand, but there are just not the facilities or infrastructure to maintain that demand.

For example, West Park Toll Way was taunted. West Park Toll Way beginning at 7:00 in the morning till about 10:00 in the morning is gridlocked every morning, except weekends. And outbound, in the afternoon, beginning from 2:00, you go about 5 or 6 miles per hour to get down West Park Toll Way.

We have Beechnut, which is gridlocked, Bissonett almost at gridlock, and Bellaire sometimes is passable. These streets cannot handle any more traffic.

We have attempted, through the city council and through Harris County to remedy these situations and these solutions. It will take a lot of work. But adding this much to our basis would definitely reduce the quality of life that we try to establish here.

And so we ask that the TDHCA not issue the bonds pending further study, until these infrastructure problems can be properly addressed and resolved.

The other thing was, there was taunting about parks. Alief is park poor. There are about seven total parks. And they serve a population of 118,000 people. And the proposed parks -- and the speaker never did address -- how many acres -- 5 or 6 acres of parkland are they going to put in within the complex which is necessary for this many people.

Thank you for your attendance.

MS. MORALES: Thank you. Next I have Donald Ridenour. And after that I have Steve Fowler, if you want to get ready.

MR. RIDENOUR: My name's Don Ridenour. I am a Commissioner on the ESD 100, Emergency Services District 100. I'm here to oppose the Parkwest development. I cannot say a whole lot more that the people already have said here, but I would like to ask you maybe a question.

It appears you've already laid almost 1,000 foot of six- or eight-inch water line going to that property right now. It appears like this is a slam dunk already, without all this opposition that you're listening to.

I'd like to have that -- the answer to that question. Same as Mr. Ellis'. Thank you.

MS. MORALES: Steve Fowler.

MR. FOWLER: Yes, ma'am. My name is Steve Fowler. I'm the Fire Chief with Community Volunteer Fire Department.

Community Volunteer Fire Department's been in existence about 30 years. We serve an estimated population base of about 120,000 people.

Our area includes portions of Harris and Fort Bend County. Our mission is simple: we provide fire suppression, rescue, and emergency medical services.

In looking at the visual presented tonight on the screen and handed out, there were some 12 projects that were listed as other TDHCA projects in our area. One half of these, perhaps seven soon, are listed in the fire protection district that I represent. These are, in our vernacular, the "frequent flyer" points.

These are part of the reason West Houston Medical Center has them hanging from the rafters, and we're taking them there, along with the City of Houston Fire Department.

Quite often, this hospital is on diversion. Diversion is a simple term that means, Please bring us no one else. We're full.

Too many times we pick up folks that are in serious medical crisis through our EMS program. These people don't have the additional time to go to Methodist Sugar Land or to Memorial Southwest. We have no choice but take them into West Houston Medical Center.

This situation is growing seriously more unsafe by the moment. My question is, When is enough, enough?

There is no comparison between the City of Houston Fire Department. It's the third busiest fire department in America, the fourth largest in the United States.

I noticed that the city of Houston has 38.13 units per square mile. The Alief area of which we have half of these, slightly over if perhaps we see another one, is going to have something greater than perhaps 60 percent -- or 60 units per square mile.

I think we've done our part. I'm speaking for every member of this fire department, asking people to please seriously consider sharing the wealth.

MS. MORALES: Next I have Kim Winans, and after that Jean-Marie Jones.

MS. WINANS: Hi, I'm Kim Winans, the Principal of Rees Elementary School, and I, too, am here to voice my opposition to this project. But my opposition and my responsibility is to the education of elementary-aged children, and from all the points I've heard this evening and notes I've taken beyond that which I came this evening, suggest to me that in looking at what's best for children in the long run, not only the housing that they could live in but the future of their education, it does not appear to me that this would be in their best interest.

The Alief Independent School District has a motto that we all share. I'm kind of surprised Dr. Stoerner didn't share it with you. I didn't know he went public without sharing it.

But that is, "Caring for students today, preparing them for tomorrow." And I honor the effort of what you all intend by providing affordable housing. That's a great step. Ours is to give them the education that will provide them a great tomorrow. And I'm not sure that the issue of the saturation we've heard repeatedly this evening is suggestive of the great tomorrow that we want to provide.

Another thing that we take a lot of pride in as Alief educators is the diverse population we serve. And when we talk about diversity, we are -- maybe once upon a time we were talking about racial diversity, ethnic diversity, and certainly socioeconomic diversity.

One of the best predictors of students' success is looking at socioeconomic issues, and unfortunately, in that picture, low socioeconomic populations tend to be the populations that have the most difficulty in the educational process.

If you look at the history of educational evolution in our country, and if you look at the issue of integration and segregation, then again, once upon a time, I think people would view that as a racial issue, but currently the much more important issue is the socioeconomic issue. Again, you want to figure out where your exemplary schools are, look at the socioeconomics. You want to look at where schools are struggling, look again at the socioeconomics.

I'm very proud of Rees Elementary. We're a Recognized campus, and in the state of Texas, that's something that we should be proud of.

We are now serving the students from City Parc I and City Parc II, and maintain that kind of status.

I would add the fact that any extra support services that are given to our children are given because of the benefits from the Alief Independent School District. We do not have -- we're not seeing any type of tutorial programs coming out of these apartment complexes.

So the performance that we are seeing from our children is very largely from the performance of the professional staff that we have at Rees, and I commend them in all that they do day in and day out.

But I'm very concerned with oversaturating that population with children from -- who are in need of affordable housing.

We're currently over capacity, so obviously the picture I get is, Where will these children go? And we don't have to talk facilities issues any more, so I wanted to stick primarily to my concern that can we possibly provide the education that's necessary, and we want to maintain an integrated community and the benefits that an integrated community provides, which a third affordable-housing complex going to one elementary school unlikely can provide.

So I appreciate the issues that have been brought forward and as many in this room I think that possibly all of us in this room are out for the better of all human beings. We probably fundamentally have the same goal in mind, but I think if yours is to look at providing housing, ours is to provide that future that can only be earned through education. I don't think it can be achieved by putting this project in the location you're suggesting.

Thank you.

MS. MORALES: Next we have Jean-Marie Jones, and after that Walter, and I'm sorry but I cannot read your last name.

MR. JACKSON: Jackson.

MS. MORALES: Jackson, okay.

MS. JONES: Hi, I'm Jean-Marie Jones. I'm the Property Manager for City Parc I and City Parc II. I've been in property management for close to 30 years -- I guess that tells my age -- both in Las Vegas, Nevada, and here in Houston.

I don't think in all of my born days have I ever seen as many children that get off of the school buses in all my life.

I personally don't know how any more children can move into this area, number one, and number two, I don't know how the area can afford another affordable housing tax-credit property, simply because our occupancy is going down daily.

And as the children go back to New Orleans, and the only type of walk-ins we're getting off the street right now are basically our Section 8 people, which are wonderful, because the rent is definitely paid, and we are having a considerable amount of problems with our children right now.

We've had to hire a full-time sheriff just to keep them out of our stairways, our walkways, keep them busy. We do have problems with keeping the kids off the fences and in other people's swimming pools.

We're going to be offering summer programs for them this summer, but that doesn't keep them occupied 24 hours a day.

I oppose this.

MS. MORALES: Walter Jackson, and after that Rhonda Austin.

MR. JACKSON: Good evening, I'm Walter Jackson, and I'm the Principal of Jack Albright Middle School.

And I'd first like to say that I certainly echo the sentiments of my colleagues this evening.

Our motto at Albright Middle School is, "Failure is not an option." And I'd like to just start out by saying first of all Albright has undergone a major population explosion over the past few years.

Historically our fall enrollment has been larger than our spring enrollment, and this is probably due to our high mobility rate.

However, over the past few years, our August enrollment has approximately been 1,300 plus students. This last school year our numbers increased to nearly 1,400 students, and this is of course due to hurricanes Katrina and Rita evacuees coming in.

Albright currently serves the Mission Bend subdivision and several other neighborhoods. In addition to these homes, Albright receives students from City Parc I, City Parc II, and Matthew Ridge. And I believe all of these are subsidized housing apartments.

Frankly speaking, our campus just cannot safely accommodate additional students at this time. Our campus is safe, but it is certainly crowded.

This past year, in an effort to make sure that all 1,350 plus students have ample time to eat lunch, we increased our number of lunch periods from six to seven lunch periods. Our lunch periods began at 10:12 and ran through 1:00.

We at Albright pride ourselves with serving the students of our beloved community. Educating students certainly is our number one priority. Our staff is dedicated to ensuring that all students receive an exemplary education on our campus, and the successes we've achieved do not come easy.

Operating and maintaining an effective school is a demanding and certainly a daunting task. It takes a dedicated staff, which we have. Dedicated parents, we have. A dedicated community, we certainly have, that is committed to helping us to achieve this excellence at all levels.

Research studies have shown that high student enrollment and large class sizes do not help to promote high student achievement.

As I started out saying, Failure is not an option is our school motto, but you have an option. We respectfully oppose your building this apartment complex.

MS. MORALES: Rhonda Austin, and after that I have Bertram Garner.

MS. AUSTIN: Good evening, I'm Rhonda Austin, President of the Homeowners' Association for the Clayton Woods community. I would like to put on record that we do oppose the development of this project.

All of the folks who have gone before me have voiced all of our concerns quite well.

Being a parent, I can definitely empathize with the instructors and the educators here. We don't want to have any of our children left behind as a result, and education is a very high priority in this area.

So we would like to go on record that we oppose.

Thank you.

MS. MORALES: Thank you. Bertram Garner? Are you still? Okay. And after that, Michelle Luster.

MR. GARNER: All right. My name is Bertram Garner. I'm the Vice-President of Clayton Woods subdivision, and I also would like to go on record as opposing the project.

Again, I'm glad to see that the school board come out to give us numbers on why we really need not build this complex, and hopefully, you know, you have a listening ear to what we're trying to say, and have not made a decision at this point to do this, so again, I'd like to again say that we're opposed to it, that we don't want to have this here.

Thank you.

MS. MORALES: Thank you. And last is Michelle Luster.

MS. LUSTER: Hi, good evening. I am a teacher in Alief ISD, but I'm also a parent and homeowner, and I'm a member of the Wingate Homeowners' Association Board of Directors, and at this time I would like to let you know that we do oppose the building of this complex.

We are directly across from City Parc I and II at this time, and we are the communities that are suffering from the children coming over, like the property management spoke earlier saying that they were trying to -- having problems, having sheriffs get them out of our community.

We're an under -- how do I say -- we have below funding to help with that project of getting them out. We are in Alief. We are not in Houston. So we suffer a double whammy because we're in Harris County. We don't get HPD assistance for that.

Our children are suffering at these schools that are over, you know, crowded. Even though they're fantastic schools. I work -- I'm honored to work under Dr. Jackson at Albright, and I know every day what they go through.

But our homeowners' association is opposed to this because we do not foresee our community continuing to increase and be a rich, living environment when we're constantly fighting the things that come, unfortunately, sometimes with underpriviledged or low-income housing, and, again, we are opposed to this.

Thank you.

MS. MORALES: Thank you.

Are there any other individuals here who would like to speak and make public comment?

(No response.)

MS. MORALES: Okay, with that being said, I would like to adjourn the public hearing, and the time is now 7:34.

It will be at this point that any questions that were raised, I was keeping a list and as it relates to TDHCA and our programs I will answer those questions, and I have also advised that the -- that Mr. Cash keep a record of any questions as it relates to the development, and he will answer those questions.

First of all, as it relates to concentration issues, that there were issues raised with several other affordable housing developments located in close proximity to this proposed one.

One of the policies that TDHCA has is what's called a one-mile, three-year rule. What that means is that if an applicant is proposing a particular project that is located within one mile of another tax credit property, that was awarded tax credits within the last three years, that applicant is required to contact the local municipality to get what is called a resolution.

Again, that's the applicant's responsibility. If that resolution is not obtained, then under the guidelines of the tax credit program, he cannot proceed.

So if any of those proposed developments were -- did receive an allocation of tax credits within three years, then that is one of the requirements that the applicant will have to meet.

Also as it relates to concentration issues, I can tell you that specifically in the Houston area, that is something that our Board is very well aware of.

One of the things that we do is in our board package that we present to the Board each month with every proposed application that we get, we actually map out where that development is, and identify what local housing developments are located within that area.

So the Board does know what the concentration is like, surrounding this particular project.

Another question that was asked is as it relates to the timing, and not, I guess, not having enough time to meet with the developer and how this whole process is laid out.

The way the Private Activity Bond Program works is it is actually governed by the Texas Bond Review Board. They're the ones that actually administer our program.

One of the requirements, or the way the program works, is a reservation of bonds is issued, and from the date that that reservation gets issued, that developer has 150 days to close on those bonds.

What we do is, once the applicant, once that reservation gets issued is when the clock starts ticking. Once they submit an application to us is when we proceed to have the public hearings.

So we're in, right now, that 150-day window.

In terms of, you know, one of the things that we do is we do encourage, you know, each developer to meet with any neighborhood associations in the area. We encourage them to meet with all of the local elected officials. We encourage them to meet with the school district. But keep in mind that we do not determine that time line. It's their responsibility to get the ball rolling and do some outreach and get the local communities involved.

But in terms of a timing, you know, we have that 150-day time period -- the applicant does -- in which to close.

And so that's why we're having the public hearing at this particular time and not in the future or in the past.

In terms of another question that was raised is encouraging acquisition and rehabilitation, namely, you know, you have several other properties within the area that are, you know, 30 years old, and you want to see those rehabilitated.

I can tell you that that is a concern of the Board as well. I have been at board meetings where they have -- our board members have put the development community on notice in the Houston area, as well as in the Dallas area, because they are aware of the concentration issues, that, you know, why not go ahead and fix what is already out there. I can tell you that that is a concern of theirs.

Keep in mind that TDHCA does not select these sites. We do not tell the developers where to go. We do not, you know, we do not have a say in any of that. They're the ones who present the applications to us, and looking at what they're looking at building, whether it's new construction or acquisition and rehab.

But I can tell you that that is a concern that our board has stated numerous times, as it relates to concentration issues, and putting more affordable housing on the ground.

Another question that was raised has to do with the crime rate. We also, when conducting these public hearings, we also get concerns about property values, crime rates, how it relates to the community, and stress on the school districts.

One of the things that I can do is just point you to our web site and there is a link of neighborhood resources, and there are actually studies that have been commissioned that actually address those concerns, namely how does affordable housing affect property values? How does affordable housing in a particular area affect crime?

I will tell you that those studies are not, in any way, they do not in any way have anything to do, or they're not affiliated with TDHCA. They're studies that were done by colleges and universities that we have just researched and put on our web site for the community use.

Again, TDHCA is not involved in them, they're just studies that we found, so you're more than welcome to access that, and I'll be more than happy to walk you through our web site. Some of it can be kind of confusing if any of you would like to know specifically where those are.

As far as the criminal background checks, I will let Mr. Cash acknowledge it: It's the developer's responsibility to set forth whatever policy he's going to have as it relates to criminal background checks and credit history and paying and stuff like that. That's not a TDHCA policy, and that is merely the responsibility of the applicant.

As far as Section 8, yes the handout does say that these are not Section 8 properties. When we say, "Section 8 properties," what we are referring to are properties that are owned and operated by HUD, by the federal government. Again, I would like to reiterate that these are not HUD properties. These are properties that are privately owned, privately managed.

With any affordable housing development you can have individuals with Section 8 vouchers live there. That is not something that is specific to affordable housing developments. If you have a market-rate property, you can also have someone with a Section 8 voucher show up and want to rent at a market-rate property. And it would be against Fair Housing Law to deny that person the right to live there.

So with affordable housing developments, yes, you can have Section 8 vouchers there, but it is not a Section 8 property, because HUD is not involved in the owning or the management of that particular property.

One of the other concerns that was raised is, Is this a done deal? No, it is not a done deal. The Board, the TDHCA Board is scheduled to meet to consider this transaction on July 13. Keep in mind that any comments that you have made here tonight, we have a court reporter here, and she is recording every comment that's made. This transcript, in its entirety, will be presented to our Board. It will be included in their board book, which is posted to our web site one week prior to the board meeting, and that is something that all of you have access to.

And again, if you're interested, I will be more than happy if you call me up and want me to point you in that direction as to how you can access that. I will be more than happy to do that.

Again, the transcript in its entirety is presented to the Board, and I can tell you that we do have board members who read the transcripts, if that's a concern that you have. I can tell you that they actually do.

So any questions that you have, or any of the comments that were raised tonight, you know, please do rest assured that they are being received by our TDHCA Board.

Again, our Board is scheduled to meet to consider this transaction on July 30. The Board has a number of factors that they can use in which to base their decision. As far as staff is concerned, once we receive an application, the rules for staff state that our recommendation to our Board can only be based on financial feasibility.

So our Underwriting Department, once -- in our Division we do our threshold review and make sure that all of the rules as it relates to threshold have been met. We will forward the application through our Underwriting Division. They will take apart that application, they will analyze the market study, the environmental that was done, and they will determine whether or not that particular application is financially feasible.

If it is financially feasible, then a recommendation will be made to our Board. Please keep in mind that our Board can uphold that recommendation or they can go against it.

So, in our Qualified Allocation Plan, which is what we call our QAP, and that's also available on our web site, and it specifically outlines all of the different criteria that our Board can use in making their decision.

And I can tell you that community input, support and opposition, is one of those things.

I cannot tell you the extent to which your opposition will make a difference, and the fact that all of you came here tonight to oppose it, I cannot say that the Board will see this particular application your way and they will deny this application too.

I cannot speak for our Board. And I cannot say, you know, what decision that they will make, because they make decisions, you know, however they see fit.

All I can tell you is that from staff's perspective, what we do, and the fact that we recommend based solely on financial feasibility, but the Board at its discretion can take into account a whole other list of factors, one of which would include opposition.

So again, the transcript is going to be included, there will also be a list of all of the various letters that we did receive from local elected officials and also state representatives as well.

One of the other questions that was raised has to do with at this point the development is going to be paying property taxes, and in the future can that be switched? And can there be a property tax abatement associated with it?

The way that the bond program works is with TDHCA as the issuer of these bonds, and again the way the program is administered through the Texas Bond Review Board, we -- the particular application does not only have to get approval from the TDHCA Board, but also has to get approval from the Bond Review Board, as well.

So what will happen is after our Board votes on the particular application, and it goes to the bond review board, we have to tell the bond review board whether or not there is a property tax abatement associated with this transaction.

If we present the application to them that there is not a property tax abatement, they approve the application, we go on down the road, if the applicant decides that he wants to now do a property tax abatement, he has to come back through us again, and not only back through the TDHCA Board, but also has to go back through the bond review board as well.

So it's not a switch that you can just automatically do one day just because you feel like it, so to speak.

So as far as the application process, we present it, our Board approves it or denies it based on what is presented at that time, and that is everything that has to take place at that time. You just can't decide to switch certain things around without it going through the necessary channels for review one more time.

As far as the action on the property and the water line issue, I can tell you that with every development, they're -- if it's a new construction deal or even if it's an acquisition and rehab, there cannot be any action taken on that property until our Board votes.

So no action can be taken on that property until our Board makes its decision.

So I guess, are there any other questions as it relates to TDHCA in any of its programs that I did not answer?

Yes, sir.

MALE VOICE: Who is the Board? Are they elected, or are they appointed?

MS. MORALES: We have a six-member Board, and all of our Board members are appointed by the Governor, and they are confirmed by the Senate. And they come from various areas throughout the state. There are two Board members who are from the Houston area. There are two Board members who are from the Dallas area. There is one Board member who is a mayor down in Mission, Texas, down in the Valley, and there is one Board member who is out of the Del Rio area. So they come from all across the state.

MALE VOICE: [inaudible]

MS. MORALES: The TDHCA Board meeting for July 13 is going to be held in Austin, because our Board members, we typically have all of Board meetings in Austin, because all of our Board members are located throughout the state. And again, also keep in mind that the Board member -- the Board is a voluntary board. They have full-time jobs outside of their position on the TDHCA Board.

So the Board meeting for July 13 is scheduled to be held in Austin, and again, one week prior to the proposed Board meeting you can access our web site to get not only the Board materials, if you so choose to look through them, but also the agenda will be posted, and that is where you can get specific information on where exactly the Board meeting will be.

For the most part, they are normally held at the Capitol Building, but as far as the exact time, they typically start in the morning, but again you would have to access the web site to get the agenda to find out the exact time.

And for those of you who would like to address our Board, we welcome that. You're more than welcome to do so. There will be a time at the beginning of the Board meetings for you to address the Board, or you can wait until this particular agenda item comes up, and you can address the Board at that time.

So the Board meetings are open to the public.

Any other questions?

Yes, sir.

MALE VOICE: Do they have e-mail addresses [inaudible]?

MS. MORALES: The Board members?

MALE VOICE: Yes.

MS. MORALES: That information is available on our web site. If you want to give me a call, I will be more than happy to walk you through it, or you can just do a search on our web site for "TDHCA Governing Board," and it gives you their contact information.

Yes, sir.

MALE VOICE: [inaudible] explain [inaudible] that there have been one or two projects approved by the Board that they bypassed the public hearing and a lot of the other items. Is that possible, or [inaudible]

MS. MORALES: As far as having --

MALE VOICE: We have letters from your office saying that there was going to be all this, and there was going to be a public hearing and everything else. Then the next thing we knew, the Board gave its approval for the project before anything happened, so [inaudible].

MS. MORALES: The question was as it relates to public hearings, and those that are required for affordable housing developments.

When TDHCA -- as an issuer of bonds, you not only have, as Mr. Kendrick alluded to earlier, you've got local housing finance corporations, like your Harris County Housing Finance Corporation or City of Houston HFC, those entities are considered issuers of bonds, as well as TDHCA.

When TDHCA is the issuer of those bonds, then it is our responsibility to go out and conduct the public hearing. So that's why we're here tonight, because the applicant elected to go through TDHCA.

If the applicant went through your local housing finance corporations, it is their responsibility to conduct the public hearing. So that's why -- I can't tell you what their --

MALE VOICE: [inaudible]

MS. MORALES: Right. And so I can't tell you what their notification process is, how they notify when that public hearing will be.

Yes, sir.

MALE VOICE: If y'all turn them down, can they go somewhere else and get approval for bonds somewhere else then?

MS. MORALES: The question is if we turn the application down, can they go someplace else?

If we deny the application, they can go through a local housing finance corporation to issue those bonds.

One of the things that I would kind of like do a caveat to that is, some of it has to do with the reasons why the Board would deny that particular application. If the applicant decides to go through us, they submit the application, the Board reviews the application and denies them, let's say hypothetically for concentration issues.

If he then turns around and goes through a local housing finance corporation to issue those bonds, we would then have record that he previously went through TDHCA, and that application was denied.

What we would do is in our write-up to the Board, we would tell the Board, This application was previously submitted on such-and-such date with TDHCA issuing the bonds. The Board denied the application due to X, Y, Z. Then if the application goes to the Board again, the Board would know it already went through us, we turned it down because of this.

So at that point I cannot tell you if the Board would approve it or deny it. But they would have knowledge of the fact that it was previously submitted.

MALE VOICE: But the long and short of it is that they can go [inaudible].

MS. MORALES: They do have the option, because we -- TDHCA is just one issuer of bonds, so depending, in the Houston area, since this is where the proposed development will be, they've got two options.

Any other questions?

Yes, sir.

MALE VOICE: Next question: The application as it's prepared now, does it [inaudible] prepared with a tax abatement or without a tax abatement?

The second part of my question is, do government agencies require the developer to put up any of their [inaudible] the bond [inaudible] escrow reserve [inaudible] in compliance with the promises that they state that they're going to make, as far as supporting the schools, [inaudible] schools, funds for police, fire, and services to the community? And school programs [inaudible]

MS. MORALES: Okay, the question is as it relates to supporting services and tax abatement.

As it relates to whatever the developer says that he is going to do, if he says he is going to do X, Y, Z, as that relates to supportive services or amenities that will be offered, all of that information goes in what's called a regulatory agreement.

The regulatory agreement outlines whatever their restrictions are that are going to be placed on that property, and that is a recorded document. That is something that the applicant is held to for that compliance period, which is a minimum of 30 years.

So whatever he says he's going to do, he has to do. And if for some reason the applicant -- the way that the tax credit program works is if the applicant is found as being non-compliant to any of those issues, you know, there's several different actions that TDHCA can take so that he is following all of the things that he said he was going to do as it relates to that regulatory agreement.

MALE VOICE: The first part of my question you didn't answer. Is there a tax abatement in this application at this time, or is it being [inaudible] without tax abatement?

MS. MORALES: There is not a tax abatement associated with this. This property will be paying full property taxes.

Any other questions?

MALE VOICE: [inaudible] Is the property already purchased, or is it a contingency [inaudible] purchase it on approval of bonds?

MS. MORALES: I will have to defer that to the applicant.

Okay, with that I'm going to turn it over to Mr. Ken Cash, who will answer other questions that you had as it relates to the specific development.

MR. CASH: I'll try to answer the questions in the order that they were given.

MALE VOICE: Can you move the microphone closer to your mouth? It's hard to hear you.

MR. CASH: I'm going to try to answer your questions in the order that they were given. If I miss something, then feel free to ask again.

Just first of all I'd like to say that our mission is to provide new, high-quality housing to improve the lives of Texans.

I don't believe that the demand out there is currently for poorly maintained, poorly built housing.

This project, in addition to anticipating paying a high amount of property taxes each year, has vowed to put up a very significant amount of money, both in operating reserves, reserves for maintenance, and the initial construction costs are much higher than the other projects that you mentioned.

It is our intent to build a very high-quality project, and to maintain it that way. We're not proposing to build a project that's built and looks and appears like a high-end, market rate project, with the intention of just letting it become rundown.

I do agree with the -- some of the

Superintendent's comments regarding the existing projects in the area. I think that some of the existing projects in the area have not been maintained to the standards, and I think that they -- that that should be addressed. And I think that the property managers that were here speaking against our project should possibly speak to the people involved with their project about increasing those maintenance standards.

In answering one of the questions regarding the pre-screening for this particular project, we will have the highest standards in pre-screening of the residents that we are allowed to by law. We will screen for backgrounds, for job, income verification, and all the different verifications that Mr. Clark mentioned earlier, and that I mentioned previously.

It's -- this property, to answer your question, is supposed to be paying full property taxes, and there is no route that I know of that the Harris County agencies will permit to not pay the taxes once you have agreed to do so.

We're also charging a substantial amount of rent, which allows us to do that, and we are allowing the residents to have a high income. $40,000 plus the first year is not exactly the lowest level of income that an apartment project could require.

There is a possibility, after a period of time agreed to with the Texas Department of Housing, and I believe that period starts in about 15 years, where the property can be upgraded. It can be converted into a market rate type project, where you can charge higher rents, but you'll -- it'll have to be maintained and managed and run according to the policies and procedures for the first 15 years.

I will also mention that in regards to some of the comments made previously that the Texas Department of Housing and the Harris County Housing Authority is currently, in the future also, placing a higher emphasis on renovation of projects, rather than new construction.

I think that in the near future that that is probably going to be what the new focus and emphasis is going to be placed on.

In regards to the other developments not following through with some of the things that they had pledged to do, our project is promising to and will provide a business center in the community center, a 4,300-square-foot community center with computers, a learning center for training for younger children.

In regards to the question regarding what type of park facilities we will have within the complex, there will be two playgrounds, there will be picnic areas, there will be a pavilion, and other amenities within our own property.

Because it's over 14 acres, there's actually a fairly low density.

The utilities that were run through the site don't have anything to do with this project. They were probably run for another purpose for another project.

In regards to some of the issues mentioned about the schools and the overcrowding issues, I believe that the taxes that we'll be paying will be beneficial to the school district, to help build new facilities.

We will take all of these comments that you've made, and we will present them also to the other members of the partnership, and we will take them into consideration as well.

I would like to mention that in a recent article in the Houston Chronicle that according to 2003 research, more than 3,500 new homes and 3,000 new apartment units were expected to be built in the Alief school district by 2006. That's a total of 6,500 new apartments and homes being built in the school district, and which is part of the overall projection that's being made for Harris County, and the entire Houston area is expanding.

So I don't want to place too much emphasis on this particular survey; however, I just did want to mention that the projections are that there is quite a bit of current expansion going on within the Alief school district, both single family and multifamily.

I'd like to have Mr. Clark answer a few of the questions also.

MR. CLARK: Just -- there were three quick questions I think that specific answers would be helpful to.

Regarding the screening questions, there are some people here from the school district, I think it's obvious that you know that juvenile records are very difficult to come by, and we're not able to do any kind of a criminal background check on juveniles.

We do try to foster a relationship with the local sheriff's or police departments to convey information which they can do and will do if you develop a good enough relationship with them.

The ongoing criminal background checks I think was the other question. We do do the initial checks when people move in. We do not follow up at renewal time with additional -- with doing those checks again. That's actually a very interesting idea in a difficult area, because there's no reason we couldn't do that. And probably, I'll probably take that back to my office and implement that idea.

The Section 8 question I think was answered. I've never seen, in my 20 years in this business I've never seen a project convert to a Section 8 project under the tax credit program.

And then the last question about management change, very true. Typically management changes happen at a change in the ownership of the property, a transaction point, but they can also happen at any point in time that the ownership becomes unhappy with the management.

I can tell you that there are multiple, probably half a dozen, very solid affordable housing management companies, including the one I think, you know, the young lady who testified works for, who can do a very good job and can provide the service that's needed to be provided.

I think those are the three specific responses I can be of assistance on.

Yes, sir?

MALE VOICE: You said your company manages a number of these types of projects --

MR. CLARK: Yes, sir.

MALE VOICE: -- in the Harris County area?

MR. CLARK: Yes, sir.

MALE VOICE: How many of them are in the Alief school district?

MR. CLARK: We actually -- the only one I listed that I noticed that was up there is we manage the Matthew Ridge project.

MALE VOICE: You have Matthew Ridge?

MR. CLARK: Yes, sir.

MALE VOICE: Okay.

MR. STOERNER: Can I respond to the tax question?

MS. MORALES: If you're going to do that, I would just ask that you come up to the microphone, so the court reporter can pick it up.

MR. STOERNER: Because a lot of the questions relate to property taxes, and I think we need to make sure everyone understands that in the Alief school district we spend over $6,000 per child operating cost.

This complex is going to contribute $200,000. Do the math. If we get more than 30 kids, we are going to be losing money.

That does not include the construction of facilities, of building a $15 million school. So we appreciate your paying a tax, but to give the idea that you're paying for all the education services of those kids is not true.

MS. MORALES: Does anyone have any other questions?

FEMALE VOICE: I guess I'm somewhat pleased to hear that they are going to be paying the taxes, and we understand the cost to educate these students, but we've already learned that there's overcrowding, we've already learned that there's a problem as far as all the portable buildings that are on the site, and I guess my question is, Yes, you're going pay the taxes, but how are we going to get schools built fast enough to accommodate these kids? You know, I mean, we can only do so much as far as putting so many in portable buildings. There's only so much space on campus.

MS. MORALES: That's not something that TDHCA controls, is all I can say. When it comes to putting the affordable housing developments on the ground, one of the things that the Department requires is what's called a consistency with the consolidated plan.

It's the applicant's responsibility to find out what that consolidated plan is as it relates to the growth of the city and the infrastructure and stuff like that. It's there -- that's a threshold requirement that they need to obtain that document saying that the proposed development fits within the guidelines and meets the requirements of that consolidated plan.

FEMALE VOICE: But I pay my taxes also, so.

MS. MORALES: I'm sorry. Yes, sir.

MR. WOODS: Making another comment that what I addressed early on about --

MS. MORALES: Do you mind getting up to the microphone?

MR. WOODS: Government Code 2306, talking about the TDHCA, the purpose of the TDHCA, and I hope you bring this back to your Board, is 1) the purpose of the Department is to assist local governments in providing essential public services for their residents in overcoming financial, social, and environmental problems.

That's number one on the list. And with what you've heard today, if this complex is approved, we don't -- we haven't had this help. So the infrastructure's not there.

So please bring that up, because that's number one on the purpose of TDHCA.

MS. MORALES: In response to that, I can tell you that again the transcript in its entirety will be presented to our Board, and a summary of comments will also be submitted to them.

Yes, sir.

MALE VOICE: Ma'am, I'm not hearing well tonight. I missed the answer to the question that prompted the gentleman to get up to begin with. Did they buy the property? Is it paid for?

MS. MORALES: The question is whether or not the property has been purchased, and again I would defer that to the applicant.

MALE VOICE: [inaudible]

MR. CASH: It's a contingency on the financing.

MALE VOICE: Okay, so [inaudible]

MALE VOICE: That's a "No," then. Is that correct?

MR. CASH: Yes. Correct.

MS. MORALES: So the answer to the question is, No, the property has not been purchased.

MALE VOICE: [inaudible]

MS. MORALES: One of the requirements of the tax credit program is the applicant has to have site control on a particular property until our Board takes action, so they have to have -- the site control has to be current, until our Board takes action.

MALE VOICE: [inaudible]

MS. MORALES: That is correct.

Does anyone have any other questions?

Yes, sir.

MALE VOICE: I've listened to a great amount of the state representatives and school teachers and principals, authorities I see here tonight, who are all respected in our community, well spoken, and I've taken notes, and I haven't heard not one endorsement for this project yet, and I hope the developer is listening, because you don't hear our elected officials, our state representatives and our principals and the community at large in support of this project.

MS. MORALES: Okay, the statement was that apparently there is a great deal of opposition with this particular property, and I can tell you again that our Board will be aware of exactly who is opposing this property as it relates to State Representative Vo and other local elected officials.

Also I will take back with them the number of individuals who were here, and that is also why I wanted to stress that all of you sign in. On the back it indicates whether you support or oppose this particular property, and then that way I can get a clear indication as to exactly how many people were opposed.

Does anyone have any other questions?

Yes, sir.

MALE VOICE: One last question I'll make. How often does the Board turn down an application?

MS. MORALES: You know, the Board approves -- or, I'm sorry, the Board votes on approximately 300 applications a year, and that's not only with the bond program, as it relates to the 4 percent tax credit, but also our 9 percent tax credit, which is our competitive program.

You've got approximately 300 applications there. I can't tell you off the top of my head how many they approved versus how many they denied. I can tell you that as far as what's happened recently, we just had a case at our March Board meeting where the Board did deny that particular application. The reason that was stated was because there was a concentration issue, and that particular project was located in the Houston area.

So I can't give you a definitive number, that they denied X number of applications. I can tell you that they look at over 300 applications each year.

They, you know, make their decisions based on different criteria, so.

Does anyone have any other questions?

(No response.)

MS. MORALES: Okay. I would like to thank everyone for coming out this evening. Again, please do rest assured that your comments are being recorded, and you are encouraged to submit written comment to the TDHCA as well.

Thank you.

(Whereupon, at 8:12 p.m., the hearing was concluded.)

P.O. Box 13941
Austin, TX 78711-3941 Via: Facsimile (512) 475-0764

Dear Ms. Meyer:

Please accept the following comments detailing my opposition to the issuance of tax bonds for the proposed affordable apartment development known as Parkwest Apartments.

As stated in my previous letter on June 30, 2006 and in my testimony at the hearing in July, I am opposing this project mainly because of the existing high concentration of both market rate and Tax Credit apartment units in this area.

According to information from the Houston Apartment Association and O'Connor & Associates, there are in Alief:

- 53,218 apartment units
- 1,454 units per square mile
- 1/3 of the apartment projects have occupancy of less than 90%
- 2 TDHCA projects close to the proposed Parkwest project have occupancy rates of 74% and 79% as of 8/8/2006
- 5100 units exist within close proximity of Parkwest (approximately 1½ mile radius)

While driving in this area recently, my staff has observed that many of the projects have promotional signs on them advertising inducements for prospective new tenants.

Below is the information on TDHCA units in Alief.

COMPARISON OF UNITS PER SQUARE MILE

County/Area	Square Miles	TDHCA LITHC Units	Units per Square Mile

City of Houston	579	28496	49.22

Source quickfacts.census.gov Source TDHCA Property Inventory XLS

For the above reasons and the reasons stated in my first letter, I ask you to deny the issuance of tax exempt mortgage revenue bonds and housing tax credits for the Parkwest Apartments.

I want to also remind you that letters of opposition to this project have been sent from State Senator Kyle Janek, State Senator Rodney Ellis and County Commissioner Steve Radack. In addition there has been testimony from the Volunteer Fire Department that serves the area about the burden they already face from the high concentration of apartment units in the area.

Thank you very much in advance for your attention and consideration.

Please do not hesitate to contact me if I can provide further information or be of assistance in any manner.

Sincerely,

Hubert Vo

cc: TDHCA Board Members

Teresa Morales

From: Blue, Lynn (Commissioner Pct. 3) [LBlue@itc.co.harris.tx.us]

Sent: Tuesday, July 11, 2006 2:15 PM

To: teresa.morales@tdhca.state.tx.us

Cc: Kendrick, Bob (Commissioner Pct. 3)

Subject: Commissioner Radack's Opposition to Houston Parkwest Project

Ms. Morales:

Please convey the following message from Commissioner Radack to TDHCA Board President Elizabeth Anderson and the other board members:

Ms. Elizabeth "Beth" Anderson, President, and all other TDHCA Board members:

On May 31st, I sent my Administrative Superintendent, Dr. Robert Kendrick, to the TDHCA public hearing on the possible issuance of tax-exempt multifamily residential rental development revenue bonds to Houston 3601 Parkwest Apartments, LP for their proposed project in the 14601 block of Parkwest Central Drive in Harris County Precinct 3. He conveyed my strong opposition to this project and I understand that a summary of the presentation he made on my behalf is included in the packet you will have before you when you vote on the project. Prior to the hearing, Dr. Kendrick conducted a site visit to the proposed location, conducted a review of similar projects in the Alief area, and communicated that information to TDHCA.

In case the summary you were provided did not provide sufficient detail, I want to personally convey my opposition via this e-mail. I oppose issuance of tax-exempt revenue bonds for this particular project for the following reasons:

* The project location violates longstanding federal, state, and county public policies and principles concerning concentration of low-to-moderate income housing in one area. There are already 14 LMI projects in the Alief area. While many of these projects are outside traditional "mile and year" bars to funding, the concentration of such projects in one area and the resultant adverse impact on the community cannot be ignored.

* Existing projects have vacancies which indicate there is no documented need for LMI multifamily housing in the Alief area. The developer offered no credible, local area specific data that disputed this.

* Using government incentives to construct a project under the above circumstances will undercut government's ability to obtain community support and participation in cases where such projects may actually be warranted.

I support the efforts of federal, state, and local agencies to encourage affordable housing *where appropriate*. <u>However</u>, I oppose TDHCA bond funding for this particular project and project site.

Sincerely,

Steve Radack
Commissioner
Harris County Precinct 3

Michael Gerber, Executive Director
TDHCA
P.O. Box 13941
Austin, TX 78711-3941

Dear Mr. Gerber and TDHCA Board Members,

The purpose of this letter is to voice our concern once again about the Parkwest Apartment Homes project (#060611) that is apparently back on your agenda for August 30, 2006.

I am writing to once again provide more evidence that this project is not needed in our community at this time. We have shown on three occasions that Alief I.S.D. is saturated with affordable housing.

I hope that you will review this valuable information in addition to the data included in your board agenda document. There have been several instances of data provided to you in the past months that demonstrate the flaws in the market study used to initially analyze this project.

- Alief I.S.D. has over 1400 apartment units per square mile
- There are hundreds of affordable units within one mile
- 33% of Alief I.S.D's 211 complexes are less than 90% occupancy
- More affordable housing will continue to damage existing apartment owners trying to reach capacity

Sincerely,

Louis Stoerner

							DERIVED AVAIL UNITS			505.47				

Within the area of the proposed Parkwest Apartment Homes site, a quadrant of Westheimer to Eldridge to the Fort Bend County Line and back to Westheimer, there are 18 complexes with a total of **over 500 units of available units as of early August 2006.** Data was extracted from "O'Connor and Associates Apartment Data" subscription.

We were able to derive the units available by calculating percentage not pre-leased (more conservative than occupancy rate) and multiplying by the total number of units.

If we were to simply use the occupancy rate, there would be significantly more units.

Summer 2006 LOWEST 15 Occupancy Rates of Apartment Complexes within the Alief I.S.D. (3 of which are located within 1 mile of proposed Parkwest site)

				Total Units			53,218									
				Count of Properties			211									

As can be seen by this table, a selection of the lowest 15 occupancy rates of the apartments in ALIEF I.S.D. contains 3 properties within 1 mile of the proposed Parkwest Apartment Homes.

If you select only apartments with 89% or lower occupancy rates, there are 8 complexes within the quadrant of Westheimer to Eldridge to Fort Bend/Harris line.

Summer 2006 Statistics Regarding Apartment Complexes within the Alief I.S.D.

The average occupancy rate of Alief ISD apartments as of summer 2006:	89.67%
The total number of apartment complexes in Alief I.S.D.:	211
The total number of derived available units using pre-lease rate:	4,836
The percentage of complexes with less than 90% occupancy:	33%
The number of complexes with less than 90% occupancy:	70
The total number of apartment units with 36.6 square miles:	53,218
The number of apartment units per square mile in Alief I.S.D.:	1,454

PREPARING STUDENTS FOR TOMORROW — CARING FOR THEM TODAY

June 6, 2006

RECEIVED
JUN 1 3 2006
EXECUTIVE

Michael Gerber, Executive Director
TDHCA
P.O. Box 13941
Austin, TX 78711-3941

Dear Mr. Gerber:

On May 31, 2006, Ms. Teresa Morales from the TDHCA Multifamily Finance Production Division conducted a public hearing at Elsik High school regarding an application for housing tax credit bonds to finance a project called "**Parkwest Apartment Homes**". As president of the Alief Independent School District, I would like to summarize some of our community's concerns about this proposed multifamily project slated for construction in our district at 14601 Parkwest Central Drive and HWY 6.

First, I must state that Alief I.S.D. is not opposed to affordable housing. In fact, our school district and community of 36.6 square miles supports 12 existing TDHCA properties listed on your recent inventory. We realize that the transcripts are voluminous in their entirety and want to share a sampling of comments made at the hearing. You should know that 100% of the speakers from our community were opposed to this project.

1) Texas House of Representatives District 149 - Hubert Vo, representing District 149, spoke against the project due to overcrowding in emergency rooms and hospitals. We have West Houston Medical Center as the chief location for emergency care. EMS services and Fire response infrastructures are taxed to their limits already due to high concentrations of people in a small area. There are not enough clinics as well. He also spoke about overcrowding at the Alief campuses that would enroll students from the proposed complex.
2) Bob Kendrick, representing Harris County Commissioner Steve Raddack, expressed concerns about the excessive concentration of affordable housing complexes in the Alief area. Harris County has adopted a policy that supports evenly distributing housing such as this throughout the county and the city of Houston.
3) Steve Fowler, Fire Chief of the Community Volunteer Fire Department of Alief spoke against the project for similar reasons but stressing the fire department's inability to service this type of complex due to the overburdening of existing fire and ambulance infrastructures.
4) The Management of City Parc 1 and City Parc 2 (TDHCA properties #1459 and #2439) spoke against the project citing plummeting occupancies and the fact that an additional complex within one mile will destroy their business.
5) It was cited many times by community persons that bi-annual inspections of existing properties cannot be occurring since the items of concern brought out by community members still exist on some of these existing complexes built in the last 15 years.
6) Alief I.S.D. would have 56.15 TDHCA low income tax credit units per square mile as opposed to the City of Houston which has 38.13, Harris County which has 14.59 and Fort Bend County which has 1.10. Obviously Alief I.S.D. is the highest concentrated agency/district/municipality in the area.
7) There are 101 TDHCA units available for leasing within one square mile. There are over 350 low income units available in the near vicinity when you compare lease rates to this proposed project.
8) Alief ISD contacted existing apartment complexes and utilized third party resources such as O'Connor and Associates and determined that occupancy rates for apartment complexes in this area are on the decline.
9) Alief I.S.D. does not have the school facilities and does not have the financial means to construct the facilities to support such a complex that will yield large numbers of students in the near future.

Board of Trustees • 12302 High Star • Houston, Texas 77072 • 281-498-8110
P.O. Box 68 • Alief, Texas 77411 • www.aliefisd.net

We support your mission statement – "To help Texans achieve an improved quality of life through the development of better communities". However, we hope that you can see that this project will not further that mission statement. In fact, we feel that building another affordable housing complex at this time and in this location will harm our community. Our existing infrastructure cannot support another affordable housing complex at this time. We hope that you find a way to read the transcript and digest the information contained in that document in order to make a sound decision. We further hope that you side with us by rejecting the application for the Parkwest Apartments.

Sincerely,

Sarah Winkler

Sarah Winkler, President
Board of Trustees

TDHCA Q&A - Criteria

- http://www.tdhca.state.tx.us/multifamily/htc/faqs.htm#q1

Q. What evaluation criteria is used to review submitted applications?
A. It is the goal of TDHCA to encourage diversity through broad geographic allocation of tax credits within the state, and to promote maximum utilization of the available tax credit amount. The criteria utilized to realize this goal includes a point based scoring system and an evaluation of the development's:

- cost and financial feasibility;
- geographic location within the state as compared to other developments applying for tax credits;
- impact on the concentration of existing tax credit developments and other affordable housing developments within specific markets and sub-markets;
- site conditions;
- development team experience; and
- consistency with the goal of awarding credits to as many different applicants as possible.

Those applications which are deemed to have a high priority based on the review criteria, are subject to an underwriting review which evaluates the development's projected construction costs and financial feasibility. Applications which pass the underwriting process and are determined to have the highest priority will be presented to TDHCA's Board of Directors for consideration. (Top)

Texas Department of Housing and Community Affairs
Multifamily Finance Production Division
Notification of Submission of Affordable Housing Applications

TEXAS DEPARTMENT OF HOUSING AND COMMUNITY AFFAIRS

MAY 0 1 2006

April 26, 2006 BY:

, Superintendent of the School District
Dr. Louis Stoerner
12302 High Star
Houston, TX 77072

Re: Notification of Affordable Rental Housing Application(s) Proposed in Your District

Dear Dr. Louis Stoerner:

I am writing to provide you with information on one or more rental housing application(s) proposed in the community you represent that has been received by the Texas Department of Housing and Community Affairs for the Private Activity Bond and Housing Tax Credit Programs.

The Department's mission is to help Texans achieve a higher quality of life by building better communities. Through our rental production programs, the Department encourages the new construction or rehabilitation of high-quality multifamily housing, primarily through private developers. These developments benefit Texans in your district by providing qualified families with safe, affordable, quality housing.

This notification is made pursuant to §2306.1114, Texas Government Code, to ensure that you are fully informed of the activity in your area. A development summary for each application in your community as well as relevant data relating to this application is included with this correspondence. The Department would also greatly appreciate receiving your views concerning the need for affordable housing within your district and how the proposed development(s) addresses that need.

The Department respectfully requests your comments concerning the need for affordable housing within your community and how the proposed development(s) addresses that need. Your comments will be considered by the TDHCA Board when making a decision to award funds or tax credits to an application. Please mail any comments you may have to the Multifamily Finance Production Division, P.O. Box 13941, Austin, TX 78711-3941 or send them by facsimile to 512.475.0764 (Attention of Teresa Morales).
1349

If you have any questions or need additional information, please contact Michael Lyttle, Director of the Division of Policy and Public Affairs, at 512.475.4542 or by email at Michael.lyttle@tdhca.state.tx.us.

Sincerely,

Brooke Boston

Brooke Boston
Director, Multifamily Finance Production Division

- Notice from Mr. Cash on 2/2/2006 to Alief ISD
- Alief Issued Letter to TDHCA on 2/22/2006
- Alief Met with Mr. Cash one week later
- Notice from TDHCA on 4/26/2006 (application phase)
- Hearing on May 31, 2006 – 6pm

Alief units includes proposed Parkwest Apartments

Summary

- Planning and District Involvement should begin earlier
- Funding considerations – facilities (local cost, not TDHCA/IRS cost)
- Market is saturated with affordable housing – most of which are TDHCA existing complexes
- Occupancy rates are **proven** to be declining
- **Please consider rescinding the application or not awarding the project**

REAL ESTATE ANALYSIS

BOARD ACTION REQUEST
August 30, 2006

Action Item

Draft Real Estate Analysis Rules and Guidelines (Underwriting, Market Analysis, Appraisal, Environmental Site Assessment, Property Condition Assessment, and Reserve for Replacement Rules and Guidelines).

Required Action

Board approval for publication of the Draft 2007 Underwriting, Market Analysis, Appraisal, Environmental Site Assessment, Property Condition Assessment, and Reserve for Replacement Rules and Guidelines and authorization for the distribution and public hearings on the draft rules concurrent with the Department's uniform hearing schedule. These rules are codified in 10TAC §1.31- 1.37.

Background

The Department conducted workshops and held hearings on a major overhaul of the underwriting rules four years ago and removed them from the QAP. The purpose of the removal from the QAP was to facilitate the application of these rules with all of the Department's multifamily programs. The draft rules being presented today include changes resulting from two main sources of input: public input at roundtable meetings and staff input.

As in the previous year, clarification and restructuring for easier referencing were the main objectives for 2007. Changes made to the underlying rules include: language to define Restricted Market Rent and explain use in the underwriting analysis; language indicating criteria for adjustments to the long term proforma; added criteria to indicate a development is infeasible and not recommended for allocation; and inclusive capture rate conclusions by unit type.

§1.32 Underwriting

Deletion of Text in §1.32 (b) Report Contents
Reason for Change: The deletion will allow more flexibility in revamping the underwriting report based on Board recommendations for the 2007 application cycles.

Proposed §1.32 (d)(1)(A)(ii) Restricted Market Rent
Reason for Change: Comment has been received indicating affordable developments cannot achieve the maximum program rents in some market areas even when the market rents are higher. To account for this phenomenon, the underwriting analysis will also consider restricting projected rent collected per unit at the Restricted Market Rent conclusion of the submitted Market Analysis.

Proposed §1.32 (d)(2)(I) Reserves
Reason for Change: The minimum replacement reserve per unit for new construction developments was increased from \$200 to \$250 for consistency with National Council of State Housing Agencies' Underwriting Recommended Practices.

Proposed §1.32 (d)(4)(D) Acceptable Debt Coverage Ratio Range
Reason for Change: The minimum debt coverage ratio was increased from 1.10 to 1.15 for consistency with National Council of State Housing Agencies' Underwriting Recommended Practices.

Proposed §1.32 (d)(5) Long Term Proforma
Reason for Change: Language was added to allow adjustments over the long term proforma on an annual basis, including: income for operating subsidies, management fees for contracted rates, property taxes for documented assessment methods utilized by the CAD, and reserve for replacement for a lender's proposed schedule as long as the Department's minimum underwriting requirements are met.

Proposed §1.32 (c)(7) Developer Fee
Reason for Change: Clarification was added to support the consistent practice of allocating developer fees between acquisition basis and rehabilitation/new construction basis for tax credit purposes.

Proposed §1.32 (d)(5) Long Term Proforma
Reason for Change: The length of the long term proforma is changed from 30 years to 20 years to more closely reflect common practices in the industry.

Proposed §1.32 (i) Feasibility Conclusion
Reason for Change: Existing language regarding criteria for determination that a development is infeasible and therefore, funding or an allocation cannot be recommended was moved from other subsections to be centralized in one subsection. Also, an additional criterion to determine a development is infeasible was added.

(1) **Inclusive Capture Rate:** The capture rate percentage for developments characterized as rural, elderly or special needs was decreased from 100% to 50% due to flexible demand criteria in §1.33 that allows quantifiable secondary market demand for these developments. Also, capture rate limits based on a unit type by number of bedrooms and rent restriction category were added to account for improper unit mix based on demand factors.

(2) Restricted Market Rent: By considering the Restricted Market Rent conclusion presented by the Market Analyst the development's projected income may be understated. In addition, Restricted Market Rents that are less than program maximums and market rents may indicate the market is oversaturated at the proposed affordability level. A mechanism to avoid development of units at the wrong affordability level for a market area is proposed.

(3) **Initial Feasibility:** The ratio of total expense to income that results in a 30-year proforma indicating negative cashflow and unacceptable debt coverage was determined.

<u>§1.33 Market Analysis</u>

Roundtable discussions revealed market analysts would prefer guidelines for senior developments that are distinct from the general Market Analysis Rules and Guidelines. A working group was formed to address this issue, but no recommendations are made for the 2007 Market Analysis Rules and Guidelines.

Proposed §1.33 (d)(9)(E) and (10)(D) and (10)(E) Demand and Capture Rate by Unit type (Number of Bedrooms and Rent Restriction Category)
Reason for Change: The REA Rules currently require a best possible unit mix conclusion based on occupancy and demand (§1.33 (d)(11)(A)). Required demand and capture rate calculations provide documentation that the unit mix is well-reasoned and supported. Demand and capture rate calculations by unit type offer specific guidance on unit mix conclusions. The Houston MSA market study commissioned by the Department demonstrates that demand may exist for one unit type, two-bedroom units at 40% of AMI, for example, while there is no demand for three-bedroom units at 60% of AMI.

Proposed §1.33 (d)(9)(E)(ii) and (iii) Timing of Demand from Turnover and Population Growth
Reason for Change: Based on public comment, adjusting the timing of the projected population growth and turnover demand places the calculated demand closer in time to the lease-up phase of the development.

<u>§1.34 Appraisal</u>

Although it appears as if there are significant changes proposed to the appraisal rule, all of the changes are due to one of the following: editing for clarification; to mirror the format of the market analysis rule; or to avoid restating what is in the Uniform Standards of Professional Appraisal Practice (USPAP). The rule now contains only the unique TDHCA requirements.

<u>§1.35 Environmental Site Assessment</u>

Separate requirements for vacant sites versus improved sites were identified.

<u>Recommendation</u>

Approve the publication of the Draft 2007 Underwriting, Market Analysis, Appraisal, Environmental Site Assessment, Property Condition Assessment, and Reserve for Replacement Rules and Guidelines and authorize the distribution and public hearing on the draft rules concurrent with the Department's uniform hearing schedule.

TEXAS DEPARTMENT OF HOUSING AND COMMUNITY AFFAIRS

~~2006~~ 2007 DRAFT Real Estate Analysis Rules and Guidelines

§1.31 General Provisions

(a) **Purpose.** The Rules in this subchapter apply to the underwriting, market analysis, appraisal, environmental site assessment, property condition assessment, and reserve for replacement standards employed by the Texas Department of Housing and Community Affairs (the "Department" or "TDHCA"). This chapter provides rules for the underwriting review of an affordable housing development's financial feasibility and economic viability that ensures the most efficient allocation of resources while promoting and preserving the public interest in ensuring the long-term health of the Department's portfolio. In addition, this chapter guides the underwriting staff in making recommendations to the Executive Award and Review Advisory Committee ("the Committee"), Executive Director, and TDHCA Governing Board ("the Board") to help ensure procedural consistency in the ~~award~~ determination of Development feasibility ~~process~~[§§2306.0661(f) and 2306.6710(d), Texas Government Code]. Due to the unique characteristics of each development the interpretation of the rules and guidelines described in this subchapter is subject to the discretion of the Department and final determination by the Board.

~~(b) **Alternative Dispute Resolution Policy.** In accordance with §2306.082, Texas Government Code, it is the Department's policy to encourage the use of appropriate alternative dispute resolution procedures ("ADR") under the Governmental Dispute Resolution Act, Chapter 2009, Texas Government Code, to assist in resolving disputes under the Department's jurisdiction. As described in Chapter 154, Civil Practices and Remedies Code, ADR procedures include mediation. Except as prohibited by the Department's ex parte communications policy, the Department encourages informal communications between Department staff and applicants, and other interested persons, to exchange information and informally resolve disputes. The Department also has administrative appeals processes to fairly and expeditiously resolve disputes. If at anytime an applicant or other person would like to engage the Department in an ADR procedure, the person may send a proposal to the Department's Dispute Resolution Coordinator. For additional information on the Department's ADR Policy, see the Department's General Administrative Rule on ADR at §1.17 of this title.~~

(b)~~(c)~~ **Definitions.** Many of the terms used in this subchapter are defined in the Department's Housing Tax Credit Program Qualified Allocation Plan and Rules, known as the "QAP", as proposed. Those terms that are not defined in the QAP or which may have another meaning when used in subchapter B of this title, shall have the meanings set forth in this subsection unless the context clearly indicates otherwise.

(1) **Affordable Housing**--Housing that has been funded through one or more of the Department's programs or other local, state or federal programs or has at least one unit that is restricted in the rent that can be charged either by a Land Use Restriction Agreement or other form of Deed Restriction.

(2) **Bank Trustee**--A bank authorized to do business in this state, with the power to act as trustee.

(3) **Cash Flow**--The funds available from operations after all expenses and debt service required to be paid has been considered.

(4) **Credit Underwriting Analysis Report**--Sometimes referred to as the "Report." A decision making tool used by the Department and Board containing a synopsis and reconciliation of the application information submitted by the Applicant. ~~, described more fully in §1.32 of this subchapter~~.

(5) **Comparable Unit**--A Unit, when compared to the subject Unit, similar in overall condition, unit amenities, utility structure, and common amenities, and

(A) for purposes of calculating the inclusive capture rate targets the same population and is likely to draw from the same demand pool;

(B) for purposes of estimating the Restricted Market Rent ~~subsidized Unit rent~~ targets the same population and is similar in net rentable square footage and number of bedrooms; or

(C) for purposes of estimating the subject Unit market rent does not have any income or rent restrictions and is similar in net rentable square footage and number of bedrooms.

(6) **Contract Rent**--Maximum Rent Limits based upon current and executed rental assistance contract(s), typically with a federal, state or local governmental agency.

(7) **DCR**--Debt Coverage Ratio. Sometimes referred to as the "Debt Coverage" or "Debt Service Coverage." A measure of the number of times loan principal and interest are covered by Net Operating Income.

(8) **Development**--Sometimes referred to as the "Subject Development." Multi-unit residential housing that meets the affordability requirements for and requests or has received funds from one or more of the Department's sources of funds.

(9) **EGI**--Effective Gross Income. The sum total of all sources of anticipated or actual income for a rental Development less vacancy and collection loss, leasing concessions, and rental income from employee-occupied units that is not anticipated to be charged or collected.

(10) **ESA**--Environmental Site Assessment. An environmental report that conforms with the Standard Practice for Environmental Site Assessments: Phase I Assessment Process (ASTM Standard Designation: E 1527) and conducted in accordance with the Department's Environmental Site Assessment Rules and Guidelines in §1.35 of this subchapter as it relates to a specific Development.

(11) **First Lien Lender**--A lender whose lien has first priority.

(12) **Gross Program Rent**--Sometimes called the "Program Rents." Maximum Rent Limits based upon the tables promulgated by the Department's division responsible for compliance by program and by county or Metropolitan Statistical Area ("MSA") or Primary Metropolitan Statistical Area ("PMSA").

(13) **Market Analysis**--Sometimes referred to as "Market Study." An evaluation of the economic conditions of supply, demand and rental rates or pricing conducted in accordance with the Department's Market Analysis Rules and Guidelines in §1.33 of this subchapter as it relates to a specific Development.

(14) **Market Rent**--The unrestricted rent concluded by the Market Analyst for a particular unit type and size after adjustments are made to rents charged by owners of Comparable Units.

(15) **NOI**--Net Operating Income. The income remaining after all operating expenses, including replacement reserves and taxes have been paid.

(16) **Primary Market**--Sometimes referred to as "Primary Market Area" or "Submarket" or "PMA". The area defined by the Qualified Market Analyst as described in §1.33(d)(~~9~~8) from which a proposed or existing Development is most likely to draw the majority of its prospective tenants or homebuyers.

(17) **PCA**--Property Condition Assessment. Sometimes referred to as "Physical Needs Assessment," "Project Capital Needs Assessments," "Property Condition Report," or "Property Work Write-Up." An evaluation of the physical condition of the existing property and evaluation of the cost of rehabilitation conducted in accordance with the Department's Property Condition Assessment Rules and Guidelines in §1.36 of this subchapter as it relates to a specific Development.

(18) **Rent Over-Burdened Households**--Non-elderly households paying more than 35% of gross income towards total housing expenses (unit rent plus utilities) and elderly households paying more than 40% of gross income towards total housing expenses.

(19) **Reserve Account**--An individual account:

(A) Created to fund any necessary repairs for a multifamily rental housing development; and

(B) Maintained by a First Lien Lender or Bank Trustee.

(20) **Restricted Market Rent**--The restricted rent concluded by the Market Analyst for a particular unit type and size after adjustments are made to rents charged by owners of Comparable Units with the same rent and income restrictions.

(21) **Secondary Market**--Sometimes referred to as "Secondary Market Area". The area defined by the Qualified Market Analyst as described in §1.33(d)(~~8~~7).

(22)~~(21)~~ **Supportive Housing**--Sometimes referred to as "Transitional Housing." Rental housing intended solely for occupancy by individuals or households transitioning from homelessness or abusive situations to permanent housing and typically consisting primarily of efficiency units.

(23)~~(22)~~ **Sustaining Occupancy**--The occupancy level at which rental income plus secondary income is equal to all operating expenses and mandatory debt service requirements for a Development.

(24)~~(23)~~ **TDHCA Operating Expense Database**--Sometimes referred to as "TDHCA Database." A consolidation of recent actual operating expense information collected through the Department's Annual Owner Financial Certification process and published on the Department's web site.

(25)~~(24)~~ **Underwriter**--The author(s), as evidenced by signature, of the Credit Underwriting Analysis Report.

(26)~~(25)~~ **Unstabilized Development**-- A Development with Comparable Units that has been approved for funding by the TDHCA Board or is currently under construction or has not maintained a 90% occupancy level for at least 12 consecutive months following construction completion.

(27)~~(26)~~ **Utility Allowance**--The estimate of tenant-paid utilities, based either on the most current HUD Form 52667, "Section 8, Existing Housing Allowance for Tenant-Furnished Utilities and Other Services," provided by the local entity responsible for administering the HUD Section 8 program with most direct jurisdiction over the majority of the buildings existing or a documented estimate from the utility provider proposed in the Application. Documentation from the local utility provider to support an alternative calculation can be used to justify alternative Utility Allowance conclusions but must be specific to the Subject Development and consistent with the building plans provided.

(28)~~(27)~~ **Work Out Development**--A financially distressed Development seeking a change in the terms of Department funding or program restrictions based upon market changes.

(c) **Appeals.** Certain programs contain express appeal options. Where not indicated, 10 Tex. Admin. Code §§1.7 and 1.8 include general appeal procedures. In addition, the Department encourages the use of Alternative Dispute Resolution methods as outlined in 10 TAC §1.17.

§1.32 Underwriting Rules and Guidelines

(a) **General Provisions.** The Department Governing Board has authorized the development of these rules under its authority under §2306.148, Texas Government Code. The rules provide a mechanism to produce consistent information in the form of an Underwriting Report to provide interested parties information the Board relies upon in balancing the desire to assist as many Texans as possible by providing no more financing than necessary and have independent verification that Developments are economically feasible.~~, through the division responsible for underwriting, produces or causes to be produced a Credit Underwriting Analysis Report (the "Report") for every Development recommended for funding through the Department. The primary function of the Report is to provide the Committee, Executive Director, the Board, Applicants, and the public a comprehensive analytical report and recommendations necessary to make well informed decisions in the allocation or award of the State's limited resources.~~ The Report generated in no way guarantees or purports to warrant the actual performance, feasibility, or viability of the Development by the Department.

(b) **Report Contents.** The Report provides an organized and consistent synopsis and reconciliation of the application information submitted by the Applicant.

~~(b) **Report Contents.** The Report provides an organized and consistent synopsis and reconciliation of the application information submitted by the Applicant. At a minimum, the Report includes:~~

~~(1) Identification of the Applicant and any Principals of the Applicant;~~

~~(2) Identification of the funding type and amount requested by the Applicant;~~

~~(3) The Underwriter's funding recommendations and any conditions of such recommendations;~~

~~(4) Review and analysis of the Applicant's operating proforma;~~

~~(5) Analysis of the Development's debt service capacity;~~

~~(6) Review and analysis of the Applicant's development budget;~~

~~(7) Evaluation of the commitment for additional sources of financing for the Development;~~

~~(8) Identification of related interests among the members of the Development Team, Third Party service providers and/or the seller of the property;~~

~~(9) Analysis of the Applicant's and Principals' financial statements and creditworthiness;~~

~~(10) Review of the proposed Development plan and evaluation of the proposed improvements;~~

~~(11) Review of the Applicant's evidence of site control and any potential title issues that may affect site control;~~

~~(12) Identification of the site which includes review of the independent site inspection report;~~

~~(13) Review of the Phase I Environmental Site Assessment in conformance with the Department's Environmental Site Assessment Rules and Guidelines in §1.35 of this subchapter or soils and hazardous material reports as required;~~

~~(14) Review of market data and Market Study information and any valuation information available for the property in conformance with the Department's Market Analysis Rules and Guidelines in §1.33 of this subchapter;~~

~~(15) Review of the appraisal, if required, for conformance with the Department's Appraisal Rules and Guidelines in §1.34 of this subchapter; and,~~

~~(16) Review of the Property Condition Assessment, if required, for conformance with the Department's Property Condition Assessment Rules and Guidelines in §1.36 of this subchapter.~~

(~~b~~c)~~(c)~~ **Recommendations in the Report.** The conclusion of the Report includes a recommended award of funds or allocation of Tax Credits based on the lesser amount calculated by the program limit method (if applicable), gap/DCR method, or the amount requested by the Applicant as further described in paragraphs (1) through (3) of this subsection, and states any feasibility conditions to be placed on the award.

(1) **Program Limit Method.** For Developments requesting Housing Tax Credits, this method is based upon calculation of Eligible Basis after applying all cost verification measures and program limits as described in this section. The Applicable Percentage used is as defined in the QAP. For Developments requesting funding through a Department program other than Housing Tax Credits, this method is based upon calculation of the funding limit based on current program rules at the time of underwriting.

(2) **Gap/DCR Method.** This method evaluates the amount of funds needed to fill the gap created by total development cost less total non-Department-sourced funds or Tax Credits. In making this determination, the Underwriter resizes any anticipated deferred developer fee down to zero before reducing the amount of Department funds or Tax Credits. In the case of Housing Tax Credits, the syndication proceeds needed to fill the gap in permanent funds are divided by the syndication rate to determine the amount of Tax Credits. In making this determination, the Department adjusts the permanent loan amount and/or any Department-sourced loans, as necessary, such that it conforms to the DCR standards described in this section.

(3) **The Amount Requested.** The amount of funds that is requested by the Applicant as reflected in the application documentation.

(~~c~~d)~~(d)~~ **Operating Feasibility.** The operating financial feasibility of Developments funded by the Department is tested by adding total income sources and subtracting vacancy and collection losses and operating expenses to determine Net Operating Income. This Net Operating Income is divided by the annual debt service to determine the Debt Coverage Ratio. The Underwriter characterizes a Development as infeasible from an operational standpoint when the Debt Coverage Ratio does not meet the minimum standard set forth in paragraph (4)(D) of this subsection. The Underwriter may choose to make adjustments to the financing structure, such as lowering the debt and increasing the deferred developer fee that could result in a re-characterization of the Development as feasible based upon specific conditions set forth in the Report.

(1) **Income.** In determining the Year 1 proforma, the~~The~~ Underwriter evaluates the reasonableness of the Applicant's income estimate by determining the appropriate rental rate per unit based on contract, program and market factors. Miscellaneous income and vacancy and collection loss limits as set forth in subparagraphs (B) and (C) of this paragraph, respectively, are applied unless well-documented support is provided.

(A) **Rental Income.** The Program Rent less Utility Allowances or Market Rent or Restricted Market Rent or Contract Rent is utilized by the Underwriter in calculating the rental income for comparison to the Applicant's estimate in the application. Where multiple programs are funding the same units, Contract Rents are used, if applicable. If Contract Rents do not apply, the lowest Program Rents less Utility Allowance ("net Program Rent") or Market Rents or Restricted Market Rent, as determined by the Market Analysis that are lower than the net Program Rents, are utilized.

(i) **Market Rents.** The Underwriter reviews the ~~Attribute Adjustment Matrix~~attribute adjustment matrix of Comparable Units by unit size provided by the Market Analyst and determines if the adjustments and conclusions made are reasoned and well documented. The Underwriter uses the Market Analyst's conclusion of adjusted Market Rent by unit, as long as the proposed Market Rent is reasonably justified and does not exceed the highest existing unadjusted market comparable rent. Random checks of the validity of the Market Rents may include direct contact with the comparable properties. The Market Analyst's attribute adjustment matrix~~Attribute Adjustment Matrix~~ should include, at a minimum, adjustments for location, size, amenities, and concessions as more fully described in §1.33 of this subchapter.

(ii) **Restricted Market Rent.** The Underwriter reviews the attribute adjustment matrix of Comparable Units by unit size and income and rent restrictions provided by the Market Analyst and determines if the adjustments and conclusions made are reasoned and well documented. The Underwriter uses the Market Analyst's conclusion of adjusted Restricted Market Rent by unit, as long as the proposed Restricted Market Rent is reasonably justified and does not exceed the highest existing unadjusted market comparable restricted rent. Random checks of the validity of the Restricted Market Rents may include direct contact with the comparable properties. The Market Analyst's Attribute Adjustment Matrix should include, at a minimum, adjustments for location, size, amenities, and concessions as more fully described in §1.33 of this subchapter.

(iii) **Program Rents less Utility Allowance.** The Underwriter reviews the Applicant's proposed rent schedule and determines if it is consistent with the representations made in the remainder of the application. The Underwriter uses the Program Rents as promulgated by the Department's division responsible for compliance for the year that is most current at the time the underwriting begins. When underwriting for a simultaneously funded competitive round, all of the applications are underwritten with the rents promulgated for the same year. Program Rents are reduced by the Utility Allowance. The Utility Allowance figures used are determined based upon what is identified in the application by the Applicant as being a utility cost paid by the tenant and upon other consistent documentation provided in the application.

(I) Units must be individually metered for all utility costs to be paid by the tenant.

(II) Gas utilities are verified on the building plans and elsewhere in the application when applicable.

(III) Trash allowances paid by the tenant are rare and only considered when the building plans allow for individual exterior receptacles.

(IV) Refrigerator and range allowances are not considered part of the tenant-paid utilities unless the tenant is expected to provide their own appliances, and no eligible appliance costs are included in the development cost breakdown.

(iv)~~(iii)~~ **Contract Rents.** The Underwriter reviews submitted rental assistance contracts to determine the Contract Rents currently applicable to the Development. Documentation supporting the likelihood of continued rental assistance is also reviewed. The underwriting analysis will take into consideration the Applicant's intent to request a Contract Rent increase. At the discretion of the Underwriter, the Applicant proposed rents may be used in the underwriting analysis with the recommendations of the Report conditioned upon receipt of final approval of such increase.

(B) **Miscellaneous Income.** All ancillary fees and miscellaneous secondary income, including but not limited to late fees, storage fees, laundry income, interest on deposits, carport rent, washer and dryer rent, telecommunications fees, and other miscellaneous income, are anticipated to be included in a $5 to $15 per unit per month range. Exceptions may be made at the discretion of the Underwriter for garage income, pass-through utility payments, pass-through water, sewer and trash payments, cable fees, congregate care/assisted living/elderly facilities, and child care facilities.

(i) Exceptions must be justified by operating history of existing comparable properties.

(ii) The Applicant must show that the tenant will not be required to pay the additional fee or charge as a condition of renting an apartment unit and must show that the tenant has a reasonable alternative.

(iii) The Applicant's operating expense schedule should reflect an offsetting cost associated with income derived from pass-through utility payments, pass-through water, sewer and trash payments, and cable fees.

(iv) Collection rates of exceptional fee items will generally be heavily discounted.

(v) If the total secondary income is over the maximum per unit per month limit, any cost associated with the construction, acquisition, or development of the hard assets needed to produce an additional fee may also need to be reduced from Eligible Basis for Tax Credit Developments as they may, in that case, be considered to be a commercial cost rather than an incidental to the housing cost of the Development.

(C) **Vacancy and Collection Loss.** The Underwriter uses a vacancy rate of 7.5% (5% vacancy plus 2.5% for collection loss) unless the Market Analysis reflects a higher or lower established vacancy rate for the area.

Elderly and 100% project-based rental subsidy Developments and other well documented cases may be underwritten at a combined 5% at the discretion of the Underwriter if the historical performance reflected in the Market Analysis is consistently higher than a 95% occupancy rate.

(D) **Effective Gross Income.** The Underwriter independently calculates EGI. If the EGI figure provided by the Applicant is within 5% of the EGI figure calculated by the Underwriter, the Applicant's figure is characterized as reasonable in the Report; however, for purposes of calculating DCR the Underwriter will maintain and use its independent calculation unless the Applicant's proforma meets the requirements of paragraph (3) of this subsection.

(2) **Expenses.** In determining the Year 1 proforma, the~~The~~ Underwriter evaluates the reasonableness of the Applicant's expense estimate by line item comparisons based upon the specifics of each transaction, including the type of Development, the size of the units, and the Applicant's expectations as reflected in their proforma. Historical stabilized certified or audited financial statements of the Development or Third Party quotes specific to the Development will reflect the strongest data points to predict future performance. The Department's database of property in the same location or region as the proposed Development also provides heavily relied upon data points. Data from the Institute of Real Estate Management's (IREM) most recent Conventional Apartments-Income/Expense Analysis book for the proposed Development's property type and specific location or region may be referenced. In some cases local or project-specific data such as Public Housing Authority ("PHA") Utility Allowances and property tax rates are also given significant weight in determining the appropriate line item expense estimate. Finally, well documented information provided in the Market Analysis, the application, and other sources may be considered.

(A) **General and Administrative Expense.** General and Administrative Expense includes all accounting fees, legal fees, advertising and marketing expenses, office operation, supplies, and equipment expenses. The underwriting tolerance level for this line item is 20%.

(B) **Management Fee.** Management Fee is paid to the property management company to oversee the effective operation of the property and is most often based upon a percentage of Effective Gross Income as documented in the management agreement contract. Typically, 5% of the Effective Gross Income is used, though higher percentages for rural transactions that are consistent with the TDHCA Database can be concluded. Percentages as low as 3% may be utilized if documented by a fully ~~executed~~executed ~~Third Party~~ management contract agreement with an acceptable management company. The Underwriter will require documentation for any percentage difference from the 5% of the Effective Gross Income standard.

(C) **Payroll and Payroll Expense.** Payroll and Payroll Expense includes all direct staff payroll, insurance benefits, and payroll taxes including payroll expenses for repairs and maintenance typical of a conventional development. It does not, however, include direct security payroll or additional supportive services payroll. The underwriting tolerance level for this line item is 10%.

(D) **Repairs and Maintenance Expense.** Repairs and Maintenance Expense includes all repairs and maintenance contracts and supplies. It should not include extraordinary capitalized expenses that would result from major renovations. Direct payroll for repairs and maintenance activities are included in payroll expense. The underwriting tolerance level for this line item is 20%.

(E) **Utilities Expense (Gas & Electric).** Utilities Expense includes all gas and electric energy expenses paid by the owner. It includes any pass-through energy expense that is reflected in the EGI. The underwriting tolerance level for this line item is 30%.

(F) **Water, Sewer and Trash Expense.** Water, Sewer and Trash Expense includes all water, sewer and trash expenses paid by the owner. It would also include any pass-through water, sewer and trash expense that is reflected in the EGI. The underwriting tolerance level for this line item is 30%.

(G) **Insurance Expense.** Insurance Expense includes any insurance for the buildings, contents, and liability but not health or workman's compensation insurance. The underwriting tolerance level for this line item is 30%.

(H) **Property Tax.** Property Tax includes all real and personal property taxes but not payroll taxes. The underwriting tolerance level for this line item is 10%.

(i) The per unit assessed value will be calculated based on the capitalization rate published on the county taxing authority's website. If the county taxing authority does not publish a capitalization rate on the internet, a capitalization rate of 10% will be used or comparable assessed values may be used in evaluating this line item expense.

(ii) Property tax exemptions or proposed payment in lieu of tax agreement (PILOT) must be documented as being reasonably achievable if they are to be considered by the Underwriter. At the discretion of the Underwriter, a property tax exemption that meets known federal, state and local laws may be applied based on the tax-exempt status of the Development Owner and its Affiliates.

(I) **Reserves.** Reserves include annual reserve for replacements of future capitalizable expenses as well as any ongoing additional operating reserve requirements. The Underwriter includes minimum reserves of $250~~$200~~ per unit for new construction and $300 per unit for all other Developments. The Underwriter may require an amount above $300 for Developments other than new construction based on information provided in the PCA. Higher levels of reserves also may be used if they are documented in the financing commitment letters.

(J) **Other Expenses.** The Underwriter will include other reasonable and documented expenses, not including depreciation, interest expense, lender or syndicator's asset management fees, or other ongoing partnership fees. Lender or syndicator's asset management fees or other ongoing partnership fees also are not considered in the Department's calculation of debt coverage. The most common other expenses are described in more detail in clauses (i) through (iv) of this subparagraph.

(i) **Supportive Services Expense.** Supportive Services Expense includes the documented cost to the owner of any non-traditional tenant benefit such as payroll for instruction or activities personnel. The Underwriter will not evaluate any selection points for this item. The Underwriter's verification will be limited to assuring any anticipated costs are included. For all transactions supportive services expenses are considered in calculating the Debt Coverage Ratio.

(ii) **Security Expense.** Security Expense includes contract or direct payroll expense for policing the premises of the Development. The Applicant's amount is typically accepted as provided. The Underwriter will require documentation of the need for security expenses that exceed 50% of the anticipated payroll expense estimate discussed in subparagraph (C) of this paragraph.

(iii) **Compliance Fees.** Compliance fees include only compliance fees charged by TDHCA. The Department's charge for a specific program may vary over time; however, the Underwriter uses the current charge per unit per year at the time of underwriting. For all transactions compliance fees are considered in calculating the Debt Coverage Ratio.

(iv) **Cable Television Expense.** Cable Television Expense includes fees charged directly to the owner of the Development to provide cable services to all units. The expense will be considered only if a contract for such services with terms is provided and income derived from cable television fees is included in the projected EGI. Cost of providing cable television in only the community building should be included in General and Administrative Expense as described in subparagraph (A) of this paragraph.

(K) The Department will communicate with and allow for clarification by the Applicant when the overall expense estimate is over 5% greater or less than the Underwriter's estimate. In such a case, the Underwriter will inform the Applicant of the line items that exceed the tolerance levels indicated in this paragraph, but may request additional documentation supporting some, none or all expense line items. If an acceptable rationale for the difference is not provided, the discrepancy is documented in the Report and the justification provided by the Applicant and the countervailing evidence supporting the Underwriter's determination is noted. If the Applicant's total expense estimate is within 5% of the final total expense figure calculated by the Underwriter, the Applicant's figure is characterized as reasonable in the Report; however, for purposes of calculating DCR the Underwriter will maintain and use its independent calculation unless the Applicant's Year 1 proforma meets the requirements of paragraph (3) of this subsection.

(3) **Net Operating Income.** NOI is the difference between the EGI and total operating expenses. If the Year 1 NOI figure provided by the Applicant is within 5% of the Year 1 NOI figure calculated by the Underwriter, the Applicant's figure is characterized as reasonable in the Report; however, for purposes of calculating the Year 1 DCR the Underwriter will maintain and use his independent calculation of NOI unless the Applicant's Year 1 EGI, Year 1 total expenses, and Year 1 NOI are each within 5% of the Underwriter's estimates.

(4) **Debt Coverage Ratio.** Debt Coverage Ratio is calculated by dividing Net Operating Income by the sum of loan principal and interest for all permanent sources of funds. Loan principal and interest, or "Debt Service," is calculated based on the terms indicated in the submitted commitments for financing. Terms generally include the amount of initial principal, the interest rate, amortization period, and repayment period. Unusual financing structures and their effect on Debt Service will also be taken into consideration.

(A) **Interest Rate.** The interest rate used should be the rate documented in the commitment letter.

(i) Commitments indicating a variable rate must provide a detailed breakdown of the component rates comprising the all-in rate. The commitment must also state the lender's underwriting interest rate, or the Applicant must submit a separate statement executed by the lender with an estimate of the interest rate as of the date of the statement.

(ii) The maximum rate allowed for a competitive application cycle is evaluated by the Director of the Department's division responsible for Credit Underwriting Analysis Reports and posted to the Department's web site prior to the close of the application acceptance period. Historically this maximum acceptable rate has been at or below the average rate for 30-year U.S. Treasury Bonds plus 400 basis points.

(B) **Amortization Period.** The Department generally requires an amortization of not less than 30 years and not more than 50 years or an adjustment to the amortization structure is evaluated and recommended. In non-Tax Credit transactions a lesser amortization period may be used if the Department's funds are fully amortized over the same period.

(C) **Repayment Period.** For purposes of projecting the DCR over a 30-year period for Developments with permanent financing structures with balloon payments in less than 30 years, the Underwriter will carry forward Debt Service calculated based on a full amortization and the interest rate stated in the commitment.

(D) **Acceptable Debt Coverage Ratio Range.** The ~~initial~~ acceptable Year 1 DCR range for all priority or foreclosable lien financing plus the Department's proposed financing falls between a minimum of 1.15~~1.10~~ to a maximum of 1.30. HOPE VI and USDA Rural Development transactions may underwrite to a DCR less than 1.15~~1.10~~ based upon documentation of acceptance from the lender.

(i) For Developments other than HOPE VI and USDA Rural Development transactions, if the DCR is less than the minimum, the recommendations of the Report are conditioned upon a reduced debt service and the Underwriter will make adjustments to the assumed financing structure in the order presented in subclauses (I) through (III) of this clause.

(I) A reduction of the interest rate or an increase in the amortization period for TDHCA funded loans;

(II) A reclassification of TDHCA funded loans to reflect grants, if permitted by program rules;

(III) A reduction in the permanent loan amount for non-TDHCA funded loans based upon the rates and terms in the permanent loan commitment letter as long as they are within the ranges in subparagraphs (A) and (B) of this paragraph.

(ii) If the DCR is greater than the maximum, the recommendations of the Report are conditioned upon an increase in the debt service and the Underwriter will make adjustments to the assumed financing structure in the order presented in subclauses (I) through (III) of this clause.

(I) A reclassification of TDHCA funded grants to reflect loans, if permitted by program rules;

(II) An increase in the interest rate or a decrease in the amortization period for TDHCA funded loans;

(III) An increase in the permanent loan amount for non-TDHCA funded loans based upon the rates and terms in the permanent loan commitment letter as long as they are within the ranges in subparagraphs (A) and (B) of this paragraph.

(iii) For Housing Tax Credit Developments, a reduction in the recommended Tax Credit allocation may be made based on the gap/DCR method described in subsection (c)(2) of this section.

(iv) Although adjustments in Debt Service may become a condition of the Report, future changes in income, expenses, and financing terms could allow for an acceptable DCR.

(5) **Long Term Proforma ~~Feasibility~~.** The Underwriter will ~~evaluate the long term feasibility of the Development by creating~~create a 20-year ~~30-year~~ operating proforma.

~~(A) A 3% annual growth factor is utilized for income and a 4% annual growth factor is utilized for expenses.~~

(A) ~~(B)~~ The base year projection utilized is the Underwriter's Year 1 EGI, Year 1 operating expenses, and Year 1 NOI unless the Applicant's Year 1 EGI, Year 1 total operating expenses, and Year 1 NOI are each within 5% of the Underwriter's estimates.

(B) ~~In general, a~~A 3% annual growth factor is utilized for income and a 4% annual growth factor is utilized for expenses.

(C) Adjustments may be made to the Long Term Proforma if sufficient support documentation is provided by the Applicant. Support may include

(i) documentation with terms for Project-based Rental Assistance or Operating Subsidy;

(ii) a fully executed management contract with clear terms;

(iii) documentation prepared and signed by the Central Appraisal District (CAD) with jurisdiction over the Development indicating the appraisal methodology consistently employed by the CAD and a ten-year history, beginning with the Application year, of tax rates for each taxing district with jurisdiction over the Development; and

(iv) required reserve for replacement schedule prepared and signed by the proposed permanent lender or equity provider. In no instance will the reserve for replacement figure included in the Long Term Proforma be less than the minimum requirements as described in §1.37 of this title.

~~(C) The DCR should remain above a 1.10 and a continued positive Cash Flow should be projected for the initial 30-year period in order for the Development to be characterized as feasible for the long term. DCR will be calculated based on the guidelines stated in subsection (d)(4) of this section.~~

~~(D) Any Development with a 30-year proforma, used in the underwriting analysis, reflecting cumulative Cash Flow over the first fifteen years as insufficient to repay the projected amount of deferred developer fee , amortized in irregular payments at 0% interest, is characterized as infeasible. An infeasible Development will not be recommended for funding unless the Underwriter can determine a plausible alternative feasible financing structure and conditions the recommendation(s) in the Report accordingly.~~

(~~d~~e)~~(e)~~ **Development Costs.** The Development's need for permanent funds and, when applicable, the Development's Eligible Basis is based upon the projected total development costs. The Department's estimate of the total development cost will be based on the Applicant's project cost schedule to the extent that it can be verified to a reasonable degree of certainty with documentation from the Applicant and tools available to the Underwriter. For new construction Developments, the Underwriter's total cost estimate will be used unless the Applicant's total development cost is within 5% of the Underwriter's estimate. In the case of a rehabilitation Development, the Underwriter may use a lower tolerance level due to the reliance upon the PCA. If the Applicant's total development cost is utilized and the Applicant's line item costs are inconsistent with documentation provided in the Application or program rules, the Underwriter may make adjustments to the Applicant's total cost estimate.

(1) **Acquisition Costs.** The proposed acquisition price is verified with the fully executed site control document(s) for the entire proposed site.

(A) **Excess Land Acquisition.** Where more land is being acquired than will be utilized for the site and the remaining acreage is not being utilized as permanent green space, the value ascribed to the proposed Development will be prorated from the total cost reflected in the site control document(s). An appraisal or tax assessment value may be tools that are used in making this determination; however, the Underwriter will not utilize a prorated value greater than the total amount in the site control document(s).

(B) **Identity of Interest Acquisitions.**

(i) The acquisition will be considered an identity of interest transaction when an Affiliate of, a Related Party to, or any owner at any level of the Development Team

(I) is the current owner in whole or in part of the proposed property, or

(II) was the owner in whole or in part of the proposed property during any period within the 36 months prior to the first day of the Application Acceptance Period.

(ii) In all identity of interest transactions the Applicant is required to provide the additional documentation identified in §50.9(h)(7)(A) of this title to support the transfer price to be used in the underwriting analysis.

(iii) In no instance will the acquisition cost utilized by the Underwriter exceed

(I) the original acquisition cost listed in the submitted settlement statement or, if a settlement statement is not available, the original asset value listed in the most current audited financial statement for the identity of interest owner, or

(II) the "as-is" value conclusion in the submitted appraisal.

(C) **Acquisition of Buildings for Tax Credit Properties.** In order to make a determination of the appropriate building acquisition value, the Applicant will provide and the Underwriter will utilize an appraisal that meets the Department's Appraisal Rules and Guidelines as described in §1.34 of this subchapter. The value of the improvements are the result of the difference between the as-is appraised value less the land value. The Underwriter may alternatively prorate the actual or identity of interest sales price based upon a lower calculated improvement value over the as-is value provided in the appraisal, so long as the resulting land value utilized by the Underwriter is not less than the land value indicated in the appraisal or tax assessment.

(2) **Off-Site Costs.** Off-Site costs are costs of development up to the site itself such as the cost of roads, water, sewer and other utilities to provide the site with access. All off-site costs must be well documented and certified by a Third Party engineer on the required application form.

(3) **Site Work Costs.** Project site work costs exceeding $7,500 per Unit must be well documented and certified by a Third Party engineer on the required application form. In addition, for Applicants seeking Tax Credits, documentation in keeping with §50.9(i)(6)(G) of this title will be utilized in calculating eligible basis.

(4) **Direct Construction Costs.** Direct construction costs are the costs of materials and labor required for the building or rehabilitation of a Development.

(A) **New Construction.** The Underwriter will use the Marshall and Swift Residential Cost Handbook and historical final cost certifications of all previous housing tax credit allocations to estimate the direct construction cost for a new construction Development. If the Applicant's estimate is more than 5% greater or less than the Underwriter's estimate, the Underwriter will attempt to reconcile this concern and ultimately identify this as a cost concern in the Report.

(i) The "Average Quality" multiple, townhouse, or single family costs, as appropriate, from the Marshall and Swift Residential Cost Handbook, based upon the details provided in the application and particularly site and building plans and elevations will be used to estimate direct construction costs. If the Development contains amenities not included in the Average Quality standard, the Department will take into account the costs of the amenities as designed in the Development.

(ii) If the difference in the Applicant's direct cost estimate and the direct construction cost estimate detailed in clause (i) of this subparagraph is more than 5%, the Underwriter shall also evaluate the direct construction cost of the Development based on acceptable cost parameters as adjusted for inflation and as established by historical final cost certifications of all previous housing tax credit allocations for:

(I) the county in which the Development is to be located, or

(II) if cost certifications are unavailable under subclause (I) of this clause, the uniform state service region in which the Development is to be located.

(B) **Rehabilitation Costs.** In the case where the Applicant has provided a PCA which is inconsistent with the Applicant's figures as proposed in the development cost schedule, the Underwriter may request a supplement executed by the PCA provider supporting the Applicant's estimate and detailing the difference in costs. If said supplement is not provided or the Underwriter determines that the reasons for the initial difference in costs are not well-documented, the Underwriter utilizes the initial PCA estimations in lieu of the Applicant's estimates.

(5) **~~Hard Cost~~ Contingency.** All contingencies identified in the Applicant project cost schedule will be added to ~~Hard Cost~~ Contingency with the total limited to the guidelines detailed in this paragraph. ~~Hard Cost~~ Contingency is limited to a maximum of 5% of direct costs plus site work for new construction Developments and 10% of direct costs plus site work for rehabilitation Developments. For tax credit Developments, the percentage is applied to the sum of the eligible direct construction costs plus eligible site work costs in calculating the eligible contingency cost. The Applicant's figure is used by the Underwriter if the figure is less than 5%.

(6) **Contractor Fee ~~Limits~~.** Contractor fees are limited ~~to 6% for general requirements, 2% for contractor overhead, and 6% for contractor profit~~at a total of 14%. The percentage~~s are~~ is applied to the sum of the direct construction costs plus site work costs. For tax credit Developments, the percentages are applied to the sum of the eligible direct construction costs plus eligible site work costs in calculating the eligible contractor fees. ~~Minor reallocations to make these fees fit within these limits may be made at the discretion of the Underwriter.~~ For Developments also receiving financing from TX-USDA-RHS, the combination of builder's general requirements, builder's overhead, and builder's profit should not exceed the lower of TDHCA or TX-USDA-RHS requirements.

(7) **Developer Fee ~~Limits~~.** Developer fee claimed must be proportionate to the work for which it is earned and consistent with §49.9(d)(6) of this title.

(A) For Tax Credit Developments, the development cost associated with developer fees and Development Consultant (also known as Housing Consultant) fees included in Eligible Basis cannot exceed 15% of the project's Total Eligible Basis less developer fees, as defined in the QAP. ~~Developer fee claimed must be proportionate to the work for which it is earned.~~

(B) In the case of a transaction requesting acquisition Tax Credits

(i) the allocation of eligible developer fee in calculating rehabilitation/new construction Tax Credits will not exceed 15% of the rehabilitation/new construction basis less developer fees, and

(ii) ~~In the case of an identity of interest transaction requesting acquisition Tax Credits,~~ no developer fee attributable to an identity of interest acquisition of the Development will be included in Eligible Basis.

(C) For non-Tax Credit Developments, the percentage ~~remains the same~~can be up to 15% but is based upon total development costs less the sum of the fee itself, land costs, the costs of permanent financing, excessive construction period financing described in subsection (f)(8) of this section, reserves, and any other identity of interest acquisition cost.

(8) **Financing Costs.** Eligible construction period financing is limited to not more than one year's fully drawn construction loan funds at the construction loan interest rate indicated in the commitment. Any excess over this amount is removed to ineligible cost and will not be considered in the determination of developer fee.

(9) **Reserves.** The Department will utilize the terms proposed by the syndicator or lender as described in the commitment letter(s) or the amount described in the Applicant's project cost schedule if it is within the range of two to six months of stabilized operating expenses less management fees plus debt service.

(10) **Other Soft Costs.** For Tax Credit Developments all other soft costs are divided into eligible and ineligible costs. Eligible costs are defined by Internal Revenue Code but generally are costs that can be capitalized in the basis of the Development for tax purposes. Ineligible costs are those that tend to fund future operating activities. The Underwriter will evaluate and accept the allocation of these soft costs in accordance with the Department's prevailing interpretation of the Internal Revenue Code. If the Underwriter questions the eligibility of any soft costs, the Applicant is given an opportunity to clarify and address the concern prior to removal from Eligible Basis.

(~~e~~f)~~(f)~~ **Developer Capacity.** The Underwriter will evaluate the capacity of the Person(s) accountable for the role of the Developer to determine their ability to secure financing and successfully complete the Development. The Department will review financial statements, and personal credit reports for those individuals anticipated to guarantee the completion of the Development.

(1) **Credit Reports.** The Underwriter will characterize the Development as "high risk" if the Applicant, General Partner, Developer, anticipated Guarantor or Principals thereof have a credit score which reflects a 40% or higher potential default rate.

(2) **Financial Statements of Principals.** The Applicant, Developer, any principals of the Applicant, General Partner, and Developer and any Person who will be required to guarantee the Development will be required to provide a signed and dated financial statement and authorization to release credit information in accordance with the Department's program rules.

(A) **Individuals.** The Underwriter will evaluate and discuss financial statements for individuals in a confidential portion of the Report. The Development may be characterized as "high risk" if the Developer, anticipated Guarantor or Principals thereof is determined to have limited net worth or significant lack of liquidity.

(B) **Partnerships and Corporations.** The Underwriter will evaluate and discuss financial statements for partnerships and corporations in the Report. The Development may be characterized as "high risk" if the Developer, anticipated Guarantor or Principals thereof is determined to have limited net worth or significant lack of liquidity.

(C) If the Development is characterized as a high risk for either lack of previous experience as determined by the TDHCA division responsible for compliance or a higher potential default rate is identified as described in paragraph (1) or (2) of this subsection, the Report must condition any potential award upon the identification and inclusion of additional Development partners who can meet the Department's guidelines.

(~~f~~g)~~(g)~~ **Other Underwriting Considerations.** The Underwriter will evaluate numerous additional elements as described in subsection (b) of this section and those that require further elaboration are identified in this subsection.

(1) **Floodplains.** The Underwriter evaluates the site plan, floodplain map, survey and other information provided to determine if any of the buildings, drives, or parking areas reside within the 100-year floodplain. If such a determination is made by the Underwriter, the Report will include a condition that:

(A) The Applicant must pursue and receive a Letter of Map Amendment (LOMA) or Letter of Map Revision (LOMR-F); or

(B) The Applicant must identify the cost of flood insurance for the buildings and for the tenant's contents for buildings within the 100-year floodplain; or

(C) The Development must be designed to comply with the QAP, as proposed.

(2**)** ~~**Inclusive Capture Rate.** The Underwriter will not recommend the approval of funds to new Developments requesting funds if the anticipated inclusive capture rate, as defined in §1.33 of this title, exceeds 25% for the Primary Market unless:~~

~~(A) The Developments is classified as a Rural Development according to the QAP, as proposed, in which case an inclusive capture rate of 100% is acceptable; or~~

~~(B) The Development is strictly targeted to the elderly or special needs populations, in which case an inclusive capture rate of 100% is acceptable; or~~

~~(C) The Development is comprised of Affordable Housing which replaces previously existing substandard Affordable Housing within the same Primary Market Area on a Unit for Unit basis, and which gives the displaced tenants of the previously existing Affordable Housing a leasing preference, in which case an inclusive capture rate is not applicable.~~

~~(3)~~ The Underwriter will identify in the report any Developments funded or known and anticipated to be eligible for funding within one linear mile of the subject.

(3)~~(4)~~ **Supportive Housing.** The unique development and operating characteristics of Supportive Housing Developments may require special consideration in the following areas:

(A) **Operating Income.** The extremely-low-income tenant population typically targeted by a Supportive Housing Development may include deep-skewing of rents to well below the 50% AMI level or other maximum rent limits established by the Department. The Underwriter should utilize the Applicant's proposed rents in the Report as long as such rents are at or below the maximum rent limit proposed for the units and equal to any project based rental subsidy rent to be utilized for the Development.

(B) **Operating Expenses.** A Supportive Housing Development may have significantly higher expenses for payroll, security, resident support services, or other items than typical Affordable Housing Developments. The Underwriter will rely heavily upon the historical operating expenses of other Supportive Housing Developments provided by the Applicant or otherwise available to the Underwriter.

(C) **DCR and Long Term Feasibility.** Supportive Housing Developments may be exempted from the DCR requirements of subsection (d)(4)(D) of this section if the Development is anticipated to operate without conventional debt. Applicants must provide evidence of sufficient financial resources to offset any projected 20-year ~~30-year~~ cumulative negative cash flows. Such evidence will be evaluated by the Underwriter on a case-by-case basis to satisfy the Department's long term feasibility requirements and may take the form of one or a combination of the following: executed subsidy commitment(s), set-aside of Applicant's financial resources, to be substantiated by an audited financial statement evidencing sufficient resources, and/or proof of annual fundraising success sufficient to fill anticipated operating losses. If either a set aside of financial resources or annual fundraising are used to evidence the long term feasibility of a Supportive Housing Development, a resolution from the Applicant's governing board must be provided confirming their irrevocable commitment to the provision of these funds and activities.

(D) **Development Costs.** For Supportive Housing that is styled as efficiencies, the Underwriter may use "Average Quality" dormitory costs from the Marshall & Swift Valuation Service, with adjustments for amenities and/or quality as evidenced in the application, as a base cost in evaluating the reasonableness of the Applicant's direct construction cost estimate for new construction Developments.

(~~g~~h)~~(h)~~ **Work Out Development.** Developments that are underwritten subsequent to Board approval in order to refinance or gain relief from restrictions may be considered infeasible based on the guidelines in this section, but may be characterized as "the best available option" or "acceptable available option" depending on the circumstances and subject to the discretion of the Underwriter as long as the option analyzed and recommended is more likely to achieve a better financial outcome for the property and the Department than the status quo.

(~~h~~i)~~(i)~~ **Feasibility Conclusion.** An infeasible Development will not be recommended for funding or allocation unless the Underwriter can determine a plausible alternative feasible financing structure and conditions the recommendations of the report upon receipt of documentation supporting the alternative feasible financing structure~~accordingly~~. A development will be characterized as infeasible if paragraph (1) of this subsection applies. The Development will be characterized as infeasible if one or more of paragraphs (2) – (4) of this subsection applies unless paragraph (5) of this subsection also applies.

(1) **Inclusive Capture Rate.** Defined in §1.33 of this title. The Underwriter will independently verify the inclusive capture rate. The Development

(A) is characterized as Rural, Elderly or Special Needs and the inclusive capture rate is

(i) above 50% for the total proposed units; or

(ii) above 100% for any Unit type by number of Bedrooms proposed and rent restriction category;

(B) is not characterized as Rural, Elderly or Special Needs and the inclusive capture rate is

(i) above 25% for the total proposed units; or

(ii) above 50% for any Unit type by number of Bedrooms proposed and rent restriction category.

(C) Developments meeting the requirements of subparagraph (A) or (B) of this paragraph may avoid being characterized as infeasible if subclause (i) or (ii) of this clause apply.

(i) Replacement Housing. The Development is comprised of Affordable Housing which replaces previously existing substandard Affordable Housing within the Primary Market Area as defined in §1.33 of this title on a Unit for Unit basis, and gives the displaced tenants of the previously existing substandard Affordable Housing a leasing preference.

(ii) Existing Housing. The Development is comprised of existing Affordable Housing which is at least 80% occupied and gives displaced existing tenants a leasing preference as stated in the submitted relocation plan.

(2) **Restricted Market Rent.** The Restricted Market Rent is

(A) less than both the net Program Rent and Market Rent for units with income and rents restricted at or below 50% of AMGI; or

(B) more than 10% below the lesser of the net Program Rent or Market Rent for units with income and rents restricted at or below 60% of AMGI, but above 50% of AMGI.

(3) **Initial Feasibility.** The Year 1 annual total operating expense divided by the Year 1 Effective Gross Income is greater than 65%.

(4) **Long Term Feasibility.** Any year in the Long Term Proforma, as defined in (d)(5) of this section, reflects

(A) negative Cash Flow; or

(B) a Debt Coverage Ratio below 1.15.

(5) **Exceptions.** Developments meeting the requirements of one or more of paragraphs (2) – (4) of this subsection may be re-characterized as feasible if one or more of subparagraphs (A) – (D) of this paragraph and subparagraph (E) apply.

(A) The Development LURA reflects rents restricted at or below that affordable to the annualized income level calculated by dividing the Restricted Market Rent by 30%, rounded to the next lowest 10%.

(B) The Development will receive Project-based Section 8 Rental Assistance and a firm commitment with terms including contract rent and number of units is submitted at application.

(C)The Development will receive rental assistance in association with USDA-RD-RHS financing.

(D) The Development will be characterized as public housing as defined by HUD.

(E) The units not receiving Project-based Section 8 Rental Assistance or rental assistance in association with USDA-RD-RHS financing, or not characterized as public housing do not propose rents that are less than the Project-based Section 8, USDA-RD-RHS financing, or public housing units.

§1.33 Market Analysis Rules and Guidelines

(a) **General Provision.** A Market Analysis prepared for the Department must evaluate the need for decent, safe, and sanitary housing at rental rates or sales prices that eligible tenants can afford. The analysis must determine the feasibility of the subject Property rental rates or sales price and state conclusions as to the impact of the Property with respect to the determined housing needs.

(b) **Self-Contained.** A Market Analysis prepared for the Department must allow the reader to understand the market data presented, the analysis of the data, and the conclusions derived from such data. All data presented should reflect the most current information available and the report must provide a parenthetical (in-text) citation or footnote describing the data source. The analysis must clearly lead the reader to the same or similar conclusions reached by the Market Analyst. All steps leading to a calculated figure must be presented in the body of the report.

(c) **Market Analyst Qualifications.** A Market Analysis submitted to the Department must be prepared and certified by an approved Qualified Market Analyst (§2306.67055). The Department will maintain an approved Market Analyst list based on the guidelines set forth in paragraphs (1) through (3) of this subsection.

(1) If not listed as approved by the Department, Market Analysts must submit subparagraphs (A) through (F) of this paragraph at least thirty days prior to the first day of the Application Acceptance Period for which the Market Analyst must be approved. To maintain status as an approved Qualified Market Analyst, updates to the items described in subparagraphs (A) through (C) of this paragraph must be submitted annually on the first Monday in February for review by the Department.

(A) Documentation of good standing in the State of Texas.

(B) A current organization chart or list reflecting all members of the firm who may author or sign the Market Analysis.

(C) Resumes for all members of the firm or subcontractors who may author or sign the Market Analysis.

(D) General information regarding the firm's experience including references, the number of previous similar assignments and time frames in which previous assignments were completed.

(E) Certification from an authorized representative of the firm that the services to be provided will conform to the Department's Market Analysis Rules and Guidelines, as described in this section, in effect for the application round in which each Market Analysis is submitted.

(F) A sample Market Analysis that conforms to the Department's Market Analysis Rules and Guidelines, as described in this section, in effect for the year in which the sample Market Analysis is submitted.

(2) During the underwriting process each Market Analysis will be reviewed and any discrepancies with the rules and guidelines set forth in this section may be identified and require timely correction. Subsequent to the completion of the application round and as time permits, staff or a review appraiser will re-review a sample set of submitted market analyses to ensure that the Department's Market Analysis Rules and Guidelines are met. If it is found that a Market Analyst has not conformed to the Department's Market Analysis Rules and Guidelines, as certified to, the Market Analyst will be notified of the discrepancies in the Market Analysis and will be removed from the approved Qualified Market Analyst list.

(A) In and of itself, removal from the list of approved Market Analysts will not invalidate a Market Analysis commissioned prior to the removal date and at least 90 days prior to the first day of the applicable Application Acceptance Period.

(B) To be reinstated as an approved Qualified Market Analyst, the Market Analyst must amend the previous report to remove all discrepancies or submit a new sample Market Analysis that conforms to the Department's Market Analysis Rules and Guidelines, as described in this section, in effect for the year in which the updated or new sample Market Analysis is submitted.

(3) The list of approved Qualified Market Analysts is posted on the Department's web site and updated within 72 hours of a change in the status of a Market Analyst.

(d) **Market Analysis Contents.** A Market Analysis for a rental Development prepared for the Department must be organized in a format that follows a logical progression and must include, at minimum, items addressed in paragraphs (1) through (12)~~(13)~~ of this subsection.

(1) **Title Page.** Include Property address or location, effective date of analysis, date report completed, name and address of person authorizing report, and name and address of Market Analyst.

(2) **Letter of Transmittal.** The date of the letter must be the date the report was completed. Include Property address or location, description of Property, statement as to purpose and scope of analysis, reference to accompanying Market Analysis report with effective date of analysis and summary of conclusions, date of Property inspection, name of persons inspecting subject Property, and signatures of all Market Analysts authorized to work on the assignment. Include a statement that the report preparer has read and understood the requirements of this section.

(3) **Table of Contents.** Number the exhibits included with the report for easy reference.

~~(4) **Summary Form.** Complete and include the most current TDHCA Primary Market Area Analysis Summary form. An electronic version of the form and instructions are available on the Department's website at http://www.tdhca.state.tx.us/rea/.~~

(4)~~(5)~~ **Assumptions and Limiting Conditions.** Include a description of all assumptions, both general and specific, made by the Market Analyst concerning the Property.

(5)~~(6)~~ **Identification of the Property.** Provide a statement to acquaint the reader with the Development. Such information includes street address, tax assessor's parcel number(s), and Development characteristics.

(6)~~(7)~~ **Statement of Ownership.** Disclose the current owners of record and provide a three year history of ownership for the subject Property.

(7)~~(8)~~ **Secondary Market Area.** All of the Market Analyst's conclusions specific to the subject Development must be based on only one Secondary Market Area definition. The entire PMA, as described in paragraph (8)~~(9)~~ of this subsection, must be contained within the Secondary Market boundaries. Secondary Market Demand will be considered for only Qualified Elderly Developments or Developments targeting special needs populations. The Market Analyst must adhere to the methodology described in this paragraph when determining the market area (§2306.67055).

(A) The Secondary Market Area will be defined by the Market Analyst with boundaries based on ~~(in descending order of TDHCA preference)~~

(i) major roads,

(ii) political boundaries, and
(iii) natural boundaries.
(iv) A radius is prohibited as a boundary definition.

(B) The Market Analyst's definition of the Secondary Market Area must be supported with a detailed description of the methodology used to determine the boundaries. If applicable, the Market Analyst must place special emphasis on data used to determine an irregular shape for the Secondary Market.

(C) A scaled distance map indicating the Secondary Market Area boundaries that clearly identifies the location of the subject Property must be included.

(8)~~(9)~~ **Primary Market Area.** All of the Market Analyst's conclusions specific to the subject Development must be based on only one Primary Market Area definition. The Market Analyst must adhere to the methodology described in this paragraph when determining the market area (§2306.67055).

(A) The Primary Market Area will be defined by the Market Analyst with
(i) size based on a base year population of no more than
(I) 100,000 people for Developments targeting the general population, and
(II) 250,000 people for Qualified Elderly Developments or Developments targeting special needs populations,
(ii) boundaries based on ~~(in descending order of TDHCA preference)~~
(I) major roads,
(II) political boundaries, and
(III) natural boundaries.
(IV) A radius is prohibited as a boundary definition.

(B) The Market Analyst's definition of the Primary Market Area must be supported with a detailed description of the methodology used to determine the boundaries. If applicable, the Market Analyst must place special emphasis on data used to determine an irregular shape for the PMA.

(C) A scaled distance map indicating the Primary Market Area boundaries that clearly identifies the location of the subject Property and the location of all Local Amenities must be included.

(9)~~(10)~~ **Market Information.**

(A) For each of the defined market areas, identify the number of units for each of the categories in clauses (i) through (vi) of this subparagraph; the data must be clearly labeled as relating to either the PMA or the Secondary Market, if applicable
(i) total housing,
(ii) rental developments,
(iii) Affordable Housing,
(iv) Comparable Units,
(v) Unstabilized Comparable Units, and
(vi) proposed Comparable Units.

(B) **Occupancy.** The occupancy rate indicated in the Market Analysis may be used to support both the overall demand conclusion for the proposed Development and the vacancy rate assumption used in underwriting the Development (§1.32(d)(1)(C)). State the overall physical occupancy rate for the proposed housing tenure (renter or owner) within the defined market areas by
(i) number of Bedrooms,
(ii) quality of construction (class),
(iii) Targeted Population, and
(iv) Comparable Units.

(C) **Absorption.** State the absorption trends by quality of construction (class) and absorption rates for Comparable Units.

(D) **Turnover.** The turnover rate should be specific to the Targeted Population. The data supporting the turnover rate must originate from documented turnover rates from at least one of the following ~~(in descending order of TDHCA preference)~~
(i) Comparable Units,
(ii) the defined PMA,
(iii) the defined Secondary Market, and
(iv) a Third Party data collection agency or demographer.

(E) **Demand.** Provide a comprehensive evaluation of the need for the proposed housing for each Unit type by number of Bedrooms proposed and rent restriction category within the defined market areas using the most current census and demographic data available.

(i) **Demographics.**

(I) **Population.** Provide population and household figures, supported by actual demographics, for a five-year period with the year of application as the base year.

(II) **Target.** If applicable, adjust the household projections for the Qualified Elderly or special needs population targeted by the proposed Development. State the target adjustment rate.

(III) **Household Size-Appropriate.** Adjust the household projections or target household projections, as applicable, for the appropriate household size for the proposed Unit type by number of Bedrooms proposed and rent restriction category~~Development~~ based on 1.5 persons per Bedroom~~bedroom~~ (round up). State the Household Size-Appropriate adjustment rate.

(IV) **Income Eligible.** Adjust the household size appropriate projections for income eligibility based on the income bands for the proposed Unit type by number of Bedrooms proposed and rent restriction category ~~Development~~ with

(-a-) the lower end of each income band calculated based on the lowest gross rent proposed divided by 35% for the general population and 40% for Qualified Elderly households, and

(-b-) the upper end of each income band equal to the applicable gross median income limit for the largest appropriate household size based on 1.5 persons per Bedroom~~bedroom~~ (round up).

(-c-) State the Income Eligible adjustment rate.

(V) **Tenure-Appropriate.** Adjust the income-eligible household projections for tenure (renter or owner). State the Tenure-Appropriate adjustment rate.

(ii) **Demand from Turnover.** Apply the turnover rate as described in subparagraph (D) of this paragraph to the target, income-eligible, size-appropriate and tenure-appropriate households in the PMA projected at ~~twelve months prior to~~ the proposed placed in service date.

(iii) **Demand from Population Growth.** Calculate the target, income-eligible, size-appropriate and tenure-appropriate household growth in the PMA for the twelve month period following ~~prior to~~ the proposed placed in service date.

(iv) **Demand from Other Sources.** The source of additional demand and the methodology used to calculate the additional demand must be clearly stated. Calculation of additional demand must factor in the adjustments described in clause (i) of this subparagraph.

(10)~~(11)~~ **Conclusions.** Include a comprehensive evaluation of the subject Property, separately addressing each housing type and specific population to be served by the Development in terms of items in subparagraphs (A) through (G) of this paragraph. All conclusions must be consistent with the data and analysis presented throughout the Market Analysis.

(A) **Unit Mix.** Provide a best possible unit mix conclusion based on the occupancy rates by Bedroom~~bedroom~~ type within the PMA and target, income-eligible, size-appropriate and tenure-appropriate household demand within the PMA.

(B) **Rents.** Provide a separate market rent and Restricted Market Rent ~~subsidized rent~~ conclusion for each proposed Unit~~unit~~ type by ~~(~~number of Bedrooms~~bedrooms or net rentable square footage)~~ and rent restriction category. Conclusions of Market Rents~~market rents~~ or Restricted Market Rent ~~subsidized rents~~ below the maximum net Program Rent~~program rent~~ limit must be well documented as the conclusions may impact the feasibility of the Development under §1.32(i).

(i) **Comparable Units.** Identify developments in the PMA with Comparable Units. In Primary Market Areas lacking sufficient rent comparables, it may be necessary for the Market Analyst to collect data from markets with similar characteristics and make quantifiable location adjustments. Provide a data sheet for each development consisting of

(I) Development name,

(II) address,

(III) year of construction and year of rehabilitation, if applicable,

(IV) property condition,

(V) population target,

(VI) unit mix specifying number of Bedrooms ~~bedrooms~~, number of baths, net rentable square footage and

(-a-) monthly rent, or

(-b-) sales price with terms, marketing period and date of sale,
(VII) description of concessions,
(VIII) list of unit amenities,
(IX) utility structure,
(X) list of common amenities, and
(XI) for rental developments only
(-a-) occupancy, and
(-b-) turnover.

(ii) Provide a scaled distance map indicating the Primary Market Area boundaries that clearly identifies the location of the subject Property and the location of the identified developments with Comparable Units.

(iii) **Rent Adjustments.** In support of the Market Rent ~~market rent~~ and Restricted Market Rent ~~subsidized rent~~ conclusions, provide a separate attribute adjustment matrix for each proposed unit type by ~~(~~number of Bedrooms~~bedrooms or net rentable square footage)~~ and rental restriction category.

(I) The Department recommends use of HUD Form 92273.

(II) A minimum of three developments must be represented on each attribute adjustment matrix.

(III) Adjustments for concessions must be included, if applicable.

(IV) Total adjustments in excess of 15% must be supported with additional narrative.

(V) Total adjustments in excess of 25% indicate the Units are not comparable for the purposes of determining Market Rent and Restricted Market Rent conclusions~~suggest a weak comparable~~.

(C) **Effective Gross Income.** Provide rental income, secondary income, and vacancy and collection loss projections for the subject derived independent of the Applicant's estimates.

(D) **Demand.** State the target, income-eligible, size-appropriate and tenure-appropriate household demand by Unit type by number of Bedrooms proposed and rent restriction category (e.g. one-Bedroom units restricted at 50% of AMFI; two-Bedroom units restricted at 60% of AMFI) by summing the demand components discussed in paragraphs (9)(E)(ii) through (iv) of this subsection. State the total target, income-eligible, size-appropriate and tenure-appropriate household demand by summing the demand components discussed in paragraphs ~~(10)~~(9)(E)(ii) through (iv) of this subsection.

(E) **Inclusive Capture Rate.** The Market Analyst must calculate inclusive capture rates for the subject Development's proposed Unit types by number of Bedrooms and rent restriction categories~~program Units~~, market rate Units, if applicable, and total Units. The Underwriter will adjust the inclusive capture rates to take into account any errors or omissions. To calculate an inclusive capture rate

(i) total

(I) the proposed subject Units,

(II) Comparable Units with priority, as defined in §50.9(e)(2) of this title, over the subject that have made application to TDHCA and have not been presented to the TDHCA Board for decision and

(III) ~~previously approved, but Unstabilized~~ Comparable Units in previously approved but Unstabilized Developments, and

(ii) divide by the total target, income-eligible, size-appropriate and tenure-appropriate household demand stated in subparagraph (D) of this paragraph.

(iii) Refer to §1.32(i) for feasibility criteria.

(F) **Absorption.** Project an absorption period for the subject Development to achieve Sustaining Occupancy. State the absorption rate.

(G) **Market Impact.** Provide an assessment of the impact the subject Development, as completed, will have on existing program Developments in the Primary Market (§2306.67055).

(11)~~(12)~~ **Photographs.** Provide labeled color photographs of the subject Property, the neighborhood, street scenes, and comparables. An aerial photograph is desirable but not mandatory.

(12)~~(13)~~ **Appendices.** Any Third Party reports including demographics relied upon by the Market Analyst must be provided in appendix form. A list of works cited including personal communications also must be provided, and the Modern Language Association (MLA) format is suggested.

(e) The Department reserves the right to require the Market Analyst to address such other issues as may be relevant to the Department's evaluation of the need for the subject Development and the provisions of the particular program guidelines.

(f) All Applicants shall acknowledge, by virtue of filing an application, that the Department shall not be bound by any such opinion or Market Analysis, and may substitute its own analysis and underwriting conclusions for those submitted by the Market Analyst.

§1.34 Appraisal Rules and Guidelines

(a) **General Provision~~s~~.** An ~~A~~appraisal~~s~~ prepared for the Department must conform to the Uniform Standards of Professional Appraisal Practice (USPAP) as adopted by the Appraisal Standards Board of the Appraisal Foundation.

(b) **Self-Contained.** ~~Self-contained reports~~An appraisal prepared for the Department must describe sufficient and adequate data and analyses to support the final opinion of value. The final value(s) must be reasonable, based on the information included. Any Third Party reports relied upon by the appraiser must be verified by the appraiser as to the validity of the data and the conclusions. ~~The report must contain sufficient data, included in the appendix when possible, and analysis to allow the reader to understand the property being appraised, the market data presented, analysis of the data, and the appraiser's value conclusion. The complexity of this requirement will vary in direct proportion with the complexity of the real estate and real estate interest being appraised. The report should lead the reader to the same or similar conclusion(s) reached by the appraiser.~~

(c) **Appraiser Qualifications.** The qualifications of each appraiser are determined on a case-by-case basis by the Director of Real Estate Analysis or review appraiser, based upon the quality of the report itself and the experience and educational background of the appraiser. At minimum, a qualified appraiser must be appropriately certified or licensed by the Texas Appraiser Licensing and Certification Board.

~~(b) Upon completion of the report, an electronic copy should be transmitted to TDHCA, and an original hard copy must be submitted.~~

~~(c) **Value Estimates.**~~

~~(1) All appraisals shall contain a separate estimate of the "as vacant" market value of the underlying land, based upon current sales comparables.~~

~~(2) Appraisal assignments for new construction are required to provide an "as completed" value of the proposed structures. These reports shall provide an "as restricted with favorable financing" value as well as an "unrestricted market" value.~~

~~(3) Reports on Properties to be rehabilitated shall address the "as restricted with favorable financing" value as well as both an "as is" value and an "as completed" value.~~

~~(4) If required the appraiser must include a separate assessment of personal property, furniture, fixtures, and equipment (FF&E) and/or intangible items. This separate assessment may be required because their economic life may be shorter than the real estate improvements and may require different lending or underwriting considerations. If personal property, FF&E, or intangible items are not part of the transaction or value estimate, a statement to such effect should be included.~~

~~(d) **Date of Appraisal.** The appraisal report must be dated and signed by the appraiser who inspected the property. The date of valuation should not be more than six months prior to the date of application to the Department unless the Department's program rules indicate otherwise.~~

~~(e) **Appraiser Qualifications.** The qualifications of each appraiser are determined and approved on a case-by-case basis by the Director of Real Estate Analysis or review appraiser, based upon the quality of the report itself and the experience and educational background of the appraiser, as set forth in the Statement of Qualifications appended to the appraisal. At minimum, a qualified appraiser must be appropriately certified or licensed for the type of appraisal being performed by the Texas Appraiser Licensing and Certification Board.~~

(d~~f~~) **Appraisal Contents.** An appraisal prepared for the Department must be organized in a format that follows a logical ~~progression~~ progression~~and~~. In addition to the contents described in USPAP Standards Rule 2, the appraisal must include~~, at minimum,~~ items addressed in paragraphs (1) through (12) ~~(138)~~ of this subsection.

(1) **Title Page.** Include a statement identifying ~~Include identification as to the type of appraisal submitted (e.g., type of process--complete or limited, type of report--self-contained, summary or restricted), property address and/or location, housing type,~~ the Department ~~addressed~~ as the client, ~~or~~

acknowledging~~gement~~ that ~~THDCA~~ the Department is granted full authority to rely on the findings of the report, and~~,~~ ~~effective date of value estimate(s), date of report,~~ name and address of person authorizing report. ~~, and name and address of appraiser(s).~~

(2) **Letter of Transmittal**. Include ~~Include date of letter, property address and/or location, description of property type, extraordinary/special assumptions or limiting conditions that were approved by person authorizing the assignment, statement as to function of the report, statement of property interest being appraised, statement as to appraisal process (complete or limited), statement as to reporting option (self-contained, summary or restricted),~~ reference to accompanying appraisal report, reference to all person(s) that provided significant assistance in the preparation of the report, date of report, effective date of appraisal, date of property inspection, name of person(s) inspecting the property, tax assessor's parcel number(s) of the site, ~~identification of type(s) of value(s) estimated (e.g., market value, leased fee value, as-financed value, etc.),~~ estimate of marketing period, and signatures of all appraisers authorized to work on the assignment including ~~.~~ the appraiser who inspected the property. Include a statement indicating the report preparer has read and understood the requirements of this section.

(3) **Table of Contents.** Number the exhibits included with the report for easy reference.

~~(4) **Assumptions and Limiting Conditions.** Include a summary of all assumptions, both general and specific, made by the appraiser(s) concerning the property being appraised. Statements may be similar to those recommended by the Appraisal Institute.~~

~~(5) **Certificate of Value.** This section may be combined with the letter of transmittal and/or final value estimate. Include statements similar to those contained in Standard Rule 2-3 of USPAP.~~

(4~~6~~) **Disclosure of Competency.** Include appraiser's qualifications, detailing education and experience.~~, as discussed in subsection (e) of this section.~~

~~(7) **Identification of the Property.** Provide a statement to acquaint the reader with the property. Real estate being appraised must be fully identified and described by street address, tax assessor's parcel number(s), and Development characteristics. Include a full, complete, legible, and concise legal description.~~

(5~~8~~) **Statement of Ownership of the Subject Property.** Discuss all prior sales of the subject property which occurred within the past three years. Any pending agreements of sale, options to buy, or listing of the subject property must be disclosed in the appraisal report.

(6~~9~~) ~~**Purpose and Function of the Appraisal.** Provide a brief comment stating the purpose of the appraisal and a statement citing the function of the report.~~

~~(A)~~ **Property Rights Appraised.** Include a statement as to the property rights (e.g., fee simple interest, leased fee interest, leasehold, etc.) being considered. The appropriate interest must be defined in terms of current appraisal terminology with the source cited.

~~(B) **Definition of Value Premise.** One or more types of value (e.g., "as is," "as if," "prospective market value") may be required. Definitions corresponding to the appropriate value must be included with the source cited.~~

~~(10) **Scope of the Appraisal.** Address and summarize the methods and sources used in the valuation process. Describes the process of collecting, confirming, and reporting the data used in the assignment.~~

~~(**11) Regional Area Data.** Provide a general description of the geographic location and demographic data and analysis of the regional area. A map of the regional area with the subject identified is requested, but not required.~~

~~(12**) Neighborhood Data.** Provide a specific description of the subject's geographical location and specific demographic data and an analysis of the neighborhood. A summary of the neighborhood trends, future Development, and economic viability of the specific area should be addressed. A map with the neighborhood boundaries and the subject identified must be included.~~

(~~1~~7~~3~~) **Site/Improvement Description.** Discuss the site characteristics including subparagraphs (A) through (E~~F~~) of this paragraph.

(A) **Physical Site Characteristics.** Describe dimensions, size (square footage, acreage, etc.), shape, topography, corner influence, frontage, access, ingress-egress, etc. associated with the site. Include a plat map and/or survey.

(B) **Floodplain.** Discuss floodplain (including flood map panel number) and include a floodplain map with the subject clearly identified.

(C) **Zoning.** Report the current zoning and description of the zoning restrictions and/or deed restrictions, where applicable, and type of Development permitted. Any probability of change in zoning should be discussed. A statement as to whether or not the improvements conform to the current zoning should be included. A statement addressing whether or not the improvements could be rebuilt if damaged or destroyed, should be included. If current zoning is not consistent with the h~~H~~ighest and b~~B~~est u~~U~~se, and zoning changes are reasonable to expect, time and expense associated with the proposed zoning change should be considered and documented. A zoning map should be included.

(D) **Description of Improvements.** Provide a thorough description and analysis of the improvements including size (net rentable area, gross building area, etc.), number of stories, number of buildings, type/quality of construction, condition, actual age, effective age, exterior and interior amenities, items of deferred maintenance, etc. All applicable forms of depreciation should be addressed along with the remaining economic life.

~~(E) **Fair Housing.** It is recognized appraisers are not an expert in such matters and the impact of such deficiencies may not be quantified; however, the report should disclose any potential violations of the Fair Housing Act of 1988, Section 504 of the Rehabilitation Act of 1973, and the Americans with Disabilities Act of 1990 and/or report any accommodations (e.g., wheelchair ramps, handicap parking spaces, etc.) which have been performed to the property or may need to be performed.~~

(~~F~~E) **Environmental Hazards.** It is recognized appraisers are not ~~an~~ experts in such matters ~~and the impact of such deficiencies may not be quantified; however,~~however; the report should disclose any potential environmental hazards (e.g., discolored vegetation, oil residue, asbestos-containing materials, lead-based paint etc.) noted during the inspection.

(~~1~~8~~4~~) **Highest and Best Use.** Market Analysis and feasibility study is required as part of the highest and best use. The highest and best use analysis should consider paragraph (7~~13~~)(A) through (E~~F~~) of this subsection as well as a supply and demand analysis.

(A) The appraisal must inform the reader of any positive or negative market trends which could influence the value of the appraised property. Detailed data must be included to support the appraiser's estimate of stabilized income, absorption, and occupancy.

(B) The highest and best use section must contain a separate analysis "as if vacant" and "as improved" (or "as proposed to be improved/renovated"). All four elements ~~in appropriate order as outlined in the Appraisal of Real Estate~~ (legally permissible, physically possible, feasible, and maximally productive) must be ~~sequentially~~ considered.

(~~15)~~9) **Appraisal Process.** ~~The Cost Approach, Sales Comparison Approach and Income Approach are three recognized appraisal approaches to valuing most properties.~~ It is mandatory that all three approaches, Cost Approach, Sales Comparison Approach and Income Approach, are considered in valuing the property. ~~unless specifically instructed by the Department to ignore one or more of the approaches; or unless reasonable appraisers would agree that use of an approach is not applicable.~~ If an approach is not applicable to a particular property~~,~~ an adequate explanation must be provided. A land value estimate must be provided if the cost approach is not applicable. ~~then omission of such approach must be fully and adequately explained.~~

(A) **Cost Approach.** This approach should give a clear and concise estimate of the cost to construct the subject improvements. The ~~type of cost (reproduction or replacement) and~~ source(s) of the cost data should be reported.

(i) Cost comparables are desirable; however, alternative cost information may be obtained from Marshall & Swift Valuation Service or similar publications. The section, class, page, etc. should be referenced. All soft costs and entrepreneurial profit must be addressed and documented.

(ii) All applicable forms of depreciation must be discussed and analyzed. Such discussion must be consistent with the description of the improvements ~~analysis~~.

(iii) The land value estimate should include a sufficient number of sales which are current, comparable, and similar to the subject in terms of highest and best use. Comparable sales information should include address, legal description, tax assessor's parcel number(s), sales price, date of sale, grantor, grantee, three year sales history, and adequate description of property transferred. The final value estimate should fall within the adjusted and unadjusted value ranges. Consideration and appropriate cash equivalent adjustments to the comparable sales price for subclauses (I) though (VII) of this clause should be made when applicable.

(I) Property rights conveyed.
(II) Financing terms.
(III) Conditions of sale.
(IV) Location.
(V) Highest and best use.

(VI) Physical characteristics (e.g., topography, size, shape, etc.).

(VII) Other characteristics (e.g., existing/proposed entitlements, special assessments, etc.).

(B) **Sales Comparison Approach.** This section should contain an adequate number of sales to provide the reader with a description of the ~~the~~ current market conditions concerning this property type. Sales data should be recent and specific for the property type being appraised. The sales must be confirmed with buyer, seller, or an individual knowledgeable of the transaction.

(i) ~~Minimum content of the s~~Sales information should include address, legal description, tax assessor's parcel number(s), sales price, financing considerations~~,~~ and adjustment for cash equivalency, date of sale, recordation of the instrument, parties to the transaction, three year sale history, complete description of the property and property rights conveyed, and discussion of marketing time. A scaled distance map clearly identifying the subject and the comparable sales must be included.

(ii) ~~Several methods may be utilized in the Sale Comparison Approach.~~ The method(s) used in the Sales Comparison Approach must be reflective of actual market activity and market participants.

(I) **Sale Price/Unit of Comparison.** The analysis of the sale comparables must identify, relate, and evaluate the individual adjustments applicable for property rights, terms of sale, conditions of sale, market conditions, and physical features. Sufficient narrative ~~analysis~~ must be included to permit the reader to understand the direction and magnitude of the individual adjustments, as well as a unit of comparison value indicator for each comparable. ~~The appraiser(s) reasoning and thought process must be explained.~~

~~(II) **Potential Gross Income/Effective Gross Income Analysis.** If used in the report, this method of analysis must clearly indicate the income statistics for the comparables. Consistency in the method for which such economically statistical data was derived should be applied throughout the analysis. At least one other method should accompany this method of analysis.~~

(II~~I~~) **Net Operating Income/Unit of Comparison.** ~~If used in the report, t~~The net operating income statistics for the comparables must be calculated in the same manner~~ and disclosed as such~~. It should be disclosed if reserves for replacement have been included in this method of analysis. At least one other method should accompany this method of analysis.

(C) **Income Approach.** This section ~~is to~~must contain an analysis of both the actual historical and projected income and expense aspects of the subject property.

(i) **Market Rent Estimate/Comparable Rental Analysis.** This section of the report should include an adequate number of actual market transactions to inform the reader of current market conditions concerning rental units. The comparables must indicate current research for this specific property type. The ~~rental~~ comparables must be confirmed with the landlord, tenant or agent and individual data sheets must be included. The ~~minimum content of the~~ individual data sheets should include property address, lease terms, description of the property (e.g., unit type, unit size, unit mix, interior amenities, exterior amenities, etc.), physical characteristics of the property, and location of the comparables. Analysis of the Market Rents should be sufficiently detailed to permit the reader to understand the appraiser's logic and rationale. Adjustment for lease rights, condition of the lease, location, physical characteristics of the property, etc. must be considered.

(ii) **Comparison of Market Rent to Contract Rent.** Actual income for the subject along with the owner's current budget projections must be reported, summarized, and analyzed. If such data is unavailable, a statement to this effect is required and appropriate assumptions and limiting conditions should be made. The contract rents should be compared to the market-derived rents. A determination should be made as to whether the contract rents are below, equal to, or in excess of market rates. If there is a difference, its impact on value must be qualified.

(iii) **Vacancy/Collection Loss.** Historical occupancy data and current occupancy level for the subject should be reported and compared to occupancy data from the rental comparables and overall occupancy data for the subject's Primary Market.

(iv) **Expense Analysis.** Actual expenses for the subject, along with the owner's projected budget, must be reported, summarized, and analyzed. If such data is unavailable, a statement to this effect is required and appropriate assumptions and limiting conditions should be made. Historical expenses should be compared to comparable~~s~~ expenses of similar property types or published survey data (e.g., IREM, BOMA, etc.). Any expense differences should be reconciled. ~~Historical~~ Include historical data regarding the subject's assessment and tax rates~~ should be included~~ and ~~.~~ a~~A~~ statement as to whether or not any delinquent taxes exist~~ should be included~~.

(v) **Capitalization.** ~~Several capitalization methods may be utilized in the Income Approach.~~ The appraiser should present the capitalization method(s) reflective of the subject market and explain the omission of any method not considered in the report.

(I) **Direct Capitalization.** The primary method of deriving an overall rate (OAR) is through market extraction. If a band of investment or mortgage equity technique is utilized, the assumptions must be fully disclosed and discussed.

(II) **Yield Capitalization (Discounted Cash Flow Analysis).** This method of analysis should include a detailed and supportive discussion of the projected holding/investment period, income and income growth projections, occupancy projections, expense and expense growth projections, reversionary value and support for the discount rate.

(10) **Value Estimates.** Reconciliation of the final value estimate is required.

(A) All appraisals shall contain a separate estimate of the "as vacant" market value of the underlying land, based upon current sales comparables. The appraiser should consider the fee simple or leased fee interest as appropriate.

(B) Appraisal assignments for new construction are required to provide an "as completed" value of the proposed structures. These reports shall provide an "as restricted with favorable financing" value as well as an "unrestricted market" value.

(C) Reports on Properties to be rehabilitated shall address the "as restricted with favorable financing" value as well as both an "as is" value and an "as completed" value. The appraiser should consider the fee simple or leased fee interest as appropriate.

(D) If required the appraiser must include a separate assessment of personal property, furniture, fixtures, and equipment (FF&E) and/or intangible items. If personal property, FF&E, or intangible items are not part of the transaction or value estimate, a statement to such effect should be included.

~~(116) **Reconciliation and Final Value Estimate.** This section of the report should summarize the approaches and values that were utilized in the appraisal. An explanation should be included for any approach which was not included. Such explanations should lead the reader to the same or similar conclusion of value. Although the values for each approach may not "agree", the differences in values should be analyzed and discussed. Other values or interests appraised should be clearly labeled and segregated. Such values may include FF&E, leasehold interest, excess land, etc. In addition, rent restrictions, subsidies and incentives should be explained in the appraisal report and their impact, if any, needs to be reported in conformity with the Comment section of USPAP Standards Rule 1-2(e), which states, "Separation of such items is required when they are significant to the overall value." In the appraisal of subsidized housing, value conclusions that include the intangibles arising from the programs will also have to be analyzed under a scenario without the intangibles in order to measure their influence on value.~~

(11~~7~~2) **Marketing ~~Period~~Time.** Given property characteristics and current market conditions, the appraiser(s) should employ a reasonable marketing period. The report should detail existing market conditions and assumptions considered relevant.

(12~~8~~3) **Photographs.** Provide good quality color photographs of the subject property (front, rear, and side elevations, on-site amenities, interior of typical units if available). Photographs should be properly labeled. Photographs of the neighborhood, street scenes, and comparables should be included. An aerial photograph is desirable but not mandatory.

(e~~g~~) **Additional Appraisal Concerns.** The appraiser(s) must ~~recognize and~~ be aware of ~~the particular TDHCA~~ Department program rules and guidelines and the appraisal must include analysis of any impact ~~and their relationship~~ to the subject's value~~. Due to the various programs offered by the Department, various conditions may be placed on the subject which would impact value. Furthermore, each program may require that the appraiser apply a different set of specific definitions for the conclusions of value to be provided. Consequently, as a result of such criteria, the appraiser(s) should be aware of such conditions and definitions and clearly identify them in the report.~~

§1.35 Environmental Site Assessment Rules and Guidelines

(a) **General Provisions.** The Environmental Site Assessments (ESA) prepared for the Department should be conducted and reported in conformity with the standards of the American Society for Testing and Materials. The initial report should conform with the Standard Practice for Environmental Site Assessments: Phase I Assessment Process (ASTM Standard Designation: E~~-~~1527-05). Any subsequent reports should also conform to ASTM standards and such other recognized industry standards as a reasonable person would deem relevant in view of the Property's anticipated use for human habitation. The environmental assessment shall be conducted by a Third Party environmental professional at the expense of the Applicant, and addressed to TDHCA as a User of the report (as defined by ASTM standards). Copies of reports provided to TDHCA which were commissioned by other financial institutions should address TDHCA as a co-recipient of the report, or letters from both the provider and the recipient of the report should be submitted extending reliance on the report to TDHCA. The ESA report should also include a statement that the person or company preparing the ESA report will not materially benefit from the Development in any other way than receiving a fee for performing the Environmental Site Assessment, and that the fee is in no way contingent upon the outcome of the assessment~~-~~. The ESA report must contain a statement indicating the report preparer has read and understood the requirements of this section.

(b) In addition to ASTM requirements, the report must

(1) State if a noise study is recommended for a property in accordance with current HUD guidelines and identify its proximity to industrial zones, major highways, active rail lines, civil and military airfields, or other potential sources of excessive noise;

(2) Provide a copy of a current survey, if available, or other drawing of the site reflecting the boundaries and adjacent streets, all improvements on the site, and any items of concern described in the body of the environmental site assessment or identified during the physical inspection;

(3) Provide a copy of the current FEMA Flood Insurance Rate Map showing the panel number and encompassing the site with the site boundaries precisely identified and superimposed on the map.

~~(4) Provide a narrative determination of the flood risk for the proposed Development described in the narrative of the report includes a discussion of the impact of the 100-year floodplain on the proposed Development based upon a review of the current site plan;~~

(4)~~(5)~~ If the subject site includes any improvements or debris from pre-existing improvements, state~~State~~ if testing for asbestos containing materials (ACMs) would be required pursuant to local, state, and federal laws, or recommended due to any other consideration;

(5)~~(6)~~ If the subject site includes any improvements or debris from pre-existing improvements, state~~State~~ if testing for Lead Based Paint would be required pursuant to local, state, and federal laws, or recommended due to any other consideration;

(6)~~(7)~~ State if testing for lead in the drinking water would be required pursuant to local, state, and federal laws, or recommended due to any other consideration such as the age of pipes and solder in existing improvements; and

(7)~~(8)~~ Assess the potential for the presence of Radon on the property, and recommend specific testing if necessary.

(c) If the report recommends further studies or establishes that environmental hazards currently exist on the Property, or are originating off-site but would nonetheless affect the Property, the Development Owner must act on such a recommendation or provide a plan for either the abatement or elimination of the hazard. Evidence of action or a plan for the abatement or elimination of the hazard must be presented upon Application submittal.

~~(d) For Developments which have had a Phase II Environmental Assessment performed and hazards identified, the Development Owner is required to maintain a copy of said assessment on site available for review by all persons which either occupy the Development or are applying for tenancy.~~

(d)~~(e)~~ For Developments in programs that allow a waiver of the Phase I ESA such as a TX-USDA-RHS funded Development, the Development Owners are hereby notified that it is their responsibility to ensure that the Development is maintained in compliance with all state and federal environmental hazard requirements.

(e)~~(f)~~ Those Developments which have or are to receive first lien financing from HUD may submit HUD's environmental assessment report, provided that it conforms ~~with~~to the requirements of this subsection.

§1.36 Property Condition Assessment Guidelines

(a) **General Provisions.** The objective of the Property Condition Assessment (the PCA) is to provide cost estimates for repairs, replacements, or new construction which are: immediately necessary; proposed by the developer; and expected to be required throughout the term of the regulatory period and not less than 30 years. The PCA prepared for the Department should be conducted and reported in conformity with the American Society for Testing and Materials "Standard Guide for Property Condition Assessments: Baseline Property Condition Assessment Process (ASTM Standard Designation: E 2018)" except as provided for in subsections (b) and (c) of this section. The PCA must include discussion and analysis of the following:

(1) **Useful Life Estimates.** For each system and component of the property the PCA should assess the condition of the system or component, and estimate its remaining useful life, citing the basis or the source from which such estimate is derived.

(2) **Code Compliance.** The PCA should review and document any known violations of any applicable federal, state, or local codes. In developing the cost estimates specified herein, it is the responsibility of the Housing Sponsor or Applicant to ensure that the PCA adequately considers any and all applicable federal, state, and local laws and regulations which may govern any work performed to the subject property.

(3) **Program Rules.** The PCA should assess the extent to which any systems or components must be modified, repaired, or replaced in order to comply with any specific requirements of the housing program under which the Development is proposed to be financed, particular consideration being given to accessibility requirements, the Department's Housing Quality Standards, and any scoring criteria for which the Applicant may claim points.

(4) **Cost Estimates for Repair and Replacement.** It is the responsibility of the Housing Sponsor or Applicant to ensure that the PCA provider is apprised of all development activities associated with the proposed transaction and consistency of the total immediately necessary and proposed repair and replacement cost estimates with the development cost schedule submitted as an exhibit of the Application.

(A) **Immediately Necessary Repairs and Replacement.** Systems or components which are expected to have a remaining useful life of less than one year, which are found to be in violation of any applicable codes, which must be modified, repaired or replaced in order to satisfy program rules, or which are otherwise in a state of deferred maintenance or pose health and safety hazards should be considered immediately necessary repair and replacement. The PCA must provide a separate estimate of the costs associated with the repair, replacement, or maintenance of each system or component which is identified as being an immediate need, citing the basis or the source from which such cost estimate is derived.

(B) **Proposed Repair, Replacement, or New Construction.** If the development plan calls for additional repair, replacement, or new construction above and beyond the immediate repair and replacement described in subparagraph (A) of this paragraph, such items must be identified and the nature or source of obsolescence or improvement to the operations of the Property discussed. The PCA must provide a separate estimate of the costs associated with the repair, replacement, or new construction which is identified as being above and beyond the immediate need, citing the basis or the source from which such cost estimate is derived.

(C) **Expected Repair and Replacement Over Time.** The term during which the PCA should estimate the cost of expected repair and replacement over time must equal the longest term of any land use or regulatory restrictions which are, or will be, associated with the provision of housing on the property. The PCA must estimate the periodic costs which are expected to arise for repairing or replacing each system or component or the property, based on the estimated remaining useful life of such system or component as described in paragraph (1) of this subsection adjusted for completion of repair and replacement immediately necessary and proposed as described in subparagraphs (A) and (B) of this paragraph. The PCA must include a separate table of the estimated long term costs which identifies in each line the individual component of the property being examined, and in each column the year during the term in which the costs are estimated to be incurred and no less than 30 years. The estimated costs for future years should be given in both present dollar values and anticipated future dollar values assuming a reasonable inflation factor of not less than 2.5% per annum.

(b) If a copy of such standards or a sample report have been provided for the Department's review, if such standards are widely used, and if all other criteria and requirements described in this section are satisfied, the Department will also accept copies of reports commissioned or required by the primary lender for a proposed transaction, which have been prepared in accordance with:

(1) Fannie Mae's criteria for Physical Needs Assessments,

(2) Federal Housing Administration's criteria for Project Capital Needs Assessments,

(3) Freddie Mac's guidelines for Engineering and Property Condition Reports,

(4) TX-USDA-RHS guidelines for Capital Needs Assessment, or

(5) Standard and Poor's Property Condition Assessment Criteria: Guidelines for Conducting Property Condition Assessments, Multifamily Buildings.

(c) The Department may consider for acceptance reports prepared according to other standards which are not specifically named above in subsection (b) of this section, if a copy of such standards or a sample report have been provided for the Department's review, if such standards are widely used, and if all other criteria and requirements described in this section are satisfied.

(d) The PCA shall be conducted by a Third Party at the expense of the Applicant, and addressed to TDHCA as the client. Copies of reports provided to TDHCA which were commissioned by other financial institutions should address TDHCA as a co-recipient of the report, or letters from both the provider and the recipient of the report should be submitted extending reliance on the report to TDHCA. The PCA report should also include a statement that the person or company preparing the PCA report will not materially benefit from the Development in any other way than receiving a fee for performing the PCA. The PCA report must contain a statement indicating the report preparer has read and understood the requirements of this section. The PCA should be signed and dated by the Third Party report provider not more than ~~six~~ three months prior to the date of the application.

§1.37 Reserve for Replacement Rules and Guidelines

(a) **General Provisions.** The Department will require Developments to provide regular maintenance to keep housing sanitary, safe and decent by maintaining a reserve for replacement in accordance with §2306.186. The reserve must be established for each unit in a Development of 25 or more rental units, regardless of the amount of rent charged for the unit. The Department shall, through cooperation of its divisions responsible for asset management and compliance, ensure compliance with this section.

(b) The First Lien Lender shall maintain the reserve account through an escrow agent acceptable to the First Lien Lender to hold reserve funds in accordance with an executed escrow agreement and the rules set forth in this section and §2306.186.

(1) Where there is a First Lien Lender other than the Department or a Bank Trustee as a result of a bond indenture or tax credit syndication, the Department shall

(A) Be a required signatory party in all escrow agreements for the maintenance of reserve funds;

(B) Be given notice of any asset management findings or reports, transfer of money in reserve accounts to fund necessary repairs, and any financial data and other information pursuant to the oversight of the Reserve Account within 30 days of any receipt or determination thereof;

(C) Subordinate its rights and responsibilities under the escrow agreement, including those described in this subsection, to the First Lien Lender or Bank Trustee through a subordination agreement subject to its ability to do so under the law and normal and customary limitations for fraud and other conditions contained in the Department's standard subordination clause agreements as modified from time to time, to include subsection (c) of this section.

(2) The escrow agreement and subordination agreement, if applicable, shall further specify the time and circumstances under which the Department can exercise its rights under the escrow agreement in order to fulfill its obligations under §2306.186 and as described in this section.

(3) Where the Department is the First Lien Lender and there is no Bank Trustee as a result of a bond indenture or tax credit syndication or where there is no First Lien Lender but the allocation of funds by the Department and §2306.186 requires that the Department oversee a Reserve Account, the Owner shall provide at their sole expense for appointment of an escrow agent acceptable to the Department to act as Bank Trustee as necessary under this section. The Department shall retain the right to replace the escrow agent with another Bank Trustee or act as escrow agent at a cost plus fee payable by the Owner due to breach of the escrow agent's responsibilities or otherwise with 30 days prior notice of all parties to the escrow agreement.

(c) If the Department is not the First Lien Lender with respect to the Development, each Owner receiving Department assistance for multifamily rental housing shall submit on an annual basis within the Department's required Owner's Financial Certification packet a signed certification by the First Lien Lender including:

(1) Reserve for replacement requirements under the first lien loan agreement;

(2) Monitoring standards established by the First Lien Lender to ensure compliance with the established reserve for replacement requirements; and

(3) A statement by the First Lien Lender

(A) That the Development has met all established reserve for replacement requirements; or

(B) Of the plan of action to bring the Development in compliance with all established reserve for replacement requirements, if necessary.

(d) If the Development meets the minimum unit size described in subsection (a) of this section and the establishment of a Reserve Account for repairs has not been required by the First Lien Lender or Bank Trustee, each Owner receiving Department assistance for multifamily rental housing shall set aside the repair reserve amount as described in subsection (e)(1) through (3) of this section through the date described in subsection (f)(2) of this section through the appointment of an escrow agent as further described in subsection (b)(3) of this section.

(e) If the Department is the First Lien Lender with respect to the Development, each Owner receiving Department assistance for multifamily rental housing shall deposit annually into a Reserve Account through the date described in subsection (f)(2) of this section:

(1) For new construction Developments:

(A) Not less than $150 per unit per year for units one to five years old; and

(B) Not less than $200 per unit per year for units six or more years old.

(2) For rehabilitation Developments:

(A) An amount per unit per year established by the Department's division responsible for credit underwriting based on the information presented in a Property Condition Assessment in conformance with §1.36 of this subchapter; and

(B) Not less than $300 per unit per year.

(3) For either new construction or rehabilitation Developments, the Owner of a multifamily rental housing Development shall contract for a third-party Property Condition Assessment meeting the requirements of §1.36 of this subchapter and the Department will reanalyze the annual reserve requirement based on the findings and other support documentation.

(A) A Property Condition Assessment will be conducted:

(i) At appropriate intervals that are consistent with requirements of the First Lien Lender, other than the Department; or

(ii) At least once during each five-year period beginning with the 11th year after the awarding of any financial assistance for the Development by the Department, if the Department is the First Lien Lender or the First Lien Lender does not require a third-party Property Condition Assessment.

(B) Submission by the Owner to the Department will occur within 30 days of completion of the Property Condition Assessment and must include:

(i) The complete Property Condition Assessment;

(ii) First Lien Lender and/or Owner response to the findings of the Property Condition Assessment;

(iii) Documentation of repairs made as a result of the Property Condition Assessment; and

(iv) Documentation of adjustments to the amounts held in the replacement Reserve Account based upon the Property Condition Assessment.

(f) A Land Use Restriction Agreement or restrictive covenant between the Owner and the Department must require:

(1) The Owner to begin making annual deposits to the reserve account on the later of:

(A) The date that occupancy of the Development stabilizes as defined by the First Lien Lender or in the absence of a First Lien Lender other than the Department, the date the property is at least 90% occupied; or

(B) The date that permanent financing for the Development is completely in place as defined by the First Lien Lender or in the absence of a First Lien Lender other than the Department, the date when the permanent loan is executed and funded.

(2) The Owner to continue making deposits until the earliest of the following dates:

(A) The date on which the Owner suffers a total casualty loss with respect to the Development;

(B) The date on which the Development becomes functionally obsolete, if the Development cannot be or is not restored;

(C) The date on which the Development is demolished;

(D) The date on which the Development ceases to be used as a multifamily rental property; or

(E) The later of

(i) The end of the affordability period specified by the Land Use Restriction Agreement or restrictive covenant; or

(ii) The end of the repayment period of the first lien loan.

(g) The duties of the Owner of a multifamily rental housing Development under this section cease on the date of a change in ownership of the Development; however, the subsequent Owner of the Development is subject to the requirements of this section.

(h) If the Department is the First Lien Lender with respect to the Development or the First Lien Lender does not require establishment of a Reserve Account, the Owner receiving Department assistance for multifamily rental housing shall submit on an annual basis within the Department's required Owner's Financial Certification packet:

(1) Financial statements, audited if available, with clear identification of the replacement Reserve Account balance and all capital improvements to the Development within the fiscal year;

(2) Identification of costs other than capital improvements funded by the replacement Reserve Account; and

(3) Signed statement of cause for:

(A) Use of replacement Reserve Account for expenses other than necessary repairs, including property taxes or insurance;

(B) Deposits to the replacement Reserve Account below the Department's or First Lien Lender's mandatory levels as defined in subsections (c), (d) and (e) of this section; and

(C) Failure to make a required deposit.

(i) If a request for extension or waiver is not approved by the Department, Department action, including a penalty of up to $200 per dwelling unit in the Development and/or characterization of the Development as Materially Non-Compliant, as defined in §60.1 of this title, may be taken when:

(1) A Reserve Account, as described in this section, has not been established for the Development;

(2) The Department is not a party to the escrow agreement for the Reserve Account;

(3) Money in the Reserve Account

(A) Is used for expenses other than necessary repairs, including property taxes or insurance; or

(B) Falls below mandatory deposit levels;

(4) Owner fails to make a required deposit;

(5) Owner fails to contract for the third party Property Condition Assessment as required under subsection (e)(3) of this section; or

(6) Owner fails to make necessary repairs, as defined in subsection (k) of this section.

(j) On a case by case basis, the Department may determine that the money in the Reserve Account may:

(1) Be used for expenses other than necessary repairs, including property taxes or insurance, if:

(A) Development income before payment of return to Owner or deferred developer fee is insufficient to meet operating expense and debt service requirements; and

(B) The funds withdrawn from the Reserve Account are replaced as cashflow after payment of expenses, but before payment of return to Owner or developer fee is available.

(2) Fall below mandatory deposit levels without resulting in Department action, if:

(A) Development income after payment of operating expenses, but before payment of return to Owner or deferred developer fee is insufficient to fund the mandatory deposit levels; and

(B) Subsequent deposits to the Reserve Account exceed mandatory deposit levels as cashflow after payment of operating expenses, but before payment of return to Owner or deferred developer fee is available until the Reserve Account has been replenished to the mandatory deposit level less capital expenses to date.

(k) The Department or its agent may make repairs to the Development if the Owner fails to complete necessary repairs indicated in the submitted Property Condition Assessment or identified by physical inspection. Repairs may be deemed necessary if the Development is notified of the Owner's failure to comply with federal, state and/or local health, safety, or building code.

(1) Payment for necessary repairs must be made directly by the Owner or through a replacement Reserve Account established for the Development under this section.

(2) The Department or its agent will produce a Request for Bids to hire a contractor to complete and oversee necessary repairs.

(l) This section does not apply to a Development for which the Owner is required to maintain a Reserve Account under any other provision of federal or state law.

LEGAL SERVICES DIVISION

BOARD ACTION REQUEST

August 30, 2006

Action Items

Approval of modification of draft rules for publication and public comment for Title 10 Texas Administrative Code §1.7 regarding staff appeals.

Required Action

Approve, reject or approve with modifications the suggested revisions to the rules governing the staff appeals process under Title 10 Texas Administrative Code §1.7.

Background

Current rules regarding the appeal of staff decisions are limited to applicants meeting certain criteria. The change in this rule reflects a greater opportunity to appeal staff decisions to the Executive Director and ultimately the Board on most of the Department's programs and lays out the timelines and allowable issues for appeal.

Key changes include defining a new term, the "Appealing Party," to include the Administrator (of a contract), an Affiliated Party (on decisions impacting their right to conduct business if a corollary rule regarding debarment proceeds), Applicant, or Person (allowed to challenge their Commitment, a Loan Agreement, or change to a LURA). The modifications expand the grounds to appeal to include most transactions currently administered by the Department. The changes do not expand the grounds under which an Applicant may appeal.

The modifications clarify deadlines on notice and when an appeal may be considered. The modifications also address when the Appealing Party may provide new information to the Executive Director and alterations to deadlines for having done so. It further clarifies that to be an Appealing Party, you must be directly related to the item being appealed.

Recommendation

Approve, reject or approve with modifications the suggested revisions to the rules governing the staff appeals process for Title 10 Texas Administrative Code §1.7.

TITLE 10. COMMUNITY DEVELOPMENT
PART 1. TEXAS DEPARTMENT OF HOUSING AND COMMUNITY AFFAIRS
CHAPTER 1. ADMINISTRATION
SUBCHAPTER A. GENERAL POLICIES AND PROCEDURES
RULE 1.7. STAFF APPEALS PROCESS

1.7. Staff Appeals Process

(a) Definitions. The following words and terms, when used in this subchapter, shall have the following meanings, unless the context clearly indicates otherwise.

(1) Administrator--the Person responsible for performing under a Contract with the Department.

(2) Affiliated Party--A person in a relationship with the Administrator on a Contract with the Department. Does not apply to an Affiliated Party for Application purposes.

(3) Appeal--An Appealing Party's notice to challenge a decision or decisions made by staff and/or the Executive Director regarding an Application, Commitment, Contract, Loan Agreement or LURA as governed by this Section 1.7.

(4) ~~(1)~~ Appeal file--The written record of an Appeal ~~appeal~~ that contains the applicant's Appeal; the responses, if any, of Department staff, and the executive director, and the final decision.

(5) Appealing Party--The Administrator, Affiliated Party, Applicant, or Person who files, intends to file, or has filed on their behalf, an Appeal before the Department.

(6) ~~(2)~~ Applicant--A person who has submitted to the Department an Application ~~application~~ for Department funds or other assistance.

(7) ~~(3)~~ Application--The written request for Department funds or other assistance in the format required by the Department including any exhibits or other supporting material.

(8) ~~(4)~~ Board--The Governing Board of the Texas Department of Housing and Community Affairs.

(9) Commitment--A fully executed document that commits the Department to funding or other activity related to a program administered by the Department.

(10) Contract--The executed written agreement between the Department and an Administrator performing an activity related to a program that outlines performance requirements and responsibilities assigned by the document.

(11) ~~(5)~~ Department--The Texas Department of Housing and Community Affairs.

(12) Executive Director--As defined under Texas Government Code §§2306.036 and/or 2306.038

(13) Loan Agreement--An agreement between the Department and a Person regarding the terms and conditions of a loan provided to the Person from the Department.

(14) LURA--A Land Use Restriction Agreement that has been executed by the Department and a Person related to a specific property or properties and filed with the responsible recording authority.

(15) ~~(6)~~ Person—Any individual, partnership, corporation, association, unit of government, community action agency, or public or private organization of any character.

(b) Grounds to Appeal Staff Decision. This appeal process is available to an Appealing Party under the following grounds:

(1) ~~any Applicant, including for tax exempt bonds and low income housing tax credits under 26 U.S.C. §42, except for low income housing tax credits which are subject to the State housing credit ceiling and which have a separate appeals process.~~ An Applicant for funding—including tax exempt bonds and low income housing tax credits under 26 U.S.C. §42, (except for low income housing tax credits which are subject to the State housing credit ceiling and which have a separate appeals process) -or other assistance from the Department may only appeal the disposition of the Application by Department staff based on one or more of the following: ~~grounds.~~

(A) ~~(1)~~ Misplacement of an Application where all ~~All~~ or a portion of the Application is lost, misfiled, or otherwise misplaced by Department staff resulting in unequal consideration of the Applicant's proposal.

(B) ~~(2)~~ Mathematical error where in ~~In~~ rating an Application, the score on any selection criteria is incorrectly computed by the Department due to human or computer error.

(C) ~~(3)~~ Procedural error~~.~~ where the ~~The~~ -Application was ~~is~~ not processed by Department staff in accordance with the Application and selection rules in effect for the current application cycle.

(2) An Administrator may appeal the denial of a Contract amendment that was requested in writing regarding:

(A) Extension of a Contract;

(B) Request to change any term of a Contract affecting the affordability period, number of persons served, or alteration of income levels served; or

(C) Alteration of funding.

(3) A Person may Appeal the denial of a change to a Commitment.

(4) A Person may Appeal the denial of a change to a Loan Agreement.

(5) A Person may Appeal a denial of a change to a LURA.

(6) An Affiliated Party may appeal a finding of failure to adequately perform under an Administrator's Contract, resulting in a "Debarment" or a similar action.

(c) Appeal of Staff Decision to the Executive Director~~executive director~~. An Appealing Party ~~Applicant~~ must file a written Appeal with the Department for the Executive Director not later than the seventh day ~~after the date the Department publishes notice on its website of the results of the Application evaluation process or, in the case of private activity mortgage revenue bond programs,~~ after ~~written~~ notice has been provided to the Appealing Party~~Applicant~~. For purposes of this section, posting on the Department's website is considered adequate notice when identified in the application process as a public notification mechanism.~~, whichever is earlier.~~ The written appeal ~~notice~~ must include specific information relating to the disposition of the Application or written request for change to the Contract, Commitment, Loan Agreement, and/or LURA. ~~each Application, including the reasons for disqualification or summaries detailing the points awarded.~~ The Appealing Party~~Applicant~~ must specifically identify the ~~Applicant's~~ grounds for the Appeal based on the disposition of underlying document. ~~its Application~~ Upon receipt of an Appeal, staff shall prepare an Appeal file for the Executive Director's~~executive director's~~ review. The Executive Director~~executive director~~ shall respond in writing to the Appeal not later than the fourteenth day after the date of receipt of the Appeal. The Executive Director ~~executive director~~ may take one of the following actions.

(1) Concur with the Appeal and make the appropriate adjustments to the staff's decision; or

(2) Disagree with the Appeal and provide the basis for rejecting the Appeal to the Applicant.

(d) Appeal of Executive Director's Decision to the Board. If the Appealing Party ~~Applicant~~ is not satisfied with the Executive Director's ~~executive director's~~ response to the Appeal, they ~~the Applicant~~ may appeal in writing directly to the Board within seven days after the date of the Executive Director's ~~executive director's~~ response. In order to be placed on the next Board agenda, the appeal must be received by the Department at least fourteen days prior the next scheduled Board meeting. Appeals requested under this Section 1.7 received after the fourteenth calendar day prior to the Board meeting will be scheduled at the next subsequent Board meeting.

The Executive Director ~~executive director~~ shall prepare an Appeal file for the board's review based on the information provided. If the Appealing Party receives additional information after the Executive Director has denied the Appeal, but prior to the posting of the Appeal for Board consideration, the new information must be provided to the Executive Director for further consideration or the ~~The~~ Board will ~~may~~ not consider any information submitted by the Applicant after the written Appeal~~appeal~~. New information will cause the deadlines in this subsection to begin again.

The Board will review the Appeal de novo and may consider any information properly considered by the Department in making its prior decision(s).

(e) Public Comment. The Board will hear public comment on the Appeal under its usual procedures. While public comment will be heard, persons making public comment are not parties to the Appeal and no rights accrue to them under this section or any other Appeal process. Nothing in this section provides a right to Appeal any decision made on an Application, Commitment, Contract, Loan Commitment, or LURA if the Appealing Party does not have direct grounds to appeal. An Affiliated Party is allowed to appeal only those decisions that directly impact the Affiliated Party, not the underlying agreements.

(f) Possible actions regarding Applications. In instances in which the Appeal if sustained by the Board could have resulted in an award to the Applicant, the Application shall be approved by the Board contingent on the availability of funds. If no funds are available in the current year's funding cycle, then the Applicant shall be awarded funds from the next year's available funding or from the pool of deobligated funds. In the case of private activity mortgage revenue bond programs, the Applicant shall be encouraged to reapply in the next year's program funding cycle. If the Appeal is denied, the Department shall notify the Applicant of the decision.~~, including the basis for denial.~~

(g) Possible actions regarding all other Appeals. On any appeal not governed under subsection (f), the Board shall direct staff to provide the adequate remedy allowable under current laws and rules. If the Appeal is denied, the Department shall notify the Applicant of the decision.

~~(g)~~(h) Decisions are Final ~~Final Decision~~. Appeals not submitted in accordance with this section will not be considered, unless the Department or Board, in the exercise of its discretion, determines there is good cause to consider the appeal. The decision of the Board is final.

(i) Limited Scope. The appeals process provided in this rule is of general application. Any statutory or specific rule with a different appeal process will be governed by the more specific statute or rule.

LEGAL SERVICES DIVISION

BOARD ACTION REQUEST

August 30, 2006

Action Items

Approval of modification of draft rules for publication and public comment for Title 10 Texas Administrative Code §1.8 regarding Board appeals.

Required Action

Approve, reject or approve with modifications the suggested revisions to the rules governing the board appeals process under Title 10 Texas Administrative Code §1.8.

Background

Current rules regarding the appeal of staff decisions are limited to applicants meeting certain criteria. The change in this rule reflects the expanded right to be heard and is altered to be consistent with Title 10 Texas Administrative Code §1.7.

Key changes include adopting the definitions found Title 10 Texas Administrative Code §1.7.

The modifications clarify deadlines on notice and what may be considered on appeal. The modifications also provide additional actions if an appeal is granted to reflect the modifications for more grounds for appeal.

Recommendation

Approve, reject or approve with modifications the suggested revisions to the rules governing the staff appeals process for Title 10 Texas Administrative Code §1.8.

TITLE 10. COMMUNITY DEVELOPMENT
PART 1. TEXAS DEPARTMENT OF HOUSING AND COMMUNITY AFFAIRS
CHAPTER 1. ADMINISTRATION
SUBCHAPTER A. GENERAL POLICIES AND PROCEDURES
RULE 1.8. BOARD APPEALS PROCESS

1.8. Board Appeals Process

(a) Definitions. For purposes of this section, the ~~The~~ following words and terms, ~~when used in this subchapter,~~ shall have the same ~~following~~ meanings~~,~~ as found in Section 1.7 of this title, unless the context clearly indicates otherwise.
~~(1) Appeal file--The written record of an appeal that contains the applicant's appeal; the responses, if any, of Department staff, and the executive director, and the final decision.~~
~~(2) Applicant--A person who has submitted to the Department an application for Department funds or other assistance.~~
~~(3) Application--The written request for Department funds or other assistance in the format required by the Department including any exhibits or other supporting material.~~
~~(4) Board--The Governing Board of the Texas Department of Housing and Community Affairs.~~
~~(5) Department--The Texas Department of Housing and Community Affairs.~~
~~(6) Person--Any individual, partnership, corporation, association, unit of government, community action agency, or public or private organization of any character~~

(b) Grounds. Any action taken by the Board ~~An Applicant for funding or other assistance from the Department may only appeal the disposition of the Application by the Board based on an action taken by the Board~~ which was allegedly not made in accordance with the applicable rules may be appealed. This Appeal process is available to any Appealing Party ~~Applicant, including for tax exempt bonds and low income housing tax credits under 26 U.S.C. §42~~, except for low income housing tax credits which are subject to the State housing credit ceiling and which have a separate appeals process.

(c) Appeal to the Board. An Applicant must file a written Appeal with the Department not later than the seventh day after the date of the Board meeting at which the ~~award~~ decision to be appealed was made. The Applicant must specify the alleged error and provide a detailed explanation of the alleged error, including any supporting documentation. The specific rule allegedly violated must be cited, as well as an explanation of the manner in which the alleged error adversely affects the Appealing Party~~Applicant's ability to receive funds or other assistance~~. Upon receipt of the appeal, the Executive Director ~~executive director~~ shall prepare a file for the Board to consider at the next regularly scheduled meeting of the Board. The Board may not consider any information submitted by the Applicant within fourteen days of the Board meeting on which the appeal is heard~~after the written Appeal~~. The Board will review the Appeal de novo and may consider any information properly considered by the Board in making its prior decision~~ on the Application~~.

(d) Public Comment. The Board will hear public comment on the Appeal under its usual procedures. While public comment will be heard, persons making public comment are not parties to the Appeal and no rights accrue to them under this section or the Appeal process. If a representative of a neighborhood group or other interested party completed a witness affirmation form including their telephone number and spoke in support of or opposition to an Application at the Board meeting at which the Board made the decision appealed from, Department staff will telephone the representative not later than the seventh day before the date of the Board meeting at which the Board will consider the Appeal and advise the representative of the date, time, and place of the Board meeting and that an Appeal will be considered by the Board. This notice requirement is satisfied if the Department makes three attempts to reach one group representative by telephone and is unsuccessful.

(e) Possible Actions. In instances in which the Appeal if sustained by the Board would have resulted in an award to the Appealing Party, ~~Applicant,~~ the Application shall be approved by the Board contingent on the availability of similar fund mechanisms ~~funds~~. If no funds are available in the current year's funding cycle, then the Applicant ~~shall~~ may be awarded funds from the next year's available funding or from the pool of deobligated funds at the discretion of the Board. ~~In the case of private activity mortgage revenue bond programs, the Applicant shall be encouraged to reapply in the next year's funding cycle.~~ If the Appeal is denied, the Department shall notify the Applicant of the decision~~, including the basis for denial~~.

(f) Final Decision. Appeals not submitted in accordance with this section will not be considered by the Board, unless the Board, in the exercise of its discretion, determines there is good cause to consider the appeal. The decisions of the Board are final.

LEGAL SERVICES DIVISION

BOARD ACTION REQUEST

August 30, 2006

Action Items

Approval of modification of draft rules for publication and public comment for Title 10 Texas Administrative Code §1.13 regarding payment of non-current fees owed.

Required Action

Approve, reject or approve with modifications the suggested revisions to the rules governing the payment of non-current fees under Title 10 Texas Administrative Code §1.13.

Background

This new rule will replace an unrelated rule if the prior rule is repealed by the Board. Former §1.13 has been included within 10 Texas Administrative Code Chapter 60. If the Board does not authorize the repeal of the prior §1.13, the rule number would change. The purpose of this rule is to put into place a policy to limit the actions taken by the Department when outstanding, non-current fees are due the Department. This rule would not impact ongoing compliance issues or any non-voluntary procedure by the Department.

The rule is designed to increase the collection of fees that are past due and lower delinquency rates.

Recommendation

Staff recommends the Board approve the Draft rule regarding payment of non-current fees under §1.13 for publication to receive public comment and conduct the consolidated public hearings with the other applicable rules and allow staff to make changes to these rules, where applicable, to be consistent with other rules being approved at this Board meeting.

Title 10 COMMUNITY DEVELOPMENT
PART 1 TEXAS DEPARTMENT OF HOUSING AND COMMUNITY AFFAIRS
SUBCHAPTER A GENERAL POLICIES AND PROCEDURES

Rule §1.13 ACTION BY DEPARTMENT IF OUTSTANDING BALANCES EXIST

(a) Purpose. The purpose of this section is to provide guidance to persons requesting action by the Department on Applications, Amendments, Awards, Appeals, Contracts, Commitment, Executed Form Documents, Loan Documents, or LURAs when outstanding balances are owed to the Department by any Administrator, Applicant, Person or Related Party on any relationship between the requestor and the Department, regardless if it is the subject of the request.

(b) Definitions. The following words and terms, when used in this subchapter, shall have the following meanings, unless the context clearly indicates otherwise:

(1) Action--Request for the Department to perform a function required or allowed under Texas Government Code §2306.001 et seq.

(2) Administrator--the Person responsible for performing under a Contract with the Department.

(3) Affiliated Party--A person in a relationship with the Administrator on a Contract with the Department. Does not apply to an Affiliated Party for Application purposes.

(4) Appeal--Action filed on behalf of an Administrator, Affiliated Party, Applicant, to request reconsideration or challenge a prior decision made by the staff, Executive Director or Board.

(5) Applicant--A person who has submitted to the Department an Application for Department funds or other assistance.

(6) Application--The written request for Department funds or other assistance in the format required by the Department including any exhibits or other supporting material.

(7) Award--Any grant, commitment, or loan provided by the Department.

(8) Board--The Governing Board of the Texas Department of Housing and Community Affairs.

(9) Commitment--A fully executed document that commits the Department to funding or other activity related to a program administered by the Department.

(10) Contract--The executed written agreement between the Department and an Administrator performing an activity related to a program that outlines performance requirements and responsibilities assigned by the document.

(11) Department--The Texas Department of Housing and Community Affairs.

(12) Executed Form Documents--documents that are signed by the Department at the Request of any Administrator, Applicant, Person or Related Party.

(13) Executive Director--The administrative head of the Department as defined under Texas Government Code §§2306.036 and/or 2306.038.

(14) Loan Documents--An agreement between the Department and a Person regarding the terms and conditions of a loan provided to the Person from the Department.

(15) LURA--A Land Use Restriction Agreement that has been executed by the Department and a Person related to a specific property or properties and filed with the responsible recording authority.

(16) Person--Any individual, partnership, corporation, association, unit of government, community action agency, or public or private organization of any character.

(17) Request—action initiated by voluntarily seeking Department Action regardless of whether it is part of a statutory requirement (application cycle, etc.) or an action to alter a previous Action taken by the Department. Ongoing requirements such as compliance with reporting functions are not considered to be a voluntary function.

(a) The Department will not take Action on any Request involving Applications, Amendments, Awards, Appeals, Contracts, Commitment, Executed Form Documents, Loan Documents, or LURAs unless all funds owed to the Department are current by any Administrator, Applicant, Person or Related Party involved in any relationship between the requestor and the Department. The non-current account need not be directly related to the Request.

(b) Once the Department notifies an Administrator, Applicant, Person or Related Party that they are subject to this section, if no corrective action has been taken by the Administrator, Applicant, Person or Related Party, the Executive Director, may, after seven (7) days, deny the requested action for failure to comply with this section.

(c) When time of submission is a factor in the Action requested, the Action requested will not be considered submitted until this parameters of this section are met.

(d) An appeal of any decision under this section may be appealed in accordance with §1.7 of this Subchapter.

COMMUNITY AFFAIRS DIVISION
BOARD ACTION REQUEST
August 30, 2006

Action Item

Request the approval of the draft Rules for the Energy Assistance Programs for Low-Income Individuals in accordance with Texas Government Code, Section 2306.097 to be released for publication in the *Texas Register* in order to accept public comment.

Required Action

Approve, or approve with revisions, the proposed rules for publication in the *Texas Register* for public comment in accordance with Chapter 2001, TEX. GOV. CODE.

Background

The Texas Department of Housing and Community Affairs (the Department) Energy Assistance Section administers two different programs addressing the energy needs of low-income persons: Weatherization Assistance Program (WAP), which provides cost effective weatherization measures to improve the energy efficiency of eligible client households; and the Comprehensive Energy Assistance Program (CEAP), which provides utility assistance to eligible client households.

The proposed rules are written in Chapter 6 within three separate subchapters that are divided by funding source and program. Subchapter A pertains to Department of Energy (DOE) WAP, subchapter B pertains to Low-Income Home Energy Assistance Program (LIHEAP) WAP funded through Health and Human Services (HHS), and subchapter C pertains to the CEAP program (funded through the LIHEAP award). The WAP program has two separate rules (Subchapter A & B) because of the two different funding sources, DOE and HHS, and the separate requirements of those funding sources. The final chapter (Subchapter C) contains the CEAP rules.

The WAP services (Subchapter A & B) are provided by a network of 34 subrecipient agencies (primarily Community Action Agencies) serving all 254 Texas counties. The CEAP services (Subchapter C) are provided by a network of 50 subrecipient agencies serving all 254 Texas counties.

Recommendation

Staff recommends board approval of the draft rules.

PROPOSED TEXAS ADMINISRATIVE CODE RULES:

Texas Administrative Code

TITLE 10 COMMUNITY DEVELOPMENT
PART 1 TEXAS DEPARTMENT OF HOUSING AND COMMUNITY AFFAIRS
CHAPTER # 6 ENERGY ASSISTANCE PROGRAMS

SUBCHAPTER A DEPARTMENT OF ENERGY WEATHERIZATION ASSISTANCE PROGRAM (DOE-WAP)

§6.1 Definitions

As used in this part:
(a) CAA--Community Action Agency
(b) Children--households with dependents not exceeding 18 years of age
(c) Department (the)--the Texas Department of Housing and Community Affairs
(d) DOE--the United States Department of Energy.
(e) Dwelling Unit--a house, including a stationary mobile home, an apartment, a group of rooms, or a single room occupied as separate living quarters.
(f) EASY--the Department of Energy approved audit software used to determine the cost effectiveness of weatherization measures to be installed on a dwelling unit.
(g) Elderly Person--a person who is 60 years of age or older.
(h) Electric base-load measure--weatherization measures which address the energy efficiency and energy usage of lighting and appliances.
(i) Families with young children--a family unit that includes a child not exceeding 6 years of age.
(j) High energy burden--is determined by dividing annual home energy costs by annual gross income. The percentage at which energy burden is considered high is defined by data gathered from the State Data Center and updated each year.
(k) High energy consumption--the household energy consumption exceeding the data collected from the State Data Center and updated each year.
(l) Household--all persons living together in a dwelling unit.
(m) Local units of Government--city, county, or council of governments.
(n) Low Income--that income in relation to family size which:
(1) Is at or below 125 percent of the poverty level determined in accordance with criteria established by the Director of the Office of Management and Budget.
(2) Is the basis on which cash assistance payments have been paid during the preceding twelve month-period under titles IV and XVI of the Social Security Act or applicable State or local law; or
(3) If a State elects, is the basis for eligibility for assistance under the Low Income Home Energy Assistance Act of 1981, provided that such basis is at least 125 percent of the poverty level determined in accordance with criteria established by the Director of the Office of Management and Budget.
(o) Multifamily Dwelling Unit--a structure containing more than one dwelling unit.
(p) Persons with Disabilities--any individual who is:
(1) a handicapped individual as defined in section 7(6) of the Rehabilitation Act of 1973,
(2) under a disability as defined in section 1614(a)(3)(A) or 223(d)(1) of the Social Security Act or in section 102(7) of the Developmental Disabilities Services and Facilities Construction Act, or
(3) receiving benefits under chapter 11 or 15 of title 38, U.S.C.
(q) Rental Unit--a dwelling unit occupied by a person who pays rent for the use of the dwelling unit.
(r) Single-Family Dwelling Unit--a structure containing no more than one dwelling unit.
(s) State--the State of Texas

(t) Subrecipient--an entity managing a weatherization project which receives a grant of funds awarded
(u) 10 CFR 440--the Code of Federal Regulation describing the Weatherization Assistance for Low Income Persons as administered through the Department of Energy.
(v) WAP--Weatherization Assistance Program
(w) Weatherization Material--the material listed in Appendix A of 10 CFR 440.
(x) Weatherization Project--a project conducted in a single geographical area which undertakes to weatherize dwelling units that are energy inefficient.

§6.2 Program Overview

(a) The Energy Assistance Programs are referred to as the Energy Services Program for Low-Income Individuals in accordance with Texas Government Code, Section 2306.097. The Department of Energy Weatherization Assistance Program (DOE-WAP) is funded through the U.S. Department of Energy Weatherization Assistance Program for Low Income Persons grant. DOE-WAP offers grants to community action agencies, nonprofits, and local units of government with targeted beneficiaries being households with low incomes, with priority given to the elderly; persons with disabilities; families with young children; households with the highest energy costs or needs in relation to income; and households with high energy consumption. In addition to meeting the income-eligibility criteria, the weatherization measures to be installed must meet specific energy-savings goals.
(b) The program funds the installation of weatherization materials and provides energy conservation education. The program helps to control energy costs to ensure a healthy and safe living environment.
(c) The Department shall administer and implement the program in accordance with DOE rules. LIHEAP weatherization measures may be leveraged with DOE weatherization measures.
(d) The Department retains 5 percent of the annual allocation to administer the program.

§6.3 Distribution of Funds Formula

(a) The Department distributes funds to subrecipients by an allocation formula.
(b) This funding formula was developed with input from subrecipients. This formula allocates funds based on the number of low-income households in a service area and takes into account the special needs of individual service areas. The need for energy assistance in an area is addressed through a weather factor (based on heating and cooling degree days). The extra expense in delivering services in sparsely populated areas is addressed by an inverse population density factor. The lack of additional services available in very poor counties is addressed by a county median income factor. Finally, the elderly are given priority by giving greater weight to this population. The five factors used in the formula are calculated as follows:

(1) County Non-elderly Poverty Household Factor is defined as the number of Non-elderly Poverty Households in the County divided by the number of Non-elderly Poverty Households in the State.

(2) County Elderly Poverty Household Factor is defined as the number of Elderly Poverty Households in the County divided by the number of Elderly Poverty Households in the State.

(3) County Inverse Poverty Household Density Factor is defined as:

(A) The number of Square Miles of the County divided by the number of Poverty Households of the County (equals the Inverse Poverty Household Density of the County), and

(B) Inverse Poverty Household Density of the County divided by the Sum of Inverse Household Densities.

(4) County Median Income Variance Factor is defined as:

(A) State Median Income minus the County Median Income (equals County Variance), and

(B) County Variance divided by sum of the State County Variances.

(5) County Weather Factor is defined as:

(A) County Heating Degree Days plus the County Cooling Degree Days, multiplied by the Poverty Households, divided by the sum of County Heating & Cooling Degree Days of Counties (equals County Weather), and

(B) County Weather divided by the total sum of the State County Weather.

(c) The five factors carry the following weights in the allocation formula: number of non-elderly poverty households (40 percent), number of poverty households with at least one member who is 65 years of age or older (40 percent), household density as an inverse ratio (5 percent), the median income of the county (5 percent), and a weather factor based on Heating Degree Days and Cooling Degree Days (10 percent). All demographic factors are based on the 2000 U.S. Census. The formula is as follows:

(1) County Non-elderly Poverty Household Factor (0.40) plus

(2) County Elderly Poverty Household Factor (0.40) plus

(3) County Inverse Poverty Household Density Factor (0.05) plus;

(4) County Median Income Variance Factor (0.05) plus;

(5) County Weather Factor (0.10)

(6) Total sum of 1 through 5 multiplied by total funds allocation equals the County's allocation of funds.

(7) The sum of the county allocation within each subrecipient service area equals the subrecipient's total allocation of funds.

(d) Periodically, the Department must shift resources from low-demand regions to high-demand regions of the state. During the sixth month of the program year, the Department will conduct an in-house performance review of all subrecipients. The performance review will include individual subrecipient expenditure rate and households served as specified in the contract of each subrecipient. Based on the review, the Department may deobligate funds from low performing subrecipients and award the funds to high performing subrecipients. Additional DOE funds received during a program year, beyond the regular grant allocation, may be allocated to subrecipients based upon documented need.

(e) The Department is permitted by 10 CFR §440.18, to obligate an additional five (5) percent of DOE-WAP administrative funds to subrecipient DOE-WAP budgets less than $350,000. In addition to the DOE funds, the Department utilizes Low Income Home Energy Assistance Program (LIHEAP) funds to provide weatherization services. The Department offsets the funds between DOE and LIHEAP budget awards to allow each subrecipient to receive the maximum allowable administrative funds. Using the distribution formula, the Department makes the corresponding adjustments between the DOE and LIHEAP subrecipient budgets to insure the distribution of funds is appropriately distributed by formula.

§6.4 Subrecipient Eligibility

(a) Pursuant to DOE 10 CFR §440.15, the Department shall ensure that:
(1) Each subrecipient is a CAA or other public or nonprofit entity;
(2) Each subrecipient is selected on the basis of public comment received during a public hearing conducted pursuant to Section 440.14(a) and other appropriate findings regarding:
(A) The subrecipient 's experience and performance in weatherization or housing renovation activities;
(B) The subrecipient 's experience in assisting low-income persons in the area to be served; and
(C) The subrecipient 's capacity to undertake a timely and effective weatherization program.
(3) In selecting a subrecipient, preference is given to any CAA or other public or nonprofit entity which has, or is currently administering, an effective program under this part or under title II of the Economic Opportunity Act of 1964, with program effectiveness evaluated by consideration of factors including, but not necessarily limited to, the following:
(A) The extent to which the past or current program achieved or is achieving weatherization goals in a timely fashion;
(B) The quality of work performed by the subrecipient;
(C) The number, qualifications, and experience of the staff members of the subrecipient; and
(D) The ability of the subrecipient to secure volunteers, training participants, public service employment workers, and other Federal or State training programs.
(b) The Department shall ensure that the funds received under this part will be allocated to the entities selected in accordance with paragraph (a) of this section, such that funds will be allocated to areas on the basis of the relative need for a weatherization project by low-income persons.
(c) If the Department finds that a subrecipient selected to undertake weatherization activities under this part has failed to comply substantially with the provisions of the Act or this part and should be replaced, such finding shall be treated as a finding under Section 440.30(i) for purposes of '440.30.
(d) Any new or additional subrecipient shall be selected at a hearing in accordance with Section 440.14(a) and upon the basis of the criteria in paragraph (a) of this section.

(e) A State may terminate financial assistance under a subgrant agreement for a grant period only in accordance with established State procedures that provide to the subrecipient appropriate notice of the State's reasons for termination and afford the subrecipient an adequate opportunity to be heard.
(f) The Department administers the program through subrecipients in accordance with 10 CFR §440.15 and State rules. If subrecipients comply with the requirements of the the program, the Department may offer to renew the contract.

§6.5 Subrecipient Requirements for Establishing Priority for Eligible Households and Client Eligibility Criteria

(a) The subrecipients shall establish the client eligibility level at no less than 125% of the federal poverty level in effect at the time the client makes an application for services.
(b) The subrecipients shall establish eligibility and priorities criteria to increase the energy efficiency of dwellings owned or occupied by low-income persons who are particularly vulnerable such as the elderly, persons with disabilities, families with young children, high residential energy users, and households with high energy burden. High residential energy users and households with high energy burden are considered to be as follows:
(1) Households with high energy burden. The energy burden is determined by dividing annual home energy costs by annual gross income. The percentage at which energy burden is considered high is defined by data gathered from the State Data Center and updated each year.
(2) Households with high energy consumption as determined by using data collected from the State Data Center and updated each year.
(c) The subrecipients shall follow the Department rules and established state and federal guidelines for determining eligibility for multifamily dwelling units as referenced in §6.6.
(d) Subrecipients shall base annualized eligibility determinations on household income from the 30 day period prior to the date of application for assistance. Each subrecipient shall document income from all sources for all household members for the entire 30 day period prior to the date of application and multiply by twelve (12) to annualize income. Income documentation must be collected from all income sources for all household members 18 years and older for the entire 30 day period.
(e) Subrecipients shall calculate annual income using, at a minimum, applicant's income from the previous 30 day period. In the case of migrant or seasonal workers, a longer period than 30 days may be used for annualizing income. However, the same method must be used for all similarly situated workers.
(f) If proof of income is unavailable, the applicant must complete and sign a Declaration of Income Statement (DIS). In order to use the DIS form, each subrecipient shall develop and implement a written policy and procedure on the use of the DIS form. In developing the policy and procedure, subrecipients shall give consideration to limiting the use of the DIS form to cases where there are serious extenuating circumstances that justify the use of the form. Such circumstances might include crisis situations such as

applicants that are affected by natural disaster which prevents the applicant from obtaining income documentation, applicants that flee a home due to physical abuse, applicants who are unable to locate income documentation of a recently deceased spouse, or whose work is migratory or seasonal in nature. The Department will review the written policy and its use during on-site monitoring visits.

(g) Subrecipient shall determine income eligibility.

(1) The following list contains the types of income that are included as income in the definition of income for the purpose of determining the total household income:

(A) Temporary Assistance for Needy Families (TANF);

(B) money, wages and salaries before any deductions;

(C) net receipts from non-farm or farm self-employment (receipts from a person's own business or from an owned or rented farm after deductions for business or farm expenses);

(D) regular payments from social security;

(E) railroad retirement;

(F) unemployment compensation;

(G) strike benefits from union funds;

(H) worker's compensation;

(I) veteran's payments;

(J) training stipends;

(K) alimony;

(L) military family allotments;

(M) private pensions;

(N) government employee pensions (including military retirement pay);

(O) regular insurance or annuity payments; and

(P) dividends, interest, net rental income, net royalties, periodic receipts from estates or trusts; and net gambling or lottery winnings.

(2) The following is a list that contains the types of income that are excluded from the definition of income:

(A) Social Security Disability Insurance (SSDI) payments;

(B) Supplemental Security Income (SSI) payments;

(C) capital gains; any assets drawn down as withdrawals from a bank;

(D) the sale of property, a house, or a car;

(E) one-time payments from a welfare agency to a family or person who is in temporary financial difficulty;

(F) tax refunds, gifts, loans, and lump-sum inheritances;

(G) one-time insurance payments, or compensation for injury;

(H) non-cash benefits, such as the employer-paid or union-paid portion of health insurance or other employee fringe benefits;

(I) food or housing received in lieu of wages;

(J) the value of food and fuel produced and consumed on farms;

(K) the imputed value of rent from owner-occupied non-farm or farm housing;

(L) federal non-cash benefit programs as Medicare, Medicaid, Food Stamps, and school lunches;

(M) housing assistance and combat zone pay to the military;

(N) college scholarships, Pell and other grant sources, assistantships, fellowships and work study; and

(O) child support payments.

(h) A dwelling unit shall be eligible for weatherization assistance if it is occupied by a family unit which contains a current household member who has received TANF or SSI at anytime during the twelve month period preceding the determination of eligibility. Dwelling units that contain household members who receive SSDI only are not automatically eligible. The eligibility of dwelling units for WAP services can be found in 10 CFR Part 440.22.

§6.6 Eligibility for Multifamily Dwelling Units

(a) Dwelling units shall be eligible for weatherization assistance if it is occupied by a family unit which contains a household member who has received TANF or SSI at anytime during the twelve month period preceding the determination of eligibility. Dwelling units that contain household members who receive SSDI only are not automatically eligible. The eligibility of dwelling units for WAP services can be found in 10 CFR Part 440.22.

(b) The substantial investment of weatherization funds required to address multifamily units increases the need for additional quality assurance measures in the WAP. The Department has developed this section to ensure that funds used to weatherize multifamily dwelling units are expended within the scope of established State and Federal guidelines. This section addresses weatherization of multifamily buildings containing more than four but less than 25 dwelling units. Approvals are not required for buildings containing twenty-four dwelling units or less that contain shared central heating and/or cooling systems that use compressed air as a coolant.

(c) DOE approved the use of Energy Audit System (EASY) for use in single family, mobile home, and multifamily buildings with fewer than twenty-five dwelling units. The approval does not cover large multifamily buildings containing twenty-five or more dwelling units or those with shared central heating (i.e. boilers) and/or shared cooling plants (i.e. cooling towers that use water as the coolant). DOE defines a building as a group of dwellings under the same roof.

(d) In order to weatherize large multifamily buildings containing twenty-five or more dwelling units or those with shared central heating (i.e. boilers) and/or shared cooling plants (i.e. cooling towers that use water as the coolant) regardless of the number of dwelling units, subrecipients shall submit in writing a request for approval from the Department. In turn, the Department will seek approval from DOE. Approvals from DOE must be received prior to the installation of any weatherization measures in this type of structure.

(e) In order to weatherize shelters, subrecipients shall submit a written request for approval from the Department. Approvals from the Department must be received prior to the installation of any weatherization measures.

(f) If roof replacement is to be considered as part of repair cost under the weatherization process, the expenses must be shared equally by all eligible units weatherized under the same roof. If multiple storied buildings are weatherized, eligible ground story units must be allocated a portion of the roof cost as well as the eligible top story units. All

weatherization measures installed in multifamily units must meet the standards set in 10 CFR §440.18(c)(9),(15) and Appendix A – Standards for Weatherization Materials, and meet a savings-to-investment ratio of one or greater on the EASY Audit. DOE specifically addresses the eligibility of multifamily units in 10 CFR §440.22 (a)-(d).
(g) WAP subrecipients shall establish a multifamily master file for each multifamily project in addition to the individual unit requirements found in the record keeping requirement section of the contract. Subrecipients shall maintain a multifamily master file for each complex weatherized. The multifamily master file must include, at a minimum, the following forms:

(1) Multifamily Pre Project Checklist Form;
(2) Multifamily Post Project Checklist Form;
(3) Permission to Perform An Assessment for Multifamily Project Form;
(4) Landlord Agreement Form;
(5) Landlord Financial Participation Form; and
(6) Significant Data Required in all Multifamily Project

§6.7 Contract Expiration, Termination, and Nonrenewal

(a) If available, DOE-WAP grant funds shall be expended in a timely and effective manner, and services provided must be effective and in full compliance with federal and state requirements.
(b) The Department may continue to administer the program through the existing subrecipients that have demonstrated that they are operating the program in accordance with 10 CFR §440.15 and state regulations through contract renewal.
(c) If a subrecipient does not comply with the program requirements, the Department may terminate a contract, in whole or in part, in accordance with 10 CFR §440.15, before the expiration date if:
(1) The Department and the subrecipient mutually agree to terminate the contract;
(2) Either the Department or the subrecipient provides the other party 30 days written notice that the notifying party intends to terminate the contract;
(3) Federal or state laws are changed to reduce or terminate the program;
(4) The subrecipient ceases to operate the program without the Department's approval; or
(5) The subrecipient does not comply with the terms of the contract or the negotiated service improvement agreement.
(d) Failure to submit an annual financial and compliance audit, in accordance with the Single Audit Act Amendments of 1996 in a timely manner, shall result in immediate suspension of payments to the subrecipient and may result in termination and/or nonrenewal of contracts.
(e) Failure to implement proper compliance with materials requirements and the correct installation of materials shall result in contract termination.
(f) The Department shall send the subrecipient a written notice when a contract is terminated. The subrecipient has the right to appeal this action within 15 days of receiving the notice.

(g) Subrecipient shall not be relieved of any liability for damages due to the Department by virtue of any prior or future breach of their contract.
(h) Financial audits resulting in unresolved disallowed costs, and/or unresolved reportable conditions shall result in termination or nonrenewal of contracts.
(i) The Department shall not be liable for any costs incurred by subrecipient after termination or during the suspension of their contract.
(j) Subrecipients shall follow the Department guidelines regarding the use of the approved energy audit and blower door technology.
(k) Subrecipients shall be required to incorporate and implement the Texas Weatherization Field Guide and the Texas Mechanical Systems Field Guide.

§6.8 Subrecipient Requirements for Appeals Process for Applicants

(a) Subrecipients shall provide a written denial of assistance notice to applicant within ten (10) days of the adverse determination. This notification shall include written instructions of the appeals process and specific reasons for the denial by component. The applicants wishing to appeal a decision must provide written notice to subrecipient within 10 days of receipt of the denial notice.
(b) The subrecipient who receives an appeal shall establish an appeals committee composed of at least three persons. Subrecipient shall maintain documentation of appeals in their client files.
(c) The subrecipient shall hold the appeal hearing within ten business days after the subrecipient received the appeal request from the applicant.
(d) The subrecipient shall tape record the hearing.
(e) The hearing shall allow time for a statement by subrecipient staff with knowledge of the case.
(f) The hearing shall allow the applicant at least equal time, if requested, to present relevant information contesting the decision.
(g) Subrecipient shall notify applicant of the decision in writing. The subrecipient shall mail the notification by close of business on the business day following the decision. (1 day turn-around)
(h) If the applicant is not satisfied, they may further appeal the decision in writing to the Department within ten days of notification of an adverse decision.
(i) If client appeals to the Department, the funds should remain encumbered until the Department completes its decision.
(j) The Department may review the tape recording of the hearing, the committee's decision, and any other relevant information necessary.
(k) The Department appeals committee shall decide the case and forward their recommendation to the Division Director for final concurrence.
(l) The Department will notify all parties in writing of its decision within 30 days of receipt of the appeal.

§6.9 WAP Policy Advisory Council (WAP PAC)

(a) In accordance with Texas Government Code §2110.005, the Department shall establish a State policy advisory council, in accordance with 10 CFR §440.17and Texas Government Code, Chapter 2110, prior to the expenditure of any grant funds.
(b) The policy advisory council shall meet at least once a year to review the program plan and provide advice to the Department and meet as needed throughout the year to provide advice when it is requested.
(1) The WAP PAC may also meet as necessary in person, by telephone, or via electronic means to provide the Governing Board or Department guidance and advice with respect to the development and implementation of the weatherization assistance program and its activities; and
(2) The WAP PAC will cause minutes of any meetings or telephone conferences to be taken and forwarded to the Department or Governing Board.
(c) All meetings shall be held in accordance with Texas Government Code §551.

§6.10 Liability Insurance

(a) All subrecipient weatherization work shall be covered by liability insurance. Pollution Occurrence Insurance should be a part of, or an addendum to, general liability insurance. The Department includes funds in the subrecipient budgets for the subrecipients to purchase liability insurance and pollution occurrence insurance as required by DOE.
(b) Subrecipients shall review and maintain their existing policies at least as frequently as contracts are awarded, to ensure that they and their contractors have adequate insurance coverage for all units to be weatherized.

§6.11 Mold Work Practices

(a) The Department may provide Mold Work Practices training methodology to all subrecipients.
(b) The Department may provide Mold Work Practices to new subrecipient hires on an on-going basis.
(c) The subrecipients shall be responsible for providing the training to their weatherization contractors.

§6.12 Mold Conditions

(a) If the subrecipient's energy auditor discovers a mold condition which the weatherization contractor cannot adequately address, then the unit shall be referred to the appropriate public agency for remedial action.
(b) The subrecipient shall provide the applicant written notification that their home cannot, at this time, be weatherized and why. They should also be informed of which agency they should contact to report the mold condition. The applicant should be advised that when the mold issue is resolved they may reapply for weatherization.

(c) If the energy auditor determines that the mold is treatable and covers less than the 25 contiguous square feet limit allowed to be addressed by the Texas Department of Health's guidelines, the subrecipient shall notify the applicant of the existence of the mold and potential health hazards, the proposed action to eliminate the mold, and that no guarantee is offered that the mold will be eliminated and that the mold may return. The auditor must obtain written approval from the applicant to proceed with the weatherization work.

§6.13 Client Education

The subrecipients shall provide client education to each WAP client on energy conservation practices. Subrecipients shall provide education to identify energy waste, manage household energy use, and strategies to promote energy savings. Subrecipients are encouraged to use oral, written, and visual educational materials. These activities are paid with the Department's training and technical assistance funds and the subrecipients' administrative funds.

§6.14 Adjusted Average Expenditure Per Dwelling Unit

Expenditures of financial assistance provided under DOE-WAP funding or other resources for the weatherization services for labor, weatherization materials, and related matters shall not exceed the adjusted average expenditure limit for the current program year per dwelling unit as provided by DOE, without special agreement via an approved waiver from the Department.

§6.15 Energy Audit Procedures

(a) The Department may set and modify as necessary the allowable Savings-o-Investment Ratio (SIR) for the energy audit procedures to determine the installation of allowable weatherization measures. The weatherization measures must result in energy cost savings over the lifetime of the measure(s), discounted to present value, that equal or exceed the cost of materials, and installation.
(b) The EASY Audit (EASY) has been approved by DOE for use on single family dwellings, mobile homes, and multi-family buildings containing 24 or fewer units.
(c) EASY has not been approved for multi-family buildings containing 25 or more units. Since Texas subrecipients rarely propose to weatherize a building with 25 or more units, the Department will acquire a DOE approved energy audit for use in auditing multi-family buildings containing 25 or more units.

§6.16 Health and Safety

(a) Subrecipients shall provide weatherization services with the primary goal of the WAP is energy efficiency. The Department considers establishing a healthy and safe home environment to be important to ensuring that energy savings result from weatherization work.
(b) It is the policy of the Department that if health and safety issues identified on an individual unit (which would be exacerbated by any weatherization work performed) cannot be abated within the allowable WAP limits, the unit shall be denied services.
(c) The Department has determined that repair/replacement windows that do not rank with a SIR of one or greater on the audit may be repaired/replaced, if deemed necessary. To be eligible for repair/replacement, broken window panes must pose a potential hazardous condition to the client and/or workers. Documentation for replacement must include a clear comprehensible photo showing the hazardous conditions to the occupants. Failure to provide a photo will result in disallowed costs. Slightly cracked window panes do not constitute a hazardous condition.
(d) The Department has determined that repair/replacement doors that do not rank with an SIR of one or greater on the audit, may be repaired/replaced, if deemed necessary. To be eligible for repair/replacement the doors must be unable to protect the client from outside elements or unwanted intruders. Documentation for replacement must include a clear comprehensible photo evidencing the hazardous conditions to the occupants. Documentation must be submitted to the assigned Department program officer for approval. The absence of deadbolt locks does not constitute a hazardous health and safety condition.

§6.17 Training and Technical Assistance Carryover Funds

(a) Training and technical assistance funds, allocation figure as provided by DOE, shall not be used to purchase vehicles or equipment for local agencies to perform weatherization services.
(b) Should unexpended training and technical assistance funds remain at the end of the program year, the Department may require these funds to be used to weatherize homes during the following year.
(c) If the Department determines these funds are needed for training and technical assistance, DOE can waive this provision if necessary. If this is the case, the Department will provide justification to DOE of the necessity to carryover these funds into the new program year and that they be included as a part of the new training and technical assistance budget.

§6.18 Electric Base Load Measures

DOE has approved the inclusion of selected Electric Base Load (EBL) measures as part of the weatherization of eligible residential units. EBL measures must be determined cost effective with an SIR of one or greater by either audit analysis or separate DOE approved analytical tools.

§6.19 Payments to Contractors and Vendors

(a) A vendor agreement is required by the Department and implemented via the subrecipient, shall contain assurances as to fair billing practices, delivery procedures, and pricing procedures for business transactions involving LIHEAP recipients.
(b) Subrecipient shall maintain proof of payment to contractors and vendors.

§6.20 State Contract Purchases

(a) Subrecipients shall comply with the Department rules and state procurement standards regarding competitive solicitation of bids for materials, labor, and equipment and shall adhere to guidelines for selection and award of subcontracts.
(b) Subrecipient shall develop and implement procurement procedures, which conform to the cost principles and uniform administrative requirements set forth in the Uniform Grant and Contract Management Standards, 1 T.A.C. § 5.141 et seq.
(c) The State of Texas conducts competitive solicitations to identify equipment and material vendors to provide specified merchandise at discounted prices to State agencies and their contracted agents. Unless a local vendor is identified through a competitive solicitation that will provide equal or better materials and services at the same price or less, subrecipients shall purchase any equipment, materials, or services paid for with LIHEAP funds from a vendor participating in the Texas Building and Procurement Commission's Cooperative Purchasing Program.

§6.21 Subrecipient Reporting Requirements

(a) The subrecipient shall electronically submit to the Department a monthly Funding Report of all expenditure of funds, request for advance or reimbursement, and a monthly performance report no later than fifteen (15) days after the end of each month. This reporting is required.
(b) The subrecipient shall electronically submit to the Department no later than sixty (60) days after the end of the subrecipient contract term a final expenditure or reimbursement and programmatic report utilizing the Funding Report. This reporting is required.
(c) The subrecipient shall submit to the Department no later than sixty (60) days after the end of the contract term an inventory of all vehicles, tools, and equipment with a unit acquisition cost of $5,000 or more and a useful life of more than one year, if purchased in whole or in part with DOE-WAP funds.
(d) The subrecipient shall submit other reports, data, and information on the performance of the DOE-WAP program activities as required by DOE pursuant to 10 CFR §440.25 or by the Department.

SUBCHAPTER B LOW INCOME HOME ENERGY ASSISTANCE PROGRAM WEATHERIZATION ASSISTANCE PROGRAM (LIHEAP-WAP)

§6.101 Definitions

As used in this part:
(a) CAA--Community Action Agency
(b) Children--households with dependents not exceeding 18 years of age.
(c) Department (the)--the Department of Housing and Community Affairs
(d) DOE--the United States Department of Energy.
(e) Dwelling Unit--a house, including a stationary mobile home, an apartment, a group of rooms, or a single room occupied as separate living quarters.
(f) EASY--the Department of Energy approved audit software used to determine the cost effectiveness of weatherization measures to be installed on a dwelling unit.
(g) Elderly Person--a person who is 60 years of age or older.
(h) Electric base-load measure--weatherization measures which address the energy efficiency and energy usage of lighting and appliances.
(i) Energy Repairs--weatherization related repairs necessary to protect or complete regular weatherization energy efficiency measures.
(j) Families with young children--a family unit that includes a child not exceeding 6 years of age.

(k) High energy burden--is determined by dividing annual home energy costs by annual gross income. The percentage at which energy burden is considered high is defined by data gathered from the State Data Center and updated each year.
(l)High energy consumption--the household energy consumption exceeding the data collected from the State Data Center and updated each year.
(m) Household--all persons living together in a dwelling unit.
(n) Local unit of Government--city, county, or council of governments.
(o) Low Income--that income in relation to family size which:
(1) Is at or below 125 percent of the poverty level determined in accordance with criteria established by the Director of the Office of Management and Budget.
(2) Is the basis on which cash assistance payments have been paid during the preceding twelve month-period under titles IV and XVI of the Social Security Act or applicable State or local law; or
(3) If a State elects, is the basis for eligibility for assistance under the Low Income Home Energy Assistance Act of 1981, provided that such basis is at least 125 percent of the poverty level determined in accordance with criteria established by the Director of the Office of Management and Budget.
(p) Multifamily Dwelling Unit--a structure containing more than one dwelling unit.
(q) Persons with Disabilities--any individual who is:
(1) a handicapped individual as defined in section 7(6) of the Rehabilitation Act of 1973,
(2) under a disability as defined in section 1614(a)(3)(A) or 223(d)(1) of the Social Security Act or in section 102(7) of the Developmental Disabilities Services and Facilities Construction Act, or
(3) receiving benefits under chapter 11 or 15 of title 38, U.S.C.
(r) Rental Unit--a dwelling unit occupied by a person who pays rent for the use of the dwelling unit.
(s) Single-Family Dwelling Unit--a structure containing no more than one dwelling unit.
(t) State--the State of Texas.
(u) Subrecipient--an entity managing a weatherization project which receives a grant of funds awarded.
(v) 10 CFR 440--the Code of Federal Regulation describing the Weatherization Assistance for Low Income Persons as administered through the Department of Energy.
(w) WAP--Weatherization Assistance Program
(x) Weatherization Material--the material listed in Appendix A of 10 CFR 440.
(y) Weatherization Project--a project conducted in a single geographical area which undertakes to weatherize dwelling units that are energy inefficient.

§6.102 Program Overview

(a) The Energy Assistance Programs are referred to as the Energy Services Program for Low-Income Individuals in accordance with Texas Government Code, Section 2306.097. The Low Income Home Energy Assistance Program Weatherization Assistance Program (LIHEAP-WAP) is funded through the U.S. Department of Health and Human Services' Low Income Home Energy Assistance Program (LIHEAP) grant.

LIHEAP-WAP offers grants to community action agencies, nonprofits, and local units of government with targeted beneficiaries being households with low incomes, with priority given to the elderly; persons with disabilities; families with young children; households with the highest energy costs or needs in relation to income; and households with high energy consumption. In addition to meeting the income-eligibility criteria, the weatherization measures to be installed must meet specific energy-savings goals.
(b) The program funds the installation of weatherization materials and provides energy conservation education. The program helps to control energy costs to ensure a healthy and safe living environment.
(c) The Department shall administer and implement the program in accordance with a combination of LIHEAP and DOE rules. LIHEAP weatherization measures may be leveraged with DOE weatherization measures.
(d) The Department will reserve 15 percent of the federal LIHEAP grant award funds to administer the LIHEAP-WAP weatherization related activities. The state and local administrative costs associated with administering the weatherization program under LIHEAP shall not exceed 10 percent.
(e) The Department will reserve 75 percent of the federal LIHEAP grant award funds to implement the Comprehensive Energy Assistance Program (CEAP) activities.
(f) The Department retains a maximum of 10% of the federal LIHEAP grant award funds for subrecipients' and the Department's administrative funds for LIHEAP-WAP and CEAP.

§6.103 Distribution of Funds Formula

(a) The Department distributes funds to subrecipients by an allocation formula.
(b) This funding formula was developed with input from subrecipients. This formula allocates funds based on the number of low-income households in a service area and takes into account the special needs of individual service areas. The need for energy assistance in an area is addressed through a weather factor (based on heating and cooling degree days). The extra expense in delivering services in sparsely populated areas is addressed by an inverse population density factor. The lack of additional services available in very poor counties is addressed by a county median income factor. Finally, the elderly are given priority by giving greater weight to this population. The five factors used in the formula are calculated as follows:
(1) County Non-elderly Poverty Household Factor is defined as the number of Non-elderly Poverty Households in the County divided by the number of Non-elderly Poverty Households in the State.
(2) County Elderly Poverty Household Factor is defined as the number of Elderly Poverty Households in the County divided by the number of Elderly Poverty Households in the State.
(3) County Inverse Poverty Household Density Factor is defined as:
(A) The number of Square Miles of the County divided by the number of Poverty Households of the County (equals the Inverse Poverty Household Density of the County), and

(B) Inverse Poverty Household Density of the County divided by the Sum of Inverse Household Densities.

(4) County Median Income Variance Factor is defined as:

(A) State Median Income minus the County Median Income (equals County Variance), and

(B) County Variance divided by sum of the State County Variances.

(5) County Weather Factor is defined as:

(A) County Heating Degree Days plus the County Cooling Degree Days, multiplied by the Poverty Households, divided by the sum of County Heating & Cooling Degree Days of Counties (equals County Weather), and

(B) County Weather divided by the total sum of the State County Weather.

(c) The five factors carry the following weights in the allocation formula: number of non-elderly poverty households (40 percent), number of poverty households with at least one member who is 65 years of age or older (40 percent), household density as an inverse ratio (5 percent), the median income of the county (5 percent), and a weather factor based on Heating Degree Days and Cooling Degree Days (10 percent). All demographic factors are based on the 2000 U.S. Census. The formula is as follows:

(1) County Non-elderly Poverty Household Factor (0.40) plus

(2) County Elderly Poverty Household Factor (0.40) plus

(3) County Inverse Poverty Household Density Factor (0.05) plus;

(4) County Median Income Variance Factor (0.05) plus;

(5) County Weather Factor (0.10)

(6) Total sum of 1 through 5 multiplied by total funds allocation equals the County's allocation of funds.

(7) The sum of the county allocation within each subrecipient service area equals the subrecipient's total allocation of funds.

(d) Periodically, the Department management must shift resources from low-demand regions to high-demand regions of the state. During the sixth month of the program year, the Department will conduct an in-house performance review of all subrecipients. The performance review will include individual subrecipient expenditure rate and households served as specified in the contract. Based on the review, the Department may deobligate funds from low performing subrecipients and award the funds to high performing subrecipients. Additional LIHEAP funds received during a program year, beyond the regular grant allocation, may be allocated to subrecipient based upon documented need.

(e) The Department is allowed, in accordance with 10 CFR §440.18, to provide an additional five (5) percent of U.S. Department of Energy (DOE) Weatherization Assistance Program (DOE-WAP) administrative funds for subrecipient DOE-WAP budgets less than $350,000. The Department offsets the funds between DOE and LIHEAP budget awards to allow each subrecipient to receive the maximum allowable administrative funds. The Department makes the corresponding adjustments between the DOE and LIHEAP subrecipient budgets to insure the distribution of funds is appropriately distributed by formula.

§6.104 Subrecipient Eligibility

(a) Pursuant to Low-Income Home Energy Assistance Act of 1981, the Department shall ensure that:
To the extent it is necessary to designate local administrative agencies in order to carry out the purposes of this title, to give special consideration, in the designation of such agencies, to any local public or private nonprofit agency which was receiving Federal funds under any low-income energy assistance program or weatherization program under the Economic Opportunity Act of 1964 or any other provision of law on the day before the date of the enactment of this Act, except that--
(1) the State shall, before giving such special consideration, determine that the agency involved meets program and fiscal requirements established by the State; and
(2) if there is no such agency because of any change in the assistance furnished to programs for economically disadvantaged persons, then the State shall give special consideration in the designation of local administrative agencies to any successor agency which is operated in substantially the same manner as the predecessor agency which did receive funds for the fiscal year preceding the fiscal year for which the determination is made.
(b) The Department administers the program through the existing subrecipients that have demonstrated that they are operating the program under the Economic Opportunity Act of 1964, the Low-Income Home Energy Assistance Act of 1981 as amended (42 U.S.C. §6861 et seq.), and in accordance with 10 CFR §440.15 and State rules. If subrecipients are successfully administering the program, the Department may offer to renew the contract.
(c) When the Department determines that an organization is not administering the program satisfactorily, corrective actions are taken to remedy the problem. Thereafter, if subrecipient fails to administer the program correctly, the Department reassigns the service area or a portion to another existing subrecipient or conducts solicitation or selection of a new subrecipient in accordance with the Low-Income Home Energy Assistance Act of 1981 and 10 CFR §440.15.

§6.105 Subrecipient Requirements for Establishing Priority for Eligible Households and Client Eligibility Criteria

(a) The subrecipients shall establish the client eligibility level at no less than 125% of the federal poverty level in effect at the time the client makes an application for services.
(b) The subrecipients shall establish eligibility and priorities criteria to increase the energy efficiency of dwellings owned or occupied by low-income persons who are particularly vulnerable such as the elderly, persons with disabilities, families with young children, high residential energy users, and households with high energy burden. High residential energy users and households with high energy burden are considered to be as follows:
(1) Households with high energy burden. The energy burden is determined by dividing annual home energy costs by annual gross income. The percentage at which energy burden is categorized as high is defined by data gathered from the State Data

Center and updated each year. (2) Households with high energy consumption, as determined by using data collected from the State Data Center and updated each year.
(c) The subrecipients shall follow the Department rules and established state and federal guidelines for determining eligibility for multifamily dwelling units as referenced in §6.106.
(d) Subrecipients shall base annualized eligibility determinations on household income from the 30 day period prior to the date of application for assistance. Each subrecipient shall document income from all sources for all household members for the entire 30 day period prior to the date of application and multiply by twelve (12) to annualize income. Income documentation must be collected from all income sources for all household members 18 years and older for the entire 30 day period.
(e) Subrecipients shall calculate annual income using, at a minimum, applicant's income from the previous 30 day period. In the case of migrant or seasonal workers, a longer period than 30 days may be used for annualizing income. However, the same method must be used for all similarly situated workers.
(f) If proof of income is unavailable, the applicant must complete and sign a Declaration of Income Statement (DIS). In order to use the DIS form, each subrecipient shall develop and implement a written policy and procedure on the use of the DIS form. In developing the policy and procedure, subrecipients shall give consideration to limiting the use of the DIS form to cases where there are serious extenuating circumstances that justify the use of the form. Such circumstances might include crisis situations such as applicants that are affected by natural disaster which prevents the applicant from obtaining income documentation, applicants that flee a home due to physical abuse, applicants who are unable to locate income documentation of a recently deceased spouse, or whose work is migratory or seasonal in nature. The Department will review the written policy and its use during on-site monitoring visits.
(g) Subrecipient shall determine income eligibility.

(1) The following list contains the types of income that are included as income in the definition of income for the purpose of determining the total household income:

(A) Temporary Assistance for Needy Families (TANF);

(B) money, wages and salaries before any deductions;

(C) net receipts from non-farm or farm self-employment (receipts from a person's own business or from an owned or rented farm after deductions for business or farm expenses);

(D) regular payments from social security;

(E) railroad retirement;

(F) unemployment compensation;

(G) strike benefits from union funds;

(H) worker's compensation;

(I) veteran's payments;

(J) training stipends;

(K) alimony;

(L) military family allotments;

(M) private pensions;

(N) government employee pensions (including military retirement pay);

(O) regular insurance or annuity payments; and

(P) dividends, interest, net rental income, net royalties, periodic receipts from estates or trusts; and net gambling or lottery winnings.

(2) The following is a list that contains the types of income that are excluded from the definition of income:

(A) Social Security Disability Insurance (SSDI) payments;

(B) Supplemental Security Income (SSI) payments;

(C) capital gains; any assets drawn down as withdrawals from a bank;

(D) the sale of property, a house, or a car;

(E) one-time payments from a welfare agency to a family or person who is in temporary financial difficulty;

(F) tax refunds, gifts, loans, and lump-sum inheritances;

(G) one-time insurance payments, or compensation for injury;

(H) non-cash benefits, such as the employer-paid or union-paid portion of health insurance or other employee fringe benefits;

(I) food or housing received in lieu of wages;

(J) the value of food and fuel produced and consumed on farms;

(K) the imputed value of rent from owner-occupied non-farm or farm housing;

(L) federal non-cash benefit programs as Medicare, Medicaid, Food Stamps, and school lunches;

(M) housing assistance and combat zone pay to the military;

(N) college scholarships, Pell and other grant sources, assistantships, fellowships and work study; and

(O) child support payments.

(h) A dwelling unit shall be eligible for weatherization assistance if it is occupied by a family unit which contains a current household member who has received TANF or SSI at anytime during the twelve month period preceding the determination of eligibility. Dwelling units that contain household members who receive SSDI only are not automatically eligible. The eligibility of dwelling units for WAP services can be found in 10 CFR Part 440.22.

§6.106 Eligibility for Multifamily Dwelling Units

(a) A dwelling unit shall be eligible for weatherization assistance if it is occupied by a family unit which contains a household member who has received TANF or SSI at anytime during the twelve month period preceding the determination of eligibility. Dwelling units that contain household members who receive SSDI only are not automatically eligible. The eligibility of dwelling units for WAP services can be found in 10 CFR Part 440.22.

(b) The substantial investment of weatherization funds required to address multifamily units increases the need for additional quality assurance measures in the WAP. The Department has developed this section to ensure that funds used to weatherize multifamily dwelling units are expended within the scope of established State and Federal guidelines. This section addresses weatherization of multifamily buildings containing more than four (4) but less than 25 dwelling units. Approvals are not

required for buildings containing twenty-four dwelling units or less that contain shared central heating and/or cooling systems that use compressed air as a coolant.
(c) DOE approved the use of Energy Audit System (EASY) for use in single family, mobile home, and multifamily buildings with fewer than twenty-five dwelling units. The approval does not cover large multifamily buildings containing twenty-five or more dwelling units or those with shared central heating (i.e. boilers) and/or shared cooling plants (i.e. cooling towers that use water as the coolant). DOE defines a building as a group of dwellings under the same roof.
(d) In order to weatherize large multifamily buildings containing twenty-five or more dwelling units or those with shared central heating (i.e. boilers) and/or shared cooling plants (i.e. cooling towers that use water as the coolant) regardless of the number of dwelling units, subrecipients shall submit in writing a request for approval from the Department. In turn, the Department will seek approval from DOE. Approvals from DOE must be received prior to the installation of any weatherization measures.
(e) In order to weatherize shelters, subrecipients shall submit a written request for approval from the Department. Approvals from the Department must be received prior to the installation of any weatherization measures.
(f) Subrecipients are reminded that if roof replacement is to be considered as part of repair cost under the weatherization process, the expenses shall be shared equally by all eligible units weatherized under the same roof. If multiple storied buildings are weatherized, eligible ground story units must be allocated a portion of the roof cost as well as the eligible top story units. All weatherization measures installed in multifamily units must meet the standards set in 10 CFR §440.18(c)(9),(15) and Appendix A – Standards for Weatherization Materials, and meet a savings-to-investment ratio of one (1) or greater on the EASY Audit. DOE specifically addresses the eligibility of multifamily units in 10 CFR §440.22 (a)-(d).
(g) WAP subrecipients shall establish a multifamily master file for each multifamily project in addition to the individual unit requirements found in the record keeping requirement section of the contract. Subrecipients shall maintain a multifamily master file for each complex weatherized. The multifamily master file must include, at a minimum, the following forms:
(1) Multifamily Pre Project Checklist Form;
(2) Multifamily Post Project Checklist Form;
(3) Permission to Perform An Assessment for Multifamily Project Form;
(4) Landlord Agreement Form;
(5) Landlord Financial Participation Form;
(6) Significant Data Required in all Multifamily Project

§6.107 Contract Expiration, Termination, and Nonrenewal

(a) If available, LIHEAP-WAP grant funds shall be expended in a timely and effective manner, and services provided must be effective and in full compliance with federal and state requirements.
(b) The Department may continue to administer the program through the existing subrecipients that have demonstrated that they are operating the program in accordance

with the Low-Income Home Energy Assistance Act of 1981, 10 CFR §440.15, and state regulations through contract renewal.
(c) If a subrecipient does not comply with the program requirements, the Department may terminate a contract, in whole or in part, in accordance with the Low-Income Home Energy Assistance Act of 1981, 10 CFR §440.15, before the expiration date if:
(1) The Department and the subrecipient mutually agree to terminate the contract;
(2) Either the Department or the subrecipient provides the other party 30 days written notice that the notifying party intends to terminate the contract;
(3) Federal or state laws are changed to reduce or terminate the program;
(4) The subrecipient ceases to operate the program without the Department's approval; or
(5) The subrecipient does not comply with the terms of the contract or the negotiated service improvement agreement.
(d) Failure to submit an annual financial and compliance audit, in accordance with the Single Audit Act Amendments of 1996 in a timely manner, shall result in immediate suspension of payments to the subrecipient and may result in termination and/or nonrenewal of contracts.
(e) Failure to implement proper compliance with materials requirements and the correct installation of materials shall result in contract termination.
(f) The Department shall send the subrecipient a written notice when a contract is terminated. The subrecipient has the right to appeal this action within 15 days of receiving the notice.
(g) Subrecipient shall not be relieved of any liability for damages due to the Department by virtue of any prior or future breach of their contract.
(h) Financial audits resulting in unresolved disallowed costs, and/or unresolved reportable conditions shall result in termination or nonrenewal of contracts.
(i) The Department shall not be liable for any costs incurred by subrecipient after termination or during the suspension of their contract.
(j) Subrecipients shall follow TDHCA guidelines regarding the use of the approved energy audit and blower door technology.
(k) Subrecipients shall be required to incorporate and implement the Texas Weatherization Field Guide and the Texas Mechanical Systems Field Guide standards as required by program policy.

§6.108 Subrecipient Requirements for Appeals Process for Applicants

(a) Subrecipients shall provide a written denial of assistance notice to applicant within ten (10) days of the adverse determination. This notification shall include written instructions of the appeals process and specific reasons for the denial by component. The applicants wishing to appeal a decision must provide written notice to subrecipient within 10 days of receipt of the denial notice.
(b) The subrecipient who receives an appeal shall establish an appeals committee composed of at least three persons. Subrecipient shall maintain documentation of appeals in their client files.

(c) The subrecipient shall hold the appeal hearing within ten business days after the subrecipient received the appeal request from the applicant.
(d) The subrecipient shall tape record the hearing.
(e) The hearing shall allow time for a statement by subrecipient staff with knowledge of the case.
(f) The hearing shall allow the applicant at least equal time, if requested, to present relevant information contesting the decision.
(g) Subrecipient shall notify applicant of the decision in writing. The subrecipient shall mail the notification by close of business on the business day following the decision. (1 day turn-around)
(h) If the applicant is not satisfied, they may further appeal the decision in writing to the Department within ten days of notification of an adverse decision.
(i) If client appeals to the Department, the funds should remain encumbered until the Department completes its decision.
(j) The Department may review the tape recording of the hearing, the committee's decision, and any other relevant information necessary.
(k) The Department appeals committee shall decide the case and forward their recommendation to the Division Director for final concurrence.
(l) The Department will notify all parties in writing of its decision within 30 days of receipt of the appeal.

§6.109 Liability Insurance

(a) All subrecipient weatherization work shall be covered by liability insurance through DOE-WAP funds. Pollution Occurrence Insurance should be a part of, or an addendum to, general liability insurance. The Department includes funds in the DOE-WAP subrecipient budgets for the subrecipients to purchase liability insurance and pollution occurrence insurance as required for all units to be weatherized, including LIHEAP-WAP units.
(b) Subrecipients shall review and maintain their existing policies at least as frequently as contracts are awarded, to ensure that they and their contractors have adequate insurance coverage for all units to be weatherized.

§6.110 Mold Work Practices

(a) The Department may provide Mold Work Practices training methodology to all subrecipients.
(b) The Department may provide Mold Work Practices to new subrecipient hires on an on-going basis.
(c) The subrecipients shall be responsible for providing the training to their weatherization contractors.

§6.111 Mold Conditions

(a) If the subrecipient's energy auditor discovers a mold condition which the weatherization contractor cannot adequately address, then the unit shall be referred to the appropriate public agency for remedial action.
(b) The subrecipient shall provide the applicant written notification that their home cannot, at this time, be weatherized and why. They should also be informed of which agency they should contact to report the mold condition. The applicant should be advised that when the mold issue is resolved they may reapply for weatherization.
(c) If the energy auditor determines that the mold is treatable and covers less than the 25 contiguous square feet limit allowed to be addressed by the Texas Department of Health's guidelines, the subrecipient shall notify the applicant of the existence of the mold and potential health hazards, the proposed action to eliminate the mold, and that no guarantee is offered that the mold will be eliminated and that the mold may return. The auditor must obtain written approval from the applicant to proceed with the weatherization work.

§6.112 Client Education

The subrecipients shall provide client education to each WAP client on energy conservation practices. Subrecipients shall provide education to identify energy waste, manage household energy use, and strategies to promote energy savings. Subrecipients are encouraged to use oral, written, and visual educational materials. These activities are paid with the Department's and the subrecipients' administrative funds.

§6.113 Allowable Expenditure Per Dwelling Unit

Expenditures of financial assistance provided under DOE-WAP funding or other resources for the weatherization services for labor, weatherization materials, and related matters shall not exceed the allowable figure as set forth in the annual LIHEAP State Plan. The current allowable amount is set at $4,000 per dwelling unit.

§6.114 Energy Audit Procedures

(a) The Department may set and modify as necessary the allowable savings-to-investment ratio (SIR) for the energy audit procedures to determine the allowable weatherization measures.
(b) The EASY Audit (EASY) has been approved by DOE for use on single family dwellings, mobile homes, and multi-family buildings containing 24 or fewer units.
(c) EASY has not been approved for multi-family buildings containing 25 or more units. Since Texas subrecipients rarely propose to weatherize a building with 25 or more units, the Department will acquire a DOE approved energy audit for use in auditing multi-family buildings containing 25 or more units.

(d) The Department may change its blower door requirements in order to gain higher savings.

§6.115 Energy Repairs

(a) WAP will provide weatherization energy efficiency and weatherization repair related activities to eligible clients. The list of allowable LIHEAP-WAP weatherization energy related repairs which may be undertaken when necessary to protect and complete regular energy efficiency weatherization measures include:
(1) roof, wall, and floor repair (excluding leveling);
(2) repair or replacement of essential electrical wiring;
(3) solar screens and window film (must be installed in the order of west, east, and south);
(4) replacement of refrigerators 1993 or older or metered to have an SIR of 1 or greater on the Department refrigerator tool;
(5) mobile home skirting to protect belly insulation;
(6) overhangs to protect mobile home doors; and
(7) carpentry work to protect outside water heater from the elements.

§6.116 Health and Safety

(a) Subrecipients shall provide weatherization services with the primary goal of the WAP is energy efficiency. The Department considers establishing a healthy and safe home environment to be important to ensuring that energy savings result from weatherization work.
(b) It is the policy of the Department that if health and safety issues identified on an individual unit (which would be exacerbated by any weatherization work performed) cannot be abated within the allowable WAP limits, the unit shall be denied services.
(c) The Department has determined that repair/replacement windows that do not rank with a SIR of one or greater on the audit may be repaired/replaced, if deemed as a necessary. To be eligible for repair/replacement, broken window panes must pose a potential hazardous condition to the client and/or workers. Documentation for replacement must include a clear comprehensible photo showing the hazardous conditions to the occupants. Failure to provide a photo will result in disallowed costs. Slightly cracked window panes do not constitute a hazardous condition.
(d) The Department has determined that repair/replacement doors that do not rank with an SIR of one or greater on the audit, may be repaired/replaced, if deemed as a necessary. To be eligible for repair/replacement the doors must be unable to protect the client from outside elements or unwanted intruders. Documentation for replacement must include a clear comprehensible photo evidencing the hazardous conditions to the occupants. Documentation must be submitted to the assigned the Department program officer for approval. The absence of deadbolt locks does not constitute a hazardous health and safety condition.

§6.117 Electric Base Load Measures

DOE has approved the inclusion of selected Electric Base Load (EBL) measures as part of the weatherization of eligible residential units. EBL measures will be allowable under the LIHEAP-WAP program. The EBL measures must be determined cost effective with an SIR of one or greater by either audit analysis or separate DOE approved analytical tools.

§6.118 Payments to Contractors and Vendors

(a) A vendor agreement is required by the Department and implemented via the subrecipient, shall contain assurances as to fair billing practices, delivery procedures, and pricing procedures for business transactions involving LIHEAP recipients.
(b) Subrecipient shall maintain proof of payment to contractors and vendors.

§6.119 State Contract Purchases

(a) Subrecipients shall comply with the Department rules and state procurement standards regarding competitive solicitation of bids for materials, labor, and equipment and shall adhere to guidelines for selection and award of subcontracts.
(b) Subrecipient shall develop and implement procurement procedures, which conform to the cost principles and uniform administrative requirements set forth in the Uniform Grant and Contract Management Standards, 1 T.A.C. § 5.141 et seq.
(c) The State of Texas conducts competitive solicitations to identify equipment and material vendors to provide specified merchandise at discounted prices to State agencies and their contracted agents. Unless a local vendor is identified through a competitive solicitation that will provide equal or better materials and services at the same price or less, subrecipients shall purchase any equipment, materials, or services paid for with LIHEAP funds from a vendor participating in the Texas Building and Procurement Commission's Cooperative Purchasing Program.

§6.120 Outreach and Accessibility

(a) The Department may continue to develop interagency collaborations with other low-income program offices and energy providers to perform outreach to targeted groups.
(b) Subrecipients shall conduct outreach activities.
(c) Subrecipients and their field offices shall accept applications at sites that are geographically accessible to all households requesting assistance.
(d) Other outreach activities may include:
 (1) providing information through home visits, site visits, group meetings, or by telephone for disabled low-income persons;

(2) distributing posters/flyers and other informational materials at local and county social service agencies, offices of aging, social security offices, etc.;
(3) providing information on the program and eligibility criteria in articles in local newspapers or broadcast media announcements;
(4) coordinating with other low-income services to provide LIHEAP information in conjunction with other programs;
(5) providing information on one-to-one basis for applicants in need of translation or interpretation assistance;
(6) providing LIHEAP applications, forms, and energy education materials in English and/or Spanish (or other appropriate language);
(7) working with energy vendors in identifying potential applicants;
(8) assisting applicants to gather needed documentation; and,
(9) mailing information and applications.

§6.121 Subrecipient Reporting Requirements

(a) The subrecipient shall electronically submit to the Department a monthly Funding Report of all expenditure of funds, request for advance or reimbursement, and a monthly performance report no later than fifteen (15) days after the end of each month. This reporting is required.
(b) The subrecipient shall electronically submit to the Department no later than sixty (60) days after the end of the subrecipient contract term a final expenditure or reimbursement and programmatic report utilizing the Funding Report. This reporting is required.
(c) The subrecipient shall submit to the Department no later than sixty (60) days after the end of the contract term an inventory of all vehicles, tools, and equipment with a unit acquisition cost of $5,000 or more and a useful life of more than one year, if purchased in whole or in part with LIHEAP-WAP funds.
(d) The subrecipient shall submit other reports, data, and information on the performance of the LIHEAP-WAP program activities as required by the Department.

SUBCHAPTER C COMPREHENSIVE ENERGY ASSISTANCE PROGRAM (CEAP)

§6.201 Definitions

As used in this title:
(a) CAA--Community Action Agency
(b) Children--households with dependents not exceeding 18 years of age.
(c) Cooling--modifications including but not limited to the repair or replacement of air conditioning units, evaporative coolers, and refrigerators.
(d) Dwelling Unit--a house, including a stationary mobile home, an apartment, a group of rooms, or a single room occupied as separate living quarters.
(e) Disabled Person--any individual who is:
(1) a handicapped individual as defined in section 7(6) of the Rehabilitation Act of 1973,
(2) under a disability as defined in section 1614(a)(3)(A) or 223(d)(1) of the Social Security Act or in section 102(7) of the Developmental Disabilities Services and Facilities Construction Act, or
(3) receiving benefits under chapter 11 or 15 of title 38, U.S.C.
(f) Emergency--consists of the following:
(1) natural disaster;
(2) a significant increase in the cost of home energy, as determined by the Secretary;
(3) a significant increase in home energy disconnections reported by a utility, a State regulatory agency, or another agency with necessary data;
(4) a significant increase in participation in a public benefit program such as the food stamp program carried out under the Food Stamp Act of 1977 (7 U.S.C. 2011 et seq.), the national program to provide supplemental security income carried out under title XVI of the Social Security Act (42 U.S.C. 1381 et seq.) or the State temporary assistance for needy families program carried out under part A of title IV of the Social Security Act (42 U.S.C. 601 et seq.), as determined by the head of the appropriate Federal agency;
(5) a significant increase in unemployment, layoffs, or the number of households with an individual applying for unemployment benefits, as determined by the Secretary of Labor; or
(6) an event meeting such criteria as the Secretary, in the discretion of the Secretary, may determine to be appropriate.
(g) Elderly Person--a person who is 60 years of age or older.
(h) Energy Crisis--weather-related and supply shortage emergencies and other household energy-related emergencies.

(i) Energy Education--the process whereby individuals and households learn the choices to use energy efficiently, improve their indoor comfort, and become aware of how their behavior affects energy consumption, energy cost, and health and safety within their homes.
(j) Families with young children--a family unit that includes a child not exceeding 6 years of age.
(k) Heating--modifications including but not limited to the repair or replacement of gas and electric furnaces, wall furnaces, gas space heaters, and propane tanks including accessories.
(l) Highest home energy needs--the home energy requirements of a household determined by taking into account both the energy burden of such household and the unique situation of such household that results from having members of vulnerable populations, including very young children, individuals with disabilities, and frail older individuals.
(m) High energy burden--is determined by dividing annual home energy costs by annual gross income. The percentage at which energy burden is considered high is defined by data gathered from the State Data Center and updated each year.
(n) High energy consumption--the household energy consumption exceeding the data collected from the State Data Center and updated each year.
(o) Household--any individual or group of individuals who are living together as one economic unit for whom residential energy is customarily purchased in common or who make undesignated payments for energy.
(p) Home Energy--a source of heating or cooling in residential dwellings.
(q) Natural Disaster--a weather event (relating to cold or hot weather), flood, earthquake, tornado, hurricane, or ice storm, or an event meeting such other criteria as the Secretary, in the discretion of the Secretary, may determine to be appropriate.
(r) Local units of Government--city, county, or council of governments.
(s) Low Income--that income in relation to family size which:
(1) Is at or below 125 percent of the poverty level determined in accordance with criteria established by the Director of the Office of Management and Budget.
(2) Is the basis on which cash assistance payments have been paid during the preceding twelve month-period under titles IV and XVI of the Social Security Act or applicable State or local law; or
(3) If a State elects, is the basis for eligibility for assistance under the Low Income Home Energy Assistance Act of 1981, provided that such basis is at least 125 percent of the poverty level determined in accordance with criteria established by the Director of the Office of Management and Budget.
(t) Multifamily Dwelling Unit--a structure containing more than one dwelling unit.
(u) Needs Assessment--activities involving identifying, gathering, comparing and evaluating information and data about a client household or a community in order to determine the type and nature of the problems involved, the capacities and resources of the client households or community, and the services needed to assist the households and community.
(v) Outreach--the method that attempts to identify clients who are in need of services, alerts these clients to service provisions and benefits, and helps them use the services that are available. It actively strives to locate, contact and engage potential clients.

(w) Referral--linking a client household with an agency, program, or professional person that can and will provide the service needed by the client.
(x) Renter--a dwelling unit occupied by a person who pays rent for the use of the dwelling unit.
(y) Secretary--the Secretary of Health and Human Services.
(z) State--the State of Texas
(aa) Subrecipient--an entity which receives a Comprehensive Energy Assistance Program grant of funds awarded.
(bb) Targeting--focusing assistance to households with the highest home energy needs.
(cc) Vendor Agreement--and agreement between the Subrecipient and the local energy vendor that contains assurance as to fair billing practices, delivery procedures, and pricing for business transactions involving LIHEAP recipients.
(dd) WAP--Weatherization Assistance Program

§6.202 Program Overview

(a) The Energy Assistance Programs are referred to as the Energy Services Program for Low-Income Individuals in accordance with Texas Government Code, Section 2306.097. The Comprehensive Energy Assistance Program (CEAP) is funded through the U.S. Department of Health and Human Services' Low Income Home Energy Assistance Program (LIHEAP) grant. CEAP offers grants to community action agencies, nonprofits, and local units of government with targeted beneficiaries being households with low incomes, with priority given to the elderly; persons with disabilities; families with young children; households with the highest energy costs or needs in relation to income; and households with high energy consumption.
(b) The Comprehensive Energy Assistance Program (CEAP) combines activities, as defined in Assurance 16 (The State agrees to use up to five percent of such funds, at its option, to provide services that encourage and enable households to reduce their home energy needs and thereby the need for energy assistance, including needs assessments, counseling, and assistance with energy vendors, and report to the Secretary concerning the impact of such activities on the number of households served, the level of direct benefits provided to those households, and the number of households that remain unserved.) in the LIHEAP Statute [42 U.S.C. §8624 (b)(16)]; education; and financial assistance to help very low- and extremely low-income consumers reduce their utility bills to an affordable level. Services include utility payment assistance; heating and cooling system replacement; repair and retrofit; energy education; and budget counseling as it pertains to energy needs.
(c) Due to diverse weather conditions in Texas, each local subrecipient will determine the key months for heating and/or cooling assistance to the household based on the household's energy consumption. For purposes of comparing federal to state activity categories, the Texas CEAP components reflect LIHEAP categories of heating and cooling. The months of December – February count for heating assistance, while March – November count for cooling assistance.
(d) The crisis assistance component will remain a year-round program. A portion of the crisis assistance funds will be reserved by the State for later distribution to ensure

adequate crisis assistance after March 15. Crisis funds not used during the winter months for energy crisis will be made available to local agencies to start crisis operation for the summer months.
(e) The Department will reserve 15 percent of the federal LIHEAP grant award funds to implement the LIHEAP-Weatherization Assistance Program (LIHEAP-WAP) activities.
(f) The Department retains a maximum of 10% of the federal LIHEAP grant award funds for subrecipients' and the Department's administrative funds for CEAP and LIHEAP-WAP.

§6.203 Distribution of Funds Formula

(a) The Department distributes funds to subrecipients by an allocation formula.
(b) This funding formula was developed with input from subrecipients. This formula allocates funds based on the number of low-income households in a service area and takes into account the special needs of individual service areas. The need for energy assistance in an area is addressed through a weather factor (based on heating and cooling degree days). The extra expense in delivering services in sparsely populated areas is addressed by an inverse population density factor. The lack of additional services available in very poor counties is addressed by a county median income factor. Finally, the elderly are given priority by giving greater weight to this population. The five factors used in the formula are calculated as follows:
(1) County Non-elderly Poverty Household Factor is defined as the number of Non-elderly Poverty Households in the County divided by the number of Non-elderly Poverty Households in the State.
(2) County Elderly Poverty Household Factor is defined as the number of Elderly Poverty Households in the County divided by the number of Elderly Poverty Households in the State.
(3) County Inverse Poverty Household Density Factor is defined as:
(A) The number of Square Miles of the County divided by the number of Poverty Households of the County (equals the Inverse Poverty Household Density of the County), and
(B) Inverse Poverty Household Density of the County divided by the Sum of Inverse Household Densities.
(4) County Median Income Variance Factor is defined as:
(A) State Median Income minus the County Median Income (equals County Variance), and
(B) County Variance divided by sum of the State County Variances.
(5) County Weather Factor is defined as:
(A) County Heating Degree Days plus the County Cooling Degree Days, multiplied by the Poverty Households, divided by the sum of County Heating & Cooling Degree Days of Counties (equals County Weather), and
(B) County Weather divided by the total sum of the State County Weather.
(c) The five factors carry the following weights in the allocation formula: number of non-elderly poverty households (40 percent), number of poverty households with at least one member who is 65 years of age or older (40 percent), household density as an

inverse ratio (5 percent), the median income of the county (5 percent), and a weather factor based on Heating Degree Days and Cooling Degree Days (10 percent). All demographic factors are based on the 2000 U.S. Census. The formula is as follows:

(1) County Non-elderly Poverty Household Factor (0.40) plus

(2) County Elderly Poverty Household Factor (0.40) plus

(3) County Inverse Poverty Household Density Factor (0.05) plus;

(4) County Median Income Variance Factor (0.05) plus;

(5) County Weather Factor (0.10)

(6) Total sum of 1 through 5 multiplied by total funds allocation equals the County's allocation of funds.

(7) The sum of the county allocation within each subrecipient service area equals the subrecipient's total allocation of funds.

(d) Periodically, the Department management must shift resources from low-demand regions to high-demand regions of the state. During the sixth month of the program year, the Department will conduct an in-house performance review of all subrecipients. The performance review will include individual subrecipient expenditure rate and households served by program component, as specified in the Service Delivery Plan and contract. Based on the review, the Department may deobligate funds from low performing subrecipients and award the funds to high performing subrecipients. Additional LIHEAP funds received during a program year, beyond the regular grant allocation, may be allocated to subrecipient based upon documented need.

§6.204 Subrecipient Eligibility

(a) Pursuant to Low-Income Home Energy Assistance Act of 1981, the Department shall ensure that:

To the extent it is necessary to designate local administrative agencies in order to carry out the purposes of this title, to give special consideration, in the designation of such agencies, to any local public or private nonprofit agency which was receiving Federal funds under any low-income energy assistance program or weatherization program under the Economic Opportunity Act of 1964 or any other provision of law on the day before the date of the enactment of this Act, except that--

(1) the State shall, before giving such special consideration, determine that the agency involved meets program and fiscal requirements established by the State; and

(2) if there is no such agency because of any change in the assistance furnished to programs for economically disadvantaged persons, then the State shall give special consideration in the designation of local administrative agencies to any successor agency which is operated in substantially the same manner as the predecessor agency which did receive funds for the fiscal year preceding the fiscal year for which the determination is made.

(b) The Department administers the program through the existing subrecipients that have demonstrated that they are operating the program in accordance with the Economic Opportunity Act of 1964, the Low-Income Home Energy Assistance Act of 1981 as amended (42 U.S.C. §8621 et seq.), and State rules. If subrecipients are

successfully administering the program, the Department may offer to renew the contract.
(c) When the Department determines that an organization is not administering the program satisfactorily, corrective actions are taken to remedy the problem. Thereafter, if subrecipient fails to administer the program correctly, the Department reassigns the service area or a portion to another existing subrecipient or conducts solicitation or selection of a new subrecipient in accordance with the Low-Income Home Energy Assistance Act of 1981.

§6.205 Subrecipient Requirements for Establishing Priority for Eligible Households and Client Eligibility Criteria

(a) The subrecipients shall establish the client eligibility level at no less than 125% of the federal poverty level in effect at the time the client makes an application for services.
(b) The subrecipients shall establish priorities criteria to serve persons in households who are particularly vulnerable such as the elderly, persons with disabilities, families with young children, high residential energy users, and households with high energy burden. High residential energy users and households with high energy burden are considered to be as follows:
(1) Households with high energy burden (greater than 11.08% of household income). When data becomes available from the State Data Center this percentage figure will be updated. Energy burden is figured by dividing home energy costs by gross income.
(2) Households with high energy consumption (greater than $1,028 per year). When data becomes available from the State Data Center this figure will be updated. The households' annual home energy consumption is calculated and the ones that exceed $1,028 are counted as high energy consumption households.
(c) The subrecipients shall follow the Department rules and established state and federal guidelines for determining eligibility for multifamily dwelling units.
(d) Subrecipients shall base annualized eligibility determinations on household income from the 30 day period prior to the date of application for assistance. Each subrecipient shall document income from all sources for all household members for the entire 30 day period prior to the date of application and multiply by twelve (12) to annualize income. Income documentation must be collected from all income sources for all household members 18 years and older for the entire 30 day period.
(e) Subrecipients shall calculate annual income using, at a minimum, applicant's income from the previous 30 day period. In the case of migrant or seasonal workers, a longer period than 30 days may be used for annualizing income. However, the same method must be used for all similarly situated workers.
(f) If proof of income is unavailable, the applicant must complete and sign a Declaration of Income Statement (DIS). In order to use the DIS form, each subrecipient shall develop and implement a written policy and procedure on the use of the DIS form. In developing the policy and procedure, subrecipients shall give consideration to limiting the use of the DIS form to cases where there are serious extenuating circumstances that justify the use of the form. Such circumstances might include crisis situations such as

applicants that are affected by natural disaster which prevents the applicant from obtaining income documentation, applicants that flee a home due to physical abuse, applicants who are unable to locate income documentation of a recently deceased spouse, or whose work is migratory or seasonal in nature. The Department will review the written policy and its use during on-site monitoring visits.

(g) Subrecipient shall determine income eligibility.

(1) The following list contains the types of income that are included as income in the definition of income for the purpose of determining the total household income:

(A) Temporary Assistance for Needy Families (TANF);

(B) money, wages and salaries before any deductions;

(C) net receipts from non-farm or farm self-employment (receipts from a person's own business or from an owned or rented farm after deductions for business or farm expenses);

(D) regular payments from social security;

(E) railroad retirement;

(F) unemployment compensation;

(G) strike benefits from union funds;

(H) worker's compensation;

(I) veteran's payments;

(J) training stipends;

(K) alimony;

(L) military family allotments;

(M) private pensions;

(N) government employee pensions (including military retirement pay);

(O) regular insurance or annuity payments; and

(P) dividends, interest, net rental income, net royalties, periodic receipts from estates or trusts; and net gambling or lottery winnings.

(2) The following is a list that contains the types of income that are excluded from the definition of income:

(A) Social Security Disability Insurance (SSDI) payments;

(B) Supplemental Security Income (SSI) payments;

(C) capital gains; any assets drawn down as withdrawals from a bank;

(D) the sale of property, a house, or a car;

(E) one-time payments from a welfare agency to a family or person who is in temporary financial difficulty;

(F) tax refunds, gifts, loans, and lump-sum inheritances;

(G) one-time insurance payments, or compensation for injury;

(H) non-cash benefits, such as the employer-paid or union-paid portion of health insurance or other employee fringe benefits;

(I) food or housing received in lieu of wages;

(J) the value of food and fuel produced and consumed on farms;

(K) the imputed value of rent from owner-occupied non-farm or farm housing;

(L) federal non-cash benefit programs as Medicare, Medicaid, Food Stamps, and school lunches;

(M) housing assistance and combat zone pay to the military;

(N) college scholarships, Pell and other grant sources, assistantships, fellowships and work study; and

(O) child support payments.

(h) Homeowners and renters will be treated equitably under all programs funded in whole or in part from LIHEAP funds. For those renters who pay heating and/or cooling bills as part of their rent, the subrecipient shall make special efforts to determine the portion of the rent that constitutes the fuel heating and/or cooling payment. If "sub metering" is not available, the subrecipient shall exercise care when negotiating with the landlords so the cost of utilities quoted is in line with the consumption for similar residents of the community. If the subrecipient pays the landlord, then the landlord shall furnish evidence that he/she has paid the bill and the amount of assistance must be deducted from the rent, if the utility payment is not stated separately from the rent. An agreement stating the terms of the payment negotiations must be signed by the landlord.

§6.206 Contract Expiration, Termination, and Nonrenewal

(a) If available, CEAP grant funds shall be expended in a timely and effective manner, and services provided must be effective and in full compliance with federal and state requirements.

(b) The Department may continue to administer the program through the existing subrecipients that have demonstrated that they are operating the program in accordance with the Low-Income Home Energy Assistance Act of 1981, 10 CFR §440.15, and state regulations through contract renewal.

(c) If a subrecipient does not comply with the program requirements, the Department may terminate a contract, in whole or in part, in accordance with the Low-Income Home Energy Assistance Act of 1981 and 10 CFR §440.15, before the expiration date if:

(1) The Department and the subrecipient mutually agree to terminate the contract;

(2) Either the Department or the subrecipient provides the other party 30 days written notice that the notifying party intends to terminate the contract;

(3) Federal or state laws are changed to reduce or terminate the program;

(4) The subrecipient ceases to operate the program without the Department's approval; or

(5) The subrecipient does not comply with the terms of the contract or the negotiated service improvement agreement.

(d) Failure to submit an annual financial and compliance audit, in accordance with the Single Audit Act Amendments of 1996 in a timely manner, shall result in immediate suspension of payments to the subrecipient and may result in termination and/or nonrenewal of contracts.

(e) Failure to implement proper compliance with materials requirements and the correct installation of materials shall result in contract termination.

(f) The Department shall send the subrecipient a written notice when a contract is terminated. The subrecipient has the right to appeal this action within 15 days of receiving the notice.

(g) Subrecipient shall not be relieved of any liability for damages due to the Department by virtue of any prior or future breach of their contract.

(h) Financial audits resulting in unresolved disallowed costs, and/or unresolved reportable conditions shall result in termination or nonrenewal of contracts.
(i) The Department shall not be liable for any costs incurred by subrecipient after termination or during the suspension of their contract.

§6.207 Subrecipient Requirements for Appeals Process for Applicants

(a) Subrecipients shall provide a written denial of assistance notice to applicant within ten (10) days of the adverse determination. This notification shall include written instructions of the appeals process and specific reasons for the denial by component. The applicants wishing to appeal a decision must provide written notice to subrecipient within 10 days of receipt of the denial notice.
(b) The subrecipient who receives an appeal shall establish an appeals committee composed of at least three persons. Subrecipient shall maintain documentation of appeals in their client files.
(c) The subrecipient shall hold the appeal hearing within ten business days after the subrecipient received the appeal request from the applicant.
(d) The subrecipient shall tape record the hearing.
(e) The hearing shall allow time for a statement by subrecipient staff with knowledge of the case.
(f) The hearing shall allow the applicant at least equal time, if requested, to present relevant information contesting the decision.
(g) Subrecipient shall notify applicant of the decision in writing. The subrecipient shall mail the notification by close of business on the business day following the decision. (1 day turn-around)
(h) If the applicant is not satisfied, they may further appeal the decision in writing to the Department within ten days of notification of an adverse decision.
(i) If client appeals to the Department, the funds should remain encumbered until the Department completes its decision.
(j) The Department may review the tape recording of the hearing, the committee's decision, and any other relevant information necessary.
(k) The Department appeals committee shall decide the case and forward their recommendation to the Division Director for final concurrence.
(l) The Department will notify all parties in writing of its decision within 30 days of receipt of the appeal.

§6.208 Types of Assistance Available and Benefit Levels

(a) Subrecipients shall not discourage anyone from applying for CEAP assistance. Subrecipients shall provide all potential clients with ample opportunity to apply for LIHEAP programs.
(b) CEAP provides assistance to targeted beneficiaries being households with low incomes at or below 125% of the Federal Poverty Level, with priority given to the elderly, persons with disabilities, families with young children; households with the

highest energy costs or needs in relation to income, and households with high energy consumption.

(c) CEAP combines activities, as defined in Assurance 16 in the LIHEAP Statute [42 U.S.C. §8624 (b)(16)]; education; and financial assistance to help very low- and extremely low-income consumers reduce their utility bills to an affordable level. Services include utility payment assistance; heating and cooling system replacement, repair, and/or retrofit; energy education; and budget counseling. The Department requires subrecipients to expend a minimum of ten percent for each of the Energy Crisis Program, the Elderly and Disabled Assistance, and the Heating and Cooling System Replacement, Repair, and/or Retrofit Components. The Co-payment Component minimum expenditure is established by the subrecipient.

(d) Benefit sliding scale for all CEAP components:

(1)Benefit determinations are based on the household's income, the household size, the energy cost and/or the need of the household, and the availability of funds. Energy bills already paid by householders may not be reimbursed by the program. Subrecipients will calculate payments based on:

(A) a sliding scale benefit structure; and

(B) the highest consumption months remaining in the program year.

(2) To ensure that households with the lowest incomes and greatest needs receive the greatest amount of assistance to alleviate their energy needs (taking into account family size), energy assistance benefit determination will use the following sliding scale (Except Heating and Cooling System Replacement, Repair and/or Retrofit Component):

(A) Households With Incomes Of: 0 to 50% of Federal Poverty Guidelines are eligible for a maximum household benefit as follows household may receive an amount needed to address their energy payment shortfall not to exceed $1,200.

(B) Households With Incomes Of: 51% to 75% of Federal Poverty Guidelines are eligible for a maximum household benefit as follows household may receive an amount needed to address their energy payment shortfall not to exceed $1,100.

(C) Households With Incomes Of: 76% to 125% of Federal Poverty Guidelines are eligible for a maximum household benefit as follows household may receive an amount needed to address their energy payment shortfall not to exceed $1,000.

(3) The Heating and Cooling System Replacement, Repair, and/or Retrofit Component maximum household benefit limit is $4,000.

(e) Benefit Limits by Program Component - Depending upon client eligibility, some or all of the following benefits may apply:

(1) Co-Payment Component: minimum client service period, three months – unless client fails to meet the provisions of the client service agreement, which may result in an early termination from the program – but service period shall not exceed twelve months;

(A) First payment of co-payment plan may pay 100 percent of a utility bill -- including arrears – or an appropriate percentage determined by the subrecipient as detailed in the Service Delivery Plan;

(B) annual maximum household benefit $1,200

(2) Heating and Cooling Replacement, Repair, and/or Retrofit Component- Maximum annual household benefit $4,000

(3) Elderly and Disabled Assistance Component - Maximum annual household benefit $1,200
(4) Energy Crisis Program Component - Maximum annual household benefit $1,200
(5) Total maximum possible annual household benefit (all components) $7,600
(6) Subrecipient shall determine client eligibility for utility payments and/or retrofit based on the agency's household priority rating system and household's income as a percent of poverty.
(7)Subrecipient shall not establish lower local limits of assistance for any component.
(f) Subrecipients shall provide only the following types of assistance with funds from CEAP:
(1) Payment to vendors and suppliers of fuel/utilities, goods, and other services for past due or current bills related to the procurement of energy for heating and cooling needs of the residence, not to include security lights and other items.
(2) Payment to vendors – only one energy bill payment per month as required by component.
(3) Needs assessment and energy conservation tips, coordination of resources, and referrals to other programs.
(4) Utility assistance to low-income elderly and disabled individuals most vulnerable to high cost of energy for heating and cooling needs of the residence.
(5) Replacement, repair and/or retrofit of household heating and cooling systems if needed. All replacement units must comply with minimum standards for energy efficiency and must result in energy savings for the client. Heating and cooling funds may pay for zoning off a room in which the client spends a majority of time at home, incidental to the above improvements, if necessary to conserve conditioned air. In order to use heating and cooling funds for a room zone off, the household must also be receiving a repair, replacement, or retrofit of a space heating or cooling unit.
(6) Assistance to a household during an energy-related crisis precipitated by extreme weather conditions and/or an energy supply shortage. A utility disconnection notice may qualify, if client demonstrates a history of good faith in paying prior utility bills.
(7) Payment of water bills only when such costs include expenses from operating an evaporative water cooler unit or when the water bill is an inseparable part of a utility bill. As a part of the intake process, outreach, and coordination, the subrecipient shall confirm that a client owns an operational evaporative cooler and has used it to cool the dwelling within sixty (60) days prior to application. Payment of other utility charges such as wastewater and waste removal are allowable only if these charges are an inseparable part of a utility bill. Whenever possible, subrecipient shall negotiate with the utility providers to pay only the "home energy" – heating and cooling -- portion of the bill.
(8) Purchase, lease, or repair of butane or propane tanks as well as the residential lines associated with the tanks or natural gas lines of the dwelling not to exceed the household's maximum allowable assistance and only if such service ensures the flow of energy necessary for heating and or cooling the household.
(9) Purchase or repair of residential electric lines, not to exceed household's maximum allowable assistance and only if such service ensures the flow of energy necessary for heating and cooling the household.

(10) Payment of reconnection fees in line with the registered tariff filed with the Public Utility Commission and/or Texas Railroad Commission. Payment cannot exceed that stated tariff cost. Subrecipient shall negotiate to reduce the costs to cover the actual labor and material and to ensure that the utility does not assess a penalty for delinquency in payments.
(11) Payment of security deposits only when state law requires such a payment, or if the Public Utility Commission or Texas Railroad Commission has listed such a payment as an approved cost, and where required by law, tariff, regulation, or a deferred payment agreement includes such a payment. Subrecipient shall not pay any such security deposit that the energy provider will eventually return to the client.
(12) While rates and repair charges may vary from vendor to vendor, subrecipient shall negotiate for the lowest possible payment. Prior to making any payments to an energy vendor a subrecipient shall have a signed vendor agreement on file from the energy vendor receiving direct LIHEAP payments from the subrecipient.
(13) Subrecipient may make payments to landlords on behalf of eligible renters who pay their utility and/or fuel bills indirectly. Subrecipient shall notify each participating household of the amount of assistance paid on its behalf. Subrecipient shall document this notification. Subrecipient shall maintain proof of utility or fuel bill payment. Subrecipient shall ensure that amount of assistance paid on behalf of client is deducted from client's rent.
(14) In lieu of deposit required by an energy vendor, subrecipient may make advance payments. The Department does not allow LIHEAP expenditures to pay deposits, except as noted in number 11 (above). Advance payments may not exceed an estimated two months' billings.
(g) Funds for the Texas CEAP shall not be used to weatherize dwelling units, for medicine, food, transportation assistance (i.e., vehicle fuel), income assistance, or to pay for penalties or fines assessed to clients.
(h) The CEAP Energy Crisis Program Component consists of the following:
(1) A bona fide energy crisis exists when extraordinary events or situations resulting from extreme weather conditions and fuel supply shortages have depleted or will deplete household financial resources and/or have created problems in meeting basic household expenses, particularly bills for energy so as to constitute a threat to the well-being of the household, particularly the elderly, the disabled, or very young children.
(2) A utility disconnection notice may constitute an energy crisis, if client demonstrates a history of good faith in paying prior utility bills. A utility disconnection notice may constitute an energy crisis, if brought about by sudden or unexpected events.
(3) Energy Crisis assistance for one household cannot exceed $1,200 in one year. Crisis assistance payments cannot exceed the minimum amount needed to resolve the crisis. If the client's crisis requires more than the household limit to resolve, it exceeds the scope of this program. If crisis exceeds the household limit, subrecipient may pay up to the household limit but the rest of the bill will have to be paid from other funds or the client to resolve the crisis. Payments may not exceed client's actual utility bill. The assistance must result in resolution of the crisis.
(4) Where necessary to prevent undue hardships from a qualified energy crisis, subrecipients may directly issue vouchers to provide:

(A) Temporary shelter not to exceed the annual household expenditure limit for the duration of the contract period in the limited instances that inoperable heating/cooling appliances or supply of power to the dwelling is disrupted -- causing temporary evacuation of household members. Payments shall not be made for rent or mortgages.

(B) Emergency deliveries of fuel up to 100 gallons per crisis per household, at the prevailing price. This benefit may include coverage for safety precautions – up to the maximum household benefit.

(C) Purchase of portable heating/cooling units (portable electric heaters are allowable only as a last resort) not to exceed household benefit limit during the contract period. Portable air conditioning and heating units may be purchased only in situations that threaten the life of the client.

(i) Subrecipient shall meet local energy crisis criteria prior to purchasing portable units for clients.

(ii) Subrecipient shall maintain in the client file documentation of any special situation affecting client eligibility. For a client to qualify to receive a portable air conditioner or heater to protect life of household occupants, the subrecipient's client file must contain documentation from a medical professional, stating that a health condition of household occupant requires such climate control.

(iii) Portable heating/cooling units must meet or exceed Texas DOE WAP energy efficiency ratings and standards.

(5) Crisis funds, whether for emergency fuel deliveries, purchase of portable heating/cooling units, or temporary shelter, shall be considered part of the total maximum household allowable assistance.

(6) When natural disasters result in energy supply shortages or other energy-related emergencies, LIHEAP will allow home energy related expenditures for the following:

(A) Costs to temporarily shelter or house individuals in hotels, apartments or other living situations in which homes have been destroyed or damaged, i.e., placing people in settings to preserve health and safety and to move them away from the crisis situation

B) Costs for transportation (such as cars, shuttles, buses) to move individuals away from the crisis area to shelters, when health and safety is endangered by loss of access to heating or cooling

(C) Utility reconnection costs

(D) Repair or replacement costs for furnaces and air conditioners

(E) Insulation repair

(F) Coats and blankets, as tangible benefits to keep individuals warm

(G) Crisis payments for utilities and utility deposits

(H) Purchase of fans, air conditioners and generators

(7) Time Limits for Assistance - Subrecipients ensure that for clients who have already lost service or are in immediate danger of losing service, some form of assistance to resolve the energy crisis shall be provided within a 48 hour time limit (18 hours in life-threatening situations). The time limit commences upon completion of the application process. The application process is considered to be complete when an agency representative accepts an application and completes the eligibility process.

(8) Subrecipients maintain written documentation in client files showing crises resolved within appropriate timeframes. The Department disallows improperly documented expenditures.

(i) The Heating and Cooling federal LIHEAP category includes all Texas CEAP components except Energy Crisis. The priority factors other than income eligibility for heating/cooling assistance include the degree of energy burden and household needs. Each agency establishes objective priorities to serve households based on local conditions and client needs. Equipment replacement or repair under this component must reduce energy consumption and energy burden. “Household energy need” takes into account the unique situation of such household that results from having members of vulnerable populations, including children under the age of six, disabled individuals, and older individuals. The Department defines the household’s energy need as the requirement for energy used to heat and/or cool the dwelling unit, as well as energy required to heat water and refrigerate food. Inefficient appliances unnecessarily inflate energy needs. Improving energy efficiency of appliances reduces energy burden.
(j) Under Heating and Cooling the program pays water bills only when such costs include operating an evaporative water cooler unit or when the water bill is an inseparable part of a utility bill. LIHEAP Statute allows payment of other utility charges such as wastewater and waste removal only if inseparable from the utility bill. Through client intake, outreach and coordination processes, subrecipients confirm that a client owns an operational evaporative cooler and has used it to cool the dwelling within sixty (60) days prior to application. Whenever possible, subrecipients negotiate with the utility providers to pay only the energy portion of the bill.
(k) Under the Elderly and Disabled Assistance Component:
(1) Elderly and disabled persons receive priority.
(2) Elderly households include at least one member age 60 or above. Disabled households include least one member (age 18 or older) living with a disability. A disability prevents an individual from engaging in any substantial employment by reasons of a medically determinable physical or mental condition – expected to last for a continuous period of not less than twelve months. Documentation of disability, (i.e. Social Security, Supplemental Security Income statement, doctor’s letter) kept in client file will validate eligibility.
(3) Subrecipients make utility payments on behalf of elderly and disabled persons based on the previous 12 month’s home energy consumption history, including allowances for cost inflation. In the absence of an available home energy consumption history, subrecipient may base payments on current program year’s bill. Subrecipients note such exceptions in client files. Excess amounts over the actual bill shall be treated as a credit with the utility company for the client.
(4) Subrecipient shall provide energy conservation education and referrals.
(5) Elderly and/or disabled clients may receive benefits to cover up to 100 percent of four bills for four billing periods within the contract year as long as the cost does not exceed the maximum annual benefit.
(l) Under the Co-Payment Component:

(1) The Department subrecipients use home energy payments, energy conservation tips, participation by utilities, and coordination with other services to assist low-income households to reduce their home energy needs (Assurance 16). Subrecipients establish cost burden criteria to evaluate eligibility, applicant priority, and benefit levels.

(2) A household's participation in the program may last from three to twelve months. If a co-payment client's assistance period extends beyond the end of a program year, that client must re-apply for eligibility certification to continue receiving assistance.

(3) Subrecipients make payments directly to vendors on behalf of participating households. Participating households make co-payments while participating in the program.

(4) The case worker assists clients with application procedures and maintains required documentation in client files. Assurance 16 activities encourage and enable households to reduce their home energy needs and thereby the need for energy assistance and encourage responsible vendor and consumer behavior.

(m) Under the Heating and Cooling System Replacement, Repair, and/or Retrofit Component:

(1) Equipment repair and replacement targets households with high energy burden, or equipment unsafe or inadequate to protect occupants from extreme temperatures. This component reduces clients' energy burden by reducing excess demand from inefficient heating and cooling appliances. Questionably high energy bills during the heating or cooling season may indicate the need for an assessment of the condition of all major heating and cooling appliances in the client's home. An energy assessment of the home demonstrates whether or not the expected savings from repair or replacement of equipment will exceed the cost and will reduce energy consumption. Appliances consuming the most energy receive highest priority. Estimated repair cost exceeding 60 percent of estimated replacement cost justifies replacement.

(2) Household appliances assessed for condition (health and safety) and efficiency may include any home heating or cooling appliances and propane tanks. The Program allows replacement of evaporative coolers with refrigerated air only for substantiated medical reasons. Subrecipients shall replace appliances with Energy Star® rated equipment or must meet or exceed Texas Department of Energy Weatherization Assistance Program minimum energy efficiency ratings and standards if Energy Star® is not available.

§6.209 Allowable Subrecipient Administrative, Assurance 16 Activities, and Direct Services Support Expenditures

(a) Allowable Expenditures under Direct Services Support may include client intake, salaries, fringe benefits, and travel expenditures of staff when conducting outreach to eligible households; material and printing costs associated with outreach and targeting to eligible households.

(b) Direct Services Support does not include computer purchases and related costs. These belong to Administration. Time/Expenditure Allocation for subrecipients shall demonstrate and document that they separately allocated the appropriate share of Direct Services Support time and expenditures to both outreach and targeting.

(c) Allowable Administrative Costs for administrative activities may include planning, budgeting and accounting; establishing and directing policies, goals, and objectives, and other logistical activities not unique to the mission and goals of LIHEAP. Subrecipients earn administrative budget share based on expenditure of direct services funds. The

Department calculates money available for subrecipient administrative activities as a percentage of Direct Services expenditures.
(d) The Department and its subrecipients use the Uniform Grant Management Standards, OMB Circular A-87 for local governments or OMB Circular A-122 for non-profits for determination of allowable and allocable costs. OMB Circular A-133, "Audits of States, Local Governments, and Non-Profit Organizations," increases the threshold for audit from $300,000 to $500,000.
(e) To ensure fiscal compliance for this program, the Department may use the following fiscal controls:
(1) review annual audits;
(2) monitor fiscal records; and
(3) review Monthly Expenditure and Performance Reports.
(f) The Department staff may monitor LIHEAP programs through monthly performance reports and periodic on-site visits using a standard monitoring instrument for each program, designed to identify the agency's strengths and weaknesses. A risk assessment process will guide scheduling of visits to ensure that agencies ranking highest in risk will be monitored first.
(g) The Department and its subrecipients shall cooperate in all audits and maintain records in acceptable format for audit purposes and will cooperate with any reasonable state or federal investigation requests.

§6.210 Client Education

The subrecipients shall provide an energy-related needs assessment and referrals, budget counseling, and energy conservation education to each CEAP client. Subrecipients shall provide education to identify energy waste, manage household energy use, and strategies to promote energy savings. Subrecipients are encouraged to use oral, written, and visual educational materials. These activities are paid with the Department's and subrecipients' administrative funds.

§6.211 Payments to Contractors and Vendors

(a) A vendor agreement, required is required by the Department and implemented via the subrecipient, shall contain assurances as to fair billing practices, delivery procedures, and pricing procedures for business transactions involving LIHEAP recipients. These agreements are subject to monitoring procedures performed by the Department staff.
(b) Subrecipient shall maintain proof of payment to contractors and vendors.
(c) The subrecipients shall notify each participating household of the amount of assistance paid on its behalf. Subrecipient shall document this notification.
(d) The vendor payment method will be used by subrecipients for CEAP components. Under no circumstances and without exceptions will subrecipient make cash payments directly to eligible household for any of the CEAP components.

§6.212 State Contract Purchases

(a) Subrecipients shall comply with the Department rules and state procurement standards regarding competitive solicitation of bids for materials, labor, and equipment and shall adhere to guidelines for selection and award of subcontracts.
(b) Subrecipient shall develop and implement procurement procedures, which conform to the cost principles and uniform administrative requirements set forth in the Uniform Grant and Contract Management Standards, 1 T.A.C. § 5.141 et seq.
(c) The State of Texas conducts competitive solicitations to identify equipment and material vendors to provide specified merchandise at discounted prices to State agencies and their contracted agents. Unless a local vendor is identified through a competitive solicitation that will provide equal or better materials and services at the same price or less, subrecipients shall purchase any equipment, materials, or services paid for with LIHEAP funds from a vendor participating in the Texas Building and Procurement Commission's Cooperative Purchasing Program. Participants must pay an annual fee, allowed by CEAP as an "Administrative" expense. By using the Cooperative Purchasing Division, a subrecipient does not have to competitively solicit for materials purchased; only the labor costs need be solicited.

§6.213 Outreach, Accessibility, and Coordination

(a) The Department may continue to develop interagency collaborations with other low-income program offices and energy providers to perform outreach to targeted groups.
(b) Subrecipients shall conduct outreach activities.
(c) Subrecipients and their field offices shall accept applications at sites that are geographically accessible to all households requesting assistance.
(d) Other outreach activities may include:
  (1) providing information through home visits, site visits, group meetings, or by telephone for disabled low-income persons;
  (2) distributing posters/flyers and other informational materials at local and county social service agencies, offices of aging, social security offices, etc.;
  (3) providing information on the program and eligibility criteria in articles in local newspapers or broadcast media announcements;
  (4) coordinating with other low-income services to provide LIHEAP information in conjunction with other programs;
  (5) providing information on one-to-one basis for applicants in need of translation or interpretation assistance;
  (6) providing LIHEAP applications, forms, and energy education materials in English and/or Spanish (or other appropriate language);
  (7) working with energy vendors in identifying potential applicants;
  (8) assisting applicants to gather needed documentation; and,
  (9) mailing information and applications.

(d) Subrecipients shall coordinate with other social service agencies through cooperative agreements to provide services to client households. Cooperative agreements must clarify procedures, roles, and responsibilities of all stakeholders.
(e) Subrecipients shall coordinate with other energy related programs. Specifically, subrecipient shall make documented referrals to the local WAP subrecipient.
(f) Subrecipients shall coordinate with local energy vendors to arrange for arrearage reduction, reasonably reduced payment schedules, or cost reductions.

§6.214 Subrecipient Reporting Requirements

(a) The subrecipient shall electronically submit to the Department a monthly Funding Report of all expenditure of funds, request for advance or reimbursement, and a monthly performance report no later than fifteen (15) days after the end of each month. This reporting is required.
(b) The subrecipient shall electronically submit to the Department no later than sixty (60) days after the end of the subrecipient contract term a final expenditure or reimbursement and programmatic report utilizing the Funding Report. This reporting is required.
(c) The subrecipient shall submit to the Department no later than sixty (60) days after the end of the contract term an inventory of all vehicles, tools, and equipment with a unit acquisition cost of $5,000 or more and a useful life of more than one year, if purchased in whole or in part with LIHEAP-CEAP funds.
(d) The subrecipient shall submit other reports, data, and information on the performance of the LIHEAP-CEAP program activities as required by the Department.

COMMUNITY AFFAIRS DIVISION
EMERGENCY SHELTER GRANTS PROGRAM

BOARD ACTION REQUEST
August 30, 2006

Action Item

Presentation, Discussion and Possible Approval of the Community Affairs / Community Services Block Grant Draft Rules and Emergency Shelter Grants Program Draft Rules, 10 Texas Administrative Code, Chapter 5.

Required Action

Department staff recommends that the Board review and approve the draft Emergency Shelter Grants Program (ESGP) Texas Administrative Code rules.

Background

The Department has administered ESGP since 1987. Previously, ESGP requirements and regulations have been transmitted to subrecipients through the contractual agreement and Department policy issuances. ESGP has not previously been covered in Texas Administrative Code (TAC). The Community Affairs Division has prepared the new TAC rules for ESGP.

Recommendation

Staff recommends the Board approve the Emergency Shelter Grants Program Draft Rules, 10 Texas Administrative Code, Chapter 5.

Attachment—ESGP TAC Rules

PROPOSED TEXAS ADMINISRATIVE CODE RULES:

Texas Administrative Code

TITLE 10	COMMUNITY DEVELOPMENT
PART 1	TEXAS DEPARTMENT OF HOUSING AND COMMUNITY AFFAIRS
CHAPTER # 5	COMMUNITY SERVICES PROGRAM

SUBCHAPTER C. EMERGENCY SHELTER GRANTS PROGRAM

§5.200. **Purpose**

The Emergency Shelter Grants Program (ESGP) is to be utilized for the rehabilitation or conversion of buildings for use as emergency shelter for the homeless, for the payment of certain operating expenses and essential services in connection with emergency shelters for the homeless, and for homeless prevention activities. The program is designed to be the first step in a continuum of assistance to enable homeless individuals and families to move toward independent living as well as to prevent homelessness. The objectives of the ESGP shall be to:

(1) Help improve the quality of emergency shelters for the homeless;
(2) Help meet the costs of operating and maintaining emergency shelters;
(3) Provide essential services so that homeless individuals have access to the assistance they need to improve their situation; and
(4) Provide emergency intervention assistance to prevent homelessness.

§5.201. **Background**

ESGP was established by the Homeless Housing Act of 1986 in response to the growing issue of homelessness in the United States. In 1987, the ESG program was incorporated into Title IV of the Stewart B. McKinney Homeless Assistance Act (42 U.S.C. Sec. 11371- 11378), now known as the McKinney-Vento Homeless Assistance Act. ESGP funds are federal funds awarded to the State of Texas by the U. S. Department of Housing and Urban Development (HUD). The Texas Legislature designated the Texas Department of Housing and Community Affairs (the Department) to administer this program pursuant to Sec. 2306.094, Texas Government Code. ESGP funds will be made available to eligible applicants to carry out the purpose of the Emergency Shelter Grants Program based on this statewide competitive application process.

§5.202. Definitions

The following words and terms shall have the following meaning unless the context clearly indicates otherwise.

(1) Homeless or homeless individual:

(A) An individual who lacks a fixed, regular, and adequate nighttime residence, or

(B) An individual who has a primary nighttime residence that is:
