(1) a supervised publicly or privately operated shelter designed to provide temporary living accommodations (including welfare hotels, congregate shelters, and transitional housing for the mentally ill);

(2) an institution that provides a temporary residence for individuals intended to be institutionalized; or,

(3) a public or private place not designed for, or ordinarily used as, a regular sleeping accommodation for human beings. (Exclusion: The term "homeless" or "homeless individual" does not include any individual imprisoned or otherwise detained pursuant to an Act of Congress or a State law.)

(2) Units of general local government - a unit of local government which has, among other responsibilities, the authority to assess and collect local taxes and to provide general governmental services.

(3) Private nonprofit organization - an organization which has the status as a 501(c) tax-exempt entity. Private nonprofit organizations applying for ESGP funds must be established for eleemosynary purposes and whose activities include, but are not limited to, the promotion of social welfare and the prevention or elimination of homelessness. The entity's net earnings may not inure the benefit of any individual(s).

(4) Subrecipient - organization's with whom the Department contracts with and provides ESGP funds.

(5) Subcontractor - an organization with whom the Department's subrecipient contracts with utilizing ESGP funds.

(6) Collaborative Application - an application from two or more organizations which will use ESGP funds to provide services to the target population as part of a local continuum of care. If a unit of general local government applies for only one organization, this will not be considered a collaborative application. Partners in the collaborative application must coordinate services and prevent duplication of services.

§5.203. Allocation of Funds

(a) The Department shall administer all federal ESGP funds provided to the State under the Stewart B. McKinney Homeless Assistance Act (42 U.S.C. Sec. 11371-11378, now known as the McKinney-Vento Homeless Assistance Act) in accordance with the U.S. Department of Housing and Urban Development's final ESG rule, 24 CFR Part 576 and Chapter 2306, Texas Government Code, and the Department annual Consolidated Plan.

(1) The Department must obligate at least 95% of these funds for ESGP funded applicants.

(2) The Department may retain 5% for administration and will share a portion of its administrative funds with units of general local government (city or county) selected for funding.

(3) The Department will obligate funds within 65 days of receiving the award letter from the U.S. Department of Housing and Urban Development.

§5.204. Application Requirements

(a) Eligibility Documentation: The following information must be included in each ESGP application. Failure to provide this documentation will deem the application ineligible for funding:

(1) Documentation of the active participation of a homeless or formerly homeless individual on the board of directors or other equivalent policymaking entity of such recipient, to the extent that such entity considers and makes policies and decisions regarding any facility, services, or other assistance of the recipient. Active participation is defined as attendance at a minimum of 75% of the Board or policy making entity meetings during a 12 month period. A copy of the section in the bylaws which authorizes the governing board or equivalent policymaking entity to make policies for the organization must also be included.

(2) All private nonprofit organizations must document their status as a 501(c) tax-exempt entity. The Department prefers that the ruling be on IRS letterhead which is legible and signed by the IRS District Director. Expired advanced rulings from the IRS are not acceptable. Other documentation which may be utilized to document a 501(c) tax-exempt status may be a letter from the State of Texas Comptroller of Public Accounts or a certified legal document showing status. Local nonprofit affiliate of a State or national nonprofit can be submitted if your organization is a subsidiary of a parent organization. In case of the latter, provide a copy of the page listing your organization in the documents filed with the IRS.

(3) Private nonprofit organizations must document that the activities proposed for ESGP funding have received local government approval from the city or county in which the project is located. Such approval is to be documented on Local Government Certification Form for Private Nonprofit Organizations which must be signed by the county judge or mayor, or their official designee (such as city manager, assistant city manager, community development director or human services director) for the locality in which the project is located. In the case of a collaborative application, only the private nonprofit organization which is the lead agency in the collaborative application, must submit the approved Local Government Certification Form. Any partner in the collaborative who fails to provide eligibility documentation will be deemed ineligible for funding. If the application is selected for funding and one of the organization(s) in the collaborative was deemed ineligible, the Department will negotiate the final grant amount only with the organization(s) that met all three eligibility requirements.

(b) Fiscal accountability - An applicant organization that spends more than $500,000 in federal funds during its fiscal year must have a single audit conducted for that year. The threshold for expenditure of federal funds was increased from $300,000 to $500,000 for organizations with fiscal years ending after December 31, 2003. If a single audit is required for your organization, a portion of the audit cost may be included in the proposed ESGP budget. An applicant organization that does not exceed the $500,000 federal fund expenditure threshold is exempt from the single audit requirements. In this case, audit costs may not be included in the proposed ESGP budget. All applications must include documentation of fiscal accountability, even if this information has been previously submitted to the Department. An applicant organization must include its most recent complete audit report and if applicable, a management letter as part of the financial documentation for this application. If an organization is not required to have a single audit performed, the application must include the end-of-the-year financial statements (balance sheet, income statement, and statement of cash flow). All collaborative applications from non-profits must submit financial documentation for each organization in a collaborative. For collaborative applications from units of general local government, the Department expects that fiscal accountability documentation will be reviewed by the city or county.

(c) All applications must include documentation requested in the ESGP Application issued annually by the Department.

(d) Match Requirements.

(1) ESGP subrecipients must match their award amount with an equal or greater amount of resources other than ESGP funds. Therefore, ESGP applicant organizations must demonstrate access to resources that may be used as match after the date of the grant award. Matching funds used for this ESGP project may not be used to match any other project or grant.

(2) Match resources may include:

(A) Donated Supplies: Donated goods such as clothing, furniture, equipment, etc. Include the source and an estimated value for all donated goods.

(B) Cash Donations or Grants: Private donations or grants from foundations, nonprofits, or local, state, and federal sources. A single grant may serve as the required match.

(C) Value of Donated Building: The fair market value of a donated building in the year that it is donated. The building must be proposed for ESGP-related activities and currently must not be in use for these activities. The narrative should state when the building was donated and for what purpose, the current use of the building, and how long the building has been used for its current purpose. The application must include documentation from a realtor or appraiser as to the fair market value of the property.

(D) Rent or Lease Value of a Building: Rent paid for space currently used to provide services to the homeless. Include the source of funds used to pay rent. The fair market rent or lease value of a building owned by or space that is donated (rent-free) to the applicant organization is also an acceptable match resource. To document fair market value, the application must include a letter from a realtor or appraiser that specifies the location of building, square footage, value per square foot, and total lease or rent value based on 12-month occupancy.

(E) Salaries: Any staff salary paid with general operating funds or certain grant funds including but not limited to CSBG, CDBG, United Way, and VOCA. The position(s) used as match must be involved in ESGP-related activities and the hours utilized for match must be for hours worked for ESGP related activities. For each position include the title, annual salary, percentage of time dedicated to ESGP activities, source of funds and the dollar amount proposed as match.

(F) Volunteers: Time and services contributed by volunteers, with a value not to exceed federal regulations.

(e) Environmental Review Requirements for Rehabilitation Projects.

(1) The 1988 McKinney Amendment Act revised the environmental review procedures for assistance under Title IV of the Act, including ESGP, by making applicable the provisions of, and regulations and procedures under section 104(g) of the Housing and Community Development Act of 1974 (42 U.S.C. Sec. 5304 (f)). The regulations are codified at 24 CFR Part 58. Also, see 24 CFR 576.57e (Release of Funds), and 24 CFR 35 (Lead Based Paint Hazard Reduction).

(2) An application from private nonprofit organizations that request funds for Rehabilitation activities must include a letter documenting that applicant has requested assistance with the environmental review requirements from the Chief Elected Official (or designee) of the city or county in which the project will be located.

(3) Applications including a request for Rehabilitation funds must include a Preliminary Environmental Review Checklist that has been executed by the authorized signatory for the organization or by a local elected official (or designee). An organization that is awarded funds for rehabilitation activities must submit a final Environmental Review Checklist.

(4) No funds may be obligated or expended for rehabilitation activities until the project has been environmentally cleared. For ESGP funds distributed by the State to units of general local government, the unit of general local government must assume the environmental responsibilities, and

the State will be responsible for providing a release of funds in accordance with the requirements of 24 CFR Part 58.

(5) For funds distributed by the State to nonprofit organizations, the State must assume the environmental responsibilities, and HUD will provide the release of funds in this instance. In either case, funds may be obligated or expended only after the Request for Release of Funds and Certification of Compliance with Environmental Regulations at 24 CFR Part 58 have been approved in writing.

(6) The Department may accept a previous environmental review if:

(A) the environmental review is not more than 5 years old and no structural changes have occurred;

(B) the certifying entity provides documentation that no environmentally significant changes have occurred since the review was done; and

(C) a copy of the environmental review is submitted as part of the ESGP application.

§5.205. Application Limitations

(a) Eligible Applicants: Units of general local government and private nonprofit organizations. The Department will accept collaborative applications. To be considered as a collaborative, the application must include two or more organizations that will use ESGP funds to provide services to the target population as part of a local continuum of care. If a unit of general local government applies for only one organization, this will not be considered a collaborative application. The Department intends for collaborative applications to be an effort among organizations who serve the homeless population to coordinate services and prevent duplication of services.

(b) Award Amounts:

(1) The Department has established a minimum of $30,000 and a maximum of $100,000 for ESG program awards per organization not applying as part of a collaborative application.

(2) An organization can submit only one application either as a single entity or as part of a collaborative effort.

(3) A collaborative application is limited to a maximum request of $300,000, with a limit of $100,000 per organization.

(4) The Department will not set limitations on the number of organizations that can be part of a collaborative application, but the Department recommends that collaborative applications be limited to no more than 5 organizations.

(5) Award limitations are based on the amount of ESGP funds estimated to be available to each region and the ESGP funding pattern utilized by the Department. The limitations are not to be interpreted as a commitment by the Department to award these amounts.

(6) All projects should be planned for a maximum of 12 months.

(7) Per HUD requirements, the Department will share a portion of the State's administrative funds with units of general local government (cities or counties) selected for ESGP funding. The amount shared will not exceed 4% of the subrecipient's ESGP award.

(8) The Department reserves the right to negotiate the final grant amounts and local match with successful applicants to ensure judicious use of ESGP funds. The Department may consider the amount of HUD funds awarded to entitlement entities when making funding decisions to applicants that are a unit of general local government. This consideration does not apply to private nonprofit organizations located in ESGP entitlement cities or counties.

(c) Eligible Activities: ESGP funds are designed to address the immediate needs of homeless persons to assist their movement to permanent housing. ESGP funds may be utilized to assist individuals and families who would actually become or remain homeless without ESGP homelessness prevention assistance. ESGP funds cannot be utilized to care for or assist children in State custody.

The Department encourages applications that include an innovative approach to providing emergency shelter and/or transitional housing to homeless individuals and families. Transitional housing projects should be designed to provide housing and appropriate essential services to homeless persons in order to facilitate the movement of individuals or families to permanent housing within no more than 24 months. ESGP grant amounts may be used for one or more of the following activities:

(1) Rehabilitation. Rehabilitation is defined as the labor, materials, tools, and other costs of improving buildings. Examples of allowable rehabilitation projects include, but are not limited to, accumulated deferred maintenance (replacing flooring), replacement of principle fixtures and components, improvements to increase energy efficiency (replacing a furnace or air conditioning unit), and structural changes necessary to make the facility accessible for persons with physical disabilities. Rehabilitation projects include deferred repairs for items that are inoperable or broken and in need of replacement prior to the submission of the ESGP application. Rehabilitation does not include non-deferred repairs. All rehabilitation activity funded through ESGP must occur within the existing structure, must not increase the square footage of the structure involved, and must comply with local government safety and sanitation requirements. (Refer to Section 504 of the Rehabilitation Act of 1973, as amended, as provided in 24 CFR 8.23 (a) or (b)). Types of rehabilitation projects include:

(A) Conversion: a change in the use of a building to an emergency shelter or transitional housing where rehabilitation costs exceed 75% of the value of the building after conversion. If selected for funding, the organization must use the facility as a shelter for the homeless for at least 10 years.

(B) Major rehabilitation: rehabilitation or conversion involving costs in excess of 75% of the value of the building prior to the proposed rehabilitation or conversion. If selected for funding, the organization must use the facility as a shelter for the homeless for at least 10 years.

(C) Renovation: rehabilitation that involves costs of 75% or less of the value of the building prior to the proposed rehabilitation. If selected for funding, the organization must use the facility as a shelter for the homeless for at least 3 years.

(2) Essential Services. ESGP legislation limits essential services to 30% of the total State allocation. Therefore, the Department requires ESGP applications to limit requests for Essential Services activities to 30% of the proposed budget. Essential services activities address the immediate needs of homeless individuals and enable homeless persons to become more independent and/or to secure permanent housing.

(A) Essential services may include direct client services concerned with employment, health, drug abuse prevention, and education, including but not limited to: assistance in obtaining permanent housing; medical and psychological counseling and supervision; employment counseling, job placement, and job training (including tuition and books); nutritional counseling and the salary of food preparers (cooks); substance abuse treatment and counseling; assistance in obtaining other federal, state, and local assistance including mental health benefits, medical assistance, Veteran's benefits, and income support assistance such as Supplemental Security Income, Temporary Assistance for Needy Families, and Food Stamps; other services such as childcare, food vouchers, client clothing, or medical assistance (doctor visits, prescriptions, eye glasses or other prostheses, etc.); transportation costs directly associated with ESGP service delivery, such as bus tokens, bus fare, cab fare, airfare, salary of van driver, etc; and, salary for staff whose sole duty is to work directly with clients to provide the above services. Staff salaries may include wages and fringe benefits as described in the applicant organization’s personnel policies. No administrative salaries may be paid with Essential Services funds.

(B) The application must include a job description for any position to be paid in full or in part with ESGP funds under this category.

(C) If the agency received local funds (locally generated tax revenue) from a unit of local government in the past 12 months, and if the ESGP application includes a request for funds to provide essential services, the Project Narrative must describe how the service(s) will be a new service or will result in a quantifiable increase in the level of service that was provided with local funds during the previous 12 months.

(3) Maintenance, operation, and furnishings. ESGP funds may be used for maintenance, operation, furnishings, and equipment costs. The Department will accept applications that include Maintenance, Operation, and Furnishings as a part of the project or as the sole activity of a project.

(A) Maintenance costs include contract services for copier or security system maintenance, pest control, lawn care, contracted janitorial service, etc.

(B) Operation costs include administration, equipment, facility rent, utilities, internet service, and telephone; building maintenance and non-deferred repairs; food for shelter residents; vehicle maintenance, registration, repairs, and fuel; building or equipment insurance; fidelity bond coverage; office and maintenance supplies; contracted security services; single audit expenses (if required), staff mileage reimbursement (for travel relating to ESGP service delivery), and pre-award travel expenses (for successful applicants to attend an orientation workshop). Non-deferred repairs are items that break during the contract period, such as: repairing a window that is broken; repairs due to water damage; or repairing a broken furnace or air conditioning unit. Deferred repairs, classified as rehabilitation activities, are items which are inoperable or broken and in need of replacement prior to the application period. Operation administration may not exceed more than 10% of an applicant's ESGP budget may be requested for administrative salaries (including fringe benefits). Appropriate staff which may be charged as administrative staff are the executive director, program director, supervisors, administrative support staff, etc. Job descriptions for these positions are not required to be included in the ESGP application. Equipment may include computers, printers, software, refrigerator, stove, tools, vehicles, etc. All equipment with a useful life of more than one year and an acquisition cost of $500 or more must be included in a cumulative inventory report submitted to the Department each contract year. Subecipients who participates in a local Continuum of Care may use ESGP funds to facilitate the required Homeless Management Information System (HMIS) which may include the purchase of software and/or annual access fees to facilitate data collection and reporting of client-level information.

(C) Furnishings may include beds, mattresses, linens, desks, tables, chairs, etc.

(4) Homelessness Prevention. ESGP legislation limits homelessness prevention to 30% of the total State allocation. Homelessness Prevention funds may be used to assist individuals who are homeless or at risk of becoming homeless. The Department will accept applications that include Homelessness Prevention as a part of the project or as the sole activity of a project.

(A) Homelessness Prevention funds may be used to provide direct monetary assistance on behalf of individuals whose annual income is at or below the federal poverty guideline when all of the following conditions are met:

(i) The individual or family is unable to make the required payments due to a sudden reduction in income or a sudden increase in expenses;

(ii) The assistance is necessary to avoid the foreclosure, eviction, or termination of utility services (excluding telephone service);

(iii) There is reasonable prospect that the individual or family will be able to resume the payments within a reasonable period of time (determined by the applicant organization and used consistently among all clients); and

(iv) The assistance does not replace funding for pre-existing homelessness prevention activities from any other sources.

(B) Homelessness Prevention funds must be used to assist those individuals and families that would actually become or remain homeless without ESGP homelessness prevention assistance. Homelessness prevention funds may not be used to provide direct payments to individuals. Homelessness prevention assistance may include:

(i) Short-term subsidies to help defray rent and utility arrearages for families that have received a notice of eviction, termination of utility services, or payments to prevent the transfers;

(ii) Security deposits or first month's rent to enable a homeless family (or individuals in emergency/ transitional housing) to acquire permanent housing;

(iii) Programs to provide mediation for landlord/tenant disputes;

(iv) Programs to provide legal services for the representation of indigent tenants in eviction proceedings;

(v) Payments to prevent foreclosure on a home; and,

(vi) Other innovative programs and activities designed to prevent the incidence of homelessness.

(vii) The Department may reserve funds from the 95% funds utilized for funding applicants for a special statewide homelessness prevention initiative designed to provide training and technical assistance necessary to prevent the incidence of homelessness. ESGP funds for the Special Initiative for Homelessness Prevention will be limited to two (2) eligible activities: maintenance, operation, furnishings; and homelessness prevention.

§5.206. Ineligible Activities

(a) Rehabilitation activities funded through ESGP cannot increase the square footage of the structure involved and must occur within the existing structure. (Refer to Section 504 of the Rehabilitation Act of 1973, as amended, as provided in 24 CFR 8.23 (1) or (b).)

(b) ESGP funds cannot be utilized for conversion, rehabilitation, renovation, or operation of permanent housing; acquisition of real property; new construction; addition of square footage, property clearance or demolition; direct payments to individuals; to support inherently religious activities such as worship, religious instruction, or proselytization; or to rehabilitate or repair buildings such as sanctuaries, chapels, and other rooms that a congregation uses as its principal place of worship.

§5.207. Application Process

(a) The Department will publish the ESGP Application annually on the Department's website. Prior to its publication, the Department will send notice to organizations included in the Department's ESGP Interested Parties Mailing List and to the Department's list serve maintained by the Department's Policy and Public Affairs Division. This notice will include information on how to access a current ESGP application. The Department will provide a hard copy of the application to any organization requesting one and who cannot access the application via the internet.

(b) An applicant must submit a completed application in accordance with application instructions issued annually in the ESGP Application to be considered for funding. Applications containing false information, not received by the deadline, and not meeting eligibility documentation requirements will be disqualified. Applications must be received by the Department by 5:00 p.m. on the date identified in the ESGP Application. The Department will not accept applications prior to the publication of the annual ESGP Application.

§5.208. Process for Review of Applications

(a) Each Texas county is part of one of the 13 Uniform State Service Regions. Funds are reserved for each region in direct proportion to the percentage of poverty population which exists in each region according to the decennial U.S. Census.

(b) Applications are grouped by service region. After eligibility screening, applications from one or more service regions are assigned to each review team, depending on the number of applications received from each service region. Applications compete only against other applications from the same service region. The teams utilize a scoring instrument to evaluate and score applications utilizing factors in §5.209 of this section. The Department will not notify organizations of any deficiencies during the pre-screening and review process. The scores for each application will be averaged to obtain a team score and the score for the review of financial documentation is added to the team score. Then the final adjusted score is determined by adding bonus points and deducting points for unresolved monitoring issues and submission of late reports and failure to expend at least 84% of previous ESGP awards provided by the Department. Applications may be deemed ineligible for lack of response to Department ESGP monitoring report(s) and compliance and audit issues identified by the Department. Once the final adjusted score is established, applications are ranked according to final adjusted score within each region. Applications which receive a score below 70% of the highest score in their service region will not be considered for funding. In the final stage of the review process, prior to making final funding recommendations, the performance of previous ESGP subrecipients is taken into consideration. Performance issues may make an applicant ineligible. As part of this final stage of the review process, Directors and Managers from all Department Divisions review the list of projects proposed for funding. Additionally, monitoring, audit, and compliance issues are considered prior to submitting the recommendations for executive recommendation and board approval. Applicants that have unresolved monitoring and audit findings from any TDHCA funded program will be ineligible for ESGP funding.

(c) The Department will award bonus points for applicants from non-entitlement areas, for organizations requesting homelessness prevention funds, and for single applicant organizations that previously have not received ESGP funds from the Department.

(d) In the event of a tie, the Department reserves the right to determine which application will receive a recommendation for funding. The application from the area with more limited resources for homeless assistance will be given preference, considering all other factors.

(e) Applicants will be notified of the Department's recommendation for funding on or before 65 days of receipt of funding notification from the U.S. Department of Housing and Urban Development. Applicants which are disqualified will receive written notification within 5 working days of the Community Affairs' determination. Applicants not recommended for funding will be notified in writing no later than 30 days from the date that the Department obligates funds.

(f) Applications recommended for funding will be presented to the Board or its designee for approval, pending the availability of ESGP funds.

(g) Applicants not selected to receive ESGP funds may request a review of their application no later than 30 days after the date of the written funding notification from the Department as per Texas Administrative Code §1.7.

§5.209. Application Scoring

(a) Standard Applications - The application content, tables, and narrative will be scored for each eligible application. The Department will also take into consideration information in §5.208 and the score resulting from the scoring instrument will be adjusted based on the review of information in §5.208.

<u>Sections of Scoring Instrument for Standard Applications:</u>

Section 1: Content - 15 Maximum Points
Section 2: Tables - 30 Maximum Points
Section 3: Narrative - 49 Maximum Points
Section 4: Conclusion - 6 Maximum Points
Total : Maximum Points 100

SECTION 1: APPLICATION CONTENT 15 POINTS

1 Point will be awarded for the submission of each required item contained in the application packet:

ESGP Application Form completed;

Table of Contents includes page numbers;

Project Narrative formatted with one-inch margins and with minimum 11 pt. type font;

Project Narrative does not exceed 10 pages (2 additional pages per collaborator not to exceed 20 pages);

Photographs, including at least two different views of the facility (one from the interior and one from the exterior) where assistance is to be provided. Collaborative applications must include two views of each collaborator's facility;

Attachment A - (Standard Form 424) must include signature;

Attachment C – (Board of Directors Roster) was completed thoroughly and homeless or formerly homeless representative was identified under the occupation column. Collaborative applications must include one form for each partner;

Attachment D –(Attendance Roster) was completed and homeless or formerly homeless individual was identified. Collaborative applications must include one form for each partner;

Copy of Bylaws and Articles of Incorporation – Copy of bylaws must include how the organization authorizes the governing board or policymaking entity to make policies and decisions. This document is required for each partner in a collaborative and Articles must describe mission and goals for which the organization was formed.

Attachment I - Homeless Management Information System (HMIS) Reporting form is completed and signed;

Attachment J – Previous ESGP Funding Form is completed correctly or indicates NA if not applicable;

Attachment K – ESGP Applicant Certification form is signed;

Attachment L – Certification Regarding Lobbying is signed;

Attachment M – Audit Certification Form

Fidelity Bond or a letter of commitment to obtain one prior to the execution of an ESGP contract is included.

For Applicants Requesting Rehabilitation Funds: **_______NA**

(1 point deducted from sub-total for each of the following omissions)
DEDUCTIONS:

1. **Attachment N** (Preliminary Environmental Review Checklist);
2. **Property Appraisal** or reasonable method for determining property value;
3. **Flood Plain Map**, identifying the project;
4. **Letter from the Texas Historical Commission** regarding the historical significance of the facility (or a letter requesting a response);
5. **Photographs** of area(s) to be renovated;
6. Request for city or county assistance with environmental review requirements (nonprofit applicants only).

SECTION 2: COMPLETION OF TABLES **25 POINTS**

I. Budget Table – Attachment F (12 pts)

1. Are budget items categorized in the appropriate Total points: _____________

budget category? (max 2 pts)

2. Does the budget contain a brief description of each item? Total points: ____________ (max 2 pts)

3. Does the budget contain the method of calculation for each category? Total points: ____________ (max 2 pts)

4. Does the budget contain the basis of cost for each category? Total points: ____________ (max 2 pts)

5. Is the “Line Item Totals” column added correctly? Total points: ____________ (max 2 pts)

6. Is the “Total Funds by Category” column added correctly? Total points: ____________ (max 2 pts)

Possible deductions only:

1. If requesting funds under Operations Administration did they exceed 10 % of total funds requested?	_______Yes **-2 pts**	_______ No 0 pts
2. Is applicant requesting funds under Essential Services Category?	_______ Yes	_______ No
If yes, does the amount requested exceed 30%	_______ Yes **- 2 pts**	_______ No 0 pts
3. Are job descriptions included for **all** positions under Essential Services?	_______Yes 0 pts	_______ No **-2 pts**

For collaborative applications:

1. Did the application include one budget table for each organization in the collaborative?	_______Yes 0 pts	_______ No **-2 pts**
2. Did the application include a comprehensive budget which includes all activities proposed by the collaborative effort?	_______Yes 0 pts	_______ No **-2 pts**

Match Table - Attachment G (8 pts)

1. Does the total dollar value for match funds equal the total funds requested in budget table? Total points: _______ (max 2 pts)

2. Is the "Dollar Value" column added correctly? Total points: _______ (max 2 pts)

3. Does the match table include a brief description of the source of match for all resources included? Total points: _______ (max 2 pts)

4. Does the match table contain the method of calculation for all resources included? Total points: ________ (max 2 pts)

Possible deductions only:
Does the proposal include documentation of match resources related to the value of a building,rent, or lease on the building? (i.e. letter from a realtor or appraiser as to the fair market value of the property)

________ Yes ________ No
0 pts -2 pts

III. Resource Documentation Table - Attachment H (10 pts)

1. Submission of a Resource Documentation Table for each county served? Total points: ________ (max 3 pts)

2. Brief, concise, and complete description of the unmet needs or gaps in services for the homeless population in the service area? Total points: __________ (max 4 pts)

3. Completeness of Resource Documentation Table and inclusion of appropriate data sources? Total points: ___________ (max 3 pts)

SECTION 3: NARRATIVE **50 POINTS**

I. Description of Applicant Organization

A. Organization and Services Provided (20 pts)

Does the narrative:

1. How well the applicant describe the organization(s) history, mission, staff size, educational background and experiences of key staff Total points: __________ (max 3 pts)

excellent description (2 pts)
some description (1 pts)
no description or failed to address all areas (0 pts)

2. Information regarding Board of Directors: Total points: _______

(max 4 pts)

Describe information on regularity of board meetings;
List all subcommittees;
How Board utilized recommendation from homeless representative to change policies, practices, and services.

3. Indicate the following: Total points: ________ (max 3 pts)

Type of service provided;
Total number of persons served annually and target group(s) served;
Cities and/or counties to be served and shelter capacity (bed space).

4. Does it describe services which have a long-term impact/outcome on the homeless individuals served? Total points: _________ (max 5 pts)

5. Does it describe case management services provided to homeless individuals? Total points: _________ (max 5 pts)

6. Does it include inappropriate or discriminatory service restrictions? If yes, please describe. _______ Yes _______ No

B. Coordination Efforts (10 pts)
Does the narrative:

1. Describe how and for what types of services the organization coordinates with other service providers to meet the various needs of the homeless clients or clients who may become homeless. Total points: _________ (max 5 pts)

For Collaborative Applications (possible deduction only):

A. Did the application provide information on how and which services will be coordinated among the organizations included in the application? _____Yes 0 pts _____No -5 pts

2. Describe the organization's participation in any local homeless coalition, social services coordination council development of the HUD required Consolidated Plan or similar document, and/or development of a "Continuum of Care" plan for the community in which the proposed services will be delivered? Total points: __________ (max 5 pts)

Previous ESGP Funding—If applicable (possible deduction only)		
1. How well does the narrative describe how ESGP funds improved or increased services?	______ NA	_________ (max -2 pts)
2. Does the narrative describe new sources of funds acquired during previous ESGP grants, including recent efforts made to develop other funding sources during the past 5 years and new funding received.	______ NA	_________ (max -2 pts)

II. Unmet Need

Identifying Unmet Need (10 pts)

1. Does the narrative describe the unmet needs or gaps in services for the homeless population in the service area based on the data provided in the Resource Documentation Table? Total points: ____________ (max 5 pts)

2. Does the narrative provide a description of the specific unmet need and/or gaps in services that the organization will meet based on the data provided in the Resource Documentation Table? Total points: ____________ (max 5 pts)

III. Proposed Use of ESGP funds

Detailed Description of the Project (10 pts)

1. Does the narrative describe the customers? Total points: ____________ (max 1 pts)

   Demographics
   Provides no demographics

2. Does the narrative state how many customers the organization plans to assist with ESGP services? Total points: _____________ (max 1 pts)

   Numbers provided
   No numbers given or numbers not clear

A. For Essential Services Requests (possible deduction only): **_____NA**

(1). Does the narrative describe the essential services to be provided? _____ Yes 0 pts _____ No -2 pts

(2). Provide the name and title of the Essential Services staff whose salary will be paid in whole or in part with ESGP funds? _____ Yes 0 pts _____ No -2 pts

(3) Does the narrative state that the organization receives local funding? (funds generated by taxes levied by city or county) _____ Yes _____ No

(4) If yes, does the narrative describe how the service(s) will be a new service and/or increase in the level of services to be provided? **_____NA** _____ Yes 0 pts _____ No -2 pts

B. For Maintenance, Operations, and Furnishings Requests (possible deduction only): **_____NA**

(1) Describe how the items funded with ESGP funds will benefit the organization's ability to delivery services? _____ Yes 0 pts _____ No -2 pts

C. For Homelessness Prevention Requests (possible deduction only): **_____NA**

(1). A description of the Homeless Prevention to be provided with ESGP funds? _____ Yes 0 pts _____ No -2 pts

(2). Does the narrative include the staff member responsible for providing the homelessness prevention activities? _____ Yes 0 pts _____ No -2 pts

(3). Did the narrative include the criteria used to determine eligibility to receive assistance? _____ Yes 0 pts _____ No -2 pts

(4). Did the narrative include the method for determining if the applicants meet conditions outlined under Eligible Activities? _____ Yes 0 pts _____No -2 pts

D. For Rehabilitation Requests (possible deduction only):	**_____NA**
(1) Include a description of the Rehabilitation activities to be funded with ESGP	_____ Yes 0 pts _____No -2 pts
(2) Has the applicant included documentation of the facility's original construction date and is that date referenced in the narrative?	_____Excellent 0 pts _____Poor -2 pts
(3). If facility construction date is prior to 1978, has the applicant included a discussion of lead and/or asbestos abatement?	_____Yes 0 pts _____No -1 pts
(4) For non-profit applications, is documentation included which states that the city or county agrees to assist with environmental requirements?	_____Yes 0 pts _____No -2 pts

E. Subcontractors (possible deductions only):	**_____NA**
(1) Did the application include the names of subcontractors they will use to deliver services?	_____Yes 0 pts _____No -2 pts
(2) Did the application provide a description of the services subcontractors will deliver?	_____Yes 0 pts _____No -2 pts

10. Does the narrative describe how it plans to measure the effectiveness of the services provided to clients? Total points: ____________ (max 5 pts)

11. Does the narrative provide a description of how the applicant will involve homeless individuals in rehabilitating, maintaining, operating, and/or providing services. Total points: ____________ (max 2 pts)

SECTION 4: CONCLUSION 5 POINTS

I. Conclusion (5 pts) (Refer to page 19 of Application Packet)

1. How well does the conclusion state the significant and beneficial impact(s) of the proposed project on the homeless population in the service area and describe the results or benefits to be achieved by carrying out the proposed activities? Total points: _________ (max 3 pts)

2. Level of provision and description of outcome related services which have a long-term impact on the persons lives or if not currently providing such, description of plans to do so? Total points: __________ (max 3 pts)

(b) **Special Initiative for Homelessness Prevention** – The application content, tables, and narrative will be scored for each eligible application for Special Initiative for Homelessness Prevention. The Department will also take into consideration information in §5.208 and the score resulting from the scoring instrument will be adjusted based on the review of information in §5.208.

Sections of Scoring Instrument for Special Initiative for Homelessness Prevention Applications:

Section 1: Content - 15 Maximum Points
Section 2: Tables - 25 Maximum Points
Section 3: Narrative- 60 Maximum Points
Total : Maximum Points 100

SECTION 1: APPLICATION CONTENT 15 POINTS

Check each item contained in the application packet ***(1 pt each).***

1 Point for the submission f each item contained in the application packet.

ESGP Application Form completed;

Table of Contents includes page numbers;

Project Narrative formatted with one-inch margins and with minimum 11 pt. type font;

Project Narrative does not exceed 10 pages (2 additional pages per collaborator not to exceed 20 pages);

Photographs, including at least two different views of the facility (one from the interior and one from the exterior) where assistance is to be provided. Collaborative applications must include two views of each collaborator's facility;

Attachment A - (Standard Form 424) must include signature;

Attachment C – (Board of Directors Roster) was completed thoroughly and homeless or formerly homeless representative was identified under the occupation column. Collaborative applications must include one form for each partner;

Attachment D –(Attendance Roster) was completed and homeless or formerly homeless individual was identified. Collaborative applications must include one form for each partner;

Copy of Bylaws and Articles of Incorporation – Copy of bylaws must include how the organization authorizes the governing board or policymaking entity to make policies and decisions. This document is required for each partner in a collaborative and Articles must describe mission and goals for which the organization was formed.

Attachment I - Homeless Management Information System (HMIS) Reporting form is completed and signed;

Attachment J – Previous ESGP Funding Form is completed correctly or indicates NA if not applicable;

Attachment K – ESGP Applicant Certification form is signed;

Attachment L – Certification Regarding Lobbying is signed;

Attachment M – Audit Certification Form

Fidelity Bond or a letter of commitment to obtain one prior to the execution of an ESGP contract is included.

SECTION 2: COMPLETION OF TABLES 25 POINTS

I. Budget Table – Attachment F (12 pts)

1. Are budget items categorized in the appropriate budget category? Total points: ____________ (max 2 pts)

2. Does the budget contain a brief description of each item? Total points: ____________ (max 2 pts)

3. Does the budget contain the method of calculation for each category? Total points: ____________ (max 2 pts)

4. Does the budget contain the basis of cost for each category? Total points: ____________ ________ (max 2 pts)

5. Is the "Line Item Totals" column added correctly? Total points: ____________ (max 2 pts)

6. Is the "Total Funds by Category" column added correctly? Total points: ____________ (max 2 pts)

Possible deductions only:

1. If requesting funds under Operations Administration did they exceed 10 % of total funds requested **(max -2 pts)**
2. Is applicant requesting funds under Essential Services Category? ______ Yes _______ No
   If yes, does the amount requested exceed 30% **(max -2 pts)**
3. Are job descriptions included for **all** positions under Essential Services? **(max -2 pts)**

For collaborative applications:

4. Did the application include one budget table for each organization in the collaborative? **(max -2 pts)**
5. Did the application include a comprehensive budget which includes all activities proposed by the collaborative effort? **(max -2 pts)**

SECTION 2: COMPLETION OF TABLES (CONTINUED)

II. Match Table - Attachment G (8 pts)

1. Does the total dollar value for match funds equal the total funds requested in budget table? Total points: ____________ (max 2 pts)

2. Is the "Dollar Value" column added correctly? Total points: ___________
(max 2 pts)

3. Does the match table include a brief description of the source of match for all resources included? Total points: ___________
(max 2 pts)

4. Does the match table contain the method of calculation for all resources included? Total points: __________
(max 2 pts)

Possible deductions only:

Does the proposal include documentation of match resources related to the value of a building, rent, or lease on the building? (i.e. letter from a realtor or appraiser as to the fair market value of the property) ____Yes ___No
(max -2 pts)

III. Resource Documentation Table - Attachment H (10 pts)

1. Is there a table for each county served? Total points: __________
(max 3 pts)

2. Is the data provided presented briefly and concisely and is a summary of the homeless and poverty population in the counties? Total points: ___________
to be served proposed (max 4 pts)

3. Are the tables complete and do they include appropriate data sources? Total points: __________
(max 3 pts)

SECTION 3: NARRATIVE **60 POINTS**

I. Special Initiative Narrative (60 pts)

Does the narrative:

1.Describe the organization's history and mission: Total points: __________
(max 6 pts)

2. Involvement with homeless issues statewide: Total points: ____
(max 6 pts)

3. Information regarding Board of Directors: Total points: ___________
(max 4 pts)

yes, (4 pts) does reflect a statewide presence and includes a homeless or formerly homeless representative

no, (-4 pts) does reflect a statewide presence and/or does not includes a homeless or formerly homeless representative

4. Describe the organization's experience in providing statewide training and technical assistance (t/ta) to Continuum of Care (CoC) — Total points: ____________ (max 6 pts)

5. Describe the organization's efforts at providing training and technical assistance to CoC applicants which resulted in the awarding of grant funds: — Total points: ____________ (max 6 pts)

6. Describe the organization's statewide experience with local coalition building: — Total points: ____________ (max 8 pts)

7. Describe the organization's experience working with HUD programs: — Total points: ____________ (max 6 pts)

8. Describes the proposed use of ESGP funds by category: and subcategory — Total points: ___________ (max 4 pts)

9. Describe the proposed services/technical assistance or training to be delivered with ESGP funds: — Total points: ___________ (max 4 pts)

10. Provides estimates on the # of t/ta sessions to be provided and information on whether subcontractors will be utilized: — Total points: ___________ (max 4 pts)

11. Describes how the organization plans to measure the effectiveness of the services provided: — Total points: ____________ (max 6 pts)

§5.210. Funds Distribution

a) Reserved ESGP funds will be distributed within each of the 13 Uniform State Service Regions with the highest ranking application being funded first and so forth until the funding reserved to the region is exhausted.

(b) The Department will determine the number of applications which can be funded within each region based on the amount of funds available for distribution in each region. ESGP funds reserved for a particular region will be obligated to eligible applicant organizations within that region. If the region does not have enough responsive applications which meet the funding threshold, funds will be redistributed to regions with reserved funding below $250,000.

COMMUNITY AFFAIRS DIVISION
COMMUNITY SERVICES BLOCK GRANT

BOARD ACTION REQUEST
August 30, 2006

Action Item

Presentation, Discussion and Possible Approval of the Community Affairs / Community Services Block Grant Draft Rules and Emergency Shelter Grants Program Draft Rules, 10 Texas Administrative Code, Chapter 5.

Required Action

Department staff recommends that the Board review and approve draft rule amendments to the Community Services Block Grant (CSBG) Texas Administrative Code rules.

Background

The Department has administered CSBG since 1983. CSBG requirements are currently in the TAC; however, the Department is modifying the TAC CSBG rules to include information on eligible entities, the methodology to allocate funds, and Community Action Plan requirements. The Community Affairs Division has prepared the TAC rule modifications for CSBG.

Recommendation

Staff recommends the Board approve Community Services Block Grant Draft Rules, 10 Texas Administrative Code, Chapter 5.

Attachment—CSBG TAC Rules

PROPOSED TEXAS ADMINISTRATIVE CODE RULES:

Texas Administrative Code

TITLE 10	COMMUNITY DEVELOPMENT
PART 1	TEXAS DEPARTMENT OF HOUSING AND COMMUNITY AFFAIRS
CHAPTER # 5	COMMUNITY SERVICES PROGRAMS

SUBCHAPTER A COMMUNITY SERVICES BLOCK GRANT (CSBG)

§5.1 Background

(a) The Community Services Block Grant (CSBG) Act (42 USC Sec. 9901 *et seq.*) was amended by the "Community Services Block Grant Amendments of 1994" and the Coats Human Services Reauthorization Act of 1998 under (42 USC 9901 et seq.). The Secretary of the U.S. Health and Human Services is authorized to establish a community services block grant program and make grants through the program to States to ameliorate the causes of poverty in communities within the States under (42 USC 9904).
(b) The Texas Legislature designated the Texas Department of Housing and Community Affairs (the Department) as the lead agency for administration of the Community Services Block Grant Program pursuant to Texas Government Code, Section 2306.092 (11).
(c) CSBG funds will be made available to eligible entities to carryout the purposes of the Community Services Block Grant Program.

§5.2 Purposes and Goals

(a) CSBG funds provide assistance to States and local communities, working through a network of community action agencies and other neighborhood-based organizations, for the reduction of

poverty, the revitalization of low-income communities, and the empowerment of low-income families and individuals in rural and urban areas to become fully self-sufficient (particularly families who are attempting to transition off a State program carried out under part A of title IV of the Social Security Act (42 U.S.C. 601 et seq.).
(b) These goals may be accomplished by the strengthening of community capabilities for planning and coordinating the use of a broad range of Federal, State, local, and other assistance (including private resources) related to the elimination of poverty, so that this assistance can be used in a manner responsive to local needs and conditions.
(c) The organization of a range of services related to the needs of low-income families and individuals, so that these services may have a measurable and potentially major impact on the causes of poverty in the community and may help the families and individuals to achieve self-sufficiency;
(d) The greater use of innovative and effective community-based approaches to attacking the causes and effects of poverty and of community breakdown;
(e) The maximum participation of residents of the low-income communities and members of the groups served by programs assisted through the block grants made under this subtitle to empower such residents and members to respond to the unique problems and needs within their communities; and
(f) The broadening of the resource base of programs directed to the elimination of poverty so as to secure a more active role in the provision of services for--

(1) private, religious, charitable, and neighborhood-based organizations; and
(2) individual citizens, and business, labor, and professional groups, who are able to influence the quantity and quality of opportunities and services for the poor.

§5.3 Definitions

The following words and terms shall have the following meaning unless the context clearly indicates otherwise.

(1) CSBG Act – Coats Human Services Reauthorization Act of 1998.
(2) Eligible entity – A CSBG eligible entity is defined as an entity that was in effect on the day before the date of enactment of the CSBG Act.
(3) Population density – A formula factor that is an individual quotient of the number of persons residing in a given area of the State.
(4) Poverty Income Guidelines – The official poverty income guidelines defined by the Office of Management and Budget (OMB).
(5) Private nonprofit organization – An organization which has the status as a 501(c) tax-exempt entity. Private nonprofit organizations applying for CSBG funds must be established for eleemosynary purposes and whose activities include, but are not limited to, the promotion of social welfare and the prevention or elimination of homelessness. The entity's net earnings may not inure the benefit of any individual(s).
(6) Secretary – The Secretary of the U.S. Department of Health and Human Services.
(7) Subcontractor – An organization with whom CSBG subrecipients contract utilizing CSBG funds.
(8) Subrecipient – Organizations with whom the Department contracts for CSBG funds.
(9) The State – Texas Department of Housing and Community Affairs.

(10) Units of general local government – A unit of local government which has the authority to assess and collect local taxes and to provide general governmental services.

§5.4 Eligible Entities

The Department administers the CSBG program through the existing subrecipients organizations referenced in the CSBG Act as "eligible entities."

§5.5 Designation and Redesignation of Eligible Entities in Unserved Areas

(a) If any geographic area of the State ceases to be served by an eligible entity, the Governor may solicit applications from, and designate as an eligible entity:

(1) A private nonprofit organization (which may include an eligible entity) that is geographically located in the unserved area, that is capable of providing a broad range of services designed to eliminate poverty and foster self-sufficiency, and that meets the requirements of this subtitle;

(2) A private nonprofit eligible entity that is geographically located in an area contiguous to or within reasonable proximity of the unserved area and that is already providing related services in the unserved area; and

(3) In order to serve as the eligible entity for the area, an entity to ensure adequate representation in each of the three required categories.

(b) In designating an eligible entity, the Governor shall grant the designation to an organization of demonstrated effectiveness in meeting the goals and purposes of the CSBG Act and may give priority, in granting the designation, to eligible entities that are providing related services in the unserved area, consistent with the needs identified by a community needs assessment.

(c) If no private, nonprofit organization is identified or determined to be qualified to serve the unserved area as an eligible entity, the Governor may designate an appropriate political subdivision of the State to serve as an eligible entity for the area. In order to serve as the eligible entity for that area, the political subdivision shall have a board or other mechanism as required by the Department.

§5.6 Distribution of CSBG Funds

(a) The CSBG Act requires that no less than 90% of the state's allocation be allocated to eligible entities. The Department utilizes a multi-factor fund distribution formula to equitably provide CSBG funds throughout the State's 254 counties to the CSBG eligible entities. The formula incorporates the 2000 U.S. Census figures at 125% of poverty; a $50,000 base; a $150,000 floor (the minimum funding level); a 98% weighted factor for poverty population; and, a 2% weighted factor for the inverse ratio of population density.

(1) Each eligible entity receives a base amount of $50,000;

(2) The weighted factors of poverty population and population density are applied to the funds remaining after the base award funds have been distributed to each eligible entity;

(3) The Department then determines if any eligible entity is below the $150,000 floor after the base amount and weighted factors (poverty population and population density) have been applied, then the minimum floor amount is reserved for those entities below $150,000.

(4) The remaining funds are distributed to the remaining eligible entities. As was done with the initial run of the formula, each of the remaining eligible entities receives the base amount of $50,000 and then the weighted factors (poverty population and population density) are applied to determine the allocation amounts for eligible entities funded above the $150,000.

(b) The population density factor ensures that additional funds are provided to those organizations with sparsely populated service areas.

(c) Five percent (5%) of the Department's annual allocation of CSBG funds may be used for activities that may include: services to low-income Migrant and Seasonal Farmworker and Native-American populations; to assist CSBG eligible entities in responding to natural or man-made disasters. The Department also considers proposals that request funding for innovative and demonstration projects that assist CSBG target population groups to overcome at least one of the barriers to attaining self-sufficiency. A portion of these funds are used to confer Performance Awards to eligible entities that transition persons out of poverty.

(d) Five percent (5%) of the Department's annual CSBG allocation is used to cover state administrative costs including salary and benefits for state CSBG staff, indirect costs, a portion of operating costs (space, telephone, staff travel, etc.), and capital expenditures (furnishings, equipment, etc.).

§5.7 Uses of Funds

CSBG funds distributed to eligible entities for a fiscal year may be available for obligation during that fiscal year and the succeeding fiscal year:

(1) To remove obstacles and solve problems that block the achievement of self-sufficiency (including self-sufficiency for families and individuals who are attempting to transition off a State program carried out under part A of title IV of the Social Security Act);
(2) To secure and retain meaningful employment;
(3) To attain an adequate education, with particular attention toward improving literacy skills of the low-income families in the communities involved, which may include carrying out family literacy initiatives;
(4) To make better use of available income;
(5) To obtain and maintain adequate housing and a suitable living environment;
(6) To obtain emergency assistance through loans, grants, or other means to meet immediate and urgent family and individual needs; and
(7) To achieve greater participation in the affairs of the communities involved, including the development of public and private grassroots partnerships with local law enforcement agencies, local housing authorities, private foundations, and other public and private partners.

§5.8 State Application and Plan

(a) The Department submits an application and State plan to the Secretary.
(b) The Department will submit a State plan every two years.
(c) The State plan will be submitted not later than 30 days prior to the beginning of the first fiscal year covered by the plan.

(d) In conjunction with the development of the State plan, the Department is required to hold public hearings in four locations in different areas of the state to solicit public comment on the intended use of CSBG funds.
(e) In order to be eligible to received CSBG funds, the Department must hold at least one legislative hearing every three (3) years in conjunction with the development of the State plan. The Department submits the CSBG budget to the Texas State Legislature every two (2) years as part of the Legislative Appropriations Request (LAR), which meets the legislative hearing requirement.

§5.9 CSBG Needs Assessment and Community Action Plan

(a) In accordance with the CSBG Act, the Department is required to secure from each CSBG eligible entity a Community Action Plan that includes a community needs assessment. CSBG subrecipients must submit a needs assessment at least every five (5) years.
(b) Preparation of a periodic community needs assessment enables the local eligible entities and the states to direct CSBG funds toward meeting national goals in accordance with the needs of the communities served.
(c) The frequency for submission of the CSBG Community Action Plan is annual and is due on October 31 of every year.
(d) The Community Action Plan shall at a minimum address the CSBG National Goals and National Performance Indicators, identified by the Monitoring and National Assessment Task Force sponsored by the U.S. Department of Health and Human Services, which include the following:

- (1) Goal 1: Low-Income People Become More Self-Sufficient
  - (A) National Performance Indicator 1.1 – Employment
  - (B) National Performance Indicator 1.2 – Employment Supports
  - (C) National Performance Indicator 1.3 – Economic Asset Enhancement and Utilization
- (2) Goal 2: The Conditions in Which Low-Income People Live are Improved
  - (A) National Performance Indicator 2.1 – Community Improvement and Revitalization
  - (B) National Performance Indicator 2.2 – Community Quality of Life and Assets
- (3) Goal 3: Low-Income People Own a Stake in Their Community
  - (A) National Performance Indicator 3.2 – Community Empowerment Through Maximum Feasible Participation
- (4) Goal 4: Partnerships Among Supporters and Providers of Service to Low-Income People are Achieved
  - (A) National Performance Indicator 4.1 – Expanding Opportunities Through Community-Wide Partnerships
- (5) Goal 5: Agencies Increase Their Capacity to Achieve Results
  - (A) National Performance Indicator 5.1 – Broadening the Resource Base
- (6) Goal 6: Low-Income People, Especially Vulnerable Populations, Achieve Their Potential by Strengthening Family and Other Supportive Systems
  - (A) National Performance Indicator 6.1 – Independent Living
  - (B) National Performance Indicator 6.2 – Emergency Assistance
  - (C) National Performance Indicator 6.3 – Child and Family Development

§5.10 Selection, Composition and Powers of Boards of Eligible Entities

(a) Private Nonprofit Entities.

(1) Board.--In order for a private, nonprofit entity to be considered to be an eligible entity, the entity shall administer the community services block grant program through a tripartite board that fully participates in the development, planning, implementation, and evaluation of the program to serve low-income communities.

(2) Selection and composition of board.--The members of the board shall be selected by the entity and the board shall be composed so as to assure that--

(A) 1/3 of the members of the board are elected public officials, holding office on the date of selection, or their representatives, except that if the number of such elected officials reasonably available and willing to serve on the board is less than 1/3 of the membership on the board of appointive public officials or their representatives may be counted in meeting such 1/3 requirement;

(B) (i) not fewer than 1/3 of the members are persons chosen in accordance with democratic selection procedures adequate to assure that these members are representative of low-income individuals and families in the neighborhood served; and

(ii) each representative of low-income individuals and families selected to represent a specific neighborhood within a community under clause (i) resides in the neighborhood represented by the member; and

(C) The remainder of the members are officials or members of business, industry, labor, religious, law enforcement, education, or other major groups and interests in the community served.

(b) Public Organizations.--In order for a public organization to be considered to be an eligible entity, the entity shall administer the community services block grant program through:

(1) A tripartite board, which shall have members selected by the organization and shall be composed so as to assure that not fewer than 1/3 of the members are persons chosen in accordance with democratic selection procedures adequate to assure that these members:

(A) Are representative of low-income individuals and families in the neighborhood served;

(B) Reside in the neighborhood served; and

(C) Are able to participate actively in the development, planning, implementation, and evaluation of programs funded with CSBG funds; or

(2) A mechanism specified by the Department to assure decision-making and participation by low-income individuals in the development, planning, implementation, and evaluation of programs funded under this subtitle.

(c) Board Membership Requirements

(1) Public Officials

(A) Private Nonprofit Entities

(i) The CSBG eligible entity may select elected public officials or their representatives to serve on the board. In the event that there are not enough elected public officials reasonably available and willing to serve on the board, the entity may select appointed public officials to serve on the board.

(ii) The entity may allow governing officials of the political jurisdiction to select and/or recommend an elected or appointed official to serve on the board.

(B) Public Organizations

(i) The public organization may select elected public officials to serve on the board. If there are not enough elected public officials reasonably available and willing to serve on the board, the public organization may select appointed public officials to serve on the board.

(C) Elected public officials or appointed public officials selected to serve on the board of either a private nonprofit entity or a public organization shall have either general governmental responsibilities, or responsibilities which require them to deal with poverty-related issues. They may not be officials with only limited, specialized, or administrative responsibilities.

(2) Low Income Representatives

(A) An essential objective of community action is participation by low-income individuals in the programs which affect their lives; therefore, the CSBG Act and its amendments require representation of low-income individuals on boards or state-specified governing bodies. Low-income representatives need not themselves be poor, but they must be selected in a manner that ensures that they truly represent low-income individuals.

(B) The procedure used to select the low-income representatives must be documented to demonstrate that a democratic selection process was used.

(C) Among the selection processes that may be utilized, either alone or in combination, are:

(i) Nominations and elections, either within neighborhoods or within the community as a whole.

(ii) Selection at a meeting or conference to which all neighborhood residents, and especially those who are poor, are openly invited.

(iii) Selection of representatives to a community-wide board by members of neighborhood or sub-area boards who are themselves selected by neighborhood or area residents.

(iv) Selection, on a small area basis (such as a city block), of representatives who in turn select members for a community-wide board.

(v) Selection of representatives by existing organizations whose membership is predominately composed of poor persons.

(3) Representatives of Private Groups and Interests

(A) Private Nonprofit Entities

(i) The entity shall select persons representing the private sector to serve on the board or it may select private sector organizations from which representatives of the private sector would be chosen to serve on the board. Law enforcement representatives are included in this group.

(B) Public Organizations

(i) The public organization may select persons representing the private sector to serve on the board or it may select private sector organizations from which representatives of the private sector would be chosen to serve on the board.

(ii) The individuals and/or organizations representing the private sector shall be selected in such a manner as to assure that the board will benefit from broad community involvement.

(iii) The board composition for the private sector shall draw from officials or members of business, industry, labor, religious, education, law enforcement, and other major groups and interests in the community served.

(4) Permanent Representatives and Alternates

(A) Private Nonprofit Entities

(i) The public officials selected by a private non profit entity to serve on the board may each choose one permanent representative to serve on the board in either a full-time capacity or in place of a public official whenever the public official is unable to attend a meeting.
(ii) The representative need not be a public official but shall have full authority to act for the public official at meetings of the board.
(iii) Permanent representatives may hold an officer position on the board.
(iv) If a permanent representative is not chosen, then an alternate may be designated by the public official selected to serve on the board.
(v) Alternates may not hold an officer position on the board.

(B) Public Organizations

(i) The public officials selected by a public organization to serve on the board may each choose one permanent representative to serve on the board (or other governing body) in either a full-time capacity or in place of a public official whenever the public official is unable to attend a meeting.
(ii) The representative need not be a public official but shall have full authority to act for the public official at meetings of the board.
(iii) Permanent representatives may hold an officer position on the board.
(iv) If a permanent representative is not chosen, then an alternate may be designated by the public official selected to serve on the board or by the public organization.
(v) Alternates may not hold an officer position on the board. If the entity or board chooses to allow alternates, alternates for low-income representatives shall be elected at the same time and in the same manner as the board representative is elected to serve on the board.
(vi) Alternates for representatives of private sector organizations may be designated to serve on the board and should be selected at the same time the board representative is selected.
(vii) In the event that the board member or alternate ceases to be a member of the organization represented, he/she shall no longer be eligible to serve on the board.
(viii) Alternates may not hold an officer position on the board.

(5) Powers of the Board

(A) Private Nonprofit Entities

(i) The board is responsible for abiding by the terms of contracts and shall determine the policies of the agency to assure accountability for public funding.
(ii) The board shall function as the organization's governing body with the same legal powers and responsibilities as the board of directors of any nonprofit corporation.
(iii) In the event of a conflict between the powers and responsibilities required of all nonprofit corporations and those required by the CSBG Act, this rule, and the contract, the latter shall control.

(B) Public Organizations

(i) The powers, duties, and responsibilities of the board shall be determined by the governing officials of the political subdivision.
(ii) The governing officials may establish: (1) an advisory board, in which case the authority given to the advisory board depends on the powers delegated to it by the governing officials of the political subdivision; or (2) a governing board, empowering the board of directors with substantive decision-making authority and delegating the powers, duties, and responsibilities to carry out its CSBG-supported contract and functions.

(6) Residence Requirement

(A) All board members shall reside within the contractor's CSBG service area designated by the CSBG contract.

(B) Board members should be selected so as to provide representation for all geographic areas within the designated service area;

(i) however, greater representation may be given on the board to areas with greater poverty population.

(ii) Low-income representatives must reside in the area that they represent.

(7) Limitations of Board Service

(A) Private Nonprofit Entities

(i) Public officials, or their representatives, serve at the pleasure of the board as long as the public official remains in office.

(ii) Low-income representatives and representatives of private organizations also serve at the pleasure of the board.

(B) Public Organizations

(i) Board members serve at the pleasure of the public organization, or at the pleasure of the board if the board is so empowered by the public organization.

(ii) Public officials, or their representatives, may not serve on the board as a public official representative after relinquishing their elective or appointive office.

(iii) The board may petition the designating governmental body for removal of a board member.

(C) Low-income representatives and representatives of private organizations may serve up to five consecutive years but not more than a total of ten years. After five consecutive years, these representatives may not serve on the board in any capacity for one full year, after which they may serve another five consecutive years, for a total of ten years.

(8) Board Size

(A) The board shall consist of at least fifteen (15) but not more than fifty-one (51) members.

(9) Quorum

(A) A quorum shall consist of at least fifty (50%) percent of the <u>non-vacant</u> board positions. A motion may be adopted only if it receives the votes of at least a majority of the members present at a properly called meeting where there is a quorum present.

(B) Members represented by proxy (if the articles of incorporation or by-laws allow proxies) may not be counted toward a quorum.

(10) Vacancies

(A) All board vacancies shall be filled as soon as reasonably possible.

(B) In no event shall the board allow 25% or more of either the public or poverty sector board positions to remain vacant for more than 90 days.

(C) CSBG subrecipients shall report to the Department, on their monthly performance reports, the number of board vacancies by sector.

(D) Compliance with the CSBG Act requirements for board membership is a condition for eligible entities to receive CSBG funding, and there is no provision in the Act for a waiver or exception to these requirements.

(11) Removal of Board Members

(A) Private Nonprofit Entities

(i) Public officials, or their representatives, may be removed from the board by the board or by the entity that appointed them to serve on the board.

(ii) Other members of the board may be removed by the board or pursuant to any procedure provided in the entity's articles of incorporation or by-laws.

(B) Public Organizations

(i) Board members may be removed from the board by the public organization, or by the board if the board is so empowered by the public organization.

(ii) The board may petition the public organization to remove a board member or the public organization may delegate the power of removal to the board.

(12) Compensation

(A) Board members are not entitled to compensation for their service on the board. Reimbursement of reasonable and necessary expenses incurred by a board member in carrying out his/her duties is allowed.

(13) Conflict of Interest

(A) No board member may participate in the selection, award, or administration of a subcontract supported by CSBG funds if:

(i) the board member,

(ii) any member of his/her immediate family (as defined in the CSBG contract),

(iii) the board member's partner, or

(iv) any organization which employs or is about to employ any of the above, has a financial interest in the firm or person selected to perform a subcontract.

(B) No employee of the local CSBG subrecipient nor of the Department may serve on the board.

(14) Improperly Constituted Board

(A) If the Department determines that a board of an eligible entity is improperly constituted, the Department shall prescribe the necessary remedial action which many include termination of funding.

§5.11 Meeting Requirements of Boards of Eligible Entities

(a) The boards of CSBG eligible entities shall meet at least every ten (10) weeks.

(1) As CSBG eligible entities have been added to the list of covered agencies, meetings and proceedings of the same shall be in compliance with the Texas Open Meetings Act (Texas Government Code, Section 551.001 *et. seq.*) and with the Public Information Act (Texas Government Code, Section 552 *et seq*.).

(2) In general, meetings of governmental bodies must be open to the public, except for expressly authorized executive sessions, and the public must be given notice of the time, place, and subject matter of such meetings.

(3) The Open Records Act is required by Section 11 of the CSBG contract.

(4) As of September 1, 2001, it is also required by state law.

(b) Meetings of the Board

(1) Written notice of the date, time, place, and proposed agenda of any regular, special, or called meeting of the Board shall be given to each board member at least five (5) days in advance of the meeting.

(2) Notice of all meetings shall also be given to the general public through local public postings, which may include written notification in courthouses or other public places or publication in a newspaper.

(3) Notices to the general public shall be posted in readily accessible areas at least 72 hours before the scheduled time of the meeting. Because service areas identified in Texas CSBG-

supported contracts are limited to small portions of the state, it is not a requirement for local entities to publicize the board meeting notices in the Texas Register.

(4) Except as specifically provided below, every regular, special, or called meeting of the board shall be open to the public.

(5) Closed or executive sessions of the board may be held for the following purposes:

(A) Consultation between the board and its attorney in those instances in which the board seeks the attorney's advice with respect to pending or contemplated litigation, settlement offers, and other matters where the duty of the attorney to his client requires confidentiality.

(B) Discussion with respect to the purchase, exchange, lease, or value of real property, negotiated contracts, and prospective gifts or donations to the organization, when such discussion, if made public, would have a detrimental effect on the negotiating position of the organization.

(C) Discussion with respect to matters involving the appointment, employment, evaluation, reassignment, duties, discipline, or dismissal of an officer or employee or to hear complaints or charges against such officer or employee, unless such officer or employee requests a public session.

(D) Discussion with respect to any matter specifically made confidential by law or regulation.

(E) Any other exception available by state law.

(F) Whenever any deliberation or any portion of a meeting is closed to the public as permitted above, no final action, decision, or vote with regard to that matter shall be made except in a meeting open to the public.

(c) Minutes

(1) The board shall keep written minutes of each open meeting that include a record of the members present by category, items presented to the board for action, and the votes on all motions. Minutes of the previous meeting shall be distributed to board members before the next meeting. The minutes shall be made available to the public upon request in accordance with the Open Records Act.

(2) Each CSBG eligible entity shall comply with these provisions. If necessary, the eligible entity's by-laws and articles of incorporation shall be amended to reflect compliance with these requirements described above. Upon the failure of a CSBG eligible entity to comply with these requirements, the Department may take any one or more of the following actions:

(A) Deny the eligible entity’s requests for advances and place it on a reimbursement payment basis until proof of compliance with these requirements is received by the Department;

(B) Withhold all payments from the eligible entity (both reimbursements and advances) until proof of compliance with these requirements is received by the Department;

(C) Suspend performance of the CSBG contract until proof of compliance with these requirements is received by the Department; or

(D) Terminate the CSBG contract.

(d) Section 551.001(3) (J) Government Code, as it relates to compliance with the Open Meetings Act and the Public Information Act, includes a nonprofit corporation that is eligible to receive funds under the CSBG program and is authorized by the Department to serve a geographic area of the state, among its list of defined governmental bodies.

§5.12 Monitoring of Eligible Entities

(a) The Department will conduct monitoring reviews to determine whether eligible entities meet the performance goals, administrative standards, financial management requirements, and other requirements of the CSBG program. The Department will conduct the following reviews of eligible entities:

(1) A full onsite review of each such entity at least once during each 3-year period.

(2) An onsite review of each newly designated entity immediately after the completion of the first year in which such entity receives funds through the community services block grant program.

(3) Follow-up reviews including prompt return visits to eligible entities, and their programs, that fail to meet the goals, standards, and requirements established by the Department.

(4) Other reviews as appropriate, including reviews of entities with programs that have had other Federal, State, or local grants (other than assistance provided under the CSBG Act) terminated for cause.

(b) Requests.--The Department may request training and technical assistance from the Secretary as needed to comply with the requirements of this section.

(c) Evaluations by the Secretary.--The Secretary shall conduct in several States in each fiscal year evaluations including investigations of the use of CSBG funds.

(d) The Department may place an eligible entity on a reimbursement method of payment, terminate the contract, or invoke other remedies in the event monitoring or other reliable sources reveal material deficiencies in performance or of the entity fails to correct any deficiency within the time allowed by federal or state law.

§5.13 Limitations on Use of Funds

(a) Construction of Facilities.

(1) CSBG funds may not be used for the purchase or improvement of land, or the purchase, construction, or permanent improvement (other than low-cost residential weatherization or other energy-related home repairs) or any building or other facility.

(2) Waiver.--The Secretary may waive the limitation contained in paragraph (1) upon a State request for such a waiver, if the Secretary finds that the request describes extraordinary circumstances to justify the purchase of land or the construction of facilities (or the making of permanent improvements) and that permitting the waiver will contribute to the ability of the State to carry out the purposes of this subtitle.

(b) Political Activities.

(1) Treatment as a state or local agency.--For purposes of chapter 15 of title 5, United States Code, any entity that assumes responsibility for planning, developing, and coordinating activities under the CSBG Act and receives assistance under CSBG Act shall be deemed to be a State or local agency.

(2) Prohibitions.--Programs assisted under the CSBG Act shall not be carried on in a manner involving the use of program funds, the provision of services, or the employment or assignment of personnel, in a manner supporting or resulting in the identification of such programs with--

(A) any partisan or nonpartisan political activity or any political activity associated with a candidate, or contending faction or group, in an election for public or party office;

(B) any activity to provide voters or prospective voters with transportation to the polls or similar assistance in connection with any such election; or

(C) any voter registration activity.

§5.14 Client Income Guidelines

(a) The Department has defined eligibility for CSBG assistance at 125% of the poverty income guidelines provided annually by the Secretary, as per the CSBG Act.

(b) The Department will use the following lists of included and excluded income to determine eligibility for the program.

(1) Included Income

(A) Temporary Assistance for Needy Families (TANF),

(B) Money, wages and salaries before any deductions;

(C) Net receipts from non-farm or farm self-employment (receipts from a person's own business or from an owned or rented farm after deductions for business or farm expenses),

(D) Regular payments from social security,

(E) Railroad retirement,

(F) Unemployment compensation,

(G) Strike benefits from union funds,

(H) Worker's compensation,

(I) Veteran's payments,

(J) Training stipends,

(K) Alimony,

(L) Military family allotments,

(M) Private pensions,

(N) Government employee pensions (including military retirement pay),

(O) Regular insurance or annuity payments; or

(P) Dividends, interest, net rental income, net royalties, periodic receipts from estates or trusts; and net gambling or lottery winnings.

(2) Excluded Income

(A) Social Security Disability Insurance (SSDI) payments,

(B) Supplemental Security Income (SSI) payments,

(C) Capital gains; any assets drawn down as withdrawals from a bank,

(D) The sale of property, a house, or a car,

(E) One-time payments from a welfare agency to a family or person who is in temporary financial difficulty,

(F) Tax refunds, gifts, loans, and lump-sum inheritances,

(G) One-time insurance payments, or compensation for injury,

(H) Non-cash benefits, such as the employer-paid or union-paid portion of health insurance or other employee fringe benefits,

(I) Food or housing received in lieu of wages,

(J) The value of food and fuel produced and consumed on farms,

(K) The imputed value of rent from owner-occupied non-farm or farm housing,

(L) Federal non-cash benefit programs as Medicare, Medicaid, Food Stamps, and school lunches,

(M) Housing assistance and combat zone pay to the military,
(N) College scholarships, Pell and other grant sources, assistantships, fellowships and work study, or
(N) Child Support Payments.

§5.15 Program Administration

Upon Executive approval, CSBG subrecipients shall enter into and execute an agreement for the receipt of CSBG funds.

(1) Amendments. The Department, acting by and through its Executive Director or his/her designee, may authorize, execute, and deliver modifications and/or amendments to the CSBG contract.
(2) The Department reserves the right to deobligate funds.
(3) Accounting Requirements. Within 60 days following the conclusion of a contract issued by the Department, the recipient shall provide a full accounting of funds expended under the terms of the contract. Failure of a recipient to provide a full accounting of funds expended under the terms of the contract shall be sufficient reason to terminate the contract and for the Department to deny any future contract to the subrecipient.

LEGAL SERVICES DIVISION

BOARD ACTION REQUEST

August 30, 2006

Action Items

Approval of modification of draft rules for publication and public comment for Title 10 Texas Administrative Code §1.17 regarding Alternative Dispute Resolution.

Required Action

Approve, reject or approve with modifications the suggested revisions to the rules governing the the ADR process under Title 10 Texas Administrative Code §1.17.

Background

The revisions to the ADR policy encourage the earlier use of ADR. In addition, the changes alter the suggested purposes of ADR. Other revisions clarify the role of the Dispute Resolution Coordinator as the primary contact within the Department as well as the decision maker in the initial referral rather than other Department staff. The changes encourage the use of the State Office of Administrative Hearings as an alternative for a mediator. The most significant change is that if used during an appeal process before the Board hears the matter, the Executive Director will abide by an agreed upon solution, although the Board could still act upon the decision.

Recommendation

Staff recommends the Board approve the Draft rule regarding ADR under §1.17 for publication to receive public comment and conduct the consolidated public hearings with the other applicable rules and allow staff to make changes to these rules, where applicable, to be consistent with other rules being approved at this Board meeting.

TITLE 10. COMMUNITY DEVELOPMENT
PART 1. TEXAS DEPARTMENT OF HOUSING AND COMMUNITY AFFAIRS
CHAPTER 1. ADMINISTRATION
SUBCHAPTER A. GENERAL POLICIES AND PROCEDURES
RULE 1.17. ALTERNATIVE DISPUTE RESOLUTION AND NEGOTIATED RULEMAKING

(a) Policy. In accordance with §2306.082, Texas Government Code, it is the Department's policy to encourage the appropriate use of Alternative Dispute Resolution ("ADR") procedures to assist in the fair and expeditious resolution of internal and external disputes involving the Department and the use of negotiated rulemaking procedures for the adoption of Department rules. While ADR may be requested at any appropriate time, the Department encourages the use of ADR, where possible, to develop a full understanding of issues for use by the Department in resolving issues prior to posted Board action or statutory deadlines. ~~T~~This rule is intended to be consistent with the Governmental Dispute Resolution Act and the Negotiated Rulemaking Act (Chapters 2009 and 2008, respectively, Texas Government Code). The Department's ADR procedures must conform, to the extent possible, to model guidelines issued by the State Office of Administrative Hearings for the use of ADR by state agencies. (§2306.082(b), Texas Government Code).

(b) Definitions. For purposes of this rule, terms used herein shall have the following meaning:

(1) "Alternative Dispute Resolution" or "ADR"--a procedure or combination of procedures that uses an impartial third party to assist individuals in voluntarily resolving disputes, including procedures described in Sections 154.023-154.027, Civil Practice and Remedies Code. (§2009.003(1), Governmental Dispute Resolution Act). The Governmental Dispute Resolution Act does not grant the Department authority to engage in binding arbitration. (§2009.005(c)).

(2) "Mediation"--a dispute resolution procedure in which an impartial person, the mediator, facilitates communication between the parties to promote resolution of the dispute. The mediator may not impose his or her own judgment on the issues for that of the parties. (§154.023(a) and (b), Civil Practice and Remedies Code).

(3) "Impartial third party"--A person who meets the qualifications and conditions of §2009.053, Governmental Dispute Resolution Act.

(c) Dispute Resolution Coordinator—A trained person designated by the Executive Director ~~shall designate a trained person~~ to:

(1) Coordinate the implementation of the Department's policy on ADR and negotiated rulemaking;

(2) Serve as a resource for any training needed to implement procedures for ADR or negotiated rulemaking; and

(3) Collect data concerning the effectiveness of ADR and negotiated rulemaking, as implemented by the Department.

(d) Informal Communications; Ex Parte Policy; Appeals; Education.

(1) The Department encourages informal communications between Department staff and applicants for Department programs, and other interested persons, to exchange information and informally resolve disputes. When applications are pending consideration by the Department, applicants should review the Department's ex parte communications policy to ensure their compliance with the policy.

(2) The Department has promulgated rules in accordance with §2306.0321 and §2306.6715, Texas Government Code, concerning administrative appeals processes. ADR procedures supplement and do not limit any available procedure for the resolution of disputes. (§2009.052(a), Governmental Dispute Resolution Act). Pursuing an ADR procedure does not suspend or delay application, appeal, or other deadlines. For example, if a tax credit applicant desires to appeal a Department decision using the procedures promulgated under §2306.6715 and also desires to pursue an ADR procedure, the applicant may independently pursue the two procedures. Each procedure will proceed independently of the other.

(3) Consistent with this ADR and Negotiated Rulemaking policy, the Department shall endeavor to educate its staff and persons who are subject to the Department's jurisdiction concerning the availability of ADR and negotiated rulemaking procedures to resolve disputes and to adopt rules.

(e) ADR Procedure.

(1) Assessment of the Dispute. In determining whether an ADR procedure is appropriate, the parties to the dispute, including the Department, should consider the following factors:

(A) direct discussions and negotiations between the parties have been unsuccessful and/or the parties believe there is a misunderstanding involving the facts or interpretations that or could be improved with the assistance of an ~~Iimpartial Tthird Pparty~~Impartial Third Party;

(B) the use of ADR potentially could ~~would~~ use less resources and take less time than other available procedure there is a reasonable likelihood that the use of ADR will result in an agreement to resolve the dispute;

(C) there is a reasonable likelihood that the use of ADR will result in an agreement to resolve the dispute and there are potential remedies or solutions that are only available through ADR; ~~and~~ and/or

(D) the need for a final decision with precedential value is less important than other considerations. The parties may also consider additional factors found in the State Office of Administrative Hearings' ADR Model Guidelines for assessing whether a dispute is appropriate for mediation.

(2) Proposing the Use of ADR. Any applicant for Department programs or other interested person may propose the use of an ADR procedure to attempt to resolve a dispute with the Department by submitting a written ADR proposal to the Department's Dispute Resolution Coordinator at the address or fax number listed on the Department's website (fax: (512) 475-3978), with copies sent to any other parties to the dispute.

(3) ADR Proposal. If at any time an applicant for Department programs or other interested person would like to engage in an ADR procedure with the Department, the person may submit by letter a written ADR proposal to the Department's Dispute Resolution Coordinator stating the nature of the dispute, the parties involved, any pertinent or impending deadlines, whether all parties agree to refer the dispute to ADR, proposed times and locations, the preferred type of ADR procedure, and, if known, one or more potential impartial third parties. ~~For example, an ADR proposal may propose that a dispute be mediated using a trained, impartial third party state employee from a state pool of ADR trained employees at no cost to the parties or other qualified mediator agreeable~~

~~to all parties at the shared cost of the parties; that the mediation take place in person at the Department or other mutually agreeable place or by telephone; and that it be scheduled for three hours on an agreed date within seven days.~~ If an applicant or other interested person is uncertain whether to propose the possible use of ADR or is uncertain about any particular aspect of a possible proposal, they should contact the Department's Dispute Resolution Coordinator to discuss the matter.

(4) Action on ADR Proposal. The Dispute Resolution Coordinator shall provide the Department a copy of ~~will review~~ the ADR proposal for review, discuss it with the interested parties, as appropriate, and assess whether ADR would assist in fairly and expeditiously resolving the dispute. If the parties, including the Department, cannot agree on whether an ADR procedure should be used or on the particulars of the ADR procedure, the Dispute Resolution Coordinator ~~Department~~ will notify affected parties of that outcome. The Dispute Resolution Coordinator ~~Department~~ will promptly notify all affected parties within five (5) days of receiving an ADR proposal, or as soon as reasonably possible if a pertinent or impending deadline is indicated in the ADR proposal. If the Dispute Resolution Coordinator ~~Department~~ determines not to refer the dispute to ADR, the Dispute Resolution Coordinator ~~Department~~ shall state the reasons in writing. If the Dispute Resolution Coordinator ~~Department~~ determines to refer the dispute to ADR, ~~it~~ they will include the date for the selected ADR process in its notice. ~~In referring the case to ADR, the Department will carefully consider the selections in the ADR proposal and follow them as much as is appropriate.~~

(5) Department Proposal. Independent of any proposal from interested parties outside the Department, the Department may propose using ADR procedures to interested parties to try and resolve a dispute.

(f) Selection of Impartial Third Parties. An ~~Iimpartial Tthird Pparty~~Impartial Third Party must possess the qualifications required under §154.052, Civil Practice and Remedies Code (a minimum of 40 classroom hours of training in dispute resolution techniques), is subject to the standards and duties prescribed by §154.053, Civil Practice and Remedies Code, and has the qualified immunity prescribed by §154.055, Civil Practice and Remedies Code, for volunteer third parties not receiving compensation in excess of expenses, if applicable. (§2009.053(d) Governmental Dispute Resolution Act). The selection of an ~~Iimpartial Tthird Pparty~~Impartial Third Party is subject to the approval of the parties to the dispute. If the parties do not suggest potential third parties, the Dispute Resolution Coordinator ~~Department~~ will provide a list of potential third parties from which to choose or elect to use personnel of the State Office of Administrative Hearings. If all parties agree to use an impartial third party who charges for ADR services, then the costs for the impartial third party shall be apportioned equally among all parties, unless otherwise agreed by the parties.

(g) Good faith; Voluntary Agreement; Public Information. All parties participating in an ADR procedure are expected to do so in a good faith effort to reach agreement. All parties participating must have the authority to ~~enter into~~ reach an agreement to ~~resolve~~ make a final recommendation to resolve the dispute. The Executive Director will abide by an agreed upon solution to the dispute and either approve that agreement or offer that recommendation to the Board. if Board authorization is needed. The decision to reach agreement is voluntary. If the parties reach a resolution and execute a written agreement, the agreement is enforceable in the same manner as any other written agreement of the same nature with the State. A written agreement to which the Department is a signatory resulting from an ADR procedure must be approved by the appropriate authority and is subject to the Public Information Act, Chapter 552, Texas Government Code.

(h) Confidentiality of Records and Communications. The confidentiality of the communications, records, conduct, and demeanor of an impartial third party and parties in an ADR procedure are governed by §2009.054 of the Governmental Dispute Resolution Act.

(i) Negotiated Rulemaking.

(1) The Negotiated Rulemaking Act, Chapter 2008 of the Texas Government Code, prescribes procedures for negotiated rulemaking including appointment of a convener; publishing notice of proposed negotiated rulemaking and requesting comments on the proposal; appointing a negotiated rulemaking committee; appointing an impartial third party facilitator; and proposing the resulting draft rule for public comment.

(2) Any person or organization that would like for the Department to use negotiated rulemaking for the adoption of a Department rule may submit a proposal to the Department's Dispute Resolution Coordinator. The proposal should identify the rule

proposed for negotiated rulemaking; potential participants for the negotiated rulemaking committee, possible third party facilitators, and a timeline for the process. The Department will promptly respond to the proposal. The Department may also on its own propose to use negotiated rulemaking. In determining whether a proposed negotiated rulemaking is appropriate in a particular situation, the Department and interested parties may consider any relevant factors, including:

(A) The number of identifiable interests that would be significantly affected by the proposed rule;

(B) The probability that those interests would be adequately represented in a negotiated rulemaking;

(C) The probable willingness and authority of the representatives of affected interests to negotiate in good faith;

(D) The probability that a negotiated rulemaking committee would reach a unanimous or a suitable general consensus on the proposed rule;

(E) The probability that negotiated rulemaking will not unreasonably delay notice and eventual adoption of the proposed rule;

(F) The adequacy of agency and citizen resources to participate in negotiated rulemaking;

(G) The probability that the negotiated rulemaking committee will provide a balanced representation among all interested and affected parties. (§2008.052(d) Negotiated Rulemaking Act). If the Department decides to proceed with a negotiated rulemaking, it shall follow the process outlined in Chapter 2008 of the Texas Government Code.

(3) The Department may also use less formal procedures such as working groups, information exchanges, or policy dialogues (see State Office of Administrative Hearings, ADR Model Guidelines) facilitated by a Department employee or a third party to seek the input or consensus, as appropriate, of interested persons and organizations when drafting proposed rules for public comment.

(j) Shared Third Parties. The Department may participate in intergovernmental efforts to share qualified government employees to act as impartial third parties and may agree to reimburse the furnishing entity in kind or monetarily for the full or partial cost of providing the qualified, impartial third party. (§2009.053(b), Governmental Dispute Resolution Act).

(k) Board Waiver. The Governing Board of the Department may waive, in its discretion and to the extent of its authority, any one or more of these rules if the Board finds that waiver is appropriate to fulfill the purposes or policies of Chapter 2306, Texas Government Code, or for other good cause, as determined by the Board.

BOARD ACTION SUMMARY

MULTIFAMILY FINANCE PRODUCTION DIVISION

August 30, 2006

Action Items

1. Proposed Draft 2007 Qualified Allocation Plan and Rules to be published for public comment.

2. Proposed repeal of the 2005 Qualified Allocation Plan and Rules.

Required Action

Approve, or approve with amendments, the 2007 Draft Qualified Allocation Plan and Rules, to be published for public comment. Approve the proposed repeal of the 2005 Qualified Allocation Plan and Rules.

Background

Attached behind this Board Action Item is the 2007 Draft Qualified Allocation Plan and Rules ("Draft QAP") which reflects staff's recommendations for revisions to the 2006 QAP for the Board's consideration. The document is shown as a "blackline" of the 2006 QAP – additions are shown as underlined text and deletions are shown as marked through text.

The 2007 Draft QAP being recommended by staff further ensures compliance with all statutory requirements, incorporates some initial public input, and includes recommendations for revisions of necessary policy and administrative changes to further enhance the Housing Tax Credit Program's operation.

Summary of Significant Recommendations from Staff

This section outlines some of the most significant recommendations being made by staff. Other revisions, details of revisions, formatting adjustments, and streamlining are not summarized, but are reflected in the attached Draft QAP. Citation references are to the numbered sections of the 2007 Draft QAP.

1. **§49.3 – Definitions (Pages 2-11 of 68).** Definitions are being added or substantially revised for the following terms to bring greater clarity to the meanings and concepts utilized or to create definitions for terms now added in other sections of the QAP: Area, Community Revitalization Plan, Competitive Housing Tax Credits, Development Site, Existing Residential Development, New Construction, Reconstruction, Rehabilitation, and Unit.

2. **§49.3(13) – Definition for At-Risk (Pages 3-4 of 68).** This definition was modified to specify that a Development must be at-risk of losing all affordability from any of the financial benefits available on the Development to meet the definition of At-Risk.

3. **§49.3(52) – Definition for Ineligible Building Types (Pages 6-7 of 68).** In 2006, this definition allowed 5% of the Units in a Development to be comprised of 4 Bedrooms. It has been revised to

be consistent with the 1, 2, and 3 Bedroom restrictions which allow an increase above this percentage to reach the next highest number divisible by four.

4. **§49.6(g) – Limitations of Development in Certain Census Tracts. (Page 16 of 68).** This new section is proposed to limit over-saturation of affordable units by restricting new construction of Developments located in a census tract that has more than 30% Housing Tax Credit Units per total households in the census tract as determined by the U.S. Census Bureau for the most recent Decennial Census unless the governing body of the appropriate municipality or county containing the development specifically allows the award of tax credits in the form of a resolution. Based on the current data available, of the 1,010 census tracts in the state, only 55 census tracts would fall in this category. These 55 tracts are highlighted in the attached "§49.6(g) Census Tracts 2007 HTC Site Demographic Characteristics Report," (the "report"). Please note this report is presented only for informational purposes. The report reflects data accurate as of the date of this posting. The report and updated data will be posted to the Department's website monthly. Applicants will be evaluated pursuant to this section utilizing the report and corresponding data in effect as of March 1, 2007 for competitive HTC applications or for tax-exempt bond applications, at the time Volume 1 is submitted.

5. **§49.6(h)(2) – Limitations on Developments Proposing to Qualify for a 30% Increase in Eligible Basis (Page 16 of 68).** This new section is proposed to limit over-saturation of affordable units in Qualified Census Tracts (QCTs). Pursuant to §42(d)(5)(C) of the Internal Revenue Code, developments located in QCTs are allowed to receive a 30% increase in Eligible Basis ("30% increase"). This new section prohibits the 30% increase for developments proposing new construction in QCTs which have more than 40% Housing Tax Credit Units per total households in the census tract as determined by the U.S. Census Bureau for the most recent Decennial Census. Based on current data available, of the 310 QCTs in the state, only 18 will be ineligible for the 30% boost pursuant to this section. These 18 tracts are highlighted in the attached "§49.6(h) QCTs 2007 HTC Site Demographic Characteristics Report," (the "report"). Please note this report is presented only for informational purposes. The report reflects data accurate as of the date of this posting. The report and updated data will be posted to the Department's website monthly. Applicants will be evaluated pursuant to this section utilizing the report and corresponding data in effect as of March 1, 2007 for competitive HTC applications or for tax-exempt bond applications, at the time the Volume 1 is submitted.

6. **§49.9(d)(4) – Administrative Deficiencies (Page 22 of 68).** Staff proposes to reduce the number of days an applicant has to respond to an administrative deficiency notice from five to three without a loss of points and from seven to five without a termination. This change is necessary to process applications in a more timely manner. Additional incentives are proposed which would encourage early deficiency submission.

7. **§49.9(d)(5)(C) – Distribution of Credits in Oversubscribed Regions. (Page 22 of 68).** This section provides clarification of how the Department will distribute housing tax credits among the Rural Regional Allocation and Urban/Exurban Regional Allocation within each Uniform State Service Region and among the set-asides when demand for the credits exceeds availability.

8. **§49.9(h)(4)(A) – Threshold: Minimum Number of Common Amenities for Rehabilitation and Single Room Occupancy (Pages 26-27 of 68).** In 2006, this section allowed developments proposing rehabilitation and single room occupancy to double the amount of points for unit

amenities selected. Staff proposes to instead award one and one half (1.5) times the amount of points in order to continue to incentivize rehabilitation while ensuring that tenants of rehabilitation developments enjoy ample amenities.

9. **§49.9(i)(2) – Selection: Quantifiable Community Participation (QCP) (Pages 39-41 of 68).** General revisions were made to this section to lessen the requirements for a neighborhood organization to submit a QCP letter by allowing certifications in lieu of certain documentation previously required and allow an additional alternative to being on record with the state.

10. **§49.9(i)(4)(B) – Selection: Unit Amenities for Rehabilitation and Single Room Occupancy (Pages 42-43 of 68).** In 2006, this section allowed developments proposing rehabilitation and single room occupancy to double the amount of points for unit amenities selected. Staff proposes to instead award one and one half (1.5) times the amount of points in order to continue to incentivize rehabilitation while ensuring that tenants of rehabilitation developments enjoy ample amenities.

11. **§49.9(i)(5) – Selection: The Commitment of Development Funding by Local Political Subdivisions (Page 42-43 of 68).** Revisions were made to require a total contribution based on the percentage of total development costs rather than a dollar amount. Additionally, staff is proposing that HOME funds no longer qualify for points under this section.

12. **§49.9(i)(10) – Selection: Rehabilitation or Reconstruction (Page 45 of 68).** This new scoring criteria has been added which awards seven (7) points to applications proposing to build solely rehabilitation or reconstruction.

13. **§49.9(i)(15) – Selection: Exurban Developments (Development characteristics) (Page 46 of 68).** In 2006, this section of the QAP awarded points to developments that proposed reconstruction or rehabilitation that will be financed, in part, by HOPE VI financing or HUD capital grant financing. The proposed draft adds §49.9(i)(10), which proposes points for reconstruction and rehabilitation. Therefore, staff proposes to delete the portion of this section that references reconstruction or rehabilitation because it is no longer necessary. Seven points will continue to be awarded to exurban developments.

Recommendation

Staff recommends that the Board repeal the 2005 Qualified Allocation Plan and Rules and approve the Draft 2007 Qualified Allocation Plan and Rules for publication to receive public comment.

Scoring Breakdown in Descending Order of Points for the Draft 2007 QAP

QAP Para.#	Topic	Total Points	Notes	Legislative Citation - Compare to QAP
1	Financial Feasibility	28	NA	2306.6710(b)(1)(A)
2	QCP from Neighborhood Organizations	24 Max	Range of +24 to 0	2306.6710(b)(1)(B); 2306.6725(a)(2)
3	Income Levels of the Tenants	22	NA	2306.6710(b)(1)(C) and (e); 2306.111(g)(3)(B) and (E); 42(m)(1)(B)(ii)(I)
4	Size and Quality of the Units	20	NA	2306.6710(b)(1)(D); 42(m)(1)(C)(iii)
5	Commit. of Funds by LPS	18	NA	2306.6710(b)(1)(E)
6	State Elected Official Support/Opposition	14 Max	Range of +14 to -14	2306.6710(b)(1)(F) and (g); 2306.6725(a)(2)
7	Rent Levels of the Units	12	NA	2306.6710(b)(1)(G)
8	Cost Per Square Foot	10	NA	2306.6710(b)(1)(H); 42(m)(1)(C)(iii)
9	Services Provided to Tenants	8	NA	2306.6710(b)(1)(I); Rider 7; 2306.254; 2306.6725(a)(1)
10	Rehabilitation and Reconstruction	7	NA	NA
11	Housing Needs	7	NA	42(m)(1)(C)(ii)
12	Existing Housing with Revitalization	7	NA	42(m)(1)(C)(iii)
15	Exurban Developments	7	NA	2306.6725(a)(4); 42(m)(1)(C)(i)
13	Pre-Application	6	NA	2306.6704
14	Development Location	4	NA	2306.6725(a)(4) and (b)(2); 2306.127; Rider 6 42(m)(1)(C)(i) and (vii)
16	Special Housing Needs Populations	4	NA	42(m)(1)(C)(v)
17	Length of Affordability	4	NA	2306.6725(a)(5); 2306.111(g)(3)(C); 2306.185(a)(1) and (c); 2306.6710(e)(2); 42(m)(1)(B)(ii)(II)
18	Site Characteristics	4	Up to 4 points for positive amenities. Up to -5 points for negative features	NA
19	Development Size	3	NA	NA
21	Sponsor Characteristics	2	NA	42(m)(1)(C)(iv)
20	Location in QCT with Revitalization	1	NA	42(m)(1)(B)(ii)(III)
22	Right of First Refusal	1	NA	2306.6725(b) 42(m)(1)(C)(viii)
23	Leveraging of Private, State and Federal Funds	1	NA	2306.6725(a)(3)
24	Third Party Commitment Outside of QCT	1	NA	2306.6710(e)(1)
25	Penalties	NA	Range	2306.6710(b)(2)

Maximum Number of Points Possible: 215

Multifamily Finance Production Division

200~~6~~7 Draft Housing Tax Credit Program
Qualified Allocation Plan and Rules with Amendments

§~~50.~~49.1. Purpose and Authority; Program Statement; Allocation Goals.

(a) **Purpose and Authority.** The Rules in this chapter apply to the allocation by the Texas Department of Housing and Community Affairs (the Department) of Housing Tax Credits authorized by applicable federal income tax laws. The Internal Revenue Code of 1986, §42, as amended, provides for credits against federal income taxes for owners of qualified low-income rental housing Developments. That section provides for the allocation of the available tax credit amount by state housing credit agencies. Pursuant to Chapter 2306, Subchapter DD, Texas Government Code, the Department is authorized to make Housing Credit Allocations for the State of Texas. As required by the Internal Revenue Code, §42(m)(1), the Department developed this Qualified Allocation Plan (QAP) which is set forth in §§~~50.~~49.1 - ~~50.~~49.23 of this title. Sections in this chapter establish procedures for applying for and obtaining an allocation of Housing Tax Credits, along with ensuring that the proper threshold criteria, selection criteria, priorities and preferences are followed in making such allocations.

(b) **Program Statement.** The Department shall administer the program to encourage the development and preservation of appropriate types of rental housing for households that have difficulty finding suitable, accessible, affordable rental housing in the private marketplace; maximize the number of suitable, accessible, affordable residential rental units added to the state's housing supply; prevent losses for any reason to the state's supply of suitable, accessible, affordable residential rental units by enabling the Rehabilitation of rental housing or by providing other preventive financial support; and provide for the participation of for-profit organizations and provide for and encourage the participation of nonprofit organizations in the acquisition, development and operation of accessible affordable housing developments in rural and urban communities. (2306.6701)

(c) **Allocation Goals.** It shall be the goal of this Department and the Board, through these provisions, to encourage diversity through broad geographic allocation of tax credits within the state, and in accordance with the regional allocation formula; to promote maximum utilization of the available tax credit amount; and to allocate credits among as many different entities as practicable without diminishing the quality of the housing that is being built. The processes and criteria utilized to realize this goal are described in §~~50.~~49.8 and §~~50.~~49.9 of this title, without in any way limiting the effect or applicability of all other provisions of this title. (General Appropriation Act, Article VII, Rider 8(e))

§~~50.~~49.2. Coordination with Rural Agencies.

To ensure maximum utilization and optimum geographic distribution of tax credits in rural areas, and to provide for sharing of information, efficient procedures, and fulfillment of Development compliance requirements in rural areas, the Department ~~has~~ will entered into a Memorandum of Understanding (MOU) or other agreement with the TX-USDA-RHS to coordinate on existing, Rehabilitation, and New Construction housing Developments financed by TX-USDA-RHS; and will jointly administer the Rural Regional Allocation with the Texas Office of Rural Community Affairs (ORCA). Through participation in hearings and meetings, ORCA will assist in developing all Threshold, Selection and Underwriting Criteria applied to Applications eligible for the Rural Regional Allocation. The Criteria will be approved by that Agency. To ensure that the Rural Regional Allocation receives a sufficient volume of eligible Applications, the Department and ORCA shall jointly implement outreach, training, and rural area capacity building efforts. (2306.6723)

§~~50.~~49.3. Definitions.

The following words and terms, when used in this chapter, shall have the following meanings, unless the context clearly indicates otherwise.

(1) **Administrative Deficiencies**--The absence of information or a document from the Application as is required under §~~50.~~49.5, §~~50.~~49.6, §~~50.~~49.8(d) and §~~50.~~49.9(g), (h), (i) and (j) of this title, unless determined by the Department as unable to be corrected.

(2) **Affiliate**--An individual, corporation, partnership, joint venture, limited liability company, trust, estate, association, cooperative or other organization or entity of any nature whatsoever that directly, or indirectly through one or more intermediaries, Controls, is Controlled by, or is under common Control with any other Person, and specifically shall include parents or subsidiaries. Affiliates also include all General Partners, Special Limited Partners and Principals with an ownership interest unless the entity is an experienced developer as described in §~~50.~~49.9(i)(21~~0~~)(B) of this title.

(3) **Agreement and Election Statement**--A document in which the Development Owner elects, irrevocably, to fix the Applicable Percentage with respect to a building or buildings, as that in effect for the month in which the Department and the Development Owner enter into a binding agreement as to the housing credit dollar amount to be allocated to such building or buildings.

(4) **Applicable Fraction**--The fraction used to determine the Qualified Basis of the qualified low-income building, which is the smaller of the Unit fraction or the floor space fraction, all determined as provided in the Code, §42(c)(1).

(5) **Applicable Percentage**--The percentage used to determine the amount of the Housing Tax Credit for any Development (New Construction, Reconstruction, and/or Rehabilitation), as defined more fully in the Code, §42(b).

(A) For purposes of the Application, the Applicable Percentage will be projected at ~~10 basis points above the greater of~~:

(i) 40 basis points over the current applicable percentage for Competitive Housing Tax Credit Developments for the month in which the Application is submitted to the Department, or

(ii) 15 basis points over the current applicable percentage for Tax Exempt Bond Developments for ~~the trailing 1-year, 2-year or 3-year average rate in effect during~~ the month in which the Application is submitted to the Department.

(B) For purposes of making a credit recommendation at any other time, the Applicable Percentage will be based in order of priority on:

(i) The percentage indicated in the Agreement and Election Statement, if executed; or

(ii) The actual applicable percentage as determined by the Code, §42(b), if all or part of the Development has been placed in service and for any buildings not placed in service the percentage will be the actual percentage as determined by Code, §42(b) for the most current month; or

(iii) The percentage as calculated in subparagraph (A) of this paragraph if the Agreement and Election Statement has not been executed and no buildings have been placed in service.

(6) **Applicant**--Any Person or Affiliate of a Person who files a Pre-Application or an Application with the Department requesting a Housing Credit Allocation. (2306.6702)

(7) **Application**--An application, in the form prescribed by the Department, filed with the Department by an Applicant, including any exhibits or other supporting material. (2306.6702)

(8) **Application Acceptance Period**--That period of time during which Applications for a Housing Credit Allocation from the State Housing Credit Ceiling may be submitted to the Department as more fully described in §~~50.~~49.9(a) and §~~50.~~49.21 of this title. For Tax-Exempt Bond Developments this period is the date the Volume 1 and 2 are submitted or the date the reservation is issued by the Texas Bond Review Board, whichever is earlier~~that period of time prior to the deadline stated in §50.12 of this title~~, and for Rural Rescue Applications this is that period of time stated in the Rural Rescue Policy.

(9) **Application Round**--The period beginning on the date the Department begins accepting Applications for the State Housing Credit Ceiling and continuing until all available Housing Tax Credits from the State Housing Credit Ceiling (as stipulated by the Department) are allocated, but not extending past the last day of the calendar year. (2306.6702)

(10) **Application Submission Procedures Manual**--The manual produced and amended from time to time by the Department which sets forth procedures, forms, and guidelines for the filing of Pre-Applications and Applications for Housing Tax Credits.

(11) **Area~~--~~**

(A)The geographic area contained within the boundaries of:

(i) An incorporated place or

(ii) Census Designated Place (CDP) as ~~defined~~ established by the U.S. Census Bureau for the most recent Decennial Census.

(B) For Developments located outside the boundaries of an incorporated place or CDP, ~~place shall use the Area definition of the closest place.~~the Development shall take up the Area characteristics of the incorporated place or CDP whose boundary is nearest to the Development site.

(12) **Area Median Gross Income (AMGI)**--Area median gross household income, as determined for all purposes under and in accordance with the requirements of the Code, §42.

(13) **At-Risk Development**--a Development that: (2306.6702)

(A) has received the benefit of a subsidy in the form of a below-market interest rate loan, interest rate reduction, rental subsidy, Section 8 housing assistance payment, rental supplement payment, rental assistance payment, or equity incentive under at least one of the following federal laws, as applicable:

(i) Sections 221(d)(3) and (5), National Housing Act (12 U.S.C. Section 17151);

(ii) Section 236, National Housing Act (12 U.S.C. Section 1715z-1);

(iii) Section 202, Housing Act of 1959 (12 U.S.C. Section 1701q);

(iv) Section 101, Housing and Urban Development Act of 1965 (12 U.S.C. Section 1701s);

(v) the Section 8 Additional Assistance Program for housing ~~d~~Developments with HUD-Insured and HUD-Held Mortgages administered by the United States Department of Housing and Urban Development;

(vi) the Section 8 Housing Assistance Program for the Disposition of HUD-Owned Projects administered by the United States Department of Housing and Urban Development;

(vii) Sections 514, 515, and 516, Housing Act of 1949 (42 U.S.C. Sections 1484, 1485, and 1486); or~~and~~

(viii) Section 42, of the Internal Revenue Code of 1986 (26 U.S.C. Section 42), and

(B) is subject to the following conditions:

(i) the stipulation to maintain affordability in the contract granting the subsidy is nearing expiration (expiration will occur within two calendar years of July 31 of the year the Application is submitted); or

(ii) the federally insured mortgage on the Development is eligible for prepayment or is nearing the end of its mortgage term (the term will end within two calendar years of July 31 of the year the Application is submitted).

(C) An Application for a Development that includes the demolition of the existing Units which have received the financial benefit described in subparagraph (A) of this paragraph will not qualify as an At-Risk Development unless the redevelopment will include the same site.

(D) Developments must be at risk of losing all affordability from all of the financial benefits available on the Development described in subparagraph (A) of this paragraph on the site. However, Developments that have an opportunity to retain or renew any of the financial benefit described in subparagraph (A) of this paragraph must retain or renew all possible financial benefit to qualify as an At-Risk Development.

(E) Nearing expiration on a requirement to maintain affordability includes Developments eligible to request a qualified contract under Section 42 of the Code. Evidence must be provided in the form of a copy of the recorded LURA, the first years IRS Forms 8609 for all buildings showing Part II completed and, if applicable, documentation from the original application regarding the right of first refusal.

(14) **Bedroom**--A portion of a Unit ~~set aside for sleeping~~ which is no less than 100 square feet; has no width or length less than 8 feet; has at least one window that provides exterior access; and has at least one closet that is not less than 2 feet deep and 3 feet wide and high enough to accommodate 5 feet of hanging space. A den, study or other similar space that could reasonably function as a bedroom and meets this definition is considered a bedroom.

(15) **Board**--The governing Board of the Department. (2306.004)

(16) **Carryover Allocation**--An allocation of current year tax credit authority by the Department pursuant to the provisions of the Code, §42(h)(1)(C) and Treasury Regulations, §1.42-6.

(17) **Carryover Allocation Document**--A document issued by the Department, and executed by the Development Owner, pursuant to §~~50.~~49.14 of this title.

(18) **Carryover Allocation Procedures Manual**--The manual produced and amended from time to time by the Department which sets forth procedures, forms, and guidelines for filing Carryover Allocation requests.

(19) **Code**--The Internal Revenue Code of 1986, as amended from time to time, together with any applicable regulations, rules, rulings, revenue procedures, information statements or other official pronouncements issued thereunder by the United States Department of the Treasury or the Internal Revenue Service.

(20) **Colonia**--A geographic Area located in a county some part of which is within 150 miles of the international border of this state and that:

(A) has a majority population composed of individuals and families of low-income and very low-income, based on the federal Office of Management and Budget poverty index, and meets the qualifications of an economically distressed Area under §17.921, Water Code; or

(B) has the physical and economic characteristics of a colonia, as determined by the Texas Water Development Board.

(21) **Commitment Notice**--A notice issued by the Department to a Development Owner pursuant to §~~50.~~49.13 of this title and also referred to as the "commitment."

(22) **Community Revitalization Plan--**A published document under any name, approved and adopted by the local governing body by ordinance or resolution, that targets specific geographic areas for revitalization and development of ~~low-income~~ residential d~~D~~evelopments ~~(serving residents at or below 60% of the area median income)~~.

(23) **Competitive Housing Tax Credits—**Tax credits available from the State Housing Credit Ceiling.

(24~~3~~) **Compliance Period**--With respect to a building, the period of 15 taxable years, beginning with the first taxable year of the Credit Period pursuant to the Code, §42(i)(1).

(25~~4~~) **Control**--(including the terms "Controlling," "Controlled by", and/or "under common Control with") the possession, directly or indirectly, of the power to direct or cause the direction of the management and policies of any Person, whether through the ownership of voting securities, by contract or otherwise, including specifically ownership of more than 50% of the General Partner interest in a limited partnership, or designation as a managing General Partner of a limited liability company.

(26~~5~~) **Cost Certification Procedures Manual**--The manual produced, and amended from time to time, by the Department which sets forth procedures, forms, and guidelines for filing requests for IRS Form(s) 8609 for Developments placed in service under the Housing Tax Credit Program.

(27~~6~~) **Credit Period**--With respect to a building within a Development, the period of ten taxable years beginning with the taxable year the building is placed in service or, at the election of the Development Owner, the succeeding taxable year, as more fully defined in the Code, §42(f)(1).

(~~27~~28) **Department**--The Texas Department of Housing and Community Affairs, an agency of the State of Texas, established by Chapter 2306, Texas Government Code, including Department employees and/or the Board. (2306.004)

(29~~8~~) **Determination Notice**--A notice issued by the Department to the Development Owner of a Tax-Exempt Bond Development which states that the Development may be eligible to claim Housing Tax Credits without receiving an allocation of Housing Tax Credits from the State Housing Credit Ceiling because it satisfies the requirements of this QAP; sets forth conditions which must be met by the Development before the Department will issue the IRS Form(s) 8609 to the Development Owner; and specifies the Department's determination as to the amount of tax credits necessary for the financial feasibility of the Development and its viability as a rent restricted Development throughout the affordability period. (42(m)(1)(D))

(30~~29~~) **Developer**--Any Person entering into a contract with the Development Owner to provide development services with respect to the Development and receiving a fee for such services (which fee cannot the limits identified in §49.9(d)(6)(B) of this title~~exceed 15% of the Eligible Basis~~) and any other Person receiving any portion of such fee, whether by subcontract or otherwise.

(31~~0~~) **Development**--A proposed qualified and/ or approved low-income housing project, as defined by the Code, §42(g), for New Construction, Reconstruction, or Rehabilitation, that consists of one or more buildings containing multiple Units, and that, if the Development shall consist of multiple buildings, is financed under a common plan and is owned by the same Person for federal tax purposes, and the buildings of which are either:

(A) located on a single site or contiguous site; or

(B) located on scattered sites and contain only rent-restricted units. (2306.6702)

(32~~1~~) **Development Consultant**--Any Person (with or without ownership interest in the Development) who provides professional services relating to the filing of an Application, Carryover Allocation Document, and/or cost certification documents.

(33~~2~~) **Development Owner**--Any Person, General Partner, or Affiliate of a Person who owns or proposes a Development or expects to acquire Control of a Development under a purchase contract approved by the Department. (2306.6702)

(34) **Development Site**—The area, or if scattered site areas, for which the Development is proposed to be located and is to be under control pursuant to §49.9(h)(7)(A) of this title.

(35~~3~~) **Development Team**--All Persons or Affiliates thereof that play a role in the D~~d~~evelopment, construction, Rehabilitation, management and/or continuing operation of the subject Property, which will include any Development Consultant and Guarantor.

(36~~4~~) **Economically Distressed Area**--Consistent with §17.921 of Texas Water Code, an Area in which:

(A) water supply or sewer services are inadequate to meet minimal needs of residential users as defined by Texas Water Development Board rules;

(B) financial resources are inadequate to provide water supply or sewer services that will satisfy those needs; and

(C) an established residential subdivision was located on June 1, 1989, as determined by the Texas Water Development Board.

(37~~5~~) **Eligible Basis**--With respect to a building within a Development, the building's Eligible Basis as defined in the Code, §42(d).

(38~~6~~) **Executive Award and Review Advisory Committee ("The Committee")**--A Departmental committee that will develop funding priorities and make funding and allocation recommendations to the Board based upon the evaluation of an Application in accordance with the housing priorities as set forth in Chapter 2306 of the Texas Government Code, and as set forth herein, and the ability of an Applicant to meet those priorities. (2306.1112)

(39) **Existing Residential Development**—Any Development Site which contains 4 or more existing residential Units at the time the Volume I is submitted to the Department.

(~~34~~40~~7~~) **Extended Housing Commitment**--An agreement between the Department, the Development Owner and all successors in interest to the Development Owner concerning the extended housing use of buildings within the Development throughout the extended use period as provided in the Code, §42(h)(6). The Extended Housing Commitment with respect to a Development is expressed in the LURA applicable to the Development.

(41~~38~~) **General Contractor**--One who contracts for the construction or Rehabilitation of an entire Development, rather than a portion of the work. The General Contractor hires subcontractors, such as plumbing contractors, electrical contractors, etc., coordinates all work, and is responsible for payment to the subcontractors. This party may also be referred to as the "contractor."

(42~~39~~) **General Partner**--That partner, or collective of partners, identified as the general partner of the partnership that is the Development Owner and that has general liability for the partnership. In addition, unless the context shall clearly indicate the contrary, if the Development Owner in question is a limited liability company, the term "General Partner" shall also mean the managing member or other party with management responsibility for the limited liability company.

(43~~0~~) **Governmental Entity**--Includes federal or state agencies, departments, boards, bureaus, commissions, authorities, and political subdivisions, special districts and other similar entities.

(44~~1~~) **Governmental Instrumentality**--A legal entity such as a housing authority of a city or county, a housing finance corporation, or a municipal utility, which is created by a local political subdivision under statutory authority and which instrumentality is authorized to transact business for the political subdivision.

(45~~2~~) **Guarantor**--Means any Person that provides, or is anticipated to provide, a guaranty for the equity or debt financing for the Development.

(46~~3~~) **Historically Underutilized Businesses (HUB)**--Any entity defined as a historically underutilized business with its principal place of business in the State of Texas in accordance with Chapter 2161, Texas Government Code.

(47~~4~~) **Housing Credit Agency**--A Governmental Entity charged with the responsibility of allocating Housing Tax Credits pursuant to the Code, §42. For the purposes of this title, the Department is the sole "Housing Credit Agency" of the State of Texas.

(48~~5~~) **Housing Credit Allocation**--An allocation by the Department to a Development Owner for a specific Application of Housing Tax Credits in accordance with the provisions of this title.

(49~~6~~) **Housing Credit Allocation Amount**--With respect to a Development or a building within a Development, that amount the Department determines to be necessary for the financial feasibility of the Development and its viability as a Development throughout the affordability period and which it allocates to the Development.

(50~~47~~) **Housing Tax Credit ("tax credits")**--A tax credit allocated, or for which a Development may qualify, under the Housing Tax Credit Program, pursuant to the Code, §42. (2306.6702)

(51~~48~~) **HUD**--The United States Department of Housing and Urban Development, or its successor.

(52~~49~~) **Ineligible Building Types**--Those Developments which are ineligible, pursuant to this QAP, for funding under the Housing Tax Credit Program, as follows:

(A) Hospitals, nursing homes, trailer parks, dormitories (or other buildings that will be predominantly occupied by students) or other facilities which are usually classified as transient housing (other than certain specific types of transitional housing for the homeless and single room occupancy units, as provided in the Code, §42(i)(3)(B)(iii) and (iv)) are not eligible. However, structures formerly used as hospitals, nursing homes or dormitories are eligible for Housing Tax Credits if the Development involves the conversion of the building to a non-transient multifamily residential ~~d~~Development. Refer to IRS Revenue Ruling 98-47 for clarification of assisted living.

(B) Any Qualified Elderly Development or age restricted buildings in Intergenerational Housing Developments of two stories or more that does not include elevator service for any Units or living space above the first floor.

(C) Any Qualified Elderly Development or age restricted buildings in Intergenerational Housing Developments with any Units having more than two bedrooms.

(D) Any Development with building(s) with four or more stories that does not include an elevator.

(E) Any Development proposing any New Construction (excluding New Construction of non-residential buildings), other than a Development (New Construction, Reconstruction, or Rehabilitation) composed entirely of single-family dwellings, having more than 5% of the Units in the Development with four or more bedrooms. An Application may reflect a total of Units in the Development with four or more bedrooms greater than 5% to the extent that the increase is only to reach the next highest number divisible by four.

(~~F~~E) Any Development that violates the Integrated Housing Policy of the Department, §1.15 of this title.

(F~~G~~) Any Development located in an Urban/Exurban Area involving any New Construction (excluding New Construction of non-residential buildings) of additional Units (other than a Qualified Elderly Development, a Development composed entirely of single family dwellings, and certain specific types of transitional housing for the homeless and single room occupancy units, as provided in the Code, §42(i)(3)(B)(iii) and (iv)) in which any of the designs in clauses (i) - (iii) of this subparagraph are proposed. ~~For purposes of this limitation, a den, study or other similar space that could reasonably function as a bedroom will be considered a bedroom.~~ For Applications involving a combination of single family detached dwellings and multifamily dwellings, the percentages in this subparagraph do not apply to the single family detached dwellings. For Intergenerational Housing Applications, the percentages in this subparagraph do not apply to the buildings that are restricted to the age requirements of a Qualified Elderly Development. An Application may reflect a total of Units for a given B~~b~~edroom size greater than the percentages stated below to the extent that the increase is only to reach the next highest number divisible by four.

(i) more than 30% of the total Units are one ~~b~~Bedroom Units; or

(ii) more than 55% of the total Units are two B~~b~~edroom Units; or

(iii) more than 40% of the total Units are three ~~b~~Bedroom Units~~.~~ ; or

(G~~H~~) Any Development that includes age restricted units that are not consistent with the Intergenerational Housing definition and policy or the definition of a Qualified Elderly Development.

(53~~0~~) **Intergenerational Housing**--Housing that includes specific units that are restricted to the age requirements of a Qualified Elderly Development and specific units that are not age restricted in the same Development that:

(A) have separate and specific buildings exclusively for the age restricted units

(B) have separate and specific leasing offices and leasing personnel exclusively for the age restricted units

(C) have separate and specific entrances, and other appropriate security measures for the age restricted units

(D) provide shared social service programs that encourage intergenerational activities but also provide separate amenities for each age group

(E) share the same Development site

(F) are developed and financed under a common plan and owned by the same Person for federal tax purposes; and

(G) meet the requirements of the federal Fair Housing Act.

(54~~1~~) **IRS**--The Internal Revenue Service, or its successor.

(55~~2~~) **Land Use Restriction Agreement (LURA)**--An agreement between the Department and the Development Owner which is binding upon the Development Owner's successors in interest, that encumbers the Development with respect to the requirements of this chapter, Chapter 2306, Texas Government Code, and the requirements of the Code, §42. (2306.6702)

(56~~3~~) **Local Political Subdivision**--A county or municipality (city) in Texas. For purposes of §~~50.~~49.9(i)(5) of this title, a local political subdivision may act through a government instrumentality such as a housing authority, housing finance corporation, or municipal utility.

(57~~4~~) **Material Noncompliance**--As defined in §60.1 of this title.

(58~~5~~) **Minority Owned Business**--A business entity at least 51% of which is owned by members of a minority group or, in the case of a corporation, at least 51% of the shares of which are owned by members of a minority group, and that is managed and Controlled by members of a minority group in its daily operations. Minority group includes women, African Americans, American Indians, Asian Americans, and Mexican Americans and other Americans of Hispanic origin. (2306.6734)

(59~~6~~) **New Construction--**Any Development or portion of the Development that does not meet~~ing~~ the definition of Rehabilitation or Reconstruction.

(60~~57~~) **ORCA**--Office of Rural Community Affairs, as established by Chapter 487 of Texas Government Code. (2306.6702)

(61~~58~~) **Person**--Means, without limitation, any natural person, corporation, partnership, limited partnership, joint venture, limited liability company, trust, estate, association, cooperative, government, political subdivision, agency or instrumentality or other organization or entity of any nature whatsoever and shall include any group of Persons acting in concert toward a common goal, including the individual members of the group.

(62~~59~~) **Persons with Disabilities**--A person who:

(A) has a physical, mental or emotional impairment that:

(i) is expected to be of a long, continued and indefinite duration,

(ii) substantially impedes his or her ability to live independently, and

(iii) is of such a nature that the disability could be improved by more suitable housing conditions,

(B) has a developmental disability, as defined in the Developmental Disabilities Assistance and Bill of Rights Act (42 U.S.C. Section 15002), or

(C) has a disability, as defined in 24 CFR §5.403.

(63~~0~~) **Persons with Special Needs--**Persons with alcohol and/or drug addictions, Colonia residents, Persons with Disabilities, victims of domestic violence, persons with HIV/AIDS, homeless populations and migrant farm workers.

(6~~4~~1) **Pre-Application**--A preliminary application, in a form prescribed by the Department, filed with the Department by an Applicant prior to submission of the Application, including any required exhibits or other supporting material, as more fully described in ~~§50.8 and §50.21 of~~ this title. (2306.6704)

(6~~5~~2) **Pre-Application Acceptance Period**--That period of time during which Competitive Housing Tax Credit Pre-Applications for a Housing Credit Allocation from the State Housing Credit Ceiling may be submitted to the Department.

(6~~6~~3) **Principal**--the term Principal is defined as Persons that will exercise Control over a partnership, corporation, limited liability company, trust, or any other private entity. In the case of:

(A) partnerships, Principals include all General Partners, Special Limited Partners and Principals with ownership interest;

(B) corporations, Principals include any officer authorized by the board of directors to act on behalf of the corporation, including the president, vice president, secretary, treasurer and all other executive officers, and each stock holder having a ten percent or more interest in the corporation; and

(C) limited liability companies, Principals include all managing members, members having a ten percent or more interest in the limited liability company or any officer authorized to act on behalf of the limited liability company.

(6~~7~~4) **Property**--The real estate and all improvements thereon which are the subject of the Application (including all items of personal property affixed or related thereto), whether currently existing or proposed to be built thereon in connection with the Application.

(6~~8~~5) **Qualified Allocation Plan (QAP)**--

(A) As defined in §42(m)(1)(B): Any plan which sets forth selection criteria to be used to determine housing priorities of the housing credit agency which are appropriate to local conditions; which also gives preference in allocating housing credit dollar amounts among selected projects to projects serving the lowest-income tenants, projects obligated to serve qualified tenants for the longest periods, and projects which are located in qualified census tracts and the development of which contributes to a concerted community revitalization plan; and which provides a procedure that the agency (or an agent or other private contractor of such agency) will follow in monitoring for noncompliance with the provisions of §42 and in notifying the Internal Revenue Service of such noncompliance which such agency becomes aware of and in monitoring for noncompliance with habitability standards through regular site visits.

(B) As defined in §2306.6702, Texas Government Code: A plan adopted by the board that provides the threshold, scoring, and underwriting criteria based on housing priorities of the Department that are appropriate to local conditions; provides a procedure for the Department, the Department's agent, or another private contractor of the Department to use in monitoring compliance with the qualified allocation plan and this subchapter; and consistent with §2306.6710(e), gives preference in housing tax credit allocations to Developments that, as compared to the other Developments:

(i) when practicable and feasible based on documented, committed, and available third-party funding sources, serve the lowest-income tenants per housing tax credit; and

(ii) produce for the longest economically feasible period the greatest number of high quality units committed to remaining affordable to any tenants who are income-eligible under the low-income housing tax credit program.

(6~~9~~6) **Qualified Basis**--With respect to a building within a Development, the building's Eligible Basis multiplied by the Applicable Fraction, within the meaning of the Code, §42(c)(1).

(70~~67~~) **Qualified Census Tract**--Any census tract which is so designated by the Secretary of HUD in accordance with the Code, §42(d)(5)(C)(ii).

(~~68~~71) **Qualified Elderly Development**--A Development which meets the requirements of the federal Fair Housing Act and:

(A) is intended for, and solely occupied by, individuals 62 years of age or older; or

(B) is intended and operated for occupancy by at least one individual 55 years of age or older per Unit, where at least 80% of the total housing Units are occupied by at least one individual who is 55 years of age or older; and where the Development Owner publishes and adheres to policies and procedures which demonstrate an intent by the owner and manager to provide housing for individuals 55 years of age or older. (See 42 U.S.C. Section 3607(b)).

(72~~69~~) **Qualified Market Analyst**--A real estate appraiser certified or licensed by the Texas Appraiser Licensing and Certification Board, a real estate consultant, or other professional currently active in the subject property's market area who demonstrates competency, expertise, and the ability to render a high quality written report. The individual's performance, experience, and educational background will provide the general basis for determining competency as a Market Analyst. Competency will be determined by the Department, in its sole discretion. The Qualified Market Analyst must be a Third Party.

(73~~0~~) **Qualified Nonprofit Organization**--An organization that is described in the Code, §501(c)(3) or (4), as these cited provisions may be amended from time to time, that is exempt from federal income taxation under the Code, §501(a), that is not affiliated with or Controlled by a for profit organization, and includes as one of its exempt purposes the fostering of low-income housing within the meaning of the Code, §42(h)(5)(C). A Qualified Nonprofit Organization may select to compete in one or more of the Set-Asides, including, but not limited to, the nonprofit Set-Aside, the At-Risk Development Set-Aside and the TX-USDA-RHS Allocation. (2306.6729)

(74~~1~~) **Qualified Nonprofit Development**--A Development in which a Qualified Nonprofit Organization (directly or through a partnership or wholly-owned subsidiary) holds a controlling interest, materially participates (within the meaning of the Code, §469(h), as it may be amended from time to time) in its development and operation throughout the Compliance Period, and otherwise meets the requirements of the Code, §42(h)(5). (2306.6729)

(75) **Reconstruction**-- The demolition of an Existing Residential Development and the re-construction of the Units on the Development Site. Developments proposing adaptive re-use or proposing to increase the number of Units in the Existing Residential Development are not considered Reconstruction.

(76~~2~~) **Reference Manual**--That certain manual, and any amendments thereto, produced by the Department which sets forth reference material pertaining to the Housing Tax Credit Program.

(77~~3~~) **Rehabilitation--**The improvement or modification of an E~~e~~xisting Residential Development~~structure~~ through alterations, incidental additions or enhancements. Rehabilitation includes repairs necessary to correct the results of deferred maintenance, the replacement of principal fixtures and components, improvements to increase the efficient use of energy, and installation of security devices. Rehabilitation may include demolition~~, reconstruction~~ within the ~~and adding rooms outside the~~ existing walls of a structure to increase or decrease the number of Units or Bedrooms, but does not include demolition or adaptive reuse. ~~adding a housing unit is considered New Construction.~~

(78~~4~~) **Related Party--**As defined, (2306.6702)

(A) The following individuals or entities:

(i) the brothers, sisters, spouse, ancestors, and descendants of a person within the third degree of consanguinity, as determined by Chapter 573, Texas Government Code;

(ii) a person and a corporation, if the person owns more than 50 percent of the outstanding stock of the corporation;

(iii) two or more corporations that are connected through stock ownership with a common parent possessing more than 50 percent of:

(I) the total combined voting power of all classes of stock of each of the corporations that can vote;

(II) the total value of shares of all classes of stock of each of the corporations; or

(III) the total value of shares of all classes of stock of at least one of the corporations, excluding, in computing that voting power or value, stock owned directly by the other corporation;

(iv) a grantor and fiduciary of any trust;

(v) a fiduciary of one trust and a fiduciary of another trust, if the same person is a grantor of both trusts;

(vi) a fiduciary of a trust and a beneficiary of the trust;

(vii) a fiduciary of a trust and a corporation if more than 50 percent of the outstanding stock of the corporation is owned by or for:

(I) the trust; or

(II) a person who is a grantor of the trust;

(viii) a person or organization and an organization that is tax-exempt under the Code, §501(a), and that is controlled by that person or the person's family members or by that organization;

(ix) a corporation and a partnership or joint venture if the same persons own more than:

(I) 50 percent of the outstanding stock of the corporation; and

(II) 50 percent of the capital interest or the profits' interest in the partnership or joint venture;

(x) an S corporation and another S corporation if the same persons own more than 50 percent of the outstanding stock of each corporation;

(xi) an S corporation and a C corporation if the same persons own more than 50 percent of the outstanding stock of each corporation;

(xii) a partnership and a person or organization owning more than 50 percent of the capital interest or the profits' interest in that partnership; or

(xiii) two partnerships, if the same person or organization owns more than 50 percent of the capital interests or profits' interests.

(B) Nothing in this definition is intended to constitute the Department's determination as to what relationship might cause entities to be considered "related" for various purposes under the Code.

(79~~5~~) **Rules**--The Department's Housing Tax Credit Program Qualified Allocation Plan and Rules as presented in this title.

(80~~76~~) **Rural Area**--An area that is located:

(A) outside the boundaries of a primary metropolitan statistical area or a metropolitan statistical area;

(B) within the boundaries of a primary metropolitan statistical area or a metropolitan statistical area, if the statistical area has a population of 20,000 or less and does not share a boundary with an urban area; or

(C) in an ~~a~~Area that is eligible for New Construction funding by TX-USDA-RHS; or

(D) on a specific Development Site eligible for Rehabilitation funding by TX-USDA-RHS as evidenced by an executed TX-USDA-RHS letter indicating TX-USDA-RHS has received a Consent Request, also referred to as a Preliminary Submittal, as described in 7 CFR 3560.406. (2306.6702)

(81~~77~~) **Rural Development**--A Development located within a Rural Area. A Rural Development may not exceed 76 Units if involving any New Construction (excluding New Construction of non-residential buildings) .

(82~~78~~) **Selection Criteria**--Criteria used to determine housing priorities of the State under the Housing Tax Credit Program as specifically defined in §~~50.~~49.9(i) of this title.

(83~~79~~) **Set-Aside**--A reservation of a portion of the available Housing Tax Credits under the State Housing Credit Ceiling to provide financial support for specific types of housing or geographic locations or serve specific types of Applications or Applicants as permitted by the Qualified Allocation Plan on a priority basis. (2306.6702)

(84~~0~~) **State Housing Credit Ceiling**--The limitation on the aggregate amount of Housing Credit Allocations that may be made by the Department during any calendar year, as determined from time to time by the Department in accordance with the Code, §42(h)(3)(C).

(85~~1~~) **Student Eligibility**--Per the Code, §42(i)(3)(D), A unit shall not fail to be treated as a low-income unit merely because it is occupied:

(A) by an individual who is:

(i) a student and receiving assistance under Title IV of the Social Security Act (42 U.S.C. §§601 et seq.), or

(ii) enrolled in a job training program receiving assistance under the Job Training Partnership Act (29 USCS §§1501 et seq., generally; for full classification, consult USCS Tables volumes) or under other similar Federal, State, or local laws, or

(B) entirely by full-time students if such students are:

(i) single parents and their children and such parents and children are not dependents (as defined in section 152) of another individual, or

(ii) married and file a joint return.

(86~~2~~) **Tax-Exempt Bond Development**--A Development requesting or having been awarded housing tax credits and which receives a portion of its financing from the proceeds of tax-exempt bonds which are subject to the state volume cap as described in the Code, §42(h)(4), such that the Development does not receive an allocation of tax credit authority from the State Housing Credit Ceiling.

(87~~3~~) **Third Party**--A Third Party is a Person who is not an:

(A) Applicant, General Partner, Developer, or General Contractor, or

(B) an Affiliate or a Related Party to the Applicant, General Partner, Developer or General Contractor, or

(C) Person(s) receiving any portion of the contractor fee or developer fee.

(88~~4~~) **Threshold Criteria**--Criteria used to determine whether the Development satisfies the minimum level of acceptability for consideration as specifically defined in §~~50.~~49.9(h) of this title. (2306.6702)

(89~~5~~) **Total Housing Development Cost**--The total of all costs incurred or to be incurred by the Development Owner in acquiring, constructing, rehabilitating and financing a Development, as determined by the Department based on the information contained in the Application. Such costs include reserves and any expenses attributable to commercial areas. Costs associated with the sale or use of Housing Tax Credits to raise equity capital shall also be included in the Total Housing Development Cost. Such costs include but are not limited to syndication and partnership organization costs and fees, filing fees, broker commissions, related attorney and accounting fees, appraisal, engineering, and the environmental site assessment.

(90~~86~~) **TX-USDA-RHS**--The Rural Housing Services (RHS) of the United States Department of Agriculture (USDA) serving the State of Texas (formerly known as TxFmHA) or its successor.

(91~~87~~) **Unit**--Any residential rental unit ~~in a Development~~ consisting of an accommodation including a single room used as an accommodation on a non-transient basis, that contains complete physical facilities and fixtures for living, sleeping, eating, cooking (such as a microwave), and sanitation. (2306.6702) For purposes of completing the Rent Schedule for loft or studio type Units (which still must meet the definition of Bedroom), a Unit with 649 square feet or less is considered an efficiency ~~u~~Unit, a Unit with 650 to 899 square feet is considered not more than a one-bedroom Unit, a Unit with 900 to 999 square feet is considered not more than a two-bedroom Unit, a Unit with 1000 to 1199 square feet is considered not more than a three-bedroom Unit, and a Unit with 1200 square feet or more is considered a four bedroom U~~u~~nit.

(92~~88~~) **Urban/Exurban Area**-- Non-Rural Areas located within the boundaries of a metropolitan Area as designated by the US Office of Management and Budget as of November 1, ~~2005~~2006, or for Tax-Exempt Bond Developments or other Applications not applying for Housing Tax Credits, but applying only under other Multifamily Programs (HOME, Housing Trust Fund, etc.), the date Volume III is submitted to the Department.

§~~50.~~49.4. State Housing Credit Ceiling.

The Department shall determine the State Housing Credit Ceiling for each calendar year as provided in the Code, §42(h)(3)(C), using such information and guidance as may be made available by the Internal Revenue Service. The Department shall publish each such determination in the *Texas Register* within 30 days after the receipt of such information as is required for that purpose by the Internal Revenue Service. The aggregate amount of commitments of Housing Credit Allocations made by the Department during any calendar year shall not exceed the State Housing Credit Ceiling for such year as provided in the Code, §42. As permitted by §42(h)(4), Housing Credit Allocations made to Tax-Exempt Bond Developments are not included in the State Housing Credit Ceiling.

§~~50.~~49.5. Ineligibility; Disqualification and Debarment; Certain Applicant and Development Standards; Representation by Former Board Member or Other Person; Due Diligence, Sworn Affidavit; Appeals and Administrative Deficiencies for Ineligibility, Disqualification and Debarment.

(a) **Ineligibility.** An Application is ineligible if:

(1) The Applicant, Development Owner, Developer or Guarantor has been or is barred, suspended, or terminated from procurement in a state or federal program or listed in the List of Parties Excluded from Federal Procurement or Non-Procurement Programs; or, (2306.6721(c)(2))

(2) The Applicant, Development Owner, Developer or Guarantor has been convicted of a state or federal crime involving fraud, bribery, theft, misrepresentation of material fact, misappropriation of funds, or other similar criminal offenses within fifteen years preceding the Application deadline; or,

(3) The Applicant, Development Owner, Developer or Guarantor at the time of Application is: subject to an enforcement or disciplinary action under state or federal securities law or by the NASD; is subject to a federal tax lien; or is the subject of an enforcement proceeding with any Governmental Entity; or

(4) The Applicant, Development Owner, Developer or Guarantor with any past due audits has not submitted those past due audits to the Department in a satisfactory format. A Person is not eligible to receive a commitment of Housing Tax Credits from the Department if any audit finding or questioned or disallowed cost is unresolved as of June 1 of each year, or for Tax-Exempt Bond Developments or other Applications not applying for Housing Tax Credits, but applying only under other Multifamily Programs (HOME, Housing Trust Fund, etc.) no later than 30 days after Volume III of the application is submitted; or

(5) (2306.6703(a)(1)) At the time of Application or at any time during the two-year period preceding the date the Application Round begins (or for Tax-Exempt Bond Developments any time during the two-year period preceding the date the Application is submitted to the Department), the Applicant or a Related Party is or has been:

(A) a member of the Board; or

(B) the Executive Director, a Deputy Executive Director, the Director of Multifamily Finance Production, the Director of Portfolio Management and Compliance, the Director of Real Estate Analysis, or a manager over housing tax credits employed by the Department.

(6) (2306.6703(a)(2)) The Applicant proposes to replace in less than 15 years any private activity bond financing of the Development described by the Application, unless:

(A) the Applicant proposes to maintain for a period of 30 years or more 100 percent of the Development Units supported by Housing Tax Credits as rent-restricted and exclusively for occupancy by individuals and families earning not more than 50 percent of the Area Median Gross Income, adjusted for family size; and

(B) at least one-third of all the units in the Development are public housing units or Section 8 Development-based units; or,

(7) The Development is located in a municipality or in a valid Extra Territorial Jurisdiction (ETJ) of a municipality, or if located completely outside a municipality, a county, that has more than twice the state

average of units per capita supported by Housing Tax Credits or private activity bonds at the time the Application Round begins (or for Tax-Exempt Bond Developments at the time the reservation is made by the Texas Bond Review Board) unless the Applicant: (2306.6703(a)(4))

(A) has obtained prior approval of the Development from the governing body of the appropriate municipality or county containing the Development; and

(B) has included in the Application a written statement of support from that governing body referencing this rule and authorizing an allocation of housing tax credits for the Development;

(C) For purposes of this paragraph, evidence under subparagraphs (A) and (B) of this paragraph must be received by the Department no later than ~~April 1,~~ April 2, ~~2006~~2007 (or for Tax-Exempt Bond Developments no later than 14 days before the Board meeting where the credits will be considered) and may not be more than one year old from the date the Volume 1 is submitted to the Department; or

(8) The Applicant proposes to construct a new Development proposing Reconstruction, New Construction and/or Rehabilitation that is located one linear mile (measured by a straight line on a map) or less from a Development that: (2306.6703(a)(3))

(A) serves the same type of household as the new Development, regardless of whether the Developments serve families, elderly individuals, or another type of household (Intergenerational Housing is not a type of household as it relates to this restriction);

(B) has received an allocation of Housing Tax Credits (including Tax-Exempt Bond Developments) for any New Construction at any time during the three-year period preceding the date the application round begins (or for Tax-Exempt Bond Developments the three-year period preceding the date the Volume I is submitted); and

(C) has not been withdrawn or terminated from the Housing Tax Credit Program.

(D) An Application is not ineligible under this paragraph if:

(i) the Development is using federal HOPE VI funds received through the United States Department of Housing and Urban Development; locally approved funds received from a public improvement district or a tax increment financing district; funds provided to the state under the Cranston-Gonzalez National Affordable Housing Act (42 U.S.C. Section 12701 et seq.); or funds provided to the state and participating jurisdictions under the Housing and Community Development Act of 1974 (42 U.S.C. Section 5301 et seq.); or

(ii) the Development is located in a county with a population of less than one million; or

(iii) the Development is located outside of a metropolitan statistical area; or

(iv) the local government where the Development is to be located has by vote specifically allowed the construction of a new Development located within one linear mile or less from a Development described under subparagraphs (A) - (C) of this paragraph. For purposes of this clause, evidence of the local government vote or evidence required by subparagraph (D) of this paragraph must be received by the Department no later than ~~April 1,~~ April 2, ~~2006~~2007 (or for Tax-Exempt Bond Developments no later than 14 days before the Board meeting where the credits will be committed) and may not be more than one year old.

(E) In determining the age of an existing D~~d~~evelopment as it relates to the application of the three-year period, the D~~d~~evelopment will be considered from the date the Board took action on approving the allocation of tax credits. In dealing with ties between two or more Developments as it relates to this rule, refer to §~~50.~~49.9(j).

(9) A submitted Application has an entire Volume of the application missing; has excessive omissions of documentation from the Threshold Criteria or Uniform Application documentation; or is so unclear, disjointed or incomplete that a thorough review can not reasonably be performed by the Department, as determined by the Department. If an Application is determined ineligible pursuant to this section, the Application will be terminated without being processed as an Administrative Deficiency. To the extent that a review was able to be performed, specific reasons for the Department's determination of ineligibly will be included in the Termination letter to the Applicant.~~.~~

(b) **Disqualification and Debarment.** The Department will disqualify an Application, and/or debar a Person (see §2306.6721, Texas Government Code), if it is determined by the Department that any issues identified in the paragraphs of this subsection exist. The Department may debar a Person for one year from the date of debarment, or until the violation causing the debarment has been remedied, whichever term is longer, if the Department determines the facts warrant it~~.~~. Causes for disqualification and debarment include: (2306.6721)

(1) The provision of fraudulent information, knowingly falsified documentation, or other intentional or negligent material misrepresentation in the Application or other information submitted to the Department at any stage of the evaluation or approval process; or,

(2) The Applicant, Development Owner, Developer or Guarantor or anyone that has ownership interest in the Development Owner, Developer or Guarantor that is active in the ownership or Control of one or more other rent restricted rental housing properties in the state of Texas administered by the Department is in Material Noncompliance with the LURA (or any other document containing an Extended Housing Commitment) or the

program rules in effect for such property as further described in §60.1 of this title on May 1, ~~2006~~2007 or for Tax-Exempt Bond Developments or other Applications not applying for Housing Tax Credits, but applying only under other Multifamily Programs (HOME, Housing Trust Fund, etc.) no later than 30 days after Volume III of the application is submitted; (2306.6721(c)(3)) or

(3) The Applicant, Development Owner, Developer or Guarantor or anyone that has ownership interest in the Development Owner, Developer or Guarantor that is active in the ownership or Control of one or more other rent restricted rental housing properties outside of the state of Texas has an incidence of Material Noncompliance with the LURA or the program rules in effect for such tax credit property as further described in §60.1 of this title on May 1, ~~2006~~2007 or for Tax-Exempt Bond Developments or other Applications not applying for Housing Tax Credits, but applying only under other Multifamily Programs (HOME, Housing Trust Fund, etc.) no later than 30 days after Volume III of the application is submitted; or

(4) The Applicant, Development Owner, Developer, or any Guarantor, or any Affiliate of such entity has been a Principal of any entity that failed to make all loan payments to the Department in accordance with the terms of the loan, as amended, or was otherwise in default with any provisions of any loans from the Department.

(5) The Applicant or the Development Owner that is active in the ownership or Control of one or more tax credit properties in the state of Texas has failed to pay in full any fees within 30 days of when they were billed by the Department, as further described in §~~50.~~49.20 of this title; or

(6) the Applicant or a Related Party and any Person who is active in the construction, Rehabilitation, ownership, or Control of the proposed Development, including a General Partner or contractor, and a Principal or Affiliate of a General Partner or contractor, or an individual employed as a lobbyist by the Applicant or a Related Party, communicates with any Board member during the period of time beginning on the date an Application is filed and ending on the date the Board makes a final decision with respect to any approval of that Application, unless the communication takes place at any board meeting or public hearing held with respect to that Application. Communication with Department staff must be in accordance with §~~50.~~49.9(b) of this title; violation of the communication restrictions of §~~50.~~49.9(b) is also a basis for disqualification and/or debarment. (2306.1113)

(7) It is determined by the Department's General Counsel that there is evidence that establishes probable cause to believe that an Applicant, Development Owner, Developer, or any of their employees or agents has violated a state revolving door or other standard of conduct or conflict of interest statute, including §2306.6733, Texas Government Code, or a section of Chapter 572, Texas Government Code, in making, advancing, or supporting the Application.

(8) Applicants may be ineligible as further described in §~~50.~~49.17(d)(8) of this title.

(9) ~~The Applicant or a Related Party has failed to comply in the past with, or materially violates, any condition imposed by the Department in connection with the allocation of Housing Tax Credits, or has repeatedly violated a LURA. (2306.6721(b), (c)(1) and (c)(3).~~The Applicant, Development Owner, Developer, Guarantor, or any Affiliate of such entity whose previous funding contracts or commitments have been partially or fully deobligated due to a failure to meet contractual obligations during the 12 months prior to the submission of the applications.

(10) The Applicant, Development Owner, Developer, Guarantor, or any Affiliate of such entity whose pre-development loan has not been repaid for the Development at the time of commitment or Bond closing.

(c) **Certain Applicant and Development Standards.** Notwithstanding any other provision of this section, the Department may not allocate tax credits to a Development proposed by an Applicant if the Department determines that: (2306.223)

(1) the Development is not necessary to provide needed decent, safe, and sanitary housing at rental prices that individuals or families of low and very low-income or families of moderate income can afford;

(2) the Development Owner undertaking the proposed Development will not supply well-planned and well-designed housing for individuals or families of low and very low-income or families of moderate income;

(3) the Development Owner is not financially responsible;

(4) the Development Owner has contracted, or will contract for the proposed Development with, a Developer that:

(A) is on the Department's debarred list, including any parts of that list that are derived from the debarred list of the United States Department of Housing and Urban Development;

(B) has breached a contract with a public agency and failed to cure that breach; or

(C) misrepresented to a subcontractor the extent to which the Developer has benefited from contracts or financial assistance that has been awarded by a public agency, including the scope of the Developer's participation in contracts with the agency and the amount of financial assistance awarded to the Developer by the agency;

(5) the financing of the housing Development is not a public purpose and will not provide a public benefit; and

(6) the Development will be undertaken outside the authority granted by this chapter to the Department and the Development Owner.

(d) **Representation by Former Board Member or Other Person.** (2306.6733)

(1) A former Board member or a former executive director, deputy executive director, director of multifamily finance production, director of portfolio management and compliance, director of real estate analysis or manager over housing tax credits previously employed by the Department may not:

(A) for compensation, represent an Applicant or one of its Related Parties for an allocation of tax credits before the second anniversary of the date that the Board member's, director's, or manager's service in office or employment with the Department ceased;

(B) represent any Applicant or a Related Party of an Applicant or receive compensation for services rendered on behalf of any Applicant or Related Party regarding the consideration of an Application in which the former board member, director, or manager participated during the period of service in office or employment with the Department, either through personal involvement or because the matter was within the scope of the board member's, director's, or manager's official responsibility; or for compensation, communicate directly with a member of the legislative branch to influence legislation on behalf of an Applicant or Related Party before the second anniversary of the date that the board member's, director's, or manager's service in office or employment with the Department ceased.

(2) A Person commits a criminal offense if the Person violates section 2306.6733. An offense under this section is a Class A misdemeanor.

(e) **Due Diligence, Sworn Affidavit.** In exercising due diligence in considering information of possible ineligibility, possible grounds for disqualification and debarment, Applicant and Development standards, possible improper representation or compensation, or similar matters, the Department may request a sworn affidavit or affidavits from the Applicant, Development Owner, Developer, Guarantor, or other persons addressing the matter. If an affidavit determined to be sufficient by the Department is not received by the Department within seven business days of the date of the request by the Department, the Department may terminate the Application.

(f) **Appeals and Administrative Deficiencies for Ineligibility, Disqualification and Debarment.** An Applicant or Person found ineligible, disqualified, debarred or otherwise terminated under subsections (a) - (e) of this section will be notified in accordance with the Administrative Deficiency process described in §~~50.~~49.9(d)(4) of this title. They may also utilize the appeals process described in §~~50.~~49.17(b) of this title. (2306.6721(d))

§~~50.~~49.6. Site and Development Restrictions: Floodplain; Ineligible Building Types; Scattered Site Limitations; Credit Amount; Limitations on the Size of Developments; Limitations no Rehabilitation Costs; Unacceptable Sites; Appeals and Administrative Deficiencies for Site and Development Restrictions.

(a) **Floodplain.** Any Development proposing New Construction located within the 100 year floodplain as identified by the Federal Emergency Management Agency (FEMA) Flood Insurance Rate Maps must develop the site so that all finished ground floor elevations are at least one foot above the flood plain and parking and drive areas are no lower than six inches below the floodplain, subject to more stringent local requirements. If no FEMA Flood Insurance Rate Maps are available for the proposed Development, flood zone documentation must be provided from the local government with jurisdiction identifying the 100 year floodplain. No buildings or roads that are part of a Development proposing Rehabilitation, with the exception of D~~d~~evelopments with federal funding assistance from HUD or TX USDA-RHS, will be permitted in the 100 year floodplain unless they already meet the requirements established in this subsection for New Construction.

(b) **Ineligible Building Types**. Applications involving Ineligible Building Types as defined in §~~50.~~49.3(52~~49~~) of this title will not be considered for allocation of tax credits.

(c) **Scattered Site Limitations.** Consistent with §~~50.~~49.3(31~~0~~) of this title, a Development must be financed under a common plan, be owned by the same Person for federal tax purposes, and the buildings may be either located on a single site or contiguous site, or be located on scattered sites and contain only rent-restricted units.

(d) **Credit Amount.** The Department shall issue tax credits only in the amount needed for the financial feasibility and viability of a Development throughout the affordability period. The issuance of tax credits or the determination of any allocation amount in no way represents or purports to warrant the feasibility or viability of the Development by the Department, or that the Development will qualify for and be able to claim Housing Tax Credits. The Department will limit the allocation of tax credits to no more than $1.2 million per Development. The Department shall not allocate more than $2 million of tax credits in any given Application Round to any Applicant, Developer, Related Party or Guarantor; Housing Tax Credits approved by the Board during the ~~2006~~2007 calendar year, including commitments from the ~~2006~~2007 Credit Ceiling and forward commitments from the ~~2007~~2008 Credit Ceiling, are applied to the credit cap limitation for the ~~2006~~2007 Application Round. In order to encourage the capacity enhancement of developers in rural areas, the Department will prorate the credit amount allocated in situations where an Application is submitted in the Rural Regional Allocation and the Development has 76 Units or less. The Department will prorate the credits based on the percentage ownership, if there is an ownership interest, or the proportional percentage of the developer fee received, if this applies to a Developer without an ownership interest. To be considered for this provision, a copy of a Joint Venture Agreement and narrative on how this builds the capacity of the inexperienced developers is required. Tax-Exempt Bond Development Applications are not subject to these Housing Tax Credit limitations, and Tax-Exempt Bond Developments will not count towards the total limit on tax credits per Applicant. The limitation does not apply (2306.6711(b)):

(1) to an entity which raises or provides equity for one or more Developments, solely with respect to its actions in raising or providing equity for such Developments (including syndication related activities as agent on behalf of investors);

(2) to the provision by an entity of "qualified commercial financing" within the meaning of the Code (without regard to the 80% limitation thereof);

(3) to a Qualified Nonprofit Organization or other not-for-profit entity, to the extent that the participation in a Development by such organization consists only of the provision of loan funds, grants or social services; and

(4) to a Development Consultant with respect to the provision of consulting services, provided the Development Consultant fee received for such services does not exceed 10% of the fee to be paid to the Developer (or 20% for Qualified Nonprofit Developments), or $150,000, whichever is greater.

(e) **Limitations on the Size of Developments.**

(1) The minimum Development size will be 16 Units if the Development involves Housing Tax Credits. The minimum Development size will be 4 Units if the funding source only involves the Housing Trust Fund or HOME Program.

(2) Rural Developments involving any New Construction (excluding New Construction of non-residential buildings) –will be limited to 76 Units. Rural Developments involving only Rehabilitation do not have a size limitation.

(3) Developments involving any New Construction (excluding New Construction of non-residential buildings) , that are not Tax-Exempt Bond Developments, will be limited to 252 Total Units, wherein the maximum Department administered Units will be limited to 200 Units. Tax-Exempt Bond Developments will be limited to 252 Total Units. These maximum Unit limitations also apply to those Developments which involve a combination of Rehabilitation, Reconstruction, and New Construction. Developments that consist solely of acquisition/Rehabilitation or Rehabilitation only may exceed the maximum Unit restrictions.

(4) For those Developments which are a second phase or are otherwise adjacent to an existing tax credit Development unless such proposed Development is Reconstruction of an Existing Residential Development ~~being constructed~~ to provide replacement of previously existing affordable multifamily units on its site (in a number not to exceed the original units being replaced) or that were originally located within a one mile radius from the proposed Development, the combined Unit total for the Developments may not exceed the maximum allowable Development size, unless the first phase has been completed and has attained Sustaining Occupancy (as defined in §1.31 of this title) for at least six months.

(f) **Limitations on the Location of Developments.** Staff will only recommend, and the Board may only allocate, housing tax credits from the Credit Ceiling to more than one Development from the Credit Ceiling in the same calendar year if the Developments are, or will be, located more than one linear mile apart as determined by the Department. If the Board forward commits credits from the following year's allocation of credits, the Development is considered to be in the calendar year in which the Board votes, not in the year of the Credit Ceiling. This limitation applies only to communities contained within counties with populations exceeding one million (which for calendar year ~~2006~~2007 are Harris, Dallas, Tarrant and Bexar Counties). For purposes of this rule, any two sites not more than one linear mile apart are deemed to be "in a single community." (2306.6711) This restriction does not apply to the allocation of housing tax credits to Developments financed through the Tax-Exempt Bond program, including the Tax-Exempt Bond Developments under review and existing Tax-Exempt Bond Developments in the Department's portfolio. (2306.67021); or,

(g) **Limitations of Development in Certain Census Tracts.** Staff will not recommend and the Board will not allocate housing tax credits for a Competitive Housing Tax Credit or Tax Exempt Bond Development located in a census tract that has more than 30% Housing Tax Credit Units per total households in the census tract as established by the U.S. Census Bureau for the most recent Decennial Census unless the Applicant:

(A) Proposes only Reconstruction or Rehabilitation (excluding New Construction of non-residential buildings); or,

(B) Submits to the Department an approval of the Development referencing this rule in the form of a resolution from the governing body of the appropriate municipality or county containing the Development. For purposes of this paragraph, evidence of the local government approval must be received by the Department no later than April 2, 2007 (or for Tax-Exempt Bond Developments no later than 14 days before the Board meeting where the credits will be committed). These ineligible census tracts are outlined in the 2007 Housing Tax Credit Site Demographic Characteristics Report.

(h) **Limitations on Developments Proposing to Qualify for a 30% increase in Eligible Basis.** Staff will only recommend a 30% increase in Eligible Basis:

(1) If the Development proposing to build in a Hurricane Rita Gulf Opportunity Zone (Rita GO Zone), which was designated as a Difficult to Develop Area as determined by HB4440, is able to be placed in service by December 31, 2008 (or date as revised by the Internal Revenue Service) as certified in the Application; or,

(2) The Development is located in a Qualified Census Tract that has less than 40% Housing Tax Credit Units per households in the tract as established by the U.S. Census Bureau for the most recent Decennial Census. Developments located in a Qualified Census Tract that has in excess of 40% Housing Tax Credit Units per households in the tract are not eligible to qualify for a 30% increase in Eligible Basis, which would otherwise be available for the Development site pursuant to the Code, §42(d)(5)(C), unless the Development is proposing only Reconstruction or Rehabilitation (excluding New Construction of non-residential buildings) . These ineligible Qualified Census Tracts are outlined in the 2007 Housing Tax Credit Site Demographic Characteristics Report.

(i~~g~~) **Rehabilitation Costs.** ~~Rehabilitation~~ Developments involving Rehabilitation must establish that the Rehabilitation will substantially improve the condition of the housing and will involve at least $12,000 per Unit in direct hard costs (including site work, contingency, contractor profit, overhead and general requirements) unless financed with TX-USDA-RHS in which case the minimum is $6,000.

(j~~h~~) **Unacceptable Sites**. Developments will be ineligible if the Development is located on a site that is determined to be unacceptable by the Department.

(j~~i~~) **Appeals and Administrative Deficiencies for Site and Development Restrictions.** An Application or Development found to be in violation under subsections (a) - (h) of this section will be notified in accordance with the Administrative Deficiency process described in §~~50.~~49.9(d)(4) of this title. They may also utilize the appeals process described in §~~50.~~49.17(b) of this title.

§~~50.~~49.7. Regional Allocation Formula; Set-Asides; Redistribution of Credits.

(a) **Regional Allocation Formula.** As required by §2306.111(d), Texas Government Code, the Department uses a regional distribution formula developed by the Department to distribute credits from the State Housing Credit Ceiling to all urban/exurban areas and rural areas. The formula is based on the need for housing assistance, and the availability of housing resources in those urban/exurban areas and rural areas, and the Department uses the information contained in the Department's annual state low income housing plan and other appropriate data to develop the formula. This formula establishes separate targeted tax credit amounts for rural areas and urban/exurban areas within each of the Uniform State Service Regions. Each Uniform State Service Region's targeted tax credit amount will be published on the Department's web site. The regional allocation for rural areas is referred to as the Rural Regional Allocation and the regional allocation for urban/exurban areas is referred to as the Urban/Exurban Regional Allocation. Developments qualifying for the Rural Regional Allocation must meet the Rural Development definition. At least 5% of each region's allocation for each calendar year shall be allocated to Developments which are financed through TX-USDA-RHS, that meet the definition of a Rural Development, do not exceed 76 Units if proposing any New Construction (excluding New Construction of non-residential buildings), and have filed an "Intent to Request ~~2006~~2007 Housing Tax Credits" form by the Pre-Application submission deadline. These Developments will be attributed to the Rural Regional Allocation in each region where they are located. Developments financed through TX-USDA-RHS's 538 Guaranteed Rural Rental Housing Program will not be considered under this set-aside. Commitments of ~~2006~~2007 Housing Tax Credits issued by the Board in ~~2005~~2006 will be applied to each Set-Aside, Rural Regional Allocation, Urban/Exurban Regional Allocation and TX-USDA-RHS Allocation for the ~~2006~~2007 Application Round as appropriate.

(b) **Set-Asides.** An Applicant may elect to compete in as many of the following Set-Asides for which the proposed Development qualifies: (2306.111(d))

(1) At least 10% of the State Housing Credit Ceiling for each calendar year shall be allocated to Qualified Nonprofit Developments which meet the requirements of the Code, §42(h)(5). Qualified Nonprofit Organizations must have the Controlling interest in the Qualified Nonprofit Development applying for this Set-Aside. If the organization's Application is filed on behalf of a limited partnership, the Qualified Nonprofit Organization must be the controlling managing General Partner. If the organization's Application is filed on behalf of a limited liability company, the Qualified Nonprofit Organization must be the controlling Managing Member. Additionally, a Qualified Nonprofit Development submitting an Application in the nonprofit set-aside must have the nonprofit entity or its nonprofit affiliate or subsidiary be the Developer or a co-Developer as evidenced in the development agreement. (2306.6729 and 2306.6706(b))

(2) At least 15% of the allocation to each Uniform State Service Region will be set aside for allocation under the At-Risk Development Set-Aside. Through this Set-Aside, the Department, to the extent possible, shall allocate credits to Applications involving the preservation of Developments designated as At-Risk Developments as defined in §~~50.~~49.3(13) of this title. (2306.6714). To qualify as an At-Risk Development, the Applicant must provide evidence that it either is not eligible to renew, retain or preserve any portion of the financial benefit described in §~~50.~~49.3(13)(A) of this title, or provide evidence that it will renew, retain or preserve the financial benefit described in §~~50.~~49.3(13)(A) of this title; and must have filed an "Intent to Request ~~2006~~2007 Housing Tax Credits" form by the Pre-Application submission deadline.

(c) **Redistribution of Credits.** (2306.111(d)) If any amount of housing tax credits remain after the initial commitment of housing tax credits among the Rural Regional Allocation and Urban/Exurban Regional Allocation within each Uniform State Service Region and among the Set-Asides, the Department may redistribute the credits amongst the different regions and Set-Asides depending on the quality of Applications submitted as evaluated under the factors described in §~~50.~~49.9(d) of this title, the need to most closely achieve regional allocation goals and then the level of demand exhibited in the Uniform State Service Regions during the Allocation Round. However as described in subsection (b)(1) of this section, no more than 90% of the State's Housing Credit Ceiling for the calendar year may go to Developments which are not Qualified Nonprofit Developments. If credits will be transferred from a Uniform State Service Region which does not have enough qualified Applications to meet its regional credit distribution amount, then those credits will be apportioned to the other Uniform State Service Regions.

§~~50.~~49.8. Pre-Applications for Competitive Housing Tax Credits: Submission; Communication with Departments Staff; Evaluation Process; Threshold Criteria and Review; Results. (2306.6704)

(a) **Pre-Application Submission**. Any Applicant requesting a Housing Credit Allocation may submit a Pre-Application to the Department during the Pre-Application Acceptance Period along with the required Pre-Application Fee as described in §~~50.~~49.20 of this title. Only one Pre-Application may be submitted by an Applicant for each site under the State Housing Credit Ceiling. The Pre-Application submission is a voluntary process. While the Pre-Application Acceptance Period is open, Applicants may withdraw their Pre-Application and subsequently file a new Pre-Application utilizing the original Pre-Application Fee that was paid as long as no evaluation was performed by the Department. The Department is authorized to request the Applicant to provide additional information it deems relevant to clarify information contained in the Pre-Application or to submit documentation for items it considers to be Administrative Deficiencies. The rejection of a Pre-Application shall not preclude an Applicant from submitting an Application with respect to a particular Development or site at the appropriate time.

(b) **Communication with the Department.** Applicants that submit a Pre-Application are restricted from communication with Department staff as provided in §~~50.~~49.9(b) of this title. (2306.1113)

(c) **Pre-Application Evaluation Process.** Eligible Pre-Applications will be evaluated for Pre-Application Threshold Criteria. ~~A TX-USDA-RHS 515 Development (only for Rehabilitation) will receive the Pre-Application points further outlined in §50.9(i) of this title upon submission to the Department of an executed TX-USDA-RHS letter indication TX-USDA-RHS has received a Consent Request, also referred to as a preliminary Submittal, as described in 7 CFR 3560.406.~~ Applications ~~involving New Construction~~ that are associated with a TX-USDA-RHS Development are not exempt from Pre-Application and are eligible to compete for the Pre-Application points further outlined in §~~50.~~49.9(i) of this title. ~~An Application that has not received confirmation from the state office of RHS of its financing from TX-USDA-RHS may qualify for Pre-Application points, but such points shall be withdrawn upon the Development's receipt of TX-USDA-RHS financing.~~ Pre-Applications that are found to have Administrative Deficiencies will be handled in accordance with §~~50.~~49.9(d)(4) of this title. Department review at this stage is limited and not all issues of eligibility and threshold are reviewed at Pre-Application. Acceptance by staff of a Pre-Application does not ensure that an Applicant satisfies all Application eligibility, Threshold or documentation requirements. The Department is not responsible for notifying an Applicant of potential areas of ineligibility or threshold deficiencies at the time of Pre-Application.

(d) **Pre-Application Threshold Criteria and Review**. Applicants submitting a Pre-Application will be required to submit information demonstrating their satisfaction of the Pre-Application Threshold Criteria. The Pre-Applications not meeting the Pre-Application Threshold Criteria will be terminated and the Applicant will receive a written notice to the effect that the Pre-Application Threshold Criteria have not been met. The Department shall not be responsible for the Applicant's failure to meet the Pre-Application Threshold Criteria and any failure of the Department's staff to notify the Applicant of such inability to satisfy the Pre-Application Threshold Criteria shall not confer upon the Applicant any rights to which it would not otherwise be entitled. The Pre-Application Threshold Criteria include:

(1) Submission of a "Pre-Application Submission Form" and "Certification of Pre-Application Itemized Self-Score" . The applicant may not change the Self-Score unless requested by the Department in a Deficiency Notice; and

(2) Evidence of property control through March 1, ~~2006~~2007 as evidenced by the documentation required under §~~50.~~49.9(h)(7)(A) of this title.

(3) Evidence in the form of a certification that all of the notifications required under this paragraph have been made. ~~Notifications~~ Requests for Neighborhood Organizations under subparagraph (~~B~~A)~~(i)~~ of this paragraph must be made by the deadlines described in that clause; notifications under subparagraphs (C~~B)(ii) - (ix)~~) of this paragraph must be made prior to the close of the Pre-Application Acceptance Period. (2306.6704) Evidence of notification must meet the requirements identified in subparagraph (~~A~~B) of this paragraph to all of the individuals and entities identified in subparagraph (C~~B~~) of this paragraph. ~~Evidence of such notifications shall include a certification in the format provided by the Department that the Applicant made the notifications to all required individuals and entities in the format provided by the Department on or before the deadlines.~~ (2306.6704)

(A) The Applicant must request Neighborhood Organizations on record with the county and state whose boundaries include the proposed Development Site as follows:

(i) No later than December 08, 2006, the Applicant must e-mail, fax or mail with registered receipt a completed, "Neighborhood Organization Request" letter as provided in the Pre-Application to the local elected official for the city and county where the Development is proposed to be located. If the Development is located in an Area that has district based local elected officials, or both at-large and district based local elected officials, the request must be made to the city council member or county commissioner representing that district; if the Development is located an Area that has only at-large local elected officials, the request must be made to the mayor or county judge for the jurisdiction. If the Development is not located within a city or is located in the Extra Territorial Jurisdiction (ETJ) of a city, the county local elected official must be contacted. In the event that local elected officials refer the Applicant to another source, the Applicant must request neighborhood organizations from that source in the same format.

(ii) If no reply letter is received from the local elected officials by January 1, 2007, then the Applicant must certify to that fact in the "Pre-Application Notification Certification Form" provided in the Pre-Application.

(iii) The Applicant must list all Neighborhood Organizations on record with the county or state whose boundaries include the proposed Development Site as outlined by the local elected officials, or that the Applicant has knowledge of as of Pre-Application Submission in the "Pre-Application Notification Certification Form" provided in the Pre-Application.

~~(A) Each such notice must include, at a minimum, all of the following:~~

~~(i) The Applicant's name, address, individual contact name and phone number;~~

~~(ii) The Development name, address, city and county;~~

~~(iii) A statement informing the entity or individual being notified that the Applicant is submitting a request for Housing Tax Credits with the Texas Department of Housing and Community Affairs;~~

~~(iv) Statement of whether the Development proposes New Construction or Rehabilitation;~~

~~(v) The type of Development being proposed (single family homes, duplex, apartments, townhomes, highrise etc.) and population being served (family, Intergenerational Housing, or elderly);~~

~~(vi) The approximate total number of Units and approximate total number of low-income Units;~~

~~(vii) The approximate percentage of Units serving each level of AMGI (e.g. 20% at 50% of AMGI, etc.) and the percentage of Units that are market rate;~~

~~(viii) The number of Units and proposed rents (less utility allowances) for the low-income Units and the number of Units and the proposed rents for any market rate Units. Rents to be provided are those that are effective at the time of the Pre-Application, which are subject to change as annual changes in the area median income occur; and~~

~~(ix) The expected completion date if credits are awarded.~~

(B) Not later than the date the Pre-Application is submitted, ~~N~~notification must be sent to all of the following individuals and entities by e-mail, fax or mail with registered receipt return or similar tracking mechanism in the format required in the "Pre-Application Notification Template" provided in the Pre-Application. Developments located in an Extra Territorial Jurisdiction (ETJ) of a city are not required to notify city officials. Evidence of Notification is required in the form of a certification in the "Pre-Application Notification Certification Form" provided in the Pre-Application, although it is encouraged that Applicants retain proof of notifications in the event that the Department requires proof of Notification. Officials to be notified are those officials in office at the time the Pre-Application is submitted.

(i) Neighborhood Organizations on record with the city, state or county whose boundaries include the proposed Development Site as identified in subsection (A)(iii) of this subparagraph. ~~Applicants must provide evidence that neighborhood organizations were notified pursuant to this subsection. Evidence in the form of a certification must be provided that a letter requesting information on neighborhood organizations on record with the state or county in which the Development is to be located and whose boundaries contain the proposed Development site and meeting the requirements of "Neighborhood Organization Request" as outlined in the Application was sent no later than December 20, 2005 to the local elected official for the city or if located outside of a city, then the county where the Development is proposed to be located. If the Development is located in a jurisdiction that has district based local elected officials, or both at-large and district based local elected officials, the request must be made to the city council member or county commissioner representing that district; if the Development is located in a jurisdiction that has only at-large local elected officials, the request must be made to the mayor or county judge for the jurisdiction. For urban/exurban areas, entities identified in the letter from the local elected official whose boundaries include the proposed Development and whose listed address has the same zip code as the zip code for the Development must be provided with written notification. If any other zip codes exist within a half mile of the Development site, then all entities identified in the letters with those adjacent zip codes must also be provided with written notification. For rural areas, all entities identified in the letters whose listed address is within a half mile of the Development site must be provided with written notification. If the Applicant can certify that there are no neighborhood organizations on any list from the local elected officials which are required to be notified pursuant to this subsection, then such certification in lieu of notification may be acceptable. If no reply letter is received from the local elected officials by January 1, 2006, (or For Tax-Exempt Bond Developments or Applications not applying for Tax Credits, but applying only for other Multifamily Programs such as HOME, Housing Trust Fund, etc., by 7 days prior to the submission of the Application) then the Applicant must submit a statement attesting to that fact. If an Applicant has knowledge of any neighborhood organizations on record with the state or county in which the Development is to be located and whose boundaries contain the proposed Development site, the Applicant must notify those organizations. In the event that local elected officials refer the Applicant to another source, the Applicant must request neighborhood organizations from that source in the same format. If the Applicant has no knowledge of neighborhood organizations within whose boundaries the Development is proposed to be located, the Applicant must attest to that fact in the format provided by the Department as part of the Application.~~

(ii) Superintendent of the school district containing the Development;

(iii) Presiding officer of the board of trustees of the school district containing the Development;

(iv) Mayor of any municipality containing the Development;

(v) All elected members of the governing body of any municipality containing the Development;

(vi) Presiding officer of the governing body of the county containing the Development;

(vii) All elected members of the governing body of the county containing the Development;

(viii) State senator of the district containing the Development; and

(ix) State representative of the district containing the Development.

(C) Each such notice must include, at a minimum, all of the following:

(i) The Applicant's name, address, individual contact name and phone number;

(ii) The Development name, address, city and county;

(iii) A statement informing the entity or individual being notified that the Applicant is submitting a request for Housing Tax Credits with the Texas Department of Housing and Community Affairs;

(iv) Statement of whether the Development proposes New Construction, Reconstruction, or Rehabilitation;

(v) The type of Development being proposed (single family homes, duplex, apartments, townhomes, highrise etc.) and population being served (family, Intergenerational Housing, or elderly);

(vi) The approximate total number of Units and approximate total number of low-income Units;

(vii) The approximate percentage of Units serving each level of AMGI (e.g. 20% at 50% of AMGI, etc.) and the percentage of Units that are market rate;

(viii) The number of Units and proposed rents (less utility allowances) for the low-income Units and the number of Units and the proposed rents for any market rate Units. Rents to be provided are those that are effective at the time of the Pre-Application, which are subject to change as annual changes in the area median income occur; and

(ix) The expected completion date if credits are awarded.

(e) **Pre-Application Results**. Only Pre-Applications which have satisfied all of the Pre-Application Threshold Criteria requirements set forth in subsection (d) of this section and §~~50.~~49.9(i)(1~~2~~3) of this title, will be eligible for Pre-Application points. The order and scores of those Developments released on the Pre-Application Submission Log do not represent a commitment on the part of the Department or the Board to allocate tax credits to any Development and the Department bears no liability for decisions made by Applicants based on the results of the Pre-Application Submission Log. Inclusion of a Development on the Pre-Application Submission Log does not ensure that an Applicant will receive points for a Pre-Application.

§~~50.~~49.9. Application: Submission; Communication with Department Employees; Adherence to Obligations; Evaluation Process for Competitive Applications Under the State Housing Credit Ceiling; Evaluation Process for Tax-Exempt Bond Development Applications; Evaluation Process for Rural Rescue Applications Under the ~~2007~~2008 Credit Ceiling; Experience Pre-Certification Procedures; Threshold Criteria; Selection Criteria; Tiebreaker Factors; Staff Recommendations.

(a) **Application Submission.** Any Applicant requesting a Housing Credit Allocation or a Determination Notice must submit an Application, and the required Application fee as described in §~~50.~~49.20 of this title, to the Department during the Application Acceptance Period. Only complete Applications will be accepted. All required volumes must be appropriately bound as required by the Application Submission Procedures Manual and fully complete for submission and received by the Department not later than 5:00 p.m. on the date the Application is due. Only one Application may be submitted for a site in an Application Round. While the Application Acceptance Period is open, Applicants may withdraw their Application and subsequently file a new Application utilizing the original Pre-Application Fee that was paid as long as no evaluation was performed by the Department. The Department is authorized, but not required, to request the Applicant to provide additional information it deems relevant to clarify information contained in the Application or to submit documentation for items it considers to be an Administrative Deficiency, including ineligibility criteria, site and development restrictions, and threshold and selection criteria documentation. (2306.6708) An Applicant may not change or supplement an Application in any manner after the filing deadline, and may not add any set-asides, increase their credit amount, or revise their unit mix (both income levels and bedroom mixes), except in response to a direct request from the Department to remedy an Administrative Deficiency as further described in §~~50.~~49.3(1) of this title or by amendment of an Application after a commitment or allocation of tax credits as further described in §~~50.~~49.17(d) of this title.

(b) **Communication with Department Employees.** Communication with Department staff by Applicants that submit a Pre-Application or Application must follow the following requirements. During the period beginning on the date a Development Pre-Application or Application is filed and ending on the date the Board makes a final decision with respect to any approval of that Application, the Applicant or a Related Party, and any Person that is active in the construction, rehabilitation, ownership or Control of the proposed Development including a General Partner or contractor and a Principal or Affiliate of a General Partner or contractor, or individual employed as a lobbyist by the Applicant or a Related Party, may communicate with an employee of the Department about the Application orally or in written form, which includes electronic communications through the Internet, so long as that communication satisfies the conditions established under paragraphs (1) - (3) of this subsection. Section ~~50.~~49.5(b)(6) of this title applies to all communication with Board members. Communications with Department employees is unrestricted during any board meeting or public hearing held with respect to that Application.

(1) The communication must be restricted to technical or administrative matters directly affecting the Application;

(2) The communication must occur or be received on the premises of the Department during established business hours (emails may be sent and received after business hours);

(3) a record of the communication must be maintained by the Department and included with the Application for purposes of board review and must contain the date, time, and means of communication; the names and position titles of the persons involved in the communication and, if applicable, the person's relationship to the Applicant; the subject matter of the communication; and a summary of any action taken as a result of the communication. (2306.1113)

(c) **Adherence to Obligations.** (2306.6720, General Appropriation Act, Article VII, Rider 8(a)) All representations, undertakings and commitments made by an Applicant in the application process for a Development, whether with respect to Threshold Criteria, Selection Criteria or otherwise, shall be deemed to be a condition to any Commitment Notice, Determination Notice, or Carryover Allocation for such Development, the violation of which shall be cause for cancellation of such Commitment Notice, Determination Notice, or Carryover Allocation by the Department, and if concerning the ongoing features or operation of the Development, shall be enforceable even if not reflected in the LURA. All such representations are enforceable by the Department and the tenants of the Development, including enforcement by administrative penalties for failure to perform, as stated in the representations and in accordance with the LURA. Effective December 1, 2006 ~~(meaning this does not apply to amendments received prior to this effective date and does not apply to 2006 Tax Credit Applications)~~, if a Development Owner does not produce the Development as represented in the Application and in any amendments approved by the Department subsequent to the Application (unless granted an extension by the Department), or does not provide the necessary evidence for any points received ~~for the Commitment of Development Funding by Local Political Subdivisions~~ by the required deadline ~~(unless granted an extension by the Department)~~:

(1) the Development Owner must provide a plan to the Department, for approval and subsequent implementation, that incorporates additional amenities to compensate for the non-conforming components; and

(2) the Board will opt either to terminate the Application and rescind the Commitment Notice, Determination Notice or Carryover Allocation Agreement as applicable or the Department must:

(A) Reduce the score ~~by ten points~~ for ~~a~~Applications for tax credits that are submitted by an Applicant or Affiliate related to the Development Owner of the non-conforming Development by ten points for the two Application Rounds concurrent to, or following, the date that the non-conforming aspect, or lack of financing, was identified by the Department; and

(B) prohibit eligibility to apply for tax credits for a Tax-Exempt Bond Development that are submitted by an Applicant or Affiliate related to the Development Owner of the non-conforming Development for 12 months from the date that the non-conforming aspect, or lack of financing, was identified by the Department.

(d) **Evaluation Process for Competitive Applications Under the State Housing Credit Ceiling.** Applications submitted for competitive consideration under the State Housing Credit Ceiling will be reviewed according to the process outlined in this subsection. An Application, during any of these stages of review, may be determined to be ineligible as further described in §~~50.~~49.5; Applicants will be promptly notified in these instances.

(1) ~~Eligibility~~ Set-Aside and Selection Criteria Review. All Applications will first be reviewed as described in this paragraph. Applications will be confirmed for eligibility ~~under §50.5 of t~~for ~~his chapter and~~ Set-Asides ~~eligibility will be confirmed~~. Then, each Application will be preliminarily scored according to the Selection Criteria listed in subsection (i) of this section. When a particular scoring criterion involves multiple points, the Department will award points to the proportionate degree, in its determination, to which a proposed Development complied with that criterion. As necessary to complete this process only, Administrative Deficiencies may be issued to the Applicant. This process will generate a preliminary Department score for every application.

(2) Priority Review Assessment. Each Application will be assessed based on either the Applicant's self-score or the Department's preliminary score, region, and any Set-Asides that the Application indicates it is eligible for, consistent with paragraph (5) of this subsection. Those Applications that appear to be most competitive will be designated as "priority" Applications. Applications that do not appear to be competitive may not be reviewed in detail for Eligibility and Threshold Criteria during the Application Round. The designation of priority is not a stage of the application pursuant to §49.11(a)(7) of this title, and the designations will not be posted to the Department's website until final scoring notices are issued.

(3) Eligibility and Threshold Criteria Review. Applications that are designated as "priority" from the Priority Review Assessment will be evaluated ~~in detail~~ for eligibility under §§~~50.~~49.5(a)(7) through (9), 49.5(c), (e), and (f), and 49.6 of this chapter. The remaining portions of the Eligibility Review under §49.5 of this chapter will be performed in the Compliance Evaluation and Eligibility Review as described under (7) of this subparagraph. Priority Applications will also be evaluated ~~and~~ against the Threshold Criteria under §§49.9(h)(1) through (4), (7)(A) and (B), (8), (9), (11), and (15) of this chapter, at minimum. The remaining portions of the Threshold Criteria review may be performed in the Underwriting Evaluation and Criteria review for financial

feasibility by the Department's Real Estate Analysis Division as described under (6) of this subparagraph. Applications not meeting Threshold Criteria ~~-~~will be notified of any Administrative Deficiencies, in which event the Applicant is given an opportunity to correct such deficiencies. Applications not meeting Threshold Criteria after receipt and review of the Administrative Deficiency response will be terminated and the Applicant will be provided a written notice to that effect. The Department shall not be responsible for the Applicant's failure to meet the Threshold Criteria, and any failure of the Department's staff to notify the Applicant of such inability to satisfy the Threshold Criteria shall not confer upon the Applicant any rights to which it would not otherwise be entitled. Not all Applications will be reviewed in detail for Threshold Criteria. To the extent that the review of Threshold Criteria documentation, or submission of Administrative Deficiency documentation, alters the score assigned to the Application, Applicants will be notified of their final score. As Applications are evaluated under this Review process, a final score by the Department may remove the Application from "priority" status at which point other Applications may be designated as "priority" and reviewed under this paragraph.

(4) Administrative Deficiencies. If an Application contains Administrative ~~d~~Deficiencies pursuant to §49.3(1) of this title which, in the determination of the Department staff, require clarification or correction of information submitted at the time of the Application, the Department staff may request clarification or correction of such Administrative Deficiencies. Because the review for Eligibility, ~~and~~ Selection, ~~and~~ Threshold Criteria, and review for financial feasibility by the Department's Real Estate Analysis Division may occur separately, Administrative Deficiency requests may be made several times. The Department staff will request clarification or correction in a deficiency notice in the form of an email, or if an e-mail address is not provided in the Application, by facsimile, ~~email (if an email address is provided by the Applicant)~~ and a telephone call to the Applicant and one other party identified by the Applicant in the Application advising that such a request has been transmitted. If Administrative Deficiencies are not clarified or corrected to the satisfaction of the Department within three~~five~~ business days of the deficiency notice date, then for competitive Applications under the State Housing Credit Ceiling five points shall be deducted from the Selection Criteria score for each additional day the deficiency remains unresolved. If deficiencies are not clarified or corrected within five~~seven~~ business days from the deficiency notice date, then the Application shall be terminated. The time period for responding to a deficiency notice begins at the start of the business day following the deficiency notice date. If the applicant fully responds to the Administrative Deficiency Notice within the first business day following the deficiency notice date, the Department will review the documentation submitted and contact the Applicant by the end of the second business day following the deficiency notice date with guidance on items not clarified or corrected to the satisfaction of the Department. If Administrative Deficiencies are submitted to the Department within the first business day following the deficiency notice date, and the Department fails to respond to the Applicant on the second day, the Applicant will be granted one business day after the Department's response to submit the remaining documentation to the Department without a point penalty. Deficiency notices may be sent to an Applicant prior to or after the end of the Application Acceptance Period.

(5) Subsequent Evaluation of Prioritized Applications and Methodology for Award Recommendations to the Board. The Department will assign, as herein described, Developments for review for financial feasibility by the Department's Real Estate Analysis Division – in general these will be those applications identified as "priority". This prioritization order will also be used in making recommendations to the Board as follows:~~.~~

(A) Assignments will be determined by first selecting the Applications with the highest scores in the At-Risk Set-Aside and TX-USDA-RHS Allocation within each Uniform State Service Region until the minimum requirements stated in §~~50.~~49.7(b) are attained.

(B) Remaining funds within each Uniform State Service Region will then be selected based on the highest scoring Developments in each of the 26 sub-regions, regardless of Set-Aside, in accordance with the requirements under §~~50.~~49.7(a) of this title, without exceeding the credit amounts available for a Rural Regional Allocation and Urban/Exurban Regional Allocation in each region.

(C) Funds for the Rural Regional Allocation or Urban/Exurban Regional Allocation for which there are more requests for credits than remaining credits available will be combined in each Uniform State Service Regions. If the next eligible application in the Rural Allocation or Urban/Exurban for a given Uniform State Service Region is less than the remaining credits in a region, then that application is selected; however, if both Rural and Urban/Exurban areas in the region have Applications that are requesting less than the remaining credits in that Uniform State Service Region, then Application in the sub-region whose shortfall of credits being recommended would have been the most significant portion of their targeted sub-regional allocation will be selected. All credits still remaining will be combined with the remaining credits from all other regions and will be allocated to an Application in the sub-region whose shortfall of credits being recommended would have been the most significant portion of their targeted sub-regional allocation. However, once a region's awarded credits exceeds the total allocation for that region no other applications will be selected.

(D) After this priority review has occurred, staff will review priority applications to ensure that at least 10% of the priority applications are qualified Nonprofits to satisfy the Nonprofit Set-Aside. If 10% is not met, then the Department will add the highest Qualified Nonprofits statewide until the 10% Nonprofit Set-Aside is met. Selection for each of the Set-Asides will take precedence over selection for the Rural Regional Allocation and Urban/Exurban Regional Allocation. Funds for the Rural Regional Allocation or Urban/Exurban Regional Allocation within a region, for which there are no eligible feasible applications, will be redistributed as provided in §~~50.~~49.7(c) of this title, Redistribution of Credits. If the Department determines that an allocation recommendation would cause a violation of the $2 million limit described in §~~50.~~49.6(d) of this title, the Department will make its recommendation by selecting the Development(s) that most effectively satisfies(y) the Department's goals in meeting set-aside and regional allocation goals. Based on Application rankings, the Department shall continue to underwrite Applications until the Department has processed enough Applications satisfying the Department's underwriting criteria to enable the allocation of all available housing tax credits according to regional allocation goals and Set-Aside categories. To enable the Board to establish a Waiting List, the Department shall underwrite as many additional Applications as necessary to ensure that all available housing tax credits are allocated within the period required by law. (2306.6710(a), (b) and (d); 2306.111)

(6) Underwriting Evaluation and Criteria. The Department shall underwrite an Application to determine the financial feasibility of the Development and an appropriate level of housing tax credits. In determining an appropriate level of housing tax credits, the Department shall, at a minimum, evaluate the cost of the Development based on acceptable cost parameters as adjusted for inflation and as established by historical final cost certifications of all previous housing tax credit allocations for the county in which the Development is to be located; if certifications are unavailable for the county, then the metropolitan statistical area in which the Development is to be located; or if certifications are unavailable under the county or the metropolitan statistical area, then the Uniform State Service Region in which the Development is to be located. Underwriting of a Development will include a determination by the Department, pursuant to the Code, §42, that the amount of credits recommended for commitment to a Development is necessary for the financial feasibility of the Development and its long-term viability as a qualified rent restricted housing property. In making this determination, the Department will use the Underwriting Rules and Guidelines, §1.32 of this title. To the extent that the review of Administrative Deficiency documentation during this review alters the score assigned to the Application, Applicants will be re-notified of their final score. Receipt of feasibility points under §~~50.~~49.9(i)(1) of this title does not ensure that an Application will be considered feasible during the feasibility evaluation by the Real Estate Analysis Division and conversely, a Development may be found feasible during the feasibility evaluation by the Real Estate Analysis Division even if it did not receive points under §~~50.~~49.9(i)(1) of this title. (2306.6711(b); 2306.6710(d))

(A) The Department may have an external party perform the underwriting evaluation to the extent it determines appropriate. The expense of any external underwriting evaluation shall be paid by the Applicant prior to the commencement of the aforementioned evaluation.

(B) The Department will reduce the Applicant's estimate of Developer's and/or Contractor fees in instances where these exceed the fee limits determined by the Department. The Developer's fee limits will be calculated as follows:

(i) For New Construction Developments the developer fee cannot exceed 15% of the project's Total Eligible Basis, less developer fees or 20% of the project's Total Eligible Basis, less developer fees if the Development proposes 49 total Units or less.

(ii) For acquisition/Rehabilitation Developments that are eligible for acquisition credits, the acquisition portion of the developer fee cannot exceed 15% of the existing structures acquisition basis, less developer fee, and will be limited to Tax-Exempt Bond Developments. The Rehabilitation portion of the developer fee cannot exceed 15% of the total Rehabilitation basis, less developer fee, and will be limited to the Competitive Housing Tax Credit Developments.

In the instance where the Contractor is an Affiliate of the Development Owner and both parties are claiming fees, Contractor's overhead, profit, and general requirements, the Department shall be authorized to reduce the total fees estimated to a level that it determines to be reasonable under the circumstances. Further, the Department shall deny or reduce the amount of Housing Tax Credits allocated with respect to any portion of costs which it deems excessive or unreasonable. Excessive or unreasonable costs may include developer fee attributable to Related Party acquisition costs. The Department also may require bids or Third Party estimates in support of the costs proposed by any Applicant.

(7) Compliance Evaluation and Eligibility Review. After the Department has determined which Developments will be reviewed for financial feasibility, those same Developments will be reviewed for evaluation of the compliance status by the Department's Portfolio Management and Compliance Division, in accordance with Chapter 60 of this title, and will be evaluated in detail for eligibility under §§49.5(a)(1) through (5) , 49.5(b), and 49.5(d) of this chapter.

(8) Site Evaluation. Site conditions shall be evaluated through a physical site inspection by the Department or its assigns. Such inspection will evaluate the site based upon the criteria set forth in the Site

Evaluation form provided in the Application and the inspector shall provide a written report of such site evaluation. The evaluations shall be based on the condition of the surrounding neighborhood, including appropriate environmental and aesthetic conditions and proximity to retail, medical, recreational, and educational facilities, and employment centers. The site's appearance to prospective tenants and its accessibility via the existing transportation infrastructure and public transportation systems shall be considered. "Unacceptable" sites include, without limitation, those containing a non-mitigable environmental factor that may adversely affect the health and safety of the residents. For Developments applying under the TX-USDA-RHS Set-Aside, the Department may rely on the physical site inspection performed by TX-USDA-RHS.

(e) Evaluation Process for Tax-Exempt Bond Development Applications. Applications submitted for consideration as Tax-Exempt Bond Developments will be reviewed according to the process outlined in this subsection. An Application, during any of these stages of review, may be determined to be ineligible as further described in §~~50.~~49.5; Applicants will be promptly notified in these instances.

(1) Eligibility and Threshold Criteria Review. All Tax-Exempt Bond Development Applications will first be reviewed as described in this paragraph. Tax-Exempt Bond Development Applications will be confirmed for eligibility under §~~50.~~49.5 and §~~50.~~49.6 of this chapter and Applications will be evaluated in detail against the Threshold Criteria. Tax-Exempt Bond Development Applications found to be ineligible and/or not meeting Threshold Criteria will be notified of any Administrative Deficiencies, in which event the Applicant is given an opportunity to correct such deficiencies. Applications not meeting Threshold Criteria after receipt and review of the Administrative Deficiency response will be terminated and the Applicant will be provided a written notice to that effect. The Department shall not be responsible for the Applicant's failure to meet the Threshold Criteria, and any failure of the Department's staff to notify the Applicant of such inability to satisfy the Threshold Criteria shall not confer upon the Applicant any rights to which it would not otherwise be entitled. Not all Applications will be reviewed in detail for Threshold Criteria.

(2) Administrative Deficiencies. If an Application contains deficiencies which, in the determination of the Department staff, require clarification or correction of information submitted at the time of the Application, the Department staff may request clarification or correction of such Administrative Deficiencies~~ as further described in subsection (d)(4) of this section~~. Because the review for Eligibility, Threshold Criteria, and review for financial feasibility by the Department's Real Estate Analysis Division may occur separately, Administrative Deficiency requests may be made several times. The Department staff will request clarification or correction in a deficiency notice in the form of an e-mail, or if an e-mail address is not provided in the Application, by facsimile, and a telephone call to the Applicant and one other party identified by the Applicant in the Application advising that such a request has been transmitted. All Administrative Deficiencies shall be clarified or corrected to the satisfaction of the Department within five business days. Failure to resolve all outstanding deficiencies within 5 business days from the deficiency notice date will result in a penalty fee of $500 for each business day the deficiency remains unresolved. Applications with unresolved deficiencies after the 10th day from the issuance of the deficiency notice will be terminated. The Applicant will be responsible for the payment of fees accrued pursuant to this section regardless of any termination pursuant to this section. The time period for responding to a deficiency notice begins at the start of the business day following the deficiency notice date. Deficiency notices may be sent to an Applicant prior to or after the end of the Application Acceptance Period. The Application will not be presented to the Board for consideration until all outstanding fees have been paid.

(3) Underwriting and Compliance Evaluation and Criteria. The Department will assign all eligible Tax-Exempt Bond Development Applications meeting the eligibility and threshold requirements for review for financial feasibility by the Department's Real Estate Analysis Division, or the Department may have an external party perform the underwriting evaluation to the extent it determines appropriate. The expense of any external underwriting evaluation shall be paid by the Applicant prior to the commencement of the aforementioned evaluation. The Department or external party shall underwrite an Application to determine the financial feasibility of the Development and an appropriate level of housing tax credits as further described in subsection (d)(6) of this section. Tax-Exempt Bond Development Applications will also be reviewed for evaluation of the compliance status by the Department's Portfolio Management and Compliance Division in accordance with Chapter 60 of this title.

(4) Site Evaluation. Site conditions shall be evaluated through a physical site inspection by the Department or its assigns as further described in subsection (d)(8) of this section.

(f) Evaluation Process for Rural Rescue Applications Under the ~~2007~~2008 Credit Ceiling. Applications submitted for consideration as Rural Rescue Applications pursuant to §~~50.~~49.10(c) of this title under the ~~2007~~2008 Credit Ceiling will be reviewed according to the process outlined in this subsection. A Rural Rescue Application, during any of these stages of review, may be determined to be ineligible as further described in §~~50.~~49.5 of this chapter; Applicants will be promptly notified in these instances.

(1) Eligibility and Threshold Criteria Review. All Rural Rescue Applications will first be reviewed as described in this paragraph. Rural Rescue Applications will be confirmed for eligibility under §~~50.~~49.5 and §~~50.~~49.6 of this chapter, Set-Aside and Rural Rescue eligibility will be confirmed, and Applications will be evaluated in detail against the Threshold Criteria. Applications found to be ineligible and/or not meeting Threshold Criteria will be notified of any Administrative Deficiencies, in which event the Applicant is given an opportunity to correct such deficiencies. Applications not meeting Threshold Criteria after receipt and review of the Administrative Deficiency response will be terminated and the Applicant will be provided a written notice to that effect. The Department shall not be responsible for the Applicant's failure to meet the Threshold Criteria, and any failure of the Department's staff to notify the Applicant of such inability to satisfy the Threshold Criteria shall not confer upon the Applicant any rights to which it would not otherwise be entitled. Not all Applications will be reviewed in detail for Threshold Criteria.

(2) Selection Criteria Review. All Rural Rescue Applications will be evaluated against the Selection Criteria and a score will be assigned to the Application. The minimum score for Selection Criteria is not required to be achieved to be eligible.

(3) Administrative Deficiencies. If an Application contains deficiencies which, in the determination of the Department staff, require clarification or correction of information submitted at the time of the Application, the Department staff may request clarification or correction of such Administrative Deficiencies as further described in subsection (d)(4) of this section.

(4) Underwriting and Compliance Evaluation and Criteria. The Department will assign all eligible ~~Tax-Exempt Bond Development~~Rural Rescue Applications meeting the eligibility and threshold requirements for review for financial feasibility by the Department's Real Estate Analysis Division, or the Department may have an external party perform the underwriting evaluation to the extent it determines appropriate. The expense of any external underwriting evaluation shall be paid by the Applicant prior to the commencement of the aforementioned evaluation. The Department or external party shall underwrite an Application to determine the financial feasibility of the Development and an appropriate level of housing tax credits as further described in subsection (d)(6) of this section. ~~Tax-Exempt Bond~~Rural Rescue Development Applications will also be reviewed for evaluation of the previous participation by the Department's Portfolio Management and Compliance Division in accordance with Chapter 60 of this title.

(5) Site Evaluation. Site conditions shall be evaluated through a physical site inspection by the Department or its assigns as further described in subsection (d)(8) of this section.

(g) **Experience Pre-Certification Procedures.** No later than 14 days prior to the close of the Application Acceptance Period, an Applicant must submit the documents required in this subsection to obtain the required pre-certification. For Applications submitted for Tax-Exempt Bond Developments or Applications not applying for Tax Credits, but applying only under other Multifamily Programs (HOME, Housing Trust Fund, etc.) all of the documents in this section must be submitted with the Application. Upon receipt of the evidence required under this section, a certification from the Department will be provided to the Applicant for inclusion in their Application(s). Evidence must show that one of the Development Owner's General Partners, the Developer or their Principals have a record of successfully constructing or developing residential units (single family or multifamily) in the capacity of owner, General Partner or Developer. If a Public Housing Authority organized an entity for the purpose of developing residential units the Public Housing Authority shall be considered a principal for the purpose of this requirement. If the individual requesting the certification was not the Development Owner, General Partner or Developer, but was the individual within one of those entities doing the work associated with the development of the units, the individual must show that the units were successfully developed as required below, and also provide written confirmation from the entity involved stating that the individual was the person responsible for the development. If rehabilitation experience is being claimed to qualify for an Application involving new construction, then the rehabilitation must have been substantial and involved at least $6,000 of direct hard cost per unit.

(1) The term "successfully" is defined as acting in a capacity as the owner, General Partner, or Developer of:

(A) at least 100 residential units or, if less than 100 residential units, 80 percent of the total number of Units the ~~a~~Applicant is applying to build (e.g. you must have 40 units successfully built to apply for 50 Units); or

(B) at least 36 residential units if the Development ~~applying for credits~~ is a Rural Development; or

(C) at least 25 residential units if the Development ~~applying for credits~~ has 36 or fewer total Units.

(2) One or more of the following documents must be submitted: American Institute of Architects (AIA) Document A111 - Standard Form of Agreement Between Owner & Contractor, AIA Document G704 - Certificate of Substantial Completion, IRS Form 8609, HUD Form 9822, development agreements, partnership agreements, or other documentation satisfactory to the Department verifying that the Development Owner's General Partner,

partner (or if Applicant is to be a limited liability company, the managing member), Developer or their Principals have the required experience. If submitting the IRS Form 8609, only one form per Development is required. The evidence must clearly indicate:

(A) that the Development has been completed (i.e. Development Agreements, Partnership Agreements, etc. must be accompanied by certificates of completion);

(B) that the names on the forms and agreements tie back to the Development Owner's General Partner, partner (or if Applicant is to be a limited liability company, the managing member), Developer or their Principals as listed in the Application; and

(C) the number of units completed or substantially completed.

(h) **Threshold Criteria.** The following Threshold Criteria listed in this subsection are mandatory requirements at the time of Application submission unless specifically indicated otherwise:

(1) Completion and submission of the Application, which includes the entire Uniform Application and any other supplemental forms which may be required by the Department. (2306.1111)

(2) Completion and submission of the Site Packet as provided in the Application.

(3) Set-Aside Eligibility. Documentation must be provided that confirms eligibility for all Set-Asides under which the Application is seeking funding as required in the Application.

(4) Certifications. The "Certification Form" provided in the Application confirming the following items:

(A) A certification of the basic amenities selected for the Development. All Developments, must meet at least the minimum threshold of points. These points are not associated with the selection criteria points in subsection (i) of this section. The amenities selected must be made available for the benefit of all tenants. If fees in addition to rent are charged for amenities reserved for an individual tenant's use, then the amenity may not be included among those provided to satisfy this requirement. Developments must provide a minimum number of common amenities in relation to the Development size being proposed. The amenities selected must be selected from clause (ii) of this subparagraph and made available for the benefit of all tenants. Developments proposing Rehabilitation or proposing Single Room Occupancy will receive 1.5 points for every point ~~double points~~ for each item. Applications for non-contiguous scattered site housing, including New Construction, Reconstruction, Rehabilitation, and single-family design, will have the threshold test applied based on the number of Units per individual site, and must submit a separate certification for each individual site under control by the Applicant~~individual site~~. Any future changes in these amenities, or substitution of these amenities, must be approved by the Department in accordance with §~~50.~~49.17(d) of this title and may result in a decrease in awarded credits if the substitution or change includes a decrease in cost, or in the cancellation of a Commitment Notice or Carryover Allocation if all of the Common Amenities claimed are no longer met.

(i) Applications must meet a minimum threshold of points (based on the total number of Units in the Development) as follows:

(I) Total Units are less than 13, 0 points are required to meet Threshold for Single Room Occupancy~~Rehabilitation~~ and 1 point is required to meet threshold for all other Developments~~for New Construction~~;

(II) Total Units are between 13 and 24, 1 point is required to meet Threshold;

(III) Total Units are between 25 and 40, 3 points are required to meet Threshold;

(IV) Total Units are between 41 and 76, 6 points are required to meet Threshold;

(V) Total Units are between 77 and 99, 9 points are required to meet Threshold;

(VI) Total Units are between 100 and 149, 12 points are required to meet Threshold;

(VII) Total Units are between 150 and 199, 15 points are required to meet Threshold;

(VIII) Total Units are 200 or more, 18 points are required to meet Threshold.

(ii) Amenities for selection include those items listed in subclauses (I) - (XXIV) of this clause. Both Developments designed for families and Qualified Elderly Developments can earn points for providing each identified amenity unless the item is specifically restricted to one type of Development. All amenities must meet accessibility standards as further described in §~~50.~~49.9(h)(4)(D) and (F) of this title. An Application can only count an amenity once, therefore combined functions (a library which is part of a community room) only count under one category. Spaces for activities must be sized appropriately to serve the anticipated population.

(I) Full perimeter fencing (2 points);

(II) Controlled gate access (1 point);

(III) Gazebo w/sitting area (1 point);

(IV) Accessible walking/ jogging path separate from a sidewalk (1 point);

~~(V) Community gardens (1 point);~~

(V~~I~~) Community laundry room with at least one front loading washer (1 point);

(V~~II~~) ~~Public telephone(s)~~Emergency 911 telephones accessible and available to tenants 24 hours a day (2 points);

(VI~~I~~I) Barbecue grill~~s~~ and picnic table~~s~~--at least one of each for every 50 Units (1 point);
(VIII~~X~~) Covered pavilion that includes barbecue grills and tables (2 points);
(IX) Swimming pool (3 points);
(X~~I~~) Furnished fitness center (2 points);
(XI~~I~~) Equipped and functioning ~~B~~business ~~C~~center ~~(computer and fax machine)~~ or e~~E~~quipped ~~C~~computer ~~L~~learning c~~C~~enter with 1 computer and 1 fax machine for every 25 Units proposed in the Application, and 1 printer for every 2 computers (2 points);
(XI~~I~~) Furnished Community room (1 point);
(XIIIi~~V~~) Library with an accessible sitting area (separate from the community room) (1 point);
(XIV) Enclosed sun porch or covered community porch/patio (2 points);
(XV~~I~~) Service coordinator office in addition to leasing offices (1 point);
(XVI~~I~~) Senior Activity Room (Arts and Crafts, etc.)--Only Qualified Elderly Developments Eligible (2 points);
(XVII~~I~~) Health Screening Room (1 point);
(XIII~~X~~) Secured Entry (elevator buildings only)--(1 point);
(XIX) Horseshoe pit, ~~Lawn Bowling Courts, Croquet Courts, Bocce Ball Courts, P~~putting ~~G~~green or ~~S~~shuffleboard ~~C~~court--Only Qualified Elderly Developments Eligible (1 point);
(XX~~I~~) Community Dining Room w/full or warming kitchen--Only Qualified Elderly Developments Eligible (3 points);
(XXI) One Children's Playscape Equipped for 5 to 12 year olds, or one Tot Lot, --Only Family Developments Eligible--Only Family Developments Eligible (1 Point)
(XXII) Two Children's ~~Playgrounds~~ Playscapes Equipped for 5 to 12 year olds, two Tot Lots, or one of each--Only Family Developments Eligible (2 points)~~ or one point for one playground or one tot lot~~;
(XXIII) Sport Court (Tennis, Basketball or Volleyball)--Only Family Developments Eligible (2 points); or
(XXIV) Furnished and staffed Children's Activity Center--Only Family Developments Eligible (3 points).

(B) A certification that the Development will have all of the following Unit Amenities (not required for Single Room Occupancy Developments). If fees in addition to rent are charged for amenities, then the amenity may not be included among those provided to satisfy this requirement. Any future changes in these amenities, or substitution of these amenities, may result in a decrease in awarded credits if the substitution or change includes a decrease in cost or in a cancellation of a Commitment Notice or Carryover Allocation if the Threshold Criteria are no longer met.

(i) All New Construction Units must be built with three networks: One network installed for phone using CAT5e or better wiring; a second network for data installed using CAT5e or better wiring; and a third network for TV services using COAX cable;
(ii) ~~Mini b~~Blinds or window coverings for all windows;
(iii) Dishwasher and Disposal (not required for TX-USDA-RHS Developments);
(iv) Refrigerator;
(v) Oven/Range;
(vi) Exhaust/vent fans in bathrooms; and
(vii) Ceiling fans in living areas and bedrooms.

(C) A certification that the Development will adhere to the Texas Property Code relating to security devices and other applicable requirements for residential tenancies, and will adhere to local building codes or if no local building codes are in place then to the most recent version of the International Building Code.

(D) A certification that the Applicant is in compliance with state and federal laws, including but not limited to, fair housing laws, including Chapter 301, Property Code, Title VIII of the Civil Rights Act of 1968 (42 U.S.C. Section 3601 et seq.), and the Fair Housing Amendments Act of 1988 (42 U.S.C. Section 3601 et seq.); the Civil Rights Act of 1964 (42 U.S.C. Section 2000a et seq.); the Americans with Disabilities Act of 1990 (42 U.S.C. Section 12101 et seq.); the Rehabilitation Act of 1973 (29 U.S.C. Section 701 et seq.); Fair Housing Accessibility; the Texas Fair Housing Act; and that the Development is designed consistent with the Fair Housing Act Design Manual produced by HUD, the Code Requirements for Housing Accessibility 2000 (or as amended from time to time) produced by the International Code Council and the Texas Accessibility Standards. (2306.257; 2306.6705(7))

(E) A certification that the Applicant will attempt to ensure that at least 30% of the construction and management businesses with which the Applicant contracts in connection with the Development are Minority Owned Businesses, and that the Applicant will submit a report at least once in each 90-day period following the date of the Commitment Notice until the Cost Certification is submitted, in a format prescribed by the

Department and provided at the time a Commitment Notice is received, on the percentage of businesses with which the Applicant has contracted that qualify as Minority Owned Businesses. (2306.6734)

(F) Pursuant to §2306.6722, any Development supported with a housing tax credit allocation shall comply with the accessibility standards that are required under Section 504, Rehabilitation Act of 1973 (29 U.S.C. Section 794), and specified under 24 C.F.R. Part 8, Subpart C. The Applicant must provide a certification from an accredited architect or Department-approved third party accessibility specialist, that the Development will comply with the accessibility standards that are required under Section 504, Rehabilitation Act of 1973 (29 U.S.C. Section 794), and specified under 24 C.F.R. Part 8, Subpart C and this subparagraph. ~~This includes that for all New Construction Developments, a minimum of five percent of the total dwelling Units or at least one Unit, whichever is greater, shall be made accessible for individuals with mobility impairments. A Unit that is on an accessible route and is adaptable and otherwise compliant with sections 3-8 of the Uniform Federal Accessibility Standards (UFAS), shall be deemed to meet this requirement. An additional two percent of the total dwelling Units, or at least one Unit, whichever is greater, shall be accessible for individuals with hearing or vision impairments.~~ (2306.6722 and 2306.6730)

(G) ~~Additionally, in~~ Developments involving New Construction (excluding New Construction of non-residential buildings) where some Units are two-stories and are normally exempt from Fair Housing accessibility requirements, a minimum of 20% of each Unit type (i.e. one bedroom, two bedroom, three bedroom) must provide an accessible entry level and all common-use facilities in compliance with the Fair Housing Guidelines, and include a minimum of one bedroom and one bathroom or powder room at the entry level. A similar certification will also be required after the Development is completed from an inspector, architect, or accessibility specialist. Any Developments designed as single family structures must also satisfy the requirements of §2306.514, Texas Government Code. ~~(2306.6722 and 2306.6730)~~

(H~~G~~) A certification that the Development will be equipped with energy saving devices that meet the standard statewide energy code adopted by the state energy conservation office, unless historic preservation codes permit otherwise for a Development involving historic preservation. All Units must be air-conditioned. The measures must be certified by the Development architect as being included in the design of each tax credit Unit at the time the 10% Test Documentation is submitted and in actual construction upon Cost Certification. (2306.6725(b)(1))

(I~~H~~) A certification that the Development will be built by a General Contractor that satisfies the requirements of the General Appropriation Act, Article VII, Rider 8(c) applicable to the Department which requires that the General Contractor hired by the Development Owner or the Applicant, if the Applicant serves as General Contractor, must demonstrate a history of constructing similar types of housing without the use of federal tax credits.

(J~~I~~) A certification that the Development Owner agrees to establish a reserve account consistent with 2306.186 Texas Government Code and as further described in §1.37 of this title.

(K~~J~~) A certification that the Applicant, Developer, or any employee or agent of the Applicant has not formed a neighborhood organization for purposes of subsection ~~50.~~49.9(i)(2) of this title, has not given money or a gift to cause the neighborhood organization to take its position of support or opposition, nor has provided any assistance to a neighborhood organization to meet the requirements under ~~50.~~49.9(i)(2) of this title which are not allowed under that subsection, as it relates to the Applicant's Application or any other Application under consideration in ~~2006~~2007.

(L~~K~~) A certification that the Development Owner will cooperate with the local public housing authority, to the extent there are any, in accepting tenants from their waiting lists (42(m)(1)(C)(vi).

(M) A certification that the Development Owner will contract with a Management Company through out the Compliance Period that will perform criminal background checks on all adult tenants, head and co head of households.

(5) Design Items. This exhibit will provide:

(A) All of the architectural drawings identified in clauses (i) - (iii) of this subparagraph. While full size design or construction documents are not required, the drawings must have an accurate and legible scale and show the dimensions. All Developments involving New Construction, or conversion of existing buildings not configured in the Unit pattern proposed in the Application, must provide all of the items identified in clauses (i) - (iii) of this subparagraph. For Developments involving Rehabilitation for which the Unit configurations are not being altered, only the items identified in clauses (i) and (iii) of this subparagraph are required:

(i) a site plan which:

(I) is consistent with the number of Units and Unit mix specified in the "Rent Schedule" provided in the Application;

(II) identifies all residential and common buildings and amenities; and

(III) clearly delineates the flood plain boundary lines and all easements shown in the site survey;

(ii) floor plans and elevations for each type of residential building and each common area building clearly depicting the height of each floor and a percentage estimate of the exterior composition; and

(iii) Unit floor plans for each type of Unit showing special accessibility and energy features. The net rentable areas these Unit floor plans represent should be consistent with those shown in the "Rent Schedule" provided in the application; and

(B) A boundary survey of the proposed Development site and of the property to be purchased. In cases where more property is purchased than the proposed site of the Development, the survey or plat must show the survey calls for both the larger site and the subject site. The survey does not have to be recent; but it must show the property purchased and the property proposed for ~~d~~Development. In cases where the site of the Development is only a part of the site being purchased, the depiction or drawing of the Development portion may be professionally compiled and drawn by an architect, engineer or surveyor.

(6) Evidence of the Development's development costs and corresponding credit request and syndication information as described in subparagraphs (A) - (G) of this paragraph.

(A) A written narrative describing the financing plan for the Development, including any non-traditional financing arrangements; the use of funds with respect to the Development; the funding sources for the Development including construction, permanent and bridge loans, rents, operating subsidies, and replacement reserves; and the commitment status of the funding sources for the Development. This information must be consistent with the information provided throughout the Application. (2306.6705(a)(1))

(B) All Developments must submit the "Development Cost Schedule" provided in the Application. This exhibit must have been prepared and executed not more than 6 months prior to the close of the Application Acceptance Period.

(C) Provide a letter of commitment from a syndicator that, at a minimum, provides an estimate of the amount of equity dollars expected to be raised for the Development in conjunction with the amount of housing tax credits requested for allocation to the Development Owner, including pay-in schedules, syndicator consulting fees and other syndication costs. No syndication costs should be included in the Eligible Basis. (2306.6705(a)(2) and (3))

(D) For Developments located in a Qualified Census Tract (QCT) as determined by the Secretary of HUD and qualifying for a 30% increase in Eligible Basis, pursuant to the Code, §42(d)(5)(C), if permitted under 49.6(h) of this title, Applicants must submit a copy of the census map clearly showing that the proposed Development is located within a QCT. Census tract numbers must be clearly marked on the map, and must be identical to the QCT number stated in the Department's Reference Manual.

(E) Rehabilitation Developments must submit a Property Condition Assessment meeting the requirements of paragraph (14)(C) of this subsection.

(F) If offsite costs are included in the budget as a line item, or embedded in the site acquisition contract, or referenced in the utility provider letters, then the supplemental form "Off Site Cost Breakdown" must be provided.

(G) If projected site work costs include unusual or extraordinary items or exceed $7,500 per Unit, then the Applicant must provide a detailed cost breakdown prepared by a Third Party engineer or architect, and a letter from a certified public accountant allocating which portions of those site costs should be included in Eligible Basis and which ones may be ineligible.

(7) Evidence of readiness to proceed as evidenced by at least one of the items under each of subparagraphs (A) - (D) of this paragraph:

(A) Evidence of Property control in the name of the Development Owner. If the evidence is not in the name of the Development Owner, then the documentation should reflect an expressed ability to transfer the rights to the Development Owner. All of the sellers of the proposed Property for the 36 months prior to the first day of the Application Acceptance Period and their relationship, if any, to members of the Development team must be identified at the time of Application (not required at Pre-Application).~~.~~ One of the following items described in clauses (i) - (iii) of this subparagraph must be provided:

(i) a recorded warranty deed with corresponding executed settlement statement; or

(ii) a contract for lease (the minimum term of the lease must be at least 45 years) which is valid for the entire period the Development is under consideration for tax credits; or

(iii) a contract for sale, an exclusive option to purchase ~~or earnest money contract (which must show that the earnest money has been deposited)~~ which is valid for the entire period the Development is under consideration for tax credits. For Tax Exempt Bond Developments site control must be valid for 150 days after the Application Acceptance Period or through the full reservation and allocation period whichever is longer. If the acquisition can be characterized as an identity of interest transaction as described in §1.32(e)(1)(B), ~~the following~~ (I) and (II) of this clause must be provided (not required at Pre-Application):

(I) documentation of the original acquisition cost in the form of a settlement statement or, if a settlement statement is not available, the seller's most recent audited financial statement indicating the asset value for the proposed Property, and

(II) if the original acquisition cost evidenced by (I) of this clause is less than the acquisition cost claimed in the application,

(-a-) an appraisal meeting the requirements of paragraph (14)(D) of this subsection, and

(-b-) any other verifiable costs of owning, holding, or improving the Property that when added to the value from subclause (I) of this clause justifies the Applicant's proposed acquisition amount.

(-1-) For land-only transactions, documentation of owning, holding or improving costs since the original acquisition date may include Property taxes, interest expense, a calculated return on equity at a rate consistent with the historical returns of similar risks, the cost of any physical improvements made to the Property, the cost of rezoning, replatting or developing the Property, or any costs to provide or improve access to the Property.

(-2-) For transactions which include existing buildings that will be rehabilitated or otherwise maintained as part of the Development, documentation of owning, holding, or improving costs since the original acquisition date may include capitalized costs of improvements to the Property, a calculated return on equity at a rate consistent with the historical returns of similar risks, and allow the cost of exit taxes not to exceed an amount necessary to allow the sellers to be made whole in the original and subsequent investment in the Property and avoid foreclosure.

(iv) As described in clauses (ii) and (iii) of this title, Property control must be continuous. Closing on the Property is acceptable, as long as evidence is provided that there was no period in which control was not retained.

(B) Evidence from the appropriate local municipal authority that satisfies one of clauses (i) - (iii) of this subparagraph. Documentation may be from more than one department of the municipal authority and must have been prepared and executed not more than 6 months prior to the close of the Application Acceptance Period. (2306.6705(5))

(i) a letter from the chief executive officer of the political subdivision or another local official with appropriate jurisdiction stating that the Development is located within the boundaries of a political subdivision which does not have a zoning ordinance; the letter must also state that the Development fulfills a need for additional affordable rental housing as evidenced in a local consolidated plan, comprehensive plan, or other local planning document; or if no such planning document exists, then the letter from the local municipal authority must state that there is a need for affordable housing.

(ii) a letter from the chief executive officer of the political subdivision or another local official with appropriate jurisdiction stating that:

(I) the Development is permitted under the provisions of the zoning ordinance that applies to the location of the Development ~~or that there is not a zoning requirement~~; or

(II) the Applicant is in the process of seeking the appropriate zoning and has signed and provided to the political subdivision a release agreeing to hold the political subdivision and all other parties harmless in the event that the appropriate zoning is denied, and a time schedule for completion of appropriate zoning. The Applicant must also provide at the time of Application a copy of the application for appropriate zoning filed with the local entity responsible for zoning approval and proof of delivery of that application in the form of a signed certified mail receipt, signed overnight mail receipt, or confirmation letter from said official. Final approval of appropriate zoning must be achieved and documentation of acceptable zoning for the Development, as proposed in the Application, must be provided to the Department at the time the Commitment Fee, or Determination Notice Fee, is paid. If this evidence is not provided with the Commitment Fee, any commitment of credits will be rescinded. No extensions may be requested for the deadline for submitting evidence of final approval of appropriate zoning.

(iii) In the case of a Rehabilitation Development, if the property is currently a non-conforming use as presently zoned, a letter which discusses the items in subclauses (I) - (IV) of this clause:

(I) a detailed narrative of the nature of non-conformance;

(II) the applicable destruction threshold;

(III) owner's rights to reconstruct in the event of damage; and

(IV) penalties for noncompliance.

(C) Evidence of interim and permanent financing sufficient to fund the proposed Total Housing Development Cost less any other funds requested from the Department and any other sources documented in the Application. Any local, state or federal financing identified in this section which restricts household incomes at any AMGI lower than restrictions required pursuant to the Rules must be identified in the Rent Schedule and the local, state or federal income restrictions must include corresponding rent levels that do not exceed 30% of the income limitation in accordance with §42(g), Internal Revenue Code. The income and corresponding rent restrictions will be continuously maintained over the compliance and extended use period as specified in the LURA. Such evidence must be consistent with the sources and uses of funds represented in the Application and shall be provided in one or more of the following forms described in clauses (i) - (iv) of this subparagraph:

(i) bona fide financing in place as evidenced by:

(I) a valid and binding loan agreement;

(II) deed(s) of trust in the name of the Development Owner expressly allowing transfer to the Development Owner; and

(III) for TX-USDA-RHS 515 Developments involving Rehabilitation, an executed TX-USDA-RHS letter indicating TX-USDA-RHS has received a Consent Request, also referred to as a Preliminary Submittal, as described in 7 CFR 3560.406; or,

(ii) bona fide commitment or term sheet for the interim and permanent loans issued by a lending institution or mortgage company that is actively and regularly engaged in the business of lending money which is addressed to the Development Owner and which has been executed by the lender (the term of the loan must be for a minimum of 15 years with at least a 30 year amortization). The commitment must state an expiration date and all the terms and conditions applicable to the financing including the mechanism for determining the interest rate, if applicable, and the anticipated interest rate and any required Guarantors. Such a commitment may be conditional upon the completion of specified due diligence by the lender and upon the award of tax credits; or,

(iii) any Federal, State or local gap financing, whether of soft or hard debt, must be identified at the time of Application as evidenced by ~~. At a minimum~~:

(I)~~,~~ evidence from the lending agency that an application for funding has been made or from the Applicant indicating an intent to apply for funding; and

(II) a term sheet which clearly describes the amount and terms of the funding, and the date by which the funding determination will be made and any commitment issued, must be submitted; and~~.~~

(III) Evidence of application for funding from another Department program is not required except as indicated on the Uniform Application, as long as the Department funding is on a concurrent funding period with the Application submitted and the Applicant clearly indicates that such an ~~a~~Application has been filed as required by the Application Submission Procedures Manual; and ~~.~~

(IV) If the commitment from any ~~the other~~ funding source identified in this subparagraph has not been received by the date the Department's Commitment Notice is to be submitted, the Application will be reevaluated for financial feasibility. If the Application is infeasible without the ~~other~~ funding source, the Commitment Notice may~~will~~ be rescinded; or

(iv) if the Development will be financed through more than 5% of Development Owner contributions, provide a letter from an Third Party CPA verifying the capacity of the Development Owner to provide the proposed financing with funds that are not otherwise committed together with a letter from the Development Owner's bank or banks confirming that sufficient funds are available to the Development Owner. Documentation must have been prepared and executed not more than 6 months prior to the close of the Application Acceptance Period.

(D) Provide the documents in clause (i) – (iii) of this subparagraph:

(i) a copy of the full legal description

(ii) a current valuation report from the county tax appraisal district and documentation of the current total property tax rate for the proposed Property, and

(iii) a copy of:

(I) the current title policy which shows that the ownership (or leasehold) of the land/Development is vested in the exact name of the Development Owner; or

(II) a current title commitment with the proposed insured matching exactly the name of the Development Owner and the title of the Property/Development vested in the exact name of the seller or lessor as indicated on the sales contract or lease.

(III) if the title policy or commitment is more than six months old as of the day the Application Acceptance Period closes, then a letter from the title company indicating that nothing further has transpired on the policy or commitment.

(8) Evidence in the form of a certification of all of the notifications described in the subparagraphs of this paragraph. Such notices must be prepared in accordance with the "Public Notifications" certification ~~statement~~ provided in the Application.

(A) Evidence ~~of notification~~ in the form of a certification that the Applicant met ~~meeting~~ the requirements and deadlines identified in clause (i) through ~~of this subparagraph to all of the individuals and entities identified in clause~~ (iii) of this subparagraph. ~~Evidence of such notifications must be in the form of a certification in the format provided by the Department that the Applicant made the notifications to all required individuals and entities in the format provided by the Department on or before the deadlines~~ Notification must not be older than three months from the first day of the Application Acceptance Period. (2306.6705(9)) If evidence of these notifications was submitted with the Pre-Application Threshold for the same Application and satisfied the Department's review of Pre-Application Threshold, then no additional notification is required at Application, except that re-notification is required by tax credit Applicants who have submitted a change in the Application, whether from Pre-Application to Application or as a result of a deficiency that reflects a total Unit increase of greater than 10%, ~~an~~total increase of greater than 10% for any given level of AMGI, or a change to the population being served (elderly, Intergenerational Housing or family). For Applications submitted for Tax-Exempt Bond Developments or Applications not applying for Tax Credits, but applying only under other Multifamily Programs (HOME, Housing Trust Fund, etc.), notifications and proof thereof must not be older than three months prior to the date the Volume III of the Application is submitted.

(i) The Applicant must request Neighborhood Organizations on record with the county and state whose boundaries include the proposed Development Site from local elected officials as follows:

(I) No later than January 15, 2007 (or for Tax-Exempt Bond Applications, Rural Rescue, or Applications not applying for Tax Credits, but applying only for other Multifamily Programs such as HOME, Housing Trust Fund, etc., not later than 21 days prior to submission of the Threshold documentation), the Applicant must e-mail, fax or mail with registered receipt a completed, "Neighborhood Organization Request" letter as provided in the Application to the local elected official for the city and county where the Development is proposed to be located. If the Development is located in an Area that has district based local elected officials, or both at-large and district based local elected officials, the request must be made to the city council member or county commissioner representing that district; if the Development is located an Area that has only at-large local elected officials, the request must be made to the mayor or county judge for the jurisdiction. If the Development is not located within a city or is located in the Extra Territorial Jurisdiction (ETJ) of a city, the county local elected official must be contacted. In the event that local elected officials refer the Applicant to another source, the Applicant must request neighborhood organizations from that source in the same format.

(II) If no reply letter is received from the local elected officials by February 25, 2007, (or For Tax-Exempt Bond Developments or Applications not applying for Tax Credits, but applying only for other Multifamily Programs such as HOME, Housing Trust Fund, etc., by 7 days prior to the submission of the Application), then the Applicant must certify to that fact in the "Application Notification Certification Form" provided in the Application.

(III) The Applicant must list all Neighborhood Organizations on record with the county or state whose boundaries include the proposed Development Site as outlined by the local elected officials, or that the Applicant has knowledge of as of the submission of the Application, in the "Application Notification Certification Form" provided in the Application.

~~(i) Each such notice must include, at a minimum, all of the following:~~

~~(I) The Applicant's name, address, individual contact name and phone number;~~

~~(II) The Development name, address, city and county;~~

~~(III) A statement informing the entity or individual being notified that the Applicant is submitting a request for Housing Tax Credits with the Texas Department of Housing and Community Affairs;~~

~~(IV) Statement of whether the Development proposes New Construction or Rehabilitation;~~

~~(V) The type of Development being proposed (single family homes, duplex, apartments, townhomes, highrise etc.) and population being served (family, Intergenerational Housing or elderly);~~

~~(VI) The approximate total number of Units and approximate total number of low-income Units;~~

~~(VII) The approximate percentage of Units serving each level of AMGI (e.g. 20% at 50% of AMGI, etc.) and the percentage of Units that are market rate;~~

~~(VIII) The number of Units and proposed rents (less utility allowances) for the low-income Units and the number of Units and the proposed rents for any market rate Units. Rents to be provided are those that are effective at the time of the Application, which are subject to change as annual changes in the area median income occur; and~~

~~(IX) The expected completion date if credits are awarded.~~

(ii) Not later than the date the Application is submitted, notification must be sent to all of the following individuals and entities by e-mail, fax or mail with registered receipt return or similar tracking mechanism e-mail, fax or mail with registered receipt in the format required in the "Application Notification Template" provided in the Application. Developments located in an Extra Territorial Jurisdiction (ETJ) of a city are not required to notify city officials. Evidence of Notification is required in the form of a certification in the "Application Notification Certification Form" provided in the Application, although it is encouraged that Applicants retain proof of notifications in the event that the Department requires proof of Notification. Officials to be notified are those officials in office at the time the Application is submitted.

~~(ii) Notification must be sent to all of the following individuals and entities. Officials to be notified are those officials in office at the time the Application is submitted.~~

(I) Neighborhood Organizations on record with the state or county whose boundaries include the proposed Development Site as identified in (i)(III) of this subparagragh. ~~Applicants must provide evidence that neighborhood organizations were notified pursuant to this subsection. Evidence in the form of a certification must be provided that a letter requesting information on neighborhood organizations on record with the state or county in which the Development is to be located and whose boundaries contain the proposed Development site and meeting the requirements of "Neighborhood Organization Request" as outlined in the Application was sent no later than January 15, 2006 (or for Tax-Exempt Bond Applications or Rural Rescue Applications not later than 21 days prior to submission of the Threshold documentation) to the local elected official for the city or if located outside of a city, then the county where the Development is proposed to be located. If the Development is located in a jurisdiction that has district based local elected officials, or both at-large and district based local elected officials, the request must be made to the city council member or county commissioner representing that district; if the Development is located in a jurisdiction that has only at-large local elected officials, the request must be made to the mayor or county judge for the jurisdiction. For urban/exurban areas, entities identified in the letters from the local elected official whose boundaries include the proposed Development and whose listed address has the same zip code as the zip code for the Development must be provided with written notification. If any other zip codes exist within a half mile of the Development site, then all entities identified in the letters with those adjacent zip codes must also be provided with written notification. For rural areas, all entities identified in the letters whose listed address is within a half mile of the Development site must be provided with written notification. If the Applicant can certify that there are no neighborhood organizations on a list from the local elected officials which are required to be notified pursuant to this subsection, then such certification in lieu of notification may be acceptable. If no reply letter is received from the local elected officials by February 25, 2006, (or For Tax-Exempt Bond Developments or Applications not applying for Tax Credits, but applying only for other Multifamily Programs such as HOME, Housing Trust Fund, etc., by 7 days prior to the submission of the Application) then the Applicant must submit a statement attesting to that fact. If an Applicant has knowledge of any neighborhood organizations on record with the state or county in which the Development is to be located and whose boundaries contain the proposed Development site, the Applicant must notify those organizations. In the event that local elected officials refer the Applicant to another source, the Applicant must also request neighborhood organizations from that source in the same format. If the Applicant has no knowledge of neighborhood organizations within whose boundaries the Development is proposed to be located, the Applicant must attest to that fact in the format provided by the Department as part of the Application.~~

(II) Superintendent of the school district containing the Development;

(III) Presiding officer of the board of trustees of the school district containing the Development;

(IV) Mayor of the governing body of any municipality containing the Development;

(V) All elected members of the governing body of any municipality containing the Development;

(VI) Presiding officer of the governing body of the county containing the Development;

(VII) All elected members of the governing body of the county containing the Development;

(VIII) State senator of the district containing the Development; and

(IX) State representative of the district containing the Development.

(iii) Each such notice must include, at a minimum, all of the following:

(I) The Applicant's name, address, individual contact name and phone number;

(II) The Development name, address, city and county;

(III) A statement informing the entity or individual being notified that the Applicant is submitting a request for Housing Tax Credits with the Texas Department of Housing and Community Affairs;

(IV) Statement of whether the Development proposes New Construction, Reconstruction, or Rehabilitation;

(V) The type of Development being proposed (single family homes, duplex, apartments, townhomes, highrise etc.) and population being served (family, Intergenerational Housing or elderly);

(VI) The approximate total number of Units and approximate total number of low-income Units;

(VII) The approximate percentage of Units serving each level of AMGI (e.g. 20% at 50% of AMGI, etc.) and the percentage of Units that are market rate;

(VIII) The number of Units and proposed rents (less utility allowances) for the low-income Units and the number of Units and the proposed rents for any market rate Units. Rents to be provided are those that are effective at the time of the Application, which are subject to change as annual changes in the area median income occur; and

(IX) The expected completion date if credits are awarded.

(B) Signage on Property or Alternative. A Public Notification Sign shall be installed on the Development ~~s~~Site prior to the date the Application is submitted. Scattered site Developments must install a sign on each Development Site. For Tax-Exempt Bond Developments~~ the sign must be installed no later than 30 days after the Department's receipt of Volumes I and II~~,~~.~~ regardless of the Priority of the application or the Issuer, the sign must be installed within thirty (30) days of the Department's receipt of Volumes I and II or thirty (30) days prior to the Bond public hearing date, whichever is earlier. Evidence submitted with the Application must include photographs of the site with the installed sign~~ and invoice receipt confirming installation from the entity that installed the sign~~. The sign must be at least 4 feet by 8 feet in size and located within twenty feet of, and facing, the main road adjacent to the site. The sign shall be continuously maintained on the site until the day that the Board takes final action on the Application for the Development. The information and lettering on the sign must meet the requirements identified in the Application. For Tax-Exempt Bond Developments~~ for which the Department is not the issuer of the bonds~~, regardless of the issuer, the Applicant must certify to the fact that the date, time and location of the TEFRA hearing are indicated on the sign as soon as the hearing has been scheduled. As an alternative to installing a Public Notification Sign and at the same required time, the Applicant may instead, at the Applicant's option, mail written notification to those addresses described in either clause (i) or (ii) of this subparagraph. This written notification must include the information otherwise required for the sign as provided in the Application. If the Applicant chooses to provide this mailed notice in lieu of signage, the final Application must include a map of the proposed Development site and mark the distance required by clause (i) or (ii) of this subparagraph, up to 1,000 feet, showing street names and addresses; a list of all addresses the notice was mailed to; an exact copy of the notice that was mailed; and a certification that the notice was mailed through the U.S. Postal Service and stating the date of mailing. For Tax-Exempt Bond Development, regardless of the issuer, the notification must also include the date, time and location of the bond public hearing date and must be mailed within thirty (30) days of the Department's receipt of the Volume I and II or thirty (30) days prior to the bond public hearing date, whichever is earlier. If the option in clause (i) of this subparagraph is used, then evidence must be provided affirming the local zoning notification requirements.

(i) All addresses required for notification by local zoning notification requirements. For example, if the local zoning notification requirement is notification to all those addresses within 200 feet, then that would be the distance used for this purpose; or

(ii) For Developments located in communities that do not have zoning, communities that do not require a zoning notification, or those located outside of a municipality, all addresses located within 1,000 feet of any part of the proposed Development site.

(C) If any of the Units in the Development are occupied at the time of Application, then the Applicant must certify that they have notified each tenant at the Development and let the tenants know of the Department's public hearing schedule for comment on submitted Applications.

(9) Evidence of the Development's proposed ownership structure and the Applicant's previous experience as described in subparagraphs (A) - (D~~E~~) of this paragraph.

(A) Chart which clearly illustrates the complete organizational structure of the final proposed Development Owner and of any Developer or Guarantor, providing the names and ownership percentages of all Persons having an ownership interest in the Development Owner or the Developer or Guarantor, as applicable, whether directly or through one or more subsidiaries. Nonprofit entities, public housing authorities, publicly traded corporations, individual board members, and executive directors must be included in this exhibit.

(B) Each Applicant, Development Owner, Developer or Guarantor, or any entity shown on an organizational chart as described in subparagraph (A) of this paragraph that has ownership interest in the Development Owner, Developer or Guarantor, shall provide the following documentation, as applicable:

(i) For entities that are not yet formed but are to be formed either in or outside of the state of Texas, a certificate of reservation of the entity name from the Texas Secretary of State; or

(ii) For existing entities whether formed in or outside of the state of Texas, evidence that the entity has the authority to do business in Texas or has applied for such authority.

(C) Evidence that each entity shown on the organizational chart described in subparagraph (A) of this paragraph that has ownership interest in the Development Owner, Developer or Guarantor, has provided a copy of the completed and executed Previous Participation and Background Certification Form to the Department. Nonprofit entities, public housing authorities and publicly traded corporations are required to submit documentation for the entities involved; documentation for individual board members and executive directors is required for this exhibit. Any Person receiving more than 10% of the Developer fee will also be required to submit documents for this exhibit. The ~~2006~~2007 versions of these forms, as required in the Uniform Application, must be submitted. Units of local government are also required to submit this document. The form must include a list of all developments that are, or were, previously under ownership or Control of the Person. All participation in any TDHCA funded or monitored activity, including non-housing activities, must be disclosed.

~~(D) Evidence in the form of a certification from the Applicant, that each entity shown on the organizational chart described in subparagraph (A) of this paragraph that has ownership interest in the Development Owner, Developer or Guarantor, and has, or has had, ownership or Control of affordable housing, being housing that receives any form of financing and/or assistance from any Governmental Entity for the purpose of enhancing affordability to persons of low or moderate income, outside the state of Texas, that such Persons have submitted the appropriate "National Previous Participation and Background Certification Form" to the appropriate Housing Credit Agency for each state in which they have developed or operated affordable housing. Nonprofit entities and public housing authorities are only required to submit documentation for the entity itself; documentation for board members and executive directors is not required for this exhibit. Any Person receiving more than 10% of the Developer fee will also be required to submit documents for this exhibit. This form is only necessary when the Developments involved are outside the state of Texas. An original form is not required.~~

(~~E~~D) Evidence, in the form of a certification, that one of the Development Owner's General Partners, the Developer or their Principals have a record of successfully constructing or developing residential units in the capacity of owner, General Partner or Developer. Evidence must be a certification from the Department that the Person with the experience satisfies this exhibit, as further described under subsection (g)(1) of this section. Applicants must request this certification at least fourteen days prior to the close of the Application Acceptance Period. Applicants must ensure that the Person whose name is on the certification appears in the organizational chart provided in subparagraph (A) of this paragraph.

(10) Evidence of the Development's projected income and operating expenses as described in subparagraphs (A) - (D) of this paragraph:

(A) All Developments must provide a 30-year proforma estimate of operating expenses and supporting documentation used to generate projections (operating statements from comparable properties).

(B) If rental assistance, an operating subsidy, an annuity, or an interest rate reduction payment is proposed to exist or continue for the Development, any related contract or other agreement securing those funds or proof of Application must be provided, which at a minimum identifies the source and annual amount of the funds, the number of Units receiving the funds, and the term and expiration date of the contract or other agreement. (2306.6705(a)(4))

(C) Applicant must provide documentation from the source of the "Utility Allowance" estimate used in completing the Rent Schedule provided in the Application. This exhibit must clearly indicate which utility costs are included in the estimate. If there is more than one entity (Section 8 administrator, public housing authority) responsible for setting the utility allowance(s) in the area of the Development location, then the Utility Allowance selected must be the one which most closely reflects the actual utility costs in that Development area. In this case, documentation from the local utility provider supporting the selection must be provided.

(D) Occupied Developments undergoing Rehabilitation must also submit the items described in clauses (i) - (iv) of this subparagraph.

(i) The items in subclauses (I) and (II) of this clause are required unless the current property owner is unwilling to provide the required documentation. In that case, submit a signed statement as to its inability to provide all documentation as described.

(I) Submit at least one of the following:

(-a-) historical monthly operating statements of the subject Development for 12 consecutive months ending not more than 3 months from the first day of the Application Acceptance Period;

(-b-) The two most recent consecutive annual operating statement summaries;

(-c-) the most recent consecutive six months of operating statements and the most recent available annual operating summary;

(-d-) all monthly or annual operating summaries available and a written statement from the seller refusing to supply any other summaries or expressing the inability to supply any other summaries, and any other supporting documentation used to generate projections may be provided; and

(II) a rent roll not more than 6 months old as of the first day the Application Acceptance Period, that discloses the terms and rate of the lease, rental rates offered at the date of the rent roll, Unit mix, tenant names or vacancy, and dates of first occupancy and expiration of lease.

(ii) a written explanation of the process used to notify and consult with the tenants in preparing the Application; (2306.6705(a)(6))

(iii) For Intergenerational Applications or Qualified Elderly Developments, identification of the number of existing tenants qualified under the target population elected under this title;

(iv~~ii~~) a relocation plan outlining relocation requirements and a budget with an identified funding source; and (2306.6705(a)(6))

(~~i~~v) if applicable, evidence that the relocation plan has been submitted to the appropriate legal agency. (2306.6705(a)(6))

(11) Applications involving Nonprofit General Partners and Qualified Nonprofit Developments.

(A) All Applications involving a nonprofit General Partner, regardless of the Set-Aside applied under, must submit all of the documents described in clauses (i) and (ii) of this subparagraph: (2306.6706)

(i) an IRS determination letter which states that the nonprofit organization is a 501(c)(3) or (4) entity or ; and

(ii) the “Nonprofit Participation Exhibit.”

(B) Additionally, all Applications applying under the Nonprofit Set-Aside, established under §~~50.~~49.7(b)(1) of this title, must also provide the following information with respect to the Qualified Nonprofit Organization as described in clauses (i) - (~~v~~iii) of this subparagraph.

~~(i) copy of the page from the articles of incorporation or bylaws indicating that one of the exempt purposes of the nonprofit organization is to provide low-income housing;~~

~~(ii) copy of the page from the articles of incorporation or bylaws indicating that the nonprofit organization prohibits a member of its board of directors, other than a chief staff member serving concurrently as a member of the board, from receiving material compensation for service on the board;~~

(i~~ii~~) a Third Party legal opinion stating:

(I) that the nonprofit organization is not affiliated with or Controlled by a for-profit organization and the basis for that opinion, and

(II) that the nonprofit organization is eligible, as further described, for a Housing Credit Allocation from the Nonprofit Set-Aside and the basis for that opinion. Eligibility is contingent upon the non-profit organization Controlling the Development, or if the organization’s Application is filed on behalf of a limited partnership, or limited liability company, the Qualified Nonprofit Organization must be the controlling Managing Member; and otherwise meet the requirements of the Code, §42(h)(5),

(III) that one of the exempt purposes of the nonprofit organization is to provide low-income housing, and

(IV) that the nonprofit organization prohibits a member of its board of directors, other than a chief staff member serving concurrently as a member of the board, from receiving material compensation for service on the board, and

(V) that the Qualified Nonprofit Development will have the nonprofit entity or its nonprofit affiliate or subsidiary be the Developer or co-Developer as evidenced in the development agreement; and

(ii~~v~~) a copy of the nonprofit organization's most recent audited financial statement; and

~~(v) a certification that the Qualified Nonprofit Development will have the nonprofit entity or its nonprofit affiliate or subsidiary be the Developer or co-Developer as evidenced in the development agreement.~~

(~~v~~iii) evidence in the form of a certification that a majority of the members of the nonprofit organization's board of directors principally reside:

(I) in this state, if the Development is located in a ~~r~~Rural ~~a~~Area; or

(II) not more than 90 miles from the Development, if the Development is not located in a ~~r~~Rural ~~a~~Area.

(12) Applicants applying for acquisition credits must provide must provide

(A) an appraisal meeting the requirements of subparagraph (14)(D) of this subsection, ~~and~~

(B) an “Acquisition of Existing Buildings Form~~.~~”, and

(C) a Third Party legal opinion stating that the proposed acquisition meets the requirements of the Code, §42(d)(2)(B).

(13) Evidence of Financial Statement and Authorization to Release Credit Information. The financial statements and authorization to release credit information must be unbound and clearly labeled. A “Financial Statement and Authorization to Release Credit Information” must be completed and signed for any General Partner, Developer or Guarantor and any Person that has ownership interest in the Development Owner, General Partner, Developer, or Guarantor. Nonprofit entities, public housing authorities and publicly traded corporations are only required to submit documentation for the entities involved; documentation for individual board members and executive directors is not required for this exhibit.

(A) Financial statements for an individual must not be older than 90 days from the ~~date of Application submission~~first day of the Application Acceptance Period.

(B) Financial statements for partnerships or corporations should be for the most recent fiscal year ended 90 days ~~prior to the date of Application submission~~from the first day of the Application Acceptance Period. An audited financial statement should be provided, if available, and all partnership or corporate financials must be certified. Financial statements are required for an entity even if the entity is wholly-owned by a Person who has submitted this document as an individual.

(C) Entities that have not yet been formed and entities that have been formed recently but have no assets, liabilities, or net worth are not required to submit this documentation, but must submit a statement with their Application that this is the case.

(14) Supplemental Threshold Reports. All Applications must include documents under subparagraph (A) and (B) of this paragraph. If required under paragraph (6) of this subsection, a Property Condition Assessment as described in subparagraph (C) of this paragraph must be submitted. If required under paragraph (7) or (12) of this subsection, an appraisal as described in subparagraph (D) of this paragraph must be submitted. All submissions must meet the requirements stated in subparagraphs (E) – (G) of this paragraph.

(A) A Phase I Environmental Site Assessment (ESA) report:

(i) prepared by a qualified Third Party;

(ii) dated not more than 12 months prior to the first day of the Application Acceptance Period. In the event that a Phase I Environmental Site Assessment on the Development is more than 12 months old prior to the first day of the Application Acceptance Period, the Applicant must supply the Department with an updated letter or updated report dated not more than three months prior to the first day of the Application Acceptance Period from the Person or organization which prepared the initial assessment confirming that the site has been re-inspected and reaffirming the conclusions of the initial report or identifying the changes since the initial report; and

(iii) prepared in accordance with the Department's Environmental Site Assessment Rules and Guidelines, §1.35 of this title.

(iv) Developments whose funds have been obligated by TX-USDA-RHS will not be required to supply this information; however, the Applicants of such Developments are hereby notified that it is their responsibility to ensure that the Development is maintained in compliance with all state and federal environmental hazard requirements.

(B) A comprehensive Market Analysis report:

(i) prepared by a Third Party Qualified Market Analyst approved by the Department in accordance with the approval process outlined in the Market Analysis Rules and Guidelines, §1.33 of this title;

(ii) dated not more than 6 months prior to the first day of the Application Acceptance Period. In the event that a Market Analysis is more than 6 months old prior to the first day of the Application Acceptance Period, the Applicant must supply the Department with an updated Market Analysis from the Person or organization which prepared the initial report; however the Department will not accept any Market Analysis which is more than 12 months old as of the first day of the Application Acceptance Period; and

(iii) prepared in accordance with the methodology prescribed in the Department's Market Analysis Rules and Guidelines, §1.33 of this title.

(iv) For Applications in the TX-USDA-RHS Set-Aside proposing acquisition and Rehabilitation with residential structures at or above 80% occupancy at the time of Application Submission, the appraisal, required under paragraph (7) or (12) of this subsection and prepared in accordance with the Uniform Standards of Professional Appraisal Practice and the Department's Appraisal Rules and Guidelines, §1.34 of this title, will satisfy the requirement for a Market Analysis; however the Department may request additional information as needed. (2306.67055) (§42(m)(1)(A)(iii))

(C) A Property Condition Assessment (PCA) report:

(i) prepared by a qualified Third Party;

(ii) dated not more than 3~~6~~ months prior to the first day of the Application Acceptance Period. In the event that the PCA report is more than 3 months old prior to the first day of the Application Acceptance Period, the Applicant must supply the Department with an updated PCA report from the Person or organization which prepared the initial report; however the Department will not accept any PCA report which is more than 6 months old as of the first day of the Application Acceptance Period; and

(iii) prepared in accordance with the Department's Property Condition and Assessment Rules and Guidelines, §1.36 of this title.

(iv) For Developments which require a capital needs assessment from TX-USDA-RHS, the capital needs assessment may be substituted and may be more than 6 months old, as long as TX-USDA-RHS has confirmed in writing that the existing capital needs assessment is still acceptable.

(D) An appraisal report:

(i) prepared by a qualified Third Party;

(ii) dated not more than 6 months prior to the first day of the Application Acceptance Period. In the event that an appraisal is more than 6 months old prior to the first day of the Application Acceptance Period, the Applicant must supply the Department with an updated appraisal from the Person or organization which prepared the initial report; however the Department will not accept any appraisal which is more than 12 months old as of the first day of the Application Acceptance Period; and

(iii) prepared in accordance with the Uniform Standards of Professional Appraisal Practice and the Department's Appraisal Rules and Guidelines, §1.34 of this title.

(iv) For Developments which require an appraisal from TX-USDA-RHS, the appraisal may be more than 6 months old, as long as TX-USDA-RHS has confirmed in writing that the existing appraisal is still acceptable.

(E) Inserted at the front of each of these reports must be a transmittal letter from the individual preparing the report that states that the Department is granted full authority to rely on the findings and conclusions of the report. The transmittal letter must also state the report preparer has read and understood the Department rules specific to the report found at §§1.33 – 1.36.

(F) All Applicants acknowledge by virtue of filing an Application that the Department is not bound by any opinion expressed in the report. The Department may determine from time to time that information not required in the Department's Rules and Guidelines will be relevant to the Department's evaluation of the need for the Development and the allocation of the requested Housing Credit Allocation Amount. The Department may request additional information from the report provider or revisions to the report to meet this need. In instances of non-response by the report provider, the Department may substitute in-house analysis.

(G) The requirements for each of the reports identified in subparagraphs (A) – (C) of this paragraph can be satisfied in either of the methods identified in clauses (i) or (ii) of this subparagraph and meet the requirements of clause (iii) of this subparagraph.

(i) Upon Application submission, the documentation for each of these exhibits may be submitted in its entirety; or

(ii) Upon Application submission, the Applicant may provide evidence in the form of an executed engagement letter with the party performing each of the individual reports that the required exhibit has been commissioned to be performed and that the delivery date will be no later than ~~April 1,~~ April 2, ~~2006~~2007. In addition to the submission of the engagement letter with the Application, a map must be provided that reflects the Qualified Market Analyst's intended market area. Subsequently, the entire exhibit must be submitted on or before 5:00 p.m. CST, ~~April 1,~~ April 2, ~~2006~~2007. If the entire exhibit is not received by that time, the Application will be terminated and will be removed from consideration.

(iii) A single hard copy of the report and a searchable soft copy in the format of a single file containing all information and exhibits in the hard copy report, presented in the order they appear in the hard copy report on a CD-R clearly labeled with the report type, Development name, and Development location are required.

(15) Self-Scoring. Applicant's self-score must be completed on the "Application Self-Scoring Form." An Applicant may not adjust the Application Self Scoring Form without a request from the Department as a result of an Administrative Deficiency.

(i) **Selection Criteria.** All Applications will be scored and ranked using the point system identified in this subsection. Unless otherwise stated, ~~When applicable~~, use normal rounding. Points other than (2) and (6) of this subsection will not be awarded unless requested in the Self Scoring Form. All Applications, with the exception of TX-USDA-RHS Applications, must receive a final score totaling a minimum of 105, not including any points awarded or deducted pursuant to (2) and (6) of this subsection ~~125 points~~ to be eligible for an allocation of Housing Tax Credits. Maximum Total Points: 215~~09~~.

(1) **Financial Feasibility of the Development.** Financial Feasibility of the Development based on the supporting financial data required in the Application that will include a Development underwriting pro forma from the permanent or construction lender. (2306.6710(b)(1)(A)) Applications may qualify to receive 28 points for this item. No partial points will be awarded. Evidence will include the documentation required for this exhibit, as reflected in the Application submitted, in addition to the commitment letter required under subsection (h)(7)(C) of this section. The supporting financial data shall include:

(A) a thirty year pro forma prepared by the permanent or construction lender:

(i) specifically identifying each of the first five~~ten~~ years and every fifth year thereafter;~~.~~

(ii) specifically identifying underlying assumptions including, but not limited to general growth factor applied to income and expense; and

(iii) indicating ~~The pro forma must indicate~~ that the D~~d~~evelopment ~~pro forma~~ maintains a minimum 1.15~~0~~ debt coverage ratio throughout the initial thirty years proposed for all third party lenders that require scheduled repayment~~.~~; and

(B) ~~In addition,~~a statement in the commitment letter ~~must state~~indicating that the lender's assessment finds that the Development will be feasible for thirty years.

(C) ~~Points will be awarded if these criteria are met. No partial points will be awarded.~~ For Developments receiving financing from TX-USDA-RHS, the form entitled "Sources and Uses Comprehensive Evaluation for Multi-Family Housing Loans" or other form deemed acceptable by the Department shall meet the requirements of this section.

(2) **Quantifiable Community Participation from Neighborhood Organizations on Record with the State or County and Whose Boundaries Contain the Proposed Development Site.** Points will be awarded based on written statements of support or opposition from neighborhood organizations on record with the state or county in which the Development is to be located and whose boundaries contain the proposed Development site. (§2306.6710(b)(1)(B); §2306.6725(a)(2)). It is possible for points to be awarded or deducted based on written statements from organizations that were not identified by the process utilized for notification purposes under subsection (h)(8)(A)(ii)(I) of this section if the organization provides the information and documentation required below. It is also possible that neighborhood organizations that were initially identified as appropriate organizations for purposes of the notification requirements will subsequently be determined by the Department not to meet the requirements for scoring.

(A) Basic Submission Requirements for Scoring. Each neighborhood organization may submit one letter (and enclosures) that represents the organization's input. In order to receive a point score, the letter (and enclosures) must be received or postmarked (or similar tracking system) by the Department no later than March~~April~~ 1, ~~2006~~2007, for letters relating to Applications that submitted a Pre-Application, or April 2, 2007 if a Pre-Application was not submitted. Letters should be addressed to the Texas Department of Housing and Community Affairs, "Attention: Executive Director (Neighborhood Input)." Letters received after ~~April 1, 2006~~the applicable deadline will be summarized for the Board's information and consideration, but will not affect the score for the Application. The organization's letter (and enclosures) must:

(i) state the name and location of the proposed Development on which input is provided. A letter may provide input on only one proposed Development; if an organization is eligible to provide input on additional Developments, each Development must be addressed in a separate letter;

(ii) certify that the letter is ~~be~~ signed by the person with the authority to sign on behalf of the neighborhood organization~~the chairman of the board, chief executive officer, or comparable head of the organization~~, and provide the street and/or mailing addresses, day and evening phone numbers, and e-mail addresses and/or facsimile numbers for the signer of the letter and for one additional contact for the organization;

(iii) ~~establish~~ certify that the organization has boundaries, ~~state what the boundaries are, and establish~~ and that the boundaries in effect December 1, 2006 contain the proposed D~~d~~evelopment site.~~ A map must be provided with the geographic boundaries of the organization and the proposed Development site clearly marked within those boundaries~~;

(iv) ~~establish~~ certify that the organization is a "neighborhood organization." A "neighborhood organization" is defined as an organization of persons living near one another within the organization's defined boundaries that contain the proposed Development site and that has a primary purpose of working to maintain or improve the general welfare of the neighborhood. "Neighborhood organizations" include homeowners associations, property owners associations, and resident councils ~~(only for Rehabilitation or demolition with New Construction applications~~ in which the council is commenting on the ~~r~~Rehabilitation or Reconstruction ~~demolition/ New Construction~~ of the ~~property~~ Development occupied by the residents~~)~~. "Neighborhood organizations" do not include broader based "community" organizations; organizations that have no members other than board members; chambers of commerce; community development corporations; churches; school related organizations; Lions, Rotary, Kiwanis, and similar organizations; Habitat for Humanity; Boys and Girls Clubs; charities; public housing authorities; or any governmental entity. Organizations whose boundaries include an entire county or larger area are not "neighborhood organizations~~.~~", unless the large organization is a parent organization of smaller organizations whose purpose, and composition would otherwise meet the requirements of this definition. —Organizations whose boundaries include an entire city are generally not "neighborhood organizations~~.~~", unless the city organization is a parent organization of smaller organizations whose purpose, and composition would otherwise meet the requirements of this definition.

(v) include documentation showing that the organization is on record as of ~~March 1~~December 1, 2006 with the state or county in which the Development is proposed to be located. A record from the Secretary of State showing that the organization is incorporated or from the county clerk showing that the organization is on record with the county is sufficient. For a property owners association, a record from the county showing that the organization's management certificate is on record is sufficient. The documentation must be from the state or county and be current. If an organization's status with the Secretary of State is shown as "forfeited," "dissolved," or any similar status in the documentation provided by the organization, the organization will not be considered on record with the state, unless corrected in a deficiency response. It is insufficient to be "on record" to provide only a request to the county or a state entity to be placed on record or to show that the organization has corresponded with such an entity or used its services or programs. ~~It is insufficient to show that the organization is on record with a city~~. There are two ~~As an~~ options to be considered on record with the Department (and thereby the state)~~,~~:

(I) The neighborhood organization may submit a letter from the city showing that the organization was on record with a city as of December 1, 2006 may be submitted ~~including a contact name with a mailing address and phone number; name and position of officers; and a written description and map of the organization's geographical boundaries must be received by the Department no later than March 1, 2006~~with the QCP Package to place the organization on record with the state effective December 1, 2006. ~~The letter should be addressed to the Texas Department of Housing and Community Affairs, "Attention: Executive Director (Recording of Neighborhood Organization)".~~ ; or

(II) The neighborhood organization may submit a letter including a contact name with a mailing address and phone number; and a written description and map of the organization's geographical boundaries, as well as proof that the boundaries described were in effect as of December 1, 2006. Under this option, a certification will not suffice. This request must be received no later than February 15, 2007. Acceptance of this documentation by the Department will be effective December 1, 2006 and will satisfy the "on record with the state" requirement, but is not a determination that the organization is a "neighborhood organization" or that other requirements are met. The Department is permitted to issue a deficiency notice for this registration process and if satisfied, the organization will still be deemed to be timely placed on record with the state.

(vi) accurately ~~state~~ certify that the neighborhood organization was not formed by any Applicant, Developer, or any employee or agent of any Applicant (the seller of land is not considered to be an agent of the Application)in the ~~2006~~2007 ~~t~~Tax ~~c~~Credit Application Round, that the organization and any member did not accept money or a gift to cause the neighborhood organization to take its position of support or opposition, and has not provided any assistance other than education and information sharing to the neighborhood organization to meet the requirements of this subparagraph for any application in the Application Round (i.e. hosting a public meeting, providing the "TDHCA Information Packet for Neighborhoods" to the neighborhood organization, or referring the neighborhood organization to TDHCA staff for guidance). Applicants may not provide any "production" assistance to meet these requirements for any application in the Application Round (i.e. use of fax machines owned by the Applicant, use of legal counsel related to the Applicant, or assistance drafting a letter for the purposes of this subparagraph).

(vii) ~~state the total number of members of the organization and provide a brief description of the process used to determine the members' position of support or opposition.~~While not required, ~~T~~the organization is encouraged to hold a meeting to which all the members of the organization are invited to consider whether the organization should support, oppose, or be neutral on the proposed Development, and to have the membership vote on whether the organization should support, oppose, or be neutral on the proposed Development. The organization is also encouraged to invite the developer to this meeting.

~~(viii) include the organization's articles of incorporation and/or bylaws and/or organizational documents created on or before March 1, 2006, that, at a minimum, identify the boundaries of the organization, identify the officers of the organization and clearly indicate the purpose of the organization.~~

(~~ix~~viii) ~~The boundaries in effect for the organization on March 1, 2006, will be those boundaries utilized for the purposes of evaluating these letters and determining eligibility.~~ The organization must accurately certify that the boundaries in effect December 1, 2006 are those identified in the letter and that ~~A~~annexations occurring after that time to include a Development site will not be considered eligible. A Development site must be entirely contained within the boundaries of the organization to satisfy eligibility for this item; a site that is only partially within the boundaries will not satisfy the requirement that the boundaries contain the proposed Development site.

(ix) Letters from organizations, and subsequent correspondence from organizations, may not be provided via the Applicant which includes facsimile and email communication.

(B) Scoring of Letters (and Enclosures). The input must clearly and concisely state each reason for the organization's support for or opposition to the proposed Development.

(i) The score awarded for each letter for this exhibit will range from a maximum of +24 for the a~~strongest~~ position ~~of~~ support to +12 for the neutral position to 0 for a~~the strongest~~ position of opposition. The number of points to be allocated to each organization's letter will be based on the organization's letter and evidence enclosed with the letter. The final score will be determined by the Executive Director. The Department may investigate a matter and contact the Applicant and neighborhood organizations for more information. The

Department may consider any relevant information specified in letters from other neighborhood organizations regarding a D~~d~~evelopment in determining a score.

(ii) The Department highly values quality public input addressed to the merits of a Development. Input that points out matters that are specific to the neighborhood, the proposed site, the proposed Development, or Developer are valued. If a proposed Development is permitted by the existing or pending zoning or absence of zoning, concerns addressed by the allowable land use that are related to any multifamily development may generally be considered to have been addressed at the local level through the land use planning process. Input concerning positive efforts or the lack of efforts by the Applicant to inform and communicate with the neighborhood about the proposed Development is highly valued. If the neighborhood organization refuses to communicate with the Applicant the efforts of the Applicant will not be considered negative. Input that evidences unlawful discrimination against classes of persons protected by Fair Housing law or the scoring of which the Department determines to be contrary to the Department's efforts to affirmatively further fair housing will not be considered.

(iii) In general, letters that meet the requirements of this paragraph and

(I) establish ~~three or more reasons~~at least one reason for support or opposition will be scored the maximum points for either support (+24 points) or opposition (zero);

~~(II) establish two reasons for support or opposition will be scored up to +18 points for support or +6 points for opposition;~~

~~(III) establish one reason for support or opposition will be scored +13 points for support or +11 points for opposition;~~

(II~~V~~) that do not establish a reason for support or opposition or that are unclear will be considered ineligible and scored as neutral (+12 points).

(iv) Applications for which there are multiple eligible letters received, an average score will be applied to the Application.

(~~i~~v) Applications for which no letters from neighborhood organizations are scored will receive a neutral score of +12 points.

(C) Basic Submission Deficiencies. The Department is authorized but not required to request that the neighborhood organization provide additional information or documentation the Department deems relevant to clarify information contained in the organization's letter (and enclosures). If the Department determines to request additional information from an organization, it will do so by e-mail or facsimile to the e-mail address or facsimile number provided with the organization's letter. If the deficiencies are not clarified or corrected in the Department's determination within seven business days from the date the e-mail or facsimile is sent to the organization, the organization's letter will not be considered further for scoring and the organization will be so advised. This potential deficiency process does not extend any deadline required above for the "Quantifiable Community Participation" process. An organization may not submit additional information or documentation after the applicable deadlines~~April 1, 2006~~ deadline except in response to an e-mail or facsimile from the Department specifically requesting additional information.

(3) **The Income Levels of Tenants of the Development.** Applications may qualify to receive up to 22 points for qualifying under only one of subparagraphs (A) - (F) of this paragraph. To qualify for these points, the household ~~tenant~~ incomes must not be higher than permitted by the AMGI level~~.~~ Households receiving any Section 8 voucher rental subsidies, Tenant Based Rental Assistance (TBRA), or similar rental assistance may not occupy the Units designated for points under this section (excluding 100% Project Based Section 8.) The Development Owner, upon making selections for this exhibit, will set aside Units at the levels of AMGI and will maintain the percentage of such Units occupied by households who do not receive Section 8 voucher rental subsidies, TBRA, or similar rental assistance continuously over the compliance and extended use period as specified in the LURA. These income levels require corresponding rent levels that do not exceed 30% of the income limitation in accordance with §42(g), Internal Revenue Code. (2306.6710(b)(1)(C); 2306.111(g)(3)(B); 2306.6710(e); 42(m)(1)(B)(ii)(I); 2306.111(g)(3)(E))

(A) 22 points if at least 80% of the Total Units in the Development are set-aside with incomes at or below 50% of AMGI; or

(B) 22 points if at least 10% of the Total Units in the Development are set-aside with incomes at or below 30% of AMGI; or

(C) 20 points if at least 60% of the Total Units in the Development are set-aside with incomes at or below 50% of AMGI; or

(D) 18 points if at least 40% of the Total Units in the Development are set-aside with incomes at or below a combination of 50% and 30% of AMGI in which at least 5% of the Total Units are at or below 30% of AMGI; or

(E) 16 points if at least 40% of the Total Units in the Development are set-aside with incomes at or below 50% of AMGI; or

(F) 14 points if at least 35% of the Total Units in the Development are set-aside with incomes at or below 50% of AMGI.

(4) **The Size and Quality of the Units (Development Characteristics).** Applications may qualify to receive up to 20 points. Applications may qualify for points under both subparagraphs (A) and (B) of this paragraph. (2306.6710(b)(1)(D); 42(m)(1)(C)(iii))

(A) Size of the Units. Applications may qualify to receive 6 points. The Development must meet the minimum requirements identified in this subparagraph to qualify for points. Six points for this item will be automatically granted for Applications involving Rehabilitation, Developments receiving funding from TX-USDA-RHS, or Developments proposing single room occupancy without meeting these square footage minimums if requested in the Self Scoring Form. The square feet of all of the Units in the Development, for each type of Unit, must be at least the minimum noted below.

(i) 500 square feet for an efficiency unit;

(ii) 650 square feet for a non-elderly one bedroom unit; 550 square feet for an elderly one bedroom unit;

(iii) 900 square feet for a non-elderly two bedroom unit; 750 square feet for an elderly two bedroom unit;

(iv) 1,000 square feet for a three bedroom unit; and

(v) 1,200 square feet for a four bedroom unit.

(B) Quality of the Units. Applications may qualify to receive up to 14 points. Applications in which Developments provide specific amenity and quality features in every Unit at no extra charge to the tenant will be awarded points based on the point structure provided in clauses (i) - (xx) of this subparagraph, not to exceed 14 points in total. Applications involving scattered site Developments must have all ~~at least half~~ of the Units located with a specific amenity to count for points. Applications involving Rehabilitation or single room occupancy may 1.5 ~~double the~~ points for ~~listed for~~ each item, not to exceed 14 points in total.

(i) Covered entries (1 point);

(ii) Nine foot ceilings in living room and all bedrooms (at minimum) (1 point);

(iii) Microwave ovens (1 point);

(iv) Self-cleaning or continuous cleaning ovens (1 point);

(v) Ceiling fixtures in all rooms (light with ceiling fan in living area and all bedrooms) (1 point);

(vi) Refrigerator with icemaker (1 point);

(vii) Laundry connections (2 points);

(viii) Storage room or closet, of approximately 9 square feet or greater, which does not include bedroom, entryway or linen closets – does not need to be in the Unit but must be on the property site (1 point);

(ix) Laundry equipment (washers and dryers) for each individual unit including a front loading washer and dryer in required UFAS compliant Units (3 points);

(x) Thirty year architectural shingle roofing (1 point);

(xi) Covered patios or covered balconies (1 point);

(xii) Covered parking (including garages) of at least one covered space per Unit (2 points);

(xiii) 100% masonry on exterior, which can include stucco, cementitious board products, concrete brick and mortarless concrete masonry, but not EIFS ~~or~~ synthetic stucco (3 points);

(xiv) Greater than 75% masonry on exterior, which can include stucco and cementitious board products, concrete brick and mortarless concrete masonry, but not EIFS ~~or~~ synthetic stucco ~~EFIS~~ (1 points);

(xv) Use of energy efficient alternative construction materials (for example, Structural Insulated Panel construction) with wall insulation at a minimum of R-20 (3 points).

(xvi) R-15 Walls / R-30 Ceilings (rating of wall system) (3 points);

(xvii) 14 SEER HVAC for New Construction or radiant barrier in the attic for Rehabilitation (3 points);(WG)

(xviii) Energy Star ~~or equivalently~~ rated refrigerators and dishwashers (2 points); or

(xix) High Speed Internet service to all Units at no cost to residents (2 points).

(xx) Fire sprinklers in all Units (2 points).

(5) The Commitment of Development Funding by Local Political Subdivisions. Applications may qualify to receive up to 18 points for qualifying under this paragraph. An Applicant may only submit one ~~several~~ source~~s~~ to substantiate points for this section in the Application, but may ~~not~~ substitute any source in response to a Deficiency Notice or after the Application has been submitted to the Department. ~~Use normal rounding~~ (2306.6710(b)(1)(E)) Evidence that the proposed Development has received an allocation of funds for on-site development costs from a Local Political Subdivision or a properly-created governmental instrumentality thereof.

An Applicant may receive points under this subparagraph even if the government instrumentality's creating statute states that the entity is not itself a "political subdivision." An Applicant whose Development receives a commitment from a governmental instrumentality with the legal authority to act on behalf of a Local Political Subdivision is also eligible for such points. In addition to loans or grants, in-kind contributions such as donation of land or waivers of fees such as building permits, water and sewer tap fees, or similar contributions that provide a tangible economic benefit that results in a quantifiable cost reduction to benefit the Development will be acceptable to qualify for these points. Points will be determined on a sliding scale based on the amount per Unit. Evidence to be submitted with the Application must include a copy of the commitment of funds; a copy of the application to the funding entity and a letter from the funding entity indicating that the application was received; or a certification of intent to apply for funding that indicates the funding entity and program to which the application will be submitted, the loan amount to be applied for and the specific proposed terms. For in-kind contributions, evidence must be submitted in the Application from Local Political Subdivision or a properly-created governmental instrumentality thereof ~~to~~ substantiating~~e~~ the value of the in-kind contributions~~claimed for points as well as a statement of how the contribution will benefit the Development~~. At the time the executed Commitment Notice is required to be submitted, the Applicant or Development Owner must provide evidence of a commitment approved by the governing body of the local political subdivision for the sufficient local funding to the Department. If the funding commitment from the local political subdivision has not been received by the date the Department's Commitment Notice is to be submitted, the Application will be evaluated to determine if the loss of these points would have resulted in the Department's not committing the tax credits. If the loss of points would have made the Application noncompetitive, the Commitment Notice will be rescinded and the credits reallocated. If the Application would still be competitive even with the loss of points and the loss would not have impacted the recommendation for an award, the Application will be reevaluated for financial feasibility. If the Application is infeasible without the local political subdivision's funds, the Commitment Notice will be rescinded and the credits reallocated. No funds from TDHCA's HOME ~~(with the exception of Developments located in non-Participating Jurisdictions)~~ or Housing Trust Fund sources will qualify under this category ~~unless a resolution is submitted with the application from the Local Political Subdivision authorizing that the Applicant act on behalf of the Local Political Subdivision in applying for HOME or Housing Trust Funds from TDHCA for the particular application.~~ A commitment will not be accepted unless ~~T~~the Local Political Subdivision ~~must~~ attests to the fact that any funds committed were not first provided to the Local Political Subdivision by the Applicant, the Developer, Consultant, Related Party or any individual or entity acting on behalf of the proposed Application, unless the Applicant itself is a Local Political Subdivision or subsidiary. Do not round for the following calculations.

(A) A total contribution equal to or greater than 4% of the Total Housing Development Cost of the Development~~of $500 to $1,000 per Low-income Unit~~ receives 6 points; or

(B) A total contribution equal to or greater than 8% of the Total Housing Development Cost of the Development~~of $1,001 to $3,500 per Low-income Unit~~ receives 12 points; or

(C) A total equal to or greater than 12% of the Total Housing Development Cost of the Development ~~contribution of $3,501 or more per Low-income Unit~~ receives 18 points.~~; or~~

(6) **The Level of Community Support from State Elected Officials.** The level of community support for the application, evaluated on the basis of written statements from state elected officials. (2306.6710(b)(1)(F) and (f) and (g); 2306.6725(a)(2)) Applications may qualify to receive up to 14 points for this item. Points will be awarded based on the written statements of support or opposition from state elected officials representing constituents in areas that include the location of the Development. Letters of support must identify the specific Development and must clearly state support for or opposition to the specific Development. This documentation will be accepted with the Application or through delivery to the Department from the Applicant or official by ~~April 1,~~ April 2, ~~2006~~2007. Officials to be considered are those officials in office at the time the Application is submitted. Letters of support from state officials that do not represent constituents in areas that include the location of the Development will not qualify for points under this Exhibit. Neutral letters, or letters that do not specifically refer to the Development, will receive neither positive nor negative points. Letters from State of Texas Representative or Senator: support letters are 7 points each for a maximum of 14 points; opposition letters are -7 points each for a maximum of -14 points.

(7) **The Rent Levels of the Units.** Applications may qualify to receive up to 12 points for qualifying under this exhibit. (2306.6710(b)(1)(G)) If 80% or fewer of the Units in the Development (excluding any Units reserved for a manager) are restricted to having rents plus the allowance for utilities equal to or below the maximum tax credit rent, then the Development shall be awarded 7 points. If between 81% and 85% of the Units in the Development (excluding any Units reserved for a manager) are restricted to having rents plus the allowance for utilities equal to or below the maximum tax credit rent, then the Development shall be awarded 8 points. If between 86% and 90% of the Units in the Development (excluding any Units reserved for a manager) are

restricted to having rents plus the allowance for utilities equal to or below the maximum tax credit rent, then the Development shall be awarded 9 points. If between 91% and 95% of the Units in the Development (excluding any Units reserved for a manager) are restricted to having rents plus the allowance for utilities equal to or below the maximum tax credit rent, then the Development shall be awarded 10 points. If greater than 95% of the Units in the Development (excluding any Units reserved for a manager) are restricted to having rents plus the allowance for utilities equal to or below the maximum tax credit rent, then the Development shall be awarded 12 points. ~~Developments that are scattered site will receive the full 12 points provided that they have received points under paragraph (3) of this subsection.~~

(8) **The Cost of the Development by Square Foot (Development Characteristics).** Applications may qualify to receive 10 points for this item. (2306.6710(b)(1)(H); 42(m)(1)(C)(iii)) For this exhibit, costs shall be defined as construction costs, including site work, direct hard costs, contingency, contractor profit, overhead and general requirements, as represented in the Development Cost Schedule. This calculation does not include indirect construction costs. The calculation will be costs per square foot of net rentable area (NRA). The calculations will be based on the cost listed in the Development Cost Schedule and NRA shown in the Rent Schedule of the Application. Developments qualify for 10 points if their costs do not exceed $85~~0~~ per square foot for Qualified Elderly, transitional, and single room occupancy Developments (transitional housing for the homeless and single room occupancy units as provided in the Code, §42(i)(3)(B)(iii) and (iv)), unless located in a "First Tier County" in which case their costs do not exceed $87~~2~~ per square foot; and $75~~0~~ for all other Developments, unless ~~located in a~~ designated as "First Tier~~ County~~" by the Texas Department of Insurance, in which case their costs do not exceed $72~~2~~7 per square foot. For ~~2005~~2006, the First Tier c~~C~~ounties are Aransas, Brazoria, Calhoun, Chambers, Galveston, Jefferson, Kenedy, Kleberg, Matagorda, Nueces, San Patricio, and Willacy. There are also specifically designated First Tier communities in Harris County that are east of State Highway 146, and evidence in the Application must include a map with the Development site designated clearly within the community. These communities are Pasadena, Morgan's Point, Shoreacres, Seabrook and La Porte.~~Brazoria, Cameron, Galveston, Kennedy, Matagorda, Refugio and Willacy.~~ Intergenerational developments will receive 10 points if costs described above do not exceed the square footage limit for elderly and non-elderly units as determined by using the NRA attributable to the respective elderly and non-elderly units. The Department will determine if points will be awarded by multiplying the NRA for elderly units by the applicable square footage limit for the elderly units and adding that total to the result of the multiplication of the NRA for family units by the applicable non-elderly square footage limit. If this maximum cost amount is equal to, or greater than the total of the costs identified above for the application, points will be awarded(10 points).

(9) **The Services to be Provided to Tenants of the Development.** Applications may qualify to receive up to 8 points. Applications may qualify for points under both subparagraphs (A) and (B) of this paragraph. (2306.6710(b)(1)(I); 2306.254; 2306.6725(a)(1); General Appropriation Act, Article VII, Rider 7)

(A) Applicants will receive points for coordinating their tenant services with those services provided through state workforce development and welfare programs as evidenced by execution of a Tenant Supportive Services Certification (2 points).

(B) The Applicant must certify that the Development will provide a combination of special supportive services appropriate for the proposed tenants. The provision of supportive services will be included in the LURA as selected from the list of services identified in this subparagraph. No fees may be charged to the tenants for any of the services. Services must be provided on-site or transportation to off-site services must be provided (maximum of 6 points).

(i) Applications will be awarded points for selecting services listed in clause (ii) of this subparagraph based on the following scoring range:

(I) Two points will be awarded for providing two of the services; or
(II) Four points will be awarded for providing four of the services; or
(III) Six points will be awarded for providing six of the services.

(ii) Service options include child care; transportation; basic adult education; legal assistance; counseling services; GED preparation; English as a second language classes; vocational training; home buyer education; credit counseling; financial planning assistance or courses; health screening services; health and nutritional courses; organized team sports programs or youth programs; scholastic tutoring; any other programs described under Title IV-A of the Social Security Act (42 U.S.C. §§601 et seq.) which enables children to be cared for in their homes or the homes of relatives; ends the dependence of needy families on government benefits by promoting job preparation, work and marriage; prevents and reduces the incidence of out-of wedlock pregnancies; and encourages the formation and maintenance of two-parent families; any services addressed by §2306.254 Texas Government Code; or any other services approved in writing by the Department.

(10) **Rehabilitation or Reconstruction.** Applications may qualify to receive 7 points. Applications proposing to build solely Rehabilitation (excluding New Construction of non-residential buildings), or solely Reconstruction (excluding New Construction of non-residential buildings) qualify for points.

(110) **Housing Needs Characteristics.** (42(m)(1)(C)(ii)) Applications may qualify to receive up to 7 points. Each Application~~, based on the Area or county where the Development is located, will~~ may receive a score based on objective measures of housing need in the Area where the Development is located. This Affordable Housing Need Score for each Area will be published in a Site Demographic Characteristics table in the Reference Manual.~~the Uniform Housing Needs Scoring Component. If a Development is in a place, the Area score will be used. If a Development is not within a place, then the county score will be used. The Uniform Housing Needs Scoring Component scores for each Area and county will be published in the Reference Manual.~~

(121) **Development Includes the Use of Existing Housing as part of a Community Revitalization Plan (Development Characteristics).** Applications may qualify to receive 7 points for this item. (42(m)(1)(C)(iii)) The Development is an Eexisting Residential Development and ~~the proposed~~proposed any Rehabilitation or any Reconstruction ~~or demolition and reconstruction~~ that is part of a Community Revitalization Plan. Evidence of the Community Revitalization Plan and ~~a map showing the boundaries of the Community Revitalization Plan and the location of the Development site within the boundaries~~a letter from the governing body stating that the Development Site is located within the targeted development areas outlined in the Community Revitalization Plan must be submitted.

(132) **Pre-Application Participation Incentive Points.** (2306.6704) Applications which submitted a Pre-Application during the Pre-Application Acceptance Period and meet the requirements of this paragraph will qualify to receive 6 points for this item. To be eligible for these points, the Application must:

(A) be for the identical Development Site, or reduced portion of the Development sSite as the proposed Development Site under control in the Pre-Application;

(B) have met the Pre-Application Threshold Criteria;

(C) be serving the same target population (family, Intergenerational Housing, or elderly) as in the Pre-Application;

(D) be serving the same target Set-Asides as indicated in the Pre-Application (Set-Asides can be dropped between Pre-Application and Application, but no Set-Asides can be added); and

(E) be awarded by the Department an Application score that is not more than 5% greater or less than the number of points awarded by the Department at Pre-Application, with the exclusion of points for support and opposition under subsections (i)(2) and (i)(6) of this title. An Applicant must choose, at the time of Application either clause (i) or (ii) of this subparagraph:

(i) to request the Pre-Application points and have the Department cap the Application score at no greater than the 5% increase regardless of the total points accumulated in the scoring evaluation. This allows an Applicant to avoid penalty for increasing the point structure outside the 5% range from Pre-Application to Application; or

(ii) to request that the Pre-Application points be forfeited and that the Department evaluate the Application as requested in the self-scoring sheet.

(143) **Development Location.** (2306.6725(a)(4)); 42(m)(1)(C)(i)) Applications may qualify to receive 4 points. Evidence, not more than 6 months old from ~~the date of the close~~the first day of the Application Acceptance Period, that the subject Property is located within one of the geographical areas described in subparagraphs (A) - (GH) of this paragraph. Areas qualifying under any one of the subparagraphs (A) - (GH) of this paragraph will receive 4 points. An Application may only receive points under one of the subparagraphs (A) - (GH) of this paragraph.

(A) A geographical Area which is an Economically Distressed Area; a Colonia; or a Difficult Development Area (DDA) as specifically designated by the Secretary of HUD at the time of Application submission (2306.1273).

(B) a designated state or federal empowerment/enterprise zone, urban enterprise community, or urban enhanced enterprise community. Such Developments must submit a letter and a map from a city/county official verifying that the proposed Development is located within such a designated zone. Letter should be no older than 6 months from the first day of the Application Acceptance Period. (General Appropriation Act, Article VII, Rider 6; 2306.127)

~~(C) a city or county-sponsored area or zone where a city or county has, through a local government initiative, specifically encouraged or channeled growth, neighborhood preservation, or redevelopment. Such Developments must submit all of the following documentation: a letter from a city/county official verifying that~~

~~the proposed Development is located within the city or county-sponsored zone or district; a map from the city/county official which clearly delineates the boundaries of the district; and a certified copy of the appropriate resolution or documentation from the mayor, local city council, county judge, or county commissioners court which documents that the designated Area was created by the local city council/county commission, and targets a specific geographic Area which was not created solely for the benefit of the Applicant.~~

(C~~D~~) the Development is located in a county that has received an award as of November 15, ~~2005~~2006, within the past three years, from the Texas Department of Agriculture's Rural Municipal Finance Program or Real Estate Development and Infrastructure Program. Cities which have received one of these awards are categorized as awards to the county as a whole so Developments located in a different city than the city awarded, but in the same county, will still be eligible for these points.

(D~~E~~) the Development is located in a census tract in which there are no other existing developments supported by housing tax credits. Applicant must provide evidence. (2306.6725(b)(2)) These Census Tracts are outlined in the 2007 Housing Tax Credit Site Demographic Characteristics Report.

(E~~F~~) the Development is located in a census tract which has a median family income (MFI), as published by the United States Bureau of the Census (U.S. Census), that is higher than the median family income for the county in which the census tract is located. This comparison shall be made using the most recent data available as of the date the Application Round opens the year preceding the applicable program year. Developments eligible for these points must submit evidence documenting the median income for both the census tract and the county. These Census Tracts are outlined in the 2007 Housing Tax Credit Site Demographic Characteristics Report.

(F~~G~~) the proposed Development will serve families with children (at least 70% of the Units must have an eligible bedroom mix of two bedrooms or more) and is proposed to be located in an elementary school attendance zone of an elementary school that has an academic rating of "Exemplary" or "Recognized," or comparable rating if the rating system changes. The date for consideration of the attendance zone is that in existence as of the opening date of the Application Round and the academic rating is the most current rating determined by the Texas Education Agency as of that same date. (42(m)(1)(C)(vii))

(G~~H~~) the proposed Development will expand affordable housing opportunities for low-income families with children outside of poverty areas. This must be demonstrated by showing that the Development will serve families with children (at least 70% of the Units must have an eligible bedroom mix of two bedrooms or more) and that the census tract in which the Development is proposed to be located has no greater than 10% poverty population according to the most recent census data. (42(m)(1)(C)(vii)) These Census Tracts are outlined in the 2007 Housing Tax Credit Site Demographic Characteristics Report.

(15~~4~~) **Exurban Developments ~~or Reconstruction or Rehabilitation of Developments~~ (Development characteristics).** (2306.6725(a)(4)~~ and (b)(2)~~; ~~2306.127;~~ 42(m)(1)(C)(i)) Applications may qualify to receive 7 points if the Development is not located in ~~an incorporated place or census designated place that is not~~ a Rural Area and ~~but~~ has a population ~~no greater~~less than 100,000 based on the ~~most current available information published by the United States Bureau of the Census as of October 1 of the year preceding the applicable program year~~Decennial Census.~~, or if a Development is proposed for reconstruction or rehabilitation (in whole or in part, on-site or off-site) that will be financed, in part, with HOPE VI financing or HUD capital grant financing provided that the Application is a joint venture partnership between the public housing authority or an entity formed by the public housing authority and private market interests (either for profit or nonprofit).~~

(16~~5~~) **Tenant Populations with Special Housing Needs.** Applications may qualify to receive 4 points for this item. (42(m)(1)(C)(v)) The Department will award these points to Applications in which at least 10% of the Units are set aside for Persons with Special Needs. Throughout the Compliance Period, unless otherwise permitted by the Department, the Development owner agrees to affirmatively market Units to Persons with Special needs. In addition, the Department will require a minimum ~~12~~24 month period during which units must either be occupied by persons with Special Needs or held vacant. The ~~12~~24 month period will begin on the date each building receives its certificate of occupancy. For buildings that do not receive a Certificate of Occupancy, the ~~12~~24 month period will begin on the placed in service date as provided in the Cost Certification manual. After the ~~12~~24 month period, the owner will no longer be required to hold units vacant for households with special needs, but will be required to continue to affirmatively market units to household with special needs.

(17~~6~~) **Length of Affordability Period.** Applications may qualify to receive up to 4 points. (2306.6725(a)(5); 2306.111(g)(3)(C); 2306.185(a)(1) and (c); 2306.6710(e)(2); 42(m)(1)(B)(ii)(II)) In accordance with the Code, each Development is required to maintain its affordability for a 15-year compliance period and, subject to certain exceptions, an additional 15-year extended use period. Development Owners that are willing to extend the affordability period for a Development beyond the 30 years required in the Code may receive points as follows:

(A) Add 5 years of affordability after the extended use period for a total affordability period of 35 years (2 points); or

(B) Add 10 years of affordability after the extended use period for a total affordability period of 40 years (4 points)

(18~~7~~) **Site Characteristics.** Development Sites, including scattered sites, will be evaluated based on proximity to amenities, the presence of positive site features and the absence of negative site features. Sites will be rated based on the criteria below.

(A) Proximity of site to amenities. Developments Sites located ~~on sites~~ within a one mile radius (two-mile radius for Developments competing for a Rural Regional Allocation) of at least three services appropriate to the target population will receive four points. A site located within one-quarter mile of public transportation that is accessible to all residents including ~~p~~Persons W~~w~~ith D~~d~~isabilities and/or located within a community that has "on demand" transportation, special transit service, or specialized elderly transportation for Qualified Elderly Developments, will receive full points regardless of the proximity to amenities, as long as the Applicant provides appropriate evidence of the transportation services used to satisfy this requirement. If a Development is providing its own specialized van or on demand service, then this will be a requirement of the LURA. Only one service of each type listed below will count towards the points. A map must be included identifying the D~~d~~evelopment site and the location of the services. The services must be identified by name on the map. If the services are not identified by name, points will not be awarded. All services must exist or, if under construction, must be at least 50% complete by the date the Application is submitted. (4 points)

(i) Full service grocery store or supermarket
(ii) Pharmacy
(iii) Convenience Store/Mini-market
(iv) Department or Retail Merchandise Store
(v) Bank/Credit Union
(vi) Restaurant (including fast food)
(vii) Indoor public recreation facilities, such as civic centers, community centers, and libraries
(viii) Outdoor public recreation facilities such as parks, golf courses, and swimming pools
(ix) Hospital/medical clinic
(x) Doctor's offices (medical, dentistry, optometry)
(xi) Public Schools (only eligible for Developments that are not Qualified Elderly Developments)
(xii) Senior Center (only eligible for Qualified Elderly Developments)

(B) Negative Site Features. Development Sites with the following negative characteristics will have points deducted from their score. For purpose of this exhibit, the term 'adjacent' is interpreted as sharing a boundary with the Development site. The distances are to be measured from all boundaries of the Development site. If an Applicant negligently fails to note a negative feature, double points will be deducted from the score or the Application may be terminated. If none of these negative features exist, the Applicant must sign a certification to that effect. (-5 points)

(i) Developments located adjacent to or within 300 feet of junkyards will have 1 point deducted from their score.

(ii) Developments located adjacent to or within 300 feet of active railroad tracks will have 1 point deducted from their score. Rural Developments funded through TX-USDA-RHS are exempt from this point deduction.

(iii) Developments located adjacent to or within 300 feet of heavy industrial uses such as manufacturing plants will have 1 point deducted from their score.

(iv) Developments located adjacent to or within 300 feet of a solid waste or sanitary landfills will have 1 point deducted from their score.

(v) Developments located adjacent to or within 100 feet of high voltage transmission power lines will have 1 point deducted from their score.

(19~~18~~) **Development Size.** The Development consists of not more than 36 Units and is not a part of, or contiguous to, a larger existing tax credit D~~d~~evelopment (3 points).

(~~19~~20) **Qualified Census Tracts with Revitalization.** Applications may qualify to receive ~~2~~1 point~~s~~ for this item. (42(m)(1)(B)(ii)(III)) Applications will receive the points for this item if the Development is located within a Qualified Census Tract and contributes to a concerted Community Revitalization Plan. Evidence of the Community Revitalization Plan and a letter from the governing body stating that the Development Site is located within the targeted development areas outlined in the Community Revitalization Plan must be submitted. ~~a~~

~~map showing boundaries of the Community Revitalization Plan and the location of the Development site within the boundaries must be submitted.~~

(21~~0~~) **Sponsor Characteristics.** Applications may qualify to receive a maximum of 2 points for this item for qualifying under either subparagraph (A) or (B) of this paragraph. (42(m)(1)(C)(iv))

(A) An Application will receive these two points for submitting a plan to use Historically Underutilized Businesses in the development process consistent with the Historically Underutilized Business Guidelines for contracting with the State of Texas.

(B) An Application will receive these points if there is evidence that a HUB that does not meet the experience requirements under §~~50.~~49.9(g) of this title, as certified by the Texas Building and Procurement Commission, has at least 51% ownership interest in the General Partner and materially participates in the D~~d~~evelopment and operation of the Development throughout the Compliance Period. To qualify for these points, the Applicant must submit a certification from the Texas Building and Procurement Commission that the Person is a HUB at the close of the Application Acceptance Period. The HUB will be disqualified from receiving these points if any Principal of the HUB has developed, and received 8609's for, more than two Developments involving tax credits. Additionally, to qualify for these points, the HUB must partner with an experienced developer (as defined by §~~50.~~49.9 of this title); the experienced developer, as an Affiliate, will not be subject to the credit limit described under §~~50.~~49.6(d) of this title for one application per Application Round. For purposes of this section the experienced developer may not be a Related Party to the HUB.

(22~~1~~) **Developments Intended for Eventual Tenant Ownership - Right of First Refusal.** Applications may qualify to receive 1 point for this item. (2306.6725(b)(1)) (42(m)(1)(C)(viii)) Evidence that Development Owner agrees to provide a right of first refusal to purchase the Development upon or following the end of the Compliance Period for the minimum purchase price provided in, and in accordance with the requirements of, §42(i)(7) of the Code (the "Minimum Purchase Price"), to a Qualified Nonprofit Organization, the Department, or either an individual tenant with respect to a single family building, or a tenant cooperative, a resident management corporation in the Development or other association of tenants in the Development with respect to multifamily developments (together, in all such cases, including the tenants of a single family building, a "Tenant Organization"). Development Owner may qualify for these points by providing the right of first refusal in the following terms.

(A) Upon the earlier to occur of:

(i) the Development Owner's determination to sell the Development; or

(ii) the Development Owner's request to the Department, pursuant to §42(h)(6)(E)(II) of the Code, to find a buyer who will purchase the Development pursuant to a "qualified contract" within the meaning of §42(h)(6)(F) of the Code, the Development Owner shall provide a notice of intent to sell the Development ("Notice of Intent") to the Department and to such other parties as the Department may direct at that time. If the Development Owner determines that it will sell the Development at the end of the Compliance Period, the Notice of Intent shall be given no later than two years prior to expiration of the Compliance Period. If the Development Owner determines that it will sell the Development at some point later than the end of the Compliance Period, the Notice of Intent shall be given no later than two years prior to date upon which the Development Owner intends to sell the Development.

(B) During the two years following the giving of Notice of Intent, the Sponsor may enter into an agreement to sell the Development only in accordance with a right of first refusal for sale at the Minimum Purchase Price with parties in the following order of priority:

(i) during the first six-month period after the Notice of Intent, only with a Qualified Nonprofit Organization that is also a community housing development organization, as defined for purposes of the federal HOME Investment Partnerships Program at 24 C.F.R. §92.1 (a "CHDO") and is approved by the Department,

(ii) during the second six-month period after the Notice of Intent, only with a Qualified Nonprofit Organization or a Tenant Organization; and

(iii) during the second year after the Notice of Intent, only with the Department or with a Qualified Nonprofit Organization approved by the Department or a Tenant Organization approved by the Department.

(iv) If, during such two-year period, the Development Owner shall receive an offer to purchase the Development at the Minimum Purchase Price from one of the organizations designated in clauses (i) - (iii) of this subparagraph (within the period(s) appropriate to such organization), the Development Owner shall sell the Development at the Minimum Purchase Price to such organization. If, during such period, the Development Owner shall receive more than one offer to purchase the Development at the Minimum Purchase Price from one or more of the organizations designated in clauses (i) - (iii) of this subparagraph (within the period(s) appropriate to such organizations), the Development Owner shall sell the Development at the Minimum Purchase Price to whichever of such organizations it shall choose.

(C) After whichever occurs the later of:

(i) the end of the Compliance Period; or

(ii) two years from delivery of a Notice of Intent,

the Development Owner may sell the Development without regard to any right of first refusal established by the LURA if no offer to purchase the Development at or above the Minimum Purchase Price has been made by a Qualified Nonprofit Organization, a Tenant Organization or the Department, or a period of 120 days has expired from the date of acceptance of all such offers as shall have been received without the sale having occurred, provided that the failure(s) to close within any such 120-day period shall not have been caused by the Development Owner or matters related to the title for the Development.

(D) At any time prior to the giving of the Notice of Intent, the Development Owner may enter into an agreement with one or more specific Qualified Nonprofit Organizations and/or Tenant Organizations to provide a right of first refusal to purchase the Development for the Minimum Purchase Price, but any such agreement shall only permit purchase of the Development by such organization in accordance with and subject to the priorities set forth in subparagraph (B) of this paragraph.

(E) The Department shall, at the request of the Development Owner, identify in the LURA a Qualified Nonprofit Organization or Tenant Organization which shall hold a limited priority in exercising a right of first refusal to purchase the Development at the Minimum Purchase Price, in accordance with and subject to the priorities set forth in subparagraph (B) of this paragraph.

(F) The Department shall have the right to enforce the Development Owner's obligation to sell the Development as herein contemplated by obtaining a power-of-attorney from the Development Owner to execute such a sale or by obtaining an order for specific performance of such obligation or by such other means or remedy as shall be, in the Department's discretion, appropriate.

(23~~2~~) **Leveraging of Private, State, and Federal Resources.** Applications may qualify to receive 1 point for this item. (2306.6725(a)(3)) Evidence that the proposed Development has received an allocation of private, state or federal resources, including HOPE VI funds, that is equal to or greater than 2% of the Total Development costs reflected in the Application. The funding must be in addition to the primary funding (construction and permanent loans) that is proposed to be utilized and cannot be from the same source or an affiliated source. The provider of the funds must attest to the fact that they are not the Applicant, the Developer, Consultant, Related Party or any individual or entity acting on behalf of the proposed Application and attest that none of the funds committed were first provided to the entity by the Applicant, the Developer, Consultant, Related Party or any individual or entity acting on behalf of the proposed Application. The Development must have already applied for funding from the funding entity. Evidence to be submitted with the Application must include a copy of the commitment of funds or a copy of the application to the funding entity and a letter from the funding entity indicating that the application was received. At the time the executed Commitment Notice is required to be submitted, the Applicant or Development Owner must provide evidence of a commitment approved by the governing body of the entity for the sufficient financing to the Department. If the funding commitment from the private, state or federal source has not been received by the date the Department's Commitment Notice is to be submitted, the Application will be evaluated to determine if the loss of these points would have resulted in the Department's not committing the tax credits. If the loss of points would have made the Application noncompetitive, the Commitment Notice will be rescinded and the credits reallocated. If the Application would still be competitive even with the loss of points and the loss would not have impacted the recommendation for an award, the Application will be reevaluated for financial feasibility. If the Application is infeasible without the commitment from the private, state or federal source, the Commitment Notice will be rescinded and the credits reallocated. Use normal rounding. Funds from the Department's HOME and Housing Trust Fund sources will only qualify under this category if there is a Notice of Funding Availability (NOFA) out for available funds and the Applicant is eligible under that NOFA. To qualify for this point, the Rent Schedule must show that at least 3% of all low-income Units are designated to serve individuals or families with incomes at or below 30% of AMGI.

(24~~3~~) **Third-Party Funding Commitment Outside of Qualified Census Tracts.** Applications may qualify to receive 1 point for this item. (2306.6710(e)(1)) Evidence that the proposed Development has documented and committed third-party funding sources and the Development is located outside of a Qualified Census Tract. The provider of the funds must attest to the fact that they are not the Applicant, the Developer, Consultant, Related Party or any individual or entity acting on behalf of the proposed Application and attest that none of the funds committed were first provided to the entity by the Applicant, the Developer, Consultant, Related Party or any individual or entity acting on behalf of the proposed Application. The commitment of funds (an application alone will not suffice) must already have been received from the third-party funding source and must be equal to or greater than 2% of the Total Development costs reflected in the Application. Funds from the Department's HOME and Housing Trust Fund sources will not qualify under this category. The third-party funding source cannot be a loan from a commercial lender.

(2~~4~~5) **Scoring Criteria Imposing Penalties.** (2306.6710(b)(2))

(A) Penalties will be imposed on an Application if the Applicant has requested an extension of a Department deadline, and did not meet the original submission deadline, relating to ~~d~~Developments receiving a housing tax credit commitment made in the ~~a~~Application ~~r~~Round preceding the current round. The extension that will receive a penalty is an extension related to the submission of the ~~c~~Carryover Allocation Agreement or the 10% Test pursuant to §49.14 of this title. For each extension request made, the Applicant will receive a 5 point deduction for not meeting the Carryover deadline. Subsequent extension requests for carryover after the first extension request made for each D~~d~~evelopment from the preceding round will not result in a further point reduction than already described. No penalty points or fees will be deducted for extensions that were requested on Developments that involved Rehabilitation when the Department is the primary lender, or for Developments that involve TX-USDA-RHS as a lender if TX-USDA-RHS or the Department is the cause for the Applicant not meeting the deadline.

(B) Penalties will be imposed on an Application if the Developer or Principal of the Applicant has been removed by the lender, equity provider, or limited partners in the past five years for failure to perform its obligations under the loan documents or limited partnership agreement. An affidavit will be provided by the Applicant and the Developer certifying that they have not been removed as described, or requiring that they disclose each instance of removal with a detailed description of the situation. If an Applicant or Developer submits the affidavit, and the Department learns at a later date that a removal did take place as described, then the Application will be terminated and any Allocation made will be rescinded. The Applicant, Developers or Principals of the Applicant that are in court proceedings at the time of Application must disclose this information and the situation will be evaluated on a case-by-case basis. 3 points will be deducted for each instance of removal.

(C) Penalties will be imposed on an Application if Developer or Principal of the Applicant violates the Adherence to Obligations pursuant to §49.9(c) of this title.

(j) **Tie Breaker Factors.**

(1) In the event that two or more Applications receive the same number of points in any given Set-Aside category, Rural Regional Allocation or Urban/Exurban Regional Allocation, or Uniform State Service Region, and are both practicable and economically feasible, the Department will utilize the factors in this paragraph, in the order they are presented, to determine which Development will receive a preference in consideration for a tax credit commitment.

(A) Applications involving any Rehabilitation of existing Units will win this first tier tie breaker over Applications involving solely New Construction.

(B) The Application located in the municipality or, if located outside a municipality, the county, that has the lowest state average of units per capita supported by Housing Tax Credits or private activity bonds at the time the Application Round begins as reflected in the Reference Manual will win this second tier tie breaker.

(C) The amount of requested tax credits per net rentable square foot requested (the lower credits per square foot has preference)

(D) Projects that are intended for eventual tenant ownership. Such Developments must utilize a detached single family site plan and building design and have a business plan describing how the project will convert to tenant ownership at the end of the 15-year compliance period.

(2) This clause identifies how ties will be handled when dealing with the restrictions on location identified in §~~50.~~49.5(a)(8) of this title, and in dealing with any issues relating to capture rate calculation. When two Tax-Exempt Bond Developments would violate one of these restrictions, and only one Development can be selected, the Department will utilize the reservation docket number issued by the Texas Bond Review Board in making its determination. When two competitive Housing Tax Credits Applications in the Application Round would violate one of these restrictions, and only one Development can be selected, the Department will utilize the tie breakers identified in paragraph (1) of this subsection. When a Tax-Exempt Bond Development and a competitive Housing Tax Credit Application in the Application Round would both violate a restriction, the following determination will be used:

(A) Tax-Exempt Bond Developments that receive their reservation from the Bond Review Board on or before April 30, ~~2006~~2007 will take precedence over the Housing Tax Credit Applications in the ~~2006~~2007 Application Round;

(B) Housing Tax Credit Applications approved by the Board for tax credits in July ~~2006~~2007 will take precedence over the Tax-Exempt Bond Developments that received their reservation from the Bond Review Board on or between May 1, ~~2006~~2007 and July 31, ~~2006~~2007; and

(C) After July 31, ~~2006~~2007, a Tax-Exempt Bond Development with a reservation from the Bond Review Board will take precedence over any Housing Tax Credit Application from the ~~2006~~2007 Application Round on the Waiting List. However, if no reservation has been issued by the date the Board approves an allocation to a Development from the Waiting List of Applications in the ~~2006~~2007 Application Round or a forward commitment, then the Waiting List Application or forward commitment will be eligible for its allocation.

(k) **Staff Recommendations**. (2306.1112 and 2306.6731) After eligible Applications have been evaluated, ranked and underwritten in accordance with the QAP and the Rules, the Department staff shall make its recommendations to the Executive Award and Review Advisory Committee. The Committee will develop funding priorities and shall make commitment recommendations to the Board. Such recommendations and supporting documentation shall be made in advance of the meeting at which the issuance of Commitment Notices or Determination Notices shall be discussed. The Committee will provide written, documented recommendations to the Board which will address at a minimum the financial or programmatic viability of each Application and a list of all submitted Applications which enumerates the reason(s) for the Development's proposed selection or denial, including all factors provided in subsection §~~50.~~49.10(a) of this section that were used in making this determination.

§~~50.~~49.10 Board Decisions; Waiting List; Forward Commitments

(a) **Board Decisions.** The Board's decisions shall be based upon the Department's and the Board's evaluation of the proposed Developments' consistency with the criteria and requirements set forth in this QAP and Rules.

(1) On awarding tax credits, the Board shall document the reasons for each Application's selection, including any discretionary factors used in making its determination, and the reasons for any decision that conflicts with the recommendations made by Department staff. The Board may not make, without good cause, a commitment decision that conflicts with the recommendations of Department staff. Good cause includes the Board's decision to apply discretionary factors. (2306.6725(c); 42(m)(1)(A)(iv); 2306.6731)

(2) In making a determination to allocate tax credits, the Board shall be authorized to not rely solely on the number of points scored by an Application. It shall in addition, be entitled to take into account, as it deems appropriate, the discretionary factors listed in this paragraph. The Board may also apply these discretionary factors to its consideration of Tax-Exempt Bond Developments. If the Board disapproves or fails to act upon an Application, the Department shall issue to the Applicant a written notice stating the reason(s) for the Board's disapproval or failure to act. In making tax credit decisions (including those related to Tax-Exempt Bond Developments), the Board, in its discretion, may evaluate, consider and apply any one or more of the following discretionary factors: (2306.111(g)(3); 2306.0661(f))

(A) the developer market study;

(B) the location;

(C) the compliance history of the Developer;

~~(D) the Applicant and/or Developer's efforts to engage the neighborhood;~~

(D~~E~~) the financial feasibility;

(~~F~~E) the appropriateness of the Development's size and configuration in relation to the housing needs of the community in which the Development is located;

~~(G) the housing needs of the community, area, region and state;~~

(~~H~~E) the Development's proximity to other low-income housing developments;

(F~~I~~) the availability of adequate public facilities and services;

(G~~J~~) the anticipated impact on local school districts;

(H~~K~~) zoning and other land use considerations;

~~(L) laws relating to fair housing including affirmatively furthering fair housing;~~

~~(M) the efficient use of the tax credits;~~

~~(N) consistency with local needs, including consideration of revitalization or preservation needs;~~

~~(O) the allocation of credits among many different entities without diminishing the quality of the housing; (General Appropriation Act, Article VII, Rider 8(e))~~

~~(P) meeting a compelling housing need;~~

~~(Q) providing integrated, affordable housing for individuals and families with different levels of income;~~

~~(R) the inclusive capture rate as described under §1.32(g)(2);~~

(I~~S~~) any matter considered by the Board to be relevant to the approval decision and in furtherance of the Department's purposes~~ and the policies of Chapter 2306, Texas Government Code~~; ~~or~~and

(J~~T~~) other good cause as determined by the Board.

(3) Before the Board approves any Application, the Department shall assess the compliance history of the Applicant with respect to all applicable requirements; and the compliance issues associated with the proposed

Development, including compliance information provided by the Texas State Affordable Housing Corporation. The Committee shall provide to the Board a written report regarding the results of the assessments. The written report will be included in the appropriate Development file for Board and Department review. The Board shall fully document and disclose any instances in which the Board approves a Development Application despite any noncompliance associated with the Development or Applicant. (2306.057)

(b) **Waiting List.** (2306.6711(c) and (d)) If the entire State Housing Credit Ceiling for the applicable calendar year has been committed or allocated in accordance with this chapter, the Board shall generate, concurrently with the issuance of commitments, a waiting list of additional Applications ranked by score in descending order of priority based on Set-Aside categories and regional allocation goals. The Board may also apply discretionary factors in determining the Waiting List. If at any time prior to the end of the Application Round, one or more Commitment Notices expire and a sufficient amount of the State Housing Credit Ceiling becomes available, the Board shall issue a Commitment Notice to Applications on the waiting list subject to the amount of returned credits, the regional allocation goals and the Set-Aside categories, including the 10% Nonprofit Set-Aside allocation required under the Code, §42(h)(5). At the end of each calendar year, all Applications which have not received a Commitment Notice shall be deemed terminated. The Applicant may re-apply to the Department during the next Application Acceptance Period.

(c) **Forward Commitments.** The Board may determine to issue commitments of tax credit authority with respect to Applications from the State Housing Credit Ceiling for the calendar year following the year of issuance (each a "forward commitment") to Applications submitted in accordance with the rules and timelines required under this rule and the Application Submission Procedures Manual. The Board will utilize its discretion in determining the amount of credits to be allocated as forward commitments and the reasons for those commitments considering score and discretionary factors. The Board may utilize the forward commitment authority to allocate credits to TX-USDA-RHS Developments which are experiencing foreclosure or loan acceleration at any time during the ~~2006~~2007 calendar year, also referred to as Rural Rescue Developments. Applications that are submitted under the ~~2006~~2007 QAP and granted a Forward Commitment of ~~2007~~2008 Housing Tax Credits are considered by the Board to comply with the ~~2007~~2008 QAP by having satisfied the requirements of this ~~2006~~2007 QAP, except for statutorily required QAP changes.

(1) Unless otherwise provided in the Commitment Notice with respect to a Development selected to receive a forward commitment, actions which are required to be performed under this chapter by a particular date within a calendar year shall be performed by such date in the calendar year of the Credit Ceiling from which the credits are allocated.

(2) Any forward commitment made pursuant to this section shall be made subject to the availability of State Housing Credit Ceiling in the calendar year with respect to which the forward commitment is made. If a forward commitment shall be made with respect to a Development placed in service in the year of such commitment, the forward commitment shall be a "binding commitment" to allocate the applicable credit dollar amount within the meaning of the Code, §42(h)(1)(C).

(3) If tax credit authority shall become available to the Department in a calendar year in which forward commitments have been awarded, the Department may allocate such tax credit authority to any eligible Development which received a forward commitment, in which event the forward commitment shall be canceled with respect to such Development.

§~~50.~~49.11. Required Application Notifications, Receipt of Public Comment, and Meetings with Applicants; Viewing of Pre-Applications and Applications; Confidential Information.

(a) **Required Application Notifications, Receipt of Public Comment, and Meetings with Applicants.**

(1) Within approximately seven business days after the close of the Pre-Application Acceptance Period, the Department shall publish a Pre-Application Submission Log on its web site. Such log shall contain the Development name, address, Set-Aside, number of units, requested credits, owner contact name and phone number. (2306.6717(a)(1))

(2) Approximately 30 days before the close of the Application Acceptance Period, the Department will release the evaluation and assessment of the Pre-Applications on its web site.

(3) Not later than 14 days after the close of the Pre-Application Acceptance Period, or Application Acceptance Period for Applications for which no Pre-Application was submitted, the Department shall: (2306.1114)

(A) publish an Application submission log on its web site.

(B) give notice of a proposed Development in writing that provides the information required under clause (i) of this subparagraph to all of the individuals and entities described in clauses (ii) - (x) of this subparagraph. (2306.6718(a) - (c))

(i) The following information will be provided in these notifications:

(I) The relevant dates affecting the Application including the date on which the Application was filed, the date or dates on which any hearings on the Application will be held and the date by which a decision on the Application will be made;

(II) A summary of relevant facts associated with the Development;

(III) A summary of any public benefits provided as a result of the Development, including rent subsidies and tenant services; and

(IV) The name and contact information of the employee of the Department designated by the director to act as the information officer and liaison with the public regarding the Application.

(ii) Presiding officer of the governing body of the political subdivision containing the Development (mayor or county judge) to advise such individual that the Development, or a part thereof, will be located in his/her jurisdiction and request any comments which such individual may have concerning such Development.

(iii) If the Department receives a letter from the mayor or county judge of an affected city or county that expresses opposition to the Development, the Department will give consideration to the objections raised and will offer to visit the proposed site or Development with the mayor or county judge or their designated representative within 30 days of notification. The site visit must occur before the Housing Tax Credit can be approved by the Board. The Department will obtain reimbursement from the Applicant for the necessary travel and expenses at rates consistent with the state authorized rate (General Appropriation Act, Article VII, Rider 5) (§42(m)(1));

(iv) Any member of the governing body of a political subdivision who represents the Area containing the Development. If the governing body has single-member districts, then only that member of the governing body for that district will be notified, however if the governing body has at-large districts, then all members of the governing body will be notified;

(v) state representative and state senator who represent the community where the Development is proposed to be located. If the state representative or senator host a community meeting, the Department, if timely notified, will ensure staff are in attendance to provide information regarding the Housing Tax Credit Program; (General Appropriation Act, Article VII, Rider 8(d))

(vi) United States representative who represents the community containing the Development;

(vii) Superintendent of the school district containing the Development;

(viii) Presiding officer of the board of trustees of the school district containing the Development;

(ix) Any Neighborhood Organizations on record with the city or county in which the Development is to be located and whose boundaries contain the proposed Development site or otherwise known to the Applicant or Department and on record with the state or county; and

(x) Advocacy organizations, social service agencies, civil rights organizations, tenant organizations, or others who may have an interest in securing the development of affordable housing that are registered on the Department's email list service.

(C) The elected officials identified in subparagraph (B) of this paragraph will be provided an opportunity to comment on the Application during the Application evaluation process. (§42(m)(1))

(4) The Department shall hold at least three public hearings in different Uniform State Service Regions of the state to receive comment on the submitted Applications and on other issues relating to the Housing Tax Credit Program for competitive Applications under the State Housing Credit Ceiling. (2306.6717(c))

(5) The Department shall make available on the Department's website information regarding the Housing Tax Credit Program including notice of public hearings, meetings, Application Round opening and closing dates, submitted Applications, and Applications approved for underwriting and recommended to the Board, and shall provide that information to locally affected community groups, local and state elected officials, local housing departments, any appropriate newspapers of general or limited circulation that serve the community in which a proposed Development is to be located, nonprofit and for-profit organizations, on-site property managers of occupied Developments that are the subject of Applications for posting in prominent locations at those Developments, and any other interested persons including community groups, who request the information. (2306.6717(b);)

(6) Approximately forty days prior to the date of the July Board meeting at which the issuance of Commitment Notices shall be discussed, the Department will notify each Applicant of the receipt of any opposition received by the Department relating to his or her Development at that time.

(7) Not later than the third working day after the date of completion of each stage of the Application process, including the results of the Application scoring and underwriting phases and the commitment phase, the results will be posted to the Department's web site. (2306.6717(a)(3))

(8) At least thirty days prior to the date of the July Board meeting at which the issuance of Commitment Notices shall be discussed, the Department will:

(A) provide the Application scores to the Board; (2306.6711(a)

(B) if feasible, post to the Department's web site the entire Application, including all supporting documents and exhibits, the Application Log as further described in §~~50.~~49.19(b) of this title, a scoring sheet providing details of the Application score, and any other documents relating to the processing of the Application. (2306.6717(a)(1) and (2))

(9) A summary of comments received by the Department on specific Applications shall be part of the documents required to be reviewed by the Board under this subsection if it is received 30 business days prior to the date of the Board Meeting at which the issuance of Commitment Notices or Determination Notices shall be discussed. Comments received after this deadline will not be part of the documentation submitted to the Board. However, a public comment period will be available prior to the Board's decision, at the Board meeting where tax credit commitment decisions will be made.

(10) Not later than the 120th day after the date of the initial issuance of Commitment Notices for housing tax credits, the Department shall provide an Applicant who did not receive a commitment for housing tax credits with an opportunity to meet and discuss with the Department the Application's deficiencies, scoring and underwriting. (2306.6711(e))

(b) **Viewing of Pre-Applications and Applications.** Pre-Applications and Applications for tax credits are public information and are available upon request after the Pre-Application and Application Acceptance Periods close, respectively. All Pre-Applications and Applications, including all exhibits and other supporting materials, except Personal Financial Statements and Social Security numbers, will be made available for public disclosure after the Pre-Application and Application periods close, respectively. The content of Personal Financial Statements may still be made available for public disclosure upon request if the Attorney General's office deems it is not protected from disclosure by the Texas Public Information Act.

(c) **Confidential Information.** The Department may treat the financial statements of any Applicant as confidential and may elect not to disclose those statements to the public. A request for such information shall be processed in accordance with §552.305 of the Government Code. (2306.6717(d))

§~~50.~~49.12. Tax-Exempt Bond Developments: Filing of Applications; Applicability of Rules; Supportive Services; Financial Feasibility Evaluation; Satisfaction of Requirements.

(a) **Filing of Applications for Tax-Exempt Bond Developments.** Applications for a Tax-Exempt Bond Development may be submitted to the Department as described in paragraphs (1) and (2) of this subsection:

(1) Applicants which receive advance notice of a Program Year ~~2006~~2007 reservation as a result of the Texas Bond Review Board's (TBRB) lottery for the private activity volume cap must file a complete Application not later than 12:00 p.m. on December 28~~9~~, ~~2005~~2006. Such filing must be accompanied by the Application fee described in §~~50.~~49.20 of this title.

(2) Applicants which receive advance notice of a Program Year ~~2006~~2007 reservation after being placed on the waiting list as a result of the TBRB lottery for private activity volume cap must submit Volume 1 and Volume 2 of the Application and the Application fee described in §~~50.~~49.20 of this title prior to the Applicant's bond reservation date as assigned by the TBRB. Those applications designated as Priority 3 by the TBRB must submit Volumes I and II within 14 days of the bond reservation date if the Applicant intends to apply for tax credits regardless of the Issuer. Any outstanding documentation required under this section regardless of Priority must be submitted to the Department at least 60 days prior to the Board meeting at which the decision to issue a Determination Notice would be made unless a waiver is being requested.

(b) **Applicability of Rules for Tax-Exempt Bond Developments.** Tax-Exempt Bond Development Applications are subject to all rules in this title, with the only exceptions being the following sections: §~~50.~~49.4 of this title (regarding State Housing Credit Ceiling), §~~50.~~49.7 of this title (regarding Regional Allocation and Set-Asides), §~~50.~~49.8 of this title (regarding Pre-Application), §~~50.~~49.9(d) and (f) of this title (regarding Evaluation Processes for Competitive Applications and Rural Rescue Applications), §~~50.~~49.9(i) of this title (regarding Selection Criteria), §~~50.~~49.10(b) and (c) of this title (regarding Waiting List and Forward Commitments), and §~~50.~~49.14(a) and (b) of this title (regarding Carryover and 10% Test). Such Developments requesting a Determination Notice in the current calendar year must meet all Threshold Criteria requirements stipulated in §~~50.~~49.9(h) of this title. Such Developments which received a Determination Notice in a prior calendar year must meet all Threshold Criteria requirements stipulated in the QAP and Rules in effect for the calendar year in which the Determination Notice was issued; provided, however, that such Developments shall comply with all procedural requirements for obtaining Department action in the current QAP and Rules; and such other requirements of the QAP and Rules as the Department determines applicable. Consistency with the local municipality's consolidated plan or similar planning document must be demonstrated in those instances where the city or county has a consolidated plan. If no such planning document exists then the Applicant must submit a letter from the local municipal authority stating such and that there is a need for affordable housing. This documentation must be submitted no later than 14 days before the Board meeting where the credits will be considered. Applicants will be required to meet all conditions of the Determination Notice by the time the construction loan is closed unless otherwise specified in the Determination Notice. Applicants must meet the requirements identified in §~~50.~~49.15 of this title. No later than 60 days following closing of the bonds, the Development Owner must also submit a Management Plan and an Affirmative Marketing Plan (as further described in the Carryover Allocation Procedures Manual), and evidence must be provided at this time of attendance of the Development Owner or management company at Department-approved Fair Housing training relating to leasing and management issues for at least five hours and the Development architect at Department-approved Fair Housing training relating to design issues for at least five hours. Certifications must not be older than two years. Applications that receive a reservation from the Bond Review Board on or before December 31, ~~2005~~2006 will be required to satisfy the requirements of the ~~2005~~2006 QAP; Applications that receive a reservation from the Bond Review Board on or after January 1, ~~2006~~2007 will be required to satisfy the requirements of the ~~2006~~2007 QAP.

(c) **Supportive Services for Tax-Exempt Bond Developments.** (2306.254) Tax-Exempt Bond Development Applications must provide an executed agreement with a qualified service provider for the provision of special supportive services that would otherwise not be available for the tenants. The provision of these services will be included in the LURA. Acceptable services as described in paragraphs (1) - (3) of this subsection include:

(1) the services must be in at least one of the following categories: child care, transportation, basic adult education, legal assistance, counseling services, GED preparation, English as a second language classes, vocational training, home buyer education, credit counseling, financial planning assistance or courses, health screening services, health and nutritional courses, organized team sports programs, youth programs, scholastic tutoring, social events and activities, community gardens or computer facilities;

(2) any other program described under Title IV-A of the Social Security Act (42 U.S.C. §§601 et seq.) which enables children to be cared for in their homes or the homes of relatives; ends the dependence of needy families on government benefits by promoting job preparation, work and marriage; prevents and reduces the incidence of out-of wedlock pregnancies; and encourages the formation and maintenance of two-parent families, or

(3) any other services approved in writing by the Issuer. The plan for tenant supportive services submitted for review and approval of the Issuer must contain a plan for coordination of services with state workforce development and welfare programs. The coordinated effort will vary depending upon the needs of the tenant profile at any given time as outlined in the plan.

(d) **Financial Feasibility Evaluation for Tax-Exempt Bond Developments.** Code §42(m)(2)(D) requires the bond issuer (if other than the Department) to ensure that a Tax-Exempt Bond Development does not receive more tax credits than the amount needed for the financial feasibility and viability of a Development throughout the Compliance Period. Treasury Regulations prescribe the occasions upon which this determination must be made. In light of the requirement, issuers may either elect to underwrite the Development for this purpose in accordance with the QAP and the Underwriting Rules and Guidelines, §1.32 of this title or request that the Department perform the function. If the issuer underwrites the Development, the Department will, nonetheless, review the underwriting report and may make such changes in the amount of credits which the Development may be allowed as are appropriate under the Department's guidelines. The Determination Notice issued by the Department and any subsequent IRS Form(s) 8609 will reflect the amount of tax credits for which the Development is determined to be eligible in accordance with this subsection, and the amount of tax credits reflected in the IRS Form 8609 may be greater or less than the amount set forth in the Determination Notice, based upon the Department's and the bond issuer's determination as of each building's placement in service. Any increase of tax credits, from the amount specified in the Determination Notice, at the time of each building's placement in service will only be permitted if it is determined by the Department, as required by Code §42(m)(2)(D), that the Tax-Exempt Bond Development does not receive more tax credits than the amount needed for the financial feasibility and viability of a Development throughout the Compliance Period. Increases to the amount of tax credits that exceed 110% of the amount of credits reflected in the Determination Notice are contingent upon approval by the Board. Increases to the amount of tax credits that do not exceed 110% of the amount of credits reflected in the Determination Notice may be approved administratively by the Executive Director.

(e) **Satisfaction of Requirements for Tax-Exempt Bond Developments.** If the Department staff determines that all requirements of this QAP and Rules have been met, the Department will recommend that the Board authorize the issuance of a Determination Notice. The Board, however, may utilize the discretionary factors identified in §~~50.~~49.10(a) of this title in determining if they will authorize the Department to issue a

Determination Notice to the Development Owner. The Determination Notice, if authorized by the Board, will confirm that the Development satisfies the requirements of the QAP and Rules in accordance with the Code, §42(m)(1)(D).

(f) **Certification of Tax Exempt Applications with New Docket Numbers** Applications that are processed through the Department review and evaluation process and receive an affirmative Board Determination, but do not close the bonds prior to the bond reservation expiration date, and subsequently have that docket number withdrawn from the Bond Review Board, may have their Determination Notice reinstated. The Applicant would need to receive a new docket number from the Texas Bond Review Board.

The new docket number must be issued in the same program year as the original docket number and must not be more than four months from the date the original application was withdrawn from the BRB. The application must remain unchanged. This means that at a minimum, the following can not have changed: site control, total number of units, unit mix (bedroom sizes and income restrictions), design/site plan documents, financial structure including bond and housing tax credit amounts, development costs, rent schedule, operating expenses, sources and uses, ad valorem tax exemption status, target population, scoring criteria (TDHCA issues) or BRB priority status including the effect on the inclusive capture rate. Note that the entities involved in the applicant entity and developer can not change; however, the certification can be submitted even if the lender, syndicator or issuer changes, as long as the financing structure and terms remain unchanged. Notifications under §49.9(h)(8) of this title are not required to be reissued. In the event that the Department's Board has already approved the application for tax credits, the application is not required to be presented to the Board again (unless there is public opposition) and a revised Determination Notice will be issued once notice of the assignment of a new docket number has been provided to the Department and the Department has confirmed that the capture rate and market demand remain acceptable. This certification must be submitted no later than thirty days after the date the Bond Review Board issues the new docket number and no later than thirty days before the anticipated closing. In the event that the Department's Board has not yet approved the application, the application will continue to be processed and ultimately provided to the Board for consideration. This certification must be submitted no later than thirty days after the date the Bond Review Board issues the new docket number and no later than forty-five days before the anticipated Department's Board meeting date.

(2) If there are changing to the Application as referenced in paragraph (1) of this subsection, the Application will be required to submit a new Application in full, along with the applicable fees, to be reviewed and evaluated in its entirety for a new determination notice to be issued.

§~~50.~~49.13 Commitment and Determination Notices; Agreement and Election Statement; Documentation Submission Requirements.

(a) **Commitment and Determination Notices.** If the Board approves an Application~~, within ten days of approval~~ the Department will:

(1) if the Application is for a commitment from the State Housing Credit Ceiling, issue a Commitment Notice to the Development Owner which shall:

(A) confirm that the Board has approved the Application; and

(B) state the Department's commitment to make a Housing Credit Allocation to the Development Owner in a specified amount, subject to the feasibility determination described at § ~~50.~~49.16 of this title, and compliance by the Development Owner with the remaining requirements of this chapter and any other terms and conditions set forth therein by the Department. This commitment shall expire on the date specified therein unless the Development Owner indicates acceptance of the commitment by executing the Commitment Notice or Determination Notice, pays the required fee specified in §~~50.~~49.20 of this title, and satisfies any other conditions set forth therein by the Department. A Development Owner may request an extension of the Commitment Notice expiration date by submitting an extension request and associated extension fee as described in §~~50.~~49.20 of this title. ~~Any such extension must be approved by the Board.~~ In no event shall the expiration date of a Commitment Notice be extended beyond the last business day of the applicable calendar year.

(2) if the Application regards a Tax-Exempt Bond Development, issue a Determination Notice to the Development Owner which shall:

(A) confirm the Board's determination that the Development satisfies the requirements of this QAP; and

(B) state the Department's commitment to issue IRS Form(s) 8609 to the Development Owner in a specified amount, subject to the requirements set forth at §~~50.~~49.12 of this title and compliance by the Development Owner with all applicable requirements of this title and any other terms and conditions set forth therein by the Department. The Determination Notice shall expire on the date specified therein unless the Development Owner indicates acceptance by executing the Determination Notice and paying the required fee specified in §~~50.~~49.20 of this title. The Determination Notice shall also expire unless the Development Owner satisfies any conditions set forth therein by the Department within the applicable time period.

(3) notify, in writing, the mayor or other equivalent chief executive officer of the municipality in which the Property is located informing him/her of the Board's issuance of a Commitment Notice or Determination Notice, as applicable.

(4) A Commitment or Determination Notice shall not be issued with respect to any Development for an unnecessary amount or where the cost for the total development, acquisition, construction or Rehabilitation exceeds the limitations established from time to time by the Department and the Board, unless the Department staff make a recommendation to the Board based on the need to fulfill the goals of the Housing Tax Credit Program as expressed in this QAP and Rules, and the Board accepts the recommendation. The Department's recommendation to the Board shall be clearly documented.

(5) A Commitment or Determination Notice shall not be issued with respect to the Applicant, the Development Owner, the General Contractor, or any Affiliate of the General Contractor that is active in the ownership or Control of one or more other low-income rental housing properties in the state of Texas administered by the Department, or outside the state of Texas, that is in Material Noncompliance with the LURA (or any other document containing an Extended Low-income Housing Commitment) or the program rules in effect for such property, as described in §60.1 of this title.

(6) The executed Commitment or Determination Notice must be returned to the Department on the date specified with the Commitment Notice~~within ten days of the effective date of the Notice~~.

(b) **Agreement and Election Statement.** Together with the Development Owner's acceptance of the Carryover Allocation, the Development Owner may execute an Agreement and Election Statement, in the form prescribed by the Department, for the purpose of fixing the Applicable Percentage for the Development as that for the month in which the Carryover Allocation was accepted (or the month the bonds were issued for Tax-Exempt Bond Developments), as provided in the Code, §42(b)(2). Current Treasury Regulations, §1.42-8(a)(1)(v), suggest that in order to permit a Development Owner to make an effective election to fix the Applicable Percentage for a Development, the Carryover Allocation Document must be executed by the Department and the Development Owner within the same month. The Department staff will cooperate with a Development Owner, as possible or reasonable, to assure that the Carryover Allocation Document can be so executed.

(c) **Documentation Submission Requirements at Commitment of Funds.** No later than the date the Commitment Notice or Determination Notice is executed by the Applicant and returned to the Department with the appropriate Commitment Fee as further described in §~~50.~~49.20(f) of this title, the following documents must also be provided to the Department. Failure to provide these documents may cause the Commitment to be rescinded. For each Applicant all of the following must be provided:

(1) Evidence that the entity has the authority to do business in Texas;

(2) A Certificate of Account Status from the Texas Comptroller of Public Accounts or, if such a Certificate is not available because the entity is newly formed, a statement to such effect; and a Certificate of Organization from the Secretary of State;

(3) Copies of the entity's governing documents, including, but not limited to, its Articles of Incorporation, Articles of Organization, Certificate of Limited Partnership, Bylaws, Regulations and/or Partnership Agreement; and

(4) Evidence that the signer(s) of the Application have the authority to sign on behalf of the Applicant in the form of a corporate resolution or by-laws which indicate same from the sub-entity in Control and that those Persons signing the Application constitute all Persons required to sign or submit such documents.

§~~50.~~49.14. Carryover; 10% Test; Commencement of Substantial Construction.

(a) **Carryover.** All Developments which received a Commitment Notice, and will not be placed in service and receive IRS Form 8609 in the year the Commitment Notice was issued, must submit the Carryover documentation to the Department no later than November 1 of the year in which the Commitment Notice is issued pursuant to 42(h)(l)(c) IRC. Commitments for credits will be terminated if the Carryover documentation, or an approved extension, has not been received by this deadline. In the event that a Development Owner intends to submit the Carryover documentation in any month preceding November of the year in which the Commitment Notice is issued, in order to fix the Applicable Percentage for the Development in that month, it must be submitted no later than the first Friday in the preceding month. If the financing structure, syndication rate, amount of debt or syndication proceeds are revised at the time of Carryover from what was proposed in the original Application, applicable documentation of such changes must be provided and the Development may be reevaluated by the Department. The Carryover Allocation format must be properly completed and delivered to the Department as prescribed by the Carryover Allocation Procedures Manual. All Carryover Allocations will be contingent upon the following, in addition to all other conditions placed upon the Application in the Commitment Notice:

(1) The Development Owner for all New Construction Developments must have purchased the property for the Development.

(2) A current original plat or survey of the land, prepared by a duly licensed Texas Registered Professional Land Surveyor. Such survey shall conform to standards prescribed in the Manual of Practice for Land Surveying in Texas as promulgated and amended from time to time by the Texas Surveyors Association as more fully described in the Carryover Procedures Manual.

(3) For all Developments involving New Construction, evidence of the availability of all necessary utilities/services to the Development site must be provided. Necessary utilities include natural gas (if applicable), electric, trash, water, and sewer. Such evidence must be a letter or a monthly utility bill from the appropriate municipal/local service provider. If utilities are not already accessible, then the letter must clearly state: an estimated time frame for provision of the utilities, an estimate of the infrastructure cost, and an estimate of any portion of that cost that will be borne by the Development Owner. Letters must be from an authorized individual representing the organization which actually provides the services. Such documentation should clearly indicate the Development property. If utilities are not already accessible (undeveloped areas), then the letter should not be older than three months from the first day of the Application Acceptance Period.

(4) The Department will not execute a Carryover Allocation Agreement with any Owner in Material Noncompliance on October 1, ~~2006~~2007.

(b) **10% Test.** No later than six months from the date the Carryover Allocation Document is executed by the Department and the Development Owner, more than 10% of the Development Owner's reasonably expected basis must have been incurred pursuant to §42(h)(1)(E)(i) and (ii) of the Internal Revenue Code and Treasury Regulations, §1.42-6. The evidence to support the satisfaction of this requirement must be submitted to the Department no later than June 30 of the year following the execution of the Carryover Allocation Document in a format prescribed by the Department. At the time of submission of the documentation, the Development Owner must also submit a Management Plan and an Affirmative Marketing Plan as further described in the Carryover Allocation Procedures Manual. Evidence must be provided at this time of attendance of the Development Owner or management company at Department-approved Fair Housing training relating to leasing and management issues for at least five hours and the Development architect at Department-approved Fair Housing training relating to design issues for at least five hours on or before the time the 10% Test Documentation is submitted. Certifications must not be older than two years.

(c) **Commencement of Substantial Construction.** The Development Owner must submit evidence of having commenced and continued substantial construction activities. The evidence must be submitted not later than December 1 of the year after the execution of the Carryover Allocation Document with the possibility of an extension as described in §~~50.~~49.20 of this title.

§~~50.~~49.15. LURA, Cost Certification.

(a) **Land Use Restriction Agreement (LURA).** The Development Owner must request a LURA from the Department no later than the date specified in §60.1(p)(6), the Department's Compliance Monitoring Policies and Procedures. The Development Owner must date, sign and acknowledge before a notary public the LURA and send the original to the Department for execution. The initial compliance and monitoring fee must be accompanied by a statement, signed by the Owner, indicating the start of the Development's Credit Period and the earliest placed in service date for the Development buildings. After receipt of the signed LURA from the Department, the Development Owner shall then record the LURA, along with any and all exhibits attached thereto, in the real property records of the county where the Development is located and return the original document, duly certified as to recordation by the appropriate county official, to the Department no later than the date that the Cost Certification Documentation is submitted to the Department. If any liens (other than mechanics' or materialmen's liens) shall have been recorded against the Development and/or the Property prior to the recording of the LURA, the Development Owner shall obtain the subordination of the rights of any such lienholder, or other effective consent, to the survival of certain obligations contained in the LURA, which are required by §42(h)(6)(E)(ii) of the Code to remain in effect following the foreclosure of any such lien. Receipt of such certified recorded original LURA by the Department is required prior to issuance of IRS Form 8609. A representative of the Department, or assigns, shall physically inspect the Development for compliance with the Application and the representations, warranties, covenants, agreements and undertakings contained therein. Such inspection will be conducted before the IRS Form 8609 is issued for a building, but it shall be conducted in no event later than the end of the second calendar year following the year the last building in the Development is placed in service. The Development Owner for Tax-Exempt Bond Developments shall obtain a subordination agreement wherein the lien of the mortgage is subordinated to the LURA.

(b) **Cost Certification**. The Cost Certification Procedures Manual sets forth the documentation required for the Department to perform a feasibility analysis in accordance with §42(m)(2)(C)(i)(II), Internal Revenue Code, and determine the final Credit to be allocated to the Development.

(1) To request IRS Forms 8609, Developments must have:

(A) Placed in Service by December 31 of the year the Commitment Notice was issued if a Carryover Allocation was not requested and received; or December 31 of the second year following the year the Carryover Allocation Agreement was executed;

(B) Scheduled a final construction inspection in accordance with §60.1(c) of this title;

(C) Informed the Department of and received written approval for all Development amendments in accordance with §~~50.~~49.17(c) of this title;

(D) Submitted to the Department the LURA in accordance with §~~50.~~49.15(a) of this title;

(E) Paid all applicable Department fees; and

(F) Prepared all Cost Certification documentation in the format prescribed by the Cost Certification Procedures Manual.

(2) Required Cost Certification documentation must be received by the Department no later than January 15 following the year the Credit Period begins. Any Developments issued a Commitment Notice or Determination Notice that fails to submit its Cost Certification documentation by this deadline will be reported to the IRS and the Owner will be required to submit a request for extension consistent with §~~50.~~49.20(l) of this title.

(3) The Department will perform an initial evaluation of the Cost Certification documentation within 45 days from the date of receipt and notify the Owner in a deficiency letter of all additional required documentation. Any deficiency letters issued to the Owner pertaining to the Cost Certification documentation will also be copied to the syndicator. The Department will issue IRS Forms 8609 no later than 90 days from the date that all required documents have been received.

(4) The Department will perform an evaluation of the Applicant, the Development Owner, the General Contractor, or any Affiliate of the General Contractor that is active in the ownership or Control of the Development to determine if any entity is in Material Noncompliance with the LURA (or any other document containing an Extended Low-income Housing Commitment) or the program rules in effect for such property, as described in §60.1 of this title prior to issuance of IRS Forms 8609.

§~~50.~~49.16. Housing Credit Allocations.

(a) In making a commitment of a Housing Credit Allocation under this chapter, the Department shall rely upon information contained in the Application to determine whether a building is eligible for the credit under the Code, §42. The Development Owner shall bear full responsibility for claiming the credit and assuring that the Development complies with the requirements of the Code, §42. The Department shall have no responsibility for ensuring that a Development Owner who receives a Housing Credit Allocation from the Department will qualify for the housing credit.

(b) The Housing Credit Allocation Amount shall not exceed the dollar amount the Department determines is necessary for the financial feasibility and the long term viability of the Development throughout the affordability period. (2306.6711(b)) Such determination shall be made by the Department at the time of issuance of the Commitment Notice or Determination Notice; at the time the Department makes a Housing Credit Allocation; and as of the date each building in a Development is placed in service. Any Housing Credit Allocation Amount specified in a Commitment Notice, Determination Notice or Carryover Allocation Document is subject to change by the Department based upon such determination. Such a determination shall be made by the Department based on its evaluation and procedures, considering the items specified in the Code, §42(m)(2)(B), and the department in no way or manner represents or warrants to any Applicant, sponsor, investor, lender or other entity that the Development is, in fact, feasible or viable.

(c) The General Contractor hired by the Development Owner must meet specific criteria as defined by the General Appropriation Act, Article VII, Rider 8(c). A General Contractor hired by a Development Owner or a Development Owner, if the Development Owner serves as General Contractor must demonstrate a history of constructing similar types of housing without the use of federal tax credits. Evidence must be submitted to the Department, in accordance with §~~50.~~49.9(h)(4)(H) of this title, which sufficiently documents that the General Contractor has constructed some housing without the use of Housing Tax Credits. This documentation will be required as a condition of the commitment notice or carryover agreement, and must be complied with prior to commencement of construction and at cost certification and final allocation of credits.

(d) An allocation will be made in the name of the Development Owner identified in the related Commitment Notice or Determination Notice. If an allocation is made to a member or Affiliate of the ownership entity proposed at the time of Application, the Department will transfer the allocation to the ownership entity as consistent with the intention of the Board when the Development was selected for an award of tax credits. Any other transfer of an allocation will be subject to review and approval by the Department consistent with §~~50.~~49.17(c) of this title. The approval of any such transfer does not constitute a representation to the effect that such transfer is permissible under §42 of the Code or without adverse consequences thereunder, and the Department may condition its approval upon receipt and approval of complete current documentation regarding the owner including documentation to show consistency with all the criteria for scoring, evaluation and underwriting, among others, which were applicable to the original Applicant.

(e) The Department shall make a Housing Credit Allocation, either in the form of IRS Form 8609, with respect to current year allocations for buildings placed in service, or in the Carryover Allocation Document, for buildings not yet placed in service, to any Development Owner who holds a Commitment Notice which has not expired, and for which all fees as specified in §~~50.~~49.20 of this title have been received by the Department and with respect to which all applicable requirements, terms and conditions have been met. For Tax-Exempt Bond Developments, the Housing Credit Allocation shall be made in the form of a Determination Notice. For an IRS Form 8609 to be issued with respect to a building in a Development with a Housing Credit Allocation, satisfactory evidence must be received by the Department that such building is completed and has been placed in service in accordance with the provisions of the Department's Cost Certification Procedures Manual. The Cost Certification documentation requirements will include a certification and inspection report prepared by a Third-Party accredited accessibility inspector to certify that the Development meets all required accessibility standards. IRS Form 8609 will not be issued until the certifications are received by the Department. The Department shall mail or deliver IRS Form 8609 (or any successor form adopted by the Internal Revenue Service) to the Development Owner, with Part I thereof completed in all respects and signed by an authorized official of the Department. The delivery of the IRS Form 8609 will occur only after the Development Owner has complied with all procedures and requirements listed within the Cost Certification Procedures Manual. Regardless of the year of Application to the Department for Housing Tax Credits, the current year's Cost Certification Procedures Manual must be utilized when filing all cost certification materials. A separate Housing Credit Allocation shall be made with respect to each building within a Development which is eligible for a housing credit; provided, however, that where an allocation is made pursuant to a Carryover Allocation Document on a Development basis in accordance with the Code, §42(h)(1)(F), a housing credit dollar amount shall not be assigned to particular buildings in the Development until the issuance of IRS Form 8609s with respect to such buildings. The Department may delay the issuance of IRS Form 8609 if any Development violates the representations of the Application.

(f) In making a Housing Credit Allocation, the Department shall specify a maximum Applicable Percentage, not to exceed the Applicable Percentage for the building permitted by the Code, §42(b), and a maximum Qualified Basis amount. In specifying the maximum Applicable Percentage and the maximum Qualified Basis amount, the Department shall disregard the first-year conventions described in the Code, §42(f)(2)(A) and §42(f)(3)(B). The Housing Credit Allocation made by the Department shall not exceed the amount necessary to support the extended low-income housing commitment as required by the Code, §42(h)(6)(C)(i).

(g) Development inspections shall be required to show that the Development is built or rehabilitated according to construction threshold criteria and Development characteristics identified at application. At a minimum, all Development inspections must meet Uniform Physical Condition Standards (UPCS) as referenced in Treasury Regulation 1.42-5 (d)(2)(ii) and include an inspection for quality during the construction process while defects can reasonably be corrected and a final inspection at the time the Development is placed in service. All such Development inspections shall be performed by the Department or by an independent Third Party inspector acceptable to the Department. The Development Owner shall pay all fees and costs of said inspections as described in §~~50.~~49.20 of this title. ~~For properties receiving financing through TX-USDA-RHS, the Department shall accept the inspections performed by TX-USDA-RHS in lieu of having other Third party Inspections.~~ Details regarding the construction inspection process are set forth in the Department Rule §60.1 of this title (2306.081; General Appropriation Act, Article VII, Rider 8(b)).

(h) After the entire Development is placed in service, which must occur prior to the deadline specified in the Carryover Allocation Document and as further outlined in §~~50.~~49.15 of this title, the Development Owner shall be responsible for furnishing the Department with documentation which satisfies the requirements set forth in the Cost Certification Procedures Manual. For purposes of this title, and consistent with IRS Notice 88-116, the placed in service date for a new or existing building used as residential rental property is the date on which the building is ready and available for its specifically assigned function and more specifically when the first Unit in the building is certified as being suitable for occupancy in accordance with state and local law and as certified by the appropriate local authority or registered architect as ready for occupancy. The Cost Certification must be submitted for the entire Development; therefore partial Cost Certifications are not allowed. The Department may require copies of invoices and receipts and statements for materials and labor utilized for the New Construction or Rehabilitation and, if applicable, a closing statement for the acquisition of the Development as well as for the closing of all interim and permanent financing for the Development. If the Development Owner does not fulfill all representations and commitments made in the Application, the Department may make reasonable reductions to the tax credit amount allocated via the IRS Form 8609, may withhold issuance of the IRS Form 8609s until these representations and commitments are met, and/or may terminate the allocation, if appropriate corrective action is not taken by the Development Owner.

(i) The Board at its sole discretion may allocate credits to a Development Owner in addition to those awarded at the time of the initial Carryover Allocation in instances where there is bona fide substantiation of cost overruns and the Department has made a determination that the allocation is needed to maintain the Development's financial viability.

(j) The Department may, at any time and without additional administrative process, determine to award credits to Developments previously evaluated and awarded credits if it determines that such previously awarded credits are or may be invalid and the owner was not responsible for such invalidity.

§~~50.~~49.17 Board Reevaluation, Appeals Process; Provision of Information or Challenges Regarding Applications; Amendments; Housing Tax Credit and Ownership Transfers; Sale of Tax Credit Properties; Withdrawals; Cancellations; Alternative Dispute Resolution.

(a) **Board Reevaluation.** (2306.6731(b)) Regardless of development stage, the Board shall reevaluate a Development that undergoes a substantial change between the time of initial Board approval of the Development and the time of issuance of a Commitment Notice or Determination Notice for the Development. For the purposes of this subsection, substantial change shall be those items identified in subsection (d)(4) of this section. The Board may revoke any Commitment Notice or Determination Notice issued for a Development that has been unfavorably reevaluated by the Board.

(b) **Appeals Process.** (2306.6715) An Applicant may appeal decisions made by the Department as follows.

(1) The decisions that may be appealed are identified in subparagraphs (A) - (D) of this paragraph.

(A) a determination regarding the Application’s satisfaction of:

(i) Eligibility Requirements;

(ii) Disqualification or debarment criteria;

(iii) Pre-Application or Application Threshold Criteria;

(iv) Underwriting Criteria;

(B) the scoring of the Application under the Application Selection Criteria; and

(C) a recommendation as to the amount of housing tax credits to be allocated to the Application.

(D) Any Department decision that results in termination of an Application.

(2) An Applicant may not appeal a decision made regarding an Application filed by another Applicant.

(3) An Applicant must file its appeal in writing with the Department not later than the seventh day after the date the Department publishes the results of any stage of the Application evaluation process identified in §~~50.~~49.9 of this title. In the appeal, the Applicant must specifically identify the Applicant's grounds for appeal, based on the original Application and additional documentation filed with the original Application. If the appeal relates to the amount of housing tax credits recommended to be allocated, the Department will provide the Applicant with the underwriting report upon request.

(4) The Executive Director of the Department shall respond in writing to the appeal not later than the 14th day after the date of receipt of the appeal. If the Applicant is not satisfied with the Executive Director's response to the appeal, the Applicant may appeal directly in writing to the Board, provided that an appeal filed with the Board under this subsection must be received by the Board before:

(A) the seventh day preceding the date of the Board meeting at which the relevant commitment decision is expected to be made; or

(B) the third day preceding the date of the Board meeting described by subparagraph (A) of this paragraph, if the Executive Director does not respond to the appeal before the date described by subparagraph (A) of this paragraph.

(5) Board review of an appeal under paragraph (4) of this subsection is based on the original Application and additional documentation filed with the original Application. The Board may not review any information not contained in or filed with the original Application. The decision of the Board regarding the appeal is final.

(6) The Department will post to its web site an appeal filed with the Department or Board and any other document relating to the processing of the appeal. (2306.6717(a)(5))

(c) **Provision of Information or Challenges Regarding Applications from Unrelated Entities to the Application**. The Department will address information or challenges received from unrelated entities to a specific ~~2006~~2007 active Application, utilizing a preponderance of the evidence standard, in the following manner.

(1) Within 14 business ~~seven~~ days of the receipt of the information or challenge, the Department will post all information and challenges received (including any identifying information) to the Department's website.

(2) Within seven business days of the receipt of the information or challenge, the Department will notify the Applicant related to the information or challenge. The Applicant will then have seven business days to respond to all information and challenges provided to the Department.

(3) Within 14 business days of the receipt of the response from the Applicant, the Department will evaluate all information submitted and other relevant documentation related to the investigation. This information may include information requested by the Department relating to this evaluation. The Department will post its determination summary to its website. Any determinations made by the Department cannot be appealed by any party unrelated to the Applicant.

(d) Amendment of Application Subsequent to Allocation by Board. (2306.6712 and 2306.6717(a)(4))

(1) If a proposed modification would materially alter a Development approved for an allocation of a housing tax credit, or if the Applicant has altered any selection criteria item for which it received points, the Department shall require the Applicant to file a formal, written request for an amendment to the Application.

(2) The Executive Director of the Department shall require the Department staff assigned to underwrite Applications to evaluate the amendment and provide an analysis and written recommendation to the Board. The appropriate party monitoring compliance during construction in accordance with §~~50.~~49.18 of this title shall also provide to the Board an analysis and written recommendation regarding the amendment. For amendments which require Board approval, the amendment request must be received by the Department at least 30 days prior to the Board meeting where the amendment will be considered.

(3) The Board must vote on whether to approve an amendment. The Board by vote may reject an amendment and, if appropriate, rescind a Commitment Notice or terminate the allocation of housing tax credits and reallocate the credits to other Applicants on the Waiting List if the Board determines that the modification proposed in the amendment:

(A) would materially alter the Development in a negative manner; or

(B) would have adversely affected the selection of the Application in the Application Round.

(4) Material alteration of a Development includes, but is not limited to:

(A) a significant modification of the site plan;

(B) a modification of the number of units or bedroom mix of units;

(C) a substantive modification of the scope of tenant services;

(D) a reduction of three percent or more in the square footage of the units or common areas;

(E) a significant modification of the architectural design of the Development;

(F) a modification of the residential density of the Development of at least five percent;

(G) an increase or decrease in the site acreage of greater than 10% from the original site under control and proposed in the Application; and

(H) any other modification considered significant by the Board.

(5) In evaluating the amendment under this subsection, the Department staff shall consider whether the need for the modification proposed in the amendment was:

(A) reasonably foreseeable by the Applicant at the time the Application was submitted; or

(B) preventable by the Applicant.

(6) This section shall be administered in a manner that is consistent with the Code, §42.

(7) Before the 15th day preceding the date of Board action on the amendment, notice of an amendment and the recommendation of the Executive Director and monitor regarding the amendment will be posted to the Department's web site.

(8) In the event that an Applicant or Developer seeks to be released from the commitment to serve the income level of tenants targeted in the original Application, the following procedure will apply. For amendments that involve a reduction in the total number of low-income Units being served, or a reduction in the number of low-income Units at any level of AMGI represented at the time of Application, evidence must be presented to the Department that includes written confirmation from the lender and syndicator that the Development is infeasible without the adjustment in Units. The Board may or may not approve the amendment request, however, any affirmative recommendation to the Board is contingent upon concurrence from the Real Estate Analysis Division that the Unit adjustment (or an alternative Unit adjustment) is necessary for the continued feasibility of the Development. Additionally, if it is determined by the Department that the allocation of credits

would not have been made in the year of allocation because the loss of low-income targeting points would have resulted in the Application not receiving an allocation, and the amendment is approved by the Board, the approved amendment will carry a penalty that prohibits the Applicant and all persons or entities with any ownership interest in the Application (excluding any tax credit purchaser/syndicator), from participation in the Housing Tax Credit Program (for both the Competitive Housing Tax Credit Developments and Tax-Exempt Bond Developments~~4% or 9%~~) for 24 months from the time that the amendment is approved.

(e) **Housing Tax Credit and Ownership Transfers.** (2306.6713) A Development Owner may not transfer an allocation of housing tax credits or ownership of a Development supported with an allocation of housing tax credits to any Person other than an Affiliate of the Development Owner unless the Development Owner obtains the Executive Director's prior, written approval of the transfer. The Executive Director may not unreasonably withhold approval of the transfer.

(1) Transfers will not be approved prior to the issuance of IRS Forms 8609 unless the Development Owner can provide evidence that a hardship is creating the need for the transfer (potential bankruptcy, removal by a partner, etc.). A Development Owner seeking Executive Director approval of a transfer and the proposed transferee must provide to the Department a copy of any applicable agreement between the parties to the transfer, including any third-party agreement with the Department.

(2) A Development Owner seeking Executive Director approval of a transfer must provide the Department with documentation requested by the Department, including but not limited to, a list of the names of transferees and Related Parties; and detailed information describing the experience and financial capacity of transferees and related parties. All transfer requests must disclose the reason for the request. The Development Owner shall certify to the Executive Director that the tenants in the Development have been notified in writing of the transfer before the 30th day preceding the date of submission of the transfer request to the Department. Not later than the fifth working day after the date the Department receives all necessary information under this section, the Department shall conduct a qualifications review of a transferee to determine the transferee's past compliance with all aspects of the Housing Tax Credit Program, LURAs; and the sufficiency of the transferee's experience with Developments supported with Housing Credit Allocations. If the viable operation of the Development is deemed to be in jeopardy by the Department, the Department may authorize changes that were not contemplated in the Application.

(3) As it relates to the Credit Cap further described in §~~50.~~49.6(d) of this section, the credit cap will not be applied in the following circumstances:

(A) in cases of transfers in which the syndicator, investor or limited partner is taking over ownership of the Development and not merely replacing the general partner; or

(B) in cases where the general partner is being replaced if the award of credits was made at least five years prior to the transfer request date.

(f) **Sale of Certain Tax Credit Properties**. Consistent with 2306.6726, Texas Government Code, not later than two years before the expiration of the Compliance Period, a Development Owner who agreed to provide a right of first refusal under 2306.6725(b)(1), Texas Government Code and who intends to sell the property shall notify the Department of its intent to sell.

(1) The Development Owner shall notify Qualified Nonprofit Organizations and tenant organizations of the opportunity to purchase the Development. The Development Owner may:

(A) during the first six-month period after notifying the Department, negotiate or enter into a purchase agreement only with a Qualified Nonprofit Organization that is also a community housing development organization as defined by the F~~f~~ederal H~~h~~ome I~~i~~nvestment P~~p~~artnership P~~p~~rogram (HOME);

(B) during the second six-month period after notifying the Department, negotiate or enter into a purchase agreement with any Qualified Nonprofit Organization or tenant organization; and

(C) during the year before the expiration of the compliance period, negotiate or enter into a purchase agreement with the Department or any Qualified Nonprofit Organization or tenant organization approved by the Department.

(2) Notwithstanding items for which points were received consistent with §~~50.~~49.9(i) of this title, a Development Owner may sell the Development to any purchaser after the expiration of the compliance period if a Qualified Nonprofit Organization or tenant organization does not offer to purchase the Development at the minimum price provided by §42(i)(7), Internal Revenue Code of 1986 (26 U.S.C. Section 42(i)(7)), and the Department declines to purchase the Development.

(g) **Withdrawals.** An Applicant may withdraw an Application prior to receiving a Commitment Notice, Determination Notice, Carryover Allocation Document or Housing Credit Allocation, or may cancel a Commitment Notice or Determination Notice by submitting to the Department a notice, as applicable, of withdrawal or cancellation, and making any required statements as to the return of any tax credits allocated to the Development at issue.

(h) **Cancellations.** The Department may cancel a Commitment Notice, Determination Notice or Carryover Allocation prior to the issuance of IRS Form 8609 with respect to a Development if:

(1) The Applicant or the Development Owner, or the Development, as applicable, fails to meet any of the conditions of such Commitment Notice or Carryover Allocation or any of the undertakings and commitments made by the Development Owner in the Applications process for the Development;

(2) Any statement or representation made by the Development Owner or made with respect to the Development Owner or the Development is untrue or misleading;

(3) An event occurs with respect to the Applicant or the Development Owner which would have made the Development's Application ineligible for funding pursuant to §~~50.~~49.5 of this title if such event had occurred prior to issuance of the Commitment Notice or Carryover Allocation; or

(4) The Applicant or the Development Owner or the Development, as applicable, fails to comply with these Rules or the procedures or requirements of the Department.

(i) **Alternative Dispute Resolution Policy.** In accordance with §2306.082, Texas Government Code, it is the Department's policy to encourage the use of appropriate alternative dispute resolution procedures ("ADR") under the Governmental Dispute Resolution Act, Chapter 2009, Texas Government Code, to assist in resolving disputes under the Department's jurisdiction. As described in Chapter 154, Civil Practices and Remedies Code, ADR procedures include mediation. Except as prohibited by the Department's ex parte communications policy, the Department encourages informal communications between Department staff and Applicants, and other interested persons, to exchange information and informally resolve disputes. The Department also has administrative appeals processes to fairly and expeditiously resolve disputes. If at anytime an Applicant or other person would like to engage the Department in an ADR procedure, the person may send a proposal to the Department's Dispute Resolution Coordinator. For additional information on the Department's ADR Policy, see the Department's General Administrative Rule on ADR at §1.17 of this title.

§~~50.~~49.18. Compliance Monitoring and Material Noncompliance.

The Code, §42(m)(1)(B)(iii), requires the Department as the housing credit agency to include in its QAP a procedure that the Department will follow in monitoring Developments for compliance with the provisions of the Code, §42 and in notifying the IRS of any noncompliance of which the Department becomes aware. Detailed compliance rules and procedures for monitoring are set forth in Department Rule §60.1 of this title.

§~~50.~~49.19. Department Records; Application Log; IRS Filings.

(a) **Department Records.** At all times during each calendar year the Department shall maintain a record of the following:

(1) the cumulative amount of the State Housing Credit Ceiling that has been committed pursuant to Commitment Notices during such calendar year;

(2) the cumulative amount of the State Housing Credit Ceiling that has been committed pursuant to Carryover Allocation Documents during such calendar year;

(3) the cumulative amount of Housing Credit Allocations made during such calendar year; and

(4) the remaining unused portion of the State Housing Credit Ceiling for such calendar year.

(b) **Application Log.** (2306.6702(a)(3) and 2306.6709) The Department shall maintain for each Application an Application Log that tracks the Application from the date of its submission. The Application Log will contain, at a minimum, the information identified in paragraphs (1) - (9) of this subsection.

(1) the names of the Applicant and all General Partners of the Development Owner, the owner contact name and phone number, and full contact information for all members of the Development Team;

(2) the name, physical location, and address of the Development, including the relevant Uniform State Service Region of the state;

(3) the number of Units and the amount of housing tax credits requested for allocation by the Department to the Applicant;

(4) any Set-Aside category under which the Application is filed;

(5) the requested and awarded score of the Application in each scoring category adopted by the Department under the Qualified Allocation Plan;

(6) any decision made by the Department or Board regarding the Application, including the Department's decision regarding whether to underwrite the Application and the Board's decision regarding whether to allocate housing tax credits to the Development;

(7) the names of individuals making the decisions described by paragraph (6) of this subsection, including the names of Department staff scoring and underwriting the Application, to be recorded next to the description of the applicable decision;

(8) the amount of housing tax credits allocated to the Development; and

(9) a dated record and summary of any contact between the Department staff, the Board, and the Applicant or any Related Parties.

(c) **IRS Filings.** The Department shall mail to the Internal Revenue Service, not later than the 28th day of the second calendar month after the close of each calendar year during which the Department makes Housing Credit Allocations, ~~the~~ a copy~~original~~ of each completed (as to Part I) IRS Form 8609, ~~a copy~~the original of which was mailed or delivered by the Department to a Development Owner during such calendar year, along with a single completed IRS Form 8610, Annual Low-income Housing Credit Agencies Report. When a Carryover Allocation is made by the Department, a copy of the Carryover Allocation Agreement will be mailed or faxed~~delivered~~ to the Development Owner by the Department~~ in the year in which the building(s) is placed in service, and thereafter the original will be mailed to the Internal Revenue Service in the time sequence in this subsection~~. The original of the Carryover Allocation Document will be retained~~filed~~ by the Department and~~with~~ IRS Form 8610 Schedule A will be filed by the Department with IRS Form 8610 for the year in which the allocation is made. ~~The original of all executed Agreement and Election Statements shall be filed by the Department with the Department's IRS Form 8610 for the year a Housing Credit Allocation is made as provided in this section.~~ The Department shall be authorized to vary from the requirements of this section to the extent required to adapt to changes in IRS requirements.

§~~50.~~49.20. Program Fees; Refunds; Public Information Requests; Adjustments of Fees and Notification of Fees; Extensions; Penalties.

(a) **Timely Payment of Fees.** All fees must be paid as stated in this section. Any fees, as further described in this section, that are not timely paid will cause an Applicant to be ineligible to apply for tax credits and additional tax credits and ineligible to submit extension requests, ownership changes and Application amendments. Payments made by check, for which insufficient funds are available, may cause the Application, commitment or allocation to be terminated.

(b) **Pre-Application Fee.** Each Applicant that submits a Pre-Application shall submit to the Department, along with such Pre-Application, a non refundable Pre-Application fee, in the amount of $10 per Unit. Units for the calculation of the Pre-Application Fee include all Units within the Development, including tax credit, market rate and owner-occupied Units. Pre-Applications without the specified Pre-Application Fee in the form of a check will not be accepted. Pre-Applications in which a CHDO or Qualified Nonprofit Organization intends to serve as the managing General Partner of the Development Owner, or Control the managing General Partner of the Development Owner, will receive a discount of 10% off the calculated Pre-Application fee. (General Appropriation Act, Article VII, Rider 7; 2306.6716(d))For Tax Exempt Bond Developments with the Department as the issuer, the Applicant shall submit the following fees: $1,000 (payable to TDHCA), $1,500 (payable to Vincent & Elkins, Bond Counsel), and $5,000 (payable to the Texas Bond Review Board).

(c) **Application Fee.** Each Applicant that submits an Application shall submit to the Department, along with such Application, an Application fee. For Applicants having submitted a Pre-Application which met Pre-Application Threshold and for which a Pre-Application fee was paid, the Application fee will be $20 per Unit. For Applicants not having submitted a Pre-Application, the Application fee will be $30 per Unit. Units for the calculation of the Application Fee include all Units within the Development, including tax credit, market rate and owner-occupied Units. Applications without the specified Application Fee in the form of a check will not be accepted. Applications in which a CHDO or Qualified Nonprofit Organization intends to serve as the managing General Partner of the Development Owner, or Control the managing General Partner of the Development Owner, will receive a discount of 10% off the calculated Application fee. (General Appropriation Act, Article VII, Rider 7; 2306.6716(d)) For Tax Exempt Bond developments with the Department as the Issuer the Applicant shall submit a tax credit application fee of $30 per unit and bond application fee of $10,000. Those applications utilizing a local issuer only need to submit the tax credit application fee.

(d) **Refunds of Pre-Application or Application Fees.** (2306.6716(c)) Upon written request from the Applicant, ~~T~~the Department shall refund the balance of any fees collected for a Pre-Application or Application that is withdrawn by the Applicant or that is not fully processed by the Department. The amount of refund on Pre-Applications not fully processed by the Department will be commensurate with the level of review completed. Intake and data entry will constitute 50% of the review, and Threshold review prior to a deficiency issued will constitute 30% of the review. Deficiencies submitted and reviewed constitute 20% of the review. The amount of refund on Applications not fully processed by the Department will be commensurate with the level of review completed. Intake and data entry will constitute 20% of the review, the site visit will constitute 20% of the review, Eligibility and Selection review will constitute 20%, and Threshold review will constitute 20% of the review, and underwriting review will constitute 20%. The Department must provide the refund to the Applicant not later than the 30th day after the date ~~the last official action is taken with respect to the Application~~of request.

(e) **Third Party Underwriting Fee.** Applicants will be notified in writing prior to the evaluation of a Development by an independent external underwriter in accordance with §§~~50.~~49.9(d)(6), (e)(3), and ((f)(4) of this title if such a review is required. The fee must be received by the Department prior to the engagement of the underwriter. The fees paid by the Development Owner to the Department for the external underwriting will be credited against the commitment fee established in subsection (f) of this section, in the event that a Commitment Notice or Determination Notice is issued by the Department to the Development Owner.

(f) **Commitment or Determination Notice Fee**. Each Development Owner that receives a Commitment Notice or Determination Notice shall submit to the Department, not later than the expiration date on the commitment or Determination notice, a non-refundable commitment fee equal to 5% of the annual Housing Credit Allocation amount. The commitment fee shall be paid by check.

(g) **Compliance Monitoring Fee**. Upon receipt of the cost certification, the Department will invoice the Development Owner for compliance monitoring fees. The amount due will equal $40 per tax credit unit. The fee will be collected, retroactively if applicable, beginning with the first year of the credit period. The invoice must be paid prior to the issuance of form 8609. Subsequent anniversary dates on which the compliance monitoring fee payments are due shall be determined by the beginning month of the compliance period.

(h) **Building Inspection Fee**. The Building Inspection Fee must be paid at the time the Commitment Fee is paid. The Building Inspection Fee for all Developments is $7~~50.~~49. Inspection fees in excess of $750 may be charged to the Development Owner not to exceed an additional $250 per Development. ~~Developments receiving financing through TX-USDA-RHS that will not have construction inspections performed through the Department will be exempt from the payment of an inspection fee.~~

(i) **Tax-Exempt Bond Credit Increase Request Fee.** As further described in §~~50.~~49.12 of this title, requests for increases to the credit amounts to be issued on IRS Forms 8609 for Tax-Exempt Bond Developments must be submitted with a request fee equal to five~~one~~ percent of the amount of the credit increase for one year~~first year's credit amount~~.

(j) **Public Information Requests**. Public information requests are processed by the Department in accordance with the provisions of the Government Code, Chapter 552. The Department uses the guidelines promulgated by The Texas Building and Procurement Commission~~-~~ to determine the cost of copying, and other costs of production.

(k) **Periodic Adjustment of Fees by the Department and Notification of Fees**. (2306.6716(b)) All fees charged by the Department in the administration of the tax credit program will be revised by the Department from time to time as necessary to ensure that such fees compensate the Department for its administrative costs and expenses. The Department shall publish each year an updated schedule of Application fees that specifies the amount to be charged at each stage of the Application process. Unless otherwise determined by the Department, all revised fees shall apply to all Applications in process and all Developments in operation at the time of such revisions.

(l) **Extension and Amendment Requests**. All extension requests relating to the Commitment Notice, Carryover, Documentation for 10% Test, Substantial Construction Commencement, Placed in Service or Cost Certification requirements and amendment requests shall be submitted to the Department in writing and be accompanied by a non-refundable extension fee in the form of a check in the amount of $2,500. Such requests must be submitted to the Department no later than the date for which an extension is being requested. For extensions which require Board approval, the extension request must be received by the Department at least 15 business days prior to the Board meeting where the extension will be considered~~.~~. The extension request shall specify a requested extension date and the reason why such an extension is required. Carryover extension requests shall not request an extended deadline later than December 1st of the year the Commitment Notice was issued. The Department, in its sole discretion, may consider and grant such extension requests for all items. If an extension is required at Cost Certification, the fee of $2,500 must be received by the Department to qualify for issuance of Forms 8609. Amendment requests must be submitted consistent with §~~50.~~49.17(d) of this title. The Board may waive related fees for good cause.

(m) **Penalties.** Development Owners who have more tax credits allocated to them than they can substantiate through Cost Certification will return those excess tax credits prior to issuance of 8609's. For ~~non tax-exempt bond funded developments~~Competitive Housing Tax Credit Developments, a penalty fee equal to the one year credit amount of the lost credits (10% of the total unused tax credit amount) will be required to be paid by the Owner prior to the issuance of form 8609's if the tax credits are not returned, and 8609's issued, within ~~60~~180 days of the end of the first year of the credit period. This penalty fee may be waived without further Board action if the Department recaptures and re-issues the returned tax credits in accordance with Section 42, Internal Revenue Code.

§~~50.~~49.21. Manner and Place of Filing All Required Documentation.

(a) All Applications, letters, documents, or other papers filed with the Department must be received only between the hours of 8:00 a.m. and 5:00 p.m. on any day which is not a Saturday, Sunday or a holiday established by law for state employees.

(b) All notices, information, correspondence and other communications under this title shall be deemed to be duly given if delivered or sent and effective in accordance with this subsection. Such correspondence must reference that the subject matter is pursuant to the Tax Credit Program and must be addressed to the Housing Tax Credit Program, Texas Department of Housing and Community Affairs, P.O. Box 13941, Austin, TX 78711-3941 or for hand delivery or courier to 507 Sabine, Suite 400, Austin, Texas 78701 or more current address of the Department as released on the Department's website. Every such correspondence required or contemplated by this title to be given, delivered or sent by any party may be delivered in person or may be sent by courier, telecopy, express mail, telex, telegraph or postage prepaid certified or registered air mail (or its equivalent under the laws of the country where mailed), addressed to the party for whom it is intended, at the address specified in this subsection. Regardless of method of delivery, documents must be received by the Department no later than 5:00 p.m. for the given deadline date. Notice by courier, express mail, certified mail, or registered mail will be considered received on the date it is officially recorded as delivered by return receipt or equivalent. Notice by telex or telegraph will be deemed given at the time it is recorded by the carrier in the ordinary course of business as having been delivered, but in any event not later than one business day after dispatch. Notice not given in writing will be effective only if acknowledged in writing by a duly authorized officer of the Department.

(c) If required by the Department, Development Owners must comply with all requirements to use the Department's web site to provide necessary data to the Department.

§~~50.~~49.22. Waiver and Amendment of Rules.

(a) The Board, in its discretion, may waive any one or more of these Rules if the Board finds that waiver is appropriate to fulfill the purposes or policies of Chapter 2306, Texas Government Code, or for other good cause, as determined by the Board.

(b) §1.13 of this title may be waived for any person seeking any action by filing a request with the Board.

(c~~b~~) The Department may amend this chapter and the Rules contained herein at any time in accordance with the Government Code, Chapter 2001.

§~~50.~~49.23. Deadlines for Allocation of Housing Tax Credits. (2306.6724)

(a) Not later than September 30 of each year, the Department shall prepare and submit to the Board for adoption the draft QAP required by federal law for use by the Department in setting criteria and priorities for the allocation of tax credits under the Housing Tax Credit program.

(b) The Board shall adopt and submit to the Governor the QAP not later than November 15 of each year.

(c) The Governor shall approve, reject, or modify and approve the QAP not later than December 1 of each year. (2306.67022)(§42(m)(1))

(d) The Board shall annually adopt a manual, corresponding to the QAP, to provide information on how to apply for housing tax credits.

(e) Applications for Housing Tax Credits to be issued a Commitment Notice during the Application Round in a calendar year must be submitted to the Department not later than March 1.

(f) The Board shall review the recommendations of Department staff regarding Applications and shall issue a list of approved Applications each year in accordance with the Qualified Allocation Plan not later than June 30.

(g) The Board shall approve final commitments for allocations of housing tax credits each year in accordance with the Qualified Allocation Plan not later than July 31, unless unforeseen circumstances prohibit action by that date. In any event, the Board shall approve final commitments for allocations of housing tax credits each year in accordance with the Qualified Allocation Plan not later than September 30. Department staff will subsequently issue Commitment Notices based on the Board's approval. Final commitments may be conditioned on various factors approved by the Board, including resolution of contested matters in litigation.

TEXAS
DEPARTMENT OF HOUSING
AND COMMUNITY AFFAIRS

Multifamily Finance Production Division

DRAFT ~~2006~~ 2007 MULTIFAMILY HOUSING REVENUE BOND RULES
TITLE 10, PART 1, CHAPTER ~~33~~35, TEXAS ADMINISTRATIVE CODE

TITLE 10. COMMUNITY DEVELOPMENT
PART I. TEXAS DEPARTMENT OF HOUSING AND COMMUNITY AFFAIRS
CHAPTER ~~33~~35. MULTIFAMILY HOUSING REVENUE BOND RULES
10 TAC §§~~33~~35.1 – ~~33~~35.10

§~~33~~35.1. Introduction

The purpose of this Chapter ~~33~~ 35 is to state the Texas Department of Housing and Community Affairs (the "Department") requirements for issuing Bonds, the procedures for applying for multifamily housing revenue Bond financing, and the regulatory and land use restrictions imposed upon Developments financed with the issuance of Bonds for the ~~2006~~ 2007 Private Activity Bond Program Year. The rules and provisions contained in Chapter ~~33~~35, of this title are separate from the rules relating to the Department's administration of the Housing Tax Credit Program. Applicants seeking a housing tax credit allocation should consult the Department's Qualified Allocation Plan and Rules ("QAP"), in effect for the program year for which the Housing Tax Credit application will be submitted. If the applicable QAP contradicts rules set forth in this chapter, the applicable QAP will take precedence over the rules in the chapter.

§~~33~~35.2. Authority

The Department receives its authority to issue Bonds from Chapter 2306 of the Texas Government Code. All Bonds issued by the Department must conform to the requirements of the Act. Notwithstanding anything herein to the contrary, tax-exempt Bonds which are issued to finance the Development of multifamily rental housing are specifically subject to the requirements of the laws of the State of Texas, including but not limited to Chapter 2306 and Chapter 1372 of the Texas Government Code relating to Private Activity Bonds, and to the requirements of the Code (as defined in this chapter).

§~~33~~35.3. Definitions

The following words and terms, when used in the chapter, shall have the following meaning, unless context clearly indicates otherwise.

(1) Administrative Deficiency—as defined in §49.3(1) of this title.

(~~1~~2) Applicant~~--~~as defined in §49.3(6) of this title. ~~any Person or Affiliate of a Person who is a member of the General Partner, who files a Pre-Application or full Application with the Department requesting the Department issue Bonds to finance a Development.~~

(~~2~~3) Application-- as defined in §49.3(7) of this title.~~an Application, in the form prescribed by the Department, filed with the Department by an Applicant, including any exhibits or other supporting material.~~

(~~3~~4) Board--the Governing Board of the Department.

(4~~5~~) Bond--an evidence of indebtedness or other obligation, regardless of the sources of payment, issued by the Department under the Act, including a bond, note, or bond or revenue anticipation note, regardless of whether the obligation is general or special, negotiable, or nonnegotiable, in bearer or registered form, in certified or book entry form, in temporary or permanent form, or with or without interest coupons.

(~~5~~6) Code--the U. S. Internal Revenue Code of 1986, as amended from time to time, together with any applicable regulations, rules, rulings, revenue procedures, information statements or other official pronouncements issued by the United States Department of the Treasury or the Internal Revenue Service.

(~~6~~7) Development~~--~~ as defined in §49.3(31) of this title.~~property or work or a development, building, structure, facility, or undertaking, whether existing, new construction, remodeling, improvement, or rehabilitation, that meets or is designed to meet minimum property standards required by the Department for the primary purpose of providing sanitary, decent, and safe dwelling accommodations for rent, lease, or use by individuals and families of Low Income and Very Low Income and Families of Moderate Income in need of housing. The term includes:~~

~~(A) buildings, structures, land, equipment, facilities, or other real or personal properties that are necessary, convenient, or desirable appurtenances, including streets, water, sewage facilities, utilities, parks, site preparation, landscaping, stores, offices, and other non-housing facilities, such as administrative, community,~~

~~and recreational facilities the Department determines to be necessary, convenient, or desirable appurtenances; and~~

~~(B) multifamily dwellings in rural and urban areas.~~

(~~7~~8) Development Owner-- as defined in §49.3(33) of this title. ~~an Applicant that is approved by the Department as qualified to own, construct, acquire, rehabilitate, operate, manage, or maintain a Development subject to the regulatory powers of the Department and other terms and conditions required by the Department and the Act.~~

(~~8~~9) Eligible Tenants--means

(A) individuals and families of Extremely Low, Very Low and Low Income,

(B) Families of Moderate Income (in each case in the foregoing subparagraph (A) and (B) of this paragraph as such terms are defined by the Issuer under the Act), and

(C) Persons with Special Needs, in each case, with an Anticipated Annual Income not in excess of 140% of the area median income for a four-person household in the applicable standard metropolitan statistical area; provided that all Low-Income Tenants shall count as Eligible Tenants.

(~~9~~10) Extremely Low Income--the income received by an individual or family whose income does not exceed thirty percent (30%) of the area median income or applicable federal poverty line, as determined by the Act.

(1~~0~~1) Family of Moderate Income--a family:

(A) that is determined by the Board to require assistance taking into account

(i) the amount of total income available for the housing needs of the individuals and family,

(ii) the size of the family,

(iii) the cost and condition of available housing facilities,

(iv) the ability of the individuals and family to compete successfully in the private housing market and to pay the amounts required by private enterprise for sanitary, decent, and safe housing, and

(v) standards established for various federal programs determining eligibility based on income; and

(B) that does not qualify as a family of Low Income.

(1~~1~~2) Ineligible Building Type-- as defined in §49.3(52) of this title. ~~as defined in the Department's QAP and Rules in effect for the program year for which the Bond and Housing Tax Credit applications are submitted.~~

(1~~2~~3) Institutional Buyer--means

(A) an accredited investor as defined in Regulation D promulgated under the Securities Act of 1933, as amended (17 CFR §230.501(a)), but excluding any natural person or any director or executive officer of the Department (17 CFR §§230.501(a)(4) through (6)) or

(B) a qualified institutional buyer as defined by Rule 144A promulgated under the Securities Act of 1935, as amended (17 CFR §230.144A).

(14) Intergenerational Housing—as defined in §49.3(53) of this title.

(1~~3~~5) Low Income--the income received by an individual or family whose income does not exceed eighty percent (80%) of the area median income or applicable federal poverty line, as determined by the Act.

(1~~4~~6) Land Use Restriction Agreement (LURA)--an agreement between the Department and the Development Owner which is binding upon the Development Owner's successors in interest that encumbers the Development with respect to the requirements of law, including this title, the Act and Section 42 of the Code.

(17) New Construction—as defined in §49.3(59) of this title.

(1~~5~~8) Owner--an Applicant that is approved by the Department as qualified to own, construct, acquire, rehabilitate, operate, manage, or maintain a Development subject to the regulatory powers of the Department and other terms and conditions required by the Department and the Act.

(1~~6~~9) Persons with Special Needs--persons who

(A) are considered to be disabled under a state or federal law,

(B) are elderly, meaning 60 years of age or older or of an age specified by an applicable federal program,

(C) are designated by the Board as experiencing a unique need for decent, safe housing that is not being met adequately by private enterprise, or

(D) are legally responsible for caring for an individual described by subparagraph (A), (B) or (C) of this paragraph above and meet the income guidelines established by the Board.

(~~17~~20) Private Activity Bonds--any Bonds described by §141(a) of the Code.

(~~18~~21) Private Activity Bond Program Scoring Criteria--the scoring criteria established by the Department for the Department's Multifamily Housing Revenue Bond Program, §35.6(d) of this title.

(~~19~~22) Private Activity Bond Program Threshold Requirements--the threshold requirements established by the Department for the Department's Multifamily Housing Revenue Bond Program, §35.6(c) of this title.

(~~20~~23) Program--the Department's Multifamily Housing Revenue Bond Program.

(2~~1~~4) Proper Site Control--Regarding the legal control of the land to be used for the Development, means the earnest money contract is in the name of the Applicant (principal or member of the General Partner); fully executed by all parties and escrowed by the title company.

(2~~2~~5) Property--the real estate and all improvements thereon, whether currently existing or proposed to be built thereon in connection with the Development, and including all items of personal property affixed or related thereto.

(2~~3~~6) Qualified 501(c)(3) Bonds--any Bonds described by §145(a) of the Code.

(27) Reconstruction – as defined in §49.9(75) of this title.

(28) Rehabilitation—as defined in §49.9(77) of this title.

(2~~4~~9) Tenant Income Certification--a certification as to income and other matters executed by the household members of each tenant in the Development, in such form as reasonably may be required by the Department in satisfaction of the criteria prescribed by the Secretary of Housing and Urban Development under §8(f)(3) of the Housing Act of 1937 ("the Housing Act") (42 U.S.C. 1437f) for purposes of determining whether a family is a lower income family within the meaning of the §8(f)(1) of the Housing Act.

(~~25~~30) Tenant Services--social services, including child care, transportation, and basic adult education, that are provided to individuals residing in low income housing under Title IV-A, Social Security Act (42 U.S.C. §601 et seq.), and other similar services.

(~~26~~31) Tenant Services Program Plan--the plan, subject to approval by the Department, which describes the Tenant Services to be provided by the Development Owner in a Development.

(~~27~~32) Trustee--a national banking association organized and existing under the laws of the United States, as trustee (together with its successors and assigns and any successor trustee).

(~~28~~33) Unit~~--~~—as defined in §49.9(91) of this title.~~any residential rental Unit in a Development consisting of an accommodation, including a single room used as an accommodation on a non-transient basis, that contains complete physical facilities and fixtures for living, sleeping, eating, cooking and sanitation.~~

(~~29~~34) Very Low Income--the income received by an individual or family whose income does not exceed sixty percent (60%) of the area median income or applicable federal poverty line as determined under the Act.

§~~33~~35.4. Policy Objectives & Eligible Developments

The Department will issue Bonds to finance the rehabilitation, preservation or construction of decent, safe and affordable housing throughout the State of Texas. Eligible Developments may include those which are constructed, acquired, or rehabilitated and which provide housing for individuals and families of Low Income, Very Low Income, or Extremely Low Income, and Families of Moderate Income.

§~~33~~35.5. Bond Rating and Investment Letter

(a) Bond Ratings. All publicly offered Bonds issued by the Department to finance Developments shall have and be required to maintain a debt rating the equivalent of at least an "A" rating assigned to long-term obligations by Standard & Poor's Ratings Services, a division of The McGraw-Hill Companies, Inc. or Moody's Investors Service, Inc. If such rating is based upon credit enhancement provided by an institution other than the Applicant or Development Owner, the form and substance of such credit enhancement shall be subject to approval by the Board, which approval shall be evidenced by adoption by the Board of a resolution authorizing the issuance of the credit-enhanced Bonds. Remedies relating to failure to maintain appropriate credit ratings shall be provided in the financing documents relating to the Development.

(b) Investment Letters. Bonds rated less than "A," or Bonds which are unrated must be placed with one or more Institutional Buyers and must be accompanied by an investment letter acceptable to the Department. Subsequent purchasers of such Bonds shall also be qualified as Institutional Buyers and shall sign and deliver to the Department an investment letter in a form acceptable to the Department. Bonds rated less than "A" and Bonds which are unrated shall be issued in physical form, in minimum denominations of one hundred thousand dollars ($100,000), and shall carry a legend requiring any purchasers of the Bonds to sign and deliver to the Department an investment letter in a form acceptable to the Department.

§~~33~~35.6. Application Procedures, Evaluation and Approval

(a) Application Costs, Costs of Issuance, Responsibility and Disclaimer. The Applicant shall pay all costs associated with the preparation and submission of the Application--including costs associated with the publication and posting of required public notices--and all costs and expenses associated with the issuance of the Bonds, regardless of whether the Application is ultimately approved or whether Bonds are ultimately issued. At any stage during the Application process, the Applicant is solely responsible for determining whether to proceed with the Application, and the Department disclaims any and all responsibility and liability in this regard.

(b) Pre-application. An Applicant who requests financing from the Department for a Development shall submit a pre-application in a format prescribed by the Department. Within fourteen (14) days of the Department's receipt of the pre-application, the Department will be responsible for federal, state, and local community notifications of the proposed Development. Upon review of the pre-application, if the Development is determined to be ineligible for Bond financing by the Department, the Department will send a letter to the Applicant explaining the reason for the ineligibility. If the Development is determined to be eligible for Bond financing by the Department, the Department will score and rank the pre-application based on the Private Activity Bond Program Scoring Criteria as described in subsection (d) of this section. The Department will ~~score and~~ rank the pre-application with higher scores ranking higher within each priority defined by §1372.0321, Texas Government Code. All Priority 1 Applications will be ranked above all Priority 2 Applications which will be ranked above all Priority 3 Applications, regardless of score, reflecting a priority structure which gives consideration to the income levels of the tenants and the rent levels of the units consistent with Section 2306.359. This priority ranking will be used throughout the calendar year. In the event two or more Applications receive the same score, the Department will use, as a tie-breaking mechanism, a priority first for Applications involving rehabilitation; then if a tie still exists, the Application with the greatest number of points awarded for Quality and Amenities for the Development; then if a tie still exists, the Department will grant preference to the pre-application with the lower number of net rentable square feet per bond amount requested. Pre-Applications must meet the threshold requirements as stated in the Private Activity Bond Program Threshold Requirements as set out in subsection (c) of this section. ~~The Private Activity Bond Program Threshold Requirements will be posted on the Department's website.~~ After scoring and ranking, the Development and the proposed financing structure will be presented to the Department's Board for consideration of a resolution declaring the Department's initial intent to issue Bonds (the "inducement resolution") with respect to the Development. Approval of the inducement resolution does not guarantee final Board approval of the Bond Application. Department staff, for good cause, may recommend that the Board not approve an inducement resolution for an Application. After Board approval of the inducement resolution, the ~~scored and ranked~~induced Applications will be submitted to the Texas Bond Review Board for its lottery, waiting list or carryforward processing in rank order. The Texas Bond Review Board will draw the number of lottery numbers that equates to the number of eligible Applications submitted by the Department for participation in lottery. The lottery numbers drawn will not equate to a specific Development. The Texas Bond Review Board will thereafter assign the lowest lottery number drawn to the highest ~~scored and~~ ranked Application as previously determined by the Department. The Texas Bond Review Board will issue reservations of allocation for Applications submitted for the waiting list or carryforward in the order ~~determined~~provided by the Department based on rank. The criteria by which a Development may be deemed to be eligible or ineligible are explained below in subsection (g) of this section, entitled ~~Evaluation~~Eligibility Criteria. The Private Activity Bond Program Scoring Criteria will be posted on the Department's website. ~~The pre-application shall consist of the following information:~~

~~(1) Completed Current Uniform Application forms in the format required by the Department;~~

~~(2) Texas Bond Review Board's Residential Rental Attachment;~~

~~(3) Relevant Development Information;~~

~~(4) Certification of Local Elected Official request for neighborhood organization information and Public Notification Information;~~

~~(5) Certification and agreement to comply with the Department's rules;~~

~~(6) Agreement of responsibility of all cost incurred;~~

~~(7) An organizational chart showing the structure of the Applicant and the ownership structure of any principals of the Applicant;~~

~~(8) Evidence that the Applicant and principals are registered with the Texas Secretary of State, or if the Applicant has not yet been formed, evidence that the name of the Applicant is reserved with the Secretary of State;~~

~~(9) Organizational documents such as partnership agreements and articles of incorporation, as applicable, for the Applicant and its principals;~~

~~(10) Documentation of non-profit status if applicable; Evidence of good standing from the Comptroller of Public Accounts of the State of Texas for the Applicant and its principals; Corporate resumes and individual resumes of the Applicant and any principals;~~

~~(11) A copy of an executed earnest money contract between the Applicant and the seller of the Property. For all Applications submitted the earnest money contract must be in effect at the time of submission of the application and expire no earlier than December 1 of the year preceding the applicable program year for lottery Applications and expire no earlier than 120 days after the date of submission for waiting list and carryforward Applications. The earnest money contract must stipulate and provide for the Applicant's option to extend the contract expiration date through March 1 of the program year for lottery Applications or option to extend an additional 120 days from the initial expiration for waiting list and carryforward Applications, subject only to the seller's receipt of additional earnest money or extension fees, so that the Applicant will have site control at the time a reservation of allocation is granted. If the Applicant owns the Property, a copy of the recorded warranty deed is required;~~

~~(12) Evidence of zoning appropriate for the proposed use, application for the appropriate zoning or statement that no zoning is required;~~

~~(13) A local map showing the location of the proposed Property site;~~

~~(14) A boundary survey or subdivision plat which clearly identifies the location and boundaries of the subject Property;~~

~~(15) Name, address and telephone number of the Seller of the Property;~~

~~(16) Construction draw and lease-up proforma for Developments involving new construction;~~

~~(17) Past two years' operating statements for existing Developments;~~

~~(18) Current market information which includes rental comparisons;~~

~~(19) Documentation of local Section 8 utility allowances;~~

~~(20) Verification/Evidence of delivery of federal, state, and local community notifications;~~

~~(21) Self-Scoring Criteria; and~~

~~(22) Such other items deemed necessary by the Department per individual application.~~

(c) Pre-Application Threshold Requirements.

(1) As the Department reviews the Application, the Department will use the following assumptions, even if not reflected by the Applicant in the Application. Prequalification Assumptions:

(A) Development Feasibility:

(i) Debt Coverage Ratio must be greater than or equal to 1. ~~10~~15;

~~(ii) Annual Expenses must be at least $3,800 per Unit or $3.75 per square foot;~~

(ii~~i~~) Deferred Developer Fees are limited to 80% of Developer's Fees;

(iii~~v~~) Contractor Fee, Overhead and General Requirements are limited to 14~~6~~% of direct costs plus site work cost; and

~~(v) Overhead is limited to 2% of direct costs plus site work cost;~~

~~(vi) General Requirements are limited to 6% of direct costs plus site work cost;~~

(iv~~ii~~) Developer Fees cannot exceed 15% of the project's Total Eligible Basis.

(B) Construction Costs Per Unit Assumption. ~~The acceptable range is $55 to 65~~Costs not to exceed $75 per Unit for general population developments and ~~$55 to $75~~$85 for elderly developments (Acquisition / Rehab developments are exempt from this requirement);

(C) Anticipated Interest Rate ~~Assumption~~and Term. ~~6.00% for 30 year financing and 6.75% for 40 year financing~~as stated in the preliminary financing commitment from the Application;

(D) Size of Units (Acquisition / Rehab developments are exempt from this requirement);

(i) One bedroom Unit must be greater than or equal to 650 square feet for family and 550 square feet for senior Units.

(ii) Two bedroom Unit must be greater that or equal to 900 square feet for family and 750 square feet for senior Units.

(iii) Three bedroom Unit must be greater than or equal to 1,000 square feet for family.
(iv) Four bedroom Unit must be greater than or equal to 1200 square feet for family.

(2) Appropriate Zoning. Evidence of appropriate zoning for the proposed use or evidence of application made and pending decision;

(3) Executed Site Control. Properly executed and escrow receipted site control through ~~12/1/05~~December 1, 2006 with option to extend through ~~3/1/06~~March 1, 2007 for lottery Applications or 150 days later than the date of Application submission or through the full reservation period, whichever is longer ~~120 days from date of Application submission with option to extend an additional 120 days from the initial expiration~~ for waiting list and carryforward Applications;

(4) Previous Participation and Authorization to Release Credit Information (located in the uniform application);

(5) Current Market Information (must support affordable rents);

(6) Completed current TDHCA ~~Uniform~~ Bond Pre-Application and application exhibits;

(7) Completed Multifamily Rental Worksheets;

(8) Certification of Local Elected Official request for neighborhood organization information and Public Notification Information (see application package);

(9) Relevant Development Information and Public Notification Information Form (see application package);

(10) Completed ~~2006~~ 2007 Bond Review Board Residential Rental Attachment;

(11) Signed letter of Responsibility for All Costs Incurred;

(12) Signed Mortgage Revenue Bond Program Certification Letter;

(13) Evidence of Paid Application Fees ($1,000 to TDHCA, $1,500 to Vinson and Elkins and $5,000 to Bond Review Board);

(14) Boundary Survey or Plat clearly identifying the location and boundaries of the subject property;

(15) Local Area map showing the location of the Property and Community Services / Amenities within a three (3) mile radius;

(16) Utility Allowance documented from the Appropriate Local Housing Authority;

(17) Organization Chart showing the structure of the Applicant and the ownership structure of any principals of the Applicant with evidence of Entity Registration or Reservation with the Secretary of State; and

(18) Required Notification. Evidence of notifications shall include a copy of the exact letter and other materials that were sent to the individual or entity, a sworn affidavit stating that they made all the required notifications prior to the deadlines and a copy of the entire mailing list (including names and complete addresses) of all the recipients. Proof of notification must not be older than three months prior to the date of Application submission date. Notification must be sent to all the following individuals and entities (If the QAP and Rules in effect for the program year for which the Bond and Housing Tax Credit applications are submitted reflect a notification process that is different from the process listed below, then the QAP and Rules will override the notification process listed below):

(A) State Senator and Representative that represents the community containing the development;

(B) Presiding Officer of the governing body of any municipality containing the development and all elected members of that body (Mayor, City Council members);

(C) Presiding Officer of the governing body of the county containing the development and all elected members of that body (County Judge and/or Commissioners);

(D) School District Superintendent of the school district containing the development;

(E) Presiding Officer of the School Board of Trustees of the school district containing the development; and

~~(F) Evidence must be provided that a letter requesting information on neighborhood organizations on record with the state or county in which the Development is to be located and whose boundaries contain the proposed Development site and meeting the requirements of "Local Elected Official Notification" as outlined in the Application was sent no later than twenty-one (21) days prior to the Application submission to the local elected official for the city or if located outside of a city, then the county where the Development is proposed to be located. If the Development is located in a jurisdiction that has district based local elected officials, or both at-large and district based local elected officials, the notification must be made to the city council member or county commissioner representing that district; if the Development is located in a jurisdiction that has only at-large local elected official, the notification must be made to the mayor or county judge for the jurisdiction. A copy of the reply letter or other official third-party documentation from the local elected official must be provided. For urban/exurban areas, entities identified in the letters from the local elected official whose listed address has the same zip code as the zip code for the Development must be provided with written notification, and evidence of the notification must be provided. If any other zip codes exist within a half mile of the Development site, then all entities identified in the letters with adjacent zip codes must also be provided with~~

~~written notification, and evidence of that notification must be provided. For rural areas, all entities identified in the letters whose listed address is within a half mile of the proposed Development site must be provided with written notification, and evidence of that notification must be provided. If no response is received from the local elected official by seven (7) days prior to Application submission then the Applicant must submit a statement attesting to that fact in the format provided by the Department as part of the Application.~~

(F) Evidence in the form of a certification that all of the notifications required under this paragraph have been made. Requests for Neighborhood Organizations under subparagraph (i) of this paragraph must be made by the deadlines described in that clause. Evidence of notification must meet the requirements identified in subparagraph (ii of this paragraph to all of the individuals and entities identified in subparagraph (iii) of this paragraph.

(i) The Applicant must request Neighborhood Organizations on record with the county and state whose boundaries include the proposed Development Site as follows:

(I) No later than twenty-one (21) days prior to the date the Application is submitted, the Applicant must e-mail, fax or mail with registered receipt a completed, "Neighborhood Organization Request" letter as provided in the Pre-Application materials to the local elected official for the city and county where the Development is proposed to be located. If the Development is located in an Area that has district based local elected officials, or both at-large and district based local elected officials, the request must be made to the city council member or county commissioner representing that district; if the Development is located an Area that has only at-large local elected officials, the request must be made to the mayor or county judge for the jurisdiction. If the Development is not located within a city or is located in the Extra Territorial Jurisdiction (ETJ) of a city, the county local elected official must be contacted. In the event that local elected officials refer the Applicant to another source, the Applicant must request neighborhood organizations from that source in the same format.

(II) If no reply letter is received from the local elected officials by seven (7) days prior to the Application submission, then the Applicant must certify to that fact with the "Pre-Application Notification Certification Form" provided in the Pre-Application materials.

(III) The Applicant must list all Neighborhood Organizations on record with the county or state whose boundaries include the proposed Development Site as outlined by the local elected officials, or that the Applicant has knowledge of as of the Pre-Application Submission in the "Pre-Application Notification Certification Form" provided in the Pre-Application.

(ii) No later than the date the Pre-Application is submitted, Notification must be sent to all of the following individuals and entities by e-mail, fax or mail with registered receipt in the format required in the "Pre-Application Notification Template" provided in the Pre-Application materials. Developments located in an Extra Territorial Jurisdiction (ETJ) of a city are not required to notify city officials. Evidence of Notification is required in the form of a certification in the "Pre-Application Notification Certification Form" provided in the Pre-Application materials. It is strongly encouraged that Applicants retain proof of notifications in the event the Department requires proof of Notification. Officials to be notified are those officials in office at the time the Pre-Application is submitted.

(I) Neighborhood Organizations on record with the city, state or county whose boundaries include the proposed Development Site as identified in subsection (i)(III) of this subparagraph.

(II) Superintendent of the school district containing the Development;

(III) Presiding officer of the board of trustees of the school district containing the Development;

(IV) Mayor of any municipality containing the Development;

(V) All elected members of the governing body of any municipality containing the Development;

(VI) Presiding officer of the governing body of the county containing the Development;

(VII) All elected members of the governing body of the county containing the Development;

(VIII) State representative of the district containing the Development; and

(IX) State senator of the district containing the Development.

(iii) Each such notice must include, at a minimum, all of the following:

(I) The Applicant's name, address, individual contact name and phone number;

(II) The Development name, address, city and county;

(III) A statement informing the entity or individual being notified that the Applicant is submitting a request for Private Activity Bonds and Housing Tax Credits with the Texas Department of Housing and Community Affairs;

(IV) Statement of whether the Development proposes New Construction or Rehabilitation;

(V) The type of Development being proposed (single family homes, duplex, apartments, townhomes, highrise etc.) and population being served (family, Intergenerational Housing, or elderly);

(VI) The approximate total number of Units and approximate total number of low-income Units;

(VII) The approximate percentage of Units serving each level of AMGI (e.g. 20% at 50% of AMGI, etc.) and the percentage of Units that are market rate; and

(VIII) The number of Units and proposed rents (less utility allowances) for the low-income Units and the number of Units and the proposed rents for any market rate Units. Rents to be provided are those that are effective at the time of the Pre-Application, which are subject to change as annual changes in the area median income occur.

(d) Pre-Application Scoring Criteria.

(1) Construction Cost Per Unit includes: direct hard costs, site work, contractor profit, overhead, general requirements and contingency. Calculation will be hard costs per square foot of net rentable area. Must be greater than or equal to $~~60~~ 85 per square foot (1 point) (Acquisition / Rehab will automatically receive (1 point)).

(2) Size of Units. Average size of all Units combined in the development must be greater than or equal to 950 square foot for family and must be greater than or equal to 750 square foot for elderly (5 points). (Acquisition / Rehab developments will automatically receive 5 points).

(3) Period of Guaranteed Affordability for Low Income Tenants. Add 10 years of affordability after the extended use period for a total affordability period of 40 years (1 point).

(4) Quality and Amenities ~~((maximum 35 points) Acquisition / Rehab (with no demolition / new construction) will receive double points not to exceed 35 points)). (If there are changes to the Application prior to closing that have an adverse affect on the score and ranking order and that would have resulted in the Application being placed below another Application in the ranking, the Department will terminate the Application and return the reservation to the Texas Bond Review Board (with the exception of changes to deferred developer's fees and support or opposition points).~~ Substitutions in amenities will be allowed as long as the overall score is not affected~~)~~. Applications in which Developments provide specific qualities and amenities at no extra charge to the tenant will be awarded points as follows:

(A) Laundry Connections (2 points);

(B) Self-cleaning or continuous cleaning ovens (1 point);

(C) Microwave Ovens (in each Unit) (1 point);

(D) Refrigerator with icemaker (1 point);

(E) Laundry equipment (washer and dryers) for each Unit (3 points);

(F) Storage Room of approximately nine (9) square feet or greater (does not have to be in the unit but must be on the property) (1 point);

(G) Covered entries (1 point);

(H) Nine foot ceilings (1 point);

(I) Covered patios or covered balconies (1 point);

(J) Covered Parking (at least one per Unit) (3 points);

(K) Garages (equal to at least 35% of Units) (5 points);

(L) Ceiling Fans in all rooms except bathrooms and kitchens (light with ceiling fan in all bedrooms) (1 point);

(M) 75% or Greater Masonry (includes rock, stone, brick, stucco and cementious board product; excludes EIFS) (5 points);

(N) Thirty year architectural shingle roofing (1 point);

(O) Use of energy efficient alternative construction materials (structurally insulated panels) with wall insulation at a minimum of R-20 (3 points);

(P) R-15 Walls / R-30 Ceilings (rating of wall system) (3 points);

(Q) ~~-~~14 SEER HVAC or evaporative coolers in dry climates for new construction or radiant barrier in the attic for the rehabilitation (3 points);

(R) ~~-~~Energy Star or equivalently rated kitchen appliances (2 points);

(S) One Children's Playscape~~Playground~~ Equipped for 5 to 12 years olds, or one Tot Lot– Only Family Developments Eligible (1 point) ~~and Equipment or Covered Community Porch (3 points)~~;

(T) Two Children's Playscapes Equipped for 5 to 12 year olds, two Tot Lots, or one of each—Only Family Developments Eligible (2 points);

(U) Sport Court (Tennis, Basketball or Volleyball) – Only Family Developments Eligible (2 points);

(V) Enclosed sun porch or covered community porch/patio (2 points);

(~~T~~W) BBQ Grills and Tables (at least one each per 50 Units) ~~or Walking Trail (minimum length of 1/4 mile)~~ (1~~3~~ points);

(X) Accessible walking path/jogging path separate from a sidewalk (1 point);
(~~U~~Y) Full Perimeter Fencing ~~with controlled gate access~~ (~~3~~2 points);
(Z) Controlled access gate (1 point);
(~~V~~AA) Equipped and functioning business center or equipped computer learning center with 1 computer and 1 fax machine for every 25 Units proposed in the Application, and 1 printer for every 2 computers ~~Computers with internet access / Business Facilities (8 hour availability)~~ (2 points);
(~~W~~BB) Game Room or TV Lounge (2 points);
(~~X~~CC) Furnished and staffed children's activity center—Only Family Developments Eligible (3 points);
(~~Y~~DD) Horseshoe pit, putting green or shuffleboard court (only qualified elderly developments) ~~(2 points);~~ (1 point);
(~~Z~~EE) Furnished Fitness Center~~Workout Facilities or Library (with comparable square footage as workout facilities)~~ (2 points).
(FF) Library with an accessible sitting area (separate from the community room) (1 points);
(GG) Gazebo with sitting area (1 point);
(HH) Emergency 911 telephones accessible and available to tenants 24 hours a day (2 points);
(II) Covered Pavilion that includes barbeque grills and tables (2 points);
(JJ) Swimming pool (3 points).
(KK) Community laundry room (with at least one front leading washer (1 point);
(LL) Furnished Community room (1 point);
(MM) Service coordinator office in addition to leasing offices (1 point);
(NN) Senior Activity Room (Arts and Crafts, etc.) – Only Qualified Elderly Developments Eligible (2 points);
(OO) Health Screening Room (1 point)
(PP) Secured Entry (elevator buildings only) – (1 point);
(QQ) Community Dining Room with full or warming kitchen—Only Qualified Elderly Developments Eligible (3 points);

(5) Tenant Services (Tenant Services shall include only direct costs (tenant services contract amount, supplies for services, internet connections, initial cost of computer equipment, etc.). Indirect costs such as overhead and utility allocations may not be included)~~.~~;
(A) $10.00 per Unit per month (10 points);
(B) $7.00 per Unit per month (5 points);
(C) $4.00 per Unit per month (3 points).

(6) Zoning appropriate for the proposed use or no zoning required ~~(~~appropriate zoning for the intended use must be in place at the time of ~~a~~Application submission date, ~~September 6, 2005~~September 5, 2006 (Applications submitted for lottery) or ~~first Monday of each month~~the submission dates listed on the Department's website ~~(~~for Applications submitted for waiting list and carryforward~~)~~, in order to receive points~~)~~ (5 points).

(7) Proper Site Control (as defined in §~~33~~35.3(21) of this title control through ~~12/01/05~~December 1, 2006 with option to extend through ~~03/01/06~~March 1, 2007 (Applications submitted for lottery) or 150 days from the date of Application submission or through the full reservation period whichever is longer.~~120 days after the applicable submission date with option to extend an additional 120 days after the initial expiration~~ ~~(~~for Applications submitted for waiting list and carryforward~~)~~(all information must be correct at the time of the Application submission date, ~~September 6, 2005~~September 5, 2006 ~~(~~for Applications submitted for lottery~~)~~ or ~~first Monday of each month~~the submission dates listed on the Department's website ~~(~~for Applications submitted for waiting list or carryforward~~)~~, in order to receive points~~)~~ (5 points).

(8) Development Support / Opposition ~~(~~Maximum net points of +24 to -24. Each letter will receive a maximum of +3 to -3. All letters received by 5:00 PM, ~~October 7, 2005~~September 29, 2006 ~~(~~for Applications submitted for lottery~~)~~ or fourteen (14) days prior to the date of the Board meeting at which the Application will be considered ~~(~~for Applications submitted for waiting list and carryforward~~)~~ will be used in scoring~~)~~.
(A) Texas State Senator and Texas State Representative (maximum +~~6~~3 to -~~6~~3 points per official);
(B) Presiding officer of the governing body of any municipality containing the Development and the elected district member of the governing body of the municipality containing the Development (maximum +~~6~~3 to -~~6~~3 points per official);
(C) Presiding officer of the governing body of the county containing the Development and the elected district member of the governing body of the county containing the Development (if the site is not in a municipality, these points will be doubled) (maximum +~~6~~3 to -~~6~~3 points per official);
(D) Local School District Superintendent and Presiding Officer of the Board of Trustees for the School district containing the Development (maximum +~~6~~3 to -~~6~~3 points per official).

(9) Penalties for Missed Deadlines in the Previous Year's Bond and / or Tax Credit program year. ~~(~~This includes approved and used extensions~~)~~ (-1 point ~~with maximum 3 point deduction~~per missed deadline).

(10) Local Political Subdivision Development Funding Commitment that enables additional Units for the Very Low Income (CDBG, HOME or other funds through local political subdivisions) ~~(m~~Must be greater than or equal to 2% of the bond amount requested and must provide at least 5% of the total Development Units at or below 30% AMFI or an additional 5% of the total Development Units if the Applicant has chosen category Priority 1B on the residential rental attachment~~)~~ (2 points).

(11) Proximity to Community Services / Amenities ~~(~~Community services / amenities within three (3) miles of the site. A map must be included with the Application showing a three (3) mile radius notating where the services / amenities are located~~)~~ (maximum 12 points)

(A) Full service grocery store or supermarket (1 point);
(B) Pharmacy (1 point);
(C) Convenience store / mini-market (1 point);
(D) Retail Facilities (Target, Wal-Mart, Home Depot, etc.) (1 point);
(E) Bank / Financial Institution (1 point);
(F) Restaurant (1 point);
(G) Indoor public recreation facilities (community center, civic center, YMCA) (1 point);
(H) Outdoor public recreation facilities (park, golf course, public swimming pool) (1 point)
(I) Fire / Police Station (1 point);
(J) Medical Facilities (hospitals, minor emergency, doctor or dentist offices) (1 point);
(K) Public Library (1 point);
(L) Public Transportation (1/2 mile from site) (1 point);
(M) Public School (only one school required for point and only eligible with general population developments) (1 point)~~-~~.

(12) Proximity to Negative Features ~~(~~adjacent to or within 300 feet of any part of the Development site boundaries~~)~~. A map must be included with the application showing where the feature is located. Developer must provide a letter stating there are none of the negative features listed below within the stated area if that is correct. (maximum -20 points)

(A) Junkyards (5 points);
(B) Active Railways (excluding light rail) (5 points);
(C) Heavy industrial / manufacturing plants (5 points);
(D) Solid Waste / Sanitary Landfills (5 points);
(E) High Voltage Transmission Towers within 100 feet (5 points).

(13) Acquisition / Rehabilitation Developments will receive thirty (30) points. This will include the demolition of old buildings and new construction of the same number of units if allowed by local codes or less units to comply with local codes (not to exceed 252 total units).

(14) Preservation Developments will receive ten (10) points. This includes rehabilitation proposals on properties which are nearing expiration of an existing affordability requirement within the next two years or for which the there has been a rent restriction requirement in the past ten years. Evidence must be provided.

(e) Financing Commitments. After approval by the Board of the inducement resolution, and before submission of a final application, the Applicant will be solely responsible for making appropriate arrangements with financial institutions which are to be involved with the issuance of the Bonds or the financing of the Development, and to begin the process of obtaining firm commitments for financing from each of the financial institutions involved.

(f) Final Application. An Applicant who elects to proceed with submitting a final Application to the Department must submit the Volumes I and II of the Application, for Priority 1 and 2, prior to receipt of a reservation of allocation from the Texas Bond Review Board.~~ and ~~For Priority 3 Applications the Volumes I and II must be submitted within fourteen (14) days of the reservation date from the Texas Bond Review Board. T~~t~~he Volumes III and VI of the Application and such supporting material as is required by the Department must be submitted at least sixty (60) days prior to the scheduled meeting of the Board at which the Development and the Bond issuance are to be considered, unless the Department directs the Applicant otherwise in writing. If the Applicant is applying for other Department funding then refer to the Rules for that program for Application submission requirements. The final application must adhere to the Department's QAP and Rules in effect for the program year for which the Bond and Housing Tax Credit applications are submitted. The Department may determine that supporting materials listed in paragraphs (1) through (42) of this subsection shall be provided subsequent to the final Application deadline in accordance with a schedule approved by the Department. Failure to provide any supporting materials in accordance with the approved schedule may be grounds for terminating the Application and returning the reservation to the Texas Bond Review Board. If an Application contains deficiencies which, in the determination of the Department staff, require clarification or correction of information submitted at the time of the Application, the Department staff may request clarification or correction of such Administrative Deficiencies. Because the review for Eligibility, Threshold Criteria, and review for financial feasibility by the Department's Real Estate Analysis Division may occur separately, Administrative Deficiency requests may be made several times. The Department staff will request clarification or correction in a deficiency notice in the form of an e-mail, or if an e-mail address is not provided in the Application, by facsimile, and a telephone call to the Applicant and one other party identified by the Applicant in the Application advising that such a request has been transmitted. All Administrative Deficiencies shall be clarified or corrected to the satisfaction of the Department within five business days. Failure to resolve all outstanding deficiencies within five business days will result in a penalty fee of $500 for each day the deficiency remains unresolved. Any Application with unresolved deficiencies after the 10th day from the issuance of the deficiency notice will be terminated. The Applicant will be responsible for the payment of any fees accrued pursuant to this section regardless of any termination pursuant to this section. The time period for responding to a deficiency notice begins at the start of the business day following the deficiency notice date. Deficiency notices may be sent to an Applicant prior to or after the end of the Application Acceptance Period. The Application will not be presented to the Board for consideration until all outstanding fees have been paid. The final application and supporting material shall consist of the following information:

(1) A Public Notification Sign shall be installed on the proposed Development site, regardless of Priority, ~~no later than thirty (30) days after the submission of Volume I and II of the Tax Credit Application to the Department (pictures and invoice receipts must be submitted as evidence of installation within thirty (30) days of the submission).~~ within thirty (30) days of the Department's receipt of Volumes I and II or thirty (30) days prior to the bond public hearing date, whichever is earlier. The date, time and location of the Bond Public Hearing must be included on the sign as soon as the hearing has been scheduled. The sign must be at least four (4) feet by eight (8) feet in size and be located within twenty (20) feet of, and facing, the main road adjacent to the site. The sign shall be continuously maintained on the site until the day the TDHCA Board takes final action on the Application for the development. The information and lettering on the sign must meet the requirements identified in the Application. As an alternative to installing a Public Notification Sign and at the same required time, the Applicant may instead, at the Applicant's Option, mail written notification to all addresses located within the footage distance required by the local municipality zoning ordinance or 1,000 feet, if there is no local zoning ordinance or if the zoning ordinance does not require notification, of any part of the proposed Development site. This written notification must include the information otherwise required for the sign. If the Applicant chooses to provide this mailed notice in lieu of signage, the final Application must include a map of the proposed Development site and mark the 1,000 foot or local ordinance area showing street names and addresses; a list of all addresses the notice was mailed to; an exact copy of the notice that was mailed; and a certification that the notice was mailed through the U.S. Postal Service and stating the date of mailing. The Applicant must mail notice to any public official that changed from the submission of the pre-application to the submission of the final application and any neighborhood organization that is known and was not notified at the time of the pre-application submission. No additional notification is required unless the Applicant submitted a change in the Application that reflects a total Unit increase greater than 10%, an increase greater than 10% for any given AMFI, or a change in the population being served (elderly, general population or transitional);

(2) Completed Uniform Application and Multifamily Rental Worksheets ~~forms~~ in the format required by the Department;

(3) Certification of no changes from the pre-application to the final application. If there are changes to the Application that have an adverse affect on the score and ranking order and that would have resulted in the application being placed below another application in the ranking, the Department will terminate the Application and return the reservation to the Texas Bond Review Board (with the exception of changes to deferred developer's fees and support or opposition points);

(4) Certification and agreement to comply with the Department's rules;

(5) A narrative description of the Development;

(6) A narrative description of the proposed financing;

(7) Firm letters of commitment from any lenders, credit providers, and equity providers involved in the transaction;

(8) Documentation of local Section 8 utility allowances;

(9) Site plan;

(10) Unit and building floor plans and elevations;

(11) Complete construction plans and specifications;

(12) General contractor's contract;

(13) Completion schedule;

(14) Copy of a recorded warranty deed if the Applicant already owns the Property, or a copy of an executed earnest money contract between the Applicant and the seller of the Property if the Property is to be purchased;

(15) A local map showing the location of the Property;

(16) Photographs of the Site;

(17) Survey with legal description;

(18) Flood plain map;

(19) Evidence of zoning appropriate for the proposed use from the appropriate local municipality that satisfies one of these subparagraphs (A) through (C) of this paragraph:

(A) ~~no later than fourteen (14) days before the Board meets to consider the transaction, the Applicant must submit to the Department~~ written evidence that the local entity responsible for initial approval of zoning has approved the appropriate zoning and that they will recommend approval of the appropriate zoning to the entity responsible for final approval of zoning decisions;

(B) provide a letter from the chief executive officer of the political subdivision or another local official with appropriate jurisdiction stating that the Development is located within the boundaries of a political subdivision which does not have a zoning ordinance;

(C) a letter from the chief executive officer of the political subdivision or another local official with appropriate jurisdiction stating the Development is permitted under the provision of the zoning ordinance that apply to the location of the Development ~~or that there is not a zoning requirement.~~

(20) Evidence of the availability of utilities;

(21) Copies of any deed restrictions which may encumber the Property;

(22) A Phase I Environmental Site Assessment performed in accordance with the Department's Environmental Site Assessment Rules and Guidelines (§1.35 of this title);

(23) Title search or title commitment;

(24) Current tax assessor's valuation or tax bill;

(25) For existing Developments, current insurance bills;

(26) For existing Developments, past two (2) fiscal year end development operating statements;

(27) For existing Developments, current rent rolls;

(28) For existing Developments, substantiation that income-based tenancy requirements will be met prior to closing;

(29) A market study performed in accordance with the Department's Market Analysis Rules and Guidelines (§1.33 of this title);

(30) Appraisal of the existing or proposed Development performed in accordance with the Department's Underwriting Rules and Guidelines (§1.32 of this title);

(31) Statement that the Development Owner will accept tenants with Section 8 or other government housing assistance;

(32) An organizational chart showing the structure of the Applicant and the ownership structure of any principals of the Applicant;

(33) Evidence that the Applicant and principals are registered with the Texas Secretary of State, as applicable;

(34) Organizational documents such as partnership agreements and articles of incorporation, as applicable, for the Applicant and its principals;

(35) Documentation of non-profit status if applicable;

(36) Evidence of good standing from the Comptroller of Public Accounts of the State of Texas for the Applicant and its principals;

(37) Corporate resumes and individual resumes of the Applicant and any principals;

(38) Latest two (2) annual ~~financial~~ financial/operating statements and current interim financial statement for the Applicant and its principals;

(39) Latest income tax filings for the Applicant and its principals;

(40) Resolutions or other documentation indicating that the transaction has been approved by the general partner;

(41) Resumes of the general contractor's and the property manager's experience; and

(42) Such other items deemed necessary by the Department per individual application.

(g) ~~Evaluation~~ Eligibility Criteria. The Department will evaluate the Development for eligibility at the time of pre-application, and at the time of final Application. If there are changes to the Application that have an adverse affect on the score and ranking order and that would have resulted in the Application being placed below another Application in the ranking, the Department will terminate the Application and return the reservation to the Texas Bond Review Board (with the exception of changes to deferred developer's fees and support or opposition points). The Development and the Applicant must satisfy the conditions set out in paragraphs (1) through (6) of this subsection in order for a Development to be considered eligible:

(1) The proposed Development must further meet the public purposes of the Department as identified in the ~~Act~~Code.

(2) The proposed Development and the Applicant and its principals must satisfy the Department's Underwriting Rules and Guidelines (§1.32 of this title). The pre-application must include sufficient information for the Department to establish that the Underwriting Guidelines can be satisfied. The final Application will be thoroughly underwritten according to the Underwriting Rules and Guidelines (§1.32 of this title).

(3) The Development must not be located on a site determined to be unacceptable for the intended use by the Department.

(4) Any Development in which the Applicant or principals of the Applicant have an ownership interest must be found not to be in Material Non-Compliance under the compliance Rules in effect at the time of pre-application submission. Any corrective action documentation affecting the Material Non-compliance status score must be submitted to the Department no later than thirty (30) days prior to final application submission.

(5) Neither the Applicant nor any principals of the Applicant is, at the time of Application:

(A) barred, suspended, or terminated from procurement in a state or federal program or listed in the List of Parties Excluded from Federal Procurement or Non-Procurement Programs; or

(B) has been convicted of a state or federal crime involving fraud, bribery, theft, misrepresentation, misappropriation of funds, or other similar criminal offenses within fifteen (15) years; or

(C) is subject to enforcement action under state or federal securities law, action by the NASD, subject to a federal tax lien, or the subject of an enforcement proceeding with any governmental entity; or

(D) neither applicant nor any principals of the applicant have a development under their ownership or control with a Material Non-compliance score as set out in the Department's Compliance Monitoring Policies and Procedures (§60.1 of this title); or

(E) otherwise disqualified or debarred from participation in any of the Department's programs.

(6) Neither the Applicant nor any of its principals may have provided any fraudulent information, knowingly false documentation or other intentional or negligent misrepresentation in the Application or other information submitted to the Department.

(h) Bond Documents. After receipt of the final Application, bond counsel for the Department shall draft Bond documents which conform to the state and federal laws and regulations which apply to the transaction.

(i) Public Hearings; Board Decisions. For every Bond issuance, the Department will hold a public hearing in accordance with §2306.0661, Texas Government Code and §147(f) of the Code, in order to receive comments from the public pertaining to the Development and the issuance of the Bonds. The Applicant or member of the Development team must be present and will be responsible for conducting a brief presentation on the proposed Development and providing handouts at the hearing that should contain at a minimum, a description of the Development, maximum rents and income restrictions. If the proposed Development is an acquisition/rehabilitation then the presentation should include the scope of work that will be done to the property. All handouts must be submitted to the Department for review at least two (2) days prior to the public hearing. Publication of all notices required for the public hearing shall be at the sole expense of the Applicant. The Board's decisions on approvals of proposed Developments will consider all relevant matters. Any topics or matters, alone or in combination, may or may not determine the Board's decision. The Department's Board will consider the following topics in relation to the approval of a proposed Development:

~~(1) The Development Owner market study;~~

~~(2) The location, including supporting broad geographic dispersion;~~

~~(3) The compliance history of the Development Owner;~~

~~(4) The financial feasibility;~~

~~(5) The inclusive capture rate as described under Chapter 10, Texas Administrative Code, §1.32(g)(2);~~

~~(6) The Development's proposed size and configuration in relation to the housing needs of the community in which the Development is located;~~

~~(7) The Development's proximity to other low income Developments;~~

~~(8) The availability of adequate public facilities and services;~~

~~(9) The anticipated impact on local school districts, giving due consideration to the authorized land use;~~

~~(10) Zoning and other land use considerations;~~

~~(11) Fair Housing law, including affirmatively furthering fair housing;~~

~~(12) The Applicant and/or Developer's efforts to engage the neighborhood;~~

~~(13) The housing needs of the community, area, region and state;~~

~~(14) Consistency with local needs, including consideration of revitalization or preservation needs;~~

~~(15) Providing integrated, affordable housing for individuals and families with different levels of income;~~

~~(16) Meeting a compelling housing need;~~
(1) The developer market study;
(2) The location;
(3) The compliance history of the developer;
(4) The financial feasibility;
(5) The appropriateness of the Development's size and configuration in relation to the housing needs of the community in which the Development is located;
(6) The Development's proximity to other low income Developments;
(7) The availability of adequate public facilities and services;
(8) The anticipated impact on local school districts;
(9) Zoning and other land use considerations;
(10~~7~~) Any matter considered by the Board to be relevant to the approval decision and in furtherance of the Department's purposes ~~and the policies of Chapter 2306, Texas Government Code.~~; and
(11) Other good cause as determined by the Board.

(j) Approval of the Bonds.
(1) Subject to the timely receipt and approval of commitments for financing, an acceptable evaluation for eligibility, the satisfactory negotiation of Bond documents, and the completion of a public hearing, the Board, upon presentation by the Department's staff, will consider the approval of the Bond issuance, final Bond documents and, in the instance of privately placed Bonds, the pricing of the Bonds. The process for appeals and grounds for appeals may be found under §§1.7 and 1.8 of this title. The Department's conduit housing transactions will be processed in accordance with the Texas Bond Review Board rules Title 34, Part 9, Chapter 181, Subchapter A and Chapter 1372, Texas Government Code. The Bond issuance must receive an approving opinion from the Department's bond counsel with respect to the legality and validity of the Bonds and the security therefore, and in the case of tax-exempt Bonds, with respect to the excludability from gross income for federal income tax purposes of interest on the Bonds.
(2) Alternative Dispute Resolution Policy. ~~In accordance with Section 2306.082, Texas Government Code, it is the Department's policy to encourage the use of appropriate alternative dispute resolution procedures ("ADR") under the Governmental Dispute Resolution Act, Chapter 2009, Texas Government Code, to assist in resolving disputes under the Department's jurisdiction. As described in Chapter 154, Civil Practices and Remedies Code, ADR procedures include mediation. Except as prohibited by the Department's ex parte communications policy, the Department encourages informal communications between Department staff and applicants, and other interested persons, to exchange information and informally resolve disputes. The Department also has administrative appeals processes to fairly and expeditiously resolve disputes. If at anytime an applicant or other person would like to engage the Department in an ADR procedure, the person may send a proposal to the Department's Dispute Resolution Coordinator (fax: (512) 475-3978). For additional information on the Department's ADR Policy, see the Department's General Administrative Rule on ADR at 10 Texas Administrative Code §1.17.~~ The Department encourages use of Alternative Dispute Resolution methods as outlined in §1.17 of this title.

(k) Local Permits. Prior to the closing of the Bonds, all necessary approvals, including building permits, from local municipalities, counties, or other jurisdictions with authority over the Development must have been obtained or evidence that the permits are obtainable subject only to payment of certain fees must be provided to the Department.

(l) Closing. If there are changes to the Application prior to closing that have an adverse affect on the score and ranking order that would have resulted in the Application being placed below another Application in the ranking, the Department will terminate the Application and return the reservation to the Texas Bond Review Board (with the exception of changes to deferred developer's fees and support or opposition points). Once all approvals have been obtained and Bond documents have been finalized to the respective parties' satisfaction, the Bond transaction will close. Any outstanding Housing Trust Fund Pre-Development loans for the proposed Development site must be paid in full at the time the bond transaction is closed. All Applicants are subject to §1.13 of this title. Upon satisfaction of all conditions precedent to closing, the Department will issue Bonds in exchange for payment thereof. The Department will then loan the proceeds of the Bonds to the Applicant and disbursements of the proceeds may begin.

§~~33~~35.7 Regulatory and Land Use Restrictions

(a) Filing and Term of LURA. A Regulatory and Land Use Restriction Agreement or other similar instrument (the "LURA"), will be filed in the property records of the county in which the Development is located for each

Development financed from the proceeds of Bonds issued by the Department. For Developments involving new construction, the term of the LURA will be the longer of 30 years, the period of guaranteed affordability or the period for which Bonds are outstanding. For the financing of an existing Development, the term of the LURA will be the longer of the longest period which is economically feasible in accordance with the Act, or the period for which Bonds are outstanding.

(b) Development Occupancy. The LURA will specify occupancy restrictions for each Development based on the income of its tenants, and will restrict the rents that may be charged for Units occupied by tenants who satisfy the specified income requirements. Pursuant to §2306.269, Texas Government Code, the LURA will prohibit a Development Owner from excluding an individual or family from admission to the Development because the individual or family participates in the housing choice voucher program under Section 8, United States Housing Act of 1937 (the "Housing Act"), and from using a financial or minimum income standard for an individual or family participating in the voucher program that requires the individual or family to have a monthly income of more than two and one half (2.5) times the individual's or family's share of the total monthly rent payable to the Development Owner of the Development. Development occupancy requirements must be met on or prior to the date on which Bonds are issued unless the Development is under construction. Adequate substantiation that the occupancy requirements have been met, in the sole discretion of the Department, must be provided prior to closing. Occupancy requirements exclude Units for managers and maintenance personnel that are reasonably required by the Development.

(c) Set Asides.

(1) Developments which are financed from the proceeds of Private Activity Bonds or from the proceeds of Qualified 501(c)(3) Bonds must be restricted under one of the following two minimum set-asides:

(A) at least twenty percent (20%) of the Units within the Development that are available for occupancy shall be occupied or held vacant and available for occupancy at all times by persons or families whose income does not exceed fifty percent (50%) of the area median income, or

(B) at least forty percent (40%) of the Units within the Development that are available for occupancy shall be occupied or held vacant and available for occupancy at all times by persons or families whose income does not exceed sixty percent (60%) of the area median income.

(2) The Development Owner must designate at the time of Application which of the two set-asides will apply to the Development and must also designate the selected priority for the Development in accordance with §1372.0321, Texas Government Code. Units intended to satisfy set-aside requirements must be distributed evenly throughout the Development, and must include a reasonably proportionate amount of each type of Unit available in the Development.

(3) No tenant qualifying under either of the set-asides shall be denied continued occupancy of a Unit in the Development because, after commencement of such occupancy, such tenant's income increases to exceed the qualifying limit; provided, however, that, should a tenant's income, as of the most recent determination thereof, exceed 140% of the then applicable income limit and such tenant constitutes a portion of the set-aside requirement of this section, then such tenant shall only continue to qualify for so long as no Unit of comparable or smaller size is rented to a tenant that does not qualify as a Low-Income Tenant. (~~These are the~~Required federal set-aside requirements)

(d) Global Income Requirement. All of the Units that are available for occupancy in Developments financed from the proceeds of Private Activity Bonds or from the proceeds of Qualified 501(c)(3) Bonds shall be occupied or held vacant (in the case of new construction) and available for occupancy at all times by persons or families whose income does not exceed one hundred and forty percent (140%) of the area median income for a four-person household.

(e) Qualified 501(c)(3) Bonds. Developments which are financed from the proceeds of Qualified 501(c)(3) Bonds are further subject to the restriction that at least seventy-five percent (75%) of the Units within the Development that are available for occupancy shall be occupied (or, in the case of new construction, held vacant and available for occupancy until such time as initial lease-up is complete) at all times by individuals and families of Low Income (less than or equal to 80% of AMFI).

(f) Taxable Bonds. The occupancy requirements for Developments financed from the issuance of taxable Bonds will be negotiated, considered and approved by the Department on a case by case basis.

~~**(g) Special Needs.** At least five percent (5%) of the Units within each Development must be designed to be accessible to Persons with Special Needs and hardware and cabinetry must be stored on site or provided to be installed on an as needed basis in such Units. The Development will comply with accessibility requirements in the Fair Housing Act Design manual. The Development Owner will use its best efforts (including giving preference to Persons with Special Needs) to:~~

~~(1) make at least five percent (5%) of the Units within the Development available for occupancy by Persons with Special Needs;~~

~~(2) make reasonable accommodations for such persons; and~~

~~(3) allow reasonable modifications at the tenant's sole expense pursuant to the Housing Act. During the term of the LURA, the Development Owner shall maintain written policies regarding the Development Owner's outreach and marketing program to Persons with Special Needs.~~

(~~h~~g) Fair Housing. All Developments financed by the Department must comply with the Fair Housing Act which prohibits discrimination in the sale, rental, and financing of dwellings based on race, color, religion, sex, national origin, familial status, and disability. The Fair Housing Act also mandates specific design and construction requirements for multifamily housing built for first occupancy after March 13, 1991, in order to provide accessible housing for individuals with disabilities.

(~~i~~h) Tenant Services. The LURA will require that the Development Owner offer a variety of services for residents of the Development through a Tenant Services Program Plan which is subject to annual approval by the Department.

(~~j~~i) ~~The LURA will require the Development Owner~~Land Use Restriction Agreement. Requirements as defined in §60 of this title~~:~~.

~~(1) To obtain, complete and maintain on file Tenant Income Certifications from each Eligible Tenant, including:~~

~~(A) a Tenant Income Certification dated immediately prior to the initial occupancy of each new Eligible Tenant in the Development; and~~

~~(B) thereafter, annual Tenant Income Certifications which must be obtained on or before the anniversary of such Eligible Tenant's occupancy of the Unit, and in no event less than once in every 12-month period following each Eligible Tenant's occupancy of a Unit in the Development. For administrative convenience, the Development Owner may establish the first date that a Tenant Income Certification for the Development is received as the annual recertification date for all tenants. The Development Owner will obtain such additional information as may be required in the future by §142(d) of the Code, as the same may be amended from time to time, or in such other form and manner as may be required by applicable rules, rulings, policies, procedures, Regulations or other official statements now or hereafter promulgated, proposed or made by the Department of the Treasury or the Internal Revenue Service with respect to obligations which are tax-exempt private activity bonds described in §142(d) of the Code. The Development Owner shall make a diligent and good-faith effort to determine that the income information provided by an applicant in a Tenant Income Certification is accurate by taking steps required under §142(d) of the Code pursuant to provisions of the Housing Act.~~

~~(C) The Development shall comply with Title 10, Part 1, Chapter 60, Subchapter A.~~

~~(2) As part of the verification, such steps may include the following, provided such action meets the requirements of §142(d) of the Code and the gross income of individuals shall be determined in a manner consistent with the determinations of low income families under section 8 of the United States Housing Act of 1937:~~

~~(A) obtain pay stubs sufficient to annualize income;~~

~~(B) obtain third party written verification of income;~~

~~(C) obtain an income verification from the applicant's current employer;~~

~~(D) obtain an income verification from the Social Security Administration; or~~

~~(E) if the applicant is self-employed, unemployed, does not have income tax returns or is otherwise not reasonably able to provide other forms of verification as required above, obtain another form of independent verification as would, in the Development Owner's reasonable commercial judgment, enable the Development Owner to determine the accuracy of the applicant's income information. The Development Owner shall retain all Tenant Income Certifications obtained in compliance with this subsection (b) of this section until the date that is six years after the last Bond is retired.~~

~~(3) To obtain from each tenant in the Development, at the time of execution of the lease pertaining to the Unit occupied by such tenant, a written certification, acknowledgment and acceptance in such form as provided by the Department to the Development Owner from time to time that~~

~~(A) such lease is subordinate to the Mortgage and the LURA;~~

~~(B) all statements made in the Tenant Income Certification submitted by such tenant are accurate;~~

~~(C) the family income and eligibility requirements of the LURA and the Loan Agreement are substantial and material obligations of tenancy in the Development;~~

~~(D) such tenant will comply promptly with all requests for information with respect to such requirements from the Development Owner, the Trustee and the Department; and~~

~~(E) failure to provide accurate information in the Tenant Income Certification or refusal to comply with a request for information with respect thereto will constitute a violation of a substantial obligation of the tenancy of such tenant in the Development;~~

~~(4) To maintain complete and accurate records pertaining to the Low-Income Units and to permit, at all reasonable times during normal business hours and upon reasonable notice, any duly authorized representative of the Department, the Trustee, the Department of the Treasury or the Internal Revenue Service to enter upon the Development Site to examine and inspect the Development and to inspect the books and records of the Development Owner pertaining to the Development, including those records pertaining to the occupancy of the Low-Income Units;~~

~~(5) On or before each February 15 during the qualified development period, to submit to the Department (to the attention of the Portfolio Management and Compliance Division) a draft of the completed Internal Revenue Service Form 8703 or such other annual certification required by the Code to be submitted to the Secretary of the Treasury as to whether the Development continues to meet the requirements of §142(d) of the Code and on or before each March 31 during the qualified development period, to submit such completed form to the Secretary of the Treasury and the Department;~~

~~(6) To prepare and submit the compliance monitoring report. To cause to be prepared and submitted to the Department and the Trustee on the first day of the state restrictive period, and thereafter by the tenth calendar day of each March, June, September, and December, or other quarterly schedule as determined by the Department with written notice to the Development Owner, a certified compliance monitoring report and Development Owner's certification in such form as provided by the Departments to the Development Owner from time to time; and~~

~~(7) To provide regular maintenance to keep the Development sanitary, decent and safe.~~

~~(8) To establish a reserve account consistent with the requirements of §2306.186, Texas Government Code.~~

~~(9) To prepare and submit the Housing Sponsor Report to the Department no later than March 1st of each year.~~

§~~33~~35.8 Fees

(a) Application and Issuance Fees. The Applicant is required to submit, at the time of pre-application, the following fees: $1,000 (payable to TDHCA), $1,500 (payable to Vinson & Elkins, the Department's Bond Counsel) and $5,000 (payable to the Texas Bond Review Board (BRB)) These fees cover the costs of pre-application review and filing fees to the BRB. The Department shall set fees to be paid by the Applicant in order to cover the costs of pre-application review, Application and Development review, the Department's expenses in connection with providing financing for a Development, and as required by law. (§1372.006(a), Texas Government Code). At the time of full application the Applicant is required to submit a tax credit application fee of $30/unit and $10,000 for the bond application fee. At the closing of the bonds the following fees are required, an issuance fee equal to 5 basis points (0.005) of the issued bond amount, administration fee equal to 2 basis points (0.002) and a compliance fee equal to $40/unit.

(b) Annual Administration, Portfolio Management and Compliance, and Asset Management Fees. The Department shall set ongoing fees to be paid by Development Owners to cover the Department's costs of administering the Bonds, portfolio management and compliance with the program requirements applicable to each Development and asset management applicable requirements. The annual compliance fee is paid in advance and is equal to $40/unit beginning two years from the first payment date; the asset management fee is paid in advance and is equal to $25/unit beginning two years from the first payment date; both are adjusted annually for CPI. The annual administration fee is paid in arrears and is equal to 1 basis point (0.001) of the outstanding bond amount beginning three years from the closing date. These fees are paid for a minimum of thirty (30) years or as long as the bonds are out standing.

§~~33~~35.9 Waiver of Rules

Provided all requirements of the Act, the Code, and any other applicable law are met, the Board may waive any one or more of the Rules set forth in §§3~~3~~5.3 through 3~~3~~5.8 of this title relating to the Multifamily Housing Revenue Bond Program in order to further the purposes and the policies of Chapter 2306, Texas Government Code; to encourage the acquisition, construction, reconstruction, or rehabilitation of a Development that would provide decent, safe, and sanitary housing, including, but not limited to, providing such housing in economically depressed or blighted areas, or providing housing designed and equipped for Persons with Special Needs; or for other good cause, as determined by the Board.

§~~33~~35.10 No Discrimination

The Department and its staff or agents, Applicants, Development Owners, and any participants in the Program shall not discriminate under this Program against any person or family on the basis of race, creed, national origin, age, religion, handicap, family status, or sex, or against persons or families on the basis of their having minor children, except that nothing herein shall be deemed to preclude a Development Owner from selecting tenants with Special Needs, or to preclude a Development Owner from selecting tenants based on income in renting Units to comply with the set asides under the provisions of this Chapter.

MULTIFAMILY FINANCE PRODUCTION DIVISION

BOARD ACTION REQUEST

August 30, 2006

Action Items

Request approval of the proposed 2007 Draft Housing Trust Fund Rules to be released for publication in the *Texas Register* and to accept public comment.

Required Action

Approve, or approve with revisions, the proposed 2007 Draft Housing Trust Fund Rules for publication and acceptance of public comment.

Background

Attached are the proposed 2007 Draft Housing Trust Fund Rules. The Department held a roundtable discussion open to the public on July 24, 2006 and has accepted written and verbal input from the public and staff. The document reflects the proposed changes in "black line" version showing the proposed changes to the Housing Trust Fund Rules currently in effect which were last amended by the Board on November 10, 2005. The "black line" version shows new language as underlined and deleted language with a line running through it. Upon approval by the Board, the Draft Rules will be published in the *Texas Register* and released to the public for comment. Public hearings will be held on the proposed Draft Rules, as well as the other rules before the Board at this meeting, from approximately September 26 to October 7, 2006. A final recommendation for this rule will be presented to the Board in November 2006.

The primary changes proposed are made to ensure consistency with other multifamily rules to the extent that Housing Trust Fund will be used for multifamily development and to provide other needed clarification. Listed below is a summary of the more significant changes proposed.

1. **§51.2 – Definitions (Page 1 of 16).** §51.2 adds definitions for Persons with Disabilities, and Received Date. The purpose of these additions is to provide clarity and consistency between program rules and definitions.

2. **§51.4 – Basic Eligible Activities (Page 6 of 16).** This section was updated to include language that allows for the use of HTF funds for the purpose of scrutinizing loan fund investments.

3. **§51.5 – Ineligible Activities and Restrictions. (Page 7 of 16).** The definition of Ineligible Applicant was revised and expanded to include both Applicants and Affiliates of Applicants for the purpose of ineligibility and compliance review.

4. **§51.6 –Application Procedure and Requirements (Page 9 of 16).** This section is revised to reduce the number of days required for Applicants to respond to application deficiencies from seven days to five days for consistency with other Department rules. Additionally, new language is added regarding the processing of applications jointly applying under open and competitive cycles. Applications that are layered with Competitive Housing Tax Credits will follow the process as outlined in §49.9(d) of this title.

5. **§51.7 – Criteria for Funding (Page 13 of 16).** New language was added requiring Applicants to repay Housing Trust Funds Pre-Development loans prior to the closing of development funding from the Department.

Additional minor modifications are made to align the proposed rules with either federal or state statutory language.

Recommendation

Staff recommends the Board approve the Draft 2007 Housing Trust Fund Rules for publication to receive public comment and conduct the consolidated public hearings with other applicable rules and allow staff to make changes to these rules, where applicable, to be consistent with other rules being approved at this Board meeting.

~~2006~~ 2007 Draft HOUSING TRUST FUND RULE

TITLE 10, PART 1, CHAPTER 51 TEXAS ADMINISTRATIVE CODE

§51.1. Purpose.

This Chapter clarifies the use and administration of the Housing Trust Fund. The Department shall use the Housing Trust Fund to provide loans, grants, or other comparable forms of assistance to local units of government, public housing authorities, for profit entities, nonprofit organizations, income-eligible individuals, families, and households to finance, acquire, rehabilitate, and develop decent, safe, and sanitary housing. The fund is created pursuant to §2306.201 of the Texas Government Code. Pursuant to §2306.202 of the Texas Government Code, the use of the Housing Trust Fund is limited to providing:

(1) assistance for individuals and families of low and very low income;

(2) technical assistance and capacity building to nonprofit organizations engaged in developing housing for individuals and families of low and very low income;

(3) security for repayment of revenue bonds issued to finance housing for individuals and families of low and very low income; and

(4) subject to the limitations in §2306.251~~(c)~~ of the Texas Government Code, the Department may also use the fund to acquire property to endow the fund.

§51.2. Definitions.

The following words and terms, when used in this part, shall have the following meanings, unless the context clearly indicates otherwise.

(1) **Administrative Deficiencies**--The absence of information or a document from the Application which is important to a review and scoring of the Application as required in this rule, and the Notice of Funding Availability (NOFA).

(2) **Applicant**-- Any Person or Affiliate of a Person who ~~An eligible entity which~~ is preparing to submit or has submitted an application for Housing Trust Fund assistance and is assuming contractual liability and legal responsibility by executing the written agreement with the Department.

(3) **Board**--The governing board of the Department.

(4) **Capacity Building**--Educational and organizational support assistance to promote the ability of community housing development organizations and nonprofit organizations to maintain, rehabilitate and construct housing for low, very low, and extremely low-income persons and families. This activity may include:

(A) organizational support to cover expenses for housing development or management related training, technical and other assistance to the board of directors, staff, and members of the nonprofit organizations or community housing development organizations;

(B) technical assistance and training related to housing development, housing management, or other subjects related to the provision of housing or housing services; or

(C) studies and analyses of housing needs.

(5) **Community Housing Development Organizations (CHDO)**--A nonprofit organization that satisfies the requirements of § 53.63 of this title.

(6) **Competitive Application Cycle**-- A competition for funding during a defined period when applications may be submitted in response to a NOFA. Applications will be reviewed and scored in accordance with the rules for application review published in the NOFA, and application guidelines.

(7) **Department**--The Texas Department of Housing and Community Affairs.

(8) **Eligible Applicants**--Local units of government, public housing authorities, community housing development organizations, nonprofit organizations, for-profit entities, and persons and families of low, very low, and extremely low income.

(9) **Extremely Low-Income Persons and Families**--Families whose annual incomes do not exceed 30% of the median income of the area, as determined by HUD and published by the Department, with adjustments for family size.

(10) **Housing Development Costs**--The total of all costs incurred, or to be incurred, by the Development Owner in acquiring, constructing, rehabilitating and financing a Development as determined by the Department based on the information contained in the Application. Such costs include reserves and any expenses attributable to commercial areas.

(11) **Housing Development**--Any real or personal property, project, building, structure, facilities, work, or undertaking, whether existing, new construction, remodeling, improvement, or rehabilitation, which meets or is designed to meet minimum property standards consistent with those prescribed in the Housing Trust Fund Property Standards, found in the Program Guidelines, for the primary purpose of providing sanitary, decent, and safe dwelling accommodations for rent, lease, use, or purchase by persons and families of low, very low, and extremely low income, and persons with special needs. The term may include buildings, structures, land, equipment, facilities, or other real or personal properties which are necessary, convenient, or desirable appurtenances, such as but not limited to streets, water, sewers, utilities, parks, site preparation, landscaping, stores, offices, and other non-housing facilities, such as administrative, community and recreational facilities the Department determines to be necessary, convenient, or desirable appurtenances.

(12) **HUD**--The United States Department of Housing and Urban Development, or its successor.

(13) **Intergenerational Housing**--as defined by §49.3 of this title. ~~Housing that includes specific units that are restricted to the age requirements of a Qualified Elderly Development and specific units that are not age restricted in the same Development that:~~

~~(A) have separate and specific buildings exclusively for the age restricted units;~~

~~(B)have separate and specific leasing offices and leasing personnel exclusively for the age restricted units;~~

~~(C)have separate and specific entrances, and other appropriate security measures for the age restricted units;~~

~~(D)provide shared social service programs that encourage intergenerational activities but also provide separate amenities for each age group;~~

~~(E)share the same Development site;~~

~~(F)are developed and financed under a common plan and owned by the same Person for federal tax purposes; and~~

~~(G)meet the requirements of the federal Fair Housing Act (42 U.S.C. 3601).~~

(14) **Local Units of Government--**A county; an incorporated municipality; a special district; a council of governments; any other legally constituted political subdivision of the state; a public, nonprofit housing finance corporation created under the Local Government Code, Chapter 394; or a combination of any of the entities described here.

(15) **Low-Income Persons and Families**--Families whose annual incomes do not exceed 80% of the median income of the area, as determined by HUD and published by the Department, with adjustments for family size.

~~(16) New construction--Any Development not meeting the definition of Rehabilitation or Reconstruction.~~

~~(17)~~(16) **Nonprofit Organization**--Any public or private, nonprofit organization that:

(A) is organized under state or local laws;

(B) has no part of its net earnings inuring to the benefit of any member, founder, contributor, or individual;

(C) has a current tax exemption ruling from the Internal Revenue Service (IRS) under Section 501(c)(3), a charitable, nonprofit corporation, or Section 501(c)(4), a community or civic organization, of the Internal Revenue Code of 1986, as evidenced by a certificate from the IRS that is dated 1986 or later. The exemption ruling must be effective on the date of the application and must continue to be effective throughout the length of any contract agreements; or classification as a subordinate of a central organization non-profit under the Internal Revenue Code, as evidenced by a current group exemption letter, that is dated 1986 or later, from the IRS that includes the Applicant. The group exemption letter must specifically list the Applicant; and

(D) A private nonprofit organization's pending application for 501(c)(3) or (c)(4) status cannot be used to comply with the tax status requirement.

(17) ~~(18)~~ **NOFA--**Notice of Funding Availability, published in the *Texas Register*.

(18) ~~(19)~~ **Open Application Cycle**--A defined period during which applications may be submitted in response to a published NOFA and which will be reviewed on a first come-first served basis until all

funds available are committed, or until the NOFA is closed. Applications will be reviewed in accordance with the rules for application review published in the NOFA and application guidelines.

(19) **Persons with Disabilities**--A person who:

(A) has a physical, mental or emotional impairment that:

(i) is expected to be of a long, continued and indefinite duration,

(ii) substantially impedes his or her ability to live independently, and

(iii) is of such a nature that the disability could be improved by more suitable housing conditions,

(B) has a developmental disability, as defined in the Developmental Disabilities Assistance and Bill of Rights Act (42 U.S.C. Section 15002), or

(C) has a disability, as defined in 24 CFR §5.403.

(20) **Person with Special Needs**-

(A) Persons with alcohol and/or drug addictions, Colonia residents, Persons with Disabilities, victims of domestic violence, persons with HIV/AIDS, homeless populations and migrant farm workers.

~~(A)persons with disabilities, persons with alcohol or other drug addictions, persons with HIV/AIDS and their families, the elderly, victims of domestic violence, persons living in Colonias, and migrant farm workers, any of whom also meets the income guidelines of a person of low, very low or extremely low income.~~

(B) Housing Trust Funds may also be awarded through persons legally responsible for caring for an individual described by subparagraph (A.) of this paragraph, pursuant to §2306.511 of the Texas Government Code.

(21) **Predevelopment Costs**--Reimbursable costs related to a specific eligible housing project including:

(A) Predevelopment housing project costs that the Department determines to be customary and reasonable, including but not limited to consulting fees, ~~costs of preliminary financial applications, legal fees,~~ architectural fees, engineering fees, engagement of a development team, site control, and title clearance;

(B) Pre-construction housing project costs that the Department determines to be customary and reasonable, including but not limited to, the costs of obtaining ~~firm construction loan commitments,~~ architectural plans and specifications, zoning approvals, engineering studies and legal fees; and

(C) Predevelopment costs do not include general operational or administrative costs.

(22) **Public Agency**--A unit of government created by a ~~branch of~~ National, State or Local Government.

(23) **Public Housing Authority**--A housing authority established under the Texas Local Government Code, Chapter 392.

(24) **Received Date**--The date and time at which an Application is actually received by the Department.

(25) ~~(24)~~ **Recipient**--Community housing development organization, nonprofit organization, for-profit entity, local unit of government, or public housing authority that is approved by the Department to receive and administer housing trust funds in accordance with these rules.

~~(e) (25) **Reconstruction**--The rebuilding of a structure on the same lot where housing is standing at the time of project commitment. During reconstruction, the number of rooms per unit may change, but the number of units may not.~~

~~(f) (26) **Rehabilitation**--The alteration, improvement or modification of an existing structure. It also includes moving an existing structure to a newly constructed foundation. Rehabilitation may include adding rooms outside the existing walls of a structure, but adding a housing unit is considered new construction.~~

(26) ~~(27)~~ **Rental Housing Development**--A project for the acquisition, new construction, reconstruction or rehabilitation of multi-family or single family rental housing, or conversion of commercial property to rental housing.

(27) ~~(28)~~ **Rural Development**-- A proposed Development located in an area that is :

(A) outside the boundaries of a primary metropolitan statistical area or a metropolitan statistical area;

(B) within the boundaries of a primary metropolitan statistical area or a metropolitan statistical area, if the statistical area has a population of 20,000 or less and does not share a boundary with an urban area; or

(C) in an Area that is eligible for New Construction funding by TX-USDA-RHS; or

(D) on a specific Development Site eligible for Rehabilitation funding by TX-USDA-RHS as evidenced by an executed TX-USDA-RHS letter indicating TX-USDA-RHS has received a Consent Request, also referred to as a Preliminary Submittal, as described in 7 CFR 3560.406.

~~(A) outside the boundaries of a Primary Metropolitan Statistical Area (PMSA) or Metropolitan Statistical Area (MSA); or~~

~~(B) within the boundaries of a PMSA or MSA area, if the statistical area has a population of 20,000, or less and does not share a boundary with an urban area; or~~

~~(C)in an area that is eligible for new construction or rehabilitation funding by TX-USDA-RHS.~~

(28) ~~(29)~~ **State**--The State of Texas.

(29) ~~(30)~~ **Statute**--Texas Government Code chapter 2306.

(30) ~~(30)~~ **Very Low-Income Persons and Families**--Families whose annual incomes do not exceed 60% of the median income of the area, as determined by HUD and published by the Department, with adjustments for family size.

§51.3. Allocation of Housing Trust Funds.

(a) Pursuant to §2306.201 of the Texas Government Code, the Housing Trust Fund is a fund administered by the Department, and placed with the Texas Treasury Safekeeping Trust Company.

(b) The fund consists of:

(1) appropriations or transfers made to the fund;

(2) unencumbered fund balances;

(3) public or private gifts or grants;

(4) investment income, including all interest, dividends, capital gains, or other income from the investment of any portion of the fund;

(5) repayments received on loans made from the fund; and

(6) funds from any other source

(c) Each biennium the first $2.6 million available through the housing trust fund for loans, grants, or other comparable forms of assistance shall be set aside and made available exclusively for local units of government, public housing authorities, and nonprofit organizations. Any additional funds may also be made available to for-profit organizations so long as at least 45 percent of available funds in excess of the first $2.6 million shall be made available to nonprofit organizations. The remaining portion shall be competed for by nonprofit organizations, for-profit organizations, and other eligible entities, pursuant to §2306.202 of the Texas Government Code.

(d) Funds shall be allocated to achieve broad geographic dispersion by awarding funds in accordance with § 2306.111(d) and (g), Texas Government Code.

(e) The Department shall require that applicants target at least 50% of those units served by housing trust funds to individuals and families earning less than 60% of median family income.

(f) Bond indenture requirements governing expenditure of bond proceeds deposited in the housing trust fund shall govern and prevail over all other allocation requirements established in this section. However, the Department shall distribute these funds in accordance with the requirements of this section to the extent possible.

(g) Housing Trust Funds may also be allocated to the Texas Bootstrap Loan Program and will be awarded in accordance with §2306.753 of the Texas Government Code.

§51.4. Basic Eligible Activities.

(a) The department, through the housing finance division, shall use the housing trust fund to provide loans, grants, or other comparable forms of assistance to local units of government, public housing authorities, for profit entities, nonprofit organizations, and income-eligible individuals, families, and households to finance, acquire, rehabilitate, and develop decent, safe, and sanitary housing. In each biennium the first $2.6 million available through the housing trust fund for loans, grants, or other comparable forms of assistance shall be set aside and made available exclusively for local units of government, public housing authorities, and nonprofit organizations. Any additional funds may also be made available to for-profit organizations so long as at least 45 percent of available funds in excess of the first $2.6 million shall be made available to nonprofit organizations for the purpose of acquiring, rehabilitating, and developing decent, safe, and sanitary housing. The remaining portion shall be competed for by nonprofit organizations, for-profit organizations, and other eligible entities. Notwithstanding any other section of this chapter, but subject to the limitations in Section 2306.251(c), the department may also use the fund to acquire property to endow the fund.

(b) Use of the fund is limited to providing:

(1) assistance for individuals and families of low and very low income;

(2) technical assistance and capacity building to nonprofit organizations engaged in developing housing for individuals and families of low and very low income; and

(3) security for repayment of revenue bonds issued to finance housing for individuals and families of low and very low income.

~~The Department shall make grants and loans from the Housing Trust Fund to Eligible Applicants for purposes consistent with §51.2 of this title and §2306.202 of the Texas Government Code. Eligible program activities for the Housing Trust Fund include, but are not limited to:~~

~~(1)the acquisition, rehabilitation, and new construction of affordable rental housing. Refinancing or rehabilitation of properties constructed within the past 5 years and previously funded by the Department are not eligible;~~

~~(2)the acquisition, rehabilitation, new construction of affordable homeownership developments. Developments may be completed by a contracted developer or through Self-Help Construction.~~

~~Housing that is newly constructed or rehabilitated must meet all applicable local and state codes, rehabilitation standards, ordinances, zoning ordinances, §2306.514 of the Texas Government Code, and all additional standards or codes as specified in the application guide;~~

~~(3)tenant-based rental assistance in which the assisted tenant may move from a dwelling unit with a right to continued assistance. Tenant-based rental assistance also includes security and utility deposits for rental of dwelling units;~~

~~(4)predevelopment loans to nonprofit housing development organizations for eligible reimbursable costs associated with the planning and implementation of affordable housing activities;~~

~~(5) credit enhancements or security for repayment of revenue bonds issued to finance affordable housing; and~~

~~(6)technical assistance or other forms of capacity building to nonprofit housing developers.~~

§51.5. Ineligible Activities and Restrictions.

(a) Ineligible Applicants: The following violations will cause an Applicant, and any applications they have submitted, to be ineligible:

(1) Previously funded recipient(s) whose Housing Trust Funds have been partially or fully deobligated due to failure to meet contractual obligations during the 12 months prior to the current funding cycle;

(2) Applicants, or persons affiliated with the Applicant that have been barred, suspended, or terminated from procurement in a state or federal program and listed in the List of Parties Excluded from Federal Procurement of Non-procurement Programs;

(3) Applicants or persons affiliated with the Applicant that are subject of enforcement action under state or federal securities law, or is the subject of an enforcement proceeding with a state or federal agency or another governmental entity;

(4) Applicants or persons affiliated with the Applicant that have unresolved audit findings related to previous or current funding agreements with the Department;

(5) Applicants or persons affiliated with the Applicant that have delinquent loans, fees or other commitments with the Department, until payment is made;

(6) Applicants who have not satisfied all threshold requirements described in this title, and the NOFA to which they are responding, and for which Administrative Deficiencies were unresolved;

(7) Refinancing or rehabilitation of properties constructed within the past 5 years and previously funded by the Department are not eligible;

(8) Applicants who have submitted incomplete Applications;

(9) Applicants or persons affiliated with the Applicant that have been otherwise barred by the Department;

(10) Applicants are subject to §1.13 of this title;

(11) Applicants or persons affiliated with the Applicant that have breached a contract with a public agency; or

(12) The acquisition, rehabilitation, reconstruction or refinancing of affordable rental housing constructed within the past 5 years or previously funded by the Department.

(b) ~~(a)~~Displacement of Existing Affordable Housing. Pursuant to §2306.203(a)(4) of the Texas Government Code, Housing Trust Funds shall not be utilized on a development that has the effect of permanently displacing low, very low, and extremely low income persons and families. Low-Income persons who may be temporarily displaced by the rehabilitation of affordable housing may be eligible for compensation of moving and relocation expenses. If a Housing Trust Fund recipient violates the permanent dislocation provision of this subsection, that recipient risks loss of Housing Trust Funds and the landlord/developer must pay the affected tenant's costs and all moving expenses.

~~(b) If a Housing Trust Fund recipient violates the permanent dislocation provision of this subsection, that recipient risks loss of Housing Trust Funds and the landlord/developer must pay the affected tenant's costs and all moving expenses.~~

(c) Communication with Department Employees. Communication with Department staff by Applicants that submit a Pre-Application or Application must follow the following requirements. During the period beginning on the date a Development Pre-Application or Application is filed and ending on the date the Board makes a final decision with respect to any approval of that Application, the Applicant or a Related Party, and any Person that is active in the construction, rehabilitation, ownership or Control of the proposed Development including a General Partner or contractor and a Principal or Affiliate of a General Partner or contractor, or individual employed as a lobbyist by the Applicant or a Related Party, may communicate with an employee of the Department about the Application orally or in written form, which includes electronic communications through the Internet, so long as that communication satisfies the conditions established under paragraphs (1) - (3) of this subsection. Section 49.5(b)(6) of this title applies to all communication with Board members. Communications with Department employees is unrestricted during any board meeting or public hearing held with respect to that Application.

(1) The communication must be restricted to technical or administrative matters directly affecting the Application;

(2) The communication must occur or be received on the premises of the Department during established business hours (emails may be sent and received after business hours);

(3) a record of the communication must be maintained by the Department and included with the Application for purposes of board review and must contain the date, time, and means of communication; the names and position titles of the persons involved in the communication and, if applicable, the person's relationship to the Applicant; the subject matter of the communication; and a summary of any action taken as a result of the communication. (2306.1113)

~~(c) Communication with Department Employees. Communication with Department staff by Applicants that submit a Pre-Application or Application must follow the following requirements. During the period beginning on the date a Development Pre-Application or Application is filed and ending on the date the Board makes a final decision with respect to any approval of that Application, the Applicant or a Related Party, and any Person that is active in the construction, rehabilitation, ownership or Control of the proposed Development including a General Partner or contractor and a Principal or Affiliate of a General Partner or contractor, or individual employed as a lobbyist by the Applicant or a Related Party, may communicate with an employee of the Department about the Application orally or in written form, which includes electronic communications through the Internet, so long as that communication satisfies the conditions established under paragraphs (1) through (3) of this subsection. Section 49.5(b)(7) of this title applies to all communication with Board members. Communications with Department employees is unrestricted during any board meeting or public hearing held with respect to that Application.~~

~~(1)The communication must be restricted to technical or administrative matters directly affecting the Application;~~

~~(2)The communication must occur or be received on the premises of the Department during established business hours;~~

~~(3)A record of the communication must be maintained by the Department and included with the Application for purposes of board review and must contain the date, time, and means of communication; the names and position titles of the persons involved in the communication and, if~~

~~applicable, the person's relationship to the Applicant; the subject matter of the communication; and a summary of any action taken as a result of the communication (§2306.1113).~~

~~(d) Ineligible Applicants: The following violations will cause an Applicant, and any applications they have submitted, to be ineligible:~~

~~(1) Previously funded recipient(s) whose Housing Trust Funds have been partially or fully deobligated due to failure to meet contractual obligations during the 12 months prior to the current funding cycle;~~

~~(2) Applicants who have not satisfied all threshold requirements described in this title, and the NOFA to which they are responding, and for which Administrative Deficiencies were unresolved;~~

~~(3) Applicants who have submitted incomplete applications;~~

~~(4) Applicants that have been otherwise barred by the Department;~~

~~(5) Applicant or Developer, or their staff, who violate the state revolving door policy, Chapter 572 of the Texas Government Code; or~~

~~(e) Any applicant who would otherwise be considered ineligible under §50.5 of this title, excluding those requirements at §§50.5(a)(5) - (8), (10) and (11) of this Title.~~

~~The Department will not recommend an application for funding if it includes a principal who is or has been:~~

~~(1)Barred, suspended, or terminated from procurement in a state or federal program and listed in the List of Parties Excluded from Federal Procurement of Non-procurement Programs;~~

~~(2)The subject of enforcement action under state or federal securities law, or is the subject of an enforcement proceeding with a state or federal agency or another governmental entity;~~

~~(3)If the applicant has unresolved audit findings related to previous or current funding agreements with the Department; or~~

~~(4)Has breached a contract with a public agency.~~

(d) ~~(f)~~ Material Noncompliance. Each Application will be reviewed for its compliance history by the Department, consistent with Chapter 60 of this title. Applicants, or persons affiliated with an Application, found to have a Development or Contract in Material Noncompliance with the Department, will have their Applications terminated. ~~Applications found to be in Material Noncompliance, will be terminated.~~

(e) ~~(g)~~ Rental Housing Development Site and Development Restrictions. Restrictions include all those items referred to in Chapter 2306 of the Texas Government Code and any additional items included in the NOFA for rental housing developments.

(f) ~~(h)~~ Limitations on the Size of Developments. Developments involving new construction will be limited to 252 units. These maximum Unit limitations also apply to those Developments which involve a combination of rehabilitation and new construction. Developments that consist solely of acquisition/rehabilitation or rehabilitation only may exceed the maximum ~~Unit~~ unit restrictions. The minimum number of units shall be 4 units.

§51.6. Application Procedure and Requirements.

(a) In distributing funds, the Department will release a NOFA and/or request for proposals that identifies the uses of the available funds and the specific criteria that will be utilized in evaluating applicants.

(b) Applicants must submit a complete application to be considered for funding, along with an application fee determined by the Department and outlined in the NOFA. Applications containing false information will be disqualified. Applications submitted under a Competitive Application Cycle must be received by the application deadline or they will be disqualified. Disqualified Applicants will be notified in writing. All applications must be received by the Department by 5:00 p.m. regardless of method of delivery.

(c) Applications received by the Department in response to a Competitive Application Cycle NOFA for housing development activities will be handled in the following manner:

(1) Threshold Evaluation. Applications submitted for Rental Housing Developments will be required to meet the Threshold Criteria defined by the NOFA and any Threshold Criteria that may be applicable to the Housing Trust Fund as defined by this rule and Chapter 2306 of the Texas Government Code.

(2) Scoring Evaluation. For an Application to be scored, the Application must demonstrate that the Development meets all of the Threshold Criteria requirements. Applications that satisfy the Threshold Criteria will then be scored and ranked according to the Scoring Criteria identified in the NOFA.

(3) Financial Feasibility Evaluation. After the Application is scored, the Department will assign, as herein described, Developments for review for financial feasibility by the Department's Real Estate Analysis Division. The Department shall underwrite an Application to determine the financial feasibility of the Development and an appropriate funding amount and terms. In making this determination, the Department will use the Underwriting Rules and Guidelines, §1.32 of this title.

(d) ~~(c)~~ Applications received by the Department in response to an Open Application Cycle NOFA for housing development activities will be handled in the following manner:

(1) The Department will accept applications on an ongoing basis, until such date when the Department makes notice to the public that the Open Application Cycle has been closed. All applications must be received during business hours and no later than 5:00 p.m. on any business day. The Department may limit the eligibility of applications in the NOFA.

(2) Each application will be handled on a first-come, first-served basis as further described in this section. Each application will be assigned a "received date" based on the date and time it is physically received by the Department. Then each application will be reviewed on its own merits in three review phases. Applications will continue to be prioritized for funding based on their "received date" unless they do not proceed into the next phase(s) of review. Applications proceeding in a timely fashion through a phase will take priority over applications that may have an earlier "received date" but that did not timely complete a phase of review.

(A) Phase One will begin as of the received date. Applications not being considered as CHDOs will be passed through to Phase Two upon receipt. Phase One will only entail the review of the CHDO Certification package. The Department will ensure review of these materials and issue notice of any deficiencies on the CHDO Certification package within 30 days of the received date. Applicants who are able to resolve their deficiencies within five~~seven~~ business days will be forwarded into Phase Two and will continue to be prioritized by their received date. Applications which do not resolve all deficiencies five~~seven~~ business days will be retained in Phase One until all deficiencies have been addressed or resolved by the Applicant to the Department's satisfaction. Only upon satisfaction of all deficiencies will the Application be forwarded to Phase Two. Applications that have not proceeded out of Phase One within 50 days of the received date will be terminated and must reapply for consideration of funds.

(B) Phase Two will include a review of all application requirements. The Department will ensure review of all application materials required under the NOFA and issue notice of any deficiencies on the application's satisfaction of threshold and eligibility within 45 days of the date it enters Phase Two. Applicants who are able to resolve their deficiencies within five~~seven~~ business days will be forwarded into Phase Three and will continue to be prioritized by their received date. Applications which do not resolve all deficiencies within five~~seven~~ business days, will be retained in Phase Two until all deficiencies have been addressed or resolved by the Applicant to the Department's satisfaction. Only upon resolution of all deficiencies will the Application be forwarded to Phase Three. Applications that have not left Phase Two within 65 days of the date it entered Phase Two will be terminated and must reapply for consideration of funds.

(C) Phase Three will include a comprehensive review for material noncompliance and financial feasibility by the Department. Financial feasibility reviews will be conducted by the Department's Real Estate Analysis (REA) Division consistent with 10 TAC §1.32, Underwriting Rules and Guidelines. REA will draft an underwriting report that will identify staff's recommended loan terms, the loan or grant amount and any conditions to be placed on the development. The Department will ensure financial feasibility review and issue notice of any required deficiencies for that feasibility review within 45 days of the date it enters Phase Three. Applicants who are able to resolve their deficiencies within five ~~seven~~ business days will be forwarded into "Recommended Status" and will continue to be prioritized by their received date. Applications with deficiencies not satisfied within five ~~seven~~ business days, will be retained in Phase Three until Applicant resolves all deficiencies to the Department's satisfaction. Only upon satisfaction of all deficiencies will the Application be forwarded to the Department's Executive Award Review and Advisory Committee for final approval before recommendation to the Board. Any application that has not left Phase Three after 65 days of the date it entered Phase Three will be terminated and must reapply for consideration of funds.

(D) Upon completion of Phase Three, applications will be presented to the Executive Awards Review and Advisory Committee (the Committee). If satisfactory, the Committee will then recommend the award of funds to the Board, as long as funds are still available for this activity under the applicable NOFA. If Phase Three is completed at least ~~14~~ 21 days prior to the next Board meeting, it will be placed on the next Board meeting's agenda. If Phase Three is completed with less than ~~14~~ 21 days before the next Board meeting, the recommendation will be placed on the following month's Board meeting agenda.

(E) Because applications are prioritized by "received date," it is possible that the Department will expend all available funds before an application has been completely reviewed. If all funds are committed before an application has completed all phases of the review process, the Department will notify the applicant that their application will remain active for 90 days in its current phase. If new funds become available applications already under review will continue with their review without losing their received date status. If new funds do not become available within 90 days of the notification, the applicant will be notified that their application is no longer under consideration and in the event of future funding, they would be required to reapply. If on the date an application is received by the Department, no funds are available under the~~this~~ NOFA, the applicant will be notified that no funds remain under the NOFA and that the application will not be processed.

(F) The Department may decline to consider any application if the proposed activities do not, in the Department's sole determination, represent a prudent use of the Department's funds. Beyond the use of the "received date", staff will make selections based upon the need for housing in the community where the development is located, the effectiveness with which the proposed use of funds would aid in continuing to provide affordable housing, the general feasibility of the proposed transaction, and the credibility of the applicant. The Department is not obligated to proceed with any action pertaining to any applications which are received, and may decide it is in the Department's best interest to refrain from funding any application. The Department strives, through its terms, to maximize the return on its funds while ensuring the financial feasibility of a development. The Department reserves the right to negotiate individual elements of any application.

(e) Layered Applications. If an Application is submitted to the Department for a Development that requests funds from two separate housing finance programs, and only one of the housing finance programs is operated as a competitive cycle, then the Application will be handled in accordance with the competitive cycle guidelines for that program. If an Application is submitted for two separate housing finance programs where both programs are either open cycle, or competitive, the Application will be handled in accordance with the most restrictive program rules with the approval of the Department's Executive Director.

(f) ~~(d)~~ Administrative Deficiencies. If an application contains deficiencies which, in the determination of the Department staff, require clarification or correction of information submitted at the time of the application, the Department staff may request clarification or correction of such Administrative Deficiencies including both threshold and/or scoring documentation. The Department staff may request clarification or correction in a deficiency notice in the form of a facsimile and a telephone call to the Applicant advising that such a request has been transmitted. Administrative Deficiencies given to Applications submitted under an Open Application Cycle NOFA will be handled in the manner described under Part B of this Section. Applications submitted under a Competitive Application Cycle NOFA will be treated in the following manner. If Administrative Deficiencies are not clarified or corrected to the satisfaction of the Department within three ~~five~~ business days of the deficiency notice date, then five points shall be deducted from the application score for each additional day the deficiency remains unresolved. If deficiencies are not clarified or corrected within five ~~seven~~ business days from the deficiency notice date, then the application shall be terminated. The time period for responding to a deficiency notice begins at the start of the business day following the deficiency notice date. Deficiency notices may be sent to an Applicant prior to or after the end of the Application Acceptance Period. An Applicant may not change or supplement an application in any manner after the filing deadline, except in response to a direct request from the Department.

~~(e)Applications received by the Department in response to a Competitive Application Cycle NOFA for housing development activities will be handled in the following manner:~~

~~(1)Threshold Evaluation. Applications submitted for Rental Housing Developments will be required to meet the Threshold Criteria defined by the NOFA and any Threshold Criteria that may be applicable to the Housing Trust Fund as defined by Chapter 2306 of the Texas Government Code.~~

~~(2)Scoring Evaluation. For an Application to be scored, the Application must demonstrate that the Development meets all of the Threshold Criteria requirements. Applications that satisfy the Threshold Criteria will then be scored and ranked according to the Scoring Criteria identified in the NOFA.~~

~~(3)Financial Feasibility Evaluation. After the Application is scored, the Department will assign, as herein described, Developments for review for financial feasibility by the Department's Real Estate Analysis Division. The Department shall underwrite an Application to determine the financial feasibility of the Development and an appropriate funding amount and terms. In making this determination, the Department will use the Underwriting Rules and Guidelines, §1.32 of this title.~~

~~(f)~~(g) All applications for housing development activities will be reviewed in the following manner:

(1) A site visit will be conducted. Applicants must receive recommendation for approval from the Department to be considered for funding by the Board.

(2) Board approval for the award of Development activity funds is conditioned upon a completed loan closing and any other conditions deemed necessary by the Department.

~~(g)~~(h) Applications other than Rental Housing Developments will be reviewed and evaluated in accordance with the NOFA for that activity.

~~(h)~~(i) Applicants may appeal staff's decisions regarding their applications consistent with §1.7 of this title.

~~(i)~~(j) Alternative Dispute Resolution Policy. Applicant's may utilize the Department's Alternative Dispute Resolution process as defined by §1.17 of this title. ~~In accordance with §2306.082, Texas Government Code, it is the Department's policy to encourage the use of appropriate alternative~~

~~dispute resolution procedures ("ADR") under the Governmental Dispute Resolution Act, Chapter 2009, Texas Government Code, to assist in resolving disputes under the Department's jurisdiction. As described in Chapter 154, Civil Practices and Remedies Code, ADR procedures include mediation. Except as prohibited by the Department's ex parte communications policy, the Department encourages informal communications between Department staff and applicants, and other interested persons, to exchange information and informally resolve disputes. The Department also has administrative appeals processes to fairly and expeditiously resolve disputes. If at anytime an applicant or other person would like to engage the Department in an ADR procedure, the person may send a proposal to the Department's Dispute Resolution Coordinator. For additional information on the Department's ADR Policy, see the Department's General Administrative Rule on ADR at 10 Texas Administrative Code §1.17.~~

~~(j)~~(k) Public Notification. Applicants for Rental Development activities will be required to provide written notification to each of the following persons or entities 14 days prior to the submission of any application package. Failure to provide written notifications 14 days prior to the submission of an application package at a minimum will cause an application to lose its "received by date" under open application cycles, or be terminated under competitive application cycles. Applicants must provide notifications to:

(1) the executive officer and elected members of the governing board of the community where the development will be located. This includes municipal governing boards, city councils, and County governing boards;

(2) all neighborhood organizations whose defined boundaries include the location of the Development;

(3) executive officer and Board President of the school district that covers the location of the Development;

(4) residents of occupied housing units that may be rehabilitated, reconstructed or demolished; and

(5) the State Representative and State Senator whose district covers the location of the Development.

(6) The notification letter must include, but not be limited to, the address of the development site, the number of units to be built or rehabilitated, the proposed rent and income levels to be served, and all other details required of the NOFA and Application Manual.

§51.7. Criteria for Funding.

(a) In considering applications for funding, the Department considers the following requirements under § 2306.203, Texas Government Code, and such others as may be enumerated during the funding cycle:

(1) Minimum Eligibility Criteria. To be considered for funding, an Applicant must first demonstrate that it meets each of the following threshold criteria:

(A) the application is consistent with the requirements established in this rule and the NOFA;

(B) the applicant provides evidence of its ability to carry out the proposal in the areas of financing, acquiring, rehabilitating, developing or managing an affordable housing development; ~~and~~

(C) the proposal addresses and identifies a housing need. This assessment will be based on statistical data, surveys and other indicators of need as appropriate~~.~~; and

(D) any outstanding Housing Trust Fund Pre-Development loans for the same proposed Development site must be paid in full at the time of loan closing for the current requested funds.

(2) Evaluation Factors. Pursuant to §2306.203(c) of the Texas Government Code, the criteria used to evaluate applications, as more fully reflected in the NOFA, will include at a minimum the:

(A) leveraging of federal funds including the extent to which the project will leverage State funds with other resources, including federal resources, and private sector funds;

(B) cost-effectiveness of a proposed development; and

(C) extent to which individuals and families of very low income and extremely low income are served by the development.

(b) The Board has final approval on all recommendations for funding.

(c) Eligible Applicants that have been approved for funding and that require a material change in the project description must provide a written request for the material change to the Department prior to implementing the change.

(1) A material change may include, but is not limited to, the following:

(A) Change in project site;

(B) Change in the number of units or set asides; and

(C) An increase in funding that is not permitted under subsection (d) of this section.

(2) Failure to comply with this subsection may result in the termination of funding to Applicant.

(d) The Department, acting by and through its Executive Director or his/her designee, may authorize, execute, and deliver modifications and/or amendments to any Housing Trust Fund development proposal or written agreement provided that:

(1) in the case of a modification or amendment to the dollar amount of the request or award, such modification or amendment does not increase the dollar amount by more than 25% of the original request or award, or $50,000, whichever is greater;

(2) in the case of all other modifications or amendments, such modification or amendment does not, in the estimation of the Executive Director, significantly decrease the benefits to be received by the Department as a result of the award; and

(3) Modifications and/or amendments that increase the dollar amount by more than 25% of the original award or $50,000, whichever is greater; or significantly decrease the benefits to be received by the Department, in the estimation of the Executive Director, will be presented to the Board for approval.

§51.8. Other Program Requirements.

(a) Employment opportunities. In connection with the planning and carrying out of any project assisted under the Act, to the greatest extent feasible, opportunities for training and employment shall be given to low, very low, and extremely low-income persons who meet position requirements residing within the area in which the project is located.

(b) Conflict of Interest.

(1) Conflict Prohibited. No person described in paragraph (2) of this subsection who exercises or has exercised any functions or responsibilities with respect to Housing Trust Fund activities under the Statute or who is in a position to participate in a decision making process or gain inside information with regard to such activities, may obtain a personal or financial interest or benefit from a Housing Trust Fund assisted activity, or have an interest in any Housing Trust Fund contract, subcontract or agreement or the proceeds hereunder, either for themselves or those with whom they have family or business ties, during their tenure or for one year thereafter.

(2) Persons Covered. The conflict of interest provisions of paragraph (1) of this subsection apply to any person who is an employee, agent, consultant, officer, elected official or appointed official of the Recipient.

(c) Right to Inspect and Monitor.

(1) The Department may, at any time, inspect and monitor the records and the work of the project so as to ascertain the level of project completion, quality of work performed, inventory levels of stored material, compliance with the approval plans and specifications, property standards, and program rules and requirements.

(2) Any unsatisfactory findings in the inspection may result in a reduction in the amount of funds requested or termination of funding.

(3) Within 45 days of completion of any construction, and before the release of any retainage funds, Recipients are required to notify the Department of the completion by submitting a certificate of completion and any other documents required by program guidelines, including, but not limited to, the following:

(A) Architect's Certification of Substantial Compliance;

(B) Recipient's Certificate of Substantial Completion; and

(C) Recipient's and Supplier's Release of Lien and warrantee.

(4) The Department performs a final close-out visit and assists owners in preparing for long-term compliance requirements upon completion of project development.

(d) Compliance.

(1) Recipient must maintain compliance with each of its written agreements with the Department.

(2) Restrictions are stated and enforced through a regulatory agreement.

(3) These restrictions include, but are not limited to the following:

(A) Rent restrictions;

(B) Record keeping and reporting; and

(C) Income targeting of tenants.

(4) The Department monitors compliance with project restrictions and any other covenants by Recipient in any Housing Trust Fund agreement. An annual per unit compliance fee of $25.00 may be charged for this review.

~~(5)Prior to the leasing of any units, project owners are provided guidance and training by the Department to assist project owners in adhering to restrictions and reporting requirements.~~

(e) For funds being used for multifamily rental properties, the Recipient must establish a reserve account consistent with §2306.186, Texas Government Code, and as further described in §1.37 of this title.

(f) Accounting Requirements. Within 60 days following the conclusion of a contract issued by the Department the Recipient shall provide a full accounting of funds expended under the terms of the contract. Failure of a recipient to provide full accounting of funds expended under the terms of a contract shall be sufficient reason to terminate the contract and for the Department to deny any future contract to the recipient.

§51.9. Citizen Participation.

(a) The Department holds at least one public hearing annually, and additional public hearings prior to consideration of any proposed significant changes to these rules, to solicit comments from the public, eligible applicants, and Recipients on the Department's rules, guidelines, and procedures for the Housing Trust Fund.

(b) The Department considers the comments it receives at public hearings. The Board annually reviews the performance, administration, and implementation of the Housing Trust Fund in light of the comments it receives. The Board also reviews funding goals and set-asides relating to Allocation of Housing Trust Funds.

(c) Unless the request is made during a competitive application cycle, Applications for Housing Trust Funds are public information and the Department shall afford the public an opportunity to comment on proposed housing applications prior to making awards.

(d) Complaints will be handled in accordance with the Department's complaint procedures of §1.2 of this title.

§51.10. Records to be Maintained.

(a) Recipients are required, at least on an annual basis, to submit to the Department information required under Chapter 1 of this title, which may include, but is not limited to:

(1) such information as may be necessary to determine whether a project is benefiting low, very low, and extremely low-income persons and families;

(2) the monthly rent or mortgage payment for each dwelling unit in each structure assisted;

(3) such information as may be necessary to determine whether Recipients have carried out their housing activities in accordance with the requirements and primary objectives of the Housing Trust Fund and implementing regulations;

(4) the size and income of the household for each unit occupied by a low, very low, or extremely low-income person or family;

(5) data on the extent to which each racial and ethnic group and households have applied for and benefited from any project or activity funded in whole or in part with funds made available under the Statute. This data shall be updated annually; and

(6) A final statement of accounting upon completion of the project.

(b) Recipients shall maintain records pertinent to the tenant's files for a period of at least three years.

(c) Recipients shall maintain records pertinent to funding awards including but not limited to project costs and certification work papers for a period of at least five years.

(d) Recipient shall maintain records in an accessible location.

§51.11. Waiver.

The Board may, in its discretion, waive any one or more of the rules set forth in this chapter to accomplish its legislative mandates or for other compelling circumstances.

PORTFOLIO MANAGEMENT AND COMPLIANCE

BOARD ACTION REQUEST
August 30, 2006

Action Item

Draft Compliance Monitoring Rules

Required Action

Approve the repeal of Sections 1.11, 1.13, and 1.14 of the current Administration General Policies and Procedures and approve the amendments of 10 TAC, Chapter 60 in the attached **Compliance Monitoring Rules** for release for public comment.

Background and Recommendations

Attached are the proposed amendments to the Compliance Rules that reflect staff's recommendations for revisions. The document provided reflects the proposed amendments in a "blackline" version showing the proposed changes from the rules adopted in January 2006.

The Department's proposed Rule for monitoring Housing Tax Credit (HTC) properties after the initial compliance period can be found in section 60.7.

Other notable changes include the incorporation of the rules that were found in Sections 1.11, 1.13, and 1.14. These rules concern Compliance Monitoring and logically belong in Chapter 60 and will each be repealed.

Highlights of substantial changes follow:

Proposed §60.2 Definition 11
Reason for Change: This change would delete noncompliance identified by other State Housing Finance Agencies when determining Material Noncompliance. States vary widely in the administration of the Housing Tax Credit program. Another state's assessment of compliance violations is likely inconsistent with TDHCA's Monitoring Rules.

Proposed §60.3(1)(B) and §60.3(2)(A)
Reason for Change: This change would move up the date of the initial inspection and enable the Department to better identify problems in construction and at a time when corrections are less costly.

Deletion of old §60.3(5)
Reason for Change: The change will allow the Department to retain the option to perform construction inspections for USDA-RHS financed developments.

Proposed §60.4
Reason for Change: These Sections incorporate parts of the previous §1.13, which describe the monitoring for Fair Housing conducted by the Department.

Proposed §60.6
Reason for change: These sections incorporate parts of the previous §1.14 which describes the rules HTC and other developments must comply with to demonstrate that their properties are available to Section 8 voucher holders.

Proposed §60.7.
Reason for change: These changes add the "Year 15" Compliance Monitoring Rules for Housing Tax Credit developments. Treasury Regulations do not specify required monitoring rules past the first 15 years of the extended use period and this section outlines how the Department will treat these properties.

Proposed §60.13
Reason for change: This change will add Uniform Physical Condition Standards (UPCS) as the physical inspection standard for all programs monitored by TDHCA. It will provide consistency and set a high standard for property condition.

Proposed §60.18(g)(1) and (5)
Reason for change: Staff is recommending increased uncorrected noncompliance scores for "Household income above limit upon initial occupancy" and "Gross rent exceeds the highest rent allowed under the LURA or other deed restriction" from 3 points uncorrected to 5 points uncorrected. Given the importance of these two issues, more points should be assessed for uncorrected noncompliance.

Upon approval by the Board, notice of the repeal of the current Rule and the proposed Rule will be published in the Texas Register and released to the public for comment and will be included in the Public Hearings in September.

TITLE 10 COMMUNITY DEVELOPMENT
PART 1 TEXAS DEPARTMENT OF HOUSING AND COMMUNITY AFFAIRS
CHAPTER 60. COMPLIANCE MONITORING RULES ~~ADMINISTRATION~~
~~SUBCHAPTER A. COMPLIANCE MONITORING~~

§60.2. Definitions.

The following words and terms, when used in this section, shall have the following meanings, unless the context clearly indicates otherwise.

(1)Affordability Period—the affordability period commences as specified in the Land Use Restriction Agreement (LURA), or federal regulation or commences on the first day of the compliance period as defined by §42(i)(1) of the Internal Revenue Code (IRC) and continues through the appropriate program's affordability requirements or termination of the LURA, whichever is later. The term of the affordability period shall be imposed by LURA or other deed restriction and may be terminated upon foreclosure. During this period the Department shall monitor to ensure compliance with programmatic rules, regulations and application representations.

(2) Application--an application, in the form prescribed by the Department, filed with the Department by an Applicant, including any exhibits or other supporting material. (2306.6702)

(3~~2~~) Board—the governing board of the Texas Department of Housing and Community Affairs.

(4) Code--the U.S. Internal Revenue Code of 1986, as amended from time-to-time, together with any applicable regulations, rules, rulings, revenue procedures, information statements or other official pronouncements issued by the United States Department of the Treasury or the Internal Revenue Service.

(5)~~(3)~~ Department—the Texas Department of Housing and Community Affairs, an official and public agency of the State of Texas pursuant to Chapter 2306, Texas Government Code.

(6)~~(4)~~ Development—a property or work or a project, building, structure, facility, or undertaking, whether existing, new construction, remodeling, improvement, or rehabilitation, that meets or is designed to meet minimum property standards required by the Department and that is financed under the provisions of Chapter 2306, Texas Government Code.~~, for the primary purpose of providing sanitary, decent, and safe dwelling accommodations for rent, lease, use, or purchase by individuals and families of low and very low income and families of moderate income in need of housing. The term includes:~~
~~(A) buildings, structures, land, equipment, facilities, or other real or personal properties that are necessary, convenient, or desirable appurtenances, including streets, water, sewers, utilities, parks, site preparation, landscaping, stores, offices, and other non-~~

~~housing facilities, such as administrative, community, and recreational facilities the Department determines to be necessary, convenient, or desirable appurtenances;~~

~~(B) single and multifamily dwellings in rural, urban/exurban areas; and~~
~~(C) a proposed qualified low income housing project, as defined by §42(g), of the IRC 1986 (26 U.S.C. §42(g)), that consists of one or more buildings containing multiple units, that is financed under a common plan, and that is owned by the same person(s) for federal tax purposes, including a project consisting of multiple buildings that are located on scattered sites and contain only rent-restricted units.~~

(7) Housing sponsor:

(A) an individual, including an individual or family of low and very low income or family of moderate income, joint venture, partnership, limited partnership, trust, firm, corporation, or cooperative that is approved by the department as qualified to own, construct, acquire, rehabilitate, operate, manage, or maintain a housing Development, subject to the regulatory powers of the department and other laws; or

(B) in an economically depressed or blighted area, or in a federally assisted new community located within a home-rule municipality, the term may include an individual or family whose income exceeds the moderate income level if at least 90 percent of the total mortgage amount available under a mortgage revenue bond issue is designed for individuals and families of low income or families of moderate income.

(8) HTC Development—A Development using Housing Tax Credits allocated by the Department.

(9) ~~(5)~~ Low Income Unit—a unit that is intended for occupancy by an income eligible household, as defined by the Department or the Code.

(10) ~~(6)~~ Land Use Restriction Agreement (LURA) —an agreement between the Department and the Development Owner which is a binding covenant upon the Development Owner's successors in interest, that encumbers the Development with respect to the requirements of this chapter, Chapter 2306, Texas Government Code; the Code~~§42 of the IRC~~; and the requirements of the various programs administered or funded by the Department.

(11) ~~(7)~~ Material Noncompliance:

(A) a Housing Tax Credit ~~HTC~~ D~~d~~evelopment located within the state of Texas will be classified by the Department as being in material noncompliance status if the noncompliance score for such D~~d~~evelopment is equal to or exceeds a threshold of 30 points in accordance with the material noncompliance provisions, methodology, and point system of this title ~~or, if the HTC development is located outside the state of Texas, and noncompliance is reported to the Department that would be equal to or exceed a noncompliance threshold score of 30 points if measured in accordance with the methodology and point system set forth in this subsection~~.

(B) Non HTC Developments monitored by the Department with 1 to 50 low income units will be classified as being in material noncompliance status if the noncompliance score is equal to or exceeds a threshold of 30 points. Non HTC Developments monitored by the Department with 51 to 200 low income units will be classified as being in material noncompliance status if the noncompliance score is equal to or exceeds a threshold of 120 points. Non HTC Developments monitored by the Department with 201 or more low income units will be classified as being in material noncompliance status if the noncompliance score is equal to or exceeds a threshold of 150 points.

(C) For all programs, a Development will be in material noncompliance if the noncompliance is stated in §60.18 of this chapter to be material noncompliance.

(12) Non HTC—any Development not utilizing Housing Tax Credits.

(13) ~~(8)~~Unit—any residential rental unit in a D~~d~~evelopment consisting of an accommodation, including a single room used as an accommodation on a non-transient basis, that contains complete physical facilities and fixtures for living, sleeping, eating, cooking, and sanitation.

§60.3. Development Inspections.

The Department~~, through PMC,~~ shall conduct or may contract for inspections during the construction and rehabilitation process and at final construction completion to monitor for compliance with all program requirements, including construction threshold criteria and application Development characteristics associated with any Development funded or administered by the Department. Development inspections will be conducted by the Department or by an independent third party inspector acceptable to the Department and will include a construction quality evaluation. (§2306.081, Texas Government Code)

(1) Inspection procedures for HTC Developments include:

(A) A review of the evidence of commencement of substantial construction. The minimum activity necessary to meet the requirement of substantial construction for new Developments will be defined as having expended 10% of the construction contract amount for the Development, adjusted for any change orders, and as documented by both the most recent Application and Certification for Payment (or equivalent) and the inspecting architect. The minimum activity necessary to meet the requirement of substantial construction for rehabilitation Developments will be defined as having expended 10% of the construction budget as documented by the inspecting architect. Evidence of such activity shall be provided in a format prescribed by the Department.

(B) An initial ~~interim d~~Development inspection to be conducted between 45 to 90 days after the earlier of the submittal or the due date of commencement of substantial construction.~~within two years of the award~~.

(C) A final Development inspection performed at construction completion. Evidence of construction completion must be submitted within thirty days of completion and shall be provided in a format prescribed by the Department.

(2) Development inspection procedures for non-HTC multifamily Developments include:

(A) An initial D~~d~~evelopment inspection to be conducted between 45 to 90 days from issuance of notice to proceed. ~~within two years from award~~.

(B) A final Development inspection performed at construction completion. Evidence of completion must be submitted within thirty days of completion and shall be provided in a format prescribed by the Department. The inspection is required by the Department in order to release retainage.

(3) The Department may require a copy of all reports from all construction inspections performed on behalf of the Applicant as needed. Those reports must indicate that the Department may rely on the information provided in the reports and the inspector is properly credentialed.

(4) Additional inspections may be conducted by the Department or by an independent third party Inspector acceptable to the Department during the construction process, if necessary, based on the level of risk associated with the Development, as determined by the Department ~~Real Estate Analysis Division or PMC~~. The Department~~PMC~~ identifies HTC Developments to be at high risk if inspections identify issues with construction threshold criteria, ~~and~~ Development characteristics identified at application or past performance problems. The Department ~~PMC~~ identifies non-HTC Developments to be at high risk if inspections conducted during the construction process identify issues with program requirements or Development characteristics identified at application.

~~(5) Developments having financing from the United States Department of Agriculture Rural Development (TX-USDA-RHS) will be exempt from these inspections, provided that the Development Owner provides to the Department copies of all inspections made by TX-USDA-RHS throughout the construction of the Development.~~

(5) Applicable Laws. An applicant may not receive funds or other assistance from the Department until the Department receives a properly completed certification from the applicant that the housing development is, or will be upon completion of construction, in compliance with the following housing laws:

(A) state and federal fair housing laws, including Chapter 301, Property Code, the Texas Fair Housing Act, Title VIII of the Civil Rights Act of 1968 (42 U.S.C. Section 3601, et seq.), and the Fair Housing Amendments of 1988 (42 U.S.C. Section 3601, et seq.);

(B) the Civil Rights Act of 1964 (42 U.S.C. Section 2000a, et seq.);

(C) the Americans with Disabilities Act of 1990 (42 U.S.C. 12101, et seq.); and

(D) Section 504, Rehabilitation Act of 1973 (29 U.S.C. Section 701, et seq.). (§2306.257)

§60.4. Monitoring During the Affordability Period.

(a) The Department will monitor for compliance with representations made by the Development Owner in the Application and in the LURA, whether required by the applicable program rules, regulations, including HOME Final Rule, the Code,~~§42 of the IRC,~~ §~~142(d) of the IRC, Treasury Regulations or other rulings of the IRS~~, the U. S. Department of Housing and Urban Development (HUD) Community Planning and Development (CPD) Notices, the Texas Government Code §2306.001 et. Seq., or ~~and~~ Chapters 51 and 53 of this title.

(b) The Department periodically monitors Developments for compliance with the fair housing requirements specified in Section 60.3(5) of this Chapter. Monitoring may occur during construction or during the affordability period.

(1) The monitoring level for each housing Development is based on the amount of risk of noncompliance with the requirements specified in Section60.3(a)(6) of this Chapter associated with the Development.

(2) The Department shall notify the recipient in writing of an apparent violation of fair housing laws and shall afford the recipient a reasonable amount of time, as determined by the Department, to correct the identified violation, if possible, prior to the imposition of any sanction.

(3) The Department shall notify the Texas Workforce Commission, Civil Rights Division as required in the Texas Government Code §2306.257(d),with a copy to the Development owner in the event:

(A) no response to the Department's notice of apparent violation is received during the response period;

(B) the owner concurs with the Department's assessment and indicates they are unable or unwilling to correct the violation(s); or

(C) the owner and the Department are unable to agree if the identified issue is a violation.

(4) If fair housing violations are identified prior to the issuance of forms 8609 (For HTC Developments) or release of final retainage, no forms 8609 will be issued or retainage will not be released until the violations are corrected to the Department's satisfaction.

(c) Sanctions. The Department may impose one or more of the following sanctions depending on the severity of the violation of a law specified in Section 60.3(6) of this Chapter, and as further described in §60.4(b) and §60.4(c), by a recipient of housing tax credits, housing funds or other assistance from the Department:

(1) termination of assistance,

(2) deobligation of funds, if available, and

(3) a bar on future eligibility for assistance through a housing program administered by the Department. A bar shall be in place for at least one calendar year from the date of imposition by the Department and may not last for more than three calendar years from the date of correction.

§60.6. Section 8 Voucher Holders and Tenant Selection.

(a)The Department will monitor to ensure D~~d~~evelopment owners comply with §2306.269 and §2306.6728, Texas Government Code regarding residents receiving rental assistance under Section 8, United States Housing Act of 1937 (42 U.S.C. §1437F).

(b) Applicability. The policies, standards, and sanctions established by this section apply only to:

(1) multifamily housing Developments that receive the following assistance from the Department on or after January 1, 2002: (§2306.185)

(A) a loan or grant in an amount greater than 33 percent of the market value of the Development on the date the recipient took legal possession of the Development; or

(B) a loan guarantee for a loan in an amount greater than 33 percent of the market value of the Development on the date the recipient took legal title to the Development;

(2) multifamily rental housing Developments that applied for and were awarded housing tax credits after 1992.

(3) housing Developments that benefit from the incentive program under §2306.805 of the Texas Government Code.

(c) Housing sponsors of multifamily rental housing Developments described in subsection (a) of this section are prohibited from:

(1) excluding an individual or family from admission to the Development because the individual or family participates in the housing choice voucher program under Section 8, United States Housing Act of 1937 (42 U.S.C. Section 1437f); and

(2) using a financial or minimum income standard for an individual or family participating in the voucher program that requires the individual or family to have a monthly income of more than 2.5 times the individual's or family's share of the total monthly rent payable to the owner of the Development. However, if an individual or family participating in the voucher program is required to pay only minimal rent ($0-$25), a reasonable minimum income, not to exceed $2500 per year, may be required.

(d) To demonstrate compliance with §60.6 of this chapter housing sponsors shall:

(1) State in their leasing criteria that Section 8 voucher or certificate holders are welcome to apply and will be provided the same consideration for occupancy as any other prospective tenant;

(2) State in their leasing criteria that the D~~d~~evelopment will comply with state and federal fair housing and antidiscrimination laws;~~.~~

(3) Apply all other screening criteria, including employment policies or procedures and other leasing criteria (such as rental history, credit history, criminal history, etc.) uniformly and in a manner consistent with the Texas and Federal Fair Housing Acts, program guidelines, and the Department's rules;

(4) Approve and distribute an Affirmative Marketing Plan. The Affirmative Marketing plan must be provided to the property management and onsite staff. Housing Sponsors are encouraged to use HUD form 935.2 or successors as applicable. The Affirmative Marketing Plan must identify methods to market the property to persons with disabilities. Additionally, the Affirmative Marketing plan must be displayed in the leasing office and available to the public on request.

§60.7. Monitoring for ~~of~~ Compliance.

(a) Monitoring after the Compliance Period: Housing Tax Credit properties allocated credit in 1990 and after are required -under the Code (§42(h)(6)) to record an Extended Use Agreement as part of the LURA restricting the property for 30 years. Section 42(i)(1) defines the Compliance Period as the first 15 years of the extended use period. Various sections of the Code specify monitoring rules ~~procedures~~ State Housing Finance Agencies must implement during the Compliance Period.

(b) After the first 15 years of the extended use period, the Department will continue to monitor Housing Tax Credit Developments using the -rules ~~procedures~~ detailed in paragraphs 1- 15 of this subsection.

(1) On site monitoring visits will continue to be conducted approximately every three years, unless the Department determines that a more frequent schedule is necessary;

(2) In general, the Department will review 10% of the low-income files. No less than 5 files and no more than 20 files will be reviewed;

(3) A minimum of five units will be inspected. Additional units may be inspected if warranted by conditions discovered in the initial units inspected;

(4) A physical inspection of each unit shall be conducted by the owner each year using criteria set forth in the Department of Housing and Urban Development's Housing Quality Standards (HQS). Any deficiencies must be corrected and copies of the inspections and verification of repairs shall be maintained in the unit file;

(5) An inspection of all common spaces, grounds, building exteriors and building systems will be performed annually using HUD's HQS. Deficiencies must be corrected and records of the corrections must be maintained for review by Department staff;

(6) Each Development shall submit an annual report in the format prescribed by the Department;

(7) Reports to the Department must be submitted electronically as required in §60.9 of this Chapter;

(8) Compliance monitoring fees will continue to be submitted to the Department annually in the amount stated in the LURA;

(9) All households must be income qualified upon initial occupancy of any low- income unit. Proper verifications of income are required, and the Department's Income Certification form must be completed unless the Development participates in the Rural Rental Housing Program or a project based HUD program;

(10) Rents will remain restricted for all low-income units. The tenant paid portion of the rent plus the applicable utility allowance must not exceed the applicable limit.

(11) Owners and managers must continue to screen households for income, assets and household size on an annual basis. In addition, an Income Certification form must be completed on an annual basis;

(12) All additional income and rent restrictions defined in the LURA remain in effect.

(13) Other requirements defined in the LURA, such as the provision of social services or serving special needs households, will remain in effect unless specifically waived by the Department; and

(14) No tenant may be evicted nor be refused the opportunity to renew a lease except for good cause.

(15) The total number of required low income units must be maintained Development wide.

(c) After the first 15 years of the extended use period, certain requirements will not be monitored as detailed in paragraphs 1-5 of this subsection.

(1) At recertification verification of income and assets will not be required.

(2) The student restrictions found in §42(i)(3)(D). An income qualified household consisting entirely of full time students may occupy a low-income unit;

(3) The requirement to treat transfers from building to building as a new move in. Transfers within the Development will not require household requalification;

(4) The Available Unit Rule found in Treasury Regulation §1.42-15; and

(5) The building applicable fraction found in the Development's Cost Certification and/or the LURA. Low income occupancy requirements will be monitored Development wide, not building by building;

(d) Unless specifically noted in this Section, all requirements of this Chapter 60 and Section 42 of the Internal Revenue Code remain in effect for the Extended Use Period. These Post Year 15 Monitoring Rules ~~Procedures~~ apply only to the Housing Tax Credit Developments administered by the Department. Participation in other programs administered by the Department may require additional monitoring to ensure compliance with the requirements of those programs.

(e) The Department may contract with an independent third party to monitor a Development during construction or rehabilitation and during operation for compliance with any conditions imposed by the Department in connection with funding or other Department oversight and appropriate state and federal laws, as required by other state law or by the Board. (§2306.6719, Texas Government Code).

§60.8. Recordkeeping.

All Development Owners must comply with program recordkeeping requirements. Records must include sufficient information to comply with the Reporting requirements of §60.9 of this Chapter and any additional programmatic requirements. Records ~~In addition, records including items listed in paragraphs (1) - (12) of this section~~ must be kept for each qualified low income rental unit and building in the Development, commencing with lease up activities and continuing on a monthly basis until the end of the affordability period. Housing Tax Credit owners should refer to Treasury Regulation 1.42-5 for more information about record keeping requirements.~~The Department requires any reports to be submitted electronically and in the format prescribed by the Department. Records must include:~~

~~(1) the total number of residential rental units in the Development, including the number of bedrooms;~~

~~(2) the move in and move out date for each residential rental unit in the Development;~~

~~(3) which residential rental units are low income units and the income level of the residents broken into 30, 40, 50, 60 or 80 percent of the area median income;~~

~~(4) the rent charged for each residential rental unit including, with respect to low income units, documentation to support the utility allowance applicable to such unit and any rental assistance received;~~

~~(5) the number of occupants in each low income unit;~~

~~(6) the low income rental unit vacancies and information that shows when and to whom all available units were rented;~~

~~(7) the annual income certification of each tenant of a low income unit, in the form designated by the Department, as may be modified from time to time;~~

~~(8) documentation to support each low income tenant's income certification, consistent with the determination of annual income and verification procedures under Section 8 of the United States Housing Act of 1937 (Section 8);~~
~~(9) the total number of units, reported by bedroom size, designed for individuals who are physically challenged or who have special needs and the number of these individuals served annually;~~
~~(10) the race and ethnicity of the residents of each Development;~~
~~(11) the number of units occupied by households receiving government-supported housing assistance and the type of assistance received; and~~
~~(12) any additional information as required by the Department.~~

§60.9. Reporting.

(a) Each Development shall submit reports as required by the Department. Each Development that receives financial assistance or is administered by the Department, including the FDIC's Affordable Housing Program (AHP), shall submit the information required under this Section which describes the Annual Owner's Compliance Report (AOCR) required by §2306.0724, Texas Government Code. The Department requires this information be submitted electronically and in the format prescribed by the Department. Section 60.10 ~~1.11~~ of this title contains rules ~~procedures~~ regarding filing and penalties for failure to file reports. The first AOCR is due the year following award.

(b)~~(1)~~Part A, the "Owner's Certification of Program Compliance"; Part B, the "Unit Status Report"; and Part C, "Tenant Services Provided Report" of the AOCR, must be provided to the Department no later than March 1st of each year, reporting data current as of December 31 ~~January 1~~ of the previous year~~each~~ (the reporting year). Part D, "Owner's Financial Certification", which includes the current audited financial statements and income and expenses of the Development for the prior year, shall be delivered to the Department no later than the last day in April each year. A full description of the AOCR is contained in §60.10 of this chapter.

(c)~~(2)~~ The Department maintains the information reported by the AOCR pursuant to §2306.0724(c), Texas Government Code in electronic and hard-copy formats available at no charge to the public.

(d)~~(3)~~ Rental D~~d~~evelopments funded or administered by the Department, including HOME, Housing Trust Fund (HTF), the FDIC's AHP , and any other rental programs funded or administered by through~~by~~ the Department shall provide tenant information provided on Part B, "Unit Status Report," at least quarterly during lease up and until occupancy requirements are achieved. Once the Department has determined that all occupancy requirements are satisfied, the Development shall submit the Unit Status Report at least annually and as required by this section.

(e)~~(4)~~ Developments financed by tax exempt bonds issued by the Department shall report quarterly throughout the Qualified Project Period unless notified by the Department of a change in the reporting frequency.

(f)~~(6)~~ Information regarding housing for persons with disabilities: Owners of state or federally assisted housing D~~d~~evelopments with 20 or more housing units must report information regarding housing units designed for persons with disabilities pursuant to §2306.078, Texas Government Code. This information will be reported on the Department's website and will include the following:

(1~~A~~) the name, if any, of the D~~d~~evelopment;

(2~~B~~) the street address of the D~~d~~evelopment;

(3~~C~~) the number of housing units in the ~~d~~Development that are designed for persons with disabilities and that are available for lease;

(4~~D~~) the number of bedrooms in each housing units designed for a person with a disability;

(5~~E~~) the special features that characterize each housing unit's suitability for a person with a disability;

(6~~F~~) the rent for each housing unit designed for a person with a disability; and

(7~~G~~) the telephone number and name of the D~~d~~evelopment manager or agent to whom inquiries by prospective tenants may be made.

(g)~~(5)~~ The Department requires all Owners of properties administered by the Department to submit the Unit Status Report in the electronic format developed by the Department. The Electronic Compliance Reporting Filing Agreement and the Owner's Designation of Administrator of Accounts forms must be filed no later than January 31st of the year following the award. The Department will provide general instruction regarding the electronic transfer of data. The Department may, at its discretion, waive the online reporting requirements. In the absence of a written waiver, all D~~d~~evelopments are required to submit Reports ~~the Unit Status Report~~ online.

(h) Data submitted to the Department by the owner of a Development that contains relevant information pursuant to §2306.072(c)(6) and §2306.0724 of the Texas Government Code shall at a minimum include:

(1) the street address and municipality or county in which the property is located;

(2) the telephone number of the property management or leasing agent;

(3) the total number of units, reported by bedroom size;

(4) the move in and move out date for each residential rental unit in the Development;

(5) the number of occupants in each low income unit;

(6) the total number of units, reported by bedroom size, designed for individuals who are physically challenged or who have special needs and the number of these individuals served annually;

(7) the rent for each type of rental unit, reported by bedroom size;

(8) the race or ethnic makeup of the residents of each project;

(9) the number of units occupied by individuals receiving government-supported housing assistance and the type of assistance received;

(10) the number of units occupied by individuals and families of extremely low income, very low income, low income, moderate income, and other levels of income, reported as 30, 40, 50, 60 or 80 percent of the area median income;

(11) a statement as to whether the property has been notified of a violation of the fair housing law that has been filed with the United States Department of Housing and Urban Development, the Civil Rights Division of the Texas Workforce Commission ~~Comission on Human Rights~~, or the United States Department of Justice;

(12) a statement as to whether the Development has any instances of material noncompliance with bond indentures or deed restrictions discovered through the normal monitoring activities that include meeting occupancy requirements or rent restrictions imposed by deed restriction or finance agreements; and

(13) the annual number of low income unit vacancies and information that shows when and to whom available units were rented.

§60.10. Annual Owner's Compliance Report Certification and Review.

(a) On or before February 1st of each year of the Affordability Period ~~affordability period~~, the Department will send a reminder that the Report required by §2306.0724 of the Texas Government Code (to be titled the Annual Owner's Compliance Report--AOCR) must be completed by the Owner and submitted to the Department on or before the applicable deadline. This reminder may be sent via email or by posting on the Department's website. The AOCR shall consist of:

(1) Part A, "Owner's Certification of Program Compliance";

(2) Part B, "Unit Status Report";

(3) Part C, "Tenant Services Provided Report"; and

(4) Part D, "Owner's Financial Certification".

~~(b) Penalties and sanctions are assessed in accordance with §1.11(d) of this title for failure to provide the AOCR in part or entirety, including administrative penalties and denial of future requests for Department funding.~~

(b~~c~~) Any Development for which the AOCR, Part A, “Owner Certification of Program Compliance,” is not received or is received past the due date will be considered not in compliance with these rules. If Part A is incomplete, improperly completed or not signed by the Development Owner, it will be considered not received and not in compliance with these rules. The Department will report to the IRS via form 8823, Low-Income Housing Credit Agencies Report of noncompliance or Building Disposition, any HTC D~~d~~evelopment that fails to comply with this section. The AOCR Part A shall include at a minimum the following statements by the Development Owner:

(1) the Development met the minimum set aside test which was applicable to the Development;

(2) there was no change in the Applicable Fraction or low income set aside of any building, or if there was such a change, the actual Applicable Fraction is reported to the Department (HTC only);

(3) the Development Owner has received an annual income certification from each low income resident and documentation to support that certification, in the manner and form required by the Department’s Compliance Manual(s), as may be amended from time to time;

(4) documentation is maintained to support each low income tenant’s income certification, consistent with the determination of annual income and verification procedures under Section 8 of the United States Housing Act of 1937 (Section 8), notwithstanding any rules to the contrary for the determination of gross income for federal income tax purposes. In the case of a tenant receiving housing assistance payments under Section 8, the documentation requirement is satisfied if the public housing authority provides a statement to the Development Owner declaring that the tenant’s income does not exceed the applicable income limit under §42(g) of the IRC as described in the Compliance Manual(s);

(5) each low income unit in the Development was rent-restricted under the LURA and applicable program regulations, including §42(g)(2) of the IRC, or 24 CFR Part 92, and the owner maintained documentation to support the utility allowance applicable to such unit;

(6) all low income units in the Development are and have been for use by the general public and used on a non-transient basis (except for transitional housing for the homeless provided under §42(i)(3)(B)(iii)) of the IRC (HTC and BOND only);

(7) no finding of discrimination under the Fair Housing Act, 42 U.S.C. 3601-3619, has occurred for this Development. A finding of discrimination includes an adverse final

decision by the Secretary of HUD, 24 CFR 180.680, an adverse final decision by a substantially equivalent state or local fair housing agency, 42 U.S.C. 3616a(a)(1), or an adverse judgment from a federal court;

(8) each unit or building in the Development is, and has been, suitable for occupancy, taking into account Uniform Physical Condition Standards (UPCS) (24 CFR 5.703) or local health, safety, and building codes, and the state or local government unit responsible for making building code inspections did not issue a report of a violation for any building or low income unit in the Development during this reporting period. If a violation report or notice was issued by the governmental unit during this reporting period, the Development Owner must provide the Department with a copy of the violation report or notice. In addition, the Development Owner must state whether the violation has been corrected;

(9) each unit has been inspected annually and each unit meets conditions set by HUD Housing Quality Standards (HOME only);

(10) there has been no change in the Eligible Basis (as defined by the Code ~~§42(d) of the IRC~~) for any building in the Development since the last certification or, if change(s), the nature of the change (HTC only);

(11) all tenant facilities included in the original application, such as swimming pools, other recreational facilities, washer/dryer hook ups, appliances and parking areas, were provided on a comparable basis to any tenants in the Development;

(12) Residents have not been charged for the use of any nonresidential portion of the building that was included in the building's Eligible Basis under the Code ~~§42(d) of the IRC~~ (HTC only);

(13) if a low income unit in the Development became vacant during the year, reasonable attempts were made, or are made, to rent that unit or the next available unit of comparable or smaller size to a qualifying low income household before any other units in the Development were, or will be, rented to non low income households (HTC and BOND only);

(14) if the income of tenants of a low income unit in the Development increased above the appropriate limit allowed, the next available unit of comparable or smaller size was, or will be, rented to residents having a qualifying income;

(15) a LURA including an Extended Low Income Housing Commitment as described in §42(h)(6) of the Code~~IRC~~ was in effect for buildings subject to §7108(c)(1) of the Omnibus Budget Reconciliation Act of 1989, 103 Stat. 2106, 2308 - 2311, including the requirement under §42(h)(6)(B)(iv) of the ~~IRC~~Code, that a Development Owner cannot refuse to lease a unit in the Development to an applicant because the applicant holds a voucher or certificate of eligibility under Section 8 of the United States Housing Act of

1937, 42 U.S.C. 1437f (for buildings subject to §1314c(b)(4) of the Omnibus Budget Reconciliation Act of 1993, 107 Stat. 312, 438 - 439) (HTC only);

(16) the Development Owner has not been notified by the IRS that the Development is no longer "a qualified low income housing Development" within the meaning of the Code ~~§42 of the IRC~~ (HTC only);

(17) if the Development Owner is required to be a Qualified Nonprofit Organization under §42(h)(5) of the Code ~~IRC~~, that a Qualified Nonprofit Organization owned an interest in and materially participated in the operation of the Development within the meaning under §469(h) of the Code ~~IRC~~ (HTC only);

(18) no low income units in the Development were occupied by ineligible full time student households (HTC and BOND only);

(19) no change in the ownership of the Development has occurred during the reporting period or changes and transfers were or are reported;

(20) the Development met all representations of the Development Owner in the Application and complied with all terms and conditions which were recorded in the LURA;

(21) the Development has made all required lender deposits, including annual reserve deposits;

(22) the street address and municipality or county in which the Development is located;

(23) the name, address, contact person, and telephone number of the property management or leasing agent;

(24) that no tenants in low-income units were evicted or had their tenancies terminated, including non-renewal of a lease, other than for good cause and that no tenants had an increase in the gross rent with respect to a low-income unit not otherwise permitted under the Code~~§42 of the IRC~~ (HTC and HOME only);

(25) The name and mailing address of the syndicator and lender (HTC only);

(26~~5~~) any additional information as required by the Department.

(c~~d~~) Review. Department staff will review Part A of the AOCR for compliance with the requirements of the appropriate program including ~~§42 of the IRC~~the Code.

(d) Sanctions.

(1) If the report is not received on or before March 1, a notice of noncompliance will be sent to the owner specifying a reasonable amount of time, as determined by the Department, to submit the report prior to the imposition of any sanction.

(2) If the report is not received on or before the corrective action deadline the Department shall:

(A) For all HTC properties, issue form 8823 notifying the Internal Revenue Service of the violation

(B) For all properties, score the noncompliance in accordance with Section 60.18 of this Chapter.

(3) In addition, in accordance with the provisions of §2306.0724 of the Texas Government Code, the Executive Director of the Department may assess and enforce the following sanctions against a housing sponsor who fails to submit the AOCR on or before March 1 of each year. These sanctions will only be assessed for multiple, consistent and/or repeated violations of failure to submit the AOCR by March 1~~-~~of each year.

(A) Impose a late processing fee in an amount equal to $1,000;

(B) Subject the Housing Sponsor to 10 TAC §1.13; or

(C) A HTC Development that three years in a row fails to submit required information to the Department may be reported to the Internal Revenue Service as no longer in compliance and never expected to comply.

§60.11. Record Retention Provisions.

(a) Each Development that is administered by the Department including the FDIC's AHP is required to retain the records as required by the specific funding program rules and regulations. In general, retention schedules include but are not limited to the provision of subsections~~paragraphs~~ (a~~1~~)~~-~~–(d~~4~~) of this section.

(b~~1~~) ~~—~~HTC records, as described in §60.8 of this chapter, must be retained for at least six years after the due date (with extensions) for filing the federal income tax return for that year; however, the records for the first year of the Credit Period must be retained for at least six years beyond the due date (with extensions) for filing the federal income tax return for the last year of the Compliance Period of the building.

(c~~2~~) Retention of records for HOME rental D~~d~~evelopments must comply with the provisions of 24 CFR 92.508(c)~~,~~ which generally requires retention of rental housing records for five years after the affordability period terminates.

(d~~3~~) Housing Trust Fund (HTF) rental D~~d~~evelopments must retain tenant files for at least three years beyond the date the tenant moves from the D~~d~~evelopment. Records pertinent to the funding of the award, including but not limited to the application, development costs and documentation, must be retained for at least five years after the affordability period terminates.

(e4) Other rental Developments funded or administered in whole or in part by the Department must comply with record retention requirements as required by rule or deed restriction.

§60.12. Inspection Provision.

(a) The Department retains the right to perform an on-site inspection of any low income Development, and review and photocopy all documents and records supporting compliance with Departmental programs through the end of the Compliance Period or the end of the period covered by any Extended Low Income Housing Commitment, whichever is later.

(b~~1~~) The Department will perform on-site inspections and file reviews of each low income Development. The Department will conduct the first review of HTC Developments by the end of the second calendar year following the year the last building in the Development is placed in service. The Department will schedule the first review of all other Developments as leasing commences. Subsequent reviews will occur at least once every three years during the Affordability Period~~compliance period~~. The Department will monitor a sampling ~~at least 15%~~ of the low income resident files in each Development, and review the income certifications, the documentation the Development Owner has received to support the certifications, the rent records and any additional information that the Department deems necessary. The Department will also conduct a physical inspection of the Development including the exterior of the D~~d~~evelopment, development amenities, and an interior inspection of a sample of units.

(c~~2~~) The Department may, at the time and in the form designated by the Department, require the Development Owners to submit information on tenant income and rent for each low income unit and may require a Development Owner to submit copies of the tenant files, including copies of the income certification, the documentation the Development Owner has received to support that certification, and the rent record for any low income tenant.

(d~~3~~) The Department will select the low income units and tenant records that are to be inspected and reviewed. Original records are required for review. The Department will not give Development Owners advance notice that a particular unit, tenant records or a particular year will be inspected or reviewed. However, the Department will give reasonable notice to the Development Owner that an on-site inspection or a tenant record review will occur so the Development Owner may notify tenants of the inspection or assemble original tenant records for review.

(e~~4~~) The Department will conduct a limited inspection for compliance with accessibility requirements under the Fair Housing Act or Section 504 of the Rehabilitation Act of 1973. If determined necessary the Department may make referrals to appropriate federal and state agencies or order third-party inspections to be paid for by the Development owner.

(f ~~5~~) Exception: The Department may, at its discretion, enter into a Memorandum of Understanding with the TX-USDA-RHS, whereby the TX-USDA-RHS agrees to provide to the Department information concerning the income and rent of the tenants in buildings financed under its Section 515 program. Owners of such buildings may be exempted from the inspection provisions; however, if the information provided by TX-USDA-RHS is not sufficient for the Department to make a determination that the income limitation and rent restrictions are met, the Development Owner must provide the Department with additional information or the Department will inspect according to the provisions contained herein. TX-USDA-RHS Developments satisfy the definition of Qualified Elderly Development if they meet the definition for elderly used by TX-USDA-RHS, which includes persons with disabilities.

§60.13. Inspection Standard.

(a) Developments must be maintained to be decent, safe, sanitary and in good repair throughout the affordability period. For all programs, the Department will use HUD's Uniform Physical Condition Standards (UPCS) to determine compliance with property condition. In addition, Developments must comply with all local heath, safety and building codes. The Department may contract with a third party to complete UPCS inspections. HTC Developments that fail to comply with local codes or UPCS must be reported to the IRS.

To determine compliance with property condition standards the Department shall review any local health, safety, or building code violation reports , or notices in the absence of local health, safety and building code violation reports. If deemed necessary by the Department, inspections by third-party inspectors may be requested and will be relied upon to determine compliance with property condition standards. In addition to the review of any local health, safety or building code violation reports, the Department may conduct inspections of the units using HUD's Housing Quality Standards or UPCS and may use those standards to determine compliance with property condition standards. Developments must be maintained to be decent, safe, sanitary and in good repair throughout the affordability period. HTC Developments that fail to comply with local codes or UPCS must be reported to the IRS.

(b) The Department will evaluate UPCS reports in the following manner:

(1) A finding of Major Violations will be assessed if:

(A) Any life threatening health, safety, or fire safety hazards are reported on the Notification of Exigent and Fire Safety Hazards Observed form in any building exterior, building system, common area, site, or dwelling unit; or

(B) 25% or more of buildings or dwelling units inspected have the same reported health or safety deficiencies

(2) A finding of Minor Violations will be assessed if:

(A) The same deficiency (not a health or safety deficiency) is listed for 25% or more of the buildings or dwelling units inspected; or

(B) An overall UPCS score of less than 60% (59% or below) is reported.

(3) Findings of both Major and Minor Violations may be assessed if deficiencies reported meet the criteria for both.

(4) Property representatives will have an opportunity to correct deficiencies while the inspector is on site. Such corrected items will not be assessed a finding unless there is a pattern of the same violation (25% or more of dwelling units or buildings inspected with the same deficiency).

(5) Acceptable evidence of correction of deficiencies is a certification from an appropriate licensed professional that the item now complies with the inspection standard or other documentation that the violation has been corrected.

(6) For Developments with no findings of Major or Minor Violations, the review letter will state that the owner is responsible for correcting any items noted in the report. However, the letter will not require the owner to report back that the items have been cured.

§60.17. Utility Allowances.

(a) The Department will monitor to determine if HTC and BOND properties comply with published rent limits, which include an allowance for utilities. If residents are responsible for some or all utilities, Development owners must use a Utility Allowance that complies with §1.42-10 of the IRC. ~~If there is more than one entity (Section 8 administrator, public housing authority) responsible for setting the utility allowance(s) in the area of the Development location, then the Utility Allowance selected must be the one which most closely reflects the actual utility costs in that Development area. In this case, documentation from the local utility provider supporting the selection must be provided.~~

(b) Properties within the operational area of a municipal housing authority must use the allowance issued by municipal housing authority if they select the PHA method for establishing a utility allowance. (See Local Government Code Chapter 392)

(c) The Department will monitor to determine if HOME and HTF Developments comply with published rent limits, which include an allowance for utilities. Unless otherwise approved by the Department, HOME and HTF Developments must use the utility allowance established by the applicable housing authority. Changes in utility allowances must be implemented on the published effective date.

§60.18. Material Noncompliance.

(a) For all programs, a Development will be in material noncompliance if the noncompliance is stated in this section to be material noncompliance. Developments with more than one program administered by the Department will be scored by program. The Development will be considered in material noncompliance if the score for any single program exceeds the noncompliance limit for that program. The Department may take into consideration the representations of the Applicant regarding compliance violations; however, the records of the Department are controlling.

(b~~1~~) Each D~~d~~evelopment that is funded or administered by the Department will be scored according to the type and number of noncompliance events as it relates to the HTC program or other Department programs. All Developments, regardless of status, that are or have been administered, funded, or monitored by the Department are scored even if the D~~d~~evelopment no longer actively participates in the program. Unless otherwise specified below, under the HTC program, noncompliance events issued on Form 8823 are assigned point values. For other programs administered by the Department, unless otherwise specified below, noncompliance events identified during on-site monitoring reviews are assigned point values.

(c~~2~~) Uncorrected noncompliance, if applicable to the Development, will carry the maximum number of points until the noncompliance event has been reported corrected by the Department. Once reported corrected by the Department, the score will be reduced to the "corrected value". Corrected noncompliance will no longer be included in the Development score three years after the date the noncompliance was reported corrected by the Department.

(1~~A~~) Under the HTC program, noncompliance events that occurred and were identified by the Department through the issuance of the IRS Form 8823 prior to January 1, 1998, are assigned corrected point values to each noncompliance event. The score for these events will no longer be included in the Development's score.

(2~~B~~)The score in effect on May 1st of the year the HTC program application is submitted, during final application for Developments applying for participation in the BOND program, HOME program or HTF program, or during application review of any other program funded or administered by the Department will determine if any ~~rental~~ D~~d~~evelopment disclosed on previous participation forms is in material noncompliance.

(3~~C~~) The Department will not execute a Carryover Allocation Agreement with any Owner in Material Noncompliance on October 1, 200~~6~~7.

(4~~D~~) Any corrective action documentation affecting the compliance status score must be received by the Department thirty days prior to the application deadline for HTC applications, ~~date the HTC program Application Round closes,~~ thirty days prior to the submission of Volume I of the application for a BOND Development, or thirty days before the submission of an application for any other program funded or administered by the Department.

(d~~3~~) Events of noncompliance are categorized as either “development events” or “unit/building events”. Development events of noncompliance affect some or all the buildings in the D~~d~~evelopment; however, the D~~d~~evelopment will receive only one score for the event rather than a score for each building. Other types of noncompliance are identified individually by unit. This type of noncompliance will receive the appropriate score for each unit cited with an event. The unit scores and the D~~d~~evelopment scores accumulate towards the total score of the Development. Violations under the HTC program are identified by unit; however, the building is scored rather than the unit and the building will receive the noncompliance score if one or more of the units are in noncompliance.

(e~~4~~) Each type of noncompliance is assigned a point value. The point value for noncompliance is reduced upon correction of the noncompliance. The scoring point system and values are as described in subsections ~~subparagraphs~~ (f~~A~~) and (g~~B~~) of this section ~~paragraph~~. The point system weighs certain types of noncompliance more heavily than others; therefore certain noncompliance events automatically place the D~~d~~evelopment in Material Noncompliance. However, other types of noncompliance by themselves do not warrant the classification of Material Noncompliance. Multiple occurrences of these types of noncompliance events may produce enough points to cause the D~~d~~evelopment to be in Material Noncompliance.

(f~~A~~) Development Noncompliance items are identified in paragraphs ~~clauses~~ (1~~i~~) - (27~~xviii~~) of this subsection subparagraph.

(1) ~~(i)~~ Major property condition violations. The property condition does not meet Uniform Physical Condition Standards as described in Section 60.13 of this chapter or displays major violations of health, safety and building codes. Uncorrected, this is material noncompliance. Uncorrected is equal to the material noncompliance status threshold score as defined in §60.2(a~~7~~)(10) of this chapter. Corrected is 10 points.

(2) ~~(ii)~~ Owner refused to lease to a holder of rental assistance certificate/voucher because of the status of the prospective tenant as such a holder. Uncorrected, this is material noncompliance. Uncorrected is equal to the material noncompliance status threshold score as defined in §60.2(a~~7~~)(10) of this chapter. Corrected is 10 points.

(3) ~~(iii)~~ Development is not available to general public. The IRS will be notified of HTC D~~d~~evelopments reported to the Department, according to the Memorandum of Understanding among the U.S. Department of Treasury, the Department of Housing and Urban Development, and the Department of Justice, to be under investigation of possible violations of the Fair Housing Act. No points are imposed.

(4) ~~(iv)~~ Determination of a violation under the Fair Housing Act. Uncorrected, this is material noncompliance. Uncorrected is equal to the material noncompliance status threshold score as defined in §60.2(a ~~7~~)(10) of this chapter. Corrected is 10 points.

(5)~~(v)~~ Development is out of compliance and never expected to comply. Uncorrected, this is material noncompliance. Uncorrected is equal to the material noncompliance status threshold score as defined in §60.2(a~~7~~)(10) of this chapter. No correction is possible; no corrected score assigned.

(6) ~~(vi)~~ Owner failed to pay fees or allow on-site monitoring review. Points will be assigned to this event after written notification to the Development owner. Uncorrected, this is material noncompliance. Uncorrected is equal to the material noncompliance status threshold score as defined in §60.2(a~~7~~) (10) of this chapter. Corrected is 5 points.

(7)~~(vii)~~ LURA not in effect. The LURA was not executed within the required time period. Uncorrected, this is material noncompliance. This event will be assigned points upon written notification to the owner. Uncorrected is equal to the material noncompliance status threshold score as defined in §60.2(a ~~7~~)(10) of this chapter. Corrected is 5 points.

(8)~~(viii)~~ Developments awarded HTC January 1, 2004, or later, that are foreclosed by a lender, or the General Partner is removed by a syndicator due to reasons other than market conditions. -Points associated with a foreclosure will be assigned at the time the 8823 is sent to the IRS. Points associated with the removal of the General Partner will be assigned upon written notification to the former General Partner. 25 points. No correction is possible; no corrected score assigned.

(9) ~~(ix)~~ Development failed to meet minimum low-income occupancy levels. Development failed to meet required minimum low-income occupancy levels of 20/50 (20% of the units occupied by tenants with household incomes of less than or equal to 50% of Area Median Gross Income) or 40/60. Uncorrected is 20 points. Corrected is 10 points. (HTC and BOND only)

(10)~~(x)~~ No evidence of, or failure to certify to, non-profit material participation for an Owner having received an allocation from the Nonprofit Set-Aside. Uncorrected is 10 points. Corrected is 3 points.

(11) ~~(xi)~~ The Development failed to meet additional State required rent and occupancy restrictions. The LURA requires the Development to lease units to low income households at multiple income and rent tiers. This event refers to the condition when the lower tiers are not satisfied. Uncorrected is 10 points. Corrected is 3 points.

(12)~~(xii)~~ The Development failed to provide required supportive services as promised at Application. Uncorrected is 10 points. Corrected is 3 points.

(13) ~~(xiii)~~ The Development failed to provide housing to the elderly as promised at Application. Uncorrected is 10 points. Corrected is 3 points.

(14)~~(xiv)~~ Failure to provide special needs housing. Development has failed to provide housing for tenants with special needs as promised at Application. Uncorrected is 10 points. Corrected is 3 points.

~~(xv) The Development Owner failed to provide required annual notification to the local administering agency for the Section 8 program. Uncorrected is 5 points. Corrected is 2 points.~~

(15) ~~(xvi)~~ Changes in Eligible Basis. Changes occur when common areas become commercial, fees are charged for facilities, etc. Uncorrected is 10 points. Corrected is 3 points. (HTC only)

~~(xvii) Owner failed to post Fair Housing Logo and/or poster in leasing offices. Uncorrected is 3 points. Corrected is 1 point.~~

(16) ~~(xviii)~~ Failure to submit part or all of the AOCR or failure to submit any other annual, monthly, or quarterly report required by the Department. Uncorrected is 10 points. Corrected is 3 points.

~~(xix) Owner failed to make available or maintain a management plan with required language as required under §1.14 of this title. Uncorrected is 3 points. Corrected is 1 point.~~

(17) ~~(xx)~~Owner failed to approve and distribute an Affirmative Marketing Plan as required under §60.6 ~~§1.14~~ of this title~~Chapter.~~ Uncorrected is 3 points. Corrected is 1 point.

(18) ~~(xxi)~~ Pattern of minor property condition violations. Development does not meet Uniform Physical Condition Standards as described in Section 60.13 of this chapter or displays a pattern of property violations; however, those violations do not impair essential services and safeguards for tenants. Uncorrected is 10 points. Corrected is 5 points.

(19)~~(xxii)~~ Development failed to comply with requirements limiting minimum income standards for Section 8 residents. Complaints verified by the Department regarding violations of the income standard which cause exclusion from admission of Section 8 resident(s) results in a violation. Uncorrected score 10 points. Corrected 3 points.

(20)~~(xxiii)~~ Owner defaults on payments of Department loans for a period exceeding 90 days. Uncorrected, this is material noncompliance. Points will be assigned under this event after written notice to the Development Owner. Uncorrected is equal to the material noncompliance status threshold score as defined in §60.2(a)(10) ~~paragraph §60.2(7)~~ of this chapter. Corrected is 10 points.

(21)~~(xxiv)~~ Utility Allowance not calculated properly.
Uncorrected 3 points. Corrected 1 point.

(22)~~(xxv)~~Failure to comply with the Next Available Qualifying Unit Rule. Uncorrected 3 points. Corrected 1 point.

(23)~~(xxvi)~~Owner failed to execute required lease provisions or exclude prohibited lease language. Uncorrected 3 points. Corrected 1 point (All programs except HTC)

(24)~~(xxvii)~~ Failure to provide annual Housing Quality Standards inspection. Uncorrected 10 points. Corrected 3 points. (HOME and post compliance period HTC properties Only)

(25)~~(xxviii)~~Development has failed to establish and maintain a reserve account in accordance with §1.37 of this title. Points will be assigned under this event after written notice to the Development Owner. Uncorrected, this is material noncompliance. Uncorrected is equal to the material noncompliance status threshold score as defined in section § 60.2(a)(10) ~~subparagraph §60.2(7)~~ of this chapter. Corrected is 10 points.

(26) Development substantially changed the scope of services as presented at initial application without prior department approval. Uncorrected 4 points. Corrected 0 points.

(27) Change in ownership or General Partner without proper notification to and approval of Department. Uncorrected 4 points, corrected 0 points.

~~(~~g~~B~~) Unit Noncompliance items are identified in ~~clauses~~ paragraphs (1)- (12) of this subsection~~subparagraph.~~

(1) ~~(i)~~ Unit not leased to Low Income Household. Development has units that are leased to households whose income was above the income limit upon initial occupancy. Uncorrected is 5~~3~~ points. Corrected is 1 point.

(2) ~~(ii)~~ Low-income units occupied by nonqualified full-time students. Uncorrected is 3 points. Corrected is 1 point. (HTC Developments during the Compliance Period and BOND only)

(3) ~~(iii)~~ Low income units used on transient basis. Uncorrected is 3 points. Corrected is 1 point. (HTC and BOND only)

(4) ~~(iv)~~ Household income increased above the re-certification limit and an available Unit was rented to a market tenant. (HTC Developments during the Compliance Period) Uncorrected is 3 points. Corrected is 1 point.

(5) ~~(v)~~ Gross rent exceeds the highest rent allowed under the LURA or other deed restriction. Uncorrected is 5~~3~~ points. Corrected is 1 point.

(6)~~(vi)~~ Failure to maintain or provide tenant income certification and documentation. Uncorrected is 3 points. Corrected is 1 point.

(7) ~~(vii)~~ Casualty loss. Units not available for occupancy due to natural disaster or hazard due to no fault of the Owner. This carries no point value. Casualty losses are reported to the IRS on HTC Developments.

(8) ~~(viii)~~ When a low income Unit became vacant, owner failed to lease (or make reasonable efforts to lease) to a low income household before any units were rented to tenants not having a qualifying income. Uncorrected is 3 points. Corrected is 1 point.

(9) ~~(ix)~~ Unit not available for rent. Unit is used for nonresidential purposes excluding unavailable Units due to casualty and manager-occupied Units. Uncorrected is 3 points. Corrected is 1 point.

(10) ~~(x)~~ Qualifying unit designation removed from household. Uncorrected is 3 points. Corrected is 1 point. (FDIC's AHP only)

(11) ~~(xi)~~ Development evicted or terminated the tenancy of a low income tenant for other than good cause. Uncorrected is 10 points. Corrected is 3 points. (HTC and HOME only)

(12) Household income increased above 80% at recertification and owner failed to properly determine rent. (HOME only) Uncorrected 3 points. Corrected 1 point.

~~Texas Administrative Code~~

~~TITLE 10~~	~~COMMUNITY DEVELOPMENT~~
~~PART 1~~	~~TEXAS DEPARTMENT OF HOUSING AND COMMUNITY AFFAIRS~~
~~CHAPTER 1~~	~~ADMINISTRATION~~
~~SUBCHAPTER A~~	~~GENERAL POLICIES AND PROCEDURES~~
~~RULE §1.11~~	~~**Fair Housing Sponsor Report**~~

~~(a) Purpose. The purpose of this section is to establish procedures for filing the Fair Housing Sponsor report with the Texas Department of Housing and Community Affairs (the "Department"), pursuant to §2306.0724 of the Texas Government Code (the "Code").~~

~~(b) Definitions. The following words and terms, when used in this section, shall have the following meanings, unless the context clearly indicates otherwise.~~

~~(1) Fair Housing Sponsor Report--Data submitted to the Department by the owner of a housing development with 20 or more living units that contains relevant information pursuant to §2306.072(c)(6) of the Code including:~~

~~(A) the street address and municipality or county in which the property is located;~~

~~(B) the telephone number of the property management or leasing agent;~~

~~(C) the total number of units, reported by bedroom size;~~

~~(D) the total number of units, reported by bedroom size, designed for individuals who are physically challenged or who have special needs and the number of these individuals served annually;~~

~~(E) the rent for each type of rental unit, reported by bedroom size;~~

~~(F) the race or ethnic makeup of each project;~~

~~(G) the number of units occupied by individuals receiving government-supported housing assistance and the type of assistance received;~~

~~(H) the number of units occupied by individuals and families of extremely low income, very low income, low income, moderate income, and other levels of income;~~

~~(I) a statement as to whether the property has been notified of a violation of the fair housing law that has been filed with the United States Department of Housing and Urban Development, the Commission on Human Rights, or the United States Department of Justice; and~~

~~(J) a statement as to whether the development has any instances of material noncompliance with bond indentures or deed restrictions discovered through the normal monitoring activities and procedures that include meeting occupancy requirements or rent restrictions imposed by deed restriction or finance agreements.~~

~~(2) Department--The Texas Department of Housing and Community Affairs.~~

~~(3) Financial assistance--Multifamily and single family rental developments that receive financial assistance or administration from the Department including loans, grants, bonds or tax credits.~~

~~(4) Property--A housing development that received financial assistance from the Department.~~

~~(5) Reporting Year--The 12 month period in which the submission of the Fair Housing Sponsor Report is due.~~

~~(c) Procedures. The Department shall require the owner of each housing development that~~

~~receives financial assistance and that contains 20 or more living units to submit an annual fair housing sponsor report in a department-approved format, available electronically on the Department's website at www.tdhca.state.tx.us, or by hard copy if electronic means are not available to an owner.~~

~~(1) Hard copies of the forms are available upon request by phone or mail.~~

~~(2) The Department shall maintain the reports in electronic and hard copy formats readily available to the public at no cost.~~

~~(3) The report shall use data collected for the previous year current as of and including December 31 of that year, and must be submitted to the Department no later than March 1 of the Reporting Year. The data must be postmarked on or before March 1, or the following business day if March 1st falls on a Sunday or legal holiday. The Department will compile and maintain a list of owners failing to report timely. The Department, not later than March 31st of each year, will mail a late or missing report notification to owners.~~

~~(d) Sanctions. In accordance with the provisions of §2306.0724 of the Code, the Executive Director of the Texas Department of Housing and Community Affairs may access and enforce penalties and sanctions against a person who fails to submit the Fair Housing Sponsor Report on or before March 1 of each year.~~

~~(1) Effective January 1, 2003, the Executive Director may:~~

~~(A) Issue to the person a written reprimand that specifies the violation;~~

~~(B) Assess an administrative penalty in an amount equal to $1,000 for each violation in lieu of, or in addition to, any other sanction; and~~

~~(C) Deny future requests for departmental funding or other assistance.~~

~~(2) Denial of future requests for departmental funding may be assessed only for multiple, consistent and/or repeated violations of failure to submit the annual Fair Housing Sponsor Report by March 1 of each year. For first-time violations, the Department will issue a written reprimand.~~

~~(3) If, after investigation of a possible violation and the facts surrounding the possible violation, the Executive Director determines that a violation has occurred, the Executive Director shall issue a written notice or reprimand of violations not later than the 14th day after the date on which the notice of late or missing report was issued to owner. A written notice or reprimand of violations shall specify in detail the late or missing report and shall include any of the following:~~

~~(A) recommendation that the owner charged be barred from any future requests for departmental funding and assistance;~~

~~(B) recommendation that an administrative penalty under this section be imposed on the owner charged and indication of the penalty amount; or~~

~~(C) recommendation that no penalty be assessed if this is the owner's first violation.~~

~~(4) Not later than the 20th day after the date on which the notice or reprimand is received, the owner charged may accept the determination of the Executive Director made under this subsection, including the recommended penalty, or make a written request for a hearing on the determination.~~

~~(5) If the owner charged with the violation accepts the determination of the Executive Director, the Executive Director shall issue an order approving the determination and ordering that the owner pay the recommended penalty.~~

~~(6) If the owner charged requests a hearing, the Executive Director shall set a hearing and give written notice of the hearing to the owner. The respondent in an administrative hearing shall be entitled to due process and a hearing under the provisions of Code, Chapter 2001 and Chapter 2306. The respondent and the director may enter into a compromise settlement agreement in any~~

~~contested matter prior to signing of the final order.~~

~~(7) Not later than the 30th day after the date on which the order was issued and/or the decision is final, the owner charged shall:~~

~~(A) pay the penalty in full; or~~

~~(B) file a petition for judicial review contesting the fact of the violation.~~

~~(8) If the owner charged does not pay the penalty and does not pursue judicial review, the Executive Director or the attorney general may bring an action for the collection of the penalty.~~

~~(9) An owner that has been denied departmental funding or other assistance for failure to submit the fair housing sponsor report timely may be removed from the denial list after reporting timely for at least two consecutive Reporting Years.~~

~~Texas Administrative Code~~

~~**TITLE 10**~~	~~COMMUNITY DEVELOPMENT~~
~~**PART 1**~~	~~TEXAS DEPARTMENT OF HOUSING AND COMMUNITY AFFAIRS~~
~~**CHAPTER 1**~~	~~ADMINISTRATION~~
~~**SUBCHAPTER A**~~	~~GENERAL POLICIES AND PROCEDURES~~
~~**RULE §1.13**~~	~~**Applicant Compliance with State and Federal Laws Prohibiting Discrimination**~~

~~(a) Definitions. The following words and terms, when used in this section, shall have the following meanings, unless the context clearly indicates otherwise.~~

~~(1) Applicant--A person who submits, or is preparing to submit, to the Department an application for housing funds or other housing assistance from the Department.~~

~~(2) Application--The written request for Department housing program funds or other assistance in the format required by the Department including any exhibits or other supporting material.~~

~~(3) Board--The board of directors of the Texas Department of Housing and Community Affairs.~~

~~(4) Department--The Texas Department of Housing and Community Affairs.~~

~~(5) Executive Director--The executive director of the Department.~~

~~(6) Housing development--means property or work or a project, building, structure, facility, or undertaking, whether existing, new construction, remodeling, improvement, or rehabilitation, that meets or is designed to meet minimum property standards required by the department and that is financed under the provisions of this chapter for the primary purpose of providing sanitary, decent, and safe dwelling accommodations for rent, lease, use, or purchase by individuals and families of low and very low income and families of moderate income in need of housing. The term includes:~~

~~(A) buildings, structures, land, equipment, facilities, or other real or personal properties that are necessary, convenient, or desirable appurtenances, including streets, water, sewers, utilities, parks, site preparation, landscaping, stores, offices, and other non-housing facilities, such as administrative, community, and recreational facilities the department determines to be necessary, convenient, or desirable appurtenances; and~~

~~(B) single and multifamily dwellings in rural and urban areas.~~

~~(7) Recipient--The individual or entity that has received funds or other assistance from the Department pursuant to its application.~~

~~(b) Applicable Laws. An applicant may not receive funds or other assistance from the Department until the Department receives a properly completed certification from the applicant that it is in compliance with the following housing laws:~~

~~(1) state and federal fair housing laws, including Chapter 301, the Property Code, the Texas Fair Housing Act, Title IV of the Civil Rights Act of 1968 (42 U.S.C. Section 3601, et seq.), and the Fair Housing Amendments of 1988 (42 U.S.C. Section 3601, et seq.);~~

~~(2) the Civil Rights Act of 1964 (42 U.S.C. Section 2000a, et seq.);~~

~~(3) the Americans with Disabilities Act of 1990 (42 U.S.C. 12101, et seq.); and~~

~~(4) the Rehabilitation Act of 1973 (29 U.S.C. Section 701, et seq.).~~

~~(c) Monitoring. The Department periodically monitors for compliance with the requirements~~

~~specified in subsection (b) of this section during the construction phase of a housing development that has received funds or other assistance from the Department. The monitoring level for each housing development is based on the amount of risk of noncompliance with the requirements specified in subsection (b) of this section associated with the housing development. The Department shall notify the recipient in writing of an apparent violation and shall afford the recipient a reasonable amount of time, as determined by the Department, to correct the identified violation, if possible, prior to the imposition of a sanction. The Department shall notify the Texas Commission on Human Rights at the same time notification is sent to the recipient.~~

~~(d) Sanctions. The Department may impose one or more of the following sanctions depending on the severity of the violation of a law specified in subsection (b) of this section by a recipient of housing funds or other assistance from the Department:~~

~~(1) a reprimand posted on the Department's website,~~

~~(2) termination of assistance, or~~

~~(3) a bar on future eligibility for assistance through a housing program administered by the Department. A bar shall be in place for at least one calendar year from the date of imposition by the Department and may not last for more than ten calendar years from the date of imposition.~~

~~Texas Administrative Code~~

~~TITLE 10~~	~~COMMUNITY DEVELOPMENT~~
~~PART 1~~	~~TEXAS DEPARTMENT OF HOUSING AND COMMUNITY AFFAIRS~~
~~CHAPTER 1~~	~~ADMINISTRATION~~
~~SUBCHAPTER A~~	~~GENERAL POLICIES AND PROCEDURES~~
~~RULE §1.14~~	**~~Housing Sponsor: Tenant and Management Selection~~**

~~(a) Purpose. The purpose of this section is to set standards for tenant and management selection by a housing sponsor and to prohibit a housing development funded or administered by the Department, including a development supported with a housing tax credit allocation, from:~~

~~(1) excluding an individual or family from admission to the development because the individual or family participates in the housing choice voucher program under Section 8, United States Housing Act of 1937 (42U.S.C. Section 1437f); and~~

~~(2) using a financial or minimum income standard for an individual or family participating in the voucher program that requires the individual or family to have a monthly income of more than 2.5 times the individual or family's share of the total monthly rent payable to the owner of the development.~~

~~(b) Definitions. The following words and terms, when used in this section, shall have the following meanings, unless the context clearly indicates otherwise.~~

~~(1) Department--The Texas Department of Housing and Community Affairs.~~

~~(2) Housing development--Property or work or a project, building, structure, facility, or undertaking, whether existing, new construction, remodeling, improvement, or rehabilitation, that meets or is designed to meet minimum property standards required by the Department and that is financed under the provisions of Chapter 2306 of the Government Code for the primary purpose of providing sanitary, decent, and safe dwelling accommodations for rent, lease, use, or purchase by individuals and families of low and very low income and families of moderate income in need of housing. The term:~~

~~(A) buildings, structures, land, equipment, facilities, or other real or personal properties that are necessary, convenient, or desirable appurtenances, including streets, water, sewers, utilities, parks, site preparation, landscaping, stores, offices, and other nonhousing facilities, such as administrative, community, and recreational facilities the Department determines to be necessary, convenient, or desirable appurtenances; and~~

~~(B) multifamily dwellings in rural and urban areas.~~

~~(3) Housing sponsor--means:~~

~~(A) an individual, including an individual or family of low and very low income or family of moderate income, joint venture, partnership, limited partnership, trust, firm, corporation, or cooperative that is approved by the department as qualified to own, construct, acquire, rehabilitate, operate, manage, or maintain a housing development, subject to the regulatory powers of the department and other laws; or~~

~~(B) in an economically depressed or blighted area, or in a federally assisted new community located within a home-rule municipality, the term may include an individual or family whose income exceeds the moderate income level if at least 90 percent of the total mortgage amount~~

~~available under a mortgage revenue bond issue is designed for individuals and families of low income or families of moderate income.~~

~~(4) Management plan--A written plan clearly stating the following objectives:~~

~~(A) prospective applicants who hold Section 8 vouchers or certificates are welcome to apply and will be provided the same consideration for occupancy as any other prospective tenant;~~

~~(B) any minimum income requirements for Section 8 voucher and certificate holders will only be applied to the portion of the rent the prospective tenant would pay, provided, however, that if Section 8 pays 100% of the rent for the unit, the housing sponsor may establish other reasonable minimum income requirements to establish other reasonable minimum income requirements to ensure that the tenant has the financial resources to meet daily living expenses. Minimum income requirements for Section 8 voucher and certificate holders will not exceed 2.5 times the portion of rent the tenant pays; and~~

~~(C) all other screening criteria, including employment policies or procedures and other leasing criteria (such as rental history, credit history, criminal history, etc.) must be applied to prospective tenants uniformly and in a manner consistent with the Texas and Federal Fair Housing Acts and with Department requirements.~~

~~(5) Non-compliance score--The scoring and methodology used to determine the compliance status of applicants applying for Departmental funding.~~

~~(c) Applicability. The policies, standards, and sanctions established by these rules apply only to:~~

~~(1) multifamily housing developments that receive the following assistance from the Department on or after January 1, 2002:~~

~~(A) a loan or grant in an amount greater than 33 percent of the market value of the development on the date the recipient took legal possession of the development; or~~

~~(B) a loan guarantee for a loan in an amount greater than 33 percent of the market value of the development on the date the recipient took legal title to the development; or~~

~~(2) multifamily rental housing developments funded or administered by the Department as low income tax credit property whose application for an allocation of low income housing tax credits for that housing development is received by the Department on or after August 10, 1993.~~

~~(3) A housing development that benefits from the incentive program under §2306.805 of the Texas Government Code is subject to the policies, standards, and sanctions established by these rules.~~

~~(d) Procedures. The following procedures apply to the selection of tenants and management by all housing sponsors.~~

~~(1) Tenants must be income eligible under the rules and regulations of the program or activity funded.~~

~~(2) Housing Sponsors must apply all other screening criteria, including employment policies or procedures and other leasing criteria (such as rental history, credit history, criminal history, etc.) uniformly and in a manner consistent with the Texas and Federal Fair Housing Acts, program guidelines, and the Department rules.~~

~~(3) Income determination must be made in a manner consistent with Section 8, of the United States Housing Act of 1937 (42 U.S.C. Section 1437f) and the guidelines established in Handbook 4350.3, as amended and promulgated by the U. S. Department of Housing and Urban Development (HUD).~~

~~(4) The Housing Sponsor shall not exclude an individual or family from admission to the development because the individual or family participates in the housing choice voucher program under Section 8, United States Housing Act of 1937 (42 U.S.C. Section 1437f).~~

~~(5) The Housing Sponsor shall not use a financial or minimum income standard for an individual or family participating in the voucher program that requires the individual or family to have a monthly income that exceeds 2.5 times the individual or family's share of the total monthly rent payable to the owner of the development.~~

~~(6) The Housing Sponsor must maintain a written management plan that is available for review upon request and states the intention of the development owner to comply with state and federal fair housing and antidiscrimination laws.~~

~~(7) The Housing Sponsor must ensure that management posts Fair Housing logos and a Fair Housing poster in the leasing office.~~

~~(8) The Housing Sponsor must approve and distribute a written affirmative marketing plan to the property management and on-site staff.~~

~~(9) The department shall require a land use restriction agreement providing for enforcement of the restrictions by the department, tenants of the development, or by a private party that includes the right to recover reasonable attorney's fees if the party seeking enforcements of the restrictions is successful.~~

~~(10) The Housing Sponsor must communicate annually during the first quarter of each year with the administrator of each Section 8 program, which has jurisdiction within the geographic area where the development is located. Such communication will include information on the unit characteristics and rents, will advise the administrating agency that the property accepts Section 8 vouchers and certificates, and will treat referrals in a fair and equal manner. Copies of such correspondence must be available during on-site reviews conducted by the Department.~~

~~(11) A prospective tenant participating in the voucher program shall report to the administrator of the Section 8 program that provided the certificate or voucher an exclusion from admission to a housing development based on a financial or minimum income standard requiring the tenant to have a monthly income of more than 2.5 times the tenant or tenant's family share of the total monthly rent payable to the owner of the development. The administrator shall promptly report such exclusion to the Department.~~

~~(e) Sanctions. A Housing Sponsor of a multifamily rental housing development that fails to comply with the procedures pursuant to subsection (d) of this section is subject to the following sanctions:~~

~~(1) Failure to lease to a prospective tenant due to the applicant's status as a recipient of a federal rental assistance voucher or certificate will result in a material non-compliance score, and~~

~~(2) A complaint of exclusion from admission as described in subsection (d)(11) of this section, that has been verified by the Department, shall result in a non-compliance score for a period of one year from the date of the Department's verification of the complaint.~~

~~(f) These rules, policies, standards, and sanctions are enforceable by the Department, tenants of the development, or by private parties against the initial owner or any subsequent owners.~~

Division of Policy and Public Affairs

BOARD ACTION REQUEST

August 30, 2006

Action Items

2007 State of Texas Low Income Housing Plan and Annual Report (Draft for Public Comment)

Required Action

Release for public comment of the *2007 State of Texas Low Income Housing Plan and Annual Report (Draft for Public Comment)*

Background

The Texas Department of Housing and Community Affairs is required to submit the *State of Texas Low Income Housing Plan and Annual Report* (SLIHP, Plan) annually to the governor, lieutenant governor, speaker of the house, and legislative oversight committee members not later than 30 days after the TDHCA board receives the final Plan. The document offers a comprehensive reference on statewide housing needs, housing resources, and strategies for funding allocations. It reviews TDHCA's housing programs, current and future policies, resource allocation plans to meet state housing needs, and reports on 2006 performance during the preceding fiscal year (September 1, 2005, through August 31, 2006). The document currently up for consideration is the *2007 State of Texas Low Income Housing Plan and Annual Report (Draft for Public Comment).*

The Plan will be made available for public comment from September 13, 2006, through October 12, 2006. Comment will be accepted in writing directly to TDHCA or at 13 Consolidated hearings to be held across the state.

Summary of Significant Changes from 2*006 State of Texas Low Income Housing Plan and Annual Report*

- Removal of 2005 performance information in the draft Annual Report section. Because the fiscal year ends on August 31, 2006, and the program areas do not have their FY 2006 performance data compiled in time for the release of this draft, 2006 performance data is included in the final version of the document. (pp. 6, 7, 8, 10, 14, 15)
- Incorporation of 2006 Community Needs Survey data in Housing Analysis section. (pp. 28, 34, 38, 42, 46, 50, 54, 58, 61, 66, 70, 74, 78, 82)
- Addition on Hurricane Rita disaster damage data in the Housing Analysis section. (pp. 45, 49, 53)

- Addition of CDBG disaster recovery funding under "coordination with state agencies" section and ORCA (p. 98)
- MF Bond: Deletion of TDHCA-designated strategy 9.2: "Dedicate no less than 5 percent of the MFB Program units for persons with special needs. (pp. 109, 151)
- HOME Program: Removal of the restriction that activities funded in participating jurisdictions under the 5 percent persons with disabilities allowance be multifamily developments only. (pp. 111, 124)
- HTC Program: Removal of scoring points for developments proposing rehabilitation and for which some of the financing includes HOPE VI or HUD capital grant funds. (p. 115)
- Addition of "Disaster Initiatives" under the "Policy Priorities" section. (p. 120)
- HOME Program: Removal of HOYO direct award of $500,000 and creation of Persons with Disabilities Single Family Allocation. (pp. 126)
- HOME Program: Reduction of single family homebuyer assistance allocation from 20 percent to 10 percent. (pp. 124, 128)
- HOME Program: Addition of biennial funding language using FY 2007 funds. (p. 127)
- Deletion of the Affordable Housing Needs Score in the "Allocation Plans" section, as this is a program scoring component and not an allocation plan. (p. 144)
- Revision of the 2006-2007 Colonia Action Plan. (p. 157)

Recommendation

Approval of the draft document.

2007 STATE OF TEXAS LOW INCOME HOUSING PLAN AND ANNUAL REPORT
(DRAFT FOR PUBLIC COMMENT)

TABLE OF CONTENTS

SECTION 1: INTRODUCTION

TEXAS DEPARTMENT OF HOUSING AND COMMUNITY AFFAIRS

The Texas Department of Housing and Community Affairs (TDHCA, Department, Agency) is the State's lead agency responsible for affordable housing. TDHCA is also responsible for administering a wide variety of community affairs, energy assistance, and colonia programs and activities.

INSTITUTIONAL STRUCTURE

In 1991, the 72nd Texas Legislature created the Texas Department of Housing and Community Affairs. The Department's enabling legislation combined programs from the Texas Housing Agency, the Texas Department of Community Affairs, and the Community Development Block Grant Program from the Texas Department of Commerce.

On September 1, 1992, two programs were transferred to TDHCA from the Texas Department of Human Services: the Low Income Home Energy Assistance Program (LIHEAP) and the Emergency Nutrition and Temporary Emergency Relief Program (ENTERP). Effective September 1, 1995, in accordance with House Bill 785, regulation of manufactured housing was transferred to the Department. In accordance with House Bill 7, effective September 1, 2002, the Community Development Block Grant (CDBG) and Local Government Services programs were transferred to the newly created Office of Rural Community Affairs (ORCA). However, TDHCA, through an interagency contract with ORCA, administers 2.5 percent of the CDBG funds used for the Self-Help Centers along the Texas-Mexico border. Effective September 1, 2002, in accordance with Senate Bill 322, the Manufactured Housing Division became an independent entity administratively attached to TDHCA.

AGENCY MISSION AND CHARGE

TDHCA's mission is as follows: To help Texans achieve an improved quality of life through the development of better communities.

TDHCA accomplishes this mission by administering a variety of housing and community affairs programs. A primary function of TDHCA is to act as a conduit for federal grant funds for housing and community services. However, because several major housing programs require the participation of private investors and private lenders, TDHCA also operates as a housing finance agency.

More specific policy guidelines are provided in §2306.002 of TDHCA's enabling legislation.

(a) The legislature finds that:

(1) every resident of this state should have a decent, safe, and affordable living environment;

(2) government at all levels should be involved in assisting individuals and families of low income in obtaining a decent, safe, and affordable living environment; and

(3) the development and diversification of the economy, the elimination of unemployment or underemployment, and the development or expansion of commerce in this state should be encouraged.

(b) The highest priority of the department is to provide assistance to individuals and families of low and very low income who are not assisted by private enterprise or other governmental programs so that they may obtain affordable housing or other services and programs offered by the department.

The TDHCA Governing Board and staff are committed to meeting the challenges presented by examining the housing needs and presenting a broad spectrum of housing and community affairs programs based on the input of thousands of Texans. TDHCA's services address a broad spectrum of housing and community affairs issues that include homebuyer assistance, the rehabilitation of single family and multifamily units, rental assistance, the new construction of single family and multifamily housing, special needs housing, transitional housing, and emergency shelters. Community services include energy assistance, weatherization assistance, health and human services, child care, nutrition, job training and employment services, substance abuse counseling, medical services, and emergency assistance.

The Department is primarily a pass-through funding agency that collects funds from federal and state programs to use the combination of resources efficiently. To further the goal of providing a decent, safe, and affordable living environment for families who need assistance, the Department uses a series of competitive programs that focus on obtaining the public policy goals. This distribution if done using a number of techniques.

- Almost all housing development, rehabilitation, and rental assistance related funding is awarded through formal competitive Request for Proposals (RFP) and Notice of Funding Availability (NOFA) processes.
- First time homebuyer and down payment assistance is allocated through a network of participating lenders.
- Community Affairs’ funds are predominantly allocated through a network of community based organizations who receive their funding on an annual, ongoing basis.

Funding sources for the services listed above include the US Department of Housing and Urban Development (HUD), US Treasury Department, US Department of Health and Human Services, and US Department of Energy, and State of Texas general revenue funds. With this funding, TDHCA strives to promote sound housing policies; promote leveraging of state and local resources; prevent discrimination; and ensure the stability and continuity of services through a fair, nondiscriminatory, and open process. Recognizing that all the need may not ever be met, the Department looks at where the federal programs and state resources at its disposal could provide the most benefit by managing these limited resources to have the greatest impact.

TDHCA is only one organization in a network of housing and community services providers located throughout the state. This document focuses on programs within TDHCA’s jurisdiction, which are intended to either work in cooperation with or as complements to the services provided by other organizations.

ADMINISTRATIVE STRUCTURE

Agency programs are grouped into three categories: Single Family Finance Production, Multifamily Finance Production, and Community Affairs. In addition, TDHCA includes the following divisions: Administrative Support; Bond Finance; Financial Administration; Information Systems; Internal Audit; Legal Services; Portfolio Management and Compliance; Real Estate Analysis; the Division of Policy and Public Affairs; and the Office of Colonia Initiatives. The Manufactured Housing Division is administratively attached to TDHCA, though it is an independent entity with its own governing board.

The following table outlines TDHCA's programs. For more detailed program information, please see "TDHCA Program Plans" in the Action Plan section of this document.

Activity	Program	Program Description	Eligible Households
Multifamily Development	HOME Investment Partnerships Program (HOME)	Loans or grants to develop or preserve affordable rental housing	<80% AMFI
	Housing Trust Fund (HTF)	Loans or grants for rental housing development, predevelopment, and other industry innovations	<80% AMFI
	Housing Tax Credit (HTC)	Tax credits to develop or preserve affordable rental housing	<60% AMFI
	Multifamily Bond (MFB)	Loans to develop or preserve affordable rental housing	<60% AMFI
Rental Assistance	HOME Program	Loans or grants for entities to provide tenant-based rental assistance for two years	<80% AMFI
	Section 8 Housing Choice Vouchers	Acts as a public housing authority to offer tenant-based rental assistance vouchers in certain areas	<50% AMFI
Single Family Development	HOME Program	Loans or grants for entities to construct single family housing and offer down payment assistance	<80% AMFI
	Colonia Model Subdivision	Loans for Community Housing Development Organizations (CHDOs) to develop residential subdivisions as an alternative to colonias	<60% AMFI
Home Purchase Assistance and Home Repair Assistance	Contract for Deed Conversion Initiative	Facilitates colonia-resident ownership by converting contracts for deed into traditional mortgages	<60% AMFI
	Grant Assistance	Grants in conjunction with the First Time Homebuyer Program for down payment and closing costs	<60% AMFI
	HOME Program	Loan and grants for entities to offer down payment and closing cost assistance	<80% AMFI
	HOME Program	Loans and grants for entities to provide home repair assistance	<80% AMFI
	Lone Star Loan	Market-rate loans with second liens for down payment assistance	<115% AMFI
	Mortgage Credit Certificate	Annual tax credit based on the interest paid on the homebuyer's mortgage loan	<115% AMFI
	Texas Bootstrap Loan	Funds entities to offer owner-builder loans programs	<60% AMFI
	Texas First Time Homebuyer	Low-interest loans for first time homebuyers	<115% AMFI
Homebuyer Education	Colonia Consumer Education Services	Homebuyer education offered through Colonia Self-Help Centers and Office of Colonia Initiatives (OCI) field offices	<115% AMFI (All)
	Texas Statewide Homebuyer Education	Training for nonprofits to provide homebuyer education	<115% AMFI (All)
Community Affairs Activities	Community Services Block Grant (CSBG)	Funds local agencies to provide essential services and poverty programs	<50% AMFI
	Emergency Shelter Grants (ESGP)	Funds entities to provide shelter and related services to the homeless	<30% AMFI (Homeless)
	Community Food and Nutrition (CFNP)	Distributes surplus food commodities and supports feedings	<80% AMFI
	Comprehensive Energy Assistance (CEAP)	Funds local agencies to offer energy education, financial assistance, and HVAC replacement	<50% AMFI
	Weatherization Assistance (WAP)	Funds local agencies to provide minor home repairs to increase energy efficiency	<50% AMFI
Manufactured Housing	Manufactured Housing Division	Regulates the manufactured housing industry. Licenses manufactured housing professionals, titles homes, inspects homes, and investigates manufactured housing complaints.	All

2007 STATE OF TEXAS LOW INCOME HOUSING PLAN AND ANNUAL REPORT

The *2007 State of Texas Low Income Housing Plan and Annual Report* (SLIHP, Plan) is prepared annually in accordance with §2306.072–2306.0724 of the Texas Government Code (TGC). This statute requires that TDHCA provide a comprehensive statement of activities in the preceding year, an overview of statewide housing needs, and a resource allocation plan to meet the state's housing needs. It offers policy makers, affordable housing providers, and local communities a comprehensive reference on statewide housing need, housing resources, and performance-based funding allocations. The format is intended to help these entities measure housing needs, understand general housing issues, formulate policies, and identify available resources. As such, the Plan is a working document whose annual changes reflect input received throughout the year.

The Plan is organized into eight sections:

- *Introduction:* An overview of TDHCA and the Plan
- *Annual Report:* A comprehensive statement of activities for 2006, including performance measures, actual numbers served, and a discussion of TDHCA's Strategic Plan goals
- *Housing Analysis:* An analysis of statewide and regional demographic information, housing characteristics, and housing needs
- *TDHCA Action Plan:* A description of TDHCA's initiatives, resource allocation plans, program descriptions, and goals
- *Public Participation:* Information on the Plan preparation and a summary of public comment
- *Colonia Action Plan:* A revised biennial plan for 2006–2007, which discusses housing and community development needs in the colonias, describes TDHCA's policy goals, summarizes the strategies and programs designed to meet these goals, and describes projected outcomes to support the improvement of living conditions of colonia residents
- *Texas State Affordable Housing Corporation (TSAHC) Plan:* This section outlines TSAHC's plans and programs for 2006, and is included in accordance with legislation
- *Appendix:* Includes TDHCA's enabling legislation and a glossary of selected terms

Because the Plan's legislative requirements are rather extensive, TDHCA has prepared a collection of separate publications in order to fulfill requirements. This allows the requester to receive specific information in a format that is easier to use and cost-effective for both TDHCA and interested parties through lower printing and distribution costs. TDHCA produces the following publications in compliance with §2306.072–2306.0724 of the Texas Government Code:

- *State of Texas Low Income Housing Plan and Annual Report*
- *Basic Financial Statements* and *Operating Budget:* Produced by TDHCA's Financial Administration Division and fulfill §2306.072(c)(2)
- *TDHCA Program Guide:* A description of TDHCA's housing programs and other state and federal housing and housing-related programs, which fulfills §2306.0721(c)(4) and §2306.0721(c)(10)
- *TDHCA Housing Sponsor Report:* A report that provides property and occupant profiles of developments that have received assistance from TDHCA, which fulfills §2306.072(c)(6), §2306.072(c)(8), and §2306.0724

SECTION 2: ANNUAL REPORT

The Annual Report required by §2306.072 of the Texas Government Code includes the following sections:

- TDHCA's Operating and Financial Statements
- *Statement of Activities*: Describes TDHCA activities during the preceding year that worked to address housing and community service needs
- *Statement of Activities by Region*: Describes TDHCA activities by region
- *Participation in TDHCA Programs*: Discusses efforts to ensure that individuals of low income and their community-based institutions participate in TDHCA programs
- *Citizen Participation in Program Planning*: Discusses affirmative efforts to ensure the involvement of individuals of low income and their community-based institutions in the allocation of funds and the planning process
- *Housing Sponsor Report*: Describes fair housing opportunities offered by TDHCA's multifamily development inventory
- *Analysis of the Distribution of Tax Credits*: Provides an analysis of the sources, uses, and geographic distribution of housing tax credits
- *Average Rents Reported by County*: Provides a summary of the average rents reported by the TDHCA multifamily inventory

OPERATING AND FINANCIAL STATEMENTS

TDHCA's *Operating Budgets* and *Basic Financial Statements* are prepared and maintained by the Financial Administration Division. For copies of these reports, visit http://www.tdhca.state.tx.us/finan.htm.

STATEMENT OF ACTIVITIES

The Department has many programs that provide an array of services. This section of the Plan highlights TDHCA's activities and achievements during the preceding fiscal year through a detailed analysis of the following:

- TDHCA's performance in addressing the housing needs of low, very low, and extremely low income households
- The diversity of serviced delivered to households
- TDHCA's progress in meeting its housing and community services goals

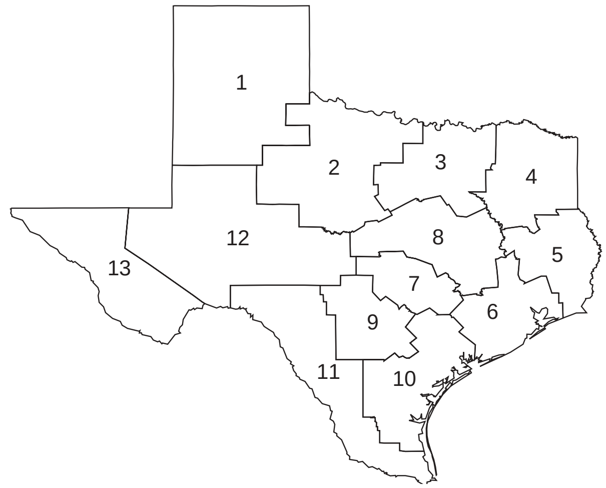

Figure 2.1 State Service Regions

This analysis is provided at the State level and within each of the 13 service regions TDHCA uses for planning purposes (see Figure 2.1). For general information about each region, including housing needs and housing supply, please see the Housing Analysis section of this document.

FUNDING COMMITMENTS AND HOUSEHOLDS SERVED BY ACTIVITY AND PROGRAM

For the state and each region, a description of funding allocations, amounts committed, target numbers, and actual number of persons or households served for each program is provided. Along with the summary performance information, data on the following activity subcategories is provided.

- Renter
  - New Construction activities support multifamily development, such as the funding of developments, capacity building, and predevelopment funding.
  - Rehabilitation Construction activities support the acquisition, rehabilitation, and preservation of multifamily units.
  - Tenant Based Assistance is direct rental payment assistance.
- Owner
  - Single family development includes funding for housing developers, nonprofits, or other housing organizations to support the development of single family housing.
  - Single family financing and homebuyer assistance helps households purchase a home, through such activities as mortgage financing, and down payment assistance.
  - Single family owner-occupied assistance helps existing homeowners who need home rehabilitation and reconstruction assistance.
- Community services includes supportive services, energy assistance, and homeless assistance activities.

FY 2006 information will be included in the final version of the document.

FUNDING COMMITMENTS AND HOUSEHOLDS SERVED BY INCOME GROUP

The SLIHP uses the following subcategories to refer to the needs of households or persons within specific income groups.

- Extremely Low Income (ELI): 0% to 30% area median family income (AMFI)
- Very Low Income (VLI): 31% to 60% (AMFI)
- Low Income (LI): 61% to 80% (AMFI)
- Moderate Income and Up (MI): >80% (AMFI)

The vast majority of households and individuals served through CEAP, WAP, ESGP, and CFNP earn less than 30 percent area median family income. However, federal tracking of assistance from these programs is based on poverty guidelines, which do not translate easily to an AMFI equivalent. For conservative reporting purposes, assistance in these programs is reported in the VLI category.

FY 2006 information will be included in the final version of the document.

RACIAL COMPOSITION OF HOUSEHOLDS RECEIVING ASSISTANCE

As required by legislation, TDHCA reports on the racial composition of individuals and families receiving assistance. Using 2000 US Census data, TDHCA has delineated the racial composition of the population into four categories: White, Hispanic, Black, and Other. “Hispanic” includes all races that specified “Hispanic” as a category. “Other” includes races other than “White” and “Black” as well as individuals with two or more races. Households assisted through each TDHCA program or activity have been delineated according to these categories. Regional analyses of this racial data are included in the Statement of Activities by Uniform State Service Region section that follows. Please note that the population racial composition charts examine individuals, while the many program racial composition charts examine households.

Information is included for Multifamily Programs, HOME Program single family activities, Single Family Bond, Housing Trust Fund single family activities, and Section 8. The Weatherization Assistance Program, Comprehensive Energy Assistance Program, Community Services Block Grant program, and Emergency Shelter Grants Program allocate funding to several entities with service areas that span across two or more regions, so, racial data for these programs is reported by entity. Office of Colonia Initiatives programs are reported under the funding source: HOME Program for Contract for Deed loans, Single Family Bond for some Contract for Deed and Texas Bootstrap Loan Program loans, and the Housing Trust Fund for Texas Bootstrap loans. No racial data is reported for the Community Food and Nutrition Program.

FY 2006 information will be included in the final version of the document.

PROGRESS IN MEETING TDHCA HOUSING AND COMMUNITY SERVICES GOALS

The goals, strategies, and objectives established in the Legislative Appropriations Act, the TDHCA *Strategic Plan*, and the *State of Texas Consolidated Plan*, guide TDHCA's annual activities through the establishment of objective performance measures. TDHCA's resulting goals are as follows:

1: INCREASE AND PRESERVE THE AVAILABILITY OF SAFE, DECENT, AND AFFORDABLE HOUSING FOR VERY LOW, LOW, AND MODERATE INCOME PERSONS AND FAMILIES

2: PROMOTE IMPROVED HOUSING CONDITIONS FOR EXTREMELY LOW, VERY LOW, AND LOW INCOME HOUSEHOLDS BY PROVIDING INFORMATION AND TECHNICAL ASSISTANCE.

3: IMPROVE LIVING CONDITIONS FOR THE POOR AND HOMELESS AND REDUCE THE COST OF HOME ENERGY FOR VERY LOW INCOME TEXANS.

4: ENSURE COMPLIANCE WITH THE TEXAS DEPARTMENT OF HOUSING AND COMMUNITY AFFAIRS' FEDERAL AND STATE PROGRAM MANDATES.

5: PROTECT THE PUBLIC BY REGULATING THE MANUFACTURED HOUSING INDUSTRY IN ACCORDANCE WITH STATE AND FEDERAL LAWS.

6: TARGET ITS HOUSING FINANCE PROGRAMS RESOURCES FOR ASSISTANCE TO EXTREMELY LOW INCOME HOUSEHOLDS.

7: TARGET ITS HOUSING FINANCE RESOURCES FOR ASSISTANCE TO VERY LOW INCOME HOUSEHOLDS.

8: PROVIDE CONTRACT FOR DEED CONVERSIONS FOR FAMILIES WHO RESIDE IN A COLONIA AND EARN 60 PERCENT OR LESS OF THE APPLICABLE AREA MEDIAN FAMILY INCOME

9: WORK TO ADDRESS THE HOUSING NEEDS AND INCREASE THE AVAILABILITY OF AFFORDABLE AND ACCESSIBLE HOUSING FOR PERSONS WITH SPECIAL NEEDS THROUGH FUNDING, RESEARCH, AND POLICY DEVELOPMENT EFFORTS.

To avoid duplication of information, progress made towards meeting those goals, the upcoming year's goals, and information on TDHCA's actual performance in satisfying in FY 2006 goals and strategies is provided in Section 4: Action Plan.

STATEMENT OF ACTIVITIES BY UNIFORM STATE SERVICE REGION

This section describes TDHCA's FY 2006 activities by Uniform State Service Region. The regional tables do not include information for WAP, CEAP, ESGP, CSBG, and CFNP because figures are not available at the regional level. Additionally, Office of Colonia Initiatives program figures are reported with the funding source, e.g., most contract for deed conversions are reported under HOME Program homebuyer assistance.

FY 2006 information will be included in the final version of the document.

PARTICIPATION IN TDHCA PROGRAMS

Texas is an economically, regionally, and demographically diverse state. The Department recognizes this by establishing criteria to distribute funds based on the priorities established in TDHCA's governing statute. It is incumbent upon TDHCA to increase the public's awareness of available funding opportunities so that its funds will reach those in need across the state.

. Below are the approaches taken by TDHCA to achieve this end:

- Throughout the year, TDHCA staff reach out to interested parties informational workshops and conferences across the state to share information about TDHCA programs. Organizations interested in becoming affordable housing providers are actively encouraged to contact the TDHCA for further technical assistance in accessing TDHCA programs.
- The Department's Division of Policy and Public Affairs is responsible for media releases, attends conferences and maintains conference information booths on behalf of TDHCA, as well as coordinates media interviews and speaking events.
- The TDHCA *Program Guide* provides a comprehensive, statewide housing resource guide for both individuals and organizations across the state. The *Program Guide* provides a list of housing and housing-related programs operated by TDHCA, HUD, and other federal and state agencies.
- The TDHCA website, through its provision of timely information to consumers, is one of TDHCA's most successful marketing tools and affordable housing resources.
- TDHCA also operates a listserv email service, where subscribed individuals and entities can receive email updated on TDHCA information, announcements, and trainings.
- A comprehensive database, including public housing authorities (PHAs), community development housing organizations (CHDOs), community development corporations (CDCs), area agencies on aging (AAAs), homebuyer education providers, local governments, and other community-based organizations, is used to streamline TDHCA efforts to inform interested parties of available funding, public hearings, and other activities.
- TDHCA establishes or serves on a wide variety of committees and workgroups, which serve as valuable resources to gather input from people working at the local level. These groups share information on affordable housing needs and available resources and help TDHCA to prioritize these needs.

CITIZEN PARTICIPATION IN PROGRAM PLANNING

TDHCA values and relies on community input to direct resources to meet its goals and objectives. In an effort to provide the public with an opportunity to more effectively give input on TDHCA's policies, rules, planning documents, and programs, TDHCA has consolidated its public hearings. Each year there will be at least one hearing per Uniform State Service Region that will cover all TDHCA programs, and an additional Board hearing is held with the consolidated hearings so that citizens may provide comment directly to the Board members. Staff is available at each regional hearing to answer questions and lend technical assistance to attendees. In addition to these 13 hearings, individual program sections hold various hearings and program workshops throughout the year. Furthermore, the TDHCA Board accepts extensive public comment on programmatic and related policy agenda items at monthly board meetings.

TDHCA ensures that all programs follow the citizen participation and public hearing requirements as outlined in the Texas Government Code. Hearing locations are accessible to all who choose to attend and are held at times accessible to both working and non-working persons. A database has been developed that includes citizen and nonprofit organizations, local governments, state legislators, public housing authorities, and local public libraries so that, when a public hearing or public comment period is scheduled, all interested parties are notified. Additionally, pertinent information is posted in the *Texas Register*, in *Breaking Ground* (the TDHCA newsletter), on TDHCA's website, in several association newsletters, and in the newspapers that are local to the hearing location. Participation and comments are encouraged and can be submitted either at a public hearing or in writing via mail, fax, email, and, in some cases, directly at the TDHCA website.

For information on the citizen participation process for the *2007 State of Texas Low Income Housing Plan and Annual Report*, please see Section 5: Public Participation.

HOUSING SPONSOR REPORT ANALYSIS

TDHCA requires that housing developments of 20 units or more that receive financial assistance from TDHCA submit an annual housing sponsor report. This report includes the contact information for each property, the total number of units, the number of accessible units, the rents for units by type, the racial composition information for the property, the number of units occupied by individuals receiving supported housing assistance, the number of units occupied delineated by income group, and a statement as to whether there have been fair housing violations at the property. This information depicts the property information as of a specific date, December 31, of each year.

Because of the extensive nature of the information, TDHCA has elected to provide this report under a separate cover: the TDHCA *Housing Sponsor Report* (HSR). The HSR includes an analysis of the collected information, as well as the information submitted by each property. In addition, in fulfillment of §2306.072(c)(8), the HSR contains a list of average rents by Texas county, based on housing sponsor report responses from TDHCA-funded properties.

For more information and a copy of this report, please contact the TDHCA Division of Policy and Public Affairs at (512) 475-3976 or visit http://www.tdhca.state.tx.us/ppa/housing-center/pubs.htm.

GEOGRAPHIC DISTRIBUTION OF HOUSING TAX CREDITS

The Housing Tax Credit (HTC) Program receives authority from the US Treasury Department to provide tax credits to encourage the development and preservation of affordable rental housing. The Internal Revenue Code authorizes a state HTC volume cap based on a per capita amount of the state population. Tax credits are also awarded independently of the volume cap to developments with tax-exempt bond financing. These two credit types are typically referred to as the 9% and 4% HTCs, respectively. Section 2306.111(d) of the Government Code requires that TDHCA use a Regional Allocation Formula (RAF) to allocate its 9 % HTCs to the Uniform State Service Regions it uses for planning purposes. Because of the level of funding and the impact of this program in financing the multifamily development of affordable housing, this section of the Plan discusses the geographical distribution of HTCs.

FY 2006 information will be included in the final version of the document.

EFFECT OF THE TWO TIMES PER CAPITA RULE

There are a number of conditions that affect an application site's eligibility for Housing Tax Credits. One of these conditions relates to the previous development of housing tax credits within a place or county. The specific requirement as stated in §2306.6703. Ineligibility for consideration is that an application will be ineligible if:

> *"(4) the development is located in a municipality or, if located outside a municipality, a county that has more than twice the state average of units per capita supported by housing tax credits or private activity bonds, unless the applicant:*
>
> *(A) has obtained prior approval of the development from the governing body of the appropriate municipality or county containing the development; and*
>
> *(B) has included in the application a written statement of support from that governing body referencing this section and authorizing an allocation of housing tax credits for the development."*

FY 2006 information will be included in the final version of the document.

SECTION 3: HOUSING ANALYSIS

This section of the Plan contains an overview of the affordable housing needs in the state and an estimate and analysis of the housing needs in each region.

DATA SOURCES AND LIMITATIONS

The information provided in this section should be considered within the context of its limitations. The Department recognizes that an undistorted assessment of housing need can be found only at the local level based on the direct experience of local households. The following issues should be considered when reviewing the information contained in this report:

- Nuances of housing need are lost when data is aggregated into regional, county, and statewide totals. For example, housing needs in rural communities are often distorted when reported at the county level because housing needs are often very different in rural and urban areas. The large population of urban metropolitan areas can skew the data and mask the needs of the rural areas.
- Reliable data available on the condition of the housing stock, the homeless population, and the housing needs of special needs populations is very limited.

2000 Census and 2000 CHAS data is primarily used in this report. The content and format of the Census-based tables, graphs, and maps provided in this section were derived, in part, from a methodology for housing needs assessment in the *National Analysis of Housing Affordability, Adequacy, and Availability: A Framework for Local Housing Strategies*. The Urban Institute prepared this document for the US Department of Housing and Urban Development (HUD). It provides a methodology with which to describe and analyze local housing markets in order to develop strategies for addressing housing problems and needs. The document served as a guide for the preparation of Comprehensive Housing Affordability Strategy (CHAS) reports. As such, it provides a systematic framework for housing market analysis. HUD collaborated with the US Census Bureau to develop special tabulations of the 2000 Census data.

The CHAS database classifies households into five relative income categories based on reported household income, the number of people in the household, and geographic location. These income categories are used to reflect income limits that define eligibility for HUD's major assistance programs, as well as for other housing programs, such as the Housing Tax Credit Program. Households are classified into income groups by comparing reported household income to HUD-Adjusted Median Family Income (HAMFI). The income limits are calculated by household size for each metropolitan area and non-metropolitan county in the United States and its territories. They are based on HUD estimates of median family income with several adjustments as required by statute. The income classifications are extremely low income, very low income, low income, moderate income, and above 95 percent of HAMFI.[1]

The income limits for metropolitan areas may not be less than limits based on the state non-metropolitan median family income level and must be adjusted accordingly. Income limits must be also adjusted for family size and may be adjusted for areas with unusually high or low family income or housing-cost-to-income relationships.

[1] The CHAS figures for moderate and higher income households in Region 11 indicate that there are only 199 persons with incomes between 80-95 percent of the AMFI. TDHCA has been unable to get more accurate information for this segment of the population. However, the planning impact for the SLIHP is relatively low because, except for the first time homebuyer program which is done through a network of participating lenders, TDHCA programs serve persons below 80 percent AMFI.

Unit affordability compares housing cost to local area HAMFI. Affordable units are defined as units for which a household would pay no more than 30 percent of its income for rent and no more than two and one-half times its annual income to purchase. Since HUD's adjusted median family incomes are estimated for a family of four, affordability levels are also adjusted to control for various-sized units based on the number of people that could occupy a unit without overcrowding. This adjustment is made by multiplying the threshold described above by 75 percent for a 0–1 bedroom unit, 90 percent for a two bedroom unit, and 104 percent for a 3+ bedroom unit.

Homeless figures are taken from 2000 Census group quarters population and type tables, contained in Census 2000 Summary File 1. Group quarters type designations include institutional quarters, which include correctional facilities, hospitals, and juvenile institutions, as well as noninstitutional quarters, which include military quarters, group homes, dormitories, and other situations. Based on the Definitions of Subject Characteristics contained in the Technical Documentation for *Summary File 1: 2000 Census of Population and Housing* published by the US Census Bureau, this report uses "other noninstitutional group quarters" and "other nonhousehold living situations" census figures to represent the homeless population in each region. "Other noninstitutional group quarters" counts individuals in shelters for abused women, soup kitchens, mobile food vans, and other targeted nonsheltered outdoor locations where there is evidence of human occupation. "Other nonhousehold living situations" counts individuals with no usual home residing in hostels and YMCAs who were not counted in other tabulations.

The US Census also completed a special tabulation, Emergency and Transitional Shelter Population: 2000, based on metropolitan areas with 100 or more people in emergency and transitional shelters. It must be noted that this data only refers to metropolitan areas with 100 or more people in shelters, so is not a comprehensive picture of the total population living in shelters. In the region sections of this document, if the Census counted individuals living in emergency shelters in a metropolitan area that is located in the region, those figures are provided.

It must be emphasized that the regional estimates of the homeless populations are not comprehensive. The various definitions of homeless and methods in counting the homelessness make definitive tabulations difficult. The Texas Interagency Council for the Homeless estimates that about 200,000 people, or 1 percent of the state's population, are homeless.[2] The Census figures for individuals living in "other noninstitutional group quarters" and "other nonhousehold living situations" count only 28,377 individuals statewide.

The needs assessment data is augmented with additional information from the perspective of local officials, where available. In March 2006, TDHCA conducted the 2006 State of Texas Community Needs Survey. This survey was designed to obtain a better understanding of housing and community development needs, issues, and problems at the state, regional, and local levels. The survey gave local officials, who are most familiar with the unique characteristics of their communities, a voice in determining how Texas's affordable housing, supportive service, and community development needs can be most effectively addressed.

[2] Texas Interagency Council for the Homeless, "Key Facts," http://www.tich.state.tx.us/facts.htm (accessed August 8, 2006).

STATE OF TEXAS

The state level housing analysis includes information on demographics, special needs populations, and affordable housing need indicators. Department plans reflect this statewide information as well as the consideration of affordable housing assistance from various sources.

DEMOGRAPHIC CHARACTERISTICS

Texas is one of the fastest growing states in the nation. According to recent Census data, Texas population expanded by nearly a quarter (22.8 percent) between 1990 and 2000, far exceeding the national growth average of 13.2 percent for the same decade. The increase in state population by 3,865,310 persons was the largest of any decade in Texas history. More than one of every nine persons added to the population of the United States in the 1990s was added in Texas.[3]

Projected Population Change and Implications for Housing Need

Looking at long-term demographic projections, it is clear that the demand for affordable and subsidized housing will increase in the coming years.

- The 2000 state population of 20.9 million is expected to surge to 50.4 million by 2040.
- The Anglo population will account for only 3.9 percent of net population growth from 2000 to 2040, meaning that more than 96 percent of the total net increase in Texas population between 2000 and 2040 will be due to the non-Anglo population.
- Anglo population is expected to grow by 10.4 percent between 2000 and 2040, while blacks are expected to increase by 65.0 percent and Hispanics by 348.7 percent.
- The population is becoming older: the median age will increase from 32.3 in 2000 to 38.3 in 2040. The percentage of the population that was 65 or older was 9.9 percent in 2000 but will increase to 20 percent by 2040.
- Growth in the number of households, projected at 162.1 percent over the period 2000-2040, will outstrip population growth: 142.6 percent during the same period.

Expected housing demand is directly linked to projected changes in population characteristics. The current ethnic shift is significant because of the substantial differences between the races in terms of income level. The absolute difference in median household income between Anglos and Blacks was $13,602 in 1989, but $17,857 in 1999; and the Anglo-Hispanic difference was $12,242 in 1989, but $17,289 in 1999. Similarly, the poverty rates of 23.4 percent for Blacks and 25.4 percent for Hispanics were still roughly three times as high as the 7.8 percent of persons in poverty among Anglos. Because of these disparities, households in Texas will become poorer over the coming decades unless the relationship between ethnicity and income somehow changes.[4]

A correlation also exists between income and age. According to the 2000 Census, 13.1 percent of Texans age 65 and older live below the poverty level. Lower incomes combined with rising healthcare costs contribute to the burden of paying for housing. Approximately 30 percent of all elderly households spend more than 30 percent of their income on housing, while 14 percent spend more than 50 percent of their

[3] Information for the Housing Analysis comes from the 2000 US Census except where noted otherwise.
[4] Center for Demographic and Socioeconomic Research and Education, *Texas Challenge in the Twenty-First Century: Implications of Population Change for the Future of Texas*, by Steve H. Murdock et. al. (Texas A&M University System, December 2002), http://txsdc.utsa.edu/download/pdf/TxChall2002.pdf (accessed May 17, 2006).

income on housing. These statistics take on new urgency when considered alongside the anticipated upsurge in the state's elderly population.

Not only will the demographics of the population be changing, but so will its needs. The faster growth in number of households than in total population is a reflection of the large number of non-Anglos who will enter household-formation ages during this time period. More young families mean an increased demand for housing.[5]

Poverty and Income

According to the 2000 Census, Texas has the ninth highest overall poverty rate in the nation, with a rate of 15.4 percent compared to the national rate of 12.4 percent. Poverty conditions along the Texas-Mexico border warrant special attention. Parts of the region, like McAllen-Edinburg-Mission, suffer from an unemployment rate double that of the state's (12 percent vs. 6.1 percent) and less than half of state's per capita income average. Fifteen counties along the border have a poverty rate of at least 25 percent, almost double the national average. Conditions are particularly acute in the colonias, unincorporated areas along the Texas-Mexico border lacking infrastructure and decent housing. It is estimated that 43 percent of colonia residents live below the poverty level.

The poverty rate for all family households in Texas, different from the overall poverty rate, is expected to increase from the 2000 figure of 11.4 percent to 15.4 percent by 2040.[6] The primary reasons for this are the rapid growth of present minority populations and the dominance in the economy of low-paying, particularly service-industry, jobs.[7] While manufacturing and mining continue to decline, Texas ranked third in the nation in 2003 for service industry job creation. According to US Bureau of Labor Statistics data, eight of the top ten most common jobs in Texas earn incomes that fall at least $10,000 below the state median income of $33,770.

Many families who rely on these low-wage occupations for a living find it difficult to cover all essential expenses. According to a study by the Center for Public Policy Priorities, "a significant proportion of families throughout the state struggle paycheck-to-paycheck to make ends meet." The study examined a typical family's fundamental expenses, such as housing, food, child care, medical costs, transportation, taxes, etc., and compared the total bill to typical wages earned in the 27 Texas Metropolitan Statistical Areas. The study asserts that a family of four in Texas requires a household hourly income of $18 to $22 per hour (depending on the metro area in which the family lives) to simply meet its most basic needs. In a majority of Texas metro areas, however, half of the total employment is in occupations with a median wage under $10 per hour.[8]

The Texas Comptroller's Economic Update predicts that the fastest growing sector of the state economy over the next decade will be largely in industries requiring specialized education and skills. These industries include high tech communications, engineering, and research.

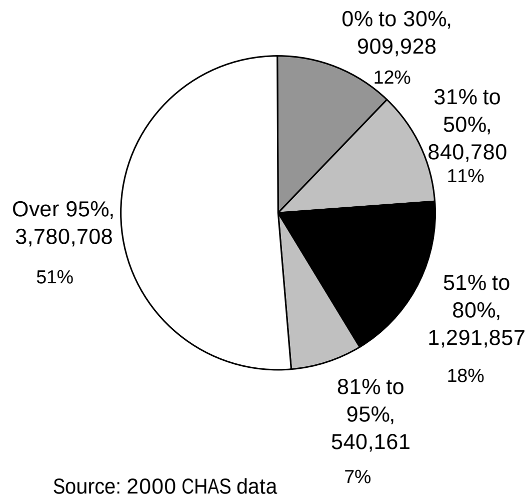
[8] Center for Public Policy Priorities, *Making It: What it Really Takes to Live in Texas*.

To provide a more detailed breakdown of the population by income level, this report will use the five income groups designated by HUD. Households are classified into these groups by comparing reported household incomes to HUD-adjusted median family incomes (HAMFI). The income level definitions are as follows:

- Extremely Low Income: At or below 30 percent of HAMFI
- Very Low Income: Between 31 percent and 50 percent of HAMFI
- Low Income: Between 51 percent and 80 percent of HAMFI
- Moderate Income: Between 81 percent and 95 percent of HAMFI
- Above 95 percent of HAMFI

Figure 3.1: Households by Income Group in Texas, 2000



Source: 2000 CHAS data

Figure 3.1 indicates the 2000 distribution of households by income group across Texas by number and percentage. A total of 41 percent of all households are in the low income range (0 to 80 percent of HAMFI). Meeting the needs of this large portion of the state's households is TDHCA's primary focus.

AFFORDABLE HOUSING NEED

When analyzing local housing markets and developing strategies for meeting housing problems, HUD suggests the consideration of several factors. These factors include how much a household spends on housing costs, the physical condition of the housing, and whether or not the household is overcrowded. The following table reveals the number and percentage of households with at least one housing need by income category and household type.

Figure 3.2: Households with Housing Need by Income Group

		Renter Households			Owner Households		
		At Least One Problem	Total Households	Percent with At Least One Problem	At Least One Problem	Total Households	Percent with At Least One Problem
0-30% AMFI	Elderly Households	59,065	95,130	62.1%	100,876	151,597	66.5%
	Small Related	162,308	204,534	79.4%	76,492	102,443	74.7%

Source: 2000 CHAS data

Physical Inadequacy (Lack of Kitchen and Plumbing Facilities)

The measure of physical inadequacy available from the CHAS database tabulation of the 2000 Census is the number of units lacking complete kitchen and/or plumbing facilities. While this is not a complete measure of physical inadequacy, the lack of plumbing and/or kitchen facilities can serve as a strong indication of one type of housing inadequacy. Figure 3.3 demonstrates that among the physically inadequate housing units for households under 80 percent of HAMFI, 44 percent are affordable to extremely low income households.

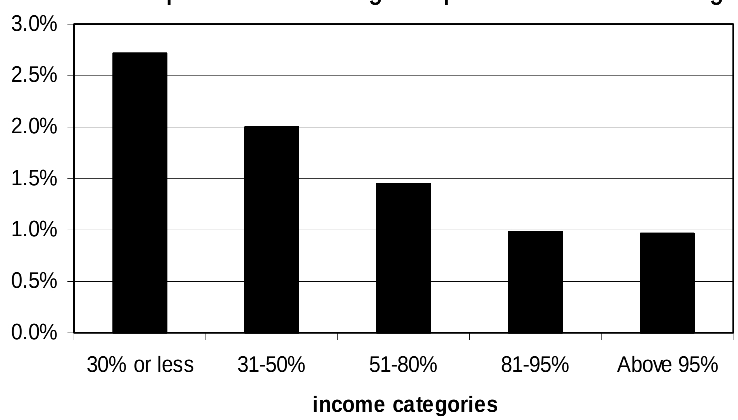
Figure 3.3: Units Lacking Kitchen and/or Plumbing Facilities by Affordability Category, 2000

	Number	Percent
0% to 30%	25,817	44%
31% to 50%	15,907	27%
51% to 80%	16,341	28%
Total	58,065	100%

Source: 2000 CHAS data

Slightly more than 1 percent of all renter households in Texas lack complete kitchen or plumbing facilities. The following table shows the distribution of this problem by income group. Households in the lowest income group, less than 30 percent HAMFI, have the highest incidence of physically inadequate housing.

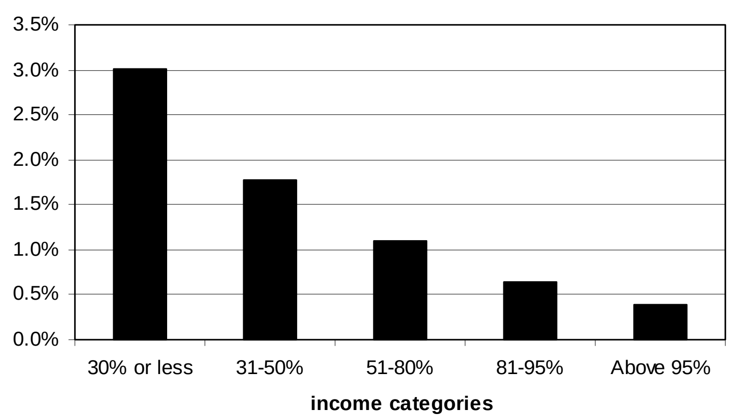
Figure 3.4: Renter-Occupied Units Lacking Complete Kitchen/Plumbing by Percent



Source: 2000 CHAS data

As is the case with renter households, inadequate kitchen and plumbing is a greater problem for the lowest income categories of owner households. A full 3 percent of owner households earning below 30 percent HAMFI lack full kitchen or plumbing facilities.

Figure 3.5: Owner-Occupied Units Lacking Complete Plumbing/Kitchen by Percent

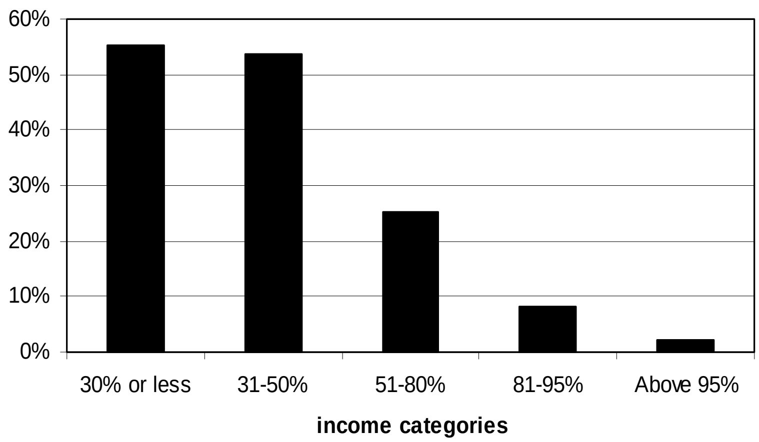


Source: 2000 CHAS data

Excess Housing Cost Burden

An excess cost burden is identified when a household pays more than 30 percent of its gross income for housing costs. When so much is spent on housing, other basic household needs may suffer. As the following graph shows, a majority of renter households in the lowest two income categories, totaling more than 540,000 households, is burdened by paying an excess portion of income toward housing. This is much greater than in the highest income category, above 95 percent HAMFI, where only 2.2 percent of households experience the problem.

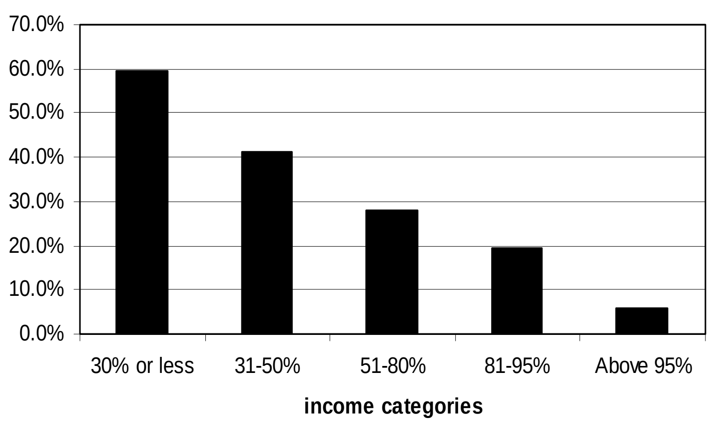
Figure 3.6: Renter Households with Excess Housing Cost Burden (>30% of Income) by percent



Source: 2000 CHAS data

As shown in the following graph, excess housing cost burden affects 59.3 percent of owner households in the lowest income category. This figure, representing a majority, is much higher than the 5.7 percent of households affected in the highest income category. The graph illustrates the direct correlation between owner income category and an owner household's likelihood of experiencing this problem.

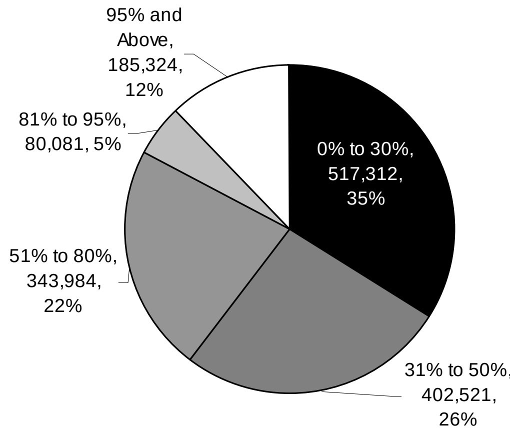
Figure 3.7: Owner Households with Excess Housing Cost Burden (>30% of Income) by percent



Source: 2000 CHAS data

Figure 3.8 shows the total number and percentage of households with excess housing cost burden by income group.

Figure 3.8: Excess Housing Cost Burden by Income Group, 2000



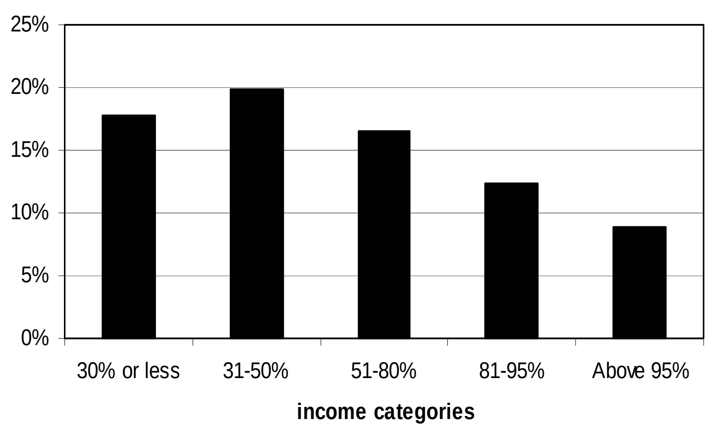
Source: 2000 CHAS Data

Overcrowding

Overcrowded housing conditions occur when a residence accommodates more than one person per each room in the dwelling. Overcrowding may indicate a general lack of affordable housing in a community where households have been forced to share space, either because other housing units are not available or because the units available are too expensive.

Lower income renter households experience overcrowded conditions more frequently than higher income households. Almost 18 percent of renter households in the extremely low income category and 19.9 percent of renter households in the low income category are afflicted by overcrowding.

Figure 3.09: Renter Households with Incidence of Overcrowding by percent

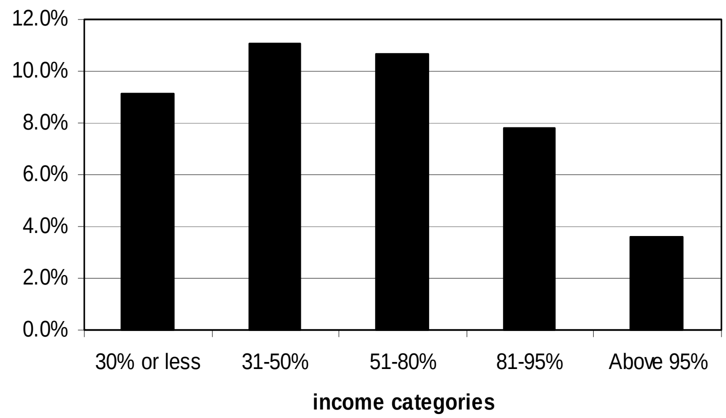


Source: 2000 CHAS data

Lower income owner households also experience overcrowded conditions more frequently than higher income owner households. More than 21 percent of owner households earning less than 50 percent

HAMFI live in overcrowded conditions compared to 11.4 percent of owner households over 80 percent HAMFI.

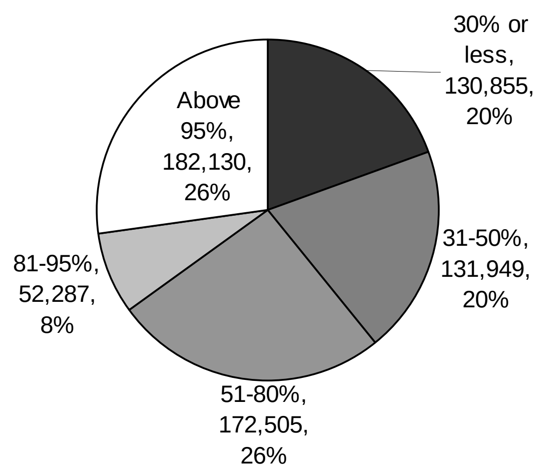
Figure 3.10: Owner Households with Incidence of Overcrowding by percent



Source: 2000 CHAS data

Figure 3.11 shows the total incidence of overcrowded households by income group.

Figure 3.11: Overcrowded Households by Income Group, 2000



Source: 2000 CHAS Database

Housing Availability and Affordability

The following figures compare demand and supply of affordable housing by looking at the number of households and housing units in different affordability categories. Because higher income households often reside in units that could be affordable to the lowest income households, there are fewer units available at a cost that is affordable to lower income households. For example, as shown in Figure 3.12, 1.4 million households that have incomes greater than 80 percent AMFI occupy units that would be affordable to households at 0-50 percent AMFI. Households in this category can afford units in any of the defined affordability categories. Therefore, non-low income households often limit the supply of affordable housing units available to low income households.

Figure 3.12 describes the housing market interaction of various income groups and housing costs. The table shows the income classifications of the occupants of housing units. The table also illustrates the housing market mismatch between housing units and income groups. For example, very low income households (0-50 percent of HAMFI) account for only about one-third of all the occupants of housing that is affordable to them. All low income households (0-80 percent of HAMFI) make up only 48 percent of all households occupying housing affordable to them. This table illustrates housing market mismatches as well as an implicit excessive cost burden for those households that are residing in units beyond their affordability category.

Figure 3.12
Occupied Affordable Housing Units by Income Group of Occupant, 2000
by percentage of HAMFI

Number of Renter units	Total	50% or less	51-80%	Above 80%

Local Perception

TDHCA acknowledges that the greatest understanding of housing needs is found at the local level. TDHCA continuously strives to improve the methods used to identify regional affordable housing needs.

State of Texas Community Needs Survey

Beginning in March 2006 and ending May 2006, the Department conducted an online 2006 CNS to examine housing and community service needs at the local level. The survey contained 18 questions regarding housing, community affairs, and community development needs and was distributed to state representatives, state senators, mayors , county judges , city managers, housing/planning departments, USDA local offices, public housing authorities, councils of governments, community action agencies, and Housing Opportunities for Persons with AIDS (HOPWA) agencies—a total of 2,529 individuals an entities. There was a 17.2 percent response rate for the survey.

Analysis of the 2006 CNS demonstrates a strong need for housing and energy assistance. Of those respondents ranking their community's need for general assistance, approximately 31 percent indicated that housing assistance (including down payment assistance, home repair, and rental payment assistance) was their first or second priority need. Approximately 28 percent of question respondents ranked energy assistance activities as their first or second priority need. Approximately 18 percent of respondents indicated that the development of apartments was the priority needs, 15 percent chose capacity building assistance, and 7 percent chose homeless assistance.

A significant 49 percent indicated that home repair assistance was the greatest need when compared to home purchase assistance and rental payment assistance. Only 8 percent stated that there was a minimal need for these housing activities in their communities. Regarding rental development activities, 35 percent indicated that their community's greatest need was the construction of new rental units, while approximately 33 percent indicated that both rental construction and rehabilitation activities were the same priority. Only 13 percent identified rehabilitation of existing units as their priority need, which is the same percentage of respondents who stated that there was a minimal need for rental development in their areas.

When considering energy assistance activities, 43 percent indicated that utility payment assistance was the greatest need followed by weatherization and minor home repairs. For homeless assistance activities, a majority 48 percent indicated that there was a minimal need for this type of assistance in their communities and 16 percent did not have an opinion on the subject. Of respondents indicated a needed activity, homeless prevention services received the highest response with 12 percent indicating that it was their priority need.

The regional results from the CNS are incorporated into the regional plans. A final report on the survey, *Report on the 2006 State of Texas Community Needs Survey*, will be available from the Division of Policy and Public Affairs towards the end of 2006.

STATE HOUSING SUPPLY

The 2000 US Census reported 8.2 million housing units in Texas, of which 90.6 percent are occupied. The number of housing units increased 16 percent from 7.0 million units that were on the ground in

1990. The breakdown of occupied units by type is 4.7 million owner occupied (a 28 percent increase over 1990) and 2.8 million renter occupied (a 13 percent increase over 1990). The average household size for owner-occupied units increased to 2.87 persons per unit in 2000 as compared to 2.85 units in 1990. The average household size for renter units decreased slightly to 2.53 persons per unit in 2000 as compared to 2.55 units in 1990.

Almost 67 percent of the housing units in Texas are single family units, 14 percent are multifamily up to 19 units, and 10 percent are within multifamily structures with 20 units or more. An additional 9.4 percent are mobile homes, RVs, or boats.

Figure 3.13: Housing Type, 2000

	Total	Percent
Housing Units	8,157,575	
One Unit	5,420,910	66.50%
2 to 19 Units	1,151,599	14.10%
Over 20 Units	819,101	10.00%
Mobile Homes	731,652	9.00%
Boats, RVs	34,313	0.40%

Source: 2000 US Census

Assisted Housing Inventory

The following table shows the number of multifamily units in the state financed through state and federal sources, including TDHCA; the US Department of Housing and Urban Development (HUD); public housing authorities (PHAs); Section 8 Housing Choice Vouchers; the United States Department of Agriculture (USDA); and local housing finance corporations (HFCs), which includes the Texas State Affordable Housing Corporation. Please note that because some developments layer funding from multiple sources, there may be double counting.

TDHCA data includes multifamily developments awarded up until the end of FY 2005, so all units included in the total have not yet been built. Additionally, the TDHCA unit total only includes those units that have income restrictions, and does not include market-rate units that are available in some developments. TDHCA unit information will be updated in the final version of this document to include FY 2006 awards.
HUD unit data was obtained from HUD’s March 2003 report, “Multifamily Inventory of Units for the Elderly and Persons and Disabilities,” available at http://www.hud.gov/offices/hsg/mfh/hto/state/tx.pdf. Though this report specifically references units available to the elderly and persons with disabilities, the report also appears to contain information on family properties. Please note, however, that this may not be a current inventory of all HUD units, and that there may be double counting with units financed through other programs, including public housing. The total assisted units in each property are included.

Information on PHA units and Section 8 Housing Choice Vouchers were obtained directly from HUD staff by TDHCA in October 2005. TDHCA Section 8 vouchers are also included in this figure. USDA unit data was also obtained directly from USDA staff in October 2005. These figures will be updated with the most recent information in the final version of this document.

HFC data, including Texas State Affordable Housing Corporation data, was obtained from the Housing Finance Corporation Annual Report that HFCs are required to submit to TDHCA annually. The figure describes the total units financed by the HFCs through June 2005, and does not specify assisted units, so these unit totals will also include market-rate units in the area. Because the majority of HFC-financed developments also receive housing tax credits from TDHCA, these units are not included in the final state total. 2006 HFC unit information will be included in the final version of this document.

Figure 3.14: State Assisted Multifamily Units

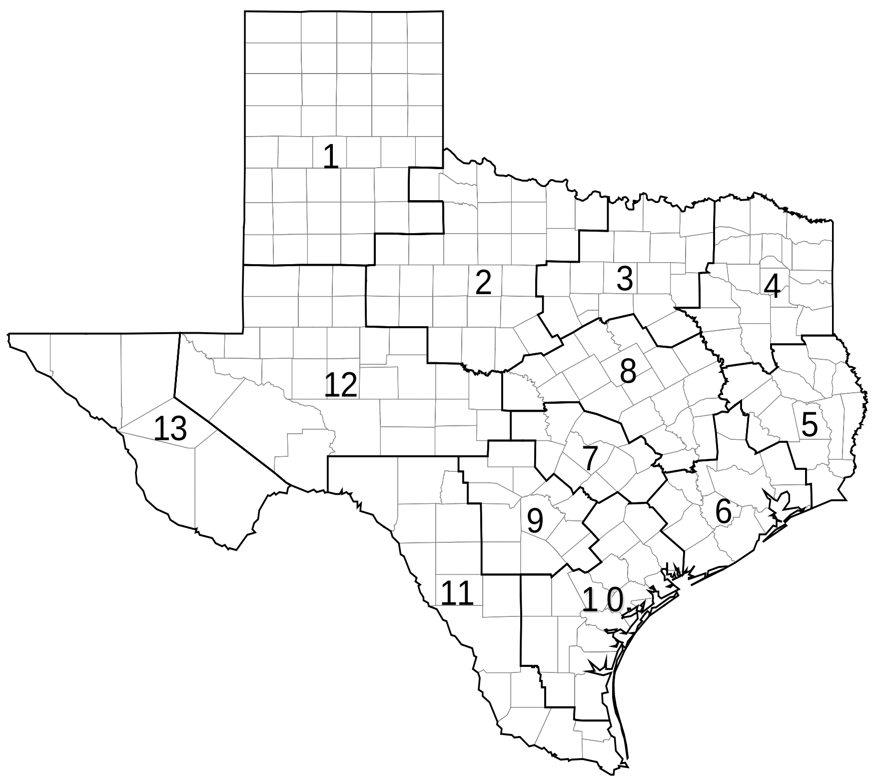
	State Total	Percent of State Inventory
TDHCA Units	170,766	38.1 %
HUD Units	57,372	12.8%
PHA Units	59,431	13.3%
Section 8 Vouchers	133,944	29.9%
USDA Units	26,183	5.8%
HFC Units*	93,176	N/A
Total	447,696	100%

*Because HFC developments report total units and do not specify assisted units, and that the majority of HFC-financed developments also receive housing tax credits from TDHCA, these units are not included in the final total.

UNIFORM STATE SERVICE REGIONS

The Department uses 13 Uniform State Service Regions for research and planning purposes. These regions follow the Texas Comptroller of Public Accounts' grouping that creates 13 regions to better identify the unique characteristics of the border counties and to treat larger metropolitan areas as distinct regions. The Uniform State Service Regions are shown below.

Figure 3.15: Map of the Uniform State Service Regions



The size and diversity of the state of Texas necessitates tailored regional sections. Each of the following Uniform State Service Region plans includes a general demographic description, which uses US Census housing data; a needs assessment, which examines housing problems in the area; an estimate of the existing housing supply; local input into the housing needs of the region; an estimate of the number of assisted multifamily units available, and the Department's resource allocation plans for the year.

REGION 1

This 41-county region in the northwest corner of Texas encompasses over 39,500 square miles of the Panhandle. According to the 2000 Census, the total population in Region 1 is 780,733, which represents 3.7 percent of the state's total population.

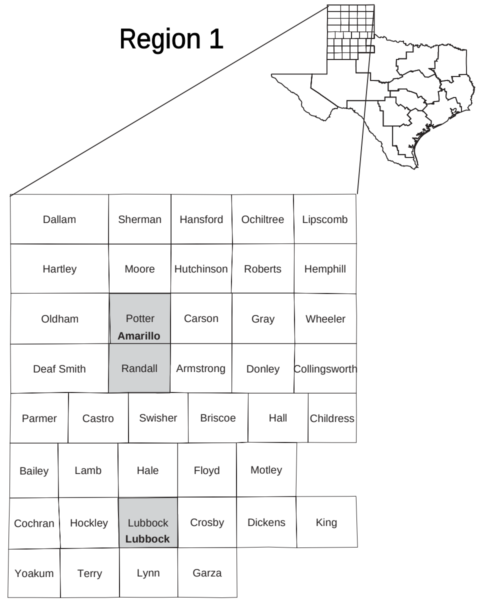


Figure 3.16: Region 1 Population Figures

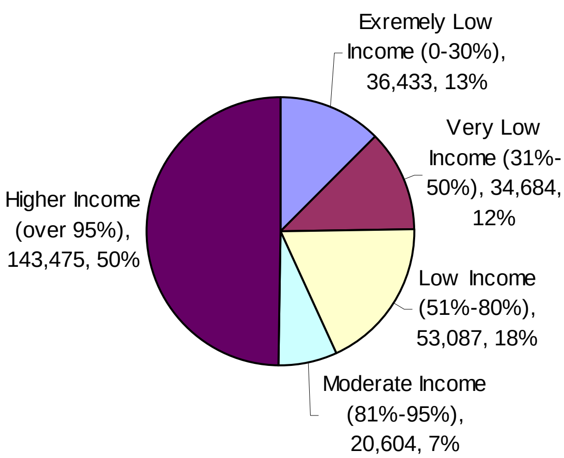
	Region Total	Percent in Region	Percent of State Total
Total Population	780,733		3.7%
Persons with Disabilities	138,520	17.7%	3.8%
Elderly Persons (without disabilities)	50,862	6.5%	4.7%
Individuals in Poverty	122,991	15.8%	3.9%

Source: 2000 Census

Approximately 57 percent of the population lives in the urban areas, including Amarillo and Lubbock, and the rest live in rural areas of the region.

Figure 3.17: Region 1 Household Incomes



The pie chart to the left depicts the income breakdown of the 288,273 households in the region. Approximately 43 percent of households are low income. There are 122,991, or 15.8 percent, individuals living in poverty in the region.

2006 Multiple Listing Service data records the median home prices for Amarillo and Lubbock as $114,300 and $97,500, respectively.[9]

Special Needs Populations

According to 2000 Census data, there are 128,520 persons with disabilities residing in the region, which is 16.5 percent of the total region population. In addition, there are 50,862 elderly individuals without disabilities in the region, which is 6.5 percent of the region.

Data on the number of homeless individuals in the region is difficult to collect because of the migratory nature of this population. The Texas Interagency Council for the Homeless estimates that there are 200,000 homeless individuals in Texas,[10] but figures vary. According to the 2000 Census, there are 1,068 people in noninstitutional group homes, which include shelters, in the region. In its special tabulation on emergency and transitional shelters, the Census counted 167 homeless persons in Amarillo.

[10] Texas Interagency Council for the Homeless, "Key Facts."

Housing Supply

According to 2000 Census data, of the 322,045 housing units in the region, 288,175 are occupied, which is an 89.5 percent occupancy rate. Of the total housing stock, almost 75 percent are one unit; 15.9 percent are over two units; and the rest are mobile homes, boats, and RVs. Approximately 66.3 percent are owner occupied and 33.7 percent are occupied by renters.

Figure 3.18: Region 1 Housing Units by Occupation

	Region Total	Percent in Region	Region Percent of State
Total Housing Units	322,045		3.9%
Total Occupied Housing Units	288,175	89.5%	3.9%
Owner-Occupied Units	191,161	66.3%	4.1%
Renter-Occupied Units	97,014	33.7%	3.6%

Source: 2000 Census

Data for the region shows that building permits for 2,375 single family units and 831 multifamily units were issued in 2005.[11]

Housing Need

The housing need indicators analyzed in this section include housing cost burden, substandard housing conditions, and housing overcrowding for renter and owner households. The following information comes from the 2000 CHAS database. Of the total 288,273 households in the region, 79,798 owners and renters have housing problems; this represents 27.7 percent of all households.

Figure 3.19: Region 1 Households with Housing Problems

	Region Total	Extremely Low Income (0-30%)	Very Low Income (31-50%)	Low Income (51-80%)	Higher Incomes (81% and up)
Renter Households					
Extreme Cost Burden	29,555	14,026	9,256	5,092	1,181
Lacking Kitchen and/or Plumbing	1,638	553	322	301	88
Overcrowding	9,294	2,037	2,029	2,602	2,626
Owner Households					
Extreme Cost Burden	28,912	8,542	7,021	6,944	6,405
Lacking Kitchen and/or Plumbing	1,154	228	163	224	85
Overcrowding	9,245	897	1,223	2,399	4,726
Total	79,798	26,283	20,014	17,562	15,111

Source: 2000 CHAS

[11] Real Estate Center at Texas A&M University, "Texas County Building Permit Activity," http://recenter.tamu.edu/data/bpc/ (accessed August 7, 2006).

Regional Input on Housing Needs

Of respondents ranking their community's need for general assistance in the 2006 CNS, approximately 35 percent indicated that energy assistance was their first priority need, with 23 percent ranking housing assistance as their priority need. Approximately 21 percent of respondents indicated that the development of apartments was the first priority need, 15 percent indicated that capacity building assistance was their top need, and only 6 percent indicated that homeless assistance was the top need.

In terms of housing assistance, 39 percent indicated that home repair assistance was the greatest need. Regarding rental development activities, 43 percent indicated that their community's greatest need was the construction of new rental units, while 5 percent indicated that there was a minimal need for rental development in their areas and 11 percent had no opinion on the subject. When considering energy assistance activities, 41 percent indicated that weatherization and minor home repairs was the greatest need followed by utility assistance with 39 percent.

Assisted Housing Inventory

The following table shows the number of total multifamily units in the region financed through state and federal sources, including TDHCA; HUD; PHAs; Section 8 Housing Choice Vouchers; USDA; and local HFCs, which includes the Texas State Affordable Housing Corporation. For information on the data sources, see “Assisted Housing Inventory” under “State of Texas” in this section. Please note that because some developments layer funding from multiple sources, there may be double counting.

Figure 3.20: Region 1 Assisted Multifamily Units

	Region Total	Percent in Region	Percent of State Total
TDHCA Units	4,218	31.3%	2.5%
HUD Units	2,076	15.4%	3.6%
PHA Units	1,562	11.6%	2.6$
Section 8 Vouchers	3,987	29.6%	3.0%
USDA Units	1,612	12.0%	6.2%
HFC Units*	1,577		
Total	13,455	100%	3.0%

*Because HFC developments report total units and do not specify assisted units, and that the majority of HFC-financed developments also receive housing tax credits from TDHCA, these units are not included in the final total.

TDHCA Assistance for 2007

Based on allocation formulas for the programs listed below, TDHCA can estimate the amount of 2007 funding that will be allocated to the region. Please see "TDHCA Allocation Plans" in the Action Plan section for more information on the formulas. Not all TDHCA programs and funding are included; some TDHCA programs and certain program set-asides are not allocated regionally.

Figure 3.21: Region 1 Projected 2007 TDHCA Funding by Program

Weatherization Assistance	TBD	TBD
Total	TBD	TBD

REGION 2

Region 2 surrounds the metropolitan areas of Wichita Falls and Abilene, shaded in the figure to the right. According to the 2000 Census, the total population in Region 2 is 549,267, which represents 2.6 percent of the state's total population.

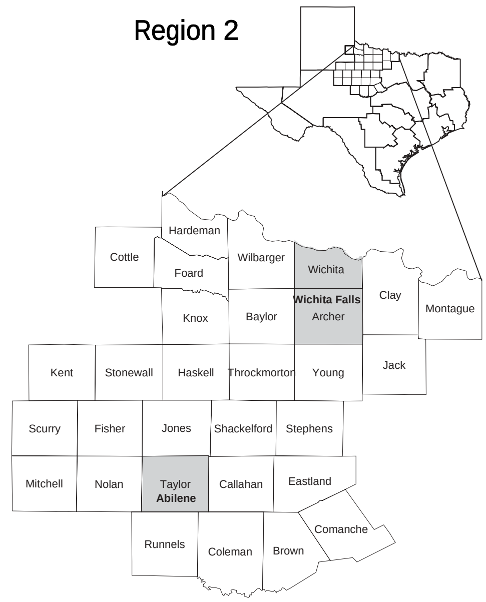

Figure 3.22: Region 2 Population Figures

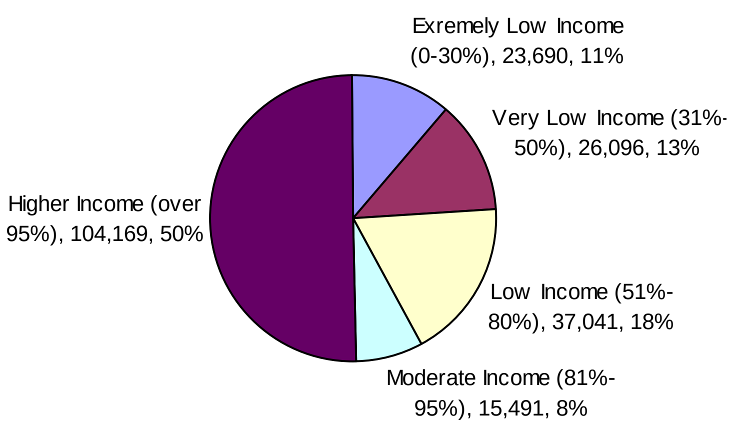
	Region Total	Percent in Region	Region Percent of State
Total Population	549,267		2.6%
Persons with Disabilities	105,325	19.2%	2.9%
Elderly Persons (without disabilities)	42,485	7.7%	3.9%
Individuals in Poverty	77,647	14.1%	2.5%

Source: 2000 Census

Approximately 52 percent of the population lives in urban areas of the region.

Figure 3.23: Region 2 Household Incomes



The pie chart to the left depicts the income breakdown of the 206,459 households in the region. Approximately 42 percent of households are low income. There are 77,647, or 14.1 percent, individuals living in poverty in the region.

2006 Multiple Listing Service data records the median home prices for Wichita Falls and Abilene as $95,500 and $100,700, respectively.[12]

Special Needs Populations

According to 2000 Census data, there are 105,325 persons with disabilities residing in the region, which is 19.2 percent of the total region population. In addition, there are 42,485 elderly individuals without disabilities in the region, which is 7.7 percent of the region.

Data on the number of homeless individuals in the region is difficult to collect because of the migratory nature of this population. The Texas Interagency Council for the Homeless estimates that there are 200,000 homeless individuals in Texas,[13] but figures vary. According to the 2000 Census, there are 609

[13] Texas Interagency Council for the Homeless, "Key Facts."

people in noninstitutional group homes, which include shelters, in the region. In a special tabulation on emergency and transitional shelters, the Census did not count any homeless persons in metro areas.

Housing Supply

According to 2000 Census data, of the 243,506 housing units in the region, 206,388 are occupied, which is an 84.8 percent occupancy rate. Of the total housing stock, almost 77 percent are one unit; 12 percent are over two units; and the rest are mobile homes, boats, and RVs. Approximately 69.1 percent are owner occupied and 30.9 percent are occupied by renters.

Figure 3.24: Region 2 Housing Units by Occupation

	Region Total	Percent in Region	Region Percent of State
Total Housing Units	243,506		3.0%
Total Occupied Housing Units	206,388	84.8%	2.8%
Owner-Occupied Units	142,603	69.1%	3.0%
Renter-Occupied Units	63,785	30.9%	2.4%

Source: 2000 Census

Data for the region shows that building permits for 659 single family units and 376 multifamily units were issued in 2005.[14]

Housing Need

The housing need indicators analyzed in this section include housing cost burden, substandard housing conditions, and housing overcrowding for renter and owner households. The following information comes from the 2000 CHAS database. Of the total 206,459 households in the region, 49,146 owners and renters have housing problems; this represents 23.8 percent of all households.

Figure 3.25: Region 2 Households with Housing Problems

	Region Total	Extremely Low Income (0-30%)	Very Low Income (31-50%)	Low Income (51-80%)	Higher Incomes (81% and up)
Renter Households					
Extreme Cost Burden	16,557	7,546	5,733	2,699	559
Lacking Kitchen and/or Plumbing	968	330	161	237	71

Regional Input on Housing Needs

Of respondents ranking their community's need for general assistance in the 2006 CNS, approximately 32 percent indicated that energy assistance was their first priority need, with 21 percent ranking housing assistance as their priority need. Approximately 18 percent of respondents indicated that the development of apartments was the first priority need, 18 percent indicated that capacity building assistance was their top need, and 12 percent indicated that homeless assistance was the top need.

In terms of housing assistance, 54 percent indicated that home repair assistance was the greatest need. Regarding rental development activities, 40 percent indicated that their community's greatest need was the construction of new rental units, while 7 percent indicated that there was a minimal need for rental development in their areas and 9 percent had no opinion on the subject. When considering energy assistance activities, 47 percent indicated that weatherization and minor home repairs was the greatest need, as 47 percent indicated that utility assistance was the greatest need.

Assisted Housing Inventory

The following table shows the number of total multifamily units in the region financed through state and federal sources, including TDHCA; HUD; PHAs; Section 8 Housing Choice Vouchers; USDA; and local HFCs, which includes the Texas State Affordable Housing Corporation. For information on the data sources, see “Assisted Housing Inventory” under “State of Texas” in this section. Please note that because some developments layer funding from multiple sources, there may be double counting.

Figure 3.26: Region 2 Assisted Multifamily Units

	Region Total	Percent in Region	Percent of State Total
TDHCA Units	2,753	26.9%	1.6%
HUD Units	1,655	16.2%	2.9%
PHA Units	3,905	38.1%	6.6%
Section 8 Vouchers	2,921	28.5%	2.2%
USDA Units	1,925	18.8%	7.4%
HFC Units*	280		
Total	10,241	100.0%	2.9%

*Because HFC developments report total units and do not specify assisted units, and that the majority of HFC-financed developments also receive housing tax credits from TDHCA, these units are not included in the final total.

TDHCA Assistance for 2007

Based on allocation formulas for the programs listed below, TDHCA can estimate the amount of 2007 funding that will be allocated to the region. Please see "TDHCA Allocation Plans" in the Action Plan section for more information on the formulas. Not all TDHCA programs and funding are included; some TDHCA programs and certain program set-asides are not allocated regionally.

REGION 3

Region 3, including the metropolitan areas of Dallas, Fort Worth, Arlington, Sherman, and Denison, is the state's most populous region. According to the 2000 Census, the total population in Region 3 is 5,487,477, which represents 26.3 percent of the state's total population.

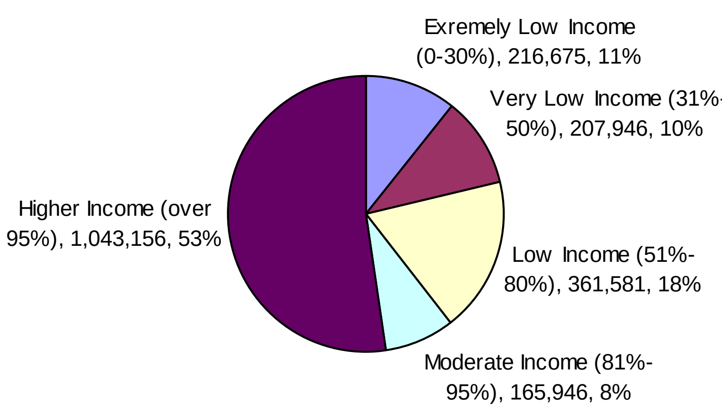
Figure 3.28: Region 3 Population Figures

	Region Total	Percent in Region	Region Percent of State
Total Population	5,487,477		26.3%
Persons with Disabilities	888,217	16.2%	24.6%
Elderly Persons (without disabilities)	245,186	4.5%	22.6%
Individuals in Poverty	588,688	10.7%	18.9%

Source: 2000 Census

Approximately 93 percent of the population resides in urban areas.

Figure 3.29: Region 3 Household Incomes



The pie chart to the left depicts the income breakdown of the 1,988,135 households in the region. Approximately 39 percent of households are low income. There are 588,688, or 10.7 percent, individuals living in poverty in the region.

According to 2006 Multiple Listing Service data, the highest median home price is in Collin County at $191,500, while the lowest is in Sherman-Denison at $97,100.[15]

Special Needs Populations

According to 2000 Census data, there are 888,217 persons with disabilities residing in the region, which is 16.2 percent of the total region population. In addition, there are 245,186 elderly individuals without disabilities in the region, which is 4.5 percent of the region.

Data on the number of homeless individuals in the region is difficult to collect because of the migratory nature of this population. The Texas Interagency Council for the Homeless estimates that there are 200,000 homeless individuals in Texas,[16] but figures vary. According to the 2000 Census, there are

[16] Texas Interagency Council for the Homeless, "Key Facts."

6,548 people in noninstitutional group homes, which include shelters, in the region. In its special tabulation on emergency and transitional shelters, the Census counted 1,923 homeless persons in Tarrant and Dallas counties.

Housing Supply

According to 2000 Census data, of the 2,140,641 housing units in the region, 2,004,826 are occupied, which is a 93.7 percent occupancy rate. Of the total housing stock, almost 64 percent are one unit; 30 percent are over two units; and the rest are mobile homes, boats, and RVs. Approximately 60.9 percent are owner occupied and 39.1 percent are occupied by renters.

Figure 3.30: Region 3 Housing Units by Occupation

	Region Total	Percent in Region	Region Percent of State
Total Housing Units	2,140,641		26.2%
Total Occupied Housing Units	2,004,826	93.7%	27.1%
Owner-Occupied Units	1,220,939	60.9%	25.9%
Renter-Occupied Units	783,887	39.1%	29.3%

Source: 2000 Census

Data for the region shows that building permits for 50,307 single family units and 10,783 multifamily units were issued in 2005.[17]

Housing Need

The housing need indicators analyzed in this section include housing cost burden, substandard housing conditions, and housing overcrowding for renter and owner households. The following information comes from the 2000 CHAS database. Of the total 1,988,135 households in the region, 610,655 owners and renters have housing problems; this represents 30.7 percent of all households.

Figure 3.31: Region 3 Households with Housing Problems

	Region Total	Extremely Low Income (0-30%)	Very Low Income (31-50%)	Low Income (51-80%)	Higher Incomes (81% and up)

Regional Input on Housing Needs

Of respondents ranking their community's need for general assistance in the 2006 CNS, 50 percent indicated that housing assistance was their first priority need, followed by energy assistance with 35 percent. Approximately 5 percent of respondents indicated that the development of apartments was the first priority need, 8 percent indicated that capacity building assistance was their top need, and only 3 percent indicated that homeless assistance was the top need.

In terms of housing assistance, 52 percent indicated that home repair assistance was the greatest need. Regarding rental development activities, 26 percent indicated that the need for construction and rehabilitation was approximately the same, while 19 percent indicated that there was a minimal need for rental development in their areas and 9 percent had no opinion on the subject. When considering energy assistance activities, 39 percent indicated that utility assistance was the greatest need followed by weatherization and minor home repairs with 37 percent.

Assisted Housing Inventory

The following table shows the number of total multifamily units in the region financed through state and federal sources, including TDHCA; HUD; PHAs; Section 8 Housing Choice Vouchers; USDA; and local HFCs, which includes the Texas State Affordable Housing Corporation. For information on the data sources, see “Assisted Housing Inventory” under “State of Texas” in this section. Please note that because some developments layer funding from multiple sources, there may be double counting.

Figure 3.32: Region 3 Assisted Multifamily Units

	Region Total	Percent in Region	Percent of State Total
TDHCA Units	55,393	46.9%	32.4%
HUD Units	10,834	9.2%	18.9%
PHA Units	8,725	7.4%	14.7%
Section 8 Vouchers	39,149	33.1%	29.2%
USDA Units	4,076	3.4%	15.6%
HFC Units*	19,944		
Total	118,177	100.0%	26.4%

*Because HFC developments report total units and do not specify assisted units, and that the majority of HFC-financed developments also receive housing tax credits from TDHCA, these units are not included in the final total.

TDHCA Assistance for 2007

Based on allocation formulas for the programs listed below, TDHCA can estimate the amount of 2007 funding that will be allocated to the region. Please see “TDHCA Allocation Plans” in the Action Plan section for more information on the formulas. Not all TDHCA programs and funding are included; some TDHCA programs and certain program set-asides are not allocated regionally.

REGION 4

Region 4, located in the northeast corner of the state, surrounds the urban areas of Texarkana, Longview-Marshall, and Tyler. According to the 2000 Census, the total population in Region 4 is 1,015,648, which represents 4.9 percent of the state's total population.

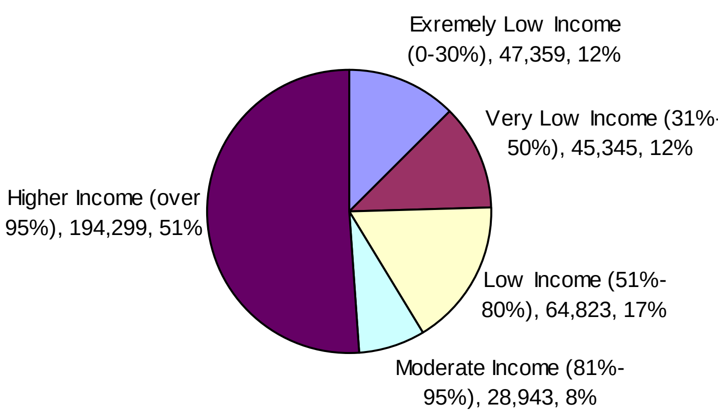
Figure 3.34: Region 4 Population Figures

	Region Total	Percent in Region	Region Percent of State
Total Population	1,015,648		4.9%
Persons with Disabilities	213,753	21.0%	5.9%
Elderly Persons (without disabilities)	77,528	7.6%	7.1%
Individuals in Poverty	152,036	15.0%	4.9%

Source: 2000 Census

Region 4 has the highest percentage of rural population in the state at 61 percent.

Figure 3.35: Region 4 Household Incomes



The pie chart to the left depicts the income breakdown of the 380,765 households in the region. Approximately 41 percent of households are low income. There are 152,036, or 15.0 percent, individuals living in poverty in the region.

2006 Multiple Listing Service data records the median home prices for Tyler and Longview-Marshall as $130,100 and $108,400, respectively.[18]

Special Needs Populations

According to 2000 Census data, there are 213,753 persons with disabilities residing in the region, which is 21.0 percent of the total region population. In addition, there are 77,528 elderly individuals without disabilities in the region, which is 7.6 percent of the region.

Data on the number of homeless individuals in the region is difficult to collect because of the migratory nature of this population. The Texas Interagency Council for the Homeless estimates that there are

[18] Real Estate Center at Texas A&M University, "Texas Residential MLS Activity," http://recenter.tamu.edu/data/hs/trends4.html (accessed July 27, 2006).

200,000 homeless individuals in Texas,[19] but figures vary. According to the 2000 Census, there are 1,309 people in noninstitutional group homes, which include shelters, in the region. In its special tabulation on emergency and transitional shelters, the Census counted 110 homeless persons in Tyler.

Region 4 also experienced damage from Hurricane Rita, which hit the southeast Texas area in September 2005. According to FEMA, $1,037,418.22 worth of damage was reported. Households affected by the hurricane have unexpected needs.

Housing Supply

According to 2000 Census data, of the 434,792 housing units in the region, 380,468 are occupied, which is an 87.5 percent occupancy rate. Of the total housing stock, almost 71 percent are one unit; 11 percent are over two units; and the rest are mobile homes, boats, and RVs. Approximately 73.8 percent are owner occupied and 26.2 percent are occupied by renters.

Figure 3.36: Region 4 Housing Units by Occupation

	Region Total	Percent in Region	Region Percent of State
Total Housing Units	434,792		5.3%
Total Occupied Housing Units	380,468	87.5%	5.1%
Owner-Occupied Units	280,896	73.8%	6.0%
Renter-Occupied Units	99,572	26.2%	3.7%

Source: 2000 Census

In the region, permits for 1,602 single family units and 231 multifamily units were issued in 2005.[20]

Housing Need

The housing need indicators analyzed in this section include housing cost burden, substandard housing conditions, and housing overcrowding for renter and owner households. The following information comes from the 2000 CHAS database. Of the total 380,765 households in the region, 100,479 owners and renters have housing problems; this represents 26.4 percent of all households.

Figure 3.37: Region 4 Households with Housing Problems

	Region Total	Extremely Low Income (0-30%)	Very Low Income (31-50%)	Low Income (51-80%)	Higher Incomes (81% and up)

REGION 5

Region 5 encompasses a 15-county area in east Texas including the urban areas of Beaumont and Port Arthur. According to the 2000 Census, the total population in Region 5 is 740,952, which represents 3.6 percent of the state's total population.

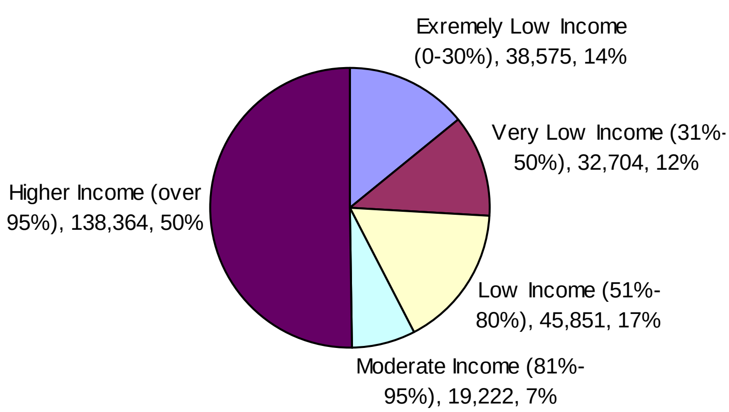
Figure 3.40: Region 5 Population Figures

	Region Total	Percent in Region	Region Percent of State
Total Population	740,952		3.6%
Persons with Disabilities	150,529	20.3%	4.2%
Elderly Persons (without disabilities)	53,148	7.2%	4.9%
Individuals in Poverty	120,585	16.3%	3.9%

Source: 2000 Census

The population in Region 5 is split, with 50 percent living in urban and 50 percent living in rural areas.

Figure 3.41: Region 5 Household Incomes



The pie chart to the left depicts the income breakdown of the 274,543 households in the region. Approximately 43 percent of households are low income. There are 120,585, or 16.3 percent, individuals living in poverty in the region.

2006 Multiple Listing Service data records the median home prices for Beaumont and Port Arthur as $111,400 and $85,100, respectively.[21]

Special Needs Populations

According to 2000 Census data, there are 150,529 persons with disabilities residing in the region, which is 20.3 percent of the total region population. In addition, there are 53,148 elderly individuals without disabilities in the region, which is 7.2 percent of the region.

Data on the number of homeless individuals in the region is difficult to collect because of the migratory nature of this population. The Texas Interagency Council for the Homeless estimates that there are

[21] Real Estate Center at Texas A&M University, "Texas Residential MLS Activity," http://recenter.tamu.edu/data/hs/trends4.html (accessed July 27, 2006).

200,000 homeless individuals in Texas,[22] but figures vary. According to the 2000 Census, there are 672 people in noninstitutional group homes, which include shelters, in the region. In its tabulation on emergency and transitional shelters, the Census did not count homeless persons in metropolitan areas.

Region 5 also experienced significant damage from Hurricane Rita, which hit the southeast Texas area in September 2005. According to FEMA, $190,251,194.22 worth of damage was reported. Households affected by the hurricane have unexpected needs.

Housing Supply

According to 2000 Census data, of the 325,047 housing units in the region, 275,233 are occupied, which is an 84.7 percent occupancy rate. Of the total housing stock, 69.3 percent are one unit; 11 percent are over two units; and the rest are mobile homes, boats, and RVs. Approximately 73.4 percent are owner occupied and 26.6 percent are occupied by renters.

Figure 3.42: Region 5 Housing Units by Occupation

	Region Total	Percent in Region	Region Percent of State
Total Housing Units	325,047		4.0%
Total Occupied Housing Units	275,233	84.7%	3.7%
Owner-Occupied Units	201,971	73.4%	4.3%
Renter-Occupied Units	73,262	26.6%	2.7%

Source: 2000 Census

In the region, permits for 1,223 single family units and 398 multifamily units were issued in 2005.[23]

Housing Need

The housing need indicators analyzed in this section include housing cost burden, substandard housing conditions, and housing overcrowding for renter and owner households. The following information comes from the 2000 CHAS database. Of the total 274,543 households in the region, 72,650 owners and renters have housing problems; this represents 26.5 percent of all households.

Figure 3.43: Region 5 Households with Housing Problems

Regional Input on Housing Needs

Of respondents ranking their community's need for general assistance in the 2006 CNS, approximately 59 percent indicated that housing assistance was their first priority need, and 10 percent ranking energy assistance as their priority need. Approximately 14 percent of respondents indicated that the development of apartments was the first priority need, 10 percent indicated that capacity building assistance was their top need, and 7 percent indicated that homeless assistance was the top need.

In terms of housing assistance, 49 percent indicated that home repair assistance was the greatest need. Regarding rental development activities, 54 percent indicated that the need for construction and rehabilitation is the same, while 3 percent indicated that there was a minimal need for rental development in their areas. When considering energy assistance activities, 44 percent indicated that utility assistance was the greatest need followed by weatherization and minor home repairs with 40 percent.

Assisted Housing Inventory

The following table shows the number of total multifamily units in the region financed through state and federal sources, including TDHCA; HUD; PHAs; Section 8 Housing Choice Vouchers; USDA; and local HFCs, which includes the Texas State Affordable Housing Corporation. For information on the data sources, see “Assisted Housing Inventory” under “State of Texas” in this section. Please note that because some developments layer funding from multiple sources, there may be double counting.

Figure 3.44: Region 5 Assisted Multifamily Units

	Region Total	Percent in Region	Percent of State Total
TDHCA Units	4,556	21.2%	2.7%
HUD Units	4,296	20.0%	7.5%
PHA Units	3,241	15.1%	5.5%
Section 8 Vouchers	7,992	37.2%	6.0%
USDA Units	1,371	6.4%	5.2%
HFC Units*	1,160		
Total	21,456	100.0%	4.8%

*Because HFC developments report total units and do not specify assisted units, and that the majority of HFC-financed developments also receive housing tax credits from TDHCA, these units are not included in the final total.

TDHCA Assistance for 2007

Based on allocation formulas for the programs listed below, TDHCA can estimate the amount of 2007 funding that will be allocated to the region. Please see "TDHCA Allocation Plans" in the Action Plan section for more information on the formulas. Not all TDHCA programs and funding are included; some TDHCA programs and certain program set-asides are not allocated regionally.

REGION 6

Region 6 includes the urban areas of Houston, Brazoria, and Galveston. According to the 2000 Census, the total population in Region 6 is 4,854,454, which represents 23.3 percent of the state's total population.

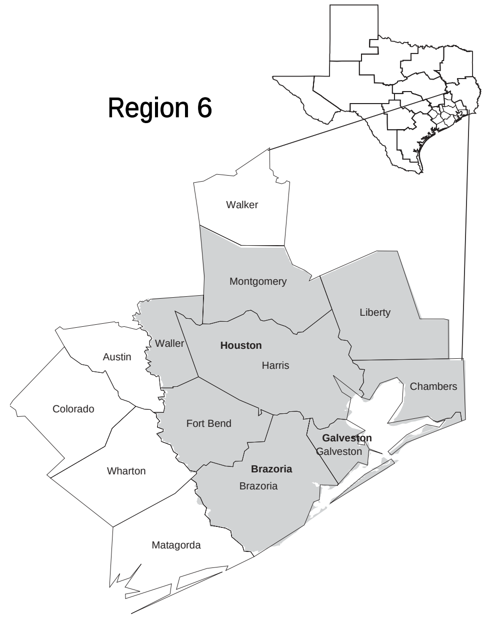

Figure 3.46: Region 6 Population Figures

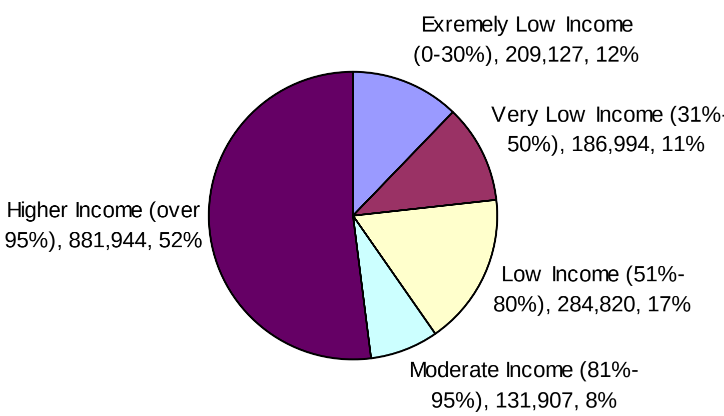
	Region Total	Percent in Region	Region Percent of State
Total Population	4,854,454		23.3%
Persons with Disabilities	801,436	16.5%	22.2%
Elderly Persons (without disabilities)	206,438	4.3%	19.0%
Individuals in Poverty	656,239	13.5%	21.0%

Source: 2000 Census

Approximately 92 percent of the populations lives in the urban areas of Region 6.

Figure 3.47: Region 6 Household Incomes



The pie chart to the left depicts the income breakdown of the 1,691,811 households in the region. Approximately 40 percent of households are low income. There are 656,239, or 13.5 percent, individuals living in poverty in the region.

2006 Multiple Listing Service data records the median home prices for Houston and Galveston as $147,000 and $175,800, respectively.[24]

Special Needs Populations

According to 2000 Census data, there are 801,436 persons with disabilities residing in the region, which is 16.3 percent of the total region population. In addition, there are 206,438 elderly individuals without disabilities in the region, which is 4.3 percent of the region.

Data on the number of homeless individuals in the region is difficult to collect because of the migratory nature of this population. The Texas Interagency Council for the Homeless estimates that there are 200,000 homeless individuals in Texas,[25] but figures vary. According to the 2000 Census, there are

[24] Real Estate Center at Texas A&M University, "Texas Residential MLS Activity," http://recenter.tamu.edu/data/hs/trends4.html (accessed July 27, 2006).
[25] Texas Interagency Council for the Homeless, "Key Facts."

7,792 people in noninstitutional group homes, which include shelters, in the region. In its special tabulation on emergency and transitional shelters, the Census counted 1,756 homeless persons in the Houston area.

Region 6 also experienced damage from Hurricane Rita, which hit the southeast Texas area in September 2005. According to FEMA, $28,325,647.98 worth of damage was reported. Households affected by the hurricane have unexpected needs.

Housing Supply

According to 2000 Census data, of the 1,853,854 housing units in the region, 1,702,792 are occupied, which is a 91.9 percent occupancy rate. Of the total housing stock, 71 percent are one unit; 18 percent are over two units; and the rest are mobile homes, boats, and RVs. Approximately 60.9 percent are owner occupied and 39.1 percent are occupied by renters.

Figure 3.48: Region 6 Housing Units by Occupation

	Region Total	Percent in Region	Region Percent of State
Total Housing Units	1,853,854		22.7%
Total Occupied Housing Units	1,702,792	91.9%	23.0%
Owner-Occupied Units	1,037,371	60.9%	22.0%
Renter-Occupied Units	665,421	39.1%	24.9%

Source: 2000 Census

In the region, permits for 51,525 single family units and 11,118 multifamily units were issued in 2005.[26]

Housing Need

The housing need indicators analyzed in this section include housing cost burden, substandard housing conditions, and housing overcrowding for renter and owner households. The following information comes from the 2000 CHAS database. Of the total 1,691,811 households in the region, 541,869 owners and renters have housing problems; this represents 32.0 percent of all households.

Figure 3.49: Region 6 Households with Housing Problems

	Region Total	Extremely Low Income (0-30%)	Very Low Income (31-50%)	Low Income (51-80%)	Higher Incomes (81% and up)
Renter Households

Regional Input on Housing Needs

Of respondents ranking their community's need for general assistance in the 2006 CNS, approximately 70 percent indicated that housing assistance was their first priority need, with 9 percent ranking energy assistance as their priority need. Approximately 14 percent of respondents indicated that the development of apartments was the first priority need, 9 percent indicated that capacity building assistance was their top need, and 0 percent indicated that homeless assistance was the top need.

In terms of housing assistance, 46 percent indicated that home repair assistance was the greatest need. Regarding rental development activities, 31 percent indicated that the need for construction and rehabilitation was the same, while 21 percent indicated that there was a minimal need for rental development in their areas and 12 percent had no opinion on the subject. When considering energy assistance activities, 49 percent indicated that utility assistance was the greatest need followed by weatherization and minor home repairs with 36 percent.

Assisted Housing Inventory

The following table shows the number of total multifamily units in the region financed through state and federal sources, including TDHCA; HUD; PHAs; Section 8 Housing Choice Vouchers; USDA; and local HFCs, which includes the Texas State Affordable Housing Corporation. For information on the data sources, see “Assisted Housing Inventory” under “State of Texas” in this section. Please note that because some developments layer funding from multiple sources, there may be double counting.

Figure 3.50: Region 6 Assisted Multifamily Units

	Region Total	Percent in Region	Percent of State Total
TDHCA Units	46,254	52.4%	27.1%
HUD Units	13,076	14.8%	22.8%
PHA Units	5,795	6.6%	9.8%
Section 8 Vouchers	19,713	22.3%	14.7%
USDA Units	3,484	3.9%	13.3%
HFC Units*	37,116		
Total	88,322	100.0%	19.7%

*Because HFC developments report total units and do not specify assisted units, and that the majority of HFC-financed developments also receive housing tax credits from TDHCA, these units are not included in the final total.

TDHCA Assistance for 2007

Based on allocation formulas for the programs listed below, TDHCA can estimate the amount of 2007 funding that will be allocated to the region. Please see "TDHCA Allocation Plans" in the Action Plan section for more information on the formulas. Not all TDHCA programs and funding are included; some TDHCA programs and certain program set-asides are not allocated regionally.

REGION 7

The urban area of Austin-San Marcos is at the center of Region 7. According to the 2000 Census, the total population in Region 7 is 1,346,833, which represents 6.5 percent of the state's total population.

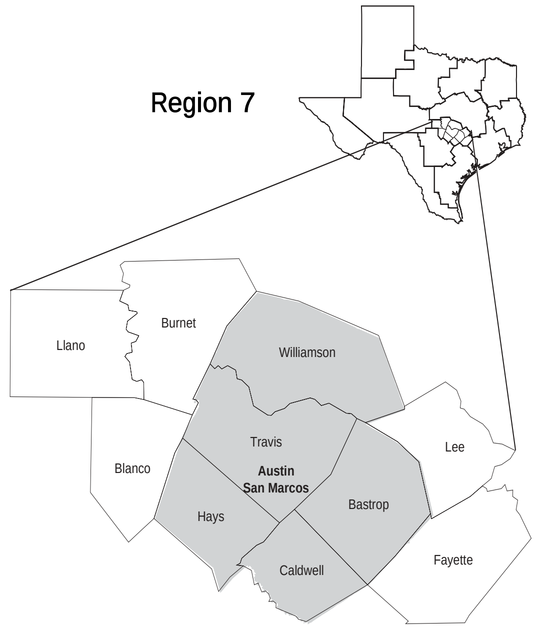

Figure 3.52: Region 7 Population Figures

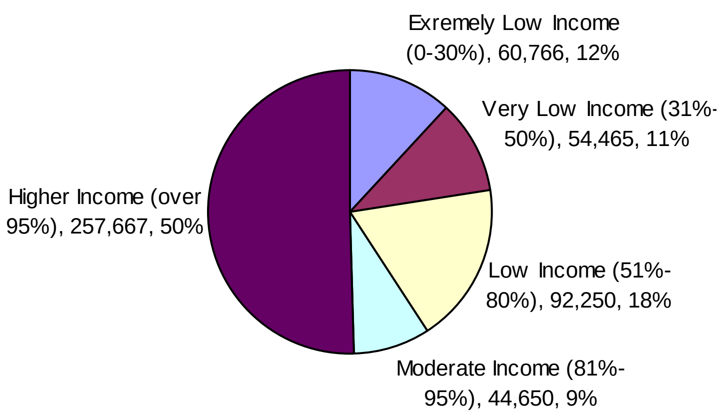
	Region Total	Percent in Region	Region Percent of State
Total Population	1,346,833		6.5%
Persons with Disabilities	190,226	14.1%	5.3%
Elderly Persons (without disabilities)	61,229	4.5%	5.6%
Individuals in Poverty	145,060	10.8%	4.7%

Source: 2000 Census

Approximately 86 percent of the population lives in urban areas.

Figure 3.53: Region 7 Household Income



The pie chart to the left depicts the income breakdown of the 509,798 households in the region. Approximately 41 percent of households are low income. There are 145,060, or 10.8 percent, individuals living in poverty in the region.

The 2006 Multiple Listing Service median home price for Austin is $170,500.[27]

Special Needs Populations

According to 2000 Census data, there are 190,226 persons with disabilities residing in the region, which is 14.1 percent of the total region population. In addition, there are 61,229 elderly individuals without disabilities in the region, which is 4.5 percent of the region.

Data on the number of homeless individuals in the region is difficult to collect because of the migratory nature of this population. The Texas Interagency Council for the Homeless estimates that there are 200,000 homeless individuals in Texas,[28] but figures vary. According to the 2000 Census, there are 2,354 people in noninstitutional group homes, which include shelters, in the region. In its special tabulation on emergency and transitional shelters, the Census counted 481 homeless persons in Austin.

REGION 8

Region 8, located in the center of the state, surrounds the urban areas of Waco, Bryan, College Station, Killeen, and Temple. According to the 2000 Census, the total population in Region 8 is 963,139 which represents 4.6 percent of the state's total population.

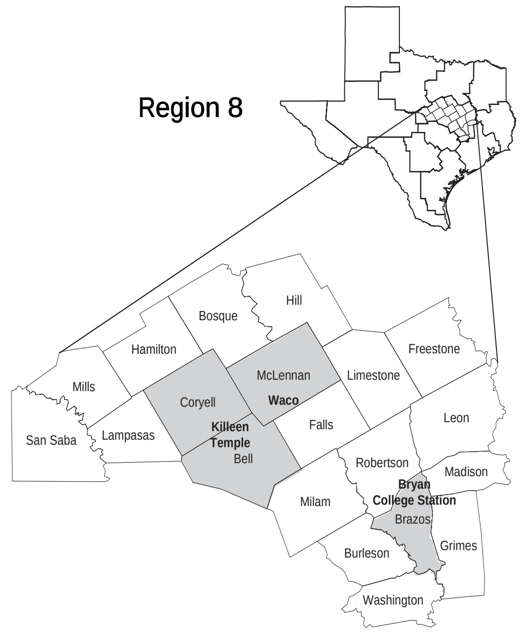

Figure 3.58: Region 8 Population Figures

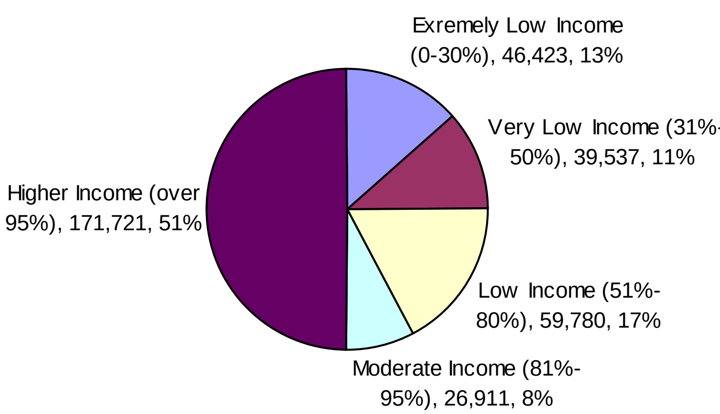
	Region Total	Percent in Region	Region Percent of State
Total Population	963,139		4.6%
Persons with Disabilities	160,743	16.7%	4.5%
Elderly Persons (without disabilities)	55,854	5.8%	5.1%
Individuals in Poverty	149,480	15.5%	4.8%

Source: 2000 Census

Approximately 75 percent of the population lives in the urban areas of Region 8.

Figure 3.59: Region 8 Household Income



The pie chart to the left depicts the income breakdown of the 343,856 households in the region. Approximately 41 percent of households are low income. There are 149,480, or 15.5 percent, individuals living in poverty in the region.

2006 Multiple Listing Service data records the median home prices for Bryan-College Station and Killen-Fort Hood as \$132,500 and \$106,60, respectively.[30]

Special Needs Populations

According to 2000 Census data, there are 160,743 persons with disabilities residing in the region, which is 16.7 percent of the total region population. In addition, there are 55,854 elderly individuals without disabilities in the region, which is 5.8 percent of the region.

Data on the number of homeless individuals in the region is difficult to collect because of the migratory nature of this population. The Texas Interagency Council for the Homeless estimates that there are

[30] Real Estate Center at Texas A&M University, "Texas Residential MLS Activity," http://recenter.tamu.edu/data/hs/trends4.html (accessed July 27, 2006).

200,000 homeless individuals in Texas,[31] but figures vary. According to the 2000 Census, there are 1,003 people in noninstitutional group homes, which include shelters, in the region. In its special tabulation on emergency and transitional shelters, the Census counted 129 homeless persons in the Killeen area.

Housing Supply

According to 2000 Census data, of the 387,627 housing units in the region, 344,575 are occupied, which is an 88.9 percent occupancy rate. Of the total housing stock, 67 percent are one unit; 20 percent are over two units; and the rest are mobile homes, boats, and RVs. Approximately 61.2 percent are owner occupied and 38.8 percent are occupied by renters.

Source: 2000 Census

Data for the region shows that building permits for 14,901 single family units and 7,663 multifamily units were issued in 2005.[35]

Housing Need

The housing need indicators analyzed in this section include housing cost burden, substandard housing conditions, and housing overcrowding for renter and owner households. The following information comes from the 2000 CHAS database. Of the total 635,280 households in the region, 194,512 owners and renters have housing problems; this represents 30.6 percent of all households.

Figure 3.67: Region 9 Households with Housing Problems

	Region Total	Extremely Low Income (0-30%)	Very Low Income (31-50%)	Low Income (51-80%)	Higher Incomes (81% and up)
Renter Households					
Extreme Cost Burden	62,012	24,095	19,495	14,458	3,964
Lacking Kitchen and/or Plumbing	3,284	1,137	484	751	241
Overcrowding	28,877	7,296	6,160	7,359	8,062
Owner Households					
Extreme Cost Burden	71,630	17,316	14,240	17,201	22,873

Regional Input on Housing Needs

Of respondents ranking their community's need for general assistance in the 2006 CNS, approximately 67 percent indicated that housing assistance was their first priority need, with 20 percent ranking energy assistance as their top need. Approximately 7 percent of respondents indicated that the development of apartments was the first priority need, 0 percent indicated that capacity building assistance was their top need, and 7 percent indicated that homeless assistance was the top need.

In terms of housing assistance, 53 percent indicated that home repair assistance was the greatest need. Regarding rental development activities, 34 percent indicated that the need for construction and rehabilitation was the same, while 18 percent indicated that there was a minimal need for rental development in their areas and 18 percent had no opinion on the subject. When considering energy assistance activities, 41 percent indicated that weatherization and minor home repairs was the greatest need followed by utility assistance with 29 percent.

Assisted Housing Inventory

The following table shows the number of total multifamily units in the region financed through state and federal sources, including TDHCA; HUD; PHAs; Section 8 Housing Choice Vouchers; USDA; and local HFCs, which includes the Texas State Affordable Housing Corporation. For information on the data sources, see “Assisted Housing Inventory” under “State of Texas” in this section. Please note that because some developments layer funding from multiple sources, there may be double counting.

Figure 3.68: Region 9 Assisted Multifamily Units

	Region Total	Percent in Region	Percent of State Total
TDHCA Units	13,847	32.7%	8.1%
HUD Units	5,321	12.6%	9.3%
PHA Units	7,321	17.3%	12.3%
Section 8 Vouchers	14,859	35.1%	11.1%
USDA Units	971	2.3%	3.7%
HFC Units*	21,974		
Total	42,319	100.0%	9.5%

*Because HFC developments report total units and do not specify assisted units, and that the majority of HFC-financed developments also receive housing tax credits from TDHCA, these units are not included in the final total.

TDHCA Assistance for 2007

Based on allocation formulas for the programs listed below, TDHCA can estimate the amount of 2007 funding that will be allocated to the region. Please see "TDHCA Allocation Plans" in the Action Plan section for more information on the formulas. Not all TDHCA programs and funding are included; some TDHCA programs and certain program set-asides are not allocated regionally.

REGION 10

Region 10, including the urban areas of Corpus Christi and Victoria, is located in the south eastern part of the state on the Gulf of Mexico. According to the 2000 Census, the total population in Region 10 is 732,917, which represents 3.5 percent of the state's total population.

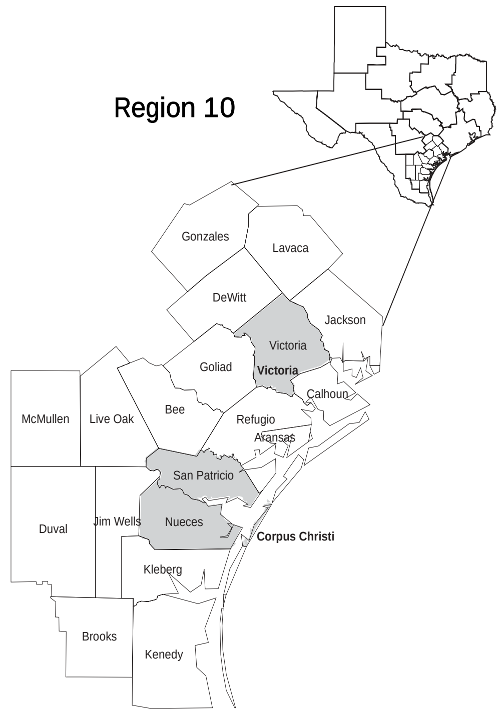

Figure 3.70: Region 10 Population Figures

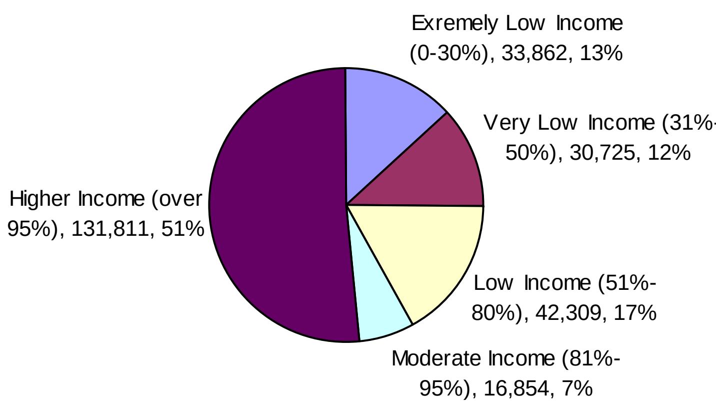
	Region Total	Percent in Region	Region Percent of State
Total Population	732,917		3.5%
Persons with Disabilities	141,592	19.3%	3.9%
Elderly Persons (without disabilities)	46,900	6.4%	4.3%
Individuals in Poverty	132,214	18.0%	4.2%

Source: 2000 Census

In Region 10, 62 percent live in urban areas.

Figure 3.71: Region 10 Household Income



The pie chart to the left depicts the income breakdown of the 255,493 households in the region. Approximately 42 percent of households are low income. There are 132,214, or 18.0 percent, individuals living in poverty in the region.

The 2006 Multiple Listing Service records the median home price for Corpus Christi as $131,600.[36]

Special Needs Populations

According to 2000 Census data, there are 141,592 persons with disabilities residing in the region, which is 19.3 percent of the total region population. In addition, there are 46,900 elderly individuals without disabilities in the region, which is 6.4 percent of the region.

Data on the number of homeless individuals in the region is difficult to collect because of the migratory nature of this population. The Texas Interagency Council for the Homeless estimates that there are 200,000 homeless individuals in Texas,[37] but figures vary. According to the 2000 Census, there are

[36] Real Estate Center at Texas A&M University, "Texas Residential MLS Activity," http://recenter.tamu.edu/data/hs/trends4.html (accessed July 27, 2006).
[37] Texas Interagency Council for the Homeless, "Key Facts."

1,456 people in noninstitutional group homes, which include shelters, in the region. In its special tabulation on emergency and transitional shelters, the Census counted 272 homeless persons in Corpus Christi.

Housing Supply

According to 2000 Census data, of the 298,494 housing units in the region, 256,428 are occupied, which is an 85.9 percent occupancy rate. Of the total housing stock, 71 percent are one unit; 18 percent are over two units; 10 percent are mobile homes; and the rest are boats and RVs. Approximately 66.8 percent are owner occupied and 33.2 percent are occupied by renters.

Figure 3.72: Region 10 Housing Units by Occupation

	Region Total	Percent in Region	Region Percent of State
Total Housing Units	298,494		3.7%
Total Occupied Housing Units	256,428	85.9%	3.5%
Owner-Occupied Units	171,319	66.8%	3.6%
Renter-Occupied Units	85,109	33.2%	3.2%

Source: 2000 Census

Data for the region shows that building permits for 2,547 single family units and 807 multifamily units were issued in 2005.[38]

Housing Need

The housing need indicators analyzed in this section include housing cost burden, substandard housing conditions, and housing overcrowding for renter and owner households. The following information comes from the 2000 CHAS database. Of the total 255,493 households in the region, 76,196 owners and renters have housing problems; this represents 29.8 percent of all households.

Figure 3.73: Region 10 Households with Housing Problems

	Region Total	Extremely Low Income (0-30%)	Very Low Income (31-50%)	Low Income (51-80%)	Higher Incomes (81% and up)

Regional Input on Housing Needs

Of respondents ranking their community's need for general assistance in the 2006 CNS, approximately 40 percent indicated that housing assistance was their first priority need, with 15 percent ranking energy assistance as their priority need. Approximately 15 percent of respondents indicated that the development of apartments was the first priority need, 30 percent indicated that capacity building assistance was their top need, and 0 percent indicated that homeless assistance was the top need.

In terms of housing assistance, 81 percent indicated that home repair assistance was the greatest need. Regarding rental development activities, 41 percent indicated that their community's greatest need was the construction of new rental units, while 18 percent indicated that there was a minimal need for rental development in their areas. When considering energy assistance activities, 54 percent indicated that weatherization and minor home repairs was the greatest need followed by utility assistance with 36 percent.

Assisted Housing Inventory

The following table shows the number of total multifamily units in the region financed through state and federal sources, including TDHCA; HUD; PHAs; Section 8 Housing Choice Vouchers; USDA; and local HFCs, which includes the Texas State Affordable Housing Corporation. For information on the data sources, see “Assisted Housing Inventory” under “State of Texas” in this section. Please note that because some developments layer funding from multiple sources, there may be double counting.

Figure 3.74: Region 10 Assisted Multifamily Units

	Region Total	Percent in Region	Percent of State Total
TDHCA Units	3,968	23.1%	2.3%
HUD Units	3,811	22.2%	6.6%
PHA Units	3,976	23.1%	6.7%
Section 8 Vouchers	3,804	22.1%	2.8%
USDA Units	1,619	9.4%	6.2%
HFC Units*	968		
Total	17,178	100.0%	3.8%

*Because HFC developments report total units and do not specify assisted units, and that the majority of HFC-financed developments also receive housing tax credits from TDHCA, these units are not included in the final total.

TDHCA Assistance for 2007

Based on allocation formulas for the programs listed below, TDHCA can estimate the amount of 2007 funding that will be allocated to the region. Please see "TDHCA Allocation Plans" in the Action Plan section for more information on the formulas. Not all TDHCA programs and funding are included; some TDHCA programs and certain program set-asides are not allocated regionally.

REGION 11

Region 11 is a 16-county area along the border of Mexico. The main urban areas in the region are Brownsville-Harlingen, McAllen-Edinburg, Del Rio, and Laredo. According to the 2000 Census, the total population in Region 11 is 1,343,330, which represents 6.4 percent of the state's total population.

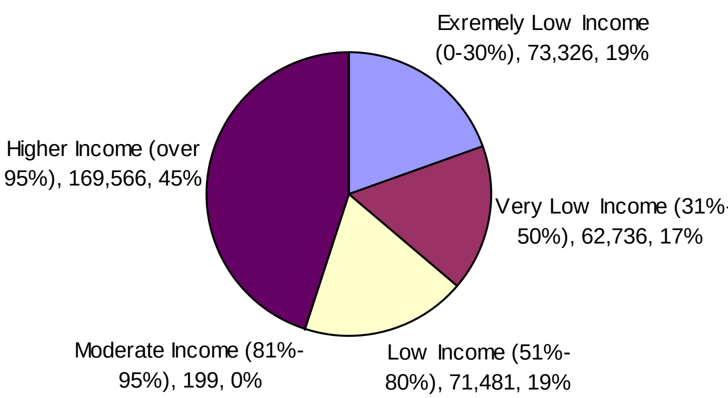
Figure 3.76: Region 11 Population Figures

	Region Total	Percent in Region	Region Percent of State
Total Population	1,343,330		6.4%
Persons with Disabilities	257,838	19.2%	7.2%
Elderly Persons (without disabilities)	67,505	5.0%	6.2%
Individuals in Poverty	455,366	33.9%	14.6%

Source: 2000 Census

About 68 percent of the population lives in urban areas.

Figure 3.77: Region 11 Household Income



The pie chart to the left depicts the income breakdown of the 377,276 households in the region. Approximately 55 percent of households are low income.[39] There are 455,366, or 33.9 percent, individuals living in poverty in the region.

2006 Multiple Listing Service data records the median home prices for Brownsville as $107,200 and McAllen as 107,800.[40]

Special Needs Populations

According to 2000 Census data, there are 257,838 persons with disabilities residing in the region, which is 19.2 percent of the total region population. In addition, there are 67,505 elderly individuals without disabilities in the region, which is 5.0 percent of the region.

[39] The CHAS figures for moderate and higher income households in Region 11 indicate that there are only 199 persons with incomes between 80-95 percent of the AMFI. TDHCA has been unable to get more accurate information for this segment of the population. However, the planning impact for the SLIHP is relatively low because, except for the first time homebuyer program which is done through a network of participating lenders, TDHCA programs serve persons below 80 percent AMFI.

[40] Real Estate Center at Texas A&M University, "Texas Residential MLS Activity," http://recenter.tamu.edu/data/hs/trends4.html (accessed July 27, 2006).

Data on the number of homeless individuals in the region is difficult to collect because of the migratory nature of this population. The Texas Interagency Council for the Homeless estimates that there are 200,000 homeless individuals in Texas,[41] but figures vary. According to the 2000 Census, there are 1,211 people in noninstitutional group homes, which include shelters, in the region. In its special tabulation on emergency and transitional shelters, the Census counted 193 homeless persons in Laredo.

Housing Supply

According to 2000 Census data, of the 457,406 housing units in the region, 378,275 are occupied, which is an 82.7 percent occupancy rate. Of the total housing stock, 66 percent are one unit; 14 percent are over two units; 18 percent are mobile homes; and the rest are boats and RVs. Approximately 70.8 percent are owner occupied and 29.2 percent are occupied by renters.

Figure 3.78: Region 11 Housing Units by Occupation

	Region Total	Percent in Region	Region Percent of State
Total Housing Units	457,406		5.6%
Total Occupied Housing Units	378,275	82.7%	5.1%
Owner-Occupied Units	267,716	70.8%	5.7%
Renter-Occupied Units	110,559	29.2%	4.1%

Source: 2000 Census

Data for the region shows that building permits for 12,171 single family units and 3,089 multifamily units were issued in 2005.[42]

Housing Need

The housing need indicators analyzed in this section include housing cost burden, substandard housing conditions, and housing overcrowding for renter and owner households. The following information comes from the 2000 CHAS database. Of the total 377,276 households in the region, 161,609 owners and renters have housing problems; this represents 42.8 percent of all households.

Figure 3.79: Region 11 Households with Housing Problems

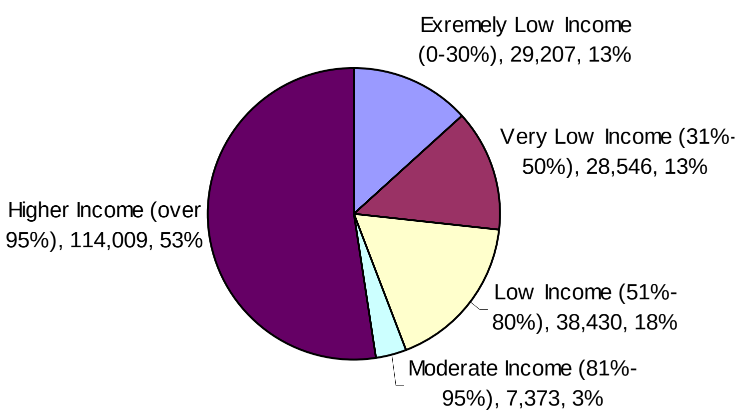
Individuals in Poverty	165,122	23.4%	5.3%

Source: 2000 Census

Approximately 92 percent of the region population lives in the urban area of El Paso.

Figure 3.89: Region 13 Household Income



The pie chart to the left depicts the income breakdown of the 216,861 households in the region. Approximately 44 percent of households are low income. There are 165,122, or 23.4 percent, individuals living in poverty in the region.

The 2006 Multiple Listing Service data records the median home price for El Paso as $124,100.[46]

Special Needs Populations

According to 2000 Census data, there are 128,000 persons with disabilities residing in the region, which is 18.2 percent of the total region population. In addition, there are 35,421 elderly individuals without disabilities in the region, which is 5.0 percent of the region.

Data on the number of homeless individuals in the region is difficult to collect because of the migratory nature of this population. The Texas Interagency Council for the Homeless estimates that there are 200,000 homeless individuals in Texas,[47] but figures vary. According to the 2000 Census, there are

1,022 people in noninstitutional group homes, which include shelters, in the region. In its special tabulation on emergency and transitional shelters, the Census counted 356 homeless people in El Paso.

Housing Supply

According to 2000 Census data, of the 236,572 housing units in the region, 219,261 are occupied, which is a 92.7percent occupancy rate. Of the total housing stock, 68 percent are one unit; 23 percent are over two units; 8 percent are mobile homes; and the rest are boats and RVs. Approximately 63.8 percent are owner occupied and 36.2 percent are occupied by renters.

Figure 3.90: Region 13 Housing Units by Occupation

	Region Total	Percent in Region	Region Percent of State
Total Housing Units	236,572		2.9%
Total Occupied Housing Units	219,261	92.7%	3.0%
Owner-Occupied Units	139,842	63.8%	3.0%
Renter-Occupied Units	79,419	36.2%	3.0%

Source: 2000 Census

Data for the region shows that building permits for 4,459 single family units and 1,074 multifamily units were issued in 2005.[48]

Housing Need

The housing need indicators analyzed in this section include housing cost burden, substandard housing conditions, and housing overcrowding for renter and owner households. The following information comes from the 2000 CHAS database. Of the total 216,861 households in the region, 81,248 owners and renters have housing problems; this represents 37.5 percent of all households.

Figure 3.91: Region 13 Households with Housing Problems

	Region Total	Extremely Low Income (0-30%)	Very Low Income (31-50%)	Low Income (51-80%)	Higher Incomes (81% and up)
Renter Households					
Extreme Cost Burden	22,151	8,941	7,159	4,652	1,399
Lacking Kitchen and/or Plumbing	1,679	470	539	297	24
Overcrowding	15,170	15,170	3,728	3,575	3,653
Owner Households

Regional Input on Housing Needs

Of respondents ranking their community's need for general assistance in the 2006 CNS, approximately 47 percent indicated that housing assistance was their first priority need, with 0 percent ranking energy assistance as their priority need. Approximately 20 percent of respondents indicated that the development of apartments was the first priority need, 13 percent indicated that capacity building assistance was their top need, and 20 percent indicated that homeless assistance was the top need.

In terms of housing assistance, 41 percent indicated that home repair assistance was the greatest need. Regarding rental development activities, 46 percent indicated that their community's greatest need was the construction of new rental units, while 12 percent indicated that there was a minimal need for rental development in their areas. When considering energy assistance activities, 52 percent indicated that weatherization and minor home repairs was the greatest need followed by utility assistance with 24 percent.

Assisted Housing Inventory

The following table shows the number of total multifamily units in the region financed through state and federal sources, including TDHCA; HUD; PHAs; Section 8 Housing Choice Vouchers; USDA; and local HFCs, which includes the Texas State Affordable Housing Corporation. For information on the data sources, see “Assisted Housing Inventory” under “State of Texas” in this section. Please note that because some developments layer funding from multiple sources, there may be double counting.

Figure 3.92: Region 13 Assisted Multifamily Units

	Region Total	Percent in Region	Percent of State Total
TDHCA Units	3,598	20.1%	2.1%
HUD Units	1,863	10.4%	3.2%
PHA Units	6,284	35.1%	10.6%
Section 8 Vouchers	5,842	32.7%	4.4%
USDA Units	298	1.7%	1.1%
HFC Units*	378		
Total	17,885	100.0%	4.0%

*Because HFC developments report total units and do not specify assisted units, and that the majority of HFC-financed developments also receive housing tax credits from TDHCA, these units are not included in the final total.

TDHCA Assistance for 2007

Based on allocation formulas for the programs listed below, TDHCA can estimate the amount of 2007 funding that will be allocated to the region. Please see "TDHCA Allocation Plans" in the Action Plan section for more information on the formulas. Not all TDHCA programs and funding are included; some TDHCA programs and certain program set-asides are not allocated regionally.

Figure 3.93: Region 13 Projected 2007 TDHCA Funding by Program

Total	TBD	TBD

REGIONAL PLANS SUMMARY

The housing and community service needs of the different regions of Texas are as varied as the regions themselves. This section summarizes the information from the regional plans in the previous section.

POPULATION CHARACTERISTICS

The most populous regions of the state according to the 2000 Census are Regions 3 and 6, together representing almost 50 percent of the state. Regions 3, 7, and 11 are the fastest growing areas as indicated by population estimates.

Figure 3.94: Population by Region

Service Region	Population 2000 Census	Percent of State's Population	Population Estimate Jan 1, 2003	Percent Change 2000 to 2003
1	780,733	3.7%	789,292	1.1%

Information on the number of housing permits provides information on the regional housing industry. The regions with the highest share of the state's housing permits are also the most populous regions: 3 and 6. Across the state, there were nearly four times as many single family permits as multifamily permits.

Figure 3.99: Housing Permits, 2005

The number of rental units lacking complete plumbing and/or kitchen facilities is one of the indicators of housing need that does not follow the pattern of population. Regions 3 and 6 have the highest number of units lacking facilities and are also the regions with the highest number of renter households. Region 11, however, is ranked sixth in terms of renter population and third in number of renter units lacking kitchen and/or plumbing facilities.

Figure 3.103 shows the number of owner households with housing cost burden of over 30 percent of income. Regions 3 and 6, the most populous regions, have the highest number of very low income households with extreme cost burden.

Figure 3.104 shows the number of owner units that are lacking kitchen and/or plumbing facilities. Region 11, with the sixth highest number of owner households, has the highest number of physically inadequate owner housing units. Region 6, the second most populous region, has the second highest number of units lacking kitchen and/or plumbing facilities.

ASSISTED HOUSING INVENTORY

The following table shows the number of multifamily units in the state financed through state and federal sources according to region. HFC units are not included in the total assisted units because this figure includes a considerable number of marker-rate units, and many HFC units are financed through TDHCA and already counted in the TDHCA units total. Please see the “Assisted Housing Inventory” under “State of Texas” for data explanations.

Figure 3.107: Assisted Multifamily Units

Region	TDHCA Units	HUD Units	PHA Units	Section 8 Vouchers	USDA Units	HFC units*	Total Assisted Units
1	4,218	2,076	1,562	3,987	1,612	1,577	13,455
2	2,753	1,655	3,904	2,921	1,925	280	13,158
3	55,393	10,834	8,725	39,149	4,076	19,944	118,177
4	5,182	3,381	3,422	6,090	3,872	1,160	21,947
5	4,556	4,296	3,241	7,992	1,371	1,171	21,456
6	46,254	13,076	5,795	19,713	3,484	37,116	88,322
7	15,315	2,889	3,522	8,053	1,461	8,076	31,240
8	5,356	2,683	3,273	5,424	2,804	304	19,540
9	13,847	5,321	7,321	14,859	971	21,974	42,319
10	3,968	3,811	3,976	3,804	1,619	968	17,178
11	7,400	3,695	7,223	13,071	2,003	204	33,392
12	2,926	1,792	1,183	3,039	687	24	9,627
13	3,598	1,863	6,284	5,842	298	378	17,885
State	170,766	57,372	59,431	133,944	26,183	93,176	447,696

*Because HFC developments report total units and do not specify assisted units, and that the majority of HFC-financed developments also receive housing tax credits from TDHCA, these units are not included in the final total.

TDHCA ASSISTANCE FOR 2007

Based on allocation formulas, TDHCA can estimate the amount of 2007 funding that will be allocated to a region for certain programs. Please see "TDHCA Allocation Plans" in the Action Plan section for more information on the formulas. Not all TDHCA programs and funding are included; some TDHCA programs and certain program set-asides are not allocated regionally and thus are not included in these tables, though this funding may be expended in the region.

Regional figures are total dollars to be allocated, less administrative fees and program set-asides or initiatives that are not subject to the allocation formula. State totals may not be exact due to rounding.

For CSBG, the allocation formula does not allocate funding to the 13 Uniform State Service Regions specifically. Rather, the formula allocates funding to a statewide network of contractors with multicounty service areas, which may cross regional boundaries. The regional distribution estimate is based on a theoretical allocation of contractor funding based on each county's level of need relative to all the need in the contractor service area.

Projected FY 2007 CEAP and WAP figures are based on 2006 level funding by provider and then county.

SECTION 4: ACTION PLAN

In response to the housing needs identified in the previous section, this plan outlines TDHCA's course of action designed to meet those underserved housing needs. This section discusses the following:

- TDHCA Purpose
- Obstacles to Meeting Housing Needs
- General Strategies to Overcome Obstacles
- Policy Focuses
- Program Plans
- TDHCA Allocation Plans
- TDHCA Goals and Objectives

TDHCA PURPOSE

Section 2306.001 of TDHCA's enabling legislation states that the purpose of the Department is to

(1) assist local governments in:

(A) providing essential public services for their residents; and

(B) overcoming financial, social, and environmental problems;

(2) provide for the housing needs of individuals and families of low, very low, and extremely low income and families of moderate income;

(3) contribute to the preservation, development, and redevelopment of neighborhoods and communities, including cooperation in the preservation of government-assisted housing occupied by individuals and families of very low and extremely low income;

(4) assist the governor and the legislature in coordinating federal and state programs affecting local government;

(5) inform state officials and the public of the needs of local government;

(6) serve as the lead agency for:

(A) addressing at the state level the problem of homelessness in this state;

(B) coordinating interagency efforts to address homelessness; and

(C) addressing at the state level and coordinating interagency efforts to address any problem associated with homelessness, including hunger, and

(7) serve as a source of information to the public regarding all affordable housing resources and community support services in the state.

OBSTACLES TO MEETING HOUSING NEEDS

LACK OF AFFORDABLE HOUSING

The most apparent obstacle to meeting underserved housing needs in Texas is a severe shortage of affordable housing stock. There is a corresponding shortage of funding sources to maintain and increase this housing stock. With few exceptions, every housing program administered by TDHCA receives far more applications than could be funded from available resources. This is evidence that there is significant interest on the part of both the nonprofit and for-profit sectors to produce the housing that is needed with public and private partnerships. To address this obstacle, TDHCA must develop strategies to foster and maintain affordable housing.

LACK OF ORGANIZATIONAL CAPACITY

While there is a perceived interest in producing affordable housing, the actual capacity of organizations to produce such housing is unclear. A lack of organizational capacity, funding, and the ability to support ongoing developments--especially in the harder to reach areas of the state--might explain the hesitancy of smaller communities to attempt to address affordable housing issues. As the HOME Program focus is on non–participating jurisdictions/smaller rural areas, this is of particular concern to TDHCA.

LACK OF ORGANIZATIONAL OUTREACH

Another factor that goes hand in hand with lack of experience in developing affordable housing is the lack of knowledge of available resources to address a community's needs. There are both public and private resources available throughout the State that can be layered and leveraged to help stretch local funding. Unfortunately, many communities are not aware of these options or do not know how to successfully obtain them. This lack of knowledge, and in some cases communication, proves to be a barrier to the potential development of affordable housing.

LOCAL OPPOSITION TO AFFORDABLE HOUSING

It is a common perception that affordable housing helps contribute to overcrowded schools, increased crime rates, traffic congestion, and general neighborhood deterioration that will lower the surrounding property values. This perception is often described by the term "Not In My Back Yard" or NIMBY. As a result, developments requesting funding from TDHCA can experience significant opposition. TDHCA continues to work to educate the general public on affordable housing issues and encourages developers to interact directly with neighborhood organizations throughout the application process. This educational process is done with such tools as the public hearing process, TDHCA's website and publications, and the application scoring criteria for rental development funding. TDHCA also provides incentives to rehabilitate existing, aging developments, thus improving the local areas.

REGULATORY BARRIERS TO AFFORDABLE HOUSING

The following issues can be barriers to the provision of affordable housing.

- *Zoning provisions*: Because most municipalities have zoning authority, they are in the position to shape the type and direction of growth within their boundaries. Ordinances may be passed to encourage affordable housing through measures such as lowering minimum lot sizes, decreasing building set-back requirements, and lowering minimum square footages of homes. However, local areas can also pass ordinances that drive land and construction costs up to the point that affordable housing cannot be built. TDHCA believes that cities, the state, neighborhood organizations, and developers should work together in order to provide decent and affordable housing to lower income households.

- *Deed restrictions*: Property owners may place a variety of deed restrictions on the development of property. Common deed restrictions include minimum square footage requirements, the type of construction and materials that must be used, and requirements for other amenities such as stone fences, landscaping, etc. They are primarily used to protect property values in a neighborhood by ensuring that certain minimum standards are met. Deed restrictions may be placed on properties through various means including neighborhood associations or property owners before the sale, subdivision, or development of an individual's own property.
- *Impact fees and development fees*: In the mid 1980s, many Texas cities experienced rapid growth. As a consequence, cities encountered difficulties in meeting the demand for city services and infrastructure. To address this problem, legislation authorizing impact fees was passed during the 1987 legislative session. As a condition of permit approval, the legislation authorized the assessment of fees to pay for infrastructure costs. The impact fee bill validated municipal impact fees, specified the type of projects for which the fees could be charged, required municipalities to account for impact fees that were collected, and allowed for public input into the process.
- *Restrictions on affordable housing options*: Construction options have increased over the last 10 years with the advent of new materials and housing options such as manufactured housing. Many of these alternatives could have a positive impact on the availability of affordable housing. With regard to alternative building materials, the effectiveness of these new materials may be able to lower the cost of construction without sacrificing quality, but some municipalities may view them with suspicion. Ultimately, municipalities will have to review the appropriateness of allowing these less-expensive materials to be used in affordable housing. While these homes are finding their way into the main stream of the housing market, many new owners find that they face code concerns and the fear of declining property values from their local governments.
- *Overlapping government authority over housing construction*: In some cases, more than one government entity has authority over a specific part of the building and development process. There are times when this overlapping causes delays and adds to the costs of construction.
- *Environmental regulations*: There are several state and federal regulations that have been passed to protect the environment. At the federal level, regulations include the Endangered Species Act, National Pollutant Discharge Elimination System, and Wetlands regulations. In Texas, rules to protect the environment are developed by the Texas Commission on Environmental Quality. These include rules for the installation of septic systems and for development over the Edwards Aquifer. The restrictions associated with the regulations can add to the cost of development.

AREA INCOME CHARACTERISTICS

Area incomes also affect the ability to meet local housing needs. Median incomes in rural areas fall far below those in urban. According to HUD, for FY 2006, the median income for Texas metropolitan statistical areas is $56,600 compared to $43,100 for non-metro households.[49] Because program

[49] HUD, "Estimated Median Family Incomes for FY 2006," http://www.huduser.org/datasets/il/il06/MedianNotice_2006.pdf (accessed July 28, 2006).

eligibility, rents, and home purchase prices are tied to the area median income, a developer may choose to locate developments in metro areas where it is more profitable to build because of higher incomes.

GENERAL STRATEGIES TO OVERCOME OBSTACLES

TDHCA is committed to exploring a variety of avenues to provide affordable housing and community services to assist those at the local level. TDHCA will continue to use the following general approaches to overcome obstacles to addressing housing need.

EFFECTIVE USE OF EXISTING RESOURCES

Programs administered by TDHCA provide housing and housing-related services, including community services. Housing activities consist of homebuyer assistance which includes down payment and closing costs, the rehabilitation of single family and multifamily units, rental assistance, the new construction of single family and multifamily housing, special needs housing, transitional housing, and emergency shelters. Housing-related and community services include energy assistance, weatherization assistance, health and human services, child care, nutrition, job training and employment services, substance abuse counseling, medical services, and emergency assistance. Through these activities, the Department strives to promote sound housing policies; promote leveraging of state and local resources; prevent discrimination; and ensure the stability and continuity of services through a fair, nondiscriminatory, and open process.

PROVIDE INFORMATIONAL RESOURCES

Though TDHCA does not have regulatory authority the housing/building industry, save projects funded with TDHCA funds and certain aspects of the manufactured housing industry, TDHCA can act as an information resource to help identify or facilitate actions such as the following:

- Encourage localities to identify and address those regulations that lead to increased housing costs. For example, work through outreach efforts supported by convincing research to help local governments see the value in
    - setting aside undeveloped or underdeveloped land for affordable housing developments,
    - adopting zoning ordinances that do not have the effect of impeding affordable housing,
    - reviewing local amendments to building codes and modify those that restrict the use of new advances in construction materials and techniques.
- Continue education programs such as the Texas Statewide Homebuyer Education Program, which provides lenders, homebuyer educators, and consumers information and education on homebuyer education.
- Continue research on defining and eliminating or reducing both state and local policy barriers.
- Continue research on a variety of lending issues that affect the ability of households to purchase, maintain, and remain in their homes. A significant portion of this effort relates to a study required by HB 1582 of the 79th Legislature. This bill requires TDHCA to study mortgage foreclosure rates in Bexar, Cameron, Dallas, El Paso, Harris, and Travis Counties. The study addresses the extent to which the terms of mortgages are related to the foreclosure rate and whether terms could be offered to reduce the likelihood of foreclosure; the socioeconomic and geographic elements characterizing foreclosures; the securitization of mortgages in the secondary market and its effect on foreclosures; consumer education efforts to prevent foreclosures; and recommendations to reduce foreclosures. For more information on this study, please contact the Division of Policy and Public Affairs at (512) 475-3976 or visit http://www.tdhca.state.tx.us/ppa/housing-center/pubs.htm. .

- Provide education and outreach to mitigate public opposition to affordable housing. TDHCA has developed a page on its website to provide interested persons with existing research on affordable housing issues that may be of concern.

COORDINATE RESOURCES

Understanding that no single entity can address the enormous needs of the state of Texas, TDHCA supports the formation of partnerships in the provision of housing and housing-related endeavors. The Department works with many housing partners including consumer groups, community-based organizations, neighborhood associations, community development corporations, community housing development organizations, community action agencies, real estate developers, social service providers, local lenders, investor-owned electric utilities, local government, nonprofits, faith-based organizations, property managers, state and local elected officials, and other state and federal agencies.

There are many benefits to these partnerships: risk and commitment are shared; the principle of reciprocity requires that local communities demonstrate an awareness of their needs and a willingness to participate actively in solving problems, therefore local communities play an active role in tailoring the project to their needs; partners are able to concentrate specifically on their area of expertise; and a greater variety of resources insure a well targeted more affordable product.

Coordination with Federal Agencies

Because the State receives the majority of its funding from federal sources, many TDHCA programs require coordination with federal agencies. Below is a listing of those federal agencies and an overview of the activities associated with these partnerships:

- *US Department of Housing and Urban Development*: TDHCA administers the HOME, ESGP, and Section 8 programs in Texas using HUD dollars. TDHCA also regulates the manufactured housing industry using HUD laws. TDHCA has established cooperative efforts with HUD's personnel in their field offices and with the Secretary's representative. This cooperation has led to the joint marketing of housing programs through conferences and workshops throughout the state, a mutual referral system, as well as technical assistance service by which each agency assists the other with workshops and other training efforts. Currently, HUD staff uses several TDHCA documents as their text on available housing resources and distribute these materials to the local governments and organizations they are serving.
- *US Treasury Department*: TDHCA administers the HTC Program, which was created by the Tax Reform act of 1986 (Section 42 of the Internal Revenue Code of 1986, as amended, is the federal law that governs the HTC Program). The HTC Program produces over 12,000 units of affordable housing each year. Additionally, TDHCA acts as an issuer of tax-exempt and taxable mortgage revenue bonds. The authority for these bonds comes again from the above cited act. Annually, single family bonds are used to provide below-market interest rate loans and multifamily bonds are used to finance the construction, acquisition, or rehabilitation of multifamily properties.
- *US Department of Health and Human Services*: The Department administers several programs funded by HHS that are aimed at serving extremely low income persons; specifically, the Community Services Block Grant Program, Comprehensive Energy Assistance Program, and the Weatherization Assistance Program.

- *US Department of Energy*: TDHCA administers the US Department of Energy's Weatherization Assistance Program for Low Income Persons. This program helps consumers control energy costs through the installation of weatherization measures and provides energy conservation education.
- *USDA Rural Development*: As a provider of services to rural Texas communities, TDHCA has an ongoing relationship with USDA Rural Development. Collaborations have been achieved through several TDHCA programs (HTC, HTF, HOME) in the form of multifamily developments and single family homeownership initiatives.

Coordination with State Agencies, Local Governments, and Other Parties

Outside of HTCs, TDHCA's chief function is to distribute program funds to local conduit providers that include units of local government, nonprofit and for-profit organizations, community-based organizations, private sector organizations, real estate developers, and local lenders. Because the agencies do not fund individuals directly, coordination with outside entities is key to the success of its programs. Below are some examples of organizational cooperation outside of the funding of these entities.

- *Office of Rural Community Affairs (ORCA)*: TDHCA and ORCA have entered into an interagency contract to jointly administer the rural regional allocation of the HTC Program. ORCA also participates in the evaluation and site inspection of rural developments proposed under the rural allocation. TDHCA and ORCA coordinate services with each of the seven Colonia Self-Help Centers (in Cameron/Willacy, El Paso, Hidalgo, Maverick, Starr, Val Verde, and Webb counties) to provide housing and technical assistance to improve the quality of life for colonia residents beyond the provision of basic infrastructure. The contracts are executed directly with the county where the center is located. In addition, TDHCA and ORCA jointly administer the CDBG disaster recovery funding awarded to Texas under the Department of Defense Appropriations Act, 2006, to rebuild the southeast Texas region devastated by Hurricane Rita.
- *Texas Homeless Network*: TDHCA collaborates with the Texas Homeless Network (THN) to build the capacity of homeless coalitions across the State of Texas, enabling them to become more effective in the communities they serve. The Department also provided funds through THN to support technical assistance workshops for the HUD Continuum of Care homeless application. The purpose of the workshops was to assist communities in creating a network of services to the homeless population.
- *Texas Interagency Council for the Homeless*: TDHCA serves as a member of, and provides administrative support to, the Texas Interagency Council for the Homeless—a council comprised of six member state agencies.
- *Texas Association of Realtors:* In December 2004, the Department entered into a partnership with the Texas Association of Realtors and Fannie Mae to educate Texas real estate agents on programs and develop an outreach campaign to help first time homebuyers access low-cost mortgage financing. TDHCA also sponsored a specialty license plate to support the association's Housing Opportunity Foundation.
- *Texas Home of Your Own Coalition:* TDHCA has historically partnered with United Cerebral Palsy's Texas Home of Your Own Coalition, which is a nonprofit organization that assists persons with disabilities purchase homes, to set aside HOME Homebuyer Assistance Program funds to support homeownership for persons with disabilities.
- *Texas Department of Aging and Disability Services:* TDHCA, in cooperation with the Texas Department of Aging and Disability Services, the Texas Health and Human Services Commission,

and local public housing authorities, administers a housing voucher pilot program developed by HUD, the US Department of Health and Human Services, and the Institute on Disability at the University of New Hampshire. "Project Access" helps low income persons with disabilities transition from nursing facilities into the community by providing Section 8 Housing Choice Vouchers that enable them to access affordable housing in the community.

- *Promoting Independence Advisory Board*. The Department has been working with the Promoting Independence Advisory Board to address issues related to *Olmstead v. L. C.* The group is working on initiatives that will serve the needs of persons with disabilities who want housing options outside of institutional settings. TDHCA has been working with the following agencies: Texas Health and Human Services Commission, Texas Department of Aging and Disability Services, Texas Council for Developmental Disabilities, Texas Department of State Health Services, Texas Education Agency, and Texas Department of Protective and Regulatory Services.
- *NeighborWorks America*. TDHCA continues to contract with NeighborWorks America to facilitate the Texas Statewide Homebuyer Education Program (TSHEP) training. TSHEP also collaborates with several other partners including the Texas State Affordable Housing Corporation, JP Morgan Chase, Fannie Mae, CitiMortgage, the Texas Home of Your Own Coalition, and Texas C-BAR to implement the trainings.
- *Texas State Affordable Housing Corporation (TSAHC):* TDHCA has entered into a memorandum of understanding with TSAHC to share data and information in the development of the State of Texas Low Income Housing Plan and Annual Report. TSAHC has also partnered with TDHCA to manage the financial account for Texas Statewide Homebuyer Education Program.
- *Local Utility Companies*: Partnerships with financial commitments between the Weatherization Assistance Program and Southwestern Electric Power Company, Southwestern Public Service Company, Entergy, and El Paso Electric, provide energy conservation measures to very low and extremely low income utility customers.
- *CHDO Capacity Building Project*: TDHCA has committed to understanding the needs of CHDOs to ensure the success of single family and multifamily developments funded by TDHCA. To that end, TDHCA partnered with Training and Development Associates' (TDA's) Community Building Investment (CBI) II Program. The CBI II Program, implemented by TDA, provides direct technical assistance, training, and/or operating grants (pass-through funds) to existing and potential CHDOs that were awarded funding under the program.

  TDHCA also commissioned a comprehensive plan to address technical assistance and capacity building needs of Texas CHDOs. Implementation of the plan will improve TDHCA's overall management and understanding of CHDOs, improve the capacity and performance of CHDOs, and establish effective systems to ensure long term quality housing production. The plan is primarily composed of two parts: (1) the provision of ongoing training and technical assistance to CHDOs and prospective CHDOs and (2) the recommended procedures needed to ensure the future capacity and success of Texas CHDOs.

FAIR HOUSING

The Texas Fair Housing Act of 1989 enables the State to remedy discriminatory public policies affecting housing affordability and access. The Act prohibits discrimination against individuals in their pursuit of homeownership or rental housing opportunities based on race, color, national origin, sex, religion, familial status, and physical or mental handicaps. Recent state activities or current objectives relating to fair housing are discussed below:

- Comply with the Texas Fair Housing Act in TDHCA administered programs.
- Coordinate fair housing efforts with the Texas Workforce Commission, Human Rights Division, which was created under the Texas Fair Housing Act to directly address public grievances related to fair housing.
- Section 8 Admittance Policy: In June 2000, TDHCA appointed a Section 8 Task Force and charged it to develop a policy for expanding housing opportunities for Section 8 voucher and certificate holders in TDHCA assisted properties. The policy adopted by the TDHCA Board is a follows:
  - Managers and owners of HTC properties are prohibited from having policies, practices, procedures and/or screening criteria that have the effect of excluding applicants because they have a Section 8 voucher or certificate.
  - The verification of such an exclusionary practice on the part of the owner or the manager by TDHCA will be considered a violation and will result in the issuance of a Notice of Violation and, if appropriate, issuance of a Form 8823 to the Internal Revenue Service.
  - Any violation of program requirements relative to this policy will also impact the Owner's ability to participate in future TDHCA programs.

POLICY PRIORITIES

This section describes policies TDHCA will use to address specific types of housing need in each uniform state service region, including meeting the underserved needs of extremely low income households, the homeless, persons with disabilities, and other special needs populations. This section also discusses rural needs, energy efficiency, and lead-based paint. Because of the unique challenges associated with the housing needs of these varying populations, a considerable level of planning and consumer-need-based focus is required.

EXTREMELY LOW INCOME INDIVIDUALS AND HOUSEHOLDS

While one of the Department's charges is to serve the State's populations from extremely low income to moderate income, funding priority is given to those populations that are most in need of services: low, very low, and extremely low income individuals and households. Additionally, the Texas Legislature, through 2006/2007 Appropriations Act Rider 4, specifically calls upon TDHCA to focus funding toward individuals and families that are earning less than 60 percent of the area median family income. Rider 4 directs TDHCA to apply $30,000,000 annually towards assisting extremely low income households; and no less than 20 percent of the Department's total housing funds towards assisting very low income households. TDHCA works to meet these goals, by providing HOME and HTC scoring incentives for applicants to set aside units for very low and extremely low income households.

The data presented in the Housing Analysis section of this report shows that households with lower incomes have higher incidences of housing problems. There are minimal differences between the incidences of housing problems between the two lowest income groups (0-30 percent and 31-50 percent of median income). While incidences of housing problems for these two groups are significantly higher than those of the other low income group, households with incomes at 51-80 percent of median income have significant needs as well. Therefore, households at 0-80 percent of median income have been given higher priority than households above 80 percent of median income. This prioritization will allow the State to target resources to those households most in need, regardless of household type.

Poverty

According to the 2000 US Census, Texas has the ninth highest poverty rate among the states: 15.4 percent compared to the national rate of 12.4 percent. The US Department of Health and Human Services defines the 2005 poverty guideline as $19,350 in income for a family of four,[50] and many poor families make substantially less than this. Poverty can be self-perpetuating, creating barriers to education, health, and the financial stability provided by homeownership.

Those groups showing the largest growth in proportion of population, the young and minority populations, continue to be overrepresented in the Texas poverty population. According to the 2000 US Census, 38 percent of the poverty population is between the ages of 0-17. Hispanics make up 41 percent of Texas children under the age of 18, but 62 percent of all poor children. African American children account for 12.5 percent of Texas children, but 18 percent of all poor children.

[50] US Department of Health and Human Services, "The 2005 HHS Poverty Guidelines," http://aspe.hhs.gov/poverty/05poverty.shtml (accessed July 28, 2006).

TDHCA recognizes that unemployment, the high cost of home energy, and lack of education are significant factors in the high rate of poverty.

TDHCA has an important role in addressing Texas poverty. The Department seeks to reduce the number of Texans living in poverty, thereby providing a better future for all Texans. This means (1) trying to provide long-term solutions to the problems facing people in poverty and (2) targeting resources to those with the greatest need. The Department provides low income persons with energy, emergency, and housing assistance to meet the basic necessities.

An asset development approach to addressing poverty emphasizes the use of public assistance to facilitate long-term investments rather than incremental increases in income. In housing, this can mean gaining equity through homeownership. Several of TDHCA programs introduce the option of homeownership to lower income populations: the HOME Program offers down payment assistance and closing cost assistance, and the Single Family Bond Program offers below-market-rate loans.

Programs administered through TDHCA's Office of Colonia Initiatives (OCI) can be instrumental in creating self sufficiency in the colonias. OCI coordinates programs that improve the living conditions of the state's colonias. The Texas Bootstrap Loan program provides loans for self-help housing initiatives; the Contract for Deed Conversion Initiative facilitates homeownership by converting contracts for deed into traditional mortgages; the Colonia Model Subdivision Program provides loans to develop residential subdivisions as alternatives to colonias; and the Colonia Self-Help Centers provide outreach, education, and technical assistance to colonia residents.

HOMELESS POPULATIONS

The Stewart B. McKinney Homeless Assistance Act of 1987, the legislation that created a series of homeless assistance programs, defined the term "homeless." The following definition is used by the US Department of Housing and Urban Development (HUD) and all other federal agencies responsible for administering McKinney programs:

> The term "homeless" or "homeless individual" includes
>
> - an individual who lacks a fixed, regular, and adequate night time residence; or
> - an individual who has a primary nighttime residency that is
>   - a supervised publicly or privately-operated shelter designed to provide temporary living accommodations;
>   - an institution that provides a temporary residence for individuals intended to be institutionalized; or
>   - a public or private place not designed for, or ordinarily used as, a regular sleeping accommodation for human beings.

The Texas Interagency Council for the Homeless estimates that approximately 200,000 people in Texas, or about 1 percent of the population, are homeless.[51] Based on this estimate, TDHCA estimates that, of 3,159,940 total people living in rural areas, 1 percent of the rural population, approximately 32,000, are homeless. The 2000 Census counted 28,377 individuals residing in noninstitutional group homes in

[51] Texas Interagency Council for the Homeless, "Key Facts," http://www.tich.state.tx.us/facts.htm (accessed July 28, 2006).

Texas, which include shelters. In its special tabulation on emergency and transitional shelters in metropolitan areas, the Census counted 6,237 people.

As evidenced above, estimates of homeless populations vary widely. The migratory nature of the homeless population, the stigma associated with homelessness, and the fact that many homeless individuals lack basic documentation all contribute to the difficulty of making an accurate count. Most homeless counts are "point in time" estimates, which do not capture the revolving-door phenomenon of persons moving in and out of shelters over time. Furthermore, the homeless population can be classified into three categories: literally homeless, which describes those who have no permanent residence and stay in shelters or public places; marginally homeless, which includes those who live temporarily with other people and have no prospects for housing; and people at risk of homelessness. People at risk of homelessness generally have incomes below the poverty level, rely on utility and rental assistance, and may be unable to absorb unexpected events such as the loss of a job or serious illness.

Homeless Subpopulations

The following homeless subpopulations have special characteristics. Though these subpopulations may have different characteristics, the two main trends significant in the rise of homelessness can be connected to the increase in poverty (characterized by the decline in employment opportunities and public assistance programs) and a shortage of affordable housing.[52]

Homeless Families with Children

The number of homeless families with children has increased significantly over the past decade. A 2005 US Conference of Mayors survey of 25 American cities found that homeless families comprised 33 percent of the homeless population.[53] Additionally, single mothers and children make up the largest group of people who are homeless in rural areas.[54] Approximately 90 percent of homeless families are homeless due to a crisis.[55] Many parents with young children cannot work because of a lack of affordable childcare, which hinders their ability to earn an income to pay for suitable housing.

Homeless Youth

An estimated 12 percent of the homeless population is aged 13 to 24.[56] Of this age group, approximately 40 percent has a history of sexual abuse, 46 percent report mental illness, 25 percent have problems with alcohol abuse, and 33 percent spent time in juvenile detention. Furthermore, 28 percent have been in foster care at least once. Due to the challenges faced by homeless youth, they may particularly benefit from the provision of essential services, including job training, education, and employment services.

Homeless Minorities

A 2004 US Conference of Mayors survey of 27 American cities found that 49 percent of the homeless population was African American, 35 percent was white, 13 percent was Hispanic, 2 percent was Native

[56] Texas Homeless Network, "Finding the Way Home."

American, and 1 percent was Asian.[57] However, the ethnic makeup of the homeless population will vary by geographic area.

Homeless in Rural Areas

TDHCA estimates that 1 percent of the rural population is homeless, or 32,000. Rural areas typically have fewer jobs and shelters than urban areas, which makes it especially difficult for homeless persons. The National Coalition for the Homeless reports that homeless persons in rural areas are more likely to be white, and homeless farmworkers and Native Americans are also generally found in rural areas.[58] Migrant farmworkers, because of their mobile lifestyle, extremely low incomes, and lack of affordable housing, are at a high risk for homelessness.

Homeless Victims of Domestic Violence

Battered women who live in poverty are often forced to choose between staying in abusive relationships or homelessness. According to the NCH, half of women with children experiencing homelessness left their last place of residence because of domestic violence.[59]

In 2004, there were 182,087 reported family violence incidents in Texas.[60] According to a TCFV statewide poll, 47 percent of all Texans report having experienced some form of domestic violence. In 2004, the Family Violence Program though the Texas Health and Human Services Commission served 83,349 adults and children and provided 948,610 direct services.[61] Furthermore, 7,201 were denied shelter due to lack of space.

Homeless Persons with Mental Illnesses and Disabilities

According to the Texas Interagency Council for the Homeless, approximately 25 percent of homeless individuals suffer from a serious mental illness, and more than 65,000 persons with disabilities did not have a predictable means of shelter in 1999.[62] The general lack of affordable housing and the poverty of this population make it difficult for homeless persons with mental illness to access social service programs and leaves them highly susceptible to homelessness.

Homeless Elderly Persons

According to 2000 Census data, of those below the poverty level in Texas, an estimated 13.1 percent are age 65 and over. As a group, this makes the elderly the poorest of all Texans. Approximately 6 percent of persons aged 55 to 64 were homeless in 2004.[63]

Homeless Veterans

According to the Department of Veteran's Affairs[64] approximately, on any given day, as many as 250,000 veterans are living in shelters or on the street. Of the veterans who are homeless, approximately 56 percent

[63] National Coalition for the Homeless, *Who is Homeless?*

are African American or Hispanic, 45 percent suffer from mental illness, and 70 percent suffer from alcohol or drug abuse problems.

Chronically Homeless Persons

According to the Texas Homeless Network, 27 percent of single homeless adults are chronically homeless, meaning that these persons have been homeless for an average of four years.[65] Furthermore, these persons have high rates of alcohol or drug abuse and mental illness.

Homeless Persons with HIV/AIDS

The National Coalition for the Homeless estimates that 3 to 20 percent homeless people are HIV positive.[66] People with HIV/AIDS may lose their jobs because of discrimination or have high health care costs, leading to homelessness. This population may require supportive health services or community care programs in addition to housing assistance.

Homeless Persons with Chronic Substance Abuse

The 2005 US Conference of Mayors survey reports that 30 percent of homeless persons has an addiction disorder.[67] The Texas Department of State Health Services (DSHS) reports that, of adult clients admitted to DSHS-funded programs in 2004, 11 percent were homeless and the average income at admission was $5,715.[68] Homeless persons with substance abuse problems will require supportive services.

Homeless Needs

The "continuum of care" approach to fighting homelessness is based on the understanding that homelessness is not caused merely by a lack of shelter, but involves a variety of underlying unmet physical, economic, and social needs. A comprehensive system of services as well as permanent housing is needed to help homeless individuals and families reach independence using a combination of emergency shelters, transitional housing, social services, and permanent housing. The continuum of care system begins with outreach, intake, and assessment. It is followed by safe emergency shelter and/or transitional housing that provides a variety of services including job training, educational services, substance abuse services, mental health services, and family support. Ultimately, the goal is to assist the family or individual achieve permanent housing.

Homeless Goals

The following Strategic Plan goals and associated proposed accomplishments are aimed at reaching the homeless populations. Refer to the Annual Report section of this document for 2006 performance on reaching these objectives, and the "Strategic Plan Goals" in this section for more information on 2007 goals. Refer to the "Program Statements" in this section for more information on the Emergency Shelter Grants Program, which is TDHCA's main homelessness assistance program, and other related programs.

GOAL 3: TDHCA WILL IMPROVE LIVING CONDITIONS FOR THE POOR AND HOMELESS AND REDUCE THE COST OF HOME ENERGY FOR VERY LOW INCOME TEXANS.

3.1 **Strategy:** Administer homeless and poverty-related funds through a network of community action agencies and other local organizations so that poverty-related services are available to very low income persons throughout the state.

3.2 **Strategy:** Administer the state energy assistance programs by providing grants to local organizations for energy related improvements to dwellings occupied by very low income persons and for assistance to very low income households for heating and cooling expenses and energy related emergencies.

TDHCA Program Strategies for Meeting Homeless Needs

In order to meet the needs of homeless populations and meet the goals outlined above, TDHCA has developed the following strategies.

Texas Interagency Council for the Homeless

The Texas Interagency Council for the Homeless (TICH) was created in 1989 to coordinate the State's homeless resources and services. TICH consists of representatives from all state agencies that serve the homeless. The council receives no funding and has no full-time staff, but receives clerical and advisory support from TDHCA. The council holds public hearings in various parts of the state to gather information useful to its members in administering programs. In addition, the Texas Homeless Network, a nonprofit organization, fulfills many of the council's statutory duties through a contract with TDHCA.

The Council's major functions include

- evaluating and helping coordinate the delivery of services for the homeless in Texas;
- increasing the flow of information among separate providers and appropriate authorities;
- providing technical assistance to TDHCA in assessing the need for housing for people with special needs;
- developing, in coordination with TDHCA and the Health and Human Services Commission, a strategic plan to address the needs of the homeless;
- maintaining a central resource and information center for the homeless.

TICH has developed a 10-year state action plan to end chronic homelessness in Texas. A team of 10 TICH members attended the Federal Policy Academy on Improving Access to Mainstream Services for People Experiencing Chronic Homelessness in Chicago, Illinois, in May 2003. A result of their participation was that TICH developed a 10-year plan to end chronic homelessness and then conducted six public hearings in March 2004 to receive testimony on the plan. The public hearings were held at the request of the Office of the Governor and were intended to further the implementation of the state action plan on homelessness. The plan was developed as part of Texas's participation in the federal policy academy to improve access to mainstream services for people who are homeless, including people with serious mental health or substance abuse problems. The federal policy academies are led by the US Department of Health and Human Services, the US Department of Urban Development, and the US Department of Veterans Affairs.

The Three Priorities and the Strategies of the State Action Plan to End Chronic Homelessness are as follows:

Priority One: Increasing the Public and Political Investment

Strategy 1.1	Improve data
Strategy 1.2	Increase capacity of local homeless coalitions
Strategy 1.3	Host public forums for state plan to end chronic homelessness

Priority Two: Prevent Chronic Homelessness

Strategy 2.1	Identify common risk factors and definitions regarding persons at risk of chronic homelessness
Strategy 2.2	Develop model discharge coordination plan for persons at-risk of chronic homelessness
Strategy 2.3	Coordinate discharge-planning efforts
Strategy 2.4	Develop a prevention strategy aimed at persons at risk of homelessness, currently homeless persons, and their providers that focus on education, awareness, and anti-stigma strategy

Priority Three: Develop, Expand, and Support Evidence-Based Service Interventions

Strategy 3.1	"Set-aside" resources for ending chronic homelessness
Strategy 3.2	Increase prioritization and targeting of persons experiencing chronic homelessness within mainstream services
Strategy 3.3	Advocate for a uniform eligibility process
Strategy 3.4	Increase and improve linkages between housing and services

Information on TICH and the 10-Year Plan to End Chronic Homelessness can be found at http://www.tich.state.tx.us.

Emergency Shelter Grants Program

Through the Emergency Shelter Grants Program (ESGP), TDHCA funds organizations that provide shelter and related services for homeless persons, as well as intervention services to persons threatened with homelessness. Activities include renovating buildings for use as shelters; medical and psychological counseling; assistance in obtaining permanent housing; and homeless prevention services, such as rent and utility assistance. For 2007, TDHCA anticipates that it will receive $5,076,683 in funding to address homelessness, and disperses those funds according to a regional allocation formula based on the poverty percentage of each uniform state service region. Demonstrating the need for homeless shelter and services, for the 2006 ESGP application cycle, the Department received 123 applications and was able to fund only 76.

Community Services Block Grant Program

TDHCA provides administrative support funds to community action agencies (CAAs) that offer emergency and poverty-related programs to lower income persons. CAA services include child care, health and human services, job training, migrant farmworker assistance, nutrition services, and emergency assistance. These services can be instrumental in preventing homelessness in the lowest income populations.

HTC Program

The HTC Program (HTC) is a multifamily program that encourages the development of affordable multifamily housing. In addition to the construction, acquisition, and/or rehabilitation of new, existing, at-risk, and rural housing, this program can also be used to develop transitional housing. TDHCA gives scoring preferences for special needs activities, including transitional housing.

Persons with Disabilities

According to the US Department of Housing and Urban Development, 24 CFR 582.5:

> A person shall be considered to have a disability if such a person has a physical, mental, or emotional impairment that
>
> - is expected to be of long-continued and indefinite duration,
> - substantially impedes his or her ability to live independently,
> - is of such a nature that the ability could be improved by more suitable housing conditions.

According to the 2000 US Census, there are approximately 3,605,542 disabled, civilian, non-institutionalized persons over the age of five (or approximately 19 percent of total population) in Texas. Of this figure, 663,300 have a sensory disability (severe vision or hearing impairment), 1,428,580 have a physical disability (condition that substantially limits a physical activity such as walking or carrying), 816,185 have a mental disability (learning or remembering impairment), 487,120 have a self-care disability (dressing, bathing, or getting around inside the home), 1,359,848 have a "going outside the home disability," and 1,651,821 have an employment disability.

Needs of Persons with Disabilities

Housing opportunities for people with disabilities may be complicated by low incomes. The 2000 census estimates that 553,934 disabled individuals over age five live below the poverty level in Texas. Many people with disabilities may be unable to work, and receive Supplemental Security Income (SSI) or Social Security Disability Insurance (SSDI) benefits as their principal source of income. According to *Priced Out in 2004*, an SSI recipient would have to pay an average of 102.7percent (calculated as $569) of his or her $564 monthly payment to rent a one-bedroom apartment in Texas.[69] According to the HUD definition of affordability that estimates that a household should pay no more than 30 percent of its income on housing expenses, an SSI recipient can afford a monthly rent of no more than $169.

The *Olmstead* Supreme Court decision maintained that unnecessary segregation and institutionalization of people with disabilities is unlawful discrimination under the Americans with Disabilities Act (ADA). Furthermore, the Fair Housing Act, Section 504 of the Rehabilitation Act, ADA, and Section 2306.514 of the Texas Government Code all provide mandates for accessible residential housing for persons with disabilities. Housing developers may choose to provide "adaptive design" or "universal access" housing, which promotes basic, uniform standards in the design, construction, and alteration of structures that include accessibility or simple modification for disabled individuals. While an "adaptable" unit may not be fully accessible at time of occupancy, it can easily and inexpensively be modified to meet the needs of

[69] Technical Assistance Collaborative Inc. and Consortium for Citizens with Disabilities Housing Task Force, *Priced Out in 2004*, by Ann O'Hara and Emily Cooper (Boston, MA: Technical Assistance Collaborative Inc., August 2005), 37, http://www.c-c-d.org/pricedout04.pdf (accessed July 28, 2006).

any resident. Another option is to equip homes with special features designed for persons with disabilities, including ramps, extra-wide doors and hallways, hand rails and grab bars, raised toilets, and special door levers.

There is a significant shortage of housing that is physically accessible to persons with disabilities and an even greater shortage of accessible housing that has multiple bedrooms. Many persons with disabilities require larger housing units because they live with family, roommates, or attendants. The lack of multi-bedroom housing furthers their segregation. Moreover, accessible housing is an urgent and present need for not only citizens who currently have disabilities, but for the aging population in the US, which may develop disabilities in the future. Accessible housing will become increasingly more important as the ability for self-care and mobility decreases with age.

Advocates for the elderly and persons with disabilities continue to stress that the primary goal of these populations is to live independently and remain in their own homes. Access to rehabilitation funds for single family housing—to perform minor physical modifications such as extra handrails, grab bars, wheelchair-accessible bathrooms, and ramps, thus making existing units livable and providing a cost-effective and consumer-driven alternative to institutionalization—was considered as a priority. Likewise, the availability of rental vouchers that provide options beyond institutional settings was found to be a high priority.

Persons with Disabilities Goals

The following goals and associated proposed accomplishments are aimed at reaching persons with special needs, including persons with disabilities. Refer to the Annual Report section of this document for 2006 performance on reaching these objectives, and the "Strategic Plan Goals" in this section for more information on 2007 goals.

GOAL 9: TDHCA WILL WORK TO ADDRESS THE HOUSING NEEDS AND INCREASE THE AVAILABILITY OF AFFORDABLE AND ACCESSIBLE HOUSING FOR PERSONS WITH SPECIAL NEEDS THROUGH FUNDING, RESEARCH, AND POLICY DEVELOPMENT EFFORTS.

9.1 **Strategy:** Dedicate no less than 20 percent of the HOME project allocation for applicants that target persons with special needs.

9.2 **Strategy:** Compile information and accurately assess the housing needs of and the housing resources available to persons with special needs.

9.3 **Strategy:** Increase collaboration between organizations that provide services to special needs populations and organizations that provide housing.

9.4 **Strategy:** Discourage the segregation of persons with special needs from the general public.

TDHCA Program Strategies for Meeting the Needs of Persons with Disabilities

In order to meet the needs of persons with disabilities and meet the goals outlined above, TDHCA has developed the following strategies.

Promoting Independence Advisory Board

With the advent of the *Olmstead* decision, the Health and Human Services Commission (HHSC) initiated the Promoting Independence Initiative and appointed the Promoting Independence Advisory Board, as directed by then-Governor George Bush's Executive Order GWB 99-2. The Promoting Independence Advisory Board (PIAB) assists the HHSC in creating the State's response to the *Olmstead* decision through the biannual Promoting Independence Plan. This plan highlights the State's efforts to assist those individuals desirous of community placement, appropriate for community placement as determined by the state's treatment professionals, and who do not constitute a fundamental alteration in the state's services, to live in the community. TDHCA attends and participates in PIAB meetings and is a member of the Housing subcommittee.

Project Access

TDHCA has taken a leadership role in the provision of funding for rental assistance to address the housing needs of persons seeking community-based alternatives to institutionalization. In FY 2002, TDHCA received 35 Section 8 Housing Choice rental vouchers to administer to the *Olmstead* population as part of a national pilot called "Project Access." As of July 2006, all vouchers have been issued, and 56 recipients through voucher recycling have made the transition from a nursing facility into their own home.

Integrated Housing Rule

An issue of particular concern for advocates for persons with disabilities involved the Department's policies related to integrated housing. Integrated housing, as defined by SB 367 and passed by the 77th Texas Legislature, is "housing in which a person with a disability resides or may reside that is found in the community but that is not exclusively occupied by persons with disabilities and their care providers." The Department, with the assistance of the TDHCA Disability Advisory Committee, developed an integrated housing rule to address this concern. In November 2003, the TDHCA Board approved an Integrated Housing Rule for use by all Department housing programs, 10 TAC 1.15. Below is a synopsis of the rule:

- A housing development may not restrict occupancy solely to people with disabilities or people with disabilities in combination with other special needs populations.
    - Large housing developments (50 units or more) shall provide no more than 18 percent of the units of the development set aside exclusively for people with disabilities. The units must be dispersed throughout the development.
    - Small housing developments (less than 50 units) shall provide no more than 36 percent of the units of the development set aside exclusively for people with disabilities. These units must be dispersed throughout the development.
- Set-aside percentages outlined above refer only to the units that are to be solely restricted for persons with disabilities. This section does not prohibit a property from having a higher percentage of occupants that are disabled.
- Property owners may not market a housing development entirely, nor limit occupancy to, persons with disabilities.

Exceptions to the above rule include (1) scattered site development and tenant-based rental assistance is exempt from the requirements of this section; (2) transitional housing that is time-limited with a clear and convincing plan for permanent integrated housing upon exit from the transitional situation; (3) housing developments designed exclusively for the elderly: (4) housing developments designed for other special needs populations; and (5) Board waivers of this rule to further the purposes or policies of Chapter 2306, Texas Government Code, or for other good cause.

HOME Program

Subject to qualified applications, a minimum of 5 percent of the annual HOME Program allocation will be allocated for applicants serving persons with disabilities. This allocation funds applications that serve persons with disabilities and may also be located in a metropolitan participating jurisdiction area (as opposed to the majority of HOME funds, which may only be awarded to non-participating jurisdiction areas). Additionally, the HOME Program has a goal of allocating 20 percent of funds to applications serving persons with special needs.

From 2000 to 2006, TDHCA allocated HOME Program funds for United Cerebral Palsy's Texas Home of Your Own (HOYO) Coalition, which provides assistance to help persons with disabilities purchase a home. HOYO provides homebuyer education, down payment and closing cost assistance, and architectural barrier removal.

For PY 2007, TDHCA will allocate $750,000 for a Persons with Disabilities Single Family Allocation. The allocation will be a statewide competitive application available to organizations serving persons with disabilities with single family activities, including homebuyer assistance, home repair, and tenant-based rental assistance.

HTC Program

HTC developments that are new construction must conform to Section 504 standards, which require that at least 5 percent of the development's units be accessible for persons with physical disabilities and at least 2 percent of the units be accessible for persons with hearing and visual impairments.

HTF Program

Rental developments funded with HTF resources must conform to Section 504 standards.

Multifamily Bond Program

Multifamily Bond Program developments must conform to Section 504 standards.

Comprehensive Energy Assistance Program

Priority for utility assistance through the Comprehensive Energy Assistance Program is given to the elderly, persons with disabilities, and families with young children; households with the highest energy costs in relation to income; and households with high energy consumption. Local providers must implement special outreach efforts for these special needs populations.

Weatherization Assistance Program

Like CEAP, priority for utility assistance through the Weatherization Assistance Program is given to the elderly, persons with disabilities, and families with young children; households with the highest energy costs in relation to income; and households with high energy consumption. Local providers must implement special outreach efforts for these special needs populations.

Other Special Needs Populations

In addition to the homeless, according to HUD, special needs populations include persons with disabilities, the elderly, persons with alcohol and/or drug addictions, persons with HIV/AIDS, and public housing residents. TDHCA also considers colonia residents and migrant farmworkers as special needs populations.

Elderly Populations

According to the 2000 US Census, 9.9 percent (approximately 2 million) of people in Texas are 65 years of age or older. The Texas Department on Aging (TDoA), now part of the Texas Department of Aging and Disability Services, estimates that by the year 2040, individuals age 60 and over will comprise 23 percent of the population in Texas.[70] TDoA reports that females significantly outnumber males age 60 and over and, though the majority of elderly Texans live in urban areas, rural areas have a higher percentage of elderly relative to the local population.[71]

Nationwide, in 2004, the median income for individual elderly males was $21,102, elderly females was $12,080, and families headed by individuals 65 and over was $35,825.[72] According to the 2000 Census, 13.1 percent of seniors age 65 and over in Texas live below the poverty level. Low incomes in addition to rising healthcare costs may make housing unaffordable. Approximately 30 percent of all elderly households pay more than 30 percent of their income on housing, while 14 percent pay more than 50 percent of their income on housing.[73]

The 2003 State of Texas Senior Housing Assessment found that 91 percent of survey respondents expressed a desire to stay in their own homes as long as possible, and two-thirds believed that they would always live in their homes.[74] In 2003, of all elderly households nationwide, 73 percent owned their own homes free and clear.[75] However, elderly homeowners generally live in older homes than the majority of the population; in 2003, the median year of construction for homes owned by elderly households was 1965 and 5.3 percent had physical problems.[76] Due to their age, homes owned by the elderly are often in need of repair and weatherization.

Some elderly households may require in-house services such as medical treatment, meal preparation, or house cleaning. Community Care Services, administered by the Texas Department of Aging and Disability Services, provides services to meet the needs of elderly and disabled Texans avoiding premature nursing home placement, and proves to be more cost-effective than nursing home care. Statistics show that in

[76] US Department of Health and Human Services, *A Profile on Older Americans: 2005*, 11.

fiscal year 2003, 65,202 nursing facility clients were assisted at an annual cost of $1,814,420,111, and 150,696 Community Care Services clients were at an annual cost of $1,332,477,707.[77] Though Medicaid covers nursing home care as well as assisted-living services, such assisted-living services are limited and waiting lists can be lengthy, which can prematurely place low income seniors in nursing home facilities.

Frail Elderly Persons

Frail elderly persons are defined as elderly persons who are unable to perform at least three activities of daily living. Activities of daily living include eating, dressing, bathing. According to the 2000 Census, 400,099 persons aged 65 to 74 (out of 1,131,163) have a disability as defined by the US Census, and 479,879 persons over the age of 75 (out of 835,109 total) have a disability as defined by the US Census. This population will require medical and social services; varying degrees of assistance are needed to maintain self-sufficiency and delay the need for nursing home care.

Alcohol and Drug Addiction

In 2001, the Texas Commission on Alcohol and Drug Abuse (TCADA), now part of the Texas Department of State Health Services (DSHS), estimated that approximately 1.8 million, or 12 percent, of adults in Texas have an alcohol-related problem, another 227,000 have drug-related problems, and an additional 495,000 have both alcohol and drug-related problems.[78] Of the 56,858 total admissions to DSHS-funded treatment programs during 2005, admitted individuals were 58.3 percent male with an average age of 31.6, an average 11th grade education, and an average annual income of $5,753.[79] Furthermore, 22.4 percent were employed, 9.7 percent were homeless, 52.4 had family or marital problems, and 45 percent reported psychological and emotional problems. The population of persons with alcohol or other drug addiction is diverse and often overlaps with the mentally disabled or homeless populations.

Supportive housing programs needed for persons with alcohol and/or other drug addiction problems range from short-term, in-patient services to long-term, drug-free residential housing environments for recovering addicts. Better recovery results may be obtained by placing individuals in stable living environments.

Persons with HIV/AIDS

Human Immunodeficiency Virus, or HIV, is the virus that causes AIDS (Acquired Immunodeficiency Syndrome). HIV infects cells and attacks the immune system, which weakens the body and makes it especially susceptible to other infections and diseases. According to DSHS, in 2005, there were 56,012 reported persons living with HIV/AIDS in Texas.[80] The majority of these cases were located in Bexar, Dallas, Harris, Tarrant, and Travis Counties. Because of increased medical costs or the loss of the ability to work, people with HIV/AIDS may be at risk of losing their housing arrangements.

DSHS addresses the housing needs of AIDS patients through the Housing Opportunities for Persons with AIDS Program (HOPWA), which is a federal program funded by HUD. In Texas, HOPWA funds provide emergency housing assistance, which funds short-term rent, mortgage, and utility payments to prevent homelessness; and tenant-based rental assistance, which enables low income individuals to pay rent and utilities until there is no longer a need or until they are able to secure other housing. In addition to the TDH statewide program, the cities of Austin, Dallas, Fort Worth, Houston, and San Antonio receive HOPWA funds directly from HUD.

Public Housing Residents

According to 2004 HUD data, there are 61,127 units of public housing and 141,982 Section 8 Housing Choice Vouchers in Texas.[81]

TDHCA believes that the future success of public housing authorities (PHAs) will center on ingenuity in program design, emphasis on resident participation towards economic self-sufficiency, and partnerships with other organizations to address the needs of this population. While TDHCA does not have any direct or indirect jurisdiction over the management or operations of public housing authorities, it is important to maintain a relationship with these service providers.

TDHCA has developed a strong relationship with the Texas Housing Association and the Texas chapter of the National Association of Housing and Redevelopment Officials, which represent the public housing authorities of Texas. TDHCA has worked to promote programs that will repair substandard housing and develop additional affordable housing units.

In 1999, TDHCA, as required by 24 CFR §903.15, started a certification process to ensure that the annual plans submitted by public housing authorities in an area without a consolidated plan are consistent with the State's *Consolidated Plan*.

In an effort to keep public housing residents aware of State programs that might affect them, TDHCA sends notice of public comment periods and hearings regarding the *State of Texas Low Income Housing Plan and Annual Report* and the *State of Texas Consolidated Plan* to all Texas PHAs. PHA staff are targeted by the Texas Statewide Homebuyer Education Program (TSHEP) for training to provide self-sufficiency tools for tenants.

TDHCA served on the Project Advisory Committee with the Coalition of Texans with Disabilities, Texas Council for Developmental Disabilities, Advocacy Inc., and United Cerebral Palsy to oversee a three-year grant to provide training and technical assistance to PHAs. Activities of the grant were intended to result in a measurable increase in the number of integrated housing units available to persons with disabilities.

Colonia Residents

According to Section 2306.581 of the Texas Government Code:

> "Colonia" means a geographic area located in a county some part of which is within 150 miles of the international border of this state and that

[81] HUD, "Public Housing Agency (HA) Profiles" http://www.hud.gov/offices/pih/systems/pic/haprofiles/index.cfm (accessed October 30, 2004).

- has a majority population composed of individuals and families of low income and very low income, based on the federal Office of Management and Budget poverty index, and meets the qualifications of an economically distressed area under Section 17.921, Water Code; or
- has the physical and economic characteristics of a colonia, as determined by the department.

The Texas Secretary of State reports that there are more than 2,294 Texas colonias with 400,000 residents.[82] The Texas Office of the Comptroller estimates that median annual incomes for colonia residents range from $7,000 to $11,000.[83] Colonia residents are generally unskilled, lack a formal education, and do not have stable employment. The majority of colonia residents do fieldwork, construction work, or factory work, and the unemployment rate ranges from 20 to 60 percent.[84]

According to 2000 US Census data, colonias have a 75 percent homeownership rate. Despite this rate, however, colonia homes are inadequate; 4.9 percent of colonia dwellings lack kitchen facilities and 5.3 percent lack plumbing facilities. Some of these properties may have been purchased with contracts for deed, which are seller-financed transactions that do not transfer the title and ownership of the property to the buyer until the purchase price is paid in full.

Colonia residents have several needs that include increased affordable housing opportunities, such as down payment assistance and low-interest-rate loans, homeowner education, construction education and assistance, owner-occupied home repair, access to adequate infrastructure, and the conversion of remaining contracts for deed to conventional mortgages.

Migrant Farmworkers

According to the US Department of Health and Human Services *Migrant and Seasonal Farmworker Enumeration Profiles Study*, a seasonal farmworker describes an individual whose principal employment (at least 51 percent of time) is in agriculture on a seasonal basis and who has been so employed within the preceding twenty-four months; a migrant farmworker meets the same definition, but establishes temporary housing for purposes of employment.[85] The US Department of Health and Human Services estimates that there are 362,724 migrant and seasonal farm workers and families residing in Texas.[86] Of this population, 26 percent reside in Cameron, Hidalgo, and Starr Counties.

The National Agricultural Workers Survey, a national survey of 4,199 farmworkers conducted between 1997 and 1998, found that 61 percent lived below the poverty level.[87] The median annual income for

[87] US Department of Labor, Office of the Assistance Secretary for Policy, and Aguirre International, *Findings from the National Agricultural Workers Survey (NAWS) 1997-1998: A Demographic and Employment Profile of United States*

individual workers was less than $7,500 and migrant families earned less than $10,000. Sixty percent of workers held only one farm job, which lasted only 24 weeks out of the year. Despite the short employment duration and low incomes, only 20 percent of workers received unemployment benefits and 10 percent received Medicaid or food stamps.

Farmworkers have a particularly difficult time finding available, affordable housing because of extremely low and sporadic incomes and mobility. Many of the small, rural communities where migrant workers may seek employment do not have the rental units available for the seasonal influx. Overcrowding and substandard housing are significant housing problems for farmworkers.[88] In addition, migrant workers may not be able to afford security deposits, pass credit checks, or commit to long-term leases.

In HB 1099, the 79th Texas Legislative Session transferred the license and inspection of migrant farmworker housing facilities from the Texas Health and Human Services Commission to TDHCA. Additionally, the bill directs TDHCA to complete a study on quantity, availability, need, and quality of migrant farm labor housing facilities in Texas. Contact the TDHCA Division of Policy and Public Affairs at (512) 475-3975 for a copy of this report.

Rural Needs

As the migration of populations and industries continues to urban and suburban areas, the less-populous areas of the state are left with a dilapidated housing stock and households with lower incomes than their urban or suburban counterparts. According to HUD, for FY 2006, the median income for Texas metropolitan statistical areas is $56,600 compared to $43,100 for non-metro households.[89]

Due to the lower incomes and lack of access to resources (e.g., bonds, large tax base, and investment capital) in less-populous areas, TDHCA gives special consideration to lower income individuals and households residing in rural areas. This focus is considered in the development of Department programs and in the distribution of associated funds. In the event that funding cannot be limited to rural areas because of rule or financial feasibility reasons, scoring criteria or set-asides are added to the applications or program rules to encourage the participation of these areas.

The Department works closely with several rural-based affordable housing organizations, private lenders, nonprofits, and units of local government in order to give funding priority to non-PJ and rural areas. It requires more effort to spark affordable housing activity in rural areas as the number of organizations available to assist with these activities is significantly fewer. With this in mind, the Department has developed specific strategies to address the needs of the rural populations of the state, which include rural set-asides or special scoring criteria for housing program funds, prioritization of activities that are most needed in rural areas, increasing awareness of TDHCA programs in rural areas, and building the capacity of rural service providers.

Farmworkers, by Kala Mehta et al. (Washington, DC: US Department of Labor, March 2000), vii, http://www.dol.gov/asp/programs/agworker/report_8.pdf (accessed August 9, 2006).

89 HUD, "Estimated Median Family Incomes for FY 2006," http://www.huduser.org/datasets/il/il06/MedianNotice_2006.pdf (accessed July 28, 2006).

The TDHCA HOME Program requires that 95 percent of funding be allocated to non-participating jurisdiction areas. Participating jurisdictions (PJs) are typically larger metropolitan cities and more populous counties designated by HUD to receive HOME Program funds directly from the federal government. Because these PJs receive HOME funding directly, TDHCA directs its HOME Program allocation to non-PJ areas of the state, which are more rural areas. The remaining 5 percent of HOME funds may be expended in a participating jurisdiction (PJ), but only if it funds a multifamily activity that serves persons with disabilities, unless otherwise approved by the Board.

Section 2306.111(d) of the Texas Government Code requires that the TDHCA Regional Allocation Formula consider rural and urban/exurban areas in its distribution of program funding. Because of this, allocations for the HTC and HOME programs in allocated by rural and urban/exurban areas within each region. For more information, see "TDHCA Allocation Formulas" in this section.

TDHCA and the Office of Rural Community Affairs (ORCA) jointly administer the HTC Program rural regional allocation. ORCA assists in developing all thresholds, scoring, and underwriting criteria for rural regional allocation, and must approve the criteria. ORCA also participates in the evaluation and site inspection of rural developments proposed under the rural allocation.

The TDHCA Section 8 Housing Choice Voucher Program specifically serves households in small cities and rural communities that are not served by similar local or regional housing voucher programs.

Energy Efficiency

Energy and water costs are often the largest single housing expense after food and shelter for lower income families. Utility costs typically represent 13 to 44 percent of lower income annual gross incomes and can account for nearly one-fourth of total housing costs. Proper use of existing technologies and management practices can reduce these utility costs significantly at a relatively low initial cost, thereby greatly increasing housing affordability for low and moderate income families.

The Department encourages, in each uniform state service region, energy efficiency in the construction of affordable housing by offering training, workshops, conferences, and other opportunities to learn about energy efficiency construction, and by encouraging applicants for Department programs to consider energy efficiency in their developments.

HOME Program applicants are required to certify that the development will be equipped with energy-saving devices that meet the 2000 IECC, which is the standard statewide energy code adopted by the state energy conservation office, unless historic preservation codes permit otherwise for a development involving historic preservation. In addition, applicants may qualify for points for the use of energy efficient alternative construction materials, 14 SEER HVAC or evaporative coolers in dry climates for new construction or radiant barrier in the attic for rehabilitation, and Energy Star or equivalently rated kitchen appliances.

The HTC Program requires applicants to adhere to the statewide energy code and also gives points for the use of energy-efficient alternative construction materials including R-15 wall and R-30 ceiling insulation, structurally insulated panels, and 14 SEER (seasonal energy efficiency ratio) cooling units.

The Weatherization Assistance Program allocates funding regionally, to help households in each region control energy costs through the installation on weatherization measures and energy conservation education. Weatherization services include the installation of storm windows, attic and wall insulation, and weather-stripping and sealing.

LEAD-BASED PAINT

The Consumer Product Safety Commission banned the use of lead-based paint in housing in 1978. According to the 2000 Census, there are 3,344,406 housing units in Texas that were built before 1979, many of which potentially contain lead-based paint. Of these homes, 2,764,745 are occupied by low income households and 579,661 are occupied by moderate income households. According to the National Safety Council, approximately 38 million US homes contain lead paint.[90]

The 1992 Community and Housing Development Act included Title X, a statute that represents a major change to existing lead-based paint regulations. HUD's final regulations for Title X (24. CFR.105) were published on September 15, 1999, and became effective September 15, 2000. Title X calls for a three pronged approach to target conditions that pose a hazard to households: (1) notification of occupants about the existence of hazards so they can take proper precautions, (2) identifications of lead-based paint hazards before a child can be poisoned and, (3) control of these lead-based paint hazards in order to limit exposure to residents. Title X mandated that HUD issue "The Guidelines for the Evaluation and Control of Lead-Based Paint Hazards in Housing" to outline risk assessments, interim controls, and abatement of lead-based paint hazards in housing. Section 1018 required EPA and HUD to promulgate rules for disclosure of any known lead-based paint or hazards in target housing offered for sale or lease. These rules came into effect on March 6, 1996, in 40 CFR Part 745/24 CFR Part 35.

Pursuant to Section 1012 and 1013, HUD promulgated new regulations, "Requirements for Notification, Evaluation, and Reduction of Lead-Based Paint Hazards in Federally Owned Residential Property and Housing Receiving Federal Assistance," on September 15, 1999. The new regulation puts all of HUD's lead-based paint regulations in one part of the Code of Federal Regulations. The new requirements took effect on September 15, 2000.

The HOME Program, administered by TDHCA, requires lead screening in housing built before 1978. Requirements for acquisition and tenant-based rental assistance activities are distribution of the pamphlet "Protect Your Family from Lead in Your Home" prior to receipt of assistance; notification to property owners within 15 days if a visual assessment observes chipping, peeling or flaking paint; and, if detected, the paint must be stabilized using safe work practices and clearance must be provided.

Requirements for rehabilitation activities fall into three categories:
1) Federal assistance up to and including $5,000 per unit: Distribution of the pamphlet "Protect Your Family from Lead in Your Home" is required prior to renovation activities; notification within 15 days of lead hazard evaluation, reduction, and clearance must be provided; receipts for notification must be maintained in the administrator file; paint testing must be conducted to identify lead-based paint on painted surfaces that will be disturbed or replaced or administrators may assume that lead-based paint

[90] National Safety Council, "Lead Poisoning," (December 2004) http://www.nsc.org/library/facts/lead.htm (accessed August 9, 2006).

exist; administrators must repair all painted surfaces that will be disturbed during rehabilitation; if lead-based paint is assumed or detected, safe work practices must be followed; and clearance is required only for the work area.

2) Federal assistance from $5,000 per unit up to and including $25,000 per unit: This category includes all the requirements for federal assistance up to and including $5,000 per unit with the addition of a risk assessment must be conducted prior to rehabilitation to identify hazards in assisted units, in common areas that serve those units, and exterior surfaces, or administrators can assume lead-based paint exists. Clearance is required for the completed unit, common areas which serve the units, and exterior surfaces where the hazard reduction took place.

3) Federal assistance over $25,000 per unit: This category includes all the requirements for federal assistance from $5,000 per unit up to and including $25,000 per unit and, if during the required evaluations lead-based paint hazards are detected on interior surfaces of assisted units, on the common areas that serve those units, or on exterior surfaces including soils, then abatement must be completed to permanently remove those hazards. If lead-based paint is detected during the risk assessment on exterior surfaces that are not disturbed by rehabilitation, then interim controls may be completed instead of abatement.

Disaster Initiatives

Texas saw a variety of major disasters in 2005 and 2006. In August 2005, Hurricane Katrina made landfall in Louisiana, and then in September 2005, Hurricane Rita made landfall near Sabine Pass on the southeast Texas Gulf coast. Texas experienced an influx of evacuees from Louisiana escaping Hurricane Katrina, and over 75,000 homes in southeast Texas were severely damaged or destroyed as a result of Rita. According to the Federal Emergency Management Agency (FEMA), 640,968 Katrina and Rita applicants for assistance were residing in Texas as of February 1, 2006. In addition to the hurricanes, Texas also experienced several wildfires and wildfire threats as the result of dry, hot weather conditions. In January 2006, FEMA made a disaster declaration identifying an Extreme Wildfire Threat for all 254 Texas counties, and individual assistance for those counties experiencing fires.

In the event of future disasters in FY 2007 and beyond, TDHCA is committed to quickly, efficiently, and responsibly locating funds and developing programs and initiatives to assist affected households and communities. TDHCA performed the following in 2005 and 2006 in response to the disasters described above.

Community Development Block Grant Disaster Recovery Funds

As the lead agency in partnership with ORCA, TDHCA administers the Community Development Block Grant (CDBG) disaster recovery funding awarded to Texas under the Department of Defense Appropriations Act, 2006. A total of $74.5 million was awarded to Texas to rebuild the southeast Texas region devastated by Hurricane Rita. In July 2006, the TDHCA Board approved awards to four councils of governments (COGs) in the region to rebuild damaged homes, and five COGs will receive funds for infrastructure repairs. Of all funds awarded, 56.8 percent will be dedicated to housing activities including home rehabilitation, reconstruction, and other eligible activities to help the residents of southeast Texas recover from this disaster. In August 2006, HUD announced that Texas would receive an additional $428 million in CDBG disaster funding to promote long-term recovery in the area.

HOME Program

In January 2006, TDHCA, released a NOFA for $8.3 million in federal HOME Investment Partnerships Program funds for the repair or reconstruction of homes damaged by Hurricane Rita. These funds were obtained through a HUD waiver that allows the use of program year PY 2005 and 2006 CHDO set-aside funds for disaster relief efforts. An additional NOFA announcing $4.2 million in Hurricane Rita Disaster Relief funds was released in August 2006.

Under the HOME Program, funds are available to assist with disaster recovery in accordance with the de-obligation policy as passed by the TDHCA Governing Board on Janurary 17, 2002. The policy was created to address the re-obligation or de-obligation of unexpended HOME funds and program income. Eligible activities are prioritized in the following order: successful appeals, disaster relief, special needs, colonias, and other projects/uses as determined by the Executive Director and/or Board. For disaster purposes, de-obligated HOME Program funds are used for all weather-related disasters including but not limited to disasters as a result of floods, fires, hurricanes, tornadoes, and excessive wind damage. Applications are funded on a first-come, first-serve basis with priority given to state-recognized disasters.

HTC Program

In January 2006, TDHCA issued a NOFA related to Housing Tax Credits authorized through HR 4440, also known as the Gulf Opportunity Zone Act of 2005. This act amended the Internal Revenue Code of 1986 to provide tax benefits for certain areas affected by Hurricane Rita. The Act provided for an increase of $3,500,000 in the 2006 Housing Tax Credit Ceiling for the State of Texas. TDHCA determined that it would allocate that $3,500,000 solely in 21 of the 22 impacted counties for rehabilitation, reconstruction, or replacement new construction of rental units.

HTF

In August 2006, TDHCA released $1 million in Housing Trust Funds through the HTF Hurricane Rental Relief Program to finance the rehabilitation of qualified affordable housing developments in the Department's existing rental portfolio that received damage from Hurricane Rita.

Single Family Bond

In February 2006, TDHCA announced the release of $16 million in home loans made available to qualified homebuyers wishing to purchase a home within targeted areas including the 22 East Texas counties designated under the Gulf Opportunity Zone Act of 2005. In June 2006, an additional $108 million in First Time Homebuyer Program funds were released for use in the targeted 22-county area known as the Rita Go Zone.

Office of Colonia Initiatives

In December 2005, TDHCA released a NOFA for approximately $1,800,000 of State of Texas Housing Trust Funds to organizations assisting individuals or families that were victims of Hurricane Rita to purchase or refinance real property on which to build new residential or improve existing residential housing through self-help construction for very low and extremely low income individuals and/or families (owner-builders), including persons with special needs.

Community Affairs Division

In immediate response to the hurricanes, the Community Affairs Division released an additional $680,000 in CSBG funding to help with emergency needs as a result of the disasters. By October 2005, over 80,000 individuals were assisted through local community action agencies with this additional disaster funding.

TDHCA PROGRAM PLANS

With the exception of the Housing Trust Fund, TDHCA receives the majority of its funding from federal sources. As such, the amount of funding that TDHCA receives is predetermined by the federal funding source. TDHCA has a commitment to expend all available housing resources to address the housing needs of the state. However, as evidenced by the oversubscription rate for many TDHCA programs, even when expending all available funding, there is still an unmet need.

Because of the limited amount of TDHCA funding and the possibility that funding levels may change, TDHCA encourages, and in some cases requires, that entities receiving TDHCA funds leverage or match those awards with additional funds from other sources. For example, the HOME Program and ESGP have match requirements for entities receiving awards through those programs.

Through program requirements and compliance monitoring, TDHCA works to ensure that housing programs benefit individuals without regard to race, ethnicity, sex, or national origin, as outlined in 10 TAC 1.60. Complaints involving all forms of housing discrimination are also referred to the Texas Workforce Commission Human Rights Division, which oversees the Texas Fair Housing Act. Additionally, it is the policy of TDHCA to not require its nonprofit recipients of funds to verify, as a condition of receiving federal funds, the citizenship or immigration status of applicants for funds. This policy is subject to change if the US Department of Housing and Urban Development revises its policy. This policy does not apply to the Section 8 Housing Choice Voucher Program.

The following TDHCA programs govern the use of available housing resources in meeting the housing needs of low income Texans. Program descriptions include information on the funding source, type of assistance, recipients, targeted beneficiaries, program activities, set-asides, and special initiatives.

HOME INVESTMENT PARTNERSHIPS PROGRAM

The HOME Investment Partnerships (HOME) Program receives funding from the US Department of Housing and Urban Development (HUD) and provides loans and grants to units of local government, public housing authorities (PHAs), community housing development organizations (CHDOs), nonprofit organizations, and for-profit entities, with targeted beneficiaries being low, very low, and extremely low income households. The purpose of the HOME Program is to expand the supply of decent, safe, and affordable housing for extremely low, very low, and low income households, and to alleviate the problems of excessive rent burdens, homelessness, and deteriorating housing stock. HOME strives to meet both the short-term goal of increasing the supply and the availability of affordable housing and the long-term goal of building partnerships between state and local governments and private and nonprofit organizations in order to strengthen their capacity to meet the housing needs of lower income Texans.

The State of Texas receives an annual allocation of HOME funds from HUD. TDHCA provides technical assistance to all recipients of the HOME Program to ensure that all participants meet and follow state implementation guidelines and federal regulations. In 2003, the Texas Legislature passed Senate Bill 264 (amending Sec. 2306.111 of the Government Code), which mandated that TDHCA allocate housing funds awarded after September 1, 2003, in the HOME, Housing Trust Fund, and HTC programs to each Uniform State Service Region using a formula for urban/exurban and rural, developed by the Department, based on need for housing assistance. Please see “2007 Regional Allocation Formula” in this section for further explanation.

The Department anticipates using open funding cycles for programs that have traditionally been undersubscribed. These may include but are not limited to the CHDO Set-Aside, Contract for Deed Conversion, Rental Housing Preservation, and Rental Housing Development activities.

Eligible Service Areas

Per Section 2306.111(c) the Department shall expend at least 95 percent of HOME funds for the benefit of non–participating jurisdictions (non-PJ) areas of the state. The remaining 5 percent of HOME funds may be expended in a participating jurisdiction (PJ), but only if the funding serves persons with disabilities. Multifamily developments serving persons with disabilities must be in compliance with the Department’s Integrated Housing Rule.

Owner-Occupied Housing Assistance

Rehabilitation or reconstruction cost assistance is provided to homeowners for the repair or reconstruction of their existing homes. The homes must be the principal residence of the homeowner. This activity will comprise approximately 75 percent of the HOME allocation that will be available through the Regional Allocation Formula process, approximately $16,950,000.

Tenant-Based Rental Assistance

Rental subsidy and security and utility deposit assistance is provided to eligible tenants, in accordance with written tenant selection policies, for a period not to exceed twenty four months. Tenant-based Rental Assistance (TBRA) allows the assisted tenant to live in and move to any dwelling unit with a right to continued assistance. TBRA will comprise approximately 15 percent of the HOME allocation that will be available through the Regional Allocation Formula process, approximately $3,390,000.

Homebuyer Assistance

Down payment and closing cost assistance is provided to homebuyers for the acquisition of affordable single family housing. This activity may also be used for construction costs associated with architectural barrier removal in a home purchased with HOME assistance to meet the accessibility needs of homebuyers with disabilities; acquisition and rehabilitation costs associated with contract for deed conversions to serve colonia residents; and construction costs associated with the rehabilitation of a home purchased with HOME assistance. Excluding set-aside funds listed below, this activity will comprise approximately 10 percent of the HOME allocation that will be available through the Regional Allocation Formula process, approximately $2,260,000.

Homebuyer Assistance may be awarded through the CHDO Set-Aside, Contract for Deed Set-Aside, and American Dream Downpayment Initiative.

Rental Housing Development

Awards for eligible applicants are to be used for the development of affordable rental housing. Owners are required to make the units available to extremely low, very low, and low income families, and must meet long-term rent restrictions. Approximately $3,000,000 in FY 2007 appropriations will be allocated toward this activity. These funds will be subject to the Regional Allocation Formula.

Rental Housing Preservation

Awards for eligible applicants are to be used for the acquisition and/or rehabilitation for the preservation of existing affordable or subsidized rental housing. Owners are required to make the units available to extremely low, very low, and low income families and must meet long-term rent restrictions. Approximately $2,000,000 in FY 2007 appropriations will be allocated toward this activity. These funds will be subject to the Regional Allocation Formula.

Set-Asides & Initiatives

American Dream Downpayment Initiative (ADDI)

ADDI is a federal requirement that was signed into law on December 16, 2003, and was created to help homebuyers with down payment and closing cost assistance. ADDI aims to increase the homeownership rate, especially among lower income and minority households, and revitalize and stabilize communities.

Under ADDI, a first time homebuyer is an individual and his or her spouse who have not owned a home during the three year period prior to the purchase of a home with assistance under ADDI. The term also includes displaced homemakers and single parents. The minimum amount of ADDI funds in combination with HOME funds that must be invested in a project is $1,000. The amount of ADDI assistance provided to any family may not exceed the greater of 6 percent of the purchase price of a single family housing unit or $10,000. This assistance is in the form of a second- or third-lien loan.

For PY 2007, approximately $650,000 is reserved for down payment assistance and may, at the discretion of the Department, include funds for rehabilitation for first time homebuyers in conjunction with home purchases assisted with ADDI funds. The rehabilitation may not exceed 20 percent of the annual ADDI allocation. For PY 2007, ADDI funds are included in the 10 percent allocated for Homebuyer Assistance.

CHDO Set-Aside

A minimum of 15 percent, approximately $6,000,000 (plus $300,000 in CHDO operating expenses) of the annual HOME allocation is reserved for Community Housing Development Organizations (CHDOs). CHDO set-aside projects are owned, developed, or sponsored by the CHDO, and result in the development of units or homeownership. Development includes projects that have a construction component, either in the form of new construction or the rehabilitation of existing units.

In accordance with 24 CFR 92.208, up to 5 percent of the Department's HOME allocation will be used for the operating expenses of CHDOs. The Department may award CHDO Operating Expenses in conjunction with the award of CHDO Development Funds, or through a separate application cycle not tied to a specific activity. In addition, TDHCA may elect to set aside up to 10 percent of funding for predevelopment loans funds, which may only be used for activities such as project-specific technical assistance, site control loans, and project-specific seed money.

Contract for Deed Conversions Set-Aside

The purpose of this program is to help Colonia residents become property owners by converting their contracts for deed into traditional mortgages. To assist the Department in meeting this mandate, $2,000,000 of PY 2007 HOME Program funds will be targeted to assist households described under this initiative. These funds will not be subject to the Regional Allocation Formula.

Colonia Model Subdivision Loan Program Set-Aside

Per Subchapter GG of Chapter 2306, Texas Government Code, the intent of this program is to provide low-interest-rate or possible interest-free loans to promote the development of new, high-quality residential subdivisions or infill housing that provide alternatives to substandard colonias, and housing options affordable to individuals and families of extremely low and very low income who would otherwise move into substandard colonias. The Department will only make loans to CHDOs certified by the Department and for the types of activities and costs described under the previous section regarding CHDO Set-Aside. $1,000,000 dollars will be targeted to assist households described under this initiative. These funds will not be subject to the Regional Allocation Formula.

Persons with Disabilities

In administering federal housing funds provided to the state under the Cranston-Gonzalez National Affordable Housing Act (42 USC Section 12701 et. seq.), the Department shall expend at least 95 percent of these funds for the benefit of non-participating areas that do not qualify to receive funds under the Cranston-Gonzalez National Affordable Housing Act directly from the United States Department of Housing and Urban Development. All funds not set aside under this subsection shall be used for the benefit of persons with disabilities, and may be used to serve persons with disabilities in both participating and non-participating jurisdiction areas. Eligible applicants include nonprofits, for-profits, units of general local government, and public housing authorities with a documented history of working with special needs populations, or working in partnership with organizations with a documented history of working with special needs populations.

TDHCA will ensure that all housing developments are built and managed in accordance with its Integrated Housing Rule. Multifamily developments will be limited to reserving no more than 18 percent of the units in developments with 50 or more units, and no more than 36 percent of the units in developments with less than 50 units, for persons with disabilities.

For program year 2007, the Department will reserve $750,000 for the Persons with Disabilities Single Family Allocation, to be awarded to organizations serving persons with disabilities. These funds will be awarded through a competitive application and available statewide, subject to the Regional Allocation Formula. Funds will be awarded to single family projects that serve persons with disabilities, including homebuyer assistance, owner-occupied rehabilitation, and tenant-based rental assistance. Projects may be located statewide, including in participating jurisdictions. Organizations receiving an award under this allocation will receive an additional 4 percent of the total project funds for administrative costs.

Additionally, in accordance with 10 TAC 53.61, applicants applying for HOME funds under the Owner-Occupied Housing Assistance and Tenant-Based Rental Assistance programs must propose targeting at least 5 percent of the number of units proposed in the application, to persons who meet the definition of persons with disabilities. A waiver of this requirement may be requested by the applicant to the Department, if applicant is unable to document persons with disabilities that meet the HOME eligible requirements.

Special Needs Populations

Subject to the availability of qualified applications, TDHCA has a goal of allocating 20 percent of the annual HOME allocation to applicants serving persons with special needs. All HOME program activities will be included in attaining this goal. Additional scoring criteria may be established under each of the eligible activities to target such activities and assist the Department in reaching its goal.

Regional Allocation Formula

In accordance with Senate Bill 264, TDHCA allocates HOME Program funds to each region using a need-based formula developed by the Department. Please see "2007 Regional Allocation Formula" in this section for further explanation. Using the 2007 Regional Allocation Formula, each region will receive the following amount of funding for use with activites subject to the formula. Funding figures will be included in the final document.

HOME Program RAF

Region	Large MSA within Region for Geographical Reference	Regional Funding Amount	Regional Funding %	Rural Funding Amount	Rural Funding %	Urban/ Exurban Funding Amount	Urban/ Exurban Funding %
1	Lubbock	TBD	TBD	TBD	TBD	TBD	TBD

HOME Program funding for FY 2007

The amount projected to be available from HUD in FY 2007 is $40,000,000. This is comprised of $39,350,000 of HOME funds plus $650,000 of ADDI funds. On February 15, 2006, the TDHCA Board approved the State HOME rules, 10 TAC 53. As part of this approval, applications submitted for Single Family non-development activities under a competitive application cycle may be accepted, reviewed, and recommended for an award, on an annual or biennial funding cycle. In FY 2006, HOME funds will be recommended for an award through a biennial funding cycle, and will include FY 2007 HOME funds.

Figure 4.1: 2007 HOME Program Funding

TDHCA will use the following method for allocating funds.

	Estimated Available Funding	% of Total HOME Allocation
Administration Funds (10% of PY 2007)[1]	$4,000,000	10.0%
CHDO Project Funds Set Aside (15% of PY 2007)[1, 2]	$6,000,000	15.0%
CHDO Operating Expenses Set Aside (5% of CHDO Set Aside)[1]	$300,000	0.8%
Persons with Disabilities Single Family Allocation	$750,000	1.9%
Set Aside for Contract for Deed Conversions	$2,000,000	5.0%
Set Aside for Rental Housing Preservation Program	$2,000,000	5.0%
Set Aside for Rental Housing Development Program	$3,000,000	7.5%
Funds for Eligible Single Family Activities	$21,950,000	54.9%
Total PY 2007 HOME Allocation	$40,000,000	100%
PY 2007 American Dream Downpayment Initiative Funds	$650,000	
Total 2007 Funding	$40,650,000	

[1]The funding for these activities is not subject to the Regional Allocation Formula.

[2]$1,000,000 will be reserved from this set-aside for the Colonia Model Subdivision Program. If sufficient applications are not received for this activity, the remaining funds will be used for other CHDO-eligible activities. The Department may set aside 10% of the annual CHDO set-aside for Predevelopment Loans.

The following targets will be used to distribute HOME funding for single family activities (PY 2007 HOME Allocation Single Family funds and American Dream Downpayment Initiative funds).

Activity	Funding Amount	% of Single Family Funding
Homebuyer Assistance	$2,260,000	10%
Owner-Occupied Housing Assistance	$16,950,000	75%
Tenant Based Rental Assistance	$3,390,000	15%
Total Single Family Activity Funding	$22,600,000	100%

For more information regarding single family activities, contact Sandy Garcia, Single Family Finance Production Division, at (512) 475-1391 or sandy.garcia@tdhca.state.tx.us. For multifamily activity information, contact David Danenfelzer, Multifamily Finance Production Division, at (512) 475-3865 or david.danenfelzer@tdhca.state.tx.us.

HOUSING TRUST FUND

The Housing Trust Fund (HTF) receives funding from the State of Texas, multifamily bond issuance fees, loan repayments and other funds that are received and appropriated by the Department, and is the only State-authorized program for affordable housing, as created by the 72nd Legislature. HTF offers loans and grants to nonprofits; units of local government; public housing agencies; CHDOs; and for-profit entities. The targeted beneficiaries of the program are low, very low, and extremely low income households. Eligible program activities for the Housing Trust Fund include, but are not limited to the following:

- the acquisition, rehabilitation, and new construction of affordable rental housing. Refinancing or rehabilitation of properties constructed within the past 5 years and previously funded by the Department are not eligible;
- the acquisition, rehabilitation, and new construction of affordable homeownership developments. Developments may be completed by a contracted developer or through Self-Help Construction.
- tenant-based rental assistance in which the assisted tenant may move from a dwelling unit with a right to continued assistance. Tenant-based rental assistance also includes security and utility deposits for rental of dwelling units;
- predevelopment loans to nonprofit housing development organizations for eligible reimbursable costs associated with the planning and implementation of affordable housing activities;
- credit enhancements or security for repayment of revenue bonds issued to finance affordable housing, including payments or reservations of funds to securitize loan fund investments; and
- technical assistance or other forms of capacity building to nonprofit housing developers.

While all of these are eligible activities under the program's rule, not all of these activities will occur each year and Notices of Funding Availability (NOFAs) will be released identifying the activities for which funds can actually be applied.

Pursuant to §2306.111(d-1) of the Texas Government Code, HTF programs will be regionally allocated unless the funding allocation for that program is mandated by state statute and the program's allocation represents less than 10 percent of the annual allocation for HTF.

Rental Housing Development

Rental Housing Development funds are primarily used to fund the acquisition, construction, and rehabilitation of affordable housing. Housing Trust Funds are typically used as gap financing in developments and combined with other Department programs, like the HOME Program and HTC Program.

Housing units assisted with HTF funds may remain affordable for a period up to 30 years, pursuant to Texas Government Code §2306.185(c). Applications are reviewed in accordance with the Department's applicable rules for either open or competitive application cycles. Rental developments funded with HTF resources must have a minimum of 5 percent of the units accessible for individuals with mobility impairments and an additional 2 percent of the units shall be accessible for individuals with hearing or vision impairments.

Capacity Building and Technical Assistance

The Department provided no funding for Capacity Building or Technical Assistance in FY 2006 due to expanded hurricane relief support. The Department may release a new NOFA in FY 2007, based on the annual funding plan approved by the Department's Board.

Predevelopment Loan Program

The purpose of the Housing Trust Fund Predevelopment Loan Program is to provide opportunities for nonprofits organizations to develop affordable housing by helping to eliminate the barriers predevelopment expenses may pose. To date, the program has managed to create more than $34 million in affordable housing development for an investment of less than $3 million over the past 8 years. The Department anticipates releasing a new NOFA for the program in September 2006.

Texas Bootstrap Loan Program

The Texas Bootstrap Loan Program, as administered by the TDHCA Office of Colonia Initiatives, receives substantial funding from the Housing Trust Fund. This program is not subject to the Regional Allocation Formula, pursuant to §2306.111(d-1) of the Texas Government Code.

Disaster Relief

The Department reserved approximately $2.8 million in HTF funding for the purpose of supporting disaster relief efforts in fiscal year 2006. The Department's Board approved the use of HTF funds for both homeowner assistance and rental rehabilitation activities.

Regional Allocation Formula

In accordance with Senate Bill 264, TDHCA allocates HTF Program funds to each region using a need-based formula developed by the Department. Please see "2007 Regional Allocation Formula" in this section for further explanation.

HTF Program RAF

Projected Housing Trust Fund Funding for FY 2007: TBD

For more information, contact David Danenfelzer, Multifamily Finance Production Division, at (512) 475-3865 or david.danenfelzer@tdhca.state.tx.us.

HOUSING TAX CREDIT PROGRAM

The Housing Tax Credit (HTC) Program receives authority from the US Treasury Department to provide tax credits to nonprofits, for-profit developers, and syndicators or investors. The targeted beneficiaries of the program are very low and extremely low income families at or below 60 percent AMFI. The program's purpose is to encourage the development and preservation of rental housing for low income families, provide for the participation of for-profit and nonprofit organizations in the program, maximize the number of units added to the state's housing supply, and prevent losses in the state's supply of affordable housing.

The HTC Program was created by the Tax Reform Act of 1986 and is governed by the Internal Revenue Code of 1986 (the "Code"), as amended, 26 USC Section 42. It authorizes tax credits in the amount of $1.85 per capita of the state population. Tax credits are also awarded to developments with tax-exempt bond financing and are made independent of the $1.85 state volume cap. TDHCA is the only entity in the state with the authority to allocate tax credits under this program. The State's distribution of the credits is administered by the TDHCA's *Qualified Allocation Plan and Rules* (QAP), as required by the Code. Per Section 2306.67022, the Governor shall approve, reject, or modify and approve the Board-approved QAP not later than December 1 of each year.

In 2003, the Texas Legislature passed Senate Bill 264, which mandated that TDHCA allocate housing funds awarded after September 1, 2003, in the HTC Program to each Uniform State Planning Region using a formula for urban/exurban and rural, developed by the Department, based on need for housing assistance.

To qualify for tax credits, the proposed development must involve new construction or undergo substantial rehabilitation of residential units, which is defined as at least $12,000 per rental unit of construction hard costs, unless financed with TX-USDA-RHS, in which case the minimum is $6,000. The credit amount for which a development may be eligible depends on the total amount of depreciable capital improvements, the percentage of units set aside for qualified tenants, and the funding sources available to finance the total development cost. Pursuant to the Code, a low income housing development qualifies for residential rental occupancy if it meets one of the following two criteria: (1) 20 percent or more of the residential units in the development are both rent-restricted and occupied by individuals whose income is 50 percent or less of AMFI; or (2) 40 percent or more of the residential units in the development are both rent-restricted and occupied by individuals whose income is 60 percent or less of AMFI. Typically, 60 to 100 percent of a development's units will be set aside for qualified tenants in order to maximize the amount of tax credits the development may claim.

Credits from the state volume cap are awarded through a competitive application process. Each application must satisfy a set of threshold criteria and is scored based on selection criteria. The selection criteria referenced in the QAP is approved by the TDHCA Board each year. The board considers the recommendations of the TDHCA staff and determines a final award list. Credits to developments with tax-exempt bond financing are awarded through a similar application review process, but because these credits are not awarded from a limited credit pool, the process is noncompetitive and the selection criteria are not part of the application.

The Department requires recipients of tax credits to document the participation of minority-owned businesses in the development and management of tax credit developments, and has established a minimum goal of 30 percent participation. The selection criteria for 2006 awards extra points to developments owned by historically underutilized businesses (HUBs) or that have a plan in place for utilizing HUBs, and also development location criteria including areas located in colonias. Efforts are made in the planning process and allocation of funds to ensure the involvement of housing advocates, community-based institutions, developers, and local municipalities. The Department also encourages the participation of community development corporations and other neighborhood-based groups.

Regional Allocation Formula

In accordance with Senate Bill 264, TDHCA allocates HTC Program funds to each region using a need-based formula developed by the Department. Please see "2007 Regional Allocation Formula" in this section for further explanation. Using the 2007 Regional Allocation Formula, each region will receive the following amount of funding for use with activites subject to the formula. Funding figures will be included in the final document.

HTC Program RAF

Region	Large MSA within Region for Geographical Reference	Regional Funding Amount	Regional Funding %	Rural Funding Amount	Rural Funding %	Urban/ Exurban Funding Amount	Urban/ Exurban Funding %

Projected HTC Program Funding for FY 2007: $43,000,000

For more information, contact the Multifamily Finance Production Division at (512) 475-3340.

MULTIFAMILY BOND PROGRAM

The Multifamily Bond Program issues tax-exempt and taxable housing mortgage revenue bonds (MRBs) under the Private Activity Bond Program (PAB) to fund loans to nonprofit and for-profit developers. The proceeds of the bonds are used to finance the construction, acquisition, or rehabilitation of multifamily properties with the targeted beneficiaries being very low, low, and moderate income households. Owners elect to set aside units in each development according to §1372, Texas Government Code. Rental developments must comply with Section 504 unit standards. Property owners are also required to offer a variety of services to benefit the residents of the development. Specific tenant programs must be designed to meet the needs of the current tenant profile and must be approved annually by TDHCA.

TDHCA issues tax-exempt, multifamily MRBs through two different authorities defined by the Internal Revenue Code. Under one authority, tax-exempt bonds used to create housing developments are subject to the State's private activity volume cap. The State will allocate 22 percent of the annual private activity volume cap for multifamily developments. Approximately $402 million in issuance authority will be made available to various issuers to finance multifamily developments, of which 20 percent, or approximately $80 million, will be made available exclusively to TDHCA. On August 15th of each year, any allocations in the subcategories of the bond program that have not been reserved pool into one allocation fund. This is an opportunity for TDHCA to apply for additional allocation and which allows TDHCA to issue more bonds than the set-aside of $80 million. PAB Issuance authority per individual development is allocated and administered by the Texas Bond Review Board (BRB). Initially, applications submitted to the BRB are allocated by a lottery. TDHCA, local issuers, local housing authorities, and other eligible bond issuers submit applications for specific developments on behalf of development owners. Applications submitted to TDHCA for the private activity bond 2006 program year will be scored and ranked by priority and highest score. TDHCA will be accepting applications throughout the 2007 program year. Developments that receive 50 percent or more of their funding from the proceeds of tax-exempt bonds under the private activity volume cap are also eligible to apply for Housing Tax Credits.

Deleted:

Deleted:

Deleted:

Deleted:

Deleted:

Under the second authority, TDHCA may issue tax-exempt MRBs to finance properties that are owned entirely by nonprofit organizations. Bonds issued under this authority are exempt from the private activity volume cap. This is a noncompetitive application process and applications may be received at any time throughout the year. In addition to the set-asides above, 75 percent of development units financed under the 501(c)(3) authority must be occupied by households earning 80 percent or less of the area median income.

Projected Multifamily Bond Program Funding for FY 2007: $150,000,000

For more information, contact the Multifamily Finance Production Division at (512) 475-3340.

First Time Homebuyer Program

The First Time Homebuyer Program receives funding from tax-exempt and taxable mortgage revenue bonds. The program offers 30-year fixed-rate mortgage financing at below-market rates for very low, low, and moderate income residents purchasing their first home or residents who have not owned a home within the preceding three years. Qualified applicants access First Time Homebuyer Program funds by contacting any participating lender, which is then responsible for the loan application process and subsequent loan approval. After closing, the lender transfers the mortgage loan to a Master Servicer designated by TDHCA.

The First Time Homebuyer Program provides homeownership opportunities for qualified individuals and families whose gross annual household income does not exceed 115 percent of AMFI (area median family income) limitations, based on IRS adjusted income limits, and the purchase price of the home must not exceed stipulated maximum purchase price limits. Program funds may be allocated on a regional basis based on population percentage per Uniform State Service Region. A minimum of 30 percent of program funds will be set aside to assist Texans earning 60 percent or less of program income limits.

TDHCA currently offers Assisted Mortgage Loans and Non-Assisted Mortgage Loans. The Assisted Mortgage Loans have a slightly higher interest rate than the Non-Assisted Loans and may include down payment and closing cost assistance in the form of a grant or second lien loan. The type of assistance and amount varies by bond issuance. Assisted Mortgage Loans are available exclusively to low income homebuyers earning 60 percent or less or 115 percent or less of program income limits, depending on the program. Non-Assisted Mortgage Loans have a slightly lower interest rate than the Assisted Loans and do not offer down payment or closing cost assistance.

In an effort to assist borrowers with impaired credit histories, the First Time Homebuyer Program may be used in conjunction with Fannie Mae's My Community Mortgage. My Community Mortgage offers flexible terms, including flexibility on credit histories and the acceptance of nontraditional credit histories. These loans may be used with all TDHCA mortgage revenue bond programs, thus giving households with slight credit blemishes the opportunity to qualify for a homebuyer loan with interest rates lower than that of alternative financing arrangements

Income limits for the program are set by the IRS Tax Code (1986) based on income figures determined by the US Department of Housing and Urban Development. The first time homebuyer restriction is established by federal Internal Revenue Service regulations, which also require that program recipients may be subject to a recapture tax on any capital gain realized from a sale of the home during the first nine years of ownership. Certain exceptions to the first time homebuyer restriction, income ceiling, and maximum purchase price limitation apply in targeted areas. Such targeted areas are qualified census tracts in which 70 percent or more of the families have an income of 80 percent or less of the statewide median income and/or are areas of chronic economic distress as designated by the state and approved by the Secretaries of Treasury and Housing and Urban Development, respectively.

Projected Texas First Time Homebuyer Program funding for FY 2007: $125,000,000

For more information, contact Eric Pike, Single Family Finance Production Division, at (512) 475-3356 or eric.pike@tdhca.state.tx.us. To request a First Time Homebuyer information packet, please call 1-800-792-1119.

Grant Assistance Program

The Texas Department of Housing and Community Affairs offers grant funds for down payment and closing cost assistance on a first-come, first-served basis for mortgage loans originated through the First Time Homebuyer Program. The Grant Assistance Program (GAP) currently provides up to 5 percent of the amount of the mortgage loan, but may vary depending on the program. Assistance is available to eligible borrowers whose incomes do not exceed 60 percent or 115 percent AMFI, depending on the program.

Projected Grant Assistance Program funding for FY 2007: Varies by bond issuance.

For more information, contact Eric Pike, Single Family Finance Production Division, at (512) 475-3356 or eric.pike@tdhca.state.tx.us. To request a First Time Homebuyer information packet, please call 1-800-792-1119.

MORTGAGE CREDIT CERTIFICATE PROGRAM

A mortgage credit certificate (MCC) provides a tax credit that will reduce the federal income taxes, dollar-for-dollar, of qualified buyers purchasing a qualified residence. As a result, the MCC effectively reduces the monthly mortgage payment and increases the buyer's disposable income by reducing his or her federal income tax obligation. This tax savings provides a family with more available income to qualify for a loan and meet mortgage payment requirements.

The amount of the annual tax credit will equal 35 percent of the annual interest paid on a mortgage loan; however, the maximum amount of the credit cannot exceed $2,000 per year. The credit cannot be greater than the annual federal income tax liability, after all other credits and deductions have been taken into account. MCC tax credits in excess of a borrower's current year tax liability may, however, be carried forward for use during the subsequent three years.

The MCC Program provides homeownership opportunities for qualified individuals and families whose gross annual household income does not exceed 115 percent of AMFI limitations, based on IRS adjusted income limits. In order to participate in the MCC Program, homebuyers must meet certain eligibility requirements and obtain a mortgage loan through a participating lender. The mortgage loan must be financed from sources other than tax-exempt revenue bonds. The mortgage may be a conventional, FHA, VA, or RHS loan at prevailing market rates, but may not be used in connection with the refinancing of an existing loan.

Projected Mortgage Credit Certificate Program funding for FY 2007: $60,000,000

For more information, contact Eric Pike, Single Family Finance Production Division, at (512) 475-3356 or eric.pike@tdhca.state.tx.us.

LOAN STAR LOAN PROGRAM

The Loan Star Mortgage Program offers conventional, conforming first lien purchase mortgage loans, at market level interest rates, with second lien amortizing loans providing 8 percent down payment assistance. Target populations include low and moderate income households who may or may not have previously owned a home and require down payment assistance and seek minimal paperwork. Participating lenders statewide originate the mortgage loans.

The program is offered in conjunction with CitiMortgage Inc. using external market sources, and is intended to serve segments of the Texas homebuyer market not currently served by TDHCA's present tax-exempt bond program. An essential component of the Loan Star Mortgage Program is the down payment assistance achieved through a Fannie Mae MyCommunity second lien mortgage.

Projected Loan Star Lone Program funding for FY 2007: $20,000,000

For more information, contact Martha Sudderth, Single Family Finance Production Division, at (512) 475-3444 or martha.sudderth@tdhca.state.tx.us.

TEXAS STATEWIDE HOMEBUYER EDUCATION PROGRAM

The Texas Statewide Homebuyer Education Program (TSHEP) offers provider certification training to nonprofit organizations including Texas Agriculture Extension Agents, units of local government, faith-based organizations, CHDOs, community development corporations, community-based organizations, and other organizations with a proven interest in community building. In addition, a referral service for individuals interested in taking a homebuyer education class is available through TDHCA. The targeted beneficiaries of the program include extremely low, very low, low, and moderate income individuals; minority populations; and persons with disabilities.

To ensure uniform quality of the homebuyer education provided throughout the state, TDHCA contracts with training professionals to teach local nonprofit organizations the principles and applications of comprehensive pre- and post-purchase homebuyer education. The training professionals and TDHCA also certify the participants as homebuyer education providers.

Projected Texas Statewide Homebuyer Education Program funding for FY 2007: $70,000.

For more information, contact Alyssa Carpenter, Division of Policy and Public Affairs, at (512) 475-3975 or alyssa.carpenter@tdhca.state.tx.us.

OFFICE OF COLONIA INITIATIVES

In 1996, in an effort to place more emphasis on addressing the needs of colonias, the Office of Colonia Initiatives (OCI) was created and charged with the responsibility of coordinating all Department and legislative initiatives involving border and colonia issues and managing a portion of the Department's existing programs targeted at colonias. The fundamental goal of the OCI is to improve the living conditions and lives of border and colonia residents, and to educate the public regarding the services that the Department has to offer.

"Colonia" is a term borrowed from Spanish that is commonly used in Mexico to describe a type of neighborhood. In the United States, it is a geographic area located within 150 miles of the US-Mexico border that has a majority population comprised of individuals and families of low and very low income who commonly lack one or more public infrastructure services and safe, sanitary, and sound housing.

Border Field Offices

OCI oversees three Border Field Offices (BFOs) located in Edinburg, El Paso, and Laredo that serve a 75-county area with a primary purpose to provide technical assistance to units of local governments, nonprofits, for-profits, colonia residents, and the general public on Department's programs and services through on-site visits and other outreach activities along the Texas-Mexico border region. Each BFO is responsible for marketing Department programs and services to colonia and border residents. In addition, BFOs conduct on-site loan packaging and processing, homebuyer counseling, inspections, and administration of the various contracts regarding the Department's border and colonia initiatives such as the Colonia Self-Help Centers, Contract for Deed Conversion Program, and the Texas Bootstrap Loan Program. This collaboration of efforts serves as a mechanism for community improvements that is responsive to the needs of colonia residents.

Colonia Self-Help Centers

The Colonia Self-Help Center (SHC) program was created in 1995 by the 74th Legislature Senate Bill 1509, Texas Government Code Subchapter Z §2306.581 – §2306.591. Operation of the colonia self-help centers are funded from nonentitlement Community Development Block Grant (CDBG) 2.5 percent colonia set-aside fund, which is approximately $2.2 million per year and are transferred to the Department from the Office of Rural Community Affairs (ORCA) through a Memorandum of Understanding. CDBG funds can only be provided to eligible units of general local governments. The Tex. Gov. Code Ann §2306.582 authorizes the Department to establish SHCs in Cameron/Willacy, Hidalgo, Starr, Webb, and El Paso counties. Additionally, the Department, if it determines it necessary and appropriate, may establish a self-help center in any other county if the county is designated as an economically distressed area by the Texas Department Water Board. Since creation of the program, two additional SHCs have since been established in Val Verde County and Maverick County. The SHC program serves 28 colonias in the five counties designated by statute and two additional counties; the counties have approximately 10,000 colonia residents whom qualify as beneficiaries of these services.

The goal of a SHC is to improve the living conditions of residents in the colonias through key services including concentrated technical assistance in the areas of housing rehabilitation; new construction; surveying and platting; construction skills training; tool library access for self-help construction; housing finance; credit and debt counseling; grant writing; infrastructure constructions and access; contract-for-deed conversions; and capital access for mortgages to improve the quality of life for colonia residents in ways that go beyond the provision of basic infrastructure. Participants in the program must not earn more than 80 percent of the area median family income. Additionally, the properties proposed for this initiative must be located in a colonia area as identified by the Texas Water Development Board colonia list or meet the Department's definition of a colonia.

Colonia Resident Advisory Committee

The SHC program is advised by the Colonia Resident Advisory Committee (C-RAC). Established by the Tex. Gov. Code Ann. §2306.584, the C-RAC is required to advise the Department of the needs of colonia residents, activities to be provided and programs to be administered in the selected colonias of the Colonia SHCs. Each county selects two colonia residents to serve on the committee. One of the two residents must reside in a colonia being serviced by the self-help center. C-RAC members meet 30 days prior to making an award to a Colonia SHC. The C-RAC has been instrumental in voicing the concerns of the targeted populations and assisting in the development of useful tools and programs to address the needs of colonia residents.

Contract for Deed Conversion Initiative

The intent of this program is to facilitate colonia-resident property ownership by converting contracts for deed into traditional mortgages. The Department is required through legislative directive to spend no less than $4 million on contract for deed conversions for colonia families. The same legislation indicated that the Department must convert at least 400 of these contracts for deed into traditional notes and deeds of trust by August 31, 2007; however, the directive is funded through the HOME program. HOME program rules require that any residence that participates in the program must be brought up to specific housing standards – for colonia areas, this standard is typically the Colonia Housing Standards. This requirement increases the total costs of the combined conversion and housing rehabilitation activities to approximately $55,000 per participating household. Therefore, the Department estimates that 73 homes will be served through the $4 million earmarked for this purpose. Participants of this program must earn 60 percent or less of the applicable area median family income, live in a colonia, and the property must be their principal residence. Pre- and post-conversion counseling is available, as well as funding for housing reconstruction and rehabilitation.

For FY 2007, the Department will set aside $2 million from the HOME Investment Partnership Program and anticipates releasing a NOFA in the fall of 2007. Units of general local government, public housing agencies, and nonprofit organizations are eligible entities to apply to provide deferred forgivable loans or grant funds to eligible colonia residents to achieve the goals of the CFD program.

Colonia Consumer Education Services

OCI continues the consumer education program and has expanded its educational goals, although OCI is no longer required by legislation to provide education for contract for deed participants. With the statewide expansion of this program, OCI recognized the need for additional education topics, such as filing homestead exemptions and instruction in other aspects of homeownership. Education services are available through the Colonia Self-Help Centers and OCI Border Field Offices.

Texas Bootstrap Loan Program

The Texas Bootstrap Loan Program is required under Subchapter FF, Chapter 2306, Texas Government Code, to make available $3 million for mortgage loans to very low income families (those earning 60 percent or less of the area median family income), not to exceed $30,000 per unit. This program is a self-help construction program, which is designed to provide very low income families an opportunity to help themselves through the form of sweat equity. All participants under this program are required to provide at least 60 percent of labor that is necessary to construct or rehabilitate the home, and all applicable building codes must be adhered to under this program. In addition, participants may combine these funds with other sources, such as those from private lending institutions, local governments, or any other sources; however, all combined monthly amortized loans may not exceed $60,000 per unit.

The Department is required to set aside at least two-thirds, or $2,000,000, of the available funds for owner-builders whose property is located in a county that is eligible to receive financial assistance under Subchapter K, Chapter 17, Water Code. The remainder of the funding, one-third, or $1,000,000, will be available to Department-certified nonprofit owner-builder programs statewide.

Colonia Model Subdivision Program

The intent of this program, created in 2001 by the 77th Legislature, is to provide low-interest or interest-free loans to promote the development of new, high-quality subdivisions that provide alternatives to substandard colonias. The Department has allocated $2 million from the HOME Program to implement this initiative for the 2005-2006 biennium.

Consumer Information Resources

OCI operates a toll-free hotline, 1-800-462-4251, in both English and Spanish that enables colonia residents to voice their concerns and/or request information. In addition, this hotline is available to colonia residents who may be having trouble making their monthly mortgage programs under the Contract for Deed Conversion Initiative and Texas Bootstrap Loan Program.

Projected Office of Colonia Initiatives funding for FY 2007: $7,200,000.

For additional information, contact Homero V. Cabello, Office of Colonia Initiatives, at 1-800-462-4251 or homero.cabello@tdhca.state.tx.us.

Comprehensive Energy Assistance Program

The Comprehensive Energy Assistance Program (CEAP) receives funding from the US Department of Health and Human Services Low Income Home Energy Assistance Program (LIHEAP) and offers grants to community action agencies, nonprofits, and local units of government. The targeted beneficiaries of the program in Texas are households with incomes at or below 125 percent of federal poverty guidelines, with priority given to the elderly; persons with disabilities; families with young children; households with the highest energy costs or needs in relation to income (highest home energy burden); and households with high energy consumption. Local providers must implement special outreach efforts for these special needs populations.

CEAP combines case management, energy education, and financial assistance to help very low and extremely low income consumers reduce utility bills to an affordable level. By statute, 10 percent of total funding is allocated for administration and 5 percent is allocated to case-management activities. The remaining 85 percent of the funding is used for direct client services, which includes 5 percent for outreach.

There are four basic components to meet consumers' needs:

- The co-payment component assists households achieve energy self-sufficiency by helping households set goals for reducing utility bills, giving advice on improving household budgets, and assisting with utility bills for six to twelve months.
- The heating and cooling systems component repairs or replaces heating and cooling appliances to increase energy efficiency.
- The energy crisis component provides assistance during an energy crisis caused by extreme weather conditions or an energy supply shortage.
- The elderly and persons with disabilities component assists vulnerable households during fluctuations in energy costs by paying up to four of the highest bills during the year.

CEAP providers are expected to create partnerships with programs within and outside their agencies and with private entities. The program also requires that providers refer CEAP clients to the Department's Weatherization Assistance Program. Because CEAP is designed to help clients achieve energy self-sufficiency, it encourages the consumer to control future energy costs without having to rely on other government programs for energy assistance.

Projected Comprehensive Energy Assistance Program funding for FY 2007: $38,700,738.

For more information, contact Amy Oehler, Energy Assistance Section, at (512) 475-3864 or amy.oehler@tdhca.state.tx.us. To apply for CEAP, call 1-877-399-8939, toll free, using a land phone.

WEATHERIZATION ASSISTANCE PROGRAM

The Weatherization Assistance Program (WAP) is funded through the US Department of Energy Weatherization Assistance Program for Low Income Persons grant and the US Department of Health and Human Services Low Income Home Energy Assistance Program (LIHEAP) grant. WAP offers grants to community action agencies, nonprofits, and local units of government with targeted beneficiaries being households with incomes at or below 125 percent of federal poverty guidelines, with priority given to the elderly; persons with disabilities; families with young children; households with the highest energy costs or needs in relation to income (highest home energy burden); and households with high energy consumption. Local providers must implement special outreach efforts to reach these priority populations. Applicants who have special needs receive additional points in the application process. To help consumers control energy costs, WAP funds the installation of weatherization measures and provides energy conservation education. In addition to meeting the income-eligibility criteria, the weatherization measures to be installed must meet specific energy-savings goals.

The Department of Energy allows up to 15 percent of the funds for administration. The Department of Health and Human Services LIHEAP grant allows 10 percent for administration. The remaining funds are used for direct client services.

Partnerships between the Weatherization Assistance Program and the Southwestern Electric Power Company, the Southwestern Public Service Company, Entergy, and El Paso Electric provide energy conservation measures to very low and extremely low income utility customers. These partnerships increase the total number of low income households receiving weatherization services and provide consumers the opportunity to receive more comprehensive energy-efficiency measures.

Projected Weatherization Assistance Program funding for FY 2007: $13,542,228.

For more information, contact Amy Oehler, Energy Assistance Section, at (512) 475-3864 or amy.oehler@tdhca.state.tx.us. To apply for weatherization, call 1-888-606-8889, toll free, using a land phone.

EMERGENCY SHELTER GRANTS PROGRAM

The Emergency Shelter Grants Program (ESGP) receives funding from the US Department of Housing and Urban Development and awards grants to units of local government and private nonprofit entities that provide shelter and related services to homeless persons and/or intervention services to persons at risk of homelessness. Activities eligible for ESGP funding include the rehabilitation or conversion of buildings for use as emergency shelters for the homeless; the provision of essential services to the homeless; costs related to the development and implementation of homeless prevention activities; costs related to operation administration; and costs related to maintenance, operation, rent, repairs, security, fuel, equipment, insurance, utilities, food and furnishings.

TDHCA also participates in the Texas Interagency Council for the Homeless (TICH). TICH is charged with surveying and evaluating services for the homeless in Texas; assisting in the coordination and provision of services for homeless persons throughout the state; increasing the flow of information among separate service providers and appropriate authorities; developing guidelines to monitor services for the homeless; providing technical assistance to the housing finance divisions of TDHCA in order to assess housing needs for persons with special needs; establishing a central resource and information center for the state's homeless; and developing, in cooperation with the Department and the Health and Human Services Commission, a strategic plan to address the needs of the homeless.

The Department provided funds to the Texas Homeless Network (THN) to provide in-depth technical assistance on refining a collaborative network of local service providers, assessing the needs of the homeless population, and developing priorities for addressing those needs.

Projected Emergency Shelter Grants Program funding for FY 2007: TBD.

For more information, contact Rita D. Gonzales-Garza, Community Services Section, at (512) 475-3905 or rita.garza@tdhca.state.tx.us.

COMMUNITY SERVICES BLOCK GRANT PROGRAM

The Community Services Block Grant Program (CSBG) receives funding from the US Department of Health and Human Services (USHHS), and funds are utilized to fund CSBG-eligible entities and to fund activities that support the intent of the CSBG Act. The targeted beneficiaries of the program are low income families and individuals, homeless families and individuals, migrant and seasonal farmworkers, and elderly low income individuals and families whose income does not exceed 125 percent of the current federal income poverty guidelines issued by USHHS.

CSBG provides administrative support to 47 CSBG-eligible entities that provide services to very low income persons. The funding assists with in providing essential services, including access to child care, health and human services, nutrition, transportation, job training and employment services, education services, activities designed to make better use of available income, housing services, emergency assistance, activities to achieve greater participation in the affairs of the community, youth development programs, information and referral services, activities to promote self-sufficiency; and other related services.

Five percent of the State's CSBG allocation may be used to fund activities that support the intent of the Community Services Block Grant Act, which may include providing training or technical assistance to eligible entities or short-term financial support for innovative projects that address the causes of poverty, promote client self-sufficiency, or promote community revitalization. These funds may also be used to support nonprofit organizations that assist low income Native Americans and migrant or seasonal farm workers. In addition, local contractors may use CSBG funds to assist homeless persons and other special needs populations.

Community Services Block Grant Program funding for FY 2007: TBD.

For more information, contact Rita D. Gonzales-Garza, Community Services Section, at (512) 475-3905 or rita.garza@tdhca.state.tx.us.

Community Food and Nutrition Program

The Community Food and Nutrition Program (CFNP) receives funding from the US Department of Health and Human Services, and the grant supports efforts to address hunger issues in low income neighborhoods on a statewide basis.

CFNP coordinates statewide efforts to address hunger and related issues by distributing surplus commodities through the Share Our Surplus Service (SOS) and game donated by hunters through Hunters for the Hungry Program (HFHP). CFNP funds are also used to support the expansion of child-feeding programs and the creation of farmers markets designed to serve low income neighborhoods.

The SOS program is a food recovery program where donations of surplus and unsaleable food donations are distributed to needy Texas. HFHP is a collaborative effort among hunters, meat processors, and nonprofit organizations to distribute meat to local food banks, food pantries and other organizations feeding the needy.

As of printing of this draft Plan, no funds have been allocated from the Community Food and Nutrition Program. However, funding for this program may be restored later in the year, or for FY 2008.

Community Food and Nutrition Program funding for FY 2007: $0.

For more information, contact Rita D. Gonzales-Garza, Community Services Section, at (512) 475-3905 or rita.garza@tdhca.state.tx.us.

Section 8 Housing Choice Voucher Program

The Section 8 Housing Choice Voucher Program (HCVP) receives funding from HUD and offers rental assistance subsidies to families and individuals, including the elderly and persons with disabilities, earning 50 percent or less of area median income. At least 75 percent of HCVP tenants must have incomes at or below 30 percent of the area median income. Qualified households are afforded the opportunity to select the best available housing through direct negotiations with landlords to ensure accommodations that meet their needs. The statewide HCVP is designed specifically for needy families in small cities and rural communities not served by similar local or regional programs.

TDHCA administers vouchers in 37 counties. TDHCA contracts with community action agencies, public housing authorities, and units of local government to assist the Department with the administration of 1,540 Housing Choice Vouchers.

Projected Section 8 Program funding for FY 2007: $9,000,000

For more information, contact the Section 8 Program at (512) 475-2634.

MANUFACTURED HOUSING DIVISION

The Manufactured Housing Division regulates the manufactured housing industry in Texas by ensuring that manufactured homes are well constructed, safe, and correctly installed; by providing consumers with fair and effective remedies; and by providing economic stability to manufacturers, retailers, installers, and brokers. The Division licenses manufactured housing professionals and maintains records of the ownership, location, real or personal property status, and lien status (on personal property homes) on manufactured homes. It also records tax liens on manufactured homes. Because of its regulatory nature, the Division has its own governing board and executive director.

Relying on a team of trained inspectors operating from eight locations around the state, the Division inspects manufactured homes throughout the state. Those inspectors also assist TDHCA by inspecting properties for the Portfolio Management and Compliance Division and by inspecting and processing license applications for migrant farm worker housing facilities. The Division also handles approximately 2,000 consumer complaints a year, many of those requiring investigation and enforcement action.

For more information, contact the Manufactured Housing Division at 1-800-500-7074.

TDHCA ALLOCATION PLANS

The Department has developed allocation formulas for many TDHCA programs in order to target available housing resources to the neediest households in each uniform state service region. These formulas are based on objective measures of need in order to ensure an equitable distribution of funding.

2007 REGIONAL ALLOCATION FORMULA

Section 2306.111(d) of the Government Code requires that TDHCA use a Regional Allocation Formula (RAF) to allocate its HOME, HTC, and HTF funding. This RAF objectively measures the affordable housing need and available resources in 13 State Service Regions used for planning purposes. Within each region, the RAF further targets funding to rural and urban/exurban areas.

As a dynamic measure of need, the RAF is revised annually to reflect updated demographic and resource data; respond to public comment; and better assess regional housing needs and available resources. The RAF is submitted annually for public comment.

Slightly modified versions of the RAF are used for the HOME and HTF/HTC because the programs have different eligible activities, households, and geographical service areas. For example, because at least 95 percent of HOME funding must be set aside for non-PJs, the HOME RAF only uses need and available resource data for non-PJs.

For the 2007 fiscal year, the RAF uses the following 2000 US Census data to calculate this regional need distribution:

- Poverty: Number of persons in the region who live in poverty.
- Cost Burden: Number of households with a monthly gross rent or mortgage payment to monthly household income ratio that exceeds 30 percent.
- Overcrowded Units: Number of occupied units with more than one person per room.
- Units with Incomplete Kitchen or Plumbing: Number of occupied units that do not have all of the following: sink with piped water; range or cook top and oven; refrigerator, hot and cold piped water, flush toilet, and bathtub or shower.

There are a number of local, state, and federal funding sources that can be used to address affordable housing needs. To mitigate any inherent inequities in the regional allocation of these funds, the RAF compares each region's level of need to its level of resources. In the 2006 fiscal year, resources from the following sources were used in the RAF: HTC, HTF, HUD (HOME, Housing Opportunities for Persons with AIDS (HOPWA), public housing authority (PHA) capital funding, and Section 8 funding), Bond Financing, and United States Department of Agriculture (USDA) housing programs.

Please see the HOME, HTC, and HTF program sections for distribution figures. For more information on the RAF and further description of the formula, please contact Steve Schottman, Division of Policy and Public Affairs, at (512) 305-9038 or stephen.schottman@tdhca.state.tx.us.

2007 Emergency Shelter Grants Program Allocation Formula

ESGP funds are reserved according to the percentage of poverty population identified in each of the 13 state service regions (i.e., 3.95 percent of the available ESGP funds were reserved for Region 1 with 3.95 percent of the state's poverty population). The top scoring applications in each region are recommended for funding, based on the amount of funds available for that region. Any application that receives a score below 70 percent of the highest raw score from the region is not considered for funding.

2007 Community Services Block Grant Allocation Formula

Allocations to the 47 CSBG–eligible entities are based primarily on two factors: (1) the number of persons living in poverty within the designated service delivery area for each organization and (2) a calculation of population density. Poverty population is given 98 percent weight, and the ratio of inverse population density is given 2 percent weight. The formula also includes a base award for each organization before the factors are applied, as well as a floor, or minimum award. In FY 2007, the Department will utilize the 2000 Census population figures at 125 percent of poverty, a base of $50,000, and a floor at $150,000.

2007 Comprehensive Energy Assistance Program and Weatherization Assistance Program Allocation Formula

The allocation formula for the Comprehensive Energy Assistance and Weatherization Assistance programs uses the following five factors and corresponding weights to distribute its funds by county: county non-elderly poverty household factor (40 percent); county elderly poverty household factor (40 percent); county inverse poverty household density factor (5 percent); county median income variance factor (5 percent); and county weather factor (10 percent).

TDHCA GOALS AND OBJECTIVES

The Strategic Plan goals reflect program performance based upon measures developed with the State's Legislative Budget Board and Governor's Office of Budget and Planning. The goals are also based upon Riders attached to the Department's Appropriations. The Department believes that the goals and objectives for the various TDHCA programs should be consistent with its mandated performance requirements.

The State's Strategic Planning and Performance Budgeting System (SPPB) is a mission- and goal-driven results-oriented system combining strategic planning and performance budgeting. The system has three major components including strategic planning, performance budgeting, and performance monitoring. As an essential part of the system, performance measures are part of TDHCA's strategic plan; they are used by decision makers in allocating resources; they are intended to focus the Department's efforts on achieving goals and objectives; and they are used as monitoring tools providing information on accountability. Performance measures are reported quarterly to the Legislative Budget Board.

The State's Strategic Planning and Performance Budgeting System is based on a two-year cycle; goals and targets are revisited each biennium. The targets reflected in this document are based on the Department's requests for 2006–2007.

All applicants for funding are eligible and are encouraged to apply for and leverage funds from multiple agency programs. There will be a considerable amount of leveraging of HUD funds with those from other federal and State sources. The following affordable housing goals and objectives present TDHCA's approach to addressing the state's affordable housing needs. While the HOME Program funds may be used in conjunction with other TDHCA programs, there is no way to determine the extent of the overlap. Because of this, each program reports their performance separately, with its particular intention/use listed separately.

Affordable Housing Goals and Objectives

The following goals address performance measures established by the 79th Legislature. Refer to program-specific statements outlined in the Action Plan portion of this document for strategies that will be used to accomplish the goals and objectives listed below. Included are the 2006 goal and actual performance and the 2007 goal. Actual 2006 numbers were not available at the printing of this draft document, but will be included in the final document.

Goals one through five are established through interactions between TDHCA, the Legislative Budget Board, and the Legislature. They are referenced in the General Appropriations Act enacted during the most recent legislative session.

Note: 2005 Measures marked with an "*" were added to the 2006 Performance Measures by the 79th Legislature.

GOAL 1: TDHCA WILL INCREASE AND PRESERVE THE AVAILABILITY OF SAFE, DECENT, AND AFFORDABLE HOUSING FOR VERY LOW, LOW, AND MODERATE INCOME PERSONS AND FAMILIES

1.1 Strategy: Provide mortgage financing and homebuyer assistance through the Single Family Mortgage Revenue Bond Program.
Strategy Measure: Number of single family households assisted through the First Time Homebuyer Program.

2006 Measure	2006 Actual	% of Goal	2007 Measure
1,727			1,727

*1.2 Strategy: Provide funding through the HOME Program for affordable single family housing.
Strategy Measure: Number of single family households assisted with HOME funds.

2006 Measure	2006 Actual	% of Goal	2007 Measure
1,834			1,834

*1.3 Strategy: Provide funding through the HTF program for affordable single family housing.
Strategy Measure: Number of single family households assisted through the Housing Trust Fund.

2006 Measure	2006 Actual	% of Goal	2007 Measure
100			100

1.4 Strategy: Provide tenant-based rental assistance through Section 8 certificates.
Strategy Measure: Number of multifamily households assisted with tenant-based rental assistance.

2006 Measure	2006 Actual	% of Goal	2007 Measure
2,100			2,100

1.5 Strategy: Provide federal tax credits to develop rental housing.
Strategy Measure: Number of multifamily households assisted with HTCs.

2006 Measure	2006 Actual	% of Goal	2007 Measure
18,832			20,151

*1.6 Strategy: Provide funding through the HOME Program for affordable multifamily housing.
Strategy Measure: Number of multifamily households assisted with HOME funds.

2006 Measure	2006 Actual	% of Goal	2007 Measure
741			647

*1.7 Strategy: Provide funding through the Housing Trust Fund for affordable multifamily housing.
Strategy Measure: Number of multifamily households assisted through the Housing Trust Fund.

2006 Measure	2006 Actual	% of Goal	2007 Measure
255			0

1.8 **Strategy:** Provide funding through the Multifamily Mortgage Revenue Bond program for affordable multifamily housing.

Strategy Measure: *Number of households assisted through the Mortgage Revenue Bond program.*

2006 Measure	2006 Actual	% of Goal	2007 Measure
3,500			3,500

GOAL 2: TDHCA WILL PROMOTE IMPROVED HOUSING CONDITIONS FOR EXTREMELY LOW, VERY LOW, AND LOW INCOME HOUSEHOLDS BY PROVIDING INFORMATION AND TECHNICAL ASSISTANCE.

*2.1 **Strategy:** Provide information and technical assistance to the public through the Division of Policy and Public Affairs.

Strategy Measure: *Number of information and technical assistance requests completed.*

2006 Measure	2006 Actual	% of Goal	2007 Measure
5,400			5,400

2.2 **Strategy:** To provide technical assistance to colonias through field offices.

(A) Strategy Measure*: Number of on-site technical assistance visits conducted annually from the field offices.*

2006 Measure	2006 Actual	% of Goal	2007 Measure
600			600

****(B) Strategy Measure:*** *Number of colonia residents receiving assistance.*

1,700			1,700

Goals Six through Eight are established in legislation as riders to TDHCA's appropriations, as found in the General Appropriations Act.

GOAL 6: TDHCA WILL TARGET ITS HOUSING FINANCE PROGRAMS RESOURCES FOR ASSISTANCE TO EXTREMELY LOW INCOME HOUSEHOLDS.

6.1 **Strategy:** The housing finance divisions shall adopt an annual goal to apply $30,000,000 of the division's total housing funds toward housing assistance for individuals and families earning less than 30 percent of median family income.
Strategy Measure: *Amount of housing finance division funds applied towards housing assistance for individuals and families earning less than 30 percent of median family income.*

2006 Measure	2006 Actual	% of Goal	2007 Measure
$30,000,000			$30,000,000

(See Rider 4 of TDHCA's Appropriations as found in HB 1 (General Appropriations Act), 79th Legislature, Regular Session.)

GOAL 7: TDHCA WILL TARGET ITS HOUSING FINANCE RESOURCES FOR ASSISTANCE TO VERY LOW INCOME HOUSEHOLDS.

7.1 **Strategy:** The housing finance divisions shall adopt an annual goal to apply no less than 20 percent of the division's total housing funds toward housing assistance for individuals and families earning between 31 percent and 60 percent of median family income.
Strategy Measure: *Percent of housing finance division funds applied towards housing assistance for individuals and families earning between 31 percent and 60 percent of median family income.*

2006 Measure	2006 Actual	% of Goal	2007 Measure
20%			20%

(See Rider 4 of TDHCA's Appropriations as found in HB 1 (General Appropriations Act), 79th Legislature, Regular Session.)

GOAL 8: TDHCA WILL PROVIDE CONTRACT FOR DEED CONVERSIONS FOR FAMILIES WHO RESIDE IN A COLONIA AND EARN 60 PERCENT OR LESS OF THE APPLICABLE AREA MEDIAN FAMILY INCOME

8.1 **Strategy:** Help colonia residents become property owners by converting their contracts for deed into traditional mortgages.
Strategy Measure: *Amount of TDHCA funds applied towards contract for deed conversions for colonia families earning less than 60 percent of median family income.*

FY 2006-2007 Measure	FY 2006 Actual	% of Goal	FY 2006-2007 Measure
$4,000,000			$4,000,000

(See Rider 11 of TDHCA's Appropriations as found in HB 1 (General Appropriations Act), 79th Legislature, Regular Session.)

The following TDHCA-designated goal addresses the housing needs of persons with special needs.

GOAL 9: TDHCA WILL WORK TO ADDRESS THE HOUSING NEEDS AND INCREASE THE AVAILABILITY OF AFFORDABLE AND ACCESSIBLE HOUSING FOR PERSONS WITH SPECIAL NEEDS THROUGH FUNDING, RESEARCH, AND POLICY DEVELOPMENT EFFORTS.

9.1 **Strategy:** Dedicate no less than 20 percent of the HOME project allocation for applicants that target persons with special needs.
Strategy Measure: *Percent of the HOME project allocation awarded to applicants that target persons with special needs.*

2006 Measure	2006 Actual	% of Goal	2007 Measure
Ó20%			Ó20%

9.2 **Strategy:** Compile information and accurately assess the housing needs of and the housing resources available to persons with special needs.
Strategy Activities:

A. Assist counties and local governments in assessing local needs for persons with special needs
B. Work with State and local providers to compile a statewide database of available affordable and accessible housing.
C. Set up a referral service to provide this information at no cost to the consumer.
D. Promote awareness of the database to providers and potential clients throughout the State through public hearings, the TDHCA web site as well as other provider web sites, TDHCA newsletter, and local informational workshops.

9.3 **Strategy:** Increase collaboration between organizations that provide services to special needs populations and organizations that provide housing.

Strategy Activities:

A. Promote the coordination of housing resources available among State and federal agencies and consumer groups that serve the needs of special needs populations.

B. Continue working with agencies, advocates, and other interested parties in the development of programs that will address the needs of persons with special needs.

C. Increase the awareness of potential funding sources for organizations to access, to serve special needs populations, through the use of TDHCA planning documents, web site, and newsletter.

9.4 **Strategy:** Discourage the segregation of persons with special needs from the general public.

Strategy Activities:

A. Increase the awareness of the availability of conventional housing programs for persons with special needs.

B. Support the development of housing options and programs, which enable persons with special needs to reside in noninstitutional settings.

SECTION 5: PUBLIC PARTICIPATION

TDHCA strives to include the public in policy, program, and resource allocation decisions that concern the Department. This section outlines how the public is involved with the preparation of the plan and a summary of public comment.

PREPARATION OF THE PLAN

Section 2306.0722 of the Texas Government Code mandates that the Department meet with various organizations concerning the prioritization and allocation of the Department's housing resources prior to preparation of the Plan. As this is a working document, there is no time at which the Plan is static. Throughout the year, research was performed to analyze housing needs across the state, focus meetings were held to discuss ways to prioritize funds to meet specific needs, and public comment was received at program-level public hearings as well as at every Governing Board meeting.

The Department met with various organizations concerning the prioritization and allocation of the Department's resources, and all forms of public input were taken into account in its preparation. Several program areas conducted workgroups and public hearings in order to receive input that impacted policy and shaped the direction of TDHCA programs.

Communication between TDHCA and numerous organizations results in a participatory approach towards defining strategies to meet the diverse affordable housing needs of Texans. In March 2006, TDHCA mailed out the 2006 Community Needs Survey to approximately 2,500 state representatives and senators, mayors , county judges , city managers, housing/planning departments, USDA local offices, public housing authorities, councils of governments, community action agencies, and Housing Opportunities for Persons with AIDS (HOPWA) agencies to gather preliminary input on local perceptions of housing, community affairs, and community development needs. TDHCA uses this input when preparing the Plan and in program planning and development.

PUBLIC HEARINGS

From July to September 2006, TDHCA worked on the draft version of the *2007 State of Texas Low Income Housing Plan and Annual Report.* Once completed, the draft was submitted to the TDHCA Board of Directors at the August 30, 2006, board meeting for approval, and then released for public comment in accordance with §2306.0732 and §2306.0661. The hearing notice was published in the September 1, 2006, edition of the *Texas Register*.

The formal citizen participation process for the *2007 State of Texas Low Income Housing Plan and Annual Report* will begin September 13, 2006, and end October 12, 2006. Constituents are encouraged to give input regarding the Plan and all Department programs in writing or at one of the 13 public hearings to be held across the state, one in each of the 13 Uniform State Service Regions.

PUBLIC COMMENT

Comment on the *2007 State of Texas Low Income Housing Plan and Annual Report* will be included in the final version of the document.

SECTION 6: COLONIA ACTION PLAN

POLICY GOALS

In 1996, in an effort to place more emphasis on addressing the needs of colonias, the TDHCA Office of Colonia Initiatives (OCI) was established to administer and coordinate efforts to enhance living conditions in colonias along the Texas-Mexico border region. OCI's fundamental goal is to improve the living conditions and lives of colonia residents, and to educate the public regarding the services that TDHCA has to offer.

The OCI Division was created to do the following:

- Expand housing opportunities to colonia and border residents living along the Texas-Mexico border.
- Increase knowledge and awareness of programs and services available through the Department.
- Implement initiatives that promote improving the quality of life of colonia residents and border communities.
- Empower and enhance organizations in order to better serve the targeted colonia population.
- Provide consumer education to colonia and border residents.
- Develop cooperative working relationships between other state, federal, and local organizations to leverage resources and exchange information.
- Promote comprehensive planning of communities along the Texas-Mexico border to meet current and future community needs.
- Serve as a conduit for colonia residents by soliciting input into major funding decisions that will affect border communities.

OVERVIEW

The US-Mexico border region is dotted with hundreds of rural subdivisions characterized by high levels of poverty and substandard living conditions. These communities are commonly called “colonias.” Some colonias are newly formed, but many have been in existence for over 40 years. A few colonia developments began as small communities of farm laborers employed by a single rancher or farmer while others originated as town sites established by land speculators as early as the 1900s. However, a majority of the colonias emerged in the 1950s as developers discovered a large market of aspiring homebuyers who could not afford homes in cities or access to conventional financing mechanisms.

Several different definitions of colonias are used by various funding sources and agencies due to differing mandates. Generally, these definitions include the concepts that colonias are rural, mostly unincorporated communities principally located along the US-Mexico border in the states of California, Arizona, New Mexico, and Texas (with the vast majority located in Texas). Colonias frequently exhibit high poverty rates and substandard living conditions relative to US standards; however, colonias are primarily defined primarily by what they lack, including services such as public water and wastewater systems, paved streets, drainage, and safe and sanitary housing.

POPULATION AND POVERTY

Data updated in 2006 by the Texas Office of the Attorney General recorded 2,060 colonias in 30 counties within 150 miles of the Texas-Mexico border; however, approximately 1,700 of those colonias are concentrated in just seven counties directly abutting the international boundary. It should be noted that these figures represent only the documented colonias; there may be many small, rural colonias that have, as of yet, gone unidentified. Currently, Hidalgo County has the largest group of colonias, at 847 known colonias for 2006. From US Census data, counties representing the largest colonia populations (El Paso, Starr, Hidalgo, and Cameron) also have Hispanic or Latino groups of over 88 percent; the state average is at 34.6 percent. The 13 counties running along the Texas-Mexico border have an average Hispanic or Latino population of 74.2 percent.

According to 2000 US Census records, the population of counties representing the largest amount of colonias had an estimated 1,890,505 persons. 2005 estimations show an increase of 237,869 for these counties elevating the population to 2,128,374. El Paso, Maverick, Webb, Zapata, Starr, Hidalgo, and Cameron counties have shown an increase in population of 12.3 percent, which surpasses the state average increase of 9.6 percent. A 5.4 percent average decrease in population has actually occurred in several counties that are adjacent to the border counties over the same time period. Counties experiencing large decreases include Hudspeth, Reeves, Pecos, Terrell, Edwards, Kinney, Duval, Jim Hogg, and Brooks.[91]

US Census data for the 2003 median household income for Texas was $39,967, while the median household income for the Texas-Mexico border averaged $26,606 based on county averages for Texas. Zavala County had the lowest median household income of $18,553 while Collin County (Northeast Texas) had the highest median household income of $74,136. Of the larger border cities such as El Paso,

[91] U.S. Census Bureau: State and County Quickfacts. http://quickfacts.census.gov/qfd/states/48000.html. Viewed July 27, 2006.

McAllen, Brownsville, Corpus Christi, and Laredo, the 2000 average median values of owner-occupied housing units was $69,640 with Laredo presenting the highest values at $77,900.[2]

Affordable housing has been hard to come by in the Border region mainly because the rapidly growing population still remains poor. Counties running along the Texas-Mexico border account for some of the highest poverty rates in the state and in some counties are double than the state average rate for 2003. According to US Census data, in 2003, the state average rate for persons below poverty was 16.2 percent, while the average poverty level of counties running along the Texas-Mexico border was at 25.3 percent. Counties with the highest amount of colonias (El Paso, Starr, Hidalgo, and Cameron) however, show averaged poverty levels at 31.5 percent--a doubling of the state poverty rate. Counties like Dimmit and Starr, at 32.7 percent and 36.2 percent respectively, are even higher. While there are many pockets of poverty throughout Texas, no other counties in Texas show countywide poverty rates as high as those along the Texas-Mexico border.

HOUSING

According to a review completed by the Texas Comptroller's Office, most builders would have a difficult time building houses for a sale price of less than $60,000 to $70,000. Houses in this price range would typically be affordable to workers earning $12 to $14 an hour (assuming a housing debt to income ratio of 33 percent with no additional debts). Some homebuilders indicate that it is difficult to build lower-priced homes because many of the construction costs, including the cost of acquisition and site development, are fixed, regardless of the size of the home.[3] Land acquisition and development can add $10,000 to $20,000 to the cost of a house. For a new subdivision, the acquisition cost may be only a few thousand dollars per lot. But the 1998 cost of infrastructure—such as streets, power, and water—could be as much as $15,000 per lot or higher in some areas.[4]

Owner construction in colonias can face significant obstacles. First, federal rules, such as those that govern the HOME Program, prohibit the use of affordable housing funds to acquire land unless the affordable structure is to be built within a short, sometimes impractical time. Second, lenders are typically reluctant to lend funds for owner construction because there is no collateral. Third, owner builders may not be sufficiently skilled and may end up building substandard housing without appropriate supervision or guidance. Some governmental housing programs limit the private housing market from serving border residents because they offer no profit incentive for housing professionals, builders, lenders, and real estate agents to serve low-wage workers. Program administrators acknowledge profit as an ingredient in encouraging home construction.

ACTION PLAN

TDHCA, through its Office of Colonia Initiatives, administers various programs designed to improve the lives of colonia residents. This action plan outlines how carious initiatives and programs will be implemented for 2006-2007.

TEXAS BOOTSTRAP LOAN PROGRAM

The Texas Bootstrap Loan Program is a statewide loan program that funds certified nonprofit organizations and enables owner-builders to purchase real estate, and construct or renovate a home. The 77th Legislature amended this program under Senate Bill 322 (2001) with a legislative directive requiring continuation of an Owner Builder Loan Program through 2010.

In accordance with Section 2306.753(d) of the Texas Government Code, Title 10, as amended, the Department shall set aside at least two-thirds of the available funds for owner-builders whose property is located in an Economically Distressed Area Program (EDAP) county, as defined under Subchapter K, Chapter 17, Water Code. The remainder of the funding will be available to the Department certified nonprofit Owner-Builder Housing Programs in the State of Texas. The maximum amount of funding per organization will be $600,000.

The program promotes and enhances homeownership for low income Texans by providing funds to purchase or refinance real property on which to build new residential housing, construct new residential housing or improve existing residential housing throughout Texas. Participating owner-builders must provide a minimum of 60 percent of the labor required to build or rehabilitate the home. Total loans from the Department and from other entities cannot exceed $60,000 per unit. The Department committed over $8.4 million over the biennium (FY 2006-2007) to implement this initiative from the Housing Trust Fund. TDHCA anticipates releasing another NOFA in the amount of $6,000,000 for FY 2008-2009 in August 2007.

CONTRACT FOR DEED CONVERSION PROGRAM

The Contract for Deed Conversion (CFD) Program is designed to help colonia residents become property owners by converting their contracts for deeds into warranty deeds. Participants in the program must not earn more than 60 percent of the area median family income, and the property must be their primary residence. The properties proposed for this initiative must be located in a colonia as identified by the Texas Water Development Board colonia list or meet the Texas Department of Housing and Community Affairs' definition of a colonia. By converting contracts for deed into traditional mortgages, this program enables colonia residents to build equity in their homes.

The 79th Legislature passed a Rider 11 to the Department's appropriation in the General Appropriations Act requiring the Department to spend no less than $4 million and convert no less than 400 contracts for deeds into warranty deeds for the biennium September 1, 2005 through August 31, 2007. The Department cannot meet the 400 required contracts for deed conversions due to the amount and source of funding dedicated to this program. The Department utilizes the HOME Investment Partnerships Program as the source of funds to finance the CFD program. HOME Program rules and regulations also require the home to meet a certain standard, which requires additional funds. The Department estimates approximately 73 conversions will be achieved with the $4 million due to the cumulative cost of each conversion approximating $20,000 with an additional $35,000 in owner-occupied housing rehabilitation to meet, at a minimum, Colonia Housing Standards. In order to meet this legislative mandate, the Department will need to set aside approximately $20,000,000 of HOME funds to meet this mandate, which represents approximately half of the total annual HOME allocation to the Department.

For FY 2007, the Department will set aside $2 million from the HOME Program and anticipates releasing a NOFA in fall 2007. Units of general local government, public housing authorities, and nonprofit organizations are eligible entities to apply to provide deferred forgivable loans or grant funds to eligible colonia residents to achieve the goals of the CFD program.

Colonia Self-Help Centers

In 1995, the 74th Legislature passed Senate Bill 1509 (Texas Government Code Subchapter Z §2306.581 - §2306.591), a legislative directive to establish colonia self-help centers (SHCs) in Cameron/Willacy, Hidalgo, Starr, Webb, and El Paso counties. This program also allows the Department to establish a colonia SHC in any other county if the county is designated as an economically distressed area. Five colonias in each county are identified to receive concentrated attention from its respective SHC. Operation of the colonia SHCs is carried out through a local nonprofit organization, local community action agency, or local housing authority that has demonstrated the ability to carry out the functions of a SHC.

These colonia SHCs provide concentrated on-site technical assistance to low and very low income individuals and families in a variety of ways including housing, community development activities, infrastructure improvements, outreach, and education. In addition, on-site technical assistance is provided to colonia residents. Key services to the designated colonias within each county receive technical assistance in the areas of housing rehabilitation; new construction; surveying and platting; construction skills training; tool library access for self-help construction; housing finance; credit and debt counseling; grant writing; infrastructure constructions and access; contract for deed conversions; and capital access for mortgages to improve the quality of life for colonia residents in ways that go beyond the provision of basic infrastructure. The three OCI border field offices provide technical assistance to the counties and SHC.

The SHC program serves 28 colonias in the five counties designated by statute and two additional counties of Maverick and Val Verde. Each county has approximately 10,000 colonia residents whom qualify as beneficiaries of these services. County officials conduct a needs assessment to prioritize needs within the colonias and publish a Request for Proposal (RFP) to provide services as identified by organizations in the county. Nonprofits in the county respond to the RFP, and in addition, the nonprofits and colonia residents also recommend to the county which colonias should receive services in each county. Each SHC is allocated sufficient funds to provide services within the designated colonias, and if applicable can provide limited assistance outside the service area. The Department contracts with the counties that subcontract with nonprofit organizations to administer the SHC program. The county oversees their implementation of contractual responsibilities and insures accountability.

The operations of the colonia SHCs are funded by HUD through the Texas Community Development Block Grant Program 2.5 percent colonia set-aside, which is approximately $2.2 million per year. The CDBG funds are transferred to the Department through a memorandum of understanding with the Office of Rural Community Affairs. CDBG funds can only be provided to eligible units of general local governments; therefore, the Department must enter into a contract with each affected county government. The Department provides administrative and general oversight to ensure programmatic and contract compliance to meet legislative intent. The Department maintains a relationship with the unit of general local government and SHC operator(s) to ensure that the housing and community development activities within each respective contract are achieved. In addition, colonia SHCs are encouraged to seek funding from other sources to help them achieve their goals and performance measures.

This legislation also requires the establishment of a Colonia Resident Advisory Committee (C-RAC) to advise the Department on the needs of colonia residents, activities to be provided, and programs to be undertaken in the selected colonias. Each county selects two colonia residents to serve on the committee; one of the two residents must reside in a colonia being serviced by the SHC. The Department's board of directors appointed the current members to the C-RAC on September 19, 2001, and the committee includes a primary and secondary representative from each county. The C-RAC members meet 30 days prior to making an award to a colonia SHC. The Colonia Resident Advisory Committee (C-RAC) has been instrumental in voicing the concerns of the targeted populations and has helped both the Department and the colonia SHCs to develop useful tools and programs to address colonia resident needs. Most recently, the Department has assisted the Texas Secretary of State to coordinate meetings with the C-RAC to address concerns of the colonias as mandated by Senate Bill 1202. The Department is also updating the MITAS and Central Data Systems to track funding in the colonias as mandated by Senate Bill 827.

BORDER FIELD OFFICES

OCI manages three border field offices located in El Paso, Laredo, and Edinburg. These border field offices administer, at the local level, various OCI programs and services and provide technical assistance to nonprofits, for profits, units of general local government, other community organizations and colonia residents along the Texas-Mexico border region. Current funding for the border field offices is partially funded from General Revenue, Bond Funds, and the HOME and CDBG programs. OCI will continue to maintain these three border field offices and will continue to act as a liaison between nonprofit organizations and units of local government.

Occasionally, there is funding available to communities and organizations in the colonias to support local programs. Technical assistance will be produced to assist nonprofit organizations to locate funding and, once the funding is identified, assistance on how to write a successful grant proposal will also be provided. However, the most important aspect in seeking funding is the ability of the communities or organizations to manage the funding within its rules and program guidelines. Many communities and organizations struggle to deliver service to its colonia residents due to capacity and financial issues, therefore, the Border Field Offices anticipate approximately 700 technical assistance visits for FY 2007 to nonprofit organizations and units of local government.

The Department recognized the need for consumer education topics such as filing homestead exemptions, knowing their property rights under contract for deed, and homeownership counseling. The Department will provide homebuyers under its Contract for Deed Conversion and Texas Bootstrap Loan Programs a form to file their homestead exemption at the time of closing on their homes. The Department will create an educational campaign regarding House Bill 1823, which was passed during the 79th Regular Legislative Session (2005) and allows residential contract for deed buyers to have their contacts converted from a deed to a deed in trust. The educational campaign will be directed to colonia residents along the Texas-Mexico Border Region. Education services are available through the colonia SHCs and OCI Border Field Offices.

CONCLUSION

Border Texans choose life in colonias because they want what other Texans want—to live the "American Dream" and have a home they can call their own—and they will make tremendous sacrifices to accomplish this goal. In steadfast pursuit of their dreams, colonia residents sometimes have fallen victim to unscrupulous developers. Household by household, family by family, colonia residents demonstrate an admirable and extremely practical commitment to making a home.

According to Adam Carasso, "no asset is more important in achieving these objectives than owner-occupied housing. Home equity is the primary source of private saving for most-middle income households, exceeding both retirement plans and savings accounts." While 69 percent of all households are headed by homeowners, a record high reached in 2004, many low income populations are left out. Only half of the households in the lowest fifth of the income scale are homeowners, and the homeownership rates among both Blacks and Hispanics are slightly under 50 percent.[9]

While the effort to increase affordable housing has been successful so far, the issues surrounding border colonias and their residents still persist. The Department continues to work with various organizations, units of local government, state and federal agencies to provide every possible mean available to assist residents in the colonias. TDHCA housing programs have helped fuel the Texas economy. According to the National Association of Home Builders, estimations from the building of 100 single-family homes generates 250 full-time jobs in construction and construction-related industries, $11.6 million in local income, and $1.4 million in taxes and other revenue for local government.[6]

PUBLIC COMMENT ON THE COLONIA ACTION PLAN

Public comment on the Colonia Action Plan will be included in the final version of the document.

SECTION 7: TEXAS STATE AFFORDABLE HOUSING CORPORATION ANNUAL ACTION PLAN

In accordance with Section 2306.0721(h), the Texas State Affordable Housing Corporation (TSAHC) Annual Action Plan is included in the 2006 SLIHP.

Sec. 2306.566 of the Texas Government Code reads:

COORDINATION REGARDING STATE LOW INCOME HOUSING PLAN.

- *(a) The corporation shall review the needs assessment information provided to the corporation by the department under Section 2306.0722(b).*
- *(b) The corporation shall develop a plan to meet the state's most pressing housing needs identified in the needs assessment information and provide the plan to the department for incorporation into the state low income housing plan.*
- *(c) The corporation's plan must include specific proposals to help serve rural and other underserved areas of the state.*

This is the 2006 Plan. The final 2007 Plan will be included in the final draft document.

TABLE OF CONTENTS

OVERVIEW

This report is prepared in accordance with SB 284, 78th Session, which requires the Texas Department of Housing and Community Affairs ("TDHCA") and the Texas State Affordable Housing Corporation ("Corporation") to coordinate regarding the State Low Income Housing Plan ("SLIHP"). The bill amends Section 2306.0722(b) to require TDHCA to provide the needs assessment information compiled for the report and plan to the Corporation. Section 2306.566 is added to require the Corporation to then review the information and develop a plan to meet "the state's most pressing housing needs identified in the need assessment information" and provide the plan to TDHCA for incorporation into the resource allocation plan in the SLIHP. The Corporation's plan must include specific proposals to help serve rural and other underserved areas of the state and provide affordable housing through methods that do not duplicate those of TDHCA or local housing organizations. The bill also adds Section 2306.0721(h) to require TDHCA to incorporate the specific results of the Corporation's programs in TDHCA's estimate and analysis of housing supply in each uniform state service region under Section 2306.0721(c)(9).

HISTORY OF THE CORPORATION

The Texas State Legislature created the Corporation as a self-sustaining non-profit entity to facilitate the provision of affordable housing for low income Texans who do not have comparable housing options through conventional financial channels. Enabling legislation, as amended, may be found in the Texas Government Code, Chapter 2306, Subchapter Y, Sections 2306.551 et seq. All operations of the Corporation are conducted within the state of Texas. Corporate offices are located in Austin, Texas. A five-member board of directors appointed by the Governor with the advice and consent of the Senate oversees the business of the Corporation.

The Corporation issues mortgage revenue bonds and private activity bonds to finance the creation of affordable multifamily housing units, and to finance the purchase of single-family homes under three separate programs: (1) the Professional Educators Home Loan Program, (2) the Fire Fighter and Law Enforcement or Security Officer Home Loan Program, and the newest program, (3) the Nursing Faculty Home Loan Program. Since April 2001, the corporation has issued over $600 million in single-family and multifamily mortgage revenue bonds. To date, the Corporation has provided over 8,362 units of affordable multifamily housing to low income Texans. The Corporation has also served 570 income eligible individuals and/or families through its first-time homebuyer single-family programs. This affordable housing has been provided at no cost to the state and its taxpayers. The Corporation does not receive any state funding, and is not subject to the legislative appropriations process.

The Corporation is organized, operated, and administered in accordance with its enabling legislation as a 501(c)(3) nonprofit corporation in order to access additional sources of funding to accomplish its mission. The Corporation is an approved originating seller/servicer for single family loans with Fannie Mae, Freddie Mac, Ginnie Mae, U.S. Rural Development, FHA, and VA. The Corporation has conduit sales agreements with Countrywide Home Loans, Inc., and Wells Fargo Funding, and with the Community Development Trust, Inc., for multifamily mortgage loans. The Corporation is also a non-member borrower of the Federal Home Loan Bank of Dallas.

NEEDS ASSESSMENT REVIEW

According to an analysis of the Texas Department of Housing and Community Affairs' (TDHCA) Needs Assessment and other published studies on the subject, the following represent the most pressing housing needs in the state.

GENERAL HOUSING NEEDS

- By 2000, Texas had the second largest total population, 20.9 million, among the states in the United States. By 2010, the population is projected to be between 24.2 million and 25.9 million and by 2040 between 35.0 million and 50.6 million.[92]
- As a result of the growing population, housing demands will change substantially in the coming years with both owner and renter housing growing at nearly equal rates.[93]
- Affordable housing is in short supply for the extremely low, very low, low, and moderate income brackets, which was caused primarily by the private sector's concentration of development, both single family and multifamily development, in larger metropolitan areas and targeting higher income individuals and families.[94]
- Many HUD-financed or HUD-subsidized properties, which represent a significant portion of the state's affordable housing portfolio, are at risk of becoming market rate properties.[95]

SINGLE FAMILY HOUSING NEEDS

- Texas may add nearly 3.8 million more students over the next 40 years placing a high demand for educators.[96]
- Population growth will mean increased public service demands and expanding markets for Texas.[97]
- Lack of funds for down payment and closing costs has created one of the greatest obstacles that prevent first-time homebuyers of low-to-moderate-income families, such as the teachers, police officers, and firefighters, from achieving the American dream of owning a home.[98]
- The Texas Education Code establishes a state minimum salary schedule that must be accommodated by all Texas schools for specific public education professionals. The state minimum salary for 2004-2005 ranges from $24,240 per year for 0 years experience to $40,800 per year for 20 or more years of experience.[99]

- A base salary chart for Texas police officers ranges from $32,944 per year to $46,644.[100]
- A base salary chart for Texas firefighters ranges from $24,944 per year to $41,573. [101]
- The Texas nursing education system is operating close to capacity and faces several impediments to producing more graduates—faculty shortages due to retirement, inadequate salaries, and fewer faculty applicants.[102]

MULTIFAMILY HOUSING NEEDS

- Renter households are, on average, a lower income group than owner households. More than 37 percent of renter households earn less than 50 percent of the Area Median Family Income, compared to only 16.3 percent of owner households. As a result, renter households are more likely to be in need of housing assistance.[103]
- According to the results of the 2003 Community Needs Survey distributed by TDHCA to cities, counties, local housing departments, public housing authorities, and the US Department of Agriculture/Rural Development field offices, approximately 78 percent of respondents felt that there was a severe or significant affordable housing problem in their area and that new rental housing development and the renovation of existing multifamily housing are more important than rental payment assistance.[104]
- The lack of affordable housing opportunities leads to severe and extreme housing cost burdens for lower-income groups; in particular, extremely low-income renter households.[105]
- Overcrowding may indicate a general lack of affordable housing in a community and lower income renter households experience overcrowded conditions more frequently than higher income households.[106]
- In the 2005-2009 State of Texas Consolidated Plan, it is estimated that 2 million people or 9.9% of the total population are 65 years of age and older. The Texas Department of Aging and Disability Services estimates that by year 2040, individuals age 60 and over will comprise 23 percent of the population in Texas. Though the majority of the elderly Texans live in urban areas, rural areas have a higher percentage of elderly relative to the local population. According to the 2000 Census, 13.1 percent of seniors age 65 and over in Texas live below the poverty level. Approximately 30% of all elderly households pay more than 30% of their income on housing with 14% paying more than 50% of their income on housing. Lower incomes combined with rising healthcare costs contribute to the burden of paying for housing.[107]
- There is a shortage of affordable housing in the extremely low, very low, low and moderate income brackets. This is primarily caused by the private sector's concentration of development in

larger metropolitan areas and targeting higher income individuals and families.[108] Cities with populations between 20,000 and 50,000 have a particularly hard time accessing funds. They cannot access USDA funding and are too small to effectively compete for other funding opportunities.[109]

- According to the US Census Related Comprehensive Housing Affordability Strategy (CHAS) Data, there are approximately 2,903,671 people living in rural areas of Texas. Of these, 574,843 people or 20% are living below the poverty level; 83,454 low income households live with the cost burden of paying more than 30% of their income on housing expenses; 26,999 occupied units are “overcrowded”; and 5,211 units were found to have substandard conditions such as lack of piped water, utilities, and waste facilities.[110]
- Preservation of existing affordable and subsidized housing stock is an important element of providing safe, decent and affordable housing. The explosive population growth in the metropolitan areas as well as the lack of new construction during the late 80’s and early 90’s created a huge demand for housing at all income levels. Adding to this problem is the loss of units in the federally subsidized Section 8 portfolio, the USDA/Rural Development portfolio and the pools of tax credit units that have reached their 15 year affordability periods. The USDA/Rural Development portfolio contains smaller rural rental properties which, in many cases, represent the sole affordable housing stock in Texas’ smallest towns.[111]
- As of the most recent statistical information available, there were 2,676,060 renter occupied housing units in Texas. Eighty-four percent of these were constructed before 1990 with the highest production of rental housing (50.8%) built between 1970 and 1989. Therefore, the majority of rental housing stock in Texas is between 15-35 years old and may be in need of some type of moderate to substantial rehabilitation in order to preserve its functionality.[112]

The Corporation will address these pressing housing needs through the following single family, multifamily, and grant programs for 2006. The following summary of Corporation programs gives the history and accomplishments of our programs to date and a plan for achieving greater success with these programs in 2006. A few of the programs mentioned are mandated by the state legislature, as noted, and a few have been undertaken upon our own initiative to fulfill housing needs for identified underserved areas of the state.

TSAHC PROGRAM DESCRIPTIONS

TEXAS PROFESSIONAL EDUCATORS HOME LOAN PROGRAM
TEXAS FIRE FIGHTER AND LAW ENFORCEMENT OR SECURITY OFFICE HOME LOAN PROGRAM
NURSING FACULTY HOME LOAN PROGRAM

These Programs represent the Corporation's Single Family Mortgage Revenue Private Activity Bond Programs. The Programs were established by the Legislature in 2001, 2003, and 2005, respectively, and allocate a total of $55 million of the State's Ceiling for Private Activity Bond Cap for the exclusive purpose of making single-family mortgage loans to Texas Professional Educators ($25 million), Fire Fighters, Law Enforcement Officers, and Corrections Officers ($25 million), and Nursing Faculty ($5 million) who are first-time home buyers.

The Programs are available statewide on a first come, first-served basis, to first-time homebuyers who wish to purchase a newly constructed or existing home. Through each Program, eligible borrowers are able to apply for a 30 year fixed rate mortgage loan and receive 5 percent down payment assistance of the mortgage loan amount in the form of a grant. The programs are accessible to eligible borrowers by directly contacting a trained, participating mortgage lender.

The 2004 Professional Educator Home Loan Program fully originated the $25,000,000 bond fund allocation. In July 2005, the Corporation issued $25,000,000 in mortgage revenue private activity bonds for additional loans to professional educators, of which, $8,956,000 is already committed for new loans. Since its inception in 2001, the program has financed 418 homes for professional educators.

As of September 2005, the Fire Fighters and Law Enforcement or Security Officers Home Loan Program had issued $15,500,000 in loan commitments, which has or will finance 152 homes. The Nursing Faculty Home Loan Program was established by the Legislature in 2005. The Corporation plans to issue bonds to fund the program this year.

2006 Implementation Plan

The Corporation's primary goal for 2006 will be to continue to develop a financing structure that minimizes the Programs' mortgage interest rate and offers the best possible down payment assistance grant to the borrowers. Down payment assistance is especially critical when the spread between conventional mortgage rates and tax-exempt mortgage rates have reached historical lows. The Corporation will also continue to advertise and to receive input about the Programs by attending teacher, police officer, firefighter, home builder, real estate agent, and lender association conventions and trade shows in 2005 and 2006.

The eligibility for the Fire Fighter and Law Enforcement or Security Officer Home Loan Program was expanded by the Legislature in 2005 to include county law enforcement officers and to include corrections officers. As a result, the Corporation has and will continue to reach out to these newly eligible homebuyers through meetings with the Texas Department of Criminal Justice and county law enforcement organizations. The Corporation will also provide information to the nursing faculty centers across the state to let their educators know that they are now eligible for a home loan through the

Nursing Faculty Home Loan Program. In addition, the Corporation will continue to train and develop relationships with mortgage lenders who represent the Programs to the borrowers.

AFFORDABLE HOMEOWNERSHIP PROGRAM FOR TEXAS

One of the Corporation's main initiatives is to provide housing opportunities to Texans that do not have comparable housing options through conventional financial channels. Many families throughout Texas seeking to purchase a home are not able to meet the traditional lending requirements and, up to now, have had no other option than to rent. In order to meet this need and provide deserving families with a financing alternative for achieving the American dream of homeownership, the Corporation developed the Affordable Homeownership Program for Texas ("Program").

The Program, developed through a partnership between Ameriquest Mortgage Company ("Ameriquest") and the Corporation, provides borrowers with an affordable mortgage financing option that will allow them the opportunity to achieve homeownership. As a result of this partnership, Ameriquest has committed up to $100 million dollars for mortgage loans and the Corporation has committed $1 million dollars for down payment assistance to the Program.

The Program was established to serve those individuals and/or families in Texas that have FICO scores between 525 and 610 and that are at or below 80% of the AMFI by providing them access to an affordable mortgage loan product and down payment assistance in an amount up to seven percent (7%) of the mortgage loan amount. In addition, the Program rewards borrowers who make timely mortgage payments with lower interest rates and lower mortgage payments. Borrowers will receive a 50 basis point (.5%) reduction in their mortgage interest rate for every 12 months of on-time payments. As a result, Borrowers can reduce their mortgage interest rate by up to two percent (2%) during the first 48 months of their mortgage loan.

The Corporation and Ameriquest believe home buyer education is an essential component to the success of home ownership. Under the Program, borrowers will be provided pre and post-closing Home Buyer Education Training by ACORN Housing. ACORN Housing is a national housing counseling organization, helping low and moderate income homebuyers and homeowners since 1986. Additionally, borrowers will have intervention assistance available to them during the life of the mortgage loan. We believe this training and assistance is crucial to the success of this Program.

Since 2004, the Program has provided 36 loans to individuals and families who otherwise might not have achieved the dream of home ownership.

2006 Implementation Plan

The initial release of the Program in 2004 was limited to south Texas through a local affordable housing provider (CDC Brownsville). In 2005, the Corporation released the Program statewide and continues to market the program to local community development corporations, non-profits and other entities involved in affordable housing. The Corporation will also begin an aggressive marketing campaign in 2006, by starting a 1-800 phone number in conjunction with an on-line application system and through the issuance of press releases and other marketing materials.

MULTIFAMILY PRIVATE ACTIVITY BOND PROGRAM

The Texas Legislature in 2003 allocated 10 percent of the multifamily private activity bond cap to the Corporation so that local governments could be more involved in assessing and addressing their own local multifamily housing needs and at the same time could use the expertise of the state to issue the bonds. The available amount for funding in 2005 was approximately $40 million, and a similar amount will be available for 2006. Nonprofit and for profit developers can use the funds to finance acquisition and rehabilitation or new construction of multifamily residential rental units across the state. Developers are encouraged to leverage the private activity bond funds by using Low Income Housing Tax Credits (LIHTC) available through TDHCA.

The Corporation's Private Activity Bond program statute requires the Corporation to target areas with the greatest housing need that have expressed local community support for affordable multifamily housing. The statute also requires the Corporation to solicit proposals from developers to provide the specific housing development addressing the targeted housing need outlined in the request, whether for senior, rehabilitation, rural, migrant farm worker, or other specific housing need. Applications received in response to the request for proposal issued by the Corporation will be scored and ranked using criteria which analyzes financial feasibility and overall quality of the proposed Development. Tax-exempt private activity bond financing will be allocated to the highest-scoring proposal that meets the identified housing needs of the RFP, subject to available allocation.

The Corporation issued requests for proposals in 2005 for Arlington, Corpus Christi, and El Paso. The Corporation received an application for development under the Corpus Christi RFP. The development known as the North Side Manor Apartments was not induced due to federal subsidy factors that made the transaction financially infeasible.

2006 Implementation Plan

In previous years, the Corporation targeted multifamily housing by specific geographic areas based on local need and community support from local government. However, targeting specific geographic areas has limited the Corporation's ability to meet the housing needs of the state and discouraged many developer organizations from applying. For the 2006 program, the Corporation is targeting specific areas of housing need for which current funding sources are insufficient or not readily available. The targeted areas of housing need might include targets such as rehabilitation, senior housing, rural housing pools, or migrant farm worker housing that would be solicited through a statewide request for proposal.

This new program focus is based on current research and information received during the two previous year's solicitations. In 2004 and 2005 the Corporation solicited participation in the private activity bond program by sending letters to mayors of all cities with a population over 10,000 people and all county judges. Discussing the various needs with each interested city and county highlighted the diversity of needs for different areas of Texas. The larger metropolitan areas believed they were saturated with multifamily housing, but were interested in rehabilitation or redevelopment of existing multifamily housing that had fallen into disrepair. Cities with a lower population, generally not in urban areas, expressed interest in developing new multifamily housing to fill their affordable housing needs. However, addressing these needs on a geographic, city by city, basis was not practical. For instance, the development of

affordable housing units in rural areas was requested, but a single rural development of approximately 40 units could not realistically be financed with bonds.
However, by pooling together several rural developments and using these economies of scale, a rural pool bond transaction could meet the financial feasibility test and would meet the needs of several rural communities. This need could be met in a specific "rural pool" request for proposal. Similarly, Corporation staff has identified senior housing and migrant farmworker housing as potential target areas for which specific requests for proposals could be issued.

For some of the targeted areas of housing need mentioned above, 4 percent tax credits and tax-exempt bonds together are not sufficient to provide a positive cash flow to developments in areas where the area median income is lower than the state average. Funding sources from outside these traditional financing methods must be obtained. Possible sources of funds may include monies from the HOME and Housing Trust Fund programs, USDA/Rural Housing Service, and grants from other interested groups specific to the housing need.

The Corporation will target areas of housing need in October and November of 2005 and will issue requests for proposals to meet those housing needs by January 2006. The deadline to turn in a proposal will be outlined in the specific request. We anticipate a submission deadline for all proposals between December of 2005 and March of 2006.

Multifamily 501(c)(3) Bond Program

The Corporation's 501(c)(3) Multifamily Bond Program was created to finance the acquisition and rehabilitation, or new construction, of affordable multifamily housing units throughout the state of Texas. Unlike the Corporation's PAB program, 501(c)(3) financing does not use volume cap allocation and applications can be considered year-round. Also different from the PAB program is that 501(c)(3) financing may not be used in conjunction with low income housing tax credits. Only qualified nonprofit developers, designated under the internal revenue code as 501(c)(3) organizations, are eligible to apply for 501(c)(3) financing.

In addition to providing safe, decent, and affordable rental housing to residents of the state of Texas, recipients of 501(c)(3) financing must adopt a dollar-for-dollar public benefit program, investing at least one dollar in rent reduction, capital improvement projects, or social, educational, or economic development services for every dollar of abated property tax revenue they receive.

In 2001 and 2002 the Corporation provided $487 million in financing for the preservation or creation of 7,700 units of affordable housing in the state of Texas. Since 2002 the Corporation has not considered applications or issued bonds under the 501(c)(3) program as a result of market changes and legislatively mandated changes requiring that any benefit of abated property tax must be transferred dollar-for-dollar into a public benefit program. In sum, the 501(c)(3) bond program has become inactive for many reasons, including the softening of the market for affordable housing in metropolitan areas, the fact that 4 percent tax credits cannot be used, and that abated property taxes cannot be used to pay off debt service.

2006 Implementation Plan

The Corporation will monitor market conditions and will reactivate the program if demand shows the need for this type of financing to create needed multifamily affordable housing. Non-profit developers may choose to apply under the Corporation's Multifamily Private Activity Bond Program to be eligible for bond financing in addition to 4 percent tax credit equity.

MULTIFAMILY DIRECT LENDING PROGRAM

The Corporation's Multifamily Direct Lending Program provides permanent financing for the purpose of increasing and preserving the stock of affordable multifamily housing units throughout the state of Texas. The major focus of this program is to provide financing for smaller developments in rural and underserved areas of the state where bond financing is not practical. The Corporation's ability to offer permanent financing is facilitated through existing relationships with real estate investment companies that invest in affordable multifamily housing. The Community Development Trust, Inc. and the Federal Home Loan Bank of Dallas have been the Corporation's principal partners for this program.

In 2003 and 2004, the Corporation provided permanent financing in the aggregate amount of $5,628,000 for five (5) separate developments in Odessa, Wichita Falls, Big Spring, Brady, and Stephenville. These developments have provided 412 units of affordable housing to low income Texans.

2006 Implementation Plan

The Corporation is committed to administering and marketing our capabilities under this program in 2006. To this effort, the Corporation will market the program on its website and at public hearings across the state and will provide information to current and previous clients of the Corporation. In addition, our principal partners in this program will refer Texas based clients to the Corporation to meet their financing needs on the local level. Since the Federal Home Loan Bank requires a 25 percent risk sharing component on each loan, the Corporation will pursue this program primarily through the Community Development Trust, Inc. so as not to restrict the Corporations ability to use available financial resources for other programs.

ASSET OVERSIGHT AND COMPLIANCE

Asset Oversight of properties is required by many issuers of bonds, including the Corporation and TDHCA, to monitor the financial and physical health of a property and ensure that the bonds can be repaid at the rate required in the bond documents. Compliance monitoring ensures that the borrowers are providing the required number of affordable units to income eligible households and that quality resident services are provided to all residents of the property. Periodic on-site inspections and resident file review of affordable units ensure that all federal requirements relating to the tax-exempt status of the bonds are strictly adhered to.

The Corporation is currently providing asset oversight for 86 properties and compliance oversight for 38 properties. The Corporation staff performs yearly on-site compliance reviews and at least yearly on-site asset oversight reviews for these properties.

2006 Implementation Plan

The Corporation will continue to provide asset oversight and compliance monitoring for our current portfolio. The Corporation will also work to contract with other entities to expand our asset oversight and compliance monitoring portfolio of business. Compliance monitoring and asset oversight revenues would continue to be used to fund current single family and multifamily programs.

GRANT PROGRAM

Although the Corporation has been a 501(c)(3) nonprofit entity since 2001, the Corporation has not actively pursued fundraising and grant opportunities. However, the Corporation provided the Single Family Professional Educator, Fire Fighter, Police Officer and Security Officer Programs $400,000 from its cash reserves for down payment assistance in 2002, $200,000 in 2004, and over $400,000 in 2005. For the 2004 Private Activity Bond Program the Corporation provided from cash reserves a $500,000 soft second loan for the Providence at Marshall Meadows development in San Antonio. The Corporation does not receive state appropriations and cannot sustain this level of subsidy for its programs and continue to stay in business. Both of these experiences, as well as reviewing other critical unmet housing needs identified by TDHCA and the Corporation, have prompted us to pursue the creation of a Grant Program to fund the following programs: Single Family Down Payment Assistance, Multifamily Gap Financing Assistance, Homebuyer Education, and an Interim Construction and Land Acquisition Program.

2006 Implementation Plan

The Corporation's mission of affordable housing matches many foundation and grant objectives, and provides multiple opportunities for corporate sponsorship and cross-promoting. In 2006 the Corporation will create a Fundraising and Grant Program Action Plan that includes specific multifamily and single family needs, matches them with appropriate corporate, foundation, or grant resources, and establishes activities and a timeline within which to pursue those resources.

For instance, the Corporation will solicit corporate partners in the home improvement, home appliance, and large retail business sectors for down payment assistance for our Professional Educator, Fire Fighter, Police Officer, Security Officer, and Nursing Faculty bond programs. We will request a grant for down payment assistance and coupons for participating borrowers, such as $50 off a refrigerator, or a $100 coupon to the home improvement store. The Corporation will also work with national computer manufacturers to contribute a computer to every teacher, firefighter, police officer, corrections officer, or nurse educator that closes a loan through our program, and negotiate with telecommunications companies to contribute phone/internet service packages. These are just a few of the fundraising activities and initiatives that the Corporation will undertake in 2006.

In addition, the Corporation will apply for HUD grants and other government grants that target rural housing, or other housing need that the Corporation targets for its Private Activity Bond Program.

APPENDIX A

LEGISLATIVE REQUIREMENTS FOR THE *STATE OF TEXAS LOW INCOME HOUSING PLAN AND ANNUAL REPORT*

SEC. 2306.072. ANNUAL LOW INCOME HOUSING REPORT

(a) Not later than December 18 of each year, the director shall prepare and submit to the board an annual report of the department's housing activities for the preceding year.

(b) Not later than the 30th day after the date the board receives the report, the board shall submit the report to the governor, lieutenant governor, speaker of the house of representatives, and members of any legislative oversight committee.

(c) The report must include

- (1) a complete operating and financial statement of the department;
- (2) a comprehensive statement of the activities of the department during the preceding year to address the needs identified in the state low income housing plan prepared as required by Section 2306.0721, including:
  - (A) a statistical and narrative analysis of the department's performance in addressing the housing needs of individuals and families of low and very low income;
  - (B) the ethnic and racial composition of families and individuals applying for and receiving assistance from each housing-related program operated by the department; and
  - (C) the department's progress in meeting the goals established in the previous housing plan;
- (3) an explanation of the efforts made by the Department to ensure the participation of persons of low income and their community-based institutions in department programs that affect them;
- (4) a statement of the evidence that the Department has made an affirmative effort to ensure the involvement of individuals of low income and their community-based institutions in the allocation of funds and the planning process;
- (5) a statistical analysis, delineated according to each ethnic and racial group served by the department, that indicates the progress made by the department in implementing the state low income housing plan in each of the uniform state service regions; and
- (6) an analysis, based on information provided by the fair housing sponsor reports required under Section 2306.0724 and other available data, of fair housing opportunities in each housing development that receives financial assistance from the department that includes the following information for each housing development that contains twenty or more living units:
  - (A) the street address and municipality or county where the property is located;
  - (B) the telephone number of the property management of leasing agent;
  - (C) the total number of units reported by bedroom size;
  - (D) the total number of units, reported by bedroom size, designed for individuals who are physically challenged or who have special needs and the number of these individuals served annually as reported by each housing sponsor;
  - (E) the rent for each type of rental unit, reported by bedroom size;
  - (F) the race or ethnic makeup of each project;
  - (G) the number of units occupied by individuals receiving government-supported housing assistance and the type of assistance received;

(H) the number of units occupied by individuals and families of extremely low income, very low income, low income, moderate income, and other levels of income;
(I) a statement as to whether the department has been notified of a violation of the fair housing law that has been filed with the United States Department of Housing and Urban Development, the Commission on Human Rights, or the United State Department of Justice; and
(J) a statement as to whether the development has any instances of material noncompliance with bond indentures or deed restrictions discovered though the normal monitoring activities and procedures that include meeting occupancy requirements or rent restrictions imposed by deed restrictions or financing agreements.

(7) a report on the geographic distribution of low income housing tax credits, the amount of unused low income housing tax credits, and the amount of low income housing tax credits received from the federal pool of unused funds from other states.
(8) A statistical analysis, based on information provided by the fair housing sponsor reports required by Section 2306.0724 and other available data, of average rents reported by county.

(d) Repealed by Acts 2003, 78th Leg., ch. 330, §31(1).

SEC. 2306.0721. LOW INCOME HOUSING PLAN

(a) Not later than December 18 of each year, the director shall prepare and submit to the board an integrated state low income housing plan for the next year.
(b) Not later than the 30th day after the date the board receives the plan, the board shall submit the plan to the governor, lieutenant governor, and the speaker of the house of representatives.
(c) The plan must include:
(1) an estimate and analysis of the housing needs of the following populations in each uniform state service region:
(A) individuals and families of moderate, low, very low income, and extremely low income;
(B) individuals with special needs; and
(C) homeless individuals;
(2) a proposal to use all available housing resources to address the housing needs of the populations described by Subdivision (1) by establishing funding levels for all housing-related programs;
(3) an estimate of the number of federally assisted housing units available for individuals and families of low and very low income and individuals with special needs in each uniform state service region;
(4) a description of state programs that govern the use of all available housing resources;
(5) a resource allocation plan that targets all available housing resources to individuals and families of low and very low income and individuals with special needs in each uniform state service region;
(6) a description of the department's efforts to monitor and analyze the unused or underused federal resources of other state agencies for housing-related services and services for homeless individuals and the department's recommendations to endorse the full use by the state of all available federal resources for those services in each uniform state service region;
(7) strategies to provide housing for individuals and families with special needs each uniform state service region;

(8) a description of the department's efforts in each uniform state service region to encourage the construction of housing units that incorporate energy efficient construction and appliances;
(9) an estimate and analysis of the housing supply in each uniform state service region;
(10) an inventory of all publicly and, where possible, privately funded housing resources, including public housing authorities, housing finance corporations, community housing development organizations, and community action agencies;
(11) strategies for meeting rural housing needs;
(12) a biennial action plan
(A) addresses current policy goals for colonia programs, strategies to meet the policy goals, and the projected outcomes with respect to policy goals; and
(B) includes information on the demand for contract-for-deed conversions, services from self-help centers, consumer education, and other colonia resident services in counties some part of which is within 150 miles of the international border of this state;
(13) a summary of public comments received at a hearing under this chapter or from another source that concern the demand for colonia resident services described by Subdivision (12); and
(14)any other housing-related information that the state is required to include in the one-year action plan of the consolidated plan submitted annually to the United States Department of Housing and Urban Development.

(d) The priorities and policies in another plan adopted by the department must be consistent to the extent practical with the priorities and policies established in the state low income housing plan.
(e) To the extent consistent with federal law, the preparation and publication of the state low income housing plan shall be consistent with the filing and publication deadlines required of the department for the consolidated plan; and
(f) The director may subdivide the uniform state service regions as necessary for the purposes of the state low income housing plan.
(g) The department shall include the plan developed by the Texas State Affordable Housing Corporation under Section 2306.566 in the department's resource allocation plan under Subsection (c)(5).
(h) The department shall consider and incorporate the specific results of the programs of the Texas State Affordable Housing Corporation in the department's estimate and analysis of the housing supply in each uniform state service region under Subsection (c)(9).

SEC. 2306.0722. PREPARATION OF PLAN AND REPORT

(a) Before preparing the annual low income housing report under Section 2306.072 and the state low income housing plan under Section 2306.0721, the department shall meet with regional planning commissions created under Chapter 391, Local Government Code, representatives of groups with an interest in low income housing, nonprofit housing organizations, managers, owners, and developers of affordable housing, local government officials, and residents of low income housing. The department shall obtain the comments and suggestions of the representatives, officials, and residents about the prioritization and allocation of the department's resources in regard to housing.
(b) In preparing the annual report under Section 2306.072 and the state low income housing plan under Section 2306.0721, the director shall:
(1) coordinate local, state, and federal housing resources, including tax exempt housing bond financing and low income housing tax credits;
(2) set priorities for the available housing resources to help the neediest individuals;

(3) evaluate the success of publicly supported housing programs;
(4) survey and identify the unmet housing needs of persons the department is required to assist;
(5) ensure that housing programs benefit a person regardless of the persons' race, ethnicity, sex, or national origin;
(6) develop housing opportunities for individuals and families of low and very low income and individuals with special housing needs;
(7) develop housing programs through an open, fair, and public process;
(8) set priorities for assistance in a manner that is appropriate and consistent with the housing needs of the populations described by Section 2306.0721(c)(1);
(9) incorporate recommendations that are consistent with the consolidated plan submitted annually by the state to the United States Department of Housing and Urban Development;
(10) identify the organizations and individuals consulted by the department in preparing the annual report and state low income housing plan and summarize and incorporate comments and suggestions provided under Subsection (a) as the board determines to be appropriate;
(11) develop a plan to respond to changes in federal funding and programs for the provision of affordable housing;
(12) use the following standardized categories to describe the income of program applicants and beneficiaries:
  (A) to 30 percent of area median income adjusted for family size;
  (B) more than 30 to 60 percent of area median income adjusted for family size;
  (C) more than 60 to 80 percent of area median income adjusted for family size;
  (D) more than 80 to 115 percent of area median income adjusted for family size; or
  (E) more than 115 percent of area median income adjusted for family size; and

(13) use the most recent census data combined with existing data from local housing and community service providers in the state, including public housing authorities, housing finance corporations, community housing development organizations, and community action agencies.
(14) provide the needs assessment information compiled for the report and plan to the Texas State Affordable Housing Corporation.

SEC. 2306.0723. PUBLIC PARTICIPATION REQUIREMENTS

(a) The department shall hold public hearings on the annual state low income housing plan and report before the director submits the report and the plan to the board. The department shall provide notice of the public hearings as required by Section 2306.0661. The department shall accept comments on the report and plan at the public hearings and for at least 30 days after the date of the publication of the notice of the hearings.
(b) In addition to any other necessary topics relating to the report and the plan, each public hearing required by Subsection (a) must address:
  (1) infrastructure needs;
  (2) home ownership programs;
  (3) rental housing programs;
  (4) housing repair programs; and
  (5) the concerns of individuals with special needs, as defined by Section 2306.511.

(c) The board shall hold a public hearing on the state low income housing report and plan before the board submits the report and the plan to the governor, lieutenant governor, speaker of the house of representatives, members of the legislature.

(d) The board shall include with the report and the plan the board submits to the governor, lieutenant governor, speaker of the house of representatives, members of the legislature, and members of the advisory board formed by the department to advise on the consolidated plan a written summary of public comments on the report and the plan.

SEC. 2306.0724. FAIR HOUSING SPONSOR REPORT

a) The department shall require the owner of each housing development that receives financial assistance from the department and that contains 20 or more living units to submit an annual fair housing sponsor report. The report must include the relevant information necessary for the analysis required by Section 2306.072(c)(6). In compiling the information for the report, the owner of each housing development shall use data current as of January 1 of the reporting year.

(b) The department shall adopt rules regarding the procedure for filing the report.

(c) The department shall maintain the reports in electronic and hard-copy formats readily available to the public at no cost.

(d) A housing sponsor who fails to file a report in a timely manner is subject to the following sanctions, as determined by the department:

(1) denial of a request for additional funding; or

(2) an administrative penalty in an amount not to exceed $1,000, assessed in the manner provided for an administrative penalty under Section 2306.6023.

APPENDIX B

GLOSSARY OF SELECTED TERMS

Accessible: A definition used by HUD in Section 504 with respect to the design, construction, or alteration of an individual dwelling unit. It means that the unit is located on an accessible route and when designed, constructed, altered, or adapted, it can be approached, entered, and used by individuals with physical disabilities. A unit that is on an accessible route and is adaptable and otherwise in compliance with the standards set forth in the Uniform Federal Accessibility Standards (UFAS, 23 CFR Subpart 40 for residential structures) is considered accessible. When a unit in an existing facility that is being made accessible as a result of alterations intended for use by a specific qualified person with a disability, the unit will be deemed accessible if it meets the requirements of applicable standards that address the particular disability or impairment of such person.

Accessible Route: Unobstructed path that connects accessible elements and spaces in a building or facility and complies with the space and reach requirements prescribed by the Uniform Federal Accessibility Standards (UFAS). An accessible route that serves only accessible units occupied by persons with hearing or vision impairments need not comply with those requirements intended to affect accessibility for persons with mobility requirements.

Acquisition: Acquisition of standard housing (at a minimum, meeting HUD Section 8 Housing Quality Standards) only with no expectation of other activities being carried out in conjunction with the acquisition.

Adaptability: A definition used by HUD in Section 504 meaning the ability of certain elements of a dwelling unit (such as kitchen counters, sinks, and grab bars) to be added to, raised, lowered, or otherwise altered, to accommodate the needs of persons with or without disability or to accommodate the needs of persons with different degrees of disability.

Administrative Costs Reasonable and necessary costs, as described in OMB Circular A-87, incurred by the participating jurisdiction in carrying out its eligible program activities in accordance with prescribed regulations. Administrative costs include any project delivery costs, such as new construction and rehabilitation counseling, preparing work specifications, loan processing, inspections, and other entities applying for or receiving HOME funds. Administrative costs do not include eligible project-related costs that are incurred by and charged to project owners.

Affordable Housing: Housing where the occupant is paying no more than 30 percent of his/her gross monthly income for gross housing costs, including utility costs. Housing that is for purchase (with or without rehabilitation) qualifies as affordable housing if it (1) is purchased by a low income, first-time home buyer who will make the housing his or her principal residence; and (2) has a sale price that does not exceed the mortgage limit for type of single family housing for the area under HUD's single family insuring authority under the National Housing Act.

Area Median Family Income (AMFI): Income limits for MSAs and counties that are based on HUD's estimates of the area's median income adjusted for family size. Calculated yearly by HUD and used to determine an applicant's eligibility with regard to HUD programs.

Assisted Household or Person:	For the purpose of identification of goals, an assisted household or person is one in which, during the periods covered by the annual plan, will receive benefits through the investment of federal funds, either alone or in conjunction with the investment of other public or private funds. A renter is benefited if the household or person takes occupancy of affordable housing that is newly acquired (standard housing) or new rehabilitation is completed. A first-time home buyer is benefited if a home is purchased during the year. A homeless person is benefited if the person becomes an occupant of transitional or permanent housing. A non-homeless person with special needs is considered as being benefited if the provision of supportive services is linked to the acquisition, rehabilitation, or new construction of a housing unit and/or the provision of rental assistance during the year.
Capacity Building:	Educational and organizational support assistance to promote the ability of an organizations to maintain, rehabilitate, and construct housing for low and very low income persons and families. This activity may include, but is not limited to: 1) Organizational support to cover expenses for training, technical, and other assistance to the board of directors, staff, and members of the organization, 2) Program support including technical assistance and training related to housing development, housing management, or other subjects related to the provision of housing or housing services, and 3) Studies and analyses of housing needs.
Community Housing Development Organization (CHDO):	A nonprofit organization, certified by a city or the state, that provides decent, affordable housing to low income individuals within a designated geographic area.
Colonia:	An identifiable unincorporated area located within 150 miles of the Texas-Mexico border that lacks infrastructure and decent housing.
Consolidated Plan:	A document submitted to the US Department of Housing and Urban Development (HUD) containing housing needs assessments and strategic plans for the state. It is required of the State of Texas by HUD in order to receive federal CDBG, HOME, ESGP, and HOPWA program funds.
Contract for Deed:	A financing arrangement for the sale of property whereby land ownership remains with the seller until the total purchase price is paid.
Disability:	According to the US Department of Housing and Urban Development, a person shall be considered to have a disability if the person is determined to have a physical, mental, or emotional impairment that: (1) is expected to be of long-continued and indefinite duration, (2) substantially impeded his or her ability to live independently, and (3) is of such a nature that the ability could be improved by more suitable housing conditions. A person shall also be considered to have a disability or he or she has a developmental disability as defined in the Developmental Disabilities Assistance and Bill of Rights Act (42 USC. 6001-6006). The term also includes the surviving member(s) or any household described in the first sentence of this paragraph who is (were) living in an assisted unit with the disabled member of the household at the time of his or her death. Disabilities reflect the consequences of a bodily impairment in terms of functional performance. Also see "Person with Disability."
Disabled Household:	A household composed of one or more persons at least one of whom is an adult (a person of at least 18 years of age) who has a disability.

Economic Independence and Self-Sufficiency Programs:	Programs undertaken by public housing agencies (PHAs) to promote economic independence and self-sufficiency for participating families. Such programs may include Project Self-sufficiency and Operation Bootstrap programs that originated under earlier Section 8 initiatives, as well as the Family Self-Sufficiency program. In addition, PHAs may operate locally developed programs or special projects designed to promote economic independence and self-sufficiency.
Elderly Household:	According to HUD, a family in which the head of the household or a spouse is at least 62 years of age, by HUD's definition. This definition may change according to specific program.
Extremely Low Income:	Individual of family with a household income less than or equal to 30 percent of the area median family income (AMFI)
Fair Housing Act	Prohibits discrimination in housing because of race, national origin, religion, sex, familial status, or disability.
Federal Preference for Admission:	The preference given to otherwise eligible applicants under HUD's rental assistance programs who, at the time they seek housing assistance, are involuntarily displaced, living in substandard housing, or paying more than 50 percent of family income for rent.
First Time Home Buyer:	An individual or family who has not owned a home during the three-year period preceding the HUD-assisted purchase of a home that must be used as the principal residence of the homebuyer.
Frail Elderly Persons:	Includes elderly persons who are unable to perform one or more Activities of Daily Living (ADL) without help.
Household:	One or more persons occupying a housing unit (US Census definition).
Housing Development Costs:	The total of all costs incurred in financing, creating, or purchasing any housing development, which are approved by the department as reasonable and necessary. The costs may include, but are not limited to, the value of land and any buildings on the land, cost of land acquisition, options, deposits, or contracts to purchase; cost of site preparation demolition and development; fee paid or payable in connection with the planning, execution, and financing of the development, such as those to architects, engineers, attorneys, accountants; cost of necessary studies, surveys, plans, permits, insurance, interest, financing, tax and assessment costs, and other operating and carrying costs during construction; cost of construction, rehabilitation, reconstruction, fixtures, furnishings, equipment, machines, and apparatus related to the real property; cost of land improvements, including without limitation, landscaping and off-site improvements; necessary expenses in connection with initial occupancy of the housing development; an allowance established by the Department for contingency reserves; and the cost of the other items, including tenant relocation, if tenant relocation costs are not otherwise being provided for, as determined by the department to be reasonable and necessary for the development of the housing development, less any and all net rents and other net revenues received from the operation of the real and personal property on the development site during construction.

Housing Development or Housing Project:	Any real or personal property, project, building structure, or facilities work or undertaking, whether existing, new construction, remodeling, improvement, or rehabilitation, that meets or is designed to meet minimum property standards consistent with those prescribed in the federal HOME Program for the primary purpose of providing sanitary, decent, and safe dwelling accommodations for rent, lease, use, or purchase by persons and families of low and very low income and persons with special needs. This term may include buildings, structure, land, equipment, facilities, or other real or personal properties that are necessary, convenient, or desirable appurtenances, such as but not limited to streets, water, sewers, utilities, parks, site preparation, landscaping, stores, offices, and other non-housing facilities, such as administrative, community, and recreational facilities the Department determines to be necessary, convenient, or desirable appurtenances.
Housing Problems:	Households with housing problems include those that: (1) occupy units with physical defects; (2) meet the definition of overcrowded; or (3) meet the definition of cost burdened (>30 percent of income spent on housing).
Jurisdiction:	A unit of state or local government
Local Government:	A county; an incorporated municipality; a special district; any other legally constituted political subdivision of the State; a public, nonprofit housing finance corporation created under Chapter 394, Local Government code Texas revised Civil Statues; or a combination of any of the entities described here.
Low Income Neighborhood:	A neighborhood that has at least 51 percent of its households at or below 80 percent of AMFI.
Low Income:	Household with an annual income that does not exceed 80 percent of the area median family income for the area. HUD may establish income ceilings higher or lower than the 80 percent figure on the basis of HUD's findings that such variations are necessary because of prevailing levels of construction costs or fair market rents or unusually high or low family incomes.
Metropolitan Statistical Area (MSA):	US Census term used to identify a metropolitan area, which is a large population nucleus, together with adjacent communities having a high degree of social and economic integration with that core. Also described as an "urbanized area" of at least 50,000 inhabitants and/or a total metropolitan population of 100,000.
Migrant Farmworkers:	Persons who travel from place to place in order to take advantage of work opportunities provided by various agricultural seasons across the country.
Moderate Income:	Households whose incomes are between 81 percent and 115 percent of the median income for the area, as determined by HUD, with adjustments for smaller or larger families, except that HUD may establish income ceilings higher or lower than 95 percent of the prevailing levels of construction costs or fair market rents, or unusually high of low family incomes. May differ by program.
Neighborhood:	A geographic location designated in comprehensive plans, ordinances, or other local documents as a neighborhood, village, or similar geographical designation that is within the boundary but does not encompass the entire area of a unit of general local government. If the general local government has a population under 25,000, the neighborhood may, but need not, encompass the entire area of a unit of general local government.

Nonprofit Organization: A nonprofit corporation is created by filing articles of incorporation with the Secretary of State in accordance with the Texas Non-Profit Corporation Act. "Non-profit corporation" means a corporation in which no part of the earned income is distributable to members, directors, or officers. A nonprofit corporation may be created for any lawful purposes and are entitled to exemption from state or federal taxes.

***Olmstead*:** The US Supreme Court in *Olmstead v. L. C.* held that unnecessary segregation and institutionalization of people with disabilities is unlawful discrimination under the ADA.

Overcrowded: A housing unit containing more than one person per room. (US Census definition)

Participating Jurisdiction (PJ): Term for any state or local government that has been designated by HUD to receive HOME Program funds.

Person with Disability: (1) A person is considered to have a disability if the person has a physical, mental, or emotional impairment that (i) is expected to be of long-continued and indefinite duration; (ii) substantially impedes his or her ability to live independently; and (iii) is of such a nature that such ability could be improved by more suitable housing conditions. (2) A person will also be considered to have a disability if he or she has a developmental disability, which is a severe, chronic disability that (i) is attributable to a mental or physical impairment or combination of mental and physical impairments; (ii) is manifested before the person attains age twenty-two; (iii) is likely to continue indefinitely; (iv) results in substantial functional limitations in three or more of the following areas of major life activity; self-care, receptive and expressive language, learning, mobility, self-direction, capacity for independent living, and economic self-sufficiency, and (v) reflects the person's need for a combination and sequence of special interdisciplinary, or generic care, treatment, or other services that are lifelong or extended duration and are individually planned and coordinated.

Physical Defects: A housing unit lacking complete kitchen or bathroom facilities (US Census definition).

Poverty: Term to describe the poor. The Census Bureau uses a set of money income thresholds that vary by family size and composition to determine who is poor. If a family's total income is less than that family's threshold, then that family, and every individual in it, is considered poor or in poverty. Varies by year.

Predevelopment Costs: Costs related to a specific eligible housing project including: a) expenses necessary to determine project feasibility (including costs of an initial feasibility study), consulting fees, costs of preliminary financial applications, legal fees, architectural fees, engineering fees, engagement of a development team, site control, and title clearance; and b) reconstruction housing project costs that the board determines to be customary and reasonable, including but not limited to the costs of obtaining firm construction loan commitments, architectural plans and specifications, zoning approvals, engineering studies, and legal fees. Predevelopment costs <u>does not</u> include general operational or administrative costs.

Primary Housing Activity:	A means of providing or producing affordable housing - such as rental assistance, production, rehabilitation, or acquisition - that will be allocated significant resources and/or pursued intensively for addressing a particular housing need. (See also, "Secondary Housing Activity.")
Project:	A site or an entire building, including a manufactured housing unit or two or more buildings together with the site or sites on which the building or buildings is located, that are under common ownership, management, and financing (i.e., a project assisted with HOME funds, under a commitment by the owner, as a single undertaking). Project includes all the activities associated with the site and building. If there is more than one site associated with a project, the sites must be within a four-block area.
Project Completion:	All necessary title transfer requirements and construction work have been performed and the project, in HUD's judgment, complies with specified requirements (including the property standards adopted under HOME 92.251); the final drawdown has been disbursed for the project; and a project completion report has been submitted and processed in the Cash and Management Information System (92.501) as prescribed by HUD. For tenant-based rental assistance, the final drawdown has been disbursed for the project and the final payment certification has been submitted and processed in the Cash and Management Information System (92.502) as prescribed by HUD.
Project-Based Rental Assistance:	Rental Assistance provided for a project, not for a specific tenant. Tenants receiving project-based rental assistance give up the right to that assistance upon moving from the project.
Public Housing:	Any state, county, municipality, or other government entity or public body (or its agency or instrumentality) that is authorized to engage in or assist in the development or operation of low income housing. The term includes any Indian Housing Authority.
Qualified Allocation Plan:	The Qualified Allocation Plan is utilized by the Low Income Housing Tax Credit Program in setting threshold and selection criteria points for the allocation of tax credits.
Real Property:	All land, including improvements and fixtures and property of any nature appurtenant, or used in connection therewith, and every estate, interest, and right legal or equitable therein, including leasehold interests, terms for years, and liens by way of judgment, mortgage or otherwise.

Reconstruction: HUD guidelines regarding reconstruction are as follows: *The regulation defines reconstruction as the rebuilding of housing on the same foundation. Therefore, the foundation must be used, if possible. If the building has no foundation or if it is not possible to rebuild on the foundation, then the "foundation" will be the same location as the building that is being reconstructed. Construction of housing on a different portion of the land parcel would be new construction. The reconstructed housing must be substantially similar to the structure that is being replaced, regardless of whether an existing foundation is used (i.e. a single family house must be replaced with a structure containing the same number of units). Rooms may be added to a building outside of the foundation or footprint of the original housing if needed to meet local codes. However, additional units cannot be constructed as part of a reconstruction project. A structure must be present prior to reconstruction. This structure should be documented by pictures and an explanation of why rehabilitation of the existing structure is not feasible.*

Rental Assistance: Rental assistance payments provided as either project-based rental assistance or tenant-based rental assistance.

Rental Housing (Affordable): A rental housing unit is considered to be an affordable housing unit if it is occupied by a low income family or individual and bears a rent that is the lesser of (1) the Existing Section 8 Fair Market Rent (FMR) for comparable units in the area; or (2) 30 percent of the adjusted income of a family whose income equals 65 percent of the median income for the area, except that HUD may establish income ceilings higher or lower than 65 percent of the median because of prevailing levels of construction costs or fair market rents, or usually high or low family incomes.

Rural Area: Rural areas are considered areas outside of Metropolitan Statistical Areas. Definition may differ according to program.

Service Needs: The particular services identified for special needs populations, which may include transportation, personal care, housekeeping, counseling, meals, case management, personal emergency response, and other services to prevent premature institutionalization and assist individuals to continue living independently.

Severe Cost Burden: Refers to households and individuals who spend more than 50 percent of their gross income on housing costs.

Sheltered: Families and persons whose primary nighttime residence is a supervised, publicly or privately operated shelter, including emergency shelters, transitional housing for the homeless, domestic violence shelters, residential shelters for runaway and homeless youth, and any hotel/motel/apartment voucher arrangement paid because the person is homeless. This term does not include persons living in overcrowded or substandard conventional housing. Any facility offering permanent housing is not a shelter, nor are its residents homeless.

Special Needs Populations: In addition to the homeless, according to HUD, special needs populations include persons with disabilities, the elderly, persons with alcohol and/or drug addictions, persons with HIV/AIDS, and public housing residents. TDHCA also considers colonia residents and migrant farmworkers as special needs populations.

State Recipient:	A unit of local government designated by a state to receive HOME funds from the state in which to carry out HOME Program activities.
Subrecipient:	A public agency or nonprofit organization selected by the participating jurisdiction's HOME program. A public agency or nonprofit organization that receives HOME funds solely as a developer or owner of housing is not a sub-recipient. The participating jurisdiction's selection of a sub-recipient is not subject to the procurement procedures and requirements.
Substandard Condition but Suitable for Rehabilitation:	By local definition, dwelling units that do not meet standard conditions but are both financially and structurally feasible for rehabilitation. This does not include units that require only cosmetic work, correction or minor livability problems, or maintenance work. The jurisdiction must define this term (i.e., standard condition, financially and structurally feasible for rehab) and include this definition in the Appendix (Glossary of Terms) portion of its CHAS submission.
Substantial Rehabilitation:	Rehabilitation of residential property at an average cost for the project in excess of $25,000 per dwelling unit.
Supportive Housing:	Housing, including housing units and group quarters, that has a supportive environment and includes a planned service component.
Supportive Services:	Services provided to residents of supportive housing for the purpose of facilitating the independence of residents. Some examples are case management, medical or psychological counseling and supervision, child care, transportation, and job training.
Tenant-Based Rental Assistance:	A form of rental assistance in which the assisted tenant may move from a dwelling unit with a right to continued assistance. The assistance is provided for the tenant, not for the project.
Threshold Criteria:	To be considered for funding, a housing project must first demonstrate that it meets all the threshold criteria set forth as follows: a) the project is consistent with the requirements established in this rule; b) the applicant provides evidence of their ability to carry out the project in the areas of financing, acquiring, rehabilitating, developing, or managing affordable housing developments; and c) the project addresses an identified housing need. This assessment will be based on statistical data, surveys, or other indicators of needs as appropriate.
Total Bonded Indebtedness:	All single family mortgage revenue bonds (including collateralized mortgage obligations), multifamily mortgage revenue bonds, and other debt obligations issued or assumed by the Department and outstanding as of August thirty-one of the year of calculation, excluding; all such bonds rated AAA by Moody's Investors Service or AAA by Standard & Poors Corporation for which the Department has no direct or indirect financial liability form the Department's unencumbered fund balances, and all other such bonds, whether rated or unrated, for which the Department has no direct or indirect financial liability from the Departments unencumbered fund balances, unless Moody's' or Standard & Poors has advised the Department in writing that all or portion of the bonds excluded by this clause should be included in a determination of total bonded indebtedness.

Unencumbered Fund Balances:	A) The sum of the balances resulting at the end of each Department fiscal year form deducting the sum of bond indenture and credit rating restrictions and liabilities for the sum of amounts on deposit in indenture funds and other tangible and intangible assets of each department housing bond program, and b) uncommitted amounts of deposit in each independent or separate unrestricted fund established by the housing finance division or its administrative component units.
Very Low Income:	Households whose incomes do not exceed 50 percent of the median area income for the area, as determined by HUD, with adjustments for smaller and larger families and for areas with unusually high or low incomes or where needed because of prevailing levels of construction costs or fair market rents. Definition may differ according to program; the State of Texas designates very-low income as 60 percent or less AMFI.
Work Disability:	A condition that prevents a person from working or limits a person's ability to work.

Action Items

2007 State of Texas Consolidated Plan: One-Year Action Plan (Draft for Public Comment)

Required Action

Release for public comment of the *2007 State of Texas Consolidated Plan: One-Year Action Plan (Draft for Public Comment)*

Background

The Texas Department of Housing and Community Affairs, Office of Rural Community Affairs, and Department of State Health Services are preparing the *2007 State of Texas Consolidated Plan: One-Year Action Plan* (Plan) in accordance with 24 CFR §91.320.

The Plan reports on the intended use of funds received by the State of Texas from the US Department of Housing and Urban Development for Program Year 2007. The Program Year begins on February 1, 2007, and ends on January 31, 2008. The Plan covers the State's administration of the Community Development Block Grant Program, Emergency Shelter Grants Program, the HOME Investment Partnerships Program, and the Housing Opportunities for Persons with AIDS Program. The Plan also illustrates the State's strategies in addressing the priority needs and specific goals and objectives identified in the *2005-2009 State of Texas Consolidated Plan*.

The Plan will be available for public comment from September 13, 2006, through October 12, 2006. Comment on the Plan may be provided in writing or directly at one of 13 Consolidated public hearings to be held across the state.

Summary of Changes from 2*006 Consolidated Plan: One-Year Action Plan*

- Addition of progress in implementing new HUD CPD Outcome Performance Measurement System changes for each program area (pp. 12 [ESGP], 27 [HOME])
- HOME Program: Removal of HOYO direct award of $500,000 and creation of Persons with Disabilities Single Family Allocation. (pp. 13, 20)
- HOME Program: Reduction of single family homebuyer assistance allocation from 20 percent to 10 percent. (pp. 13, 17)
- HOME Program: Addition of biennial funding language using FY 2007 funds. (p. 14)
- HOME Program: Removal of the restriction that activities funded in participating jurisdictions under the 5 percent persons with disabilities allowance be multifamily developments only. (p. 20, 22)

2007 State of Texas Consolidated Plan
One-Year Action Plan
(Draft for Public Comment)

TABLE OF CONTENTS

INTRODUCTION

The Texas Department of Housing and Community Affairs (TDHCA), Office of Rural Community Affairs (ORCA) and Department of State Health Services (DSHS) have completed the *2007 State of Texas Consolidated Plan One-Year Action Plan* ("the Plan") in accordance with 24 CFR §91.320. When the combined actions of TDHCA, ORCA, and DSHS are referenced in the Plan, the description "Departments" is used.

The Plan reports on the intended use of funds received by the State of Texas from the US Department of Housing and Urban Development (HUD) for Program Year (PY) 2007. The Program Year begins on February 1, 2007, and ends on January 31, 2008. The performance report on PY 2006 funds will be available in May 2007. The Plan covers the Departments' administration of the Community Development Block Grant Program (CDBG), Emergency Shelter Grants Program (ESG), and the HOME Investment Partnerships Program (HOME), and the Housing Opportunities for Persons with AIDS Program (HOPWA).

The Plan illustrates the Departments' strategies in addressing the priority needs and specific goals and objectives identified in the *2005-2009 State of Texas Consolidated Plan*. The plan consists of the following sections:

- Introduction. Provides an outline of the One-Year Action Plan.
- Form Applications and Certifications. Contains Standard Form 424, the application for federal resources, as well as HUD required certifications.
- Action Plans. Program-specific plans for CDBG, HOME, ESG, and HOPWA illustrating funding guidelines and fund allocations as required under 24 CFR §91.320 (g).
- Other Activities. A description of TDHCA's plan to undertake other activities that fulfill requirement of §91.320 (f).
- Summary of Public Comment. Describes the citizen participation process. Also includes a summary of public comment and Departmental responses. Transcripts of public hearings and complete copies of submitted comments are also available from the TDHCA Division of Policy and Public Affairs at (512) 475-3976. Public comment will be included in the final version of the document.

ACTION PLAN REQUIREMENTS

§ 91.320 ACTION PLAN

The action plan must include the following:

(a) <u>Form application.</u> Standard Form 424;

(b) <u>Resources.</u>

(1) <u>Federal resources.</u> The consolidated plan must describe the Federal resources expected to be available to address the priority needs and specific objectives identified in the strategic plan, in accordance with § 91.315. These resources include grant funds and program income.

(2) <u>Other resources.</u> The consolidated plan must indicate resources from private and non Federal public sources that are reasonably expected to be made available to address the needs identified in the plan. The plan must explain how Federal funds will leverage those additional resources, including a description of how matching requirements of the HUD programs will be satisfied. Where the State deems it appropriate, it may indicate publicly owned land or property located within the State that may be used to carry out the purposes stated in § 91.1;

(c) <u>Activities.</u> A description of the State's method for distributing funds to local governments and nonprofit organizations to carry out activities, or the activities to be undertaken by the State, using funds that are expected to be received under formula allocations (and related program income) and other HUD assistance during the program year and how the proposed distribution of funds will address the priority needs and specific objectives described in the consolidated plan;

(d) <u>Geographic distribution.</u> A description of the geographic areas of the State (including areas of minority concentration) in which it will direct assistance during the ensuing program year, giving the rationale for the priorities for allocating investment geographically;

(e) <u>Homeless and other special needs activities.</u> Activities it plans to undertake during the next year to address emergency shelter and transitional housing needs of homeless individuals and families (including subpopulations), to prevent low-income individuals and families with children (especially those with incomes below 30% of median) from becoming homeless, to help homeless persons make the transition to permanent housing and independent living, and to address the special needs of persons who are not homeless identified in accordance with § 91.315(d);

(f) <u>Other actions.</u> Actions it plans to take during the next year to address obstacles to meeting underserved needs, foster and maintain affordable housing (including the coordination of Low-Income Housing Tax Credits with the development of affordable housing), remove barriers to affordable housing, evaluate and reduce lead-based paint hazards, reduce the number of poverty level families, develop institutional structure, and enhance coordination between public and private housing and social service agencies and foster public housing resident initiatives. (See §91.315 (a), (b), (f), (g), (h), (i), (j), (k), and (l).)

(g) <u>Program-specific requirements</u>. In addition, the plan must include the following specific information:

(1) CDBG. The method of distribution shall contain a description of all criteria used to select applications from local governments for funding, including the relative importance of the criteria--if the relative importance has been developed. The action plan must include a description of how all CDBG resources will be allocated among all funding categories and the threshold factors and grant size limits that are to be applied. If the State intends to aid nonentitlement units of general local government in applying for guaranteed loan funds under 24 CFR part 570, subpart M, it must describe available guarantee amounts and how applications will be selected for assistance. If a State

elects to allow units of general local government to carry out community revitalization strategies, the method of distribution shall reflect the State's process and criteria for approving local governments' revitalization strategies. (The statement of the method of distribution must provide sufficient information so that units of general local government will be able to understand and comment on it and be able to prepare responsive applications.)

(2) HOME.

- *i. The State shall describe other forms of investment that are not described in Sec. 92.205(b) of this subtitle.*
- *ii. If the State intends to use HOME funds for homebuyers, it must state the guidelines for resale or recapture, as required in Sec. 92.254 of this subtitle.*
- *iii. If the State intends to use HOME funds to refinance existing debt secured by multifamily housing that is being rehabilitated with HOME funds, it must state its refinancing guidelines required under 24 CFR 92.206(b). The guidelines shall describe the conditions under which the State will refinance existing debt. At minimum, the guidelines must:*
  - *A. Demonstrate that rehabilitation is the primary eligible activity and ensure that this requirement is met by establishing a minimum level of rehabilitation per unit or a required ratio between rehabilitation and refinancing.*
  - *B. Require a review of management practices to demonstrate that disinvestment in the property has not occurred; that the long term needs of the project can be met; and that the feasibility of serving the targeted population over an extended affordability period can be demonstrated.*
  - *C. State whether the new investment is being made to maintain current affordable units, create additional affordable units or both.*
  - *D. Specify the required period of affordability, whether it is the minimum 15 years or longer.*
  - *E. Specify whether the investment of HOME funds may be jurisdiction-wide or limited to a specific geographic area, such as a neighborhood identified in a neighborhood revitalization strategy under 24 CFR Sec. 91.215(e)(2) or a Federally designated Empowerment Zone or Enterprise Community.*
  - *F. State HOME funds cannot be used to refinance multifamily loans made or insured by any Federal program, including CDBG.*

(3) ESG. The State shall state the process for awarding grants to State recipients and a description of how the State intends to make its allocation available to units of local government and nonprofit organizations.

(4) HOPWA. The State shall state the method of selecting project sponsors.

STANDARD FORM 424 AND STATE CERTIFICATIONS

The standard 424 forms and state certifications will be included in the final version of the document.

ACTION PLANS

COMMUNITY DEVELOPMENT BLOCK GRANT
TEXAS COMMUNITY DEVELOPMENT PROGRAM 2007 ACTION PLAN

To be included in the final draft version of the document.

EMERGENCY SHELTER GRANTS PROGRAM 2007 ACTION PLAN

FEDERAL RESOURCES EXPECTED PY 2007

TDHCA expects to receive $5,076,683 for PY 2007. This estimate is based on Texas's ESGP allocation for PY 2006, which was $5,076,683.

RECIPIENTS

Units of general local government; private nonprofit organizations.

ESTIMATED PY 2007 BENEFICIARIES

TDHCA estimates that in PY 2007 the Department will fund 76 private nonprofit entities and units of general local government to administer projects that will provide shelter and related services to homeless persons and/or intervention services to persons at risk of homelessness. Several of the entities have been funded for collaborative projects with 17 organizations. The Department estimates that 79,000 homeless persons will be assisted in PY 2007.

TARGETED BENEFICIARIES

Homeless individuals and individuals at risk of homelessness.

FUND DISTRIBUTION

TDHCA has administered the Emergency Shelter Grants Program (ESGP) since 1987. TDHCA will administer the S-04-DC-48-0001 ESGP funds in a manner consistent with the McKinney-Vento Homeless Assistance Act, as amended (42 U.S.C. Sec 11371 *et seq.*). TDHCA will obligate PY 2007 ESGP funds through a statewide competitive application process. ESGP funds are reserved for each of the State's 13 Uniform State Service Regions based on the poverty population of each region based on the 2000 US Census. A portion of the State's ESGP allocation will be reserved to fund a statewide homeless prevention project. In the past, this statewide project has addressed the expansion of the number of homeless coalitions, the provision of training and technical assistance on homeless issues, and the maintenance of a homeless information resource library.

OBJECTIVES

The objectives of ESGP consist of the following:

- Help improve the quality of emergency shelters for the homeless.
- Make additional emergency shelters available.
- Help meet the costs of operating and maintaining emergency shelters.
- Provide essential services so that homeless individuals have access to the assistance they need to improve their situations.
- Provide emergency intervention assistance to prevent homelessness.

The State's strategy to help homeless persons includes: community outreach efforts to ensure that homeless persons and persons at risk of homelessness are aware of available services, providing funding to support emergency shelter and transitional housing programs, helping homeless persons make the transition to permanent housing and independent living through comprehensive case management, and supporting statewide efforts to address homelessness. This strategy is outlined below.

Helping low income families avoid becoming homeless:

- TDHCA awards ESGP funds using the competitive process described in the ESGP One-Year Action Plan. In that process, up to 30 percent of the State's ESGP annual allocation is made available to support homelessness prevention activities, and up to 30 percent of the ESGP annual allocation is made available to provide essential services. Homelessness prevention efforts include short-term rent and utility assistance for homeless individuals and families and, if they meet certain criteria, those who are at-risk of losing their housing.
- Applicants for ESGP funding are required to demonstrate coordination with other providers in their communities as part of the ESGP scoring criteria. ESGP grant recipients are encouraged to maximize all community resources when providing homelessness prevention assistance to ensure the appropriate use of these limited resources.

Reaching out to homeless persons and assessing their individual needs:

- Each application for ESGP funding includes information about the outreach process and case management system used by the applicant organization.
- Each application for ESGP funding includes a description of services provided to homeless persons. This description is evaluated during the application review process as a criterion for receiving ESGP funding.
- ESGP grant recipients will be required to report on outcomes achieved by homeless persons assisted. Reporting on outcomes will provide the Department with information on the long-term impact of the services provided such as the attainment of transitional housing or permanent housing, obtaining a GED or high school diploma or the achievement of other education and training goals, obtaining job skills, job placement, etc.

Addressing the emergency shelter and transitional housing needs of homeless persons:

- ESGP grants provide support to organizations that provide emergency services, shelter, and transitional housing to homeless persons and families.
- To ensure equitable distribution of funding, a portion of the ESGP allocation is reserved for each of the 13 regions in the state on the basis of the poverty population in each region. TDHCA expects to fund 76 projects in PY 2007. (See the ESGP Obligation Process later in this section.)

Helping homeless persons make the transition to permanent housing:

- ESGP funds can be used to pay rent and utility deposits as well as first month's rent for homeless individuals making the transition to permanent housing.

Supporting statewide efforts to address homelessness:

- The State will continue to fund a statewide homeless prevention project to expand the number of homeless coalitions, provide training and technical assistance on homeless issues, and maintain a homeless information resource library. In the past, the Texas Homeless Network (THN) has been awarded the competitive grant to operate the statewide project. THN is the only private, nonprofit organization that addresses homelessness issues statewide.

- Historically, Texas has not received all of the Continuum of Care funds HUD reserved for this State due to a lack of viable applications. The Texas Homeless Network has conducted technical assistance workshops at no cost to local organizations which applied for HUD Continuum of Care funds. In 2006, THN also coordinated and submitted the State's application to HUD for Continuum of Care funds for the Balance of State. ESGP funds are not utilized for these activities.

ELIGIBLE ACTIVITIES

ESGP funds may be used for the following eligible activities:

1. Renovation, major rehabilitation, or conversion of buildings to be used as emergency shelters for the homeless.

2. Provision of essential services, including, but not limited to, the following:
   a) Assistance in obtaining permanent housing
   b) Medical and psychological counseling and supervision
   c) Employment counseling
   d) Nutritional counseling
   e) Substance abuse treatment and counseling
   f) Assistance in obtaining other federal, state, and local assistance
   g) Other services such as child care, transportation, job placement, and job training
   h) Staff salaries necessary to provide the above services

   These services may be provided only pursuant to Sec. 414 of the McKinney Act as amended by Sec. 832 of the Cranston-Gonzalez National Affordable Housing Act (42 U.S.C. Sec. 11374), which requires that services funded with ESGP must be provided in a nondiscriminatory manner.

3. Payment of maintenance, operation, and furnishings costs, except that not more than 10 percent of the amount of any ESGP grant may be used to pay operation staff costs.

4. Developing and implementing homeless prevention activities as per Sec. 414 of the McKinney Act as amended by Sec. 832 of the Cranston-Gonzalez National Affordable Housing Act.

RECIPIENT REQUIREMENTS

Recipients of ESGP funding are required to meet certain minimum specifications that include, but are not limited to, the following:

1. Being a unit of general local government or private nonprofit organization.
2. Documenting, in the case of a private nonprofit organization, that the proposed project has the approval of the city, county, or other unit of local government in which the project will operate.
3. Providing for the participation of homeless or formerly homeless individuals on their board of directors or other policy-making entity.
4. Assuring that ESGP subrecipients obligate funds within 180 days from the date that the Department received the award letter from HUD.
5. Documentation of fiscal accountability, as specified in the application.
6. Proposing to undertake only eligible activities.
7. Demonstrating need.

8. Assuring ability to provide matching funds.
9. Demonstrating effectiveness in serving the homeless, including the ability to establish, maintain, and/or improve the self-sufficiency of homeless individuals.
10. Assuring that homeless individuals will be involved in the provision of services funded through ESGP, to the maximum extent feasible, through employment, volunteerism, renovating, maintaining or operating facilities, and/or providing direct services to occupants of facilities assisted with ESGP funds.
11. Assuring the operation of an adequate, sanitary, and safe homeless facility.
12. Assuring that it will administer, in good faith, a policy designed to ensure that the homeless facility is free from the illegal use, possession, or distribution of drugs or alcohol by its beneficiaries.
13. Assuring that it will develop and implement procedures to ensure the confidentiality of records of any individual receiving assistance as a result of family violence.
14. Proposing a sound plan consistent with the *State of Texas Consolidated Plan*, the McKinney-Vento Homeless Assistance Act, and all other assurances and certifications.
15. Assuring the participation in the development and implementation, to the maximum extent practicable and where appropriate, policies and protocols for the discharge of person from publicly funded institutions and systems of care (such as health care facilities, foster care or other youth facilities, or correction programs and institutions) to prevent such discharge from immediately resulting in homelessness for such persons. ESGP funds are not to be used to assist such persons in place of State and local resources.
16. Assuring that it will meet HUD's standards for participation in a local Homeless Management Information System and the collection and reporting of client-level information.

FUND OBLIGATION PROCESS

TDHCA will obligate PY 2007 ESGP funds to units of general local government or to private nonprofit organizations which have local government approval to operate a project which assists homeless individuals. TDHCA will evaluate all applications received and award funds in accordance with the application specifications. This statewide competitive application process will allow ESGP funds to be distributed equitably.

The State's anticipated ESGP allocation for PY 2007 is $5,154,498 less 5 percent ($257,725) for state administration costs. TDHCA reserves ESGP funds for each of the 13 Uniform State Service Regions. Funds are reserved for each region in direct proportion to the percentage of poverty population that exists in each region according to the most recent county Census data. Applicants compete only against other applicants in their Uniform State Service Region.

TDHCA is statutorily required by the Texas Government Code to provide a comprehensive statement on its activities during the preceding year through a document called the *State of Texas Low Income Housing Plan and Annual Report*. Part of this document describes the ethnic and racial composition of families and individuals applying for and receiving assistance from each housing-related program operated by the department.

TDHCA issues a notice of funding availability (NOFA) and provides an application to any organization or individual which requests one. As the applications are received, they are sorted by region and numbered consecutively. Teams review the applications according to assigned regions, using a standardized review instrument. A variety of factors, as per the application instructions, are evaluated and scored to determine each application's merit in identifying and addressing the needs of the homeless population, as well as the organization's capacity to carry out the proposed project.

The top scoring applications in each region will be recommended for funding based on the amount of funds reserved for each region. Any application which receives a score below 70 percent of the highest raw score from the region will not be considered for funding. All available ESGP funds are obligated each year through 12-month contracts.

APPLICABLE FEDERAL AND STATE REGULATIONS

- 24 CFR 576 as amended;
- Title IV, Subtitle B of the McKinney-Vento Homeless Assistance Act, as amended (42 U.S.C. sec, 11371 et seq.)

LEVERAGING RESOURCES

Section 576.51 of the ESGP regulations state that each grantee must match the funding provided by HUD. Match resources must be provided after the date of the ESGP grant award and must be provided in an amount equal to or greater than the ESGP grant award. Resources used to match a previous grant may not be used to match a subsequent award. Sources of match may include, but are not limited to, unrestricted funds from the grant recipient, volunteer hours, the value of donated materials or buildings, or the fair market rent or lease value of a building used to provide services to the homeless population. Each applicant must identify the source and amount of match they intend to provide if they are selected for funding and may report monthly on the amount of match provided. ESGP monitors review the match documentation during each on-site monitoring visit. A desk review is completed at the closeout of each contract to insure, among other things, that each ESGP recipient has provided an adequate amount of match during the contract period.

SPECIAL INITIATIVES AND PARTNERSHIPS

TDHCA is the lead agency in the Texas Interagency Council for the Homeless (TICH). TICH is charged with surveying and evaluating services for the homeless in Texas, assisting in the coordination and provision of services to homeless person throughout the State, increasing the flow of information among service providers and appropriate authorities, developing guidelines to monitor services to the homeless, providing technical assistance to the housing finance division of TDHCA in assessing housing needs for persons with special needs, establishing a central resource and information center for the State's homeless population, and developing a strategic plan to address the needs of the homeless in cooperation with TDHCA and the Health and Human Services Commission.

Through the Texas Homeless Network, TDHCA also supports other activities that address homelessness, including providing technical assistance to develop and strengthen homeless coalitions throughout Texas, distributing a statewide bimonthly newsletter on homelessness, maintaining an information resource center, workshops, and sponsoring an annual statewide conference on homeless issues.

MONITORING

The Department monitors each ESGP subrecipient annually. During the monitoring review, staff determine subrecipients compliance with the ESGP contract; State Policy Issuances; 24 CFR Ch V, Part 576; OMB Circulars related to expenditure of funds; and requirements of Chapter 58 of the Environmental Protection Act as it relates to projects funded for rehabilitation, conversion, or renovation.

CPD OUTCOME PERFORMANCE MEASUREMENT SYSTEM REPORTING

ESGP will begin reporting the HUD CPD Outcome Performance Measurement System beginning September 1, 2006, with the implementation of the 2006 ESGP contracts. The Department's monthly performance report will be amended to include changes in reporting requirements required by HUD and to report utilizing the outcome measurement system. ESGP activities related to renovation, essential services, maintenance, operations, and furnishings will fall under HUD's Outcome 1 Availability/Accessibility and Objective 1 Create a Suitable Living Environment. ESGP activities related to homelessness prevention will be reported under HUD's Outcome 1 Availability/Accessibility and Objective 2 Provide Decent Housing.

ESGP ACTIONS

This section describes how ESGP addresses the following: affordable housing, public housing resident initiatives, lead-based pain hazards, poverty-level households, and institutional structure.

Affordable Housing

While the Department encourages the use of ESGP funds to provide affordable transitional housing, the majority of funds are utilized to provide emergency shelter. Fostering affordable housing is not an initiative for which we provide funding or that we track for the ESGP Program.

Public Housing Resident Initiatives

Fostering public housing resident initiatives is not an initiative for which we provide funding or that we track for the ESGP Program.

Lead-Based Hazards

The Department does evaluate and reduce lead-based hazards for conversion, renovation, or rehabilitation projects funded with ESGP funds and tracks work in these efforts in the ESGP Program as required by Chapter 58 of the Environmental Protection Act.

Poverty-Level Households

While the Department encourages the use of ESGP funds to assist ESGP clients move above the poverty line, it is not an initiative for which we provide funding or that we track for the ESGP Program.

Institutional Structure

The Department does encourage ESGP subrecipients to coordinate services with housing and other service agencies. Collaborative applications funded with ESGP funds are required to coordinate services and to provide services as part of a local continuum of care. The Department reviews ESGP subrecipient's coordination efforts during on-site and desk monitoring.

HOME INVESTMENT PARTNERSHIPS PROGRAM 2007 ACTION PLAN

FEDERAL RESOURCES EXPECTED PY 2007

The purpose of the HOME Investment Partnerships (HOME) Program is to expand the supply of decent, safe, and affordable housing for extremely low, very low, and low income households, and to alleviate the problems of excessive rent burdens, homelessness, and deteriorating housing stock. HOME strives to meet both the short-term goal of increasing the supply and the availability of affordable housing and the long-term goal of building partnerships between state and local private entities and nonprofit organizations. TDHCA provides technical assistance through application and implementation workshops to all recipients of HOME funds to ensure that all participants meet and follow the state implementation guidelines and federal regulations.

The State of Texas HOME Program is receiving approximately $40,000,000 ($40,000,000 HOME funds plus $650,000 ADDI funds) from HUD for PY 2007.

ALLOCATION OF PY 2007 FUNDS

TDHCA will use the following method for allocating funds.

	Estimated Available Funding	% of Total HOME Allocation
Administration Funds (10% of PY 2007)[1]	$4,000,000	10.0%
CHDO Project Funds Set Aside (15% of PY 2007) [1, 2]	$6,000,000	15.0%
CHDO Operating Expenses Set Aside (5% of CHDO Set Aside) [1]	$300,000	0.8%
Persons with Disabilities Single Family Allocation	$750,000	1.9%
Set Aside for Contract for Deed Conversions	$2,000,000	5.0%
Set Aside for Rental Housing Preservation Program	$2,000,000	5.0%
Set Aside for Rental Housing Development Program	$3,000,000	7.5%
Funds for Eligible Single Family Activities	$21,950,000	54.9%
PY 2007 HOME Allocation	$40,000,000	100%
PY 2007 American Dream Downpayment Initiative Funds	$650,000	
Total 2007 Funding	$40,650,000	

[1]The funding for these activities is not subject to the Regional Allocation Formula.

[2]$1,000,000 will be reserved from this set-aside for the Colonia Model Subdivision Program. If sufficient applications are not received for this activity, the remaining funds will be used for other CHDO-eligible activities. The Department may set aside 10% of the annual CHDO set-aside for Predevelopment Loans.

The following targets will be used to distribute HOME funding for single family activities (2007 HOME Allocation Single Family funds and American Dream Downpayment Initiative funds).

Activity	Funding Amount	% of Single Family Funding
Homebuyer Assistance	$2,260,000	10%
Owner-Occupied Housing Assistance	$16,950,000	75%
Tenant Based Rental Assistance	$3,390,000	15%
Total Single Family Activity Funding	$22,600,000	100%

On February 15, 2006, the TDHCA Board approved the HOME rules. As part of this approval, applications submitted for Single Family non-development activities under a competitive application cycle will be recommended for an award through a biennnial funding cycle. As a result, applications were accepted under the 2006/2007 application cycle for owner occupied housing assistance, homebuyer assistance and tenant based rental assistance. The highest scoring applications will be recommended for funding consideration utilizing 2006 funds and once the 2007 allocation is received, the next highest scoring applications will be funded until the 2007 allocation is depleted.

ESTIMATED PY 2007 BENEFICIARIES

Based on estimated PY 2006 program activity, TDHCA estimates that the number of PY 2007 beneficiaries assisted will be approximately 2,200 low, very low, or extremely low income households. On the basis of historical performance, TDHCA estimates that approximately 60 percent of those households will be minority households.

DEFINITIONS

Basic Access Standards (as required by §2306.514, Texas Government Code): These requirements apply only to newly constructed single family housing.

(1) At least one entrance door, whether located at the front, side, or back of the building

(A) is on an accessible route served by a ramp or no-step entrance,

(B) has at least a standard 36-inch door.

(2) On the first floor of the building,

(A) each interior door is at least a standard 32-inch door, unless the door provides access only to a closet of less than 15 square feet in area;

(B) each hallway has a width of at least 36 inches and is level, with ramped or beveled changes at each door threshold;

(C) each bathroom wall is reinforced for potential installation of grab bars;

(D) each electrical panel or breaker box, light switch, or thermostat is not higher than 48 inches above the floor; and

(E) each electrical plug or other receptacle is at least 15 inches above the floor.

(3) Each breaker box is located inside the building on the first floor.

A person who builds single family affordable housing to which this section applies may obtain a waiver from TDHCA of the requirement described by Subsection (a)(1)(A) if the cost of grading the terrain to meet the requirement is prohibitively expensive.

Colonia: A colonia is an unincorporated community located within 150 miles of the international border of this state, or a city or town within the 150 mile region that has a population less than 10,000 according to the latest US Census data. The majority population is composed of individuals and families of low and very low income who lack safe, sanitary and decent housing, together with basic services as potable water, adequate sewage systems, drainage, streets, and utilities.

Community Housing Development Organization (CHDO): A private nonprofit organization with a 501(c)(3) or (4) federal tax exemption. The CHDO must include providing decent, affordable housing to low income households as one of its purposes in its charter, articles of incorporation, or bylaws. It must serve a specific, delineated geographic area: Either a neighborhood, several neighborhoods, city, town, village, county, or multi-county area (but not the entire state). CHDOs are certified by TDHCA on an annual basis and as eligible applications are awarded HOME CHDO funds..

Consortium: An organization of geographically contiguous units of general local government that act as a single unit of general local government for purposes of the HOME program.

Extremely Low Income Family: Family whose income is between 0 and 30 percent of the median income for the area, as determined by HUD, with adjustments for smaller and larger families.

Low Income Family: Family whose income does not exceed 80 percent of the median income for the area, as determined by HUD, with adjustments for smaller and larger families.

Non–Participating Jurisdiction: A state or unit of general local government that does not receive an annual allocation of HUD program funds and is not part of a HUD Consortium.

Participating Jurisdiction: A state or unit of general local government that receives an allocation of HOME Program funds directly from HUD.

Persons with Disabilities: A household composed of one or more persons, at least one of whom is an adult, who has a disability. A person is considered to have a disability if the person has a physical, mental, or emotional impairment that

- is expected to be of long-continued and indefinite duration,
- substantially impedes his or her ability to live independently, and
- is of such a nature that such ability could be improved by more suitable housing conditions.

Special Needs Populations: Includes the following: persons with disabilities, persons with alcohol or other drug addiction, persons with HIV/AIDS and their families, the elderly, victims of domestic violence, persons living in colonias, the homeless, and migrant farmworkers.

Very Low Income Family: Family whose income does not exceed 50 percent of the median income for the area, as determined by HUD, with adjustments for smaller and larger families.

ELIGIBLE APPLICANTS

- Units of General Local Government
- Nonprofit and For-Profit Organizations
- Community Housing Development Organizations (CHDOs)
- Public Housing Authorities (PHAs)

DESCRIPTION OF ACTIVITIES

Single Family

Owner-Occupied Housing Assistance (OCC)

Rehabilitation or reconstruction cost assistance is provided to eligible homeowners for rehabilitation or reconstruction of their existing home. The home must be the principal residence of the homeowner.

At the completion of the assistance, all properties must meet the International Residential Code and local building codes. If a home is reconstructed, the applicant must also ensure compliance with the universal design features in new construction, established by §2306.514, Texas Government Code, required for any applicants utilizing federal or state funds administered by TDHCA in the construction of single family homes.

OCC will comprise approximately 75 percent of the HOME allocation that will be available through the Regional Allocation Formula process: approximately $16,950,000.

Tenant-Based Rental Assistance (TBRA)

Rental subsidy and security and utility deposit assistance is provided to tenants, in accordance with written tenant selection policies, for a period not to exceed 24 months. TBRA allows the assisted tenant to live in and move to any dwelling unit with a right to continued assistance.

TBRA will comprise approximately 15 percent of the HOME allocation that will be available through the Regional Allocation Formula process—approximately $3,390,000.

Homebuyer Assistance (HBA)

Down payment and closing cost assistance is provided to homebuyers for the acquisition of affordable single family housing. This activity may also be used for the following:

- Construction costs associated with architectural barrier removal in assisting homebuyers with disabilities by modifying a home purchased with HOME assistance to meet their accessibility needs.
- Acquisition and rehabilitation costs associated with contract for deed conversions to serve colonia residents.
- Construction costs associated with the rehabilitation of a home purchased with HOME assistance.
- Acquisition or new construction costs for the replacement of manufactured housing.

Eligible first time homebuyers may receive $10,000 or 6 percent of the purchase price, whichever is greater, for down payment and closing costs in the form of a 2nd- or 3rd-lien loan under the American Dream Downpayment Initiative. Eligible homebuyers who meet the definition of persons with disabilities may receive loans up to $15,000 for down payment and closing costs, regardless of the location of the property. Under the Contract for Deed program, assistance for the combined cost of deed conversion and rehabilitation cannot exceed $55,000 per unit. HBA is an eligible HOME activity under the CHDO set-aside if the CHDO is the owner or developer of the project. HBA loans are to be repaid at the time of resale of the property, refinance of the first lien, repayment of the first lien, or if the unit ceases to be the assisted homebuyer's principal residence. If any of these occur before the end of the loan term, the amount of recapture will be based on the pro-rata share of the remaining loan term.

At the completion of the assistance, all properties must meet the International Residential Code or the Colonia Housing Standards, if located in a colonia, and local building codes. Compliance with the basic access standards in new construction, established by §2306.514, Texas Government Code, is also required for any applicants utilizing federal or state funds administered by TDHCA in the construction of single family homes.

Excluding set-aside funds listed below, this activity will comprise approximately 10 percent of the HOME allocation that will be available through the Regional Allocation Formula process, approximately $2,260,000. This amount includes the American Dream Downpayment Initiative allocation.

HBA may also be awarded through the CHDO Set-Aside and the Contract for Deed Set-Aside.

Multifamily

Rental Housing Development and Preservation

Awards for eligible applicants are to be used for the acquisition, construction, and rehabilitation of affordable multifamily rental housing. The Department will not provide funding for the refinancing and/or acquisition of affordable housing developments that were constructed within the past 5 years. Eligible applicants include nonprofit organizations, CHDOs, units of general local government, for-profit entities, sole proprietors, and public housing authorities.

Owners are required to make housing units available to low, very low, and extremely low income families and must meet long-term rent restrictions. A standard underwriting review will be performed on applications under this activity. TDHCA generally make awards in form of a loan, however grants may be recommended to the Department's Board based on the underwriting review. Owners of rental units assisted with HOME funds must comply with initial and long-term income restrictions and keep the units affordable for a minimum period. Housing assisted with HOME funds must, upon completion, meet all applicable local, state, and federal construction standards and building codes. Additionally, the owner and/or all future owners of a HOME-assisted rental project must maintain all units in full compliance with local, state, and federal housing codes, which include, but are not limited to, the International Residential Code, Texas Government Code, and Section 504 of the 1973 Rehabilitation Act for the full required period of affordability.

The use of HOME Rental Housing Development funds will be limited to those allowable under 24 CFR part 92. Eligible expenses and activities may further be limited by TDHCA in accordance with state legislation. Rental Housing Development funds may also be used for the acquisition and/or rehabilitation (including barrier removal activities) for the preservation of existing affordable or subsidized rental housing.

Additionally, TDHCA will ensure that all multifamily rental housing developments are built and managed in accordance with its Integrated Housing Rule. Multifamily developments will be limited to reserving no more than 18 percent of the units in developments with 50 or more units, and no more than 36 percent of the units in developments with less than 50 units, for persons with disabilities.

SET ASIDES

TDHCA will use the following set-asides to direct its HOME funding to address federal and state legislative requirements or departmental program objectives. According to §2306.111(d-1) of TDHCA's enabling legislation, funds are not required to be allocated using a Regional Allocation Formula if funds are reserved for contract for deed conversions or for set-asides mandated by state or federal law, and each contract for deed allocation or set aside allocation equal not more than 10 percent of the total allocation of funds for the program.

Administrative Expenses

This allowable cost is for the reimbursement of costs associated with the planning administration of the HOME Program. Up to 10 percent of the sum of the Fiscal Year HOME basic formula allocation may be set aside for HOME Administrative expenses. Up to 4 percent of project dollars awarded may be provided to applicants receiving HOME funds for the cost of administering the program. For-profit organizations are not eligible to receive administrative funds. TDHCA retains the balance of the fee to cover the internal cost of administering the statewide program. TDHCA may utilize these funds for construction and Section 504 inspection costs as needed.

American Dream Downpayment Initiative

The American Dream Downpayment Initiative (ADDI) was signed into law on December 16, 2003, and was created to help first time homebuyers with down payment and closing cost assistance. ADDI aims to increase the homeownership rate, especially among lower income and minority households, and revitalize and stabilize communities.

Under ADDI, a first time homebuyer is an individual and his or her spouse who have not owned a home during the three year period prior to the purchase of a home with assistance under ADDI assistance. The term also includes displaced homemakers and single parents. The minimum amount of ADDI funds in combination with HOME funds that must be invested in a project is $1,000. The amount of ADDI assistance provided to any family may not exceed the greater of six percent of the purchase price of a single family housing unit or $10,000. This assistance is in the form of a second- or third-lien loan. In order to ensure the suitability of households receiving ADDI assistance, first time homebuyers will be required to participate in a homebuyer counseling course.

For PY 2007, approximately $650,000 is reserved for down payment assistance and may, at the discretion of TDHCA, include funds for rehabilitation for first time homebuyers in conjunction with home purchases assisted with ADDI funds. The rehabilitation may not exceed 20 percent of the annual ADDI allocation. These funds are included in the 10 percent allocated for HBA. These funds are a federally mandated set-aside and are not subject to the Regional Allocation Formula, pursuant to §2306.111(d-1)(2) of the Texas Government Code.

Outreach

The Department continues to promote ADDI through the public hearings held in all 13 Uniform State Service Regions. Since PHAs are eligible applicants under the HOME Program, the initiative is discussed in great detail at HOME Application Workshops held each spring. The program is also promoted around the state through a Texas Association of Realtors continuing education course that Department staff helps teach. The course was designed to improve the state homeownership rate and to educate Realtors about the availability of affordable housing products.

Since Texas has a large number of manufactured housing units and manufactured housing dealers, questions from real estate agents always arise about the availability of low interest rate loan funds and the availability of down payment assistance. Through continuing education courses and outreach, TDHCA is able to inform real estate agents about how ADDI can assist manufactured housing buyers. In addition, TDHCA will work closely with the Manufactured Housing Division to create awareness of ADDI funds directly to eligible first time homebuyers.

The Department also operates a First Time Homebuyer Program hotline. Over 1,200 calls are received on average per month. Interested homebuyers are provided literature and made aware of the various products and programs available

CHDO Set-Aside

A minimum of 15 percent of the annual HOME allocation, approximately $6,000,000 (plus $300,000 in operating expenses) is reserved for CHDOs. CHDO set-aside projects are owned, developed, or sponsored by the CHDO, and result in the development of rental units or homeownership. Development includes projects that have a construction component, either in the form of new construction or the rehabilitation of existing units. If the CHDO owns the project in partnership, it or its wholly-owned for-profit or nonprofit subsidiary must be the managing general partner. These organizations can apply for multifamily rental housing acquisition, rehabilitation, or new construction, as well as for the acquisition, rehabilitation, or new construction of single family housing (through direct funding or loan guarantees). CHDOs can also apply for homebuyer assistance if their organization is the owner or developer of the single family housing project. CHDO funds are a federal mandated set aside, and are not subject to the Regional Allocation Formula, pursuant to 2306.111(d-1) of the Texas Government Code.

Once awarded, a CHDO development must remain controlled by a certified CHDO for the entire affordability term.

In accordance with 24 CFR 92.208, up to 5 percent of the Department's HOME allocation will be used for the operating expenses of CHDOs. The Department may award CHDO Operating Expenses in conjunction with the award of CHDO Development Funds, or through a separate application cycle not tied to a specific activity. In addition, other eligible activities under the CHDO Set-Aside include the following:

- Predevelopment Loans. In addition, TDHCA may elect to set aside up to 10 percent of funding for predevelopment loans funds, which may only be used for activities such as project-specific technical assistance, site control loans, and project-specific seed money. Predevelopment loans must be repaid from construction loan proceeds or other project income. In accordance with 24 CFR 92.301, TDHCA may elect to waive predevelopment loan repayment, in whole or in part, if there are impediments to project development that TDHCA determines are reasonably beyond the control of the CHDO.
- Colonia Model Subdivision Loan Program. Subchapter GG of Chapter 2306, Texas Government Code, created this program to provide low-interest or possibly interest-free loans to promote the development of new, high-quality, residential subdivisions that provide alternatives to substandard colonias, and housing options affordable to individuals and families of extremely low and very low income who would otherwise move into substandard colonias. TDHCA will only make loans to CHDOs certified by TDHCA and for the types of activities and costs described under the previous section regarding CHDO Predevelopment Loans. To assist TDHCA in meeting this mandate, $1,000,000 in HOME Program funds will be targeted to assist households described under this initiative.

Contract for Deed Conversions

The 79th Legislature passed Appropriations Rider 11 to TDHCA's appropriation, which requires TDHCA to spend no less than $4 million for the biennium on contract for deed conversions for families that reside in a colonia and earn 60 percent or less of the applicable area median family income (AMFI). Furthermore, TDHCA should convert no less than 400 contracts for deeds into traditional notes and deeds of trust by August 31, 2007. The intent of this program is to help colonia residents become property owners by converting their contracts for deeds into traditional mortgages. Households served under this initiative must not earn more than 60 percent of AMFI and the home converted must be their primary residence. The properties proposed for this initiative must be located in a colonia as identified by the Texas Water Development Board colonia list or meet TDHCA's definition of a colonia.

To assist TDHCA in meeting this mandate, $2,000,000 in PY 2007 HOME program funds will be targeted to assist households described under this initiative.

These funds are a State mandated set-aside and are not subject to the Regional Allocation Formula, pursuant to §2306.111(d-1)(2) of the Texas Government Code.

Persons with Disabilities (5 percent of Allocation)

In administering federal housing funds provided to the state under the Cranston-Gonzalez National Affordable Housing Act (42 USC Section 12701 et. seq.), the department shall expend at least 95 percent of these funds for the benefit of non-participating areas that do not qualify to receive funds under the Cranston-Gonzalez National Affordable Housing Act directly from the United States Department of Housing and Urban Development. All funds not set-aside under this subsection shall be used for the benefit of persons with disabilities, and may be used to serve persons with disabilities in both participating and non-participating jurisdiction areas. Eligible applicants include nonprofits, for-profits, units of general local government, and public housing authorities with a documented history of working with special needs populations, or working in partnership with organizations with a documented history of working with special needs populations.

TDHCA will ensure that all housing developments are built and managed in accordance with its Integrated Housing Rule. Multifamily developments will be limited to reserving no more than 18 percent of the units in developments with 50 or more units, and no more than 36 percent of the units in developments with less than 50 units, for persons with disabilities.

For program year 2007, the Department will reserve $750,000 for the Persons with Disabilities Single Family Allocation, to be awarded to organizations serving persons with disabilities. These funds will be awarded through a competitive application and available statewide, subject to the Regional Allocation Formula. Funds will be awarded to single family projects that serve persons with disabilities, including homebuyer assistance, owner-occupied rehabilitation, and tenant-based rental assistance. Projects may be located statewide, including in participating jurisdictions. Organizations receiving an award under this allocation will receive an additional 4 percent of the total project funds for administrative costs.

Additionally, in accordance with 10 TAC 53.61 applicants applying for HOME funds under the Owner-Occupied Housing Assistance and Tenant-Based Rental Assistance programs, must propose targeting at least 5 percent of the number of units proposed in the application, to persons who meet the definition of persons with disabilities. A waiver of this requirement may be requested by the applicant to the Department, if applicant is unable to document persons with disabilities that meet the HOME eligible requirements.

Rental Housing Preservation and Rental Housing Development Programs

TDHCA will reserve $2,000,000 for Rental Housing Preservation and $3,000,000 for Rental Housing Development activities from PY 2007 funding.

SPECIAL INITIATIVES

Special Needs Populations

Subject to the availability of qualified applications, TDHCA has a goal to allocate a minimum of 20 percent of the annual HOME allocation to applicants serving persons with special needs. Eligible applicants include nonprofits, for-profits, units of general local government, and PHAs with documented histories of working with special needs populations. All HOME Program activities will be included in attaining this goal. Additional scoring criteria may be established under each of the eligible activities to assist TDHCA in reaching its goal.

FUND DISTRIBUTION

In accordance with Senate Bill 264, TDHCA allocates HOME Program funds to each region using a need-based formula developed by the Department. Please see “2007 Regional Allocation Formula” in this section for further explanation. Using the 2007 Regional Allocation Formula, each region will receive the following amount of funding for use with activites subject to the formula.

HOME Regional, Rural, and Urban/Exurban Funding Amounts

Region	Place for Geographical Reference	Regional Funding Amount	Regional Funding %	Rural Funding Amount	Rural Funding %	Urban/ Exurban Funding Amount	Urban/ Exurban Funding %
1	Lubbock	TBD	TBD	TBD	TBD	TBD	TBD
2	Abilene	TBD	TBD	TBD	TBD	TBD	TBD
3	Dallas/Fort Worth	TBD	TBD	TBD	TBD	TBD	TBD
4	Tyler	TBD	TBD	TBD	TBD	TBD	TBD
5	Beaumont	TBD	TBD	TBD	TBD	TBD	TBD
6	Houston	TBD	TBD	TBD	TBD	TBD	TBD
7	Austin/Round Rock	TBD	TBD	TBD	TBD	TBD	TBD
8	Waco	TBD	TBD	TBD	TBD	TBD	TBD
9	San Antonio	TBD	TBD	TBD	TBD	TBD	TBD
10	Corpus Christi	TBD	TBD	TBD	TBD	TBD	TBD
11	Brownsville/Harlingen	TBD	TBD	TBD	TBD	TBD	TBD
12	San Angelo	TBD	TBD	TBD	TBD	TBD	TBD
13	El Paso	TBD	TBD	TBD	TBD	TBD	TBD
	Total	TBD	TBD	TBD	TBD	TBD	TBD

TDHCA does not provide priorities for allocating investment geographically to areas of minority concentration as described in Section 91.320(d). However, the geographic distribution of HOME funds to minority populations is analyzed annually. TDHCA is statutorily required by the Texas Government Code to provide a comprehensive statement on its activities during the preceding year through a document called the *State of Texas Low Income Housing Plan and Annual Report*. Part of this document describes the ethnic and racial composition of families and individuals applying for and receiving assistance from each housing-related program operated by the department.

ELIGIBLE SERVICE AREAS

Per Section 2306.111(c), the Department shall expend at least 95 percent of HOME funds for the benefit of non–participating jurisdictions (non-PJ) areas of the state. The remaining 5 percent of HOME funds may be expended in a participating jurisdiction (PJ), but only if they serve persons with disabilities, unless otherwise approved by the Board.

REVIEW OF APPLICATIONS

All programs will be operating and announced by the release of either an open or competitive cycle Notice of Funding Availability. Applicants must submit a completed application to be considered for funding, along with an application fee determined by the Department and outlined in the NOFA and/or application guidelines. Applications containing false information and applications not received by the deadline will be disqualified. Disqualified applicants are notified in writing. All applications must be received by the Department by 5 pm on the date identified in the NOFA and/or application guidelines, regardless of method of delivery.

Applications received by the Department in response to an Open Application Cycle NOFA will be handled in the following manner. The Department will accept applications on an ongoing basis, until such date when the Department makes notice to the public that the Open Application Cycle has been closed. Each application will be handled on a first-come, first-served basis as further described in this section. Each application will be assigned a “received date” based on the date and time it is physically received by the Department. Then, each application will be reviewed on its own merits in three review phases, as applicable. Applications will continue to be prioritized for funding based on their “received date” unless they do not proceed into the next phase(s) for review. Applications proceeding in a timely fashion through a phase will take priority over applications that may have an earlier “received date” but that did not timely complete a phase of review.

Applications received by the Department in response to a Competitive Application Cycle NOFA will be reviewed for threshold and scoring criteria in accordance with the rules for application review published in the NOFA and/or application guidelines.

SELECTION PROCESS

All applications for funds received under competitive funding cycles are reviewed for threshold requirements regarding application documentation and compliance with Department requirements on previously awarded contracts. Qualifying applications are funded only if the score exceeds the minimum score established in the State of Texas HOME Program rules. Applications will be recommended up to the limit of funds available per activity and region. Should an activity not have enough qualified applicants, the funds will be redirected to the next activity in the region that had a higher number of qualified applicants.

All applications received under open funding cycles will be reviewed for threshold requirements regarding application documentation and compliance with Department requirements on previously awarded contracts. Applications submitted for development activities will also receive a review for financial feasibility and underwriting. Because applications are reviewed on a “first come, first served” basis, applications will be reviewed and recommended for funding in the manner prescribed in TDHCA’s Open Cycle rules at 10 TAC §53.58.

MATCH REQUIREMENTS

TDHCA will provide matching contributions from several sources for HOME funds drawn down from the State’s HOME Investment Trust Funds Treasury account within the fiscal year. The State sources include the following:

1. Loans originated from the proceeds of single family mortgage revenue bonds issued by the State. TDHCA will apply no more than 25 percent of bond proceeds to meet its annual match requirement.
2. Match contributions from the State’s Housing Trust Fund to affordable housing projects that are not HOME assisted, but that meet the requirements as specified in 24 CFR 92.219(b)(2).
3. Eligible match contributions from State recipients, as specified in 24 CFR 92.220.
4. Match contributions from local political jurisdictions provided through the abatement of real estate property taxes for affordable housing properties developed and owned by qualified CHDO applicants.

Additionally, TDHCA will continue to carry forward match credit.

DEOBLIGATED HOME PROGRAM FUNDS

When administrators have not successfully expended the HOME funds within their contract period, TDHCA deobligates the funds and pools the dollars to award applicants according to TDHCA’s Deobligation Policy. TDHCA’s Deobligation Policy allows for awards from deobligated funds only for the following categories: appeals from applicants that are approved by the TDHCA’s Board, disaster relief applicants, special needs applicants, applicants serving the colonias, and for other eligible uses as determined by TDHCA's Board of Directors, or the Executive Director at the Board's direction.

APPLICABLE FEDERAL AND STATE REGULATIONS

HOME funds will be distributed in accordance with the eligible activities and eligible costs listed in 24 CFR 92.205–92.209 and 10 TAC Chapter 53. All local administrators will be required to execute certifications that the program will be administered according to federal HOME regulations and State HOME Rules.

Developments receiving funding from TDHCA must comply with accessibility standards required under Section 504, Rehabilitation Act of 1973 (29 U.S.C. Section 794), as amended, and specified under 24 CFR Part 8, Subpart C. This includes a provision that a minimum of 5 percent of the total dwelling units or at least one unit, whichever is greater, must be made accessible for individuals with mobility impairments. An additional 2 percent of the total number of dwelling units or at least one unit, whichever is greater, must be accessible for individuals with hearing or vision impairments. In the event that a project does not meet the requirements of Section 504, TDHCA will consider using HOME deobligated funds for eligible Section 504 activities with the purpose of bringing noncompliant projects into compliance when appropriate and when such a request is supported by circumstances beyond the control of the administrator. This provision will not apply if Section 504 activities were included as part of the budget in contracts between TDHCA and administrators.

THE PLANNING PROCESS AND PUBLIC PARTICIPATION

The planning process will include a review of the federal and state regulations that govern the HOME Program, the regional needs assessment, and Department goals and mandates.

The *2007 State of Texas Consolidated Plan: One-Year Action Plan (Draft for Public Comment)* is available for public comment from September 13, 2006, through October 12, 2006. Additionally, TDHCA will hold 13 public hearings in which constituents are given the opportunity to make general comments on the direction of all Department programs. During this time, citizens and organizations are encouraged to send written comment on the Plan via mail, email, or fax.

Any amendments made to the HOME Program Rules are published in the *Texas Register* for a 30-day comment period. The HOME Program also receives public comment during TDHCA Board of Directors meetings.

MINORITY PARTICIPATION

TDHCA encourages minority employment and participation among all applicants under the HOME Program. All applicants to the HOME Program are required to submit an affirmative marketing plan as part of the application process. Additionally, TDHCA encourages applicant outreach to Historically Underutilized Businesses.

RECAPTURE PROVISIONS UNDER THE HOMEBUYER ASSISTANCE PROGRAM

If the participating jurisdiction intends to use HOME funds for homebuyers, the guidelines for resale or recapture must be described as required in 24 CFR 92.254(a)(5).

TDHCA has elected to utilize the recapture provision under 24 CFR 92.254(a)(5)(ii) as its method of recapturing HOME funds under any Homebuyer Program the State administers.

(A) The following methods of recapture would be acceptable to TDHCA and will be identified in the down payment assistance note prior to closing:

(1) Recapture the amount of the HOME investment reduced or prorated based on the time the homeowner has owned and occupied the unit measured against the required affordability period. The recapture amount is subject to available net proceeds.

(2) If the net proceeds (i.e., the sales price minus closing costs; any other necessary transaction costs; and loan repayment, other than HOME funds) are in excess of the amount of the HOME investment that is subject to recapture, then the net proceeds may be divided proportionately between TDHCA and the homeowner as set forth in the following mathematical formulas

$$\frac{\text{HOME investment}}{\text{HOME investment } 2 \text{ homeowner investment}} \Delta \text{net proceeds } | \text{ HOME amount to be recaptured}$$

$$\frac{\text{homeowner investment}}{\text{HOME investment } 2 \text{ homeowner investment}} \Delta \text{net proceeds } | \text{ amount to homeowner}$$

(B) The HOME investment that is subject to recapture is based on the amount of HOME assistance that enabled the homebuyer to buy the dwelling unit. This is also the amount upon which the affordability period is based. This includes any HOME assistance that reduced the purchase price from fair market value to an affordable price, but excludes the amount between the cost of producing the unit and the market value of the property (i.e., the development subsidy). The recaptured funds must be used to carry out HOME-eligible activities. If HOME funds were used for development subsidy and therefore not subject to recapture, the resale provisions at 24 CFR 92.254(a)(5)(i) apply.

(C) Upon recapture of the HOME funds used in a single family homebuyer project with more than one unit, the affordability period on the rental units may be terminated at the discretion of TDHCA.

In certain instances, TDHCA may choose to utilize the resale provision at 24 CFR 92.254(a)(5)(i) under any homebuyer program the State administers.

(A) The following method of resale would be acceptable to TDHCA and will be identified in the down payment assistance note prior to closing:

(1) Resale requirements must ensure, if the housing does not continue to be the principal residence of the family for the duration of the period of affordability, that the housing is made available for subsequent purchase only to a buyer whose family qualifies as a low or very low income family and will use the property as its principal residence.

(2) The resale requirement must also ensure that the price at resale provides the original HOME-assisted owner a fair return on investment (including the homeowner's investment and any capital improvement) and ensure that the housing will remain affordable to a reasonable range of low or very low income homebuyers.

(3) The period of affordability is based on the total amount of HOME funds invested in the housing.

(B) Except as provided in paragraph 24 CFR 92.254(a)(5)(i)(B), deed restrictions, covenants running with the land, or other similar mechanisms must be used as the mechanism to impose the resale requirements.

(1) The affordability restrictions may terminate upon occurrence of any of the following termination events: foreclosure, transfer in lieu of foreclosure, or assignment of an FHA-insured mortgage to HUD.

(2) The participating jurisdiction may use purchase options, rights of first refusal, or other preemptive rights to purchase the housing before foreclosure in an effort to preserve affordability.

(3) The affordability restrictions shall be revived according to the original terms if, during the original affordability period, the owner of record before the termination event obtains an ownership interest in the housing.

(4) In the event of the above termination events, the HOME investment that is subject to recapture is based on the amount of available net proceeds (i.e., the sales price minus closing costs; any other necessary transaction costs; and loan repayment, other than HOME funds), if any, from the sale.

(5) If the net proceeds are insufficient to repay the loan and the homebuyer's down payment and any capital investment, the homebuyer's investment is paid in full first from the available proceeds from the resale and the loan repaid to the extent that proceeds are available.

(6) If there are no net proceeds, repayment of the loan is not required.

(7) Any net proceeds in excess of homebuyer's investment and the amount to be repaid under the loan are paid to the seller of the property.

FORECLOSURES UNDER THE MULTIFAMILY RENTAL HOUSING DEVELOPMENT PROGRAMS

If the property becomes the subject of a foreclosure proceeding that results in the sale of part or all of the property, all sums in excess of those paid to superior lien holders shall be paid to TDHCA to apply to the outstanding balance under the loan. If there are insufficient funds to pay off the loan, TDHCA may, at its own discretion, waive the payment of any or all of the outstanding loan balance.

The Department also plans to utilize HOME funds for the management and administration of properties that have been foreclosed upon by the Department as a superior lien holder. These funds will be taken from the 10 percent in HOME funds available to the Department for administration of its programs.

OTHER FORMS OF INVESTMENT

If a participating jurisdiction intends to use other forms of investment not described in §92.205(b), a description of the other forms of investment must be provided.

The State is not proposing to use any form of investment in its HOME Program that is not already listed as an eligible form of investment in 24 CFR 92.205(b).

REFINANCING DEBT

If the State intends to use HOME funds to refinance existing debt secured by multifamily housing that is being rehabilitated with HOME funds, it must state its refinancing guidelines required under 24 CFR § 92.206(b).

The Department may use HOME funds to refinance existing debt secured by multifamily housing that is being rehabilitated with HOME funds as described in 24 CFR § 92.206(b). The Department shall use its underwriting and evaluation standards, codified at 10 TAC §§1.31-1.36 and its HOME Investment Partnerships Program rules at 10 TAC §53, for refinanced properties in accordance with its administrative rules. At a minimum, these rules require the following:

- That rehabilitation is the primary eligible activity for developments involving refinancing of existing debt;
- Sets a minimum funding level for rehabilitation on a per unit basis;
- Requires a review of management practices to demonstrate that disinvestments in the property has not occurred;
- That long term needs of the project can be met;

- That the financial feasibility of the development will be maintained over an extended affordability period;
- State whether new investment is being made to maintain current affordable units, and or create additional affordable units;
- Specifies the required period of affordability;
- Specifies that HOME funds may be used throughout the entire jurisdiction, except as the Department may be limited by the Texas Government Code; and
- States that HOME funds cannot be used to refinance multifamily loans made or insured by any Federal program, including CDBG.

CPD OUTCOME PERFORMANCE MEASUREMENT SYSTEM REPORTING

In accordance with the guidelines from HUD, the Department will comply with the new CPD Outcome Performance Measurement System beginning October 1, 2006. Compliance will be attained through the creation and development of additional tracking screens in the Department's central database to enable us to capture information needed for input into IDIS. HOME Program eligible activities will be categorized into the objectives and outcomes listed in the chart below. It is anticipated most HOME Program eligible activities will be categorized as Outcome #2 and Objective #2.

	OUTCOME 1	**OUTCOME 2**	**OUTCOME 3**
OBJECTIVE #1 Suitable Living Environment	Enhance Suitable Living Environment Through Improved/New Accessibility	Enhance Suitable Living Environment Through Improved/New Affordability	Enhance Suitable Living Environment Through Improved/New Sustainability
OBJECTIVE #2 Decent Housing	Create Decent Housing with Improved/New Availability	Create Decent Housing with Improved/New Affordability	Create Decent Housing with Improved/New Sustainability
OBJECTIVE #3 Economic Opportunity	Provide Economic Opportunity Through Improved/New Accessibility	Provide Economic Opportunity Through Improved/New Affordability	Provide Economic Opportunity Through Improved/New Sustainability

HOME PROGRAM ACTIONS

This section describes how the HOME Program addresses the following: affordable housing, public housing resident initiatives, lead-based pain hazards, poverty-level households, and institutional structure.

Affordable Housing

The HOME Program provides grant funds, deferred forgivable loans, and repayable loans to units of local government, nonprofit and for-profit organizations, community housing development organizations (CHDOs), and public housing authorities (PHAs). These funds are primarily used to foster and maintain affordable housing by providing rental assistance, rehabilitation, or reconstruction of owner-occupied housing units, down payment and closing cost assistance for the acquisition of affordable single family housing, and funding for rental housing development preservation of existing affordable or subsidized rental housing.

Public Housing Resident Initiatives

Because PHAs are eligible applicants under the HOME Program, TDHCA sends notices of funding availability to all PHAs in the state. At HOME application workshops, application processes are discussed in detail, including those related to HBA/ADDI. In addition to PHAs that have received HOME funds to provide homebuyer assistance in their areas, PHAs have also received HOME tenant-based rental assistance funds, enabling them to provide additional households with rental assistance and services to increase self-sufficiency.

Lead-Based Hazards

The HOME Program requires an environmental site assessment and the abatement of lead-based paint if the structure being rehabilitated was constructed prior to 1978. There is significant training, technical assistance, and oversight of this requirement on each contract funded under the HOME Program.

Poverty-Level Households

Through the HOME Tenant-Based Rental Assistance Program, TDHCA assists households with rental subsidy and security and utility deposit assistance for a period not to exceed two years. As a condition to receiving rental assistance, households must participate in a self-sufficiency program, which can include job training, GED classes, or drug dependency classes. The HOME Program enables households to receive rental assistance while participating in programs that will enable them to improve employment options and increase their economic independence and self-sufficiency.

Institutional Structure

The HOME Program encourages partnerships in order to improve the provision of affordable housing. TDHCA currently directly allocates $500,000 in HOME funds to the Home of Your Own Coalition, which assists persons with disabilities purchase a home by providing education and financial assistance. Organizations receiving HBA/ADDI funds are required to provide homebuyer education classes to households directly, or coordinate with a local organization that will provide the education. In addition, organizations receiving TBRA funds must provide self-sufficiency services directly, or coordinate with a local organization that will provide the services.

HOUSING OPPORTUNITIES FOR PERSONS WITH AIDS 2007 ACTION PLAN

To be included in the final draft version of the document.

AVAILABLE RESOURCES

The consolidated plan must describe the Federal resources expected to be available to address the priority needs and specific objectives identified in the strategic plan, in accordance with §91.315. Descriptions of the funding amounts for the specific HUD programs covered by this Plan are provided in each program's Action Plan section.

The consolidated plan must also describe resources from private and non-federal public sources that are reasonably expected to be made available to address the needs identified in the plan. The plan must explain how Federal funds will leverage those additional resources, including a description of how matching requirements of the HUD programs will be satisfied. A description of the match requirements of the HUD programs covered by this Plan are provided in each program's Action Plan section.

HOME PROGRAM

For the HOME Program, Section 2306.111(d) of the Texas Government Code requires that TDHCA use a Regional Allocation Formula (RAF) to allocate its HOME funding. This RAF objectively measures the affordable housing need and available resources in 13 State Service Regions TDHCA uses for planning purposes. To mitigate any inherent inequities in the way these resources are regionally allocated, the RAF compares each region's level of need to its level of resources. Regional funding adjustments are made based on the results of this comparison. The following available resources were determined to have been available or distributed in 2005 in the areas eligible for TDHCA HOME funds. While these amounts are subject to change, it is thought that overall they represent a useful estimate of the availability of funding for activities similar to those eligible under the HOME Program.

Source	Funding Level
State of Texas Housing Trust Fund	$ 4,203,697
HUD Housing for Persons with AIDS	$ 1,546,851
HUD Public Housing Authority Capital Improvements Funding	$ 36,534,599
HUD Section 8 Funding	$ 146,053,519
USDA Multifamily Development Funding	$ 6,794,000
USDA Rental Assistance Funding	$ 28,164,849
Federal Housing Tax Credits	$ 155,424,069
Multifamily Bond (MFB) Financing	$ 51,227,369
Federal Housing Tax Credits Associated with MFB Financing	$ 37,898,379
USDA Single Family Funding	$ 45,915,871
Single Family Bond Financing	$ 140,860,433
HOME Funding	$ 48,401,779
Total Resources	$ 703,025,416

HOPWA

Although Ryan White and State HIV Services funds may be used for housing, a very small amount is currently allocated for that purpose. Ryan White case managers also provide HOPWA case management, and attempt to fulfill housing needs through the HOPWA program or through other local housing programs.

GENERAL INFORMATION ON OTHER PROGRAMS

TDHCA is required by State law to publish a *Program Guide* the outlines state and federal housing and housing-related programs that are available in Texas. The guide has information on all TDHCA programs and includes housing-related programs from other state and federal agencies. This detailed document is organized by activity area and then by administering entity. For each specific program, contact information at the appropriate agency is provided. The 120-plus page document is updated annually and is currently available on line at http://www.tdhca.state.tx.us/ppa/docs/hrc/05-ProgramGuide-050607.pdf or in hard copy upon request.

OTHER ACTIONS

This section describes FY 2007 actions proposed by the Office of Rural Community Affairs (ORCA), Texas Department of Housing and Community Affairs (TDHCA), and Department of State Health Services (DSHS) to address the following: Obstacles to Meeting Underserved Needs and Developing Affordable Housing, Public Housing Resident Initiatives, Lead-Based Paint Hazards, Poverty-Level Households, Compliance, and Gaps in Institutional Structure and Enhancing Coordination.

MEETING UNDERSERVED NEEDS AND DEVELOPING AFFORDABLE HOUSING

The Departments have identified various obstacles that may affect the ability to meet underserved needs in Texas. They include the lack of affordable housing, lack of organization capacity, lack of organizational outreach, local opposition to affordable housing, regulatory barriers to affordable housing, and area income characteristics (particularly in rural areas). The Departments take actions to mitigate these obstacles such as effectively using existing resources to administer programs, providing information resources to individuals and local areas, and coordinating resources. The following outlines those specific actions proposed by the program areas to meet underserved needs and develop affordable housing.

CDBG

HOME and ESGP

The HOME Program provides grant funds, deferred forgivable loans, and repayable loans to units of local government, nonprofit and for-profit organizations, community housing development organizations (CHDOs), and public housing authorities (PHAs). These funds are primarily used to foster and maintain affordable housing by providing rental assistance, rehabilitation, or reconstruction of owner-occupied housing units, down payment and closing cost assistance for the acquisition of affordable single family housing, and funding for rental housing development preservation of existing affordable or subsidized rental housing.

HOME funds may also be used in conjunction with the Housing Tax Credit Program to construct or rehabilitate affordable multifamily housing.

Regarding ESGP, while TDHCA encourages the use of ESGP funds to provide affordable transitional housing, the majority of funds are utilized to provide emergency shelter. These funds meet the needs of local homeless populations.

HOPWA

PUBLIC HOUSING RESIDENT INITIATIVES

The future success of PHAs will center on ingenuity in program design, emphasis on resident participation towards economic self-sufficiency, and partnerships with other organizations to address the needs of this population. While ORCA, TDHCA, and DSHS do not have any direct or indirect jurisdiction over the management or operations of PHAs, it is important to maintain a relationship with these service providers.

CDBG

HOME and ESGP

Because PHAs are eligible applicants under the HOME Program, TDHCA sends notices of funding availability to all PHAs in the state. At HOME application workshops, application processes are discussed in detail, including those related to HBA/ADDI. Furthermore, PHA staff, especially including those receiving HOME funds and those with Section 8 Homeownership programs, are targeted by TDHCA's Texas Statewide Homebuyer Education Program for training to provide homebuyer education opportunities and self-sufficiency tools for PHA residents.

In addition to PHAs that have received HOME funds to provide homebuyer assistance in their areas, PHAs have also received HOME tenant-based rental assistance funds, enabling them to provide additional households with rental assistance and services to increase self-sufficiency.

PHA residents are eligible to receive assistance and services from ESGP grantees.

In addition to HOME and ESGP activities related to PHAs, TDHCA performs certifications of consistency with the State's Consolidated Plan. In 1999, TDHCA, as required by 24 CFR §903.15, started a certification process to ensure that the annual plans submitted by PHAs in an area without a local Consolidated Plan are consistent with the State of Texas's Consolidated Plan.

HOPWA

LEAD-BASED PAINT HAZARDS

The health risks posed by lead-based paint to young children are the most significant health issue facing the housing industry today. According to the EPA's Report on the National Survey of Lead Based Paint in Housing (April 1995), 64 million homes have conditions that are likely to expose families to unsafe levels of lead. These homes are disproportionately older housing stock typical to low income neighborhoods, and the potential for exposure increases as homeowners and landlords defer maintenance. This older housing stock is the target of rehabilitation efforts and is often the desired "starter home" of a family buying their first home.

The 1992 Housing and Community Development Act included Title X, a statute that represents a major change to existing lead-based paint regulations. However, HUD's final regulations for Title X (24 CFR Part 105) were not published until September 15, 1999 and became effective September 15, 2000. Title X calls for a three pronged approach to target conditions that pose a hazard to households: 1) Notification of occupants about the existence of hazards so they can take proper precautions, 2) Identifications of lead-based paint hazards before a child can be poisoned and, 3) control of these lead-based paint hazards in order to limit exposure to residents. Title X mandated that HUD issue "The Guidelines for the Evaluation and Control of Lead-Based Paint Hazards in Housing" (1995) to outline risk assessments, interim controls, and abatement of lead-based paint hazards in housing. Section 1018 required EPA and HUD to promulgate rules for disclosure of any known lead-based paint or hazards in target housing offered for sale or lease. These rules came into effect on March 6, 1996 in 40 CFR Part 745/24 CFR Part 35.[1]

CDBG

HOME and ESGP

The HOME Program requires lead screening in housing built before 1978 for its Owner Occupied Rehabilitation Assistance Program. Rehabilitation activities fall into three categories: 1) Requirements for federal assistance up to and including $5,000 per unit; 2) Requirements for federal assistance from $5,000 per unit up to and including $25,000 per unit; and 3) Requirements for federal assistance over $25,000 per unit.

Requirements for federal assistance up to and including $5,000 per unit are: distribution of the pamphlet "Protect Your Family from Lead in Your Home" is required prior to renovation activities; notification within 15 days of lead hazard evaluation, reduction, and clearance must be provided; receipts for notification must be maintained in the administrator file; paint testing must be conducted to identify lead based paint on painted surfaces that will be disturbed or replaced or administrators may assume that lead based paint exist; administrators must repair all painted surfaces that will be disturbed during rehabilitation; if lead based paint is assumed or detected, safe work practices must be followed; and clearance is required only for the work area.

Requirements for federal assistance from $5,000 per unit up to and including $25,000 per unit include all the requirements for federal assistance up to and including $5,000 per unit and the following: a risk assessment must be conducted prior to rehabilitation to identify hazards in assisted units, in common areas that serve those units and exterior surfaces or administrators can assume lead based paint exist

[1] Texas Department of Health.

and; clearance is required for the completed unit, common areas which serve the units, and exterior surfaces where the hazard reduction took place.

Requirements for federal assistance over $25,000 per unit included all the requirements for federal assistance from $5,000 per unit up to and including $25,000 per unit and the following: if during the required evaluations lead-based paint hazards are detected on interior surfaces of assisted units, on the common areas that serve those units or on exterior surfaces including soils, then abatement must be completed to permanently remove those hazards; and if lead based paint is detected during the risk assessment on exterior surfaces that are not disturbed by rehabilitation then interim controls may be completed instead of abatement.

For ESGP, TDHCA evaluates and reduces lead-based paint hazards for conversion, renovation, or rehabilitation projects funded with ESGP funds, and tracks work in these efforts as required by Chapter 58 of the Environmental Protection Act.

HOPWA

POVERTY-LEVEL HOUSEHOLDS

According to the 2000 US Census, Texas has the ninth highest poverty rate among the states: 15.4 percent compared to the national rate of 12.4 percent. The federal government defined the poverty threshold for 1999 as $17,029 in income for a family of four, and many poor families make substantially less than this. Poverty can be self-perpetuating, creating barriers to education, employment, health, and financial stability.

ORCA, TDHCA, and DSHS have an important role in addressing Texas poverty. These agencies seek to reduce the number of Texans living in poverty, thereby providing a better future for all Texans. This means trying to provide long-term solutions to the problems facing people in poverty and targeting resources to those with the greatest need.

CDBG

HOME and ESGP

Through the HOME Tenant-Based Rental Assistance Program, TDHCA assists households with rental subsidy and security and utility deposit assistance for a period not to exceed 24 months. As a condition to receiving rental assistance, households must participate in a self-sufficiency program, which can include job training, GED classes, or drug dependency classes. The HOME Program enables households to receive rental assistance while participating in programs that will enable them to improve employment options and increase their economic independence and self-sufficiency.

The ESGP Program funds activities that provide shelter and essential services for homeless persons, as well as intervention services for persons threatened with homelessness. Essential services for homeless persons include medical and psychological counseling, employment counseling, substance abuse treatment, transportation, and other services.

For individuals threatened with homelessness, homelessness prevention funds can be used for short-term subsidies to defray rent and utility arrearages for households receiving late notices, security deposits, and payments to prevent foreclosure.

HOPWA

COMPLIANCE

ORCA, TDHCA, and DSHS ensure compliance with program and comprehensive planning requirements through various compliance measures.

CDBG

HOME and ESGP

TDHCA has established oversight and monitoring procedures within the TDHCA Portfolio Management and Compliance and Community Affairs divisions to ensure that activities are completed and funds are expended in accordance with contract provisions and applicable state and federal rules, regulations, policies, and related statutes. TDHCA's monitoring efforts are guided by both its responsibilities under the HOME and ESG programs and its affordable housing goals for the State of Texas. These monitoring efforts include the following:

- Identifying and tracking program and project results
- Identifying technical assistance needs of subrecipients
- Ensuring timely expenditure of funds
- Documenting compliance with program rules
- Preventing fraud and abuse
- Identifying innovative tools and techniques that support affordable housing goals
- Ensuring quality workmanship in funded projects
- Long-term compliance

Identifying and Tracking Program and Project Results

HOME contract and project activities are tracked through the TDHCA Contract Database (CDB) system, including pending projects, funds drawn, and funds disbursed through the internet-based system, HUD's IDIS, and other reports generated as needed. The CDB provides information necessary to track the success of the program and identify process improvements and administrator training needs. IDIS tracks HOME Program data such as commitment and disbursement activities, the number of units developed, the number of families assisted, the ongoing expenditures of HOME funds, and beneficiary information.

Other resources utilized by TDHCA to track project results include an asset management division and loan servicing division. If either of these areas identifies problems, steps are taken to resolve the issue, including project workouts and oversight of reserve accounts. Real Estate Analysis, the division for underwriting economic feasibility pre-award, is also responsible for identification of high risk contracts, and is responsible for review of housing sponsored annual financial statements and other asset management functions during the affordability period.

ESGP project and contract activities are tracked through TDHCA's internet website, which maintains an Oracle-based reports system. This system maintains funds drawn, funds expended, performance data, and other reports as needed. ESGP data such as commitment and disbursement activities, number of persons assisted, ongoing expenditures, and program activities are also tracked through HUD's IDIS.

Identifying Technical Assistance Needs Subrecipients

Identification of technical assistance needs for HOME and ESGP subrecipients is performed through analysis of administrator management practices, analysis of sources used by TDHCA to track technical assistance such as information captured in the Central Database, review of documentation submitted, desk reviews based on the requirements identified in the Compliance Supplement and State Affordable Housing Program requirements, project completion progress, results of on-site audits and monitoring visits, and desk reviews conducted by Department staff.

Ensuring Timely Expenditure of Funds

TDHCA ensures adequate progress is made toward committing and expending HOME and ESG funds. Regular review of internal reports and data from IDIS is performed to assess progress of fund commitment and to ensure that all funds are committed by the expiration date of 24 months from the last day of the month in which HUD and TDHCA enter into an Agreement. Performance deadlines for spending and matching funds are reviewed on a quarterly basis to track expenditure totals. HOME set-aside requirements are also tracked.

Documenting Compliance with Program Rules

Compliance with program rules is documented through contract administration and other formal monitoring processes. Staff document compliance issues as part of their ongoing contract management reviews and notify administrators of any noncompliance and required corrective action. On-site reviews, including physical onsite project site inspections of a representative sample of project sites, on-site reviews of client files, shelters, and the delivery of services are conducted with summarized reports identifying necessary corrective actions.

TDHCA has developed a set of standards for HOME administrators to follow to ensure that subcontractors and lower-tiered organizations entering into contractual agreements with administrators perform activities in accordance with contract provisions and applicable state and federal rules, regulations, policies, and related statutes.

TDHCA maintains a database to document an administrator's compliance history with rental housing developments. During the application process the compliance history is gathered, the database is researched, and input from all divisions within TDHCA is requested. If issues of material noncompliance are found, then the applicant is not eligible for future funding until the issues are resolved. The compliance history is considered by TDHCA's Board prior to finalizing awards.

Preventing Fraud and Abuse

TDHCA monitors for potential fraud and mismanagement of funds through the assistance of written agreements with HOME administrators and review of supporting documentation throughout the HOME contract period to ensure that activities are eligible, through information gathered from outside sources and Department staff, and through onsite monitoring visits of HOME and ESGP subrecipients. If fraud or mismanagement of funds is found, sanctions are enforced and disallowed costs are refunded to TDHCA. Also, if fraud or mismanagement of funds is suspected, TDHCA will make referrals and work closely with HUD, the State Auditor's Office, the Inspector General, the Internal Revenue Service, and local law enforcement agencies as applicable.

Identifying Innovative Tools and Techniques that Support Affordable Housing Goals

Staff identifies innovative tools and techniques to support affordable housing goals by attending trainings and conferences, maintaining contact with other state affordable housing agencies, and through the HUD internet listserv and HUD website.

Ensuring Quality in Funded Projects

Ensuring the administrator provides the committed product, amenities and compliance with accessibility requirements is a Departmental priority. Staff ensures the quality of workmanship in HOME-funded projects through the inspection process. TDHCA staff, in conjunction with Manufactured Housing Inspectors conduct inspections to substantiate the quality of the work performed. Deficiencies and concerns are identified during an initial inspection, with corrective action required by construction completion. The clearance of a final inspection is required of all rental housing developments funded by the Department.

TDHCA staff has attended trainings and become familiar with the construction standards of Section 504, Rehabilitation Act of 1973. Manufactured Housing Inspection Staff assisting with conducting inspections have been given the necessary tools to thoroughly complete these inspections and are provided annual training by Department staff on the procedures, expectations, and accessibility requirements.

Other processes used to ensure quality workmanship have included plan reviews. With the 2006 commitments the Department will require plans to have architectural sign off on specifications, and confirm compliance with committed amenities and compliance with any accessibility requirements.

Long-Term Compliance

The PMC is responsible for long term monitoring of income eligibility and tenure of affordability for applicable HOME projects. In other cases where contracts require long-term oversight (such as land use restrictive covenants), reporting and enforcement procedures have been implemented.

The PMC division performs on-site monitoring visits in accordance with the requirements of the HOME Program and Department policies and procedures, as described in the Financing/Loan Agreements, Deed Restrictions, and Regulatory and Land Use Restriction Agreement. If a property participates in more than one housing program, the most restrictive monitoring procedure is followed.

Risk Management

HOME contracts are monitored based on a risk assessment model that is updated on an annual basis or more frequently if required. Some of the elements of the Risk Assessment Model may include the type of activity, existence of a construction component, Davis/Bacon requirements, results of previous on-site visits, status of the most recent monitoring report, amount funded, previous administrator experience, entity type, and Single Audit status. In addition to the results of the risk assessment survey, referrals from division staff are considered when determining in depth monitoring reviews or required technical assistance. An emphasis is placed on monitoring of contracts within the current draw period and contracts with projects in the affordability period as defined by HUD.

If complaints are received by TDHCA, they are considered a risk management element and will be reviewed in detail. Supplemental monitoring activities will be performed to ensure program compliance and detection of possible fraud or mismanagement.

The Risk Assessment Model is also implemented for ESGP. Some of the elements of the Risk Assessment Model include the following: length of time since last on-site visit, results of last on-site visit, status of most recent monitoring report, timeliness of grant reporting, total amount funded during assessment period, total amount funded for all TDHCA contracts during assessment period, number of TDHCA contracts funded during assessment period, and Single Audit Status. In addition to the results of the risk assessment survey consideration is also given to recommendations made from other TDHCA divisions regarding performance with other TDHCA funded programs. All ESGP subrecipients are monitored annually.

Sanctions

Based on the results of ongoing HOME monitoring, sanctions are imposed for noncompliance issues based on the severity of noncompliance, which may include delays in project set-ups, draw request processing, questioned/disallowed costs, suspension of the contract, or contract termination. When necessary, the Executive Director executes a referral to the State Auditor's Office for investigation of fraud as required by Section 321.022(a) of the Texas Government Code. Sanctions imposed affect future application requests and scoring. In addition, if fraud or mismanagement of funds is suspected, TDHCA will make referrals and work closely with HUD, the State Auditor's Office, the Inspector General, the Internal Revenue Service, and local law enforcement agencies as applicable.

The results of ongoing ESGP monitoring will also determine if sanctions are imposed for noncompliance issues. Sanctions range from the use of the cost reimbursement method of payment, deobligation of funds, suspension of funds, and termination of the contract. TDHCA's legal staff is notified and referrals are made to the Attorney General's Office. Sanctions imposed affect the future consideration of ESG applications for funding.

HOPWA

INSTITUTIONAL STRUCTURE

Understanding that no single entity will be able to address the enormous needs of the State of Texas, ORCA, TDHCA, and DSHS support the formation of partnerships in the provision of housing, housing-related, and community development endeavors. Especially considering that the limited amount of financial resources available for affordable housing, community service, and community development activities can be a major obstacle for a single agency to try to address the needs of the state, partnering with other organizations, as well as fund layering and leveraging, helps to stretch those funds that are available.

ORCA, TDHCA, and HOPWA are primarily pass-through funding agencies and distribute federal funds to local entities that in turn provide assistance to households. Because of this, the agencies work with many housing and community development partners, including consumer groups, community based organizations, neighborhood associations, community development corporations, councils of governments, community housing development organizations, community action agencies, real estate developers, social service providers, local lenders, investor-owned electric utilities, local government, nonprofits, faith-based organizations, property managers, state and local elected officials, and other state and federal agencies.

There are many benefits to these partnerships: risk and commitment are shared; the principle of reciprocity requires that local communities demonstrate an awareness of their needs and a willingness to participate actively in solving problems, therefore local communities play an active role in tailoring the project to their needs; partners are able to concentrate specifically on their area of expertise; and a greater variety of resources insure a well targeted more affordable product.

CDBG

HOME and ESGP

The HOME Program encourages partnerships in order to improve the provision of affordable housing. TDHCA has historically allocated $500,000 in HOME funds to the Home of Your Own Coalition, which assists persons with disabilities purchase a home by providing education and financial assistance. Organizations receiving HBA/ADDI funds are required to provide homebuyer education classes to households directly, or coordinate with a local organization that will provide the education. In addition, organizations receiving TBRA funds must provide self-sufficiency services directly, or coordinate with a local organization that will provide the services.

TDHCA encourages ESGP subrecipients to coordinate services with housing and other service agencies. Collaborative applications funded with ESGP funds are required to coordinate services and to provide services as part of a local continuum of care. At the time the Department monitors ESGP subrecipients, coordination efforts are reviewed.

HOPWA

SUMMARY OF PUBLIC COMMENT

The Draft 2007 Plan will be available for public comment from September 13, 2006, through October 12, 2006. Comment will be accepted in writing and at 13 Consolidated Public Hearings held across the state.

A summary of comment received during the public comment period will be included in the final version of the document.

- “Other Actions” section has been modified to better align with requirements. (p. 32)

Recommendation

Approval of the draft document.

DIVISION OF POLICY AND PUBLIC AFFAIRS

BOARD ACTION REQUEST
AUGUST 30, 2006

Action Item

2007 Regional Allocation Formula (RAF) Methodology (Draft for Public Comment)

Required Action

Approval of the release of the 2007 RAF Methodology (Draft for Public Comment).

- ü See Attachment A for a Summary of Proposed Revisions to the RAF Methodology for fiscal year 2007.
- ü See Attachment B for the 2006 RAF Distribution for the HOME and Housing Tax Credit (HTC) programs.[1] As many of the fiscal year 2006 HTC award amounts are still pending further financial feasibility review and the majority of fiscal year 2006 HOME awards will be made at the August 30, 2006 Board meeting, the draft distribution under the 2007 RAF has not been prepared at this time. Prior to the commencement of the public comment period, the portion of the RAF methodology that considers available resources will be generated using fiscal year 2006 HTC, HOME, HTC, and multifamily bond financing information.
- ü See Attachment C for the 2007 RAF Methodology (Draft for Public Comment) that will be released for public comment. For the Board's convenience, significant changes from the final 2006 RAF methodology are shown as a black line.

Background

§2306.111(d) of the Texas Government Code requires that the Department use a Regional Allocation Formula (RAF) to allocate its HOME, Housing Trust Fund (HTF), and HTC funding. This RAF objectively measures the affordable housing need and available resources in 13 State Service Regions used for planning purposes. The RAF also allocates funding to rural and urban/exurban areas within each region.

As a dynamic measure of need, the RAF is revised annually to reflect updated demographic and resource data; respond to public comment; and better assess regional housing needs and available resources. The RAF provides for the statewide distribution of scarce affordable housing dollars to meet widely varying types and levels of need. With this in mind, the Department relies on statutory direction and reasonably interprets a formula for delivery of these scarce resources. As regional demands for affordable housing resources grow, so does the pressure to revise the formula to try to address particular concerns. Over the course of the year, the Department received informal comments on ways to change the formula. It is anticipated that some of these will be formally submitted and further evaluated by the Department during the public comment period. However, it is typically the case that suggested changes that would involve significant revisions to the RAF would also require statutory changes.

[1] Because no RAF-related activities were included in last year's HTF allocation plan in the State Low Income Housing Plan, a 2006 HTF RAF was not developed. However, the regional percentage distributions for the HTF and the HTC program are identical as they use the same RAF methodology.

The HOME and HTF/HTC RAFs use slightly different formulas because the programs have different eligible activities, households, and geographical service areas. §2306.111(c) of the Texas Government Code requires that at least 95 percent of HOME funding be set aside for non-participating jurisdictions (non-PJs). Therefore, the HOME RAF only uses need and available resource data for non-PJs.

The RAF's resulting funding distribution is published in the State Low Income Housing Plan and Annual Report. The detailed final methodology is published on the TDHCA website.

Recommendation

It is recommended that the Board approval the release of the 2007 RAF Methodology (Draft for Public Comment).

ATTACHMENT A
SUMMARY OF PROPOSED REVISIONS TO THE RAF METHODOLOGY

No significant changes are proposed to the RAF methodology. It is recommended that maintaining consistency in the formula across subsequent program years will help applicants better predict the annual available funding amount in each region. It is also anticipated that it may be easier for interested parties to comment on the RAF this year because it is essentially the same formula that was used in the 2006 funding cycles.

While no significant changes are currently proposed to the formula, TDHCA is always interested in receiving substantive comment on the RAF and has, in fact, already received informal comments regarding proposed new methodologies. TDHCA looks forward to this comment during the public comment period as well as receiving public comment on whether need and available resources associated with Hurricane's Katrina and Rita should be considered in the 2007 RAF.

A number of minor technical changes were made to clarify the area definitions that the RAF and the Affordable Housing Need Score use to designate urban/exurban and rural areas across the state. A primary reason for these changes was to address some confusion over how the boundaries of Census Designated Places (CDP) are defined. These unincorporated areas do not have official boundaries other than those determined by the Decennial Census. The fact that TDHCA will only use the CDP boundaries established by the Decennial Census was clearly indicated by revisions to the 2007 RAF Methodology (Draft for Public Comment). These changes also tie with corresponding revisions to the HTC Qualified Allocation Plan and Rules.

ATTACHMENT B
2006 RAF DISTRIBUTION FOR THE HOME AND HTC PROGRAMS

Note: As there are still a number of decisions that will affect 2006 HTC and HOME awards that will be made at the August 30, 2006 Board meeting, the draft distribution under the 2007 RAF has not been prepared at this time. Prior to the commencement of the public comment period, the RAF methodology will be run using fiscal year 2006 HTC, HOME, HTC, and multifamily bond funding. The distributions shown below illustrate the general funding distribution under the 2007 RAF as represented by the 2006 RAF distribution.[2] Shifts in the regional and urban/exurban and rural allocations should be expected in the version that will be released for public comment.

2006 HTC RAF

Region	Large MSA w/in Region for Geographical Reference	Regional Funding Amount	Regional Funding %	Rural Funding Amount	Rural Funding %	Urban/Exurban Funding Amount	Urban/ Exurban Funding %

[2] Because no RAF-related activities were included in last year's HTF allocation plan in the State Low Income Housing Plan, a 2006 HTF RAF was not developed. However, the regional percentage distributions for the HTF and the HTC program are identical as they use the same RAF methodology.

ATTACHMENT C
2007 REGIONAL ALLOCATION FORMULA METHODOLOGY (DRAFT FOR PUBLIC COMMENT)

BACKGROUND

§2306.111(d) of the Texas Government Code requires that TDHCA use a Regional Allocation Formula (RAF) to allocate its HOME, Housing Trust Fund (HTF), and Housing Tax Credit (HTC) funding. This RAF objectively measures the affordable housing need and available resources in 13 State Service Regions used for planning purposes. These regions are shown in “Figure 1. State Service Regions.” The RAF also allocates funding to rural and urban/exurban areas within each region.

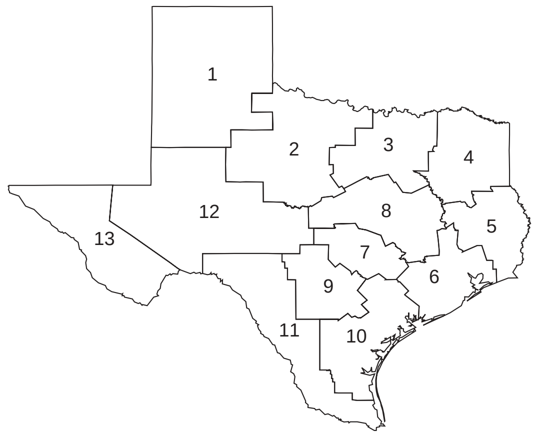

Figure 1. State Service Regions

As a dynamic measure of need, the RAF is revised annually to reflect updated demographic and resource data; respond to public comment; and better assess regional housing needs and available resources. The RAF is submitted annually for public comment.

The HOME and HTF/HTC RAFs use slightly different formulas because the programs have different eligible activities, households, and geographical service areas. §2306.111(c) of the Texas Government Code requires that at least 95 percent of HOME funding be set aside for non-participating jurisdictions (non-PJs). Therefore, the HOME RAF only uses need and available resource data for non-PJs.

METHODOLOGY

Consideration of Affordable Housing Need
The first part of the RAF determines the funding allocation based solely on objective measures of each region’s share of the State’s affordable housing need. The RAF uses the following 2000 US Census data to calculate this regional need distribution.

Á Poverty: Number of persons in the region who live in poverty.

Á Cost Burden: Number of households with a monthly gross rent or mortgage payment to monthly household income ratio that exceeds 30 percent.

Á Overcrowded Units: Number of occupied units with more than one person per room.

Á Units with Incomplete Kitchen or Plumbing: Number of occupied units that do not have all of the following: sink with piped water; range or cook top and oven; refrigerator, hot and cold piped water, flush toilet, and bathtub or shower.

Non-poverty data is for households at or below 80% of the Area Median Family Income (AMFI).

- Because the HTC/HTF programs support rental development activities, renter household data is used for the HTC/HTF RAF.
- Because the HOME program supports renter and owner activities, both renter and owner data is used in the HOME RAF.

The following steps are used to measure regional need.

1. Each need measure (poverty, cost burden, overcrowding, and incomplete units) is weighted to reflect its perceived relevance in assessing affordable housing need. Half the measure weight is associated with poverty because of the significant number of persons in poverty and the use of this factor in the HUD Community Planning and Development Program Formula Allocations. The remaining measure weight is proportionately allocated based on the relative size of the other three measure populations. The resulting need measure weights are: poverty = 50 percent, cost burden = 36 percent, overcrowding = 12 percent, and substandard housing = 2 percent.
2. The following steps calculate the funding distribution based on the need measures.
   a. The total RAF funding amount is multiplied by each need measure weight to determine the amount of funding distributed by that measure.
   b. Each measure’s amount of funding is regionally distributed based on the distribution of persons or households in need.
3. The resulting four regional measure distributions are then combined to calculate each region’s need-based funding amount.
4. Each region’s need based funding amount is divided by the total RAF funding amount. This quotient is the region’s need percentage.

Consideration of Available Housing Resources
In addition to TDHCA, there are many other sources of funding that address affordable housing needs. To mitigate any inherent inequities in the way these resources are regionally allocated, the RAF compares each region’s level of need to its level of resources.

Because the resources used in the RAF reflect the three programs’ eligible households and activities, the following data is used.

- The HTC/HTF RAF uses rental funding sources.
- The HOME RAF uses sources of rental and owner funding in non-PJs.

The following resources are used in both the HOME and HTC/HTF RAFs.

- Housing Tax Credits (4% and 9%)[1]
- Housing Trust Fund Rental Development Funding
- HUD HOME Funds (TDHCA and Participating Jurisdiction)
- HUD Housing for Persons with AIDS Funding

[1] Estimated capital raised through the syndication of the HTCs.

- HUD Public Housing Authority (PHA) Capital Funding
- HUD §8 Tenant-Based Rental Assistance (TDHCA & PHA)
- Multifamily Texas Housing Trust Fund
- Multifamily Tax-Exempt Bond Financing[2]
- United States Department of Agriculture (USDA) Multifamily Development Funding
- USDA Rental Assistance

The HOME RAF also includes the following sources of owner funding.

- USDA 502 and 504 Loans and Grants
- Single Family Bond Financing (TDHCA and Housing Finance Corporations)

These steps calculate the regional distribution of available housing resources.

1. The available resources are summed by region and for the state. The resulting sums are the regional and state resource totals.
2. The regional resource total is divided by the state resource total. This quotient is the region's resource percentage.

Comparison of Regional Need and Available Resource Distributions

In theory, if the measurement of regional need is accurate, then the region's need percentage should reflect its resource percentage. A region with a negative resource and need difference is considered to be "under allocated." This region should have received a larger portion of the available resources to address their need. Similarly, a region with a positive difference is considered "over allocated." Conversely, it should have received a smaller portion of the available resources.

To address differences between the regional need and resource distributions, the RAF uses a resource funding adjustment to shift a portion of the need based funding distribution from over allocated to under allocated regions.

A resource funding adjustment limit is used to ensure that a particular region or geographical area is not overly penalized by the resource funding adjustments. The region's need based funding amount cannot be reduced by more than the percentage of the state's available resources that are not already regionally distributed. This percentage is calculated by finding the average difference between each funding source's regional distribution and the regional need percentages. Sources whose average of the regional differences exceeds five percent are included in the resource funding adjustment limit.

---

2 The value of the bonds is 52 percent of the total bond amount. This is an estimate of the capital required to fill an affordability gap that remains after the capital raised through the syndication of the 4% HTCs is deducted from the total development cost. [Note: This bond valuation factor will be updated at the time the final RAF is prepared to reflect the FY 2006 actual transactions.]

The following steps calculate the resource funding adjustments.

1. The regional resource percentage and regional need percentage differences are calculated.
2. The resulting over allocated (positive) resource differences are summed to calculate the state resource difference.
3. The state resource difference is multiplied by the total RAF funding. This product is the state over allocated resource amount.
4. Each over allocated resource difference is divided by the state resource difference. This quotient is the over allocation percentage.
5. Each over allocation percentage is multiplied by the state over allocated resource amount to determine the base resource funding adjustment.
6. The region's need based funding amount is multiplied by the resource funding adjustment limit. This product is the maximum resource funding adjustment.
7. The lesser of the base resource funding adjustment and the maximum resource funding adjustment is the over allocated region's resource funding adjustment.
8. The over allocated regions' resource funding adjustments are summed. This total is the state under allocated resource amount.
9. Each under allocated (negative) resource difference is divided by the state resource difference to determine the under allocation percentage.
10. Each under allocation percentage is multiplied by the state under allocated resource amount. This product is the under allocated region's resource funding adjustment.

Consideration of Rural and Exurban/Urban Need[3]

There are a number of factors that affect the distribution of resources to rural and urban/exurban areas. These include rural area feasible development sizes, allowable rent and income levels, and proximity to developers, contractors, and materials. Access to resources is also an issue because some funding, such as multifamily tax-exempt bond financing, does not work very well in rural areas. As required by §2306.111(d) of the Texas Government Code, to ensure an equitable distribution of funding to both rural and urban/exurban areas, the RAF analyzes the distribution of rural and urban/exurban need and resources at the regional level.

The RAF uses the following definitions to categorize rural and urban/exurban areas.

1. Area - The geographic area contained within the boundaries of:
   a. an incorporated place, or
   b. a Census Designated Place (CDP) as established by the U.S. Census Bureau for the most recent Decennial Census.
2. Rural – An Area that is:
   a. outside the boundaries of a metropolitan statistical area (MSA); or
   b. within the boundaries of a MSA, if the Area has a population of 20,000[4] or less and does not share a boundary with an Area that has a population greater than 20,000.[5]

Deleted: A

Deleted: place

Deleted: place

Deleted: a place

[3] §2306.111(d) requires the RAF to consider "rural and urban/exurban areas" in its distribution of program funding. Until further guidance is provided by the Legislature, TDHCA's Legal Division has interpreted "Urban/Exurban" to be a single category.

3. Urban/Exurban
   a. Any Area that does not satisfy the Rural definition; or
   b. that portion of a census tract that has a population density greater than 1,200 people per square mile and is not contained within an Area. [This subcategory is not used in the HOME formula.]

Measuring Rural and Urban/exurban Affordable Housing Need
The following steps calculate the level of need in rural and urban/exurban areas.

1. The same need measure weights used to determine the regional need distribution are multiplied by the region's funding amount. This product is the measure funding amount.
2. Area level measure data is identified as being rural or urban/exurban based on the RAF area definitions.
3. Using the coded area data, each measure's affected number of rural and urban/exurban persons or households in the region is calculated.
4. The corresponding measure rural and urban/exurban percentages are calculated.
5. For each measure, the regional funding amount is multiplied by the measure rural and urban/exurban percentages to calculate the rural and urban/exurban measure funding amounts.
6. The rural and urban/exurban measure funding amounts are summed for the four measures. These totals are the region's rural and urban/exurban need based funding amounts.
7. The region's rural and urban/exurban need based funding amounts are divided by the region's total funding amount. These quotients provide the region's rural and urban/exurban need percentages.

Deleted: Place
Deleted: place

Measuring Rural and Urban/Exurban Available Resources
The following steps calculate the Rural and Urban/Exurban distribution of available housing resources.

1. The geographically coded area data is summed to calculate regional rural and urban/exurban resource totals. Funding allocated at the county level is proportionately distributed based on the percentage split between rural and urban/exurban areas within the county. The resulting totals are the rural and urban/exurban resource totals.
2. The corresponding regional rural and urban/exurban resource percentages are calculated.

Deleted: place
Deleted: place

[4] The definition of "population" in state law (Sec. 311.005(3), Government Code) is "the population shown by the most recent federal decennial census." Because of this requirement, the decennial census place population must be used to make the area type determination.

[5] Applicants may petition TDHCA to update the "Rural" designation of an incorporated area within a metropolitan statistical area by providing a letter from a local official. Such letter must clearly indicate that the area's incorporated boundary touches the boundary of another incorporated area with a population of over 20,000. To treat all applicants equitably, such letter must be provided to TDHCA prior to the commencement of the:
- pre-application submission period for HTC applications, or
- application submission period for HOME applications.

Deleted: place
Deleted: has an incorporated area
Deleted: that
Deleted: place

Rural and Urban/Exurban Available Resources Funding Adjustment

The following steps calculate the rural and urban/exurban area resource funding adjustments.

1. The differences between the rural and urban/exurban resource percentages and rural and urban/exurban need percentages are calculated. The resulting differences show which of the two areas (rural or urban/exurban) were over or under allocated.
2. Each over allocated (positive) area resource difference is multiplied by the region's funding amount. For example, if the urban/exurban area is over allocated, then the difference is multiplied by the Regional Funding Amount. The resulting product is the area's base resource funding adjustment.
3. The over allocated area's need based funding amount is multiplied by the resource funding adjustment limit. This product is the area's maximum resource funding adjustment.
4. The lesser of the area's base resource funding adjustment or the maximum resource funding adjustment is the area's resource funding adjustment.

Rural and Urban/Exurban Regional Funding Amounts

The area's over allocated resource funding adjustment is subtracted from the over allocated area's need based funding amount and is added to the under allocated area's need based funding amount.

QUESTIONS AND COMMENTS

For questions and comments on the RAF, contact Stephen Schottman at the TDHCA Division of Policy and Public Affairs.

DIVISION OF POLICY AND PUBLIC AFFAIRS

BOARD ACTION REQUEST
August 30, 2006

Action Item

2007 Affordable Housing Need Score (AHNS) Methodology (Draft for Public Comment)

Required Action

Approval of the release of the 2007 AHNS Methodology (Draft for Public Comment) is requested.

- See Attachment A for a Summary of Proposed Revisions to the AHNS Methodology for fiscal year 2007.
- See Attachment B for the proposed 2007 AHNS Methodology (Draft for Public Comment. For the Board's convenience, significant changes from the 2006 AHNS methodology are shown as a black line.
- See Attachment C for the Housing Tax Credit (HTC)/Housing Trust Fund (HTF) Scores as Generated by the 2007 AHNS Methodology (Draft for Public Comment). This table also compares the 2007 Draft AHNS to the corresponding final 2006 AHNS. Because the majority of HOME awards for fiscal year 2006 are being made at the August 30, 2006 Board meeting, and the awards will significantly impact the AHNS, a set of corresponding HOME scores has not been prepared at this time. A table similar to the HTC/HTF AHNS table will be released prior to the start of the public comment period for the HOME program.

Background

The AHNS scoring criterion is used to evaluate HOME, HTC, and HTF applications. The formula is submitted annually for public comment. The final methodology and resulting scores are published on the TDHCA website.

While not specifically legislated by the state, the AHNS helps address other need based funding allocation requirements by responding to:

- an IRS Section 42 requirement that the selection criteria used to award the HTC funding must include "housing needs characteristics."
- State Auditor's Office (SAO) and Sunset findings that called for the use of objective, need based criteria to award TDHCA's funding.

Through the AHNS, applicants are encouraged to request funding to serve communities that have a high level of need.

The HOME and HTF/HTC programs use slightly modified versions of the AHNS because the programs have different eligible activities, households, and geographical areas. Under §2306.111(c) of the Texas Government Code, at least 95 percent of HOME funding is set aside for non-participating jurisdictions (PJ). Therefore, the HOME AHNS only uses need data for non-PJs.

Recommendation

Approval for the release of the 2007 AHNS Methodology (Draft for Public Comment).

ATTACHMENT A
SUMMARY OF PROPOSED REVISIONS TO THE AHNS METHODOLOGY

Only one significant change is being made to the AHNS methodology. This change will address the following two issues that were noted by comments on the AHNS that the Department received over the course of the year.

1. It was noted that some incorporated areas cross county boundaries. Under the previous scoring system, half the AHNS was based on the amount of need in a county relative to the need in the region. It was suggested that in instances where an incorporated area crosses county boundaries, two sets of scores should be developed.

2. A number of individuals, with particular concerns as to the affordable housing needs of rural communities, commented that there appeared to be an imbalance between the AHNS of rural communities in counties located within and outside of large MSAs. In reviewing the scores, it appeared that this indeed was the case – again due to half of the score being based on the amount of need in a county relative to the need in the region. Because need is concentrated in counties with large urban places, the rural communities within those counties were also receiving a scoring boost based on the overall need in the county.

To resolve both of those issues, it is proposed that only the measure of each area's level of need for each housing activity as determined by the ratio of the area's households in need to the area's total households be used in the 2007 AHNS methodology. In addition to addressing the issues described above, this change also clarifies the impact of previous TDHCA funding allocations on the need in a particular place which might otherwise be diminished by the part of the score which was based on county level need.

A number of minor technical changes were also made to clarify the area definitions that the RAF and the Affordable Housing Need Score use to designate urban/exurban and rural areas across the state. A primary reason for these changes was to address some confusion over how the boundaries of Census Designated Places (CDP) are defined. These unincorporated areas do not have official boundaries other than those determined by the Decennial Census. The fact that TDHCA will only use the CDP boundaries established by the Decennial Census was clearly indicated by revisions to the 2007 AHNS Methodology (Draft for Public Comment).

ATTACHMENT B
2007 AFFORDABLE HOUSING NEED SCORE METHODOLOGY (DRAFT FOR PUBLIC COMMENT)

Background

The AHNS scoring criterion is used to evaluate HOME, Housing Tax Credit (HTC), and Housing Trust Fund (HTF) applications. The formula is submitted annually for public comment. The final version is published in the SLIHP.

While not specifically legislated by the state, the AHNS helps address other need based funding allocation requirements by responding to:

- an IRS Section 42 requirement that the selection criteria used to award the HTC funding must include "housing needs characteristics."
- State Auditor's Office (SAO) and Sunset findings that called for the use of objective, need based criteria to award TDHCA's funding.

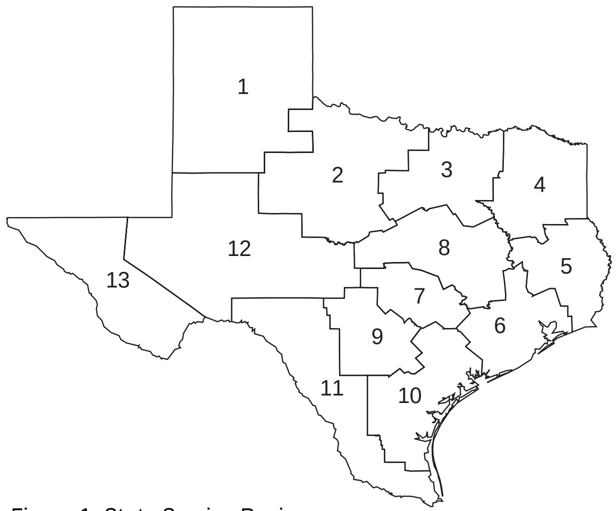

Figure 1. State Service Regions

The AHNS is an extension of the TDHCA Regional Allocation Formula (RAF) in that it provides a comparative assessment of each area's level of need relative to the other areas within its State Service Region. Through the AHNS, applicants are encouraged to request funding to serve communities that have a high level of need.

Deleted: place

Deleted: place

The HOME and HTF/HTC programs use slightly modified versions of the AHNS because the programs have different eligible activities, households, and geographical areas. Under §2306.111(c) of the Texas Government Code, at least 95 percent of HOME funding is set aside for non-participating jurisdictions. Therefore, the HOME AHNS only uses need data for non-participating jurisdictions.

Methodology

The following steps measure each area's level of affordable housing need.

Deleted: place

1) The Census number of households at or below 80% AMFI with cost burden establishes baseline for each area's number of households in need of housing assistance. The type of household considered for this baseline varies by activity.

Deleted: place

   a) Renter data is used for the rental development (RD), tenant based rental assistance (TBRA), and down payment assistance (DPA) scores.
   b) Owner data is used for the owner occupied rehabilitation (OCC) score.

2) For each activity, an adjusted number of households with cost burden is calculated based on the difference between the area's population in the 2000 Census and the most recent State Data Center population estimate.

3) The number of households assisted using TDHCA funding since the Census was taken (April 1, 2000) is subtracted from the adjusted number of households with cost burden. The resulting number shows the area's estimated remaining need.

a) For HTC and HTF scores, RD activity is used;

b) For HOME TBRA and RD scores, TBRA[1] and RD activity is used;

c) For HOME DPA scores, First Time Homebuyer and HOME DPA activity is used; and

d) For HOME OCC scores, HOME OCC activity is used.

4) The estimated remaining need measure is used to quantify the area's level of need for each scoring activity as measured by the ratio of the area's households in need to the area's total households. This ratio shows the concentration of need within a area.

5) A sliding scale that compares each area's level of need to the region's other areas is used to assign points to each area based on its relative concentration of need (maximum of 7 points).

Rural and Exurban/Urban Need

Section 2306.111(d) of the Government Code requires the RAF to consider rural and urban/exurban areas in its distribution of funds. To assist with this distribution, each area is classified using the RAF's geographic area definitions.

The RAF uses the following definitions to categorize rural and urban/exurban areas.

1. Area - The geographic area contained within the boundaries of:
   a. an incorporated place, or
   b. a Census Designated Place (CDP) as established by the U.S. Census Bureau for the most recent Decennial Census.
2. Rural – An Area that is:
   a. outside the boundaries of a metropolitan statistical area (MSA); or
   b. within the boundaries of a MSA, if the Area has a population of 20,000[2] or less and does not share a boundary with an Area that has a population greater than 20,000.[3]

---

[1] Because of the limited duration of TBRA, a conversion factor was used to equate the value of a voucher to an affordable housing unit. This factor equaled the voucher duration divided by the number of years since the Census. For 2007, this is 2 years/7 years or an approximate reduction in the number of households in need by 29 percent for each TBRA voucher.

[2] The definition of "population" in state law (Sec. 311.005(3), Government Code) is "the population shown by the most recent federal decennial census." Because of this requirement, the decennial census place population must be used to make the area type determination.

[3] Applicants may petition TDHCA to update the "Rural" designation of an incorporated area within a metropolitan statistical area by providing a letter from a local official. Such letter must clearly indicate that the area's incorporated boundary touches the boundary of another incorporated area with a population of over 20,000. To treat applicants equitably, such letter must be provided to TDHCA prior to the commencement of the pre-application submission period for HTC applications, or application submission period for HOME applications.

For the HTC AHNS, areas that are eligible for new construction or rehabilitation funding by TX-USDA-RHS are also considered rural.

3. Urban/Exurban - Any Area that does not satisfy the Rural definition.

Rental development activities that occur outside an Area shall use the rural or urban/exurban designation of the closest Area.

For the HOME program, a county score is used for activities that will serve more than one Area within a county. If multiple counties or Areas in multiple counties will be served by an application, then the county scores will be averaged. Participating Jurisdictions (PJ) receive a score of zero.

FINANCIAL ADMINISTRATION DIVISION

BOARD ACTION REQUEST

August 30, 2006

Action Item

Presentation, Discussion and Approval of the Legislative Appropriations Request (LAR)

Required Action

The Board approve the Department's submission of the FY 2008-09 LAR

Background

The FY 2008-09 LAR serves as an instrument that provides the budget details that support the Agency's Strategic Plan. It provides information related to performance targets, cost and method of finance. The LAR consists of two components. The first is a baseline level which is the General Revenue for 2006-07 reduced by 10%, as requested in a letter to all state agencies by the Legislative Budget Board (LBB) and the Governor's Office of Budget, Planning and Policy (GOBPP) dated June 2, 2006 (see attachment). The second relates to exceptional items which are requests for General Revenue above the baseline request. The Department will present the LAR in a public hearing to the LBB and GOBPP. Subsequently, they will make recommendations to members of the 80th Legislature prior to the January 2007 session. The Legislature, with input from the Comptroller of Public Accounts and the Governor, will adopt the General Appropriations Act for FY 2008-09.

LAR highlights include:

1. Reduction of $906,551 from $9,410,856 to $8,504,305
2. <u>3 Exceptional Items:</u>

a) Bond Review Board (BRB) Fees	$688,000
b) Continuum of Care (CoC) Funding	$218,000
c) System Benefit Fund	$10 million

TABLE OF CONTENTS

* * * * * * * * * * * * * * *

Major Milestones

The 2008–09 cycle for allocating state resources began with the issuance of *Instructions for Preparing and Submitting Agency Strategic Plans for Fiscal Years 2007–11* (March 2006). Below are major milestones in the current cycle:

• Strategic planning instructions issued	March 2006
• Agency request to modify budget structure submitted	April 7, 2006
• Instructions for biennial 2008–09 Legislative Appropriations Request issued	June 2006
• LBB/GOBPP approve agency budget structures	April, May 2006
• Agency submits strategic plan for 2007–11	June 23, 2006 and July 7, 2006
• Agency submits 2006–07 base reconciliation	June 2006
• Agency submits biennial 2008–09 Legislative Appropriations Request	July, August 2006
• LBB/GOBPP staff conduct joint budget hearings	August, September 2006
• LBB delivers budget recommendations to the Eightieth Legislature	January 2007
• Governor delivers budget proposal to the Eightieth Legislature	January 2007
• Legislature considers and adopts appropriations bill	January - May 2007
• Comptroller of Public Accounts certifies appropriations bill	June 2007
• Governor approves General Appropriations Act and issues veto proclamation	June 2007

MEMORANDUM

June 2, 2006

TO: State Agency Board/Commission Chairs
State Agency Heads/Executive Directors
Appellate Court Justices and Judges
Chancellors and Presidents of Institutions of Higher Education
Presidents and Directors of Health-related Institutions

Detailed instructions for the submission of legislative appropriations requests for the 2008-09 biennium have been posted on the Legislative Budget Board and Governor's Office websites. A schedule of due dates is included as an appendix to the instructions.

As a starting point for budget deliberations, an agency's baseline request for general revenue-related funds will be limited to 90 percent of the sum of amounts expended in fiscal year 2006 and budgeted in fiscal year 2007 plus an amount equal to the GR-related allocation for the 3 percent / $50 employee pay raise in 2007. Exceptions to the 90 percent limitation include amounts necessary to maintain public education funding based on legislative action, satisfy debt service requirements for existing bond authorizations, maintain caseloads for federal entitlement services, and maintain adult prison populations.

Funding requests for other purposes which exceed the baseline spending level may not be included in the baseline request but may be submitted as exceptional items. The Administrator's Statement accompanying the budget request should identify which exceptional items are tied to reaching 100 percent of the 2006-07 spending level.

We appreciate the opportunity to work with you and your staff during this new budget cycle.

Sincerely,

John O'Brien, Deputy Director
Legislative Budget Board

Mike Morrissey, Director
Governor's Office of Budget, Planning and Policy

JOB/MM:fis

ADMINISTRATOR'S STATEMENT

Agency Name: Texas Department of Housing and Community Affairs
80th Regular Session

There are two main themes woven through the budget submission for the 80th Regular Session by the Texas Department of Housing and Community Affairs ("The Department"): Maximizing and Leveraging the Efficiency of Existing Funds and Disaster Relief for Areas of East and Southeast Texas stricken by Hurricane Rita.

Outside of the 10 percent reduction in General Revenue, the budget request from the Department for fiscal years 2008-09 is very similar to the previous biennium. The approved General Revenue budget base for fiscal years 2006-2007 was $9,410,856 and the Department is requesting $8,504,305 for fiscal years 2008-2009 showing a reduction of $906,551 from the current biennium. The Department believes it can meet its current performance measures within the existing bill pattern with its base request for the next biennium.

The Department's top priority is the restoration of $906,551 in General Revenue funds to reach 100 percent of the 2006-07 General Revenue funding base. The Department has identified two important uses for these restored funds that would maximize program efficiencies and leverage other funding sources for the benefit of the state and is requesting related Exceptional Items. The bulk of the restoration – or $688,000 over the biennium – would support the Department fulfilling unfunded mandates from Section 2306.259 of the Texas Government Code and establishing an affordable housing research and information program. Through the use of these funds the Department would contract for periodic market studies to determine the need for housing for families of extremely low, very low, and low income in census tracts throughout the state; research from qualified professionals to determine the effect of affordable housing developments on property values, social conditions, and quality of life in surrounding neighborhoods; independent research in affordable housing design and development approaches that enhance community acceptance of affordable housing and improve the quality of life for the residents of the housing; and, public education and outreach efforts to assist the public in understanding the nature and purpose of affordable housing and the process for public participation in the administration of affordable housing programs.

The Department has been unable to fulfill the purposes of Section 2306.259 due to the lack of appropriated funds. During the 78th Regular Session, legislation was passed to increase the application fee for multifamily Private Activity Bond applicants. Senate Bill 1664 increased Bond Review Board (BRB) application fees for issuers of qualified residential rental project bonds from the then existing $500 to a $5,000 fee per transaction. Of this, $1,000 was to be retained by the BRB to offset costs of administration and the remaining $4,000 was to be transferred to the Department for use in the affordable housing research and information program created in the same statute. Section 2 of SB 1664 amends Section 1372.006, Government Code, generating the fee, while Section 17 of the bill amends Section 2306.259, Government Code, creating the research and information program. No rider appropriating these funds was included in the General Appropriations Act (GAA) for that session. As a result, neither the Department nor the BRB were able to utilize the funds for purposes set forth in SB 1664.

The remaining $218,000 of the requested restoration of General Revenue would enable the Department, through the Texas Interagency Council for the Homeless (TICH), to potentially leverage up to $14 million in Federal funds per year to combat homelessness in rural Texas. The requested General Revenue would be utilized to coordinate on a yearly basis a federal "Balance of the State" Continuum of Care (CoC) grant application by rural homeless coalitions across the state. The $218,000 would be used to help these coalitions to conduct homeless counts/surveys; compile a housing and services inventory; identify the housing gaps; and develop homeless discharge planning strategies for their area. These tasks pose significant challenges for rural communities, which often lack the organizational staff, financial resources and expertise to effectively implement their homeless projects. These funds will help them address these issues.

In its third highest priority exceptional item, the Department is requesting $5,000,000 each year of the 2008-09 biennium to fund the low income energy efficiency component of the System Benefit Fund (SBF). The Department would leverage these funds with federal Weatherization Assistance Program for Low Income Persons (WAP) and Low Income Home Energy Assistance Program (LIHEAP) funds to serve eligible households not currently or adequately being served through existing programs.

The U.S. Department of Energy regulations limit per unit federal funding to $2,826. Homes that require energy conservation beyond this limit in order to be effective cannot be funded. Additionally, the Department will only provide energy conservation measures to a home if the measures will provide the consumer anticipated savings in utility costs that is at least equal to the cost of the measures.

The Department's Weatherization Assistance Program (WAP), funded primarily through WAP and LIHEAP, provides energy conservation measures for eligible very low income households. These measures provide for a healthier environment for the family served and help reduce the families' energy cost burden. It is important to note that the program prioritizes populations most vulnerable to weather extremes such as elderly persons 60 years of age and older, persons with disabilities, and households with young children under 6 years of age. High residential energy users and households with high energy burdens are also prioritized.

Previous SBF funding has allowed the Department to reach lower income households in the deregulated areas of the state, typically by combining SBF and WAP funds. Through SBF funding in SFY 2002 and 2003 (approximately $7 million and $10.7 million respectively), the Department was able to weatherize 5,343 units as well as provide other energy conservation measures such as installing energy efficient refrigerators, compact fluorescent lights, and water saver kits. These measures have provided up to a 20-30% reduction in energy use as well as a healthier environment in the winter and summer for households served. Overall, the Department averaged about $3,900 per unit in weatherization assistance, about $1,400 more per home due to SBF funding.

In order to carry out its responsibility to establish and maintain a competitive, comprehensive salary administration program, the Department's Governing Board is requesting to move the Executive Director position from a Group 4 salary range of $76,068 to $117,516 to a Group 5 exempt classification with a salary range of $90,060 to $139,140. Within this range and pursuant to GAA Art. IX, Sec 3.05(c), specific increases in salary will be based on the Department's Governing Board approval in a public meeting. Then this action is submitted in writing and signed by the presiding officer to the Governor, Legislative Budget Board, and the Comptroller. This request is based on a comparison of the current Executive Director's salary to comparable state agencies, to salaries and groups of the agencies within the Business and Economic Development Group of Texas State Agencies, and from a recent salary survey conducted by the National Council of State Housing Agencies.

Finally, while it is not an Exceptional Item, the Department's funding stream in the 2008-2009 biennium will reflect a new funding source. Governor Perry in 2006 identified the Department – working closely with the Office of Rural Community Affairs – as the lead agency to implement housing and community development disaster recovery to a 29-county area devastated by Hurricane Rita in September 2005. HUD awarded the state $74.5 million in Community Development Block Grant funds for housing, infrastructure, public service, public facility, and business needs. The assistance funds will be awarded to eligible Councils of Governments (COGs) either for unmet housing needs or non-housing, infrastructure related activities. The Department has identified $997,390 for administrative expenses across fiscal years 2006-07 and 2008-09. It is also important to note that while this document was being prepared, HUD announced additional CDBG funding of $428 million for the state. While related administrative expenses have yet to be determined, the Department expects to have more complete information by the time pre-Session hearings begin.

TDHCA Governing Board Members
Elizabeth Anderson, Chair (Dallas) Term expires January 31, 2007
C. Kent Conine, Vice Chair (Frisco) Term expires January 31, 2009
Shadrick Bogany (Missouri City) Term expired January 31, 2005
Vidal Gonzalez (Del Rio) Term expired January 31, 2005
Norberto Salinas (Mission) Term expired January 31, 2005
Dionicio Vidal "Sonny" Flores (Houston.) Term expires January 31, 2009

The Manufactured Housing Division

The Manufactured Housing Division (MHD) is administratively attached to the Department and operates under its own five (5) member governing board. The MHD has three strategies, the issuance of licenses for different activities in the manufactured housing industry and the issuance of statement of ownership and location for manufactured homes; the inspection of such homes; and enforcement and consumer protection activity, including the operation of a manufactured homeowners' recovery trust fund. The MHD also acts as HUD's state administrative agency with respect to the federal manufactured home program. All of MHD's activities are requested to be funded through appropriated receipts or through federal funds, not utilizing any general revenue.

MHD Governing Board
Valeri Stiers Malone, Chair (Wichita Falls) Term expires January 31, 2011
Carlos Z. Amaral (Plano) Term expires January 31, 2007
Michael H. Bray (El Paso) Term expires January 31, 2011
Kimberly A. Shambley (Dallas) Term expires January 31, 2009
Frances Shannon (Spring Branch) Term expires January 31, 2007

Project 1: Manufactured Housing (MH) Systems Upgrade

Description: In the FY 2008-2009 biennium, TDHCA plans to replace the current suite of character-based MH systems with an integrated, web-enabled system. The current MH systems are critical tools for supporting the Manufactured Housing Division's mission, but the systems are end-of-life and restrict MHD's ability to deliver services over the web and manage and retrieve data efficiently. In addition, the current technology platform represents an ongoing support risk because of the limited availability of developers with this skill set.

The current MH systems support all core MHD business functions: 1) Titling/Statements of Ownership and Location (SOLs), 2) Installations, 3) Licensing, 4) Consumer Complaints, and 5) Cash Receipts.

Major project goals include 1) providing tax collectors the ability to enter and release tax liens online, 2) providing customers the ability to process and pay for SOLs and Notices of Installation online, in partnership with the Department of Information Resources' Texas Online group, and 3) expanding the current use of Texas Online for license renewals to include initial license applications.

Project Financing: The $350,000 MH Systems Upgrade budget is made up of $325,000 for contract developer support and $25,000 for technical documentation and training. In addition to two TDHCA developers and one project manager assigned to the project, we estimate the need for two contract developers for a term of one year each to assist in building the system ($300,000) and one developer for a term of two months to assist with data migration ($25,000).

Project 2: Normal Growth

Description: The Normal Growth project funds server and client hardware and software that support the agency in achieving its mission. The Normal Growth project achieves the goals of 1) delivering suitable PCs, laptops, printers, and related end-user hardware and 2) of upgrading LAN server and network hardware and software to achieve performance and reliability gains through the acquisition and installation of scaleable, easily integrated equipment and new software releases. In FY 2008-2009, Information Systems plans to upgrade the agency's Oracle Application Server hardware in support of the MH Systems Upgrade and the other enterprise applications that currently reside on the server.

Project Financing: The $390,000 Normal Growth budget is made up of the following components.
PC, Laptops, and Printer Replacements -- $187,000
Desktop Software (primarily Microsoft Office upgrades and TeamMate audit software) -- $98,000
Server/Network (primarily the agency's Oracle Application Server hardware) -- $105,000

1	VII-3-4	1. **Performance Measure Targets.** The following is a listing of the key performance target levels for the Department of Housing and Community Affairs. It is the intent of the Legislature that appropriations made by this Act be utilized in the most efficient and effective manner possible to achieve the intended mission of the Department of Housing and Community Affairs. In order to achieve the objectives and service standards established by this Act, the Department of Housing and Community Affairs shall make every effort to attain the following designated key performance target levels associated with each item of appropriation.

A. Goal: AFFORDABLE HOUSING	2008	2009
Outcome (Results/Impact):		
Percent of Households/Individuals of Very Low, Low, and Moderate Income Needing Affordable Housing That Subsequently Receive Housing or Housing-related Assistance	1.81%	1.81%
Percent of Households/Individuals of Very Low Income Needing Affordable Housing That Subsequently Receive Housing or Housing-related Assistance	1.46%	1.46%

Percent of Households/Individuals of Low Income Needing Affordable Housing That Subsequently Receive Housing or Housing-related Assistance	2.75%	2.75%
Percent of Households/Individuals of Moderate Income Needing Affordable Housing That Subsequently Receive Housing or Housing-related Assistance	.17%	.17%
A.1.1. Strategy: MRB PROGRAM - SINGLE FAMILY		
Output (Volume):		
Number of Households Assisted with Single Family Mortgage Revenue Bond Funds	1,727	1,727
A.1.2 Strategy: HOME Program – Single Family		
Output (Volume):		
Number of Households Assisted through the Single Family HOME Funds	1,283	1,283
A.1.3. Strategy: HOUSING TRUST FUND – SINGLE FAMILY		
Output (Volume):		
Number of Households Assisted through the Single Family Housing Trust Fund Program	100	100
A.1.4. Strategy: SECTION 8 RENTAL ASSISTANCE		
Output (Volume):		
Number of Households Assisted through Statewide Housing Assistance Payments Program	2,100	2,100
A.1.5. Strategy: FEDERAL TAX CREDITS		
Output (Volume):		
Number of Households Assisted through the Housing Tax Credit Program	18,832	20,151
A.1.6. Strategy: HOME PROGRAM – MULTIFAMILY		
Output (Volume):		
Number of Households Assisted with Multifamily HOME Funds	741	647
A.1.8. Strategy: MRB PROGRAM-MULTIFAMILY		
Output (Volume):		
Number of Households Assisted through the Multifamily Mortgage Revenue Bond Program	3,500	3,500

B. Goal: INFORMATION & TECHNICAL ASSISTANCE		
B.1.1. Strategy: HOUSING RESOURCE CENTER		
Output (Volume):		
Number of Information and Technical Assistance Requests Completed	5,400	5,400
B.2.1. Strategy: COLONIA SERVICE CENTERS		
Output (Volume):		
Number of On-site Technical Assistance Visits Conducted Annually from the Field Offices	600	600
C. Goal: POOR AND HOMELESS PROGRAMS		
Outcome (Results/Impact):		
Percent of Persons in Poverty That Received Homeless and Poverty-related Assistance	14.6%	14.6%
Percent of Very Low Income Households Receiving Energy Assistance	6%	6%
C.1.1. Strategy: POVERTY-RELATED FUNDS		
Output (Volume):		
Number of Persons Assisted through Homeless and Poverty-related Funds	440,000	440,000
Number of Persons Assisted That Achieve Incomes above Poverty Level	2,000	2,000
Number of Shelters Assisted	70	70
C.2.1. Strategy: ENERGY ASSISTANCE PROGRAMS		
Output (Volume):		
Number of Households Assisted through theComprehensive Energy Assistance Program	63,200	63,200
Number of Dwelling Units Weatherized by the Department	4,800	4,800
D. Goal: ENSURE COMPLIANCE		
D.1.1. Strategy: MONITOR HOUSING REQUIREMENTS		
Output (Volume):		
Total Number of Onsite Reviews Conducted	888	917
D.1.2. Strategy: MONITOR CONTRACT REQUIREMENTS		
Output (Volume):		
Total Number of Monitoring Reviews Conducted	10,725	9,220

E. Goal: MANUFACTURED HOUSING		
Outcome (Results/Impact):		
Percent of Consumer Complaint Inspections Conducted within 30 Days of Request	100%	100%
Percent of Complaints Resulting in Disciplinary Action	22%	22%
E.1.1. Strategy: TITLING AND LICENSING		
Output (Volume):		
Number of Manufactured Housing Statements of Ownership and Location Issued	89,000	89,000
Number of Licenses Issued	4,435	4,435
E.1.2. Strategy: INSPECTIONS		
Output (Volume):		
Number of Routine Installation Inspections Conducted	8,000	8,000
Explanatory:		
Number of Installation Reports Received	20,000	20,000
E.1.3. Strategy: ENFORCEMENT		
Output (Volume):		
Number of Complaints Resolved	1,700	1,700
Efficiencies:		
Average Time for Complaint Resolution (Days)	180	180
Explanatory:		
Number of Jurisdictional Complaints Received	1,800	1,800

Summary and Explanation:

The Department is requesting that output measures associated with Strategy A.1.2, HOME PROGRAM – SINGLE FAMILY, be added as a key performance measure. The activity reflected under this measure is critical to the Department's ability to meet its other statutory targets, specifically requirements found under Rider 4. This activity is also vital to the Department's ability to serve rural Texas. (Note: As specified in the instructions for the Legislative Appropriations Request, performance targets are not being updated as these will be updated by the LBB.)

2	VII-4-5	**Capital Budget.** None of the funds appropriated above may be expended for capital budget items except as listed below. The amounts shown below shall be expended only for the purposes shown and are not available for expenditure for other purposes. Amounts appropriated above and identified in this provision as appropriations either for "Lease Payments to the Master Lease Purchase Program" or for items with an "(MLPP)" notation shall be expended only for the purpose of making lease-purchase payments to Government Code 1232.103. Upon approval from the Legislative Budget Board, capital budgeted funds listed below under "Acquisition of Information Resource Technologies" may be used to lease information resources hardware and/or software versus the purchase of information resources hardware and/or software, if determined by agency management to be in the best interest of the State of Texas.

(a) Acquisition of Information Resource Technologies	2008 ~~2006~~	2009 ~~2007~~
(1) Normal Growth/Integrate Systems	$200,000	$190,000
	~~$140,000~~	~~$210,000~~
(2) MH Systems Upgrade	$175,000	$175,000
~~Peoplesoft 8.8 Implementation~~	~~$400,000~~	~~$200,000~~
~~(3) Community Services/Energy Assistance Contract System~~	~~$100,000~~	~~$100,000~~
~~(4) Section 8 System~~	~~$65,000~~	
Total, Acquisition of Information Resource Technologies	$375,000	$365,000
	~~$705,000~~	~~$705,000~~
	$355,000	$365,000
TOTAL Capital Budget	~~$705,000~~	~~$510,000~~
Method of Financing (Capital Budget):	2008 ~~2006~~	2009 ~~2007~~
Community Affairs Federal Fund No. 127	$55,998	$71,382
	~~$407,000~~	~~$263,000~~
Appropriated Receipts	$319,002	$293,618
	~~$298,000~~	~~$247,000~~
TOTAL Method of Financing:	$375,000	$365,000
	~~$705,000~~	~~$510,000~~

4	VII-5	**Housing Assistance.** The department ~~housing finance division~~ shall adopt an annual goal to apply no less than $30,000,000 of the department's ~~divisions'~~ total housing funds toward housing assistance for individuals and families earning less than 30 percent of median ~~in which the annual~~ family income. ~~does not exceed the following amounts based on the number of persons in the family~~: ~~Number of Persons in the family — Maximum annual income~~ ~~1 person — $13,000~~ ~~2 persons — $16,000~~ ~~3 persons — $17,500~~ ~~4 persons — $19,000~~ ~~5 persons — $21,000~~ ~~For each additional person, add $1,500~~. No less than 20 percent of the department's ~~division's~~ total housing funds shall be spent for individuals and families earning between 31 percent and 60 percent of median family income. In those counties where the median family income is lower than the state average median family income, the department shall use the average state median income in interpreting this rider. The department shall provide an annual ~~quarterly~~ report to the Legislative Budget Board documenting its expenditures in each income category. *Explanation:* *The Department requests this change to reflect more accurately its current structure and to allow for more effective and efficient reporting in a manner consistent with the goal of the rider. The current language of the rider reflects Department divisions no longer in place. By referencing the "department's total housing funds," the language avoids this problem and subjects all housing funds administered by the Department to meet this goal. The goal of the rider is to ensure that the Department's housing funds are targeted to those most in need. However, the actual reporting requirements in the current rider language are inconsistent with federal and state requirements and are difficult to provide with accuracy. Federal and state housing programs require TDHCA to target and report on households served based on median family income. Actual income figures are not known until a year or two after the funds have been distributed. The Department requests permission to replace the fixed income guidelines with the lowest income category reported for federal and state housing programs, i.e., up to 30% of area median family income or extremely low income. In addition to allowing for efficient reporting consistent with other reporting requirements, this provides income levels consistent with current economic conditions. The U.S. Department of Housing and Urban Development adjusts area median family income baselines annually to reflect updated local economic conditions. The Department also requests that this information be reported annually since many of the Department's funding cycles are annual; quarterly reporting provides limited additional information.*

~~8~~	~~VII-6~~	~~**Rider 8, Limitation on Expenditure.** Under Strategy A.1.5, Federal Tax Credits, no funds shall be used for processing or approving applications for allocations unless the department adopts or amends administrative rules containing the following:~~ ~~a. All representations made by an applicant for an allocation are enforceable by the department, including enforcement by administrative penalties for failure to perform as stated in the representations and enforcement by inclusion in deed restrictions to which the department is a party.~~ ~~b. The department will require inspections of all construction for quality during the construction process while defects can reasonably be corrected.~~ ~~c. A general contractor hired by an applicant or an applicant, if the applicant serves as general contractor, must demonstrate a history of constructing similar types of housing without the use of federal tax credits.~~ ~~d. The department shall give notice of a proposed project to the state representative and senator representing the area where a project would be located. The state representative or senator may hold a community meeting at which the department shall provide appropriate representation.~~ ~~e. The department shall allocate credits among as many different entities as practicable without diminishing the quality of the housing that is built.~~ *Explanation:* *The Department requests that the language be deleted as the required rules have been adopted and the subject matter is now included in Chapter 2306, Subchapter DD, of the Government Code.*
9	VII-6	**Appropriations Limited to Revenue Collections.** It is the intent of the Legislature that fees, fines, and other miscellaneous revenues as authorized and generated by the agency cover, at a minimum, the cost of the appropriations made above for the strategy items in Goal E, Manufactured Housing, the cost of the appropriations required for manufactured housing consumer claims payments according to the Occupations Code § 1201, Manufactured Housing Standards Act, as well as the "other direct and indirect costs" associated with this goal, appropriated elsewhere in this Act. "Other direct and indirect costs" for Goal E, Manufactured Housing, are estimated to be $914,539 for fiscal year ~~2006~~ 2008 and $978,830 for fiscal year ~~2007~~ 2009. In the event that actual and/or projected revenue collections are insufficient to offset the costs identified by this provision, the Legislative Budget Board may direct that the Comptroller of Public Accounts reduce the appropriation authority provided above to be within the amount of revenue expected to be available. *Explanation* *The years have been updated to reflect the 2008-09 biennium.*

11	VII-6	**Conversions of Executory Contracts.** Out of the funds appropriated above, the department shall spend not less than $4,000,000 for the biennium for the sole purpose of contract for deed conversions for families that reside in a colonia and earn 60 percent or less of the applicable area median family income. It is the intent of the Legislature that the department complete at least 100 ~~400~~ contract for deed conversions by August 31, 2009 ~~2007.~~ *Explanation* *The Department requests reducing the number of contract for deed conversions required under this rider from 400 to 100 since 400 cannot be accomplished with $4 million as each conversion has cost approximately $15,000 plus the cost of rehabilitating each home. The use of federal HOME funds for the conversions requires the homes to be rehabilitated to meet federal housing standards and thereby increases the cost of each conversion to approximately $55,000.*
12	VII-6	~~**Colonia Annual Assessment.** The department shall collect information on the demand for contract for deed conversion, self-help housing, consumer education, and other colonia resident services in counties within 150 miles of the Texas-Mexico border. The department shall include the assessment of colonias needs in its annual state low income housing plan and report listing policy goals for its colonia programs, the strategies to meet the goals, and the expected outcomes~~ *Explanation:* *The Department requests that this rider be deleted as this assessment is duplicative of the biennial action plan that is required to be part of the State Low Income Housing Plan pursuant to §2306.0721(c)(12).*
15	VII-7	**Appropriation: Housing Trust Fund Interest Earnings and Loan Repayments.** Interest earnings and loan repayments received from loans made through the Housing Trust Fund program from amounts appropriated out of the General Revenue Fund for Strategy A.1.1., Housing Trust Fund, estimated to be $900,000 ~~$600,000~~ each year. *Explanation* *Figure updated to reflect current estimate.*

16	VII-7	~~**Unexpended Balances, Grants, and Contracts.** Unexpended general revenue balances remaining in Strategy A.1.1, Housing Trust Fund, General Appropriations Act, Seventy-eighth Legislature, as of August 31, 2005, are included above in Strategy A.1.3, Housing Trust Fund - Single Family, for the fiscal year beginning September 1, 2005 (estimated to be $3,500,000).~~ *Explanation* *The Department requests the deletion of this rider since balance transfers made in accordance with Rider 19 have eliminated General Revenue unexpended balances for the Housing Trust Fund.*
17	VII-7	~~**Emergency Nutrition and Temporary Relief Program (ENTERP).** Out of the amounts appropriated above, $342,860 in fiscal year 2004 and $350,160 in fiscal year 2005 in Federal Funds shall be used for the Emergency Nutrition and Temporary Relief Program (ENTERP) to provide relief to needy low-income Texans if allowed under federal regulations.~~ *Explanation* *The Department requests that this language be deleted since the amount authorized to be spent in federal funds cannot be effectively split among all 254 counties as required by state law. The rider is also not necessary as the federal funds available for this purpose are already being used to provide emergency assistance as required by federal law.*
18	VII-7	**Manufactured Homeowner Consumer Claims.** Included above in Goal E, Manufactured Housing, the Manufactured Housing Division of the Department of Housing and Community Affairs is appropriated **receipts in** an amount, not to exceed $300,000 ~~$100,000~~ per year for the biennium, required for the purpose of paying manufactured housing consumer claims according to the Occupations Code, Chapter ~~§~~ 1201, Manufactured Housing Standards Act, from Statement of Ownership and Location (SOL) issuance fees involving manufactured housing collected and deposited in the General Revenue Fund during the 2008-2009 ~~2006-07~~ biennium. *Explanation* *The Department requests the revision to effect the following:* *1) Increase the amount yearly available for consumer claims to $300,000 (in addition to surety bond recoveries). This funding level is believed appropriate in light of recent experience with licensees that have committed acts and omissions subject to reimbursement for the Manufactured Homeowners' Recovery Trust Fund substantially in excess of their surety bonds.* *2) Change the Method of Finance from General Revenue to Appropriated Receipts. This is consistent with changes made to the strategies under Goal E during the 79th Legislature, which shifted funding away from General Revenue.* *3) Correct the statutory citation.*

Agency Code: 332	Agency Name: Texas Department of Housing and Community Affairs	Prepared By: Elena Peinado	Date: August 25, 2006	Request Level: Exceptional Item

Current Rider Number	Page Number in 2006–07 GAA	Proposed Rider Language
701	VII	**Affordable Housing and Information Research.** All fees received by the Texas Department of Housing and Community Affairs from the Bond Review Board pursuant to Section 1372.006(a), Texas Government Code, are included above in Strategy B.1.1, Provide Information/Technical Assistance, and shall be used to establish and implement the affordable housing research and information program provided for in Section 2306.259, Texas Government Code. *Explanation* *The Department requests this new rider to implement requirements of Sections 1372.006(a) and 2306.259, Texas Government Code. This will result in an increase of approximately $344,000 for each year of the biennium under Strategy B.1.1. Funding associated with rider is requested in Exceptional Item 1.*

TDHCA Exceptional Item Request 2008-2009	
Item Name:	**Restoration of $688,000 in General Revenue to Implement Affordable Housing Research and Information Program**
Item Priority:	**1**

Exceptional Item Description and Justification

TDHCA seeks restoration of $688,000 in General Revenue over the biennium to implement the affordable housing research and information program established in §2306.259, Tex. Gov't Code Ann. Through these funds, TDHCA would contract for:

- periodic market studies to determine the need for housing for families of extremely low, very low, and low income in census tracts throughout the state;
- research from qualified professionals to determine the effect of affordable housing developments on property values, social conditions, and quality of life in surrounding neighborhoods;
- independent research in affordable housing design and development approaches that enhance community acceptance of affordable housing and improve the quality of life for the residents of the housing; and,
- public education and outreach efforts to assist the public in understanding the nature and purpose of affordable housing and the process for public participation in the administration of affordable housing programs.

Senate Bill 1664, 78th Regular Session, authorized the program and increased Bond Review Board application fees for issuers of qualified residential rental project bonds from $500 to $5,000, requiring that $4,000 of each fee be transferred to TDHCA for the program. Because the Appropriations Bill failed to contain an appropriating rider for SB 1664, the mandate remained unfunded. The General Revenue requested is commensurate to the projected fees that would be transferred in 2008-2009 in accordance with SB 1664. TDHCA is also requesting a new rider appropriating these fees.

External/ Internal Factors Impacting Exceptional Item

Implementation of the program would provide TDHCA valuable, independent data regarding housing needs. Such data could provide important insights for future funding and policy decisions, especially with respect to multifamily housing developments. The need for this exceptional item is affected by the following:

- **Lack of independent market studies.** Applicants for TDHCA funds provide market studies to establish the need for affordable housing in the proposed location. Independent market studies would provide TDHCA additional objective data with which to make funding decisions. In response to public comment regarding this, TDHCA has funded one local market study. However, because of the funding limitations, the scope of this study was very restricted. More recently, TDHCA has received public comment requesting statewide market studies.
- **Lack of Texas-based studies.** The public perception of affordable housing is often affected by assumptions regarding the impact of affordable housing on neighborhoods. However, there are few studies available to refute or substantiate these assumptions and even fewer using Texas communities as their models. This vacuum must be filled in order to develop informed public policy.
- **Limited resources.** While TDHCA has made attempts to undertake &/or fund affordable housing research, limited resources prevent TDHCA from undertaking the broad studies required under the program and needed to make better funding decisions.

TDHCA Exceptional Item Request 2008-2009	
Item Name:	**Restoration of $218,000 in General Revenue to Leverage Federal Continuum of Care Funds for Rural Texas.**
Item Priority:	2

Exceptional Item Description and Justification

This item seeks restoration of $218,000 in General Revenue over the biennium to provide technical assistance to rural homeless coalitions representing 182 of the state's 254 counties. This would support the coalitions' efforts to access approximately $12 million in annual federal Continuum of Care funds. The HUD Continuum of Care (CoC) Program provides competitive funding for homeless services and housing. Each year HUD determines the pro rata share of these funds for each county in the State. Because of the complexity of these applications, many areas of Texas, primarily rural areas, have historically not applied for CoC funds. As a result, every year the state forfeits approximately $12 million in CoC funds earmarked for rural Texas. In 2006, the Texas Interagency Council for the Homeless (TICH) was able to fund technical assistance/planning activities to help unserved communities apply for this funding. If the current application is successful, communities will still have to re-apply for funds in future years. It will be tremendously challenging for communities to administer their projects and reapply for funds. Technical assistance will be needed to ensure continued funding. However, the funding source used to fund this in 2006 will not be available in 2008-2009; therefore $218,000 is requested to help support this effort. Funding would be allocated under Strategy 03-01-01.

External/ Internal Factors Impacting Strategy or Exceptional Item.

- Homeless needs in rural communities: An estimated 12,926 homeless individuals and families that are either not currently being served or are critically under-served in communities to be served by the Balance of State Continuum of Care application, reflecting large deficiencies of supportive housing services in rural areas. As a result, those in need of homeless services in these communities, such as victims of domestic violence, must often travel far distances to receive assistance.

- Lack of capacity in rural communities: In order to apply/re-qualify for CoC funding, rural coalitions must conduct homeless counts/surveys; compile a housing and services inventory; identify the housing gaps; and develop homeless discharge planning strategies for their area. Unfortunately, the rural coalitions in general lack the organizational staff, financial resources, and expertise needed to undertake these tasks effectively while also implementing their homeless projects.

- Lack of alternative funding source: The federal Projects for Assistance in Transitions from Homeless (PATH) grant, administered by the Texas Department of State Health Services, provided the bulk of the funding used to provide technical assistance, planning, and coordination for the 2006 Balance of the State CoC application. This funding source is not likely to be available for the 2008-2009 biennium. TDHCA does not currently have another appropriate funding source available.

TDHCA Exceptional Item Request 2008-2009	
Item Name:	**System Benefit Fund**
Item Priority:	**3**

Exceptional Item Description and Justification

The Department is requesting $5 million for each year of the biennium to fund the low income energy efficiency component of the System Benefit Fund (SBF). TDHCA would leverage these funds with federal Weatherization Assistance for Low Income Persons (WAFLIP) and Low Income Home Energy Assistance Program (LIHEAP) funds to serve eligible households not currently or adequately served through existing programs. TDHCA will retain 5% of each year's funds to offset state administration. The remaining 95% will be provided to subrecipients for programmatic and administrative costs. Using historical SBF averages, the additional $5 million in SBF funds would enable the Department to weatherize approximately 2,500 units and provide other energy conservation measures. The funding allows TDHCA to reach lower income households than typically served through the Weatherization Assistance Program (WAP) in deregulated areas of the state by combining SBF and WAP funds. The U.S. Department of Energy (DOE) estimates the national average for energy savings for weatherized homes to be $358 annually; these measures also provide households a healthier environment. SBF supports the Department's Goal 3, to improve the living conditions for the poor and homeless and reduce the cost of home energy for very low income Texans, and the state's Priority Goal 3, to provide public assistance through an efficient and effective system that promotes health, responsibility and self-sufficiency of individuals and families.

Internal/External Factors Impacting Strategy

DOE WAP funds often cannot serve many lower income households because of federal limits on expenditures. DOE regulations limit funds used for weatherization to a maximum of $2,826 per unit. SBF funds are vital in order to perform energy conservation activities costing greater than $2,826. (WAP provides energy conservation measures for eligible very low income households. These measures provide for a healthier environment for the family served and help reduce the family's energy cost burden. The program prioritizes populations most vulnerable to extreme weather conditions such as elderly persons 60 years of age and older, persons with disabilities, and households with young children under 6 years of age. High residential energy users and households with high energy cost burdens are also prioritized. The Department will only provide energy conservation measures to a home if the measures will be effective and provide the consumer anticipated savings in utility costs that are at least equal to the cost of the measures. Anticipated savings are calculated based on the life of the measures.)

The SBF was not funded during the 78th and 79th Legislature due to revenue shortfalls, limiting the Department's ability to reach homes not serviceable through WAP alone. In the current climate of ever increasing electric costs, the need to provide more energy conversation measures and weatherize more houses continues to grow.

SINGLE FAMILY FINANCE PRODUCTION DIVISION

BOARD ACTION REQUEST
AUGUST 30, 2006

Action Items

Request approval of the 2006 Single Family HOME Investment Partnerships Program (HOME) Award Recommendations in the amount of $24,031,280.

Required Action

Approve or approve with amendments the 2006 Single Family HOME Investment Partnerships Program Award Recommendations.

Background and Recommendations

Summary

In accordance with the 2006 HOME Program rules and with TDHCA Board approval, a biennial funding cycle was conducted for the 2006/2007 Single Family HOME Program application competition. Approximately $23.3 million was made available in program year 2006 funds. Eligible applicants included: units of general local government, public housing authorities, and nonprofit organizations. A total of 183 Single Family HOME applications were received for funding for the following Activities: Homebuyer Assistance (HBA), Owner Occupied Housing Assistance (OCC) and Tenant Based Rental Assistance (TBRA). Of the 183 applications submitted, five were disqualified, due to Applicant proposing to serve a Participating Jurisdiction (PJ) or non-compliance regarding audit submission. 35 Applicants did not meet the applicable activity's scoring threshold, predominately due to poor past performance, low, or no match proposed, low AHN score, and incomplete or missing documents, all of which are integrated in the scoring criteria. Funding for the American Dream Downpayment Initiative ($672,413) was combined with funding for the Homebuyer Assistance activity. Applicants requesting HBA, OCC or TBRA funds competed within their Service Region and Area Type. Listed below is a summary of the total number of applications received, the dollar amount requested and the dollar amount being recommended for program year 2006 funds for Single Family HOME Activities. Program year 2007 funding is anticipated to be received from the U.S. Department of Housing and Urban Development in Spring 2007. At that time, additional funding recommendations based on score will be made to the TDHCA Board from the application list presented today. The 2007 application recommendations will be re-reviewed for eligibility and will be consistent with the 2005-2009 State of Texas Consolidated Plan, the 2007 One Year Action Plan, and the 2007 State of Texas Low Income Housing Plan.

Breakdown of 2006/2007 HOME Applications

Activity	Total Project Funds Requested	Total Administrative Funds Requested	Number of Applications Received
HBA	$5,213,600	$208,544	22 Applications
OCC	$39,362,050	$1,574,482	148 Applications
TBRA	$2,753,078	$110,123	13 Applications
Total	**$47,328,728**	**$1,893,149**	**183 Applications**

Activity	Total Project Funds Recommended	Total Administrative Funds Recommended	Number of Applications Recommended
HBA	$3,178,600	$127,144	13 Applications
OCC	$19,438,600	$777,544	72 Applications
TBRA	$1,414,080	$56,563	6 Applications
Total	**$24,031,280**	**$961,251**	**91 Applications**

Funding Recommendation Methodology
Single Family HOME rules allow for the application of three different types of activities – HBA, OCC and TBRA. Recommendations are being made based on the highest scoring applicants. Award amounts may not exceed $275,000 plus 4% for administrative funds per activity, per Applicant with the exception of Homebuyer Assistance applicants whose service area includes multiple counties within a Uniform State Service Region. These applicants were eligible to apply for up to $500,000 plus 4% for administrative funds.

Compliance with the Regional Allocation Formula was maintained as a priority throughout the scoring process in the preparation of the funding recommendations for all activities. Applicants were allowed to apply for funding either in an Urban/Exurban or Rural Area Type per Uniform State Service Region. Funds were awarded by score regionally, first by activity, then by Urban/Exurban or Rural Area Type. In regions where an insufficient number of applicants existed under an activity, recommendations are being made to fund applicants in the same region for the activity in that region with the most eligible applications.

In accordance with Section 2306.111 of the Government Code, the Department may allocate no less than ninety-five percent (95%) of the HOME Program funds to applicants that serve households in a non-participating jurisdiction (non-PJ). Although HOME Program funds under this five percent (5%) set aside may be used to serve households in participating jurisdictions (PJs), the Consolidated Plan states that no Single Family activity funds can be funded in a PJ. In accordance with the 2006 HOME Program rules, applicants applying for the OCC and TBRA activities were required to propose targeting at least 5% of the number of units proposed to persons who meet the definition of Persons with Disabilities.

Additional Considerations
The State HOME rules include a minimum threshold score requirement for the respective activity (HBA, OCC, TBRA) to be considered eligible for a funding recommendation. This requirement equates to 55 points for the HBA activity, 65 points for the OCC activity and 56 points for the TBRA activity. Applicants that did not pass the minimum score requirement were not eligible for recommendations for either funding year. Before scoring begins for each application cycle, applicants are reviewed for eligibility requirements. If an Applicant does not meet these requirements, the Applicant is disqualified and receives a score of zero.

In nine of the Uniform State Service Regions, partial funds remained within a region and funding was not sufficient within the region to fully fund the next eligible applicant's request with 2006 funds. In four of the Uniform State Service Regions, an excess amount of funds remained after all eligible applicants were funded. The excess funds totaled $3,238,596. In regions where partial funds remained and funding was not sufficient within the region to fully fund the next eligible applicant's request, a portion of the excess funds were used to fully fund these applicants. According to Section 53.59(b)(4) of the HOME Program rules, "if sufficient applications are not received in a region, any remaining funds will be redirected to the region with the highest number of qualified applicants". Since Region 4 has the highest number of qualified applicants, this would result in the total amount of excess funds being awarded in a single region. Staff is requesting the Board waive 10 TAC 53.59(b)(4) of the HOME Program Rules in order to more closely follow the Regional Allocation Formula and evenly distribute the HOME funds across the state and to fully fund projects in regions where partial balances would otherwise remain.

In some of the Uniform State Service Regions, tie scores occurred. According to Section 53.59(c)(4) of the HOME Rules, funds will be recommended based on the applicant with the highest need factor (affordable housing need score). In four regions, tie scores existed and the affordable housing need score was the same for each applicant. Therefore, we are also proposing that each of the tied applicants be funded with excess 2006 funds. However to fully fund all tied score applicants, an additional $686,326 is being requested to be used from HOME Program deobligated funds in accordance with 4 e) of the Department's deobligation policy which states: Other projects/uses as determined by the Executive Director and/or Board including the next year's funding cycle for each respective program.

Applications recommended for funding were submitted to the Portfolio Management and Compliance Division for review and approval and entry into the Developer Evaluation System.

Attached is the:
- *Uniform State Service Regions Map*
- *List of recommendations by region*
- *2006 HOME Funding Plan*
- *Funding Recommendation Spreadsheets*

Recommendation
Staff recommends the Board waive 10 TAC 53.59(b)(4) as described above and requests approval to use \$686,326 in HOME Program deobligated funds to fully fund the 2006 Single Family HOME Program Award Recommendations. The attached list of funding recommendations and regional spreadsheets represent 91 awards totaling \$24,031,280. Staff also recommends and requests approval of 4% administrative funds for all applicants based on the amount of project dollars recommended totaling \$961,251. These administrative funds do not come from the HOME project dollars, but rather from the Department's HOME administrative funds. These awards are contingent upon any unresolved audit findings or questioned or disallowed costs being resolved. Staff requests permission that in the event that an applicant declines funds or cannot resolve issues identified within six months of Board award, that the next eligible applicant per the scoring method described above receive an award.

060027
Parkway Ranch

REAL ESTATE ANALYSIS

BOARD ACTION REQUEST

AUGUST 30, 2006

Action Items

Presentation, discussion and possible decision regarding the Applicant's appeal of underwriting for a 2006 HTC application.

Required Action

Approve, deny or approve with amendments a determination on the appeal.

Background

060027 Parkway Ranch

On August 9, 2006 the Applicant submitted an appeal requesting that the Department now consider increasing the credit amount above the $1.2 million per Development limit. The rule regarding this issue is embodied in Title 10 Section 50.6(6)(d) of the Texas Administration Code (part of the QAP). The maximum limit per Development is $1.2 million and the original July 10, 2006 underwriting recommendation is firmly grounded in the Department's rules.

Recommendation

Staff recommends the Board deny the appeal.

Appeal

TEXAS DEPARTMENT OF HOUSING AND COMMUNITY AFFAIRS

REAL ESTATE ANALYSIS

Housing Tax Credit Program – 2006 Application Cycle
Addendum to Underwriting Report Notice

Appeal Election Form: 060027 Parkway Ranch   Date Notice Sent: 8/7/06

I am in receipt of my 2006 Underwriting report notice and have reviewed the Appeal Policy at 10TAC Section 50.17(b). I recognize that should I choose to file an appeal, I must file a formal appeal to the Executive Director within seven days from the date this Notice was issued and the Underwriting report was posted to the Department's web site.
Given my appeal options I: (check all that apply)

- [x] Do wish to appeal to the Executive Director and will submit my complete appeal within seven days or forfeit my right to appeal the Underwriting Criteria or recommended award amount.

- [ ] Do wish to have my appeal added to the August 30, 2006 Board of Directors' meeting agenda if my **initial** appeal to the Executive Director is denied or not responded to prior to August 21, 2006. I understand that my Board appeal documentation must still be submitted by 5:00 p.m., August 21, 2006 to be placed on the August 30, 2006 Board book. I understand that if no documentation is submitted, the appeal documentation submitted to the Executive Director will be utilized.

- [ ] Do **not** wish to appeal to the Board of Directors or Executive Director.

Signed [signature]

Jennifer, you indicated in your e-mail to Cynthia Bast on Aug. 9 "Should we determine that we will not award more than $1.2 M, and your client wishes to appeal the underwriting report, the applicant will have an opportunity to submit a more formal appeal relating to the issue due to these extenuating circumstances." Do you know of any other reason that the Applicant would have to appeal other than the $1.2M limit?

Thanks,

Carl (Sam) Hoover

That is helpful. Do I need to specify which applications I am representing for purposes of perfecting the appeal?

Cynthia,

If Kevin's already responded, I apologize for the repeat here. We are looking into the issue, but we don't anticipate having an answer until Friday (and possibly later). I have confirmed with Kevin that your e-mails w/ attachments serve as meeting the 7-day deadline to submit an appeal to the ED. Should we determine that we will not award more than $1.2 M, and your client wishes to appeal the underwriting report, the applicant will have an opportunity to submit a more formal appeal relating to the issue due to these extenuating circumstances. Thank you for your patience during this very hectic time.

Please let me know if you have any questions,

Jen Joyce

Please respond as to whether we need to file appeals for our clients as to credit amounts posted on the Web with the new underwriting reports. I don't want to compromise any client's rights, so I want to make sure I proceed correctly. Thank you.

Executive Director's Response

TEXAS DEPARTMENT OF HOUSING AND COMMUNITY AFFAIRS

www.tdhca.state.tx.us

August 17, 2006

Mr. W. Barry Kahn
Parkway Ranch, Ltd.
5325 Katy Freeway, Suite One
Houston, TX 77007
Telephone: (713) 871-1916

Re: Appeal Received for Parkway Ranch – 060027

Dear Mr. Kahn:

Appeal Review

I have reviewed the application you submitted, as well as your appeal that was received on August 9, 2006 regarding the underwriting recommendation of the above-referenced application.

Your appeal asks that the Department now consider increasing the credit amount above the $1.2 million per Development limit. The rule regarding this issue is embodied in Title 10 Section 50.6(6)(d) of the Texas Administration Code (part of the QAP).

In order to apply the Department's rules and guidelines evenly, fairly, and as originally intended, your appeal is being denied. The appeal is being denied based on the maximum limit per Development being $1.2 million and that the original July 10, 2006 underwriting recommendation is firmly grounded in the Department's rules.

Appeal Determination

The appeal is denied.

If you have questions or comments, please call (512) 475-3340.

Sincerely,

Brooke Boston for

Michael Gerber
Executive Director

TEXAS DEPARTMENT of HOUSING and COMMUNITY AFFAIRS

HTC	$1,200,000	N/A	N/A	N/A

Proposed Use of Funds:	New construction	**Type:**	Single-family rental
Target Population:	Family	**Other:**	Urban/Exurban

RECOMMENDATION

☒ RECOMMEND APPROVAL OF A HOUSING TAX CREDIT ALLOCATION NOT TO EXCEED $1,200,000[1] ANNUALLY FOR TEN YEARS, SUBJECT TO CONDITIONS.

CONDITIONS

Should the terms and rates of the proposed debt or syndication change, the transaction should be re-evaluated and an adjustment to the credit amount may be warranted.

ADDENDUM

The underwriting analysis has been revised to reflect the July 28, 2006 TDHCA Board approval to raise the underwriting applicable percentage rates for the 2006 Application Round to 3.69% and 8.46% for the 30% and the 70% credit, respectively.

As stated in the Underwriting Report dated July 10, 2006, the Applicant's development cost schedule will be used to determine the development's need for permanent funds and to calculate eligible basis. An eligible basis of $13,970,344 and the revised underwriting applicable percentage rate support annual tax credits of $1,467,867. This figure will be compared to the tax credits calculated based on the gap in need for permanent funds to determine the recommended allocation. The Applicant's request will not limit the tax credits recommended as the requested allocation was most likely based on an understated applicable percentage rate.

The Applicant's total development cost estimate less the permanent loan of $3,900,000 indicates the need for $11,786,601 in gap funds. Based on the submitted syndication terms, a tax credit allocation of $1,296,527 annually would be required to fill this gap in financing. Of the three possible tax credit allocations, the gap-driven amount ($1,296,527), the adjusted eligible basis-derived estimate ($1,467,867), and the maximum allowable allocation ($1,200,000), the maximum allowable allocation of $1,200,000 is recommended.

The Underwriter's recommended financing structure indicates the need for $877,521 in additional permanent funds. Deferred developer fees in this amount do not appear to be repayable from development cashflow within ten years of stabilized operation, but appear to be repayable within 15 years.

The syndication rate proposed in the commitment is below the current credit prices. If the final syndication rate were to increase by more than seven cents per dollar of tax credit, an excess of funds would exist, all else held constant, and a reduction in recommended tax credits would be required based on the gap method of determining credits.

SUMMARY OF SALIENT RISKS AND ISSUES

- The recommended amount of deferred developer fee cannot be repaid within ten years, and any amount unpaid past ten years would be removed from eligible basis.

Underwriter:	Carl Hoover	**Date:**	August 4, 2006
Director of Real Estate Analysis:	Tom Gouris	**Date:**	August 4, 2006

[1] The recommended tax credit allocation incorporates the July 28, 2006 TDHCA Board approval to raise the underwriting applicable percentage rates for the 2006 Application Round to 3.69% and 8.46% for the 30% and the 70% credit, respectively.

RECOMMENDATION

☒ RECOMMEND APPROVAL OF A HOUSING TAX CREDIT ALLOCATION NOT TO EXCEED $1,200,000 ANNUALLY FOR TEN YEARS, SUBJECT TO CONDITIONS.

CONDITIONS

Should the terms and rates of the proposed debt or syndication change, the transaction should be re-evaluated and an adjustment to the credit amount may be warranted.

REVIEW of PREVIOUS UNDERWRITING REPORTS

No previous reports.

ARCHITECTURAL REVIEW

The building and unit plans are comparable to other modern single-family rental developments. They appear to provide acceptable access and storage. The elevations reflect attractive buildings.

STRUCTURAL MATERIALS

The structures will be constructed on a concrete slab. According to the plans provided in the application the exterior will be 1% masonry veneer, 99% cement fiber. The interior wall surfaces will be drywall and the roofs will be finished with composite shingles.

UNIT FEATURES

The interior flooring will be carpet and resilient covering. Threshold criteria for the 2006 QAP requires all development units to include: mini blinds or window coverings for all windows, a dishwasher, a disposal, a refrigerator, an oven/range, an exhaust/vent fax in bathrooms, and a ceiling fan in each living area and bedroom. New construction units must also include three networks: one for phone service, one for data service, and one for TV service. In addition, each unit will include: microwave, an ice maker in the refrigerator, laundry connections, a ceiling fixture in each room, an individual heating and air conditioning unit, individual water heater, and nine-foot ceilings.

ONSITE AMENITIES

In order to meet threshold criteria for total units of 100 or more, the Applicant has elected to provide an accessible walking path, a barbecue or picnic table for every 50 units, controlled access gates, a covered pavilion that includes barbecue grills and tables, an equipped business center or computer learning center, full perimeter fencing, a furnished community room, a swimming pool.

Uncovered Parking: 50 spaces **Carports:** 0 spaces **Garages:** 200 spaces

PROPOSAL and DEVELOPMENT PLAN DESCRIPTION

Description: Parkway Ranch is a 4.4-unit per acre new construction development located in northwest Houston. The development is comprised of 112 evenly distributed single family residential detached buildings each with four bedrooms.

The development includes a 1,996-square foot community building and a separate 595-square foot barbeque pavilion and mail building.

SITE ISSUES

SITE DESCRIPTION

Total Size:	25.71 acres	**Scattered sites?**	☐ Yes ☒ No
Flood Zone:	Zone X	**Within 100-year floodplain?**	☐ Yes ☒ No
Current Zoning:	No zoning in Houston	**Needs to be re-zoned?**	☐ Yes ☒ No ☐ N/A

SITE and NEIGHBORHOOD CHARACTERISTICS

Location: The subject site is located on the east side of the 10,000 block of West Montgomery Road, north of West Gulfbank, in Harris County, Texas. The property is actually located just outside the Houston city limits.

Adjacent Land Uses:

- **North:** vacant land immediately adjacent and single-family residential beyond;
- **South:** single-family residential immediately adjacent and vacant land beyond;
- **East:** Rosslyn Road immediately adjacent and vacant land beyond; and
- **West:** West Montgomery Road immediately adjacent and single-family residential beyond.

Site Access: Access to the property is from the southeast or northwest along West Montgomery Road. The development is to have one main entry. Access to Interstate Highway 45 is less than one mile east which provides connections to all other major roads serving the greater Houston area.

Public Transportation: The availability of public transportation was not identified in the application materials.

Shopping & Services: "Shopping is convenient to the subject property with Greenspoint Mall (a regional mall – within two miles), and neighborhood shopping and strip centers near the subject property (located along nearby thoroughfares such a Veterans Memorial Boulevard and Interstate Highway 45." (p. 25)

TDHCA SITE INSPECTION

Comments:

HIGHLIGHTS of SOILS & HAZARDOUS MATERIALS REPORT(S)

A Phase I Environmental Site Assessment report dated January 5, 2006 was prepared by Phase Engineering, Inc. and contained the following findings and recommendations:

Findings:

- **Noise:** A noise study was completed for the subject site. Based on the noise study, the subject site lies within an area of acceptable noise tolerance. The site met the following three objectives:
    - The automobile noise level is below 55 decibels.
    - The aircraft noise level is below 62 decibels.
    - No railways are located within 3000 yards of the subject site. (p.18)
- **Floodplain:** The FEMA, Harris County, Flood Insurance Rate **Map No. 48201C0465K** shows that the subject site lies in Zone X. Zone X is defined as: Areas determined to be outside the 500 year flood plain; areas of minimal flooding.
- **Asbestos-Containing Materials (ACM):** Was not addressed since the subject is vacant land.
- **Lead-Based Paint (LBP):** Was not addressed since the subject is vacant land.
- **Lead in Drinking Water:** "Potable water service is provided to the subject site by a Harris County Municipal Utility District (MUD)." (p. 14)
- **Radon:** "The U.S. EPA and the U.S. Geological Survey evaluated the radon potential in the U.S. and developed a map to assist National, State and local organizations to target their resources and to assist building code officials in deciding whether radon-resistant features are applicable in new construction. The map assigns each of the 3,141 counties in the U.S. to one of three zones based on

radon potential. Each zone designation reflects the average short-term radon measurement that can be expected to be measured in a building without the implementation of radon control methods. The radon zone designation of the highest priority is Zone 1. The subject site area has been designated to Zone 3 - Low Potential (less than 2 pCilL). No specific testing for radon would be necessary for the subject site." (p. 18)

Recommendations: "This assessment has revealed no evidence of recognized environmental conditions in connection with the property." (p. 22)

INCOME SET-ASIDE

The Applicant has elected the 40% at 60% or less of area median gross income (AMGI) set-aside.
One hundred and seven of the units (96% of the total) will be reserved for low-income tenants. Four of the units (4%) will be reserved for households earning 30% or less of AMI, 86 units (77%) will be reserved for households earning 50% or less of AMI, 19 units (17%) will be reserved for households earning 60% or less of AMI, and the remaining five units will be offered at market rents.

MAXIMUM ELIGIBLE INCOMES						
	1 Person	**2 Persons**	**3 Persons**	**4 Persons**	**5 Persons**	**6 Persons**
60% of AMI	$25,620	$29,280	$32,940	$36,600	$39,540	$42,480

MARKET HIGHLIGHTS

A market feasibility study dated February 28, 2006 was prepared by Patrick O'Connor & Associates, L.P. ("Market Analyst") and included the following findings:

Secondary Market Information: A secondary market was not identified in the Market Study.

Definition of Primary Market Area (PMA): "The primary market area lies within zip codes 77038, 77086 and 77088, and is delineated by Beltway 8 on the north, Little York Road to the south, Interstate 45 to the east, and North Houston Rosslyn Road and Blacksmith Road to the west." (p. 25) This area encompasses approximately 28 square miles and is equivalent to a circle with a radius of three miles.

Population: The estimated 2005 population of the PMA was 98,287 and is expected to increase by 7.25% to approximately 105,414 by 2010. Within the primary market area there were estimated to be 30,194 households in 2005.

Total Market Demand: The Market Analyst utilized a target household adjustment rate of 100% (p. 67) and a household size-appropriate adjustment rate of 34.99% (p. 67). The Analyst's income band of $18,206 to $42,280 (p. 63) results in an income-renter eligible adjustment rate of 16.36% (p. 67). The tenure appropriate adjustment rate is specific to the income-eligible population (p. 67). The Market Analyst indicates a turnover rate of 60% applies based on reports from apartment property managers in the subject's neighborhood. (p. 66) In addition, the market analyst calculated 64 units of demand for Section 8 housing. (p. 65)

MARKET DEMAND SUMMARY				
	Market Analyst		Underwriter	
Type of Demand	**Units of Demand**	**% of Total Demand**	**Units of Demand**	**% of Total Demand**
Household Growth	20	1.78%	21	2%
Resident Turnover	1,057	94.32%	1,013	95%
Other Sources: Section 8	64	5.68%	27	3%
TOTAL DEMAND	**1,121**	**100%**	**1,062**	**100%**

p. 65-69

Inclusive Capture Rate: The Market Analyst calculated an inclusive capture rate of 19.54% based upon 1,121 units of demand and 219 unstabilized affordable housing in the PMA (including the subject and TDHCA #05021 Waterside Court with 112 units) (p. 68) The Underwriter calculated an inclusive capture rate of 20.6% based upon a revised demand estimate for 1,062 affordable units.

Unit Mix Conclusion: "Analysis of the current Harris County housing development trends, particularly multifamily development, show that the market is pumping out an abundant supply of one and two-bedroom housing units in response to estimated and projected increase of smaller households. However, the market's response to meet the needs of smaller households has created a void in meeting the needs of large households, this enhancing the issue of overcrowding." (p. 11)

Market Rent Comparables: The Market Analyst surveyed five comparable apartment projects totaling 914 units in the market area. (p. 46)

RENT ANALYSIS (net tenant-paid rents)					
Unit Type (% AMI)	**Proposed**	**Program Max**	**Differential**	**Est. Market**	**Differential**
4-Bedroom (30%) 1,429 sq. ft.	$365	$365	$0	$1,155	-$790
4-Bedroom (50%) 1.429 sq. ft.	$719	$719	$0	$1,155	-$436
4-Bedroom (60%) 1.429 sq. ft.	$896	$896	$0	$1,155	-$259
4-Bedroom (MR) 1.429 sq. ft.	$950	N/A	N/A	$1,155	-$205
4-Bedroom (50%) 1,445 sq. ft.	$719	$719	$0	$1,110	-$391
4-Bedroom (60%) 1,445 sq. ft.	$896	$896	$0	$1,110	-$214
4-Bedroom (MR) 1,445 sq. ft.	$950	N/A	N/A	$1,110	-$160

(NOTE: Differentials are amount of difference between proposed rents and program limits and average market rents, e.g., proposed rent =$500, program max =$600, differential = -$100)

Primary Market Occupancy Rates: "The average occupancy for apartments in the subject's primary market area was reported at 90.81% in the most recent O'Connor & Associated Apartment Database survey (December 2005)." (p. 40)

Absorption Projections: "Given the uniqueness of the subject property, the healthy occupancies in the PMA, and lack of proposed product, the subject should be able to reach a stabilized occupancy level within 12 months of completion." (p. 40) "The absorption rates of the newly-constructed project in the primary market area appear very favorable. Additionally, historical absorption for new projects in the area has been favorable." (p. 37)

Unstabilized, Under Construction, and Planned Development: "Based on our research, there are two affordable housing project currently proposed, under construction, approved for construction, or unstabilized in the subject's primary market. However, one is a Senior complex and not "like" to the subject. The only "like" project is Waterside Court, a 118-unit single-family HTC project with only four-bedroom units. 112 of Waterside Court's units are rent-restricted." (p. 68)

Other Information: The Department commissioned a market study for the Houston-Baytown-Sugar Land Metropolitan Statistical Area (MSA). The proposed development is located in the Inwood/Northwest submarket #14 within the Houston MSA. According to the Department's market study the overall demand for additional rental units in the entire Houston MSA at the 51% to 60% of area median income range is very low or negative. In this submarket for example there are six units of demand for four-bedroom units at the 30% income level; twelve units of demand for four-bedroom units at the 50% income level; and a negative 2 units of demand for four-bedroom units at the 60% income level (p. III-547). The Department's market study for the entire MSA does not incorporate demand from turnover as normally allowed in development specific market studies because in an overall study the demand from turnover returns to all of the units in the market area. A development specific market study identifies the demand from turnover as potential demand that can be attracted away from existing units and to the proposed development (and any other new developments that have not yet become fully occupied.)

The Underwriter requested additional information from the Market Analyst to explore these and other differences. In a follow-up analysis dated June 14, 2006 the Market Analyst indicated the following concerns with the study commissioned by the Department:

- [The Vogt Williams & Bowen study commissioned by the Department] "...Uses HISTA Data which is averages of averages, thereby decreasing confidence level of accuracy.
- Arbitrary use of replacement of 2.5% of "Functionally Obsolete" units perpetuates and exacerbates the problem of substandard housing. Without new/newly–renovated product within the submarket, the owners of the "functionally obsolete" complexes have no impetus to demolish or renovate.

- Vogt Williams methodology does not conform to the 2006 QAP.
- Vogt Williams study states that 21.4% of the population within the submarket is Rent-Overburdened, but does nothing to address this problem
- Vogt Williams study surveyed less than 45% of the complexes within the submarket
- Numerous minor error in project names, number of units, status (tax credit or market, or senior versus family) which diminish the confidence level in conclusions.
- The study showing negative demand at the 40% to 60% AMI level ranging from 164 to 188 units annually for the years 2006 to 2009 makes no intuitive sense. If there were negative demand, the existing HTC complexes would not be operating in the 90% to 100% occupancy level, for the most part."

Market Study Analysis/Conclusions: The Underwriter found the market study provided sufficient information on which to base a funding recommendation.

OPERATING PROFORMA ANALYSIS

Income: The Applicant's projected rents collected per unit were calculated by subtracting tenant-paid utility allowances as of April 1, 2006, maintained by Harris County Housing Authority, from the 2006 program gross rent limits. Tenants will be required to pay electric, natural gas, water, and sewer costs. The Applicant only proposed $10 per unit per month secondary income for application fees, late charges and cable income.

Expenses: The Applicant's total expense estimate of $4,699 per unit is within 2% of the Underwriter's database-derived estimate of $4,629 per unit for comparably-sized developments. The Applicant's budget shows several line item estimates, however, that deviate significantly when compared to the database averages, particularly general and administrative ($16.6K lower), payroll ($16.1K higher), water, sewer, and trash ($25K lower), property tax ($48.3K higher).

Conclusion: The Applicant's estimated income is consistent with the Underwriter's expectations, total operating expenses are within 5% of the database-derived estimate, and the Applicant's net operating income (NOI) estimate is within 5% of the Underwriter's estimate. Therefore, the Applicant's NOI should be used to evaluate debt service capacity.

Long-Term Feasibility: The underwriting 30-year proforma utilizes a 3% annual growth factor for income and a 4% annual growth factor for expenses in accordance with current TDHCA guidelines. As noted above, the Applicant's base year effective gross income, expense and net operating income were utilized resulting in a debt coverage ratio that remains above 1.10 and continued positive cash flow. Therefore, the development can be characterized as feasible for the long-term.

ACQUISITION VALUATION INFORMATION

ASSESSED VALUE

Land: (44.024) acres	$784,354	**Assessment for the Year of:**	2005
Prorated: 1 acre	$17,817	**Valuation by:**	Harris County Appraisal District
Prorated Value: 25.71 ac.	$458,075	**Tax Rate:**	2.55427

EVIDENCE of SITE or PROPERTY CONTROL

Type of Site Control:	Earnest money contract (44.024 acres) (to Hettig/Kahn Development Corp.)		
Contract Expiration:	8/4/2006	**Valid through Board Date?**	☒ Yes ☐ No
Acquisition Cost:	$1,739,236	**Other:**	Earnest Money: $35,000
Seller:	Bay Interests, LP	**Related to Development Team?**	☐ Yes ☒ No

CONSTRUCTION COST ESTIMATE EVALUATION

Acquisition Value: The site cost of $39,501 per acre or $9,068 per unit is assumed to be reasonable since the acquisition is an arm's-length transaction. A relocated party (Hettig/Kahn Development Corp.) is acquiring a larger 44.024 acre tract for $39,507 per acre and splitting off the subject's 25.71 acres at a prorata amount. An assignment of the portion of this contract was also provided.

Sitework Cost: The Applicant's claimed sitework costs of $7,400 per unit are within current Department guidelines. Therefore, further third party substantiation is not required.

Direct Construction Cost: The Applicant's direct construction cost estimate is $446,447 or 4.94% lower than the Underwriter's Marshall & Swift *Residential Cost Handbook*-derived estimate.

Interim Financing Fees: The Underwriter reduced the Applicant's eligible interim financing fees by $38,000 to bring the eligible interest expense down to one year of fully drawn interest expense. This results in an equivalent reduction to the Applicant's eligible basis estimate.

Fees: The Applicant's developer fee exceeds 15% of the Applicant's adjusted eligible basis by $5,681 and therefore the eligible portion of the Applicant's developer fee must be reduced by the same amount. The Applicant's fees for the contractor and developer were set at the maximums allowed by TDHCA guidelines, but with the reduction in eligible basis due to the misapplication of eligible basis discussed above the eligible basis portion of these fees now exceed the maximum by $43,681 and have been reduced by the same amount in order to recalculate the appropriate requested credit amount.

Conclusion: The Applicant's total development cost is within 5% of the Underwriter's estimate; therefore, the Applicant's cost schedule will be used to determine the development's need for permanent funds and to calculate eligible basis. An eligible basis of $13,970,344 supports annual tax credits of $1,417,550. This figure will be compared to the Applicant's request and the tax credits calculated based on the gap in need for permanent funds to determine the recommended allocation.

Documentation: ☐ Signed ☐ Term Sheet ☐ LOI ☐ Firm Commitment ☒ Conditional Commitment ☐ Application

Comments:

OTHER

Amount: $877,521 **Source:** Deferred Developer Fee

FINANCING STRUCTURE ANALYSIS

Interim to Permanent Financing: The permanent financing commitment is consistent with the terms reflected in the sources and uses of funds listed in the application.

HTC Syndication: The tax credit syndication commitment is consistent with the terms reflected in the sources and uses of funds listed in the application.

Deferred Developer's Fees: The Applicant's proposed deferred developer's fees of $877,521 amount to 48% of the total fees.

Financing Conclusions: The Applicant's total development cost estimate less the permanent loan of $3,900,000 indicates the need for $11,786,601 in gap funds. Based on the submitted syndication terms, a tax credit allocation of $1,296,527 annually would be required to fill this gap in financing. Of the three possible tax credit allocations, Applicant's request ($1,200,000), the gap-driven amount ($1,296,527), and eligible basis-derived estimate ($1463,426), the Applicant's request of $1,200,000 is recommended resulting in proceeds of $10,909,080 based on a syndication rate of 91%. The syndication rate proposed in the commitment is in the low end of of current credit prices. If the final syndication rate were to increase by seven cents per dollar of tax credit, an excess of funds would exist, all else held constant, and a reduction in recommended tax credits would be required based on the gap method of determining credits.

The Underwriter's recommended financing structure indicates the need for $877,521 in additional permanent funds. Deferred developer fees in this amount appear to be repayable from development cash flow in just over ten years of stabilized operation.

DEVELOPMENT TEAM

IDENTITIES of INTEREST

- The Applicant, Developer, General Contractor, and property manager are related entities. These are common relationships for HTC-funded developments.

APPLICANT'S/PRINCIPALS' FINANCIAL HIGHLIGHTS, BACKGROUND, and EXPERIENCE

Financial Highlights:

- The Applicant and General Partner are single-purpose entities created for the purpose of receiving assistance from TDHCA and therefore have no material financial statements.
- The 10% owner of the Developer, Hettig Asset Management Group VI, Inc., submitted an unaudited financial statement as of December 31, 2005 reporting total assets of $13.6K and consisting of $12.5 in cash, and $1.1K in other assets. Liabilities totaled a positive $1K in a tax payment carry forward, resulting in a net worth of $14.3K.
- The principals of the General Partner, Isaac Mathews, Barry Kahn, and John Hettig all submitted unaudited financial statements as of January 1, 2006 and are anticipated to be guarantors of the development.

Background & Experience: Multifamily Production Finance Staff have verified that the Department's experience requirements have been met and Portfolio Management and Compliance staff will ensure that the proposed owners have an acceptable record of previous participation.

SUMMARY OF SALIENT RISKS AND ISSUES

- The recommended amount of deferred developer fee cannot be repaid within ten years, and any amount unpaid past ten years would be removed from eligible basis.

Underwriter:	Carl Hoover	**Date:**	July 10, 2006
Director of Real Estate Analysis:	Tom Gouris	**Date:**	July 10, 2006

REAL ESTATE ANALYSIS

BOARD ACTION REQUEST

AUGUST 30, 2006

Action Items

Presentation, discussion and possible decision regarding the Applicant's appeal of underwriting for a 2006 HTC application.

Required Action

Approve, deny or approve with amendments a determination on the appeal.

Background

060058 Greenfair Park Apartments

On August 21, 2006 the Applicant submitted an appeal regarding the underwriting recommendation. The Applicant requests that the Underwriter's conclusion that the development is financially infeasible should be changed in favor of an alternative project structure that the Applicant has submitted and the Underwriter has reviewed. The revised structure contemplates shifting from a development that includes 100% public housing units to one that includes 32 of 120 units as public housing units restricted to households earning not more than 30% of the area median income. This change also requires the introduction of 34 units restricted to households earning not more than 40% of the area median income and 54 units restricted to households earning not more than 50% of the area median income whereas in the original application all units were to be restricted to the 30% level. This is a significant change in the transaction structure which is believed by staff to be beyond the ability of staff to accept as a deficiency clarification allowed under the QAP. Underwriting has reviewed the alternative structure and determined that it is feasible and a copy of this report is attached.

Recommendation

Staff recommends the Board deny the appeal.

RECOMMENDATION

☒ NOT RECOMMENDED DUE TO THE FOLLOWING:

CONDITIONS

- The Development is not financially feasible based upon this analysis and the Department's standards for repayment of deferred developer fee in less than 15 years.
- The proposed structure for 100% Public Housing does not allow the units to service debt and the anticipated balloon value is estimated to be over $8M or 80% of the current total cost and is unlikely to be supported.

SHOULD THE BOARD APPROVE THIS AWARD, THE BOARD MUST WAIVE ITS RULES FOR THE

ISSUES LISTED ABOVE OR ALLOW A REVISED UNIT MIX WHICH REDUCES THE NUMBER OF PHA UNITS AS PROPOSED BY THE APPLICANT AND SUCH AN AWARD SHOULD BE CONDITIONED UPON THE FOLLOWING:

1. Approval of a housing tax credit allocation not to exceed $941,446[1] annually for ten years without the change in Public Housing units or $952,434 annually if the reduced number of Public Housing units is approved by the Board.
2. Receipt, review, and acceptance of evidence that all Phase I Environmental Site Assessment and subsequent environmental investigation report recommendations have been carried out.
3. Receipt, review and acceptance of a letter from the equity provider certifying to the projected value of the property at the end of the 40-year permanent loan term.
4. Receipt, review and acceptance of a LIHTC opinion from a certified public accountant and an attorney, separately, indicating the proposed structure of the development meets the requirements of both HUD and the IRS with regards to combining public housing funds, structured with no payment of interest and principal until the termination of the affordability period, with housing tax credits for construction of a 100% public housing unit development.
5. Should the terms and rates of the proposed debt or syndication change, the transaction should be re-evaluated and an adjustment to the credit/allocation amount may be warranted.

REVIEW of PREVIOUS UNDERWRITING REPORTS

No previous reports.

ARCHITECTURAL REVIEW

The building and unit plans are comparable to other modern apartment developments. They appear to provide acceptable access and storage. The elevations reflect modest buildings.

STRUCTURAL MATERIALS

The structures will be constructed on a concrete slab. According to the plans provided in the application the exterior will be 60% masonry veneer, and 40% cement fiber. The interior wall surfaces will be drywall and the roofs will be finished with composite shingles.

UNIT FEATURES

The interior flooring will be 80% carpet, and 20% resilient covering. Threshold criteria for the 2006 QAP requires all development units to include: mini blinds or window coverings for all windows, a dishwasher, a disposal, a refrigerator, an oven/range, an exhaust/vent fax in bathrooms, and a ceiling fan in each living area and bedroom. New construction units must also include three networks: one for phone service, one for data service, and one for TV service. In addition, each unit will include: a microwave, a self-cleaning oven, a phone jack in each room, laundry connections, a ceiling fixture in each room, warm and cooled air, and nine-foot ceilings.

ONSITE AMENITIES

In order to meet threshold criteria for total units of 100 or more, the Applicant has elected to provide a community laundry room, a covered pavilion that includes barbecue grills and tables, an enclosed sun porch or covered community porch, an equipped business center or computer learning center, full perimeter fencing, a furnished community room, a library separate from the community room, and two children's playgrounds equipped for 5 to 12 year olds, two tot lots, or one of each.

Uncovered Parking: 248 spaces **Carports:** 0 spaces **Garages:** 0 spaces

[1] The recommended tax credit allocation incorporates the July 28, 2006 TDHCA Board approval to raise the underwriting applicable percentage rates for the 2006 Application Round to 3.69% and 8.46% for the 30% and the 70% credit, respectively.

PROPOSAL and DEVELOPMENT PLAN DESCRIPTION

Description: The subject, located in Lubbock, is currently developed with 120 units that were constructed in 1962. Due to the condition of the existing structures, demolition is planned to make way for replacement housing. The proposed 13 units per acre development will be comprised of 8 evenly distributed garden style residential buildings as follows:

No. of Buildings	No. of Floors	1BR	2BR	3BR
2	2	8	0	8
3	2	0	8	8
2	2	0	8	4
1	2	0	16	0

The Applicant proposes the construction of a 2,400 square foot combined community, office, laundry, and maintenance building.

Subsidies: The existing 120 units are considered public housing units. The proposed development will receive an operating subsidy provided through the Housing Authority of the City of Lubbock. The annual subsidy is estimated at $252,000 or approximately $2,100 per unit and will continue to be provided indefinitely as long as the development continues to develop, operate and maintain the project in accordance with all applicable public housing requirements.

Development Plan: The buildings are currently 28% occupied and will be demolished. The property condition assessment prepared by Wareing and Associates, Inc and dated March 8, 2006 indicates:

"Based on the information obtained as previously outlined in this report, the Subject Property structures and improvements are near or have exceeded their useful life. At this point, in WAI's opinion the Subject property should be either completely renovated/retrofitted or demolished and rebuilt. The buildings at the Subject Property are presumed to contain both friable and non-friable asbestos containing materials. Drainage to these materials has occurred throughout the complex. Regardless of which option is selected, removal of asbestos containing materials from the complex should be performed prior to any other renovations activities as is required by Federal and State regulation. Therefore, the cost associated with this activity does not affect the financial implications of the decision process.

Another factor is whether the buildings are capable of even being renovated effectively due to their construction. As previously outlined, the plumbing and electrical systems are considered either at the end of their useful life and/or do not meet current standards. In order to replace/retrofit these systems, the concrete block walls must be partially removed. Since these walls provide the structural support for the buildings, damage to the concrete block during removal may result in a reduction of the structural integrity of the structures. This is of particular concern on the first floor since these walls support the second floor and roof. A structural evaluation was not part of the scope of this report and the specific amount and location of concrete block removal was not evaluated.

With respect to the electrical system, some of the units have been upgraded by use of rigid metal conduit attached to the walls and ceilings. While this solution bas been functional in these units, this is not an acceptable solution for the entire complex. Even with the wiring in rigid metal conduit, the conduits will be exposed to tenants and subject to physical damage from tenant activities. This poses a significant health and safety risk to occupants as well as a liability to the Subject Property management.

Renewal and/or resurgence of the neighborhood in which the Subject Property is located has begun. This is evident by construction and new single-family residences to the northeast of the Subject Property and the recent construction of new apartments on the adjoining property to the northwest. From a market standpoint, should the apartment units be retrofitted; due to their age, construction and size of units, and the lack of amenities on the Subject Property, the apartment complex would still not be considered consistent with the emerging standard for the neighborhood.

From an operational cost standpoint, the apartment units are considered sub-standard, even if retrofitted. As previously discussed, due to the construction of the buildings, they are considered very energy inefficient. For a comparison, based on information provided by the Client, the R-value of the adjoining new apartment complex buildings was determined. According to the information, the R-value of the wall systems is on the order of 14 and the: R-value of the roof system is in excess of 25. This compares to approximately 7 and 1, respectively for the Subject Property buildings. Consequently, the energy cost associated with heat and cooling is on the order of 2 to over 3 times that of new construction.

Finally, from a cost standpoint, based on the results of the inspection, the cost to completely renovate the Subject Property buildings and site improvements is estimated to be on the order of $80.00 to $110.00 per square foot of floor area. Based on information obtained, the actual cost to build the adjoining apartment facility to the northwest was approximately 932.00 per square foot of floor area. Demolition of the Subject Property structures is estimated to be approximately $3.00 per square foot. This means that the Subject Property complex could be totally redeveloped for approximately $85.00 per square foot.

In conclusion, based on all of the information collected, it is WAI's opinion that the best option for the Subject Property is to demolish the current structures and redevelop the site with new multi-family apartments" (p.12).

Relocation Plan: According to the Applicant, "The relocation plan involves the clearance of units. Relocation housing will be decent, safe and sanitary with rents no higher than those permitted by the Uniform Relocation Assistance and Real Property Acquisition Policies Act (URA)...There are currently 34 residents living in the development comprising families. The proposed plan is to completely vacate the units that are scheduled for Demolition/Disposition. The residents in the affected units/buildings will be relocated to [vacant units in other developments or issued section 8 certificates or vouchers]. Our current plan is to utilize funds from the tax credit application budget of the Greenfair Park Apartments which will allocate $25,000 for relocation assistance at the subject development. The basic moving cost for this development is estimated at $750 per unit for a total of $25,500. This sum includes the following components: utility relocation costs; the cost of administering this relocation plan and providing assistance, counseling and education throughout the course of this development; and physical move of the residents' belongings."

SITE ISSUES

SITE DESCRIPTION

Total Size:	9.26 acres	**Scattered sites?**	☐ Yes ☒ No
Flood Zone:	Zone X	**Within 100-year floodplain?**	☐ Yes ☒ No
Current Zoning:	R-3	**Needs to be re-zoned?**	☐ Yes ☒ No ☐ N/A

SITE and NEIGHBORHOOD CHARACTERISTICS

Location: The site is located at 2807 Weber Drive, Lubbock, Lubbock County. Lubbock is approximately 327 miles northwest of downtown Dallas and 343 miles northeast of El Paso in Lubbock County.

Adjacent Land Uses:

- **North:** Parkview Meadows Villas Apartments immediately adjacent and residential uses beyond;
- **South:** Weber Drive immediately adjacent and Lusk Park, industrial uses, and vacant land beyond;
- **East:** MLK immediately adjacent and residential uses beyond; and
- **West:** Vacant land immediately adjacent and industrial uses beyond.

Site Access: According to the submitted Market Study, "The Apartment site is located within the major thoroughfares of Loop 289 to the north, U.S. Highway 82 or Pal-hay Drive to the south, Loop 289 to the east, and Interstate 27 to the west. Martin Luther King, Jr. Boulevard, Avenue A, Loop 289, and Interstate 27 serve the immediate area as the major north-south traffic corridors, while Parkway Drive, Idalou Road, Municipal Drive, and Loop 289 serve the immediate area as the major east-west traffic corridors. Loop 289, which encircles the City of Lubbock, is located approximately 1.5 miles east of the apartment site. Interstate 27, which is located approximately 1.3 miles west of the apartment site, provides direct access to Amarillo, 119 miles to the north."

Public Transportation: Public transportation to the area is provided by CitiBus and the nearest linkage is adjacent to the subject site.

Shopping & Services: The site is within short driving distance from major grocery/pharmacies, shopping centers, financial institutions, multi-purpose stores and a variety of other retail establishments, restaurants and recreation. Schools and major medical facilities in the immediate market area are less then 10-15 minutes away from the site.

TDHCA SITE INSPECTION

Inspector: Manufactured Housing Staff **Date:** 04/27/2006

Overall Assessment: ☐ Excellent ☒ Acceptable ☐ Questionable ☐ Poor ☐ Unacceptable

Comments:

HIGHLIGHTS of SOILS & HAZARDOUS MATERIALS REPORT(S)

A Phase I Environmental Site Assessment report dated March 8, 2006 was prepared by Wareing & Associated, Inc. and contained the following findings and recommendations:

Findings:

- **Noise:** Per a letter dated June 21, 2006 from Wareing & Associates, "The subject property is currently a multi-family apartment complex developed in the early 1960s. It is located in a mixed use area consisting of residential properties to the north and east and industrial property to the west and south. The industrial property consists primarily of a railroad terminal which has been present since long before the subject property was developed. As stated, the subject property will be re-developed with multi-family apartment complex similar to the current development. Use of the subject property will not change. Therefore, the noise impact to the subject property is considered to be the same as the existing development. If anything, due to improvements in construction techniques and details for new structures (i.e. use of double pane windows, we would anticipate the noise levels inside the new structures will be lower than those in the existing structures."
- **Floodplain:** "According to the Federal Emergency Management Agency, Flood Insurance Rate Map for *City of Lubbock, Texas, Lubbock County,* Panel 30 of 55, dated September 2, 1982, the Subject Property is beyond the limits of the 100-year and 500-year flood hazard zone" (p.9).
- **Asbestos-Containing Materials (ACM):** Per a letter dated June 21, 2006 from Wareing & Associates, "According to information obtained during the previous Phase-I ESA, asbestos testing was performed prior to demolition of similar structures located on the property north of the Subject Property. These structures were built at the same time as the existing Subject Property structures as part of a single development. It has been assumed that similar types of asbestos containing materials are present in the existing structures at the Subject Property. This material is required to be removed prior to demolition of the current structures. It is our understanding that this is a known issue and will be addressed in accordance with applicable regulation prior to the demolition process. Should any additional inspection and testing be necessary, this will be performed at that time."
- **Lead-Based Paint (LBP):** Per a letter dated June 21, 2006 from Wareing & Associates, "The issue of lead-based paint is similar to the asbestos materials issue. Since the current structures will be completely demolished, any lead-based paint present will be removed as part of the demolition process. Based on information obtained during the Phase-I ESA, the local housing authority has previously inspected the current structures for lead-based paint and can provide this information to contractors as necessary for the demolition process."
- **Lead in Drinking Water:** Per a letter dated June 21, 2006 from Wareing & Associates, "Testing for lead in the drinking water is not deemed necessary. The Subject Property is served by the City of Lubbock municipal water supply. Municipal water utilities are required to monitor their water supply for lead and have been for many years. In addition, the water utilities are required to comply with State drinking water standards. The only other potential source of lead in the drinking water is the plumbing system in the structures. As previously stated, all of these structures will be completely demolished, including removal of the plumbing system. The new structures will have a completely new plumbing system and therefore, lead in the drinking water is not considered to be a concern."
- **Radon:** Per a letter dated June 21, 2006 from Wareing & Associates, "According to U.S. EPA information, Lubbock County is a Zone 2 Radon Area, which has a moderate risk for indoor radon levels between 2 and 4 pCi/L. The EPA estimates the average indoor radon levels to be 1.3 pCi/L and recommends actions to be

taken to reduce radon levels should they exceed 4pCi/L and recommends actions be taken to reduce radon levels should they exceed 4 pCi/L. Radon is heavier than air and therefore, collects in the lowest portions of structures. Structures with basements are much more susceptible to accumulations of radon. None of the existing structures or the proposed new structures will have basements and consists of slab-on-grade constructions. In March of 2006, WAI performed radon testing in two recently completed apartment complexes in eastern New Mexico, also a Zone 2 Radon Area. The structures tested were of similar construction to those proposed to be constructed on the Subject Property. The results found the average indoor radon concentration to be from 1.0 to 1.2pCi/L, which is consistent with the EPA average. Based on all the information reviewed by WAI the risk of elevated radon levels at the Subject Property is considered to be low. For this reason, we do not believe testing for radon is warranted provided the proposed buildings are constructed as proposed."

Recommendations and Conclusions:

- "**Historical & Current Property Utilization:** Based on the historical information obtained and reviewed for this Assessment, historic and current utilization of the Subject Property appears to have been limited to the current multi-family apartment complex which was developed in the mid 1960s. Prior to this, the Subject Property remained a vacant tract of land. No environmentally significant and or recognized environmental conditions were identified on the Subject Property related to historic and/or current use. Adjoining property utilization appears to have been limited to the existing residential use to the northeast, north and northwest; and industrial use to the south and southwest. Adjoining property to the southwest has been utilized as a railroad terminal/yard for sometime prior to 1940. The adjoining property to the south has been utilized and/or occupied by a scrap metal recycling facility since the 1970s. Prior to this, this property was a vacant tract of land. No evidence was obtained which indicates that activities on the adjoining properties to the south and southwest have resulted in environmentally significant and/or recognized environmental concerns on the Subject Property.
- **Regulatory Records:** No environmentally significant concerns or conditions were identified on the Subject Property through the review of Federal, State, tribal, and local agency records performed for this Assessment. Various regulated facilities were identified in the vicinity of the Subject Property within the various database search radii. One upgradient adjoining facility was identified on the PST database. This facility corresponds to the scrap metal recycling facility to the south/southwest. Five LPST facilities and one MSW facility were identified in the vicinity of the Subject Property. Three of the LPST facilities are considered upgradient and the remainder considered sidegradient or downgradient of the Subject Property. The MSW facility is considered downgradient of the Subject Property. Based on the information obtained, the regulated facilities identified are not considered to pose a significant environmental threat or result in a recognized environmental condition to the Subject Property based on their current status and/or distance and direction from the Subject Property.
- **Site Inspection:** The Subject Property was observed to be improved with and utilized as a multi-family residential apartment complex. No environmentally significant and/or recognized environmental conditions were identified on the Subject Property during site inspections performed on March **71h** and **8th,** 2006. A small quantity of paint and paint related products were stored in a metal storage building. No evidence of disposal, significant spillage and/or leakage of these products was identified" (p.16).

Receipt, review, and acceptance of evidence that all Phase I Environmental Site Assessment and subsequent environmental investigation report recommendations have been carried out is a condition of this report.

INCOME SET-ASIDE

The Applicant has elected the 40% at 60% or less of area median gross income (AMGI) set-aside. One hundred and twenty of the units (100% of the total) will be reserved for low-income tenants earning 30% or less of AMI. Furthermore, all 120 units will be Public Housing Units.

MAXIMUM ELIGIBLE INCOMES						
	1 Person	**2 Persons**	**3 Persons**	**4 Persons**	**5 Persons**	**6 Persons**
30% of AMI	$10,200	$11,650	$13,100	$14,550	$15,700	$16,900

MARKET HIGHLIGHTS

A market feasibility study dated March 15, 2006 was prepared by Mark C. Temple & Associates ("Market Analyst") and included the following findings:

Secondary Market Information: "Due to the proximity and accessibility to Interstate 27 and Loop 289, it is viewed a secondary market area for the subject property does exist. The Secondary Market Area includes the surrounding High Plains Area. However, demand calculations are based on the primary market area for the purposes of this analysis" (p. II-3).

Definition of Primary Market Area (PMA): "The primary or defined market area for the Greenfair Park Apartments is considered the immediate Metro Lubbock Area and is described by the following farthest boundaries: North - Loop 289, South - Loop 289, East - Loop 289, and West - Loop 289" (p. II-1). This area encompasses approximately 48.37 square miles and is equivalent to a circle with a radius of 4 miles.

Population: The estimated 2005 population of The PMA was 86,999 and is expected to increase by 1.2% to approximately 88,043 by 2010. Within the primary market area there were estimated to be 33,302 households in 2005.

Total Market Demand: The Market Analyst elected not to utilize a household size-appropriate adjustment rate. The Analyst's income band of $8,983 to $15,700 (p. 1) results in an income eligible adjustment rate of 22.6% (p. IX-3). The tenure appropriate adjustment rate of 46% is specific to the target population (p. 26). The Market Analyst indicates a turnover rate of 65.7% applies based on 2005 IREM data (p. VII-35).

MARKET DEMAND SUMMARY				
	Market Analyst		Underwriter	
Type of Demand	Units of Demand	% of Total Demand	Units of Demand	% of Total Demand
Household Growth	19	0.8%	6	<1%
Resident Turnover	2,275	99.2%	1,601	>99%
TOTAL DEMAND	**2,293**	**100%**	**1,607**	**100%**

p. IX-4

Inclusive Capture Rate: The Market Analyst calculated an inclusive capture rate of 8.7% based upon 2,293 units of demand and 200 unstabilized affordable housing in the PMA (including the subject) (p. IX-4). The Underwriter calculated an inclusive capture rate of 10% based upon a revised supply of 155 unstabilized comparable affordable units divided by a revised demand estimate for 1,607 affordable units.

Unit Mix Conclusion: The subject is comprised of 16 or 13% one bedrooms, which would accommodate households having one or two persons, 56 or 47% two bedroom units, which would accommodate households having, two, or three persons, and 48 or 40% three bedroom units, which would accommodate up to a five person household. The Market Analyst does not comment on the appropriateness of the proposed unit mix based on current demand and occupancy levels.

Market Rent Comparables: The Market Analyst surveyed 8 comparable apartment projects totaling 1,638 units in the market area.

RENT ANALYSIS (net tenant-paid rents)					
Unit Type (% AMI)	Proposed	Program Max	Differential	Est. Market	Differential
1-Bedroom (30%/PH)	$181	$181	$0	$549	-$368
2-Bedroom (30%/PH)	$210	$210	$0	$541	-$331
3-Bedroom (30%/PH)	$236	$236	$0	$655	-$419

(NOTE: Differentials are amount of difference between proposed rents and program limits and average market rents, e.g., proposed rent =$500, program max =$600, differential = -$100)

Primary Market Occupancy Rates: "Occupancy levels for the market area are estimated to remain in the 91.6 percent range from 2006 through 2007" (p. X-I). There are 6 apartment projects totaling 636 housing units in the Lubbock Market Area that provide federal subsidies. Currently, all of the projects maintain a 100 percent occupancy level with waiting lists. The projects target the very low income residents (families and seniors) in the Lubbock Market Area" (p. XII-32-XII-33).

Absorption Projections: "Based upon current positive multi-family indicators and present absorption levels of 10 to 15 units per month, it is estimated that a 95+ percent occupancy level can be achieved in an 8 to 12 month time frame" (p. IX-5).

Unstabilized, Under Construction, and Planned Development: "In addition to the proposed apartment project, the sponsor has two new LIHTC apartment projects within the immediate market area. The Parkview Meadows Villas Apartments [TDHCA #03140] was approved for tax credits in 2003. Consisting of 112 one, two and three bedroom apartment units, the apartment project was completed in 2005. The apartment project achieved a rapid lease-up in less than a year and currently maintains 100 percent occupancy. Monthly rental absorption averaged 18 to 15 units" (p. VII-32). Because the subject units' rents will be restricted to be affordable to households at or below 30% of AMGI, only 18 of Parkview Meadows Villas' units are considered comparable in calculating the inclusive capture rate for the subject.

"The Stone Hollow Village Apartments [TDHCA #04057] is the second LIHTC apartment project developed by the sponsor. The apartment project consists of 144 one, two and three bedroom units. The apartment project is approximately 85 percent complete and has begun leasing activities in February of this year. Currently, 64 units are leased. Monthly absorption appears to be following similar trends experienced by the Park Meadows Villas Apartments" (p. VII-33). Because the subject units' rents will be restricted to be affordable to households at or below 30% of AMGI, only 17 of Stone Hollow's units are considered comparable in calculating the inclusive capture rate for the subject.

Hillcrest Manor Senior Community (TDHCA #060402) is also proposed as a new construction development utilizing 2006 tax credits and Mortgage Revenue Bond financing. However, Hillcrest Manor will exclusively target seniors, while the subject will target families. Therefore, Hillcrest Manor's units are not considered comparable and are not included in the calculation of the inclusive capture rate for the subject.

Market Impact: "The primary source for potential resident demand for the subject project will be derived from new household growth and turnover in existing older units. As demonstrated in Parts IV and V of the Market Study, positive employment, population, and household increases will continue to impact rental housing demand through the 2000. (IX -7)....The subject project will not affect the trends of other apartment projects in the surrounding Lubbock Market Area due to the subject project marketing towards the 30 percent income level resident" (p. XI-1).

Market Study Analysis/Conclusions: The Underwriter found the market study provided sufficient information on which to base a funding recommendation.

OPERATING PROFORMA ANALYSIS

Income: The Applicant's projected rents collected per unit were calculated by subtracting tenant-paid utility allowances as of July 2005, maintained by Lubbock Housing Authority, from the 2006 program gross rent limits. Tenants will be required to pay electric costs.

The Applicant did not include secondary income from normal operation of the development. The Underwriter also does not include secondary income from normal operation. The Applicant has included an operating subsidy provided by the Housing Authority of the City of Lubbock, estimated at $252,000. According to a letter dated February 15, 2006 and signed by the interim director of the Housing Authority, "...the actual subsidy amount will be determined based on actual data; the operating subsidy will be provided indefinitely and in return for the receipt of such assistance the Owner has agreed to develop, operate and maintain the project in accordance with all public housing requirements..." Follow-up correspondence from the Applicant indicates all the subject units will be characterized as public housing. The Underwriter adjusted the subsidy amount to reflect the minimum value needed for the development to break-even (NOI = $0).

The Applicant's vacancy and collection loss are in line with current TDHCA underwriting guideline of 7.5%. However, the Underwriter does not include a vacancy and collection loss estimate based on the greater affordability of public housing units to the low-income population likely contributing to a higher occupancy level. The Applicant's effective gross income is not within 5% of the Underwriter's estimate.

Expenses: The Applicant's total annual operating expense projection at $3,060 per unit is within 5% of the Underwriter's estimate of $3,099, derived from the TDHCA database and third-party data sources. Line item expenses that deviate from the Underwriter's estimates include the Applicant's management estimate which represents 5.2% of EGI.

Furthermore, the Applicant, owned by Lubbock Housing Authority, a Texas Non-profit Corporation, submitted a letter dated February 23, 2006 from Lubbock Central Appraisal District indicating that the subject property had been granted exemption from property taxes.

Conclusion: The Applicant's effective gross income and net operating income are not within 5% of the Underwriter's estimate; therefore the Underwriter's proforma is used to determine the development's debt capacity.

The Underwriter's analysis assumes the development will have no debt service based on the proposed restructure of financing. Therefore, a debt coverage ratio cannot be calculated.

Long-Term Feasibility: As stated above, the Applicant initially chose to structure the subject development as containing only public housing units, but with an annual debt service. However, the income from public housing units may not be used to pay debt service. Consequently, the debt used to finance the development cannot be amortized during the term in which the public housing units are in restriction. Furthermore, since the debt will accumulate interest for 40 years and accrue a value of over $8M based on the $900K "loan" from the Lubbock Housing Authority, a realistic determination that debt can be repaid at the end of the loan term cannot be made by the Underwriter.

In an effort to resolve this issue, the Applicant submitted a letter dated July 18, 2006, indicating their plans to obtain a 40-year Replacement Housing Factor loan from the Lubbock Housing Authority. The Applicant also indicates, "[the] Operating subsidy from HUD for the public housing units will not make any payments toward this note. However, the value of the property in Year 41 after the rent restrictions have expired will be an amount greater than the amount due on the note. The property may then be sold to pay the note. This is sufficient for the loan to qualify as "true debt" for the purposes of inclusion in eligible basis. This structure has been used in other mixed-finance projects across the country..." The RHF loan is discussed in more detail in the "Financing Structure Analysis" (below).

Once the debt is restructured the development will not be responsible for an annual debt service; instead, accrued interest and principal will be payable in full at the end of a 40-year term. The 30-year proforma utilizes a 3% annual growth factor for income excluding the public housing subsidy and a 4% annual growth factor for expenses excluding the management fee. The public housing subsidy was calculated to reflect the minimum amount necessary for the development to break-even. The management fee was calculated based on the initial year's management fee as a percentage of effective gross income.

As noted above, the Underwriter's base year effective gross income, expense and net operating income were utilized. A debt coverage ratio cannot be calculated and it is expected the development will operate at break-even. Due to the subsidy structure based on 100% of the units being characterized as public housing, the development can be characterized as feasible for the long term

ACQUISITION VALUATION INFORMATION

ASSESSED VALUE

Land: 9.26 acres	$21,949	**Assessment for the Year of:**	2006
Building:	$8,520,651	**Valuation by:**	Lubbock Central Appraisal District
Total Assessed Value:	$8,542,600	**Tax Rate:**	2.486363

EVIDENCE of SITE or PROPERTY CONTROL

Type of Site Control: Intent to transfer deed (9.26 acres)

Owner: Housing Authority of City of Lubbock **Related to Development Team?** ☒ Yes ☐ No

CONSTRUCTION COST ESTIMATE EVALUATION

Acquisition Value: The Applicant is not claiming any site acquisition costs As the current owner, the Housing Authority of the City of Lubbock, intends to transfer ownership to the Applicant at no cost.

Sitework Cost: The Applicant's claimed sitework costs of $5,964 per unit, exclusive of $750K in demolition costs, are within current Department guidelines. Therefore, further third party substantiation is not required.

Direct Construction Cost: The Applicant's direct construction cost estimate is $630K or 11% lower than the Underwriter's Marshall & Swift *Residential Cost Handbook*-derived estimate.

Contingency: The Applicant's eligible contingency costs were adjusted down by $37,500 to meet the Department guideline of 5% of eligible sitework and direct construction costs for new construction developments.

Fees: The Applicant's developer fee exceeds 15% of the Applicant's adjusted eligible basis by $104,945, and therefore, the eligible portion of the Applicant's developer fee must be reduced by the same amount. It should be noted, housing consultant fees are included in the submitted development cost schedule as an ineligible cost.

Conclusion: The Applicant's total development cost is within 5% of the Underwriter's estimate; therefore, the Applicant's cost schedule will be used to determine the development's need for permanent funds and to calculate eligible basis. An eligible basis of $8,560,157 and the higher applicable percentage rate approved by the TDHCA Board on July 28, 2006 support annual tax credits of $941,446. This figure will be compared to the Applicant's request and the tax credits calculated based on the gap in need for permanent funds to determine the recommended allocation. The Applicant's request will not limit the tax credits recommended as the requested allocation was most likely based on an understated applicable percentage rate.

FINANCING STRUCTURE ANALYSIS

Interim to Permanent Financing: The commitment letter signed by a representative of Chartermac Capital

Company is consistent with terms indicated in the Applicant's sources and uses.

Funding by Local Political Subdivision: Per a letter dated February 15, 2006 and signed by a representative of the Housing Authority of the City of Lubbock, the Applicant has assumed the development will receive Capital Grant Funds of $500,000 to be used specifically for the demolition of the existing buildings on the site. As grant funds these proceeds must be reduced from eligible basis and reduce the credit recommendation to avoid subsidy layering concerns.

In addition, the Applicant submitted a letter dated July 17, 2006 from the Housing Authority of the City of Lubbock stating a loan of up to $900,000 from the Housing Authority's Replacement Housing Factor Funds for a term of 40 years. The interest rate will be the greater of (a) 5.5% per annum or (b) the long-term applicable federal rate. All accrued interest and principal shall be paid from the borrower's cashflow with outstanding principal and interest due and payable in full on the maturity date. The Underwriter calculated the anticipated principal balance of maturity to be roughly $8M, which is 80% of the total current development cost. Moreover, if the $500K grant discussed above is converted to a similar balloon note to resolve the removal from eligible basis, this debt balance would be an additional $4.5M.

The Applicant believes "the fair market value of the Property on the maturity date will equal or exceed the outstanding interest and principal on the [loan] on the maturity date." According to a cover letter dated July 18, 2006 and signed by Aubrea Hance, Consultant to LHA Greenfair, LP, an analysis of the "backend value" was prepared by CharterMac Capital company, the proposed construction lender and equity provider. However, the spreadsheets provided are not labeled or signed. Moreover, the Underwriter believes the value of the property can not reasonably be believed to support this level of anticipated debt. Receipt, review and acceptance of a letter from the equity provider certifying to the projected value of the property at the end of the 40-year permanent loan term is a condition of this report.

An advice memorandum prepared by Michael H Reardon of Nixon Peabody LLP, Attorneys at Law, states, "HUD's mixed finance public housing program has been in use for over 10 years and there is now a great deal of experience in the financial community with the structuring issues presented by the mixed finance program, particularly with respect to the combining of public housing funds, including both HOPE VI funds and RHF [replacement housing factor] funds, and LIHTC. HUD issued regulations for the mixed finance program in 1996 and those regulations are located at 24 CFR part 941, subpart F...The basic structure involves the creation of a for-profit limited partnership which will own the development which generally include public housing units, which are also tax-credit units, non-public housing tax credit units, and sometimes market-rate units...on an all pubic housing project, the debt used to finance the development of the project cannot be amortized during the term of the public housing use restriction and the accruing interest on the debt makes it difficult for the tax attorneys to opine that it is a reasonable expectation that the debt can be repaid at the end of the loan term...over the years a number of PHA's have been able to structure all public housing and LIHTC transactions in such a manner as to overcome this problem. The way this has been done, generally, is to structure the RHF debt into two separate tranches. The developer and their financial consultants and tax accountants will determine how much of the RHF funds will be needed to be lent into the transaction at the AFR. This tranche will generally then be lent to the partnership by the PHA at the AFR. The remainder of the RHF funds that are needed to develop the project are then subgranted by the PHA to a nonprofit entity and the nonprofit entity then will lend the subgranted funds to the entity at a very low or zero interest rate...the terms [must be] very distinguishable. First, it must be clear that the nonprofit entity is not controlled by the PHA...All of these factors must be reviewed by the LIHTC accountants and the attorneys who will provide the LIHTC opinions." To staffs' knowledge, a structure like this with 100% Public Housing units has not previously been approved by the Department. Receipt, review and acceptance of a LIHTC opinion from a certified pubic accountant and an attorney, separately, indicating the proposed structure of the development meets the requirements of both HUD and the IRS with regards to combining public housing funds, structured with no payment of interest and principal until the termination of the affordability period, with housing tax credits for construction of a 100% public housing unit development is a condition of this report.

HTC Syndication: The revised tax credit syndication commitment is consistent with the terms reflected in the revised sources and uses of funds listed in the application.

Deferred Developer's Fees: The Applicant's revised proposed deferred developer's fees of $41,236 amount to

3% of the total fees.

Financing Conclusions: The Applicant's total development cost estimate less the permanent loan of $900,000 and $500,000 in Capital Grant Funds indicates the need for $9,272,236 in gap funds. Based on the revised submitted syndication terms, a tax credit allocation of $976,120 annually would be required to fill this gap in financing. Of the two possible tax credit allocations, the gap-driven amount ($976,120), and eligible basis-derived estimate ($941,446), at the higher applicable percentage rate approved by the TDHCA Board on July 28, 2006, the eligible basis-derived estimate of $941,446 would be recommended. The Underwriter's recommended financing structure indicates the need for $329,371 in additional permanent funds. Deferred developer fee in any amount are not repayable from development cashflow and stabilized operation. Therefore, the development must be characterized as infeasible and cannot be recommended for funding.

The syndication rate proposed in the commitment is consistent with current credit prices. If the final syndication rate were to increase by any amount, an excess of funds would exist, all else held constant, and a reduction in recommended tax credits would be required based on the gap method of determining credits.

Alternative Recommendation:

The Applicant submitted plans to restructure the current development to include 40% and 50% units, as of August 10, 2006. The submitted plans suggest the following unit mix: One hundred and twenty of the units (100% of the total) will be reserved for low-income tenants. Thirty-two of the units (27%) will be reserved for households earning 30% or less of AMI, 34 units (28%) will be reserved for households earning 40% or less of AMI, and 54 units (45%) will be reserved for households earning 50% or less of AMI. In addition, the units set-aside to be affordable at 30% of AMGI will also be characterized as public housing units.

Furthermore, proposed revisions for restructure include a decrease in the amount of requested tax credits, revised operating expenses, changes in the amount and terms of the permanent loan and syndication proceeds, the $500K in Capital Grant Funds structured as a loan, and an increase in the amount of developer fee. An Underwriting analysis based on the above-mentioned revisions result in the following alternative conclusions and recommendation:

The Applicant's total expenses and net operating expense are not within 5% of Underwriter's estimates; therefore, the Underwriter's proforma is used to determine the development's debt capacity. The proposed permanent financing structure results in an initial year's debt coverage ratio (DCR) of 1.24, which is within the Department's DCR guideline of 1.10 to 1.30.

The underwriting 30-year proforma utilizes a 3% annual growth factor for income and a 4% annual growth factor for expenses in accordance with current TDHCA guidelines. As noted above, the Underwriter's base year effective gross income, expense and net operating income were utilized resulting in a debt coverage ratio that remains above 1.10 and continued positive cashflow. Therefore, the alternatively structured development can be characterized as feasible for the long-term.

The Applicant's total development cost is within 5% of the Underwriter's estimate; therefore, the Applicant's cost schedule will be used to determine the development's need for permanent funds and to calculate eligible basis. An eligible basis of $9,060,157 and the higher applicable percentage rate approved by the TDHCA Board on July 28, 2006 support annual tax credits of $996,436. This figure will be compared to the Applicant's request and the tax credits calculated based on the gap in need for permanent funds to determine the recommended allocation. The Applicant's request will not limit the tax credits recommended as the requested allocation was most likely based on an understated applicable percentage rate.

The Applicant's total development cost estimate less the permanent loan of $1,125,000 indicates the need for $9,047,236 in gap funds. Based on the revised submitted syndication terms, a tax credit allocation of $952,434 annually would be required to fill this gap in financing. Of the two possible tax credit allocations, the gap-driven amount ($952,434), and eligible basis-derived estimate ($996,436), at the higher applicable percentage rate approved by the TDHCA Board on July 28, 2006, the gap-driven amount of $952,434 would be recommended. Under this revised financing structure there is no need for deferred developer fee.

DEVELOPMENT TEAM

IDENTITIES of INTEREST

- The Applicant, Developer, Housing Consultant and property manager are related entities. These are common relationships for HTC-funded developments.

APPLICANT'S/PRINCIPALS' FINANCIAL HIGHLIGHTS, BACKGROUND, and EXPERIENCE

Financial Highlights:

- The Applicant and General Partner are single-purpose entities created for the purpose of receiving assistance from TDHCA and therefore have no material financial statements.
- The Developer, LH Development, LP, submitted an unaudited financial statement as of December 31, 2005 reporting total assets of $252K and consisting of $241K in cash, $11K in receivables. Liabilities totaled $0, resulting in a net worth of $252K.
- The principals of the General Partner, Susan Hance Sorrells, Ron Hance, and Kent Hance, submitted unaudited financial statements as of December 31, 2005.

Background & Experience: Multifamily Production Finance Staff have verified that the Department's experience requirements have been met and Portfolio Management and Compliance staff will ensure that the proposed owners have an acceptable record of previous participation.

SUMMARY OF SALIENT RISKS AND ISSUES

- The Applicant's effective gross income is more than 5% outside of the Underwriter's verifiable range.
- Significant inconsistencies in the application could affect the financial feasibility of the development.
- Significant environmental/locational risks exist regarding asbestos and lead-based paint.
- The anticipated ad valorem property tax exemption may not be received or may be reduced, which could affect the financial feasibility of the development.
- The ongoing Federal Subsidy required to make this transaction financially feasible is subject to future funding appropriations by Congress.
- The significant financing structure changes being proposed have not been reviewed/accepted by the Applicant, lenders, and syndicators, and acceptable alternative structures may exist.

August 21, 2006

Mr. Michael Gerber
Executive Director
Texas Department of Housing and Community Affairs
221 West 11th Street
Austin, Texas 78701

Re: Greenfair Park in Lubbock, Texas (the "**Project**")
TDHCA No. 060058

Dear Mr. Gerber:

We represent the applicant for the above-referenced Project. Pursuant to an Underwriting Report dated August 18, 2006, TDHCA staff indicates that the Project, as contemplated in the initial application, is financially infeasible but that a proposed revision to the Project structure would allow the Project to be financially feasible in accordance with TDHCA rules.

By this letter, our client wishes to appeal the determination that the Project is financially infeasible and seek approval for a proposed restructure that would meet the financial feasibility requirements of the Department.

Background Information

Greenfair Park is a project of the Housing Authority of the City of Lubbock (the "**Housing Authority**"), with 120 public housing units. These units have fallen into disrepair and obsolescence to the point where only about 28% of the units are currently occupied. While HUD has temporarily continued to provide the Housing Authority with operating subsidy for the unoccupied units in Greenfair Park, that subsidy will be terminating next year. Consequently, the Housing Authority risks a significant financial diminution if Greenfair Park cannot be placed back into service.

HUD has encouraged the Housing Authority to demolish and rebuild Greenfair Park, and has made available Replacement Housing Factor ("**RHF**") funds for such purpose. Further, HUD has provided that, if the RHF funds can be leveraged with other programs, additional funding will be available for the Housing Authority.

With this incentive to leverage the RHF funds with other sources, the Housing Authority submitted its tax credit application for the construction of 120 new units, comprising the Project. Because the Housing Authority wanted to replace the public housing units as quickly as possible, it proposed that all 120 units in the Project be public housing units. Note that HUD does not require all of the demolished public housing units to be replaced in one transaction. The Housing Authority merely proposed doing so to serve its constituents as quickly as possible. In making this decision, the Housing Authority consulted with HUD and was advised that other transactions across the country had successfully combined tax credits with 100% public housing properties.

Since the Housing Authority planned to use all 120 units for public housing, it chose the lowest possible income level as a set-aside for its tax credit application. It indicated that all 120 units in the Project would serve residents at 30% AMI or lower. Note that the Housing Authority was not required to select this set-aside to meet TDHCA rules or even to achieve points under the QAP. It could have selected a different tenant income mix, up to 60%, and still have placed public housing tenants in those units.

During the underwriting process, the Housing Authority discovered that its proposal to have 120 public housing units in the Project would not work as planned. This is because operating subsidy received from HUD for public housing units cannot be utilized for debt service. If there were no debt on the Project, the eligible basis of the Project would be reduced, thus reducing the amount of tax credits to an insufficient value. Although HUD had advised the Housing Authority correctly that tax credits can be combined with 100% public housing units, the complex rules of the tax credit and public housing programs dictate that each transaction requires extensive structuring, and not every transaction combining tax credits with 100% public housing units can be structured successfully. This revelation prompted TDHCA staff to issue an underwriting deficiency notice, to which the applicant promptly responded.

In responding to the deficiency notice, the applicant consulted with nationally recognized tax credit counsel and accountants who have experience with other housing authorities that have leveraged tax credits with public housing units. Based upon this consultation, the applicant proposed two alternatives in its deficiency response: (1) the permanent debt could be included in eligible basis if the applicant could show that it could be repaid as a balloon, with the fair market value of the Project being greater than or equal to the outstanding loan balance at the time of maturity, or (2) the applicant could reduce the number of public housing units in the Project, thereby using income generated from the non-public housing units for permanent debt service.

Based on the Underwriting Report, it appears that TDHCA staff is not comfortable with the first proposal, because the staff believes the fair market value of the Project at the loan maturity would not be sufficient for a full repayment of the permanent debt. However, TDHCA staff indicates that a change in the number of public housing units does create a financially feasible structure.

Request

The applicant requests that the Department permit the Project to move forward with a tax credit commitment with the following revisions, generated through the underwriting deficiency process:

- Instead of 120 public housing units, the Project will have 32 public housing units.
- Instead of 120 of the units set-aside for tenants with incomes of 30% AMI, the Project will have 32 units at 30% AMI, 34 units at 40% AMI and 54 units at 50% AMI.

Points to Consider

- The proposed change does not affect the Project's scoring under the QAP.
- The proposed change will provide replacement public housing for the tenants currently residing in Greenfair Park.
- The Housing Authority is at risk of losing precious financial resources if it cannot leverage the RHF funds with tax credits for the reconstruction of Greenfair Park.

Conclusion

As described in the Underwriting Report, please approve a revised unit mix for the Project, which reduces the number of public housing units and allows the Project to be financially feasible under the Department's rules. Of course, if you need any additional information to do so, feel free to contact me.

If the Executive Director denies this appeal and request, the applicant requests to have it heard by the Board at the next available Board meeting. Thank you.

Sincerely,

Cynthia L. Bast

REAL ESTATE ANALYSIS

BOARD ACTION REQUEST

AUGUST 30, 2006

Action Items

Presentation, discussion and possible decision regarding the Applicant's appeal of underwriting for a 2006 HTC application.

Required Action

Approve, deny or approve with amendments a determination on the appeal.

Background

060133 Canyon's Landing

On August 14, 2006 the Applicant submitted a letter appealing the underwriting report's recommended amount of housing tax credits. Staff maintains that the 2006 Real Estate Analysis Rules and Guidelines were applied evenly, fairly, and as originally intended during the course of the underwriting analysis and in making the recommendation.

The Applicant's letter correctly indicates the amount of requested tax credits based on the applicable percentage increase to 8.46% approved by the TDHCA Board on July 28, 2006. The updated requested amount of $368,928 based on total development costs of $3,858,500 was considered during the underwriting process. The Applicant's letter states "Our total development budget of $3,858,000 submitted in our application was not revised in the Underwriting Analysis Report." However, page 7 of the underwriting report posted to the TDHCA website on August 7, 2006 states "[the] adjusted basis and the higher applicable percentage rate approved by the TDHCA Board on July 28, 2006 support annual tax credits of $368,928. This figure will be compared to the tax credits calculated based on the gap in need for permanent funds to determine the recommended allocation." In addition, page 10 of the underwriting report shows total development costs for the applicant to be $3,858,500.

The Applicant's letter indicates the "market feasibility supported our 60% rents to be marked down slightly to market from the HTC 2006 maximum rent limits for Atacosa County." However, the market study prepared by Novogradac & Company LLP submitted with the application states "the Subject's restricted rental rates will be below the achievable market rates for the PMA" (page 71). In addition, the market study states "...the Subject will likely not face any direct LIHTC competition for income qualified households" and "...the Subject will be in superior condition to most of the comparable market-rate properties in the PMA..." (pages 70 and 72). These statements from the market analyst support the use of the maximum 60% rents in the underwriting analysis.

Pursuant to REA Rules and Guidelines Section 1.32(d)(5)(A), "A 3% annual growth factor is utilized for income and a 4% annual growth factor is utilized for expenses." These projections were applied uniformly and consistently to all applications underwritten during the 2006 9% HTC application cycle.

The Applicant's letter states "Inflating our rents as well as our expenses to unrealistic levels resulted in our debt service coverage ratio being deemed too high during the latter period of the 30 year time frame. According to the Underwriting Report, this requires the use of the gap method reducing our level of tax credits allowed by our proposed development budget." The underwriting report recommends a credit amount based on the gap in funds by evaluating the initial year debt coverage ratio.

In summary, staff updated the requested tax credit amount to reflect the adjusted applicable percentage; staff relied on the submitted market study to estimate rental income; and staff applied uniform growth factors for income and expenses. Staff maintains that the 2006 Real Estate Analysis Rules and Guidelines were applied evenly, fairly, and as originally intended during the course of the underwriting analysis and in making the recommendation.

Recommendation

Staff recommends the Board deny the appeal.

Appeal

Re: Underwriting Criteria Appeal for Canyon's Landing 060133

Dear Pam:

Canyon's Landing is a 36 unit family development located in Poteet, Texas. Our total development budget of $3,858,000 submitted in our application was not revised in the Underwriting Analysis Report. Using the applicable percentage of 8.46% as approved by the board on July 28, 2006 equates to our requested tax credits of $368,928 versus the $340,771 recommended by underwriting report. We respectively disagree with the conclusion of the report and are seeking the additional tax credits of $28,157 for the following reasons.

Our application listed, and our market feasibility supported our 60% rents to be marked down slightly to market from the HTC 2006 maximum rent limits for Atascosa County. The HTC 60% maximum gross rent limits are $504, $604 and $699 versus our first year projected rents for the 60% units of $490, $570 and $675 for the one, two and three bedroom units respectively.

Our rents were not questioned until we were told that all of our operating expenses were required to grow at 4%, including property taxes. We estimated property taxes using the income approach as demonstrated in the Part D Operating Expenses Form. When we were mandated to increase all expenses by 4%, including property taxes, the underwriting analysts told us that our project was not feasible because we did not have the required debt service coverage ratio for the entire 30 year period. I mentioned that consistently growing property taxes 4% even when net operating income is falling is unrealistic but the analyst stated that he had no choice but to follow the rules. Only then were we told to raise our 60% rents to the maximum which would then make our project feasible.

8814 RUSTLING BREEZE · SAN ANTONIO, TEXAS · 78254
PHONE (210)684-0679 · FAX (210)521-7121

Inflating our rents as well as our expenses to unrealistic levels resulted in our debt service coverage ratio being deemed too high during the latter period of the 30 year time frame. According to the Underwriting Report this requires the use of the gap method reducing our level of tax credits allowed by our proposed development budget. We were struck by the irony that our budget using realistic assumptions was declared infeasible but the department's methodology of inflating revenues and expenses that are based solely on mandated mathematical formulas requiring us to incur additional debt, reduce our tax credit amount and put the project in greater danger of default is considered feasible.

It should be noted that projects of this size in rural areas face risks that are far above larger projects and projects in urban areas. Contributing to this risk will be the fact that Canyon's Landing will have the highest rents in the city and the highest in the county except for one project. This is outlined on page 29 of the Feasibility Report dated March 31, 2006.

I hope this clarifies our position for the tax credit allocation of $368,928 as derived from our development budget using the applicable percentage of 8.46%. If you need any additional information or have any questions please call me at (210)684-0679.

Sincerely

G. M. Driggers

Re: Appeal Received for Canyon's Landing – #060133

Dear Mr. Driggers:

Appeal Review

I have reviewed the application you submitted, as well as your appeal that was received on August 14, 2006 regarding the underwriting recommendation of the above-referenced application.

Your letter correctly indicates the amount of requested tax credits based on the applicable percentage increase to 8.46% approved by the TDHCA Board on July 28, 2006. The updated requested amount of $368,928 based on total development costs of $3,858,500 was considered during the underwriting process. The letter states "Our total development budget of $3,858,000 submitted in our application was not revised in the Underwriting Analysis Report." However, page 7 of the Underwriting report posted to the TDHCA website on August 7, 2006 states "[the] adjusted basis and the higher applicable percentage rate approved by the TDHCA Board on July 28, 2006 support annual tax credits of $368,928. This figure will be compared to the tax credits calculated based on the gap in need for permanent funds to determine the recommended allocation." In addition, page 10 of the Underwriting report shows total development costs for the applicant to be $3,858,500.

Your letter indicates the "market feasibility supported our 60% rents to be marked down slightly to market from the HTC 2006 maximum rent limits for Atacosa County." However, the market study prepared by Novogradac & Company LLP submitted with the application states "the Subject's restricted rental rates will be below the achievable market rates for the PMA" (page 71). In addition, the market study states "...the Subject will likely not face any direct LIHTC competition for income qualified households" and "...the Subject will be in superior condition to most of the comparable market-rate properties in the PMA..." (pages 70 and 72). These statements from the market analyst support the use of the maximum 60% rents in the underwriting analysis.

Pursuant to REA Rules and Guidelines Section 1.32(d)(5)(A), "A 3% annual growth factor is utilized for income and a 4% annual growth factor is utilized for expenses." These projections were applied uniformly and consistently to all applications underwritten during the 2006 9% HTC application cycle.

The letter states "Inflating our rents as well as our expenses to unrealistic levels resulted in our debt service coverage ratio being deemed too high during the latter period of the 30 year time frame. According to the Underwriting Report, this requires the use of the gap method reducing our level of tax credits allowed by our proposed development budget." The underwriting report recommends a credit amount based on the gap in funds by evaluating the initial year debt coverage ratio.

In summary, staff updated the requested tax credit amount to reflect the adjusted applicable percentage; staff relied on the submitted market study to estimate rental income; and staff applied uniform growth factors for income and expenses. The Department maintains that the 2006 Real Estate Analysis Rules and Guidelines were applied evenly, fairly, and as originally intended during the course of the underwriting analysis and in making the recommendation.

I have determined that the underwriting recommendation is firmly grounded in the Department's rules. Therefore, the appeal is denied.

Appeal Determination

The appeal is denied.

Pursuant to §50.17(b)(4) of the 2006 QAP, an appeal has been filed with the Board and will be considered by the Board at the August 30, 2006 Board meeting.

If you have questions or comments, please call (512) 475-3340.

Sincerely,

Brooke Boston for

Michael Gerber

RECOMMENDATION

☒ RECOMMEND APPROVAL OF A HOUSING TAX CREDIT ALLOCATION NOT TO EXCEED $340,771[1] ANNUALLY FOR TEN YEARS, SUBJECT TO CONDITIONS.

CONDITIONS

1. Receipt, review and acceptance of a letter, signed by the ESA provider, with reference to the need for a noise study, asbestos testing/abatement, lead-based paint testing/abatement, and testing of the drinking water for lead.
2. Should the terms and rates of the proposed debt or syndication change, the transaction should be re-

[1] The recommended tax credit allocation incorporates the July 28, 2006 TDHCA Board approval to raise the underwriting applicable percentage rates for the 2006 Application Round to 3.69% and 8.46% for the 30% and the 70% credit, respectively.

evaluated and an adjustment to the credit/allocation amount may be warranted.

REVIEW of PREVIOUS UNDERWRITING REPORTS

Although an application (TDHCA #05155) was submitted in the 2005 9% HTC round an underwriting report was not completed. The application score was not competitive.

DEVELOPMENT SPECIFICATIONS

IMPROVEMENTS

Total Units: 36 **# Res Bldgs** 9 **# Non-Res Bldgs** 1 **Age:** N/A yrs **Vacant:** N/A at / /

Net Rentable SF: 35,442 **Av Un SF:** 985 **Common Area SF:** 1000 **Gross Bldg SF:** 36,442

ARCHITECTURAL REVIEW

The building and unit plans are comparable to other modern apartment developments. They appear to provide acceptable access and storage. The elevations reflect modest buildings.

STRUCTURAL MATERIALS

The structures will be constructed on a concrete slab subfloor. According to the plans provided in the application the exterior will be 95% Masonry Veneer and 5% Stucco. The interior wall surfaces will be drywall and the roofs will be finished with composite shingles.

UNIT FEATURES

The interior flooring will be carpet and resilient covering. Threshold criteria for the 2006 QAP requires all development units to include: mini blinds or window coverings for all windows, a dishwasher, a disposal, a refrigerator, an oven/range, an exhaust/vent fax in bathrooms, and a ceiling fan in each living area and bedroom. New construction units must also include three networks: one for phone service, one for data service, and one for TV service. In addition, each unit will include: microwave, a self-cleaning oven, laundry connections, and a ceiling fixture in each room, individual water heater, and eight-foot ceilings.

ONSITE AMENITIES

In order to meet threshold criteria for total units of 25 or more, the Applicant has elected to provide barbecue grills and picnic tables- at least one for every 50 units, a community laundry room, and a furnished community room.

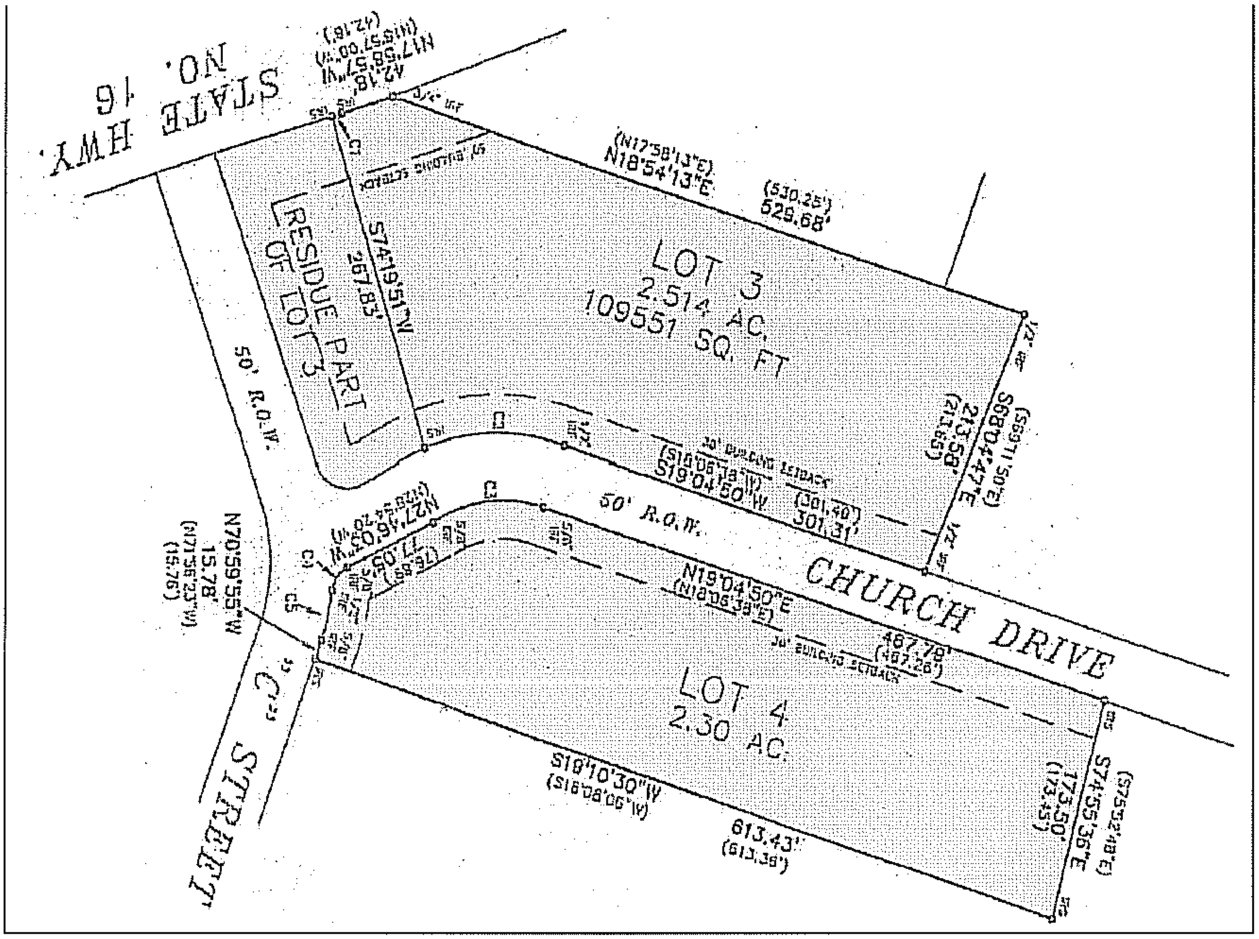
Uncovered Parking: 64 spaces **Carports:** 0 spaces **Garages:** 0 spaces

PROPOSAL and DEVELOPMENT PLAN DESCRIPTION

Description: Canyon's Landing is a 7.5 unit per acre new construction development located in Northwest Poteet. The development is comprised of 9 evenly distributed fourplex residential buildings as follows:

No. of Buildings	No. of Floors	1BR	2BR	3BR
2	1	4		
3	1			4
4	1		4	

The development includes a 1,000-square foot community building. The site is divided by Church Drive.



SITE ISSUES			
SITE DESCRIPTION			
Total Size:	4.82 acres	**Scattered sites?**	☐ Yes ☒ No
Flood Zone:	Zone X	**Within 100-year floodplain?**	☐ Yes ☒ No
Current Zoning:	Multi-family	**Needs to be re-zoned?**	☐ Yes ☒ No ☐ N/A

SITE and NEIGHBORHOOD CHARACTERISTICS

Location: The site is made of two rectangular shaped lots bisected by Church Drive and located on the West side of Poteet. The site is located on Church Drive near the intersection with Avenue C.

Adjacent Land Uses:

- **North:** Private Residences and a small Church immediately adjacent and additional residences beyond;
- **South:** vacant land immediately adjacent and a gas station beyond;
- **East:** vacant land immediately adjacent and beyond; and
- **West:** vacant land immediately adjacent and retail business and State Highway 16 beyond.

Site Access: Access to the site is via Church Drive and Avenue C. Approximately one-tenth of a mile east of the Subject is SR-16 and approximately five miles west is US Highway 281. According to the developer, the Subject site has also received a driveway permit from TxDot. Access and traffic flow to the Subject property are considered good.

Public Transportation: No public transportation services are currently offered in this community due to the rural nature of this area.

Shopping & Services: Pico Shamrock convenience store, Family Dollar, Super S Grocery Store, Crawford Pharmacy, City Park.

TDHCA SITE INSPECTION

Inspector: Office of Rural Community Affairs Staff **Date:** 04/24/2006

Overall Assessment: ☐ Excellent ☒ Acceptable ☐ Questionable ☐ Poor ☐ Unacceptable

Comments:

HIGHLIGHTS of SOILS & HAZARDOUS MATERIALS REPORT(S)

A Phase I Environmental Site Assessment report dated March 7, 2005 was prepared by EFI Global and contained the following findings and recommendations: (ESA can be older than 12/9/04. If older, the Applicant must provide an updated letter)

Findings:

- **Noise:** Not addressed in ESA report.
- **Floodplain:** EFI reviewed Federal Emergency Management Agency (FEMA) Flood Insurance Rate Maps for the City of Poteet, Atascosa County, Texas. According to Community Panel No. 48001C 0001 B dated November 3, 1989, the entire Subject Property is located in Zone X (areas determined to be outside the 500-year floodplain). A copy of the FEMA Flood Insurance Rate Map is presented as Figure 4.
- **Asbestos-Containing Materials (ACM):** Not addressed in ESA report.
- **Lead-Based Paint (LBP):** Not addressed in ESA report.
- **Lead in Drinking Water:** Not addressed in ESA report.
- **Radon:** Radon is an odorless, colorless gas produced from the radioactive decay of naturally occurring radium found in soils. The EPA has established a radon action level of 4.0 picoCuries per liter of air (pCi/L). According to the EPA map of radon zones, Atascosa County, Texas is located in Radon Zone 3 and is predicted to have an indoor radon screening level less than 2.0 pCi/L.
- **Recognized Environmental Concerns (RECs):** This assessment has revealed no recognized environmental concerns in connection with the subject property.

Recommendations: After performing this assessment, EFI has identified no evidence of recognized environmental conditions in connection with the Subject Property. EFI makes no recommendation for further assessment of the Subject Property at this time.

Although the site is vacant land, receipt, review and acceptance of a letter, signed by the ESA provider, with reference to the need for a noise study, asbestos testing/abatement, lead-based paint testing/abatement, and testing of the drinking water for lead in accordance with current TDHCA rules is a condition of this report.

INCOME SET-ASIDE

The Applicant has elected the 40% at 60% or less of area median gross income (AMGI) set-aside. All of the units (100% of the total) will be reserved for low-income tenants. Four of the units (11%) will be reserved for households earning 30% or less of AMI and the remaining 32 units (89%) will be reserved for households earning 60% or less of AMI.

MAXIMUM ELIGIBLE INCOMES						
	1 Person	**2 Persons**	**3 Persons**	**4 Persons**	**5 Persons**	**6 Persons**
60% of AMI	$18,840	$21,480	$24,180	$26,880	$29,040	$31,200

MARKET HIGHLIGHTS

A market feasibility study dated March 25, 2006 was prepared by Novogradac & Company LLP and included the following findings:

Secondary Market Information: "It should be noted that a secondary market was not included in our analysis due to the rural nature of the Subject's location. The closest MSA is San Antonio, which does not represent the Subject's targeted tenant base" (p. 11).

Definition of Primary Market Area (PMA): "For the purpose of this Study, the Subject's Primary Market Area (PMA) is defined as Atascosa County...This area was defined based on conversations with local property managers, city officials, natural physical barriers and overall similarities in market characteristics observed during the field investigation. It is assumed 100 percent of the income qualified demand for the Subject will be generated from within the PMA" (p. 11). This area encompasses approximately 1,252 square miles and is equivalent to a circle with a radius of 20 miles.

Population: The estimated 2005 general population was 41,899 and is expected to increase by 1.69% to approximately 45,061 by 2010. Within the primary market area there were estimated to be 13,833 households in 2005.

Total Market Demand: The Market Analyst does not utilize a household size-appropriate adjustment rate. The Analyst's income band of \$9,154 to \$29,040 (p. 75) results in an income eligible adjustment rate of 24.33% (p. 75). The tenure appropriate adjustment rate of 20.5% is specific to the general population (p. 74). The Market Analyst indicates a turnover rate of 18% applies based on comparable averages (p. 48).

MARKET DEMAND SUMMARY				
	Market Analyst		Underwriter	
Type of Demand	Units of Demand	% of Total Demand	Units of Demand	% of Total Demand
Household Growth	11	8%	13	8%
Resident Turnover	127	92%	151	92%
TOTAL DEMAND	**138**	**100%**	**164**	**100%**

p. 79

Inclusive Capture Rate: The Market Analyst calculated an inclusive capture rate of 26% based upon 138 units of demand and 36 unstabilized affordable housing in the PMA (including the subject) (p. 80). The Underwriter calculated an inclusive capture rate of 22% based upon a revised supply of 36 unstabilized comparable affordable units divided by a revised demand estimate for 164 affordable units.

Unit Mix Conclusion: "The Subject's one-, two- and three-bedroom unit sizes are above the overall market averages for similar unit types; The units range from seven to 13 percent above the market average. Thus, the Subject is at competitive advantage in terms of unit size, especially for two-bedroom units." (p. 48).

Market Rent Comparables: The Market Analyst surveyed 5 comparable apartment projects totaling 172 units in the market area. (p. 29).

RENT ANALYSIS (net tenant-paid rents)					
Unit Type (% AMI)	Proposed	Program Max	Differential	Est. Market	Differential
1-Bedroom (60%)	\$418	\$418	-\$0	\$500	-\$82
2-Bedroom (30%)	\$191	\$191	-\$0	\$575	-\$384
2-Bedroom (60%)	\$493	\$493	-\$0	\$575	-\$82
3-Bedroom (30%)	\$214	\$214	-\$0	\$675	-\$461
3-Bedroom (60%)	\$563	\$563	-\$0	\$675	-\$112

(NOTE: Differentials are amount of difference between proposed rents and program limits and average market rents, e.g., proposed rent =\$500, program max =\$600, differential = -\$100)

Primary Market Occupancy Rates: "Current occupancy rates reported in the market ranged from 89.3 to 100 percent, with an average occupancy rate of 94.8 percent. Compared to March 2005, the date Novogradac last surveyed these properties, the overall occupancy has decreased by 1.1 percent. This is not a significant decrease and demonstrates a consistently strong rental market in the PMA. Casitas De Merced, the only LIHTC development, reported an occupancy rate of 89.3 percent. It should be noted that the low occupancy rate of Casitas De Merced is due to the limited number of units offered. The occupancy rate is more sensitive to vacancies at this small property and as a result the occupancy rate is skewed towards the low end. In addition, the property manager at Casitas De Merced stated that two of the three vacant units are pre-leased and will be filled soon. We would anticipate the Subject will likely maintain a stabilized occupancy rate of than 95 percent or better after completion based on the very high occupancy rates in the area." (p. 49).

Absorption Projections: "None of the comparable properties surveyed were able to provide information on absorption based on the fact that this region has seen almost no new recent multifamily construction. The most recent multifamily construction is Pecan Grove, which recently (2005) added a total of nine one-bedroom units in its Phase II. All of the units were pre-leased before construction was completed and there is currently a waiting list of five households for these units. Thus, demand for good quality rental units appears strong. We conservatively estimate the Subject will reach stabilized occupancy of 95 percent within three months, or be absorbed at a rate of approximately 10 units per month." (p. 48).

Unstabilized, Under Construction, and Planned Development: The Underwriter identified one HTC development located in the PMA that may be characterized as unstabilized due to the allocation year. However, Lytle Apartments (TDHCA #05226) is a rehabilitation development with an existing tenant base. Therefore, Lytle Apartment would not have an effect on the inclusive capture rate of the subject units.

Market Impact: "The Subject intends to introduce 36 LIHTC units into the PMA. Four of these units would target households earning 30 percent AMI. The only comparable LIHTC property in the PMA, Casitas de Merced, does not offer units at 30 percent AMI. Casitas de Merced is currently reporting a vacancy rate of 10.7 percent. However, all three of the vacancies at this property are in units offered at 50 percent of AMI, which the Subject does not offer. The 60 percent AMI units, on the other hand, are currently 100 percent occupied. Our inclusive capture rate analysis indicates the Subject should be well received into the market. Thus, we do not anticipate the Subject will adversely impact existing LIHTC properties in the PMA" (p. 72).

Market Study Analysis/Conclusions: The Underwriter found the market study provided sufficient information on which to base a funding recommendation.

OPERATING PROFORMA ANALYSIS

Income: The Applicant's projected rents collected per unit were calculated by subtracting tenant-paid utility allowances as of 7/5/2005 from the 2006 program gross rent limits. Tenants will be required to pay all electric utility bills. The Applicant's secondary income and vacancy and collection loss assumptions are within current TDHCA underwriting guidelines. Overall, the Applicant's effective gross income is within 5% of the Underwriter's estimate.

Expenses: The Applicant's total annual operating expense projection at $3,508 per unit is within 5% of the Underwriter's estimate of $3,511, derived from the TDHCA database and third-party data sources. However, several of the Applicant's line item expenses varied significantly when compared to the Underwriter's estimates, including: payroll ($7K higher); utilities ($4K lower); and property tax ($4K lower). The Applicant also overstated TDHCA compliance fees.

Conclusion: The Applicant's effective gross income, annual operating expense and net operating income are each within 5% of the Underwriter's estimates. Therefore, the Applicant's Year 1 proforma will be used to determine the development debt capacity. The proforma and estimated debt service result in a debt coverage ratio of 1.30 for the first year. This is within current underwriting guidelines of 1.10 to 1.30.

Long-Term Feasibility: The underwriting 30-year proforma utilizes a 3% annual growth factor for income and a 4% annual growth factor for expenses in accordance with current TDHCA guidelines. As noted above, the Applicant's base year effective gross income, expense and net operating income were utilized resulting in a debt coverage ratio that remains above 1.10 and continued positive cash flow. Therefore, the development can be characterized as feasible for the long-term.

ACQUISITION VALUATION INFORMATION

ASSESSED VALUE

Land: 5.413 acres	$216,520	**Assessment for the Year of:**	2005
1 Acre:	$40,000	**Valuation by:**	Atascosa County Appraisal District
Total: prorated 4.82 acres	$192,800	**Tax Rate:**	3.0452

EVIDENCE of SITE or PROPERTY CONTROL

Type of Site Control:	Earnest money contract (4.82 acres)		
Contract Expiration:	9/30/2006	**Valid through Board Date?**	☒ Yes ☐ No

Seller:	Carl Raymond Crites	**Related to Development Team?**	☐ Yes ☒ No

CONSTRUCTION COST ESTIMATE EVALUATION

Acquisition Value: The site cost of $44,605 per acre or $5,972 per unit is assumed to be reasonable since the acquisition is an arm's length transaction.

Sitework Cost: The Applicant's claimed sitework costs of $7,306 per unit are within current Department guidelines. Therefore, further third party substantiation is not required.

Direct Construction Cost: The Applicant's direct construction cost estimate is $66K or 4% higher than the Underwriter's Marshall & Swift *Residential Cost Handbook*-derived estimate.

Fees: The Applicant's contractor's and developer's fees for general requirements, general and administrative expenses, and profit are all within the maximums allowed by TDHCA guidelines.

Conclusion: The Applicant's total development cost is within 5% of the Underwriter's estimate; therefore, the Applicant's cost schedule will be used to determine the development's need for permanent funds and to calculate eligible basis. An eligible basis of $3,354,500 is increased by 30% to 4,360,850 because the subject site is located in a Qualified Census Tract. This adjusted basis and the higher applicable percentage rate approved by the TDHCA Board on July 28, 2006 support annual tax credits of $368,928. This figure will be compared to the tax credits calculated based on the gap in need for permanent funds to determine the recommended allocation. The Applicant's request will not limit the tax credits recommended as the requested allocation was most likely based on an understated applicable percentage rate.

FINANCING STRUCTURE ANALYSIS

Interim Financing: The Hoover Companies, Inc. has approved a request for interim financing related to the new construction of the Canyon's Landing Apartments in the amount of $1,655,098. This lender is related to principals of the Applicant.

Permanent Financing: Centennial Mortgage has agreed to provide a permanent loan upon and subject to an award of tax credits as well as an award of a Loan Note Guarantee issued by the U.S. Department of Agriculture. The actual interest rate to determine debt service will be fixed after the issuance of a conditional commitment by the U.S. Department of Agriculture, subject to terms and conditions of the USDA 538 Guaranteed Rural Rental Housing Program. The loan amount can be up to $800,000 and will be underwritten with an interest rate of 7.10%. The Applicant has recognized that the loan amount will increase from the original $490,708 requested to $624,296 after agreeing to changes made during the underwriting due diligence. To the extent that the final loan amount is greater than $624,296 the need for the credits would be reduced.

The City of Poteet will provide In-Kind contributions equaling $133,500 in improvements to Canyon's Landing, which will reduce the allocation for those items in the budget and allows for a larger allocation for amenities and landscaping.

HTC Syndication: The tax credit syndication commitment is consistent with the terms reflected in the sources and uses of funds listed in the application.

Financing Conclusions: The Applicant's total development cost estimate less the permanent loan of $624,296 and $133,500 in in-kind contributions from the City of Poteet, indicates the need for $3,100,704 in gap funds. Based on the submitted syndication terms, a tax credit allocation of $340,771 annually would be required to fill this gap in financing. Of the two possible tax credit allocations, the gap-driven amount ($340,771), and eligible basis-derived estimate ($368,928), the gap-driven amount estimate of $340,771 is recommended, resulting in proceeds of $3,100,704 based on a syndication price of $0.91 per credit acquired.

The syndication rate proposed in the commitment is at the low end of current credit prices. Any increase in the final syndication rate will create an excess of funds, all else held constant, and a reduction in recommended tax credits would be required based on the gap method of determining credits.

DEVELOPMENT TEAM

IDENTITIES of INTEREST

- The Applicant, Developers, General Contractor, property manager, and supportive services provider are related entities. These are common relationships for HTC-funded developments.

APPLICANT'S/PRINCIPALS' FINANCIAL HIGHLIGHTS, BACKGROUND, and EXPERIENCE

Financial Highlights:

- The General Partner, HVM Housing LLC, submitted an unaudited financial statement as of Dec 31, 2005, reporting total assets of $36,190 and consisting of $14,467 in cash, $18,259 in receivables, and $3,464 in equity. Liabilities totaled $36,190, resulting in a net worth of $0.00.
- The principals of the General Partner, Dixie Farmer, Dennis Hoover, and Danna Hoover, submitted unaudited financial statements as of 2-6-06 and are anticipated to be guarantors of the development.

Background & Experience: Multifamily Production Finance Staff have verified that the Department's experience requirements have been met and Portfolio Management and Compliance staff will ensure that the proposed owners have an acceptable record of previous participation.

SUMMARY OF SALIENT RISKS AND ISSUES

- Significant inconsistencies in the application could affect the financial feasibility of the development.
- Significant environmental/locational risks may exist regarding issues not addressed in the Phase I ESA.
- The development could potentially achieve an excessive profit level (i.e., a DCR above 1.30) if the maximum tax credit rents can be achieved in this market.
- The property's project-based rent subsidy is subject to Federal funding and may not be renewed as anticipated.

REAL ESTATE ANALYSIS

BOARD ACTION REQUEST

AUGUST 30, 2006

Action Items

Presentation, discussion and possible decision regarding the Applicant's appeal of underwriting for a 2006 HTC application.

Required Action

Approve, deny or approve with amendments a determination on the appeal.

Background

060160 Pembrooke Court

On August 14, 2006 the Applicant submitted an appeal regarding the underwriting recommendation. The Applicant requests that the first lien debt be increased from $400,000 to $510,000 in lieu of increasing the HOME CHDO loan interest rate to 1.0% from the requested 0%. Subsequent to the Executive Director's response, the Applicant submitted an appeal letter dated August 21, 2006 requesting that his appeal be added to the agenda for the August 30, 2006 Board meeting. In addition the Applicant implies an additional appeal with regard to the first lien position required by the Department for the $1,900,000 HOME loan versus the $400,000 bank loan. The original request was that the bank loan have a first lien position and the Applicant indicates that all other HOME loans in the past have been in the second lien position after the bank loan. The Department maintains that the 2006 Real Estate Analysis Rules and Guidelines were applied evenly, fairly, and as originally intended during the course of the underwriting analysis and in making the recommendation.

Staff recommended an increase in the HOME loan rate pursuant to the following sections of the 2006 Real Estate Analysis Rules and Guidelines:

> §1.32 (d)(4)(D)(ii) If the DCR is greater than the maximum, the recommendations of the Report are conditioned upon an increase in the debt service and the Underwriter will make adjustments to the assumed financing structure in the order presented in subclauses (I) through (III) of this clause.
> (I) A reclassification of TDHCA funded grants to reflect loans, if permitted by program rules;
> (II) An increase in the interest rate or a decrease in the amortization period for TD+HCA funded loans;
> (III) An increase in the permanent loan amount for non-TDHCA funded loans based upon the rates and terms in the permanent loan commitment letter as long as they are within the ranges in subparagraphs (A) and (B) of this paragraph.

Changes to TDHCA funding are clearly intended to be the first option in addressing an excessive Debt Coverage Ratio. Moreover, the mortgage commitment contained in the application only allowed for the indicated $400,000 principal. The lien position required of Department funds are not clearly established by state statute or rule, however as a practical matter the Department is taking on over 4 times the risk based on the amount of debt compared to the bank and therefore should logically have priority or at least parity in lien position. While transactions involving structures that the Department has the majority of the debt are rare, the Department's historical position has generally accepted a second lien. This has left the Department vulnerable in a number of cases to the potential loss of affordability if the third party first lien is foreclosed and the Department's rights including the land use restriction agreement are extinguished.

Recommendation

Staff recommends the Board deny the appeal.

Attn: Mr. Michael Gerber – Executive Director
Re: 2006 Application for Pembrooke Court
TDHCA Number 060160 – Real Estate Analysis

Dear Mr. Gerber:

I am writing this letter in response to the Underwriting Report Notice, issued 8/7/06 for Pembrooke Court. The report's recommendation was the approval of a HOME award not to exceed $1,900,000, structured as a 30-year term loan fully amortizing over 30 years at 1.0% interest, and a bank loan in the amount of $400,000 structured as a 30 year note at 8% interest.

I am requesting that you consider the following recommendation so that we can differ less of the development fee for this development. I would propose revising the recommended proposal to reflect a HOME loan at $1,900,000 at zero percent (0%) interest for 30 years, and increasing the 1st lien bank loan to $510,000 at 8% interest for a 15 term and a 30 year amortization. Making this change would keep the Debt Coverage Ratio the same as the recommendation by the underwriting staff.

I would respectfully ask your consideration of this proposal for Pembrooke Court.

Sincerely,

Emanuel H. Glockzin, Jr.

Dear Ms. Cloyde:

I do wish to have my appeal my position added to the August 30, 2006 Board of Director's meeting agenda due to conflicts with the First Lien Position requirement of the HOME Commitment "Security for the Loan – a first lien together with an assignment of rents and leases. All other HOME loans in the past have been in the Second Lien position after the bank loan.

Should you need any additional information, please call me at the number listed above.

Re: Appeal Received for Pembrooke Court - 060160

Dear Mr. Glockzin:

Appeal Review

I have reviewed the application you submitted, as well as the underwriting report, and your appeal that was received on August 14, 2006 regarding the underwriting recommendation. You have requested that the first lien debt be increased from $400,000 to $510,000 in lieu of increasing the HOME loan interest rate to 1.0% from the requested 0%. The Underwriter recommended an increase in the HOME loan rate pursuant to the following sections of the 2006 Real Estate Analysis Rules and Guidelines:

> §1.32 (d)(4)(D)(ii) If the DCR is greater than the maximum, the recommendations of the Report are conditioned upon an increase in the debt service and the Underwriter will make adjustments to the assumed financing structure in the order presented in subclauses (I) through (III) of this clause.
> (I) A reclassification of TDHCA funded grants to reflect loans, if permitted by program rules;
> (II) An increase in the interest rate or a decrease in the amortization period for TDHCA funded loans;
> (III) An increase in the permanent loan amount for non-TDHCA funded loans based upon the rates and terms in the permanent loan commitment letter as long as they are within the ranges in subparagraphs (A) and (B) of this paragraph.

The Department maintains that the 2006 Real Estate Analysis Rules and Guidelines were applied evenly, fairly, and as originally intended during the course of the underwriting analysis and in making the recommendation. Changes to TDHCA funding are clearly intended to be the first option in addressing an excessive Debt Coverage Ratio. Moreover, the mortgage commitment contained in the application only allowed for the indicated $400,000 principal.

I have determined that the underwriting recommendation is firmly grounded in the Department's rules. Therefore, the appeal is denied.

Appeal Determination

The appeal is denied.

If you have questions or comments, please call (512) 475-3340.

Sincerely,

Brooke Boston for

Michael Gerber

HOME Loan	$1,900,000	0%	30 yrs	30 yrs
HOME CHDO Operating Expenses	$75,000	N/A	N/A	N/A

Proposed Use of Funds: New construction **Type:** Multifamily

Target Population: Family **Other:** Rural

RECOMMENDATION

☒ RECOMMEND APPROVAL OF A HOUSING TAX CREDIT ALLOCATION NOT TO EXCEED $645,247[1] ANNUALLY FOR TEN YEARS, SUBJECT TO CONDITIONS.

☒ RECOMMEND APPROVAL OF A HOME AWARD NOT TO EXCEED $1,900,000, STRUCTURED AS A 30-YEAR TERM LOAN FULLY AMORTIZING OVER 30 YEARS AT 1.0% INTEREST, SUBJECT TO CONDITIONS.

CONDITIONS

1. The financing structure should be revised to place the TDHCA HOME loan in first lien position, or at a minimum, limit the first lien holder's ability to foreclose without the Department's agreement.
2. Should the terms and rates of the proposed debt or syndication change, the transaction should be re-evaluated and an adjustment to the credit allocation amount may be warranted.

REVIEW of PREVIOUS UNDERWRITING REPORTS

ARCHITECTURAL REVIEW

The building and unit plans are comparable to other modern apartment developments. They appear to provide acceptable access and storage. The elevations reflect attractive multifamily buildings.

STRUCTURAL MATERIALS

The structures will be constructed on a concrete slab. According to the plans provided in the application the exterior will be 75% masonry veneer and 25% cement fiber. The interior wall surfaces will be drywall and the roofs will be finished with composite shingles.

UNIT FEATURES

The interior flooring will be carpet, resilient covering, and light concrete. Threshold criteria for the 2006 QAP requires all development units to include: mini blinds or window coverings for all windows, a dishwasher, a disposal, a refrigerator, an oven/range, an exhaust/vent fan in bathrooms, and a ceiling fan in each living area and bedroom. New construction units must also include three networks: one for phone service, one for data service, and one for TV service. In addition, each unit will include: laundry connections,

[1] The recommended tax credit allocation incorporates the July 28, 2006 TDHCA Board approval to raise the underwriting applicable percentage rates for the 2006 Application Round to 3.69% and 8.46% for the 30% and the 70% credit, respectively.

a ceiling fixture in each room, an individual heating and air conditioning unit, individual water heater, phone jacks in each room, and nine-foot ceilings.

ONSITE AMENITIES

In order to meet threshold criteria for a total of 76 or more units, the Applicant has elected to provide a community laundry room, a covered pavilion that includes barbecue grills and tables, a covered community porch, and a furnished community room.

Uncovered Parking: 140 spaces **Carports:** 0 spaces **Garages:** 0 spaces

PROPOSAL and DEVELOPMENT PLAN DESCRIPTION

Description: Pembrooke Court is an 11.9-unit per acre new construction development located in Gatesville, TX. The development is comprised of 7 evenly distributed garden style residential buildings as follows:

No. of Buildings	No. of Floors	1BR	2BR	3BR
1	1	0	0	4
1	2	8	0	4
3	2	0	8	4
1	2	4	8	0
1	2	8	4	0

The development includes a 3,787-square foot community building.

SITE ISSUES

SITE DESCRIPTION

Total Size:	6.38 acres	**Scattered sites?**	☐ Yes ☒ No
Flood Zone:	Zone C	**Within 100-year floodplain?**	☐ Yes ☒ No
Current Zoning:	Multifamily	**Needs to be re-zoned?**	☐ Yes ☒ No ☐ N/A

SITE and NEIGHBORHOOD CHARACTERISTICS

Location: South side of Old Osage Road, approximately ¼ mile east of Route 36 on the north side of Gatesville, Coryell County, in Central Texas.

Adjacent Land Uses:

- **North:** Old Osage Rd. immediately adjacent, residential and vacant land beyond;
- **South:** vacant land immediately adjacent, commercial and vacant land beyond;
- **East:** vacant land immediately adjacent and beyond; and
- **West:** vacant land immediately adjacent and beyond.

Site Access: Access to the property is from the east or west along Old Osage Road. "The subject property is located ¼ mile off a major thoroughfare with a high volume of traffic flow. Accessibility is good by virtue of the location of the subject property relative to existing streets and thoroughfares." (Market Study p. 41)

Public Transportation: The availability of public transportation was not identified in the application materials.

Shopping & Services: A full service grocery store and pharmacy, restaurant, primary school, church, entertainment, and bank are all located within two miles of the subject property. A medical clinic and major retail discount store are located within three miles.

TDHCA SITE INSPECTION

Inspector: Manufactured Housing Staff **Date:** 05/08/06

Overall Assessment: ☐ Excellent ☒ Acceptable ☐ Questionable ☐ Poor ☐ Unacceptable

Comments: Site not in very good walking distance from most amenities.

HIGHLIGHTS of SOILS & HAZARDOUS MATERIALS REPORT(S)

A Phase I Environmental Site Assessment report dated March 30, 2006 was prepared by Hodges Engineering, Inc., with additional comments contained in a letter received July 3, 2006. The analyst reported the following findings and recommendations:

Findings:

- **Noise:** "The Texas Department of Transportation 2002 traffic count on Old Sage Road is 1260 … with no railroad tracks or airport within two miles of the site. Using the HUD Noise Guidebook the noise level would be in the acceptable range of less than 65 decibels." (letter 7/3/06)
- **Floodplain:** "The site is above the 100 and 500 year flood plain." (letter 7/3/06)
- **Asbestos-Containing Materials (ACM):** "The tract is a vacant lot, therefore no asbestos containing material is present." (letter 7/3/06)
- **Lead-Based Paint (LBP):** "The tract is a vacant lot, therefore there is no lead based paint present." (letter 7/3/06)
- **Lead in Drinking Water:** "The City of Gatesville 2005 Drinking Water Quality Report … indicated the lead content in the drinking water is below action level." (letter 7/3/06)
- **Radon:** "The Texas Department of Health 'Final Report of the Texas Indoor Radon Summary' June 1994, Table 4 … indicates that Coryell County does not have high levels of Radon." (letter 7/3/06)
- **Recognized Environmental Concerns (RECs):** "This assessment has revealed no evidence of recognized environmental conditions in connection with property." (sec 6.0)

Recommendations: No additional environmental testing is required.

INCOME SET-ASIDE

The Applicant has elected the 40% at 60% or less of area median gross income (AMGI) set-aside.

The Applicant has also designated 61 units as HOME assisted. HOME assisted rental developments at a minimum must set aside at least 20% of HOME assisted units with rent and income restrictions at 50% or less of area median family income and all remaining units with High HOME rent restrictions and income restrictions at 80% or less of area median family income. These minimum requirements affect only those units which are HOME assisted and do not supersede the minimum affordability requirements for applicants jointly applying for HOME and Housing Tax Credits or any other federal, state or local affordable housing programs. All of the Pembrooke Court HOME units will have rents restricted at the Low HOME level.

All units will be reserved for low-income tenants. Three of the units (4.0%) will be restricted to the Low HOME rent limits and will be further restricted as HTC units reserved for households earning 30% or less of AMGI. Fifty-eight units (76.3%) will be restricted by both Low HOME rent limits and will be further restricted as HTC limits; these units will be reserved for households earning 50% or less of AMGI. Fifteen units (19.7%) will be restricted only as HTC units reserved for households earning 60% or less of AMGI.

MAXIMUM ELIGIBLE INCOMES						
	1 Person	**2 Persons**	**3 Persons**	**4 Persons**	**5 Persons**	**6 Persons**
60% of AMI	$20,520	$23,400	$26,340	$29,280	$31,620	$33,960

MARKET HIGHLIGHTS

A market feasibility study dated Mar 31, 2006 was prepared by Allen & Associates Consulting ("Market Analyst") and included the following findings:

Secondary Market Information: "Because of the proximity of the subject property to neighboring cities, we anticipate that as much as 30 percent of multifamily demand will come from areas outside of the (primary) market area." (p. 51) TDHCA underwriting guidelines do not consider secondary market demand for family developments.

Definition of Primary Market Area (PMA): "We defined the primary market area by generating a drive time zone around the subject property and analyzing median rents and average household income levels in the area. We also considered population densities, existing concentrations of multifamily properties and the nearest census tract boundaries in our analysis. Based on our evaluation of the local market, we concluded that the primary market area includes (census tracts 102, 103, and 104). The site is located in Coryell County Census tract 102." (p. 51) This area encompasses approximately 104 square miles and is equivalent to a circle with a radius of 5.75 miles.

Population: The estimated 2005 population of the PMA was 18,887 and is expected to decrease by 1.2% to approximately 18,667 by 2010. Within the primary market area there were estimated to be 3,693 households in 2005.

Total Market Demand: Since this is a family development, the target population is the general population. Demographic data in the market study (p. 68) indicates that 97.2% of households are 5 persons or less, the appropriate size for the subject property. However, the Market Analyst did not adjust the household population in his demand calculations. The Analyst calculated an income eligible adjustment rate of 21.8% (p. 135) based on an income band of $9,154 to $31,600 (pp. 135-137) and separate growth estimates for each combination of income limit and unit bedroom size. The Underwriter used an income band of $9,394 to $31,620 due to revised rents and utility allowances. For this revised income band, the Underwriter calculated an income eligible adjustment rate of 26.1% based on the overall population. As a result of these differences, the Underwriter's estimated demand is higher than that of the Market Analyst. The tenure appropriate adjustment rate of 29.8% is specific to the target population. (p. 135) The Market Analyst indicates a turnover rate of 43.4% applies based on the U.S. Census Bureau. (p. 69) In addition, "Because of the proximity of the subject property to neighboring cities, we anticipate that as much as 30 percent of multifamily demand will come from areas outside of the (primary) market area." (p. 51)

MARKET DEMAND SUMMARY				
	Market Analyst		Underwriter	
Type of Demand	Units of Demand	% of Total Demand	Units of Demand	% of Total Demand
Household Growth	102	72%	118	101%
Resident Turnover	-2	-1%	-2	-1%
Other Sources: secondary market	42	29%	N/A	-
TOTAL DEMAND	**142**	**100%**	**116**	**100%**

Inclusive Capture Rate: The Market Analyst calculated an inclusive capture rate of 54% based on a supply of 76 unstabilized comparable affordable units in the PMA (including the subject) and demand for 142 affordable. (p. 141) The Underwriter calculated an inclusive capture rate of 66% based on a supply of 76 unstabilized affordable units divided by a revised demand estimate of 116 affordable units.

Unit Mix Conclusion: "The optimal project for this market would have a slight unit count reduction and a unit mix modification to achieve penetration rates below 25%, saturation rates below 50%, capture rates below 50%, inclusive capture rates below 100%, and absorption periods below 24 months. We recommend a total of 70 units for this project broken out as follows:

5 one-bedroom units restricted to 30% AMI
9 one-bedroom units restricted to 50% AMI
7 one-bedroom units restricted to 60% AMI
8 two-bedroom units restricted to 30% AMI
12 two-bedroom units restricted to 50% AMI
13 two-bedroom units restricted to 60% AMI
5 three-bedroom units restricted to 30% AMI
6 three-bedroom units restricted to 50% AMI
5 three-bedroom units restricted to 60% AMI

(p. 151) The application was submitted before the market study was completed, and therefore the Applicant was unable to consider these recommended changes to the unit mix.

Market Rent Comparables: The Market Analyst surveyed 16 comparable apartment projects totaling 545 units in the market area. "In conducting our analysis, we attempted to obtain information on every multifamily property with 20 or more units in the primary market area. Because the number of properties located in the PMA was somewhat limited, we expanded our search to include neighboring cities." (p. 81) Based on our evaluation of the rents for competing market rate properties, and considering the location and amenities of the subject property, we conclude the following market rents for the subject property units, assuming that the subject were an unrestricted property." (p.114)

RENT ANALYSIS (net tenant-paid rents)					
Unit Type (% AMI)	Proposed	Program Max	Differential	Est. Market	Differential
1-Bedroom (30%)	$216	$216	$0	$520	-$304
1-Bedroom (50%)	$399	$399	$0	$520	-$121
1-Bedroom (60%)	$491	$491	$0	$520	-$29
2-Bedroom (30%)	$254	$254	$0	$660	-$406
2-Bedroom (50%)	$472	$472	$0	$660	-$188
2-Bedroom (60%)	$582	$582	$0	$660	-$78
3-Bedroom (30%)	$280	$280	$0	$810	-$530
3-Bedroom (50%)	$534	$534	$0	$810	-$276
3-Bedroom (60%)	$661	$661	$0	$810	-$149

(NOTE: Differentials are amount of difference between proposed rents and program limits and average market rents, e.g., proposed rent =$500, program max =$600, differential = -$100)

Primary Market Occupancy Rates: "Occupancies by property type for stabilized family properties follow: Market rate, 92.7% (316 units in sample); restricted rents, 92.7% (109 units in sample); and subsidized rents, 98.3% (60 units in sample)." (p. 99)

Absorption Projections: "We estimate a 28-month absorption period and an average absorption rate of 2.52 units per month to stabilization for the subject property." (p. 147)

Unstabilized, Under Construction, and Planned Development: The Market Analyst did not identify any unstabilized or proposed development in the primary market area.

Market Impact: "In our opinion, the planned development is marginally feasible from a market standpoint as proposed. While the estimated overall penetration rate, saturation rate, capture rate and inclusive capture rate all appear to be at the upper end of limits of acceptability, the absorption period is excessive ... Based on these factors, we believe that the subject property will need to compete aggressively with other properties in the market area and may need to fill by virtue of attracting renters from other properties." (p. 15)

Market Study Analysis/Conclusions: The Underwriter found the market study provided sufficient information on which to base a funding recommendation.

OPERATING PROFORMA ANALYSIS

Income: The Applicant's projected rents collected per unit were calculated by subtracting tenant-paid utility allowances as of December 19, 2005, maintained by Housing Authority of the City of Gatesville, from the 2006 program gross rent limits. Tenants will be required to pay electric costs only. The Applicant claimed $10 per unit per month in secondary income from application fees and interest. This is within the TDHCA guideline maximum of $15. Vacancy and collection losses are within TDHCA guidelines. The Applicant's effective gross income is within 5% of the Underwriter's estimate.

Expenses: The Applicant's total annual operating expense projection at $3,572 per unit is within 5% of the Underwriter's estimate of $3,685, derived from the TDHCA database and third-party data sources. Several of the Applicant's individual line items vary significantly from the Underwriter's estimates: general & administrative ($7K lower), payroll & payroll tax ($11K lower), and property tax ($7K higher).

Conclusion: The Applicant's effective gross income and total annual operating expenses are each within 5% of the Underwriter's estimates, but net operating income (NOI) is 6% higher than the Underwriter's. Therefore, the Underwriter's NOI will be used to evaluate debt capacity.

The Underwriter's NOI and estimated debt service result in a debt coverage ratio (DCR) above the current underwriting maximum guideline of 1.30. Therefore, the recommended financing structure reflects an increase in the interest rate and decrease in the amortization period of the HOME loan requested in the application. This is discussed in more detail in the conclusion to the "Financing Structure Analysis" section (below).

Long-Term Feasibility: The underwriting 30-year proforma utilizes a 3% annual growth factor for income and a 4% annual growth factor for expenses in accordance with current TDHCA guidelines. As noted above, the Underwriter's base year effective gross income, total annual expenses and net operating income indicated a debt coverage ratio above the current underwriting maximum guideline. This indicates the project has the capacity to support a higher debt burden and still remain financially feasible.

CONSTRUCTION COST ESTIMATE EVALUATION

Acquisition Value: The site cost of $59,561 per acre is assumed to be reasonable since the acquisition is an arm's-length transaction.

Sitework Cost: The Applicant's claimed sitework costs of $6,974 per unit are within current Department guidelines. Therefore, further third party substantiation is not required.

Direct Construction Cost: The Applicant's direct construction cost estimate is $4.6M. This is 6 % higher than the Underwriter's estimate derived from the Marshall & Swift *Residential Cost Handbook.*

Fees: The Applicant's contractor general requirements, contractor general and administrative fees, and contractor profit exceed the 6%, 2%, and 6% maximums allowed by HTC guidelines by a total of $9,800 based on their own construction costs. Consequently the Applicant's eligible fees in these areas have been reduced by the same amount with the overage effectively moved to ineligible costs. The Applicant's developer fee also exceeds 15% of the Applicant's adjusted eligible basis by $170 and therefore the eligible portion of the Applicant's developer fee must be reduced by the same amount.

Conclusion: The Applicant's total development cost is within 5% of the Underwriter's estimate; therefore, the Applicant's cost schedule will be used to determine the development's need for permanent funds and to calculate eligible basis. An eligible basis of $7,627,030 and the higher applicable percentage rate approved by the TDHCA Board on July 28, 2006 support annual tax credits of $645,247. This figure will be compared to the tax credits calculated based on the gap in need for permanent funds to determine the recommended allocation. The Applicant's request will not limit the tax credits recommended as the requested allocation was most likely based on an understated applicable percentage rate.

FINANCING STRUCTURE ANALYSIS

Interim Financing: "Boston Capital expects to furnish a Bridge loan to (Pembrooke Court, Ltd) and interest on that bridge loan is expected to compound to approximately $30,000." (Memo from Boston Capital dated June 20, 2006.) This loan would be in advance of Boston Capital's initial equity contribution under the HTC syndication agreement.

Interim to Permanent Financing: The Applicant has a commitment from First Victoria National Bank for a first lien mortgage in the amount of $400,000 at 8.00% interest, structured for one year as an interest-only interim construction loan, then converting to a 15 year term loan on a 30 year amortization.

The Applicant is also applying for a HOME loan from TDHCA in the amount of $1,900,000 with requested terms of 0.0% interest for 40 years.

HTC Syndication: The tax credit syndication commitment is consistent with the terms reflected in the sources and uses of funds listed in the application.

Deferred Developer's Fees: The Applicant's proposed deferred developer's fees of $274K amount to 28% of the total fees.

HOME CHDO Operating Expenses: The Applicant has applied for a grant in the amount of $75,000 in HOME CHDO Operating Expense funds. This grant would be for the operating expenses of the Managing General Partner, Shelter the Homeless International Projects. SHIP is a non-profit Community Housing Development Organization. CHDO Operating Expense grants are entirely separate from the HTC program, and this aspect of the application has not been factored into this analysis.

Financing Conclusions: As discussed above, the requested terms result in a debt coverage ratio in excess of the TDHCA guideline maximum of 1.30. Underwriting analysis indicates that this project is financially feasible if the terms of the HOME loan are adjusted to a 30 year amortization at 1.00% interest. Such an adjustment also establishes parity in amortization between the first and second liens. This report recommends that TDHCA issue a HOME loan of $1,900,000 for 30 years at 1.00% interest. This amount is substantially higher than the Applicant's proposed first lien, which puts the Department at significant risk. Therefore, it is a condition of this report that the Department pursue a first lien position, or at a minimum, limit the first lien holder's ability to foreclose without the Department's agreement. The HOME award amount is below the 221(d)(3) limit for this project. In addition, the HOME award is below the prorata share of development cost based on the ratio of HOME units to total units.

The Applicant's total development cost estimate less the permanent loan of $400,000 and HOME loan of $1,900,000 indicates the need for $6,000,000 in gap funds. Based on the submitted syndication terms, a tax credit allocation of $652,239 annually would be required to fill this gap in financing. Of the two possible tax credit allocations, the gap-driven amount ($652,239) and eligible basis-derived estimate ($645,247), at the higher applicable percentage rate approved by the TDHCA Board on July 28, 2006, the eligible basis-derived estimate of $645,247 is recommended.

The Underwriter's recommended financing structure indicates the need for $64,323 in additional permanent funds. Deferred developer fees in this amount appear to be repayable from development cashflow within three years of stabilized operation.

The syndication rate proposed in the commitment is at the low end of current credit prices. If the final syndication rate were to increase by more than four cents per dollar of tax credit, an excess of funds would exist, all else held constant, and a reduction in recommended tax credits would be required based on the gap method of determining credits.

Return on Equity: According to HUD, the "Cash on Cash Return (on equity), which calculates the percent of return on equity given the amount invested by the developer (developer equity) and the cash flow at the end of each year, considers the developer fee a development cost and not a form of financing or equity in the project." No cash equity will be invested by the Developer; therefore a return on equity is impossible to calculate. Considering the total syndication equity from the tax credits, the additional return generated from net cash flow is typically less than 1%.

DEVELOPMENT TEAM

IDENTITIES of INTEREST

- The Applicant, Developer, General Contractor, and property manager are related entities. These are common relationships for HTC-funded developments.

APPLICANT'S/PRINCIPALS' FINANCIAL HIGHLIGHTS, BACKGROUND, and EXPERIENCE

Financial Highlights:

- The Applicant and General Partner are single-purpose entities created for the purpose of receiving assistance from TDHCA and therefore have no material financial statements.
- The Managing General Partner, Shelter the Homeless International Projects, submitted an unaudited financial statement as of December 31, 2005 reporting total assets of $141K, and consisting of $71K in cash and $70K in fixed assets. Liabilities totaled $35K, resulting in net assets of $106K.
- The Co-General Partner, Cambridge Interests, Inc., submitted an unaudited financial statement as of December 31, 2005, reporting total assets of $357K and consisting of $5K in cash, $16K in receivables, $167K in stocks and securities, $22K in fixed assets, and $147K in business interests. Liabilities totaled $20K, resulting in net assets of $337K.
- The Developer, Ponderosa Plaza, Ltd., submitted an unaudited financial statement as of December 31, 2005, reporting total assets of $277K and consisting of $264K in cash, $6K in receivables, and $7K in business interests. Liabilities totaled $0K, resulting in net assets of $277K.
- The principal(s) of the Co-General Partner and the Developer, Emanuel H. and Elaina D. Glockzin, submitted an unaudited joint financial statement as of December 31, 2005.

Background & Experience: Multifamily Production Finance Staff have verified that the Department's experience requirements have been met and Portfolio Management and Compliance staff will ensure that the proposed owners have an acceptable record of previous participation.

SUMMARY OF SALIENT RISKS AND ISSUES

- The Applicant's operating proforma is more than 5% outside of the Underwriter's verifiable range.
- The Applicant's direct construction costs differ from the Underwriter's *Marshall and Swift*-based estimate by more than 5%.
- The requested financing structure, with the larger HOME loan in second position behind a smaller commercial loan, puts the Department at significant risk.
- The significant financing structure changes being proposed have not been reviewed by the Applicant, lenders, and syndicators, and acceptable alternative structures may exist.

REAL ESTATE ANALYSIS

BOARD ACTION REQUEST

AUGUST 30, 2006

Action Items

Presentation, discussion and possible decision regarding the Applicant's appeal of underwriting for a 2006 HTC application.

Required Action

Approve, deny or approve with amendments a determination on the appeal.

Background

060199 Legacy Senior Housing of Port Arthur

On August 14, 2006 the Applicant submitted an appeal requesting that the Department consider increasing the credit amount by $112,389 due to the contention that the permanent loan amount will be reduced from the previously submitted amount of $2,975,000 to $2,100,000. This reduced amount was not supported by any new documentation from the lender; however the original application indicated a permanent loan of $2,175,000.

Staff communicated during the original underwriting review that the rents indicated in the rent schedule were significantly less than the maximum achievable program rents and the market rents. In addition staff indicated that the expenses proposed for several line items were outside of the normal tolerance levels compared to the underwriting database. The Applicant adjusted rents half way up to the achievable level indicated in the market study and increased expenses by an even greater amount. The underwriter completed the analysis using the still higher achievable rents and anticipated a slightly higher debt capacity to maintain not more than a 1.30 debt coverage ratio.

The appeal letter states that property insurance is increasing from $39,250 a year to $124,000 (or $984 per unit) although no additional supporting documentation was provided to evaluate or confirm this presumption. Moreover, this information was not made available to the underwriter previously and therefore could not have been considered during the underwriting process. By increasing the property insurance amount to $124,000, total expenses increase to $4,114 per unit per year from the previous $3,442 per unit per year. This amount is considerably higher than comparable developments of similar size and location. In addition this level of operating expenses based on the revised rent levels would result in an unusually high 70% expense to income ratio and cause the long term proforma to fail the 30 year feasibility test.

The Department's rules and guidelines were applied evenly, fairly, and as originally intended during the underwriting analysis. Staff recommends that the appeal be denied due to the lack of supporting documentation to support the information provided and that the original July 14, 2006 underwriting recommendation is firmly grounded in the Department's rules.

Recommendation

Staff recommends the Board deny the appeal.

Housing Tax Credit Program – 2006 Application Cycle

Addendum to Underwriting Report Notice

Appeal Election Form: 060199 Legacy Senior Housing of Port Arthur **Date Notice Sent: 8/7/06**

I am in receipt of my 2006 Underwriting report notice and have reviewed the Appeal Policy at 10TAC Section 50.17(b). I recognize that should I choose to file an appeal, I must file a formal appeal to the Executive Director within seven days from the date this Notice was issued and the Underwriting report was posted to the Department's web site.
Given my appeal options I: (check all that apply)

☑ Do wish to appeal to the Executive Director and will submit my complete appeal within seven days or forfeit my right to appeal the Underwriting Criteria or recommended award amount.

☑ Do wish to have my appeal added to the August 30, 2006 Board of Directors' meeting agenda if my **initial** appeal to the Executive Director is denied or not responded to prior to August 21, 2006. I understand that my Board appeal documentation must still be submitted by 5:00 p.m., August 21, 2006 to be placed on the August 30, 2006 Board book. I understand that if no documentation is submitted, the appeal documentation submitted to the Executive Director will be utilized.

☐ Do not wish to appeal to the Board of Directors or Executive Director.

Signed Harlan A. Hanson

Re: 2006 HTC Application for Legacy Senior Housing of Port Arthur
TDHCA Number: 060199

Dear Mr. Gerber,

Legacy Senior Housing of Port Arthur would like to thank the Department and its Board for the award of $961,150 in annual Housing Tax Credits for the new construction of this senior community. Please accept this letter as a formal appeal and request to receive an additional award of $112,389 in annual Housing Tax Credits for the subject property. Please see Volume 1, Tab 3 Activity Overview attached. The requested increase brings the total award from $961,150 to $1,073,539 as allowed by the July 28, 2006 Board approved underwriting increase in the Applicable Percentage to 8.46%.

This request is primarily due to the sharp rise in insurance premiums for hurricane affected areas to approximately $1,000/unit/year as illustrated in the attached revision of Volume 1 Tab 2. In addition, utility allowances are also expected to rise. Based on the attached spreadsheet provided by JER Hudson, the Tax Credit Syndicator, as well as conversations with industry lenders, the final loan amount will likely drop to $2,100,000 from $2,950,000 as originally projected.

We complement the diligence of the Underwriting team. The senior citizens in the Port Arthur will benefit greatly from the development of this beautifully planned community. Please contact Mr. Huelon Harrison at 214-450-8200 or Ms. Terri Anderson 972-567-4630 should you have any questions or need additional supporting documentation.

Respectfully submitted,

Terri L. Anderson

'art E. 30 Year Rental Housing Operating Proforma

Volume 1, Tab 2. ACTIVITY OVERVIEW

'he pro forma should be based on the operating income and expense information for the base year (first year of stabilized occupancy using today's best estimates of rental income and expenses), and principal and interest lebt service. The Department currently considers an annual growth rate of 3% for income and 4% for expenses to be reasonably conservative estimates. Written explanation for any deviations from these growth rates or for issumptions other than straight-line growth made during the proforma period should be attachd to this exhibit.

Volume 1, Tab 4. Funding Request

PART A. Summary Sources and Uses of Funds

Describe all sources of funds and total uses of funds. Information must be consistent with the information provided throughout the Application (i.e. Financing Participants and Development Cost Schedule forms). Where funds such as tax credits, loan guarantees, bonds are used, only the proceeds going into the development should be identified so that "sources" match "uses."

Applicants must attach a written narrative to this form that describes the financing plan for the Development. The narrative shall include: (a) any non-traditional financing arrangements; (b) the use of funds with respect to the Development; (c) the funding sources for the Development including construction, permanent and bridge loans, rents, operating subsidies, and replacement reserves; and (d) the commitment status of the funding sources.

(1) Indicate Exclusive Use Financing Palicipant only where funds from that source are dedicated only for a specific purpose, i.e. CDBG infrustructure funds used only for off-site construction

Hi Hue:

This is the insurance bid that we have been able to construct for Legacy based on recent quotes/some assumptions from our Florida experience. We have a deal there that has lender's "forced-place" insurance on it just because regular insurance became prohibitively expensive.

Talk to you soon.

Sam

Telephone: (214) 941-6885

Re: Appeal Received for Legacy Senior Housing of Port Arthur – 060199

Dear Mr. Harrison:

<u>Appeal Review</u>

I have reviewed the application you submitted, as well as your appeal that was received on August 14, 2006 regarding the underwriting recommendation of the above-referenced application.

Your appeal requests that the Department consider increasing the credit amount by $112,389 due to the contention that the permanent loan amount will be reduced from the previously submitted amount of $2,975,000 to $2,100,000. This reduced amount was not supported by any new documentation from the lender; however your original application indicated a permanent loan of $2,175,000.

Staff communicated during the original underwriting review that the rents indicated in the rent schedule were significantly less than the maximum achievable program rents and the market rents. In addition staff indicated that the expenses proposed for several line items were outside of the normal tolerance levels compared to the underwriting database. You choose ultimately to adjust rents half way up to the achievable level indicated in the market study and to increase expenses by an even greater amount. The underwriter completed the analysis using the still higher achievable rents and anticipated a slightly higher debt capacity to maintain not more than a 1.30 debt coverage ratio.

The appeal letter states that property insurance is increasing from $39,250 a year to $124,000 (or $984 per unit) although no additional supporting documentation was provided to evaluate or confirm this presumption. Moreover, this information was not made available to the underwriter previously and therefore could not have been considered during the underwriting process. By increasing the property insurance amount to $124,000 the total expenses increases to $4,114 per unit per year from the previous $3,442 per unit per year. This amount is considerably higher than comparable developments of similar size and location. In addition this level of operating expenses based on your revised rent levels would result in an unusually high 70% expense to income ratio and cause the long term proforma to fail the 30 year feasibility test.

In order to apply the Department's rules and guidelines evenly, fairly, and as originally intended, your appeal is being denied. The appeal is being denied due to the lack of supporting documentation to support the information provided and that the original July 14, 2006 underwriting recommendation is firmly grounded in the Department's rules.

Appeal Determination

The appeal is denied.

If you have questions or comments, please call (512) 475-3340.

Sincerely,

Michael Gerber
Executive Director

RECOMMENDATION

☒ RECOMMEND APPROVAL OF A HOUSING TAX CREDIT ALLOCATION NOT TO EXCEED $961,150[1] ANNUALLY FOR TEN YEARS, SUBJECT TO CONDITIONS.

CONDITIONS

1. Receipt, review, and acceptance of an acceptable site inspection by TDHCA staff.
2. Receipt, review, and acceptance by carryover of a flood hazard mitigation plan to include, at a minimum, consideration and documentation of flood plain reclamation sitework costs, building flood insurance and tenant flood insurance costs prior to the initial closing on the property is a condition of this report.
3. Receipt, review and acceptance of a revised permanent loan commitment reflecting the addition of $359,041 in principal, deferred developer fee in the same amount or some combination of additional

---

[1] The recommended tax credit allocation incorporates the July 28, 2006 TDHCA Board approval to raise the underwriting applicable percentage rates for the 2006 Application Round to 3.69% and 8.46% for the 30% and the 70% credit, respectively.

debt or deferred developer fee such that the Underwriter's effective debt coverage ratio is not more than 1.30.

4. Should the terms and rates of the proposed debt or syndication change, the transaction should be re-evaluated and an adjustment to the credit amount may be warranted.

ADDENDUM

The underwriting analysis has been revised to reflect the July 28, 2006 TDHCA Board approval to raise the underwriting applicable percentage rates for the 2006 Application Round to 3.69% and 8.46% for the 30% and the 70% credit, respectively.

As stated in the Underwriting Report dated July 14, 2006, the Applicant's total development cost is within 5% of the Underwriter's estimate; therefore, the Applicant's cost schedule will be used to determine the development's need for permanent funds and to calculate eligible basis. An eligible basis of $10,629,178 supports annual tax credits of $1,113,293. This figure will be compared to the tax credits calculated based on the gap in need for permanent funds to determine the recommended allocation. The Applicant's request will not limit the tax credits recommended as the requested allocation was most likely based on an understated applicable percentage rate.

The proforma analysis resulted in a debt coverage ratio above the Department's maximum guideline of 1.30. The underwriting analysis assumes an increase in the permanent loan amount of $359,041 to $3,334,041 based on the terms reflected in the application materials. Receipt, review and acceptance of a revised permanent loan commitment reflecting the additional principal or initial after conversion deferred developer fee in the same amount or some combination of additional debt and deferred developer fee in the same amount which allows the Underwriter's effective debt coverage ratio to be not more than 1.30, is a condition of this report. As a result the development's gap in financing will decrease. The Applicant's total development cost estimate less the permanent loan of $3,334,041 indicates the need for $8,937,805 in gap funds. Based on the submitted syndication rate of 93%, a tax credit allocation of $961,150 annually would be required to fill this gap in financing. Of the two possible tax credit allocations, the gap-driven amount ($961,150) and adjusted eligible basis-derived estimate ($1,113,293), the gap-driven amount of $961,150 is recommended. The Underwriter's recommended financing structure indicates no need for deferred developer fees.

The syndication rate proposed in the commitment is in the low end of current credit prices. If the final syndication rate were to increase, an excess of funds would exist, all else held constant, and a reduction in recommended tax credits would be required based on the gap method of determining credits.

SUMMARY OF SALIENT RISKS AND ISSUES

- The Applicant's estimated income, operating expenses and operating proforma are more than 5% outside of the Underwriter's verifiable ranges.
- Significant location risks exist regarding the flood zone designation of AH.
- The development could potentially achieve an excessive profit level (i.e., a DCR above 1.30) if the maximum tax credit rents can be achieved in this market.
- The significant financing structure changes being proposed have not been reviewed or accepted by the Applicant, lenders, and syndicators, and acceptable alternative structures may exist.

Underwriter:	*Carl Hoover*	**Date:**	August 4, 2006
Director of Real Estate Analysis:	*Tom Gouris*	**Date:**	August 4, 2006

RECOMMENDATION

☒ RECOMMEND APPROVAL OF A HOUSING TAX CREDIT ALLOCATION NOT TO EXCEED $961,150 ANNUALLY FOR TEN YEARS, SUBJECT TO CONDITIONS.

CONDITIONS

1. Receipt, review, and acceptance of an acceptable site inspection by TDHCA staff.
2. Receipt, review, and acceptance by carryover of a flood hazard mitigation plan to include, at a minimum, consideration and documentation of flood plain reclamation sitework costs, building flood insurance and tenant flood insurance costs prior to the initial closing on the property is a condition of this report.
3. Receipt, review and acceptance of a revised permanent loan commitment reflecting the addition of $359,041 in principal, deferred developer fee in the same amount or some combination of additional debt or deferred developer fee such that the Underwriter's effective debt coverage ratio is not more than 1.30.
4. Should the terms and rates of the proposed debt or syndication change, the transaction should be re-

evaluated and an adjustment to the credit amount may be warranted.

REVIEW of PREVIOUS UNDERWRITING REPORTS

ARCHITECTURAL REVIEW

The building and unit plans are comparable to other modern apartment developments. They appear to provide acceptable access and storage. The elevations reflect attractive buildings.

STRUCTURAL MATERIALS

The structures will be constructed on a concrete slab. According to the plans provided in the application the exterior will be 74% masonry veneer, and 26% cement fiber. The interior wall surfaces will be drywall and the roofs will be finished with composite shingles.

UNIT FEATURES

The interior flooring will be carpet and resilient covering. Threshold criteria for the 2006 QAP requires all development units to include: mini blinds or window coverings for all windows, a dishwasher, a disposal, a refrigerator, an oven/range, an exhaust/vent fax in bathrooms, and a ceiling fan in each living area and bedroom. New construction units must also include three networks: one for phone service, one for data service, and one for TV service. In addition, each unit will include: microwave, an ice maker in the refrigerator, a self-cleaning oven, laundry connections, a ceiling fixture in each room, an individual heating and air conditioning unit and individual water heaters.

ONSITE AMENITIES

In order to meet threshold criteria for total units of 100 or more, the Applicant has elected to provide a barbecue or picnic table for every 50 units, community dining room with kitchen, community laundry room, controlled access gates, an equipped business center or computer learning center, full perimeter fencing, a furnished community room, a furnished fitness center, a health screening room, an activity room, a service coordinators office in addition to the leasing offices, a swimming pool.

Uncovered Parking: 100 spaces **Carports:** 0 spaces **Garages:** 50 spaces

PROPOSAL and DEVELOPMENT PLAN DESCRIPTION

Description: Legacy Senior Housing of Port Arthur is a 10.3-unit per acre new construction development located in north central Port Arthur. The development is comprised of nine evenly distributed fourplex style buildings and two elevator-served three story residential buildings as follows:

No. of Buildings	No. of Floors	Eff	1BR	2BR	3BR	4BR
9	1	0	2	2	0	0
2	3	0	22	23	0	0

The development includes a 5,750-square foot community buildings and leasing office which connects to the two three story residential buildings.

SITE ISSUES

SITE DESCRIPTION

Total Size:	12.21 acres	**Scattered sites?**	☐ Yes ☒ No
Flood Zone:	Zone AH	**Within 100-year floodplain?**	☒ Yes ☐ No
Current Zoning:	MF-2	**Needs to be re-zoned?**	☐ Yes ☒ No ☐ N/A

SITE and NEIGHBORHOOD CHARACTERISTICS

Location: "The subject location is in the north central sector of Port Arthur, approximately 4 miles northwest of Port Arthur's downtown and about 1.5 miles from the city limits of abutting Nederland. The site is less than one-third mile northeast, on Lake Arthur Dr. from U.S. Hwy. 69/96/287 (Memorial Blvd.), the major route from downtown Port Arthur, through Beaumont, and beyond through Texas into Oklahoma." (p. 2-2)

Adjacent Land Uses:

- **North:** Zaharias Memorial golf course immediately adjacent and vacant land beyond;
- **South:** Lake Arthur Drive immediately adjacent and vacant land currently designated as a bird sanctuary beyond;
- **East:** a single-family residential community know as Park at Lake Arthur is immediately adjacent and vacant land beyond; and
- **West:** a canal is immediately adjacent and the continuation of Zaharias Memorial golf course beyond.

Site Access: "Access will be from Lake Arthur Drive, a neighborhood street connecting to 9th Avenue, which is a thoroughfare leading southeast into Port Arthur's central city or northwest through Nederland." (p. 2-2)

Public Transportation: "Port Arthur Transit offers City wide bus services, including paratransit door-to-door for the elderly and disabled." (p. 2-13)

Shopping & Services: "In terms of access and proximity to comparison goods shopping as well as convenience shopping, to restaurants, hospitals, and churches, the subject property has good access with convenient routes. There is a wide range of goods and services in the area with many small older shops scattered throughout the area and new development to the north in Nederland." (p. 2-15)

Adverse Site Characteristics:

Floodplain: The Site is located in AH which are areas within the 100 year flood plain. According to the 2006 QAP, "Any Development proposing New Construction located within the 100 year floodplain as identified by the Federal Emergency Management Agency (FEMA) Flood Insurance Rate Maps must develop the site so that all finished ground floor elevations are at least one foot above the flood plain and parking and drive areas are no lower than six inches below the floodplain, subject to more stringent local requirements. If no FEMA Flood Insurance Rate Maps are available for the proposed Development, flood zone documentation must be provided from the local government with jurisdiction identifying the 100 year floodplain. No buildings or roads that are part of a Development proposing Rehabilitation, with the exception of developments with federal funding assistance from HUD or TX USDA-RHS, will be permitted in the 100 year floodplain unless they already meet the requirements established in this subsection for New Construction." Receipt, review, and acceptance by carryover of a flood hazard mitigation plan to include, at a minimum, consideration and documentation of flood plain reclamation sitework costs, building flood insurance and tenant flood insurance costs prior to the initial closing on the property is a condition of this report.

TDHCA SITE INSPECTION

Inspector: Manufactured Housing Staff **Date:** 05/08/06

Overall Assessment: ☐ Excellent ☒ Acceptable ☐ Questionable ☐ Poor ☐ Unacceptable

Comments:

HIGHLIGHTS of SOILS & HAZARDOUS MATERIALS REPORT(S)

A Phase I Environmental Site Assessment report dated March 17, 2006 was prepared by ATC Associates, Inc. and contained the following findings and recommendations:

Findings:

- **Floodplain:** "According to the Flood Insurance Rate Map the project area is located in Zone AH, which is described as special flood hazard areas subject to inundation by the 100-year flood where base flood elevations are shown, but no flood hazard factors have been determined." (p. 20)

Recommendations: "This assessment has revealed no evidence of recognized environmental conditions in connection with the subject property." (p. 21)

INCOME SET-ASIDE

The Applicant has elected the 40% at 60% or less of area median gross income (AMGI) set-aside. One hundred twenty of the units (95.2% of the total) will be reserved for low-income tenants. Thirteen of the units (10.3%) will be reserved for households earning 30% or less of AMI, one hundred seven units (84.9%) will be reserved for households earning 60% or less of AMI, and the remaining six units will be offered at market rents.

MAXIMUM ELIGIBLE INCOMES						
	1 Person	**2 Persons**	**3 Persons**	**4 Persons**	**5 Persons**	**6 Persons**
60% of AMI	$21,240	$24,300	$27,300	$30,360	$32,760	$35,220

MARKET HIGHLIGHTS

A market feasibility study dated March 6, 2006 was prepared by Ipser & Associated, Inc. ("Market Analyst") and included the following findings:

Definition of Primary Market Area (PMA): "The primary market area is defined by the East Jefferson County Census Divisions (CCD) which encompasses Port Arthur and the adjoining communities of Groves, Nederland and Port Neches." (p. 2-3) This area is defined as Neches River on the northeast, the Gulf of Mexico on the southeast, Galveston city limits on the northwest, and Highway 73 and 214 on the southwest. This area encompasses approximately 132.2 square miles and is equivalent to a circle with a radius of 6.5 miles.

Population: The estimated 2006 senior population of the PMA was 25,266 and is expected to decrease by 3% to approximately 24,511 by 2011. Within the primary market area there were estimated to be 16,469 elderly households in 2006.

Total Primary Market Demand for Rental Units: The Market Analyst calculated a total demand of 285 qualified senior households in the PMA, based on the current estimate of 16,469 senior households, the projected annual decrease growth rate of less than 1%, senior renter households estimated at 16.3% of the population, senior income-qualified households estimated at 31.8%, and an annual renter turnover rate of 29%. (p. 3-7) The Market Analyst used an income band of $7,110 to $26,400.

MARKET DEMAND SUMMARY				
	Market Analyst		**Underwriter**	
Type of Demand	**Units of Demand**	**% of Total Demand**	**Units of Demand**	**% of Total Demand**
Household Growth	0	0%	-4	-1.4%
Resident Turnover	247	86.7%	248	87.9%
Other Sources: Section 8 waiting list	38	13.3%	38	13.5%
TOTAL DEMAND	**285**	**100%**	**282**	**100%**

p. 3-7

Inclusive Capture Rate: The Market Analyst calculated an inclusive capture rate of 42.1% based upon 285 units of demand and 120 unstabilized affordable housing in the PMA (including the subject) (p. 3-7). The Underwriter agreed with the Market Analyst's capture rate of 42.1%.

Market Rent Comparables: The Market Analyst surveyed five nearby conventional family complexes which have a high percentage of elderly tenants (199 elderly in 840 units, or 24%). (p. 2-22)

2-Bedroom (MR) 863 sq.ft.	$645	N/A	N/A	$655	-$10

(NOTE: Differentials are amount of difference between proposed rents and program limits and average market rents, e.g., proposed rent =$500, program max =$600, differential = -$100)

Primary Market Occupancy Rates: "In a total of 228 units built since 2000, physical occupancy was 95.6% and the economic or leased occupancy was 97.4%." (p. 3-7)

Absorption Projections: "Average absorption for the subject is estimated at 10 to 12 units per month. It is expected that a 10 to 11 month lease-up period will be required to achieve 92.5% occupancy of the 126 units." (p. 3-7)

Other Information: "Waiting lists were found at 10 rental housing locations, for a combined total of 1,143 names, more than half of which were reported at subsidized complexes (703 names). Bear in mind that most waiting lists include previous tenants who evacuated Port Arthur during Hurricane Rita, and homeowners who are unable to return or live in their own homes." (p. 2-20)

Market Study Analysis/Conclusions: The Underwriter found the market study provided sufficient information on which to base a funding recommendation

OPERATING PROFORMA ANALYSIS

Income: The Applicant's rent projections are significantly lower than the maximum rents allowed under HTC guidelines, reflecting the Applicant's desire to maintain the affordability of the units. Nevertheless, the effective gross income is $59,015 less than the maximum rents that could be obtained.

Expenses: The Applicant's total annual operating expense projection at $3,442 per unit is within 5% of the Underwriter's estimate of $3,572, derived from the TDHCA database. The Applicant's budget shows several line item estimates that deviate significantly when compared to the database averages, particularly: general and administrative ($14.4K lower), utilities ($21K lower) and repairs and maintenance ($25.7K higher). It should further be noted that the City of Port Arthur has agreed to contribute an annual amount that effectively acts as a rebate of .38 cents per dollar of increased taxable value on the property caused by the improvements planned by the Developer up to $38,000 per year for ten years. This amount was netted against property taxes for the first ten years of the operating proforma.

Conclusion: The proforma and estimated debt service result in a debt coverage ratio (DCR) above the current underwriting maximum guideline of 1.30. The Underwriter's analysis suggests the property can support $266,177 in annual debt service. Therefore, the recommended financing structure reflects a increase in the permanent mortgage based on the interest rate and amortization period indicated in the permanent financing documentation submitted at application. This is discussed in more detail in the conclusion to the "Financing Structure Analysis" section (below).

Long-Term Feasibility: The underwriting 30-year proforma utilizes a 3% annual growth factor for income and a 4% annual growth factor for expenses in accordance with current TDHCA guidelines. As noted above, the Underwriter's base year effective gross income, expense and net operating income were utilized resulting in a debt coverage ratio that remains above 1.10 and continued positive cashflow. Therefore, the development can be characterized as feasible for the long-term.

ACQUISITION VALUATION INFORMATION

ASSESSED VALUE

Land: (12.207) acres	$99,010	**Assessment for the Year of:**	2005
Tax Rate:	3.217912	**Valuation by:**	Jefferson County Appraisal District

EVIDENCE of SITE or PROPERTY CONTROL

Type of Site Control:	Unimproved commercial property contract (12.207 acres)		
Contract Expiration:	8/19/2006	**Valid through Board Date?**	☒ Yes ☐ No
Acquisition Cost:	$1,000,000	**Other:**	Earnest Money: $5,000
Seller:	Lois McKee	**Related to Development Team?**	☐ Yes ☒ No

CONSTRUCTION COST ESTIMATE EVALUATION

Acquisition Value: The site cost of $81,900 per acre or $7,937 per unit is assumed to be reasonable since the acquisition is an arm's-length transaction.

Sitework Cost: The Applicant's claimed sitework costs of $7,499 per unit are within current Department guidelines. Therefore, further third party substantiation is not required.

Direct Construction Cost: The Applicant's direct construction cost estimate is $130K or 2.2% higher than the Underwriter's Marshall & Swift *Residential Cost Handbook*-derived estimate.

Fees: The Applicant's contractor's and developer's fees for general requirements, general and administrative expenses, and profit are all within the maximums allowed by TDHCA guidelines.

Conclusion: The Applicant's total development cost is within 5% of the Underwriter's estimate; therefore, the Applicant's cost schedule will be used to determine the development's need for permanent funds and to calculate eligible basis. An eligible basis of $10,629,178 supports annual tax credits of $1,075,130. This figure will be compared to the Applicant's request and the tax credits calculated based on the gap in need for permanent funds to determine the recommended allocation.

FINANCING STRUCTURE ANALYSIS

Interim to Permanent Financing: Construction and permanent loan financing in the amount of $2,975,000 will be provided by Collateral Mortgage Capital LLC at a rate of 7.0% with an 18 year term and 30 year amortization. The permanent financing commitment is inconsistent with the terms reflected in the sources and uses of funds listed in the application. In particular, the loan amount is stated as $2,175,000 and needs to be updated.

Funding by Local Political Subdivision: The City of Port Arthur has agreed to pay to Legacy Senior Housing of Port Arthur, LP, the lesser of $38,000 per year or .38 per cent of the increased taxable value on the property caused by the construction, for the time period commencing on January 1st of the year that the apartment complex has received its certificate of occupancy and for ten years thereafter. The total funds to be paid by the city shall not exceed $380,000. Due to the fact that the $380,000 will be paid over a ten year period and not in a one lump sum this figure has been removed from the source of funds and just considered as a net reduction to operating expenses.

HTC Syndication: The tax credit syndication commitment is inconsistent with the terms reflected in the sources and uses of funds listed in the application. In particular, the proceeds are stated as $9,588,505.

Financing Conclusions: As stated above, the proforma analysis results in a debt coverage ratio above the Department's maximum guideline of 1.30. The underwriting analysis assumes an increase in the permanent loan amount of $359,041 to $3,334,041 based on the terms reflected in the application materials. Receipt, review and acceptance of a revised permanent loan commitment reflecting the additional principal or initial after conversion deferred developer fee in the same amount or some combination of additional debt and deferred developer fee in the same amount which allows the Underwriter's effective debt coverage ratio to be not more than 1.30, is a condition of this report. As a result the development's gap in financing will decrease. The Applicant's total development cost estimate less the permanent loan of $3,334,041 indicates the need for $8,937,805 in gap funds. Based on the submitted syndication rate of $93%, a tax credit allocation of $961,150 annually would be required to fill this gap in financing. The syndication rate proposed in the commitment is on the low side of current credit prices. If the final syndication rate were to increase at all, an excess of funds would exist, all else held constant, and a reduction in recommended tax credits would be required based on the gap method of determining credits.

DEVELOPMENT TEAM

IDENTITIES of INTEREST

- The Applicant, Developer, and supportive services provider are related entities. These are common relationships for HTC-funded developments.

APPLICANT'S/PRINCIPALS' FINANCIAL HIGHLIGHTS, BACKGROUND, and EXPERIENCE

Financial Highlights:

- The Applicant and General Partner are single-purpose entities created for the purpose of receiving assistance from TDHCA and therefore have no material financial statements.
- The principal of the General Partner, Huelon Harrison, submitted an unaudited financial statement as of January 15, 2006 and is anticipated to be guarantor of the development.

Background & Experience: Multifamily Production Finance Staff have verified that the Department's experience requirements have been met and Portfolio Management and Compliance staff will ensure that the proposed owners have an acceptable record of previous participation.

SUMMARY OF SALIENT RISKS AND ISSUES

- The Applicant's estimated income, operating expenses and operating proforma are more than 5% outside of the Underwriter's verifiable ranges.
- Significant location risks exist regarding the flood zone designation of AH.
- The development could potentially achieve an excessive profit level (i.e., a DCR above 1.30) if the

maximum tax credit rents can be achieved in this market.

- The significant financing structure changes being proposed have not been reviewed or accepted by the Applicant, lenders, and syndicators, and acceptable alternative structures may exist.

Underwriter:	*Carl Hoover*	**Date:**	July 14, 2006

MULTIFAMILY FINANCE PRODUCTION DIVISION

BOARD ACTION REQUEST
August 30, 2006

Action Item

Five requests for amendments that involve material changes to Housing Tax Credit (HTC) applications are summarized below. Three of the requests concern a second hearing and reconsideration of the decision made on June 26 regarding amendments. The remaining two requests are presented here for the first time.

Requested Action

For the first three requests, the Board is asked to reconsider its initial determination to approve changes regarding two of the developments below and to deny the request related to the third development. For the remaining two requests, the Board is asked to approve, deny or approve with amendments the applicant's request.

Background and Recommendations

§2306.6712, Texas Government Code, classifies some changes as "material alterations" that must be approved by the Board. The requests presented below include material alterations. The code indicates that the Board should determine the disposition of a requested amendment if the amendment is a material alteration, would materially alter the development in a negative manner or would have adversely affected the selection of the application in the application round.

The requests and pertinent facts about the affected developments are summarized below. The recommendation of staff is included at the end of each write-up.

Limitations on the Approval of Amendment Requests

The approval of a request to amend an application does not exempt a development from the requirements of Section 504 of the Rehabilitation Act of 1973, fair housing laws, local and state building codes or other statutory requirements that are not within the Board's purview. Notwithstanding information that the Department may provide as assistance, the development owner retains the ultimate responsibility for determining and implementing the courses of action that will satisfy applicable regulations.

Summary of the Requests Regarding 00005, 00054 and 00144, Below

On May 4, 2006, consistent with the recommendation of staff, the Board approved requests to transfer the general partner interests of 00005, LBJ Garden Villas and 00144, Sycamore Pointe Townhomes and denied a request to transfer the general partner interest in the third development, 00054, Hunter's Glen Townhomes. At the June 26, 2006 Board meeting, the Board directed staff to bring these items for reconsideration in response to a request from Glenn Lynch on behalf of the Applicant.

The three requests referenced above are from three different ownership entities but all requesting approval for transfers of their general partner interests to the same third-party Community Housing Development Organization (CHDO), Operation Relief Community Development Organization (ORCDC). Although the transfers were found to be acceptable under the Department's review of previous participation and financial position, two issues existed that prevented the Department's approval of the requests. First, the credit allocations of the combined developments exceed the $1.8 million limit per applicant in a single year that is required by the 2000 Qualified Allocation Plan and Rules (QAP). Second, the application of each development scored five points for the participation of a Historically Underutilized Business (HUB) as a majority general partner and the points would not be replaced under the current proposal.

With respect to the first issue, §2306, Texas Government Code and §50.6(d) of the 2006 QAP, respectively, state the following:

§2306.6711. Allocation of Housing Tax Credits

(b) Not later than the deadline specified in the qualified allocation plan, the board shall issue commitments for available housing tax credits based on the application evaluation process provided by Section 2306.6710. The board may not allocate to an applicant housing tax credits in any unnecessary amount, as determined by the department's underwriting policy and by federal law, and in any event may not allocate to the applicant housing tax credits in an amount greater than $2 million in a single application round .

2006 QAP, §50.17(e) Housing Tax Credit and Ownership Transfers.

(2306.6713) A Development Owner may not transfer an allocation of housing tax credits or ownership of a Development supported with an allocation of housing tax credits to any Person other than an Affiliate of the Development Owner unless the Development Owner obtains the Executive Director's prior, written approval of the transfer. The Executive Director may not unreasonably withhold approval of the transfer. …

(3) As it relates to the Credit Cap further described in §50.6(d) of this section [below], the credit cap will not be applied in the following circumstances:

(A) in cases of transfers in which the syndicator, investor or limited partner is taking over ownership of the Development and not merely replacing the general partner; or

(B) in cases where the general partner is being replaced if the award of credits was made at least five years prior to the transfer request date.

2006 QAP, §50.6(d) Credit Amount.

… The Department will limit the allocation of tax credits to no more than $1.2 million per Development. The Department shall not allocate more than $2 million of tax credits in any given Application Round to any Applicant, Developer, Related Party or Guarantor; Housing Tax Credits approved by the Board during the 2006 calendar year, including commitments from the 2006 Credit Ceiling and forward commitments from the 2007 Credit Ceiling, are applied to the credit cap limitation for the 2006 Application Round. … Tax-Exempt Bond Development Applications are not subject to these Housing Tax Credit limitations, and Tax-Exempt Bond Developments will not count towards the total limit on tax credits per Applicant. The limitation does not apply (2306.6711(b)):

(1) to an entity which raises or provides equity for one or more Developments, solely with respect to its actions in raising or providing equity for such Developments (including syndication related activities as agent on behalf of investors);

(2) to the provision by an entity of "qualified commercial financing" within the meaning of the Code (without regard to the 80% limitation thereof);

(3) to a Qualified Nonprofit Organization or other not-for-profit entity, to the extent that the participation in a Development by such organization consists only of the provision of loan funds, grants or social services; and

(4) to a Development Consultant with respect to the provision of consulting services, provided the Development Consultant fee received for such services does not exceed 10% of the fee to be paid to the Developer (or 20% for Qualified Nonprofit Developments), or $150,000, whichever is greater.

The statute is clear in placing limits on awards to a single applicant at the time of the application round. However, the intended duration of the limits is not apparent in the statute. Continuing the duration indefinitely and applying the limit to transfers could impede the efficient operation of a development. There is no readily apparent intention in the rule beyond assuring effective competition during the application round.

The Department therefore believed that it was appropriate to consider transfers that involve exceeding the credit limit in some cases and the 2006 QAP reflects that belief. Please note that two of the three transfers below could be accomplished without violating the credit limit; the Board may also have a basis for approving all three requests if desired. A discussion of the HUB issue is given case by case below.

<u>LBJ Garden Villas, HTC No. 00005, formerly 99054, a forward commitment from 1999</u>

<u>Summary of Request</u>: This development scored 87 points with the five HUB points. Without the five points, the development would have scored at least one point lower than the lowest scoring developments that received awards in the same (general) set-aside but staff cannot confirm a determination that the development would have received a forward commitment with five less points. It should be noted, however, that under the ownership that is currently proposed, the development would have been eligible for an award from the nonprofit set-aside. In that set-aside, the development would have scored higher without the HUB points than both developments that received allocations from the subject region in 1999.

Governing Law:	§2306.6712, Texas Government Code. The requirements of Section 504 of the Rehabilitation Act of 1973, fair housing laws, local and state building codes, and other applicable statutory requirements remain effective despite the approval of an amendment request.
Owner:	LBJ Garden Villas, Ltd.
General Partner:	Diva Enterprises, Inc. (HUB)
Developer:	Diva Enterprises, Inc.
Principals/Interested Parties:	Patsy Lynch (51% of GP); Glenn Lynch (49% of GP)
Syndicator:	Red Capital
Construction Lender:	BankOne
Permanent Lender:	Federal Mortgage Assistance Corporation
Other Funding:	NA
City/County:	Mesquite/Dallas
Set-Aside:	General Population
Type of Area:	Exurban
Type of Development:	New Construction
Population Served:	General Population
Units:	156 HTC units and 52 market rate units
2000 Allocation:	$804,680
Allocation per HTC Unit:	$5,158
Prior Board Actions:	7/99 - Approved award of tax credits.
Underwriting Reevaluation:	To be determined.
Staff Recommendation:	**Final recommendation on the third development narrative.**

<u>Hunter's Glen Townhomes, HTC No. 00054</u>

<u>Summary of Request</u>: This development scored 97 points with the HUB points and would have scored 92 points without them. At the lower score, the development would still have exceeded the score of one development that received an allocation in the subject region and would have equaled the score of another.

Governing Law:	§2306.6712, Texas Government Code. The requirements of Section 504 of the Rehabilitation Act of 1973, fair housing laws, local and state building codes, and other applicable statutory requirements remain effective despite the approval of an amendment request.
Owner:	Hunter's Glen Townhomes, L.P.
General Partner:	Cameo Development, Inc. (HUB)
Developer:	Cameo Development, Inc.
Principals/Interested Parties:	Marylyn G. Leonard (51% of GP); David T. Leonard (49% of GP)

Population Served:	General Population
Units:	108 HTC units and 36 market rate units
2000 Allocation:	$929,287
Allocation per HTC Unit:	$8,605
Prior Board Actions:	7/00 - Approved award of tax credits.
Underwriting Reevaluation:	To be determined.
Staff Recommendation:	**Final recommendation on the third development narrative.**

Sycamore Pointe Townhomes, HTC No. 00144

Summary of Request: It does not appear that this development would have scored high enough without the HUB points to have received an award in the general set-aside. Under the current proposal, the development would have been eligible to apply in the Nonprofit Set-Aside and would have exceeded the score of one development and equaled the score of another that received awards from this set-aside. There were no allocations from the Nonprofit Set-Aside to the subject region.

Governing Law:	§2306.6712, Texas Government Code. The requirements of Section 504 of the Rehabilitation Act of 1973, fair housing laws, local and state building codes, and other applicable statutory requirements remain effective despite the approval of an amendment request.
Owner:	Sycamore Pointe Townhomes, L.P.
General Partner:	Provident Homes, Inc. (HUB)
Developer:	Provident Homes, Inc.
Principals/Interested Parties:	Leona Cox (51% of GP); Bobby Cox (49% of GP)
Syndicator:	Enterprise Social Investment Corporation
Construction Lender:	Chase Bank
Permanent Lender:	Federal Mortgage Assistance Corporation
Other Funding:	NA
City/County:	Fort Worth/Tarrant
Set-Aside:	General
Type of Area:	Urban
Type of Development:	New Construction
Population Served:	General Population
Units:	126 HTC units and 42 market rate units
2000 Allocation:	$989,925
Allocation per HTC Unit:	$7,857
Prior Board Actions:	7/00 - Approved award of tax credits.
Underwriting Reevaluation:	To be determined.
Staff Recommendation:	**Staff recommends that the Board approve two of the transfers (LBJ Garden Villas and Sycamore Pointe Townhomes) and deny the transfer of Hunter's Glen Townhomes to avoid exceeding the credit limit cap of $1.8 million imposed by the 2000 Qualified Allocation Plan and Rules.**

<u>Evergreen at Hulen Bend, HTC No. 02441</u>

<u>Summary of Request</u>: The owner requests approval for six two-bedroom units that have studies, to be operated as three-bedroom units. The request states that the reason for the change is to correct an error in the application. In the application, the six units were represented as two-bedroom units with "studies." The studies were proposed to be eight and a half feet by ten feet with double doors to an adjoining bedroom in addition to a single door to a hall. The "studies," like the bedrooms, had closets. The rents for the subject units were proposed to be the maximum 50% rents for two-bedroom units. The foregoing representations were reflected by the application rent schedule and the Department's underwriting report. The underwriting report specified in the narrative that the units with studies were two bedroom units.

As a 2002 tax-exempt bond development, this apartment complex does not appear to be subject to the usual restriction against the inclusion of three-bedroom units in developments for elderly tenants. The 2002 Qualified Allocation Plan (QAP) specifically exempted bond developments from the requirements of the Selection section. In the subject QAP, the rule prohibiting the presence of three-bedroom units in developments for the elderly was not mentioned except in the Selection section.

The unit sizes of the development were above the minimum sizes of 550 square feet for one-bedroom units and 650 square feet for two-bedroom units in elderly developments. The units were built larger than the application proposed, with the six two-bedroom/study (three-bedroom) units increased from 1,025 to 1,072 square feet. The remaining two-bedroom units increased from 843 to 894 square feet and one-bedroom units increased from 750 to 788 square feet. The total size of the development increased from 189,258 to 200,862, or slightly over six percent.

Governing Law:	§2306.6712, Texas Government Code. A modification of the bedroom mix of units is a material alteration under the code. The requirements of Section 504 of the Rehabilitation Act of 1973, fair housing laws, local and state building codes, and other applicable statutory requirements remain effective despite the approval of any amendment request.
Owner:	MAEDC-Hulen Bend Senior Community, L.P.
General Partner:	MAEDC-Hulen Bend GP, LLC
Developers:	Abby-TAC Texas
Principals/Interested Parties:	Maple Avenue Economic Development Corporation, Brad Forslund
Syndicator:	MMA Financial
Construction Lender:	GMAC Commercial Holding Capital Corp.
Permanent Lender:	MMA Financial
Other Funding:	Tax-Exempt Bond Financing
City/County:	Fort Worth/Tarrant
Set-Aside:	Tax-Exempt Bond Financing
Type of Area:	Urban
Type of Development:	New Construction
Population Served:	Elderly
Units:	237 HTC Units
2002 Allocation:	$520,464
Allocation per HTC Unit:	$2,196
Prior Board Actions:	10/02 - Approved award of tax credits.
Underwriting Reevaluation:	To be determined.
Staff Recommendation:	**Staff recommends denying the request. The requested modification would allow the application of three bedroom rents to the units with "studies." The use of these higher rents would be contrary to the original underwriting which was performed with the understanding that the units with studies would be operated as two bedroom units.**

HTC No. 00114, The Haven

Summary of Request: The applicant, Twin City Mission, Inc. (TCM), requested approval to eliminate the provision of the land use restrictive agreement that restricted 100% of the development to use as transitional housing for the homeless. The application scored fifteen points for committing to the restriction. In underwriting the application, the Department noted that the rental assistance available to support the development was short term and temporary. Therefore, a condition of the award required the applicant's board of directors to submit a resolution encumbering its assets, as necessary on an annual basis, to guarantee coverage of the operating expenses and debt service and to fund any operating deficits for at least 30 years. The condition specified $110,186 as the annual amount to be covered by the resolution. To fulfill the requirement, the TCM board resolved on November 13, 2000 to obligate itself to loans to the development owner as necessary to keep the development financially feasible for 30 years or until TCM was removed as the general partner.

To date, the development has been receiving HOME Tenant Based Rental Assistance (TBRA) from the Department but has become ineligible for the funding because of the recent creation of Brazos Valley Housing Consortium (Consortium), an affiliate of the Brazos Valley Council of Governments. TCM must now apply for funding through the Consortium. TCM approached the Consortium for assistance however the Consortium does not have any vouchers available at this time. TCM also explored funding through HUD, but has found none to date that it would be eligible to receive. TCM is unable to generate the funds associated with their original resolution.

If the restrictions are not removed from the subject development, foreclosure appears to be likely and the amount of the tax credit allocation appears to offer no effective incentive to preserve the affordability of the development as transitional housing. Regarding the credits, $150,353 for the four years already used, equals $601,412; and $150,353 for the six remaining years, discounted to the present at 6%, equals $739,334; thus, the total value of the credits is approximately $1,340,746. This amount is less than the present value of the estimated operating subsidy required to make the development's operations feasible. The present value of the required annual subsidy to 12/31/2030, when the affordability period ends, is $110,186 annually discounted at 6% for 26 years equals $1,432,767, or about $92,000 more than the value of the credits. Forms 8609 were issued March 6, 2002.

Without the fifteen points for transitional housing, the subject application would have only scored 78 points and apparently would not have received an award.

Governing Law:	§2306.6712, Texas Government Code. The code indicates that a modification of a development that would have adversely affected the selection of the application in the application round is a material alteration.
Owner:	TCM Haven, Ltd.
General Partner:	Twin City Mission Housing Services, Inc.
Developers:	Emanuel H. Glockzin, Jr.
Principals/Interested Parties:	Emanuel Glockzin is the developer and a member of the TCM board; Doug Weedon, Executive Director of TCM
Syndicator:	WNC & Associates, Inc.
Construction Lender:	First National Bank of Bryan
Permanent Lender:	First National Bank of Bryan
Other Funding:	NA
City/County:	College Station/Brazos
Set-Aside:	General
Type of Area:	Exurban
Type of Development:	New Construction
Population Served:	Homeless (Transitional Housing)

Units:	24 HTC units
2000 Allocation:	$150,353
Allocation per HTC Unit:	$6,265
Prior Board Actions:	7/00 – Approved award of tax credits
Underwriting Reevaluation:	To be determined
Staff Recommendation:	**Staff recommends the Board deny the request because the development would not have received an award due to score and because the applicant provided a resolution at the time of underwriting indicating their ability to fund this deficit if just such a scenario occurred.**

Re: Letter of Explanation and Request for Changes to
(a) Change of Ownership of General Partner, and
(b) Admitting a Special Class B Limited Partner for the following:
LBJ GARDEN VILLAS, LTD., TDHCA #: 99054 9% Allocation
SYCAMORE POITE TOWNHOMES, L.P., TDHCA #: 00144 9% Allocation
HUNTER'S GLEN TOWNHOMES, L.P., TDHCA #: 00054 9% Allocation
CYPRESS VIEW VILLAS, L.P., TDHCA #: 02483 Bond Allocation
ALEMEDA VILLAS, L.P., TDHCA #: 02485 Bond Allocation

Dear Mr. Sheppard:

This letter is to request TDHCA's approval of the transfer of all the shares of stock of the current General Partner, to a Non-Profit entity, Operation Relief Center, Inc., dba Operation Relief Community Development Corporation (herein "ORCDC"), being a 501(c)(3) Non-Profit CHDO.

Due to personal changes and a desire to follow God's will in my life, I have come to the decision to reduce my personal activity in the real estate business. Based on this fact, I have been looking for a non-profit to work with regarding the developments I have constructed, owned and/or managed. In seeking to follow the requirements of the QAP to transfer the interests at current existing debt, it is our desire to insure the properties are transferred to a non-profit organization which has a heart for people and a desire to people's lives improved.

Therefore, the current owners of the referenced developments as described below, and I have decided to work with Mr. Sherman Roberts and the people at Operation Relief Community Development Corporation of Dallas, Texas on the above referenced tax credit developments.

However, due to the lender requirements and personal guarantees which are necessary, the current owners will remain involved by the admission of a Special Class B Limited Partner to the Partnership for the purpose of furnishing guarantees to the lenders and investor limited partners.

Please note that we are asking for a waiver of the credit limit allocation for the year 2000 as regarding ORCDC because transferring these properties will exceed the Tax Credit Limit for that year. However, we will be in compliance with the LURA requirements that developments should preferentially be transferred to a non-profit entity.

The following is a summary of the proposed changes:

Please do not hesitate to call me at (817) 341-1378 if you have any questions or need additional information. As we have managed the properties for some of the other owners, Cox & Leonard, they have also agreed to transfer their interests to ORCDC. Please Note that Glenn W. Lynch is assuming all of the guarantees through the to be admitted Special Limited Partner LLC's and assuming and replacing the guarantees of Cox on Sycamore Pointe Townhomes L.P. and of Leonard on Hunter's Glen Townhomes, L.P. Please also note that the Credit Cap as it relates to ORCDC acquiring the General Partner interests in Hunter's Townhomes, L.P. TDHCA# 00054 and Sycamore Pointe Townhomes, L.P. TDHCA# 00144 is not to be applied to these transactions, because the provisions of Section 50.17(e)(3)(B) in the 2006 QAP is applicable to these transfers. Thank you for your assistance.

Sincerely,

Glenn W. Lynch

HTC No. 02441

Austin, Texas 78701-2410

Re: Evergreen at Hulen Bend – Application Amendment #2 –TDHCA #02441

Dear Mr. Sheppard:

This letter is a follow up to our Request for Application Amendment #2. We are requesting to be placed on the August 30, 2006 TDHCA Board agenda.

The original application, dated August, 2002, included an unit mix comprising 125 750 square foot two bedroom one bath units and 112 843 square foot two bedroom one bath units. This unit mix was revised on September 6, 2002 (Deficiency Response Letter from William Walter, Coats Rose to Shannon Roth, TDHCA) to include 6 1,025 square foot two bedroom one bath units and reduce the number of the 843 square foot units by the same amount. Subsequent to this date, the unit mix was revised to include 114 788 square foot two bedroom one bath units, 117 894 square foot two bedroom one bath units and 6 1,072 three bedroom two bath units. This change was never communicated to the TDHCA. It was however underwritten by the lender and tax credit investor.

In addition to the original request we are seeking approval for the final square footages due to the above changes. The net rentable area in the underwriting was 189,258 and the final is 200,862 or an increase of 6%. The square footage of the clubhouse was 7,500 in the underwriting and the final is 7,965 or an increase of 6%.

Sincerely,

Brad Forslund

RE: TDHCA Contract #00114 – Request for Application Amendment for The **Haven Project**

Dear Mr. Sheppard:

On behalf of TCM Haven, Ltd., I would like to request approval for the following change as an amendment to our application:

- Removal of the Land Use Restriction requiring "Transitional Housing for the Homeless". (See Appendix A – Additional Use Restrictions.)

We would like to request this change for the following reasons:

- Effective March 31, 2007, Twin City Mission, Inc. will no longer have access to funds from TDHCA for tenant-based rental assistance (TBRA), since, in our geographic area, the formation of the Brazos Valley Housing Consortium (with services funded through TDHCA) has eliminated our eligibility to apply for or receive further funding beyond that time.

- Although The Haven has operated successfully and according to the original application for the past six years, our ability to successfully provide transitional housing at The Haven property location under the current conditions has now been significantly compromised as a result of this development. This further necessitates our request for an amendment to the application.

- Although the current arrangement was originally identified by the TDHCA underwriter as potentially high-risk due to the unpredictability of futureTBRA funding, it was also suggested that if the project were to be restructured to become a traditional multifamily development, targeting transitional homeless as rental assistance vouchers became available, then the project would continue to appear to be financially feasible. This change could also ensure the continuing availability of the units as a resource to persons who are homeless and/or with low-incomes in this geographic area.

HTC No. 00114

- Recently, the local Section 8 waiting list was opened (after many months of being closed) and many people are being processed onto that program. This is apparently due, in part, to hurricane evacuation funds being made available in our geographic area. Many of the people in our Haven property want to leave our transitional housing program early for what they believe is a short-term, limited opportunity to receive a Section 8 voucher and thus secure a more permanent housing arrangement.

- The Brazos Valley received many evacuees during Hurricanes Katrina and Rita and our community was impacted in a great number of ways, including decreasing available and accessible housing for the previously existing local homeless population.

- Finally, because Twin City Mission is firmly committed to assisting people out of homelessness, we are pursuing every opportunity to ensure that any possible option is explored in an effort to retain our ability to do so effectively.

Substitute features that will be installed to compensate for the loss of any features associated with Threshold, Selection or other representations of the application:

- Twin City Mission would continue to provide Supportive Services to homeless persons in obtaining permanent housing. In fact, as a result of recent approval of HUD funds, these services are currently expanding in our agency with the addition of a new case manager and new HUD rental assistance funds. Although these funds cannot be used to pay rent at The Haven since Twin City Mission is a part owner in the property, the funds will be used in scattered site housing locations throughout the Brazos Valley Region to continue to provide transitional housing services.

- Supportive services would continue to be made available to persons living in The Haven units and the case manager would continue to be located on-site to provide those services. Participation in the self-sufficiency program would be strongly encouraged for persons transitioning from homeless situations.

- Twin City Mission will work even more closely with the Housing Authority of the Brazos Valley Council of Governments to ensure prospective tenants are referred from their waiting list, outreaching specifically to persons experiencing homelessness.

- We do not anticipate a change in the income demographics associated with the persons who will be served in the program, nor are we requesting changes to the rental restrictions. Further, we do not anticipate changes requiring updates to any of the forms referenced in the application amendment instructions, but have included the current version of our financing participants.

Thank you for your consideration of our request. We look forward to your response. Should you have questions or require further clarification, please do not hesitate to contact me at 979-822-7511 or weedond@twincitymission.org.

Sincerely,

Doug Weedon

Request for Application Amendment
The Haven, Ltd.
TDHCA Contract # 00114

What we are requesting:

Removal of the Land Use Restriction requiring TCM Haven, Ltd. to provide "Transitional Housing for the Homeless" as referenced in Appendix A – Additional Use Restrictions.

Reasons for the request:

1. Effective March 31, 2007, Twin City Mission, Inc. is no longer eligible to apply for or receive TDHCA tenant-based rental assistance funding in the Brazos Valley Region because of the formation of the Brazos Valley Housing Consortium. The Consortium is using their funds for low-income home purchasing, thus eliminating a significant resource previously available to assist with rental assistance for homeless persons in this area. This was an unexpected and unanticipated turn of events for our agency.
2. We have been unable to locate alternate sources of funding to fill the units at The Haven which comply with the current property restrictions.
3. We are committed to assisting persons experiencing homelessness and domestic violence through providing services that have been proven to have an impact on ending homelessness and domestic violence. Lifting the restriction would continue to ensure low-income units are available to persons experiencing homelessness and domestic violence while they receive supportive services in the Brazos Valley Region. Further, we initially built The Haven due to a significant lack of affordable housing in this geographic area.

What we've done to comply with our original obligations:

1. The Haven property has been in compliance with the original agreement for the past six years, providing a critical resource in assisting persons in the Brazos Valley Region out of homelessness. Despite initial reservations by TDHCA underwriters about the financial viability of renting to persons experiencing homelessness, we have demonstrated the ability to do so with success. Further, this housing resource has made a huge

difference in the lives of the persons served. (See The Haven Financial Statements.)

2. In an effort to comply with the additional TDHCA requirement to encumber funds in the amount of $110,186 as a safeguard, a separate bank account was set up to hold funds for this purpose. The balance is currently at $39,890.46 and, to date, there has been no need to supplement or access these funds on behalf of the property. (See First National Bank Statement.)
3. Although Twin City Mission is a very stable, well-supported non-profit organization in this community, to divert the encumbered funds each year would certainly have a very negative impact on the client services we are able to provide in this area. (See Twin City Mission Audits.)

<u>What we've done to try to obtain alternate resolutions to comply with agreement:</u>

1. Requested that the restriction placed on our current TDHCA funds be modified to eliminate "disability" as a requirement, as this restriction limited who was able to access these funds and limited who could be placed at The Haven property. This request was denied. (See TDHCA letter dated June 20, 2005.)
2. Requested an extension to the end date of our current TDHCA rental assistance contract. The extension was approved, however, funding will end March 31, 2007.
3. Were advised by TDHCA in 2005 that we would be ineligible to apply for further rental assistance funding due to the development of the Brazos Valley Housing Consortium.
4. Applied for a new project from HUD Continuum of Care funds for rental assistance that would take effect 5/1/06. We were approved for $322,576 for leasing and staff, however, later learned that HUD would not allow the rental assistance funds to be used to pay rent at a property in which we had any part ownership. (See excerpt from HUD contract.)
5. Met with representatives from the Brazos Valley Housing Consortium on September 1, 2005 to ensure their awareness of the effect of the formation of the group on existing community resources and to attempt to develop possible solutions. There was discussion about designating set-aside Section 8 vouchers for homeless persons through the Council of Governments, but there was no commitment to change the focus of the Consortium, which is home-building, despite the negative impact on existing TBRA resources.
6. Contacted TDHCA to determine the appropriate steps to take to attempt to resolve this issue in the most expeditious manner possible to limit the negative financial impact on the property.

What would change as a result of the approval:

1. It is expected that most of the units would be filled with persons who have obtained a Section 8 voucher, typically as a result of working with our Housing Services staff. Additionally, persons who are employed and who meet the income guidelines would also be eligible for housing at this location.
2. Twin City Mission would continue to provide Supportive Services to homeless persons and victims of domestic violence in obtaining permanent housing. In fact, as a result of recent approval of HUD funds, these services are currently expanding in our agency with the addition of a new case manager and new HUD rental assistance funds. Although these funds cannot be used to pay rent at The Haven since Twin City Mission is a part owner in the property, the funds will be used in scattered site housing locations throughout the Brazos Valley Region to continue to provide transitional housing services.

3. Supportive services would continue to be made available to persons living in The Haven units and the case manager would continue to be located on-site to provide those services. Participation in the self-sufficiency program would be strongly encouraged for persons transitioning from homeless and/or domestic violence situations.

4. Twin City Mission will work even more closely with the Housing Authority of the Brazos Valley Council of Governments to ensure prospective tenants are referred from their waiting list, outreaching specifically to persons experiencing homelessness.

5. We do not propose a change to any other feature of the development, including the number of units targeted to each rent and income level (i.e., the rent schedule would not change from the schedule presented in the application.

MULTIFAMILY FINANCE PRODUCTION DIVISION

BOARD ACTION REQUEST

August 30, 2006

Action Items

Presentation, discussion and possible approval of waiver of §50.6(d) of the 2006 Qualified Allocation Plan (QAP) to allow adequate adjustment for cost increases associates with 2006 competitive housing tax credit applications exceeding the non-statutory $1,200,000 credit limitation, waiver of the 2006 QAP §50.13(a) requirement to issue all Commitment Notices within 10 days of Board approval, and possible use of 2007 forward commitments for any overage of commitments.

Required Action

Approve, Amend or Deny staff's recommendation.

Background

- **Item I**: At the July 28, 2006 Board meeting, the Board approved a waiver of §50.3(5) of the 2006 QAP, which allowed staff to utilize a higher applicable percentage than those required in the 2006 QAP and thereby recalculate the eligible credit. This action was approved to help ensure the financial feasibility of the awarded transactions as interest rates and construction costs continue to increase.

  The waiver approved on July 28 restricted credit increases to a maximum of $1,200,000, which is the maximum allowable credit award pursuant to §50.6(d) of the QAP which says, "…The Department will limit the allocation of tax credits to no more than $1.2 million per Development."

  There have been several public requests for the Department to apply the higher applicable percentage for nine 2006 developments with awards that were capped at $1.2 million (see attached example request from Locke Liddell & Sapp, LLP). These developments would disproportionately benefit from the higher applicable percentage because some have an eligible basis to support significant increases above the $1.2 limit without the applicable percentage change. Applying the higher applicable percentage would increase the credits awards for these 9 developments by an estimated total of $500,780 additional credits. It should be noted that there will not be enough remaining credits in the 2006 ceiling to award the estimated $500,780 additional credits.

- **Item II:** Due, in part, to the waiver approved at the July 28, 2006 Board meeting, which required additional time to underwrite awarded applications, some commitment notices have not been issued pursuant to §50.13(a) of the QAP, which requires the Department to issue commitment notices within 10 days of Board approval. Due to the circumstances, staff requests the waiver of this requirement for all awards made on or after the July 28, 2006 Board meeting. Staff will ensure that commitment notices will be issued within 30 days of final Board action on an item (i.e., appeals, APR increases, awards, etc.).

Recommendation

Item I. Staff does not recommend the Board waive the $1,200,000 maximum allowable credit award pursuant to §50.6(d) of the QAP for the 2006 Housing Tax Credit Competitive Cycle. However, should the Board approve the waiver of the $1,200,000 maximum; staff recommends the use of national pool and/or 2007 forward commitments for any credit award above the $1,200,000.

Item II. Staff recommends the Board waive the requirement of the Department to issue commitment notices within 10 days of Board approval pursuant to §50.13(a) of the QAP. This waiver would apply to all awards made on or after the July 28, 2006 Board meeting.

MEMORANDUM

TO: Michael Gerber

FROM: Cynthia Bast

DATE: July 31, 2006

RE: **Additional Tax Credits for 2006 Application Round**

At the July 28 Board meeting, the TDHCA Board approved a policy (the "**New Policy**") to raise the underwriting applicable percentages for the 2006 Application Round, allowing the successful 2006 tax credit applicants to receive additional tax credits. In the published Board Action Item, staff indicated that this increase in credits would not apply for projects that are restricted by the $1.2 million per development limitation. Specifically, staff stated:

> Allowing such an increase in the applicable percentage would only increase the credit for transactions that were not already limited in credit by the $1.2 million **statutory** limit per transaction and those that were not already provide[d] as much as is necessary in a gap based approach. (e*mphasis added)*

This statement is misleading because it implies that the $1.2 million per development limitation is imposed by **statute**. It is not. Rather, the $1.2 million per development limitation is imposed by the **rule** of the Qualified Allocation Plan. Section 50.6(d) of the 2006 Qualified Allocation Plan says:

> The Department will limit the allocation of tax credits to no more than $1.2 million per Development.

As you know, Section 50.22(a) of the 2006 Qualified Allocation Plan allows the Board to waive any of the provisions of the QAP for good cause shown. Thus, the $1.2 million limitation can be waived with respect to the additional credits, if the Board so chooses.

I approached Mr. Hamby about this issue following the meeting, and he indicated that it could be addressed. By this memorandum, I request that the staff review this situation and, if necessary, place an item on the August 30 Board agenda to waive the $1.2 million credits per development rule, solely with respect to the New Policy. This would allow all applicants to be treated equally and receive additional credits if they are merited.

If I need to file an appeal as to the amount of credits awarded for each of our firm's clients impacted by this matter, please let me know. I would prefer it be handled more expeditiously with a correction to the policy.

Thank you very much for allowing me to call this to your attention. Please feel free to contact me if you have any questions.

Tom Gouris

Housing Tax Credit Program
Board Action Request
August 30, 2006

Action Item

Request review and board determination of two (2) four percent (4%) tax credit applications with other issuers for tax exempt bond transaction.

Recommendation

Staff is recommending that the board review and approve the issuance two (2) four percent (4%) Tax Credit Determination Notices with **other issuers** for the tax exempt bond transactions known as:

Development No.	Name	Location	Issuer	Total Units	LI Units	Total Development	Applicant Proposed Tax Exempt Bond Amount	Requested Credit Allocation	Recommended Credit Allocation
060424	Lafayette Village Apartments	Houston	Harris County HFC	180	180	$26,444,244	$14,100,000	$1,074,454	$1,074,454
060425	Baypointe Apartments	Webster	Harris County HFC	236	236	$24,304,022	$13,600,000	$956,177	$956,177

MULTIFAMILY FINANCE PRODUCTION DIVISION

BOARD ACTION REQUEST

August 30, 2006

Action Item

Presentation, Discussion and Possible Issuance of Determination Notices for Housing Tax Credits Associated with Mortgage Revenue Bond Transactions with other Issuers.

Requested Action

Approve, Amend or Deny the staff recommendation for the Lafayette Village Apartments.

Summary of the Transaction

The Issuer for this transaction is Harris County HFC. The development is to be located at the 4822 East Sam Houston Parkway North in Houston. Demographics for the census tract (2330) include AMFI of $68,195; the total population is 10,349; the percent of population that is minority is 56.83%; the percent of population that is below the poverty line is 10.29%; the number of owner occupied units is 2,430; the number of renter units is 1,008 and the number of vacant units is 178. The percent of population that is minority for the entire City of Houston is 69% (Census information from FFIEC Geocoding for 2006). The development is new construction and will consist of 250 total units targeting the general population, with all affordable. There is no zoning required for the Houston area. The Department has received no letters of support and no letters of opposition.

This application was previously brought before the Board at the May 26, 2005 Board meeting and the Board approved an allocation of $763,719. The application was re-submitted because the applicant is requesting an increase in tax credits due to the Internal Revenue Service declaring Harris County a Difficult Development Area (DDA) after Hurricane Rita hit the southeast Texas coast. The DDA designation allows a thirty percent increase in the amount of housing tax credits. TDHCA was originally the Issuer of the bonds for this transaction. However, Harris County will reissue bonds and redeem the outstanding bonds with the Department.

The application was received on August 11, 2006 and will require a waiver of the requirement to submit the application materials 60 days prior to the Board meeting pursuant to 10 TAC §50.12(a)(2).

The bond priority for this transaction is:

☒ **Priority 2:** Set aside **100%** of units that cap rents at 30% of **60%** AMFI
(MUST receive 4% Housing Tax Credits)

Recommendation

Staff recommends that the Board approve the issuance of a Determination Notice for Housing Tax Credits for the Lafayette Village Apartments and waive the requirement to submit the application materials 60 days prior to the Board meeting pursuant to 10 TAC §50.12(a)(2).

CONDITIONS OF COMMITMENT

Per §50.12(c) of the Qualified Allocation Plan and Rules, all Tax Exempt Bond Development Applications "must provide an executed agreement with a qualified service provider for the provision of special supportive services that would otherwise not be available for the tenants. The provision of such services will be included in the Declaration of Land Use Restrictive Covenants ("LURA")."

Receipt, review, and acceptance of an opinion from The Murillo Company on the necessity of a noise study and lead in drinking water.

Receipt, review, and acceptance of a letter from the architect or contractor stating intention to comply with the QAP regarding construction of buildings one foot above the base flood elevation and parking no more than six inches below the base flood elevation.

Board waiver of its QAP rule under Section 50.12(a)(2) regarding the submission of all documentation (including the market study) at least 60 days prior to the scheduled Board meeting at which the decision to issue a determination notice would be made.

Should the terms and rates of the proposed debt or syndication change, the transaction should be re-evaluated and an adjustment to the credit/allocation amount may be warranted.

RECOMMENDATION

☒ RECOMMEND APPROVAL OF A HOUSING TAX CREDIT ALLOCATION NOT TO EXCEED $1,074,454 ANNUALLY FOR TEN YEARS, SUBJECT TO CONDITIONS.

CONDITIONS

1. Receipt, review, and acceptance of an opinion from The Murillo Company on the necessity of a noise study and lead in drinking water.

[1] Previously approved for credits of $763,719 but plans to repay bond and rescind credits if the proposed financing structure is approved.

2. Receipt, review, and acceptance of a letter from the architect or contractor stating intention to comply with the QAP regarding construction of buildings one foot above the base flood elevation and parking no more than six inches below the base flood elevation.
3. Board waiver of its QAP rule under Section 50.12(a)(2) regarding the submission of all documentation (including the market study) at least 60 days prior to the scheduled Board meeting at which the decision to issue a determination notice would be made.
4. Should the terms and rates of the proposed debt or syndication change, the transaction should be re-evaluated and an adjustment to the credit/allocation amount may be warranted.

REVIEW of PREVIOUS UNDERWRITING REPORTS

Lafayette Village Apartments was submitted and underwritten in the 2005 MRB with 4% HTC cycle. The underwriting analysis recommended the project be approved subject to the following conditions:

1. Acceptance by the Board of the anticipated potential redemption of up to $950,000 in bonds at the conversion to permanent;
2. Receipt, review, and acceptance of a letter from the architect or contractor stating intention to comply with the QAP regarding construction of buildings one foot above the base flood elevation and parking no more than six inches below the base flood elevation.
3. Receipt, review, and acceptance of a commitment from the related party general contractor to defer fees as necessary to fill a potential gap in permanent financing;
4. Should the terms and rates of the proposed debt or syndication change, the transaction should be re-evaluated and an adjustment to the credit amount may be warranted.

The development is currently under construction however, the Applicant has reapplied with the request for a new bond and tax credit allocation before the construction has been completed and placed in service. Originally, The Department was the issuer of the bonds, but those bonds will be fully repaid and the original credit determination will be rescinded if the proposed new financing structure is approved and executed. The unit mix and set aside will remain the same as originally proposed.

DEVELOPMENT SPECIFICATIONS

IMPROVEMENTS

Total Units: 250 **# Res Bldgs** 25 **# Non-Res Bldgs** 1 **Age:** N/A yrs **Vacant:** N/A at / /

Net Rentable SF: 257,412 **Av Un SF:** 1,030 **Common Area SF:** 5,000 **Gross Bldg SF:** 262,412

ARCHITECTURAL REVIEW

The building and unit plans are comparable to other modern apartment developments. They appear to provide acceptable access and storage. The elevations reflect attractive buildings.

STRUCTURAL MATERIALS

The structures are constructed on gypcrite over plywood. According to the plans provided in the application the exterior are 70% cement fiber, and 30% brick. The interior wall surfaces will be drywall and the roofs are finished with composite shingles.

UNIT FEATURES

The interior flooring are 60% carpet and 40% ceramic tile. Threshold criteria for the 2006 QAP requires all development units to include: mini blinds or window coverings for all windows, a dishwasher, a disposal, a refrigerator, an oven/range, an exhaust/vent fax in bathrooms, and a ceiling fan in each living area and bedroom. New construction units must also include three networks: one for phone service, one for data service, and one for TV service. In addition, each unit will include: microwave, laundry connections, a ceiling fixture in each room, warm and cooled air, an individual water heater, and nine-foot ceilings.

ONSITE AMENITIES

In order to meet threshold criteria for total units of 200 or more, the Applicant has elected to provide a barbecue or picnic table for every 50 units, a community laundry room, controlled access gates, an enclosed sun porch or covered community porch, an equipped business center or computer learning center, full perimeter fencing, a furnished community room, a furnished fitness center, public telephone(s) available to tenants 24 hours a day, a swimming pool, and two children’s playgrounds equipped for 5 to 12 year olds, two tot lots, or one of each.

Uncovered Parking: 232 spaces **Carports:** 0 spaces **Garages:** 250 spaces

PROPOSAL and DEVELOPMENT PLAN DESCRIPTION

Description: The subject is a 15-unit per acre under construction development located in Houston. The development is comprised of a combination of 23 evenly distributed garden style and 2 townhome residential buildings as follows:

No. of Buildings	No. of Floors	1BR	2BR	3BR
1	3	22	0	0
1	2	10	0	0
4	2	0	10	0
7	2	0	10	0
8	2	2	8	0
2	2	2	8	0
2	2	0	0	4

The development includes a 5,000 square foot amenity center complete with a leasing office, business center, activity room, computer classroom, fitness, center, laundry facility, and maintenance and mail box areas.

SITE ISSUES

SITE DESCRIPTION

Total Size: 17.1545 acres
Scattered sites? ☐ Yes ☒ No

Flood Zone: Zone X (Partially in Zone AE)
Within 100-year floodplain? ☒ Yes ☐ No

Current Zoning: N/A
Needs to be re-zoned? ☐ Yes ☐ No ☐ N/A

SITE and NEIGHBORHOOD CHARACTERISTICS

Location: The subject site is located at 4822 East Sam Houston Parkway North on the east side of the north-bound service road to Beltway 8, north of Woodforest Boulevard, in Harris County, Texas.

Adjacent Land Uses:

- **North:** Commercial and residential uses, and Tributary of Carpenter Bayou immediately adjacent and beyond;
- **South:** Commercial and residential uses immediately adjacent and beyond;
- **East:** Commercial and residential uses, and Carpenter Bayou immediately adjacent and beyond; and
- **West:** East Sam Houston Parkway North/Beltway Eight immediately adjacent and vacant land and residential uses beyond.

Site Access: The site is accessible via Interstate Highway 10, Wallisville Road, and Woodforest Boulevard running east and west, and Beltway 8, Uvalde Road, and Sheldon Road running north and south.

Public Transportation: According to the Market Analyst, “The neighborhood is well-located within the Metropolitan Area's transportation infrastructure” (p.25).

Shopping & Services: The site is within close proximity to major grocery/pharmacies, shopping centers, North Channel Branch of Harris County Public Library, and a variety of other retail establishments and restaurants. Schools, churches, and hospitals and health care facilities are also located within a short driving distance from the site. No specific mileages from the site were given in the study (TDHCA #05607).

Adverse Site Characteristics:

The following issues have been identified as potentially bearing on the viability of the site for the proposed development:

- **Zoning:** There is no zoning in Houston.
- **Floodplain:** The site is located in Zone X and Zone AE, according to FEMA. Sections of the site are in the 100-year and 500-year floodplain, as well as some outside of both.

Receipt, review, and acceptance of a letter from the architect or contractor stating intention to comply with the QAP regarding construction of buildings one foot above the base flood elevation and parking no more than six inches below the base flood elevation is a condition of this report.

TDHCA SITE INSPECTION

Inspector: TDHCA Staff **Date:** 4/12/2005

Overall Assessment: ☐ Excellent ☒ Acceptable ☐ Questionable ☐ Poor ☐ Unacceptable

Comments: A re-inspection of the site was not completed no is it required given the prior approval.

HIGHLIGHTS of SOILS & HAZARDOUS MATERIALS REPORT(S)

A Phase I Environmental Site Assessment report dated March 11, 2005, was prepared by The Murillo Company and submitted with an application to TDHCA for the same site in 2005 (TDHCA #05607).

Findings:

- **Radon:** "Contact with Texas Commission on Environmental Quality, and review of EPA files indicate that radon is not considered a major problem in the Harris County area." (ESA, p. 19)
- **Floodplain:** "According to the Federal Emergency Management Act (FEMA) Flood Insurance Rate Map (FIRM) Panel Number 48201C0720J (November 6, 1996), this subject property is located in Zone "X and AE", base flood elevations determined to be 29 feet." (ESA, p. 15)

A Phase I Environmental Site Assessment report dated August 16, 2006, and submitted with the current application to TDHCA was prepared by The Murillo Company and contained the following findings and recommendations:

Findings:

- **Floodplain:** "According to the Federal Emergency Management Act (FEMA) Flood Insurance Rate Map (FIRM) Panel Number 48201C0720J (November 6, 1996), this subject property is located in Zone "X and AE", base flood elevations determined to be 29 feet" (ESA, p. 15)
- **Asbestos-Containing Materials (ACM):** "The subject property is a new apartment complex under construction. There is no potential threat for asbestos containing materials…to be present on the property" (p.19).
- **Lead-Based Paint (LBP):** "The subject property is a new apartment complex under construction. There is no potential threat for…lead-based paint to be present on the property" (p.19).
- **Radon:** "Contact with Texas Commission on Environmental Quality, and review of EPA files indicate that radon is not considered a major problem in the Harris County area." (ESA, p. 19)

Recommendations: "We have performed a Phase I Environmental Site Assessment Update in conformance with the scope and limitations of ASTM Standard Practice E1527-00. Any exceptions to, or deletions from this practice are described in body of the report. This assessment has revealed no evidence of Recognized Environmental Conditions in connection with the subject property" (p.21).

Receipt, review, and acceptance of an opinion from The Murillo Company on the necessity of a noise study and lead in drinking water is a condition of this report.

INCOME SET-ASIDE

The Applicant has elected the 40% at 60% or less of area median gross income (AMGI) set-aside.
Any Qualified Residential Rental Project qualifies as a Priority 3 Private Activity Bond allocation (§ 1372.0321).
Two hundred and fifty of the units (100% of the total) will be reserved for low-income tenants. Two hundred and fifty of the units (100%) will be reserved for households earning 60% or less of AMI.

MAXIMUM ELIGIBLE INCOMES						
	1 Person	**2 Persons**	**3 Persons**	**4 Persons**	**5 Persons**	**6 Persons**
60% of AMI	$25,620	$29,280	$32,940	$36,600	$39,540	$42,480

MARKET HIGHLIGHTS

A market feasibility study dated August 17, 2006 was prepared by Patrick O'Connor and Associates, LP ("Market Analyst") and included the following findings:

Secondary Market Information: The Market Analyst did not define a secondary market for the subject development.

Definition of Primary Market Area (PMA): "The subject's primary market is defined as that area within the following zip codes: 77015, 77049, and 77530. The approximate boundaries are: Highway 90 to the north, Greens and Bennig Bayous to the west, Buffalo Bayou to the south, and the San Jacinto River to the east" (p. 25). This area encompasses approximately 62 square miles and is equivalent to a circle with a radius of 4.5 miles.

Population: The estimated 2006 population of the original PMA was 105,246 and is expected to increase by 8.6% to approximately 114,334 by 2011. Since this population exceeds the maximum sized market area of 100,000 as defined by TDHCA Rules and Guidelines for market studies, appropriate downward adjustments are made in the demand analysis to reduce the potential market. The Market Analyst took a prorata percentage of demand to effectively reduce the primary market population to meet the Department's maximum market population requirements rather than defining a specific market area that contains 100,000 persons or less. Within the adjusted primary market area there were estimated to be 30,935 households in 2006.

It should be noted, while this method of determination may provide an acceptable inclusive capture rate result, it is a poor practice and should be discouraged. The market Analyst should define an original primary market area that meets the Department's requirements

Total Market Demand: The Market Analyst elected not to utilize a household size-appropriate adjustment rate. The Analyst's income band of $23,520 to $39,540 (p. 69) results in an income eligible adjustment rate of 12.17% (p. 70). The tenure appropriate adjustment rate of 36.15% is specific to the target population (p. 69). The Market Analyst indicates a turnover rate of 65% applies based on IREM data (p. 70).

In addition, "Section 8 vouchers will also be accepted at the subject property. The demand created by Section 8 renters will be added to the demand for rent-restricted units. At the suggestion of Tom Gouris, Director of Real Estate Analysis at the TDHCA, theoretical demand from Section 8 vouchers in the PMA is calculated by multiplying the total number of vouchers for the entire city by the ratio of income-qualified households in the PMA to the voucher income-qualified households in Houston. The number of Section 8 vouchers available was determined by contacting the local housing authority with jurisdiction over the subject's location, which in this case was the City of Houston. The number of income-qualified households was determined by calculating the number of households in the PMA earning below the minimum income required to rent at the subject property, which equated to 21.54% of the households earning below $23,520. Since the purpose of this calculation is to determine the theoretical number of vouchers available within the PMA, and virtually all voucher holders are renters, we have not applied a renter percentage. The percentage of seniors to the total population was applied to factor our non-seniors. The number of income-qualified households in Houston was determined by calculating the number of households in the PMA earning below the maximum income required to obtain a Section 8 voucher (80% of AMI)…According to the Housing Authority to the Housing Authority of the City of Houston's PHA Plan, Annual Plan for Fiscal Year 2006, there were a total of 14,898 existing housing vouchers administered by the Housing Authority of the City of Houston. Theoretical demand from Section 8 Vouchers is calculated by multiplying the total number of vouchers by the ratio of income-qualified Senior households in the PMA and in Houston. Utilizing the typical 65% turnover rate, total theoretical demand from Section 8 vouchers is estimated to be 237 units…"(p. 71).

MARKET DEMAND SUMMARY				
	Market Analyst		Underwriter	
Type of Demand	**Units of Demand**	**% of Total Demand**	**Units of Demand**	**% of Total Demand**
Household Growth	83	3.3%	50	3%
Resident Turnover	2,277	90.59%	1,541	84%
Other Sources: Section 8	237	9.41%	244	13%
TOTAL DEMAND	**2,514**	**100%**	**1,835**	**100%**

p. 74

Inclusive Capture Rate: The Market Analyst calculated an inclusive capture rate of 20.85% based upon 2,514 units of demand and 524 unstabilized affordable housing in the PMA (including the subject) (p. 74).

The Underwriter calculated an inclusive capture rate of 15% based upon a revised supply of 280 unstabilized comparable affordable units divided by a revised demand estimate for 1,835 affordable units.

Unit Mix Conclusion: "The under-construction subject property will have 21 % one-bedroom units, 45 % two-bedroom units, and 34 % three-bedroom units. Based on discussions with leasing agents and our own analysis of the rental rates at the selected comparables in the primary market, the subject unit mix is appropriate and will complement the local affordable housing market. Because the average household size is 3.23 persons, and approximately 39.60% of the households consist of 4 persons or more, having over 20% of the unit mix in three bedroom units is considered appropriate" (p. 11).

Market Rent Comparables: The Market Analyst surveyed five comparable apartment projects totaling 918 units in the market area.

RENT ANALYSIS (net tenant-paid rents)					
Unit Type (% AMI)	**Proposed**	**Program Max**	**Differential**	**Est. Market**	**Differential**
1-BR (60%/MRB)	$612	$613	-($1)	$740	-($128)

2-BR (60%/MRB)	$736	$736	$0	$1,085	-($349)
3-BR (60%/MRB)	$843	$736	$0	$1,085	-($242)
3-BR (60%/MRB)	$843	$736	$0	$1,140	-($297)
3-BR (60%/MRB)	$843	$843	$0	$1,145	-($302)
3-BR (60%/MRB)	$843	$843	$0	$1,165	-($322)
3-BR (60%/MRB)	$843	$843	$0	$1,195	-($352)

(NOTE: Differentials are amount of difference between proposed rents and program limits and average market rents, e.g., proposed rent =$500, program max =$600, differential = -$100)

Primary Market Occupancy Rates: "The average occupancy for apartments in the subject's primary market area was reported at 90.19% in the most recent O'Connor & Associates Apartments Database survey (June 2006). According to the survey, occupancy in the primary market area in June 2006 has decreased slightly from the prior quarter. Average occupancy in the primary market area has remained in the high 80% to the lower 90's since September 1995 with the exception of the most recent five quarters. Based on our analysis of the market, moderate increases in occupancy are projected for this market." (p. 41).

Absorption Projections: "Considering the strong absorption history of similar properties and the lack of available quality affordable units in this market, we project that the subject property will lease an average of 20-25 units per month until achieving stabilized occupancy. We anticipate that the subject property will achieve stabilized occupancy within six to twelve months following completion" (p.81).

Unstabilized, Under Construction, and Planned Development: "… there are three existing HTC projects within the subject's primary market area. There are no HTC projects currently under construction, other than the subject. The Sterling Green Village and Forest Creek Apartments are both located within a two-mile radius of the subject and within the PMA. Sheldon Ranch, an approved 30-unit 4 bedroom single-family residences Family HTC, is also located within two miles of the subject. Typically, HTC projects in the Greater Houston area have achieved stabilized occupancy at a rapid pace, most likely due to the projects being new and superior compared to older multifamily projects. The subject should be able to reach a stabilized occupancy level within 12 months of completion. Pre-leasing should begin prior to completion of the construction" (p. 41).

Furthermore, Olive Grove Manor (TDHCA #05198) is a 160 unit senior development located within the subject's defined PMA boundary. However, units for developments exclusively targeting seniors are not included in the inclusive capture rate analysis for developments targeting families.

Market Impact: "Based on the high occupancy levels of the existing properties in the market, along with the strong recent absorption history, we project that the subject property will have minimal sustained negative impact upon the existing apartment market. Any negative impact from the subject property should be of reasonable scope and limited duration" (p. 81).

Other Information: The Department commissioned a market study for the Houston-Baytown-Sugar Land Metropolitan Statistical Area (MSA). The proposed development is located in the Far East (#12) submarket within the Houston MSA. According to the Department market study; there are 6 units of demand for 1-bedroom units at the 60% income level; 8 units of demand for 2-bedroom units at the 60% income level; and 4 units of demand for 3-bedroom units at the 60% income level (p. III-467).

The Department's market study for the entire MSA does not incorporate demand from turnover as normally allowed in development specific market studies because in an overall study the demand from turnover returns to all of the units in the market area. A development specific market study identifies the demand from turnover as potential demand that can be attract away from existing units and to the proposed development (and any other new developments that have not yet become fully occupied.). Moreover, the subject units were included in the analysis commissioned by the Department.

The Underwriter requested additional information from the Market Analyst to explore these and other differences, but it has not bee received as of the date of this report.

Market Study Analysis/Conclusions: The Underwriter found the market study provided sufficient information on which to base a funding recommendation.

OPERATING PROFORMA ANALYSIS

Income: The Applicant's projected rents collected per unit were calculated by subtracting tenant-paid utility allowances as of March 6, 2006 maintained by the Housing Authority of the City of Houston from the 2006 program gross rent limits. Tenants will be required to pay electric, water, and sewer costs. The Applicant's secondary income and vacancy and collection loss assumptions are in line with current TDHCA underwriting guidelines and effective gross income is within 5% of the Underwriter's estimate.

Expenses: The Applicant's total annual operating expense projection at $3,850 per unit is within 5% of the Underwriter's estimate of $4,048, derived from the TDHCA database, and third-party data sources.

Several of the Applicant's line item expenses, including general and administrative ($27K lower), payroll and payroll tax ($47K lower), utilities ($20K lower), water, sewer and trash ($40K higher), and property tax ($26K higher) varied significantly when compared to the Underwriter's estimates.

Conclusion: Because the Applicant's gross income, total annual operating expense, net operating income are each within 5% of the Underwriter's estimates, the Applicant's proforma is used to determine the development's debt capacity. The proposed permanent financing structure results in an initial year's debt coverage ratio (DCR) of 1.14, which is within the Department's DCR guideline of 1.10 to 1.30.

Long-Term Feasibility: The underwriting 30-year proforma utilizes a 3% annual growth factor for income and a 4% annual growth factor for expenses in accordance with current TDHCA guidelines. As noted above, the Applicant's base year effective gross income, expense and net operating income were utilized resulting in a debt coverage ratio that remains above 1.10 and continued positive cashflow. Therefore, the development can be characterized as feasible for the long-term.

ASSESSED VALUE

Land: 17.233 acres	$2,251,944	**Assessment for the Year of:**	2006
Building:	$915,687	**Valuation by:**	Harris County Appraisal District
Total Assessed Value:	$3,167,631	**Tax Rate:**	3.47163

EVIDENCE of SITE or PROPERTY CONTROL

Type of Site Control: Purchase and sale agreement (17.1545 acres)

Contract Expiration: 8/10/2006 **Valid through Board Date?** ☐ Yes ☒ No

Acquisition Cost: $16,727,506 **Other:**

Seller: Lafayette Village Apartments, LP **Related to Development Team?** ☒ Yes ☐ No

CONSTRUCTION COST ESTIMATE EVALUATION

Acquisition Value: The current owner is a principal of the sole member of the General Partner; therefore the transaction represents an identity of interest. The Applicant submitted a purchaser's statement dated June 15, 2005 between Lafayette Village Apartments, LP and Chand Khan for the subject 17.1545 acre tract. According to the contract, the total purchase price for the 17.1545 acres was $1,695,000. The Applicant also submitted a Purchase and sale agreement dated August 10, 2006 between Lafayette Village Apartments and 250 Lafayette Village Apartments LP (the Applicant). According to the agreement, the purchase price for the subject is estimated to be the total amount of bond and equity proceeds spent by Lafayette Village Apartments, LP for construction to date or approximately $16,727,506. Therefore, the subject's acquisition eligible basis reflects construction-based rather than acquisition-based costs.

Sitework Cost: The Applicant claimed sitework costs over the Department's maximum guideline of $7,500 per unit and provided sufficient third party certification through a detailed certified cost estimate by Mucasey & Associates to justify these costs. In addition, these costs have been reviewed by the Applicant's CPA, Reznick Group to preliminarily opine that $2,377,500 of the total $2,377,500 will be considered eligible. The CPA has not indicated that this opinion of eligibility has taken into account the effect of the recent IRS Technical Advisory Memorandums on the eligibility of sitework costs.

Direct Construction Cost: The Applicant's direct construction cost estimate is $868K or 7% lower than the Underwriter's Marshall & Swift *Residential Cost Handbook*-derived estimate. It should be noted that the Underwriter's original direct construction costs predicted a $878K understatement of the Applicant's original costs and that the current cost projections by the Applicant are within $100K of the Underwriter's revised costs. Moreover, the Underwriter's revised costs are based on current Marshall and Swift costs which reflect a 7.8% increase since the original Underwriting was completed.

Interim Financing Fees: The Underwriter reduced the Applicant's eligible interim financing fees by $4K to bring the eligible interest expense down to one year of fully drawn interest expense. This results in an equivalent reduction to the Applicant's eligible basis estimate.

Fees: The Applicant's contractor's and developer's fees for general requirements, general and administrative expenses, and profit are all within the maximums allowed by TDHCA guidelines.

Conclusion: The Applicant's total development cost is within 5% of the Underwriter's estimate; therefore, the Applicant's cost schedule will be used to determine the development's need for permanent funds and to calculate eligible basis. An eligible basis of $23,277,768 supports annual tax credits of $1,098,478. This figure will be compared to the Applicant's request and the tax credits calculated based on the gap in need for permanent funds to determine the recommended allocation.

FINANCING STRUCTURE

INTERIM TO PERMANENT BOND FINANCING

Source: Capmark **Contact:** Lloyd Griffin

Tax-Exempt: $14,100,000 **Interest Rate:** 6%, fixed, lender's estimate **Amort:** 360 months

TAX CREDIT SYNDICATION

Source: Boston Capital **Contact:** Thomas Dixon

Proceeds: $9,827,815 **Net Syndication Rate:** 91% **Anticipated HTC:** $1,074,454/year

Documentation: ☒ Signed ☐ Term Sheet ☒ LOI ☐ Firm Commitment ☐ Conditional Commitment ☐ Application

Comments:

OTHER

Amount: $1,246,585 ($200K during construction phase) **Source:** Guaranteed Income Contract

Amount: $1,273,844 **Source:** Deferred Developer Fee

FINANCING STRUCTURE ANALYSIS

Interim to Permanent Bond Financing: The tax-exempt bonds are to be issued by Harris County Finance Corporation and purchased by Capmark. The permanent financing commitment is consistent with the terms reflected in the sources and uses of funds listed in the application.

HTC Syndication: The tax credit syndication commitment is consistent with the terms reflected in the sources and uses of funds listed in the application.

GIC Income: The Applicant included $1,246,585 in anticipated permanent income and from investment of the bond proceeds in a guaranteed investment contract (GIC) during the construction phase; the Underwriter has included this amount in deferred developer fee in the recommended financing structure.

Deferred Developer's Fees: The Applicant's proposed deferred developer's fees of $1,273,844 amount to 45% of the total fees.

Financing Conclusions: As stated above, the proposed permanent financing structure results in an initial year's debt coverage ratio (DCR) of 1.14, which is within the Department's DCR guideline of 1.10 to 1.30.

The Applicant's total development cost estimate less the permanent loan of $14,100,000 indicates the need for $12,344,244 in gap funds. Based on the submitted syndication terms, a tax credit allocation of $1,349,570 annually would be required to fill this gap in financing. Of the three possible tax credit allocations, Applicant's request ($1,074,454), the gap-driven amount ($1,349,570 and eligible basis-derived estimate ($1,098,478), the Applicant's request of $1,074,454 is recommended resulting in proceeds of $9,827,815 based on a syndication rate of 91%.

The Underwriter's recommended financing structure indicates the need for $2,516,429 in additional permanent funds. Deferred developer and contractor fees in this amount appear to be repayable from development cashflow within ten years of stabilized operation.

DEVELOPMENT TEAM

IDENTITIES of INTEREST

- The Applicant, Developer, General Contractor, and property manager are related entities. These are common relationships for HTC-funded developments.
- The seller is regarded as a related party; this issue is addressed in the "Construction Cost Estimate Evaluation" section of this report.

APPLICANT'S/PRINCIPALS' FINANCIAL HIGHLIGHTS, BACKGROUND, and EXPERIENCE

Financial Highlights:

- The Applicant and Managing General Partner are single-purpose entities created for the purpose of receiving assistance from TDHCA and therefore have no material financial statements.
- The Member and 100% owner of the Managing General Partner, Dwayne Henson Investments, Inc., submitted an unaudited financial statement as of December 31, 2005, reporting total assets of $13.4M and consisting of $1.2M in cash, $16K in machinery, equipment, and fixtures, $8.9M in receivables, and $2.3M in partnership interests. Liabilities totaled $3M resulting in a net worth of $13.1M.
- The principals of these members of the General Partner that submitted unaudited financial statements are:

Pamela, Laura, Cheryl, and William D. Henson. Some or all of these principals are anticipated to be guarantors of the development, particularly the Managers of the General Partner: William D. Henson, J. Steve Ford, and M. Scot Davis.

Background & Experience: Multifamily Production Finance Staff have verified that the Department's experience requirements have been met and Portfolio Management and Compliance staff will ensure that the proposed owners have an acceptable record of previous participation.

SUMMARY OF SALIENT RISKS AND ISSUES

∉ Items identified in previous reports/ or analysis have not been satisfactorily addressed.

∉ The Applicant's direct construction costs differ from the Underwriter's *Marshall and Swift*-based estimate by more than 5%.

∉ The seller of the property has an identity of interest with the Applicant.

Underwriter:	*Diamond Thompson*	**Date:**	August 22, 2006

MULTIFAMILY FINANCE PRODUCTION DIVISION

BOARD ACTION REQUEST

August 30, 2006

Action Item

Presentation, Discussion and Possible Issuance of Determination Notices for Housing Tax Credits Associated with Mortgage Revenue Bond Transactions with other Issuers.

Requested Action

Approve, Amend or Deny the staff recommendation for the Baypointe Apartments.

Summary of the Transaction

The application was received on August 11, 2006. The Issuer for this transaction is Harris County HFC. The development is to be located at 901 S. Kobayashi Road in Houston. Demographics for the census tract (3412) include AMFI of $77,221; the total population is 7,521; the percent of population that is minority is 26.82%; the percent of population that is below the poverty line is 9.66%; the number of owner occupied units is 1,565; the number of renter units is 2,011 and the number of vacant units is 428. The percent of population that is minority for the entire City of Houston is 69% (Census information from FFIEC Geocoding for 2006). The development is new construction and will consist of 236 total units targeting the general population, with all affordable. There is no zoning required for the Houston area. The Department has received no letters of support and no letters of opposition.

This application was previously brought before the Board at the December 13, 2004 Board meeting and the Board approved an allocation of $694,059. The application was re-submitted because the applicant is requesting an increase in tax credits due to the Internal Revenue Service declaring Harris County a Difficult Development Area (DDA) after Hurricane Rita hit the southeast Texas coast. The DDA designation allows a thirty percent increase in the amount of housing tax credits. Harris County will be redeeming and re-issuing their own bonds.

The application was received on August 11, 2006 and will require a waiver of the requirement to submit the application materials 60 days prior to the Board meeting pursuant to 10 TAC §50.12(a)(2).

The bond priority for this transaction is:

☒ **Priority 1C:** Set aside **100%** of units that cap rents at 30% of **60%** AMFI (Only for projects located in a **census tract with median income that is greater** than the median income of the county MSA, or PMSA that the QCT is located in.
(MUST receive 4% Housing Tax Credits)

Recommendation

Staff recommends that the Board approve the issuance of a Determination Notice for Housing Tax Credits for the Baypointe Apartments and waive the requirement to submit the application materials 60 days prior to the Board meeting pursuant to 10 TAC §50.12(a)(2).

General Summary of Comment:

CONDITIONS OF COMMITMENT

Per §50.12(c) of the Qualified Allocation Plan and Rules, all Tax Exempt Bond Development Applications "must provide an executed agreement with a qualified service provider for the provision of special supportive services that would otherwise not be available for the tenants. The provision of such services will be included in the Declaration of Land Use Restrictive Covenants ("LURA")."

Board waiver of its QAP rule under Section 50.12(a)(2) regarding the submission of all documentation (including the market study) at least 60 days prior to the scheduled Board meeting at which the decision to issue a determination notice would be made.

Should the terms and rates of the proposed debt or syndication change, the transaction should be re-evaluated and an adjustment to the credit/allocation amount may be warranted.

RECOMMENDATION

☒ RECOMMEND APPROVAL OF A HOUSING TAX CREDIT ALLOCATION NOT TO EXCEED $956,177 ANNUALLY FOR TEN YEARS, SUBJECT TO CONDITIONS.

1. Board waiver of its QAP rule under Section 50.12(a)(2) regarding the submission of all documentation (including the market study) at least 60 days prior to the scheduled Board meeting at which the decision to issue a determination notice would be made.
2. Should the terms and rates of the proposed debt or syndication change, the transaction should be re-evaluated and an adjustment to the credit/allocation amount may be warranted.

REVIEW of PREVIOUS UNDERWRITING REPORTS

Baypointe Apartments was submitted, underwritten and received an allocation of 4% tax credits and bonds during the 2004 4% HTC cycle under application number 04494. The construction is approximately 65% complete. Due to the increase in construction costs, delays due to Hurricane Rita, and subsequent labeling of Harris County as a Difficult to Develop Area, the Applicant has reapplied with the request for a new bond and tax credit allocation before the construction has been completed and placed in service. The Applicant has maintained the same unit mix and rent restriction for the subject as in the original application.

ARCHITECTURAL REVIEW

The building and unit plans are comparable to other modern apartment developments. They appear to provide acceptable access and storage. The elevations reflect modest buildings.

STRUCTURAL MATERIALS

The structures are constructed on concrete slabs. According to the plans provided in the application the exterior is 67% plywood/hardboard and 33% stone/brick veneer. The interior wall surfaces are drywall and the roofs are finished with composite shingles.

UNIT FEATURES

The interior flooring consists of carpet, resilient covering, and ceramic tile. Threshold criteria for the 2006 QAP requires all development units to include: mini blinds or window coverings for all windows, a dishwasher, a disposal, a refrigerator, an oven/range, an exhaust/vent fan in bathrooms, and a ceiling fan in each living area and bedroom. New construction units must also include three networks: one for phone service, one for data service, and one for TV service. In addition, each unit will include: a microwave, an ice maker in the refrigerator, laundry connections, a ceiling fixture in each room, an individual heating and air conditioning unit, individual water heater, and nine-foot ceilings.

ONSITE AMENITIES

In order to meet threshold criteria for total units of 200 or more, the Applicant has elected to provide a community laundry room, controlled access gates, a covered pavilion that includes barbecue grills and tables, an equipped business center or computer learning center, full perimeter fencing, a furnished community room, a furnished fitness center, public telephone(s) available to tenants 24 hours a day, a service coordinators office in addition to the leasing offices, a swimming pool, and two children's playgrounds equipped for 5 to 12 year olds/two tot lots/one of each

Uncovered Parking: 316 spaces **Attached Garages:** 176 spaces **Detached Garages:** 60 spaces

PROPOSAL and DEVELOPMENT PLAN DESCRIPTION

Description: Baypointe Apartments is a 17-unit per acre new construction development that is nearing completion of construction. The development is located in south Webster. The development is comprised of 22 evenly distributed garden style residential buildings as follows:

No. of Buildings	No. of Floors	1BR	2BR	3BR
5	3	12	4	4
15	2		4	4
2	2		8	

The development includes a 4,000-square foot community building and a separate 933-square foot laundry and storage building and a 535-square foot laundry and maintenance building.

According to the Applicant, the construction of the development is approximately 65% complete and is expected to begin pre-leasing by late November. The development is planned to be placed in service by early 2007.

SITE ISSUES

SITE DESCRIPTION

Total Size:	13.77 acres	**Scattered sites?**	☐ Yes ☒ No
Flood Zone:	Zone X	**Within 100-year floodplain?**	☐ Yes ☒ No
Current Zoning:	R-2 / Multiple Family Residential	**Needs to be re-zoned?**	☐ Yes ☒ No ☐ N/A

SITE and NEIGHBORHOOD CHARACTERISTICS

Location: The development site is an irregular-shaped parcel located approximately one mile south of Webster's central business district and approximately five miles west from the coast of the Gulf of Mexico in Harris County.

Adjacent Land Uses:

- **North:** The NASA Road 1 By-Pass (currently under construction) immediately adjacent and a new ITT Technical Institute beyond;
- **South:** vacant land;
- **East:** utility easement immediately adjacent and an Exxon petroleum storage tank farm beyond; and
- **West:** Kobayashi Road immediately adjacent, vacant land, and retail development (currently under construction) immediately adjacent and IH 45/Gulf Freeway beyond.

Site Access: According to the siteplan submitted in the application, access to the site will be from Kobayashi Road located adjacent to the site. IH 45 is located less than one-half of a mile west of the site and provides access to other areas of the region and state.

Public Transportation: The availability of public transportation was not identified in the application materials.

Shopping & Services: A major supermarket, other retail centers and restaurants, medical complexes, a library, and public schools are all located within two miles of the site.

TDHCA SITE INSPECTION

Inspector: TDHCA Staff **Date:** 11/10/2004

Overall Assessment: ☐ Excellent ☒ Acceptable ☐ Questionable ☐ Poor ☐ Unacceptable

Comments: The site has not been re-inspected and there is no need to do so for viability purposes at this time.

HIGHLIGHTS of SOILS & HAZARDOUS MATERIALS REPORT(S)

A Phase I Environmental Site Assessment report dated August 18, 2006 was prepared by Live Oak Environmental Consultants (LOEC) and contained the following findings and recommendations:

Findings:

- **Noise:** "Regarding a noise study, at the present time, the only noise in the area of the subject property is from construction activities and access to the site from the public thoroughfare. Interstate Highway 45 (the Gulf Freeway), is located in excess of 0.25 miles west of the subject property. There is a large commercial building between the Gulf Freeway and the subject property, effectively blocking the majority of noise generated on the highway. There are no active rail lines or civil or military airports in the immediate vicinity of the subject property."
- **Floodplain:** "The current FEMA Flood map shows the subject property to be unshaded Zone X which is areas outside the 500 year flood plain. Flood risk to the property is deemed minimal since it is outside the 500 year flood plain."
- **Asbestos-Containing Materials (ACM):** "LOEC found no visible evidence of…damaged friable Asbestos Containing Material (ACM)."
- **Lead-Based Paint (LBP):** "LOEC found no visible evidence of…deteriorating possibly lead based paint."
- **Lead in Drinking Water:** "Drinking water for the subject property will be/is provided by the City of Webster, Texas. As such, lead in drinking water is not expected to be an issue."

- **Radon:** "With regard to Radon, there are no significant natural background levels of Radon exceeding the Environmental Protection Agency (EPA) action level of 4.0 picocuries per liter of air (pCi/l) identified in southeast Texas."
- **Other:** The Applicant also provided a Phase I ESA performed by Live Oak Environmental Consultants and dated September 30, 2004. It also found "no environmental factors of appreciable risk" and stated that "no further environmental testing or investigation is recommended."

Recommendations: "During the site inspection and through subsequent research and review of appropriate data and records, there were no environmental factors of appreciable risk discovered." No recommendation regarding subsequent investigation or action is indicated in the Phase I ESA.

INCOME SET-ASIDE

The Applicant has elected the 40% at 60% or less of area median gross income (AMGI) set-aside. One-hundred percent of the 236 units will be reserved for households earning 60% or less of AMI. The development qualifies for a Priority 3 Private Activity Bond allocation. Of note, any Qualified Residential Rental Project qualifies as a Priority 3 Private Activity Bond allocation (§ 1372.0321).

MAXIMUM ELIGIBLE INCOMES

	1 Person	2 Persons	3 Persons	4 Persons	5 Persons	6 Persons
60% of AMI	$25,620	$29,280	$32,940	$36,600	$39,540	$42,480

MARKET HIGHLIGHTS

A market feasibility study dated August 18, 2006 was prepared by Butler Burgher, Inc ("Market Analyst") and included the following findings:

Secondary Market Information: The Market Analyst did not include a secondary market area.

Definition of Primary Market Area (PMA): "The subject's Primary Market Area has been designated as the area southeast of FM 2351 and Clear Lake City Boulevard, southwest of Space Center Boulevard, and north and west of FM 518. This area was chosen as it represents the competitive area for the subject improvements, meets the TDHCA population and boundary parameters, and includes areas which are subject to similar income and rent levels." This area encompasses approximately 36.45 square miles and is equivalent to a circle with a radius of 3.41 miles. The market area is slightly smaller than the market area included in the original application in order to accommodate the current maximum population requirements for a PMA.

Population: The estimated 2006 population of the PMA is 90,076 and is expected to increase by 6.6% (1.6% annually) to approximately 95,820 by 2011. Within the primary market area there are estimated to be 37,077 households in 2006.

Total Market Demand: The Market Analyst utilized a target household adjustment rate of 100% and a household size-appropriate adjustment rate of 100%. The Analyst's income band of $23,520 to $39,540 results in an income eligible adjustment rate of 15.94% (p. 47). The tenure appropriate adjustment rate of 46% is specific to the general population (p. 47). The Market Analyst indicates a turnover rate of 65% applies based on 2005 IREM data (p. 48).

MARKET DEMAND SUMMARY

Type of Demand	Market Analyst: Units of Demand	Market Analyst: % of Total Demand	Underwriter: Units of Demand	Underwriter: % of Total Demand
Household Growth	35	2%	43	2%
Resident Turnover	1,767	98%	1,721	98%
TOTAL DEMAND	**1,802**	**100%**	**1,764**	**100%**

p. 49

Inclusive Capture Rate: The Market Analyst calculated an inclusive capture rate of 13.09% based upon 1,802 units of demand and 236 unstabilized affordable housing units in the PMA (including the subject) (p. 49). The Underwriter calculated an inclusive capture rate of 13.38% based upon a supply of 236 unstabilized comparable affordable units divided by a revised demand estimate for 1,764 affordable units.

Unit Mix Conclusion: "The subject's proposed mix of units is recommended and is competitive with the other product in the market. The proposed community will offer 236 units with good amenities that include 1 car attached garage per unit, full-size range, dishwasher, disposal, washer/dryer connections, pantry, patio/balcony with storage, microwave, linen or coat closet, garden tubs, ceiling fans, walk-in closet, and cable ready. The physical amenities of the property will include 4,000 sf clubhouse with community room with lounge, TV and kitchen; computer and internet equipped business center, leasing office, fitness center, pool, learning center, two laundry facilities. The unit mix will be conducive to the tenant profile in this area, which will facilitate strong leasing activity" (p. 3).

Market Rent Comparables: The Market Analyst surveyed six comparable multifamily developments in the area.

RENT ANALYSIS (net tenant-paid rents)					
Unit Type (% AMI)	**Proposed**	**Program Max**	**Differential**	**Est. Market**	**Differential**
1-Bedroom (60%)	$632	$625	$7	$760	-$137
2-Bedroom (60%)	$759	$751	$8	$980	-$221
3-Bedroom (60%)	$877	$862	$15	$1,225	-$348

(NOTE: Differentials are amount of difference between proposed rents and program limits and average market rents, e.g., proposed rent =$500, program max =$600, differential = -$100)

Primary Market Occupancy Rates: "The PMA is located in the Clearlake submarket, as defined by Apartments Data Services…. The Clear lake submarket boundaries encompass the PMA boundaries as defined in this report. The submarket has a total of 20,325 units (Apartment Data Services – Market TRAC, August 2006). Market TRAC is reporting an occupancy rate of 88.4% for this submarket, with 1,510 units built since 2001" (p. 5). "The Primary Market Area has only 105 LIHTC units with occupancy levels at 93%" (p. 42).

Absorption Projections: "An absorption rate of 15 units/month is reasonable for the subject, as encumbered by the 60% AMI income and rent restrictions, considering the location in Webster in an area without adequate affordable housing. The subject is approximately 60% complete but is not leasing yet" (p. 50).

Unstabilized, Under Construction, and Planned Development: "The subject is nearly complete new construction of an affordable rental community with 100% of the units being income and rent restricted at 60% AMI. At this time there are no other completed but unstabilized or approved HTC units within the PMA except for the subject property" (p. 50).

Market Impact: The Market Analyst did not specifically provide an opinion regarding the potential market impact of the subject development.

Other Information: The Department commissioned a market study for the Houston-Baytown-Sugar Land Metropolitan Statistical Area (MSA). The proposed development is located in the Friendswood/Clearlake submarket (#22) within the Houston MSA. According to the Department market study; there are -96 units of demand for one bedroom units at the 60% income level; -85 units of demand for two bedroom units at the 60% income level; and -37 units of demand for three bedroom units at the 60% income level (p. III-863).

The Department's market study for the entire MSA does not incorporate demand from turnover as normally allowed in development specific market studies because in an overall study the demand from turnover returns to all of the units in the market area. A development specific market study identifies the demand from turnover as potential demand that can be attract away from existing units and to the proposed development (and any other new developments that have not yet become fully occupied.).

The Underwriter requested additional information from the Market Analyst to explore these and other differences. In a follow-up analysis dated August 21, 2006 the Market Analyst indicated the following concerns with the study commissioned by the Department:

- "First, it should be noted that the conclusions of the two reports are similar with respect to determining if there is sufficient demand to warrant the development of the subject units. Our market study, with a simple and inclusive capture rate of 13.09%, indicates more than adequate demand for the subject units. The VWB report concludes, for the Friendswood/Clear Lake submarket, that 'the need for units targeting the general population at 60% AMHI will be met by the Tax Credit units currently under construction or in lease up.' The VWB report includes the subject units as under construction.

- However, while the demand conclusions for the subject units are similar, the methodologies utilized to arrive at these conclusions are very different. The first and most obvious difference is the size of the markets analyzed, both geographically and in terms of population. The Friendswood/Clear Lake submarket, as defined by VWB, encompasses an area of 268 square miles and a 2005 population of 308,984. As per the 2006 QAP guidelines, we defined the PMA of the subject to include no more than 100,000 people which resulted in a geographical area of approximately 40 square miles.
- The second primary methodological difference is the manner in which total demand is calculated. As per the 2006 QAP, we included the annual turnover rate in the demand figures. The VWB methodology includes only new household growth of income-qualified households and replacement of functionally obsolete product. It excludes annual turnover from demand.
- Based on these two methodological differences alone, it is easy to imagine that one report would suggest there is sufficient demand for a proposed property while another would suggest demand is insufficient for the same property. While that is not the case in this instance, we believe that comparison of results from the two reports is meaningless. Furthermore, we have completed our market study under the 2006 QAP guidelines and the results of our analysis indicate more than sufficient demand for the subject units."

Market Study Analysis/Conclusions: The Underwriter found the market study provided sufficient information on which to base a funding recommendation.

OPERATING PROFORMA ANALYSIS

Income: The Applicant's projected rents collected per unit were calculated by subtracting tenant-paid utility allowances as of October 15, 2004, maintained by the Housing Authority of the City of Houston, from the 2006 program gross rent limits. The Underwriter has used utility allowances, dated April 1, 2006, maintained by the Harris County Housing Authority. Tenants will be required to pay electric. Despite the difference noted above, the Applicant's estimate of effective gross income is within 5% of the Underwriter's estimate. In addition, the Applicant's estimates of secondary income and vacancy and collection loss are each within the Department's guidelines.

Expenses: The Applicant's total annual operating expense projection at $4,085 per unit is within 5% of the Underwriter's estimate of $4,098, derived from the TDHCA database and third-party data sources. However, a couple of the Applicant's estimates of certain line items differ significantly from the Underwriter's estimates, including: general and administrative (52% or $45K lower); and utilities (33% or $18K lower). Also, the Applicant understated TDHCA compliance fees.

Conclusion: The Applicant's estimates of potential gross income, operating expenses, and net operating income are each within 5% of the Underwriter's estimates; therefore, the Applicant's Year One proforma will be used to determine the development's debt capacity and debt coverage ratio (DCR). The Applicant's proforma and estimated debt service result in a DCR within the current underwriting guideline of 1.10 to 1.30. Of note, while not used, the Underwriter's proforma and estimate debt service result in a DCR that is also within the Department's guideline.

Long-Term Feasibility: The underwriting 30-year proforma utilizes a 3% annual growth factor for income and a 4% annual growth factor for expenses in accordance with current TDHCA guidelines. As noted above, the Applicant's base year effective gross income, expense and net operating income were utilized resulting in a debt coverage ratio that remains above 1.10 and continued positive cashflow. Therefore, the development can be characterized as feasible for the long-term.

ACQUISITION VALUATION INFORMATION

ASSESSED VALUE

Land: 13.77 acres	$1,001,550	**Assessment for the Year of:**	2004
1 acre:	$72,734	**Valuation by:**	Harris County Appraisal District
Total Assessed Value:	$1,001,550	**Tax Rate:**	2.67877

EVIDENCE of SITE or PROPERTY CONTROL

Type of Site Control: Asset Purchase Agreement (13.77 acres)

Contract Expiration: December 15, 2006 **Valid through Board Date?** ☒ Yes ☐ No

Acquisition Cost: $2,225,000 **Other:**

Seller: Houston Baypointe Apartments, LP **Related to Development Team?** ☒ Yes ☐ No

CONSTRUCTION COST ESTIMATE EVALUATION

Acquisition Value: While the transfer of the land to the partnership is an identity of interest transaction, the acquisition cost listed in the site control document is equal to the original acquisition cost listed in the settlement statement between Elektra Enterprises, Inc/David Angel and Houston Baypointe Apartments, LP. The original acquisition was not an identity of interest transaction. Therefore, the site cost of $161,583 per acre or $9,428 per unit is assumed to be reasonable since the acquisition is an arm's-length transaction.

Sitework Cost: The Applicant's claimed sitework costs of $7,490 per unit are within current Department guidelines. Therefore, further third party substantiation is not required.

Direct Construction Cost: The Applicant's direct construction cost estimate is $575K or 5.04% lower than the Underwriter's Marshall & Swift *Residential Cost Handbook*-derived estimate.

Fees: The Applicant's contractor's and developer's fees for general requirements, general and administrative expenses, and profit are all within the maximums allowed by TDHCA guidelines.

Conclusion: The Applicant's total development cost is within 5% of the Underwriter's estimate; therefore, the Applicant's cost schedule will be used to determine the development's need for permanent funds and to calculate eligible basis. An eligible basis of $20,488,046 supports annual tax credits of $956,177. This figure will be compared to the Applicant's request and the tax credits calculated based on the gap in need for permanent funds to determine the recommended allocation.

OTHER

Amount: $1,815,908 **Source:** Deferred Developer Fee

FINANCING STRUCTURE ANALYSIS

Interim to Permanent Bond Financing: The mortgage revenue bonds will be issued by the Texas Department of Housing and Community Affairs and placed with SunAmerica Affordable Housing Partners. The interim to permanent financing commitment is consistent with the terms reflected in the sources and uses of funds listed in the application.

HTC Syndication: The tax credit syndication commitment is consistent with the terms reflected in the sources and uses of funds listed in the application.

Deferred Developer's Fees: The Applicant's proposed deferred developer's fees of $1,815,908 amount to 68% of the total fees.

Financing Conclusions: The Applicant's total development cost estimate less the permanent loan of $13,600,000 indicates the need for $9,943,412 in gap funds. Based on the submitted syndication terms, a tax credit allocation of $1,169,813 annually would be required to fill this gap in financing. Of the three possible tax credit allocations, Applicant's request ($956,177), the gap-driven amount ($1,169,813), and eligible basis-derived estimate ($966,831), the Applicant's request of $956,177 is recommended resulting in proceeds of $8,127,504 based on a syndication rate of 85%.

The Underwriter's recommended financing structure indicates the need for $1,815,908 in additional permanent funds. Deferred developer fees in this amount appear to be repayable from development cashflow within ten years of stabilized operation.

DEVELOPMENT TEAM

IDENTITIES of INTEREST

- The Applicant, Developer, General Contractor, property manager, and supportive services provider are related entities. These are common relationships for HTC-funded developments.

APPLICANT'S/PRINCIPALS' FINANCIAL HIGHLIGHTS, BACKGROUND, and EXPERIENCE

Financial Highlights:

- The Applicant and General Partner are single-purpose entities created for the purpose of receiving assistance from TDHCA and therefore have no substantial financial statements.
- The 100% owner of Robinson Capital & Investment, Inc, Michael G Robinson, submitted an unaudited financial statement as of June 30, 2006 respectively and is anticipated to be guarantors of the development.

Background & Experience: Multifamily Production Finance Staff have verified that the Department's experience requirements have been met and Portfolio Management and Compliance staff will ensure that the proposed owners have an acceptable record of previous participation.

SUMMARY OF SALIENT RISKS AND ISSUES

- The Applicant's direct construction costs differ from the Underwriter's *Marshall and Swift*-based estimate by more than 5%.

Underwriter:	*Cameron Dorsey*	**Date:**	August 23, 2006
Director of Real Estate Analysis:	*Tom Gouris*	**Date:**	August 23, 2006

MULTIFAMILY FINANCE PRODUCTION DIVISION
BOARD ACTION REQUEST
August 30, 2006

Action Item

Presentation, Discussion and Possible Issuance of Determination Notices for Housing Tax Credits Associated with Mortgage Revenue Bond Transactions with other Issuers.

Requested Action

Approve, Amend or Deny the staff recommendation for Cypress Creek at River Bend (fka Northwest Residential Apartments).

Summary of the Transaction

This application involves the re-determination of Housing Tax Credits due to a change in the bond amount and financing structure. The applicant, Northwest Residential, L.P. submitted their application for 4% Housing Tax Credits (HTC) and HOME Rental Development funds (HOME) on December 12, 2005. At the May 4, 2006 Board meeting, the Board approved an award of HOME Rental Development funds in the amount of $1.95 million and a determination of HTC in the amount of $555,569. The bonds were proposed in the amount of $8,050,000 to be issued through Capital Area HFC. Subsequent to the Board's approval of HOME and HTC funds, the Applicant restructured the financing of the development to increase the bond amount to $10,279,000 and to request an increase in the HTC amount to $641,099. The proposed increase requires a re-determination of HTC. The new financing structure makes the development more financially feasible.

The proposed development is to be located at 120 River Bend Drive in Georgetown, Williamson County, Texas, and includes the new construction of 180 units targeted to low income families. Demographics for the census tract include AMFI of $66,996; the total population is 6,158; the percent of population that is minority is 23.38%; the percent of population that is below the poverty line is 6.74%; the number of owner occupied units is 1,225; the number of renter units is 1,128 and the number of vacant units is 117. The percent of population that is minority for the entire City of Georgetown is 23% (Census information from FFIEC Geocoding for 2006). The Issuer for this transaction is Capital Area HFC. The site is currently zoned for such a development. The Department has received no letters in support and no letters in opposition. The bond priority for this transaction is:

☒ **Priority 1A:** Set aside **50%** of units that cap rents at 30% of **50%** AMFI **and**
Set aside **50%** of units that cap rents at 30% of **60%** AMFI
(MUST receive 4% Housing Tax Credits)

Recommendation

Staff recommends that the Board approve the issuance of a Determination Notice for Housing Tax Credits for the Cypress Creek at River Bend (fka Northwest Residential Apartments).

General Summary of Comment:

The Department has received no letters of support and no letters of opposition.

CONDITIONS OF COMMITMENT

Per §50.12(c) of the Qualified Allocation Plan and Rules, all Tax Exempt Bond Development Applications "must provide an executed agreement with a qualified service provider for the provision of special supportive services that would otherwise not be available for the tenants. The provision of such services will be included in the Declaration of Land Use Restrictive Covenants ("LURA")."

Review, receipt, and acceptance of the cost and plan for funding the extension of River Bend Drive through the larger site controlled by the Developer.

Review, receipt and acceptance of documentation confirming that the minor debris has been disposed of in accordance with local, state and federal regulations as recommended in the Phase I ESA.

Should the terms and rates of the proposed debt or syndication change, the transaction should be re-evaluated and an adjustment to the credit amount may be warranted.

RECOMMENDATION

☒ RECOMMEND APPROVAL OF A HOUSING TAX CREDIT ALLOCATION NOT TO EXCEED $592,434 ANNUALLY FOR TEN YEARS, SUBJECT TO CONDITIONS.

CONDITIONS

1. Review, receipt and acceptance of the cost and plan for funding the extension of River Bend Drive through the larger site controlled by the Developer.
2. Review, receipt and acceptance of documentation confirming that the minor debris has been disposed of in accordance with local, state and federal regulations as recommended in the Phase I ESA.
3. Should the terms and rates of the proposed debt or syndication change, the transaction should be re-evaluated and an adjustment to the credit allocation amount may be warranted.

ADDENDUM

The underwriting analysis has been revised to reflect the Applicant's proposed amendments to the original application. The original bonds did not close as projected and a new bond reservation was obtained. Amendments include an increase in the amount of requested tax credits, and a revised development cost schedule. In addition, revisions to the development's sources and uses of funds were made, particularly: the amount, type, terms, issuer and purchaser of bonds, the amount, terms, and issuer of syndication proceeds, and a decrease in the amount of developer fee. The Applicant also made minor changes to their anticipated rent and operating expenses, however, the Underwriter's original concerns and conclusions in this regard remain unchanged.

As reflected in the original Underwriting Report dated April 26, 2006, with which this addendum should be read as one whole report, the Applicant's projected rents collected per unit do not appear to be based on current HTC rent limits, HOME rent limits, or the market rent conclusions indicated in the Market Study. For each unit type, the Underwriter utilized the lesser of the Market Analyst's market rent conclusion or the rents calculated by subtracting tenant-paid utility allowances as of January 30, 2006, maintained by the Housing Authority of the City of Georgetown, from the 2006 program gross rent limits. The Applicant's proposed rents appear to be much lower than the underwritten rents. Tenants will be required to pay electric, natural gas, water, and sewer costs. However, the Applicant's secondary income and vacancy and collection loss assumptions are in line with current TDHCA underwriting guidelines. Due to the difference in potential tenant-paid rent for each unit type, the Applicant's effective gross rent is not within 5% of the Underwriter's estimate.

The Applicant's total expense estimate of $2,946 per unit is not within 5% of the Underwriter's database-derived estimate of $3,618 per unit. The Applicant's budget shows several line item estimates that also deviate significantly when compared to the database averages, particularly: general and administrative ($30K lower) and water, sewer and trash ($16K lower). The Applicant indicated that the owner of the General Partner, Capital Area Housing Finance Corporation, is exempt from property taxes and submitted the relevant legislation documentation. A 100% exemption typically requires either the exempt entity to own, or have

[1] Previously approved credits of $555,569, that determination will be rescinded in favor of the proposed.
[2] Previously approved on May 4, 2006

owned the property, and lease to the partnership; or the entity to secure an agreement for tax abatement from each of the local taxing authorities. The Applicant did not include a lease or other documentation of such an arrangement, therefore the underwriting analysis assumes a 50% property tax exemption. Should a 100% exemption be achieved, an additional $59K in NOI could be achieved.

The Applicant's estimated effective gross income, and total operating expense, are each inconsistent with the Underwriter's expectations. Therefore, the Underwriter's NOI will be used to evaluate debt service capacity. In both the Applicant's and the Underwriter's income and expense estimates there is sufficient net operating income to service the proposed first lien permanent mortgage at a debt coverage ratio that is within the TDHCA underwriting guidelines of 1.10 to 1.30.

The Applicant's updated direct construction cost estimate is $708K or 8.5% higher than the Underwriter's Marshall & Swift *Residential Cost Handbook*-derived estimate. Cost for constructing covered parking was excluded from eligible basis by the Applicant. The Applicant's increase represents a 14% increase over the previously estimated amount. Since the original underwriting was completed no new cost data has been received from Marshall and Swift and therefore the Underwriter's direct costs have remained unchanged. The Applicant calculated contractor fees based on Department limits and their now higher costs, but included contractor fees that were $42,951 higher than the 5% TDHCA limit. As a result, developer fees which also increased based on the new construction costs exceed the eligible 15% by $8,075. The Applicant also included, and the Underwriter accepted, increases in indirect costs ($206K), ineligible costs ($93K) and interim financing ($204K). The Applicant also reduced reserves by $19K. In total, the Applicant's development costs have increased by $2,095,451 or 10.4% while the Underwriter's costs have increased $656,375 or 3.5% over four months ago. Since the Applicant's revised costs are now more than 5% greater than the Underwriter's costs, the Underwriter's costs are used to determine the development's need for permanent funds and to calculate eligible basis. As such, an eligible basis of $16,641,406 supports annual tax credits of $592,434. This represents a 7% increase over the previously recommended amount of $555,569.

The tax-exempt bonds are to be issued by Capital Area HFC and purchased by Citibank. The permanent financing commitment is generally consistent with the terms reflected in the sources and uses of funds listed in the application. The Applicant anticipates receiving tax-exempt bonds in the amount of $10,279,000 out of a possible $10,500,000 as indicated in a letter by Citibank.

The tax credit syndication commitment is consistent with the terms reflected in the sources and uses of funds listed in the application.

The Applicant's proposed deferred developer's fees of $1,387,326 amount to 64% of the total fees.

The Applicant's total development cost estimate, less the permanent mortgage of $10,279,000 and requested HOME allocation of $1,950,000 indicates the need for $6,560,290 in gap funds. Based on the submitted syndication terms, a tax credit allocation of $656,029 annually would be required to fill this gap in financing. Of the three possible tax credit allocations, Applicant's request ($641,099), the gap-driven amount ($656,029), and eligible basis-derived estimate ($592,434), the eligible basis-derived estimate of $592,434 is recommended resulting in proceeds of $5,924,341 based on a syndication rate of 100%.

The development's requested HOME funds are the unaffected by the proposed amendments and are therefore consistent with the April 26, 2006 Underwriting Report conclusions.

According to the HUD website as of March 2, 2006, the "Cash on Cash Return (on equity), which calculates the percent of return on equity given the amount invested by the developer (developer equity) and the cash flow at the end of the each year considers the developer fee a development cost and not a form of financing or equity for the project." Therefore, the equity would consist of $0 and a return on equity calculation is not possible.

The Underwriter's recommended financing structure indicates the need for $414,346 in additional permanent funds. Deferred developer fees in this amount appear to be repayable from development cashflow within just under four years of stabilized operation.

It should be noted that one new 9% development (060151 Bluffs Landing, 152 units) was proposed for the area, but did not score high enough to receive funding.

SUMMARY OF SALIENT RISKS AND ISSUES

- Items identified in previous reports/ or analysis have not been satisfactorily addressed.
- The Applicant's estimated income, operating expenses, and operating proforma are more than 5% outside of the Underwriter's verifiable range(s).
- The development could potentially achieve an excessive profit level (i.e., a DCR above 1.30) if the maximum tax credit rents and a 100% property tax exemption can be achieved in this market.
- The seller of the property has an identity of interest with the Applicant.
- The anticipated ad valorem property tax exemption may not be received or may be reduced, which could affect the financial feasibility of the development.

HTC	$556,980	N/A	N/A	N/A
HOME (RHD)	$1,950,000	1%	40 yrs	40 yrs

Proposed Use of Funds: New construction **Type:** Multifamily

Target Population: Family **Other:** Urban/Exurban

RECOMMENDATION

☒ RECOMMEND APPROVAL OF A HOUSING TAX CREDIT ALLOCATION NOT TO EXCEED $555,569 ANNUALLY FOR TEN YEARS, SUBJECT TO CONDITIONS.

☒ RECOMMEND APPROVAL OF A HOME AWARD NOT TO EXCEED $1,950,000, STRUCTURED AS A 40-YEAR TERM LOAN, FULLY AMORTIZING OVER 40 YEARS AT 1% INTEREST, SUBJECT TO CONDITIONS.

CONDITIONS

1. Review, receipt and acceptance of the cost and plan for funding the extension of River Bend Drive through the larger site controlled by the Developer.
2. Review, receipt and acceptance of documentation confirming that the minor debris has been disposed of in accordance with local, state and federal regulations as recommended in the Phase I ESA.
3. Should the terms and rates of the proposed debt or syndication change, the transaction should be re-evaluated and an adjustment to the credit allocation amount may be warranted.

REVIEW of PREVIOUS UNDERWRITING REPORTS

Northwest Residential was submitted and underwritten in the 2005 4% HTC cycle (05429). The underwriting analysis recommended the project be approved subject to the following conditions:

- Review, receipt and acceptance of the cost and plan for funding the extension of River Bend Drive through the larger site controlled by the Developer.
- Review, receipt and acceptance of documentation confirming that the minor debris has been disposed of in accordance with local, state and federal regulations as recommended in the Phase I ESA.
- Should the terms and rates of the proposed debt or syndication change, the transaction should be re-evaluated and an adjustment to the credit amount may be warranted.

The project received an allocation of tax credits, but returned the allocation due to the lender and syndicator's concerns about the market rents and ability to service the entire $10.8M in proposed bonds. The Applicant has revised their financing structure in the current application by replacing $2.13M in bond debt with $1.95M in TDHCA HOME funds plus a slightly higher deferral of developer fee.

ARCHITECTURAL REVIEW

The building and unit plans are comparable to other modern apartment developments. They appear to provide acceptable access and storage. The elevations reflect attractive buildings

STRUCTURAL MATERIALS

The structures will be constructed on a concrete slab subfloor. According to the plans provided in the application the exterior will be 65% hardiplank, 5% masonry veneer, and 30% stucco. The roofs will be finished with composite shingles.

UNIT FEATURES

The interior flooring will be approximately 75% carpet, and 25% resilient covering. Threshold criteria for the 2006 QAP requires all development units to include: mini blinds or window coverings for all windows, a dishwasher, a disposal, a refrigerator, an oven/range, an exhaust/vent fax in bathrooms, and a ceiling fan in each living area and bedroom. New construction units must also include three networks: one for phone service, one for data service, and one for TV service. In addition, each unit will include: an ice maker in the refrigerator, laundry connections, a ceiling fixture in each room, a forced air unit, and an individual water heater.

ONSITE AMENITIES

In order to meet threshold criteria for total units of 150 or more, the Applicant has elected to a barbecue and picnic table for every 50 units, community laundry room, enclosed sun porch or covered community porch, an equipped business center or computer learning center, full perimeter fencing, a furnished community room, a furnished fitness center, a swimming pool, one children's playground equipped for 5 to 12 year olds.

Uncovered Parking: 263 spaces **Carports:** 100 spaces **Garages:** 20 spaces

PROPOSAL and DEVELOPMENT PLAN DESCRIPTION

Description: The subject is immediately adjacent to the proposed 201-unit senior development called River Bend Residential that will be owned and developed by the same principals of the subject, though operated as a separate facility. The subject is an 18-unit per acre new construction development of 180 units of affordable housing located in Georgetown. The development is comprised of nine evenly distributed garden style residential buildings as follows:

No. of Buildings	No. of Floors	1BR	2BR	3BR	4BR
3	3	12	0	8	0
5	3	0	12	8	0
1	3	12	0	0	8

The development includes a 3,721-square foot community building, a separate 249-square foot laundry building, and a separate 485-square foot maintenance/mail building.

SITE and NEIGHBORHOOD CHARACTERISTICS

Location: Georgetown is approximately 28 miles north from Austin in Williamson County. The site is an irregularly-shaped parcel located in the northern area of the city, approximately three miles from the central business district. The site is situated on the southwest side of Northwest Boulevard. A larger 31 acres is being acquired and the remaining 21 acres will be used concurrently for the proposed seniors development, River Bend Residential (4% HTC #05424).

Adjacent Land Uses:

- **Northwest:** future extension of River Bend Drive and proposed senior development (River Bend Residential);
- **Southwest:** residential development;
- **East and Northeast:** commercial development; and
- **Southeast:** residential development.

Site Access: Access to the property is from one main entry from the east or west from River Bend Drive. Access to Interstate Highway 35 is one mile east, which provides connections to all other major roads serving the Georgetown area.

Public Transportation: According to the Appraiser, "Transportation within Georgetown exists in the form of taxi service and private vehicles."

Shopping & Services: The site is within two miles of major grocery/pharmacies, shopping centers, and a variety of other retail establishments and restaurants. Schools, churches, and hospitals and health care facilities are located within a short driving distance from the site.

Special Site Characteristics: The following issues have been identified as potentially bearing on the viability of the site for the proposed development:

- **Road Extension:** The site plan calls for the extension of River Bend Drive; however, the cost for this improvement does not appear in the construction costs of the subject. Receipt, review and acceptance of documentation of the cost of the River Bend Drive extension is a condition of this report.

TDHCA SITE INSPECTION

Inspector: TDHCA Staff **Date:** 04/07/2006

Overall Assessment: ☐ Excellent ☒ Acceptable ☐ Questionable ☐ Poor ☐ Unacceptable

Comments: Good location; near store, schools, and restaurants

HIGHLIGHTS of SOILS & HAZARDOUS MATERIALS REPORT(S)

A Phase I Environmental Site Assessment report for a 31 acre site which contains the subject 10 acre site, dated March 24, 2005 was prepared by HBC Terracon and contained the following findings and recommendations:

Findings and Conclusions:

- "The site consists of approximately 31 acres of undeveloped land bound to the northeast by Northwest Boulevard, to the southeast by Westwood Drive, and to the southwest by River Bend Drive in Georgetown, Williamson County, Texas. The site is generally undeveloped and thickly covered with trees and grasses. An asphalt-paved drive enter the site from the south and bisects the site on the southwest corner. Minor dumping was noted throughout the site. Discarded materials included concrete debris, metal debris, household trash, tires, and some auto parts. These materials should be removed and disposed of in accordance with applicable local, state, and federal regulations.
- Based on the site reconnaissance, no evidence of surficial staining, distressed vegetation, underground/above ground storage tanks, elevators, hydraulic lifts, emergency generators, water wells, septic systems, grit traps, cisterns, landfilling, hazardous waste disposal, or hazardous waste storage was noted on the site
- The site has generally been undeveloped since at least 1972 except for an asphalt-paved driveway that appeared in the 1984 aerial photograph. The surrounding properties were undeveloped, rural lands from at least 1972. Residential development occurred on surrounding properties staring in the mid-1980's.
- Terracon reviewed a previous Phase I ESA performed for the site by Phase Engineering, Inc. (PEI) in April 2000. According to the PEI report, no evidence of recognized environmental conditions were identified in connection with the site, and no further assessment was recommended.
- Review of the regulatory databases did not identify regulated facilities on the site. The regulatory review identified three (3) TCEQ LPST facilities within the specified search radii. Based upon facility characteristics, environmental setting, and distance from the site, the identified facilities do not appear to present environmental concerns to the site as specified within the text of the report.
- A noise survey was not conducted at the site because it is not adjacent to or in close proximity to industrial zones, major highways, active rail lines, or civil and military airfields.

  Based on the information reviewed, the site is considered to have a low potential for elevated levels of radon gas. Note, however, testing would be required to confirm specific site concentrations of radon gas.

  No structures were noted on the site; therefore sampling and testing for asbestos were not performed.

  No structures were noted on the site; therefore sampling and testing for lead-based paint were not performed.

The site is currently undeveloped; therefore testing for lead in drinking water was not performed" (p. 18-19).

Recommendations: "Based on the scope of services and limitations of this assessment, Terracon did not identify recognized environmental conditions in connection with this site, which in our opinion, require additional investigation at this time" (p. 19).

INCOME SET-ASIDE

The Applicant has elected the 40% at 60% or less of area median gross income (AMGI) set-aside. This application was filed under the Priority 1 set aside with the Bond Review Board. To qualify as a Priority 1 Private Activity Bond allocation for a Qualified Residential Rental Project, the Applicant has elected to set-aside 50% of the units with rent and income restrictions at 50% of area median family income and the remaining 50% of the units with rent and income restrictions at 60% of area median family income (§ 1372.0321, Texas Government Code).

HOME assisted rental developments at a minimum must set-aside at least 20% of HOME assisted units with rent and income restrictions at 50% or less of area median family income and all remaining units with rent and income restrictions at 80% or less of area median family income. These minimum requirements affect only those units which are HOME assisted and do not supersede the minimum affordability requirements for applicants jointly applying for HOME and Housing Tax Credits or any other federal, state or local affordable housing programs unless the HOME requirements are more restrictive.

All of the units (100% of the total) will be reserved for low-income tenants. Ninety units (50%) will be reserved for households earning 50% or less of AMI and 90 units (50%) will be reserved for households earning 60% or less of AMI. Of the units reserved for households earning 50% or less of AMI, eight (21% of 37 HOME units) will also be restricted to the Low HOME rent limits. Of the units reserved for households earning 60% or less of AMI, 29 (79% of 37 HOME units) will also be restricted to the High HOME rent limits.

MAXIMUM ELIGIBLE INCOMES						
	1 Person	**2 Persons**	**3 Persons**	**4 Persons**	**5 Persons**	**6 Persons**
60% of AMI	$29,880	$34,140	$38,400	$42,660	$46,080	$49,500

MARKET HIGHLIGHTS

A new market feasibility study dated November 15, 2005 was prepared by O'Connor and Associates ("Market Analyst") and included the following findings:

Definition of Primary Market Area (PMA): "For the purposes of this report, we will define the ***primary market*** as the aggregated area of the following zip codes: 78628 (where the subject site is located), 78626, and 78681" (p. 31). This area encompasses approximately 268.34 square miles, which is equivalent to a nine-mile radius.

Population: The estimated 2005 population of the PMA was 95,672 and is expected to increase by 20% to approximately 114,804 by 2010. Within the primary market area there were estimated to be 33,267 households in 2005.

Total Market Demand: The Market Analyst utilized a household size-appropriate adjustment rate of 98.7% (p. 86). The tenure appropriate adjustment rates used are specific to the income-eligible population (p. 84). The Analyst's income band of $20,811to $49,500 (p. 84) results in an income eligible renter adjustment rate of 8.37% (p. 84). The Market Analyst indicates a turnover rate of 55% applies based on interviews with comparable properties' leasing agents (p. 85).

In addition, "The demand created by Section 8 voucher holders will be additional demand for rent-restricted units. The number of Section 8 vouchers available was determined by contacting the local housing authority with jurisdiction over the subject's location, which in this case was the Georgetown Housing Authority, as well as the Round Rock Housing Authority since Round Rock falls within the primary market area. The Georgetown Housing Authority reported a total of 84 Section 8 vouchers issued, and the Round Rock

Housing Authority reported a total of 76 Section 8 vouchers, thus a total of 160 vouchers are issued in the primary market area." (p. 85). The Underwriter found the Section 8 voucher demand analysis performed by the Market Analyst to be incomplete; a deficiency request has been forwarded to the Market Analyst.

MARKET DEMAND SUMMARY				
	Market Analyst		Underwriter	
Type of Demand	Units of Demand	% of Total Demand	Units of Demand	% of Total Demand
Household Growth	114	6%	104	6%
Resident Turnover	1,512	81%	1,525	94%
Other Sources: 10% other sources	163	9%	N/A	
Other Sources: Section 8	88	4%	N/A	
TOTAL DEMAND	**1,877**	**100%**	**1,629**	**100%**

p. 86

Inclusive Capture Rate: The Market Analyst calculated an inclusive capture rate of 9.59% based upon 1,877 units of demand and 180 unstabilized affordable housing in the PMA (including the subject) (p. 86). The Underwriter calculated an inclusive capture rate of 11% based upon a revised demand estimate for 1,629 affordable units.

Unit Mix Conclusion: "Two of the comparable properties have a 1-bedroom to 2-bedroom unit ratio of less than 0.35 (i.e. the number of two-bedroom units at the property is significantly greater than the number of one bedroom), and one comparable has a 1-bedoom to 2-bedoom ratio greater than one. The subject property has a 1-bedoom to 2-bedoom ratio of 0.50. The percentage of one-bedroom units at the subject is similar to those found at the comparable properties. The percentage of two-bedroom units is towards the lower end when compared to the comparable properties, while the percentage of three bedrooms is towards the higher end when compared to the comparable properties. The subject will contain 4% four-bedroom units, while none of the comparable properties contain four-bedroom units" (p. 82).

Market Rent Comparables: The Market Analyst surveyed five comparable apartment projects totaling 1,032 units in the market area (p. 53).

RENT ANALYSIS (net tenant-paid rents)					
Unit Type (% AMI)	Proposed	Program Max	Differential	Est. Market	Differential
1-BR (50%/Low HOME)	$516	$576	-$60	$587	-$71
1-BR (50%)	$516	$584	-$68	$587	-$71
1-BR (60%/High HOME)	$556	$576	-$20	$587	-$31
1-BR (60%)	$556	$718	-$162	$587	-$31
2-BR (50%/Low HOME)	$600	$698	-$98	$720	-$120
2-BR (50%)	$600	$698	-$98	$720	-$120
2-BR (60%/High HOME)	$669	$702	-$33	$720	-$51
2-BR (60%)	$669	$858	-$189	$720	-$51
3-BR (50%/Low HOME)	$690	$800	-$110	$820	-$130
3-BR (50%)	$690	$800	-$110	$820	-$130
3-BR (60%/High HOME)	$752	$969	-$217	$820	-$68
3-BR (60%)	$752	$985	-$233	$820	-$68
4-BR (50%)	$745	$879	-$134	$871	-$126
4-BR (60%)	$795	$1,085	-$290	$871	-$76

(NOTE: Differentials are amount of difference between proposed rents and program limits and average market rents, e.g., proposed rent =$500, program max =$600, differential = -$100)

Primary Market Occupancy Rates: "…the closest HTC property, Georgetown Place, has current occupancy at 90%. The rent comparables reported current occupancies ranging from 79% to 95%, with a median occupancy of 94%. Given the physical characteristics of the subject (i.e. location, good curb appeal, new condition, amenities, etc.), the strong occupancies reported at nearby apartments, and that the subject will adjust will follow recommendations and adjust downward their proposed rents, a stabilized occupancy level of 92.5% is reasonable and achievable for the proposed subject property. This indicates a vacancy/collection loss of 7.5%" (p. 91).

Absorption Projections: "Considering the strong absorption history of properties in the market area and the need for quality affordable units in this market, **we project that the subject property will lease an average of 12 to 14 units per months until achieving stabilized occupancy**. We anticipate that the subject property will achieve stabilized occupancy within 12 to 14 months after pre-leasing starts" (p. 91).

Unstabilized, Under Construction, and Planned Development: "Since the subject property is an HTC project, all properties that are not HTC are considered non-comparable for capture rate estimations. We are not aware of any other proposed, under-construction, or unstabilized new comparable projects in the primary market area" (p. 86). There are three HTC developments that were approved in Georgetown in 2005 though all of them are targeting elderly households. River Bend Residential (05424) is new construction of 201 units immediately adjacent to the subject, San Gabrial Seniors (05142) is new construction of 100 units near downtown and Wesleyan Retirement (05142) is the rehabilitation of 50 units downtown.

Market Impact: "Based on our analysis of the subject property's primary market area, there is sufficient demand to construct and successfully absorb the proposed Cypress Creek at River Bend Apartments…we project that the subject property will have minimal sustained negative impact upon the existing apartment market" (p. 88).

Market Study Analysis/Conclusions: The Underwriter found the market study provided sufficient information on which to base a funding recommendation.

OPERATING PROFORMA ANALYSIS

Income: The Applicant's projected rents collected per unit do not appear to be based on current HTC rent limits, HOME rent limits, or the market rent conclusions indicated in the Market Study. For each unit type, the Underwriter utilized the lesser of the Market Analyst's market rent conclusion or the rents calculated by subtracting tenant-paid utility allowances as of January 30, 3006, maintained by the Housing Authority of the City of Georgetown, from the 2006 program gross rent limits. The Applicant's proposed rents appear to be much lower than the underwritten rents. Tenants will be required to pay electric, natural gas, water, and sewer costs. However, the Applicant's secondary income and vacancy and collection loss assumptions are in line with current TDHCA underwriting guidelines. Due to the difference in potential tenant-paid rent for each unit type, the Applicant's effective gross rent is not within 5% of the Underwriter's estimate.

Expenses: The Applicant's total expense estimate of $3,222 per unit is not within 5% of the Underwriter's database-derived estimate of $3,618 per unit. The Applicant's budget shows several line item estimates that also deviate significantly when compared to the database averages, particularly: payroll ($49K higher) and water, sewer and trash ($16K lower). The Applicant indicates that the owner of the General Partner, Capital Area Housing Finance Corporation, is exempt from property taxes and submitted the relevant legislation documentation. A 100% exemption typically requires either the exempt entity to own, or have owned the property, and lease to the partnership; or the entity to secure an agreement for tax abatement from each of the local taxing authorities. The Applicant did not include a lease or other documentation of such an arrangement, therefore the underwriting analysis assumes a 50% property tax exemption. Should a 100% exemption be achieved, an additional $59K in NOI could be achieved.

Conclusion: The Applicant's estimated effective gross income, total operating expense, and net operating income are each inconsistent with the Underwriter's expectations. Therefore, the Underwriter's NOI will be used to evaluate debt service capacity. In both the Applicant's and the Underwriter's income and expense estimates there is sufficient net operating income to service the proposed first lien permanent mortgage at a debt coverage ratio that is within the TDHCA underwriting guidelines of 1.10 to 1.30. If the 100% exemption is achieved, the DCR will be 1.33 and a reduction in the substantial projected deferred developer fee would occur before reduction in tax credits would be recommended.

Long-Term Feasibility: The underwriting 30-year proforma utilizes a 3% annual growth factor for income and a 4% annual growth factor for expenses in accordance with current TDHCA guidelines. As noted above, the Underwriter's base year effective gross income, expense and net operating income were utilized resulting in a debt coverage ratio that remains above 1.10 and continued positive cashflow. Therefore, the development can be characterized as feasible for the long-term.

ACQUISITION VALUATION INFORMATION

APPRAISED VALUE

Land Only: 9.6175 acres $1,040,000 **Date of Valuation:** 12/06/2005

Appraiser: L Kyle Lewallen & Mark Fugina **Firm:** Butler Burgher, Inc **City:** Austin

APPRAISAL ANALYSIS/CONCLUSIONS

An appraisal, provided by the purchaser, was performed by Butler Burgher, Inc and dated December 6, 2005. Six land sales dating from 2003 to 2005 for 6.0 to 17.6 acres were used to determine the underlying value of the land. In this case the value is higher than the purchase price, and higher than the acquisition value used in the underwriting analysis.

ASSESSED VALUE

Land: 31.0964 acres	$948,192	**Assessment for the Year of:**	2004
1 acre:	$30,492	**Valuation by:**	Williamson County Appraisal District
Total: prorated 10 acres	$304,920	**Tax Rate:**	2.613477

EVIDENCE of SITE or PROPERTY CONTROL

Type of Site Control: Agreement of Sale and Purchase (10 acres)

Contract Expiration:	02/21/2007	**Valid through Board Date?**	☒ Yes ☐ No
Acquisition Cost:	$600,000	**Other:**	
Seller:	Bonner Carrington, LP	**Related to Development Team?**	☒ Yes ☐ No

CONSTRUCTION COST ESTIMATE EVALUATION

Acquisition Value: The principal of the seller, Bonner Carrington LP, is also a principal of the co-developer, SSFP Northwest IV LP, therefore the transaction represents an identity of interest. The Applicant submitted a Purchase and Sale Agreement between Bonner Carrington LP and Dedicated Investments, LLC for a 31.0964 acre tract containing the subject 10- acre site. According to the contract, the purchase price for the 31.0964 acre tract will be prorated, based on the number of days of the year, between $1,000,000 and $1,100,000 if closing occurs in 2005 and between $1,100,000 and $1,200,000 if closing occurs in 2006. The Applicant also submitted a Purchase and Sale Agreement between Bonner Carrington LP and Northwest Residential LP, the Applicant, reflecting a purchase price of $600,000 for the subject 10-acres. The Underwriter calculated the land acquisition cost for the subject 10-acres by multiplying the December 31, 2006 price for the 31.0964 acres of $38,590 per acre times the subject 10- acres to achieve a prorated land value of $385,897.

Sitework Cost: The Applicant claimed sitework costs of over $11K per unit and provided sufficient third party certification through a detailed certified cost estimate by ICI Construction to justify these costs. In addition, these costs have been reviewed by the Applicant's CPA, Novogradac & Company, to preliminarily opine that all of the total $2,000,780 will be considered eligible. The CPA has indicated that this opinion of eligibility has taken into account the effect of the recent IRS Technical Advisory Memorandums on the eligibility of sitework costs. None of these costs appear to include the costs of extending River Bend Drive which would be ineligible.

Direct Construction Cost: The Applicant's direct construction cost estimate is $412K or just under 5% lower than the Underwriter's Marshall & Swift *Residential Cost Handbook*-derived estimate. Cost for constructing covered parking was excluded from eligible basis by the Applicant.

Fees: The Applicant's contractor general requirements, contractor general and administrative fees, and contractor profit exceed the 6%, 2%, and 6% maximums allowed by HTC guidelines by $26K based on their own construction costs. Consequently the Applicant's eligible fees in these areas have been reduced by the same amount with the overage effectively moved to ineligible costs. The Applicant's developer fees also exceed 15% of the Applicant's adjusted eligible basis by $5K and therefore the eligible portion of the Applicant's developer fee must be reduced by the same amount. Finally, the Applicant's contingency exceeds 5% of eligible sitework and direct construction cost; therefore, their eligible basis estimate was reduced by $9K.

Conclusion: The Applicant's total development cost is within 5% of the Underwriter's estimate; therefore, the Applicant's cost schedule, adjusted for overstated acquisition cost, will be used to determine the development's need for permanent funds and to calculate eligible basis. An eligible basis of $15,605,863, adjusted by the Underwriter based on Department guidelines, supports annual tax credits of $555,569. This figure will be compared to the Applicant's request and the tax credits calculated based on the gap in need for permanent funds to determine the recommended allocation.

OTHER

Amount: $175,000 **Source:** GIC Proceeds

Amount: $1,851,088 **Source:** Deferred Developer Fee

FINANCING STRUCTURE ANALYSIS

Interim to Permanent Bond Financing: The tax-exempt bonds are to be issued by Capital Area HFC and purchased by Newman Capital. The permanent financing commitment is consistent with the terms reflected in the sources and uses of funds listed in the application.

HTC Syndication: The tax credit syndication commitment is consistent with the terms reflected in the sources and uses of funds listed in the application. However, the anticipated tax credit allocation and syndication proceeds listed in the commitment are inconsistent with the Applicant's estimates.

GIC Income: The Applicant included $175,000 in anticipated income from investment of the bond proceeds in a guaranteed investment contract (GIC) during the construction phase; the Underwriter has included this amount in deferred developer fee in the recommended financing structure.

Deferred Developer's Fees: The Applicant's proposed deferred developer's fees of $1,851,088 amount to 91% of the total fees.

Financing Conclusions: The Applicant's total development cost estimate, adjusted for overstated acquisition cost, less the permanent mortgage of $8,670,000 and requested HOME allocation of $1,950,000 indicates the need for $7,315,175 in gap funds. Based on the submitted syndication terms, a tax credit allocation of $770,096 annually would be required to fill this gap in financing. Of the three possible tax credit allocations, Applicant's request ($556,980), the gap-driven amount ($770,096), and eligible basis-derived estimate ($555,569), the eligible basis-derived estimate of $555,569 is recommended resulting in proceeds of $5,277,376 based on a syndication rate of 95%.

The development demonstrates a need for the requested HOME funds and appears to be able to support the requested terms of 1% interest amortized fully over a 40-year repayment term. The recommended HOME award of $1,950,000 is below the 2006 221(d)(3) basic limit for non-elevator served buildings. In addition, the HOME award is below the prorata share of development cost based on the number HOME units to total units. While the property may be able to provide sufficient cash flow to repay the increase in deferred fees or other cash flow financing form the applicant that would be required if the HOME funds are not approved as recommended, their would be an insufficient amount of contractor and developer fee available to defer to replace the HOME funds. Therefore, with out the HOME funds the transaction would have to be deemed financially infeasible as currently structured. At a minimum and if all contractor and developer fees could be deferred, HOME award of at least $317,196 would have to be approved to provide sufficient additional financing to satisfy the developments uses of funds. This amount increases by $214,103 if the difference in acquisition price used by the Applicant is considered. Moreover deferral of 100% of contractor fee in addition to the developer fee is extraordinarily rare and not generally advised.

According to the HUD website as of March 2, 2006, the “Cash on Cash Return (on equity), which calculates the percent of return on equity given the amount invested by the developer (developer equity) and the cash flow at the end of the each year considers the developer fee a development cost and not a form of financing or equity for the project.” Therefore, the equity would consist of $0 and a return on equity calculation is not possible.

The Underwriter’s recommended financing structure indicates the need for $1,823,696 in additional permanent funds. Deferred developer fees in this amount appear to be repayable from development cashflow within ten years of stabilized operation.

DEVELOPMENT TEAM

IDENTITIES of INTEREST

- The Applicant and bond issuer are related entities. The Special Limited Partner and Developer are also related. These are common relationships for HTC-funded developments.
- The seller is regarded as a related party; this issue is addressed in the “Construction Cost Estimate Evaluation” section of this report.

APPLICANT’S/PRINCIPALS’ FINANCIAL HIGHLIGHTS, BACKGROUND, and EXPERIENCE

Financial Highlights:

- The Applicant and General Partner are single-purpose entities created for the purpose of receiving assistance from TDHCA and therefore have no material financial statements.
- The principal of the General Partner, Capital Area Housing Finance Corporation, submitted an unaudited financial statement as of December 31, 2006 reporting total assets of $1.8M comprised of $586K in current assets, $414K in fixed assets, and $805K in other assets. Liabilities totaled $62K, resulting in net assets of $1.7M.

Background & Experience: Multifamily Production Finance Staff have verified that the Department’s experience requirements have been met and Portfolio Management and Compliance staff will ensure that the proposed owners have an acceptable record of previous participation.

SUMMARY OF SALIENT RISKS AND ISSUES

- Items identified in previous reports/ or analysis have not been satisfactorily addressed.
- The Applicant’s estimated income, operating expenses, and operating proforma are more than 5% outside of the Underwriter’s verifiable range(s).
- The development could potentially achieve an excessive profit level (i.e., a DCR above 1.30) if the maximum tax credit rents and a 100% property tax exemption can be achieved in this market.
- The recommended amount of deferred developer fee cannot be repaid within ten years, and any amount unpaid past ten years would be removed from eligible basis.
- The seller of the property has an identity of interest with the Applicant.

- The anticipated ad valorem property tax exemption may not be received or may be reduced, which could affect the financial feasibility of the development.

MULTIFAMILY FINANCE PRODUCTION DIVISION
BOARD ACTION REQUEST
August 30, 2006

Action Item

Presentation, Discussion and Possible Issuance of Determination Notices of Housing Tax Credits Associated with Mortgage Revenue Bond Transactions with other Issuers.

Requested Action

Approve, Amend or Deny the staff recommendation for Woodside Manor Senior Community.

Summary of the Transaction

The application was received on July 13, 2006. The Issuer for this transaction is Montgomery County HFC. The development is to be located East of US 75 and West of Hempel, and North of Loop 336 in Conroe. Demographics for the census tract include AMFI of $41,302; the total population is 7830; the percent of population that is minority is 54.79%; the percent of population that is below the poverty line is 17.57%; the number of owner occupied units is 1482; the number of renter units is 663 and the number of vacant units is 186. The percent of population that is minority for the entire City of Conroe is 46% (Census information from FFIEC Geocoding for 2006). The development is new construction and will consist of 220 total units targeting the elderly population, with 180 affordable units and 40 market rate units. The City of Conroe has no zoning requirements. The Department has received no letters of support and no letters of opposition. The bond priority for this transaction is:

☒ **Priority 3:** Any qualified residential rental development.

Recommendation

Staff recommends that the Board approve the issuance of a Determination Notice of Housing Tax Credits for Woodside Manor Senior Community.

Woodside Manor Senior Community, TDHCA Number 060421

PUBLIC COMMENT SUMMARY

Guide: "O" = Oppose, "S" = Support, "N" = Neutral, "NC" or Blank = No comment

State/Federal Officials with Jurisdiction:

TX Senator: Staples, District 3	NC	US Representative:	Brady, District 8, NC
TX Representative: Hope, District 16	NC	US Senator:	NC

Local Officials and Other Public Officials:

Mayor/Judge: Tommy Metcalf, Mayor, City of Conroe - The construction of affordable rental housing is in accordance with the City of Conroe Consolidated Plan which demonstrates a need for this type of development. In addition, the City Council declares support of this application for tax credits.

Resolution of Support from Local Government ☑

Individuals/Businesses: In Support: 0 In Opposition 0

Neighborhood Input:

General Summary of Comment:

The Department has received no letters of support and no letters of opposition.

CONDITIONS OF COMMITMENT

Per §50.12(c) of the Qualified Allocation Plan and Rules, all Tax Exempt Bond Development Applications "must provide an executed agreement with a qualified service provider for the provision of special supportive services that would otherwise not be available for the tenants. The provision of such services will be included in the Declaration of Land Use Restrictive Covenants ("LURA")."

Receipt, review, and acceptance, before commencement of construction, of evidence that all Phase I Environmental Site Assessment and subsequent environmental investigation report recommendations have been carried out.

Receipt, review, and acceptance, before commencement of construction, of a flood hazard mitigation plan to include, at a minimum, certification by a qualified architect or engineer that the construction plans are in accordance with TDHCA guidelines ("must develop the site so that all finished ground floor elevations are at least one foot above the flood plain and parking and drive areas are no lower than six inches below the floodplain, subject to more stringent local requirements"), and consideration and documentation of building flood insurance and tenant flood insurance costs.

Receipt, review, and acceptance, before commencement of construction, of an assessment of the subject site for the possible presence of sources of excessive noise, and evidence that any subsequent recommendations have been carried out.

Should the terms and rates of the proposed debt or syndication change, the transaction should be re-evaluated and an adjustment to the credit/allocation amount may be warranted.

ARCHITECTURAL REVIEW

The building and unit plans are comparable to other modern apartment developments. They appear to provide acceptable access and storage. The elevations reflect attractive multifamily buildings.

STRUCTURAL MATERIALS

The structures will be constructed on a concrete slab. According to the plans provided in the application the exterior will be 50% Hardi siding and 50% face brick. The interior wall surfaces will be drywall and the roofs will be finished with composite shingles.

UNIT FEATURES

The interior flooring will be resilient covering and laminate wood. Threshold criteria for the 2006 QAP requires all development units to include: mini blinds or window coverings for all windows, a dishwasher, a disposal, a refrigerator, an oven/range, an exhaust/vent fan in bathrooms, and a ceiling fan in each living area and bedroom. New construction units must also include three networks: one for phone service, one for data service, and one for TV service. In addition, each unit will include: a microwave, an ice maker in the refrigerator, laundry connections, a ceiling fixture in each room, an individual heating and air conditioning unit, and eight-foot ceilings.

ONSITE AMENITIES

In order to meet threshold criteria for a total of 200 or more units, the Applicant has elected to provide a community dining room with kitchen, community gardens, controlled access gates, a covered community porch, an equipped business center or computer learning center, full perimeter fencing, a furnished community room, a furnished fitness center, a senior activity room, and a swimming pool.

Uncovered Parking: 304 spaces **Carports:** 80 spaces **Garages:** 80 spaces

PROPOSAL and DEVELOPMENT PLAN DESCRIPTION

Description: Woodside Manor Senior Community is a 9-unit per acre new construction development located in northern Conroe. The development is comprised of 33 evenly distributed garden style residential buildings as follows:

No. of Buildings	No. of Floors	1BR	2BR/1Ba	2BR/2Ba
11	1		6	2
7	1	8	2	
2	1		2	4
12	1	4		
1	1	2		

The development includes a 5,720-square foot community building and a separate 714-square foot maintenance building.

SITE ISSUES

SITE DESCRIPTION

Total Size:	25.2 acres	**Scattered sites?**	☐ Yes ☒ No
Flood Zone:	A6, B, C	**Within 100-year floodplain?**	☒ Yes ☐ No
Current Zoning:	N/A	**Needs to be re-zoned?**	☐ Yes ☐ No ☒ N/A

SITE and NEIGHBORHOOD CHARACTERISTICS

Location: The subject site is located in northern Conroe, "on the north side of Loop 336 between the Union Pacific Railroad line and Canterbury Drive." (Market Study p. 26)

Adjacent Land Uses:

- **North:** undeveloped land immediately adjacent and FM 3083 beyond;
- **South:** Loop 336 immediately adjacent and commercial development beyond;
- **East:** undeveloped land immediately adjacent and commercial development beyond; and
- **West:** undeveloped land immediately adjacent and commercial development beyond.

Site Access: The site will be accessed from Loop 336 on the south side of the property.

Public Transportation: The availability of public transportation was not identified in the application materials.

Shopping & Services: "A fire station is located to the east of the site on the north side of Loop-336 … The subject has good proximity to shopping. An HEB grocery store and pharmacy is located at the southeast corner of SH-336 and Frazier Street (SR-75), and this corner has several other fast food restaurants, convenience stores, and other retail buildings. Other retail development is located along Loop-336 and Frazier Street. A Walmart discount store is located at the southeast corner of IH-45 and Loop-336, and a neighborhood retail center is located at the northeast corner. There is heavy retail development along IH-45 including national chain restaurants, neighborhood and power retail centers and the Conroe Outlet Mall development (which includes many outlet stores of major manufacturers). A new retail center is under development along the east side of IH-45 between Loop 336 and FM-3083." (Market Study p. 26)

Adverse Site Characteristics:

Floodplain: "There is a significant amount of 100 and 500 year flood plain near the subject that may also be located within the subjects boundaries. A survey delineating the subject's property lines and any flood plain should be obtained." (Market Study p. 26) The Applicant has provided an engagement letter from Precision Civil Design Group, LLC indicating that the firm will "perform a floodplain determination on the proposed multi-family development in Conroe, Texas. PCDG is currently reviewing the available floodplain models and analyzing the data to determine the exact location of the floodplain. A topographic survey has also been completed to assist in this task."

According to the 2006 QAP, "Any Development proposing New Construction located within the 100 year floodplain as identified by the Federal Emergency Management Agency (FEMA) Flood Insurance Rate Maps must develop the site so that all finished ground floor elevations are at least one foot above the flood plain and parking and drive areas are no lower than six inches below the floodplain, subject to more stringent local requirements. If no FEMA Flood Insurance Rate Maps are available for the proposed Development, flood zone documentation must be provided from the local government with jurisdiction identifying the 100 year floodplain. A condition of this report shall be receipt, review, and acceptance, before commencement of construction, of a flood hazard mitigation plan to include, at a minimum, consideration and documentation of flood plain reclamation sitework costs, building flood insurance and tenant flood insurance costs, and certification by a qualified architect or engineer that the construction plans are in accordance with TDHCA guidelines.

Overall Assessment: ☐ Excellent ☒ Acceptable ☐ Questionable ☐ Poor ☐ Unacceptable

Comments:

HIGHLIGHTS of SOILS & HAZARDOUS MATERIALS REPORT(S)

The Applicant will acquire 25.2 acres which is part of a larger tract of approximately 157 acres. A Phase I Environmental Site Assessment report dated September 21, 2005 was prepared by Phase One Technologies, LLC for the entire 157 acres (the Analyst used a survey which was inaccurately marked, and therefore makes reference to 159 acres). The ESA contained the following findings and recommendations:

Findings:

- **Noise:** Noise was not addressed in the ESA report.
- **Floodplain:** “The area along Stewart Creek is in the 100-year flood area. Base flood elevations and flood hazard factors have been determined. A portion of the outside boundary of Stewart Creek is located in an area between limits of the 100-year flood and 500-year flood. The remainder of the Tract is outside the 500-year flood hazard area.” (p. 8) Examination of the survey of the 159 acre tract, the legal description of the subject 25.2 acre site, and the site plan indicate that the 100-year floodplain does encroach on the northeastern boundaries of the subject site. The Applicant has provided an engagement letter from Precision Civil Design Group, LLC indicating that the firm will “perform a floodplain determination on the proposed multi-family development in Conroe, Texas. PCDG is currently reviewing the available floodplain models and analyzing the data to determine the exact location of the floodplain. A topographic survey has also been completed to assist in this task.”
- **Asbestos-Containing Materials (ACM):** “Hazardous materials, including asbestos, PCB’s, and lead: None.” (p. 6)
- **Lead-Based Paint (LBP):** “Hazardous materials, including asbestos, PCB’s, and lead: None.” (p. 6)
- **Lead in Drinking Water:** “Hazardous materials, including asbestos, PCB’s, and lead: None.” (p. 6)
- **Radon:** “Radon is not considered a concern for this Tract.” (p. 9)
- **Recognized Environmental Concerns (RECs):** “This assessment has revealed no current evidence of recognized environmental conditions in connection with the Tract other than noted below.”(p. 9)
- **Other:** (p. 9)
  - Several piles of discarded debris, including tires, were observed along the right-of-way and on the Tract.
  - The Tract has numerous access points, which allow a number of unwanted activities to take place on the Tract.
  - A number of drainage ditches are located throughout the Tract. The majority of these have become obstructed by both fallen trees, silt and brush.
  - Clearing activity has taken place on the Tract recently, creating several large brush piles.
  - A gas vent pipe is located in the northwest corner of the (157 acre) Tract, west of Stewart Creek.

Recommendations:

1. Have trash removed and disposed of properly. Also, have the discarded tires removed and taken to a properly registered landfill.

2. To deter illegal dumping, post Tract against trespassing according to Texas Penal Code Sec. 30.06
3. To allow water to flow properly on the Tract and not back up, document and repair all internal and external drainage ditches.
4. Have brush piles removes and disposed of properly. Currently the brush piles pose a potential fire hazard and obstruct the flow of water across the Tract.
5. Have exact floodplain boundaries surveyed on the ground by a licensed, registered surveyor.

Receipt, review, and acceptance, before commencement of construction, of evidence that all Phase I Environmental Site Assessment and subsequent environmental investigation report recommendations have been carried out is a condition of this report.

Receipt, review, and acceptance, before commencement of construction, of an assessment of the subject site for the possible presence of sources of excessive noise, and evidence that any subsequent recommendations have been carried out is a condition of this report.

INCOME SET-ASIDE

The Applicant has elected the 40% at 60% or less of area median gross income (AMGI) set-aside. Eighty-two percent of the units (180 of 220) will be reserved for households earning 60% or less of AMGI, and the remaining 40 units will be offered at market rents.

MAXIMUM ELIGIBLE INCOMES

	1 Person	2 Persons	3 Persons	4 Persons	5 Persons	6 Persons
60% of AMGI	$25,620	$29,280	$32,940	$36,600	$39,540	$42,480

MARKET HIGHLIGHTS

A market feasibility study dated May 25, 2006 was prepared by Jack Poe Company, Inc. ("Market Analyst") and included the following findings:

Secondary Market Information: "Conroe is located 35 miles north of the Houston Central Business District, and the secondary market area is the Houston CMSA (Consolidated Metropolitan Statistical Area)." (p. 8)

Definition of Primary Market Area (PMA): "The primary market area is centered around the City of Conroe, Texas, but includes the majority of Northern Montgomery County as well as small portions of Walker, Liberty, and San Jacinto Counties. The outlying rural areas surrounding the City of Conroe are included because many people will relocate from rural to suburban areas as they age to be closer to emergency services and health care facilities. Therefore, the primary market is delineated by FM-1375 and SR-150 on the north, FM-149 on the west, FM-1488 and SR-242 on the south, and US-59 and FM-2025 on the east. In addition to Conroe, the primary market area includes all of the town of Willis, and portions of other small towns including New Waverly, Montgomery, Splendora, and Cleveland." (p. 21) This area encompasses approximately 767 square miles and is equivalent to a 16 mile radius.

Population: The estimated 2005 population of the PMA was 169,178 and is expected to increase by 27% to approximately 214,786 by 2010. Within the primary market area there were estimated to be 21,749 elderly households in 2005.

Total Market Demand: "Population and household growth information for 2000, 2005, and 2010 were obtained from ERSI, which is a reliable source of demographic data. The 2006 TDHCA Market Analysis Guidelines specify 2006 and 2011 demographic data be used, but ERSI informed us … they are still only publishing the 2005 and 2010 data. Therefore, the 2006 and 2011 figures … are interpolated and extrapolated based on the 2005 and 2010 data." (p. 23) The Market Analyst determined a target household adjustment rate of 38% (p. 23) and a household size-appropriate adjustment rate of 100% since the average senior household is typically less than two persons. The market study was based on a preliminary application that indicated a mix of units with rent and income restricted at both 50% and 60% of area mean gross income (AMGI), as well as some market rate units. The Analyst determined a minimum income of $17,130 based on a proposed one bedroom 50% rent of $571 and an allowed rent burden of 40% for senior households; the maximum income of $32,940 is based on the 60% of AMGI income for a three person household (1.5 persons per bedroom). (p. 24) The Analyst's income band results in an income eligible adjustment rate of 6% of the general population. (summary page) The tenure appropriate adjustment rate of 2% is specific to the general household population. (summary page) The Market Analyst "studied the weekly traffic reports at 12 similar rural qualified elderly developments … the traffic reports at these senior tax credit properties is the best empirical data available, and a turnover rate of 35% is concluded." (p. 57)

In addition, "the available data suggests that demand emanates from a far greater distance than typically considered to be the primary market of competition to a property … it is recommended by TDHCA that if an analyst intends to include more than 10% of additional demand from the secondary market – then the analyst should analyze the secondary market demographic data and competing properties in a manner like the analyst studied the primary market, which is beyond the scope of this analysis. Therefore … an additional 10% of demand is included from the secondary market." (p. 58)

The Underwriter worked directly from the 2005 and 2010 demographic data provided in the market study, and determined a target household adjustment rate of 38%. The Underwriter used a household size adjustment rate of 100%. The application submitted to TDHCA included only 60% units and market rate units. Based on a 60% one bedroom rent of $686 and a 40% rent burden for senior households, the Underwriter determined a minimum household income of $20,580; the maximum income for the 60% two bedroom unit is the three person household income of $32,940. This narrower income band determines an income eligible adjustment rate of 12.3% of senior households. The tenure appropriate adjustment rate of 35% is specific to the target (senior) household population. Lacking any supporting analysis, the Underwriter did not include any demand from the secondary market.

MARKET DEMAND SUMMARY				
	Market Analyst		**Underwriter**	
Type of Demand	**Units of Demand**	**% of Total Demand**	**Units of Demand**	**% of Total Demand**
Household Growth	157	24%	57	13%
Resident Turnover	434	67%	372	87%
Other Sources: secondary market	59	9%	--	--
TOTAL DEMAND	**650**	**100%**	**428**	**100%**

p. 64

Inclusive Capture Rate: "The only other existing income restricted senior housing development has been operating at an occupancy level exceeding 90% for several years. The Lodges at Silverdale is a 160 unit, income restricted senior housing development that is under construction, and it must be included in the inclusive capture rate." (p. 64) The Market Analyst calculated an inclusive capture rate of 52% based on a supply of 340 unstabilized affordable senior housing units (180 at the subject property plus 160 at the Lodges at Silverdale) and demand for 650 units. The Underwriter calculated an inclusive capture rate of 79% based on a supply of 340 units divided by a revised demand estimate for 428 affordable units. Current TDHCA guidelines allow for an inclusive capture as high as 100% for developments targeting seniors.

Unit Mix Conclusion: "The developer intends to build 106 one bedroom/one bath floor plans, 84 two bedroom/one bath and 30 two bedroom/two bath floor plans. The two bedroom/one bath floor plan style is a departure from the market convention that every bedroom have a bath, but is well suited for an elderly household since it is more common that two or less adults occupy a two bedroom unit, and second bedrooms are often treated as a study or project room. Furthermore, fewer bathrooms result in lower utility and maintenance costs, which will help to insure a healthy cash flow to the property and reduce economic risk. In conclusion, the developer's unit mix at the subject is the best possible unit mix." (p. 60) At the time of the market study, the developer's proposed unit mix included 22 units (10% of the total) set aside with rent and income restrictions at 50% or less of AMGI, as well as 158 units at 60% of AMGI, and 40 market rent units. The proposal has since been revised to include 180 units at 60% of AMGI and 40 market units, with no 50% units. As indicated above, this change was factored into the Underwriter's calculations of inclusive capture rate, with the conclusion that there is sufficient demand for this revised unit mix.

Market Rent Comparables: The Market Analyst surveyed 4 comparable tax credit apartment projects (totaling 516 units) and 5 comparable market rate apartment projects (totaling 948 units) in the market area. "To determine if the subject's scheduled rents are appropriate, we analyzed nine apartment complexes in the primary market of competition and proved that if the subject were to be leased with the rental rate and income restrictions planned to be imposed, the project would be able to lease up to stabilized occupancy without detrimentally impacting the competitive market for affordable housing." (p. 60) "The restricted rents forecasted by the developer are equal to the maximum allowable rents, except for the (two-bedroom/one-bath) floor plan. But, the developer's forecasted rents for the market rate units are slightly higher than concluded to be applicable in the market at this time." (p. 61) The Analyst concluded that "the maximum allowable rent is obtainable" for each of the program unit types. The underwriting analysis uses maximum program rents for restricted units, and the Market Analyst's concluded rents for the market rate units, which are lower than those proposed by the Applicant.

RENT ANALYSIS (net tenant-paid rents)					
Unit Type (% AMI)	**Proposed**	**Program Max**	**Differential**	**Est. Market**	**Differential**
1-Bedroom (60%)	$632	$631	$1	$700	-$68
1-Bedroom (MR)	$730	N/A		$700	$30
2-BR/1-Ba (60%)	$710	$753	-43	$800	-$90
2-BR/1-Ba (MR)	$835	N/A		$800	$35
2-BR/2-Ba (60%)	$742	$753	-$11	$875	-$133
2-BR/2-Ba (MR)	$895	N/A		$875	$20

(NOTE: Differentials are amount of difference between proposed rents and program limits and average market rents, e.g., proposed rent =$500, program max =$600, differential = -$100)

Primary Market Occupancy Rates: "The market rate comparables are 76% to 100 % physically occupied, the family tax credit comparables are 88% to 100% occupied, and the qualified elderly developments are 100% occupied … (Havenwood Place) is the most similar (to the subject) in that it is an age and income restricted housing development with one-story design. (Plantation Apartments) is an older apartment that is restricted to seniors and it is also 100% occupied … Occupancy is softer in the market rent segment of the market due to two new complexes that are in their initial lease up stage. One tax credit comparable (Park Village) has suffered recently due to the rapid lease up of another (the Park at Piney Woods), which is only one block north of it." (p. 63) It should be noted that the Park at Piney Woods enjoys a market advantage which contributed to this rapid lease up. The rents at this property are restricted to the 50% of AMGI level, but it is permitted to serve tenants earning up to 60% of AMGI. This means the same market of eligible renters will pay lower rents.

Absorption Projections/Market Impact: "The subject (180 HTC units and 40 market rate units) is planned to be built in a growing market where there is only one directly competitive development that offers 64 units. None of these directly competitive units are vacant. A competing property (Lodges at Silverdale) is under construction, and it will have 160 two bedroom units reserved for seniors. There is adequate demand in the market to absorb the subject units within 5 months without detrimentally impacting the existing supply of competitive qualified elderly developments." (p. 67)

Unstabilized, Under Construction, and Planned Development: "No other existing Housing Tax Credit properties are located within one mile of the subject. The site of a proposed 176 unit (168 restricted) HTC development is located approximately one mile west." (p. 67) This proposed development, Oakcreek Apartments, targets the family population, and is therefore not considered competition for the subject senior development. "A competing property (Lodges at Silverdale) is under construction, and it will have 160 two bedroom units reserved for seniors." (p. 67)

Other Information: The Department commissioned Vogt, Williams, & Bowen, LLC to perform a market study for the Houston-Baytown-Sugar Land Metropolitan Statistical Area (MSA). The proposed development is located in the Montgomery submarket within the Houston MSA. According to the Vogt, Williams, & Bowen study; there is demand in this submarket for 54 studio or one-bedroom units at the 0%-30% of AMGI income level; demand for 31 studio or one-bedroom units at the 31%-40% income level; negative demand (-61 units) for studio or one-bedroom units at the 41%-50% income level; negative demand (-376 units) for studio or one-bedroom units at the 51%-60% income level; and negative demand (-19 units) for studio or one-bedroom units at income levels greater than 60% of AMGI. For the two-bedroom units, the Vogt Williams study reported demand for 25 units at the 0%-30% of AMGI income level; demand for 14 units at the 31%-40% income level; negative demand (-30 units) at the 41%-50% income level; negative demand (-217 units) at the 51%-60% income; and negative demand (-12 units) for two-bedroom units at income levels greater than 60% of AMGI. (p. III-311)

The Department's market study for the entire MSA does not incorporate demand from turnover as normally allowed in development specific market studies because in an overall study the demand from turnover returns to all of the units in the market area. A development specific market study identifies the demand from turnover as potential demand that can be attracted away from existing units and to the proposed development (and any other new developments that have not yet become fully occupied.) These differences are further addressed in the subject market study:

"We do not concur with the findings in the Vogt, Williams, and Bowen, LLC report for two reasons. First, they include all of Montgomery County as one submarket area, and in our opinion, this is too large an area to be concluded for the subject's Primary Market area. It exceeds the maximum population standard of 100,000 for general apartments and 250,000 for senior apartments. Also, the Woodlands is included in their report, and it is not in this report. The Woodlands is an upper-middle income, master-planned development. It has a significant number of both market rate and tax credit apartments, but it is judged to be a separate market area from the subject. We do not believe that the subject would draw more than 10% of its residents from the Woodlands, and it is more likely to draw senior households from the surrounding semi-rural parts of northern Montgomery County.

The second reason that we do not concur with the TDHCA's market study conclusion is that the analysis is based on a balanced market with a 95% occupancy rate. We believe that occupancy rates of 92% to 94% represent a balance of supply and demand for most urban and suburban apartment markets, and that 95% occupancy or above reflects under-supplied conditions in which rents are rising rapidly. Thus, we believe that the Vogt, Williams, and Bowen, LLC analysis is too conservative to conclude that the market is oversupplied until a 95% occupancy is reached.

… There is only one existing income restricted senior housing development in the primary market that was specifically designated for the subject, and it is 100% occupied. Its last vacancy was over five months ago. The excess supply of vacant senior housing units are located beyond the primary market, and this extremely large area is not appropriate for estimating the supply and demand with which the subject would compete." (p. 65)

Market Study Analysis/Conclusions: The Underwriter found the market study provided sufficient information on which to base a funding recommendation.

OPERATING PROFORMA ANALYSIS

Income: For the program units, the Applicant's projected rent collected per unit was calculated by subtracting tenant-paid utility allowances as of December 2005, maintained by the Montgomery County Housing Authority, from the 2006 program gross rent limit. Tenants will be required to pay electricity and natural gas costs, but hot water will be provided by the Applicant. Based on the market study the Underwriter concludes that the program maximum limits are achievable. The Applicant's proposed rents for the market rate units were higher than what the Market Analyst concluded to be achievable; therefore the Underwriter will use the Analyst's estimates.

The Applicant proposed secondary income of $57 per unit per month, including rental income from garages, carports, and laundry machines, as well as miscellaneous fee income from applications, terminations, lost keys, etc. Based on comparison with six months of operating income at a similar property the Applicant developed in DeSoto, TX, the Underwriter concludes an overall secondary income of $27 per unit per month is achievable. The Applicant's estimated losses due to vacancy and collections are consistent with TDHCA guidelines. The Applicant's estimated Effective Gross Income of $1.85M is within 5% of the Underwriter's estimate.

Expenses: The Applicant's total annual operating expense projection at $3,388 per unit is not within 5% of the Underwriter's estimate of $3,758, derived from actual operating history of a similar development, the TDHCA database, and third-party data sources. The Applicant's estimate for General & Administrative expenses is $43K lower than the Underwriter's estimate; the Applicant's estimate for Repairs & Maintenance expenses is $32K lower than the Underwriter's estimate. The Underwriter's estimate for utility expense is adjusted to reflect that the Applicant will provide hot water to tenants. The Underwriter's estimate for property tax is adjusted to reflect an expected 50% tax abatement. (The subject qualifies for the tax abatement because Outreach Housing Corp., the General Partner and 99.9% Limited Partner, is a non-profit CHDO (Community Housing Development Organization).

Conclusion: While the Applicant's estimated income is within 5% of the Underwriter's, the Applicant's total annual operating expense projection is not, and the Applicant's estimated Net Operating Income (NOI) of $1.1M is 14% higher than the Underwriter's estimate. When income, expenses, and NOI are not each within 5%, TDHCA guidelines call for the Underwriter's estimated NOI to be used to determine debt capacity.

The Underwriter's estimated NOI and debt service result in a debt coverage ratio (DCR) below the current underwriting minimum guideline of 1.10. Therefore, the recommended financing structure reflects a decrease in the permanent mortgage based on the interest rate and amortization period indicated in the permanent financing documentation submitted at application. This is discussed in more detail in the conclusion to the "Financing Structure Analysis" section (below).

Long-Term Feasibility: The underwriting 30-year proforma applies a 3% annual growth factor for income and a 4% annual growth factor for expenses in accordance with current TDHCA guidelines. As noted above, the Underwriter's base year effective gross income, expense and net operating income were utilized, with a reduced permanent debt service requirement, resulting in continued positive cashflow and a debt coverage ratio that remains above 1.10. Therefore, the development can be characterized as feasible for the long-term.

ACQUISITION VALUATION INFORMATION

ASSESSED VALUE

Land: 117.746 acres	$37,680	**Assessment for the Year of:**	2006
Land: 40 acres	$120,000	**Valuation by:**	Montgomery County Appraisal Dist
Site: 25.204 acres (prorated from 40 acres)	$75,612	**Tax Rate:**	2.8955

EVIDENCE of SITE or PROPERTY CONTROL

Type of Site Control:	Contract to Purchase Real Estate (20 acres amended to 25.204 acres)		
Contract Expiration:	10/15/2006	**Valid through Board Date?**	☒ Yes ☐ No
Acquisition Cost:	$1,150,000	**Other:**	Contract assigned to Applicant by Purchaser (DAS Housing)
Seller:	Conroe Sugar Pine Village, Ltd	**Related to Development Team?**	☐ Yes ☒ No

CONSTRUCTION COST ESTIMATE EVALUATION

Acquisition Value: The site cost of $45,628 per acre is assumed to be reasonable since the acquisition is an arm's-length transaction.

The Contract Purchaser is DAS Housing, Inc., a related party to the Applicant. DAS Housing, Inc. has executed an Assignment of "all of its right, title, and interest in and to the Contract to" the Applicant, OHT/Woodside, Ltd.

The Applicant provided a survey of 157 acres, and the legal description defines the subject 25 acres by reference to the 157 acre tract. Montgomery County Central Appraisal District records show the land as two parcels. One tract of 40 acres is owned by the Contract Seller, Conroe Sugar Pine Village, Ltd. The subject 25 acres will be subdivided from this 40 acre tract. The second tract of 117 acres is owned by New Pine Venture IV, Ltd., an unrelated party. New Pine Venture IV purchased the entire 157 acre tract in 2005 and immediately sold the 40 acre parcel to the Seller.

Sitework Cost: The Applicant's claimed sitework costs of $7,489 per unit are within current Department guidelines. Therefore, further third party substantiation is not required.

Direct Construction Cost: The Applicant's direct construction cost estimate is $1.5M (17%) higher than the Underwriter's estimate derived from the Marshall & Swift *Residential Cost Handbook*. The Applicant has constructed very similar developments in several locations over several years. The Applicant's estimate for direct construction cost in the current application (on a per square foot basis) is 24% higher than the estimate in the application for Creekside Manor in Kileen, submitted in the fall of 2005, and 38% higher than that for Hickory Manor in DeSoto, submitted in 2004. The Underwriter's estimate is 13% higher than that for the Kileen development, and 19% higher than for DeSoto.

Ineligible Costs: The Applicant included $85K in direct construction costs for garages and carports as an ineligible cost. The Underwriter's estimate for these costs is $427K. The Underwriter's estimate for Ineligible Costs has been adjusted for this difference.

Interim Financing Fees: The Underwriter reduced the Applicant's eligible interim financing fees by $540K to bring the eligible interest expense down to one year of fully drawn interest expense. This results in an equivalent reduction to the Applicant's eligible basis estimate. The Applicant also included $50,000 under "Other Miscellaneous Legal Soft Costs" as an eligible cost, and indicated this is a contingent amount to cover an unforeseen increase in closing costs. The Underwriter has shifted this amount to Contingency Costs. Eligible contingency costs are limited to 5% of the sum of eligible hard construction costs plus eligible site costs; this additional amount causes the Applicant's estimated contingency cost to exceed the limit by $3.8K, thereby reducing the Applicant's calculated eligible basis.

Fees: The Applicant's developer fee exceeds 15% of the Applicant's adjusted eligible basis by $97K and therefore the eligible portion of the Applicant's developer fee must be reduced by the same amount The Applicant's fees for the contractor were set at the maximums allowed by TDHCA guidelines, but with the reduction in eligible basis due to the misapplication of eligible basis discussed above, the eligible basis portion of these fees now exceeds the maximum by $548K and has been reduced by the same amount in order to recalculate the appropriate requested credit amount.

Conclusion: The Applicant's total development cost is not within 5% of the Underwriter's estimate; therefore, the Underwriter's cost schedule will be used to determine the development's need for permanent funds and to calculate eligible basis. The Underwriter's calculated eligible basis of $16.8M is increased by 30% because Montgomery County has been designated a Difficult Development Area. The result is then reduced by 18% because only 82% of the units are reserved for low income tenants. The resulting adjusted eligible basis of $17,866,558 supports annual tax credits of $646,769, based on an applicable percentage of 3.62% as of July 1, 2006. (The Applicant used a lower applicable percentage of 3.47%.) This tax credit figure will be compared to the Applicant's request and the tax credits calculated based on the gap in need for permanent funds to determine the recommended allocation.

FINANCING STRUCTURE ANALYSIS

Interim Financing: "The Partnership expects to receive pre-development financing from Column Capital in an amount of $250,000." (Equity Letter of Intent, p. 2 of 8)

Interim to Permanent Bond Financing: Column Capital shall arrange for the purchase of tax-exempt bonds issued by Montgomery County HFC. The proceeds from the Bonds shall fund an interim construction loan and permanent mortgage loan on the property. The estimated bond and loan amount is $13,250,000. The interim construction period is 24 months, with an interest rate at 67% of LIBOR plus 150 basis points. The permanent phase will be 30 years, amortized over 40 years, at a fixed interest rate of 6.25%.

HTC Syndication: The tax credit syndication commitment is consistent with the terms reflected in the sources and uses of funds listed in the application. "If the Federal Credits delivered to the Investor are less than $62,664 for 2007, $524,190 for 2008, or $716,160 for 2009, the Aggregate Capital Contribution shall be reduced by $0.75 for each dollar of Federal Credit below such amounts. The General Partner will immediately repay the amount by which the above adjuster exceeds the remaining unpaid capital contributions." (Equity Letter of Intent, p. 3 of 8)

GIC Income: The Applicant included an anticipated return of 5.45% from investment of the bond proceeds in a guaranteed investment contract (GIC) during the construction phase. These funds are added to the anticipated deferred developer fee.

Deferred Developer's Fees: The Applicant's proposed deferred developer's fees of $794,200 amount to 23% of the total fees.

Financing Conclusions: As stated above, the proforma analysis results in a debt coverage ratio below the Department's minimum guideline of 1.10. The current underwriting analysis assumes a decrease in the permanent loan amount to $12,879,132 based on the terms reflected in the application materials. As a result the development's gap in financing will increase. The permanent lender's minimum is 1.10.

The Underwriter's total development cost estimate less the permanent loan of $12,879,132 indicates the need for $6,397,394 in gap funds. Based on the submitted syndication terms, a tax credit allocation of $647,755 annually would be required to fill this gap in financing. Of the three possible tax credit allocations, Applicant's request ($716,232), the gap-driven amount ($647,755), and eligible basis-derived estimate ($646,769), the basis-derived estimate of $646,769 is recommended, resulting in proceeds of $6,337,732 (based on a syndication rate of 98%).

The Underwriter's recommended financing structure indicates the need for $9,662 in additional permanent funds. Deferred developer fees in this amount appear to be repayable from development cashflow within one year of stabilized operation.

DEVELOPMENT TEAM

IDENTITIES of INTEREST

- The Applicant, Developer, General Contractor, property manager, and supportive services provider are related entities. These are common relationships for HTC-funded developments.

APPLICANT'S/PRINCIPALS' FINANCIAL HIGHLIGHTS, BACKGROUND, and EXPERIENCE

Financial Highlights:

- The Applicant is a single-purpose entity created for the purpose of receiving assistance from TDHCA and therefore has no material financial statements.

- Outreach Housing Corporation (OHC) is a Texas 501(c)(3) non-profit corporation. OHC is the 0.005% General Partner, as well as a 99.99% Limited Partner and 21% owner of Noel Project Development, LLC. OHC submitted an unaudited financial statement as of January 6, 2006 reporting total assets of $11.1M consisting of $346K in cash, $6.1M in receivables, and $4.6M in real property. Liabilities totaled $285K, resulting in net assets of $11.1M.
- Noel Project Development, LLC, the Developer and 0.005% Special Limited Partner, submitted an unaudited financial statement as of August 1, 2006, reporting total assets of $3.0M, consisting of $2.5K in cash, $783K in accounts receivable, and $2.2M in long-term notes receivable. Liabilities totaled $0, resulting in net assets of $3.0M.
- Colonial Communities, Inc. is 79% owner of Noel Project Development, LLC. Colonial Communities, Inc. submitted an unaudited financial statement as of August 1, 2006, reporting total assets of $5.6M, consisting of $142K in cash, $770K in accounts receivable, $3.4M in long-term notes receivable, and $1.3M in real property. Liabilities totaled $150K, resulting in net assets of $5.5M.
- Richard Shaw is 50% owner of Colonial Communities, Inc. Mr. Shaw submitted an unaudited financial statement as of August 1, 2006 and is anticipated to be a guarantor of the development.
- David Turek is 50% owner of Colonial Communities, Inc. Mr. Turek submitted an unaudited financial statement as of August 1, 2006, and is anticipated to be a guarantor of the development.

Background & Experience: Multifamily Production Finance Staff have verified that the Department's experience requirements have been met and Portfolio Management and Compliance staff will ensure that the proposed owners have an acceptable record of previous participation.

SUMMARY OF SALIENT RISKS AND ISSUES

- The Applicant's operating expenses and operating proforma are more than 5% outside of the Underwriter's verifiable ranges.
- The Applicant's direct construction costs differ from the Underwriter's *Marshall and Swift*-based estimate by more than 5%.
- The Applicant's total development costs differ from the Underwriter's verifiable estimate by more than 5%.
- Significant environmental/locational risk exists due to part of the site being located in the 100 year floodplain.
- The development would need to capture a majority of the projected market area demand (i.e., capture rate exceeds 50%).
- The anticipated ad valorem property tax exemption may not be received or may be reduced, which could affect the financial feasibility of the development.
- The significant financing structure changes being proposed have not been reviewed by the Applicant, lenders, and syndicators, and acceptable alternative structures may exist.

MULTIFAMILY FINANCE PRODUCTION DIVISION
BOARD ACTION REQUEST
August 30, 2006

Action Item

Presentation, Discussion and Possible Issuance of Determination Notices for Housing Tax Credits Associated with Mortgage Revenue Bond Transactions with other Issuers.

Requested Action

Approve, Amend or Deny the staff recommendation for Costa Mirada.

Summary of the Transaction

The application was received on July 14, 2006. The Issuer for this transaction is San Antonio HFC. The development is to be located at 9005 Somerset Road in San Antonio. Demographics for the census tract include AMFI of $27,388; the total population is 2,838; the percent of population that is minority is 94.43%; the percent of population that is below the poverty line is 31.82%; the number of owner occupied units is 539; the number of renter units is 271 and the number of vacant units is 141. The percent of population that is minority for the entire City of San Antonio is 68% (Census information from FFIEC Geocoding for 2006). The development is new construction and will consist of 212 total units targeting the general population, with 211 affordable units and one market rate unit. The site is currently zoned for such a development. The Department has received no letters of support and no letters of opposition. The bond priority for this transaction is:

☒ **Priority 3:** Any qualified residential rental development.

Recommendation

Staff recommends that the Board approve the issuance of a Determination Notice of Housing Tax Credits for Costa Mirada.

General Summary of Comment:

The Department has received no letters of support and no letters of opposition.

CONDITIONS OF COMMITMENT

Per §50.12(c) of the Qualified Allocation Plan and Rules, all Tax Exempt Bond Development Applications "must provide an executed agreement with a qualified service provider for the provision of special supportive services that would otherwise not be available for the tenants. The provision of such services will be included in the Declaration of Land Use Restrictive Covenants ("LURA")."

Receipt, review, and acceptance of a copy or draft of a PILOT agreement between the San Antonio Housing Authority (or affiliate) and the partnership.

Should the terms and rates of the proposed debt or syndication change, the transaction should be re-evaluated and an adjustment to the credit/allocation amount may be warranted.

ARCHITECTURAL REVIEW

The building and unit plans are comparable to other modern apartment developments. They appear to provide acceptable access and storage. The elevations reflect modest buildings.

STRUCTURAL MATERIALS

The structures will be constructed on concrete slabs. According to the plans provided in the application the exterior will be 13% siding/shingle and 87% stucco. The interior wall surfaces will be drywall and the roofs will be finished with composite shingles.

UNIT FEATURES

The interior flooring will be carpet, resilient covering, and light concrete. Threshold criteria for the 2006 QAP requires all development units to include: mini blinds or window coverings for all windows, a dishwasher, a disposal, a refrigerator, an oven/range, an exhaust/vent fan in bathrooms, and a ceiling fan in each living area and bedroom. New construction units must also include three networks: one for phone service, one for data service, and one for TV service. In addition, each unit will include: microwave, laundry connections, a ceiling fixture in each room, an individual heating and air conditioning unit, individual water heater, and nine-foot ceilings.

ONSITE AMENITIES

In order to meet threshold criteria for total units of 200 or more, the Applicant has elected to provide a barbecue or picnic table for every 50 units, community laundry room, controlled access gates, an equipped business center or computer learning center, full perimeter fencing, a furnished community room, a furnished fitness center, public telephone(s) available to tenants 24 hours a day, a swimming pool, and a furnished and staffed children's activity center.

Uncovered Parking: 403 spaces **Carports:** 0 spaces **Garages:** 0 spaces

PROPOSAL and DEVELOPMENT PLAN DESCRIPTION

Description: Costa Mirada will be a 17.55-unit per acre new construction development located in southwest San Antonio. The development will be comprised of ten garden style and two townhome residential buildings as follows:

No. of Buildings	No. of Floors	1BR	2BR	3BR	4BR
7	3		12	12	
2	3		12		
2	2				4
1	3	4			

The development will include a 3,517-square foot community building that is planned to have a fitness center, community room, business center, children's activity room, kitchen, and laundry facility.

SITE ISSUES

SITE DESCRIPTION

Total Size:	12.08 acres	**Scattered sites?**	☐ Yes ☒ No
Flood Zone:	Zone X	**Within 100-year floodplain?**	☐ Yes ☒ No
Current Zoning:	MF-33 / Multi-Family District	**Needs to be re-zoned?**	☐ Yes ☒ No ☐ N/A

SITE and NEIGHBORHOOD CHARACTERISTICS

Location: The proposed site is an irregular-shaped, vacant parcel of land located on the 9000 block of Somerset Road, approximately 0.5 miles south of IH-35 and nine miles southwest of the central business district of San Antonio, Bexar County.

Adjacent Land Uses:

- **North:** a church immediately adjacent and a multifamily residential development and IH-35 beyond;
- **South:** vacant land immediately adjacent and vacant land beyond;
- **East:** Somerset Road immediately adjacent and vacant land and single-family residential beyond; and
- **West:** vacant land immediately adjacent and vacant land beyond.

Site Access: Primary access to the site will be from north or south bound on Somerset Road. In addition, the siteplan indicates a secondary exit to Somerset Road.

Public Transportation: Public transportation to the area is provided by VIA Metropolitan Transit and the nearest linkage is 0.5 miles from the subject site.

Shopping & Services: A major supermarket, other retail facilities and restaurants, public schools, a public park and other public services, and a medical complex are each located within two miles of the site.

Inspector: Manufactured Housing Staff **Date:** 7/31/2006

Overall Assessment: ☐ Excellent ☒ Acceptable ☐ Questionable ☐ Poor ☐ Unacceptable

Comments:

HIGHLIGHTS of SOILS & HAZARDOUS MATERIALS REPORT(S)

A Phase I Environmental Site Assessment report dated June 9, 2006 was prepared by ECS – Texas, LLP and contained the following findings and recommendations:

Findings:

- **Noise:** "The subject property was not identified as being located within 5 blocks of a railroad, highway, airport, or airport flight path; therefore a noise study does not appear to be warranted for the site at this time."
- **Floodplain:** "According to the Federal Emergency Management Act (FEMA) Flood Insurance Rate Map (FIRM) Panel Number 4854640604E, February 16, 2005, the subject property was located in Zone X, which was defined as 'areas outside the 100-year floodplain.'"
- **Asbestos-Containing Materials (ACM):** "The subject property was undeveloped."
- **Lead-Based Paint (LBP):** "The subject property was undeveloped."
- **Lead in Drinking Water:** "The subject property was undeveloped."
- **Radon:** "Radon is a naturally occurring gaseous substance resulting from the radioactive decay of uranium to radium and then to radon. Uranium is a common element found in many geologic formations and substrates, particularly igneous and metamorphic rocks. Radon has a half-life of only 3.8 days and decays to its daughter elements (polonium 218, polonium 214, bismuth 214 and lead 214). It is these daughter elements which represent the health hazard commonly associated with radon. According to the EDR Radius Map with GeoCheck report, Bexar County has a mean average radon concentration of 1.1 pico curies per liter (pCi/L), with a maximum of 6.1 pCi/L. The site-specific area was evaluated in an EPA / State Residential Survey and a National Residential Radon Survey conducted in zip code 78211. The site is located in EPA Radon Zone 3, where data from 2 test sites showed an average of 0.550 pCi/L, which is below the U.S. EPA action level of 4.0 pCi/L. Therefore, radon was not considered to pose an environmental concern in connection with the subject property."

Recommendations: "This assessment has revealed no evidence of recognized environmental conditions of concern in connection with the subject property. No further investigation is warranted at this time."

INCOME SET-ASIDE

The Applicant has elected the 40% at 60% or less of area median gross income (AMGI) set-aside. Six of the units (3%) will be reserved for households earning 50% or less of AMI, 205 units (97%) will be reserved for households earning 60% or less of AMI, and the remaining unit will be offered at market rent.

MAXIMUM ELIGIBLE INCOMES						
	1 Person	**2 Persons**	**3 Persons**	**4 Persons**	**5 Persons**	**6 Persons**
60% of AMI	$22,320	$25,500	$28,680	$31,860	$34,380	$36,960

MARKET HIGHLIGHTS

A market feasibility study dated March 16, 2006 was prepared by Apartment MarketData ("Market Analyst") and included the following findings:

Secondary Market Information: The Market Analyst did not include a secondary market area.

Definition of Primary Market Area (PMA): The Market Analyst indicates a custom market area with the following boundaries: Highway 90 to the north; Pleasanton Road to the east; Loop 410 to the south; and Quintana Road to the west. This area encompasses approximately 24.6 square miles and is equivalent to a circle with a radius of 2.8 miles.

Population: The estimated 2005 population of the PMA was 93,938 and is expected to increase by 4.5% (0.9% annually) to approximately 98,184 by 2010. Within the primary market area there were estimated to be 27,266 households in 2005.

Total Market Demand: The Market Analyst utilized a household size-appropriate adjustment rate of 95.39% (p. 51). The Analyst's income band of $17,074 to $36,960 and income specific renter percentages result in an income eligible, tenure appropriate adjustment rate of 16.16% (p. 49). The Market Analyst indicates a turnover rate of 74.9% applies based on IREM data (p. 50).

MARKET DEMAND SUMMARY				
	Market Analyst		**Underwriter**	
Type of Demand	**Units of Demand**	**% of Total Demand**	**Units of Demand**	**% of Total Demand**
Household Growth	28	1%	36	1%
Resident Turnover	3,174	99%	3,199	99%
TOTAL DEMAND	**3,202**	**100%**	**3,234**	**100%**

p. 53

Inclusive Capture Rate: The Market Analyst calculated an inclusive capture rate of 14.5% based upon 3,202 units of demand and 464 unstabilized affordable housing in the PMA (including the subject) (p. 52). The Underwriter calculated an inclusive capture rate of 14.3% based upon a revised supply of 463 unstabilized comparable affordable units divided by a revised demand estimate for 3,234 affordable units.

Unit Mix Conclusion: "Based on 1) the number of persons per household who we view as the renter population profile, specifically that of the renter household market, and 2) our experience of the percentage of apartment units in demand based on household size, multiplied by the percentage of total sub-market household size, we have determined that a mirror image of the demography would contain 35.3% one bedrooms, 38.5% two bedrooms, 19.0% three bedrooms, and 7.2% four bedrooms. From our above analysis, we conclude that the unit mix of the subject will vary from the demographic make-up of the Primary Market Area" (p. 93). "Because of the physical, economic, and functional characteristics of the PAB and LIHTC programs, it is logical that some variation will exist from market demographic characteristics to the actual physical project. It is our opinion, given current occupancies and the forecasted household growth, that the subject unit mix, for all purposes, will meet the needs of lower and median income families within the sub-market" (p. 94).

Market Rent Comparables: The Market Analyst surveyed five comparable market rate multifamily developments in the market area.

RENT ANALYSIS (net tenant-paid rents)					
Unit Type (% AMI)	**Proposed**	**Program Max**	**Differential**	**Est. Market**	**Differential**
1-Bedroom (50%)	$422	$409	$13	$740	-$318
1-Bedroom (60%)	$521	$508	$13	$740	-$219
2-Bedroom (50%)	$507	$488	$19	$770	-$263
2-Bedroom (60%)	$627	$608	$19	$770	-$143
2-Bedroom (60%)	$607	$608	-$1	$770	-$163
2-Bedroom (MR)	$717	N/A		$770	-$53
3-Bedroom (50%)	$581	$549	$32	$910	-$329
3-Bedroom (60%)	$719	$687	$32	$910	-$191
3-Bedroom (60%)	$687	$687	$0	$910	-$223
4-Bedroom (60%)	$794	$715	$79	$1,125	-$331
4-Bedroom (60%)	$714	$715	-$1	$1,125	-$411

(NOTE: Differentials are amount of difference between proposed rents and program limits and average market rents, e.g., proposed rent =$500, program max =$600, differential = -$100)

Primary Market Occupancy Rates: “The occupancy rate for the income restricted one bedrooms is 100%, for income restricted two bedrooms it is 98.7%, for the income restricted three bedroom units is 98.4%, for the income restricted four bedroom units is 92.9%, and the overall average occupancy for income restricted units is 98.1%” (p. 14). “Today, the PMA is 96.2% occupied overall. Based on occupancy rates currently reported by existing projects, we opine that the market will readily accept the subject’s units” (p. 11).

Absorption Projections: “Absorption over the previous sixteen years for all unit types is estimated to be 65 units per year. We expect this to continue as the number of new household continues to grow, and as additional rental units become available” (p. 11).

Unstabilized, Under Construction, and Planned Development: The Market Analyst indicates one proposed comparable affordable development in the PMA. Artisan at Military (#060409) is planned to have 252 affordable one, two, and three bedroom units. The development was recommended for a tax credit allocation under the 4% HTC program in 2006. Additionally, an elderly development, The Alhambra (#05160), is located within the PMA but will not affect the capture rate.

Market Impact: The Market Analyst did not directly address the potential market impact of the subject development.

Market Study Analysis/Conclusions: The Underwriter found the market study provided sufficient information on which to base a funding recommendation.

OPERATING PROFORMA ANALYSIS

Income: The Applicant’s projected rents collected for each affordable unit were calculated by subtracting either tenant-paid utility allowances as of June 1, 2006, maintained by the San Antonio Housing Authority (SAHA) or utility allowances provided by a third-party and review by the utility providers, from the 2006 program gross rent limits. Through correspondence with the Underwriter, the Applicant explained that one-third of the utility allowances reflected in the rent schedule are based on the allowances provided by the San Antonio Housing Authority and two-thirds are based on information provided by Diamond Property Consultants. The Applicant provided signed letters from the utility providers indicating that the utility allowances provided by Diamond Property Consultants were reviewed by the provider and apply to the proposed development. The Underwriter has determined that the Applicant has provided sufficient documentation for the alternate utility allowances; therefore, the Underwriter has used the utility allowances provided by Diamond Property Consultants and reviewed by the utility providers. However, the Underwriter has applied these allowances to all of the proposed units. The Applicant did not provide sufficient evidence that the application of the SAHA utility allowances to one-third of the units is reasonable. Tenants will be required to pay electric, natural gas, water, and sewer costs. Due to the differences noted above, the Underwriter’s income estimate is $29K or 2% higher than the Applicant’s estimate, but still within the Department’s guideline. Additionally, the Applicant’s estimates of secondary income and vacancy and collection loss are each within the Department's guidelines.

Expenses: The Applicant's total annual operating expense projection at $3,279 per unit is within 5% of the Underwriter's estimate of $3,378, derived from the TDHCA database and third-party data sources. However, a number of the Applicant's expense estimates differ significantly from the Underwriter's estimates, including: general and administrative ($26K or 33% lower); utilities ($14K or 47% higher) and water, sewer, and trash ($18K or 38% lower). Additionally, the Applicant understated compliance fees.

The Underwriter is assuming the 100% property tax exemption proposed by the Applicant, which will be achieved through a ground lease between Las Varas Public Facility Corporation (an affiliate of the SAHA) and the partnership. A draft of the ground lease was provided by the Applicant and indicates a term of 75 years for an annual rent payment of $100. In addition, the Applicant has indicated that a PILOT agreement between the SAHA and the partnership will result in an annual payment of $200 per unit ($42K annually) in lieu of taxes. However, the Applicant did not provide a copy or draft of the PILOT agreement confirming this annual payment. Therefore, receipt, review, and acceptance of a copy or draft of a PILOT agreement between the San Antonio Housing Authority (or affiliate) and the partnership is a condition of this report.

Due to the difference between the Applicant's and Underwriter's expenses, the Applicant submitted 2006 income statements for two similar developments in San Antonio. However, the statements included forecasts for the remaining portion of the 2006 year. Therefore, the Underwriter found the evidence insufficient upon which to base the subject proforma expenses. In addition, the Underwriter gathered the 2005 Owner's Financial Certifications for each development, but each appears to have been unstabilized during the 2005 year. Therefore, the financial certifications only provided limited usable information. The Applicant stated that no other comparable NRP Group developments were stabilized for the full 2005 year and could not provide other evidence to justify the cost differences.

Conclusion: The Applicant's estimates of effective gross income, operating expenses, and net operating income are each within 5% of the Underwriter's estimates; therefore, the Applicant's Year One proforma will be used to determine the development's debt coverage ratio (DCR) and debt capacity. The Applicant's proforma and estimated debt service result in a DCR within the current underwriting guideline of 1.10 to 1.30.

Long-Term Feasibility: The underwriting 30-year proforma utilizes a 3% annual growth factor for income and a 4% annual growth factor for expenses in accordance with current TDHCA guidelines. As noted above, the Applicant's base year effective gross income, expense and net operating income were utilized resulting in a debt coverage ratio that remains above 1.10 and continued positive cashflow. Therefore, the development can be characterized as feasible for the long-term.

ACQUISITION VALUATION INFORMATION

ASSESSED VALUE

Land: 19.205 acres	$61,630	**Assessment for the Year of:**	2006
1 acre:	$3,209	**Valuation by:**	Bexar County Appraisal District
Site: 12.08 acres	$38,765	**Tax Rate:**	3.117074

Type of Site Control:	Purchase and Sale Contract (+/-12 acres)		
Contract Expiration:	10/17/2006	**Valid through Board Date?**	☐ Yes ☐ No
Acquisition Cost:	$950,000	**Other:**	
Seller:	Glenn W Lynch, Trustee	**Related to Development Team?**	☐ Yes ☒ No

CONSTRUCTION COST ESTIMATE EVALUATION

Acquisition Value: The site cost of $78,642 per acre or $4,481 per unit is assumed to be reasonable since the acquisition is an arm's-length transaction.

Off-Site Costs: The Applicant claimed off-site costs of $57,821 for a sidewalk, a storm drain, and a deceleration line and provided sufficient third party certification from a professional engineer to justify these costs.

Sitework Cost: The Applicant's revised sitework costs of $7,373 per unit are within current Department guidelines. Therefore, further third party substantiation is not required.

Direct Construction Cost: The Applicant's revised direct construction cost estimate is $411K or 4% higher than the Underwriter's Marshall & Swift *Residential Cost Handbook*-derived estimate.

Fees: The Applicant's developer fee also exceeds 15% of the Applicant's adjusted eligible basis by $440,788; therefore, the eligible portion of the Applicant's developer fee must be reduced by the same amount.

Conclusion: The Applicant's total development cost is within 5% of the Underwriter's estimate; therefore, the Applicant's cost schedule will be used to determine the development's need for permanent funds and to calculate eligible basis. An eligible basis of $19,191,292 supports annual tax credits of $898,882. This figure will be compared to the Applicant's request and the tax credits calculated based on the gap in need for permanent funds to determine the recommended allocation.

Documentation: ☒ Signed ☒ Term Sheet ☐ LOI ☐ Firm Commitment ☐ Conditional Commitment ☐ Application

Comments:

OTHER

Amount: $1,979,999 **Source:** Deferred Developer Fee

FINANCING STRUCTURE ANALYSIS

Interim to Permanent Bond Financing: The Applicant anticipates receiving Priority 3 tax-exempt private activity bonds that are to be issued by the San Antonio Housing Finance Corporation and purchased by MMA Financial. The bond financing term sheet from MMA Financial is consistent with the terms reflected in the sources and uses of funds portion of the application.

HTC Syndication: The tax credit syndication from MMA Financial commitment is consistent with the terms reflected in the sources and uses of funds portion of the application.

Deferred Developer's Fees: The Applicant's proposed deferred developer's fees of $1,979,999 amount to 67% of the total fees, as listed in the application.

Financing Conclusions: The Applicant's total development cost estimate less the permanent financing of $11,169,000 indicates the need for $10,566,075 in gap funds. Based on the submitted syndication terms, a tax credit allocation of $1,089,503 annually would be required to fill this gap in financing. Of the three possible tax credit allocations, Applicant's request ($885,339), the gap-driven amount ($1,089,503), and eligible basis-derived estimate ($898,882), the Applicant's request of $885,339 is recommended resulting in proceeds of $8,586,076 based on a syndication rate of 97%.

The Underwriter's recommended financing structure indicates the need for $1,979,999 in additional permanent funds. Deferred developer fees in this amount appear to be repayable from development cashflow within ten years of stabilized operation.

DEVELOPMENT TEAM

IDENTITIES of INTEREST

- The Applicant, Developer, Co-Developer, General Contractor, and property manager are related entities. These are common relationships for HTC-funded developments.

APPLICANT'S/PRINCIPALS' FINANCIAL HIGHLIGHTS, BACKGROUND, and EXPERIENCE

Financial Highlights:

- The Applicant and General Partner are single-purpose entities created for the purpose of receiving assistance from TDHCA and therefore have no material financial statements.
- The 100% owner of the GP, Las Varas Public Facility Corp, has no material financial statements. Las Varas is an affiliate of the Housing Authority of the City of San Antonio (SAHA); therefore, the Department requested the financial statements for SAHA. SAHA submitted an unaudited financial statement as of May 31, 2006 reporting total assets of $299M and consisting of $32K in cash and cash equivalents, $11K in restricted assets, $236M in capital assets, and $19K in other non current assets. Liabilities totaled $66K, resulting in net assets of $233K.
- The anticipated guarantors of the development, J Davis Heller, T Richard Bailey, Jr and Alan F Scott, submitted unaudited financial statements as of February 24, 2006, July 5, 2006 and July 6, 2006 respectively.

Background & Experience: Multifamily Production Finance Staff have verified that the Department's experience requirements have been met and Portfolio Management and Compliance staff will ensure that the proposed owners have an acceptable record of previous participation.

SUMMARY OF SALIENT RISKS AND ISSUES

- The anticipated ad valorem property tax exemption may not be received or may be reduced, which could affect the financial feasibility of the development.

MULTIFAMILY FINANCE PRODUCTION DIVISION
BOARD ACTION REQUEST
August 30, 2006

Action Item

Presentation, Discussion and Possible Issuance of Determination Notices for Housing Tax Credits Associated with Mortgage Revenue Bond Transactions with other Issuers.

Requested Action

Approve, Amend or Deny the staff recommendation for Village Creek Apartments.

Summary of the Transaction

The application was received on May 31, 2006. The Issuer for this transaction is Tarrant County HFC. The development is to be located at approximately 5151 Mansfield Highway in Fort Worth. Demographics for the census tract include AMFI of $33,670; the total population is 3,549; the percent of population that is minority is 56.78%; the percent of population that is below the poverty line is 24.76%; the number of owner occupied units is 663; the number of renter units is 612 and the number of vacant units is 342. The percent of population that is minority for the entire City of Fort Worth is 53% (Census information from FFIEC Geocoding for 2006). The development is new construction and will consist of 252 total units targeting the general population, with all affordable. The site is currently zoned for such a development. The Department has received no letters of support and no letters of opposition. The bond priority for this transaction is:

☒ **Priority 2:** Set aside **100%** of units that cap rents at 30% of **60%** AMFI
(MUST receive 4% Housing Tax Credits)

Recommendation

Staff recommends that the Board approve the issuance of a Determination Notice of Housing Tax Credits for Village Creek Apartments.

Neighborhood Input:

General Summary of Comment:

The Department has received no letters of support and no letters of opposition.

CONDITIONS OF COMMITMENT

Per §50.12(c) of the Qualified Allocation Plan and Rules, all Tax Exempt Bond Development Applications "must provide an executed agreement with a qualified service provider for the provision of special supportive services that would otherwise not be available for the tenants. The provision of such services will be included in the Declaration of Land Use Restrictive Covenants ("LURA")."

Receipt, review , and acceptance of evidence that all Phase I Environmental Site Assessment and subsequent environmental investigation report recommendations have been carried out and receipt, review and acceptance of documentation from QORE, Inc. indicating an opinion on whether a noise study is recommended.

Should the terms and rates of the proposed debt or syndication change, the transaction should be re evaluated and an adjustment to the allocation amount may be warranted.

ARCHITECTURAL REVIEW

The building and unit plans are comparable to other modern apartment developments. They appear to provide acceptable access and storage. The elevations reflect attractive buildings.

STRUCTURAL MATERIALS

The structures will be constructed on a concrete slab. According to the plans provided in the application the exterior will be 52.6% masonry veneer, 10.6% cement fiber, 20% stucco, and 16.8% stone. The interior wall surfaces will be drywall and the roofs will be finished with composite shingles.

UNIT FEATURES

The interior flooring will be 90% carpet and 10% resilient covering. Threshold criteria for the 2006 QAP requires all development units to include: mini blinds or window coverings for all windows, a dishwasher, a disposal, a refrigerator, an oven/range, an exhaust/vent fax in bathrooms, and a ceiling fan in each living area and bedroom. New construction units must also include three networks: one for phone service, one for data service, and one for TV service. In addition, each unit will include: a microwave, an ice maker in the refrigerator, a self-cleaning oven, laundry connections, a ceiling fixture in each room, an individual water heater, and nine-foot ceilings.

ONSITE AMENITIES

In order to meet threshold criteria for total units of 200 or more, the Applicant has elected to provide an accessible walking path, a barbecue or picnic table for every 50 units, community laundry room, controlled access gates, an enclosed sun porch or covered community porch, an equipped business center or computer learning center, full perimeter fencing, a furnished community room, a furnished fitness center, public telephone(s) available to tenants 24 hours a day, secured entry to the residential buildings, a service coordinators office in addition to the leasing offices, a swimming pool, a furnished and staffed children's activity center, and a sport court.

Uncovered Parking: 394 spaces **Carports:** 80 spaces **Garages:** 30 spaces

PROPOSAL and DEVELOPMENT PLAN DESCRIPTION

Description: The subject is a 13-unit per acre new construction development located in Fort Worth. The development is comprised of 12 evenly distributed garden style residential buildings as follows:

No. of Buildings	No. of Floors	1BR	2BR	3BR
4	3	18	0	0
4	3	0	24	0
2	3	0	18	0
2	3	0	0	24

The development will include a 5,462 square foot combined community, office, laundry, mail, and maintenance building.

SITE ISSUES

SITE DESCRIPTION

Total Size: 18.98 acres **Scattered sites?** ☐ Yes ☒ No

Flood Zone: Zone X **Within 100-year floodplain?** ☐ Yes ☒ No

Current Zoning: C – Medium Density Multifamily **Needs to be re-zoned?** ☐ Yes ☒ No ☐ N/A

SITE and NEIGHBORHOOD CHARACTERISTICS

Location: The site is located at approximately 5151 Mansfield Highway, Fort Worth in Tarrant County. Fort Worth is approximately 33 miles west of downtown Dallas and approximately 188 miles north of Austin.

Adjacent Land Uses:

- **North:** Collett Little Road immediately adjacent and residential uses beyond;
- **South:** Mansfield Highway immediately adjacent and commercial and residential uses beyond;
- **East:** Vacant land immediately adjacent and IH 20, Loop 820 and commercial uses beyond; and
- **West:** Commercial and residential uses immediately adjacent and beyond.

Site Access: According to the Market Analyst, "The site fronts the north side of Mansfield Highway, a four-lane, primary street which connects with Loop 820 to the southeast. Additionally, the site has frontage along the south side of Collett-Little Road with one curb cut planned from this secondary street. The site has average visibility and access with the main entry planned via one curb cut along Mansfield Highway and secondary entry/exit from Collett-Little Road" (p.58).

Public Transportation: According to the Market Analyst, "The Fort Worth Transportation Authority, 'The Fort Worth T', provides public transportation through Fort Worth with train service through the Mid-Cities to Dallas CBD. The Trinity Railway Express system currently extends from the Dallas CBD westward through Irving with stops just south of D/FW Airport and on to Richland Hills. This train stops in Fort Worth at the new intermodal facility, which was recently completed on the east side of the Fort Worth CBD. Bus service is available in the PMA" (p.56).

Shopping & Services: Several major grocery/pharmacies, shopping centers, and a variety of other retail establishments and restaurants are located within one mile of the site. Schools, churches, and hospitals and health care facilities are also located within a short driving distance from the site.

Overall Assessment: ☐ Excellent ☒ Acceptable ☐ Questionable ☐ Poor ☐ Unacceptable

Comments:

HIGHLIGHTS of SOILS & HAZARDOUS MATERIALS REPORT(S)

A Phase I Environmental Site Assessment report dated March 9, 2006 was prepared by QORE, Inc. and contained the following findings and recommendations:

Findings:

- **Noise:** In response to a deficiency request regarding noise the Applicant submitted a HUD 4128 report with noise calculations dated March 9, 2006 for the subject. The report indicates a final site evaluation for roadway, aircraft, and railway noise to be normally unacceptable. Receipt, review and acceptance of documentation from QORE, Inc. indicating an opinion on whether a noise study is recommended is a condition of this report.
- **Floodplain:** "According to the Federal Emergency Management Agency (FEMA) Flood Insurance Rate Maps (FIRM), Tarrant County, Texas, Community Panel Number 48439C0440J dated August 23, 2000, the subject property is located in Zone X, unshaded. The unshaded Zone X represents an area of minimal flooding" (p.22).
- **Asbestos-Containing Materials (ACM):** Per a letter dated July 28, 2006 from QORE, Inc., "The subject property was improved with a pro-shop and a maintenance building located on the southwestern portion of the subject property. The pro-shop and maintenance building were reportedly constructed in 1993 and contain approximately 2,400 and 1,250 square feet of space, respectively. During QORE's site visit, the maintenance building was observed with metal walls and roof and the floor was dirt/gravel. No suspect ACMs were noted in the maintenance building. Suspect ACMs observed in the pro-shop included ceiling systems (dropped-in ceiling tiles), wall systems, carpet mastic, covebase, and covebase mastic. QORE noted these materials to be in good condition with no evidence of significant damage. Based on the 1993 construction date of the pro-shop and observed conditions of the suspect ACMs, asbestos was not considered to present a *business environmental risk* to the subject property. However, ACM is regulated in Texas by the Texas Department of State Health Services (DSHS) under the Texas Health Protection Rules (TAHPR). The TAHPR rules require that, prior to renovation or demolition, the building owner

perform a thorough survey to rebut the designation of building materials as asbestos-containing building materials. Texas does not recognize a "built after" date when buildings may be assumed to not contain asbestos."

- **Lead-Based Paint (LBP):** Per a letter dated July 28, 2006 from QORE, Inc., "Based upon the post-1978 construction date of the on-site improvements and relatively good physical condition of painted surfaces, a survey for lead-based-paint was not indicated and was not conducted. Lead-based paint does not appear to currently present a *business environmental risk* to the subject property."
- **Lead in Drinking Water:** Per conversations with Bryant Scogin of KeyBank and Brit Blaylock of QORE, Inc., no site specific testing of drinking water for content was conducted, since the local city municipal utility district can supply the subject property once it is occupied. There are no water wells on the subject property that are to be used for potable water. Potable water is to be supplied to the subject by the municipal water company of the City of Fort Worth, Texas. According to the 2005 Annual Drinking Water Quality for the City of Fort Worth submitted in response to this site issue deficiency, The City of Fort Worth, Texas municipal water supply complies with the EPA drinking water requirements. No further action was required as to lead in drinking water.
- **Radon:** Per a letter dated July 28, 2006 from QORE, Inc., "According to the EPA Map of Radon Zones (Texas), Tarrant County, Texas is located in EPA Radon Zone 3 (average indoor level less than two picoCuries per Liter). Based upon published information, a survey for radon was not indicated and was not conducted. Radon does not appear to currently present a *business environmental risk* to the subject property."

Recommendations and Conclusions: "QORE had performed a Phase I Environmental Site Assessment of the proposed Village Creek Apartments property located at 5151 Mansfield Highway in Fort Worth, Tarrant County, Texas, in conformance with the scope and limitations of the American Society for Testing and Materials (ASTM) Practice E 1527-00. Exceptions to, or deletions from, this practice are described in Section 11.0 of this report. Based upon the information obtained to date, this assessment has revealed no evidence of *recognized environmental conditions* in connection with the subject property, except as noted below: The area of suspected dumping on the northeastern portion of the subject property. QORE recommends a subsurface assessment to further reduce uncertainty regarding the potential presence of petroleum or hazardous substances associated with or attributable to this *recognized environmental condition*."

Receipt, review, and acceptance of evidence that all Phase I Environmental Site Assessment and subsequent environmental investigation report recommendations have been carried out is a condition of this report.

INCOME SET-ASIDE

The Applicant has elected the 40% at 60% or less of area median gross income (AMGI) set-aside. Any Qualified Residential Rental Project qualifies as a Priority 3 Private Activity Bond allocation (§ 1372.0321). Two hundred and fifty-two of the units (100% of the total) will be reserved for low-income tenants. All 250 of the units (100%) will be reserved for households earning 60% or less of AMI.

MAXIMUM ELIGIBLE INCOMES						
	1 Person	2 Persons	3 Persons	4 Persons	5 Persons	6 Persons
60% of AMI	\$26,640	\$30,420	\$34,260	\$38,040	\$41,100	\$44,100

MARKET HIGHLIGHTS

A market feasibility study dated May 31, 2006 and revised August 7, 2006 was prepared by Butler Burgher, Inc. ("Market Analyst") and included the following findings:

Secondary Market Information: "The secondary market is defined as Tarrant County due to the central location of the site relative to the county lines" (p. 51). This area encompasses approximately 891 square miles and is equivalent to a circle with a radius of 17 miles.

Definition of Primary Market Area (PMA): "…the market area is defined as the area situated west of Loop 820, south of IH 30, east of IH35W, and north of IH 20/Loop 820" (p. 50). It should be noted, the Market Analyst slightly re-drew the PMA boundary as of August 7, 2006. This revised area encompasses approximately 32.49 square miles and is equivalent to a circle with a radius of 3 miles.

Population: The estimated 2006 population of the original PMA was 108,382 and is expected to increase by 6% to approximately 114,845 by 2011. Since this population exceeds the maximum sized market area of 100,000 as defined by TDHCA Rules and Guidelines for market studies, the Market Analyst made a slight revision to the PMA boundary lines to effectively reduce the primary market population to meet the Department's requirements. The estimated 2006 population of the revised PMA was 99,312 and is expected to increase by 6% to approximately 105,279 by 2011. Within this revised primary market area there were estimated to be 31,754 households in 2006.

Total Market Demand: The Market Analyst elected not to utilize a household size-appropriate adjustment rate. The Analyst's income band of $22,354 to $41,100 (p. 71) results in an income eligible adjustment rate of 25.91% (p. 71). The tenure appropriate adjustment rate of 37.04% is specific to the target population (p. 72). The Market Analyst indicates a turnover rate of 65.2% applies based on the 2005 IREM *Apartment Report* for Region 6 (p. 72).

MARKET DEMAND SUMMARY				
	Market Analyst		Underwriter	
Type of Demand	**Units of Demand**	**% of Total Demand**	**Units of Demand**	**% of Total Demand**
Household Growth	36	1.79%	28	2%
Resident Turnover	2,005	98.21%	1,565	98%
TOTAL DEMAND	**2,042**	**100%**	**1,593**	**100%**

p. 74

Inclusive Capture Rate: The Market Analyst calculated an inclusive capture rate of 18.27% based upon 2,042 units of demand and 373 unstabilized affordable housing in the PMA (including the subject) (p. 69). The Underwriter calculated an inclusive capture rate of 23% based upon a revised demand estimate for 1,593 affordable units. Furthermore, Residences at Eastland (TDHCA #060138) did not receive a 2006 tax credit allocation. Therefore, the unstabilized affordable housing count should be reduced to only the subject 252 units resulting in a revised inclusive capture rate of 16%.

Unit Mix Conclusion: The Market Analyst did not comment on the appropriateness of the subject's unit mix.

Market Rent Comparables: The Market Analyst surveyed five comparable apartment projects totaling 944 units in the market area.

RENT ANALYSIS (net tenant-paid rents)					
Unit Type (% AMI)	**Proposed**	**Program Max**	**Differential**	**Est. Market**	**Differential**
1-Bedroom (60%)	$622	$652	-$30	$650	-$28
1-Bedroom (60%)	$627	$652	-$25	$660	-$33
2-Bedroom (60%)	$756	$781	-$25	$775	-$19
2-Bedroom (60%)	$761	$781	-$20	$785	-$24
3-Bedroom (60%)	$874	$899	-$25	$930	-$56
3-Bedroom (60%)	$879	$899	-$20	$945	-$66

(NOTE: Differentials are amount of difference between proposed rents and program limits and average market rents, e.g., proposed rent =$500, program max =$600, differential = -$100)

Primary Market Occupancy Rates: The Market Analyst does not explicitly comment on the occupancy rates of the PMA, however, it is indicated that the current occupancy rate of the submarket is 89.4% (p.48).

Absorption Projections: "An absorption rate of 15 units/month is reasonable for the subject, as encumbered by the 60% AMI income and rent restrictions, considering the location on a primary roadway in southeastern Fort Worth…The absorption rate will result in a 10-month absorption period from date of completion to obtain stabilized physical occupancy" (p. 76).

Unstabilized, Under Construction, and Planned Development: "Residences at Eastland [TDHCA #060138] will have one hundred and forty 30%, 50%, and 60% of AMI units and 6 market units with 2BR, 3BR, and 4BR units. The TDHCA application verifies that 15 units will be offered at 30% of AMI, 6 units will be offered at market, 61 units will be offered at 50% of AMI, and 64 units will be offered at 60% of AMI (of these 4 are 4 BR). We have included the 2 and 3 BR units which are planned at 50% and 60% of AMI for a conservative analysis; the 30% of AMI, market rate, and 4 BR units were excluded from the unit count. This community is planned north of the subject in the PMA and would be on a similar development time-line as the subject. However, the townhome plan and large unit plans at Residences of Eastland will capture a different market segment than the 1BR, 2BR, and 3BR unit flat types at the subject" (p. 69). The Residences at Eastland did not receive a 2006 tax credit allocation.

Market Impact: The Market Analyst did not comment on the effect the rehabilitation of the subject development will have on the market area.

Market Study Analysis/Conclusions: The Underwriter found the market study provided sufficient information on which to base a funding recommendation.

OPERATING PROFORMA ANALYSIS

Income: The Applicant's projected rents collected per unit do not appear to be based on current HTC rent limit as they are less than the Underwriter's estimates. For each unit type, the Underwriter utilized the lesser of the Market Analyst's market rent conclusion or the rents calculated by subtracting "Total Electric Units Only" tenant-paid utility allowances as of January 20, 2006, maintained by the Housing Authority of the City of Fort Worth, from the 2006 program gross rent limits.

The Applicant has included secondary income in excess of the Department guideline of $15 per unit per month. The additional income is attributed to tenant rental of carport, garage and storage units. No additional documentation to support secondary income from these sources was provided, therefore, the Underwriter's Year 1 estimate does not exceed the Department guideline. The Applicant's vacancy and collection loss assumption is in line with current TDHCA guidelines and the resulting effective gross income is within 5% of the Underwriter's estimate.

Expenses: The Applicant's total annual operating expense projection at $4,111 per unit is within 5% of the Underwriter's estimate of $3,931, derived from the TDHCA database and third-party data sources. The Applicant's property insurance line item expense appears to be understated compared to the Underwriter's estimate. Conversely, the Applicant's property tax appears to be overstated compared to the Underwriter's estimate. Moreover, the Underwriter has assumed an initial reserve for replacement of $250 per unit annually based on requirements of the proposed Limited Partner, whereas the Applicant has assumed an initial reserve for replacement of $289 per unit annually. Finally, it appears that the Applicant has understated TDHCA compliance fees.

Conclusion: The Applicant's effective gross income, total expenses and net operating income are each within 5% of Underwriter's estimates; therefore, the Applicant's Year 1 proforma is used to determine the development's debt capacity. The proposed permanent financing structure results in an initial year's debt coverage ratio (DCR) of 1.11, which is within the Department's DCR guideline of 1.10 to 1.30.

Long-Term Feasibility: The underwriting 30-year proforma utilizes a 3% annual growth factor for income and a 4% annual growth factor for expenses in accordance with current TDHCA guidelines. As noted above, the Applicant's base year effective gross income, expense and net operating income were utilized resulting in a debt coverage ratio that remains above 1.10 and continued positive cashflow. Therefore, the development can be characterized as feasible for the long-term.

ACQUISITION VALUATION INFORMATION

APPRAISED VALUE

Land Only: 18.9 acres	$1,260,000		**Date of Valuation:**	3/2/2006	
Appraiser:	Mary Ann Barnett	**Firm:**	Butler Burgher	**City:**	Dallas

APPRAISAL ANALYSIS/CONCLUSIONS

An appraisal, provided by the purchaser, was performed by Butler Burgher, Inc. and dated February 10, 2006. The current "as-is" value is most important in the valuation and underwriting of this property because it should support the purchase price of the subject. For the "as-is" valuation, the primary approach used was the income approach. Five land sales dating from February 2005 to July 2005 for 10.37 to 20 acres were used to determine the underlying value of the land. In this case the value is less than the purchase price but greater than the acquisition value used in the underwriting analysis.

ASSESSED VALUE

Land: 37.8133 acres	$411,787	**Assessment for the Year of:**	2006
Improvements:	$45,510	**Valuation by:**	Tarrant County Appraisal District
Total: prorated 18.98 acres	$229,535	**Tax Rate:**	3.186277

EVIDENCE of SITE or PROPERTY CONTROL

Type of Site Control:	Unimproved commercial property contract (18.98 acres)		
Contract Expiration:	9/29/2006	**Valid through Board Date?**	☒ Yes ☐ No
Acquisition Cost:	$1,500,000	**Other:**	
Seller:	One Prime, LP	**Related to Development Team?**	☒ Yes ☐ No

CONSTRUCTION COST ESTIMATE EVALUATION

Acquisition Value: The current owner, One Prime, LP, is also the developer; therefore the transaction represents an identity of interest. The Applicant submitted a Purchaser's Statement dated April 17, 2006 between Don Doherty and Earl Burleson and One Prime, LP for a 38.8358 acre tract containing the subject 18.98- acre site. According to the statement, the purchase price for the 38.8358 acre tract was $2,500,000. The Applicant also submitted an Unimproved Commercial Property Contract between One Prime, LP and One Village Creek, LP, the Applicant, reflecting a purchase price of $1,500,000 for the subject 18.98-acres (Amended from 17.5 acres on July 7, 2006). The Underwriter calculated the land cost by multiplying the per acre cost of $64,374 times the actual site acreage of 18.98 acres to achieve a prorated land value of $1,221,811.

Sitework Cost: The Applicant's claimed sitework costs of $7,454 per unit are within current Department guidelines. Therefore, further third party substantiation is not required.

Direct Construction Cost: The Underwriter removed garages & carports from eligible basis because the Applicant's claimed secondary income from this source exceeds $15 per unit per month

The Applicant's direct construction cost estimate is $400K or 3% higher than the Underwriter's Marshall & Swift *Residential Cost Handbook*-derived estimate.

Fees: The Applicant's contractor general requirements and contractor general and administrative fees exceed the 6% and 2% maximums allowed by HTC guidelines by a total of $1,283 based on their own construction costs. Consequently the Applicant's eligible fees in these areas have been reduced by the same amount with the overage effectively moved to ineligible costs. The Applicant's developer fee also exceeds 15% of the Applicant's adjusted eligible basis by $50,379 and therefore the eligible portion of the Applicant's developer fee must be reduced by the same amount.

Conclusion: The Applicant's total development cost is within 5% of the Underwriter's estimate; therefore, the Applicant's cost schedule, adjusted for overstated acquisition cost will be used to determine the development's need for permanent funds and to calculate eligible basis. An eligible basis of $20,554,879 supports annual tax credits of $959,296. This figure will be compared to the Applicant's request and the tax credits calculated based on the gap in need for permanent funds to determine the recommended allocation.

Amount: $707,217 **Source:** Deferred Developer Fee

FINANCING STRUCTURE ANALYSIS

Permanent Bond Financing: The tax-exempt bonds are to be issued by the Fort Worth Housing Trust Finance Corporation and purchased by KeyBank. The Applicant's sources and uses are inconsistent with the terms reflected in the submitted letter of interest for permanent bond financing by KeyBank. The Applicant has indicated an interest rate of 7.0% while the LOI lists 5.80% (exclusive of 0.45% MIP). It should be noted, however, the debt service of $147,545 listed in the LOI and utilized by the Applicant indicates an all-in interest rate of 6.95%. An interest rate of 5.80% is utilized in this underwriting analysis. The Mortgage Insurance Premium is treated as a separate line item.

HTC Syndication: The tax credit syndication commitment is consistent with the terms reflected in the sources and uses of funds listed in the application.

Deferred Developer's Fees: The Applicant's proposed deferred developer's fees of $707,217 amount to 26% of the total fees.

Financing Conclusions: The Applicant's total development cost estimate, as adjusted for overstated acquisition cost, less the permanent loan of $14,799,300 indicates the need for $9,845,651 in gap funds. Based on the submitted syndication terms, a tax credit allocation of $1,004,806 annually would be required to fill this gap in financing. Of the three possible tax credit allocations, Applicant's request ($932,493), the gap-driven amount ($1,004,806), and eligible basis-derived estimate ($959,296), the Applicant's request of $932,493 is recommended.

The Underwriter's recommended financing structure indicates the need for $430,376 in additional permanent funds. Deferred developer and contractor fees in this amount appear to be repayable from development cashflow within just over three years of stabilized operation.

DEVELOPMENT TEAM

IDENTITIES of INTEREST

- The Applicant and Developer are related entities. This is a common relationship for HTC-funded developments.
- The seller is regarded as a related party; this issue is addressed in the "Construction Cost Estimate Evaluation" section of this report.

APPLICANT'S/PRINCIPALS' FINANCIAL HIGHLIGHTS, BACKGROUND, and EXPERIENCE

Financial Highlights:

- The Applicant and General Partner are single-purpose entities created for the purpose of receiving assistance from TDHCA and therefore have no material financial statements.
- The Developer, One Prime, LP, submitted an unaudited financial statement as of April 31, 2006 reporting total assets of $25.6M and consisting of $179K in cash, $1.7M in receivables, $15.8M in real property, $354K in machinery, equipment, and fixtures, and $7.5M in other assets. Liabilities totaled $9M, resulting in a net worth of $16.6M.
- The principal of the Developer, Hal Thorne, submitted an unaudited financial statement as of April 31, 2006 and is anticipated to be guarantor of the development.

Background & Experience: Multifamily Production Finance Staff have verified that the Department's experience requirements have been met and Portfolio Management and Compliance staff will ensure that the proposed owners have an acceptable record of previous participation.

SUMMARY OF SALIENT RISKS AND ISSUES

∉ The seller of the property has an identity of interest with the Applicant.

PORTFOLIO MANAGEMENT AND COMPLIANCE DIVISION

BOARD ACTION REQUEST
HOME AMENDMENTS
August 30, 2006

Action Item

Requests for amendments to HOME Investment Partnerships Program (HOME) contracts involving modifications that significantly decrease the benefits to be received by the Department.

Requested Action

Approve or deny the requests for amendments.

Background

The 2006 HOME Rules in the Texas Administrative Code, Title 10, Part 1, Chapter 53, Rule §53.62(b)(3) state that modifications and/or amendments that increase the dollar amount by more than 25% of the original award or $50,000, whichever is greater; or significantly decrease the benefits to be received by the Department, in the estimation of the Executive Director, will be presented to the Board for approval.

City of Socorro Contract Number 542052

Summary of Request

The City of Socorro (City) previously requested an amendment to extend the contract end date as a result of unforeseen delays in the project, overly restrictive income limits, and turnover in City administration. The contract start date was October 1, 2003; the first amendment was executed on August 8, 2005 extending the end date of the contract for twelve (12) months, from September 30, 2005 to September 30, 2006. The first amendment also increased the income limits for thirteen (13) households from the 30% Area Median Family Income (AMFI) Limit to the 80% AMFI Limit to allow the City to assist households that would otherwise not qualify for assistance.

The City is requesting a second amendment to further extend the end date of their contract from September 30, 2006 to March 30, 2007. The City states that a six (6) month extension is necessary due to unpredictable situations causing delays in program administration. With the assistance of El Paso Collaborative for Community and Economic Development, the City has assisted twenty seven (27) households, has two (2) additional closings pending, and has thirty eight (38) households pending qualification for assistance.

In addition, recent floods in El Paso County, primarily in the City limits, have caused significant devastation. The City states that loss of this funding would further devastate the City and negatively impact the families awaiting approval for assistance.

Amendment Number:	2
Activity Type:	Home Buyer Assistance (HBA)
Contract Executor:	Trini Lopez, Mayor
Contract Start Date:	October 1, 2003
Contract End Date:	September 30, 2006
Requested End Date:	March 30, 2007
Service Area:	Socorro, El Paso County
Total Budget Amount:	$520,000
Project Amount:	$500,000
Administration Amount:	$20,000
Households Required:	41
Households Assisted:	23
Amount Drawn:	$214,359

Requested Action

Because of current policy, staff has denied the amendment request. At the time of the first extension for twelve (12) months, the City assured the Department that the contract would be completed by the amended contract end date. To date, thirty five (35) months since the contract start date, the City has only expended forty one percent (41%) of the contract funds. The City has not provided sufficient documentation to verify that the thirty eight (38) households pending assistance will be able to meet all program requirements. In addition, the City has not provided sufficient match to meet their contract requirement, having a current match shortfall of $10,509.

If the board chooses to approve the amendment, the contract end date would be extended from September 30, 2006 to June 30, 2007. Approval of this amendment would require the City to provide the Department with a Monthly Contract Progress Report in a form prescribed by the Department. The report must specify all progress made towards meeting contract performance requirements by the end of the amended contract term. The Monthly Contract Progress Report must be completed and submitted by the 10th day of each month until the end of the amended contract term.

City of Cotulla Contract Number 1000020

Summary of Request

The City of Cotulla (City) previously requested an amendment to extend the contract end date as a result of unforeseen delays in the project and the recent resignation of their grant consultant. The contract start date was December 1, 2003; the first amendment was executed on December 29, 2005 extending the end date of the contract for six (6) months, from November 30, 2005 to May 31, 2006.

The City is requesting a second amendment to extend the end date of their contract from May 31, 2006 to November 30, 2006. The City states that a six (6) month extension is necessary to complete construction of the homes currently under construction. The homes of the ten (10) households to be assisted have been demolished, and are in various stages of completion, from demolition to sheet rock.

Amendment Number:	2
Activity Type:	Owner Occupied Rehabilitation (OCC)
Contract Executor:	Abel B. Gonzalez, Mayor
Contract Contact:	Rachel Hernandez, City Administrator
Contract Start Date:	December 1, 2003
Contract End Date:	May 31, 2006
Requested End Date:	November 30, 2006
Service Area:	Cotulla, La Salle County
Total Budget Amount:	\$520,000
Project Amount:	\$500,000
Administration Amount:	\$20,000
Households Required:	10
Households Projected:	10
Amount Drawn:	\$142,707

Requested Action

Because of current policy, staff has denied the amendment request. At the time of the first extension for six (6) months, the City assured the Department that the contract would be completed by the amended contract end date. This contract was awarded in November 2003 to provide disaster relief to households impacted by area flooding. To date, thirty three (33) months since the contract start date, the City has only expended twenty seven percent (27%) of the contract funds.

If the board chooses to approve the amendment, the contract end date would be extended from May 31, 2006 to November 30, 2006. Approval of this amendment would require the City to provide the Department with a Monthly Contract Progress Report in a form prescribed by the Department. The report must specify all progress made towards meeting contract performance requirements by the end of the amended contract term. The Monthly Contract Progress Report must be completed and submitted by the 10th day of each month until the end of the amended contract term.

La Salle County Contract Number 1000028

Summary of Request

La Salle County (County) previously requested an amendment to extend the contract end date as a result of unforeseen delays in the project, difficulty in procuring a qualify construction contractor, delays in demolition and disposal of debris, and lack of resources originating from Hurricane Katrina and Rita recovery efforts. The contract start date was December 1, 2003; the first amendment was executed on December 29, 2005 extending the end date of the contract for five (5) months, from November 30, 2005 to April 30, 2006.

The City is requesting a second amendment to extend the end date of their contract from April 30, 2006 to November 30, 2006. The City states that a seven (7) month extension is necessary to allow the City to complete construction of the homes currently under construction. The homes of the ten (10) households to be assisted have been demolished, and the homes are in various stages of completion, from demolition to completion.

Amendment Number:	2
Activity Type:	Owner Occupied Rehabilitation (OCC)
Contract Executor:	Joel Rodriguez, Jr., County Judge
Contract Start Date:	December 1, 2003
Contract End Date:	April 30, 2006
Requested End Date:	November 30, 2006
Service Area:	La Salle County
Total Budget Amount:	\$520,000
Project Amount:	\$500,000
Administration Amount:	\$20,000
Households Required:	10
Households Projected:	10
Amount Drawn:	\$258,507

Requested Action

Because of current policy, staff has denied the amendment request. At the time of the first extension for five (5) months, the County assured the Department that the contract would be completed by the amended contract end date. This contract was awarded in November 2003 to provide disaster relief to households impacted by area flooding. To date, thirty three (33) months since the contract start date, the County has only expended fifty percent (50%) of the contract funds.

If the board chooses to approve the amendment, the contract end date would be extended from April 30, 2006 to November 30, 2006. Approval of this amendment would require the County to provide the Department with a Monthly Contract Progress Report in a form prescribed by the Department. The report must specify all progress made towards meeting contract performance requirements by the end of the amended contract term. The Monthly Contract Progress Report must be completed and submitted by the 10th day of each month until the end of the amended contract term.

Mr. Michael Gerber, Executive Director
Texas Department of Housing and Community Affairs
221 East 11th
PO Box 13941
Austin, Texas 78711-3941

RE: HOME Program Contract #542052

Dear Mr. Gerber:

The City of Socorro is in receipt of the Department's letter denying the second request to extend the above referenced. As you are aware governmental municipalities experience unpredictable situations causing delays in programs. From the time we consulted with El Paso Collaborative for Community & Economic Development and since my inception as newly elected Mayor for the City of Socorro, there has been much activity on our HOME program, i.e. 27 closings, 2 pending to close and 38 in the pipeline.

The recent floods in El Paso County- primarily in the City of Socorro – have caused much devastation and we continue to be on alert for flooding. What we just experienced in this region are areas that were hit with more than 15 inches of rain in a period of less than two weeks. Our environment is simply not conditioned to absorb that amount of rainfall and the grounds are so saturated that there is no place to drain the excess water.

There is much work to do to clean up the City of Socorro and to help those families whose homes are damaged or destroyed. Several agencies such as FEMA and the National Guard along with many local volunteers have stepped up to the plate to assist our communities.

From a Mayoral perspective, more then ever we need the Department's funds to continue assisting residents of the City of Socorro that need homebuyer assistance. Loss of this funding will further devastate the city and will impact the families currently in the pipeline. I strongly urge the Department to consider our appeal and give me an opportunity to offer testimony to the Department's Governing Board on behalf of the City of Socorro constituency.

Respectfully,

Trini Lopez
Mayor

Standing water hinders Canutillo cleanup

Adriana M. Chávez
El Paso Times

ate Sen. Eliot Shapleigh, D-El Paso, ed severely water-damaged parts of aso County on Wednesday afternoon asked residents to report all flood age.

apleigh took a helicopter tour of San ario, Socorro, Northeast El Paso, utillo and Vinton to assess the dam- U.S. Rep. Silvestre Reyes, D-Texas, toured Canutillo and other areas.

anutillo has the most serious stand- water issue," Shapleigh said. "We t every one to go online and get us an ssment of their homes and businesses at we can get a full report to Austin and (Washington) D.C."

Shapleigh

Most of the damage in Canutillo was along Doniphan Drive, where several businesses are located, including Ay Caramba Mexican restaurant at 6874 Doniphan.

The restaurant's floor was covered with ankle-deep mud and water, and although co-owner Carlos Aguirre and several employees tried to clean up, more water flowed in every time a door was opened.

Outside, crews from El Paso Water Utilities were assessing the damage and trying to pump standing water from several streets.

"We're losing money every hour that goes by," Aguirre said Wednesday, adding that he still had to test some of the restaurant equipment to see whether it works.

"We open the door and the water still comes in. We might have to wait until (today) to clean up."

Shapleigh told Aguirre that he wanted to take Gov. Rick Perry to the restaurant today to survey the damage.

Many residents were affected by flooding as well, including about 75 people who spent the night at a shelter at Canutillo Elementary School.

Rodolfo González, 39, said his home was filled with about 4 inches of water on Wednesday, the day after a rush of water destroyed his home's walls and floors.

"You see all of this on TV, but you never think it would happen here," Gonzalez said as he waded through knee-deep water at First and Talbot streets.

Gonzalez said he's frustrated with what he feels is a lack of response from local emergency agencies, adding that he can't start cleaning his home until the water outside of it is pumped away.

"I'm afraid it's going to rain again," Gonzalez said. "I don't know if I should keep cleaning or not if it's going to keep raining."

Dam on Fort Bliss spills into community

By Tammy Fonce-Olivas and Darren Meritz

El Paso Times

About 600 people were evacuated from Central El Paso, Vinton, Socorro and the Westway area on Friday after the region was hit by a new downpour that caused arroyos and one dam to overflow.

Firefighters and police made dramatic rescues after a Central El Paso neighborhood was surprised by floodwaters, which smashed into homes and placed residents in danger.

No serious injuries were reported.

"People's houses are filling up with water, and there's no way we can stop it. We need to pray for sunshine. We are famous for it and we need it back," El Paso Mayor John Cook said Friday.

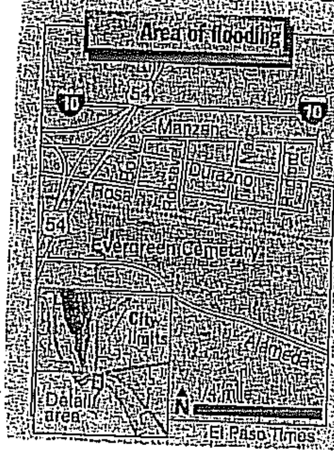
Emergency workers began evacuating Central residents after heavy rains sent runoff from the Pershing Dam ponding area on Fort Bliss. Residents said nearby homes near Gateway Boulevard North and Pershing Drive were flooded with as much as 3 feet of water.

The floodwaters continued south and flooded homes near the Spaghetti Bowl. In total, about 300 Central residents were evacuated, city officials said.

Alejandro Moy, 15, said he, his mother and two sisters were home Friday afternoon when water began rushing into their house at 4304 Memphis.

"It was scary. We felt electricity running through the water," he said. "My bed is all wet and I could see the walls already dirty and everything and it smells bad. You could see weird stuff in the water."

Please see Evacuated 2A



El Paso Times Saturday, Aug. 5, 2006

Evacuated

Continued from 1A

Moy said he and his family planned to stay at his grandmother's house on the East Side.

Lucy Baca, 86, was evacuated by firefighters with her 56-year-old son, Barry Baca, who is blind, from their home at 4301 Nashville after she called 911 twice, she said.

"I called two times because we needed some kind of emergency assistance," she said. "They came to my house and said I should leave, and I said, 'Sure.'"

El Paso firefighters rescued several motorists whose vehicles stalled in high waters on the northbound frontage road of U.S. 54. One woman trapped waist-deep in water was rescued from her home near the Pershing Dam, Fire Department Battalion Chief Robert Binkley said.

Firefighters and police carried children on their shoulders and in their arms, helped others wade through the waist-deep water and rescued dogs. They also helped people take essential belongings from their homes.

About half a dozen residents fleeing floodwaters sought refuge at a temporary evacuation center firefighters set up at the Roger Bacon Franciscan Seminary at 2400 Marr.

The Fire Department sent seven units to the area. Two water rescue teams helped Fort Bliss firefighters clear a clogged drainage pipe.

"It has been overflowing, and there's a drainage (pipe) that takes (the water) across the street and into a man-made arroyo," Fort Bliss Commander Maj. Gen. Robert Lennox said. "We cleared the drain (Thursday), and apparently it clogged up again."

Texas Parks and Wildlife officials were parked at Pershing and U.S. 54 with a boat on standby. Also responding were Customs and Border Protection officials. Sun Metro sent several buses to transport residents to safer locations.

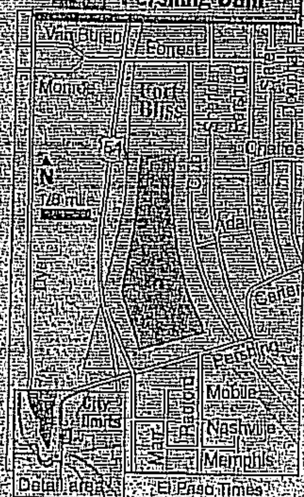
Friday's rainfall also led to the evacuation of about 50 people from the village of Vinton and the Westway area, said West Valley Assistant Fire Chief Russ Beeson.

The evacuees were taken to Canutillo Elementary School at 651 Canutillo.

Though a rush of rainwater flowed through Vinton, the flooding wasn't as strong as it was a few days earlier. "It's been a tough week," Beeson said.

Socorro police helped evacuate more than 150 people from two

Pershing Dam



El Paso Times

neighborhoods in Socorro to the Ysleta Del Sur Pueblo. The shelter also accepted families from San Elizario and Clint.

Josh Garcia, emergency management coordinator for the pueblo, said about 200 people, including 30 Clint residents, were expected at the shelter set up at the Ysleta del Sur Recreation Center, 1100 Santos Sanchez St. Garcia said many residents were evacuated because of mudslides.

"Right now we're making ourselves available for this regional effort," Garcia said.

Dina Gorena, who lives on Reid Road in Socorro, said she never made it home Friday afternoon after picking up her 16-year-old son and 17-year-old daughter from Socorro High School.

When she arrived at her street, she found her 18-year-old son waiting for her outside their home, Gorena said. Socorro police blocked the street and told them to go to the emergency shelter.

"I don't even have a toothbrush," Gorena said Friday night. "We didn't come with anything."

Gorena said she and her children are anxious about their home's condition.

"I'm a single parent. All our belongings are in that house, along with our beloved dog," Gorena said. "I don't know what's out there just yet."

In El Paso, the city originally set up a temporary shelter at the convention center Thursday to house South El Paso residents ordered to evacuate their homes because it was feared that the La Frontera Baja dam in Juárez would collapse.

A break in the dam would have sent millions of gallons of water into Downtown El Paso. The mayor lifted the evacuation order for South El Paso on Friday, but many residents fearing the continuing storms stayed at the convention center.

They later returned home and the shelter was closed.

Cook said the relentless rains have caused a quarter billion dollars in damage to El Paso County. The city is hoping to receive federal money to rebuild streets, homes and commercial property.

"Every time it rains, the bill keeps going up," he said.

Texas U.S. Sens. Kay Bailey Hutchison and John Cornyn, both Republicans, along with U.S. Rep. Silvestre Reyes, D-Texas, have asked President Bush to expedite the federal major disaster declaration for El Paso County requested Thursday by Gov. Rick Perry.

"El Paso and its citizens have been hit hard in recent days, and it's critical that the federal government provide them with the assistance they need to recover from this serious flooding," Cornyn said in a written statement.

The relentless rain is expected to continue this weekend, said Dave Hefner, a meteorologist with the National Weather Service office in Santa Teresa.

"The forecast is for more thunderstorms (today) and Sunday, quite possibly worsening the flooding again," Hefner said.

The chance of rain is 70 percent today and 50 percent on Sunday. Chances of rain will dip to 20 to 30 percent on Monday, Hefner said.

"Hopefully after Sunday, we get a few breaks when everything is isolated," he said.

The official rain-measuring site at El Paso International Airport recorded 0.95 inches of rain on Friday.

HISTORIC FLOODING RAIN CONTINUES TO FALL ON SATURATED CITY

Rainfall continues

Mark Lambie / El Paso Times

Juanita Martinez, left, hugged her neighbor Valeria Mena on Saturday morning as families worked at cleaning their flooded homes on Saipan Place off Durazno Street. A storm Friday sent water rushing down their street into homes and caused evacuations. Story, 14A.

Saturday is stormy, but allows cleanup

By Ramon Bracamontes
El Paso Times

A brief rainstorm that rolled through the area Saturday afternoon tested the nerves of residents, police and officials already stunned by more than a week of storms that have caused millions of dollars in damage.

Though more rain is expected today, the flash flood warning issued Saturday instead turned into scattered showers, almost gentle compared with the powerful storms that hit El Paso on Tuesday, Thursday and Friday.

"We were concerned, because we expected an inch to an inch and a half of rain, and that would flood the area again," said Noelle Crouthers, spokeswoman for the city of El Paso. "When it didn't happen, it was a brief sigh of relief."

The break from major rainstorms allowed street workers to clean Silver Springs Drive and Shadow Mountain Drive on the West Side and Fairbanks Drive in the Northeast. Other debris was also picked up, Crouthers said.

In addition, Saturday's sunshine allowed the dams and reservoirs in the area to drain.

"The flood-control plan is doing its job," Crouthers said after getting a briefing by the Army Corp of Engineers, which checked every dam Saturday.

Because more rain is expected today, the American Red Cross and the city have reopened an emergency shelter at El Paso

Mud buries Socorro neighborhood

By Darren Meritz
El Paso Times

Work crews spent Saturday moving tons of dirt that were deposited Friday in a Socorro neighborhood by flooding that also caused a hillside in the Valley Ridge subdivision to begin collapsing.

Dirt and mud as deep as 4 feet that washed down from higher elevations caked streets and homes in the neighborhood near Interstate 10 and Horizon Boulevard.

Heavy equipment crews had cleared several of the roads in the neighborhood and had piled dirt rooftop high when Saturday's rains started up again.

Saturday, as Freddie Navarrette and his wife walked away from his property at 10700 Thunder Road for the second night, he complained that work crews didn't use the dirt to create make-shift levees to protect his home from further water damage.

"Piling this dirt — that's not going to stop the water," said Navarrette, who works at Price's Creameries. "The way they piled

Continued from 1A

the dirt. If that water comes back down like it did (Friday), we'll be in a world of ... (trouble)."

Residents of the neighborhood said they quickly evacuated late Friday and found temporary shelter at the nearby Gandara Ballroom. About a dozen people stayed overnight at the Tigua Reservation's Ysleta del Sur Wellness Center, one of the city's shelters.

Art Sinclair, governor of the Tiguas, said all evacuees had left the Wellness Center by late Saturday morning and had not returned Saturday night.

Sinclair said about 30 Texas National Guard soldiers were sent to the Socorro area.

The Texas Department of Transportation, El Paso County work crews and the Socorro police and fire departments were also helping efforts in the Valley Ridge neighborhood.

Socorro Fire Department Lt. Samuel Magallanes said the department was rationing sandbags and providing each resident with two or three to block off their front doors if necessary.

Despite the widespread property damage in Socorro, no injuries were reported.

Socorro Mayor Trini Lopez estimated that hundreds of thousands of tons of sand must be carried out of the Valley Ridge neighborhood, which he said would probably take several days to clear.

"It's great damage," he said. "One of the hills has started to collapse and was converted to a river or a big arroyo or a creek."

RICK PERRY
Governor

MICHAEL GERBER
Executive Director

August 3, 2006

The Honorable Trinidad (Trini) Lopez
Mayor, City of Socorro
124 S. Horizon Blvd
Socorro, TX 79927

RE: HOME Program Contract #542052
Denial of Amendment Request #2

Dear Mayor Lopez:

The Texas Department of Housing and Community Affairs (Department) is in receipt of a request for a second extension to HOME Investment Partnerships Program (HOME) contract #542052. The first extension request, approved on August 2, 2005, extended the end date one year through September 30, 2006. When the first amendment was requested and approved, The City of Socorro (City) assured the Department that all contract requirements would be completed by the amended contract end date.

The City's second amendment request states that employee turnover, the procurement process for hiring a consultant, and difficulty in obtaining financing for the participants are the main causes for the delays. However, the causes noted by the City for failure to complete all activities within the 36-month contract term are not sufficient to substantiate the multiple delays. The City's failure to complete contract performance requirements within the amended contract term results in a significant decrease in benefit to the Department and to the City. Because the approval of a second extension is not justified, the Department has determined that this second amendment request cannot be approved at this time.

Pursuant to 10 Texas Administrative Code §1.7, the City may appeal this decision to the Department's Governing Board. To have the appeal considered, it must be received by Kelly Crawford, Acting Director of Portfolio Management and Compliance, no later than August 10, 2006 to allow sufficient time for the Department to submit it to the Governing Board.

If the City does not wish to appeal the decision, please sign and return the enclosed Certificate of Completion. Once received, the Department will close the contract and proceed with the deobligation of funds.

The Department appreciates the City's efforts to provide decent, safe, sanitary, and affordable housing for low and moderate income citizens of Texas. If you have any questions, please feel free to contact me or Kelly Crawford, Acting Director of Portfolio Management and Compliance at kelly.crawford@tdhca.state.tx.us or (512)475-3262.

Sincerely,

Michael Gerber
Executive Director

Austin, TX 78711

Re: Homebuyer Assistance Contract Number 542052 – Second Extension Request

Dear Ms. Cedillo:

The City of Socorro is requesting an additional six-month's extension for the above-referenced contract, *(executed May 2004)* which is scheduled to end on September 30, 2006. We believe there are special circumstances that justify this request and are requesting the approval of the TDHCA Governing Board.

The following constitutes the basis of our request for this second and final extension.

1. Prior to my being elected Mayor, the City proposed assigning employees from three of its departments to implement the program, i.e., Yolanda Rodela, Maria Campos and Alejandra Magallanes from the Community Development Department; Reyes Fierro and Mario Modesto from the Planning Department; and Rosa Avalos from the Accounting Department. Their resumes reflected an adequate level of expertise to administer the project in a timely manner. However, in mid-2005 an internal review of these departments revealed that, in actuality, this was not the case. There were numerous errors, omissions and complaints (with this project and other City projects) that ultimately led the City Manager to completely eliminate the Community Development Department, terminate the two Planning Department and one Accounting staff that had been assigned to the Project. The re-assignment of civil staff and the dissolution of the department was a cumbersome and difficult process. Shortly after taking this action, the former City Manager was terminated and a new City Manager, Carol Garcia, was appointed. Another employee from the General Administration Department, Diana Marroquin, was reassigned to the program. However, she had not received training from the former employees and needed to learn how to administer the program on her own (under the direction of the new City Manager).

RECEIVED
JUN 22 2006
COMPLIANCE

2. Due to our City Charter, the City could not reinstitute the Community Development Department until the next fiscal budget year. We anticipate reinstating the Community Development Department by October 1, 2006. This led to the City's decision to outsource the administration of this project to a consultant. The procurement process resulted in additional delays.

3. The City procured the El Paso Collaborative for Community and Economic Development as a Consultant to this project. The Collaborative's staff (Delia Ponce-Chavez, Joanna Guillen, and Kathy Hernandez) assigned to this project are TSHEP-certified Housing Counselors. With their knowledge and expertise the City of Socorro feels confident that the additional six-month extension will allow the program to assist our constituents. The Homebuyer Assistance Program is moving along smoothly at this time.

4. The City has provided homebuyer assistance to 30 of the 50 households in the original application. Another 20 are in the pipeline as of today.

5. Participants have encountered difficulties obtaining financing. Unfortunately the proposal (which was outsourced and not written internally) did not include a guideline that only participants that can obtain financing at or slightly above prime rates would receive assistance. This has resulted in the City's having to process homebuyer assistance requests from persons that are not ready for homeownership, or contrarily, obtain financing at sub-prime interest rates. In addition, the project waiting list had outdated information which, again, took time to update. Some persons were no longer interested, others had already purchased a home, and still others were no longer eligible for assistance.

6. Residents of the City of Socorro need homebuyer assistance. They are not eligible to obtain USDA Rural Development financing. Loss of funding will impact the families currently in the pipeline as well as the 20 families currently on the waiting list.

7. The City plans to continue to seek resources that will improve its homeownership rate, since it is a well-known fact that homeownership produces an array of positive outcomes that stabilize communities. Loss of this most-important funding and the inability to re-apply in upcoming funding cycles would be most detrimental to our residents.

We hope that TDHCA Staff and Governing Board will look favorably upon this request and provide the City of Socorro with another opportunity to invest precious HOME dollars in well-deserving community residents.

Sincerely,

Trinidad (Trini) Lopez
Mayor

TEXAS DEPARTMENT OF HOUSING AND COMMUNITY AFFAIRS

HOME PROGRAM CONTRACT #542052
HOMEBUYER ASSISTANCE
FIRST AMENDMENT

Section 1

The **TEXAS DEPARTMENT OF HOUSING AND COMMUNITY AFFAIRS**, a public and official agency of the State of Texas (Department) and the **CITY OF SOCORRO** (Administrator), a Political Subdivision of the State of Texas do hereby contract and agree to amend the original contract by and between the parties, effective October 1, 2003, and identified on Department's records as HOME Contract #542052 (Contract).

Section 2

The parties hereto agree that under the terms of Section 2 of the Contract, Contractor is authorized to administer one or more eligible HOME activities in accordance with the HOME Investment Partnerships Act of 1990, 42 U.S.C. 12701 et seq. and implementing regulations under 24 CFR Part 92.

Section 3

The parties hereby agree to amend the Contract identified in Section 1 above so that Section 1, Contract Period, is revised to read as follows:

The Contract shall be effective and commence on October 1, 2003 and shall terminate on September 30, 2006, unless otherwise specifically provided herein ("Contract Period").

Section 4

The parties hereto agree to amend the contract identified in Section 1 above so that Exhibit A, Performance Statement, is revised to read hereafter as given in the Performance Statement attached to this amendment, hereinafter referred to as Exhibit A, and hereby made a part of this amendment. Exhibit A consists of (2) pages.

By execution of this Contract, Administrator agrees and represents to Department as follows:

Administrator will comply with timetable as specified in the Program Schedule of your 2002-2003 HOME Homebuyers assistance Program application.

All eligible program work funded by this contract must be completed by **September 30, 2006**. The Department reserves the right to make payment up to sixty (60) days after the contract expiration date for work performed within the contract period.

The Certification of Contract Completion must be completed and submitted within sixty (60) days after the contract expiration period.

Section 5

The parties hereto agree that all other terms of the Contract shall remain in effect as therein set forth and shall continue to govern except to the extent that said terms conflict with the terms of this amendment. Each capitalized term not expressly defined herein shall have the meaning given to such term in the Contract.

Section 6

This amendment shall be effective on the date of execution.

Section 7

By signing this amendment the parties expressly understand and agree that its terms shall become a part of the Contract as if they were set forth word for word therein. This amendment shall be binding upon the parties hereto and their respective successors and assigns.

AGREED TO AND EXECUTED BY:

TEXAS DEPARTMENT OF HOUSING
AND COMMUNITY AFFAIRS

By: Edwina P. Carrington
Edwina P. Carrington

CITY OF SOCORRO

By:
Name: Guillermo Gandara, Jr.
Title: Mayor

Date: July 19, 2005

TEXAS DEPARTMENT OF HOUSING AND COMMUNITY AFFAIRS

EXHIBIT A

PERFORMANCE STATEMENT

CITY OF SOCORRO,
A POLITICAL SUBDIVISION OF THE STATE OF TEXAS

Administrator shall carry out the following activities identified in its 2002-2003 HOME Program Homebuyer Assistance Application Number(s): 2003-0152.

HOMEBUYER ASSISTANCE PROGRAM
Administrator shall implement a Homebuyer Assistance Program in accordance with 24 C.F.R. Part 92. Administrator shall submit to the Department Program Design Options for Departmental approval prior to setting up an activity or utilizing project funds.

Administrator shall implement a Homebuyer Assistance Program utilizing deferred, forgivable loans to assist **FORTY ONE (41)** homebuyers. Each loan, not to exceed **$10,000.00**, will be zero percent (0%) interest over ten (10) years, forgivable at a rate of ten percent (10%) per year of assisted homebuyer occupancy. Each loan shall be evidenced by a 2nd or 3rd Lien Note and Deed of Trust against the property and shall be repayable upon sale of the home, whether voluntary or involuntary; the assisted homebuyer ceases to occupy the property as his or her principal residence; refinance; or payoff of first lien Note, whichever is first to occur.

All loans to assisted homebuyers must be evidenced by loan documents approved by Department. Each loan to an assisted homebuyer must be payable to Administrator and then transferred to Department.

In the event of sale of the home, the assisted homebuyer will repay the loan balance from the net proceeds of the sale. The net proceeds are the sales price minus superior loan repayment (other than HOME funds) and any closing costs. A copy of the HUD closing statement must be provided.

In the event of refinance, at Department's discretion one of the following options will apply:

(1) re-subordination of the Note if the assisted homebuyer can provide documentation, acceptable to the Department, showing that no funds are due the assisted homebuyer as a result of the refinance; or

(2) the assisted homebuyer will pay off the second or third lien Note from loan proceeds.

In the event of payoff of the first lien Note, the assisted homebuyer will have the option of:

(1) repaying the balance of the second or third lien Note in full; or

(2) repaying the balance of what now becomes the first lien or second lien Note in equal monthly installments over a five (5) year period.

Administrator is limited to serving households located in Socorro, El Paso County, Texas, in a jurisdiction that is not a participating jurisdiction, as defined in 24 C.F.R Sec. 92.105, and in Uniform State Service Region, **Thirteen (13)**, unless otherwise approved by Department.

All **Forty One (41)** households assisted must have incomes that are eighty percent (80%) or less of the Area Median Family Income, as defined by HUD.

Each unit must, at a minimum, meet the Texas Minimum Construction Standards (TMCS) or the Colonia Housing Standards, if located in a Colonia.

MATCH

Administrator will provide match funds in the total amount of **Thirty Nine Thousand Five Hundred and No/100 Dollars ($39,500.00)**, as specified in your HOME Application as follows: $39,500.00 from the City of Socorro in the form of cash, and in-kind professional services for homebuyer counseling.

Match funds must be reported on a pro rata basis based on draws. Support documentation evidencing the match contribution must be submitted by the Administrator upon request for disbursement of funds for each project assisted, in accordance with 24 C.F.R. Part 92 and the HOME Program Policy and Procedure Manual.

ADMINISTRATION

Administrator may expend funds provided under this contract for reasonable administrative and planning costs directly related to this contract in accordance with Sections 3, 4, and 5 of this contract and 24 C.F.R 92.207, in an amount that is not more than four percent (4%) or **TWENTY THOUSAND and No/100 Dollars ($20,000.00)**, of the total amount of funds received under this contract.

Administrator shall be allowed to draw up to ten percent (10%) of the actual allowable administrative costs incurred at the initial stage of the contract, with the remaining ninety percent (90%) funded on a pro rata basis, based on draws.

HOMEBUYER TRAINING PROGRAM

Administrator must provide a Homebuyer Training Program to all homebuyers assisted under this contract. The local Homebuyer Training Program may include, but is not limited to, Financial Management, Homebuyer Training, Education, Job Training (Placement), Health Care, and Counseling Services. Administrator shall maintain a file containing all activity relating to efforts made to guide recipients toward home ownership.

Re: Extension request on Contract No. 542052
First Time Homebuyer Program

Dear Ms. Trevino:

The City of Socorro submitted a few weeks ago a request to amend our contract regarding the requirement to fund thirteen (13) applicants within the 30% income levels. In conjunction with this amendment request we are informed by TDHCA that the city would need to also submit in writing a request for an extension on our contract. The Texas Department of Housing and Community Affairs would then submit both requests.

Since our contract was not signed by both the city and the Texas Department of Housing and Community Affairs (TDHCA) until May 10 & 14, 2004 we are requesting a one (1) year extension on our contract. The city anticipates having 50% of the funds committed by the September 30, 2005 date.

We will be happy to provide you with any additional information you may need in order to process these requests. Please give us a call at (915) 872-9245 if you need any other documentation.

Sincerely,

Guillermo Gandara, Jr.
Mayor

Re: Amendment Request on Contract No. 542052
First Time Homebuyer Program

Dear Ms. Trevino:

The contract between the City of Socorro and the Texas Department of Housing and Community Affairs (TDHCA) calls for a number of applicants to be under a certain income level. We have had no problem with the 50% and 80%, however the 30% is difficult because these applicants cannot get financing through a financial institution because they do not have sufficient income to pay the debt. The thirteen (13) that were shown in our application are not in the program because of the following reasons:

1. Nine did not reply to our Certified Mail/Return Receipt letters.
2. Four did not wish to continue with the program.

We have had additional applicants with their income within the 30% Level however, they were unable to get financing because their income is too low. It appears that it is going to be difficult to find a financial institution that will approve to finance these individuals. Since the City of Socorro has no control over this, we wish to request an amendment to our contract to allow us to fund those within the 40% to 50% Level.

Enclosed is the list of the original thirteen (13) applicants as well as a copy of our current waiting list. We ask for your favorable consideration to this situation.

Please give us a call at (915) 872-9245 if you need any further information.

Sincerely,

Guillermo Gandara, Jr.
Mayor

RE: HOME Program Contract 1000020

Dear Mr. Gerber:

Our Grant Consultant, Robert Chavira of SMi Consultants, has resigned his position with the City of Cotulla. We are respectfully requesting to be placed on the August Board meeting agenda. We will request a six (6) month extension of the above referenced contract.

We are in various stages of completion on all 10 homes, from demolition to sheet-rock. All 10 homes have been demolished the extension is mandatory so the City can complete these homes.

If you have any questions please call our City Administrator, Rachel Hernandez, at the above phone number. Thank you in advance for your attention to this matter and we pray for relief.

Respectfully,

Abel B. Gonzalez

RE: HOME Program Contract #1000020
Denial of Amendment Request #2

Dear Mayor Gonzalez:

The Texas Department of Housing and Community Affairs (Department) is in receipt of a request for a second extension to HOME Investment Partnerships Program (HOME) contract #1000020. The first extension request, approved on December 29, 2005, extended the end date six months through May 31, 2006. When the first amendment was requested and approved, The City of Cotulla (City) assured the Department that all contract requirements would be completed by the amended contract end date.

The City's second amendment request states that your consultant resigned on June 14, 2006 and this is the main cause for the delays. However, the causes noted by the City for failure to complete all activities within the 30-month contract term are not sufficient to substantiate these delays. The City's failure to complete contract performance requirements within the amended contract term results in a significant decrease in benefit to the Department and to the City. Because the approval of a second extension is not justified, the Department has determined that this second amendment request will not be approved.

Pursuant to 10 Texas Administrative Code §1.7, the City may appeal this decision to the Department's Governing Board. To have the appeal considered, it must be received by Kelly Crawford, Acting Director of Portfolio Management and Compliance, no later than August 14, 2006 to allow sufficient time for the Department to submit it to the Governing Board.

If the City does not wish to appeal the decision, please sign and return the enclosed Certificate of Completion. Once received, the Department will close the contract and proceed with the deobligation of funds.

The Department appreciates the City's efforts to provide decent, safe, sanitary, and affordable housing for low and moderate income citizens of Texas. If you have any questions, please feel free to contact me or Kelly Crawford, Acting Director of Portfolio Management and Compliance at kelly.crawford@tdhca.state.tx.us or (512)475-3262.

Sincerely,

Brooke Boston for

Dear Mr. Gerber:

Thank you for your leadership in improving the quality of life for Texas families through your agency's essential work on housing and community development.

This letter is to support the request of Cotulla Mayor Abel B. Gonzalez for a six-month extension of Home Program Contract #1000020. I hope that you look favorably upon their request by granting the contract extension allowing the City of Cotulla to reinitiate the program after the resignation of Grant Consultant Robert Chavira of SMi Consultants.

Please contact me or my staff for additional information or whenever we may be of assistance.

May God bless you.

Very truly yours,

Judith Zaffirini

TEXAS DEPARTMENT OF HOUSING AND COMMUNITY AFFAIRS

HOME PROGRAM CONTRACT #1000020
OWNER OCCUPIED ASSISTANCE
FIRST AMENDMENT

Section 1

The **TEXAS DEPARTMENT OF HOUSING AND COMMUNITY AFFAIRS**, (Department), a public and official agency of the State of Texas and the **CITY OF COTULLA** (Administrator), a political sub division of the State of Texas do hereby contract and agree to amend the original contract by and between the parties, effective September 1, 2003, and identified on Department's records as HOME Contract #**1000020** (Contract).

Section 2

The parties hereby agree to amend the Contract identified in Section 1 above so that Section 1, Contract Period, is revised to read as follows:

The Contract shall be effective and commence on September 1, 2003 and shall terminate on May 31, 2006, unless otherwise specifically provided herein (Contract Period).

Section 3

By execution of this Contract, Administrator agrees and represents to Department as follows:

All eligible program work funded by this contract must be completed by **May 31, 2006**. The Department reserves the right to make payment up to sixty (60) days after the contract expiration date for work performed within the contract period.

The Certification of Contract Completion must be completed and submitted within sixty (60) days after the contract expiration period.

Section 4

The parties hereto agree that all other terms of the Contract shall remain in effect as therein set forth and shall continue to govern except to the extent that said terms conflict with the terms of this amendment. Each capitalized term not expressly defined herein shall have the meaning given to such term in the Contract.

Section 5

This amendment shall be effective on the date of execution.

Section 6

By signing this amendment the parties expressly understand and agree that its terms shall become a part of the Contract as if they were set forth word for word therein. This amendment shall be binding upon the parties hereto and their respective successors and assigns.

AGREED TO AND EXECUTED BY:

Ms. Lucy Trevino
Manager, Portfolio Management
Texas Department of Housing
and Community Affairs
P.O. Box 13941
Austin, TX 78711-3941

Re: HOME Program Contract No. 1000020; Request for Contract Extension

Dear Ms. Trevino:

This letter serves as the City of Cotulla's request to extend its HOME Program contract expiration date to April 28, 2006, to complete all obligated housing activities under its contract with Texas Department of Housing and Community Affairs (TDHCA). The City Council of the City of Cotulla has approved a homeowner applicant selection list, environmental assessments have been completed for the top ten priority homeowners (see list below), a general contractor has been procured, and project activity set-up documents have been submitted to TDHCA committing a total amount of $500,000. Below is a list of the homeowners:

Homeowner Name	Property Address	Project Funds Committed
Mary F. Vasquez	712 Baker St., Cotulla	$ 50,000.00
Margarita DeHoyos	802 S. Baylor St., Cotulla	$ 50,000.00
Guadalupe Martinez	210 Stadium Dr., Cotulla	$ 50,000.00
Rosa Maria Diaz	206 Baker St., Cotulla	$ 50,000.00
Ramon Tellez	506 – 2nd St., Cotulla	$ 50,000.00
Maria Irma Rodriguez	908 Alta Vista St., Cotulla	$ 50,000.00
Rachel Ramirez	602 E. Stewart St., Cotulla	$ 50,000.00
Gustavo Ayala	610 Johnston St., Cotulla	$ 50,000.00
Josephina Martinez	211 Stadium St., Cotulla	$ 50,000.00
Maria Martinez	218 Stadium St., Cotulla	$ 50,000.00
	Total	$500,000.00

The main causes for not fully completing all activities within the original contract expiration date are as follows:

1. Although TDHCA's contract has an effective date of December 1, 2003, the contract was not fully executed until February 3, 2004, and received by the City of Cotulla on or about February 10, 2004. Therefore, implementation on the HOME Program could not begin until after the City of Cotulla was in receipt of their fully executed contract.

2. Unlike some HOME Program Administrators that distribute their housing assistance on a first-come, first served basis, the City of Cotulla's distribution process is based on a scoring system that rates an applicant on two criteria, Income and Degree of substandard housing condition. An applicant is awarded points from a pre-determined scoring system that factors an applicant's income in comparison to the applicable income limit, and the substandard conditions of the applicant's dwelling. The weighted system awards more points to an applicant with the lowest income, and the worst housing conditions. Therefore, considerable time was taken to review all applicants for income eligibility, and the determination of the applicant's scores. NOTE: The HOME assistance distribution system is further described in the City of Cotulla's Program Design.

3. The City of Cotulla's HOME Program is targeted to households whose dwellings were damaged or destroyed by heavy rains and/or flooding that occurred during June and July 2002, and subsequently declared a disaster. Considerable time was taken to verify eligibility of all applicants who claimed damages to their dwelling caused by the storms during that time period. Homeowners were required to present documentation proving damage by this specific storm (e.g., documents received by American Red Cross, FEMA, etc). Homeowner Certifications were not accepted in lieu of documentation.

4. A small pool of qualified and registered (Texas Residential Construction Commission) contractors exist in the Cotulla area. There is not much interest in the HOME Program due to the smaller size of the homes that are to be constructed or rehabilitated in comparison to the higher profit margin construction work in the area. Furthermore, the City of Cotulla has found that many contractors in the area lack the necessary credit from financial institutions and building material suppliers to participate in the HOME Program. Ultimately, only a single eligible contractor was selected to perform construction work on the City's ten dwellings.

Should you have any questions or need additional information, please feel free to contact Mr. Higinio Martinez, City Administrator, at (830) 879-2367 or Mr. Robert L. Chavira, SMi Consulting, at (512) 891-0459.

Sincerely,

Juan Dominguez

Mr. Michael Gerber
Executive Director
Texas Department of Housing
and Community Affairs
P.O. Box 13941
Austin, TX 78711-3941

Re: HOME Program Contract No. 1000028; Appeal of Denial for Contract Extension

Dear Mr. Gerber:

La Salle County hereby submits this appeal to the Board of Directors of the Texas Department of Housing and Community Affairs (TDHCA) to reverse the decision to decline the County's request to extend its HOME Program contract expiration date, and allow the County to complete construction of the following six single family homes that were in progress:

Activity #	Homeowner Name	Property Address	Construction Type	Percent Complete
23774	Enrique Ayala	105 Thornton St., Cotulla, TX	Reconstruction	75%
23769	Pedro Gonzales	502 Hall St., Cotulla, TX	Reconstruction	60%
23772	Lucio Cabello	502 – 3rd St., Cotulla, TX	Reconstruction	60%
23776	Annabel Y. Gonzalez	1305 Martinez St., Cotulla, TX	Reconstruction	60%
23777	Crystal Garza	406 2nd St., Cotulla, TX	Reconstruction	60%
23770	Nora Lisa Zamudio	712 Storey St., Cotulla, TX	Reconstruction	25%

This appeal is in accordance with 10 TAC 1.7, and the requested contract expiration date is November 30, 2006.

La Salle County has completed construction work on the following four (4) homes (under this same contract), and nine (9) additional homes under a second HOME contract (No. 1000155) that was administered concurrently:

Activity #	Homeowner Name	Property Address	Construction Type	Percent Complete
23768	Marcelino Chavez	Lots 3&4, Block 72, Gardendale	Reconstruction	100%
23771	Ercilia Cruz	1205 Matamoros, Cotulla	Reconstruction	100%

23767	Juanita Ramirez	606 Lalo Gonzales St., Cotulla	Reconstruction	100%

The main causes for not fully completing the homes within the expiration date are as follows:

1) TDHCA's standard operating procedures specifically prohibit the processing of contractor request for payments if the Grantee is not current on its financial audit at the time that pay requests are submitted. Since La Salle County was past due in its 2003 financial audit when work was scheduled to begin in early 2005, the County could not afford to begin construction and incur extensive construction costs that could not be reimbursed by TDHCA. Similar circumstances also affected the completion of the County's 2004 financial audit and further delayed construction work schedules. On February 10, 2006, I sent a letter to Mrs. Lucy Trevino explaining that the La Salle County Home Projects were in a position to complete all construction work within the contract period. Furthermore, I proceeded to explain that La Salle County made funds available to cover the cost of construction of all homes on an ongoing basis with the County following up for reimbursement with a request to TDHCA. I also spoke to Mrs. Ann McBeth explaining that we were paying the contractors for work performed and would wait for reimbursements once the audit was completed. La Salle County has since procured another auditing firm (Beyer and Company) and a new County Treasurer will take office in January 2007.

2) Because of La Salle County's remote area, only a small number of qualified contractors were interested in participating in the County's housing program. The smaller home sizes further detracted contractors from the smaller profit margins. Furthermore, we found that the few interested contractors lacked credit from financial institutions and suppliers, and the insurances that are required to participate in the HOME Program. A single contractor, CasMan Construction, ultimately received a majority of the construction contracts. Although La Salle County had knowledge that CasMan Construction was working on similar HOME projects in other nearby communities, the County was assured by CasMan Construction that they had sufficient working capital to sustain all projects, and that work in La Salle County would be completed timely. La Salle County later learned that CasMan Construction did not have the resources needed to keep the projects up and running on an ongoing basis. Casman was over extended and claimed his resources were tied up on other draws from TDHCA.

3) Although La Salle County was not required to match TDHCA's HOME grant, the County committed to the use of its own forces for the demolition of the dilapidated homes, and the disposal of debris. Unfortunately, La Salle County experienced difficulty with the City of Cotulla's waste management contractor in the delivery of waste dumpsters to the project site because the City's contractor was in arrears with their landfill contract in Crystal City, Texas. Therefore, without dumpsters the County could not demolish homes due to health and safety concerns. La Salle County's only alternative was to obtain dumpsters from a sanitation company located approximately 90 miles south of Cotulla near Laredo, Texas. The City of Cotulla has had numerous meeting addressing these issues. There was a

delay in the delivery of dumpsters to Cotulla because of the distance in travel; but, the delay was minimal in comparison to the initial waste management contractor. To date, La Salle County has contributed over $17,500 in donated demolition and disposal costs. Furthermore, La Salle County has contributed $18,560 towards the installation cost of three septic tanks. The absence of containers delayed us approximately 3 months in site preparation. The County of La Salle has 2 track loaders and the resources to demolish all the homes in a couple of weeks but the lack of containers caused delays not only to your project but other projects the County was working on.

4) The recovery efforts from Hurricanes Katrina & Rita had resulted in the untimely delivery of construction materials and supplies to the Cotulla area which originated primarily from San Antonio, Texas (approx. 90 miles north of Cotulla). We understand that the hurricanes were after the contracts were awarded; however, some materials were very hard to obtain because of those two disasters. In 2002, the County suffered from a series disasters stemming from an abnormal amount of rain, the basis of one of these grants. Please note that the homes under this HOME grant contract were initially damaged by the heavy rains and flooding that occurred during June and July 2002, and subsequently declared a disaster by the State of Texas and the U.S. Federal Emergency Management Agency (FEMA). The County was also awarded funds to repair damage to County Roads by FEMA. We had to bid the major contracts out 3 times and get a couple of extensions from the Texas Department of Public Safety Governors Office to be able to complete the contract in January 2006. The smaller contracts were being performed by the County during 2003, 2004 and 2005 using force accounts.

In addition to the causes identified above, the County must also point out that although the effective date of its contract is September 1, 2003, the contract was not fully executed until February 1, 2004, and not received by the County until April 12, 2004. Therefore, La Salle County could not begin implementation of the HOME Program until after receipt of the fully executed contract (seven months after the contract effective date).

Furthermore, the County's grant administrator, SMi Consulting, will no longer be working with La Salle County after completion of this contract. GrantWorks will take over all grant operations thereafter.

To date, thirteen (13) homes are complete, and there is considerable progress in the completion of the six remaining homes. La Salle County is asking the Board of Directors to grant a final extension to complete the remaining construction work because the County is not financially able to absorb the costs related to the unfinished work. La Salle County does not anticipate any further delays and will ensure completion of the homes by the requested extension date. An approval will allow these 6 households to return to safe, decent, and sanitary home. The residents have been patient with the County concerning the delays that we have encountered.

Should you have any questions or need additional information, please feel free to contact me at (830) 879-4430 or cellular telephone (830) 202-1204.

Sincerely,

Joel Rodriguez, Jr.
County Judge

Re: HOME Contract #1000028 – Owner Occupied Housing Assistance
Denial of Amendment Request #2

Dear Judge Rodriguez:

The Texas Department of Housing and Community Affairs (Department) is in receipt of a request for a second extension to HOME Investment Partnerships Program (HOME) contract #1000028. The first extension request, approved on December 29, 2005, extended the end date five months through April 30, 2006. When the first amendment was requested and approved, La Salle County (County) assured the Department that all contract requirements including construction would be completed by the amended contract end date.

The County's second amendment request states that audit requirements, demolition, and Hurricane Rita and Katrina recovery efforts are the causes for the delays. However, the 2004 audit was not requested by the Department and did not cause delays in processing reimbursement requests. The County knew that demolition and disposal of debris were program requirements and should have ensured that resources were in place to ensure timely completion. Recovery efforts from Hurricane Katrina and Rita were underway at the time of the first extension, and the County should have allowed sufficient time to ensure timely delivery of construction materials.

The County's failure to complete contract performance requirements within the contract term results in a significant decrease in benefit to the Department and to the County. In addition, the causes noted by the County for failure to complete all activities within the 29-month contract term are not sufficient to substantiate the multiple delays. Because the approval of a second extension is not justified, the Department has determined that this second amendment request cannot be approved at this time.

Pursuant to 10 Texas Administrative Code §1.7, La Salle County may appeal this decision to the Department's Governing Board. To have the appeal considered, it must be received by Kelly Crawford, Acting Director of Portfolio Management and Compliance, no later than August 3, 2006 to allow sufficient time for the Department to submit it to the Governing Board.

If La Salle County does not wish to appeal the decision, please sign and return the enclosed Certificate of Completion. Once received, the Department will close the contract and proceed with the deobligation of funds.

The Department appreciates the County's efforts to provide decent, safe, sanitary, and affordable housing for low and moderate income citizens of Texas. If you have any questions, please feel free to contact me or Kelly Crawford, Acting Director of Portfolio Management and Compliance at kelly.crawford@tdhca.state.tx.us or (512)475-3262.

Sincerely,

Michael Gerber
Executive Director

Re: HOME Program Contract No. 1000028; Request for Contract Extension

expired 4/30/06

Dear Ms. Trevino:

This letter serves as La Salle County's request to extend its HOME Program contract expiration date to September 30, 2006, to complete construction of the following six single family homes:

Activity #	Homeowner Name	Property Address	Construction Type	Percent Complete
23769	Pedro Gonzales	502 Hall St., Cotulla, TX	Reconstruction	60%
23770	Nora Lisa Zamudio	712 Storey St., Cotulla, TX	Reconstruction	25%
23772	Lucio Cabello	502 – 3rd St., Cotulla, TX	Reconstruction	60%
23774	Enrique Ayala	105 Thornton St., Cotulla, TX	Reconstruction	75%
23776	Annabel Y. Gonzalez	1305 Martinez St., Cotulla, TX	Reconstruction	60%
23777	Crystal Garza	406 2nd St., Cotulla, TX	Reconstruction	60%

The main causes for not fully completing all activities within the expiration date are as follows:

1. La Salle County experienced difficulty in completing its 2004 financial audit due to various circumstances. The delay in the audit simultaneously delayed the start of construction to avoid the incurrence of extensive construction costs that could not be reimbursed by TDHCA until the audit was complete. In February 2006, La Salle County completed its audit, and construction work began immediately thereafter. Furthermore, La Salle County has since procured another auditing firm (Beyer and Associates), and a new County Treasurer will take office in January 2007.

2. Although La Salle County was not required to match TDHCA's HOME grant, the County committed to the use of its own forces for the demolition of the dilapidated homes, and the disposal of debris. Unfortunately, La Salle County experienced difficulty with the City of Cotulla's waste management contractor in the delivery of waste dumpsters to the project site because the contractor was in arrears with their landfill contract in Crystal City, Texas. Therefore, without dumpsters the County could not demolish homes due to health and safety concerns. La Salle County's only alternative was to obtain dumpsters from a sanitation company located approximately 90 miles south of Cotulla near Laredo, Texas. There still was a delay in the delivery of dumpsters to Cotulla because of the distance in travel; but, the delay was minimal in comparison to the initial waste management contractor. To date, La Salle County has contributed over $17,500 in donated demolition and disposal costs. Furthermore, La Salle County has contributed $18,560 towards the installation cost of three septic tanks in the rural areas of the County.

RECEIVED
JUN 27 2006
COMPLIANCE

3. The recovery efforts from Hurricanes Katrina & Rita had resulted in the untimely delivery of construction materials and supplies to the Cotulla area which originated primarily from San Antonio, Texas (approx. 90 miles north of Cotulla).

To date, four homes are complete, and there has been considerable progress in the completion of the remaining six homes, considering the short timeframe since the start of construction. La Salle County does not anticipate any further delays, and will ensure completion of the homes by the requested extension date.

Furthermore, please note that all ten homes under La Salle County's HOME program were damaged by the heavy rains and/or flooding that occurred during June and July 2002, and subsequently declared a disaster by the State of Texas and the U.S. Federal Emergency Management Agency.

Should you have any questions or need additional information, please feel free to contact me at (830) 879-4430.

Re: HOME Program Contract Nos. 1000028 & 1000155

Dear Ms. Trevino:

La Salle County's HOME projects are presently in a position to complete all construction work within the contract period. As with most government financed projects, the receipt of timely payment is the key to completing the work on time. To ensure that work progresses without delay, La Salle County has made funds available to cover the cost of construction of all homes on an ongoing basis, and then follow with the request to TDHCA for reimbursement. La Salle County expects to submit its first draw requests within two weeks.

Should you have any questions or need additional information, please feel free to contact me at (830) 879-4430 or Mr. Robert L. Chavira, SMi Consulting, at (512) 891-0459.

Dear Mr. Gerber:

This is to support enthusiastically the second appeal of La Salle County for an extension of its HOME Program contract when the TDHCA Governing Board meets on August 30.

In light of the significant need for housing in La Salle County, especially for working families, your favorable consideration of the appeal would be appreciated greatly. Feel free to contact me or my staff whenever we may be of assistance.

May God bless you.

Very truly yours,

Judith Zaffirini

TEXAS DEPARTMENT OF HOUSING AND COMMUNITY AFFAIRS

HOME PROGRAM CONTRACT #1000028
OWNER OCCUPIED ASSISTANCE
FIRST AMENDMENT

Section 1

The **TEXAS DEPARTMENT OF HOUSING AND COMMUNITY AFFAIRS**, (Department), a public and official agency of the State of Texas and the **LA SALLE COUNTY** (Administrator), a political sub division of the State of Texas do hereby contract and agree to amend the original contract by and between the parties, effective December 1, 2003, and identified on Department's records as HOME Contract #1000028 (Contract).

Section 2

The parties hereby agree to amend the Contract identified in Section 1 above so that Section 1, <u>Contract Period</u>, is revised to read as follows:

The Contract shall be effective and commence on December 1, 2003 and shall terminate on April 30, 2006, unless otherwise specifically provided herein (Contract Period).

Section 3

By execution of this Contract, Administrator agrees and represents to Department as follows:

All eligible program work funded by this contract must be completed by **April 30, 2006**. The Department reserves the right to make payment up to sixty (60) days after the contract expiration date for work performed within the contract period.

The Certification of Contract Completion must be completed and submitted within sixty (60) days after the contract expiration period.

Section 4

The parties hereto agree that all other terms of the Contract shall remain in effect as therein set forth and shall continue to govern except to the extent that said terms conflict with the terms of this amendment. Each capitalized term not expressly defined herein shall have the meaning given to such term in the Contract.

Section 5

This amendment shall be effective on the date of execution.

Section 6

By signing this amendment the parties expressly understand and agree that its terms shall become a part of the Contract as if they were set forth word for word therein. This amendment shall be binding upon the parties hereto and their respective successors and assigns.

AGREED TO AND EXECUTED BY:

Re: HOME Program Contract No. 1000028; Request for Contract Extension

Dear Ms. Trevino:

This letter serves as La Salle County's request to extend its HOME Program contract expiration date to April 28, 2006, to complete all obligated housing activities under its contract with Texas Department of Housing and Community Affairs (TDHCA). The Commissioner's Court of La Salle County has approved a homeowner applicant selection list, environmental assessments have been completed for the top ten priority homeowners (see list below), a general contractor has been procured, and project activity set-up documents have been submitted to TDHCA committing a total amount of $500,000. Below is a list of the homeowners:

Homeowner Name	Property Address	Project Funds Committed
Marcelino Chavez	Lots 3&4, Block 72, Gardendale, La Salle County, TX	$ 50,000.00
Pedro Gonzales	502 Hall St., Cotulla, TX	$ 50,000.00
Nora Lisa Zamudio	712 Storey St., Cotulla, TX	$ 50,000.00
Ercilia C. Cruz	1205 Matamoros St., Cotulla, TX	$ 50,000.00
Lucio Cabello	502 – 3rd St., Cotulla, TX	$ 50,000.00
Carlos Ayala	201 N.E. Montemorelos St., Cotulla, TX	$ 50,000.00
Enrique Ayala	105 Thornton St., Cotulla, TX	$ 50,000.00
Guillermo Flores	Tract 111, River Hill Heights, La Salle County, TX	$ 50,000.00
Annabel Y. Gonzalez	1305 Martinez St., Cotulla, TX	$ 50,000.00
Crystal Garza	406 2nd St., Cotulla, TX	$ 50,000.00
	Total	$500,000.00

The main causes for not fully completing all activities within the original contract expiration date are as follows:

1. Although TDHCA's contract has an effective date of December 1, 2003, the contract was not fully executed until April 7, 2004, and received by my office on April 12, 2004. Therefore, implementation on the HOME Program could not begin until after La Salle County was in receipt of their fully executed contract.

RECEIVED
OCT 28 2005
COMPLIANCE

2. Unlike some HOME Program Administrators that distribute their housing assistance on a first-come, first served basis, La Salle County's distribution process is based on a scoring system that rates an applicant on two criteria, Income and Degree of substandard housing condition. An applicant is awarded points from a pre-determined scoring system that factors an applicant's income in comparison to the applicable income limit, and the substandard conditions of the applicant's dwelling. The weighted system awards more points to an applicant with the lowest income, and the worst housing conditions. Therefore, considerable time was taken to review all applicants for income eligibility, and the determination of the applicant's scores. NOTE: The HOME assistance distribution system is further described in La Salle County's Program Design.

3. La Salle County's HOME Program is targeted to households whose dwellings were damaged or destroyed by heavy rains and/or flooding that occurred during June and July 2002, and subsequently declared a disaster. Considerable time was taken to verify eligibility of all applicants who claimed damages to their dwelling caused by the storms during that time period. Homeowners were required to present documentation proving damage by this specific storm (e.g., documents received by American Red Cross, FEMA, etc). Homeowner Certifications were not accepted in lieu of documentation.

4. A small pool of qualified and registered (Texas Residential Construction Commission) contractors exist in the Cotulla area. There is not much interest in the HOME Program due to the smaller size of the homes that are to be constructed or rehabilitated in comparison to the higher profit margin construction work in the area. Furthermore, La Salle County has found that many contractors in the area lack the necessary credit from financial institutions and building material suppliers to participate in the HOME Program. Ultimately, only a single eligible contractor was selected to perform construction work on the County's ten dwellings.

La Salle County intends to continue its work toward completing its contractual obligations with TDHCA.

Should you have any questions or need additional information, please feel free to contact me at (830) 879-4430 or Mr. Robert L. Chavira, SMi Consulting, at (512) 891-0459.

Sincerely,

Joel Rodriguez, Jr.
County Judge

COMMUNITY AFFAIRS DIVISION
BOARD ACTION REQUEST
August 30, 2006

Action Item

Presentation, Discussion and Possible Approval of the Final 2007 LIHEAP State Plan.

Required Action

Review of public comment and possible approval of the submission of the Program Year (PY) 2007 Low Income Home Energy Assistance Program (LIHEAP) State Plan to the U. S. Department of Health and Human Services (HHS).

Background

The Texas Department of Housing and Community Affairs (the Department) develops and submits a Low Income Home Energy Assistance Program (LIHEAP) State Plan each year on or before September 1 to the HHS. HHS provides a model plan to guide the format and content, which the Department followed. The Department developed the draft State Plan, with review and comment by Energy Assistance (EA) staff, the Community Affairs Division Director, Legal Services, the Financial Services Division, and Executive. A draft of the PY 2007 LIHEAP State Plan was presented to the Board on June 9, 2006. The draft plan has remained available on the Department's Internet website since June 16, 2006. The *Texas Register* announcement of the public hearing and the availability of the draft plan was published June 23, 2006. The Department conducted its public hearing for the plan on Tuesday, July 18, 2006, at 2:00 p.m. at the Department headquarters. The 30-day comment period closed July 24, 2006.

Summary of Comments and Department Response

The Department received two comments, both supporting changes the Department made in the current LIHEAP funded program as approved by the Board at the May 4, 2006 Board Meeting. These comments came from staff of the Texas Association of Community Action Agencies and the Victoria Community Action Committee.

Recommendation

Staff recommends board approval of the PY 2007 LIHEAP State Plan as drafted.

Table of Contents

Assurances

The Texas Department of Housing & Community Affairs agrees to:
(Grantee Name)

(1) use the funds available under this title to--

(A) conduct outreach activities and provide assistance to low income households in meeting their home energy costs, particularly those with the lowest incomes that pay a high proportion of household income for home energy, consistent with paragraph (5);

(B) intervene in energy crisis situations;

(C) provide low-cost residential weatherization and other cost-effective energy-related home repair; and

(D) plan, develop, and administer the State's program under this title including leveraging programs,

and the State agrees not to use such funds for any purposes other than those specified in this title;

(2) make payments under this title only with respect to--

(A) households in which one or more individuals are receiving--

(i) assistance under the State program funded under part A of title IV of the Social Security Act;

(ii) supplemental security income payments under title XVI of the Social Security Act;

(iii) food stamps under the Food Stamp Act of 1977; or

(iv) payments under section 415, 521, 541, or 542 of title 38, United States Code, or under section 306 of the Veterans' and Survivors' Pension Improvement Act of 1978; or

(B) households with incomes which do not exceed the greater of—

(i) an amount equal to 150 percent of the poverty level for such State; or

(ii) an amount equal to 60 percent of the State median income;

except that a State may not exclude a household from eligibility in a fiscal year solely on the basis of household income if such income is less than 110 percent of the poverty level for such State, but the State may give priority to those households with the highest home energy costs or needs in relation to household income.

(3) conduct outreach activities designed to assure that eligible households, especially households with elderly individuals or disabled individuals, or both, and households with high home energy burdens, are made aware of the assistance available under this title, and any similar energy-related assistance available under subtitle B of title VI (relating to community services block grant program) or under any other provision of law which carries out programs which were administered under the Economic Opportunity Act of 1964 before the date of the enactment of this Act;

(4) coordinate its activities under this title with similar and related programs administered by the Federal Government and such State, particularly low-income energy-related programs under subtitle B of title VI (relating to community services block grant program), under the supplemental security income program, under part A of title IV of the Social Security Act, under

title XX of the Social Security Act, under the low-income weatherization assistance program under title IV of the Energy Conservation and Production Act, or under any other provision of law which carries out programs which were administered under the Economic Opportunity Act of 1964 before the date of the enactment of this Act;

(5) provide, in a timely manner, that the highest level of assistance will be furnished to those households which have the lowest incomes and the highest energy costs or needs in relation to income, taking into account family size, except that the State may not differentiate in implementing this section between the households described in clauses 2(A) and 2(B) of this subsection;

(6) to the extent it is necessary to designate local administrative agencies in order to carry out the purposes of this title, to give special consideration, in the designation of such agencies, to any local public or private nonprofit agency which was receiving Federal funds under any low-income energy assistance program or weatherization program under the Economic Opportunity Act of 1964 or any other provision of law on the day before the date of the enactment of this Act, except that—

> (A) the State shall, before giving such special consideration, determine that the agency involved meets program and fiscal requirements established by the State; and
>
> (B) if there is no such agency because of any change in the assistance furnished to programs for economically disadvantaged persons, then the State shall give special consideration in the designation of local administrative agencies to any successor agency which is operated in substantially the same manner as the predecessor agency which did receive funds for the fiscal year preceding the fiscal year for which the determination is made;

(7) if the State chooses to pay home energy suppliers directly, establish procedures to --

> (A) notify each participating household of the amount of assistance paid on its behalf;
>
> (B) assure that the home energy supplier will charge the eligible household, in the normal billing process, the difference between the actual cost of the home energy and the amount of the payment made by the State under this title;
>
> (C) assure that the home energy supplier will provide assurances that any agreement entered into with a home energy supplier under this paragraph will contain provisions to assure that no household receiving assistance under this title will be treated adversely because of such assistance under applicable provisions of State law or public regulatory requirements; and
>
> (D) ensure that the provision of vendor payments remains at the option of the State in consultation with local grantees and may be contingent on unregulated vendors taking appropriate measures to alleviate the energy burdens of eligible households, including providing for agreements between suppliers and individuals eligible for benefits under this Act that seek to reduce home energy costs, minimize the risks of home energy crisis, and encourage regular payments by individuals receiving financial assistance for home energy costs;

(8) provide assurances that,

> (A) the State will not exclude households described in clause (2)(B) of this subsection from receiving home energy assistance benefits under clause (2), and
>
> (B) the State will treat owners and renters equitably under the program assisted under this title;

(9) provide that--

(A) the State may use for planning and administering the use of funds under this title an amount not to exceed 10 percent of the funds payable to such State under this title for a fiscal year; and

(B) the State will pay from non-Federal sources the remaining costs of planning and administering the program assisted under this title and will not use Federal funds for such remaining cost (except for the costs of the activities described in paragraph (16));

(10) provide that such fiscal control and fund accounting procedures will be established as may be necessary to assure the proper disbursal of and accounting for Federal funds paid to the State under this title, including procedures for monitoring the assistance provided under this title, and provide that the State will comply with the provisions of chapter 75 of title 31, United States Code (commonly known as the "Single Audit Act");

(11) permit and cooperate with Federal investigations undertaken in accordance with section 2608;

(12) provide for timely and meaningful public participation in the development of the plan described in subsection (c);

(13) provide an opportunity for a fair administrative hearing to individuals whose claims for assistance under the plan described in subsection (c) are denied or are not acted upon with reasonable promptness; and

(14) cooperate with the Secretary with respect to data collecting and reporting under section 2610.

(15) * beginning in fiscal year 1992, provide, in addition to such services as may be offered by State Departments of Public Welfare at the local level, outreach and intake functions for crisis situations and heating and cooling assistance that is administered by additional State and local governmental entities or community-based organizations (such as community action agencies, area agencies on aging and not-for-profit neighborhood-based organizations), and in States where such organizations do not administer functions as of September 30, 1991, preference in awarding grants or contracts for intake services shall be provided to those agencies that administer the low-income weatherization or energy crisis intervention programs.

*** This assurance is applicable only to States, and to territories whose annual regular LIHEAP allotments exceed $200,000. Neither territories with annual allotments of $200,000 or less nor Indian tribes/tribal organizations are subject to Assurance 15.**

(16) use up to 5 percent of such funds, at its option, to provide services that encourage and enable households to reduce their home energy needs and thereby the need for energy assistance, including needs assessments, counseling, and assistance with energy vendors, and report to the Secretary concerning the impact of such activities on the number of households served, the level of direct benefits provided to those households, and the number of households that remain unserved.

Certification to the Assurances:

As Chief Executive Officer, I agree to comply with the sixteen assurances contained in Title XXVI of the Omnibus Budget Reconciliation Act of 1981, as amended*. By signing these assurances, I also agree to abide by the standard assurances on lobbying, debarment and suspension, and a drug-free workplace.

Signature of the Tribal or Board Chairperson or Chief Executive Officer of the State or Territory.

Signature: ____

Title: Executive Director

Date: ____

The Governor of Texas has delegated the responsibility of signing this document to the Executive Director of the Texas Department of Housing and Community Affairs. A copy of the letter is attached.

*In the above assurances which are quoted from the law, "State" means the 50 States, the District of Columbia, an Indian Tribe or Tribal Organization, or a Territory; "title" of the Act refers to Title XXVI of the Omnibus Budget Reconciliation Act of 1981 (OBRA), as amended, the "Low Income Home Energy Assistance Act"; "section" means Section 2605 of OBRA; and, "subsection" refers to Section 2605(b) of OBRA.

	☒	crisis assistance	January - December
	☒	weatherization assistance	April - March

2605(c)(l)(C) Use of Funds	➔Please estimate what amount of available LIHEAP funds will be used for each component that you will operate: **The total of all percentages must add up to 100%.**	
	10%	heating assistance
	40%	cooling assistance
	10%	crisis assistance
2605(k)(1)	15%	weatherization assistance
	10%	carryover to the following fiscal year
2605(b)(9)	10%	administrative and planning costs
2605(b)(16)	5%	services to reduce home energy needs including needs assessment (assurance 16)
	0%	used to develop and implement leveraging activities (limited to the greater of 0.08% or $35,000 for States, the greater of 2% or $100 for territories, tribes and tribal organizations).
	100%	**TOTAL**

Alternate Use of Crisis Assistance Funds

2605(c)(1)(C)	➔The funds reserved for winter crisis assistance that have not been expended by March 15 will be reprogrammed to:	
	☐	Heating assistance
	☐	Cooling assistance
	☐	weatherization assistance
	☒	Other(specify): Year-round crisis

➔Do you accept applications for energy crisis assistance at sites that are geographically accessible to all households in the area to be served? (This is required by the statute.)

Yes ☒ No ☐

Eligibility

2605(b)(2) 2605(c)(1)(A)	➔What are your maximum eligibility limits? (Please check the components to which they apply.) **Current year guidelines must be used**.							
	☒	125% of the poverty guidelines:						
	Heating	☒	Cooling	☒	Crisis	☒	WX	☒

	NONE	Households automatically eligible if one person is receiving						
	TANF	☐	SSI	☐	Food Stamps	☐	WX	☐
	NONE	Certain means-tested veterans programs						
	Heating	☐	Cooling	☐	Crisis	☐	WX	☐

Heating Assistance

2605(c)(1)(A) 2605(b)(2) (eligibility)	➔Do you have additional eligibility requirements for this?		**No**
	➔Do you use:		
	Assets test?		**No**
	➔Do you give priority in eligibility to:		
	Elderly?	**Yes**	
	Disabled?	**Yes**	
	Young children?	**Yes**	
	Other: (If Yes, please describe) **High energy burden, High energy consumption**.	**Yes**	

Cooling Assistance

2605(c)(1)(A) 2605(b)(2) (eligibility)	➔Do you have additional eligibility requirements for this?		**No**
	➔Do you use:		
	Assets test?		**No**
	➔Do you give priority in eligibility to:		
	Elderly?	**Yes**	
	Disabled?	**Yes**	
	Young children?	**Yes**	
	Other: (If Yes, please describe) **High energy burden, High energy consumption**.	**Yes**	

Crisis Assistance

2604(c) 2605(c)(1)(A) (eligibility)	➔Do you have additional eligibility requirements for this?		**No**
	➔Do you use:		

	Assets test?		**No**
	Must the household have received a shut-off notice or have an empty tank?		**No**
	Must the household have exhausted regular benefit?		**No**
	Must the household have received a rent eviction notice?		**No**
	Must heating/cooling be medically necessary?		**No**
	Other (Please explain):		
	➔What constitutes a crisis? (Please describe) A *bona fide* energy crisis exists when extraordinary events or situations resulting from extreme weather conditions and fuel supply shortages have depleted or will deplete household financial resources and/or have created problems in meeting basic household expenses, particularly bills for energy so as to constitute a threat to the well-being of the household, particularly the elderly, the disabled, or very young children. A utility disconnection notice may constitute an energy crisis if client demonstrates a history of good faith in paying prior utility bills. A utility disconnection notice may constitute an energy crisis if brought about by sudden or unexpected events.		

Weatherization

2605(c)(1)(A) (eligibility)	➔Do you have additional eligibility requirements for this?		**No**
	➔Do you use:		
	Assets test?		**No**
	Priority groups? (Please list)	**Yes**	
	Elderly?	**Yes**	
	Disabled?	**Yes**	
	Young children?	**Yes**	
	Other: (If Yes, please describe) **High energy burden, High energy consumption**.	**Yes**	
	➔Are you using Department of Energy (DOE) Low Income Weatherization Assistance Program (LIWAP) rules to establish eligibility or to establish priority eligibility for households with certain characteristics?	**Yes**	
	➔If Yes, are there exceptions? Please list below. **No categorical eligibility.**	**Yes**	

Outreach Activities

2605(b)(3) 2605(c)(3)(A) (outreach)	➔Please check the outreach activities that you conduct that are designed to assure that eligible households are made aware of all LIHEAP assistance available:	
	☒	provide intake service through home visits or by telephone for the physically infirm (i.e. elderly or disabled).
	☒	place posters/flyers in local and county social service offices, offices of aging, Social Security offices, VA, etc.
	☒	publish articles in local newspapers or broadcast media announcements.
	☒	include inserts in energy vendor billings to inform individuals of the availability of all types of LIHEAP assistance.
		Make mass mailing to past recipients of LIHEAP.
	☒	inform low income applicants of the availability of all types of LIHEAP assistance at application intake for other low-income programs.
	☒	execute interagency agreements with other low-income program offices to perform outreach to target groups.
	☐	other (Please specify):

Coordination

2605(b)(4)	➔Please describe how you will assure that LIHEAP is coordinated with similar and related programs. The description provided applies to all components unless specifically noted.
2605 (b)(1)(C) 2605(b)4	Subrecipients coordinate with other social service agencies through cooperative agreements to provide services to client households. Cooperative agreements clarify procedures, roles, and responsibilities of all participants. In particular, subrecipients make documented referrals to the local WAP subrecipient.
2605(b)(7)(D)	Subrecipients coordinate with local energy vendors to arrange for arrearage reduction, reasonably reduced payment schedules, or cost reductions.
2605(b)(6)	Community Action Agencies, local government entities, and other nonprofit agencies, with a few exceptions, also administer the LIHEAP program. To share information, enhance and develop service capacities, and integrate resources, TDHCA works with the Texas Association of Community Action Agencies, the Public Utility Commission, the Texas Railroad Commission, utility companies, and other State entities serving the low-income population

Equal Treatment

(benefit levels) 2605(b)(5) 2605(b)(2) 2605(b)(8A)	➔The statute requires that there be no difference in the treatment of households eligible because of their income and those eligible because they receive benefits under TANF, Food Stamps, SSI, or certain means-tested veterans programs ("categorically eligible"). How do you ensure there is no difference when determining eligibility and benefit amounts? This applies to

	all components unless specifically noted below.
	There is no difference in benefit levels based on the receipt or non-receipt of public assistance benefits. No households are deemed categorically eligible. This applies to all components.

Heating Component

(determination of benefits) 2605(b)(5)	➔Please check the variables you use to determine your benefit levels (check all that apply):	
	☒	Income
	☒	family (household) size
	☒	home energy cost or need
	☐	fuel type
	☐	climate/region
	☒	individual bill
	☐	dwelling type
	☒	energy burden (% of income spent on home energy)
	☒	energy need
	☐	other (describe)

Benefit Levels/ Benefit Limits

2605(b)(5) 2605(c)(1)(B)	➔Describe how you will assure that the highest benefits go to households with the lowest incomes and the highest energy costs or needs in relation to income, taking into account family size. Please describe benefit levels or attach a copy of your payment matrix.		
	Households With Incomes Of:	Household may receive an amount needed to address their energy payment shortfall not to exceed**:**	
	0 to 50% of Poverty	$1,200.	
	50% to 75% of Poverty	$1,100.	
	75% to 125% of Poverty	$1,000.	
	➔Do you provide in-kind (e.g., blankets, space heaters) and/or other forms of benefits?		
	☐ Yes	☒ No	If Yes, please describe.

Cooling Component

(determination of benefits) 2605(b)(5) 2605(c)(1)(B)	➔Please check the variables you use to determine your benefit levels (check all that apply):

	☒	Income
	☒	family (household) size
	☒	home energy cost or need
	☐	fuel type
	☐	climate/region
	☒	individual bill
	☐	dwelling type
	☒	energy burden (% of income spent on home energy)
	☒	energy need
	☐	other (describe)

Benefit Levels/ Benefit Limits

2605(b)(5) 2605(c)(1)(B)	➔Describe how you will assure that the highest benefits go to households with the lowest incomes and the highest energy costs or needs in relation to income, taking into account family size. Please describe benefit levels or attach a copy of your payment matrix.		
	Households With Incomes Of:	Household may receive an amount needed to address their energy payment shortfall not to exceed**:**	
	0 to 50% of Poverty	$1,200.	
	50% to 75% of Poverty	$1,100.	
	75% to 125% of Poverty	$1,000.	
	➔Do you provide in-kind (e.g., blankets, space heaters, fans) and/or other forms of benefits?		
	☐ Yes	☒ No	If Yes, please describe.

Crisis Component

(determination of benefits) 2605(b)(5) 2605(c)(1)(B)	➔How do you handle crisis situations?	
	☒ Separate component	☐ other (please explain)
	➔If you have a separate component, how do you determine crisis assistance benefits?	
	☒	amount to resolve crisis, up to maximum
	☐	other (please describe)

Benefit Levels/ Benefit Limits

	➔Please indicate the maximum benefit for each type of **crisis assistance** offered.

	Heating	$ n/a	maximum benefit
	Cooling	$ n/a	maximum benefit
	Year-round	$1,200	maximum benefit
	➔Do you provide in-kind (e.g. blankets, space heaters, fans) and/or other forms of benefits?		
	☐ Yes ☒ No	If Yes, please describe.	

WEATHERIZATION & OTHER ENERGY RELATED HOME REPAIR AND IMPROVEMENTS

2605(b)(5) 2605(c)(1) (B) & (D)	➔What LIHEAP weatherization services/materials do you provide? (Check all categories that apply.)

Types of Assistance

	☒	Weatherization needs assessments/audits.
	☒	Caulking, insulation, storm windows, etc.
	☒	Furnace/heating system modifications/repairs
	☒	Furnace replacement
	☒	Cooling efficiency modifications/repairs/replacement
	☒	Other Energy Related Home Repair (Please describe) a) roof, wall, and floor repair to complete weatherization measures; b) repair or replacement of essential electrical wiring to complete related weatherization measures, while complying with safety codes; c) solar screens or window film (where appropriate); d) replacement of refrigerators 1993 or older or metered to have an SIR of 1 or greater on the TDHCA refrigerator tool; e) mobile home skirting to protect belly insulation; f) overhangs to protect mobile home doors; g) carpentry work to protect outside water heater from exposure; and h) weatherization-related health and safety safeguards as defined by DOE

Benefit Levels

	➔Do you have a maximum LIHEAP weatherization benefit/expenditure per household?			
	☒ Yes	☐ No	If Yes, what is the maximum amount?	**$4,000**

Types of Rules (DOE or LIHEAP)

	➔Under what rules do you administer LIHEAP weatherization? (Check only one.)	
	☐	Entirely under LIHEAP (not DOE) rules
	☐	Entirely under DOE LIWAP rules
	☒	Mostly under LIHEAP rules with the following DOE LIWAP rule(s) where LIHEAP and LIWAP rules differ (Check all that apply):
	☒	Weatherize buildings if at least 66% of units (50% in 2- & 4-unit buildings) are eligible units or will become eligible within 180 days
	☒	Weatherize shelters temporarily housing primarily low income persons (excluding nursing homes, prisons, and similar institutional care facilities).
	☐	Other (Please describe)
	☐	Mostly under DOE LIWAP rules, with the following LIHEAP rule(s) where LIHEAP and LIWAP rules differ (Check all that apply.)
	☒	Weatherization not subject to DOE LIWAP maximum statewide average cost per dwelling unit.
	☒	Other Energy Related Home Repair (Please describe.) TDHCA will allow the use of a client's LIHEAP weatherization award for structural and ancillary repairs only if required to enable effective weatherization.

Agency Designation

2605(b)(6)	The state administers LIHEAP through the following types of local agencies:		
	☐ county welfare offices		
	☒ community action agencies (weatherization component only)		
	☒ community action agencies (heating, cooling or crisis)		
	☒ charitable organizations (nonprofit)		
	☐ not applicable (i.e. state energy office)		
	☐ tribal office		
	☒ other, describe: Units of local government and Councils of Government.		
	➔Have you changed local administering agencies from last year?	☐ Yes	☒ No
	If Yes, please describe how you selected them.		**N/A**
	➔What components are affected by the change?		**N/A**

Targeting of Assistance

2605(c)(1)(E)	➔Please describe any additional steps (other than those described elsewhere in this plan) that will be taken to target assistance to households with high home energy burdens. **(This applies to all components. If all steps to target households with high home energy burdens are described elsewhere in the plan, no further information is required here.)**

☒	The Heating & Cooling Equipment Replacement component targets assistance to high energy burden households where inefficient or malfunctioning equipment needlessly increases energy consumption and therefore affects the household's ability to pay their own home energy bills.

Energy Suppliers

2605(b)(7)	➔Do you make payments directly to home energy suppliers?		
	Heating	☒ Yes	☐ No
	Cooling	☒ Yes	☐ No
	Crisis	☒ Yes	☐ No
	If Yes, are there exceptions?	☐ Yes	☒ No
	If Yes, please describe.		

2605(b)(7)(A)	➔If you make payments directly to home energy suppliers, how do you notify the client of the amount of assistance paid? (Please describe)
	When the client applies for assistance, the subrecipient agency determines the amount of assistance to be paid and when. This information is given to the client along with their client agreement.
2605(b)(7) (B) & (C)	➔How do you make sure the home energy supplier performs what is required in this assurance? If vendor agreements are used, they may be attached. Indicate each component for which this description applies.
	Vendor agreements are used in all components. A sample copy is attached.

Owners & Renters

2605(b)(8)(B)	➔Is there any difference in the way owners and renters are treated? If Yes, please describe.	Yes	No
	Heating Assistance		**NO**
	Cooling Assistance		**NO**
	Crisis Assistance		**NO**
	Weatherization		**NO**

Program, Fiscal Monitoring, and Audit

2605(b)(10)	➔How do you ensure good fiscal accounting and tracking of LIHEAP funds? (Please describe. Include a description of how you monitor fiscal activities.) 1. review annual audits; 2. monitor fiscal records; 3. review Monthly Expenditure and Performance Reports.

<table>
<tr><td></td><td colspan="3"></td></tr>
<tr><td></td><td colspan="3">➔How do you monitor program activities? (Please be sure to include a description of how you monitor eligibility and benefit determination.)
• The Department requires each subrecipient to submit monthly funding and performance reports. Reports are due on the fifteenth of the following month.
• TDHCA Contract Specialists will complete a desk monitoring review of monthly funding and performance reports to ensure the subrecipient has the capacity to carry out program activities in a timely manner.
• TDHCA will assign a Program Officer to each subrecipient in order to track program compliance and performance activities.
• Program Officer will perform an onsite monitoring visit of each subrecipient once every two years based on a Risk Assessment Module. On-site monitoring will be performed in conjunction with the Division's Community Service Block Gant whenever possible. TDHCA may monitor a subrecipient more than once based on the previous monitoring report and current contract performance.
• Program Officer will review the subrecipient's financial records such as the single audit, general ledgers, receipts, bank statements, bank reconciliation reports, and checks to ensure that program funds are being expended on allowable program activities.
• Program Officer will review individual client records to ensure the clients are eligible, prioritized, and served within the contract and TDHCA established guidelines. Client files will also be reviewed to ensure household needs have been identified, the client has been provided client education, and referred to other programs that have been identified by the subrecipient. The Department has set a minimum client record sample of 10%.
• Program Officer will complete a monitoring check list and report that outlines findings and recommendations.
• Upon the Manager's review a report will be mailed to each subrecipient.
• Subrecipient must submit a written response within 30 days of the report. The response must address any possible corrective actions if any.
• TDHCA will review the response to ensure all possible corrective actions have been implemented by the subrecipient.</td></tr>
<tr><td rowspan="3"></td><td colspan="3">➔How is your LIHEAP program audited?</td></tr>
<tr><td>Under the Single Audit Act?</td><td>☒ Yes</td><td>☐ No</td></tr>
<tr><td colspan="3">If not, please describe:</td></tr>
<tr><td></td><td colspan="3">For States and Territories:</td></tr>
<tr><td rowspan="2"></td><td>➔Is there an annual audit of local administering agencies?</td><td>☒ Yes</td><td>☐ No</td></tr>
<tr><td colspan="3">If not, please explain.
TDHCA contract requires agencies that exceed $500,000 in expenditures to follow the single Audit procedures and submit a copy of the Audit to the Department for review.</td></tr>
</table>

Timely and Meaningful Public Participation

2605(b)(12)	➔How did you get timely and meaningful public participation in the development of the plan? (Please describe.) • TDHCA prepared a Draft LIHEAP Plan for FFY 2007 as a means of informing interested parties prior to the annual LIHEAP Public Hearing, July 18, 2006. • The draft plan was submitted for TDHCA Board approval at the June 9, 2006 meeting – prior to publication. • TDHCA published this Draft LIHEAP Plan on its Internet web site and notified TDHCA Energy Assistance subrecipients and other interested parties via e-mail and fax. • A Texas Register announcement (see appendix) and the TDHCA internet publication informed the Texas Legislature and general public about the public hearing. • The Draft LIHEAP Plan appeared on the TDHCA Internet site beginning on or after June 23, 2006. • TDHCA transmitted the Draft LIHEAP Plan by e-mail and fax to all TDHCA Energy Assistance subrecipients, Weatherization Policy Advisory Committee members, and other interested parties and let them know the document's internet location (http://www.tdhca.state.tx.us/ea.htm). • TDHCA accepted written and verbal comments within the public participation process through July 24, 2006, 5:00 p.m. TDHCA requested that comments be sent by e-mail – john.touchet@tdhca.state.tx.us or by fax (512) 475-3935 or by postal service to TDHCA, Energy Assistance Section, P.O. Box 13941, Austin, Texas 78711-3941. • TDHCA incorporates public comments, including workable suggestions that do not alter the intent of LIHEAP, into the final plan. • The final plan will be submitted for TDHCA Board approval, prior to submission to DHHS.		
2605(a)(2) (public hearings)	➔Did you conduct public hearings on the proposed use and distribution of your LIHEAP funds?	☒ Yes	☐ No
	When? July 18, 2006		
	Where? TDHCA Headquarters, Room 116, Austin, Texas		

Denials & Applications Not Acted On In a Timely Manner

Fair Hearings 2605(b)(13)	➔Describe your fair hearing procedures for households whose applications are denied or not acted on in a timely manner. When are applicants informed of these rights?
	TDHCA will ensure that subrecipients provide an opportunity for a fair administrative hearing to individuals whose application for assistance is denied

	or not acted upon in a timely manner by requiring subrecipients to: • print information about clients' rights on the application forms and information sheets; • provide opportunity for fair administrative hearings in cases of application denial, delay, or inaction; • Provide written notification to applicant of denial of assistance within ten (10) days of the adverse determination. Notification includes written instructions of the appeals process and specific reasons for the denial. Applicants wishing to appeal a decision must provide written notice to subrecipient within 10 days of receipt of the denial notice. Subrecipient maintains documentation of appeals in the client files. Applicants may subsequently appeal to TDHCA. An applicant must provide a written appeal request to TDHCA within 10 days of receiving the subrecipient's second determination. A TDHCA appeals committee composed of at least three persons hears the appeal within 10 days of receiving the appeal. The subrecipient provides to TDHCA an audio tape recording or detailed notes of its hearing and pertinent client files. TDHCA will review the recording and notes from the hearing, the committee's decision and any other relevant information. TDHCA will not take additional oral testimony. TDHCA will notify all parties in writing of its decision within 30 days of the receipt of the appeal.

Alternate Outreach and Intake

2605(b)(15)	**For States and Puerto Rico only** (not applicable to Tribes and tribal organizations, or to territories whose annual regular LIHEAP allotments are $200,000 or less):		
	➔Does the State agency that administers the following LIHEAP component also administer the State's welfare program?	YES	NO
	Heating Assistance		**NO**
	If Yes, describe alternate process for outreach and intake:		
	Cooling Assistance		**NO**
	If Yes, describe alternate process for outreach and intake:		
	Crisis Assistance		**NO**
	If Yes, describe alternate process for outreach and intake:		

Assurance 16 Activities

2605(b)(16)	➔Do you use LIHEAP funds to provide services that encourage and enable households to reduce their home energy needs and thereby the need for energy assistance? (This assurance refers to activities such as needs assessments, counseling, and assistance with energy vendors.)
	☒ Yes ☐ No
	If Yes, please describe these activities.

	1. Identify household needs. 2. Provide literature and energy conservation education. 3. Refer client to other appropriate programs. 4. Encourage responsible vendor and consumer behavior Subrecipients provide applications, forms, and energy education materials in Spanish, English, or other language when appropriate.
	If Yes, how do you ensure that you don't use more than 5% (statutory ceiling) of your LIHEAP funds for these activities? Assurance 16 activities are a separate budget category at both the state and subrecipient levels. Both the accounting and the reporting systems do not allow expenditures over the 5% cap.

Leveraging

2607A	➔Please describe leveraging activities planned for the fiscal year. **(This entry is optional.*)** Complete this entry if you plan to apply for LIHEAP leveraging incentive funds and to include in your leveraging report resources/benefits provided to low income households this fiscal year under criterion (iii) in 45 CFR 96.87(d)(2). Provide the following information for each: (1) Identify and described each resource/benefit; (2) Identify the source(s) of each resource; and (3) Describe the integration/coordination of each resource/benefit with the LIHEAP program, consistent with 1 or more of conditions A-H in 45 CFR 96.87(d)(2)(iii).
2607(A) 45CFR96 §96.87(d)(2) (i)	In order for subrecipients to serve eligible households in a comprehensive manner, creation of partnerships with private industries and utility vendors is essential. LIHEAP staff members, both at the grantee and the subrecipient level, have devoted substantial time and resources in the negotiation and design of these partnerships.
§96.87(d)(1)	The resources leveraged by these activities are from non-federal sources such as utility companies. They are provided to the LIHEAP grantee or only accessible to LIHEAP clients. They represent a net addition to the total home energy resources available to low-income households, are measurable and quantifiable, and meet the requirements for countable resources. The following resources have been leveraged on behalf of LIHEAP clients:
§96.87(d)(2) (iii)(D) §96.87(d)(2) (iii)(E) §96.87(d)(2) (iii)(F)	Subrecipients have written agreements in place with energy providers. These agreements may provide for rate discounts, arrearage forgiveness, waivers on reconnection fees, and waivers on deposits. These agreements ensure that the energy vendor will charge the eligible household only the difference between the cost of home energy actually consumed and the amount of the payment made by TDHCA through LIHEAP. Agreements ensure that energy vendors

§96.87(e)(1) (i)	will treat LIHEAP clients with no disadvantage relative to all other customers. The resources generated by these agreements are available to LIHEAP recipients and households that meet LIHEAP eligibility criteria. TDHCA currently uses written agreements with private, investor owned electric utility companies (IOUs) to provide funding for the following resources or services:
§96.87(d)(2)(ii) §96.87(e)(1)(iii) §96.87(e)(1)(vi)	IOU Weatherization Programs provide additional funding for the LIHEAP-funded Weatherization Assistance Program. Utility funds are designed to work in coordination with housing units being weatherized under the state's WAP. Therefore the program is only available to current WAP clients. The funds are administered by TDHCA and the work is carried out by the LIHEAP WAP network.
§96.87(d)(2)(ii) §96.87(b)(4) §96.87(e)(1)(iii) §96.87(e)(1)(vi)	TDHCA continues to work with the Public Utility Commission, the Texas Railroad Commission, and utilities to advocate for the enhancement and development of additional services for low-income energy consumers.
§96.87 (c) 96.87(d)(1)(i) 96.87(d)(2) (i,ii) 96.87(d)(2) (iii) (F) 96.87(e)(1) (iv) 96.87(e)(1) (v)	TDHCA programs funded with utility tariffs operate through LIHEAP subrecipients or in conjunction with other LIHEAP-funded programs designed to reduce energy cost burden for low-income households. The Texas 79th legislative session did not provide funding for the low-income discount. When funded, the System Benefit Fund supports a Low-Income Discount for electric customers (LIHEAP rule: Subpart H, Section 96.87). If funded, this resource would meet requirements for leveraged resources ((d)(1)(i-v). The grantee's LIHEAP program had an active, substantive role in developing the resource from home energy vendors through negotiation ((d)(2)(i)) at the Public Utility Commission of Texas. The resource is provided to low-income households as a supplement to Texas' LIHEAP program ((d)(2)(iii)). Rate discount recipients meet LIHEAP program eligibility criteria in the base period ((d)(2)(D)). Specifically, this program qualifies under section (e)(2)(i) as a home energy discount, provided in the base period to low-income households, in the form of discounts in utility rates or bills. Several retail electric providers (REPs) will offer emergency bill payment assistance through LIHEAP agencies in FY2007. TDHCA developed these leveraged programs through negotiations with energy providers. Subrecipients will administer this assistance under LIHEAP income eligibility criteria.

* Leveraged resources/benefits that are counted under criterion (iii) in 45 CFR 96.87(d)(2) must be identified and described in the grantee's LIHEAP plan and distributed as indicated in the plan. In addition, leveraging resources/benefits that are counted under criterion (ii) must be carried out under one or more components of the grantee's regular LIHEAP program.

ADDITIONAL CERTIFICATIONS AND REQUIREMENTS

Attached are additional certifications required as follows:

- **Lobbying certification**, which must be filed by all States and territories. If applicable, Form LLL, which discloses lobbying payments, must be submitted. **(Tribes and tribal organizations are EXEMPT)**

- **Debarment and suspension certification**, which must be filed by all grantees.

- **Drug-free workplace requirement certification**, which must be filed by all grantees, unless the grantee has filed a statewide certification with the Department of Health and Human Services. **STATES ONLY:** If you have filed a statewide certification for the drug-free workplace requirement, please check here: ☐

- One of the new requirements included in the 1994 reauthorization of the statute is that grantees must include in their annual application for funds a report on the number and income levels of households applying for and receiving LIHEAP assistance, and on the number of recipient households that have members who are elderly, disabled, or young children.

  All Tribes and those territories with allotments of less than $200,000 need only submit data on the number of households served by each component (heating, cooling, weatherization and crisis). The approval for the collection of information contained in the **LIHEAP Household Report** is covered by OMB approval number 0970-0060.

- Though not a part of this application, the report on funds to be carried over or available for reallotment as required by section 2607(a) for the preceding year must be submitted by August 1 of each year. A grant award for the current fiscal year may not be made until the carryover/reallotment report is received. The approval for the collection of information contained in the **LIHEAP Carryover and Reallotment Report** is covered by OMB approval number 0970-0106.

Texas Register Notice of Public Hearing

For Publication in the June 23, 2006 issue

TEXAS DEPARTMENT OF HOUSING AND COMMUNITY AFFAIRS
Notice of Public Hearing
Low-Income Home Energy Assistance Program (LIHEAP) PY 2007
For the fiscal year that begins October 1, 2006, the Texas Department of Housing and Community Affairs (TDHCA) anticipates receiving federal funds to continue the operation of certain programs that assist very low-income Texans with home energy. While in the process of deciding how to use Low-Income Home Energy Assistance Program (LIHEAP) funds, TDHCA now seeks opinions of groups affected by LIHEAP programs as well as opinions of other interested citizens.

As part of the public information, consultation, and public hearing requirements for LIHEAP, the Community Affairs Division of the Texas Department of Housing and Community Affairs (TDHCA) will conduct a public hearing and post the proposed plan on the TDHCA internet site. Primarily, the hearing solicits comments on the proposed use and distribution of federal fiscal year (FFY) 2007 funds provided under LIHEAP. LIHEAP provides funding for the Weatherization Assistance Program (WAP) and utility assistance – known as "Comprehensive Energy Assistance Program (CEAP)".

The public hearing has been scheduled as follows:
Tuesday, July 18, 2006, 2:00 p.m.
Room #116, TDHCA Headquarters,
221 East 11th St.
Austin, Texas

A representative from TDHCA will explain the planning process and receive comments from interested citizens and affected groups regarding the proposed plan for LIHEAP subrecipients. A copy of the Draft LIHEAP Plan may be obtained after June 23, 2006, through TDHCA's web site, http://www.tdhca.state.tx.us/ea.htm or by contacting the Texas Department of Housing and Community Affairs, Community Affairs Division, Energy Assistance Section, P.O. Box 13941, Austin, Texas 78711-3941, or by phone at (512) 475-1435.

Anyone may submit comments on the draft plan in written form or oral testimony at the public hearing. TDHCA must receive written comments no later than 5:00 p.m., Monday, July 24, 2006. Comments concerning the draft plan may be submitted via the Internet to john.touchet@tdhca.state.tx.us or by fax (512) 475-3935 or through John Touchet at TDHCA using the postal service address provided above. If you have any questions regarding the public hearing process or any of the programs referenced above, please contact TDHCA, Community Affairs Division, Energy Assistance Section.

Individuals who require auxiliary aids or services for this meeting should contact Ms. Gina Esteves at (512) 475-3943 or Relay Texas at 1-800-735-2989 at least two days before the meeting so that appropriate arrangements can be made.
Non-English speaking individuals who require interpreters for this meeting should contact John Touchet, (512) 475-1435 at least three days before the meeting so that appropriate arrangements can be made.
Personas que hablan español y requieren un intérprete, favor de llamar a Jorge Reyes al siguiente número (512) 475-4577 por lo menos tres días antes de la junta para hacer los preparativos apropiados.

CERTIFICATION REGARDING LOBBYING

Certification for Contracts, Grants, Loans, and Cooperative Agreements

The undersigned certifies, to the best of his or her knowledge and belief, that:

(1) No Federal appropriated funds have been paid or will be paid, by or on behalf of the undersigned, to any person for influencing or attempting to influence an officer or employee of an agency, a Member of Congress, an officer or employee of Congress, or an employee of a Member of Congress in connection with the awarding of any Federal contract, the making of any Federal grant, the making of any Federal loan, the entering into of any cooperative agreement, and the extension, continuation, renewal, amendment, or modification of any Federal contract, grant, loan, or cooperative agreement.

(2) If any funds other than Federal appropriated funds have been paid or will be paid to any person for influencing or attempting to influence an officer or employee of any agency, a Member of Congress, an officer or employee of Congress, or an employee of a Member of Congress in connection with this Federal contract, grant, loan, or cooperative agreement, the undersigned shall complete and submit Standard Form-LLL, ``Disclosure Form to Report Lobbying," in accordance with its instructions.

(3) The undersigned shall require that the language of this certification be included in the award documents for all subawards at all tiers (including subcontracts, subgrants, and contracts under grants, loans, and cooperative agreements) and that all subrecipients shall certify and disclose accordingly. This certification is a material representation of fact upon which reliance was placed when this transaction was made or entered into. Submission of this certification is a prerequisite for making or entering into this transaction imposed by section 1352, title 31, U.S. Code. Any person who fails to file the required certification shall be subject to a civil penalty of not less than $10,000 and not more than $100,000 for each such failure.

Statement for Loan Guarantees and Loan Insurance

The undersigned states, to the best of his or her knowledge and belief, that:

If any funds have been paid or will be paid to any person for influencing or attempting to influence an officer or employee of any agency, a Member of Congress, an officer or employee of Congress, or an employee of a Member of Congress in connection with this commitment providing for the United States to insure or guarantee a loan, the undersigned shall complete and submit Standard Form-LLL, ``Disclosure Form to Report Lobbying," in accordance with its instructions. Submission of this statement is a prerequisite for making or entering into this transaction imposed by section 1352, title 31, U.S. Code. Any person who fails to file the required statement shall be subject to a civil penalty of not less than $10,000 and not more than $100,000 for each such failure.

CERTIFICATION REGARDING DEBARMENT, SUSPENSION AND OTHER RESPONSIBILITY MATTERS

Certification Regarding Debarment, Suspension, and Other Responsibility Matters--Primary Covered Transactions

Instructions for Certification

1. By signing and submitting this proposal, the prospective primary participant is providing the certification set out below.
2. The inability of a person to provide the certification required below will not necessarily result in denial of participation in this covered transaction. The prospective participant shall submit an explanation of why it cannot provide the certification set out below. The certification or explanation will be considered in connection with the department or agency's determination whether to enter into this transaction. However, failure of the prospective primary participant to furnish a certification or an explanation shall disqualify such person from participation in this transaction.
3. The certification in this clause is a material representation of fact upon which reliance was placed when the department or agency determined to enter into this transaction. If it is later determined that the prospective primary participant knowingly rendered an erroneous certification, in addition to other remedies available to the Federal Government, the department or agency may terminate this transaction for cause or default.
4. The prospective primary participant shall provide immediate written notice to the department or agency to which this proposal is submitted if at any time the prospective primary participant learns that its certification was erroneous when submitted or has become erroneous by reason of changed circumstances.
5. The terms covered transaction, debarred, suspended, ineligible, lower tier covered transaction, participant, person, primary covered transaction, principal, proposal, and voluntarily excluded, as used in this clause, have the meanings set out in the Definitions and Coverage sections of the rules implementing Executive Order 12549. You may contact the department or agency to which this proposal is being submitted for assistance in obtaining a copy of those regulations.
6. The prospective primary participant agrees by submitting this proposal that, should the proposed covered transaction be entered into, it shall not knowingly enter into any lower tier covered transaction with a person who is proposed for debarment under 48 CFR part 9, subpart 9.4, debarred, suspended, declared ineligible, or voluntarily excluded from participation in this covered transaction, unless authorized by the department or agency entering into this transaction.
7. The prospective primary participant further agrees by submitting this proposal that it will include the clause titled ``Certification Regarding Debarment, Suspension, Ineligibility and Voluntary Exclusion-Lower Tier Covered Transaction," provided by the department or agency entering into this covered transaction, without modification, in all lower tier covered transactions and in all solicitations for lower tier covered transactions.
8. A participant in a covered transaction may rely upon a certification of a prospective participant in a lower tier covered transaction that it is not proposed for debarment under 48 CFR part 9, subpart 9.4, debarred, suspended, ineligible, or voluntarily excluded from the covered transaction, unless it knows that the certification is erroneous. A participant may decide the method and frequency by which it determines the eligibility of its principals. Each participant may, but is not required to, check the List of Parties Excluded from Federal Procurement and Nonprocurement Programs.
9. Nothing contained in the foregoing shall be construed to require establishment of a system of records in order to render in good faith the certification required by this clause. The knowledge and information of a participant is not required to exceed that which is normally possessed by a prudent person in the ordinary course of business dealings.
10. Except for transactions authorized under paragraph 6 of these instructions, if a participant in a covered transaction knowingly enters into a lower tier covered transaction with a person who is proposed for debarment under 48 CFR part 9, subpart 9.4, suspended, debarred, ineligible, or voluntarily excluded from participation in this transaction, in addition to other remedies available to the Federal Government, the department or agency may terminate this transaction for cause or default.

****

Certification Regarding Debarment, Suspension, and Other Responsibility Matters--Primary Covered Transactions

(1) The prospective primary participant certifies to the best of its knowledge and belief, that it and its principals:

(a) Are not presently debarred, suspended, proposed for debarment, declared ineligible, or voluntarily excluded by any Federal department or agency;

(b) Have not within a three-year period preceding this proposal been convicted of or had a civil judgment rendered against them for commission of fraud or a criminal offense in connection with obtaining, attempting to obtain, or performing a public (Federal, State or local) transaction or contract under a public transaction; violation of Federal or State antitrust statutes or commission of embezzlement, theft, forgery, bribery, falsification or destruction of records, making false statements, or receiving stolen property;

(c) Are not presently indicted for or otherwise criminally or civilly charged by a governmental entity (Federal, State or local) with commission of any of the offenses enumerated in paragraph (1)(b) of this certification; and

(d) Have not within a three-year period preceding this application/proposal had one or more public transactions (Federal, State or local) terminated for cause or default.

(2) Where the prospective primary participant is unable to certify to any of the statements in this certification, such prospective participant shall attach an explanation to this proposal.

Certification Regarding Debarment, Suspension, Ineligibility and Voluntary Exclusion—
Lower Tier Covered Transactions

Instructions for Certification

1. By signing and submitting this proposal, the prospective lower tier participant is providing the certification set out below.

2. The certification in this clause is a material representation of fact upon which reliance was placed when this transaction was entered into. If it is later determined that the prospective lower tier participant knowingly rendered an erroneous certification, in addition to other remedies available to the Federal Government the department or agency with which this transaction originated may pursue available remedies, including suspension and/or debarment.

3. The prospective lower tier participant shall provide immediate written notice to the person to which this proposal is submitted if at any time the prospective lower tier participant learns that its certification was erroneous when submitted or had become erroneous by reason of changed circumstances.

4. The terms covered transaction, debarred, suspended, ineligible, lower tier covered transaction, participant, person, primary covered transaction, principal, proposal, and voluntarily excluded, as used in this clause, have the meaning set out in the Definitions and Coverage sections of rules implementing Executive Order 12549. You may contact the person to which this proposal is submitted for assistance in obtaining a copy of those regulations.

5. The prospective lower tier participant agrees by submitting this proposal that, [[Page 33043]] should the proposed covered transaction be entered into, it shall not knowingly enter into any lower tier covered transaction with a person who is proposed for debarment under 48 CFR part 9, subpart 9.4, debarred, suspended, declared ineligible, or voluntarily excluded from participation in this covered transaction, unless authorized by the department or agency with which this transaction originated.

6. The prospective lower tier participant further agrees by submitting this proposal that it will include this clause titled ``Certification Regarding Debarment, Suspension, Ineligibility and Voluntary Exclusion-Lower Tier Covered Transaction," without modification, in all lower tier covered transactions and in all solicitations for lower tier covered transactions.

7. A participant in a covered transaction may rely upon a certification of a prospective participant in a lower tier covered transaction that it is not proposed for debarment under 48 CFR part 9, subpart 9.4, debarred, suspended, ineligible, or voluntarily excluded from covered transactions, unless it knows that the certification is erroneous. A participant may decide the method and frequency by which it determines the

eligibility of its principals. Each participant may, but is not required to, check the List of Parties Excluded from Federal Procurement and Nonprocurement Programs.

8. Nothing contained in the foregoing shall be construed to require establishment of a system of records in order to render in good faith the certification required by this clause. The knowledge and information of a participant is not required to exceed that which is normally possessed by a prudent person in the ordinary course of business dealings.

9. Except for transactions authorized under paragraph 5 of these instructions, if a participant in a covered transaction knowingly enters into a lower tier covered transaction with a person who is proposed for debarment under 48 CFR part 9, subpart 9.4, suspended, debarred, ineligible, or voluntarily excluded from participation in this transaction, in addition to other remedies available to the Federal Government, the department or agency with which this transaction originated may pursue available remedies, including suspension and/or debarment.

****

Certification Regarding Debarment, Suspension, Ineligibility an Voluntary Exclusion--Lower Tier Covered Transactions

(1) The prospective lower tier participant certifies, by submission of this proposal, that neither it nor its principals is presently debarred, suspended, proposed for debarment, declared ineligible, or voluntarily excluded from participation in this transaction by any Federal department or agency.

(2) Where the prospective lower tier participant is unable to certify to any of the statements in this certification, such prospective participant shall attach an explanation to this proposal.

CERTIFICATION REGARDING DRUG-FREE WORKPLACE REQUIREMENTS

This certification is required by the regulations implementing the Drug-Free Workplace Act of 1988: 45 CFR Part 76, Subpart, F. Sections 76.630(c) and (d)(2) and 76.645(a)(1) and (b) provide that a Federal agency may designate a central receipt point for STATE-WIDE AND STATE AGENCY-WIDE certifications, and for notification of criminal drug convictions. For the Department of Health and Human Services, the central pint is: Division of Grants Management and Oversight, Office of Management and Acquisition, Department of Health and Human Services, Room 517-D, 200 Independence Avenue, SW Washington, DC 20201.

Certification Regarding Drug-Free Workplace Requirements (Instructions for Certification)

1. By signing and/or submitting this application or grant agreement, the grantee is providing the certification set out below.

2. The certification set out below is a material representation of fact upon which reliance is placed when the agency awards the grant. If it is later determined that the grantee knowingly rendered a false certification, or otherwise violates the requirements of the Drug-Free Workplace Act, the agency, in addition to any other remedies available to the Federal Government, may take action authorized under the Drug-Free Workplace Act.

3. For grantees other than individuals, Alternate I applies.

4. For grantees who are individuals, Alternate II applies.

5. Workplaces under grants, for grantees other than individuals, need not be identified on the certification. If known, they may be identified in the grant application. If the grantee does not identify the workplaces at the time of application, or upon award, if there is no application, the grantee must keep the identity of the workplace(s) on file in its office and make the information available for Federal inspection. Failure to identify all known workplaces constitutes a violation of the grantee's drug-free workplace requirements.

6. Workplace identifications must include the actual address of buildings (or parts of buildings) or other sites where work under the grant takes place. Categorical descriptions may be used (e.g., all vehicles of a mass transit authority or State highway department while in operation, State employees in each local unemployment office, performers in concert halls or radio studios).

7. If the workplace identified to the agency changes during the performance of the grant, the grantee shall inform the agency of the change(s), if it previously identified the workplaces in question (see paragraph five).

8. Definitions of terms in the Non-procurement Suspension and Debarment common rule and Drug-Free Workplace common rule apply to this certification. Grantees' attention is called, in particular, to the following definitions from these rules:

Controlled substance means a controlled substance in Schedules I through V of the Controlled Substances Act (21 U.S.C. 812) and as further defined by regulation (21 CFR 1308.11 through 1308.15);

Conviction means a finding of guilt (including a plea of nolo contendere) or imposition of sentence, or both, by any judicial body charged with the responsibility to determine violations of the Federal or State criminal drug statutes;

Criminal drug statute means a Federal or non-Federal criminal statute involving the manufacture, distribution, dispensing, use, or possession of any controlled substance;

Employee means the employee of a grantee directly engaged in the performance of work under a grant, including: (i) All direct charge employees; (ii) All indirect charge employees unless their impact or involvement is insignificant to the performance of the grant; and, (iii) Temporary personnel and consultants who are directly engaged in the performance of work under the grant and who are on the grantee's payroll. This definition does not include workers not on the payroll of the grantee (e.g., volunteers, even if used to meet a matching requirement; consultants or independent contractors not on the grantee's payroll; or employees of subrecipients or subcontractors in covered workplaces).

Certification Regarding Drug-Free Workplace Requirements

Alternate I. (Grantees Other Than Individuals)

The grantee certifies that it will or will continue to provide a drug-free workplace by:

(a) Publishing a statement notifying employees that the unlawful manufacture, distribution, dispensing, possession, or use of a controlled substance is prohibited in the grantee's workplace and specifying the actions that will be taken against employees for violation of such prohibition;

(b) Establishing an ongoing drug-free awareness program to inform employees about --

(1)The dangers of drug abuse in the workplace;

(2) The grantee's policy of maintaining a drug-free workplace;

(3) Any available drug counseling, rehabilitation, and employee assistance programs; and

(4) The penalties that may be imposed upon employees for drug abuse violations occurring in the workplace;

(c) Making it a requirement that each employee to be engaged in the performance of the grant be given a copy of the statement required by paragraph (a);

(d) Notifying the employee in the statement required by paragraph (a) that, as a condition of employment under the grant, the employee will --

(1) Abide by the terms of the statement; and

(2) Notify the employer in writing of his or her conviction for a violation of a criminal drug statute occurring in the workplace no later than five calendar days after such conviction;

(e) Notifying the agency in writing, within ten calendar days after receiving notice under paragraph (d)(2) from an employee or otherwise receiving actual notice of such conviction. Employers of convicted employees must provide notice, including position title, to every grant officer or other designee on whose grant activity the convicted employee was working, unless the Federal agency has designated a central point for the receipt of such notices. Notice shall include the identification number(s) of each affected grant;

(f) Taking one of the following actions, within 30 calendar days of receiving notice under paragraph (d)(2), with respect to any employee who is so convicted --

(1) Taking appropriate personnel action against such an employee, up to and including termination, consistent with the requirements of the Rehabilitation Act of 1973, as amended; or

(2) Requiring such employee to participate satisfactorily in a drug abuse assistance or rehabilitation program approved for such purposes by a Federal, State, or local health, law enforcement, or other appropriate agency;

(g) Making a good faith effort to continue to maintain a drug-free workplace through implementation of paragraphs (a), (b), (c), (d), (e) and (f).

(B) The grantee may insert in the space provided below the site(s) for the performance of work done in connection with the specific grant:

Place of Performance (Street address, city, county, state, zip code)

____

____

Check if there are workplaces on file that are not identified here.

Alternate II. (Grantees Who Are Individuals)
(Not applicable to this plan.) [55 FR 21690, 21702, May 25, 1990]

VENDOR AGREEMENT

COMPREHENSIVE ENERGY ASSISTANCE PROGRAM

The purpose of the Comprehensive Energy Assistance Program (CEAP) funded from the Low-Income Home Energy Assistance Program (LIHEAP) grant is to maintain an energy supply to heat and cool the residences of eligible low-income clients.

For purposes of this agreement, a Retail Electric Provider is defined as a municipally owned utility, an electric cooperative, or an investor-owned utility as certified by the Texas Public Utility Commission.

The Retail Electric Provider, (or "Vendor,") agrees to honor the purpose of the CEAP and to accept pledges of payment from CEAP agencies only for certified customers to whom Vendor continues to provide energy services. The Energy Assistance Provider, (or "Agency,") agrees to make payments only for eligible low-income clients.

This vendor agreement is by and between:

____ and
Energy Assistance Provider (Agency)

____
Retail Electric Provider (Vendor)

____

Vendor and Agency agree to assist customers in the following counties:

____

____

____

This agreement shall be effective from the ______day of ____________________2004 for a period not to exceed two years from the effective date. Either party may terminate this agreement by written notice. Such written notice of termination shall not affect any obligation by either party incurred prior to the receipt of such notice. Notice shall be sent via certified mail with return receipt requested.

____
(Vendor Name)

____
(Vendor Mailing Address)

____
(Name of Agency)

____
(Agency Mailing Address)

The Agency named above represents and warrants to Vendor that it is a subrecipient of the Texas Department of Housing and Community Affairs ("TDHCA") and as such is authorized and has received funding from the TDHCA to provide bill payment assistance service for eligible low-income households.

The Vendor named above is a Retail Electric Provider certified by the Public Utility Commission of Texas and represents and warrants that it is authorized to receive payments from Agency on behalf of a customer that the Agency has determined to be eligible under the CEAP guidelines and as such is a "Certified Customer".

Vendor will, with reference to a Certified Customer:

- Extend the CEAP applicant's electric service for up to five (5) business days while the Agency determines whether the CEAP applicant is eligible pursuant to the CEAP guidelines;

- Upon accepting pledge from Agency for Certified Customer, continue or restore electric service to Certified Customer without any increase in kilowatt charges, services charges, or other charges affecting the total cost of the bill;

- Invoice the Certified Customer in accordance with Vendor’s normal billing practices.

- Upon verbal or written request from Agency, provide at no cost to the Agency the Certified Customer’s billing and usage history for the previous twelve (12) months, or available history plus monthly estimates if less than 12 months of billing history and usage is available. Vendor will transmit such billing history via electronic mail or facsimile no later than the end of the next business day following the request. All histories will be provided in accordance with PUC Substantive Rules Section 25.472(b)(4).

- Work with Agency and Certified Customer to explore the feasibility of offering flexible payment arrangements that may include, without limitation, waiving security deposits, reconnect fees, application fees, and all other fees whenever possible;

- Not discriminate against Certified Customer in price or services, including the availability of deferred payment plans, level or average payment plans, discount, budget, advance payment or other credit plans;

- Not refuse to provide electric service or otherwise discriminate in the marketing and provision of electric service to any Certified Customer because of race, creed, color, national origin, ancestry, sex, marital status, lawful source of income, level of income, disability, financial status, location of customer in an economically distressed geographic area, or qualification for low-income or energy-efficiency services;

- Allow Agency forty-five (45) days from the date of the pledge to forward payment to the vendor. Vendor agrees not to consider the portion of the Certified Customer’s account to be paid by the Agency delinquent if said payment is received within the above mentioned forty-five (45) day period and Vendor is provided with a signed pledge from the Agency within 5 days of identifying a Certified Customer and making the pledge;

- Not interrupt service if Certified Customer enters into an agreement with the Vendor concerning how the Certified Customer will pay the balance owed Vendor and the Certified Customer is meeting the obligations under such agreement.

- **The Agency will:**

- Not provide pledges on behalf of a Certified Customer to Vendor without having adequate funds to pay such pledge;

- Pay pledges within forty-five (45) days of making pledge to Vendor;

- Determine if a customer is a Certified Customer within five (5) business days of contacting Vendor.

- Provide Vendor a list of names, telephone numbers and e-mail addresses of Agency staff designated to make pledges on behalf of the Agency and Certified Clients.

The terms of any confidential transaction under this agreement or any other information exchanged by the Agency and Vendor relating to any transaction shall not be disclosed to any person not employed or retained by the Agency or Vendor, their affiliates, or brokers, except to the extent disclosure is 1) required by law; 2) necessary to disclose to the other party in connection with a dispute between the parties; 3) otherwise permitted by written consent of the other party; 4) required by guarantors to be disclosed; 5) information which must be disclosed to a third party to transmit energy; 6) to meet reliability council, regulatory, administrative, judicial, governmental, or regulated commodity exchange requirements where necessary; or 7) of information which was or is hereafter in the public domain (except by breach of this Agreement.)

OFFICE OF COLONIA INITIATIVES

BOARD ACTION REQUEST

August 30, 2006

Action Items

Presentation, Discussion and Possible Approval of a Colonia Self Help Center (SHC) Award to Val Verde County.

Required Action

Approval of a Colonia Self Help Center (SHC) Award to Val Verde County.

Background

Colonia Self-Help Centers Program

In 1995, the 74th Legislature passed Senate Bill 1509, which is incorporated in the Texas Government Code, Chapter 2306, Sub-chapter Z; a legislative directive to the Texas Department of Housing and Community Affairs (TDHCA) to establish Colonia Self-Help Centers (SHC) in Cameron/Willacy, El Paso, Hidalgo, Starr and Webb Counties. If TDHCA and the Office of Colonia Initiatives (OCI) determines it necessary and appropriate, TDHCA may establish a Colonia Self Help Center (SHC) in any other county if the county is designated as an economically distressed are under Chapter 17 of the Water Code. In 2001, TDHCA opened two additional centers in Maverick and Val Verde Counties to address the needs in these counties.

Tex. Gov. Code Ann. §2306.583 requires TDHCA in consultation with the colonia residents advisory committee (C-RAC) and the appropriate local county staff to designate five colonias in each service area based on demographic characteristics (i.e. number of houses, number of residents, platted/unplatted, water, sewer, utilities, etc.) which is approved by the local County Commissioners Court. The local county conducts and completes a Needs Assessment for each of the five selected colonias. Based on the results obtained by the Needs Assessments, the local county develops a scope of work for each selected colonia. In order to provide these services, the counties will be required to leverage funds, coordinate with financial institutions, prepare grant applications and coordinate with their contracted partners.

Upon completion of the Needs Assessments, the county will publish a Request for Proposals (RFP) for a Colonia SHC provider. Each RFP is reviewed and scored by county staff. The county recommendations are presented before the County Commissioners Court for its review and approval. The county is required to establish a Colonia SHC to provide services to colonia residents as described in Section 2306.586 (c) of the Tex, Gov. Code and that the activities provided are in line with the results of the Needs Assessments.

Colonia SHC Funding

Operation of the Colonia SHC is funded through a 2.5% set-aside of the annual Community Development Block Grant (CDBG) allocation which is approximately $2.2 million per year. The CDBG funds are transferred to TDHCA through a Memorandum of Understanding (MOU) between the Office of Rural Community Affairs (ORCA) and TDHCA. The Colonia SHC contracts are two-year contracts and funded in rotating years.

The funding for this program is also renewed every legislative session through ORCA's Rider 5 of the General Appropriations Act of the 79th Legislative, Regular Session and Rider 14 to TDHCA's appropriation for the 2006-2007 biennium.

Colonia SHC Award Description

Val Verde County (the County) conducted and completed a Needs Assessment for each of the selected five (5) colonias within. The County published a Request for Proposals (RFP) for a SHC provider that would be able to meet the needs identified in the needs assessment, reviewed and scored each proposal and made its recommendation to the County Commissioners Court. The County Commissioners Court approved the County's recommendation to select the Del Rio Housing Authority to manage the Colonia SHC. This will be Val Verde County's second Colonia SHC contract.

Contractor: Val Verde County

Contact: The Honorable Mike L. Fernandez

Address: Val Verde County Courthouse
Del Rio, Texas 78840

Purpose of Contract: The County of Val Verde shall provide housing and community development to the following colonias: Val Verde Park Estates, Cienegas Terrace Subdivision I, Cienegas Terrace Subdivision II, Villareal Subdivision, and Escondido Estates. The County through its local nonprofit provider the Del Rio Housing Authority proposes to do the following housing and community development activities:

Performance activity	Proposed	Budget
Lot acquisition	4	$40,000.00
Title search	4	$1,200.00
Survey	4	$1,600.00
Outreach	1,420	$4,100.00
Technical assistance	40	$4,000.00
Colonia meeting	6	$1,200.00
Tool lending library/checkouts	1/150	$3,700.00
Construction and tutoring educational classes	30	$44,800.00
Colonia beautification	6	$19,000.00
Relocation	10	$2,000.00
Residential rehabilitation	50	$425,000.00
Homeownership assistance down payment/closing cost	9	$90,000.00
SHC administration	NA	$180,396.00

The Colonia SHC contract will benefit three thousand four hundred sixty (3,460) colonia residents.

Val Verde County's Prior Contract Performance

ACTIVITY	PERFORMANCE GOALS	TOTAL GOALS COMPLETED	PERCENT OF GOALS COMPLETED
Outreach	200	200	100%
Technical assistance	50	487	974%
Colonia meetings	4	4	100%
Tool library	95	166	175%
Tool training	28	78	299%
Technology center	1	1	100%
House repairs	50	53	106%
Alternative housing	1	1	100%

Recommendation

Approval of Colonia SHC funding Award to Val Verde County for the operation of the Val Verde Colonia SHC.

Self Help Center
Val Verde County

INTRODUCTION

Val Verde County is located on the Texas-Mexico border approximately 155 miles west of the City of San Antonio, Texas and approximately 56 miles northwest of the City of Eagle Pass, Texas. The City of Del Rio is the largest community in Val Verde County and thus its county seat. As is the case all along the Texas-Mexico border, Val Verde County has subdivisions (Colonias) throughout the surrounding area that are substandard. All these colonias were developed prior to the Legislature taking any action on setting the subdivision rules that now govern.

Although the county has several colonias, we continue to focus our energy on and work within four specific colonias in which work has already begun; 1) Val Verde Park Estates, 2) Cienegas Terrace Subdivision, 3) Villarreal Subdivision and 4) Escondido Estates. In order to assist the County in its efforts of helping the community, Val Verde County commissioned the assistance of Amistad Consulting Services and Frontera Consulting Services jointly to conduct a Comprehensive Colonia Study and Plan. This plan is dated November 2004 and its main purpose was threefold:

- To identify the existing locations of and conditions in its "colonia" areas.
- Assess the conditions in the unincorporated communities of Val Verde County.
- To identify the needs and possible solutions for those needs, particularly in the area of the water, sewer and housing.

The findings of the Comprehensive Colonia Study and Plan serve as the basis for the continued need of the operations within the Val Verde County Self Help Center. The study documents the poor condition of these four targeted colonias. It further classified the dwelling conditions in four different categories; 1) Standard, 2) Substandard, 3) Dilapidated and 4) Under Construction. Cumulatively, the study shows that of the 1387 dwellings evaluated 282 were classified as being substandard or in dilapidated conditions.

Together the County of Val Verde and the City of Del Rio have worked extremely hard for a number of years to bring water and wastewater infrastructure to these areas. Now that the infrastructure is in place, Val Verde County is prepared to transition into the area of housing improvements through rehabilitation and training activities. The services proposed to be offered by the Self Help Center will enable area residents to work toward bringing their homes to the standards that are set forth by HUD Section 8 Housing Quality Standards.

PROJECT DESCRIPTION:

The main objective of the Val Verde County Self Help Center is to assist colonia residents in the effort of converting their neighborhoods into safe, sanitary subdivisions with soundly constructed, properly insulated, comfortably heated and reasonably cooled houses to safeguard the health and welfare of all, in particular the very old and the very young. Val Verde County will continue to address the need for upgrading residences through the continued operation of the Self Help Center. The Self Help Center is located in the area of the colonias of Val Verde Park Estates and Villarreal Subdivision, but is available for all three colonias until a second center can be established in the Cienegas Terrace Subdivision.

The Self Help Center offers a Tool Lending Library, Construction/Rehabilitation Instruction, and Contract for Deed Consumer education activities. The Center Director and staff will be tasked with the procurement of additional funds to be used to assist households within Val Verde County.

The work of the County's Self Help Center will be to provide the education, training, and opportunities to empower the individual homeowners. Notwithstanding, it will ultimately be the individual homeowner that will be the one that is responsible for making the appropriate decisions as to the degree of personal success to be achieved.

Val Verde County
Self Help Center

GOALS, STRATEGIES AND OBJECTIVES

□ **GOAL #1 - Tool Lending Library:**
To make available all the resources that are necessary to educate and enable all the colonia residents to effect home improvement projects. The Self Help Center will continue to maintain the Tool Lending Library and make it available to individuals residing within the service area. The Self Help Center will insure that the individuals conducting the training for the library are well qualified.

□ **Strategy** - To utilize the Tool Lending Library to its maximum potential.

□□ **Objective** - Maintain a current and updated inventory.

□ **Strategy** - Establish criteria for the lending and a time line for returning the tools to the library.

□□ **Objective** - Document, disseminate and implement established procedures to be used without exception.

□ **Strategy** - Provide continued on-going instructions on the use of power tools and safety procedures that must be followed.

□□ **Objective** - Schedule classes (1) once every quarter and maintain a record of attendance.

□ **Strategy** - Instruct residents on the rules for borrowing and returning of tools.

□□ **Objective** - Maintain records of all tools and all borrowers.

□ **Strategy** - Provide a supply of building materials to be used for instruction.

□□ **Objective** - Utilize some of the funds to purchase the needed supplies and materials for instruction.

□ **Strategy** – Provide a list of worn and damaged tools.

□□ **Objective** - Utilize some of the funds to purchase or replace tools.

☐ **GOAL #2 - Outreach and Education for Construction and Rehabilitation:**
The Self Help Center will conduct several basic construction/rehabilitation instruction programs for individuals residing within the service area. The instruction programs will include, but not be limited to, instructions on: foundation, plumbing, framing, electrical, drywall, roofing, flooring, insulation, and planning of home additions.

☐ **Strategy** - Secure consultants that will instruct the colonia residents on how to plan home additions along with minor and major home repair projects.

☐☐ **Objective** - Complete six (6) educational workshops on the subject.

☐☐ **Objective** - Maintain a list of qualified consultants on file.

☐☐ **Objective** - Maintain a list of all residential participants on file.

☐ **Strategy** - Contract with qualified consultants that will instruct the colonia residents on carpentry and plumbing skills.

☐☐ **Objective** - Complete six (6) educational workshops on the subject.

☐☐ **Objective** - Maintain a list of qualified consultants on file.

☐☐ **Objective** - Maintain a list of all residential participants on file.

☐ **Strategy** - Secure qualified consultants that will instruct the colonia residents how to calculate quantities of materials and estimated cost of home repair projects.

☐☐ **Objective** - Complete six (6) educational workshops on the subject.

☐☐ **Objective** - Maintain a list of qualified consultants on file.

☐☐ **Objective** - Maintain a list of all residential participants on file.

☐ **Strategy** - Procure and provide sets of simple and affordable house plans.

☐☐ **Objective** - Maintain a file with a variety of house plans from which the colonia residents can select.

☐☐ **Objective** - Maintain a list of all residential participants on file.

□ **GOAL #3 - Grant Proposal:**
Actively pursue funding from grants and other outside sources to finance much needed home improvement activities within the County of Val Verde.

□ **Strategy** - The Self Help Center will prepare a minimum of two (2) applications in order to assist the targeted colonia residents. The minimum sources which will be included are; 1) Contract for Deed Conversion Program (TDHCA), 2) Owner Occupied Housing Assistance Program (TDHCA), 3) Texas Bootstrap Loan Program (TDHCA), 4) Housing Rehabilitation, Meadows Foundation, and 5) Federal Home Land Bank (FHLB).

□□ **Objective** - Identify homes that are in the greatest need of home repair and rehabilitation within the targeted areas.

□□ **Objective** - Document interviews and selection criteria used along with the number of persons per household, etc.

□ **GOAL #4 - Home Rehabilitation:**
The homes that are to be selected are identified in the Comprehensive Colonia Study and Plan conducted by Amistad Consulting Services and Frontera Consulting Services jointly, and dated November 2004. The number of households served will be contingent upon funding approval and on a pro-rate basis. The number served in each colonia will be determined by the Self Help Center and will be driven by the available funding.

□ **Strategy** - Identify and select home rehabilitation activities in twenty four (24) homes needing the improvements in the colonia of **Val Verde Park Estates**.

□□ **Objective** - Execute twenty four (24) home improvements projects at a cost not to exceed eight thousand five hundred dollars ($8,500) each over a two year period in the colonia of **Val Verde Park Estates**.

□ **Strategy** - Identify and select home rehabilitation activities in twenty two (22) homes needing the improvements in the colonia of **Cienegas Terrace Subdivision**.

□□ **Objective** - Execute twenty two (22) home improvements projects at a cost not to exceed eight thousand five hundred dollars ($8,500) each over a two year period in the colonia of **Cienegas Terrace Subdivision**.

□ **Strategy** - Identify and select home rehabilitation activities in four (4) homes needing the improvements in the colonia of **Villarreal Subdivision**.

□□ **Objective** - Execute four (4) home improvements projects at a cost not to exceed eight thousand five hundred dollars ($8,500) each over a two year period in the colonia of **Villarreal Subdivision**.

□ **GOAL #5 – Down Payment Assistance /Closing Costs and other fees:**
The Self-Help Center will provide down payment assistance, closing costs and other fees associated in purchasing a home to nine (9) families residing in the service areas of Cienegas Terrace, Val Verde Park Estates, and Villarreal Subdivision. Three (3) families will reside in Cienegas Terrace. Five (5) families will reside in Val Verde Park Estates, and one (1) family will reside in Villarreal Subdivision. This will assist the families to become homeowners by building a new home or acquire an existing home. These funds will help lower their mortgage payment.

□ **Strategy** – Alleviate crowded conditions in the colonias where two families reside in one lot. This will enable one family to purchase a home, therefore alleviating the crowded conditions.

□□ **Objective** - Execute nine (9) Down Payment /Closing Costs assistance for families to purchase homes in the service areas not to exceed a total of $10,000 per unit.

EXHIBIT A

PERFORMANCE STATEMENT

VAL VERDE COUNTY

The Housing Authority of the City of Del Rio, hereinafter referred to as "Contractor" shall carry out the following activities in the targeted areas identified in the Self Help Center (SHC) Proposal for 2006-2007. Contractor shall ensure that total funds expended for each activity herein does not exceed the amount specified for each activity in Exhibit B, Val Verde County Self Help Center Budget.

(1) ACQUISITION, DISPOSITION **$ 42,800.00**

■ ***Lot Acquisition*** $40,000.00

Contractor shall utilize forty thousand ($40,000.00) dollars to acquire four empty residential lots in targeted colonia areas.

$40,000.00 lot acquisition. (4 lots @ $10,000.00 each)

These activities shall benefit four (4) households, of which sixteen (16) residents or one hundred percent (100%) are of low to moderate income.

■ ***Title Search*** $1,200.00

Contractor shall utilize one thousand two hundred ($1,200.00) dollars to perform four residential title searches in targeted colonia areas.

$1,200.00 title searches (4 searches @ $300.00 each)

These activities shall benefit four (4) households, of which sixteen (16) residents or one hundred percent (100%) are of low to moderate income.

■ ***Lot Survey*** $1,600.00

Contractor shall utilize one thousand six hundred ($1,600.00) dollars to perform four residential lot surveys in targeted colonia areas.

$1,600.00 lot surveys (4 lot surveys @ $400.00 each)

These activities shall benefit four (4) households, of which sixteen (16) residents or one hundred percent (100%) are of low to moderate income.

(7) PUBLIC SERVICE **$ 77,700.00**

■ ***Outreach*** $1,800.00

Contractor will disseminate information regarding all Self Help Center activities and related programs to approximately eight hundred and sixty five (865) targeted colonia residents during the contract period. Self Help Center will distribute flyers door-to-door, in area convenient stores, churches, etc. to inform and encourage colonia residents to attend Self Help Center colonia meetings for activity updates and inform them of available resources. The flyers will be distributed in **Val Verde Park Estates**.

These activities shall benefit eight hundred and sixty five (865) households, of which three thousand four hundred and sixty (3460) residents or one hundred percent (100%) are of low to moderate income.

■ ***Outreach*** $1,600.00

Contractor will disseminate information regarding all Self Help Center activities and related programs to approximately five hundred and ten (510) targeted colonia residents during the contract period. Self Help Center will distribute flyers door-to-door, in area convenient stores, churches, etc. to inform and encourage colonia residents to attend Self Help Center colonia meetings for activity updates and inform them of available resources. The flyers will be distributed in **Cienegas Terrace Subdivision**.

These activities shall benefit five hundred and ten (510) households, of which two thousand and forty (2040) residents or one hundred percent (100%) are of low to moderate income.

■ ***Outreach*** $300.00

Contractor will disseminate information regarding all Self Help Center activities and related programs to approximately twelve (12) targeted colonia residents during the contract period. Self Help Center will distribute flyers door-to-door, in area convenient stores, churches, etc. to inform and encourage colonia residents to attend Self Help Center colonia meetings for activity updates and inform them of available resources. The flyers will be distributed in **Villarreal Subdivision**.

These activities shall benefit twelve (12) households, of which forty eight (48) residents or one hundred percent (100%) are of low to moderate income.

■ ***Outreach*** $400.00

Contractor will disseminate information regarding all Self Help Center activities and related programs to approximately thirty three (33) targeted colonia residents during the contract period. Self Help Center will distribute flyers door-to-door, in area convenient stores, churches, etc. to inform and encourage colonia residents to attend Self Help Center colonia meetings for activity updates and inform them of available resources. The flyers will be distributed in **Escondido Estates**.

These activities shall benefit thirty three (33) households, of which one hundred and thirty two (132) residents or one hundred percent (100%) are of low to moderate income.

■ *Technical Assistance* $1,800.00
Contractor shall perform eighteen (18) technical assistance visits to residents informing them of complimentary programs, perform housing assessments and provide planning assistance in regards to housing. Self Help Center staff will invite guest speakers to colonia meetings to provide technical assistance on a volunteer basis on topics of health awareness and home safety of residents of **Val Verde Park Estates.**

These activities shall benefit eighteen (18) households, of which seventy two (72) residents or one hundred percent (100%) are of low to moderate income.

■ *Technical Assistance* $1,600.00
Contractor shall perform sixteen (16) technical assistance visits to residents informing them of complimentary programs, perform housing assessments and provide planning assistance in regards to housing. Self Help Center staff will invite guest speakers to colonia meetings to provide technical assistance on a volunteer basis on topics of health awareness and home safety of residents of **Cienegas Terrace Subdivision**.

These activities shall benefit sixteen (16) households, of which sixty four (64) residents or one hundred percent (100%) are of low to moderate income.

■ *Technical Assistance* $300.00
Contractor shall perform three (3) technical assistance visits to residents informing them of complimentary programs, perform housing assessments and provide planning assistance in regards to housing. Self Help Center staff will invite guest speakers to colonia meetings to provide technical assistance on a volunteer basis on topics of health awareness and home safety of residents of **Villarreal Subdivision**.

These activities shall benefit three (3) households, of which twelve (12) residents or one hundred percent (100%) are of low to moderate income.

■ *Technical Assistance* $300.00
Contractor shall perform three (3) technical assistance visits to residents informing them of complimentary programs, perform housing assessments and provide planning assistance in regards to housing. Self Help Center staff will invite guest speakers to colonia meetings to provide technical assistance on a volunteer basis on topics of health awareness and home safety of residents of **Escondido Estates**.

These activities shall benefit three (3) households, of which sixteen (12) residents or one hundred percent (100%) are of low to moderate income.

■ *Colonia Meetings* $600.00
Contractor shall perform two (2) colonia resident meetings during the two year contract period in the colonia of **Val Verde Park Estates.**

These activities shall benefit eight hundred and sixty five (865) households, of which three thousand four hundred and sixty (3460) residents or one hundred percent (100%) are of low to moderate income.

■ *Colonia Meetings* $400.00
Contractor shall perform two (2) colonia resident meetings during the two year contract period in the colonia of **Cienegas Terrace Subdivision**.

These activities shall benefit five hundred and ten (510) households, of which two thousand and forty (2040) residents or one hundred percent (100%) are of low to moderate income.

■ *Colonia Meetings* $200.00
Contractor shall perform two (2) colonia resident meetings during the two year contract period in the colonia of **Villarreal Subdivision**.

This activity shall benefit twelve (12) households, of which forty eight (48) residents or one hundred percent (100%) are of low to moderate income.

■ *Tool Lending Library* $1,500.00
Contractor shall maintain one (1) tool lending library which shall be available to colonia residents. Residents will check out tools and equipment from the lending library approximately seventy five (75) times during the contract period. Tools and equipment will be made available under supervision, and/or through self-help home improvements, and construction instruction, to all targeted colonia residents in **Val Verde Park Estates**.

These activities shall benefit eight hundred and sixty five (865) households, of which three thousand four hundred and sixty (3460) residents or one hundred percent (100%) are of low to moderate income.

■ *Tool Lending Library* $1,200.00
Contractor shall maintain one (1) tool lending library which shall be available to colonia residents. Residents will check out tools and equipment from the lending library approximately sixty six (66) times during the contract period. Tools and equipment will be made available under supervision, and/or through self-help home improvements, and construction instruction, to all targeted colonia residents in **Cienegas Terrace Subdivision.**

These activities shall benefit five hundred and ten (510) households, of which two thousand and forty (2040) residents or one hundred percent (100%) are of low to moderate income.

■ *Tool Lending Library* $1,000.00
Contractor shall maintain one (1) tool lending library which shall be available to colonia residents. Residents will check out tools and equipment from the lending library

approximately nine (9) times during the contract period. Tools and equipment will be made available under supervision, and/or through self-help home improvements, and construction instruction, to all targeted colonia residents in **Villarreal Subdivision**.

This activity shall benefit twelve (12) households, of which forty eight (48) residents or one hundred percent (100%) are of low to moderate income.

■ ***<u>Construction Classes</u>*** $1,800.00
Contractor shall utilize available funds to provide not less than twelve (12) tool safety and construction classes (fall protection), material handling, first aid and CPR, etc., during the contract period, to participants of colonia residents in **Val Verde Park Estates**.

These activities shall benefit eight hundred and sixty five (865) households, of which three thousand four hundred and sixty (3460) residents or one hundred percent (100%) are of low to moderate income.

■ ***<u>Construction Classes</u>*** $1,600.00
Contractor shall utilize available funds to provide not less than twelve (12) tool safety and construction classes (fall protection), material handling, first aid and CPR, etc., during the contract period, to participants of colonia residents in **Cienegas Terrace Subdivision**.

These activities shall benefit five hundred and ten (510) households, of which two thousand and forty (2040) residents or one hundred percent (100%) are of low to moderate income.

■ ***<u>Construction Classes</u>*** $400.00
Contractor shall utilize available funds to provide not less than three (3) tool safety and construction classes (fall protection), material handling, first aid and CPR, etc., during the contract period, to participants of colonia residents in **Villarreal Subdivision.**

This activity shall benefit twelve (12) households, of which forty eight (48) residents or one hundred percent (100%) are of low to moderate income.

■ ***<u>Tutoring and Educational Programs</u>*** <u>$41,900.00</u>
Contractor will utilize program funds to contract or hire qualified instructors to conduct tutoring and educational programs and assistance in the preparation of income tax return claims / forms (VITA), to the residents and there families in the colonias of **Val Verde Park Estates, Cienegas Terrace, and Villarreal Subdivision.**

1.- 2 Teachers; 4 hrs @ day x 5 days = $ 34,400.00
2.- 1 IRS clerk; 8 hrs @ day x 5 days = $ 7,500.00

(Temporary from January – April)

This activity shall benefit one thousand three hundred and eighty seven (1387) households, of which five thousand five hundred and forty eight (5548) residents or one hundred percent (100%) are of low to moderate income. This activity will also benefit future families that will be moving into the new 42 Units (Farm Labor Housing) that will start construction within the next sixty (60) days.

- ***Colonia Beautification*** $ 9,000.00

Contractor will utilize nine thousand ($9,000.00) dollars for three (3) colonia beautification activities such as clean-up campaigns of lots, the removal of junk vehicles and trash pick-up for the colonia residents in **Val Verde Park Estates**.

These activities shall benefit eight hundred and sixty five (865) households of which three thousand four hundred and sixty (3460) residents or one hundred percent (100%) are of low to moderate income.

- ***Colonia Beautification*** $7,000.00

Contractor will utilize seven thousand ($7,000.00) dollars for two (2) colonia beautification activities such as clean-up campaigns of lots, the removal of junk vehicles and trash pick-up for the colonia residents in **Cienegas Terrace Subdivision**.

These activities shall benefit five hundred and ten (510) households, of which two thousand and forty (2040) residents or one hundred percent (100%) are of low to moderate income.

- ***Colonia Beautification*** $3,000.00

Contractor will utilize three thousand ($3,000.00) dollars for one (1) colonia beautification activities such as clean-up campaigns of lots, the removal of junk vehicles and trash pick-up for the colonia residents in **Villarreal Subdivision**.

These activities shall benefit twelve (12) households, of which forty eight (48) residents or one hundred percent (100%) are of low to moderate income.

(8) RELOCATION $ 2,000.00

- Relocation $ 2,000.00

Contractor shall assist ten (10) families in the targeted colonias with temporary housing when the rehabilitation require disconnection of utility services. This activity will be performed in the colonia's of **Val Verde Park Estates, Cienegas Terrace, and Villarreal Subdivision.**

These activities shall benefit ten (10) households, of which forty (40) residents or one hundred percent (100%) are of low to moderate income.

(9) RESIDENTIAL REHABILIATION **$ 425,000.00**

- **Home Rehabilitation** **$204,000.00**

Contractor shall assist twenty four (24) owner occupied housing units (residents) with new construction materials to perform home rehabilitation at a cost of up to eight thousand five hundred dollars ($8,500.00)-per unit. These repairs shall be performed as individual small repairs considered in need of immediate attention. This activity will be performed in the colonia of **Val Verde Park Estates.**

These activities shall benefit twenty four (24) households, of which ninety six (96) residents or one hundred percent (100%) are of low to moderate income.

- **Home Rehabilitation** **$187,000.00**

Contractor shall assist twenty two (22) owner occupied housing units (residents) with new construction materials to perform home rehabilitation at a cost of up to eight thousand five hundred dollars ($8,500.00) per unit. These repairs shall be performed as individual small repairs considered in need of immediate attention. This activity will be performed in the colonia of **Cienegas Terrace Subdivision.**

These activities shall benefit twenty two (22) households, of which eighty eight (88) residents or one hundred percent (100%) are of low to moderate income.

- **Home Rehabilitation** **$34,000.00**

Contractor shall assist four (4) owner occupied housing units (residents) with new construction materials to perform home rehabilitation at a cost of up to eight thousand five hundred dollars ($8,500.00) per unit. These repairs shall be performed as individual small repairs considered in need of immediate attention. This activity will be performed in the targeted colonia of **Villarreal Subdivision.**

These activities shall benefit four (4) households, of which sixteen (16) residents or one hundred percent (100%) are of low to moderate income.

(13) ADMINISTRATION, PLANNING AND MANAGEMENT **$ 212,500.00**

- **Self-Help Administration** **$180,396.00**

The Self-Help Center shall utilize up to one hundred eighty thousand three hundred ninety-six ($180,396.00) dollars to carry out the day-to-day operations for the self help center.

- **DRHA Administration** **$ 30,104.00**

The Housing Authority of the City of Del Rio shall utilize thirty thousand one hundred four ($30,104.00) dollars to administer the Colonia Self Help Center Program.

■ **<u>Proposal Research & Development</u>** **<u>$ 2,000.00</u>**
Val Verde County Self Help Center shall utilize two thousand ($2,000.00) dollars to prepare a minimum of two (2) applications in order to assist the targeted residents. The minimum sources which will be included are; 1) Contract for Deed Conversion Program (TDHCA), 2) Owner Occupied Housing Assistance Program (TDHCA), 3) Texas Bootstrap Loan Program (TDHCA), 4) Housing Rehabilitation, Meadows Foundation, and 5) Federal Home Lending Bank (FHLB).

<u>(17) HOMEOWNERSHIP ASSISTANCE</u> **<u>$ 90,000.00</u>**

■ ***<u>Down Payment Assistance/Closing Cost</u>*** <u>$50,000.00</u>
Contractor will utilize fifty thousand ($50,000.00) dollars for benefit of five (5) residential families that require down payment assistance. This will cover down payment assistance for the acquisition of new real estate that will benefit the colonia residents in **Val Verde Park Estates**.

These activities shall benefit five (5) households, of which twenty (20) residents or one hundred percent (100%) are of low to moderate income.

■ ***<u>Down Payment Assistance/Closing Cost</u>*** <u>$30,000.00</u>
Contractor will utilize thirty thousand ($30,000.00) dollars for benefit of three (3) residential families that require down payment assistance. This will cover down payment assistance for the acquisition of new real estate that will benefit the colonia residents in **Cienegas Terrace Subdivision**.

These activities shall benefit four (3) households, of which twelve (12)residents or one hundred percent (100%) are of low to moderate income.

■ ***<u>Down Payment Assistance/Closing Cost</u>*** <u>$10,000.00</u>
Contractor will utilize ten thousand ($10,000.00) dollars for benefit of one (1) residential family that require down payment assistance. This will cover down payment assistance for the acquisition of new real estate that will benefit the colonia residents in **Villarreal Subdivision.**

These activities shall benefit one (1) households, of which four (4) residents or one hundred percent (100%) are of low to moderate income.

OFFICE OF COLONIA INITIATIVES

BOARD ACTION REQUEST

August 30, 2006

Action Items

Presentation, Discussion and Possible Approval of a Memorandum of Understanding (MOU) between the Texas Department of Housing and Community Affairs and the Office of Rural Community Affairs (ORCA) regarding the management of Community Development Block Grant (CDBG) funds for the Colonia Self-Help Center Program (SHC).

Required Action

Request for Approval of MOU.

Background

The Texas Department of Housing and Community Affairs (TDHCA), Office of Colonia Initiatives (OCI), was created and charged with the responsibility of coordinating Department and legislative initiatives involving border issues and managing a portion of the Department's existing program targeted at Colonias.

In accordance with a note referenced in Section 487.351 of the Texas Government Code, as included in Section 2.15 of Acts 2001, 77th Legislative Chapter 1367, the purpose of this Memorandum is to transfer federal Community Development Block Grant (CDBG) funds from the Office of Rural Community Affairs (ORCA) to TDHCA for the administration, operation and program activities of TDHCA's colonia field offices and the colonia self-help centers pursuant to the provisions of Rider 5 to ORCA's appropriations and as authorized pursuant to Subchapter Z of Chapter 2306, Texas Government Code and Rider 14 to TDHCA's appropriation for the 2006-2007 biennium. The MOU gives TDHCA the responsibility for oversight of the Colonia SHC, while ORCA maintains monitoring responsibilities of the Colonia SHC contracts in coordination with TDHCA's Office of Colonia Initiatives (OCI) Division. The Department's OCI Division and three border field offices, which employ four Border Field Officers (BFO), provide administrative and general oversight to ensure programmatic and contract compliance are performed meeting legislative requirements and Board policy. OCI maintains a relationship with the Counties and Colonia SHC operator(s) to ensure that the housing and community development activities within each respective contract are achieved.

On August 7, 2006 ORCA's Executive Committee approved the enclosed MOU.

Recommendation

Approval of MOU.

MEMORANDUM OF UNDERSTANDING
BETWEEN
OFFICE OF RURAL COMMUNITY AFFAIRS
AND
TEXAS DEPARTMENT OF HOUSING AND COMMUNITY AFFAIRS

SECTION I. PARTIES

This Memorandum of Understanding, hereinafter referred to as "Memorandum," is made and entered into between the Office of Rural Community Affairs, hereinafter referred to as "OFFICE," an agency of the State of Texas, and the Texas Department of Housing and Community Affairs, hereinafter referred to as "TDHCA," an agency of the State of Texas.

SECTION II. PURPOSE

In accordance with a note to Section 487.351 of the Texas Government Code, the purpose of this Memorandum is to transfer federal Community Development Block Grant (CDBG) funds from the OFFICE to TDHCA for the administration, operation, and program activities of TDHCA's colonia field offices and the colonia self-help centers pursuant to the provisions of Rider 5 of the General Appropriations Act of the 79th Legislature, Regular Session, and authorized pursuant to Subchapter Z of Chapter 2306, Texas Government Code and Rider 14 to TDHCA's appropriation for the 2006-2007 biennium. In addition, TDHCA shall conduct a colonia residents needs assessment and prepare a biennial action plan to address those needs for TDHCA's appropriation for the 2006-2007 biennium.

SECTION III. PERIOD OF PERFORMANCE

This Memorandum shall begin on September 1, 2006 and shall terminate on August 31, 2007.

SECTION IV. TDHCA PERFORMANCE

TDHCA shall allocate the funds received under this Memorandum to each county in which a self-help center, designated in accordance with Section 2306.583, Texas Government Code, is located. TDHCA shall then ensure that each county receiving funds under this MOU enters into an agreement with a nonprofit organization for the operation of the self-help center within its jurisdiction. TDHCA oversight of the program administration shall ensure that all activities are carried out in accordance with the federal law and regulations at 42 USC Sec. 5301 et seq. and 24 CFR Part 570, Subpart I and the state law and rules at Chapter 2306, Subpart Z of the Texas Government Code and 10 T.A.C. § 255. In addition, TDHCA shall:

A. Recommend or approve any amendments proposed by TDHCA related to the funding of the colonia self-help centers in the Texas Community Development Block Grant Program allocation rules at 10 T.A.C. § 255.
B. Participate in public hearings to solicit comments regarding the funds provided under this contract and provide input as necessary.
C. Adhere to the certifications the OFFICE makes to HUD in order to receive CDBG funding.
D. Conduct a colonia needs assessment and prepare a biennial action plan.
E. Ensure that each activity included in a self-help center contract meets a national objective, and qualifies as an eligible activity as identified under the state CDBG regulations. Compliance with this requirement shall be clearly reflected in the Performance Statements and Budgets of all self-help center contracts.
F. Ensure that each activity in the contract's Performance Statement has a corresponding budget line item in the budget.
G. Work in coordination with the OFFICE staff to determine a reasonable amount of administrative costs that can be charged by each county for general and program administrative costs, and self-help operational costs.
H. Ensure that direct delivery costs, associated with the delivery of housing assistance including the preparation of work write-ups and required architectural or professional services that are directly attributable to a particular housing unit, be charged to the housing related construction budget line item under each self-help center contract.

SECTION V. OFFICE FUNDING OBLIGATIONS

A. Self-help center funding. Notwithstanding any other provision of this Memorandum, the total obligations incurred by the OFFICE shall not exceed 2.5% of the annual allocation of CDBG funds received by the State of Texas from the U.S. Department of Housing and Urban Development for state fiscal year 2007. The OFFICE shall transfer funds provided under this section to the appropriate local government upon receipt of requests for payment from TDHCA and receipt of funds from HUD. The OFFICE shall simultaneously notify TDHCA of the transfer to the local government. TDHCA shall obligate the funds provided under this Memorandum within twelve months after the date the funds were provided to TDHCA from the OFFICE.
B. Field office and staff and needs assessment/biennial action plan funding. In addition, the OFFICE shall transfer to TDHCA $7,042.16 each month for costs incurred for TDHCA's border field offices and Office of Colonia Initiatives staff and planning activities. The amount of this reimbursement will be adjusted on February 1, 2007 based upon the U.S. Department of Housing and Urban Development CDBG Program Year allocation to the OFFICE. TDHCA shall submit a budget that defines the use of CDBG funds for this purpose. It is understood and agreed that TDHCA shall continue to exercise oversight and supervision of the field offices and Office of Colonia Initiatives staff. Funds deobligated and any program income recovered from the funds provided under this contract shall be used by TDHCA for self-help centers in accordance with the Consolidated Plan.
C. The OFFICE shall be responsible for fulfilling the federal match requirement for the award of CDBG funds to the OFFICE.

D. All increases and reductions in the contract amount for the administration of the Colonias Self-Help Centers Program should be proportion to the amount of the grant award from the U.S. Department of Housing and Urban Development.

SECTION VI. MEASURE OF LIABILITY

A. TDHCA continues to assume responsibility and liability for outstanding issues relating to the funding and operation of the self-help centers prior to the execution of this Memorandum.

B. <u>TDHCA shall provide **oversight of activities** to ensure compliance with federal and state regulations. The OFFICE **shall monitor** the activities funded under this Memorandum and costs, if any, that are disallowed by TDHCA, the OFFICE or HUD may be deducted from existing and future allocations of CDBG funds to TDHCA in an amount agreed upon by the parties to this Memorandum**, to the extent allowed by law**.</u>

SECTION VII. REPORTING REQUIREMENTS AND RETENTION OF AND ACCESS TO RECORDS

A. TDHCA shall furnish to the OFFICE, and the OFFICE shall furnish to TDHCA, such reports on the operation and performance of work under this Memorandum as may be required by the OFFICE or TDHCA in order to respond to requests for information.

B. TDHCA shall retain all records relating to its responsibilities under this contract until its duties are completed and monitored by HUD or until the applicable retention period has expired, whichever is longer.

C. TDHCA shall give the OFFICE, HUD, the Auditor of the State of Texas, and any of their duly authorized representatives access to, and the right to examine, all records relating to this Memorandum for as long as such records are retained by TDHCA as specified in Subsection B of this section. TDHCA shall also provide the OFFICE a copy of any audits conducted on the programs and services covered by this agreement.

D. TDHCA shall maintain data for reporting purposes in an agreed upon format sufficient to complete the CDBG Annual Performance Evaluation Report (PER) and for the purposes of drawing funds under the IDIS system.

E. TDHCA shall submit updated narratives regarding the status of self-help centers and field office operations, including any changes in the location of field offices and TDHCA field office staff for the purposes of completing the CDBG Annual PER.

F. TDHCA shall maintain and submit to the OFFICE up-to-date accomplishments in quarterly reports identifying cumulative data including the colonias served, activities performed and total number of beneficiaries. Each contractor shall maintain data regarding all activities completed under the self-help center contract.

G. TDHCA shall report, in an agreed format, the administrative activities completed under the OFFICE/TDHCA MOU with each monthly invoice submitted for reimbursement.

H. TDHCA shall respond to the OFFICE in a timely manner regarding any HUD or other correspondence related to the self-help center fund, including any monitoring or audit reports.

I. TDCHA shall submit copies of self-help center contracts and amendments necessary to keep the OFFICE tracking systems updated and for the payment of draws.

SECTION VIII. AMENDMENTS AND CHANGES

Any alteration, addition or deletion to the terms of this Memorandum shall be by amendment hereto in writing and executed by both parties hereto except as may be expressly provided for in some other manner by the terms of this Memorandum.

SECTION IX. POLITICAL ACTIVITY

None of the activities or performances rendered hereunder by TDHCA shall involve and no portion of the funds received by TDHCA hereunder shall be used for any political activity, including but not limited to any activity to further the election or defeat of any candidate for public office, or any activity undertaken to influence the passage, defeat, or final contents of legislation.

SECTION X. SECTARIAN ACTIVITY

None of the activities or performances rendered hereunder by TDHCA shall involve and no portion of the funds received by TDHCA hereunder shall be used in support of any sectarian or religious activity.

SECTION XI. ORAL AND WRITTEN AGREEMENTS

All oral or written agreements between the parties hereto relating to the subject matter of this agreement that were made prior to the execution of this contract have been reduced to writing and are contained herein.

APPROVED AND ACCEPTED ON BEHALF OF THE TDHCA AND THE OFFICE EFFECTIVE THE 1ST DAY OF SEPTEMBER 2006.

AGREED AND EXECUTED BY:

OFFICE OF COLONIA INITIATIVES

BOARD ACTION REQUEST

August 30, 2006

Action Items

Presentation, Discussion and Possible Approval of Colonia Self-Help Center (SHC) Contract Extensions: Starr County, Maverick County and Cameron County.

Required Action

Approve or deny Colonia Self-Help Center Contract Extensions: Starr County, Maverick County and Cameron County.

Background

Colonia Self-Help Centers Program

The Texas Department of Housing and Community Affairs' (the Department) Colonia Self-Help Center (SHC) Program is designed to assist colonias residents by providing concentrated on-site technical assistance to low and very low-income individuals and families in a variety of ways including housing, community development activities, infrastructure improvements, outreach and education.

The SHC program was created in 1995 by the 74th Legislature Senate Bill 1509, Texas Government Code Subchapter Z §2306.581 – §2306.591. Operation of the colonia self-help centers are funded from the Office of Rural Community Affairs (ORCA) nonentitlement Community Development Block Grant (CDBG) fund 2.5% colonia set-aside, which is approximately $2.2 million per year. These funds are transferred to the Department from ORCA through a Memorandum of Understanding (MOU). CDBG funds can only be provided to eligible units of general local governments. The Tex. Gov. Code Ann §2306.582 requires the Department to establish colonia self-help centers in Cameron/Willacy, Hidalgo, Starr, Webb and El Paso counties. Additionally, the Department, if it determines it necessary and appropriate, may establish a Colonia SHC in any other county if the county is designated as an economically distressed area by the Texas Department Water Board. In 2001, two additional self-help centers were established in Val Verde County and Maverick County. The colonias identified under this program have approximately 10,000 colonia residents who qualify as beneficiaries of these services.

The goal of a SHC is to improve the living conditions of residents in the colonias in ways that go beyond the provision of basic infrastructure. The SHC provide key services and concentrated technical assistance in the areas of housing rehabilitation, new construction, surveying, platting, construction skills training, tool library access for self-help construction, housing finance, credit, debt counseling, grant writing, infrastructure installation and access, contract-for-deed conversions, and capital access for mortgages to improve the quality of life for colonia residents. Participants in the program must not earn more than eighty percent (80%) of the area median family income (AMFI). Additionally, the properties proposed for this initiative must be located in a colonia area as identified by the Texas Water Development Board colonia list or meet the Department's definition of a Colonia.

Cameron County Contract No.722003

Summary for Request: Cameron County (the County) is requesting a contract extension. The extension would allow the County's local nonprofit the Community Development Corporation of Brownsville (CDCB) to carry out the remaining activities in their performance statement such as lot refinance, home rehabilitation, inspections, surveys, house plans and home maintenances classes. Over the last year, the County has seen a dramatic increase in the number of families taking advantage of the new construction activities due to overcrowding conditions in the Colonias. CDCB will continue to leverage additional funds to build twenty five (25) additional new homes in the targeted Colonias. This additional activity will benefit approximately one hundred twelve (112) colonia residents.

The Colonia SHC contract was initially delayed after grant award, due to a Housing and Urban Development (HUD) monitoring finding in September 2003, the Department was required to provide adequate information to determine that activities being funded under the Colonia SHC under Section 105(a) of the Housing and Community Development Act of 1974, and how activities meet a national objective as required by section 104(b) (3) of the Act. In order to carry out with the requirement, the OCI created a new contract template based on the seventeen (17) eligible activities/categories and was applied to the Colonia SHC program. The County and CDCB had to revise and classify its performance statement and budget activities in order to provide complete and adequate information on the eligible activities and identify the national objective met by each activity as required by section 104(b)(3) of the Act in order to satisfy HUD's finding under the Colonia SHC program.

Contractor:	Cameron County
Contact:	The Honorable Gilberto Hinojosa
Address:	964 E. Harrison Street Brownsville, Texas 78520
Purpose of Contract:	Cameron County provides housing and community development to the following colonias: Villa Pancho, Valle Escondido, Alabama/Arkansas, Cameron Park, Olmito, Las Palmas, Arroyo Colorado Estates, Encantada, Las Sara, and Sebastian.

Contract Amount:	$1,146,950.00
*Amount Drawn:	$64,565.26
Type of Request:	Extension
Original Contract Period:	08/01/2003 to 08/01/2005
**Prior Requested Extended Period:	08/01/2006
Requested End Date:	07/31/2007

**The CDBG Expenditure Ratio is negatively affected by slow performing contracts; however contract extensions are not uncommon and are allowable so long as they are approved by the Department. The County and CDCB have been advised by the OCI that the County cannot apply for any future Colonia SHC program funds until the County and CDCB complete the project activities under the open contract.

CDCB has completed the following activities under the Colonia SHC contract.

Performance Activity	Performance Goal	Total Goal Complete	Percent of Goal Complete
Lot Refinance	11	7	64%
Canvassing	12,252	20,185	165%
Community Meetings	40	101	253%
Home Rehabilitation or Reconstruction	72	18	25%
Home New Construction	15	27	180%
Applications and Clearing Title	87	215	247%
Inspections/Surveys/House Plans	87	62	71%
Home Maintenance Classes	74	49	66%
Homeownership//credit/default/foreclosure counseling	172	380	221%

Note: The Department has not approved payment of draws of approximately seven hundred thousand ($700,000) dollars due to difference of opinions and interpretation of Federal Cost Principles for non-profit organizations-OMB Circular A-122. The OCI recently concluded that all requirements are being satisfied and anticipates being able to release payments upon verification of supporting documentation.

Recommendation

Approval to amend and extend the Self-Help Center (SHC) contract extension for Cameron County Contract No.722003.

In addition, by approval of this request, the County shall submit to the Department a monthly progress report, in a form prescribed by the Department. The report must specify all progress made towards meeting contract performance requirements by the end of the contract term. The monthly progress report must be completed and submitted at the end of each calendar month.

Starr County Contract No.723023

Summary for Request: Starr County (the County) is requesting a contract extension and budget modification. The County was successful in assisting families with the abandonment of the septic tanks and cesspools within the designated colonias. Five hundred and sixty two (562) homes were estimated to be assisted and only two hundred and eighty seven (287) were completed. When the sewer project started the County had not anticipated having any problems with the homes that were going to be assisted. Once the contractors started working, they encountered some homes which all had individual situations such as a concrete slab on top of the septic tanks/cesspools, which would be situate under a storage unit, driveway, carport or they were built under their homes. This made it difficult for the contractor to reach those septic tanks/cesspools without causing some damage to the home and in return causing a liability issue for the County and Contractor, therefore these homes were left out. In addition, some of the money, which was designated for the sewer project, was not used.

The County would like to utilize the remaining funds to finish the new construction of a Colonia SHC facility which was started at the middle of the contract period by placing asphalt at the SHC parking lot, place curb and gutter, sidewalk with handicap ramp, build and install counters for the computer room, and install an exhaust/vent in the kitchen area and add an additional activity (Colonia Beautification) to the contract. The Colonia beautification would allow the County to conduct clean up campaigns of occupied lots, removal of junk vehicles, trash pick-up collections, painting of residential homes, planting trees, and planting of grass to better serve the colonia residents.

Since the inception of the Colonia SHC program, the County has had to enter into a lease agreement with the facility owner. During negotiations with the facility owner, the County is at a significant disadvantage due to the reality that there does not exist another property in the targeted colonias with accommodations that would be suitable for a Colonia SHC program of current or future design. Consequently, the facility owner is in a position to dictate lease terms to the County for the SHC facility. The lease has increased approximately 100% per year. In order to control the lease increases every year, the County decided to build a new Colonia SHC facility.

Contractor:	Starr County
Contact:	The Honorable Eloy Vera
Address:	County Courthouse, Rm. 203 Rio Grande City, Texas 78582
Purpose of Contract:	The County of Starr provides housing and community development to the following colonias: West Alto Bonito, B&E, Santa Cruz, Rosita and Garceno.

Contract Amount:	$1,494,591.00
*Amount Drawn:	$613,012.56
Type of Request:	Extension
Original Contract Period:	02/18/2004 to 02/17/2006
Prior Requested Extended Period:	08/31/2006
Requested End Date:	02/17/2007

Starr County has completed the following activities under the Colonia SHC contract.

Performance Activity	Performance Goal	Total Goal Complete	Percent of Goal Complete
SHC facility	1		50%
Yard line & sewer	562	287	51%
Flood control channel	1	1	100%
Engineering/Architect	3	3	100%
Construction training	50	59	118%
Outreach/technical Assistance	140	673	48%
Tool library/checkouts	1/800	1/800	110%
Counseling	40	2	5%
Residential rehab	30	39	130%
Plumbing improvements	80	39	49%
New construction	4	2	50%

Note: Due to recent County management changes; the County has not submitted draws for payment. TDHCA is awaiting a draw request in the approximately amount of $486,000.00 from the County for our review and payment. To date the County has assisted approximately two thousand two hundred thirty nine (2,239) colonia residents.

Recommendation

Approval to amend and extend the Self-Help Center (SHC) contract extension and budget modification for Starr County Contract # 723023.

In addition, by approval of this request, the County shall submit to the Department a monthly progress report, in a form prescribed by the Department. The report must specify all progress made towards meeting contract performance requirements by the end of the contract term. The monthly progress report must be completed and submitted at the end of each calendar month.

Maverick County Contract No.723003

Summary for Request: Maverick County (the County) is requesting a contract extension and budget modification. The extension would allow the County to carry out the remaining housing rehabilitation and one (1) new construction to assist an elderly family in dire need. The County has finished the lot acquisition, title search, surveys, outreach and technical assistance, consumer education, tool library and maintenance, colonia beautification, and relocation activities. However, the County encountered numerous programmatic and compliance issues with its local nonprofit managing the SHC, the Colonia Community Organization (CCO). In order to resolve the situation, the County conducted several meetings/visits and correspondence with CCO, but was not able to reach an acceptable arrangement and was forced to terminated its subcontract with CCO.

The County is requesting to redirect their budget to activities which exceeded the budgeted amount as well as finish the new construction activity, residential rehabilitation activity, and residential relocation.

Contractor:	Maverick County
Contact:	The Honorable Jose A. Aranda, Jr.
Address:	500 Quarry Street Suite 13
	Eagle Pass, Texas 78853
Purpose of Contract:	The County of Maverick provides housing and community development to the following colonias: Loma Bonita I, Loma Bonita II, Las Brisas, Old Las Quintas and New Las Quintas.

Contract Amount:	$990,000.00
Amount Drawn:	$794,736.00
Type of Request:	Extension
Current Contract Period:	12/1/2003 to 12/1/2005
Prior Requested Extended Period:	12/1/2005
Requested End Date:	11/30/2006

Maverick County has completed the following activities under the Colonia SHC contract

Performance Activity	Performance Goal	Total Goal Complete	Percent of Goal Complete
Lot Acquisition	12	12	100%
Title Search	40	40	100%
Survey's	40	40	100%
Grant Proposal	3	3	100%
Outreach	1500	1500	100%
Tech Assistance	1500	1500	100%
Consumer Education	57	57	100%
Tool library	300	300	100%
Colonia Beautification	6	6	100%
Residential Rehab	35	30	86%
Residential Relocation	5	4	80%
New Construction	5	3	60%

Recommendation

Approval to amend and extend the Self-Help Center (SHC) contract extension for Maverick County Contract # 723003.

In addition, by approval of this request, the County shall submit to the Department a monthly progress report, in a form prescribed by the Department. The report must specify all progress made towards meeting contract performance requirements by the end of the contract term. The monthly progress report must be completed and submitted at the end of each calendar month.

RE: Support Information for Extension of TCDP Contract No. 722023 – Cameron and Willacy Counties Colonia Self-Help Center

Dear Mr. Cabello:

As you know, we requested a one-year extension for the above referenced TCDP contract on July 26, 2006. This letter is provided in support of that request, which is predicated on the extenuating circumstances outlined below. If additional information is needed, please advise.

- Self-help contract implementation was initially delayed after grant award, until OCI and our service provider, the Community Development Corporation of Brownsville (CDCB), were able to structure contract performance activities that satisfied HUD.

- CDCB does not use self-help funds for direct housing production, but rather leverages other funding sources for construction and this operational method, while successful in terms of housing yields, makes direct billing for self-help services difficult. Historically, CDCB had utilized indirect billing for services but had to change its accounting system to direct billing after housing activities were begun, leading to a delay in reimbursement of grant funds.

- Generally speaking, the self-help colonia target areas that CDCB works in are mostly fully developed, with few vacant properties. Lack of vacant properties hinders lot acquisitions which are used by CDCB to redevelop neighborhoods.

- As in other regions in the Country, CDCB indicates the cost of construction in Cameron County has increased by 15% in the last nine (9) months for housing materials. Increased costs affect housing affordability, which in turn affects CDCB's client pool.

- Presently, $100,000.00 in self-help funds are available that had been earmarked for lot refinancing. Since CDCB, was advised that lot refinancing was not an appropriate self-help activity, these funds can now be re-budgeted to provide other housing services.

If you have any questions or need more information, please contract Raul Garcia, CD Coordinator, at (956) 544-0828.

Sincerely,

Fran Byrm for

Gilberto Hinojosa

RE: Request for Extension of TCDP Contract No. 722023 – Cameron and Willacy Counties Colonia Self-Help Center

Dear Mr. Cabello:

As you know, TCDP Contract No. 722023 for our colonia self-help center is due to expire on August 1, 2006.

Due to the extenuating circumstances outlined in attached letter from our self-help provider, the Community Development Corporation of Brownsville, we have experienced difficulties completing all project activities and drawing funds on this contract. Therefore we respectfully request a twelve (12) month contract extension to July 31, 2007. This extension will permit us to complete all contracted activities and draw all corresponding funds.

If you have any questions or need more information, please contact Raul Garcia, CD Coordinator, at (956) 544-0828.

Sincerely,

Gilberto Hinojosa,
County Judge

Re: Cameron and Willacy Colonia Self help Centers
Request for Extension of Agreement

Judge Hinojosa,

The Community Development Corporation of Brownsville is requesting an extension to the current contract through August 31, 2007. As you are aware, CDCB works in eight (8) designated colonias in Cameron County, and two (2) designated colonias in Willacy County. CDCB has contracted with the County for the operation of the Self Help Center since inception.

CDCB requests this extension under the same Budget and Performance Statement currently being utilized. This extension request will have no fiscal impact on the County, as the funds are provided by the State of Texas.

We are seeking this extension to complete work remaining under the Performance statement, as well as to effectively utilize additional leverage funds that have become available to be used to benefit colonia residents.

As reported in our last Quarterly Report (June, 2006) CDCB has completed the following activities as they relate to the Self Help Center grant:

Performance Activity	Performance Goal	Total Goal Complete	Percent of Goal Complete
Lot Refinance	11	7	64%
Canvassing	12,252	20,185	165%

Home Rehabilitation or Reconstruction	72	18	25%
Home New Construction	15	27	180%
Applications and Clearing Title	87	215	247%
Inspections/Surveys/House Plans	87	62	71%
Home Maintenance Classes	74	49	66%
Homeownership/Credit/Default/Foreclosure Counseling	172	380	221%

CDCB does not utilize Self Help Center funds for actual housing construction. All interim construction and permanent financing is provided by other sources. To date, in the colonia areas, as a result of the SHC contract, CDCB has leveraged $2.4 million to build and mortgage finance the 45 homes already started and/or completed under this contract. Funds utilized include the following:

HUD RHED II	TDHCA HOME	HUD RHED III	HUD RHED IV	TDHCA Bootstrap	CDCB RLF	RGV Multibank	Total
$179,342	18,200	$22,670	$261,624	$300,000	$328,925	$1,355,442	2,466,203

As well, CDCB currently has over $610,000 of other public funds (other than Self Help Center Funds) and over $900,000 in private funds committed to these colonia areas:

TDHCA Bootstrap	CDCB Revolving Loan Fund	RGV Multibank	TOTAL
$360,000	$250,000	$900,000	$1,510,000

Additionally, CDCB has submitted two more grants totaling $700,000 for direct subsidies to families living in area colonias for 2006-2007:

HUD RHED '06	HAC - SHOP '06	TOTAL
$400,000	$300,000	$700,000

Over the last year, CDCB has seen a dramatic increase in the number of families taking advantage of the housing rehabilitation and new construction programs. Housing starts have increased 1.5 times over the last year as compared to the pervious year. To date CDCB has completed 37 new and rehabilitated homes; has eight (8) homes under construction and; has 10 colonia families who are being worked with by CDCB to correct credit, clear title and save for the downpayment on their future new or reconstructed home. CDCB is confidant that over the next year we will be able to complete another 20 to 30 homes for colonia residents with no additional funding.

In addition to work done directly in the designated colonias, as you are aware, CDCB has developed and completed the build out of a new subdivision directly continguous to the colonia of Cameron Park – one of the largest colonias in Texas. CDCB has constructed 143 new homes in the development, which has spurred other developments in the same area. These developments provide additional affordable housing opportunities for families seeking to relocate from colonia areas. New amenities, such as the lateral park area CDCB will be donating to the County along the Resaca area, will also allow additional "quality of life" improvement for Cameron Park residents.

Since CDCB has focused on leveraging funds, CDCB has yet to expend all of the budgeted Self Help Center funds. To date CDCB has expensed just under $800,000 of the total $1.1 million initially awarded. CDCB is requesting this exptension to complete new and reconstructed housing utilizing leveraged funds to assist 30 new families with new and rehabilitated homes. The Self Help Center funds are critical to providing funding for personnel who are critical implementing these efforts.

CDCB, therefore, respectfully requests a one year extension to August 31, 2007. We look forward to your continued support.

Sincerely yours:

Don Currie
Executive Director

RE: **Contract Extension for Project # 723023**
Contract Amendment # 4

Dear Mr. Cabello:

Starr County is formally requesting a Contract Amendment to current contract # 723023. Listed below are the necessary reasons.

Contract Extension- The County is requesting a six (6) months extension ending on February 17, 2007.

Reason for Extension:

(1) There was a change in the administration of the Self Help Center, therefore causing some delays in the transition.

(2) The County was successful in assisting families with the abandonment of the Septic tanks and Cesspools for La Casita / Garciasville, B&E, and Santa Cruz, which are within the designated colonias. Five hundred and sixty two (562) homes were estimated to be assisted and only Two hundred and eight seven (287) were completed. When the sewer project started the County had not anticipated having any problems with the homes that were going to be assisted. Once the contractors started working, they encountered some homes, which had their individual situations such as; a concrete slab on top of the septic tanks/cesspools, which would be situate under a storage unit, driveway, carport or they were built under their homes. This made it difficult for the contractor to reach those septic tanks/ cesspools without causing some damage to the home, which would have been a liability for the County and Contractor; therefore, these homes were left out. In addition, some of the money, which was designated for the sewer project, was not used.

Now the County if allowed would like to use those monies to be able to construct some items in the New Self Help Center that were removed due to the bids coming in too high. Listed below are items being requested. Estimated Cost : $ 55,000.00

- Place asphalt at the Self Help Center Parking lot
- Place curb & gutter, side walk with handicap ramp
- Build and install counters for the computer room
- Install an exhaust/ vent in the kitchen area

(3) The County is requesting to add an Activity to the current contract - *Colonia Beautification* This activity will allow the County Starr to assist the targeted colonias with colonia beautification program. This program will be utilized in all 5 targeted colonias (West Alto Bonito, Casita/ Garciasville, B&E, Santa Cruz, and Rosita/ Garceno).The beautification activities will include clean- up campaigns of occupied lots, the removal of junk vehicles, trash pick -up, painting of homes, planting trees, grass, and sidewalks. Estimated Cost: $ 130,911.43

This extension will allow contractor to enough time to complete additional work at the Self Help Center and complete the additional activity.

Reason for the Transfer:

(a) The County of Starr wishes to utilize all the funds available to improve the quality of life for all Colonia Residents and complete the Self Help Center / Facility to better serve the needs of all Colonia Residents.

(b) The transfer of $ 55,000.00 dollars from Yard lines & Sewer connections to the Self Help Center facility will allow the cost of construction fees and material.

(c) The transfer of $ 130,911.43 dollars from Yard lines & Sewer connections to Colonia Beautification will allow the County to conduct a beautification program for the designated colonias (West Alto Bonito, Casita/ Garciasville, B&E, Santa Cruz and Rosita / Garceno).

- **Note: The amounts mentioned are estimated totals.**
- **Enclosed attachments**: Contract Budget Modification Form, Exhibit A. Amended Performance Statement, Public Hearing, and Resolution.

If additional information is needed, please call Anna M. Villarreal at (956) 488-2395

RE: Contract Amendment No. 2
TCDP Contract No. 723003

Dear Mr. Cabello:

As you well know we are almost at the end of this contract – and we have been working on the budget modification to transfer funds from one activity to another. We have transferred all the remaining funds to #15a – New Construction and some to #8 – Relocation.

With the monies we are transferring to new construction, we are going to built an elderly couple (Mr. Ignacio Madera) a new home, which they are in great need. The remaining monies will be for relocation so we can pay Mr. Madera's rent.

The activities will extend till November 30, 2006 with the advertising period, awarding of the contract, the pre-construction meeting and etc. We also have to provide the contractor with 90 days to complete the construction and we still have pending Hector and Elizabeth Rodriguez's new home both activities will run into November.

Your consideration on this matter will be greatly appreciated, if you have any questions or should need additional information, please do not hesitate to contact my office at 830-773-3824 or our Planning Department 830-773-4377.

Respectfully Yours,

RE: Contract Amendment No. 3
TCDP Contract No. 723003 (OCI)

Dear Mr. Cabello:

We are submitting a contract amendment for the Maverick County Self Help Center in Loma Bonita Colonia – Contract No. 723003 – we made a list of all the pending expenses and we took funds from some activities and we added to others. But, the most important issue is we are constructing a new home for an elderly couple that have a great need.

Enclosed please find a revised performance statement, budget modification form and a contract amendment checklist.

We are almost at the end of this contract and we have provided assistance to so many residents in the three (3) selected Colonias. We have submitted a new application to the State, we hope we are funded to keep on providing the residents of our community with all the programs that the Self Help Center implements.

Your consideration on this matter will be greatly appreciated, if you have an questions, or should need additional information, please do not hesitate to contact my office at 830-773-3824 our Planning Department at 830-773-4377.

Sincerely,
MAVERICK COUNTY

Hon. Jose A. Aranda, Jr.

OFFICE OF COLONIA INITIATIVES

BOARD ACTION REQUEST

August 30, 2006

Action Items

Requests for amendments to Texas Bootstrap Loan Program contracts.

Required Action

Approve or deny the request for extensions.

Background

The Texas Bootstrap Loan Program was created in 1999 by the 76th Legislature Senate Bill 1287, which was encoded into Chapter 2306, Subchapter FF of the Texas Government Code, to make available each state fiscal year $3 million for mortgage loans to very low-income families (60% Area Median Family Income) not to exceed $30,000 per unit. Generally, this program is funded with Housing Trust Funds. This program is a self-help construction program, which is designed to provide very low-income families an opportunity to help themselves attain homeownership or repair their existing home through sweat equity. All participants under this program are required to provide at least 60 percent of labor that is necessary to construct or rehabilitate the home. All applicable building codes and housing standard are adhered to under this program. In addition, nonprofit organizations can combine these funds with other sources such as private lending institutions, local governments, or any other sources. However, all combined repayable loans can not exceed $60,000 per unit.

The Department is required under Section 2306.753 (d) of the Texas Government Code, to set aside at least two-thirds (2/3) of the available funds for owner-builders whose property is located in a county that is eligible to receive financial assistance under Subchapter K, Chapter 17, Water Code. The majority of the counties are located along the Texas-Mexico border region and East Texas. The remaining one-third (1/3) of the funding is available statewide.

The 2006 Housing Trust Fund Rules in the Texas Administrative Code, Title 10, Part 1 Chapter 51, Rule §51.8(d) states "The Department, acting by and through its Executive Director or his/her designee, may authorize, execute, and deliver modifications and/or amendments to any Housing Trust Fund development proposal or written agreement provided that" (2) "in the case of all other modifications or amendments, such modification or amendment does not, in the estimation of the Executive Director, significantly decrease the benefits to be received by the Department as a result of the award."

The nonprofit organizations periodically request amendments to modify contract terms or performance requirements specified in Section 13.1 of the Texas Bootstrap Loan Program Contract.

Contract extensions are the most commonly requested type of amendments. During the 2002 funding cycle, the Department had a difficult time in finding the appropriate partners to administer the Program. As a result the Department entered into contracts with organizations that had less extensive capacity and resources to administer the Program. Due to limited capacity and resources these organizations faced many obstacles and delays in implementing the Program.

La Gloria Development Corporation

Summary of Request

La Gloria Development Corporation located in El Cenizo, Webb County, Texas previously requested amendments to extend the contract end date as result of unforeseen delays in implementing the Program and identifying families. The contract start date was August 31, 2002; the first amendment was executed on July 16, 2004 extending the end date of the contract for four months, from August 31, 2004 to December 31, 2004. The second amendment was executed January 20, 2005 extending the end date of the contract for seven months, from December 31, 2004 to July 30, 2005; the third amendment was executed on September 26, 2005 extending the end date of the contract for eight months, from July 30, 2005 to March 31, 2006.

In addition to the delays in identifying and qualifying families for this Program, La Gloria Development Corporation has had to compete with other programs in the area that offer homeownership. La Gloria Development Corporation is requesting a fourth amendment to extend the end date of their contract from March 31, 2006 to August 31, 2006. They have assisted 11 families in building their own homes. Currently five homes have just been completed and 90% of all funds have been utilized and expended. **The extension is needed only to fund the final draw of 10% and administrative fees.** The final two units will be deobligated from this contract.

Amendment Number:	4
Activity Type:	Texas Bootstrap Loan Program
Contract Executor:	Oralia C. Reyes
Contract Contact:	Gabriela Sandoval
Contract Start Date:	August 31, 2002
Contract End Date:	March 31, 2006
Service Area:	El Cenizo, Webb County
Total Budget Amount:	$405,600
Total Units Awarded:	13

Requested Action

Approval of extension request.

Community Action Social Services and Education, Inc. (CASSE)

Summary of Request

CASSE located in Eagle Pass, Maverick County, Texas previously requested amendments to extend the contract end date as result of unforeseen delays in implementing the Program and identifying families. The contract start date was August 31, 2002; the first amendment was executed on July 19, 2004 extending the end date of the contract for four months, from August 31, 2004 to December 31, 2004. The second amendment extended the end date of the contract for 15 months, from December 31, 2004 to March 31, 2006.

In addition to the delays in identifying and qualifying families for this Program, CASSE has had to compete with other programs in the area that offer homeownership. CASSE is requesting a third amendment to extend the end date of their contract from March 31, 2006 to February 28, 2007. CASSE has assisted 6 families in building their own homes. Currently two families have been deemed eligible and are awaiting final approval to begin improvement on their homes. In addition to an extension request CASSE is requesting to reduce the number of units awarded from nine to eight; due to rising cost of materials the award amount would remain the same to assist the final two families that have been selected.

Amendment Number:	3
Activity Type:	Texas Bootstrap Loan Program
Contract Executor:	Bobby Rankin
Contract Contact:	Bobby Rankin
Contract Start Date:	August 31, 2002
Contract End Date:	March 31, 2006
Service Area:	Eagle Pass, Maverick County
Total Budget Amount:	$142,594.00
Total Units Awarded:	9

Requested Action

Approval of extension request.

In addition, by execution of this Amendment, Community Action Social Services and Education, Inc. agrees to provide the Department with a Monthly Contract Progress Report, in a form prescribed by the Department. The report must specify all progress made towards meeting contract performance requirements by the end of the contract term. The Monthly Contract Progress Report must be completed and submitted by the 10th day of each month until the end of the contract term.

Community Development Corporation Brownsville (CDCB)

Summary of Request

CDCB located in Brownsville, Cameron County, Texas previously requested an amendment to extend the contract end date as result of unforeseen delays in implementing the Program and identifying families. The contract start date was July 30, 2003; the first amendment was executed on June 15, 2005 extending the end date of the contract for 13 months, from July 30, 2005 to August 30, 2006.

CDCB is leveraging funds from other government entities that required them to complete an environmental study on both subdivisions which were utilizing Texas Bootstrap Loan Program funds. This caused a lengthy delay in the implementation of this contract. In addition to the delays due to the environmental clearance, CDCB lost several of their applicants during this process to other programs in the area that offered loans for homeownership. CDCB has identified an additional six applicants in case any of the other families withdraw from the program.

CDCB is requesting a second amendment to extend the end date of their contract from August 30, 2006 to July 31, 2007. CDCB has qualified 28 of the 32 families to participate in the program and currently has completed 12 homes and have an additional 10 under construction. The final four units will be deobligated from this contract.

Amendment Number:	2
Activity Type:	Texas Bootstrap Loan Program
Contract Executor:	Don Currie
Contract Contact:	Nick Mitchell-Bennett
Contract Start Date:	July 30, 2003
Contract End Date:	August 30, 2006
Service Area:	Cameron County
Total Budget Amount:	$998,400
Total Units Awarded:	32

Requested Action

Approval of extension request.

In addition, by execution of this Amendment, Community Development Corporation Brownsville agrees to provide the Department with a Monthly Contract Progress Report, in a form prescribed by the Department. The report must specify all progress made towards meeting contract performance requirements by the end of the contract term. The Monthly Contract Progress Report must be completed and submitted by the 10th day of each month until the end of the contract term.

Re: Texas Bootstrap Loan Program Contract No. 2002-02.

REQUEST FOR AMENDMEN

At present La Gloria is requesting an extension of the current grant period and the Construction Loan Agreement until June30, 2006. La Gloria began construction on 2nd group of 5 houses in November 2005 and was done

Sandra Guerra-423 Cadena; Construction is 90% completed.
Maria A Gonez-3519 Solis; Construction is 90% completed.
Meradys Del Alva-503 Rosales; Construction is 80% completed.
Christina Flores-3501 Lopez; Construction is 90% completed.
Maria del Carmen Ortiz-3513 Tays; Construction is 80% completed. (Ortiz family lives in dwelling next door to new construction and is scheduled to be torn down upon completion of new construction.)

The extension is needed to complete the work, do the final survey and the closing documents.

Thank you for your assistance in this matter.

Gabriela Sandoval
Executive Director.

To :

Texas Department Of Housing and Community Affairs
Attention : Raul Martinez

Reference : Bootstrap Contract # 852203

CASSE, Inc. , has encountered difficulty in fulfilling the contract as projected to meet the target of 8 families assisted. Currently we have completed 6 projects . We have 2 projects pending of which both have been qualified.

Project # 7:
- application approved
- survey done
- revised title commitment done
- builders risk insurance purchased
- revising scope of work to accommodate available funds

Project # 8
- application approved
- survey requested
- title commitment done
- scope of work done

CASSE first started off with the project late due to no one to run it , then encountered clients which would not qualify because of two buildings in one lot, back taxes due, clients with trailer, title problems, and one client passed away.

We would like to request that we be allowed an extension of time to be able to to fulfill the rest of this task. We are looking at December 31 , 2006 as the time needed. We would need some time to re-evaluate the scope of work orders, process the projects, and start construction to complete the projects.

We at CASSE thank you for the consideration of this request.

Re: Bootstrap Contract No. 853300

Homero,

CDCB is writing to request an extension of one (1) year from July, 2006 to July, 2007 to complete Bootstrap contract #853300.

Reasons for Extension
The retention of clients in the Bootstrap Program has been made difficult by the usage of Downpayment Assistance funds ($10,000 per client) coupled with 1% loan funds from the United States Department of Agriculture Rural Development 502 Direct Loans. When these two program are combined the overall cost is more beneficial to the clients. Clients are leaving the Bootstrap program to take advantage of this new loan product. The overall cost to the client is still more but not enough to justify working and building your home for 10 months. Because of this CDCB has been unable to keep clients in the Bootstrap Program.

As of June 30, 2006 and reported in our Quarterly Report CDCB has approved 28 of the 32 homes stated in our performance goals. However, we have lost four (4) of these clients because of the competing loan products.

Increase in construction costs over the last eight months as made it even more difficult for CDCB to approve clients earning below 60% of the AMFI and keep the loan amount at or below $60,000. Because of this increase two approved families where later eliminated from the program.

CDCB's Response
Redesign house plans - CDCB has redesigned it Bootstrap house plans to lower the cost of construction.

Utilize Self Help Opportunities Program (SHOP) grant funds - To make the self help housing program more attractive then a USDA/RD 502 loan with DAP funds CDCB has started to couple SHOP funds with the Bootstrap program to buy down the principal and reduce the overall mortgage amount, payment amount and cost.

RECEIVED

OFFICE OF COLONIA INITIATIVES

901 E. Levee
Brownsville Texas, 78520
(956) 541-4955 – P
(956) 541-4990 - F

Move the location of program - CDCB has increased the number of Bootstrap loans to rural and colonia areas. This allows CDCB to build on the clients lot thus reducing the loan amount and the overall cost.

CDCB instituted these responses in December, 2005. Since that time CDCB has approved 16 of the current 22 clients in the program. CDCB believes that with the one year extension we will be able to complete our contract.

Attached please find a revised Performance Timetable to be implemented if the extension is approved.

Your attention to this matter is appreciated.

Thank you,

Nick Mitchell-Bennett
Housing Programs Manager

Re: TDHCA Outreach Activities

The attached document highlights outreach activities on the part of TDHCA staff for July 2006. The information provided focuses primarily on activities Executive and staff has taken on voluntarily, as opposed to those mandated by the Legislature (i.e., tax credit hearings, TEFRA hearings, etc.). This list may not account for every activity undertaken by staff, as there may be a limited number of events not brought to my attention.

For brevity sake, the chart provides the name of the event, its location, the date of the event, division(s) participating in the event, and an explanation of what role staff played in the event. Should you wish to obtain additional details regarding these events, I will be happy to provide you with this information.

PORTFOLIO MANAGEMENT AND COMPLIANCE DIVISION

EXECUTIVE DIRECTOR'S REPORT ITEM
HOME PROGRAM AMENDMENTS
MONTHLY STATUS REPORT
August 30, 2006

Background

The TDHCA Board requested a monthly report to provide an updated status on previously approved HOME amendments.

Summary of HOME Amendment Process

HOME Administrators may request amendments to existing contracts; however, in order for a request to be considered, the Administrator must:

- submit justification, extenuating circumstances, or compelling reasons for the request; and
- submit a request that would still have resulted in an award of HOME funds if the original application had been submitted according to the requested changes; and
- be in compliance with monitoring and auditing requirements for all Department programs.

The 2006 HOME Rules in the Texas Administrative Code, Title 10, Part 1, Chapter 53, Rule §53.62(b)(3) states that modifications and/or amendments that increase the dollar amount by more than 25% of the original award or $50,000, whichever is greater; or significantly decrease the benefits to be received by the Department, in the estimation of the Executive Director, will be presented to the Board for approval.

PORTFOLIO MANAGEMENT AND COMPLIANCE DIVISION

EXECUTIVE DIRECTOR'S REPORT ITEM
SNAPSHOT OF HOME PROGRAM PERFORMANCE
AUGUST 30, 2006

Background

The TDHCA Board requested a report item on HUD's SNAPSHOT of HOME Program Performance.

State of Texas SNAPSHOT Performance

Texas is currently ranked 39 out of 51 overall. A ranking of 39 seems low; however, the SNAPSHOT does not take into account the amount of funding received by each of the states (see attached spreadsheet). In 2006, Texas received the second highest allocation (approximately $41 Million), second only to California (approximately $56 Million). The State of New York is third highest with an allocation of $35 Million. Six other states received allocations greater than $20 Million. The remaining forty two (42) states receive less than $20 Million each. Twenty three (23) states actually receive less than $10 Million.

All the states with the larger allocations tend to have lower rankings on the SNAPSHOT. Of the ten states with the highest allocation, the highest ranking was 30th (Illinois). The states with the smaller allocations tend to have the higher rankings. The top three ranked states received only $4.3 M or less.

When Texas is compared to the 5 comparable states that received the highest amount of funding, Texas ranks 2nd, higher than Ohio ($28 Million) and Pennsylvania ($26 Million) who receive 35% less funding. When Texas is compared to the 10 states receiving the greatest amount of funding, Texas actually ranks 5th, ranking higher than 4 other states receiving significantly less funding.

SNAPSHOT of HOME Program Performance

HUD's IDIS Reporting System provides several reports to track status on HOME Grants. These reports provide information on commitments and draws for the different fund types (i.e., Non-CHDO funds, CHDO funds, Administration and CHDO Operating).

HUD also publishes a "SNAPSHOT" to monitor the performance of HOME funds and the ranking of all states. As noted on HUD's website:

> *The HOME Program Performance "SNAPSHOTs" are cumulative performance reports, which can be useful in tracking the HOME program progress or participating jurisdictions and in keeping constituents more fully informed of activities undertaken with HOME funds. The performance SNAPSHOT is an important tool in helping to evaluate the performance of participating jurisdictions by providing a context for accomplishments.*

Several caveats should be kept in mind when reviewing the SNAPSHOT information: Numbers alone, no matter how reliable, cannot fully describe performance in this or any other program. Therefore, these performance SNAPSHOTs are not intended to be the final word on the success or quality of a local or State HOME program. For example, the performance SNAPSHOT will not capture the size or complexity of development projects undertaken by participating jurisdictions and no additional credit is given to PJs that undertake these more difficult projects. Neither will it capture whether the PJ is out of compliance with HOME program requirements as identified through independent audits or HUD monitoring visits.

SNAPSHOT of HOME Program Performance as of June 2006
Comparison of Overall Ranking and Allocation Amount

State	Scorecard Rank	HOME FY06	Funding Rank
California	41	$55,932,660	1
Texas	39	40,636,419	2
New York	33	35,595,215	3
Ohio	48	27,659,974	4
